Marked Decrease in the Number of British Ships Destroyed by German Underwater Craft.

London, Jan. 16.—Another marked decrease in the sinkings of British merchantmen by mine or submarine in the past week is noted in the report of the admiralty issued tonight. In this period only six merchantmen of 1600 tons or over were sunk, and in addition, two merchantmen under 1600 tons and two fishing vessels.

In the previous week the admiralty reported the loss by mine or submarine of 18 merchantmen of 1600 tons or over, three merchant-men under that tonnage and four fishing vessels. The report of January 2 gave the sinkings as 21, 18 being 1600 tons or over.

When questioned by Crown Prosecutor Greer, of Toronto, witness admitted that the accused had only carried out orders which he had issued. He claimed that siz out of every 3000 shells were plugged and that he had drawn the inspector's attention to the alleged plugging.

W. Headow, a machinist who worked in the same plant as Hanselman, said that in his opinion plugging of shells would not weaken them, while inspector Ingram claimed that too deep drilling and plugging of shells would weaken the base and an explosion might occur. It was also brought out that the alleged plugging was done in the shop in that section of the plant.

Steven Simons, who worked at the next machine to Hanselman, testified to seeing the accused on several occasions bore holes in shells, plug them with cold steel and throw them away back in the pile of shells near his machine.

Toronto to Ask Legislature for Power to Loan Money to the Harbor Board.

Only two items of legislation are being asked for by the City of Toronto from the Ontario Legislature at its next session. The first is to empower the city to invest \$1,000,000 in the bonds of the harbor board. The harbor commissioners have been unable to market any of their debentures, and to market any of their debentures, and have called on the city for assistance. The other private bill is to empower the city to issue debentures to cover the cost of arbitration proceedings, etc., in connection with the Teraulay street extension, which has been abandoned, for the time at least.

### For Acid Stomachs Use Magnesia

Quickly Stors Sour Burning Feeling and Makes Digestion Painless.

The almost universal use of magnesia by physicians and specialists in the treatment of stomach troubles, is due to the fact that it stops food fermentation and neutralizes the acid—the direct cause of nearly all stomach troubles. Of the many forms of magnesia such as oxides, citrates, carbonates, sulphates, etc., the most suitable and efficient, and the one prescribed by leading specialists is bissurated magnesia, a teaspoonful of which a portion of the cost," said his worship.

SCAVENGERS ASK INCREASE.

PATRIOTIC FUND GRANT.

The city council will hold a special meeting on Friday afternoon at 3.30 to decide how much the city will vote to the patriotic fund.

In a little warm water immediately after acid, step fermentation, and thus ensure painless normal digestion. Care should be taken to get bisurated magnesia, as its action is infinitely more effective. It is also, by the way, usually stocked by drugglests in convenient compressed tablets as well as in the ordinary powder form Stomach sufferers and dyspeptics who follow this plan and avoid the use of pepsin, charcoal, soda mints, druss and medicines are invariably astonished to find that the stomach, releved of the irritating acid and gas, soon regains its normal tone, and can do its work along without the cloubtful aid of artiflical dispersion.

NO REAL DEFICIT

Ald. Ball Shows Civic Car Lines Really Sound Financially.

Every speaker at last evening's meeting of the East Toronto Rate- of con payers' Association held at Snell's Hall, Main and Gerrard, vigorously sed the proposed increase in the civic railway car fares, among them eing Controller Robbins, Controller Aldermen Hiltz, F. M. Johnston, Richard Honeyford, Jos. Gibbons and Fred MacBrien. The meeting was quiet and orderly, and largely attended.

Alderman Ball in the course of his address presented an array of figures showing that, looked at from a proper standpoint of finance, there was really no such deficit from the civic car lines as alleged. If the people along the routes served by the civic lines would pay the sinking fund as well as maintenance charges, interest and other charges, they would at the maturity of the debentures actually be presenting the balance of the city with the railway practically free of cost. It must not be forgotten, said the alderman, that the increased assessment levied because of the railways themselves made a handsome return to the treasury which it could not have received otherwise. Ald Johnston, the newly-elected representative for Ward One, did not believe that the finance commissioner's recommendation for an increase in the civic car fares would ever get beyond the board of control. Mr. Johnston had made no election promises, but he would make a promise now to the effect that the civic car fare to the citizens of Toronto would not be raised by any vote of his. ### **VETERANS APPEAL** TO BUSINESSMEN

Letter Sent Out Gives Thanks for Past Generous Donations.

The following is a copy of the letter which is being sent out by the Great War Veterans' Association to the business men of the community in regard to the appeal that is being made for \$3,-000,000 for the patriotic fund and the Red Cross:

Mr. Business Man: At the initiation of the coming campaign to raise \$3,000,000 for the patriotic fund and the Red Cross fund we, the members of the Great War Veterans' Association, comprising the returned soldiers, wish first to thank you for your great liberality in the past, which has

enabled the patriotic fund committee to pay to the soldiers' dependents a fair addition to the money supplied by the government. Your generosity relieved the minds of the men overseas of all anxiety regarding the financial conditions of the dependents left behind.

Again it is necessary to appeal to the public of Toronto to open their hearts and to give liberally of their money to continue the good work done in the past. We feel sure that the men who are today fighting the battle for liberty in Europe that enables you to carry on your everyday occupation can leave the burden of responsibility to their homes and leved ones in your care.

Thirty-five thousand of our comrades have died for the country and your cause.

Three hundred thousand more are fighting and suffering. What can you do to uppeld your trust of caring for their de-

LECTURE ON THE WAR.

Dr. Ritchie of the Nottingham In-Dr. Ritchie of the Nottingham Institute, England, gave a lecture last night in the Western Congregational Church on "Windows on the Battle-tront." He has spent several months a france and his address was most interesting. He spoke of the issues that were at stake, and said the fight must continue until victory was achieved. Dr. Ritchie expects to spend the next few months lecturing in the United States on the war.

**GUELPH ASKS CHANGE** Peterboro Would Like to Try Out

Already 15 private rills are slated to come before the legislature at its next session which opens February 5, and two of these indicate that in two sections of the province a new form of municipal government is popular.

Recommendation to Double Number in Toronto District

Goes to Ottawa.

An application will be made by the City of Guelph for an act to authorize a change in civic government so that for 1919 and thereafter 18 aldermen would be elected, six for three years, six for two years and six for

years, six for two years and six for one year. There would be an election of six aldermen each year following. One of the 18, by a majority vote, would be chosen mayor.

The six who would stay three years would be the six highest at the polls and so on. By the act various boards of commissioners, such as water, heat, parks management and directors of the Guelph Radial Rallway would be dissolved and full authority would be vested in the new commission under part three of the Public Utilities Act.

Peterboro applies for similar legislation empowering the municipality to choose a commission form of government, and further asks for confirmation of a bylaw to authorize the borrowing of \$280.000 for a high level bridge over the Otonabee River, and also the building of a bridge over bridge over the Otonaree River, and also the building of a bridge over the same river near Hazlett street.

CITY BEGINS ACTION. Preliminary Steps to Recover Eighty Thousand Dollars From Railway.

At Oggoode Hall yesterday the city took the ireliminary steps in taking out an execution for \$80,000 against the Toronto Railway Company towards realizing on the amount owed by the company as its share of the cost of the Queen street bridge ever the Don River, and over the tracks of the C. P. R., G. T. R. and C. N. R. Some time ago the Dominion Railway Commission made an order fixing the proportion of the cost which each of the parties should bear, and by this profer the C. P. R. was ordered to pay the city \$115,000; the G. T. K. \$30,000, and the C. N. R. \$135,000. The bridge also carries the tracks of the Toronto Railway Company over the Don, and that company was required to pay

Much sympathy is expressed in the Earlscourt district with the widow and children of the late Thomas Nicholson, 39 Peterborough avenue, who died from injuries received by being struck by a snow plough and exposure near Uxbridge on Saturday last, and whose remains are being conveyed to his home today.

Mr. Nicholson, who was employed by a firm of box manufacturers on Geary avenue, Toronto, was returning from Uxbridge on Saturday last when the train became snowbound. The deceased started to walk along the track when, it is thought, he was overtaken by a snow hough, which smashed his two legs. He lay in the snow from Saturday until Monday, when his dead body was found.

Mrs. Nicholson is a helpless invalid and has two children, an infant 15 months old and a boy aged four years. The family are members of Central Methodist Church and Rev. Peter Bryce, pastor, is looking after the afflicted people.

CHURCH ANNUAL MEETING.

At the annual meeting of the last night, there was a good attendance of the members. The reports from the various departments were very gratifying, showing a healthy condition, steady growth and progressive spirit. The total amount raised during the year was \$8848.25, of which \$2585.49 was devoted to missionary enterprises. The question of the change of name of the congregation was discussed, but left over for decision. The management board was increased by three, making a total of fifteen. Many eulogistic remarks gave evidence of the strong place occupied by the minister, Rev. W. G. Back, in the hearts of the congregation and community.

A very enjoyable time was spent last night with the Ladies' Aid of Hope Methodist Church, East Toronto, when the members in blue and white uniforms presented an entertainment of an unusual character, styling themselves the "Symphony Kitchen Band of Hope Methodist Church," and living up to their reputation by producing music which apparently came from kitchen utensils, but really/emanated from kazoos.

The Gold Dust Twins had their representatives in Jack and Teddy Watson, while Mrs. Liddell and Mrs. Strudwick gave a bagpipe duet. The Misses Cox and Bell, representing Madame Old Dutch Cleanser, sang a duet.

Mrs. Harper sang, and Miss Huston was the elocutionist of the evening.

Mrs. Quarrington, as leader of the band, was presented with a beautiful Boston fern, and Mrs. Linden was the recipient of a handsome cut-glass vase. There was a large and appreciative audience.

The arrests followed a month's investigation by the detective agency. less than the velocity of the wind.

There are also to be figured upon, a number of changes to be made in battle-planes before they become suited to long-distance flying.

For instance, it is not necessary to have a 250 horse-power engine that can climb to 20,000 feet in less than half an hour, can fly at 140 miles an hour and can endure 250 miles per hour in a dive.

And then it will not be necessary to curtail much needed petrol tank space with contrivances to carry a ton and a half of explosives and machine guns timed to fire between the blades of the propeller.

### TO MAINTAIN HOLD ON RUSS TERRITORY

Germans Appear Determined Not to Relinquish Lands Now Occupied.

London, Jan. 16 .- There was no definite word either from Berlin or Petrograd today throwing new light on the crisis in Berlin as affecting the Brest-Litovsk peace negotiations, and the statement of Baron von dem Bussche-Haddenhausen, under-secretary for foreign affairs, that no fresh instructions have been sent to the German secretary for foreign affairs, Dr. Richard von Kuehlmann, would seem to indicate that there is no intention of receding from the German attitude of refusing to evacuate any

territory occupied in Russia. Some of the German papers announce that negotiations have been resumed at Brest-Litovsk, but there is nothing to confirm this statement. There appears to have been no truth in the rumor that the imperial German chancellor, Count von Hertling, was ill. The chancellor is in his usual health, and it is understood will address the reichstag on Friday, which is the day the constituent assembly is

slated to meet at Petrograd. The meeting of the constituent as-sembly may have an unlooked-for ef-fect upon Russian affairs and the Brest-Litovsk peace negotiations. It is regarded as not impossible that Leon Trotzky, the Bolshevik foreign minister, may not appear again as head of the Russian delegation Brest-Littovsk. In any case the negotiations are expected to mark time pending the outcome of the meeting of the constituent assembly.

In Nine Months Only Four British Vessels Damaged by U-Boats Could Be Salved.

London, Jan. 16 .- Of all the British vessels damaged by enemy action between January and October, 1916, it has been possible to salve four only, according to a statement made by Thomas J. MacNamara, financial secretary of the admiralty, in the house of commons today. Of the remainder repairs to more than half have been

actually completed.

He explained that the vessels re ported weekly as unsuccessfully at-tacked were not damaged. The vessels damaged by attack are not included in the weekly returns until they become total losses.

### **ONE GOAL VICTORY** FOR BLUE SHIRTS

Defeat Ottawa in Ragged Game at the Arena-Off Color.

Charlie Querrie's Toronto pros. got ight back in the hunt for the N. H. L. y downing Cttawa 5 to 4 at the Arena ist night, but did not play to the form isplayed against Canadiens. The Senators were without Gerard and Nighbor, and only had six players in uniform, erard is sick and Nighbor was inocutated vesterday.

displayed against Canadiens. The Seinstors were without Gerard and Nighbor, and only had six players in uniform Gerard is sick and Nighbor was inoculated yesterday.

The Toronto forwards failed to check in their usual style and were rather off color at the puck-carrying stunt. Noble was only good in spots and Dennenay and Skinmer had nearly all the back-checking to do. Cameron spent two short sessions on the ice and could never get under wey. Big Mummery and Randall played a strong defensive game and Holmes gave his usual good article.

\*\*Lowery\*, a spare rarely used in other games, was on the ice practically all the time for the visitors, and was not checked hard enough to keep him from being dangerous. Dave Ritchie, the former Quebec player, was the bright shining light for Ottawa. He was a strong rusher and played well on the defensive, ponedict is a great circus performer. The new, N. H. L. rule that allows a goaler to stop the puck with his teeth or any old fining was drafted for Benedict's special benefit. The Ottawa goaler will not need any sleep for the rest of the week. He lay down on the ice on every occasion, would greb the puck, put it under his pads and sit contented until the referee was forced to blow the whistle. It was rather a tame game for the fans. Those brilliant rushes and three-man combinations of former games were missing. Something was lacking all thru the game as far as the locals were concerned. The pep must have been left in Ottawa on Monday night. At that Benedict had a barrel of luck on many shots. The Torontos had many more chances than their opponents.

Without Gerard the Ottawa forward line was not much. Cy Dennemay was the best performer. He packed a hard shot and checked well. Boucher was an improvement over former games, but that lets him out. Lowery worked hard, but has not the class. Rusty Crawford was injured twice when he went into the boards, the last time bard enough to keep him out of the fray for the rest of the might.

Ingersoll, Ont., Jan. 16.—A double-header was played here tonight between the senior and junior leagues of the Ingersoli and Woodstock Collegiate Insti-tutes in the opening games of the Ox-ford -County Interscholastic Hockey Leagues. Woodstock seniors won by a score of 8 to 4 and the junior game ended, after fifteen minutes' overtime, without either team scoring. The senior game was fast, with the visitors having the advantage in weight. They scored six goals to Ingersoll's two in the first period. On the form displayed in the last fifteen minutes, Ingersoll juniors deserved to win. The teams:

### West Toronto Took the Shield And the Albions Won the Cup

Accurate Review in Rhyme of Past Season's Cricket in Toronto by George Jones, Poet Laureate of the Game.

As Mr. Geo. C. Jones, the poet laureate of the Church and Mercantile Cricket League, has not indulged in that poetic license, which, tho the sole right of rhymers, often plays sad havoc with truth, but has confined himself strictly to facts in his summary of C. and M. cricket in 1917, the following lines graphically recited by their author at the meeting last night of the cricketers' association made a decided hit, and will be interesting to all followers of the game in Toronto:

The uncertainty of cricket once again we have seen, And a season of surprises surely this one has been. Four clubs in each section, the East and the West, With the Eastmure Trophy for the final test. Old Country won it twice, and with a little luck Hoped to win again and carry off the Cup. But fortune was fickle in the very first game, Tho' Barnes of St. Edmunds was really to blame. 'Twas at Rosedale St. Edmunds and Old Country met, And the Saints don't think they've got over it yet, St. Edmunds batted first and only scored thirty-six, For McKinnon was up to his usual tricks. The uncertainty of cricket once again we have seen, For McKinnon was up to his usual tricks. Old Country then made a very poor start, For Barnes bowled well and the fielding was smart. Five down for eleven, all caught out.

The excitement great, the result in doubt, Forestal played like a hero and scored twenty-one. But another catch at point and Old Country were done, For the rest of the players only scored four, And twenty-six was the total score. As Mr. Geggie would say: "For guid Presbyterians ye'll ken it's no' nice When the Anglican Kirk team beat ye twice." Then Dovercourt and Old Country met this year, And most of the players went up in the air. A few things happened to make them sore, And they went up higher than the flying corps. Old Country played well, and soon you'd note The champions seemed to have Dovercourts' goat.

The umpire got excited and pulled up the sticks, And things were now in an awful fix. The players on both sides were getting quite warm, When to their relief there came on a storm. Then Dovercourt hied to High Park once again,
This time to play West Toronto a game.
West Toronto batted first and made runs in galore,
One hundred and twenty I think was the score.
Defermined to win Dovercourt batted well, And how it would end no one could tell. When the hundred was reached there went up a shout, But when two runs short the last man was out.
West Toronto had to struggle to win out in the West,
But there seemed to be no question in the East who were best.
For Broadview and Woodgreen couldn't get men to play,
While with the Albions it was quite the other way.

So that in the East it was not a close race, And the Albions had no trouble landing in first place. The St. Cyprians in one game gave them a fright, And altho they lost by two they put up a gallant fight.
So the Albions and West Toronto had to play for Cup and Shield,
And the final took place on the Dovercourt field. The Albions were said to be a strong batting tess But they didn't look like it when facing Billy The batsmen were in trouble, for the bowling was fine.

And Holliday of Albions was the only one to shine.

West Toronto were no better and soon their wickets fell, For Yaxley showed the Westerners he could bowl as well. The batting in the final was not up to the mark, And the scores were the lowest made all season on the park.

The bowling on both sides was as good as we've seen,

But West Toronto were beaten when they run out Billy Green.

So the Albions won the Cup and West Toronto took the Shield, And we congratulate the winners on the cricket field. The league games this year most enjoyable have been, Twas a season to remember was 1917. Now for the game, the greatest game of all Played by the lads who have answered Britain's call. They laid aside the bat and took up the gun, To answer the challenge hurled by the Hun. Some have been wounded and some found a grave, Fighting our liberty and freedem to save. Gallant sons of our motherland, our bravest and best, They all "played cricket" when put to the test.

### PRESTON ARE EASY

Special to The Toronto World,
Hamilton, Ont., Jan. 16.—Hamilton defeated Preston here tonight in a senior O.H.A. fixture by the overwhelming score of 14 to 6. The game, which was worth watching in the first two periods, got rather tame during the last round, owing to the local boys taking things easy and permitting the visitors to score, when hard checking would have kept the puck out of their net.

Jimmy Freeman, who made his first appearance with the locals, showed that he is a real hockey player, and, while addly in want of hard training, managed to bulge the nets twice with two wicked shots.

Thruout the entire game the Hamilton sextet had things in hand when they wanted to extend themselves, the the visitors scored the first goal when Thompson hit the nets about four minutes after play Play after that was with the locals, and they shot hard and fast. In the second period they also outplayed the visitors, but in the last period Preston let out, and for a time skated rings around the locals.

Freeman, Parker and Reise were the best performers for the locals, while, for the visitors, Thompson and Schaegel starred.

starred.

In the first period the locals scored four, against the visitors' two. In the second period Preston only got past Mc. Phali once, while Hamilton scored six times. The third was loosely played by the locals, and the visitors took advantage of it by letting out a burst of speed, and scored three, against the locals' four. Schlaegel and Ruppel scored two each and Thompson and Bowman one apiece. Boyd hit the nets four times, Parker four, Reise twice, Freeman twice, Murray twice. The teams:

Hamilton (14)—Goal, McPhali; defence, Parker, Reise; centre, Freeman; wings, Murray, Boyd; spare, Bishop.

Preston (6)—Goal, Shortt; defence, I. Bowne, Schlaegel; centre, A. Bowne; wings, Thompson. Ruppel; spare, Schrum, Referee—Bobby Hawitson, Toronter.

### CHAMPION LEWIS WILL BE HERE ON SUNDAY

Ted Lewis, the world's champion welterweight, who meets Soldier Bartfield, the rood New Yorker, at the Sportsmen's Patriotic Association show at Massey Hall next Wednesdey night, will arrive in Toronto on Sunday. Lewis will finish off his training here at one of the local clubs and will be in great shape for this important ten-round bout. A knockout would give Bartfield the welter crown and he can be counted on to put every effort forward to land a sleep-producer on the good Britisher.

Great interest has been aroused over the matching of Scotty Lisner and Harry Westerby for six rounds. Westerby was king of the featherweights a few short years ago and had everybody fighting shy of his powerful right, and Harry still thinks that he packs it. It should be a rousing bout, as Lisner has been showing real ability in his late bouts. Frank Bull and Jones, of the R. F. C., will also go six rounds. Col. Barker's battalion at Exhibition Camp will get the proceeds.

PLAYGROUND ATHLETICS.

Two good games were played at the transportation building gymnasium, Exhibition Camp, last night, when the Dentals and 1st Depot Battalion, 1st C.O.R., teams were victors over the 70th Battery and the Headquarters team.

The Dental Corps had little trouble with the Battery, defeating them by 1st to 7. The Battery team is a newcomer into the league, and will strengthen up shortly and give any of them a good battle. Palmer pitched a good game for the Dents.

The C.O.R. team and Headquarters had a great battle, the C.O.R. coming out on top by 9 to 6. Grinnell pitched splendid ball for the winners. Gedge was fairly successful until the fifth, when the C.O.R. because the pitching in the next innings and had no trouble.

Tomorrow the four sections of the Millitary Hockey League will play two groups in the Exhibition Camp and two among the outside units.

On Friday night a big boxing tournament among the members of the C.E.F. will be staged in the transportation building, and Captain Lou Scholes expects a big hight's sport.

Statistician Irwin M. Howe delves into his records of the past season and informs the baseball world that George Sisler was the American League batter to make the longest run of consecutive "hit" games in 1917. George ran 26 games in a row. during which he made one or more blows. This stretch of swatting carried from August 11 to September 5. But George also had an earlier run of 21 games, starting this lesser jamboree June 30, and having finished it, by Carl Mays of Boston, July 18.

This same pitcher, Mays of Boston, deserves a medal or some other token of honor from Ty Cobb, for if it hadn't been for him Sisler might have continued his batting spree and at least equaled Cobb's season's record of 35 games. For right after being dropped without a blow, George began wielding his bat with deadly ferocity again, and ran up 13 more games before being held without a hit after the game of August 2.

So Mays at least stopped Sisler from a run of 35 games. If George had only made that hit—it seems that that little two-lettered word had a great deal to do with Sisler.

But for that "if" the versatile Brownie might have hung up the unheard-of 68 consecutive contests in which he gleaned one or more swats. "If" he had made three little hits, one on July 18, another August 6 and another August 11, George new would be hailed as the willow wield-

pions More Than Three

Delving into the dope of the past season some interesting sidelights on pitching are discovered. For instance there is the freak record compiled by Mule Wattson of the St. Louis Cardinals, who country the Cincinnati Reds, and that of Jim Yugghan of the Cubis, who beat the Brooklyn Dodgers six out of seven tries and trailed the Pirates in the dust six times. Bach club it seems had its stumbling block except perhaps the champion (Annts in the National League, No pitchier er registered more than three victories of the McGrawites in 1916, was beaten four times by the new champions last season, eight men having a record of this kind. The eight were artie Nehf of Boston, Rube Marquard and Larry Chency of Brooklyn, Phill Douglas of Chicago and Jimmy Lavender of Philadelphia.

The Pirate gave the Giants four runs in three wins, the Phillies gave them four, the Cubs gave them six and the Reds gave them seven.

Cooper's teammates supplied him with seven counters, 18 were made behind Lavender and behind Toney and 23 behind Vaughn. So it looks from these figures as if Cooper more than anyone else was the Giants' Mordecal Brown of 1917. Pitchers who conquered the Polo Grounds team twice were Rudolph of Boston, Coombs of Brooklyn, Douglas of Chicago, Regan, Schneider and Mitchell of Cincinnati, Alexander and Rixéy of Philadelphia and Goodwin of St. Louis, Moundsmen who subdued them once were Barnes and Tyler of Boston, Pfeffer of Brooklyn, Demaree and Hendrix of Chicago, Ruether and Eller of Cincinnati, Oeschger of Philadelphia, Miller, Ponder and Carlson of Pittsburg and Doak, Meadows and Packard of St. Louis, In their 56 reverses the Giants made 118 runs.

In their 98 successes the New Yorks rang the scoring gong on 505 occasions, winning more games from Willie Doak than from anyone else, Lucky for Bill there was only one New York team in the National League, else he would not have captured the \$500 bonus contingent on his winning 15 games.

condition are ozena, meaning a stench, tho in a well treated case there is not always an offensive odor, and an offensive odor may accompany syphilis of the nasal cavity, bone disease, or foreign body in the nose; dry catarrh is probably the most common name for it.

The cause of atrophic rhinitis is unknown, Probably it is the late result of long neglected disease of the nasal cavity or of one of the air-spaces or sinuses which communicate with the cavity, particularly chronic suppuration of any of these sinuses.

The patient's sense of smell is usually blunted or lost, for which blessing he should be thankful.

A Remedy for Superfluous Hair,
Can you recommend something which will remove superfluous hair from the face without injury to the skin? Is (a) a reliable preparation for the purpose, Is (b) one?

ANSWER.—A flock of razors, or just one safety razor, is the best remedy we know for the purpose, No known application does more than temporarily dissolve off hair, which of course immediately grows out again. Both (a) and (b) and so on down to (z) and (&) are a little less efficient than a good razor. The electric needle in skilled hands destroys hair growth permanently. In certain cases X-ray treatment, by an expert rontgenologist, is successful.

The Hardened Skin of Hands of Tin the cover

The Hardened Skin of Hands of Tin Heater.

I am working as a heater in a tin plate mill and am troubled by extreme dryness and cracking of the skin of my palms. What can I do to prevent this? What is a safe fumigator to use in a house where a consumptive has lived? H. B. F. ANSWER.—Arsenic poisoning may account for the skin trouble—arsenic is present more or less in tin. Frequent applications of lanolin (wood fat) should be used for the hands. Fumigation after tuberculosis is not advisable, we believe. Rather, thoro soap and water cleaning off woodwork and floors, and if walls are soiled repapering or painting, then ventilation with open windows for a few days will make the house absolutely safe to live in. If the patient was properly nursed there is no reason to believe that the house requires any more than ordinary cleaning. The idea of fumigation after tuberculosis is a sort of hang-over from the days when some classes of people were so imporant or vicious as to chance cured by any treatment which the patient or any one but a doctor can apply.

The outlook for a cure depends upon the stage of the wasting, or in other words the length of time the treatment has been put off or postponed; and also upon the thoroness, patience and skill with which the treatment is followed out. Altho a preliminary consultation with a nose and throat specialist may be desirable in some cases, there is nothing to te gained by placing the treatment wholly in the hands of a specialist. Nose and throat specialists are famous for lack of patience. A general practitioner who is equipped with a head mirror and an ordinary medical training can accomplish all or more than the most skilful specialist, provided the patient will persevere in a prolonged course of office treatments. Unfortunately, there is nothing else to be done, excepting the

To prevent the bursting of water pipes after they have become frozen, a reader has sent the following method for thawing them out and, tho the severe cold of the past few days has given way to milder weather, the advice is most timely. The method is as follows:

Take equal parts of vaseline and paraffin wax. Melt these ingredients. and, after mixing together, apply a coating on the pipes with a small brush. While applying the mixture keep it hot and pliable.

### ADVICE TO GIRLS

DEAR ROSALIND:

Four years ago I met and learned to love a man two years my senior. He seemed to be especially fond of me, but since then we have had a misunderstanding, and for quite two years we have been separated. He has been going with another girl, and I with another man. We are seldom thrown together, but when I am in his company it nearly breaks my heart to think of his friendship with the other girl. I actually do not believe that he loves her. I rather believe that he goes with her more for spite DEAR ROSALIND: he goes with her more for spite than for anything else.

He said I asked him to do that, and when he asked me for a kies I refused. He says I have been going with him long enough for him to kiss me. If I kissed him, he said he would do what I asked. I hared to give him up, and did not want to see him drink, so I let him have his way.

My clums are much older than me, and they said I have been going with him a long while, so it was all right, but I want you to please tell me what you think. I like him too well to give him up, He is the second boy I have ever gone out with, but I want to do right.

drinks?

Little woman, the man who cannot give up drink before he marries rarely gives it up afterward.

You may feel that you love him, and that you wish to have the home every normal woman longs for, but it is better to wait until the right sort of man conies along before you give yourself into his keeping. Happiness means confidence, Can you trust this boy again when he has failed you once? Don't you think that if he were honorable in his intentions he would prove to you that he is strong and then ask you to marry him before he asks you for the privilege which belongs to the man you are to marry only?

WOMEN'S COMMITTEE **RED CROSS CAMPAIGN** 

FOR WOMEN'S VOTE Work Divided Into Districts With Capable Leaders in Charge.

Toronto women are ready to do their part in the big Red Cross campaign which opens next week. The first rally is to be held this morning in the headquarters, 293 Yonge street, when a meeting of the captains will be held to discuss the plans arranged.

MAJORITY WITH WOMEN

Majority With Soldiers Out of Country

They Have Preponderance of Vote.

Already the talk of a provincial election contest is in the air and already plans are being made by the two parties, chief among which is the bid for the women's vote in Ontario. If rumor has it right, the ambition of both sides is to line up the female wote, and it is counted that such will be the deciding factor.

Of course the Conservative party is working in all confidence of receiving the women's support, owing to the success which was met in the recent federal campaign thru the activity of the various women's organizations thrucul the province. On the other hand, it is learned that the

# some 20,000 motor licenses were issued in Toronto last year

# —the while, some 14,000 of our sons were dying on Flanders fields

Take a walk up Yonge street. See the cars "parked" hub to hub-wheel to wheel on the side streets. See the warm, comfortable, complacent citizens riding to and from their work. See them on Sundays motoring to church, enjoying God's glorious air and sunshine on their way to receive His spiritual consolation.

Take another walk on Yonge street. See the men with crutches, or with one arm, or blind, or shell-shocked. Some kind, thoughtful soul conceived the happy idea of letting these brave fellows get in at the front door of the street car, instead of having to fight their way in with the mob at the back.

Take another walk up Yonge street, particularly North Yonge street, and you will see a goodly number of men, many with crutches, plodding their way down to Farnham Avenue. As one of them remarked to the writer: "If I need to go downtown from the hospital at Davisville, it costs me four car tickets; four car tickets use up 15 per cent. of a day's pay-so I walk."

Oh, it's a grand scheme of things is war!

Talk about being war-weary! What are the thoughts of those soldiers who come wounded and maimed along the streets, and see the prosperous ride by in their cars; who see the happy care-free multitudes at the theatres, at the skating rinks, at the moving picture shows and at the hockey matches, enjoying many things that men with one leg' can never enjoy, and that men who are blind will never see again?

What do you think are the thoughts of these men when they remember good comrades lying buried neath Flanders fields?

Oh, war's a grand and glorious thing!

How we sang Tipperary; how we shouted "fall in"; how we chanted Keep the Home Fires Burning; how proud we were when Toronto's Immortal 3rd Battalion held the line on that ghastly night of April 22nd, 1915!

Oh, Toronto the Good was the Great and the Glorious then-and we gave of our money cheerfully.

Somehow, to-day, war doesn't seem quite as glorious. It's down to the grim, grinding stage.

But what of we who stay home? What do we know of its grimness? What do we know of its grind? Financially, most of us are better off than ever before.

And now, there is some talk of Toronto's inability to raise \$3,000,000 in 3 Days for Canadian Red Cross and Patriotic Fund purposes.

Why, if every man who took out a motor license would do with but \$100.00 worth less of gasoline, oil, tires and the "feeds" that go with automobiling for pleasure, and give that \$100.00 to this fund, nearly \$2,000,000 of the \$3,000,000 wanted would be subscribed.

Oh, war is a grand and glorious thing!

Take another walk up Yonge Street—on any street—and observe—

### Live Stock Market

Deliveries of live stock of all kinds out at the Union Yards yesterday were again extremely light, only 29 cars, comprising about 400 cattle, 960 hogs and 80 sheep, all told, enough to occupy the attention of the big packing houses and the commission houses for a mighty short time. Whether due to the light run or the strong undertone generally the market was very strong, a few odd extra choice lots touching 12c to 12½c, but there was, of course, very little sold at this figure, and it could not be called representative, but the buyers for the big companies wanted them and paid the money. THE SOLDIER and the farmer will win the war. What are you going to do-fight or farm? One is as essential as the other. ### **AMPUTATION CASES** FEATURE OF PARTY

Seventy-Two Out of Two Hundred Returning Yesterday Are Minus Limbs.

About a thousand soldiers' relatives and friends were at North To-ronto station at 4.30 o'clock yesterday afternoon to welcome contingent of nearly 200 war veterans. A feature was the number of "amputation" cases in the party, there being 72 all told, of whom 26 were Ontario men. The rest had enlisted in the other provinces.

Exhibition Camp brass band and an escort of active service troops took part in the reception to the war heroes at North Toronto station.

Mayor Church, W. K. George, Geo. I.

Riddell and J. B. Laidlaw were among

The usual reception was held at the Central Y.M.C.A. building, College street, several hundred of the soldiers' relatives attending. The mayor, on behalf of Toronto; W. K. George for the military hospitals commission, and J. B. Laidlaw for the soldiers' aid commission, gave the addresses of welcome. By soon after six o'clock the Toronto returned soldiers were on their way to their homes, on leave.

LONDON DEPUTATION. A deputation of five from the London County Council waited upon Deputy Minister of Highways McLean at the Parliament Buildings yesterday and discussed a proposal that certain roads be considered provincial count yroads. This would mean that the government grant of 60 per cent for construction and 60 per cent for maintenance would be received.

with United States.

Washington, Jan. 16.—Canada's fisheries mission, headed by Chief Justice Hazen, called today on Secretary Redfield and other members of the American mission and discussed plans for their conferences, which will consider conservation of fish foods in waters adjacent to the two countries. Depletion of lobsters, halibut and salmon will receive especial attention.

"It is hard to see how Canada and the United States, could be better friends," Chief Justice Hazen said, "but we hope our discussions will remove some silght causes for friction due to different policies pursued by the two governments. Our task will not be so much the prevention of trouble, however, as conservation of all foods is so necessary."

Plans for hearings at Atlantic and Pacific ports, and possibly at Great Lakes ports, will not be made until preliminary conferences here have been concluded. The visitors will call tomorrow on President Wilson and Secretary of State Lansing.

New York, Jan. 16.—Freight traffic in northern New England is at a standstill, and passenger trains are moving slowly, as a result of a severe snowstorm, according to reports received today at the office of A. H. Smith, assistant directorgeneral of railroads. The entire states of New England were described as "in bad shape."

Little hope was held out that anything like normal traffic from the west would be resumed soon. East of Buffalo and Pittsburg, the reports said, more snow fell Tuesday night, and temperatures ranged from 10 to 20 degrees. In the Pittsburg district, a labor shortage was said to be interfering with the movement of freight.

### PEACE TO STIMULATE **GOLD MINING GREATLY**

Porcupine and Kirkland Lake Porcup Districts Will Thrive After the War.

Bradstreet's, in a review of business conditions in Canada last year,

Mineral production was hampered by shortages in and inefficiency of labor, together with unrest among the workmen. Under these conditions the advance in the value of the output to \$200,000,000 for the year is favorably regarded, comparing as it does with \$190,646,000 in 1916. Rising prices of metals were, however, mainly respons-ible for the larger total. Higher costs of labor and materials handicapped gold mining, and production fell off over \$2,000,000 to \$17,000,000.

Exploration and development in Porcupine and Kirkland Lake, the two most promising camps in north-ern Ontario, hold out excellent promise for after the war, when costs again approach normal. Silver mining, on the contrary, was stimulated the sharp advances in the price of this metal. Cobalt production approximated 20,000,000 ounces of a value of \$16,000,000, and previously worked-out properties and low-grade deposits were utilized to advantage. Canada produced 43,000 of the 50,000 tons of nickel which constituted the world's output during 1917, and the establishment of refineries in Canada was the great event in this industry. Known ore reserves are placed at 70 000,000 tons. Prices increased 5 cents to 50 and 55 cents a pound.

### KERR LAKE'S POSITION

In view of the recent declaration of a regular dividend of 25 cents per share by the Kerr Lake Mining Company attention is being directed to the company's affairs. The sum of \$7.410,000 has been paid up to date in dividends by the company. As net earnings are at present more than double dividend requirements it is believed to be probable that the regular dividends this year will be supplemented by bonuses.

In figuring the intrinsic value of Kerr Lake shares it is necessary to consider that the company owns 150,000 shares of Wetthaufer-Lorrain, carried on the books at 15c a share, or a total of \$22,500, and \$37.000 shares of Caribou-Cobalt, carried at the cost price of \$50,000. It is also necessary to take into account that the Kerr Lake maragement is developing under an option or lease and bond, the Monden gold property in the Boston Creck district in northern Ontario. According to reports this property is responding well to development and gives promise of recoming a valuable asset. The Kerr Lake Mining Company has an authorized capitalization of \$3,000,000, divided into 600.000 shares of \$5 par, all of which are cutstanding.

### **NOTABLE HEADWAY** IN THE M'INTYRE

Progress is Particularly Good Stock Breaks Five Points as in Newer Sections of Properties.

Notable headway is being made by the McIntyre management on develop-ments underground, especially in newer sections of their properties. The company has two shafts down to the 1000-foot level, one of these in the Mc-Intyre Extension and the other in the Jupiter. The latter was just com-Jupiter. The latter was just completed. The McIntyre has been fortunate in its acquisition of properties.

The idea is to work the four properties from this main artery. When the drift is complete it will be approximately a mile

McIntyre has estimated ore reserves McIntyre has estimated ore reserves of close to \$6,000,000, and an enormous quantity of milling ore is in sight. The mill, which has a capacity of 600 tons per day, is earning at the rate of \$2,000,000 gross. This represents close to \$1,000,000 net, against the 20 per cent. per annum dividend amounting to \$720,000. It is inevitable that the company will soon have to increase the capacity of the mill to at least 1000 tons daily, in order to render production commensurate with the rapidly growing reserves of ore.

# OPPORTUNITY TO END

Opinion Expressed That Sir Henry Pellatt Should Be Given Reins.

The contest for the control of the Timiskaming is daily growing in intensity, and is now the topic uppermost in local mining circles. One banker yesterday ventured the opinion that there could be no permanent settlement arrived at unpermanent settlement arrived at until a third party, in whom absolute confidence was felt, had been called

### MINE IS HAMPERED

Editor World: About a year ago certain mine was being exploited in your columns and in those of other papers as one of the wonders of the north country. Today the stock is quoted at less than one-fifth its value at that time. Part of the reason for such decline is doubtless the lawsuit which was pending for months. that the Hollinger directors will re- was settled the stock would again advance. But no sooner was this case settled than a second suit was begun against certain of the directors. These are familiar facts, which many be glad to forget if they could. I refer to them merely to raise this question Is it right that a man of foreign birth at this time should be allowed to depreciate stock in this fashion and at a time when production of our mineral wealth is all important should prevent the development of what seems generally conceded to be a valuable mining proposition? Should a litigious alien be allowed to freeze out or cm Dear Sir: In yesterday's Mail and barrass the smaller Canadian stock in The Globe I noticed a letter from a holders who are patriotically buying R. # TO SHORT SELLING

Result of Drive-Lesser Break in Newray.

Weakness in McIntyre, apparently as the result of a determined drive against the stock, exercised a depressing effect upon the local mining market yesterday. Newray yielded to the influence somewhat, but in general stocks in both the Porcupine and Cobalt lists held much better than might have been expected. McIntyre opened a point off, at 139, and gave way before brisk selling, receding to 135, but rallying a point at the close, so that the day's net loss was four points. At 135 McIntyre sold only five points above the low level of last year, in the face of the fact that the ore being milled is providing for the 20 per cent. dividend, with a comfortable margin to spare, and that great progress is being made in underground work, particularly on the newer properties, while estimated ore reserves are close to \$6, 600,000, and there is a great quantity of milling ore in sight.

### HOLLINGER TRIES OUT MILLING EQUIPMENT

Plan Being Followed Is to Test One Unit at a Time.

One unit of 20 stamps of new milling equipment of the Hollinger has been tried out and found to give good results. The plan is to try out one section at a time, and when each section is found to be running satisfactorily another unit will be brought into play until the entire one thousand ton new installation will

sand ton new installation will be in operation.

It is believed that for a time at least the pressing into service of this new equipment will not add to the output of the Hollinger, in that as each section of the new equipment is brought into play a similar unit of the older equipment will be closed down. This plan of operation is made necessary, due to there not being adequate working forces available for increasing the volume of work. Howcreasing the volume of work. How-ever, the modern equipment being in-stalled wherever practicable, either on surface or underground, is tending towards making greater speed with smaller working forces, and the Hol-linger should be able to maintain a very large output despite the hard-ships of prolonged war.

PROGRAM AT DOME

At the Dome Mines the development program is understood to include the sinking of the main shaft to a depth of fifteen hundred feet. In every important operation in the camp values at depth have revealed the existence of higher grade ore than that in evidence on surfaces. The geological conditions strongly support the contention of the leading mining men of the country that the deposition of mineral will ultimately be found to continue to depths as deep as modern mining methods can be carried. THE RAND GOLD OUTPUT,

The Rand gold output for December was 722,000 ounces. This brings the total for 1917 to 9,021,844, which compares with 5,205,528 ounces in 1916 and 9,093,671 ounces in 1915. The output of the Transvarl for 1917 was \$191,620,000, as against \$197,425,600 in 1916. Notwithstanding the rapid growth of gold production in northern Ontario the industry has a long way to go lefore it can begin to compare with South Africa. As a gold producer, South Africa contributes more than one-half of the world's output.

F. C. Sutherland and Company, in their weekly letter, say: The mine manager of the Davidson Gold Mines mill, which is almost ready for operation, vigorous development work has been carried forward at this level lately. The ore shoot ranges from five to six feet in width, has been opened up for 200 feet, and will according to the expectations of the mine manager, mill out on the average \$25 to the top. age \$35 to the ton.

setimated ore reserves are close to \$6.000,000, and there is a great quantity of milling ore in sight.

Newray dipped to 43½, as against Tuesday's circing quotation of 45½, a moderate decline under the circumstances, as it was subjected to more or less short selling in an attempt to bring about a wider break. Dome was inactive and firm at 8.50, with the closing sale in New York at 8.75, and Hollinger was also steady. Teck-Hughes, which has been having an upward movement for some time, with little stock offered, sold off three points yesterday, to 47.

Cobalt stocks merely drifted, prices either holding unchanged or being shaded. McKinley-Darragh sold again at 57½, with other veteran producers, such as Mining Corporation, Kerr Lake and Niplissing, not dealt in, Hargraves seems to have found bottom around 9½. Ophit touched 9½, the lowest point reached since the reaction began following the rise to 15 on news of a silver strike.

The ore shoot shows even better results lower down. Here the vein has been proved nearly 300 feet in the seem shown better. The mine manager says in his report: "As to the two lower levels, I have every reason to believe, according to the assays we have had, that they will be much richer than in this stope."

# WASAPIKA GOLD MINES

LIMITED

(Authorized Capitalization \$1,009,000)

The Wasapika property, formerly known as the Ribble claims, lies in the noted West Shiningtree district of Northern Ontario. The property consists of 120 acres. The geology is identical with that found on the other properties of the camp where some of the most spectacular ore ever brought down from the north has been taken out.

The main vein on the property has been traced for a distance of upwards of 2,000 feet. In addition to the main vein there are numerous others on the property which have not as yet been developed.

The richness of the veins on the Wasapika is best illustrated by the fact that over 100 samples taken from the main vein averaged over \$10 per ton. It will thus be seen that there is already in sight a large body of profitable milling ore, and as the development of the vein goes deeper, it is regarded as almost certain that values will, if anything, increase. This is the opinion of the engineers who examined the property.

Development work already done consists chiefly of surface work and sinking on the vein. Word was received a few days ago that the new mining machinery which had been purchased by the management had arrived at Kashbaw, the nearest railway station to the Wasapika, and preparations are already under way to take the machinery into the property. The new plant is power-driven and has a capacity for six drills. The buildings to house the machinery have all been erected in readiness, so that the actual installation should take but a short time. The new equipment will assure progress on a much greater scale than

Arrangements have also been made for the installation of an 80-ton mill for the treatment of the ore. This will be completed early in the spring of this year, when the property will definitely go on a producing basis. In this respect it will have the unique honor of being. the first producing mine in this district.

According to Manager Geo. Rogers, M.E., there are at the present time over 14,000 tons of ore, which averages about \$12 per ton, in gold content, awaiting treatment, and by the time the mill is ready to run, the management figures that there will be in the neighborhood of 30.000 tons of high-grade milling ore ready, equal to about two years' supply for the mill.

TO SUM UP-WASAPIKA HAS A CONSIDERABLE ACREAGE FOR DE-VELOPMENT-IT IS LOCATED IN ONE OF THE RICHEST CAMPS OF NORTH-ERN ONTARIO. IT IS KNOWN TO HAVE ONE VEIN OVER 2,000 FEET IN LENGTH. WHICH ALONE WILL ASSURE ORE FOR THE MILL FOR A LONG TIME—IN ADDI-TION THERE ARE SEVERAL OTHER VEINS WHICH HAVE NOT BEEN DE-VELOPED, BUT WHICH ARE VERY PROMISING—THE GRADE OF THE ORE SO FAR ALLOWS FOR TREATMENT AT A CONSIDERABLE PROFIT—A NEW MIN-ING PLANT IS ABOUT TO BE INSTALLED -AND A MILL SUFFICIENT FOR THE NEEDS OF THE PROPERTY AT ITS PRE-SENT STAGE OF DEVELOPMENT IS ARRANGED FOR. IN SHORT, THESE FACTORS. IN CONJUNCTION WITH AN EFFICIENT MANAGEMENT, COMBINE TO FILL ALL THE REQUIREMENTS OF A BIG MINE.

This is the reason we have advised the purchase of Wasapika stock. We advised its purchase at 20c per share—we still advise its purchase at 28c per share. We believe that Wasapika has every chance to make good. And from the facts of the case, as recorded above, we are confident that it is a wise investment.

New York, Jan. 16.—Disregarding the contradictory tenor of foreign advices, maintenance of the six per cent. call money rate and a new low record for one of the Liberty issues, today's languid stock market gradually sought higher levels subject to intermittent persure.

Pools resumed their activity in a number of speculative specialties, but in general dealings fell below recent averages, both as to volume and number of issues quoted. The railroad situation, with its enforced curtailment of industrial operations, exerted little adverse influence, althorails made less upward progress than any other division of the active list.

Minor transportation shares were in no wise affected by the attitude of the government towards these properties. Coalers reflected the partial improvement in the fuel situation, Reading leading that group.

Leading steels, equipments, coppers and Mexicans made extreme gains of one to three points, with motors and tobacoos.

Final quotations were mostly at higher

### Grain at Winnipeg

Winnipeg, Jan. 16.—The feature of the cash market today was the continued lightness in the offerings of all grains. Oats touched a new high record, closing at 90c for No. 2 C.W. This is the highest point ever quoted in the history of the local market for cash oats. The big demand, with the light offerings, was the cause. No. 3 C.W. and extra No. 1 feed were half a cent higher. Cash barley enquiry was fair, with prices holding firm. Cash flax was quiet. Oat futures closed %c lower for May and %c down for July. Barley closed 4c higher for May. Flax closed 4th higher for January and 2c up for May.

His plan, the inventor said was to line the inside of the hulls of vessels with cylinders containing water with a steel screen behind them. When the torpedo exploded, the water tanks, he said, would be hurled against the screen, atomizing the water, which would disperse the heat and absorb the gases. A cargo such as apples, potatoes and similar produce containing a large percentage of water would serve just as effectively

TEXAN STILL FLOATING

U. S. Navy Department Reports Damage to Ship Not as Serious as Supposed.

Washington, Jan. 16.-Navy department advices indicated that the Texan was not so seriously damaged as was first supposed. The department made this announcement late today: "A despatch received today states that the steemship Texan, which collided with another vessel at sea Monday morning, is still afloat. First reports indicated that the ship was in a sinking condition, but apparently the damage was not so serious as was first supposed."

### DAVIDSON

McINTYRE McKINLEY-DARRAGH

A number of our clients have responded to our suggestion and have made a triple purchase of mining securities, comprising Davidson, McIntyrs and McKinley-Darragh. We, therefore, pass the suggestion on to you.

We have selected these shares because they combine the three essentials of a sterling investment, namely:— SAFETY—DIVIDEND RETURNS—SPECULATIVE OPPORTUNITIES

All three issues have exceptionally strong assets behind them. In no case have the market prices of shares nearly discounted mine developments. The Davidson stock has a strong speculative value, because the stamps of the new mill will be dropping within a month.

We suggest the following method of investing \$1,005:— Purchase 300 share of Micintyre, 400 share of Mickinley-Darragh and 1,000 shares of Davidson. By this means you will draw a steady income of over 11 per cent., or \$112, on your investment, and meanwhile witness the steady advance in the markot price of your holdings, which we consider inevitable. Your investment will work out as follows:

# At Simpson's Today---Men's Fine Shirts Less Than

### This Beautiful China Set Today for Less Than the Price of Plain Porcelain

We secured 100 sets in a special deal, at a price that enables us to sell them at several dollars less than are required for a good porcelain set; and these are real china of fine thin quality; beautifully decorated with a garland of pink roses and two gold lines, as illustrated above. The handles are full mat gold, and the shapes most desirable.

The set consists of 12 each cups, saucers, bread and butter plates, dinner plates, soup plates, tea plates, fruit saucers, two covered vegetable dishes, two platters, covered sugar bowl, cream pitcher, baker, pickle dish and gravy boat.

Those who are fortunate enough to share the sale can delight in the purchase of these sets, for the value is remarkable. Sale price today, \$18.95.

Wholesale Cost

Here is a shirt sale that every man who reads of it should surely attend. We are going to sell bright, clean-patterned, well-made shirts at a price that will, on an average, just about represent the present cost of the materials alone. Every shirt in the lot is at least a 75c value—but most of them are remarkably fine \$1.00 shirts.

The patterns are neat, becoming and the very kind particular men decide on-hairline stripes and cluster stripes in blue, helio and black.

And when it is considered that they are all fresh-all new-all clean-taken right out of our best selling stock-also that each is tailored and double-stitched, you will then know that this is the season's BEST SHIRT-BUYING OPPORTUNITY FOR YOU.

All are coat style, with laundered cuffs. Sizes 14 to 17. Today, 8.30 a.m., remember, 49c.
