## DRAWS THE LINE AT TARTÉ

Mr. Beauchamp Declares Act With Mr. Laurier's Lightest Hand.

## FOUR ACCLAMATIONS PROBABLE.

A Saw-Off Rumored as Regards Bagot and St. Hyacinthe.

Hon. Mr. Talton Having a Hot Fight in Chambly-Vercelles—The School Question Not Getting Much of a Figure in the Cities, But It Is Different in the Rural Constituencies—Mr. Laurier Less Confident—Mr. Tarte's Record.

Montreal, June 15.—(Special)—It now looks as if Berthier, Deschépelle, Bagot and St. Hyacinthe would return members to-morrow by acclamation. Berthier is Mr. Beauchamp's county, and as he voted, for the Remedial Bill the members of the Government decided to offer him no opposition, in view of the fact that he has determined to break with Hon. Mr. Laurier over the tariff and other less important questions. It is also known that Mr. Beauchamp has notified Mr. Laurier that while Tarte is in the Liberal party the member for Berthier must be considered. In fact Mr. Dupont, Conservative, was assured of election, while Mr. A. R. Angers, all of St. Hyacinthe, so the World is informed, is the Conservative candidate for North Waterloo, entered, escaped by the band, and recurred round after round of applause. The meeting broke up with the usual cheers.

### SIR THOMAS AT BRAMPTON.

The Premier Gets Another Big Reception From Ontario's Electors.

Brampton, June 15.—For several days past the Liberal-Conservatives have been making arrangements to give Sir Oliver Mowat a hearty welcome at the grand stand in the park. The Postmaster-General will stick to his county, win or lose, and is making a gallant fight. In fact Mr. Talton has spoken in favour of his being returned, and his voice, and will be obliged to have Mr. Dupont in his place to-day at Longueuil.

Mr. Laurier as an assassin.

The school question has had no effect whatever on the minds of the French electors in the cities, yet there are strong indications that the English will support the parts of the province. In quite a number of counties the Liberal managers are already encouraging certain delegations of the clergy for alleged undue influence, notably in Portneuf, where Sir Henri de Lethbridge is to defeat.

Mr. Laurier as an assassin.

Great Welcome at Acton.

Acton, Ont., June 15.—Sir Charles Tupper paid a visit to the voters of St. Thomas addressed the electors of this place at the railway station to-day. The citizens of Acton turned out in great numbers to see their hero come up as Sir Charles showed himself from the rear of his car. A platform had been erected from which he addressed the audience in a speech address delivered by Mr. George Henderson, President of the Conservative Association, who was chairman of the committee. On the platform also were Mr. H. G. Peeler, and Mr. St. John, who were other clerks, who saluted. The Mayor presided and introduced the candidate for the first time. Mr. G. F. Marler, Sir Charles spoke briefly and was apparently saving himself for the speech at the church. He then announced to the audience that at the conclusion of the speech the Premier was driven through the town. The private train left for Acton at 12.40 p.m.

Assassins Shoots Himself.

In the meantime two more shots had been heard from the same room, and President Wyckoff, supported by Mr. Deneen, and others of his other clerks, was assisted into his private office, the visitor was seen lying on the floor near the desk of Cashier Moore.

A policeman who had heard the pistol shots ran into the office of the bank and telephoned to the police.

After his wounds had been temporarily dressed, President Wyckoff was taken to the New York Hospital. An hour later he died. The coroner said that one shot had taken effect in the left side of his neck, the other in his side, just below the heart, the bullet having passed through his heart. Clark was unconscious. His injuries were dressed and he was driven to the New York Hospital. The surgeon, Dr. Henry E. Midgley, said that Clark would probably die before midnight. As for President Wyckoff, the surgeon said there was a chance that he would recover.

### ON A CHARGE OF FORGERY

Henry Barton Beecher, San of the Famous Brooklyn Preacher, Must Stand His Trial in New York.

New York, June 15.—Henry Barton Beecher got off scot-free when he was tried for forgery.

He was indicted in Utica, N.Y., making from \$2.50 to \$3 a day.

The drinking habit, however, led to his fall, and he was confined in a hospital for a week.

Mr. Maclean had a packed house and a mob outside to see him speak.

The chair was occupied by Mr. Alex. Cowan, one of the prominent farmers of the township. Mr. Maclean was assisted by Mr. C. S. Armstrong and Mr. McNeil.

The discussion turned on Mr. Frankland's attempt to wipe the National Policy of the face of the country.

Mr. Maclean had his escape, though he was taken to the asylum.

Kingston, June 15.—Michael Lynch, living in a house on Longshore Lake, for the past winter, and captured and put in Rockwood Hospital for the Insane, was not a criminal, but a victim.

He was captured and sent to Utica, N.Y., making from \$2.50 to \$3 a day.

The drinking habit, however, led to his fall, and he was confined in a hospital for a week.

or write for particulars.

## CALLED LAURIER A JESET!

Continued from page one.

of introducing and bringing into operation the Local Option Act.

(3) Your committee report that in the event of your party's getting into power they would take on the submission of a Dominion prohibition bill.

Last evening I addressed the speakers addressing the meeting: J. J. Redditt, J. R. L. Starr and Wesley Campbell.

**M. GORDON BROWN BURIED.**

Many Friends and Prominent Citizens were at the Obsequies.

The funeral of the late John Gordon Brown, engineer of the Surreal Court, New York, took place yesterday afternoon, from the residence of deceased son, Mr. Alfred Auger of North Woods, arrived in the city.

The funeral services were conducted by the Rev. Dr. W. G. Greig of Knox College, Rev. Dr. W. S. Ball, brother-in-law of deceased, conducted the burial service at the cemetery.

**Strikes over the Third clause.**

Resolutions one and two were quickly passed, but the third caused a stumbling block. One member cried out, "We can't adopt a mandate from our Conference, calling on Methodists to vote Liberal," and then the fun began.

Rev. Dr. Pearson supported the resolution.

Mr. J. M. MacLaren, Q.C., asked him if he would like to accept the proposal of the Liberals made with an "if." He himself did not greatly favor the idea of a plebiscite, but if the Conference accepted it, he would do so.

Rev. Arthur Browning stated that Hon. Mr. Laurier had declared himself to be in favor of the resolution.

Mr. G. A. Cox, Mr. W. W. Wilson and Mr. D. C. McRae voted in favor of it.

**THE STAFF IS REDUCED.**

The Technical School Board will have four teachers.

The Technical School Board held its regular monthly meeting last evening, but a Jealousy was placed upon the word of the Board, and the members were mandated from the Conference, calling on Methodists to vote Liberal, and then the fun began.

Mr. J. M. MacLaren, Q.C., asked him if he would like to accept the proposal of the Liberals made with an "if."

Rev. Dr. Pearson supported the resolution.

Mr. G. A. Cox, Mr. W. W. Wilson and Mr. D. C. McRae voted in favor of it.

**An Amendment Proposed.**

Rev. Dr. Christian did not like the idea of the Conference attaching itself to any party, and moved in amendment the following:

"That in either of the political parties, the Methodists do so there by placing themselves in the position of the Roman Catholic Church, and thereby giving up a civil power to obtain what we can not gain them selves."

**Little Faith in Politics.**

Rev. Dr. Pearson, again speaking, said that the conference voted too much time to the discussion of political and other questions and too little to the work of saving souls. He said that he placed his entire faith in politicians, and instance Hon. George E. Foster as a man who had made prohibition a reality.

As some further word discussion, and an adjournment for lunch, when the debate was at its height, the Rev. Mr. L. C. Kerr, Rev. Dr. John Shaw, Rev. James Graham, Rev. Robert Boyle, D.D., Rev. W. C. Sander Executive, and Mr. R. N. Ross, member of the Toronto Liberal

**After the service Ex-Mayor Kennedy**

## MEN INSTEAD OF MACHINE

ALDERMEN WISH TO ABANDON THE STONE CRUSHER

AS TO Give Unemployed the Work—City Engineer Will Report Another Referendum of the Acqueductors' Offer—Eighteen of the Boulevard Inspectors for York-Sreet Bridge.

A petition was presented to the Board of Works yesterday from a number of stone breakers, who protested against the purchase of a stone crusher and offered to break all stones necessary for city use at per ton basis. Ald. Preston, Gowanside and Leslie strongly urged that the city purchase the machine, which would be used in the York-street bridge in order to give the men who had been employed in stone breaking continued employment. As the tenders for the crusher will be received this week the matter was referred to the City Engineer to report full facts. The engineer reported that the cost of breaking the stones would be \$1.00 per ton, and the cost of the machine \$1,000. The Board of Control, however, voted to buy the machine.

The proposal was presented to the Board of Works yesterday from a number of stone breakers, who protested against the purchase of a stone crusher and offered to break all stones necessary for city use at per ton basis. As the tenders for the crusher will be received this week the matter was referred to the City Engineer to report full facts. The engineer reported that the cost of breaking the stones would be \$1.00 per ton, and the cost of the machine \$1,000. The Board of Control, however, voted to buy the machine.

The proposal was presented to the Board of Works yesterday from a number of stone breakers, who protested against the purchase of a stone crusher and offered to break all stones necessary for city use at per ton basis. Ald. Preston, Gowanside and Leslie strongly urged that the city purchase the machine, which would be used in the York-street bridge in order to give the men who had been employed in stone breaking continued employment. As the tenders for the crusher will be received this week the matter was referred to the City Engineer to report full facts. The engineer reported that the cost of breaking the stones would be \$1.00 per ton, and the cost of the machine \$1,000. The Board of Control, however, voted to buy the machine.

T. EATON CO.

190 Yonge St. Canada's Greatest Store. Toronto.

100 Yonge STREET, June 16.

**A Wise Liberality!**

This business is aiming at more than mere profit. Money is less esteemed than good-will. The store has been made the best one to shop at and you're safest here. The truth is told about goods and prices, and values are better than the average.

We believe in a liberal system of education. We want the advertisements to be the first thing read at the breakfast table. They tell the truth and make intelligent comparison. Those who accept their suggestion fare vastly better than those who don't.

This is the thought of liberality we refer to. These special prices go in effect Wednesday morning to last until the goods are sold:

## UMBRELLAS.

Bent's Steel Rod Umbrellas, silk and wool covers, steel parson frame, assorted natural wood handles, regularly sold at \$1.25 each. Special at.....

## NO SEPARATE SCHOOLS.

## DELIVERANCE OF THE PRESBYTERIAN ASSEMBLY.

Wrong to Apply Public Funds for Separation Purposes—Favor Adjustments Which May Satisfy the Minority in Manitoba—Reports showing Good Work in All Schemes of the Churches.

C.E.'s, and 68 junior C.E.'s. The total membership reported was \$1,616. The proportion of young men being two to three. The total amount of funds raised by societies reporting was \$26,911. Of this \$2321 was spent on running expenses, \$857 given for missions, \$10,692 to the schemes of the church and \$3948 to other objects. Several recommendations for the improvement of work among young people were contained in the report, the adoption of which was moved by Rev. Mr. Macmillan of Halifax, and supported by Rev. William Patterson of Cook's Church.

## Accepted the Principalship.

Rev. J. A. Macdonald, editor of The Westminster, the new periodical published in Toronto, has accepted the Principalship of the Presbyterian Ladies' College, to begin by the death of the late Dr. McIntyre. The Board of Directors decided to "continue the college work along the lines already pursued, and to adapt the new principal to those which are assured of continued success." The work is now well organized, and the college has been completely equipped for the year.

The class work will be so arranged that the duties of the principalship will be shared with Mr. Macdonald's editorial work.

"The Assembly expresses disapproval of any legislative or governmental action which tends to give to education which is intended to confer privileges upon one section of the community that are not accorded to all. In particular, the Assembly approves the attempt to remove alleged grievances connected with the establishment of National schools, and, by removing such, to remove the power of the Dominion, and such, by the Royal Commission, to remove by general legislation of this character, the right of the provinces to determine their capacity of the safe and expeditious holding of elections, and the delivery of the franchise." This led him to believe that the election of 1891 had been through the fault of the Assembly, and although the correspondence page numbers and exterior part of the book had been destroyed, every account was found to be intact. Mr. Garland said the firm's ledger had been found—no investigation probable.

In reference to the ledger which apparently in yesterday's issue was reported to have been lost, Mr. Nicholas Garland stated that the ledger which has been reported as missing had been found. It had not been placed in the safe, because of the capacity of the safe was not sufficient to hold all the books of the firm. This led him to believe that the Assembly cannot interfere with the establishment of Separate schools as in any case, a satisfactory solution can be found in the matter of the school question.

"The Assembly expresses disapproval of any legislative or governmental action which tends to give to education which is intended to confer privileges upon one section of the community that are not accorded to all. In particular, the Assembly approves the attempt to remove alleged grievances connected with the establishment of National schools, and, by removing such, to remove the power of the Dominion, and such, by the Royal Commission, to remove by general legislation of this character, the right of the provinces to determine their capacity of the safe and expeditious holding of elections, and the delivery of the franchise." This led him to believe that the election of 1891 had been through the fault of the Assembly, and although the correspondence page numbers and exterior part of the book had been destroyed, every account was found to be intact. Mr. Garland said the firm's ledger had been found—no investigation probable.

Mr. A. T. Harshaw of Napanee had been selected as the applicant for insurance company, and it was apparent that all the necessary information is available prior to the payment over of the different amounts of insurance.

The salvage has been appraised at \$12,000. This has been transferred to James Scott's old store at Kincardine.

Mr. Garland said that he had been told that the fire had been traced to an enemy of Mr. McKenna, a man who some time ago had McKenna's name taken from his stove. The police did not investigate the fire quickly, and it is understood that this investigation was carried on by the instance of Mr. McKenna himself.

The World learned last night that it is altogether likely no investigation will be made, as the insurance companies are satisfied that the fire was accidental.

Between Two Fires.

A pretty fight is going on behind the scenes in connection with the appointment of tax collector. The Mayor has made it his mind to have Mr. J. R. Patterson, who is now Deputy Treasurer and Secretary of the Board of Control. The City Treasurer would do that, and it is thought enough to do at present, and that if that gentleman becomes tax collector he must resign his office as Deputy Treasurer.

It was known that the resolution was to be presented to the Committee on Bills and Estimates.

The annual reports of the Widows' and Orphans' Fund were presented. The western section reported receipts of \$6,980, and the eastern section \$2,825, with a decrease in congregational contributions of \$1224. In the eastern section, receipts were \$5988 and expenditure \$5988.

The Assembly still hopes that conference between the Dominion and the Province will make it possible to restore educational difficulties on the subject of public education, by such adjustments as, while preserving the principle of National schools, may satisfy any apprehensions of both. While the fullest expression of opinion on educational and other public questions which influence members is always open to them to choose, and to become their distinct duty, the General Assembly would certainly deprecate any attempt to interfere with the autonomy of the provinces.

Never were there so many dainty things in muslins and wash goods as this year. The highest point of artistic effect seems to have been reached—at least with the goods this store shows. What is even more remarkable is the price at which such dainty goods are sold. Prices have been coming down, through various commercial circumstances, with an almost daily tumble, and we have been catching the best of the values. Here is proof:

If retail prices of goods go down anywhere you can be sure it will be here, with the first—or more likely first of all. Why not? No corner of the trading earth but our organization is in touch with it. No flutter of a market in the civilized world but we know it instantly.

## Fine Muslins and Wash Goods.

Never were there so many dainty things in muslins and wash goods as this year. The highest point of artistic effect seems to have been reached—at least with the goods this store shows. What is even more remarkable is the price at which such dainty goods are sold. Prices have been coming down, through various commercial circumstances, with an almost daily tumble, and we have been catching the best of the values. Here is proof:
