LONDON, May 26.—The war office
tonight issued a report concerning
fighting on May 23, in the Sudan,
which resulted in the defeat of some
2,000 troops of Ali Dinar, Sultan of
Darfur, by Col. Kelley. The fight took
place at El Fasher. The British losses
are given as five men killed and 23
wounded, while the losses to the sul-
tan's forces are estimated at 1,000.
The Sultan, whose attitude toward
the Sudanese Government for a long
time has been truculent, is reported
to have fled with a small number of
his followers.

FORT FRANCES, Ont., May 26.—
The situation here regarding high wa-

four inches since yesterday below the
power company's dam and if it comes
up a few more inches the paper and
pulp mills will have to close down.
The public works engineer from Ot-
tawa is here to render assistance. The
water in Rainy Lake is said to be
rising, and fishermen say it will go up
another foot or two.

NEW YORK, May 26.—Martin J.

inquiry into police wire tapping, said
that Detective William J. Burns had
reported to him that he had found
the name of a former agent of capt.
Boy-Ed in information the detective
uncovered as to the affairs of the firm
of Seymour & Seymour. He also tes-
tified that Burns had learned from

WAR SUMMARY
THE DAY'S EVENTS REVIEWED

WHILE a heavy engagement is proceeding in the northern Tyrol,
on which probably depends the future of Austria, the Ger-
mans continue to throw away men at Verdun with a prodigal
hand, and this in the face of the fact that their reserves are running
short. It is probable that in adhering so long to the offensive in this
region, the Germans have been erroneously led to believe that the
reservé of France are being exhausted and that one Frenchman is
worth as much to France as two Germans are to Germany. On the
contrary, neutral investigators, who have recently been on a visit in
France, unite in declaring that France has still sufficient reserves remain-
ing to outlast the German reserves, and that all attempts to break
the courage of the French people in this manner are futile.
Some anxiety has appeared in certain quarters that the French
may become hard pressed and that the Germans may after all throw
some men into the outskirts of the ruined town of Verdun. That
achievement would not affect the general allied situation in the least,
for the defences are merely lines of trenches and the Germans would
still find the road to the south barred by other trenches. Moreover,
if the French should become hard pressed the British could relieve the
situation by beginning an offensive of their own and knocking a little
common sense into the enemy. At present the French general staff
has repeatedly made it known that such an offensive is not desirable.
The plan of the allies is to husband their reserves for the all round
attack against Germany.

POTASSIUM PRODUCTION

Government Offers Liberal Terms
for Leasing of Western
Lands.

OTTAWA, May 26.—With a view of
encouraging the production of potas-
sium, which is in great demand for
fertilising purposes, the government
is offering more liberal terms for the
leasing of western lands for such pro-
duction. Only 25 cents an acre is
charged the first year and 50 cents for
subsequent years. While 1920 acres can
be leased for 21 years by one applicant,
specified improvements must be car-
ried out.

WASHINGTON, May 26.—The
United States denouncing inter-
ference with neutral mails, has notified
Great Britain and France that it can
no longer tolerate the wrongs which
American citizens have suffered and
continue to suffer thru the "lawless
practice" those governments have in-
troduced in the handling of mail.
This notification is given in the
latest American communication to the
two governments, the text of which
was made public by the state depart-
ment tonight. The time in which the
change must be effected is not speci-
fied, but the United States expects
prompt action.

Aguire, coroner of Cornwall, was no-

Lloyd George.

LONDON, May 26, 10.08 p.m.—The
urgent need of a continuous supply of
war materials precludes the prospect
of holidays for British munition
workers, according to a statement
made by David Lloyd George, minister
of munitions, to a deputation of rep-
resentatives of the Clyde and Tyne
engineers and shipbuilders today on
the question of Whit Sunday holidays.
Mr. Lloyd George said that the in-
cessantly hot fighting on the French
and British fronts, the necessity of
straining every nerve to supply the
machine guns with ammunition and
all kinds of equipment made it
advisable that the subject of holidays
should be allowed to remain in abey-
ance this year.

generally agrees that the choice of
David Lloyd George as the olive
branch bearer to Ireland is one
that could not be bettered, and unani-
mously wish him God speed, optimis-
m as to the result of his efforts is
conspicuously absent.
The Morning Post says it cannot
be said that the Premier's new
plan for attempting a settlement in
Ireland has aroused any great hope
in the minds of either the Irish or
the British members, and cynically
suggests that as a device for shelv-
ing the subject for some time, it has
much to recommend it.

today following a visit he had paid to

citizens accused of participation in

PARIS, May 26, 5.10 p.m.—The
Temps in an editorial which reflects
the prevailing sentiment in high quar-

Bethmann-Hollweg, the German im-
perial chancellor, as a "ruse calculated
to deceive neutrals and to relieve Ger-
many of its embarrassments."
"Let the chancellor pursue his game,"
The Temps says. "The allies fully
understand his manoeuvre. They op-
pose it by an unshakable determina-
tion expressed not only by the chief
officers of the entente allies govern-
ments, but upon the battlefield and in
the war factories. Germany will not
get by ruse that peace which she is
unable to get by force."

OTTAWA, May 26.—In contrast to the

munique from the Canadian general
representative at the front, which fol-
lows:
"Canadian General Headquarters in

the past week there was considerable
artillery activity on the Canadian
front. On various occasions sections
of our line were heavily bombarded.
Frequently our mortars and bat-
teries proved effective in checking the
enemy's fire and severely damaging
his trenches. Sniping remained nor-
mal. Machine gun and rifle fire was
 brisk on both sides, particularly at
night.
"Good progress was made in the con-
struction and improvement of our own
defensive works. Numerous hostile
working parties were dispersed. Our
patrols were constantly active and
gained much useful information. En-
emy patrols were encountered.

RECRUITING DROPS BELOW AVERAGE

Only Forty-Nine Men Volunteer for Active Service at Depots.

HOLD MIMIC BATTLE

Eighty-Four Engage in Field Exercises at Cedarvale.

Recruiting for overseas men in Toronto yesterday was barely up to the average. During the day 84 volunteers were examined at the depot by the doctors, and of this number 49 were accepted and taken on the strength of the various units. The standing of the battalions is as follows: Mississauga, 872; Canadian Buffs, 904; Toronto Light Infantry, 891; Beavers, 880; Irish-Canadians, 723; Bantams, 618.

Fifty men are needed for the Sportsmen's Battalion. Chauffeurs and horse drivers are wanted at once by the depot in a draft overseas shortly. Two troops for the headquarters staff at Niagara are also asked for.

The weekly parade of the 48th Regiment was held last night. The regiment formed up at the armories, and after a brief drill marched out under command of Lt.-Col. Darling.

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

(Continued from Page 1).

1918, which has not yet been warned in Germany. He may have the material left, in his judgment, for one more throw.

The main German effort on the Meuse yesterday took the shape of a heavy local attack on the French trenches on the approach to Fort Douaumont. It was repulsed by infantry and machine gun fire. The Germans suffered heavy losses in this action.

Miner operations again loomed up as the principal activity on the British front yesterday with the blowing up of a large mine at Fricourt by underground operations in the Loos salient. In two minor affairs the British came off best. They raided German trenches at Mametz and main German covering party in No Man's Land on the northern flank of the Ypres salient and drove it back helter-skelter to its trenches. A great deal of artillery bombardments are proceeding at many places, including Thiéval, Monchy, Vimy ridge, between Neville St. Vaast and Souchez, and in the St. Eloi sector. British long-range guns dispersed a large German working party opposite Serre.

Russia reports that on the Caucasus front the military situation is unchanged. It will probably be found that the forward sweep of the Muscovite armies has been retarded by the coming of the spring rainy season in those regions. That spell is followed by a warm and early summer. The chief worthy of the name. This breathing time will be probably utilized to the best advantage in constructing highways to feed the armies with men and supplies. It will soon be possible, if the allied high command so decides, to strike at the heart of the Moslem power. That centre lies in the central plateau of Asia Minor, which is the granary of Turkey. It contains a population of 8,000,000 Turks and it lies west of Sivas. The Russian army has defended the stronghold of their dominion by holding the line at Kerasaund Shubin Karahissar-Karabulagh, southeast of Sivas. The tradition of the Russian advance has long hung over Turkey.

Stirred up most probably by German agents, the Sultan of Darfur took the field against the British in the Sudan at the head of 3000 men. These were defeated with a loss of 1000 men. The British losses were five killed and 23 wounded. The sultan fled with a small number of followers. It is said that the attitude of this ruler has been truculent for some time towards the Soudanese Government.

Gen. Smuts reports from German East Africa that troops under his command have occupied three localities without resistance. These are Ruwu Lager and Lembeni and Ngulu and they are important strategic positions on the Kabe Railway and a pass between the northern and central Pare mountain groups. In the Konda, Irangi area, where the Germans suffered a severe check on May 9 and 11, there are reports of renewed hostile activity. In Ruanda the German forces are in retreat before the converging Belgian columns.

HAMILTON BATTALIONS TO ARRIVE NEXT WEEK

Niagara Camp Continues to Grow Notwithstanding Rumors of Withdrawal of Troops.

SIXTY-FIVE IN HOSPITAL

Minor Complaints Make Up Majority of Camp Illnesses.

Special to The Toronto World. NIAGARA, May 26.—Notwithstanding rumors of troops being taken away from here rather than more coming in, it was learned on good authority tonight that two Hamilton battalions have been ordered to Niagara Camp, and will be here next week.

Today a route march was held to Queenston led by Lieut.-Col. Bickford, and the troops returned to camp in splendid shape after 12 or 13 miles tramp. Weather was cool and everything ideal for route march.

Gen. Logie stated today that about 5000 men at least would be kept here for the summer after Camp Sorden is opened about Dominion Day. The general will review all troops in camp at 10 o'clock tomorrow morning, and at 2 there will be music by all bands in camp massed.

Sixty-five in Hospital. Tonight sixty-five men are confined to hospital; one is suspected of having meningitis and has been isolated. Tonillitis, measles and colds are the other causes of complaints.

Monday boards of examiners will meet at Hamilton and St. Catharines to examine into qualifications of non-coms of 120th and 176th battalions respectively.

Taken On Strength. Lieuts. E. Bolduc and J. M. Jackson are announced a staken on strength of No. 2 C.B.A.S.C. training depot, Lieut. T. G. Appleton, 2nd Battalion, is detailed to the bombing school, Toronto, and Capt. H. A. Semple, C.A.D.C., is detailed for duty on dental department No. 2 district.

Major George Edward Blake Bergy of St. Catharines, who lost an eye at Langemark, and could not go with the 81st Battalion on account of this, is to be employed as instructor of duty in M. D. No. 2, with pay and allowance of rank in C. E. F.

Appointments. Appointment of officers to the 15th Field Artillery Brigade, C. E. F., approved provisionally. To be brigaded adjutant with temporary rank of captain, Lieut. Edward Farnham, 98th Battery, C. F. A., 48th Depot Battery, C. E. F. Brigade orderly officer, Lieut. William Pate, 48th Battery, C. F. A., 48th Depot Battery, C. E. F.

Have Youthful Hair

Gray Hair Will No Longer Rob You of Your Youthful Looks If You Try This Simple Home Recipe.

If your hair has begun to turn gray or has faded, hasten its appearance back to its natural color by using this home recipe which is neither expensive nor difficult to prepare. In a pint of water mix these ingredients, to be had at any drug store:

- 1/2 oz. Bay Rum
1 oz. Compound
1 small box of Mlle. Santal's hair cream

Apply once a day until the hair is darkened, then once every two weeks will be sufficient. Be sure the drugstore guarantee will give the same good results.

A Real Flesh Builder For Thin People

Thin men and women—that big hearty, filling dinner you ate last night. What became of all the fat-producing nourishment in weight one ounce. That food passed through your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation are probably sadly out of gear and need reconstruction.

Cut out the foolish food, and tummy ailments, and eat with every one of those simple Sargol tablets. In two weeks note the difference. Let the scales be the judge. Five to eight good solid pounds of healthy "extra" fat may be the net result. Sargol is a charge weak, money losing, and unprofitable. It is a simple matter to give the blood the carrying power to deliver every grain of nutriment to every part of your body. Sargol, too, mixes with your food, so you have the nutriment in an easily assimilated form. This new food element, known as Sargol, is a careful combination of six of the most valuable elements known to chemistry. They come in 10 tablets to a package, are pleasant, harmless and inexpensive, and all are sold in every drug store. Buy them in bulk, and you will find them subject to an absolute guarantee of weight increase or money back as found in every large package. If you find a druggist who is unable to supply you, send your name, address and registered letter to the National Laboratories, 74 St. Antoine street, Montreal, and complete "Sargol" treatment will be sent you postpaid in plain wrapper.

DANCED FOR THE BANTAMS

Five Thousand People in Arena at Bantams' Great Entertainment.

BIG CABARET CLOSURE IN WHIRL OF DANCES

Marked by even greater success than was attained Thursday night, the "New York Cabaret" at the Arena under the auspices of the 216th Bantams Battalion, closed last night in a whirl of dances and entertainment. Approximately five thousand people were present.

The cheers and applause of the audience followed the conclusion of all the special dances, which were given by the New York cabaret dancers. Mlle. Santal again captivated the crowd with oriental dances, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation are probably sadly out of gear and need reconstruction.

On the western bank of the Meuse, the chief incident was the carrying on of a heavy artillery exchange in the region of Avocourt and Hill 304.

The "Brian Boru" Irish war-pipes presented to Lt.-Col. Lennox's 206th Irish Canadian were used for the first time in Toronto yesterday, when the new pipe band held its first rehearsal. Pipe-Major O'Regan is instructing the band, and Sgt. J. Egan will be the leader.

Canadian Associated Press Cable. LONDON, May 26.—Sir John Simon, arguing before the privy council today, in support of the Toronto Railway's assertion of rights on Yonge street, between the C.P.R. tracks and Farnham avenue, submitted that the effect of the agreement was that the corporation had given the company whatever rights the corporation had over street in question. Those rights were for a term of thirty years, from 1891. That had been shown no ground that entitled the appellants to impose restrictions on the company in proposed operations in Yonge street. The agreement gave the company the exclusive right to operate such railways for twenty years and went on to provide that the right should be renewed for a further term of years in the event of legislation being obtained to enable this to be done. With this object, appellants' predecessors pleaded they and their successors were entitled to the municipal board to decide the dispute in favor of their clients. All doubts were set at rest by a validating act which incorporated the company, confirmed the agreement and declared that the agreement respondents had acquired and were entitled to the exclusive right and privilege of using and working the street railways in city for thirty years, except so far as they overlapped the right already granted to the Metropolitan Street Railway company at the passing of the act. The judgment of the court, now under appeal, was that the agreement, as interpreted, gave a correct interpretation to the language of the agreement.

The question was not a new one. It had been argued as long ago as 1906 in Toronto Railway versus city, and incidentally in other cases decided since then. In these cases the principle decided supported the contention of respondents in present case. The lord chancellor said he would consider their opinion.

The agreement gave the company the exclusive right to operate such railways for twenty years and went on to provide that the right should be renewed for a further term of years in the event of legislation being obtained to enable this to be done. With this object, appellants' predecessors pleaded they and their successors were entitled to the municipal board to decide the dispute in favor of their clients. All doubts were set at rest by a validating act which incorporated the company, confirmed the agreement and declared that the agreement respondents had acquired and were entitled to the exclusive right and privilege of using and working the street railways in city for thirty years, except so far as they overlapped the right already granted to the Metropolitan Street Railway company at the passing of the act. The judgment of the court, now under appeal, was that the agreement, as interpreted, gave a correct interpretation to the language of the agreement.

The question was not a new one. It had been argued as long ago as 1906 in Toronto Railway versus city, and incidentally in other cases decided since then. In these cases the principle decided supported the contention of respondents in present case. The lord chancellor said he would consider their opinion.

On another column is a report of the argument from the city's side. Judgment was reserved.

Licensed on Carpet. J. P. Hogan, proprietor of the Imperial, has had his name submitted to appear before the licensing board on Wednesday next at 10.30 a.m. to answer to a charge of infringement of the military regulations.

Canadian Associated Press Cable. LONDON, May 26.—Sir John Simon, arguing before the privy council today, in support of the Toronto Railway's assertion of rights on Yonge street, between the C.P.R. tracks and Farnham avenue, submitted that the effect of the agreement was that the corporation had given the company whatever rights the corporation had over street in question. Those rights were for a term of thirty years, from 1891. That had been shown no ground that entitled the appellants to impose restrictions on the company in proposed operations in Yonge street. The agreement gave the company the exclusive right to operate such railways for twenty years and went on to provide that the right should be renewed for a further term of years in the event of legislation being obtained to enable this to be done. IF BACKACHE OR KIDNEYS BOTHER

Eat Less Meat, Also Take Glass of Salts Before Eating Breakfast.

Uric acid in meat excites the kidneys; they become overworked, get sluggish, ache and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real mess person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, indigestion, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink more water; also get from any pharmacist four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the purest lithium, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to keep the kidneys clean and active. Druggists here sell Jad Salts. Write to: Jad Salts, 261 Madison Ave., New York, N.Y. for full particulars. Beware of cheap imitations.

Another motion calling upon the board of control to "proceed at once with the building of the civic line on Mount Pleasant as endorsed by the citizens went thru in like manner.

President Jerry Nelson was in the chair with John Gao as secretary, and there was no time lost in getting down to business. The secretary, in a resume of the situation, declared that the committee was working into the hands of Reeve Pugsley and the representatives of the northern town. The scheme of an 80-foot Mount Pleasant road was characterized as visionary and one which would load the people up with more taxes.

"Jerry" Nelson, characterized the president of the Deek Park Transportation Committee as either a Metropolitan or C. N. R. man and declared that a board of control could never be put thru the scheme of a double-deck road. The Metropolitan was designated as a white elephant which the board of control would unload on Moore Park. There was no suggestion that the Metropolitan would consider the scheme for a moment, and if they did Moore Park would not be the building on the double-deck C. E. F. and C. N. R. bridge would give an outlet from their original plan.

James Severs said that the Metropolitan had a right to operate a steam road if they desired, and that the running of freight cars would ruin Moore Park. "Better stay as we are for present," he said, "and let the Metropolitan" said the speaker, "and the meeting endorsed the statement enthusiastically. The meeting also endorsed the 'daylight' clause bill" as suggested by his worship the mayor.

Some Splendid Values in Framed Pictures and Mirrors for Homes, Summer Cottages, Camps, Etc.

IT IS JUST SUCH pictures as these drawn by Harrison Fisher, the well-known American artist, that people, who furnish a summer cottage love to display in abundance around the walls of their rural homes.

One whole room on the Fourth Floor is simply brimful of fancy colored pictures, attractively framed, and chief among the display are those of Fisher's, including such subjects as "The Optimist," "Harmony," "All at Sea," "What to See in America," "An Early Greeting," "Bliss," "Befriended." Printed in colors and mounted on cream mounts and framed in mission oak frame. Price, each .95

Note the Low Prices of These Framed Mirrors

Since the outbreak of the war the price of glass has advanced enormously, but fortunately we bought a huge quantity of glass before time, and the mirror values we now offer are rare and exceptional. One line in particular for summer homes, kitchens, camps, etc., are in polished wood or white enamel frames, and priced according to size, 15c, 19c, 23c, 33c, 43c and 85c.

Framed Copies of Famous Pictures, Each 65c

This low price offering comes at a time when pictures are probably needed most for fixing up the house after housecleaning, and for use in summer homes, etc.

They are sepia reproduction of famous pictures including such renowned subjects as "The Last Supper," "The Wedding Dream," "The Horse Fair," "Coliseum," "Forum," "A Reading From Homer," "The Book Worm," "Simplicity," "Age of Innocence," "Madame Le Brun and Daughter," and a host of others in sizes up to 12 x 16, framed in dark wood frames in widths from 1 1/2 to 3 in. Extra good value each .65

Framed Hand-Colored Pictures for \$1.00

This assortment of hand-colored pictures include some very interesting figure and landscape and many pretty French subjects. They are all attractively surrounded in burnished antique gilt frames, with fancy corners and top ornaments. The size is unusually large for this price, being 15 x 20. An exceptionally good value at \$1.00—Fourth Floor.

A Special Display of Aluminumware in the Basement

THE HOUSEWIFE will be interested to know that much faster cooking is possible with aluminum cooking utensils and at a smaller cost than any other kind made, because aluminumware heats quickly and retains it, with the advantage that only half the heat force is required to complete the cooking. Its lightness enables easy lifting from place to place and all pieces are seamless, which makes them very easy to clean. There's an air of cleanliness and brightness about aluminum-ware that makes them attractive and much favored among hosts of housewives.

It is interesting to know that the prices of some of our aluminum-ware remain the same, despite the recent scarcity of the raw materials, due to the war. The following items demonstrate the splendid values obtainable.

Every housewife can spend a few worth while moments, next time in the store, by visiting this special display. An experienced clerk is in charge and will give a practical demonstration upon request that will be found most interesting and helpful.

NO TAX ON INCOME OF CIVIL SERVANT

May Be Exempted by Omission of "Imperial" From Revised Statutes.

AN IMPORTANT POINT

Discovered at Close of Action at Osgoode Against Judge Morson.

Before the appellate division at Osgoode Hall yesterday there came the question as to whether a court stenographer, an officer of the court, can refuse to extend the notes of evidence required on an appeal unless paid in advance.

In the old Statute Act the subsection exempted any "pension, salary, gratuity, stipend, derived from His Majesty's Imperial Treasury." As revised the word "Imperial" was dropped.

MAIL SEIZURES ANNOY WILSON

U. S. Citizens Have Suffered Much From Practice, He Avers.

Unwarranted Limitation. This has been the procedure which has been practiced since the announcement of February 15, 1916, to some extent the same practice was followed before that date, calling forth the protest of this government on January 4, 1916.

Classes of Sealed Mails. The principle of being plain and definite, and the present practice of the governments of Great Britain and France being clearly in contravention of the principle, I will state more in detail the position of the Government of the United States in regard to the treatment of certain classes of sealed mails under a strict application of the principle upon which our governments seem to be in general accord.

As an example of the delay and loss consequent upon the British practice, the postmaster general also sends me a copy of a letter from the British postal administration admitting that the mails were removed from the steamer Medan in the Downs, on Jan. 30, last, and not forwarded until some time between the 2nd of February and the 2nd of March.

ULTIMATUM SENT TO RAILWAY CO.

Dr. Hastings Made Recommendations Regarding Car Ventilation.

NOT VERY DRASTIC

Manager Fleming Stated Yesterday That No Change Would Be Made.

Acting upon the mayor's resolution made on Thursday regarding the overcrowding and poor ventilation of the cars operated by the Toronto Street Railway Company, Dr. Hastings, the medical officer of health, yesterday sent a "note" to the company, which he stated, was "not very drastic."

While the M.O.H. refused to say just what was in the missive, he intimated that health department inspectors had investigated, and the recommendations in his note were based on the information secured by them.

Manager R. J. Fleming of the railway company is not worrying over the mayor's ultimatum. He smilingly expressed regret that the mayor was adding one more burden to those he is already carrying. He would not admit having received Dr. Hastings' note, and stated definitely that the company would run the cars as they are all the summer.

BELIEVED PROFITS MORE THAN THIRTY PER CENT.

E. Brooker Suing G. T. R. and City for Damages to Restaurant Business.

All the evidence in the Sunnyside bridge claims is now in the hands of arbitrator P. H. Drayton, K.C. E. Brooker, who is suing the Grand Trunk and the City of Toronto jointly for damages to his restaurant business at Sunnyside, avors yesterday that he believed his net profits were more than 30 per cent, the sum paid by William Cawkeil, valuator. Brooker explained that his books did not represent a proper state of the business. He stated, however, that at no time had he been in financial difficulties. Considerable importance was laid on Mr. Cawkeil's statement that Brooker's profits were about 30 per cent, and W. C. Chisholm, appearing for the Grand Trunk, questioned the witness closely on this point. His object in doing this was to show that the business was not such a prosperous one as was claimed.

CITY HALL NOTES

Unless Mayor Church so decrees, battalions conducting recruiting campaigns will not be allowed to use the city hall steps for this purpose. Any unit desiring to hold a rally on the steps will have to get a permit with the mayor's signature affixed. The mayor has made the new regulation to protect the lawn and flowers in front of the hall.

As far as Trustee Hodgson is concerned, no action will be taken in connection with the city auditor's report on the board of education. He was not aware of any steps being taken by the trustees to adopt the new accounting system recommended by Auditor Sterling.

Application for permission to erect a twelve-story building at the corner of Alice street and Downey's lane at a cost of \$625,000 was made to the city architect by the T. Eaton Company.

PAID LAST RESPECTS TO RICHARD J. SCORE

Prominent Citizens Attended Funeral to Mount Pleasant Yesterday.

The funeral of the late R. J. Score was held yesterday from the residence of 612 Huron street, and a large number of sorrowing relatives and sympathizing friends gathered to pay a last tribute to the memory of him who has always been an honored citizen and a true friend. The service was conducted by Dr. J. Henderson, Dr. J. F. German and Dr. W. F. Wilson. Dr. German delivered the address, and his remarks referred to the many sterling qualities of the late Mr. Score. He was an affectionate husband, a devoted father and a devout Christian. He had lived to complete his life's work, and he left behind him a sincere appreciation of his noble character. Interment took place in Mount Pleasant Cemetery.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By adding to any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says: "I have used Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. It's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a beautiful toilet requisite. It is not intended for cure, mitigation or prevention of disease."

Mlle. Santi Loves BOOKS AND DANCING

Little Honolulu Maid is Clever Student and Artist.

So many Motorists had carelessly stated that "all Tire Tubes are just Rubber. He determined to show some folks the difference, in a way they would never forget. There were four Cars at the door, and their Owners or Drivers at his elbow. To these he said, "Boys,—how strong do you think this Goodrich Brown Tube actually is? "Do you believe it is strong enough to tow Mr. Oden's five passenger Car, with four people in it, from here for 20 blocks? "You don't, eh? "Well now here's a bit of a 'Bet I want to make with any, or all, of you. "I will bet you a Dinner that this little old regular Goodrich Tube (34x4) will not only tow Mr. Oden's Car, but will tow all three of your Cars,—fully passengered,—through the streets, for the full 21 blocks (more than a mile and a half)—starting and stopping as many times as the crowd makes it necessary. "I will,—if you Gentlemen are agreeable,—line up all four of your Cars, right here and now, take three regular Goodrich Tubes hap-hazard out of their boxes,—tie one tube between each two Cars, (which means hauling three Cars on the first Tube) and tote You-all that way to 'The Corners.' "Are you willing to bet a Dinner that any one of the three Tubes will go broke' on the way, or show a flaw which would leak Air, or prevent its being used for its original Tire purpose afterwards? "You are, eh? "Well,—the 'Bet's on! "Come along, and you be the Judges."

NEW YORK LOVES HER

Came to Toronto to Do "Her Bit" and Help the Bantams.

Toronto is being treated to many novelties these days, and it takes the men in khaki to make the treat a "royal" one. The Bantams—those fine little chaps hustling into form under the command of Col. Burton—stole a march on their taller comrades this week and imported a "real live" New York Cabaret to the Avana. Best of all, they brought dainty Mlle. Santi, an interpretative and classical dancer, who has captivated thousands during the past eight months at Healey's. Healey's is the "biggest restaurant in New York and occupies more square feet than any other eating house in America."

Mlle. Santi's Interview. "I have danced every night for the past eight months, sometimes at two or three hotels, and as well as at Healey's, during the same evening," said Mlle. Santi, in a voice that called up vivid pictures of a pathetic little maid from Honolulu. In answer to the query, this wonderful little dancer said promptly: "Oh, yes, I have spent considerable time in the 'island' villages. A few months ago New York went crazy over Hawaiian music, and now my music is the 'island' music. The most popular number on my program is 'The Coconut,' the peculiar arm movements and the placing of the feet are very unusual to us, also the natives understand every expression, dancing enters into every phase of their lives, their religion, their work, and play. I have studied very hard to make my interpretation of it, and I now have an Hawaiian program, which furthers the realistic effect."

Mlle. Santi is strongly in belief that music is a tremendous inspiration for the dance.

Must Have Good Music.

"In interpretative and classic dancing I must have good music or I am lost. For the reason that my poses are all original, and I never know just what I am going to dance, so if the music is not inspiring I am handicapped to an unusual extent. Of course in chorus work where the girls go thru so much drill, and set steps, good music is not such an essential."

SENTENCED FOR FRAUD

Sentence of six months in the Ontario Reformatory was imposed upon Leo Pearson, when he appeared in the police court yesterday on a charge of obtaining \$5 by fraud from L. M. Maynard, stealing a dollar from W. Summerfield and breaking into the shop of W. E. Golley and stealing chocolates.

Like a Boy at 50 Bubbling Over With Vitality—Taking Iron Did It

Doctor Says Nuxated Iron is Greatest of All Strength Builders—Often Increases the Strength and Endurance of Delicate, Nervous Folk 200 Per Cent. in Two Weeks' Time.

NEW YORK, N.Y.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination into his condition. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man. In fact a young man he really was, history books, old Greek pictures, and museums, where bits of the ancient world are still carefully preserved, played a part in his life work, and supplied many themes of interest and unusual fascination.

How the Texas Tube test happened!

IT nettled Bill Parr considerably! So many Motorists had carelessly stated that "all Tire Tubes are just Rubber. He determined to show some folks the difference, in a way they would never forget. There were four Cars at the door, and their Owners or Drivers at his elbow. To these he said, "Boys,—how strong do you think this Goodrich Brown Tube actually is? "Are you willing to bet a Dinner that any one of the three Tubes will go broke' on the way, or show a flaw which would leak Air, or prevent its being used for its original Tire purpose afterwards? "You are, eh? "Well,—the 'Bet's on! "Come along, and you be the Judges."

THE Dinner was a very Cheerful Affair. As Oden said afterwards (when putting up his share of the Bet) "you could have bet me a Million on that, Parr, and I'd have taken you up,—even if I had to borrow the Million. "I don't see how the blamed Tubes ever did hold out,—especially going up Saco St. under such a strain. "With eight people in the last three Cars,—and a total load of over 6,800 pounds I sure thought to hear something snap before second block. "Whaddya put into that brown Goodrich Rubber anyhow, to make it hang together like that?"

Fritz said that what puzzled him most was the brown Rubber Tubes "not being all stretched out of shape after such a tug, even if they did hang together at the finish. "Look you," said he, "when we released the load,—after the haul,—they instantly snapped back into just three-quarters of an inch longer than they were at the start! The Toronto World

FOUNDED 1850. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

The circulation of THE TORONTO DAILY AND SUNDAY WORLD is authenticated by the ABC Audit Bureau of Circulations

In advance will pay for The Daily World for one year, by mail to any address in Canada, United Kingdom, Mexico and the British possessions enumerated in Section 46 of the Postal Guide.

UNITED STATES. Daily World \$4.00 per year. Daily World \$5.00 per month. Sunday World \$6.00 per year. Sunday World \$2.00 per month. Including postage.

It will prevent delay if letters containing "subscriptions," "orders for papers," "complaints," etc., are addressed to the Circulation Department, The World, 70 West Richmond Street, Toronto, Ontario.

SATURDAY MORNING, MAY 27.

The King to the Slacker

His Majesty the King has addressed another message to his people on the occasion of his signing the conscription bill. He has, on the advice of his ministers, deemed it necessary to enroll every man over eighteen and under forty-one years of age.

Another thing will be clear to the observant, and that is that one must not judge a peaceful nation, any more than a peaceful man, according to its peacefulness. One never knows what may occur when war is aroused.

There is another thing which is only too obvious about the conscription bill, and that is its necessity. It is not a patriotic and liberty-loving man who has been an American and a British citizen.

We wish that our Canadian fellows who stay at home when they might go to the front, would think over this situation in Great Britain, and consider if they wish to make it necessary for a similar measure to be put into force here.

All that has to be done before depends upon the sufficiency of those who follow. Unless we tie the knot on the tail of the thread, the thread slips thru.

The "Soldiers' Newspaper" Explanations have been given by the deputy postmaster-general as to why it is that ten dollars a year is exacted from the father or mother who wishes to send a daily paper to the son in the trenches.

GOOD DIAMONDS Buy diamonds now. From a business point of view they are the best securities. They are sure and will advance in price. Your safety, however, lies in buying from an old established, responsible house.

Direct Taxation If We Fail to Reform

Suppose, just for the sake of supposing, that a man had a considerable income and property, and that he spent \$1,700 a year, and threw \$17,000 into the fire every year, what would we think of him? As we answer that question we must apply the answer to ourselves, for that is what we do in the matter of our forest and lumber property as a nation.

It has been put in another way by the Canadian Forestry Association. For every twenty trees which we plant each year, we cut down 17 and burn 170, and the association remarks that it would be a queer farmer who planted 187 acres of wheat every year and harvested 17 while he burned and destroyed 170 acres.

There was more or less comment in political circles yesterday over the visit to the city of T. H. Crerar, president of the Grain Growers' Grain Company, and G. F. Chapman, editor of "The Grain Growers' Guide."

Seen at the King Edward Hotel by a World reporter, Messrs. Crerar and Chapman, commented themselves by saying that they were merely passing thru the city on their way to New York.

Mr. Crerar reports the west buoyant and optimistic as ever. Business is good in the cities and towns and another big crop is hoped for. In this connection he stated that there were between sixty and seventy million bushels from last season's harvest still unmarketed in the country elevators and in the hands of farmers.

When the conversation drifted to the recent British Columbia legislation authorizing a loan of \$10,000,000 to the Pacific Great Eastern Railway, which is to run from Vancouver to Fort George (or rather to Prince George, as the station on the G.T.P. is called), one of the gentlemen in Mr. Crerar's party said: "British Columbia is the province of magnificent giving. THE JOY OF BEING ALIVE AND WELL

Restored to Health by "Fruit-a-tives," the Famous Fruit Medicine.

"I have received the most wonderful benefit from taking 'Fruit-a-tives.' I suffered for years from Rheumatism and change of life, and I took every remedy obtainable, without any good results. I heard of 'Fruit-a-tives' and gave it a trial and it was the only medicine that really did me good. Now I am entirely well; the Rheumatism has disappeared and the terrible pains in my body are all gone. I am exceedingly grateful to 'Fruit-a-tives' for such relief, and I hope that others who suffer from such distressing diseases will try 'Fruit-a-tives' and get well."

SOCIETY

The Ontario Jockey Club members' private car leaves the Queen's Hotel at 1.15 o'clock, and the King Edward five minutes later today for the Woodbine.

Sir John C. Eaton and Lady Eaton have issued invitations to Ardwy on Friday afternoon, June the 2nd, from 4.30 to 6.30 o'clock, to meet the Ontario Medical Association.

The Honorable Mrs. Broughton-Adreedy, who visited in Moose Jaw several months ago en route to Red Deer, to visit her son, who is attached to the R.N.W.M.P., has returned accompanied by her maid, and has been at the house of Inspector and Mrs. Spawgard, Mrs. Broughton-Adreedy, last week for Ottawa where she will be the guest of H. R. H. the Duke and Duchess of Cornwall a few days before sailing on the Scandinavian for England.

The weather at the Woodbine yesterday afternoon was ideal and a great many people were on the members' lawn. A few of them were Mr. and Mrs. Andrew Allan, Montreal; Mr. and Mrs. F. N. Beardmore, Montreal; Captain and Mrs. Ross, Montreal, the latter in a very short skirt of striped red and blue velvet with belted coat of blue velvet, a Panama hat embroidered with a large scarlet butterfly and sporting shoes of white strapped with tan. A very smart costume was worn by Mrs. John Macdonald. The skirt was of black and white striped material, the black coat with very full bustle was turned back with emerald green and very handsome buttons, and a white straw hat with wings; Mrs. Edward Seasman was in white, tailor-made, hat, and fox stole, with a corsage bouquet of beauty roses; Mrs. Mulock was all in white with a very becoming blue silk coat, and a white and blue striped silk in a smart London tailor-made of fine shepherd's plaid and a white hat with wings; Mrs. Stanley Bennett, a bride of the year, looked exceedingly well in a gown of striped silk in shades of red, blue and gold, with collar and cuffs of the striped silk and a very smart bronze hat and shoes; Mrs. W. C. Bailey was in white with hat to match and a very becoming coat of striped green and brown velvet; Mrs. Williams Beardmore was in brown striped silk and a blue hat with wings; Miss Mackenzie was in navy blue with one of the new painted Panama hats; Mr. Arthur Colville, recently back from the front; Mrs. Lora Baehner, another bride of the year, wore a white hat, navy blue gown; Mrs. R. S. Williams, jr., looking very well after her sojourn in Atlantic City.

Sir L. and Lady Melvin Jones are giving a large dinner tonight at the Hunt Club after the dinner in honor of Mr. and Mrs. Andrew Allan, who are in town from Montreal, visiting Mr. George Beardmore.

Mrs. Neville Causton gave a most charming little tea in her flat in Oriole gardens yesterday afternoon when she looked lovely in navy blue pink satin with a black tulle collar and gold fastening the corsage. Mrs. Causton's rooms are most fascinating with beautiful and artistic pictures which she brought out from England with her, and the tea table, an exquisitely carved one, was almost covered with flowers. There were also a silver centerpiece, and vases were filled with shaded rose carnations and tulips. Mrs. Doherty and Mrs. Mackenzie pouring drinks, and Miss Stuart dispensing the tea.

The Bishop of Ottawa and Mrs. Roper spent part of the summer in Muskoka. Mr. and Mrs. D'Arcy McGee are in town from Ottawa visiting Mr. Thos. Long.

An entertainment is being given at Exhibition camp in the Y.M.C.A. building as a farewell to the 97th Battalion (American Legion) which leaves shortly for overseas. The program for the evening has been arranged by Mrs. O. B. Sheppard and by Mr. Alex Walker of the 97th Battalion.

Mrs. Liasant Beardmore, who has been spending a month in Atlantic City, has returned to Montreal. Miss Jessie Gooderham is visiting Miss Maida MacLachlan in Ottawa.

Mrs. Flora Muriel Denison spent a few days at Cedarvale, Cobourg, the guest of Capt. and Mrs. Campbell before the former went into camp at Barriefield. On Thursday, Mrs. Denison spoke at a patriotic meeting at Greensville on "War and Women." Messrs. Gibson, D'Alaire, Jackson and Perkins from Toronto were also on the program, and a satisfactory sum for the men in the trenches was realized.

The Sixth Canadian Howitzer Brigade Auxiliary met yesterday to sew for the members of the brigade now with the big guns in France. The women sent off a large shipment of socks and comforts. Wool for knitting socks will be furnished by telephoning Mrs. J. M. Gardhouse, Parkdale 629. The hostesses were Mrs. Lionel Hamilton and Mrs. M. Wilkinson and the convokers of the work were Mrs. Foy and Mrs. Frank Roby.

The engagement is announced of Harriet Charlotte, second daughter of the late Hon. N. Clarke and Mrs. Wallace, of Woodville, to Mr. J. B. Little, Medical Officer of the 220th Battalion, C.E.F., son of Mr. Charles Little, Seaforth, Ont. The bride, owner of 333, suffered to the extent of \$125, while J. Robins, 335, lost \$50.

A splendid programme has been arranged for same with some of the best talent in the city taking part.

A UNIQUE GROUP

of portraits will appear in next week's issue of The Sunday World consisting of all the Leap Year Babies who have been awarded the Toronto World's Leap Year Mugs. The set of pictures consists of three groups, representing those born in 1904, 1908 and 1912. These pictures are unique for the reason that these children have but one real birthday every four years, viz. February 29th, and that it is probably the first time in history that a similar group were ever gotten together. They will occupy almost two pages of the art section. Be sure you order next week's Sunday World and see this interesting exhibition."

Girl a Nervous Wreck At Eleven Years of Age

Was Tired Out, Pale and Sallow—Would Tremble Till the Bed Would Shake—Dr. Chase's Nerve Food Cured Her. In the schools of today there is found an alarming proportion of weak, nervous children who have little chance of developing into healthy, useful men and women. Nature requires the assistance of such treatment as Dr. Chase's Nerve Food to help them over a trying period and set them on their feet. There would be fewer weeping glasses if the nerves were invigorated, less irritation in the school and home, more robust health and a greater pleasure in the school days. This letter bears a cheering message to parents whose children are weak, puffy and nervous. It shows you what may be expected from the use of this great restorative. Mrs. Stephen Hartman, Italy Cross, Lunenburg County, N. S., writes: "My little sister at eleven years of age was so nervous, irritable, and seemed all tired out. She had no ap-

Poor Pitching Gives the Grays Easy Win, 10 to 4

ROYAL WALLOPING FOR LOCAL OUTFIT

Three Pitchers in Miserable Form and Grays Had a Pleasant Afternoon.

At the Island stadium yesterday afternoon three Toronto pitchers gave an excellent exhibition of how good pitchers do NOT work.

It was the old, old story. All three were bad and once the Grays started swinging their bats there was no stopping them.

The fourth ended Cook. Three strikes and a sacrifice gave the Grays a double and a sacrifice gave the Grays a double and a sacrifice gave the Grays a double.

At Rochester (International)—Newark came back into the winning column when they took yesterday's game from Rochester, 1 to 0.

At Montreal—in a fourteen inning game, marked by frequent batting errors on both sides, Richmond won from Montreal when they scored six runs in the fourth inning.

At Buffalo—Buffalo was out-hit and outplayed, but nevertheless won the Baltimore, 4 to 5.

YANKES DEFEAT CHAMPIONS TWICE

Fisher Bested Leonard in Duel—Naps Down the Browns—Senators Win.

At New York (American)—New York twice defeated the world's champion Boston here yesterday, winning the first of the double-header by the score of 2 to 1, and the second game, 5 to 5.

The first game was a pitchers' battle between Fisher and Leonard, which was decided in the former's favor by Pipp's timely hitting, as he drove in both of New York's runs.

At Washington—Washington won from Philadelphia, 2 to 1, in a fast game marked by excellent pitching by Dumont and Myers and spectacular fielding.

At Cleveland—Cleveland defeated St. Louis, 4 to 1, making the most of its long hit bases on balls.

At Boston (National)—The Braves were unequal to the task of stopping the slinking Giants, and went down in overwhelming defeat yesterday, 12 to 1.

At Cincinnati—Cincinnati took the second game of the Royal Derby from Chicago here, 6 to 4.

At St. Louis—A wild throw by Betzel in the eleventh inning nabbed Schmidt to score, and Pittsburgh beat St. Louis, 6 to 5.
