

### FURTHER EVIDENCE OF CO-ORDINATION AMONG THE REBELS

#### Pablo Gonzales Announces His Withdrawal From Mexican Presidential Contest.

#### LEVIES ARE DEMANDED

Washington, May 17.—Pablo Gonzales' withdrawal from the contest for the Presidency of Mexico reported to the state department today was regarded here as the best indication that leaders of the de facto government desired to eliminate the danger arising from political rivalry. Further evidence of co-ordination was seen in the announcement that Manuel Palafox, to whom oil producers have paid tribute for several years, has been appointed chief of military operations in the state of Tamaulipas. Restoration of wire communication with the Mexican capital brought from the American embassy news of the developments. There was no word however, as to the fate of Carranza who has fled to the hills near Jalapa, with revolutionary troops on his trail.

The official advice was summarized by the state department as follows:

The American embassy at Mexico City reported to the department of state today, under date of yesterday that General Pablo Gonzales has publicly surrendered his authority to the 'provisional president.'

"In a manifesto made public yesterday, General Gonzales announced that in order to preserve revolutionary unity, to restore tranquility to the nation, to eliminate the possibility of future conflict, and to leave congress untrammelled in its elections of a provisional president, he irrevocably withdraws his candidacy for the presidential term, and will surrender to the provisional president the authority which revolutionary conditions have forced him to assume."

The Mexico City press yesterday announced that trains captured from Carranza were being brought to Mexico City, and that civilians who remained with the trains are being given every protection. The press stated that those who accompanied Carranza in his departure from the Mexican capital are being pursued by the revolutionary cavalry.

#### Parade Ordered in Capital.

"A circular signed by General Obregon has been published, ordering a military parade to embrace 30,000 men, as participants, at Mexico City on May 24, as a demonstration of allegiance to the provisional president to be selected by the Mexican congress on that date. The press stated that members of the Mexican diplomatic corps have been given 15 days to declare their allegiance to the new regime.

The appointment of General Palafox as chief of military operations in Tamaulipas has been announced.

"Monterey, in the state of Nuevo Leon, having been turned over without resistance to the forces of General Obregon and Gonzales, and all burned bridges between Nuevo Leon and Mexico City having been restored, it was announced at Laredo Saturday that thru passenger rail-road service would be immediately resumed from the United States border to Mexico City.

"General Cepeda did not arrive at Monterey on May 13 as was expected and in the afternoon of that day Porfirio Gonzales demanded a levy of 200,000 pesos (\$100,000) from the chamber of commerce. The chamber refused to comply, and Gonzales then threatened execution and looting if the money were not forthcoming by May 14, and called on the mayor to assist in collecting the money. General Antonio Villarreal, of the Obregonistas, was expected to arrive that night. The department's informant from Monterey up to Saturday is to the effect that there has been no disorder there and that the foreigners are safe.

"From Saltillo, capital of Coahuila, came word under date of May 13, that General Porfirio Gonzales has been appointed provisional governor and post-commander of operations in the state of Coahuila.

"Information came to the department today that at Piedras Negras, opposite Eagle Pass, Texas, T. R. Beltran, commercial representative of the state of Sonora under Governor de la Huerta, called merchants together at the customs house, requested free contributions of funds for assistance in paying troops quartered at Piedras Negras, with a view to preserving order, and that approximately 20,000 pesos (\$10,000) was subscribed by foreign and Mexican business men. It was also reported that a similar request was made by General Gutierrez at Monclova."

### WILL SELL LANDS TO STEEL COMPANY

Hamilton, May 17.—After weeks of delay the board of control this afternoon decided to make an effort on Thursday afternoon to dispose of the problem of works department reorganization.

The nine-year-old dispute with the Steel Company of Canada regarding Slipes Inlet was settled, it being recommended that the Gage avenue disposal site and lands be sold to the company at \$3,000 per acre and \$100 per acre for water lots.

The purchase of the lands of the Newlands, chairman of the works committee, declared that it was the most satisfactory arrangement which could be drawn up.

Acceptance by the city of a tender of the National Steel Car Company was protested against by Richard Wiley, agent of the Machinists union. The company had refused to meet its men to talk over the question of more money, he said, and was at present paying the men 15 cents an hour less than the union minimum. The letter was filed, for future reference.

#### WESTON CHILDREN KEEN GARDENERS

#### Horticultural Society Distributes Seeds to Over Two Hundred.

The Weston Horticultural Society, at their meeting in the town hall last night, reported that over 200 children had taken seeds, etc., for home gardens. The society had been unable to get land for community gardens for the boys and girls of the public and separate schools, as during the war years. Comment was made upon the areas of land held vacant for speculative purposes, and upon which the privilege of gardening could not be gained this year because the council had not the right of expropriation, as during the war. "Any system that will prevent a man taking chances on a lot being sold during the summer, I think a mean system," said Rev. W. M. McKay, who, during the war years, was the guardian of the children in their public gardens.

This year it was reported \$120 had been paid for seeds, the distribution of about 80 packages yet to be reported on. For roses \$158.50 was spent, 56 plants being on hand. A report is required on those planted in two weeks. The committee of greater production stated their difficulty in making returns on account of the high price of potatoes. The civic improvement committee registered the planting of 124 elms, 73 maples and 12 weeping birch on the boulevards and in the parks. There was a good attendance, Mrs. George Lyons, president, being in the chair. There are over 1,700 members.

### BRITAIN RESERVES CONTROL OF OIL

(Continued From Page 1).  
homa, requested the president also to say what diplomatic efforts had been made to remove the restrictions upon participation in oil development by Americans elsewhere than in the United States. Representations had been made to Great Britain concerning restrictions upon oil development in the occupied sections of Turkey, the report said, and had been met with assurance that no discrimination against Americans would be allowed. With regard to Mexico, the department reported the last note of warning, which said that the United States "would not acquiesce" in any procedure resulting in confiscation of American oil holdings.

Observing that all of the regulations in Great Britain and her possessions were aimed at restricting oil operations to control of British nationals, the report said "this form would seem to be justified in the viewpoint of international law, however, impolitic it might be as regards reciprocity and an international commodity."

Citing a large number of general and special consular reports, the report said that the British policy appeared to be developing by a process of deterring foreigners from owning or operating oil property in the British Isles, colonies, or protectorates by direct participation of the government in financing the larger exploiting companies, of which the Anglo-Persian, having a monopoly of the industry in Persia, was named, and by governmental orders-in-council preventing British oil companies or individuals from selling their property to foreigners.

French, Japanese and Dutch policy was somewhat the same as that of Great Britain, the report indicated, but its effect were of minor importance.

#### COMMUTERS FAVOR STEAM BELT LINE

#### Many Ratepayers' Associations to Take Up Matter Shortly.

The subdivision belt line on steam tracks for Toronto and neighborhood, as suggested by The World, was the subject of discussion among various ratepayers' association officials in the eastern district yesterday, the unanimous verdict being that the railway companies should give the matter prompt attention.

The World's suggestion was mooted in the Woodbine Heights district two years ago, said W. Miller, past president of the Woodbine Heights Ratepayers' Association, who pointed out that the scheme was not to be carried out owing to lack of public interest. "I am pleased to see The World is now taking up this much-needed improvement in transportation," said Mr. Miller, adding that with the belt line system in operation the suburban public would not be altogether dependent upon the Toronto Railway Company.

Arthur Fleming, president of the Mayor Ratepayers' Association, said the matter would be discussed among the members.

The Amalgamated Ratepayers' Association of York Township will also discuss the matter at their next meeting.

### AMPUTATION CASES HEAR GEN. DAVEY

#### Preparations Being Made for Holding Tag Day on Friday.

Brigadier-General J. Penry Davey, C.M.G., senior chaplain of the C.E.F., was the guest of honor and the chief speaker at the regular meeting last night of the Amputations Association of the Great War, at the Central Y. M. C. A., College street. He was very pleased to have the opportunity of addressing the association as there were one or two matters to which he wished to draw their attention. First he wished to utter a word of commending against the people who were going thru this and other countries preaching blood and revolution, and preaching it so cunningly and subtly that the utterances are not always recognized as revolutionary. Brute force said the general, will never get anybody anything. But opposed to this the amputations association should be of the latter type and by co-operating with other veteran organizations they will soon possess a power that can make a difference in the world for the betterment of present conditions.

The second matter to which the general referred was the brotherhood organization of Great Britain, of which he is a member. This organization, explained Gen. Davey, was founded on religion. All powerful edifices must be founded on religion or they cannot stand. But their activities were chiefly social and directed against the unnecessary institutions as poverty, slums and starvation. The small committee connected with the association had already placed over 30,000 men in workable positions, and it was because the brotherhood organization was actually doing a great work towards the solutions of England's social problems that the speaker had become a member.

The object of the organization is to permeate the whole universe with the spirit of brotherhood, so that international difficulties may be settled, slums removed, crime exterminated, and all influences acting against the welfare of the community and domestic peace gone away with it.

The senior chaplain concluded his interesting address, wishing the Amputations Association every success on their forthcoming tag day.

#### General Promises Help.

Brigadier-General Gunn, ex-G.O.C. of military district No. 2, and chairman of the advisory board of the association, gave the assurance that he would at all times do his utmost to assist the amputations association which had honored him by making him chairman of their advisory board. He would undertake, he said, to see that the amputations association was in the best positions they can possibly fill. The men would be required to give details of their past and present conditions, and the association would take the responsibility of seeing that they were satisfactorily placed.

Dr. Abbott, also a member of the advisory board, gave his opinion of the pensions situation and stated that he most particularly wanted to see that minor amputations were in a position to earn what, with their pensions, will amount to the equivalent of a 100 per cent disability pension.

Captain Lambert, president of the association, drew the attention of the members to the necessity for their co-operation in helping to make the tag day on Saturday, the 29th, a success. Four socially prominent ladies had undertaken to conduct the affair and the administration work was entirely in their hands, so there was not the least doubt but that the day would be conducted in such a way as to produce the best results.

After all, said the president, the amputations board represent the aristocracy of the veteran circles and the city may be expected to deal as generously with them as with other people, who have been so severely disabled in their hands, so there was not the least doubt but that the day would be conducted in such a way as to produce the best results.

The such women in charge are: Miss Church, Mrs. Arthur Van Koughnet, Mrs. Albert Brown and Mrs. Abbott. The amputations have set their objective at a high figure, but unless Toronto has run out of gratitude they will exceed it. Funds are urgently needed, continued the president, to carry on the work of the association, and it is hoped that a sufficient will be raised on the tag day to cover the expenses of their club room and tide them over their difficulties.

The following are members of the advisory board: Premier Drury, Gen. J. A. Gunn, Gen. Mitchell, J. A. Tory, Prof. Haultain, Gen. Elmley, Dr. G. H. Abbott, Col. N. Marshall, Arthur Van Koughnet, N. L. Martin, and Sir Allan B. Aylesworth.

#### RESIDENTS INCENSED AT CLOSING BASTEDO AVENUE

The residents in the vicinity of Bastedo avenue are much inconvenienced by the closing of the street at the Grand trunk tracks by a lumber company, which recently acquired the land at each side of the street and shut off pedestrian traffic by a fence. As this street might in the near future be used as a subway (being a suitable location for such a convenience), the action of the lumber company is causing much discussion. On behalf of the residents, Arthur Fleming, president of the Norway Ratepayers' Association, will make inquiries at the registry office to see if the matter will be brought to the attention of the association at their next meeting.

#### Believe Steel Co. Will Capitate

Hamilton, May 17.—The local labor situation became even more ominous today, when twenty-two hoisting engineers harkened to a strike call from the International Union of Steam and Operating Engineers.

Vincent DeFazio, Quincy, organizer of the International Union of Hod Carriers and Laborers, upon his arrival here today called a meeting of members of the local union for tomorrow night. The construction contractors association have refused to recognize the union.

Tonight meetings of the building trades council and the Electrical Workers Union were held, but it was announced that there were no new developments. A compromise on the same basis as that arranged with the plumbers is probable, it was intimated tonight.

#### Woolen Workers Meet.

A mass meeting of employees of woolen and cotton mills was being arranged today by John Thomas, Toronto, Canadian organizer of the United Textile Workers of America. The C.O.F. Hall, Main street, east, has been secured for the meeting.

It developed today that there had been trouble at the Steel plant for some days past and striking engineers took this as an indication that the company would soon capitulate and agree to meet a committee of the union employees.

Lord French, replying, said when he went to France he hoped to remain until "we had won the victory," which he never doubted would be "ours."

"It is too early to pronounce a verdict on the great factors and characters of the war," he proceeded. "Our deeds will be judged calmly and faithfully at the bar of history. Lord French added that the Germans made a cardinal mistake in failing to seize the channel ports, which might have prolonged the war.

**BUILDING MATTER FOR CITY COUNCIL**

**Board of Education Will Not Approach Board of Control.**

**INSURANCE TOO SMALL Must Remodel Entire System of Policies for School Buildings.**

That the city council and not the board of control is the body to approach on the matter of settlement of estimates for building purposes was the decision arrived at by the members of the finance committee of the board of education at a meeting held yesterday afternoon. A good deal of discussion preceded the decision, the subject arising out of a letter from the city clerk in which it was stated that the sum of \$1,000,000 would be allowed by the city for building purposes, provided that if the Bloor street property were sold, \$700,000 of it would be allowed in return. The program for building by the board of education had asked for \$2,000,000, and the proposal of the letter to the mind of a number of the board meant a cutting down of their program to about one-fourth of the original plan.

E. P. Brown, solicitor for the board, was called upon to explain what his conception of the letter was, and expressed the view that the letter was meant to deal only with building plans for this year, and did not necessarily interfere with the entire plan. The same opinion was expressed by Mr. Pearce and Dr. Hunter, the latter thinking the proposition warranted beginning the buildings needed, and that the funds to finish would be granted by the city next year. That the letter was vague in its meaning was the final consensus, and it was decided that a delegation should go to the council, the delegation to report to the finance committee before the meeting of the board on Thursday evening.

**Should Remodel Insurance.** That the entire plan of insuring the schools should be remodelled was the expression of Trustee McClelland. In response to his request, Mr. Pearce explained that recently nine insurance companies had received insurance, mostly thru the agency of returned soldiers. Mr. McClelland did not object to returned soldiers, but did object to the method of placing insurance in such a way as it would bring any graft to trustees.

"If it's placed thru Mr. Pearce, it's all right," said Mr. McClelland, who, however, asked for a report of the amounts placed on the schools, pointing out that Brown School was only insured for \$23,000 and that this amount would not rebuild two rooms in case the building were destroyed. Miss Boulton laughingly took exception to the contrast between the business administrator and the trustees in relation to graft.

"I don't see why it should be thought that Mr. Pearce is not open to graft as much as I am," she commented.

The matter of opening new supervised playgrounds and appointing teachers for industrial centres during the summer vacation, brought out in reply to a question by Trustee Boulton, that ball teams use the playgrounds to the exclusion of the pupils and that they do so without charge.

Trustee Douglas stated that complaint had been made of the "repechage" of some of the teams who used the schoolyards, and Mr. Doughty stated that the bylaws provided that the yards belonged to the pupils until sundown. The members thought the grounds should not be used by teams before six o'clock.

**Wordy Warfare.** Quite the warmest interchange of opinions and parrying of words arose out of an item on the program, which asked that sketch plans be approved, and that the business administrator be instructed to prepare working plans and call for tenders for work.

**TORONTO WOMAN GAINED 35 POUNDS**

**Tried for Ten Years to Find Health, Without Success—Troubles Overcome by Taking Tanlac.**

"I have changed so much for the better that when my friends meet me on the street they don't know me, and no wonder for I have gained thirty-five pounds in weight," was the remarkable statement made by Mrs. Davies, of 55 Beatty avenue, Toronto, recently.

"I was a sick woman for ten years," she continued. "My ill-health was caused by overwork and then a severe shock which shattered my nervous system and I had a complete breakdown. I was in the hospital for a year and when I came out I wasn't very much better. I had headaches that nearly drove me out of my mind, and all the sleep I ever got was after I was completely exhausted. I was as weak as a baby, and went down from one hundred and thirty-eight pounds to a hundred and six. I was so pitifully pale and thin that you wouldn't have recognized me for the strong, healthy woman I used to be.

"It was my husband who persuaded me to give Tanlac a trial. He read of a case in the papers which almost described my own and he was convinced that it would help me. That was just before Christmas, and that bottle of Tanlac was the best Christmas present I ever had, for it was the turning point of my illness. The first thing it did was to make me sleep better, and soon my appetite improved and I began to eat as I had not done for years. My whole condition steadily improved and I gained in strength and weight rapidly. I now weigh one hundred and thirty-six pounds, so that I have gained thirty pounds and really feel fine. For ten years I have been trying to find something to restore my health, so you can imagine how thankful I am for what Tanlac has done for me."

Tanlac is sold in Toronto by Tamblin drug stores and by an established agency in every town.

on the John Fisher and four other schools. Dr. Noble objected to approving until the management committee had seen the plans, and until members had gone over the old schools and sites and had taken in the entire situation. Also his objections covered the fact that there are no funds.

Trustee McClelland said that the plans had been ordered by the board, but the chairman of the board did not want Mr. Pearce to prepare them. "The property committee is trying to get these plans so that something can be done, and now he (Dr. Noble) comes along at the last hour and the fifty-ninth minute just to block it," said Trustee McClelland. The matter was finally sent on to the board without recommendation.

On behalf of the Home and School Club of the Brown School, Miss Boulton asked for chairs to replace the broken ones now in use at the meeting. She also pointed out the good work being done by the club for which the request was made.

The case follows on the heels of the charges of stealing automobiles preferred against George Chappelle and Carmen Rumpie, who were, a few days ago, sentenced for four years in Kingston Penitentiary. It was alleged that these two men, after stealing motor cars, dismantled them and sold parts to different wreckers in the city.

**TAXICAB OWNERS REGISTER PROTEST**

**Declare Favoritism is Shown One Concern on Victoria Street.**

The action of Mayor Church in permitting one taxicab company to park cars on the east side of Victoria street, opposite the King Edward Hotel, in the face of new regulations effective today, wiping out parking privileges on this location, has brought forth a protest from the other taxicab owners.

An official of the Industrial Taxicab Owners' Union makes the following statement: "Four taxicabs have always been allowed to stand on the east side of Victoria street, south of the King Edward Hotel entrance, but a parking bylaw recently passed by the city council provides that as Victoria street is to be northbound traffic only, no cabs shall be permitted to stand on the east side of the street between Colborne and King streets. The bylaw gives permission, however, for three cabs to park on the west side

of Victoria, south of the hotel entrance, and for ten cabs on the west side of Scott street. On Saturday night three taxis belonging to one company took up a position on the east side of Victoria street, just north of the hotel entrance. Three officials of the I. T. Owners' Union approached the police of No. 1 division, asking them to interpret the bylaw and allow no favoritism, but the police would take no action, stating they had orders from Mayor Church to permit three cars operated by a particular concern to park on the east side. The police showed the union officials a letter to this effect which they had received, signed by T. L. Church.

In reply to this statement, Mayor Church says the special permit has been cancelled, and that the matter will be referred to the police board and the board of control.

The manager of the Townsend Taxicab Company, who was favored in the mayor's letter, explains that his company is under contract with the King Edward to supply cabs. Anyone using his cabs can have the cost charged up on his hotel bill. His cabs are also metered for the protection of the public.

**Court to Settle Cost Dispute Between T.S.R. and Hydro.**

Before the second divisional court yesterday, counsel for the Toronto Railway Company was heard in the appeal from the railway board in the dispute between the company and the Toronto Hydro-Electric Commission, in regard to the cost of raising the hydro wires on Pape avenue in connection with the laying of the car line on that street by the Toronto Railway Company.

The railway board, explained counsel, ordered the railway company to file plans to show the construction of the line; that the railway company had sent notice to the city to give them the necessary 75 feet clearance by having the hydro wires raised, and that Commissioner Harris had replied that notice should have been sent to the Hydro. The hearing was adjourned.

**A Project to People Twenty Million Acres**

A large representative body of far-seeing Westerners, public and business men of repute, have bound themselves together as The Western Canada Colonization Association for the specific purpose of peopling twenty million acres of vacant land in the three Prairie Provinces. These lands, all lying within twenty miles of existing railways, are exclusive of those owned by the government, the Hudson Bay Company and the transportation companies.

**An Era of Progress Promised**

The settlement of these extensive areas within the next few years will mean much for all Canada. It will mean:

1. A greatly enlarged food production.
2. A rapidly expanding export trade.
3. A corresponding growth in national wealth.
4. A progressive correction of the present adverse exchange rate.
5. Corresponding facilities in the liquidation of public and private debts owed abroad.
6. Such an increase in the population as will make the National War Debt easier to carry.
7. A lightening of per capita taxation.
8. Such an improvement in passenger and freight traffic as will lessen the current deficit on the National Railways, and in time convert these transcontinental lines into a self-supporting enterprise.
9. A notable expansion of the domestic market for Canadian manufactures.
10. A speedier development of oil, coal and other natural resources in which the West abounds.

**East and West Inter-Dependent**

The realization that the future of all Canada depends upon close co-operation between East and West was never more accentuated than it is to-day. A rapid development of the vast natural resources latent in the West will go far to solve many of our present-day National problems—problems which have been making their existence felt in every home.

The Western Canada Colonization Association has found favor throughout all Western Canada. With the whole-hearted support and co-operation of the East, the project will shortly come to full fruition. It is aimed to raise a fund of \$1,500,000 by contribution from business corporations throughout Canada, with which to finance this timely undertaking. A large proportion of the amount required has already been provided by Western business men. The East has begun to do its part.

**The Association's Plans**

The Association plans to work in the closest accord with Governments and Railways. It purposes to set up an organization in every Western community to take care of the settlers as they arrive. This organization will welcome the newcomers, give them such information and advice as they require, and stand by them during the early days of their pioneer effort.

The permanent policies of the Association will not be arrived at nor will any of the money which is raised be spent until after most careful consideration by a joint Executive Committee, representative of both East and West.

ALDERMEN TO MAKE MANY INSPECTIONS

Application for Private Hospital on Grosvenor Street Again Live Issue.

APPLICATION FOR FIRE HALL

This will be visiting week for the members of the committee on property. A long list of applications came before the committee yesterday involving the committee on certain streets, and the members decided in several cases to make personal inspections.

One of the trips will be to 71 Grosvenor street, where application has been made for the privilege of establishing a private hospital. The matter has been before the committee three or four times and the patience of the opponents living in the district seems to be wearing out.

Certain aldermen objected to this remark and Mr. Worden said it was merely a joke. The application of McDermid Bros. for authority to erect a corrugated iron warehouse on Coleman avenue was held up for two weeks. Ald. Baker moved for a poll of the district on the question which was lost.

Protest Against Garage. It was also decided to defer action on W. D. McPherson's protest on behalf of residents on Burgess street, against permitting the erection of a public garage on the rear of a lot facing on Marion street, close to Burgess.

A visit will be paid by the aldermen to the southwest corner of King street and Dunn avenue, where Dr. Hazard is proposing to erect a private garage against the wishes of his neighbor, J. B. Woods.

Ald. P. M. Johnston appeared as a deputation to urge the erection of a fire hall in the Ashbridge's Bay district and ex-controller McBride, who was present, supported him. It was pointed out that the Baldwin Steel Co. had undertaken to supply a site for housing fire fighting equipment and Chief Russell said he would be able to put force there as soon as he can get the necessary pumps.

A motion that the board of control be asked to supply funds to build and equip a fire hall there was voted down.

Opposition was offered to the plans of the Bank of Nova Scotia to build on the street line at the corner of Avenue road and St. Clair. This question was deferred for two weeks.

W. H. Bagshaw was informed that he was violating a city bylaw by running a saw and storing lumber in the rear of his premises at 503 West Marion street and was given 30 days to clear out the objectionable stock.

The committee recommended that Major G. H. Baber, governor of the jail, be given the use of the jail residence, recently renovated, for \$500 a year, the major to supply his own fuel, light and water.

The above school children will compete at Massey Hall on Friday in the final contest.

REAL ESTATE NEWS

A factory will be erected at 591 West Richmond street by the E. C. Walker Co., hat wire manufacturers. The building will be five storeys high and the site is 33 feet by 100.

The property at the southwest corner of Jarvis and Adelaide streets, occupied for years by Parsons, Brown & Co., has been purchased by that concern for \$45,000.

AUTO DEALERS IN FEAR OF BUDGET

Rumor That Thousands of Cars Run Into Canada From States Recently.

There was a well sustained story going round in automobile circles yesterday that certain United States automobile firms were trying to beat the expected extra import tax to be announced in the budget today by bringing cars from the States to Canada under their own power.

The story was to the effect that cars were being assembled in Detroit, and after transshipment to Windsor, were being driven to Hamilton, Toronto, and even to Montreal.

If the story is true the importers were risking little and standing to gain a considerable sum. There is little chance of the present duty on imported cars being reduced, and even if it was not increased, the cars can be easily sold in Canada. On the other hand, if the duty is increased the importers will reap a rich harvest both from the saving in the duty and the exchange rate.

The scheme of running the cars across the border just previous to budget day is by no means new, as it was very successfully operated just before the introduction of the measure which first put an extra charge on imported cars.

The story is being spread extensively in both used and new cars, as to the correctness of the story, Mr. Breaker said he had heard nothing in confirmation of it, and knew absolutely nothing about it. G. E. Gooderham and the Premier Motor Sales Company also denied any knowledge of the story.

Supposing the rumor is correct, the men who are trying to beat the budget run one great risk, and the minister may make the new tax retroactive by seven days.

THOUSAND MEN STRIKE AT PORT ARTHUR YARDS

Port Arthur, May 17.—As a result of the walkout Saturday of a number of men, practically all the unions employed at the Port Arthur shipyards followed the lead and went out on strike this afternoon, so that, of the 1,000 men on the payroll, only 125 are left. The management says it will give employment to these men as long as they remain, but will do nothing towards effecting a compromise with those who have gone out on strike. The trouble resulted from a request for an increase in wages which the company said it could not grant on the ground that it could not continue to operate at higher cost than at present.

"Toronto in the Fifties" Send us short articles and receive liberal payment.

In June we celebrate the sixty-seventh anniversary of our business life in Toronto. Manifest changes have taken place in the city from the years 1853 to 1920, but their passage finds us still doing business at our original location on King Street East.

That the present generation may know something of life and conditions in Toronto during our early business years, we are offering substantial cash payments for short sketches of interesting people and events in Toronto from the years 1850 to 1896.

These years take in many noteworthy happenings in the religious, social, civic, educational, military, political, and especially in the business life of the city. Sketches must be such that we can use them in our daily advertising, and must not contain more than three hundred words. We desire to have real interesting articles, rather than literary efforts.

When sending in manuscripts use one side paper only, and we suggest that they be typewritten. We would also suggest that a copy of article be kept by all those sending in manuscript.

Sir Adam Beck, in Annual Report, Shows How Difficulties of Exceptionally Trying Year Were Met—Inefficient and Unstable Labor Supply at Chippawa.

"The commission submits its report with a feeling of satisfaction, knowing full well that its activities have been subjected to an enquiry of the most searching nature, the result of which is a vindication of the policy of public ownership and operation of electrical utilities, and of the commission's methods of management and operation."

Sir Adam Beck, chairman of the Ontario Hydro-Electric Commission, makes the above comment in concluding the commission's twelfth annual report, covering operations during the fiscal year ended Oct. 31 last.

Dealing with the Chippawa project, which is of particular interest, Sir Adam says: "The construction work on the Queenston—Chippawa development, which was commenced in May, 1917, has been pushed night and day since that time. This work, however, has been carried on under great difficulties owing to the scarce, inefficient and unstable common labor supply."

"The vast increase in the prospective market for power has necessitated increasing the capacity of the power plant, which, together with a corresponding increase in the capacity of the generating station, will greatly add to the capital cost of the development, and, based on this increased capacity and with construction under constantly increasing cost of labor and materials, the development will cost much more than the original estimate for the scheme of smaller capacity."

"The estimated progress schedule for giving the development was maintained in all important particulars except in rock excavation, which, on account of the above mentioned labor difficulties, is somewhat behind our estimated schedule, but present progress shows marked improvement, and is greater than schedule."

Demand Soon Revived. The report lays stress upon the difficult position in which the commission found itself in the early part of the fiscal year, because of the sudden following of the armistice, and also because of the great increase in the cost of operations, and says: "At the time of the signing of the armistice, the commission was supplying over 80,000 horsepower to 360 plants working on the manufacture of munitions. Within eight months after the signing of the armistice, the industries in the district had absorbed all of this available power, and so rapid was the recovery of the industry that, before the end of the year all of the available power supply was used up, and it was necessary for the commission to limit the amount of power supplied to the municipalities on this system."

"Anticipating a shortage of power, the commission is negotiating for an additional supply, and expects to obtain at least 20,000 horsepower for this system early in the coming year. "In spite of the enormous, uncontrollable increase in operating expenses, the revenues of the commission have been, in the main, sufficient to meet all operating expenses and necessary fixed charges, prac-

FIFTY DOLLARS FOR WIFE

Novel Claim for Alleged Introduction Dismissed.

Claiming to have been the ambassador for Harry Lang on obtaining a wife for him, Mrs. Shappero, with her aide, Mrs. Anon, entered action in the division court to recover from the happy bridegroom the sum of \$50 as "commission for obtaining him a wife."

Defendant denied that plaintiff introduced her to her husband, and that that honor fell to a barber friend of his own. Mrs. Lang corroborated the evidence of her husband, and swore she had never seen the plaintiff. Judge Morson found for the defendant.

TUESDAY MORNING, MAY 18.

Labor's Chippawa Test.

A difficult labor situation has developed on the Chippawa power canal. The wages settlement of last year is no longer acceptable to the men.

The ground for refusing a board of arbitration was that other men working under Sir Adam Beck refused to accept the award of a board which Sir Adam's London commission agreed to.

It must not be overlooked that there is some suspicion that some influences on the Chippawa Canal are more concerned with making trouble than with assuring workmen reasonable conditions.

Things being where they are, the whole case had better be threshed out in the pitiless light of publicity.

U. S. National Railway Control. A few days ago The World ventured to predict that the American railways would some day revert to government control.

The railways, reverting to private control, found themselves in a difficult position as to financing new equipment and improvements.

At that time the government was footing itself with the notion that the Transcontinental, Grand Trunk Pacific and Canadian Northern Railways would pay handsomely as soon as connection with the Pacific was secured.

Germany is to be told at Spa on June 21st that she must pay a war indemnity of thirty billion dollars.

Falcons. Haldoreen, Fridriksen, Johansen—Manitobans all members of the Falcons, who won the world's hockey championship in Europe. The names

Those who know the west at first hand are aware how splendid the Icelandic settlers have been—and the same is true of the comers from all Scandinavia.

It is up to the rest of us to recognize as Canadians all who are born within these borders, and who are in way of causing others to be born in our midst not merely when they bring glory to the name in all the ends of the earth.

Common Sense in Colonization.

At last there is undertaken a scheme of western colonization that recognizes the basic conditions of immigration. Years ago there were organizations that boosted immigration, chiefly by campaigns in the western States.

With post war conditions, and no longer to be had for a song, business leaders in the prairie provinces have formed the Western Canada Colonization Association which aims to set up an organization in every western community which will take care of newcomers as they settle on lands that are sold by their present private owners.

The association expects to raise \$1,500,000 in a couple of weeks. It originated in Alberta. Contributing founders have given from \$5,000 to \$10,000 each.

SOME ENDINGS.

Alice had not thought how she would tell Lawrence. She dreaded seeing him. She knew what she had to say would hurt him, and she shrank from the thought.

Once, when Alice was quite young, when the Fairbanks had lived on a small farm, way back in the country, she had seen her father's hired man slaughter a cow.

She remembered the dazed, hurt look in the animal's eyes as she remembered it went to its knees at the second blow, and that the third killed it.

But it had to be done, and she thought wisely, the best thing was to get it thru as soon as possible.

Next day, about 10 o'clock, a boy came to the house. Alice knew him as office boy in Mr. Marlowe's office. He gave her a note.

## TAKE THE OPENER FROM THE SKEETERS

### Nice Pitching Duel is Awarded to Pat Shea by One Run.

Blue Monday is over; the Leafs came thru the ordeal with flying colors. Bill Donovan and his much-improved Jersey City Peas opened a three-game series at the island yesterday. The Skeeters have shaken their dark uniforms that adorned them for the last two seasons, and with the dropping of the old rag, Bill's team have adopted pepper and a fine brand of baseball. They fought the Leafs tooth and nail for the full route yesterday, and Duffy was glad to call it off with the only run of the game in the Toronto bat bag.

It was a good pitching exhibition, with Pat Shea tossing them up for the home team, and Biemiller doing the Skeeter end. It was an even tussle, seven hits, and the Leafs won by one run. The heady base-running by Frank O'Rourke showed a brilliant performance throughout the whole game. Shea pitched a promising Skeeter season right from the start, and Biemiller was in trouble by walking Kingston, the first batter. He was forced out second by Zitz, and then Wigwag dropped a hit in center. Bauman hit sharply to left, O'Rourke pegging to second, and it was played to first for the double.

After O'Rourke had batted out in the second Whitman doubled to center, went to third when Biemiller fielded Blackburn's bunt, and tried to third too late to get Whitey. Biemiller fielded the run by getting picked off the third base on a snap throw by the catcher.

The lone run of the game was pushed over in the third by two walks. O'Rourke sprinted to first ahead of the tag to short. He stole cleverly, and took lead off second, and the umpire ordered the Leaf shortstop to third. Spencer's nice hit to right did the trick. Biemiller went well after this, the Duffy-fies getting only three scattered hits in the remaining five innings that it was necessary to play. In the fifth Biemiller struck out Anderson, Sanberg and Shea. Shea nipped himself, and a real Miller's long single. The visitors led until the seventh, when the Bisons rallied and beat the score.

At Buffalo—Buffalo defeated Reading 10 to 6 in a ten-inning game. Jacobs doubled in the fifth and scored Miller's long single. The visitors led until the seventh, when the Bisons rallied and beat the score.

At Akron—Overcast and a six-run lead. Akron nosed out Syracuse in the tenth ending. The manager of the Syracuse team, former manager McConnell, resigned following Sunday's game. Syracuse officials were told to take charge of the team. Score: 11 to 6.

At Rochester—International—Baltimore defeated Rochester 9 to 5, in a poorly-played game. The score: Baltimore 9, Rochester 5.

At Buffalo—Buffalo defeated Reading 10 to 6 in a ten-inning game. Jacobs doubled in the fifth and scored Miller's long single. The visitors led until the seventh, when the Bisons rallied and beat the score.

## VALGER, MONTREAL, JOYCE AND BURKE WIN AT BEST BOXING SHOW OF SEASON

The United Veterans put on a great boxing show last night at the Arena, the best of the season, and there were two sided attractions, the Winnipeg Falcons, world's hockey champions, and Jimmie Wilde, both being introduced from the ring amidst cheers and a modest little speech thru the megaphone by the flyweight marvel. There were four good bouts, and all went the limit. Benny Valger of New York, defeated Nick Michaels of Syracuse, 12 rounds at 133 lbs. They were evenly matched as to size and color, Hebrew against a Scotch, and they battled all the way. Valger essayed to do the leading and Michaels never backed up. It was a great fight. In the second Valger crossed a jolt to the jaw and Michaels went down for the count. This was repeated twice before the bell in the same round. Michaels was in no trouble and always stood back for the fight. Valger went down in the third and Valger went down with a swing to the jaw, but was right again. Michaels to the canvas in the fourth.

The fifth, sixth and seventh were slow with Valger gaining points at night-fighting. Michaels had a shade in the eighth with the ninth even. Valger was fighting well within himself and Michaels over cautious. Valger cut loose in the tenth, was staggered by a right to the jaw, but did not go down. He had all the better of the round and earned Referee Marsh's decision.

Young Montreal, of Providence, defeated Bobby Ebor of Hamilton, in the semi-wind up round at about 120 lbs. Ebor backed up through and a straight left barely reaching the nose was Montreal's best. It started the clarinet in the first.

Someone yelled in the seventh: "Bobby runs a mileage," and he was surely doing a lot of running. Ebor showed a little courage in the tenth when here was a little mixing and at that Montreal had the margin. He was given the decision.

Joyce defeated Benny Gould, 10 rounds, at 120 lbs., because he landed the offense and was always the aggressor. Gould's left was a negligible quantity after the fifth.

McKay of Toronto, beat Pan McKay of Buffalo, in the curtain raiser, 8 rounds at 145 lbs. McKay more or less covered up and was somewhat amusing. There was a splendid crowd that thoroughly enjoyed the fine show.

PLAYS, PICTURES AND MUSIC

"PETER IBETSON," Robins Players Set a New Standard in Dumfries Story at the Royal for a Resident Company.

"Peter Ibetson" is an ambitious venture for a stock company, with its nearly 40 characters, its alternations between events and dreams and its theme, which lay hidden in manuscript for 20 years, and finally reached the stage over the objections of experts who were sure they knew what they were doing.

Obviously a story that could be spelled by the title, and which could only succeed with a Peter whose combination of manliness and gentleness is of exceeding strength and restraint without being excessive.

Excellent Dancing Act the Feature, But Real Funny Act the Star Turn.

It is sometimes possible to have too much of even a good thing. The star act at Shea's Theatre this week comes under that head.

Marie and Mary McFarland described as American grand opera stars are a tenuous couple. The song taken from the Chocolate Soldier was fairly well rendered, but Marie Tempest who first sung it, and she was not a grand opera artist, rendered it better.

"FRENCH FROLICS," Harry Hello Jack Fields Keeps Audience Amused Thruout in Burlesque at Star Theatre.

The "French Frolics," presented by E. Thomas Beatty, and billed as "the supreme leaders of the wheel," is the attraction at the Star Theatre this week.

CAPITAL BILL AT LOEW'S. "Alarm Clock Andy" is Fine Comedy and Gets Good Reception.

Film fans and vaudeville patrons are assured of a first-class treat at Loew's popular Yonge Street Theatre and Winter Garden this week.

AT THE GAYETY. London Bellas Approves All the Merriment, Light and Laughter Desired by Any Audience.

Oodles and oodles of merriment is dispensed by Rose Sydell's London Bellas at the Gayety Theatre this week.

DR. JEKYLL AND MR. HYDE. John Barrymore in Big Feature Production at the Strand.

So complex is the process of producing a picture drama that it is difficult to decide who is responsible for the faults of the screen version of "Dr. Jekyll and Mr. Hyde," at the Strand, this week.

"THE SILVER HORDE" Thrilling Portrayal of Industrial Intrigue Made Realistic Love Story Showing at Allen.

At the matinee performance given at the Allen Theatre yesterday, the screen drama, "The Silver Horde," produced from the famous Rex Beach story, offered a thrilling portrayal of the devices and intrigues of the industrial world, when it enters into competition with those of its kind.

REAL MINSTRELS AT THE GRAND. Harvey's Company of Colored Entertainers Give a Splendid Performance.

Lovers of minstrelsy sensed that Harvey's Greater Minstrelsy was going to be a good show, and the Grand Opera House last night held an admiring, laughing and applauding audience.

SHEA'S HIPPODROME. Peggy Hyland in "Black Shadow" and Good Vaudeville Bill.

Commencing with a recent release from the Fox studios entitled "Black Shadows," in which pretty Peggy Hyland plays the leading role, as Marjory Cooper, the bill from start to finish is excellent.

Dr. Jekyll and Mr. Hyde. Easily one of the best of all high-class dancing acts ranging from ballet to the modern, have been presented on any of the well-staged acts of the Regent Theatre.

"HEART OF A CHILD." Nazimova as the Hovel-bred Stage Favorite Makes Great Hit as Sally Snape at Regent.

It will not detract from the fine work of other actresses depicting emotional parts in film drama to emphasize the fact that Nazimova represents the best and most artistic of the stage in this portrayal of nature's secrets.

CLEANLINESS IS HEALTH. By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs. Removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water. St. Joseph's Alumnae Begin Annual Retreat

The annual three days' retreat of St. Joseph's Alumnae Association was opened in the chapel of the college yesterday morning, when mass was said by Rev. Father Walek Doyle, J. of Guelph, who is conducting the exercises. In his opening sermon, Father Doyle attributed the deplorable conditions of the world today, to the fact that men and women have forgotten to think. They are so taken up with the material things in life that they forget to think of the principal thing, which is the saving of their souls, said the speaker.

THE GRAND PIANO. In Very Much Increased Favor.

The number of orders that are reaching Ye Olde Firme of Heintzmann & Co. Limited, 128-129 Yonge street, Toronto, for grand pianos, is very clear evidence of the strong position the grand holds in the minds of music-loving people. Of course, there is the Concert Grand for the concert platform, and a beautiful Grand for the drawing-room of the most aristocratic residence, and again the Diminutive Grand that is especially constructed to meet the needs of the moderately built house, where the parlors are not overlarge.
