Quebec, Sept. 12.—Explanations of the collapse of the central span of the Quebec cantilever bridge while it was being hoisted into its position from the river yesterday, were being sought today by the St. Lawrence Bridge Company and the Quebec Bridge Commission. Accounts of survivors of the disaster and spectators on the bridge itself and river craft are at a hopeless variance, some eye-witnesses holding that the span itself buckled first and others that the hoisting supports did not work uniformly at one corner, causing the span to sheer round which put too much strain on the other supports and perhaps on the beams of the span.

The resolution, which is not to be taken up before December, but (this did not deter Mr. Gardner from making an inquiry on the closing day of the session and thereby calling attention to the alleged activities of the American Committee and Protective Committee of the American Embargo Conference, "or similar organizations as may be designated by the House of Representatives."

Under this resolution Congress is to ascertain the sources of such organizations funds, their activities and several other details.

The resolution reads: "Resolved, that the Speaker of the House of Representatives, and he is hereby directed to appoint a committee of five members of the House of Representatives, whose duty it shall be to make a full and complete investigation concerning the activities of the American Committee and Protective Committee of the American Embargo Conference, and of such other similar organizations as may be designated by the House of Representatives."

FORMERLY OF NEW BRUNSWICK, DR. D. HENNESSY IS DEAD

Dr. Daniel Hennessy, of Bangor, one of the oldest practitioners in the state died on Sunday afternoon after an illness of several weeks. He was seventy-nine years and nine months old.

Besides his wife, he leaves six daughters and two sons. The daughters are: Mrs. W. G. Hasbain, wife of Mr. Hasbain, N. Y.; Sister M. Eugenia, mother of novices of the Sisters of Mercy at the diocesan motherhouse in St. Catharines, Academy in Deering; Miss Kathleen Hennessy, Miss Teresa M. Hennessy, Mrs. A. A. Murray of Cogswick; Miss N. J. and Miss Helen C. Hennessy. The sons are: Wilfrid A. Hennessy and Harold S. Hennessy.

Dr. Hennessy was born on December 26, 1846, in Bundin, Ireland, and was educated in New Brunswick when an infant by his parents, who were members of a colony that left Ireland because of the famine and came to Canada. His parents took up a large farm in Melrose, Westmorland county, and his youth was spent there.

The opportunities for education were limited, but an old schoolmaster named Gilbert Wall, a typical Irish pedagogue of those days, who had emigrated from Ireland. To him and to his own early ambition for an education was due Dr. Hennessy's schooling, and in often spoke of the nights he had spent in study, with candles and a big open hearth furnishing illumination.

Dr. Hennessy was a member of the Penobscot County Medical Association, the Maine Medical Association and the American Medical Association. He was a director of the Bangor Loan and Building Association, and was a member of the Holy Name Society of St. Mary's church.

He was always kindly, and his ministrations to the many patients who came under his care in his long professional career will be cherished memories now that he is dead. He was one of the most active workers for the establishment of St. Mary's church, and was always a generous supporter of the work and institutions of his faith.

THE RETURNED SOLDIER.

Amidst the patriotic enthusiasm in the early days of the war many business men, as an inducement to recruiting, announced that some of their employes who joined the colors would be assured of a restoration to their positions on the return of the war. The time has arrived when the promise thus made is to be remembered, and we trust, honored. Already a large number of soldiers are returning in a more or less disabled condition. Where a man has been entirely disabled he, of course, cannot call upon his former employer for the redemption of the promise. The Pension Fund and the Patriotic Fund must deal with such a case. But there will be many cases in which the disability, while sufficient to disqualify the men from further military service, will leave them in a condition to be useful in the character of the work to be assigned to them may be necessary, and possibly a change may be necessary in the rate of salary or wages, owing to diminished efficiency. But an earnest effort to give the soldier his old place, or some other place in the same establishment would do much to make him comfortable. One who has long been engaged in one establishment may have a justifiable pride in his connection and desire to maintain it. Work elsewhere, if it be found, will not be quite the same as in the old place.—Journal of Commerce.

These men have traveled extensively and have visited all the noteworthy summer resorts in America, but the natural beauties of St. Andrews and its surroundings captivated them and they thought St. Andrews excelled any place they had yet visited. The attractions were naturally inviting and with real good weather the outing was greatly enjoyed and most favorably impressed the visitors.

It is the intention of the C. P. R. office to invite these men back again next summer and take them to the places of interest in other parts of the maritime provinces and let them see the beauties of our country in summer.

Owing to the great demand for accommodation in the Algonquin Hotel during the past few months, it has been decided to extend the season until September 30. There have been tourists from all over Canada and the Southern States at the Algonquin this summer, and a most successful season will be brought to a close at the end of September.

DISORDERLY HOUSE CASE

In the police court this morning evidence was taken in a case against Minnie Burns, colored, charged with being proprietress of a disorderly house, and Pie, Arthur Howe, of the 62nd house guards and Jeremiah Daley, with being inmates.

Another charge was made this morning against the woman, that of having liquor on the premises without a license.

Police-man McNamee said that the landlord spoke to him on Pond street last evening and asked him to visit the house in No. 2 City road, occupied by the woman. He and Acting Sergeant Journeyman went and made the arrests. The two men were drinking and bad language could be heard. Daley violently resisted Police-man McNamee and kicked him in the head.

Police-man Journeyman corroborated the witness.

Thomas Hofer, owner of the house, said that he had tried to get the defendant out long ago.

Detectives Barrett and Briggs gave evidence of finding the liquor in the house after the trio had been taken to the station. The magistrate remanded all the prisoners and the case will be continued again tomorrow.

An Austrian was fined \$8 or 10 months in jail for drunkenness.

Germans Expect To Stay in Syria Military and Railway Operations Give Every Evidence of Permanency

LONDON, Sept. 12.—The London Times publishes an article by a neutral who recently travelled in Syria, and who knows the country well. The writer describes the great preparations which the Germans are making in Syria.

The writer of the article says—"The railway over the Amanus mountains from Lalalah, where the break in the Bagdad railway occurs, is new, and has all been built within six months or a year. It is not fully installed. There are no guard rails, no finished cuttings, and apparently is only a temporary railway to be used until the time is come when it is to be replaced by a permanent line of iron.

The railway crosses the Amanus mountains and enters in long, straight, and after five rounds enters the German headquarters at Mamoura, along the railway station. The break in the Bagdad railway is forty-five miles long and is being worked by motor traffic. From 15,000 to 20,000 Turkish peasants are at present employed in the heavy rebuilding of the line. It ends in a beautiful Alpine-like valley at a place called Bontani on the main line, whence start the trains for Saida-Fasha.

Government Remains Strictly Neutral. If Quebec is not doing and will not do her share with the rest of Canada in this war, what then? Are we also to hold back because Quebec does not go forward, or are we, not rather to pitch in the harder because no matter what happens we must see to it that we win this war?

AIR MAIL SERVICE A BOON Will Double Deliveries in Alaska at a Reduced Cost.

The proposed new aeroplane mail service in Alaska, announced in the United States congress on Saturday by Representative Murray Hulbert of New York.

part in the defence of their country and empire, why should others who cease them for it, still follow their bad example? That is just what it amounts to. They end up just where the others end up, in doing nothing and shirking the call that they plainly hear and inwardly feel. In after life it will avail them little to declare that they would have gone to the war but for the fact that somebody else did not go either, and both hung back together. Those who rank them as two of a kind, and put the question straight to yourself, how else should they be ranked?

It is true that the government of the country has been a slacker itself and has side-stepped the responsibilities of government in the matter of recruiting. It has left to willing soldiers not only the duty of fighting but the whole work of recruiting. The government has put upon those who first volunteer the job of hunting up others whom they can induce to volunteer likewise. The recruiting officers have been thrown on their own resources. They have had no official aid from the nation. They have not even had the influence of the government exerted in their favor to impress public opinion in behalf of what they are trying to do. The attitude of the government has been one of studied neutrality in the dispute between the soldier over the slacker. They have been left to argue the matter out between themselves.

THE ONLY MEDICINE THAT HELPED HER

"Fruit-a-tives" Again Proves Its Extraordinary Powers

Rochon, Que., March 2, 1915. "I have received the most wonderful benefit from taking 'Fruit-a-tives'. I suffered for years from Rheumatism and change of life, and I took every remedy obtainable without results. I tried 'Fruit-a-tives' and it was the only medicine that really did me good. Now I am entirely well—the Rheumatism has disappeared, and the terrible pains in my body are all gone. I hope that others, who suffer from such distressing diseases, will try 'Fruit-a-tives'.

will mean a saving of twenty-one days in time and of \$24.08 net in expenses. Augustus L. Post said in discussing the plan at the Aero Club of America yesterday. It will make possible two deliveries a month in winter instead of one, and it will shorten the distance to be covered by the mail carriers from 698 to 380 miles.

The scheme of expediting mail delivery by air service in districts where the transportation facilities are limited had been under consideration by the post-office department for some time, Mr. Post said, and it is now ready to attempt a practical experiment to see whether it can actually be carried out. The route for which a winter aeroplane service has been received runs between Seward and Nonge.

By steamer and roads the mail now has to be carried over a route which might roughly be described as two sides of a right-angled triangle. The aviator who will perform the service under the new arrangement will be able to follow the straight line forming the hypotenuse of the triangle. The amount of mail to be carried by each machine will be limited to 1,000 pounds. The severe climate would not be an insuperable obstacle, as aviators are now flying in the winter over snow and ice in Sweden and Russia. Followers of aeronautical affairs are watching developments.

HAVE FAITH IN THE CHILD.

It should not be imagined for one moment that any mechanical system of officials or institution is capable of reforming the delinquent or neglected child. The rigid type of institution with its strict disciplinary methods is apt to create callousness and confirm wrong tendencies, sympathy and comradeship on the part of the social worker is what is needed. Love alone can soften the heart and prepare the way for a changed life. Human character can never be moulded by external forces. It is the awakening of the soul, the planting of some good impulse within, that leads to all lasting improvement, and it is upon this principle that the juvenile court is founded. Unless those who are associated with reformatory effort can impart something of their own personality—convince the child of sincerity and singleness of purpose, inspire with high resolves, and create ambition to overcome faults, then the time spent will all have been in vain. Faith in human nature is essential and there must be a large investment of confidence and trust in the child if there is a real desire to draw out the elemental good. The only education worth while, whether in or out of an institution, is that which permits a fair measure of personal decision, self-control and initiative. And to those who make an honest effort to help a child there is the encouraging thought that, even though they fail to see an immediate response, the good seed planted with earnestness and in hopefulness, will surely take root and blossom forth when the waywardness of adolescent life subsides into more thoughtful channels.

THE GROWING CASUALTIES.

Canadians are again figuring heavily in the casualty lists. They are fighting on the Somme front, where the Germans are making desperate efforts to check the slow but steady advance of the British and French.

CARLETON COUNTY.

The Standard this morning devoted nearly two columns of editorial space to a statement of reasons why the people of Carleton county should endorse the government which has taken Mr. J. K. Fleming and his works to its heart of hearts.

The object of the Standard is plain. It desires to divert attention from the real issues in the campaign. It is afraid of the truth. The government's record is too shameful.

The appeal sent by opposition leaders in the county to all the ministers of the gospel, directing their attention to the offer of an agreement and arrangement with the government party to prevent the use of rum and money, and urging that they use their influence to secure such an agreement and arrangement.

DEADLY MENACE OF THE ICEBERG

A Constant Danger to Ocean Shipping

Where They Come From

Mysterious Disappearances of Steamers Laid to Hidden Danger of Immense Bergs, Shrouded in Fog

Years have met disaster through collision with icebergs in the waters off Newfoundland. All other records in this regard, however, were completely overshadowed by the appalling disaster to the Titanic. His mighty master creation, the greatest the world has ever seen, was eliminated in the brief space of a few hours, through the mistakes of some of those in authority on board, and the fact that she could not see the iceberg which she could not see through the mist and fog.

As the summer advances and the sun becomes more powerful, the bergs melt into smaller fragments or upset and break into pieces on the shoal ground of the Grand Banks, being then swept into the Gulf Stream, where they lie in the way of the steamers plying east and west and cause the shipping casualties so frequent during these months. Still more sinister, however, is the fact that the coast of Newfoundland in the spring and summer, and move southward in the fall.

Admittedly the worst danger menacing transatlantic travelers in modern days, with steamers of such speed as are plying on the Atlantic, is that of collision with an iceberg in a dense fog. It is morally certain that the mysterious disappearance of big steamers like the Naronic and the Huronian in more recent years, and of many others previously, is attributable to this cause, for no other agency is usually powerful enough to work the ruin of a modern liner with her colossal bottom and watertight bulkheads.

The outstanding fact with regard to the ice patrol service is that it is markedly effective in lessening the danger to ships traversing the ice-zone by the warnings which it sends out from day to day, which enable passing vessels to give a wide berth to these obstructions. But the problem of detecting ice in the immediate vicinity of a steamer has not yet been satisfactorily solved, though Professor Barnes is actively pursuing his investigations in that direction. His experiments, it is hoped, will ultimately result in the devising of an instrument which will reveal the close presence of ice through the readings it will give of the water temperatures in the vicinity of bergs and floes, so that the combination of warmth in the surface temperature, cold farther down and still greater cold at a lower depth, will represent a warning that no prudent skipper will disregard.—From "The International Ice Patrol," by P. T. McGrath, in the American Review of Reviews for September, 1916.

This medicine made from roots and herbs has for forty years been alleviating the suffering of women, making them healthy and strong, and better wives and mothers.

During the hot weather young children are very much subject to diarrhoea, a fact more so than adults, on account of the more delicate construction of their constitution. It behooves every mother to look after her children on the first sign of any loosening of the bowels, for if they do not some serious bowel trouble such as diarrhoea, dysentery, cholera infantum, cholera morbus, summer complaint, etc., is liable to follow, and they will, perhaps, lose their little ones by not taking the precaution to check their looseness of the bowels by using Dr. Fowler's Extract of Wild Strawberry.

The best doctor's advice is to find the cause of many of these headaches, and in most cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe certain pain relievers, which give temporary relief, but the headache returns as usual, and he does not know what their nature, take into account the fact that the cause will be satisfactory in the highest degree. You can obtain relief from headaches in any quantity, 10, 20, 30, 40, 50, 60, 70, 80, 90, 100, 110, 120, 130, 140, 150, 160, 170, 180, 190, 200, 210, 220, 230, 240, 250, 260, 270, 280, 290, 300, 310, 320, 330, 340, 350, 360, 370, 380, 390, 400, 410, 420, 430, 440, 450, 460, 470, 480, 490, 500, 510, 520, 530, 540, 550, 560, 570, 580, 590, 600, 610, 620, 630, 640, 650, 660, 670, 680, 690, 700, 710, 720, 730, 740, 750, 760, 770, 780, 790, 800, 810, 820, 830, 840, 850, 860, 870, 880, 890, 900, 910, 920, 930, 940, 950, 960, 970, 980, 990, 1000.

WHAT'S NEW AT THE MOVIES

WILLIE COLLIER, JR., BOY STAR AT THE GEM

Prodigy of the Movies in Stirring Ince Production, "The Bugle Call"—Al. St. John in Great Comedy

Under the capable direction of Thos. H. Ince, one of the foremost supervisors of moving picture productions in the whole world of animated pictures, Willie Collier, Jr., fourteen years old, made his debut as a movie star and Gem patrons saw his work last night. The already famous son of a famous father—Willie Collier, of Broadway note—the youthful player was introduced in "The Bugle Call," a five reel story of the west in the days when Indians scouted the pioneers' stockades and storms roamed the plains. The boy plays the part of the son of Captain Andrews, commandant of an army post in the sixties of the last century. His one ambition is to become a good soldier, but what he deems trouble comes into his young life. His father is about to marry for the second time and the boy can conceive of no woman taking his dead mother's place. Comes the wedding and then the new mother tries to win over the little fellow. The father is called away to quell an uprising of Indians and leaves his bride in the stockade in charge of the boy. Taking advantage of the absence of

the troops, the Indians return and attack the fort. Young Billy becomes a hero and how he saves his step-mother and the stockade makes a stirring, gripping picture. It is here that "The Bugle Call" plays an important part. Young Collier plays his role with the ease of a stage veteran and patrons of the Gem were electrified by his wonderful work. The picture is replete with exciting episodes and with characteristic scenes and incidents of western life in those rough old days. There are big thrills in the film and it grips you hard. Al. St. John, one of the Keystone comedians, starred in a two-part comedy, "The Moonshiners," and provided merriment galore. This programme will be repeated twice tonight and on tomorrow and Thursday will come the solution of "The Strange Case of Mary Page." There are some surprises in the closing of this master serial. There also will be a big feature picture. A rich programme is also provided for Friday and Saturday.

DAINTY LOUISE HUFF PLEASES AT UNIQUE

"Destiny's Joy" a Frohman Play, "Pirates of the Air" a Good Comedy
Now that the regular theatrical season is starting in earnest the different theatres are putting forth every effort to make their programme as attractive as possible. The Unique Theatre has not been behind the least mite in this respect for last weeks saw the screening of two excellent productions there and better things still found their way to the screen yesterday. First of all Dainty Louise Huff, long

since a favorite with the followers of Famous Frayer productions was presented by Daniel Frohman in a stirring play of love and sacrifice, "Destiny's Joy." To say the least this is a pretty picture, made so by the theme itself and the beautiful natural settings used as a background. The views of the sea were photographed at Block Island, one of the many picturesque spots along the Atlantic coast. The play is not without its thrills and moments of excitement but the main factor of the entire production is the excellent acting of the dainty star, Miss Huff. Her performance in "Destiny's Joy" is a masterpiece of acting and is captured by one of a band of wharf "rats" she gives a portrayal of a character that under any circumstances would not be an easy one. When lifted from the environment of crooks and beggars and placed in the home of the Rev. Robert Carter much to the dismay of the reverend gentleman, "Block," she records a piece of acting that is not seen every day on the screen. She draws the type perfectly and has no difficulty whatever in making her personality reach out from the screen and grip every onlooker. The other members of the cast were exceptionally good and in fact there was not one jarring note in the entire picture.

MASTER PICTURE, "THE OVAL DIAMOND," AT LYRIC

Thanhouser Production Full of Surprises; Something New in Equilibrist Act
The cool autumnal air had a tendency to make many forget that the band was playing in the square last night and a large crowd wended their way to the theatres, and from this crowd the Lyric was successful in playing to well filled houses at both shows. The masterpiece was called "The Oval Diamond," which is a detective adventure story of a rather breezy and attractive type. It is melodramatic in its principal elements, but is very acceptable and proves an excellent production. It is well staged and well acted which, with the assistance of good photography, makes it well abreast of the average play of this type.

Surprise after surprise follow each other with such rapidity that the spectator is kept on the qui vive continually wondering what will happen next. The plot centers around a large diamond found in South Africa by a miner, upon whose death the stone is placed in the keeping of his daughter. Her uncle, knowing the stone is in the possession of the girl, succeeds in securing it, and he in turn is chased by a band of miners who were also in the secret. The different hiding places of the jewel and the remarkable manner in which it is juggled around, now owned by this person, now by that, make up a picture that for the number of unusual scenes presented alone commend it very strongly to the follow-

ers of the shadow stage productions. Barbara Gilroy, Harris Gordon and Arthur Bauer head the cast. The Thanhouser Co. are the producers and as is the case in most instances where the Thanhousers start out to accomplish anything, they do it well, and The Oval Diamond is no exception. The Teddnards, in a unique equilibrist turn, did not offer a cut and dried act of this nature but presented something new and pleasing. Their different accomplishments in tumbling, balancing, etc., brought forth unstinted praise and they were encored time and time again. Ripple and Fairfax, a dainty sister act, has been billed for the last three days of the week. When Grandma Danced, her feet seemed scarce to touch the ballroom floor. To lifting music's measured beat they tapped the tango's teasing score. It was as if she'd fain repeat The giddy girlhood days of yore When Grandma danced. She scorned my offer of a seat; Instead, her programme handed o'er A-weary, footsore, fagged with heat, I had to take a couple more, When Grandma danced. —Terrell Love Holiday, in Life.

CLEVER PRODUCTION AT OPERA HOUSE
"On Trial." Well Known Play Given Good Presentation That Pleases Greatly
The second week of the engagement of the Klack-Urban Company in the Opera House was opened last evening with the presentation of the well-known play "On Trial." The production is one of great dramatic interest and the tension is well sustained until the last curtain.
The story of the play is related by means of the evidence presented in a murder trial. Each scene opens in the court room but, instead of depending on the simple story of the witness to reveal the plot the "cut-throat" production of the play and, as the witness on the stand is proceeding with the evidence, the courtroom fades away, and the actual events are enacted for the benefit of the audience. Eleven changes of scene are necessary for the unfolding of the story. Justification of the "unwritten" law seems to be the main theme of the play and the action is based on murder, theft, abduction and similarly unpleasant events. It is written so well as to make one wish that the talents of the author had been employed with a plot that would not be quite so unnecessary.
In producing it the stock company gained fresh laurels. Opportunity is given to every member of the company and each responds admirably to the calls made upon him or her. Each character was carefully delineated and each member of the company contributed to a most successful production. The large audience present last evening was generous with the applause and big houses may be expected tonight and for the two performances tomorrow.

REPUBLICANS WIN MAINE
Portland, Sept. 11.—At 12:30 o'clock tonight the indications, based on a tabulation of the vote from a little more than half the precincts, were that the Republicans had won the state election today by a safe plurality.
If the ratio of the Republican margin is maintained, Carl E. Milliken will be elected governor by about 11,000 plurality. Bert M. Fernald, Republican, seems to have been elected for the short term in the United States senate, and the same ratio of gain would give him a plurality of 4,500.
United States Senator Charles F. Johnson, Democrat, apparently has been elected by Frederick Hale, by an indicated plurality of 4,500.
If the Republican congressional candidates hold the lead they had at the above hour, three, Louis B. Goodall, in the first district, Congressman John A. Peters, in the third, and Ira G. Hervey, the fourth, will be elected. Congressman Daniel J. McMillen, Democrat, appeared to have been defeated in the seat

THE LITTLE COUNTRY THEATRE

The United States department of agriculture recently sent out hundreds of letters to farmers' wives asking them what would make life on the farm more attractive.

With a knowledge of these basic facts in mind the idea of the Little Country Theatre was conceived.

The impulse of building up a community spirit in a rural neighborhood had come from without, but the real work of socialism must come from within.

The object of the Little Country Theatre movement is to produce such plays and community programmes as can be easily staged in just such places, or, in fact, in any place where people assemble for social betterment.

MISS JOAN COSTER WEDS IN HALIFAX

Bride of J. W. Phillips of Framingham, Mass.

BRIDE A ST. JOHN GIRL

Going to States to Live—Captain Jago's Sister to be Married This Evening to Geo. D. Hatfield

Halifax, Sept. 12.—Dean Lloyd, this afternoon in All Saints' Cathedral, officiated at the marriage of Joan Cecil Holbrook, daughter of Mrs. George Carter Coster of St. John, and Julius Wallingford Phillips of Framingham, Mass. He was assisted by Rev. Karl Harris, rector of St. Peter's church, Albany, N. Y., brother-in-law of the groom. Accompanied by her mother and sisters, Miss Coster, the bride arrived in Halifax on Saturday evening, the three being the guests of the Misses O'Neil, in the city.

There was general gratification at the fact that it was so perfect a September afternoon whose sunlight flooded the sanctuary, revealing all that is beautiful within it. The decorations of the chapel were of tall palms. Upon the holy table the white lilies were mingled with the delicate green of maidenhair fern.

Mr. Sangar, the cathedral organist, gave excellent renditions of the wedding marches. The full choir sang the hymn "O Father All Creating" and "May the Grace of Christ, Our Saviour, and the Holy Spirit be with us." The bride and groom were accompanied by the groom's father, Mr. J. W. Phillips, a charming figure in her gown of cream satin and lace and carrying a bouquet of sunset roses, attended as bridesmaid. The best man was Mr. Hooper of Framingham, Lieut. Colonel Armstrong and G. E. Nicholas acted as ushers. The ceremony was followed by a reception at the residence of the Misses O'Neil, and later followed by the best wishes of a host of friends throughout the maritime provinces. Mrs. Phillips left for a wedding trip at the conclusion of which they will take up their residence in Framingham.

The collection of wedding gifts was a large, beautiful and valuable one, bespeaking regard in unqualified terms.

Halifax, N.S., Sept. 12.—There will take place very quietly at half past seven o'clock this evening at the residence of Capt. J. Jago, brother of the bride, the marriage of Lily Stephens, only daughter of Mrs. Mary Jago, and the late John W. Jago, R.N., and George Doane Hatfield, both of whom are great friends of the bride. The bride and groom will be unattended. They will leave immediately after the ceremony for a wedding trip upon their return after which they will be temporarily at Mr. Hatfield's cottage across the Arms. Captain Jago will give his sister away.

The provincial headquarters asked the local branch to donate 15,000 pair of socks which will be sent to the Canadian soldiers at Christmas time. Work will be commenced by the members immediately and those who wish to contribute may send their donations to the depot on Chipman Hill.

The work for the coming season will be outlined at the annual meeting next month.

There is a new hospital about to be opened in Ramsgate, England, under the direction of the Red Cross and there are needed about 700 beds to fill it. It is called the Princess Patricia. What will be done by the Red Cross here for the new hospital is to be considered.

October 19 has been set aside by the British Red Cross for a general appeal for help. The local branch will join in the appeal and just what will be done will be decided at the annual meeting.
