DELICIOUS "SYRUP OF FIGS" FOR A BAD LIVER OR SLUGGISH BOWELS

This Gentle, Effective Fruit Laxative Thoroughly Cleans Your Stomach, Liver and 30 Feet of Bowels of Sour Bile, Poisons, Gases and Clogged-up Waste

A harmless cure for the sick headache, for biliousness, for a sour, gassy, disordered stomach, for constipation, indigestion, coated tongue, salivary glands, pimples—take delicious Syrup of Figs. For the cause of all these troubles lies in a torpid liver and sluggish condition of your thirty feet of bowels.

wonderful stomach, liver and bowel cleanser, regulator and tonic, the safest and most positive ever devised. The day of violent purgatives, such as calomel, pills, salts and castor oil is past. They were all wrong. They acted by flooding the bowels with fluids, but these fluids were digestive juices. Syrup of Figs embody only harmless laxatives, which act in a natural way. It does what right food would do—what eating lots of fruit and what plenty of exercise will do for the liver, stomach and bowels.

Little Beauty Chats

The Art of Acquiring Pretty Lashes and Brows

THE woman does not live who scorns long curling lashes and delicately arched brows. This is just as it should be, as pretty lashes and brows do much to add to the beauty of the face.

One way of promoting the growth of brows and lashes is to keep them free from dust and powder by brushing them once or twice daily with a dry eyebrow brush. A half dozen strokes upon each brow will suffice but it is generally necessary to devote a little more time to the toilet of the lashes, because, after they have been carefully treated until they look as silken as possible, the devotee of beauty must proceed to brush the ends of the lashes up, as this will tend to make them curl, a gain not to be despised.

Now let me tell you, dames and damsels all, of a good brush and lash grower. It is effective, it is inexpensive, it can be easily obtained. Surely heart of woman could ask for more. This makes beauty aid is nothing more than warm sweet almond oil. Massaged nightly into the brows, and applied once every twenty-four hours to the outer edges of eyelid rims, it will soon bring about a gratifying change in lash and brow condition, so each hair will be seized with a wild desire to outgrow its fellows. The results will be pleasing, to say nothing more.

REPORT SAYS ALBERT SHALES SOLD TO THE ADMIRALTY; BIG FIGURE

It was reported today that the extensive oil shale areas in Alberta county owned by the Government of the British Admiralty have been sold to the Imperial Government for a syndicate headed by Senator Donville.

Colonel Donville, when asked about the matter, said that he was not in a position to talk about it and would not confirm the report but neither would he deny it. It is generally known, however, that negotiations have been in progress and their successful culmination would not come as a surprise.

The negotiations are being handled by the financial representatives of the company in Great Britain. If the transfer goes through it will make one of the largest, if not the largest transfers, ever recorded in this province.

CHRISTIAN CHURCHES, FOR CENTURIES MOSQUES, NOW ARE CONSECRATED AGAIN.

Changes in Salonica as Result of Defeat of Turks Are Marked. Salonica, Jan. 6—Salonica is a very different city from what it was a few months ago under Turkish rule.

As soon as Salonica was occupied by the Greeks army the non-Turks there availed the visible sign that stamped them Turkish subjects. All the hats in the city were soon brought up, and those who were soon bought up and those who were soon bought up and those who were soon bought up.

The older Christian churches, St. Sophia, St. Dimitrie, and St. George's, which had been mosques for more than 400 years, were being consecrated again as Christian churches by the Metropolitan Bishop of Salonica, who followed the king hierther.

Like all churches, under Turkish rule, the stock of sawn lumber for the English market, now lying on their wharves on the Miramichi, to Frank Harrison & Co. of Liverpool, Eng. F. E. Neale, representative of the latter firm, came from Montreal to complete the deal.

GOMPERS DEFENDS LABOR FEDERATION. Washington, Jan. 6—Samuel Gompers, president of the American Federation of Labor, speaking today before the senate sub-committee on judiciary in favor of the Clayton anti-injunction and contempt bill, gave answer to criticisms aimed at the organization of workers which he heads because of the dynamite trial and conviction.

"If ever the time shall come," said Mr. Gompers, "when government by dynamic shall be attempted (and in his hope and work that it never shall come), it will have as its main cause the theory and policy upon which is based government by injunction—personal government forced upon our people instead of a government by law."

In closing his statement, which included an attack upon the employers' and manufacturers' associations, particularly the United States Steel Corporation and the National Erectors' Association, Mr. Gompers declared that organized labor would not repudiate the Structural Iron Workers' Union "and leave them helpless and at the mercy of organized capital and insupportable unscrupled greed for profits."

Mr. Gompers defended the American Federation of Labor as a force for betterment of conditions and resented the attacks made upon it.

The Evening Times and Star

ST. JOHN, N. B., JANUARY 6, 1913. The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sundays excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

A CHIRING OUTLOOK When one takes time to enumerate the important projects affecting St. John which will be in progress or brought nearer to the practical working stage this year it comes very clear that there will be an active demand for labor and materials and an increase in population. Referring to St. John itself we have— Increased activity at the great Courtyard works, including the dredging. Completion of the new wharves and elevator at West St. John.

Construction work on the new bridge at the falls. Reclamation of the large area at the south end for factory sites for T. McVety & Sons, Halsey Bros. & Co., and shape others. Erection of the sugar refinery, which is cost from \$2,500,000 to \$3,000,000. Erection of two great warehouses on Foster street, one six and the other eight stories high. Increase of 50 per cent in the capacity of the Parisington pulp mill.

Extension of the street railway line and consequent extension of the residential portion of the city. Probability of initial expenditure in connection with steel works and shipbuilding. The extension of a natural gas supply to St. John. Establishment of a large cement plant. Expansion of the New Brunswick Hydro-Electric Company in connection with that new source of heat, light, and power.

Industrial activity increased by the two new iron factories, the automobile factory, the enlarged confectionery works and a west side foundry. Construction of the new marine depot at the west side. Erection of the new Bank of British North America, the complete remodeling of the buildings purchased by the Merchants Bank of Canada and the Quebec Bank, with the erection of new buildings for the Bank of Montreal and the Royal Bank. The probable construction of some apartment houses, and possibly a large hotel. Great activity in house building to meet rapidly growing demand, as the housing pact of the city is fully taxed, and the city will be many new-comers to be accommodated.

On the outside, but also affecting the interests of St. John, there will be— More extensive work on the St. John City Railway. Completion of the Gibson & Minto Railway and expansion of the coal mining industry in Queens county. Further development work at the gas fields and among the oil shales of Albert county. Increased output of the Gloucester iron mines. The probable beginning of development at Grand Falls. Industrial expansion in various parts of the province, and further development of orchard industry and of agriculture in general.

SENATOR CAMPBELL OF WEST TORONTO DEAD Prominent in Liberal Circles For 25 Years and Head of Flour Mills Company Toronto, Jan. 6.—Hon. Archibald Campbell, founder and head of the Campbell Flour Mills Company, Ltd., of West Toronto, and active in local and federal Liberal circles for twenty-five years, died yesterday afternoon after an illness of three weeks, and following an operation on Dec. 31. Mr. Campbell was elected to the Kent seat in the house of commons, which constituency he represented until 1910. In that year he contested the West York federal seat against the late Hon. N. C. Walter, but was defeated. He was returned for that seat, however, on the death of the sitting member in the following year. Then, from 1904 until Nov. 1907, Mr. Campbell represented Centre York in the house of commons. He was called to the senate in the latter year by his ex-cousin Earl Grey.

George McIninch's Camp. I tell you of a lumber crowd that just consists of three. It is the chopper who chops the trees down like Charley and Fred with a saw. I follow him round all day. At night when Billie goes to camp with his dog, I'll sing and sing Fred hang on to your horse. I'll put them on the Valley Railway in the spring. Here is inspiration such as Walt Whitman could not impart or, for that matter, asperse himself. Taken with a large dose of sum the poem needs no interpretation. Set to music by a competent minstrel it ought to make the giant trees of fiction fall down as fell the walls of Jericho.

"But later that night Jim practised for almost an hour or more And then he fell on his ear; But later that night Jimmie voiced his delight That there's only one Christmas each year!

Taft Willing for Arbitration. New York, Jan. 6.—President Taft today declared himself unequivocally in favor of arbitrating the dispute between the United States and Great Britain over the Panama canal tolls, in the event that the pending negotiations between the two countries fail in bringing about a settlement. This was the first public declaration of the president of his attitude toward the question. He was speaking at a luncheon given in his honor by the International Peace Forum.

Only One Way to Stomach Health. Eat Three Meals a Day and Let Stuart's Dyspepsia Tablets Digest Them. The Stomach Stomach Recover After This Brief Rest. The very worst thing you can do is to starve yourself to overcome stomach misery. Make your meals just as complete as possible. Use Stuart's Dyspepsia Tablets freely for a while and all trace of stomach trouble will be gone. Dieting is a fallacy. The intensive fasting and gardening of the present day forces such quick results that the stomach requires assistance to digest the quantity of flesh-forming elements of former days. Thus we get a surplus of

Stuart's Dyspepsia Tablets. You Can Make Every Meal Feel Satisfying; meats are often despoiled of much of their nutritive quality; the soil is depleted of the amount of vegetable salts it ought to have. We do not obtain the natural ripened fruits and vegetables hence the stomach requires assistance to digest an overabundance of fibrous material and take care of fruit acids that Nature had no chance to convert into grape sugar. So we need more peptic than the system can supply, more diastase, more of the natural tonic and prosecretory properties which ripened vegetation should give us. This deficiency is made up in Stuart's Dyspepsia Tablets and is the only way to have stomach-health under modern conditions. Try just one box and you will never want to be without this wonderful remedy for stomach troubles. Stuart's Dyspepsia Tablets contain an ingredient, one grain of which will digest 3,000 grains of food. They are so entirely harmless because they have absolutely no effect on the system one way or another except to do just the one thing—digest food. Every drug store sells and recommends Stuart's Dyspepsia Tablets. The price is 50 cents per box.

INCREASED PAY FOR MANCHESTER LINE OFFICERS AND OTHERS. The Imperial Merchant Service Guild learns from its members that several large companies have granted increases of pay to their officers. One officer writes—"I feel sure that this has been brought about by the guild, I can only say how thankful I am to be a member and to think there is such a strong society always looking out for the interests of officers of the mercantile marine. I sincerely hope the guild will continue to do the good it has been doing for the past years." The guild has also heard officially from the Manchester Liners Limited, that, commencing from January 1, 1913, the wages of their chief officers will be increased \$1 monthly to all those who have held that position for two years, and \$2 to those who have been in that position for five years, without promotion. ST. PETER'S CHURCH The Year Reviewed by Rev. Charles McCormick, Rector.

At the high mass in St. Peter's church yesterday morning the rector, Rev. Charles McCormick, C. S. R., presented the annual statement in connection with the church during the year. It had been most pleasing and encouraging. He made feeling references to the departure of Rev. A. J. Duke, C. S. R., and spoke of his regret at having been called away, but obedience to the will of his superiors was a characteristic of every valiant soldier, and accordingly there was no other course but to go. Since he, himself, the speaker said, had been sent to labor in St. Peter's, much to his own surprise, he had greatly appreciated the hearty welcome accorded him and

STORY OF THE LAND WAR IN IRELAND ENDS

Expiry of The Evicted Tenants Acts of 1907 and 1908

RESULTS ACHIEVED More Than 500 Restored to Their Homes and Lands, Many of Them to Find Conditions Improved—Charges Lower Than Old Rents

(Times Special Correspondence.) Dublin, Dec. 2.—One of the most interesting chapters in the agrarian history of Ireland will close on Dec. 31, when the evicted tenants' act of 1907 and 1908 expire. With this expiration the story of the great land war may fairly be said to have ended.

These acts were a measure of tardy justice to the men and the descendants of the men who were evicted from their farms and homes in the middle of the last century in the course of the great war between landlord and tenant, which led to the land purchase acts, under which the landlord has virtually been banished from Irish soil. These victims of the war were not provided for under the land purchase acts and became necessary to do something for them.

It was estimated that there were 2,000 of these evicted tenants and in 1907 a law was passed empowering the land commissioners to acquire land compulsorily for their benefit, it being understood that wherever possible their old farms should be restored to them. The act was to run for four years, but after it was extended for another year.

The first year's working of the act, however, revealed a serious defect. It was provided that "no tenanted land be acquired compulsorily which is in the possession or occupation of a bona fide tenant using or cultivating the same as an ordinary farm in accordance with proper agricultural husbandry."

This was a sweeping victory for the evicted tenants for it made it possible for the tenants to bring public opinion to bear on the landlords in possession. In many districts they were glad to take the liberal compensation offered by the land commissioners and go. It was unofficially said that since then Englishmen imported by the landlords, and the commissioners found themselves up against a stone wall which was passed providing that the land might be compulsorily acquired if "the tenant in possession consented in writing."

This was a sweeping victory for the evicted tenants for it made it possible for the tenants to bring public opinion to bear on the landlords in possession. In many districts they were glad to take the liberal compensation offered by the land commissioners and go. It was unofficially said that since then Englishmen imported by the landlords, and the commissioners found themselves up against a stone wall which was passed providing that the land might be compulsorily acquired if "the tenant in possession consented in writing."

It must be said for the landlords that those of them who accepted the situation with a good grace, and did all in their power to expedite the working of the act, did so for the Bourbons, Lord Clanciarde, however, made a bad case of it. He is unofficially said that since then Englishmen imported by the landlords, and the commissioners found themselves up against a stone wall which was passed providing that the land might be compulsorily acquired if "the tenant in possession consented in writing."

This decision was followed by a bitter war of boycotting, which ended in a crushing defeat for Lord Clanciarde, who finally consented to sell, not only the evicted tenants, but all his estates.

The last official report of the committee shows that up to March 21 last, evicted tenants reinstated on 17,962 acres. It is unofficially said that since then about eighty tenants have been put back, making 528 in all. There are still a couple of hundred applicants unprovided for, but they will be taken care of by the commissioners in other ways. They will be provided with land, which was five or six not, however, be their old holdings.

The discrepancy between these figures and the 2,000 which formed the original estimate, is explained by various facts. A good many of the evicted tenants had died voluntarily on other farms and did not wish to move again. Others had been provided for under the ordinary land purchase acts, but by far the greater number had emigrated to the dominions and the United States. A few of these came home again, but the great majority had no desire to give up the prosperous conditions of Canada and the United States to resume the struggle of agriculture in Ireland.

It must be recorded, too, that some of those who returned—some or even grandsons of the original evicted tenants—made a sad mess of it. The land had no experience of farming, and no knowledge of the ways of the country. The money advanced by the commissioners for the purchase of live stock, seed, implements, etc., was squandered, and in some cases legal proceedings for its recovery have been begun.

On the other hand many of the original tenants find themselves vastly improved in fortune. The English and Scottish settlers were good farmers, had kept the land in good condition, and in many cases improved it, so that it came back to its old tenants better than they left it. They were provided, by the advance system with adequate capital to work their farms and aided by the agricultural department in marketing their produce and buying supplies.

In addition to all this the annual repayments under which they will become owners of the land after a term of years are much lower than the old rents.

Dr. Deimel Underwear

Wards Off Coughs and Colds

THE RIGHT UNDERWEAR FOR ALL SEASONS.

The man who has tried all kinds of underwear without finding satisfaction should investigate Linen-Mesh. Thousands have already convinced themselves that Dr. Deimel Linen-Mesh is the ideal fabric to place next to the skin.

Linen absorbs moisture in all forms rapidly. Such articles as are commonly used for the purpose of drying the body, as towels and handkerchiefs, are generally made of linen.

The Dr. Deimel Underwear is made of a two-ply composite thread, the chief part of which is linen yarn of superior quality. In order to bring out the full advantages of linen and correct its drawbacks, when used as underwear, such as chilliness, lack of elasticity and durability, another select vegetable fibre—Abassi or Maco—is added to the linen yarn in the making of the thread.

Wearers of Linen-Mesh get along with lighter clothes and are indifferent to drafts or exposure. Try Dr. Deimel's next time you buy underwear.

GRAND FALLS WORK TO BE BEGUN IN SPRING IS OUTLOOK

Premier Fleming and Attorney-General Grimmer were in Fredericton on Friday for conferences with representatives of the Grand Falls Company. It is understood that the actual commencement of the company's elaborate development plans at Grand Falls. It is understood that plans both for the harnessing of the Grand Falls for power purposes and also for the construction of the large pulp and paper plant which the Grand Falls Company will erect have been completed by the engineers.

It is said that the plans call for the construction of a pulp and paper plant in two units which, when completed and in operation, will employ upwards of 2,000 people. The estimated expenditure in the development scheme is said to be at least \$6,000,000 and work will be commenced in the early spring.

VETERAN SALEM SKIPPER DEAD

Salem, Jan. 6.—Captain Andrew M. Ropes, dean of the retired Salem sea captains, who doubled Cape Horn thirty-five times, fought pirates at the age of twenty and sailed into every port of consequence in the world, is dead, at the age of eighty-three.

He was a native of Salem and went to sea when he was thirteen. When he was twenty he signed as second mate on the famous clipper ship Ring-leader under Captain Richard Matthews. The Ring-leader had fights with pirates, and young Ropes looked death in the face often on these voyages.

At twenty-two he sailed out of Salem harbor, master of his own ship, and one of the youngest skipper afloat. He doubled the Cape of Good Hope sixteen times. He retired with a good fortune twenty-five years ago, bought a house and was made the second honorary member of the Salem Marine Society. He spent most of his last years at the society rooms, spinning yarns with other old skippers. The doughty old skipper was unmarried. He is survived by two nieces.

TOMMY'S SYMPATHISER Tommy Jones had received a lot of Christmas presents, chief of which was a big drum, the envy of his playmates. But, alas! Tommy had been tempted by the good things at a Christmas party, with the result that he was very ill in bed, and the boys in the street had been asked not to make a noise. One day Tommy's mother received a visit from one of the lads. "How is Tommy today?" he inquired shyly. "He is better, thank you, my dear. What a thoughtful child you are to come and ask!" "I'm awful sorry Tommy is ill," said the boy. The mother was touched. She could not say no other words to say, but simply kissed him. Made still further sure of his ground by the news the youthful caller began to back down the steps. At the bottom he halted and looked up. "Tommy should die," he asked, "can I have his drum?"

SAYS TURKISH ARMY IS FIT FOR BATTLE NOW

Nazim Pasha Declares Post De-feats Have Put His Troops in Fine Trim for a Supreme Test

Paris, Jan. 5.—Nazim Pasha, the Turkish minister of war, who was asked recently by the Temps for a statement of his views on the war, has sent an interesting declaration. After taking time for full reflection, the generalissimo of the Turkish army writes: "The outbreak of the war found the Turkish army in an unfavorable situation; it was in the midst of reorganization. Nevertheless, strenuous efforts were made to place it on a war footing. There were only 150,000 men in three months when hostilities began, but Turkey rapidly concentrated an imposing force there. It would be a great mistake to judge of the real value of the Turkish army by the lack of success in the first battle. The Bulgarians understood this lesson. They have succeeded in mending all that at Tchatalja and in showing the real worth of their army. Today along the Tchatalja lines a newly formed army, more vigorous than ever, has been put on its feet. It has been tested by terrible ordeals and Captain Kirik-Kilich and Lale Burpas and from which the rotten members have been unmercifully lopped off.

"We expect great things from this army, and this time we shall not be deceived. Ardur, stimulated by the misfortunes which have smitten us, stirs the blood in the veins of our soldiers, and the die being cast, the army at Tchatalja will be found equal to the supreme demand made of it."

PIEROTS AT OPERA HOUSE

The tickets for the entertainment to be given by the Empress of Britain Pierrots in the Opera House this week, under the auspices of the St. Monica's Society, are selling rapidly, and it is expected that two full houses will greet the performers. The first performance will be given on Tuesday night and the second on Wednesday night. The programme will consist of vaudeville, etc., and a good evening's entertainment is assured. The proceeds will be for immigration work.

POLLARD FAREWELL TONIGHT

The Pollard Opera Company will give its final performance in St. John at the Opera House tonight with "Sergeant Brue." This is said by many to be the company's most successful effort. A large audience is assured.

RECENT DEATHS

The death of Mrs. Mary Louise Fries occurred at her home in Main street yesterday morning. She was sixty-seven years of age and had been ill for several months. She is survived by six sons and one daughter. The sons are Ernest, George, Wesley, John, Robert and Charles. The daughter is Mrs. McElaughlin of this city. The funeral will be on Tuesday.

The death of Cornelius McCarthy occurred at his home in the city yesterday morning, after a brief illness. He was a native of Dunmore, County Kerry, Ireland, but has been a resident of St. John for several years. He is survived by his wife.

Word of the death of Miss Catherine Marie Rankin, youngest daughter of the late Francis Rankin, of Woodstock (N. B.), which occurred in New York on Saturday, was received in the city yesterday. She had been ill for some months and had gone to New York for treatment. The body will be brought back to Woodstock for interment. Mrs. Robert Thomson, of this city, is an aunt of the deceased.

Mrs. Christina, wife of Robert Cassidy, and youngest daughter of Mr. and Mrs. Dunbar, died on Friday at her home in New Brunswick. She was twenty-six years old and is survived by her husband and infant son, her parents, four brothers and two sisters.

Word received in the city yesterday told of the death of Mrs. Annie E. Brittain, wife of Charles N. Brittain, a former member of the Telegraph's mechanical staff and now of the Montreal Witness. She died in Montreal on Saturday. The death of Mrs. Annie E. Brittain, wife of Charles N. Brittain, a former member of the Telegraph's mechanical staff and now of the Montreal Witness. FORTUNES MADE AND LOST IN STEAMERS

British Shipowners Only Ones to Hold Profits in Freight Increases in the East

Olesea, Jan. 6.—The latter half of 1912 is likely to be long remembered by shipowners trading with the East and by shippers in Black Sea ports. The ship brokers—whom by the way, it were now more correct to describe as speculative charterers—made huge profits by the extraordinary boom in freight rates caused by the month's closure of the Dardanelles. Immediately prior to that time the freight rate for the route from these waters to the United Kingdom and the west-coast ports averaged about \$3.75. Then they became freaky and erratic, suddenly jumping to \$4 and \$5. They subsequently receded to \$3.75 with the prospective termination of the Haldar Turkish war, but that ebb proved to be merely temporary, for with the first sign of the Italian convulsion the rate rapidly climbed to \$6.25, and for a few days the dizzy maximum quotation was \$7.

There were numerous instances of the shipbrokers making as much as \$7,500, \$10,000 and \$15,000 on single tramp steamers. These handsome profits were the difference between the freight rates at which the ships were chartered and those obtaining in the ports of Odessa, Nicolaieff, Kherson, and Taganrog on the arrival of the vessels.

The inevitable slump came, and within ten days the rate had declined to \$3. The chartering shipbrokers, who had lost their heads in the feverish freight gamble, suffered heavily; they not only lost the enormous sums they had previously won, but considerable amounts in addition thereto. The British shipowners, however, made substantial profits.

SUFFERED FROM BOILS, CONSTIPATION AND SICK HEADACHE.

There is no more frequent source of illness than that arising from bad blood. When the blood becomes impure the whole system is impure; boils and pimples break out, the bowels become constipated, and the head aches more or less.

DO NOT NEGLECT TO PURIFY THE BLOOD ON THE FIRST APPEARANCE OF A PIMPLE OR BOIL.

Cleanse it thoroughly by the use of Burdock Blood Bitters and thus prevent untold suffering.

Mr. D. M. McBlaine, Niagara Falls, Ont., writes:—"It is with pleasure testify to the sterling qualities of your Burdock Blood Bitters. After the Haldar War, through which I served in the 1st I.L., I suffered from boils, constipation, and sick headaches, and tried many preparations, but got relief from none till an old comrade of mine got me to try the Burdock Blood Bitters. To say I got relief is to put it mildly. It made me myself again, viz., a man who knows not what it is to be sick, and who has been, and is still, an athlete.

To anyone in want of purified blood and the resultant all round vigorous health I can conscientiously recommend B.B.B."

MOORE BRITISH MONEY FOR WEST

Edmonton, Alta., Jan. 6.—British capitalists are back of a plan to develop and settle 600,000 acres of mixed farming and ranching lands bordering on the foothills of the Peace River country. Their representative will show that dairying and cattle raising can be made highly profitable industries, also that there will be market for grain that can be grown.

Your Financial Problems, we can
help you solve them!
If you cannot meet the additional cost of living, we can help you to in-
crease your income. Thousands all over the country have increased limited
incomes by investing their money. There is scarcely any limit to the testi-
mony that might be adduced to substantiate this statement.
YOU MUST STUDY INVESTMENTS
You cannot without statistics - without a knowledge of existing business
conditions be so well informed as to be able to choose closely between the
GOOD and the BEST, though the distinction between the "good" and the
"best" may be clear to you.
An Investment House of extensive clientele and experience can be of great
assistance to you. We will be pleased to place your name on our mailing
list, it will obligate you to nothing, and will be of undoubted value to you.
We will be glad to send our January list to anybody for the asking.

SPORT NEWS OF A DAY; HOME AND ABROAD

Bowling On Black's Alley. Following are the bowling results in the Commercial League Saturday night on Black's alley:

Hockey Canadian Games. The Toronto Tecumseh defeated the Quebec hockey sextette, five to three in Quebec on Saturday.

Montreal, Jan. 5.—While the Canadians are still leading in the National Hockey Association series following Saturday night's games, despite their defeat at the hands of Ottawa, hockey followers here today concluded that the Frenchmen were lucky in being drawn against the Toronto team when they were at their weakest stage.

Saturday games furnished startling surprises. The defeat of the Wanderers in Toronto by a score of 5 to 3, and the defeat of the champion Quebec team on their own ice by the Tecumseh, also 5 to 3, were hardly looked for.

What is to become of Jim Thorpe? That is the question in the minds of men interested in the future of amateur sports.

Steve Ketchell and Battling George Meyers are to meet for ten rounds at Stockton, Ill., tonight.

St. Louis, Jan. 5.—Officials of the St. Louis Cardinals have not filed with the National League an answer to Rober Breanahan's complaint.

That the case will be compromised out of court now seems more certain than ever.

It being no way by which the St. Louis team can get my services.

Neither of the Cardinals have tried to regain claim to Rogers, so as to be able to trade him, it only emphasizes the truth of the statement made many days ago to the effect that by releasing Rogers unconditionally the club made one of the biggest blunders ever committed in baseball.

A BUSINESS LOOK INTO THE NEW YEAR

Bradstreet's Cheerful Forecast For 1913 — Crops, Manufactures, Tariff and Money

The following is from Bradstreet's review of the business year of 1912: "Favorable conditions are in the majority as the new year opens. Easily first in this category are basic crop results, which tend to exert a steadily widening influence as they pass into human and animal consumption."

STEAMER DECK FOR CIRCUS; ST. JOHN MAN'S PLAN

Fred. Millican Evolves Unique Big Scheme For World Tour With Show

When F. S. Millican left his home here in 1890, he had an ambition to see the world from the windows of a locomotive cab. He went railroading and was a success at it. He was one of the youngest men ever put in charge of an engine on the L. C. R. He earned a splendid reputation with that line. He ran the engine that pulled the rail and ballast for the short line from Oxford to Pictou, N. S., and the first passenger train in Cape Breton was in his charge. He also had the honor of running one of the first elevated trains in Chicago.

He could not see as much of the planet as he wanted to see from the rails, so he quit them and went into the show business. He crossed the ocean, saw the lands beyond the sea, and found a sphere in the circus. Apparently even the circus could not go far enough to satisfy the wanderlust that Fred had developed. He is planning now, and a million and a half company has been organized to carry out the plan, to build a great 12,000 ton ship, call it Noah's Ark, stock it as a monster menagerie, aviary and aquarium, carry in it a troupe of acrobats and artists, and by means of a patent arrangement show a whole circus to 8,000 spectators at a time on a deck arena 300 feet long by 125 feet across. All of this will be on a ship 525 feet long and with a beam of eighty feet. The arena plan is very interesting. At sea it is closed in so that the ark only will seem peculiar because, being driven by Diesel motors, she will have no funnel. There will then be no overhang. When a show is to be given, the deck houses will be run out over the sides and supported on brackets, and balanced by water ballast, so that the ship will be perfectly rigid under all conditions. The details of the patent are not published, but it is said that they are very complete and practical. From keel to keelson the ship will be unique. The marine architects say it will be a great show in itself. She will be seaworthy to cross oceans, and at sea will have a draft of eighteen feet. With equal ease she will cross shallow bays, thus having a draft of only fourteen feet, the difference being made by an adjustment of water ballast.

It is said that, in addition to the novelty of the idea, other advantages will be cheap water transport, the exhibition of a whole show everywhere; by choosing routes looking to that end to be in commission all the year and always in summer sunshine, to open up a world of stands now unapproachable over the rails and economies and novel acts of all kinds. The electrical displays will be on a super scale, and the comfort of spectators as perfect as though they were in a box at high-class opera.

Unlike the ark of old, this one is to be run by steam. It is hoped that the St. John man will find it all he expects in this way. St. John in his beneficence. His ship will be built on the coast, and on her first tour will make St. John a port of call.

Mr. Millican is a son of James Millican, of St. John, so long prominent in railway circles.

ST. JOHN MAN IS SUICIDE IN HAMPDEN, ME.

John A. Shephard Drank Carbolic Acid—Out of Work and Despondent

A Bangor special to the Times says—"Dependent over his inability to secure employment, John A. Shephard, aged twenty-four years, who came here with his wife from St. John, N. B., about two years ago, committed suicide at his home in Hampden last night. "Sitting in his kitchen, he drank an ounce or more of carbolic acid in a glass of milk. He died almost immediately, and before medical aid could reach him. "Since coming to Maine with his wife, who was Miss Lucy Kelley, of St. John, Mr. Shephard had been employed as a laborer in the city. Last May he moved to Hampden, one of the suburbs, and he and his wife and brother Melvin, who is totally blind, have been living there since. It was decided not to hold an autopsy.

HINT OF NEW LIQUOR LEGISLATION IS GIVEN IN THE POLICE COURT

Wholesalers Not to Sell Less Than Gallon; Retailers No Bottles—Theft of Coat in Street Car

George Allan was arraigned in the police court this morning on the charge of stealing a coat valued at \$12, the property of L. Colwell, a street railway company conductor. The theft was alleged to have been committed on Saturday night between 5 and 6 o'clock. Conductor Colwell had placed his coat on a seat in the Douglas avenue car on which he was running, and a little after five o'clock when he went to look for the coat it was gone. Suspicion was directed against Allan, and he was taken into custody. The coat was found in his possession.

In court this morning he pleaded guilty, but said that he had been drinking and did not know what he was doing. His Honor told him that he was liable to be sent to Dorchester penitentiary for two years. He was remanded for sentence. Two prisoners charged with drunkenness were fined \$8 or thirty days in jail each. His Honor took occasion to remark that there was altogether too much bottle selling going on in the city now, and intimated that in the near future the temperance people would endeavor to secure legislation whereby the wholesalers would not be allowed to sell less than a gallon of liquor, and the retailers would not be allowed to sell any liquor except for consumption on the premises. Charles McCoppin, aged sixteen, charged with assisting in Sheriff street, and also with using profane language was fined \$8.

Samuel Craig, who was arrested a few days ago on the charge of stealing a case of whiskey from Sand Point, was brought in and further remanded.

DIED IN VANCOUVER. In Vancouver on Saturday evening, Mrs. J. A. Harvie, a former resident of Avondale, Hants county, N. S., died. Her late husband, John A. Harvie, was a prominent shipbuilder in Avondale in the days of wooden ships. About three years ago Mrs. Harvie met with a severe accident in Montreal, having been run over by a street car. She never altogether recovered. She leaves a son in Parrishboro, N. S., and another in Vancouver. She was a daughter of Silas Mather, a prominent Nova Scotia shipbuilder.

"MOVIE" OPERATORS BEING EXAMINED. The members of the New Brunswick Board of Moving Picture Operators are holding examinations for operators of moving picture machines this week in their office in Union street. The examinations were begun this morning. Several operators from out of town places were present. Two local operators were examined and were given certificates of proficiency. According to the law all operators of machines in New Brunswick will have to pass the examinations before they are qualified to hold a position.

TAXES APPEAL AS TEST CASE

Matter of I. C. R. Employees Paying in Both City and County

George Lattimer, an employee of the I. C. R., who resides and pays taxes in the county, appeared before the city commissioners this morning to appeal against also paying city taxes, for which he is assessed. He said that his work is entirely outside of the city limits and offered to produce a certificate to that effect. The matter was taken under consideration, but the impression of the commissioners was that under the present law he was liable for city taxes and special legislation would be required to relieve him.

THE QUESTION OF SOME INTEREST, as it is understood that quite a large number of I. C. R. men are in the same position and are awaiting the result of Lattimer's appeal as a test case before taking action on their own account.
