MONCTON YOUTH FACES MURDER CHARGE

A. ARSENAULT SUSPECTED OF CHARLOTTE DEED

Preliminary Hearing to Follow Coroner's Inquest Today

BADLY BEATEN

Alphus Hanspecker Is Victim Of Brutal Assault Near His Home

Special to The Times-Star.

ST. GEORGE, N. B., May 9.—The preliminary hearing against Alfred Arsenault on suspicion of causing the murder of Alphus Hanspecker, who was found dead, lying face downward in a pool of blood, yesterday afternoon, near his home at Berthel, a small settlement about five miles from here, will be commenced before Magistrate Magowan in the Town Hall here this afternoon, following the completion of the inquest by the jury empanelled by Dr. H. I. Taylor, coroner.

The prisoner then will be sent to St. Andrews to be lodged in the county jail.

Attorney General Ivan C. Rand, Moncton, has been in communication with the local law officials and they are acting under his direction.

IS MONCTON MAN.

Arsenault told Dr. H. I. Taylor, coroner, last evening that he was from Moncton and that he was travelling through Charlotte county to the United States to secure work.

Hanspecker received two compound fractures in his head, so Dr. H. I. Taylor, coroner, said today following an examination. Apparently, the murderer used a large, heavy club as the death-dealing instrument as a piece of loose wood, 2 1/2 feet long and about 3 inches thick and with blood was found near the door of Hanspecker's barn. Fingerprinters were quite noticeable on this weapon.

Dr. Taylor has several witnesses to call, chief of whom will be L. W. Good.

Leader Declares Report of Some Withdrawals Already Is Untrue

By Canadian Press.

WASHINGTON, May 9.—A formal resolution urging constituent members to use all their influence to procure the speedy inclusion of all nations into the League of Nations was adopted today by the International Council of Women in session here.

WASHINGTON, May 9.—More troubled seas appear ahead of the International Council of Women, with indications that patriotic societies of the United States connected with the organization might consider withdrawing from its deliberations, should its meetings develop a pacifist trend.

Interest in one of the pacifist organizations, denied a report that swept the council chamber, late yesterday, however, that some of them had withdrawn.

PEACE MATTERS TODAY.

While making it clear that such a move had not been formally considered, she asserted that women of pacifist leanings occupied "key positions in the council."

The setting aside of a block of seats for negroes in the gallery for Tuesday night's American music programme led to charges of "race discrimination" from their leaders, and more than 200 of their singers withdrew from the programme.

MORE RACE TROUBLE.

Another "race discrimination" storm cloud is also hanging over the convention in connection with the sale of tickets for the council's payment of peace and war tonight. White purchasers were declared to be asking \$2.00, while negroes were being sold seats at 10 cents.

Schools in the Doukhobor area which were burned by the Doukhobors in their "war" with the provincial government, are to be rebuilt at once.

Negro Is Hero of Accident, Saving Many Otherwise Doomed

MEMPHIS, Tenn., May 9.—Twenty-one persons are known to be dead in the sinking of the government steamer Norman, last night, according to a statement issued here this morning by Mayor Rowlette Paine.

The steamer had 60 persons on board and was returning from Cow Island, in the Mississippi River, when it suddenly began to sway and then turned completely over and sank in a few minutes.

The rudder failed to respond when the Norman first began to list, according to Howard Fenton, captain, according to a statement issued here this morning by Mayor Rowlette Paine.

SEARCH FOR SURVIVORS.

The river banks on the Tennessee and Mississippi and Arkansas River below Coahoma Landing, where the Norman sank, were searched all night by steamers with powerful lights, in the hope that some one might have reached safely below that point, as that body might have washed ashore.

The search was continued today. The Norman, with a sister ship, the Choctaw, had been given over by the government to take delegates to the convention of the Mid-South Association of engineers on a trip down the river.

RETURN TRIP.

The Norman and Choctaw made the trip to Cow Island, 23 miles south of Memphis last night, but returning the Norman began to list off Coahoma Landing. Captain Fenton thought too many persons were on one side of the boat and endeavored to scatter them. The list continued as Captain Fenton attempted to flank the vessel into Cow Island Landing. Then, according to the captain, the rudder refused to work.

Three minutes later the vessel went to her side, and capsized.

GRAPHIC STORIES.

There was no sign of panic on board the vessel, survivors said. Women did not wait for help from the men. They struck out for themselves.

Graphic stories by persons who were precipitated into the swift current, said to be the worst stretch of water in the river between Memphis and Helena, Ark., told how the boat overturned quickly for lifeboats were launched. Grabbing bits of wreckage, some life preservers and mounting overturned lifeboats, the victims were swept downstream.

NEGRO IS HERO.

But for Tom Lee, a negro, who was passing in a motor boat, virtually all of the 60 or more persons on board the boat would have perished, survivors were unanimous in saying. It was Lee, rescuing the women and then turned, rescued young about his task. How many may have been saved is not known, but it is believed that Lee saved the lives of many.

The Norman was 114 feet long, had a 26 foot beam, and a draft of three feet, six inches. She carried a crew of 10.

Danish Steamer Hits Ledges Off N. S. Coast But Crew Not Menaced.

HALIFAX, May 9.—Wrecking steamers were prepared to rush today to the scene of the stranding of the Danish steamer Hans Jensen, Captain Kofred, which ran ashore on the ledges off Whitehead, Guysboro county, last night, although no further communication had been received from the steamer since Captain Kofred sent a wireless message last night that he had struck on the ledges, and was in no immediate need of assistance.

Last night's advices stated that the freighter was pounding heavily and had made water in two or three holds. As a late hour this morning no distress calls had been received. The scene of the stranding is about 125 miles east of Halifax.

QUEBEC FIRE LOSS

QUEBEC, May 9.—Twenty-three stores and residences, three moving picture houses, the offices of three doctors, one bank, and one factory constitute the toll of the conflagration that swept the town St. Joseph d'Alma, 125 miles north of here, Wednesday night. Achilles Pelchat lost his life, while two other men were injured. The monetary loss was estimated to exceed \$1,000,000.

SMUGGLERS RESORT TO VIOLENCE IN U. S. SIEGE

Coast Guardsman Killed From Ambush, Two Wounded and One Kidnapped, is Toll of Campaign Against Atlantic Fleet.

WASHINGTON, May 9.—The endurance contest between the Atlantic rum fleet and the coastguard's dry navy continued today, with every indication that it will be a war to the finish, with land and sea attacks, reprisals, and a "death list" as important features.

The smugglers have accepted the gauntlet of a counter-offensive designed to drive a wedge through the opposing lines, which they hope to follow with a shore-bound flood of liquor. Ambuscades, kidnapping, threats and attempted bribery have been resorted to in an effort to frustrate the coastguardmen, it was declared by officials here.

GUARDSMAN KILLED.

One guardsman has been killed from ambush, two others wounded and another kidnapped. Guardsmen have been threatened by land agents of the smugglers, who are known to have prepared a list of officials marked for extermination. The counter-attack took a new course, it was revealed, when rum agents boarded the French 50-ton destroyer taken over by the coastguard, and severely damaged her machinery, while she was docked at night.

DEPLORES CANADA'S HEAVY COST TO EXECUTE ESKIMOS; URGES MEDICAL MISSIONARIES BE SENT

Canadian Press Despatch.

MONTEAL, May 9.—It cost the Canadian government between \$30,000 and \$75,000 to execute two Eskimos at Herschel Island, about a year ago, said Dr. Knud Rasmussen, Danish explorer, in an interview here, and it was figured that medical missionaries at around \$1,000 a year, would do much better work among these primitive people than hanging them for infraction of laws of whose import they were totally ignorant.

Dr. Rasmussen painted a depressing picture of the social life of these people, and their summary manner of disposing of surplus population. Their practice was to kill female children, he repeated, but this worked adversely on the social system of the Eskimo, for it tended to a surplus age of men in the community, hence when the male Eskimo of marriageable age desired to espouse himself, his chief part in the ceremony was to murder the husband of the woman he wanted to marry. In one community he visited, he had estimated that 65 per cent. of the males were murderers.

MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and are guaranteed to be entirely free from opiates and narcotics. Concerning them Mrs. Jos. Tounsignant, Ste. Sophie, Que., writes—"I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health."

The Tablets are sold by medicine dealers or by mail at 20 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Funerals

Captain Thomas Carson.
The death of Captain Thomas Carson of West Quaco occurred on May 3 at the General Public Hospital after an illness of three months. He was aged 79 years. Five sons survived—Raymond and Clarence of Saint John, Walter and Omar of New York, and Ira at home; also one daughter, Miss Jessie of Saint John; one brother, Edward of Nook, Conn., and one sister, Mrs. George McEwen of St. Martin's.

The funeral was held under the auspices of St. Martin's Lodge, No. 80, F. & M. of which he had been a member for 30 years. The sermon was preached by Rev. Mr. Hubley and he was assisted by Rev. Mr. Giddings. Interment was in the family lot at St. Martin's.

Mrs. Murray J. Northrup.
The funeral of Mrs. Annie A. Northrup, wife of Murray J. Northrup, was held this afternoon from her late residence, 200 Paradise row, with service at the house at 2:30 o'clock. Rev. W. J. Johnston, pastor of the Christian church, conducted the service and members of the choir sang two favorites of Mrs. Northrup. "The Old Rugged Cross" and "He Knows It All." Interment was made in Cedar Hill. The floral tributes were numerous and beautiful. Mrs. Northrup had endeavored herself to the church to which she belonged by her faithful service in the Sunday school and as president for some time of the "Ten Society."

White Suit Tests

Cleaning Need of Business Suits

Man in White Hits the Trail Through City Streets—Half His Suit Kept Dry Cleaned, Other Half Let Go.

Yesterday a White Suit began a hike around town to show up Dark Suits.

Day by day half the Suit of the Man in White will be taken apart and kept dry cleaned—the other half will be allowed to accumulate dust and grime the same as clothes whose color tries to hide dirt.

Keep your eye on the Man in White and watch how the neglected half of his Suit loses its clean, fresh look and gradually turns from white to gray, and worse.

The Man in White will be in plain view all through town. His outfit is entirely a made-in-Saint John affair. The tailoring was done by the Triple C Tailors and the hat by Bardsley's Hat Factory.

The half of his clothes kept white demonstrates the purity of NEW SYSTEM DRY CLEANING, the only kind where your clothes are cleaned through and through by steady rinsing in filtered naphtha.

Watch how long a suit stays clean—note how it compares with your under-linen. Bear in mind also the fact that dust particles cut fine wool hairs like sharp rocks and destroy cloth strength 30 p. c. to 60 p. c. before its time.

Above all, observe the object lesson in personal cleanliness and smart appearance provided by this public benefactor—the MAN IN WHITE.

DIANA COMES DOWN FROM GARDEN TOWER

Bronze Goddess Removed From Madison Square by Ingenious Sling.

NEW YORK, May 9.—Lovely Diana, goddess of the chase, the lady in bronze about whose graceful form such a storm of reproach burst when she was raised to her pedestal above Madison Square Garden many years ago, was lifted down almost reverently this week.

It was slow and careful work, lifting Diana from her pedestal and swinging her to the roof.

Once turned in wind, the statue was then lifted by a derrick and swung over the roof.

DEAN INGE SUMS UP.

Dean Inge has written for the Boston Transcript an article intended to correct some newspaper reports of his supposed "impressions" on the United States. He begins by speaking in somewhat caustic fashion of the way in which the newspapers dealt with him when he landed in New York.

In your business, which has expanded partly under artificial and temporary conditions. But I think you will meet discomfort as we have done, by fleeing the rich in taxes. The danger arising from the presence of turbulent and violent laborers from South and East Europe has been diminished by wise laws restricting immigration.

HE SEES DANGER.

The Nineteenth Century for April contains an article by Mr. T. Kerr Ritchie, an English newspaper man, dealing with "The Prairie Farmer in Canada." In the course of which he reaches some conclusions which are alarming to him, and which would be alarming to others if they thought as he does.

He tells his readers that Americans want the wheat and farm produce of the Canadian Western farmer, and "therein the Dominion of Canada holds a trump card if she only knows how to play it." How Mr. Ritchie went through the West without discovering that the Americans have raised a prohibitive tariff against our wheat and many of our farm products is not easy to explain.

Hon. Mr. Graham's reference to the Valley Railway in the House yesterday was noticeably vague. He gives no indication that the Dominion Government proposes to take it over, yet that course is the only one by which justice can be done New Brunswick.

Test Yourself

If you would test yourself on various important lines, the teachers of Kansas City have shown the way. They have prepared a series of 10 points, with questions on each, by which one may judge one's own fitness in regard to appearance, ability and relationship to others. It is a penetrating lot of questions:

Wonder Spots of The Empire

Giants' Causeway, Ireland

A story is told of a party of tourists who excited so loudly and so long upon the rock formation at the Giant's Causeway that a scientific gentleman, standing close by, was prone to remind them that if they had taken the trouble to look at the salt upon their dinner table, they would have seen the very same thing. His remark was not with such sarcasm and hilarity that he obtained some table salt and invited them to examine it under his magnifying glass. To their astonishment they found that the salt crystals appeared just as symmetrical and as regular as the huge rocks that form the Causeway.

OLD ENGLISH PRINTS GIVEN
N. H. SOCIETY

Collection of Exceptional Interest and Much Value Received

I. H. HALIFAX OF SAND COVE DONOR

Society Also Receives Loan Collection of Coins—Other Presentations

A collection of old English prints of exceptional interest and great value has been presented to the Natural History Society by J. H. Halifax of Sand Cove Road. While the greater number of the subjects is on the cartoon style and more grotesque than pleasing from an artistic point of view, they represent the taste of the period. They are all dated, and range from 1724 to 1782.

Two of the number are of a totally different order, one representing the child Moses which is done in sepia tint and was engraved by F. Bartolozzi, being a copy of the painting by Pueretto, the other also by Bartolozzi shows a child drinking from a flagon. These two are very charming subjects and the work in them shows a master touch.

"The Cambridge Jockey," dated 1771, is an unaltered sporting print that collectors would highly prize. The horse seems unbearably long and slender of body and has all four feet raised well above the earth. It is evidently a speedy type and is travelling over country that is lumpy and hilly to a very marked degree.

The Cotton Dancer, Run Mad in Bath, and "Gratticella Playing on a New Musical Instrument" are on one sheet and are dated 1774. They are not appealing to the taste of today. "The Well Fed English Constable" and "The London Jockey Going to Newmarket" are also together with what. They have the 1771 date mark. "The Reforming Constable" and "A Macaroni General" are together on one sheet and they are dated 1772.

"The Flying Breakfast," dated 1782, shows the room of a country inn where the stage coach passengers eating in haste.

The society has also received recently a loan collection of 16 coins which will make more nearly complete some of the series of coins which the society already possesses and which attract considerable attention from visitors. The coins have been loaned by Miss Sarah Manning. They represent the coinage of France, Spain, Great Britain, United States, Portugal, Russia, China, Austria, Roumania and Bulgaria.

From Miss Gladys Prink the society has received as a gift a handsome specimen of a box decorated with porcupine quills which comes from Ceylon. The quills are arranged in neat rows and fastened into place so as to cover completely the top and sides of the box. This example of Ceylonese work marks the contrast between the porcupine quill work of the North American Indian and the natives of southern climes.

Miss Adelaide Fitch has presented a small pamphlet which is a copy of the New England Primer with the shorter Catechism and was printed in Portland, Me., 1830. It is much worn and frayed at the edges and must either have been carried about in somebody's pocket or else have been a book perused daily through many years. It is about two by three inches in size.

FILE STATEMENTS ON POWER PROJECT

Railways State Cases Formally—Final Hearing Set For May 15.

OTTAWA, May 9.—Formal statements, it was learned today have been filed with the International Joint Commission by parties interested in the application of the New Brunswick Hydro Electric Commission for authority to proceed with its project for power development on the Saint John river, near Grand Falls, N. B.

While the statements filed by the Canadian Pacific Railway Company, Canadian National Company and the Canadian and United States governments are very formal in their nature, the State of Maine, in its statement sets out that the state should receive its share of power developed on the river at the point in question.

A statement from the International Paper Company of New York, is expected to reach here on Monday or Tuesday of next week.

Final hearing of this matter by the commission will be held in Montreal on Friday, May 15.

Local News

BOYS LEAD. Births in the city for the week ending today numbered 24, with the boys in the lead, with 16. Girls numbered eight. Marriages also were eight.

BISHOP RETURNS. Bishop O'Leary of Charlottetown returned yesterday from Toronto, where he attended the consecration of Bishop Kidd. Other Maritime Province clergymen at the consecration were Rev. Father Synott of Charlottetown and Rev. Father Doyle of Sydney.

WERE IN FIGHT. Two drunken men engaged in a fist fight last night in Southwest street and residents nearby notified the police. When the officers arrived, one had been damaged. The other appeared before Magistrate Henderson in the police court this morning and was fined \$8 or two months.

THIRTEEN DEATHS. Deaths in the city for the week ending today numbered 13, from the following causes: Chronic endocarditis, two; broncho-pneumonia, two; pneumonia, premature birth, diabetes, mellitus, cerebral hemorrhage, pulmonary tuberculosis, acute tuberculosis, carcinoma of prostate, paronychia-leptitis.

TRUE BLUE CIRCLE. Loyal True Blue Association evening meeting met at the home of Mrs. C. Brigid, Brindley street, last evening and sewed on two large quilts. Mrs. Brigid was assisted in sewing refreshments by Mrs. O. E. Ward and Mrs. J. Foster. A short business session was held, with Mrs. H. W. Brown presiding. Those present were Mrs. H. W. Brown, Mrs. A. Moore, Mrs. William Cummings, Mrs. C. Street, Mrs. J. McLeod, Mrs. H. Carr, Mrs. O. E. Ward, Mrs. J. Rossiter, Mrs. L. Clarke, Mrs. F. W. Robinson, Mrs. L. Glass and Mrs. H. V. Curry. Mrs. J. Foster and Miss Dorothy McLaughlin were visitors. Mrs. Ward, Duke street, will entertain the sewing circle next week.

IN THE MARKET. The country market was a bower of beauty this morning when the housewife paid her usual visit to select the Sunday dinner. The shelves were laden with potted and cut plants for Mother's Day and with pansies and other bedding plants for the garden. Native greens made their appearance in fair quantities. The prices of these delicacies are dropping. Supplies of meat, eggs and butter were good and prices were slightly easier. Eggs were quoted at 35 to 40 cents a dozen and butter at 35 to 42 cents a pound. Chickens were very scarce and sold at 60 cents while fowl was quoted at 45. Meat prices were the same as for the last couple of weeks.

Deaths

R. James Richards. At the home of C. D. Richards, M. L. A., Fredericton, on Thursday evening, his uncle, R. James Richards, of Keswick Ridge, passed away.

Mrs. Samuel Cooper. A telegram received by Miss Jean Cooper, Fredericton, announced the death of Mrs. Samuel Cooper, her aunt in Iowa, Michigan, aged 75 years. She was formerly Miss Mary Stuart of Fredericton. James S. Neill of Fredericton is a cousin.

Mrs. George McKee. Mrs. Elizabeth McKee, wife of George McKee, died suddenly in her home, 208 Waterloo street, yesterday afternoon, presumably from heart trouble. She was a member of the Exmouth street Methodist congregation and had a wide circle of friends. Besides her husband, she leaves three sons and one daughter, Wallace, Clinton and Howard and Miss Frances, all at home. The brothers are Harry C. and William Thompson, of this city. Sisters are Mrs. LeBaron Wilson and Mrs. Ralph Bonnell, of this city, and Mrs. Arthur King, of Hartford, Conn., and Mrs. Fred T. Francis, of Pittsfield, Mass. The funeral will take place on Monday at 2:30 p. m.

Fredericton City Club Elects

FREDERICTON, May 9.—The City Club at its annual meeting elected officers as follows: President, Col. H. Montgomery Campbell; vice-president, C. F. Chestnut; secretary, R. H. Simonds; treasurer, W. T. Gerald; auditor, R. N. MacCunn; managing committee, J. A. Reid, Stanley Douglas, J. J. F. Winslow, A. A. Shute, Col. T. G. Loggie, Major James Pringle, A. M. Gibson.

cell, town marshal for St. George, whose good work in connection with the case is the subject of much favorable comment here, Miss Lowndes, a school teacher, who saw Arsenault at Bethel yesterday afternoon, and Ewen Fisher, who has formed Coroner Taylor that he also saw accused at Bethel.

IMPORTANT WITNESS. Probably one of the most important witnesses is John Thomas, who conducts a small store at Boabec. According to Mr. Thomas, Arsenault came into the store yesterday afternoon and purchased some chocolate bars. Even then, it is reported, accused's hands were covered with blood. Sergeant Kote, who lives near the murdered man, and Dr. C. C. Alexander, who conducted the post-mortem, also will testify along with several others.

Last night, Dr. Taylor and Town Marshal Goodell questioned Arsenault in his cell, according to the coroner, accused speaks English as well as French. Dr. Taylor asked him what he was doing in that part of the country and he replied that he was trying to get to the United States to secure money. He told the official that he was from Moncton, where his father is employed in the C. N. R. His mother, he said, is dead. He is described as stocky and well built, dark-complexioned, with dark hair.

CLEVER WORK. It was by a clever ruse that Arsenault's arrest was made. When the town marshal notified the coroner, he accompanied by Dr. Taylor, he drove to Bethel and immediately started inquiries as to any suspicious characters seen about that neighborhood. First word came when Miss Lowndes informed him of a strange man coming about, and soon after word came from Boabec about the strange man entering the store, his hands covered with blood.

Town Marshal Goodell secured the services of James McCullough, who knows every inch of the territory there and they set out in pursuit. About 10 miles out they struck the scent and proceeded along cautiously as they feared Arsenault might take to the woods and in the gathering darkness they might lose him. Sixteen miles out they spied him, and Arsenault also saw them coming and fulfilled their expectations by dashing toward the woods and disappearing.

WATCH REWARDED. To lure Arsenault's suspicions and make him believe they were just ordinary motorists, the town marshal and Mr. McCullough kept steadily on past the spot where Arsenault disappeared and driving about half a mile further on they got out and waited. Then they commenced to work their way back carefully. The ruse worked, for Arsenault soon was seen approaching. He was placed under arrest. Although it was late in the afternoon when the town marshal was notified of the murder, it was only 9 o'clock when Arsenault was put behind the bars of the St. George Jail.

The murder has aroused intense excitement throughout the county, in which a murder has not taken place for the last forty years and more. The murdered man was well liked, formerly keeping a store at Dyer Station. Later he moved to Bethel, where he constructed a two-story building, operating his store on the ground floor.

CHURCH DELEGATES GOING TO SCOTLAND

Both Unionists and Anti-Unionists Will Seek Recognition at Assembly.

Canadian Press Dispatch. MONTREAL, May 9.—Delegates from Unionists and Anti-Unionists bodies of the Presbyterian church will travel 3,000 miles to attend the meeting of the General Assembly of Scotland, where it is understood both will endeavor to obtain recognition from the parent body.

Principal D. J. Fraser of the Presbyterian college of Montreal, and Prof. C. F. Macmillan of McGill University called yesterday for Scotland to represent the non-concurring Presbyterians of Canada. Presbyterians entering the union will be represented by Principal Gandler of Knox College, Toronto, and Dr. J. M.

Fire Conditions Considered Good

SPECIAL TO THE TIMES-STAR. FREDERICTON, May 9.—With the exception of small fires which got away from sectionmen burning right-of-way there have been no forest fires in New Brunswick during May so far. Conditions are generally good in the matter of fires but precautions are being taken for the latter part of the month.

Woman Kills Man, Wounds Two Others in Vienna Playhouse.

VIENNA, May 9.—While the Burg Theatre was ringing last night with the chorus of the fifth act in "Pier Gynt," a woman arose from the audience and fired six shots toward a nearby box, killing one man and wounding two others.

The woman was identified as Mencia Karmelic, aged 28. The man killed was Todor Arsanovitch-Anisa, aged 46.

CONVENE HERE IN EXHIBITION WEEK

N. B. Red Cross Plans and Hears Reports on Activities of Society.

At the monthly meeting of the New Brunswick Red Cross Society yesterday afternoon it was decided to hold a convention in this city during exhibition week. The treasurer, R. G. McInerney, reported expenditures of \$442.71 during the month of April. The secretary, Miss Jarvis, reported that five cases of supplies had been sent for miners' relief in Nova Scotia.

Miss Jessie Lawson, Junior Red Cross supervisor, reported the organization of 18 new branches in the last two months, and Miss S. Barrington reported for the home nursing classes. The report of the hospital committee was presented by Mrs. L. P. D. Tilley. Mrs. Heber Vroom was appointed convener of the committee to take charge of the entertainment for the convention in September.

Fables On Health

TO RELIEVE CHOKING
 MOTHERS who permit their children to crawl over the floor and fill their mouths with everything they can find loose, should have at their finger tips some good remedies for choking. In bad choking, where the patient turns dark in the face, no time is to be lost. Send for the doctor at once. He may have to open the windpipe to save the victim's life. Meanwhile slap the patient on the back, right between the shoulders. Open the mouth and insert a finger as far down as possible to try to grasp the obstruction, and remove it. Turn the person head down, and slap the back forcibly. If this does not succeed, press the hinder portion of the tongue. This may bring on vomiting and relief. A mouthful of bread sometimes

 will dislodge a fish bone in the throat. If the child swallows a coin, take him by the heels, with head down, and shake, or slap the back. Sometimes with children a good method is to press the chest against something hard, like a table. Minard's Lintment for Corns and Bunions.

Adventures of the Twins

By OLIVE ROBERTS BARTON.
 Snitcher Snatch hurried away from the drug store before Mister Whitiz and the Twins could catch him. One reason why he got away was that a bird seed flew into Nancy's eye when the drug-store clerk sneezed, and by the time Mister Whitiz got it out with the corner of his handkerchief, the go-lin had gone. "Where in the world do you suppose he can go now?" exclaimed Nancy. "We've been gone so many days the Fairy Queen will think we are lost." "What day is it?" asked Nancy. "I forget," said Mister Whitiz. But there is a clock maker's shop across the street. He ought to know. We'll go and ask him." So over to the Clock Maker's shop they went. There was a big sign out front which said "Clocks and Watches Repaired, Regulated and Cleaned." The window was full of clocks, big and little, old and new, thick and thin. Mister Whitiz opened the door and went in, followed by the Twins. "How do you do, Mister Clock Maker," said he. "Are you have plenty of time to spare?" "Yes," replied the Clock Maker taking a glass from his eye. "but I try to be right up to the minute. What can I do for you? I fix anything from town-clocks to wrist-watches." "Don't you ever get things mixed?" asked Nick, looking at the springs and screws and wheels and things spread out on the Clock Maker's table. "No," said the Clock Maker. "I am very careful where I put things. I'm even very careful of the way I breathe, for some of these springs are like tiny hairs, and a good breath would blow them away. I have six clocks apart now, but I know where every tiny piece belongs." "It's very wonderful," said Mister Whitiz. "Very wonderful indeed! But we will not take up your time. We just came to ask you the date and to please let us know if you happen to see a queer little fellow who—" Just then a cuckoo clock struck three. A little bird came out and went "Cuckoo, cuckoo, cuckoo!" like that. Or at least it sounded like a little bird. But if they had taken a good look they would have seen that the bird had a very long nose—much too long for a cuckoo, and arms instead of wings, and two hands that were very busy. One hand had a golden snuff box, while the other hand reached in and took out a pinch of snuff and sprinkled it down on the Clock Maker and his visitors. "Achoo!" went the Clock Maker. "Achoo! Achoo!" went Nancy and Nick and Mister Whitiz. Instantly the air was riled with ruffles and screws and wheels and things. "My business is ruined!" cried the Clock Maker loudly. "It would take me seventy years to sort out all the pieces and put my six clocks together again. Why did you sneeze?" "You started it," said Mister Whitiz. "So I did," admitted the Clock Maker. "I can't blame anyone but myself." "Cuckoo!" went the little clock again. Mister Whitiz jumped. "Aha!" said he. "I think I know something." To Be Continued.

Indigestion Bilious Spells

Mr. John Hresavich, Tenby, Man., writes:—
 "My stomach was all upset, I suffered from indigestion, biliousness and vomiting. I became so weak, I had to go to bed. I tried Dr. Chase's Kidney-Liver Pills and in three days was up and around again. I have not had an attack of this nature since."

PERHAPS it has never occurred to you that your troubles from indigestion are really caused by torpid liver action and consequent constipation of the bowels. Stomach tablets and lotions sometimes afford temporary relief but they do not get at the cause. Dr. Chase's Kidney-Liver Pills positively remove the cause of trouble by their direct and combined action on the liver, kidneys and bowels. A single box will convince you of their efficiency.

The Car of Tomorrow Is the New Studebaker of Today

THE New Studebaker cars are different. Different because they are 365 days ahead of current motor car design.

Long graceful bodies, including the exclusive Studebaker Duplex—an open-closed car combined; durable lacquer or enamel finish; the oval grouping of all instruments under glass; the lighting control on the steering wheel; new-type emergency brake; completely machined crankshaft; force-feed oiling system; and full-size balloon tires, with steering gear especially designed for their use—these are a few of the features that distinguish the advanced design of the New Studebaker cars.

Because the New Studebakers are the forerunners of a new era of motor car design it naturally follows that the Studebaker you buy today will be worth relatively more tomorrow than any other car.

Thousands have seen the New Studebaker cars. Thousands have endorsed their design and value by buying them. You should see the New Studebakers before you buy. It costs nothing to look.

Don't Buy Coal!

See Fess-Holden Morgan Automatic Oil Burners

NOW is the time to come to a decision on the oil burning question. Don't buy coal and tie yourself up to another winter of old-fashioned heating with its endless troubles and discomforts. A little consideration of the possibilities of oil heating will prove highly interesting.

Fess Oil Burners of Canada and Holden Morgan Limited (Oil Burner Division), Canada's two outstanding oil burner manufacturers, have amalgamated their manufacturing and selling departments. This means that the public can now choose from the widest and finest selection of oil burning equipment made, installations having every known safety device. We have been appointed to their exclusive agency here.

The Beauty of a Uniformly Heated Home

One of the greatest joys of Fess Oil Burning equipment is their "controlability". With one of these burners in your cellar you can keep your home at the exact degree of heat you want! If you want more heat, you simply set the thermostat (heat regulating thermometer), which is located in the living room or hallway, at the temperature you want, and in a very short time your house is at the desired heat. This temperature is maintained until you again adjust the thermostat.

No trotting up and down cellar stairs. No shovelling, no shaking,

neither is there dust, dirt, grime and soot. On top of all this, in large homes it is not necessary to employ a furnace man.

Superior to Coal in Every Season

Particularly in Spring and Fall and in the mild spells of Winter you would appreciate a Fess equipment. It is so easily controlled, affects the heat change speedily and with no discomfort. And on bitter winter days a Fess Heated home can enjoy Florida warmth, while coal heated homes are often barely comfortable.

Safety:

All Fess equipments have been approved by the Hydro Electric Commission and accepted by the Canadian Fire Underwriters' Association. The entire line of Fess equipment, which is the largest and most complete manufactured, has been tried out under severest conditions and has proved its worth for all cases, both in homes and commercial institutions.

Fess Automatic Burners are inside installations, very neat, clean and quiet. Fess Holden Morgan Automatic Burners are outside installations and have a clean record of perfect performance.

The first household oil burning equipment in North America was installed by the Fess Company in Toronto in 1915. This lead is being maintained today.

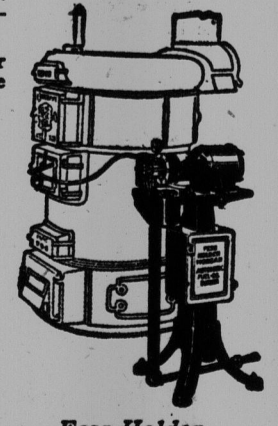

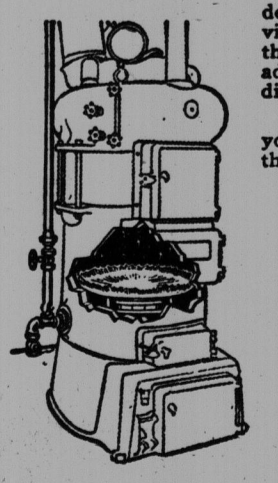

Made in Canada

These equipments are simpler in design, more dependable in action, have every protective device, are triple guaranteed and yet cost no more than foreign-made burners. There are distinct advantages in dealing with the powerful Canadian concern behind this product.

Made in Canada! No duty! Full value for your dollar. Convenient terms if you desire them. Come in for a demonstration.

My Mother and Yours

THERE are those fortunate thousands that tomorrow, Mother's Day, 1925, will find in close proximity to Mother; and there are those other countless thousands separated by a continent or even, perchance, by the heaving bosom of the strong and mighty sea.

Again, and to conquer, was implanted that patient, loving, all-understanding Mother.

Tonight, my Mother and yours, as I sit alone and look back to those now distant days, there is borne in upon my conscious some little understanding of what all that love has meant to me.

Great Mothers of the World, near or far, living or dead, in this quiet hour, and wherever you may be, here or in the Great Beyond, may the peace of God which passeth all understanding be with you now and always, our Mothers.

Veterans In Service

In the "good old days" in Saint John, merchants of the Loyalist City wore silk top hats, felt hats were not known while winter coats were lined inside with fur and not outside as is the custom nowadays.

One of the most prominent trading firms in those days, as they are now, was that founded by the late G. J. Everett, a staunch Loyalist under the name of C. & E. Everett, Ltd., 27-29 Charlotte street, and one of the most valued employees is George W. Smith, who in November of this year will complete 51 years of satisfactory service with the firm. A real veteran, indeed.

BORN IN SAINT JOHN

"I was born in Saint John, my parents coming from Ireland," Mr. Smith says, "I first attended school in the wooden building at 408 Union street and about the only two men now in the city whom I remember were Charles the time are David Willet, now at City Hall, and Milton Barnes. Mr. Goodwin conducted the school, which was private one. Next went to the Varley public school, then located where the Sunday school of Centenary Methodist church now stands. William Simpson was principal."

DR. D. H. ARNOTT GIVES FORMULA AND DIET RULE

Discovery Expected Big Step in Treatment of Internal Troubles

FISH AND FOWL ARE PREFERRED TO MEAT

Ban Is Placed on Tea, Coffee, Spirits, Tobacco, Wine and Beer.

TORONTO, May 8.—What is expected to be an important advance in the treatment of chronic gastric and duodenal ulcers of the stomach, was told by Dr. D. H. Arnott, of London Ont., before the Ontario Medical Association today.

He detailed his treatment, an important feature of which is the medication, the formula of which he gave. It ingredients are within the range of every drug store but there is a notable absence of soda, a venerable prescription for stomach trouble.

FISH DIET PREFERRED

"Having made a satisfactory diagnosis of ulcer, one is justified in taking full charge of the treatment," he said. "For one year the patient is given two meals in the day, spaced five or six hours apart. Nothing but water is allowed between meals, so that there is 14 hours of continuous physiological rest for the stomach and duodenum.

JAZZ BAND TO PLAY IN LONDON CHURCH

All Saints to Inaugurate Plan to Create Greater Interest in Services.

LONDON, May 8.—Alfredo's Jazz Band will play at a service in All Saints' parish church very shortly. Alfredo discussing the novelty said that he had been asked by Rev. John Alban—known to the musical and dramatic profession as chairman of the Music Hall Society, the Wolves—to bring his band to accompany the singing in church.

"Many stage people," said Alfredo, "are parishioners attending All Saints' church. Recently a picture of the Crucifixion, painted by Harry Lupino, was hung here."

"My band," he added, "will be the same as the dance and selections combination appearing on the music halls, except that at the service I shall not use the banjo or drums. Besides accompanying the hymns, we shall render two solos, Schumann's 'Traumerei' and Handel's 'Largo in G.'"

It is believed that the performance will be the first time on record that a stage band of this description has played in a place of worship.

NEW STRENGTH FOR WEAK GIRLS

Pale Anaemic Girls Regain Health Through the Rich, Red Blood Made by

Dr. Williams' Pink Pills

They Give New Vitality—and more.

HERE IS THE PROOF: Miss Matilda Breen, King Highway, Newcastle, N. B., says: "I was in an extremely run-down and nervous condition. I was losing flesh, had a poor appetite, always pale, and suffered frequently from headaches. In fact, my condition can best be described as miserable. I had tried several treatments, but they did not help me in the least. Then, reading one day about Dr. Williams' Pink Pills, I decided to try them. After using three boxes I was much improved, but continued until I had taken six boxes, with the result that I am now well and strong, with good color and a hearty appetite. In view of what Dr. Williams' Pink Pills have done for me I cannot recommend them too highly." Other weak, ailing girls can obtain new health, as Miss Breen did, by giving Dr. Williams' Pink Pills a fair trial. You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Baxter and Caldwell Support Bill for Centreville-Andover Section

GRAHAM AGAINST ANY NEW VENTURES

Carleton - Victoria M. P. Thinks Government Should Take Road Over.

OTTAWA, May 8.—A bill providing for the formal extension by two years to Dec. 1, 1927, the time within which the Saint John and Quebec Railway shall be completed with a link from Centreville to Andover was given third reading in the House of Commons this afternoon. During the discussion in which Hon. Dr. J. B. M. Baxter, K. C., and T. W. Caldwell, M.P., two New Brunswick members, took part, the Minister of Railways and Canals, Hon. George P. Graham, stated that at present the Canadian National Railways could not very well afford to take over many new ventures.

BAXTER'S VIEW.
 Hon. Mr. Baxter stated that about \$1,000,000 was being added yearly to the bonded debt of the Saint John and Quebec Railway to be borne by the New Brunswick Government. He declared that that burden could be lifted

Two Fishermen Missing From N. S. Schooner

NORTH SYDNEY, N. S., May 8.—The loss of two fishermen, William Newport and Charles Grandy, both of Grand Bank, Nfld., from the schooner Vera P. Thornhill, Captain C. W. Anstey, on the Nispan Bank, last Friday, was reported by Captain Anstey on the arrival of his schooner here today. The two men were in a dory tending trawls when a heavy fog set in. They were not seen afterwards.

FIRST PRESENTATION
The Fine New WILLYS-KNIGHT SIX
A Powerful, Luxurious Car -

For those who want the finest—the new Willys-Knight Six is more than a beautiful new car with a six-cylinder engine. It far exceeds your greatest expectation of high powered six-cylinder performance, because it has the greater smoothness, power and acceleration that comes only from the Willys-Knight sleeve-valve motor. It is powered with the only type of motor that actually improves with use. The price of the new Willys-Knight Six is perhaps the most amazing thing about it. That a car of such extraordinary quality, powered with a six-cylinder sleeve-valve motor, can be priced on a level with the best poppet-valve sixes is the supreme accomplishment. The new Willys-Knight Six now awaits your approval.

REFINERY GIVES HUNDREDS OF WORK AND SUPPLIES MANY MARKETS

SAINT JOHN SUGAR PRODUCT MILLIONS OF POUNDS MONTHLY

Bustling Local Industry calls to Mind Tropical Plantation Scenes and Sturdy Ships Ploughing the Ocean Refining Described.

THE story of the spoonful of sugar you use to sweeten your coffee at the breakfast is as romantic as one of the wonderful pudding which interested the Saint John schoolboy and girl of the Royal Reader days of some years ago. The daily use of this necessary article has made all so accustomed to see it at hand that it is accepted without thought. To ponder a moment, however, is to bring to mind tropical scenes in the cane plantations, with thousands carrying on the preliminary process of growth and cutting, and putting on shipboard; then days and nights of travel by sea, with all the attendant anxiety of stress of weather; then the refining, and, following that, the shipment of the finished product.

SAINT JOHN PLANT
Saint John has a special interest in this, for one of the outstanding industries of this city is the refining of sugar by the Atlantic Sugar Refineries, Ltd., at the Ballantyne wharf. Its usual output of near 8,000,000 pounds of refined sugar a week, and its employment under normal conditions of more than 600 people, testify to this. The situation of the refinery plant makes it a prominent feature of the landscape. When coming up the harbor it is the first building that strikes the eye of the voyager, and to those coming in by train it also presents itself.

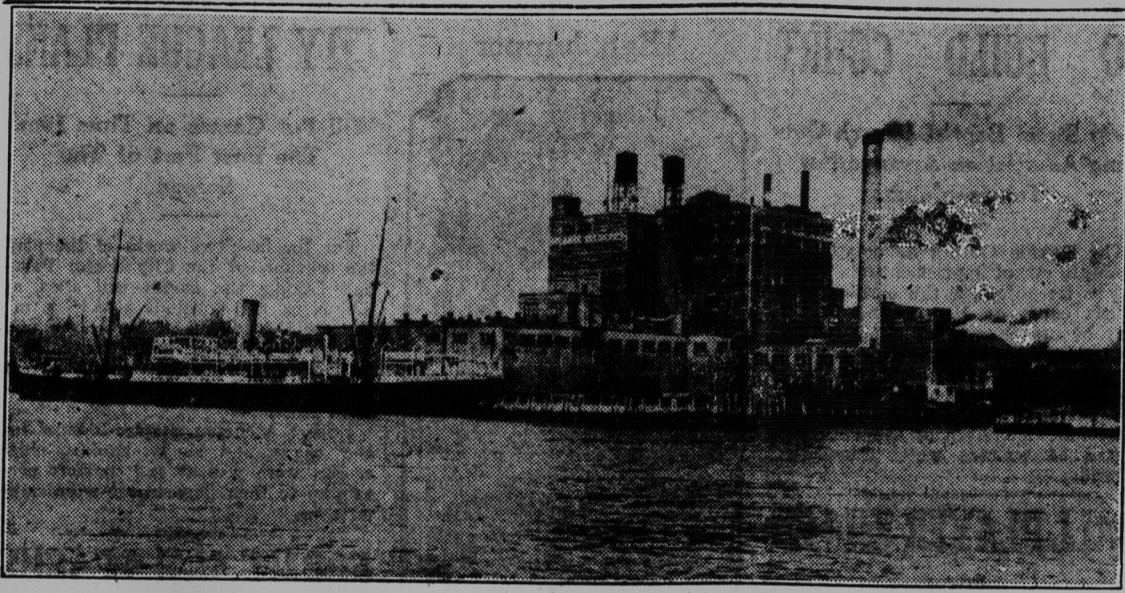

MANY MARKETS
To a Times-Star reporter who visited the plant this week, A. F. Blake, the manager, said that the raw sugar was brought here from British Guiana, Santo Domingo, Cuba, British West Indies generally, and sometimes from Peru, Venezuela, Honduras and Haiti. In those countries the sugar cane is grown, and at harvest time the tops of the canes are cut off, the remainder crushed in a roller mill and the extracted juice subjected to a process of clarification, filtration and crystallization, to produce the crystals which are brought here to be turned into all parts of Canada, but much of it is exported to United Kingdom, Holland, Norway, Sweden, France, Belgium, and recently there was a shipment to Uruguay.

WORK FOR 600
The plant employed 600 people when running at full capacity besides 100 "longshoremen" are kept busy most of the time loading and unloading ships. The usual output of the plant, Mr. Blake said, was 8,000,000 to 9,000,000 pounds of sugar a week, but last week the amount of sugar refined was 9,200,000 pounds.

REMOVE COLOR
The liquor after going through the filter is bright and clear but some of it has a brownish color. The only material so far found that will remove this color satisfactorily is boneblack or char, so the refiners were informed by their guide. This material is produced by the burning of bones of animals and is bought by the refiners in granular form.

SEPARATION
The sugar walls up on the sides of the basket and the syrup passes through the perforations and is collected in the casing outside the basket. The sugar remaining in the basket is thus separated from syrup and molasses. The sugar is then washed in the machine with cold water. This process separates the raw sugar into two parts; a washed sugar containing less than 1 per cent. of impurities and a very impure washing containing probably 20 per cent. impurities. The two portions are subsequently refined similarly, but much less treatment is

Atlantic Sugar Refineries Plant at Saint John

required for the washed sugar than for the washings. A portion of the washing is returned to the floor above to be mixed with more raw sugar. After the sugar has been dumped from the bags these are taken to a special department where every particle of sugar is washed out with hot water and the bags are dried and sold. Usually they are used to a great extent for potatoes and sent to Cuba.

TO MELTERS
The washed sugar from the centrifugal machines is deposited in bins and in which it is dissolved or melted in hot water or the water in which the bags have been washed. Then huge pumps drive the melted washed sugar to the blow-ups on the top floor of another building.

THROUGH FABRIC
The materials treated as shown are caused to flow through a tightly woven cotton fabric. This is done in bag filters, when the calcium phosphate and the calcium silicate, together with sand, dirt and sugar fines remain on the cloth and the clear sugar solution passes through.

BROWN SUGAR
Soft sugar is made from the sugar liquor before it has been deprived of all its color. It is boiled in vacuum pans under different conditions of vacuum, temperature, etc. and produces a sugar of the fine soft grain. It is purged in the centrifugal machines but not washed or dried. The soft sugars contain some impurities and some water, but are fancied because of their characteristic flavor.

CLEANLINESS
Of course the reporter did not glean all the information by just making a tour of the plant. He was supplied with the details by both Mr. Blake and Mr. Knowles. However, he did see that cleanliness was considered of the greatest importance for everywhere in the plant men were at work with these and shovels clearing up every-

thing that had even a slight appearance of being out of place. When this was mentioned the reporter was informed that besides keeping everything appearing clean, chemists were at work looking to the makeup of all materials and seeing that nothing but the purest sugar was placed on the market. These chemists test samples of sugar and syrup taken from different parts of the plant and they test everything in the refinery are David Hunt, refining superintendent; Harold Hooper, raw sugar superintendent; Robert S. Kent, New York, chief engineer; Roy Ring, assistant engineer, and W. F. Yeaman, chief clerk.

MUCH COAL
Mr. Blake, the refinery manager, said that the amount of coal used in the plant exceeds 50,000 tons a year. Nova Scotia coal was used whenever possible. Sometimes for technical reasons, United States coal was used. The refinery has a space for storing 15,000 tons of coal. It is fed into the furnaces by mechanical stokers, which keep the furnace room clean and neat. The coal is fed into the stokers from above the furnace level and the vibrator is impressed with the orderly arrangement of the room and the absence of perspiring men and open furnace doors.

LOCAL DOGS WIN CANADIAN CHAMPIONSHIPS AT KENNEL SHOW

TWO AIREDALES ADJUDGED BEST IN THEIR CLASS

Bellevue Ranger And Daughter, Roxie, Win Honors

Bellevue Ranger, an Airedale dog owned by W. F. Kiersey, of Saint John and Roxie, an Airedale bitch, owned by Francis Kern, of Saint John, went to their Canadian Championships at the first dog show of the New Brunswick Kennel Club, which was formally opened here yesterday in the Exhibition Casino.

The winning of a Canadian championship by a father and daughter—Roxie being a daughter of Bellevue Ranger—is perhaps unusual in the annals of dog shows in this country.

Mayor F. L. Davis formally opened the show yesterday afternoon and from the opening hour until late last evening a bumper crowd attended the show, the Pythian Castle being taxed to capacity.

Dr. Donovan, veterinary surgeon, is the chief inspector of the dogs.

The list of awards follows: St. Bernard. Winners—dog—White's Express; reserve, White's Dispatch.

WOMAN ADMITS SHE KILLED CONTRACTOR
Jealous, She Tells Detectives—Little Boy Tells of Slaying of Father.

NEW YORK, May 8.—Mrs. Anna Janetra has confessed to the Jamaica police that she killed her common-law husband, Pasquale Rocco, in their home. She admitted the crime after several hours' questioning, although at first she insisted that she had found Rocco lying dead on the floor when she returned from the "movies" with Rocco's five-year-old son, John. The boy said he had seen Mrs. Janetra hit his father with a hammer.

Mrs. Janetra told the detectives she was jealous of Rocco.

Rocco was a mason contractor. Mrs. Janetra's husband left her eight years ago.

SHE GOT RID OF THEM BY USING

BURDOCK BLOOD BITTERS
Miss T. Hunter, R.R. No. 8, London, Ont., writes:—"I wish to recommend Burdock Blood Bitters to all women who are suffering from pimples or any other facial blemishes. About two years ago I was greatly troubled with pimples and sores breaking out on my face, and could get no relief until, finally, a friend recommended me to take B.B.B. This I did, and I am now glad to say that your remedy has given me the desirable results, and I now have a nice smooth, clear skin, as it has eliminated all the impurities from my blood."

Get B.B.B. when you ask for it; it has been on the market for the past 46 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

N. S. LUMBER CUT
Latest Cumberland Estimates Are Forty to Forty-five Million Feet.

AMHERST, May 8.—The latest estimates of lumber production in Cumberland county for the 1924-25 season make the total between 40,000,000 and 45,000,000 feet. In spite of the adverse conditions of the last winter, comparatively good cuts are reported from all sections of the county. Twenty-five million feet will be shipped from the Passmore shire alone, where the returns from timber products are expected to amount to close on \$8,000,000. The lumber will go to the English and American markets.

The cut in the other districts of the county is made up as follows: Fort Lawrence and Truroville, 11,000,000 feet; Tyndale Road, 8,000,000; Brookdale and Salem, 8,000,000; Leicester, 2,400,000; Little River, 800,000; Roanoke, 600,000; Pugwash, 350,000; Victoria, 800,000; River Philip and Collingwood, 800,000; Aldison Sliding and Westchester, 1,600,000; Wentworth, 800,000; Maccan and River Hebert, 1,500,000; Southampton, 3,100,000; Thimish and Shininess, 1,000,000, with another million odd feet in scattered lots.

Cuts to the extent of 18,000,000 to 20,000,000 feet will also be shipped from the county this year.

FARM IS SOLD
The Daniel Palmer farm at Hibernia, Queens county, was sold this morning at auction at Chubb's Corner by F. L. Potts. It was bid in by George McCann and Company for \$225. The farm is of about 150 acres with a house and barn.

PAINS ACROSS THE BACK
Relieved by Lydia E. Pinkham's Vegetable Compound

Mitchell, Ontario.—"I have taken your medicine for a number of years. I do not take it steadily all the time, but I am never without it. I always keep it in the house. I took it first for pains in the abdomen and bearing-down pains, headaches and pains across the back. I have my home to look after and many a day I could not get up at all. I saw the advertisement in the paper about Lydia E. Pinkham's Vegetable Compound, and Mrs. John Miller told me about it, too. Every time I take it, it makes me feel better and I always recommend it to my friends. I am willing to answer letters from women asking about this medicine and you may use this letter as a testimonial."—Mrs. F. J. WASSIMAN, Mitchell, Ontario.

The merit of Lydia E. Pinkham's Vegetable Compound is told by women who know by experience what this medicine will do and they are anxious for others to know. Such testimony should cause any woman suffering from the troubles so common to her sex to give this well-known medicine a fair trial. Do you know that in a recent canvass among women users of the Vegetable Compound over 220,000 replies were received. To the question, "Have you received benefit by taking this medicine?" 98 per cent. replied "Yes." This means 98 out of every 100 women are in better health because they have given this medicine a fair trial.

STATE ARNOTT TREATMENT FOR ULCERS NOT NEW

Saint John Doctors Discuss Announcement Made in Toronto

SAY SAME THING BEING DONE HERE

Doctors Compare Regimen of Patients Here and the Arnott Report.

Many thousands of people across Canada, including Saint John, read with keen interest the report of Dr. D. H. Arnott of London (Ont.) published before the Ontario Medical Association dealing with his successful treatment of ulcers of the stomach during the last ten years. The initial announcement published a few days ago that Dr. Arnott's cure would be another price less boon to humanity and the testimony of Dr. Banting that it was of greater significance than his own insulin discovery, aroused the happiest anticipation among sufferers.

OPINIONS HERE

The Times-Star interviewed leading surgeons and diet specialists in the city this morning seeking some comment upon Dr. Arnott's treatment as published in the report in today's Telegraph-Journal. Each physician promptly asserted they did not see that the Upper Canadian doctor had discovered something new and that numerous citizens of Saint John were being treated successfully, many having already been cured by practically the same method of diet and medication.

Dr. Arnott's regimen which calls for almost complete inactivity of the muscular and secretory activities of the stomach by administering scant meals, preceded and followed by assisting medication, definite rest hours to offset fatigue and no interruption in the workday life of the patient, was said, was all familiar to chronic ulcer patients of certain doctors in Saint John and particularly one specialist in dietetics.

SAME TREATMENT HERE

Abstinence from heavy diets, raw fruits, spicy condiments, acid foods, variety of coarse-grained cereals, etc., was declared to be the Saint John treatment the same as Dr. Arnott's. The only variation from the reported discovery of the Ontario physician, it was asserted, might be in the frequency of feeding hours. Some citizens here with pronounced ulceration were attending to their daily duties, improving health and losing no weight under diet and medication prescribed for by local specialists, the regimen mentioned in Dr. Arnott's report.

It was the consensus of professional opinion gleaned this morning as the leading doctors were assembled at the hospital duties, that Dr. Arnott had nothing new to offer on the important subject of stomach and duodenal ulcer and its best treatment to date. In every centre where this common ailment was being specialized the same basic treatment was being given with unimportant variations.

ALUMNAE SESSION

Mount St. Vincent Organization Hears Reports and Address and Selects Delegate.

Miss Elizabeth McGuffigan, president of the Saint John Chapter of the Mount St. Vincent's Alumnae, delighted the members with an address on their Alma Mater in Halifax, when she spoke at a meeting last evening. Mrs. Albert Wilson, 100 Mount Pleasant avenue, was hostess. Miss Mrs. Gaffigan presided. Encouraging reports were submitted by Miss Mary Owen, secretary, and Miss Winifred Ritchie, treasurer. They showed successful work done in the Lenten season in sewing for the poor. The society is making a complete outfit for a child who will soon make her First Communion. Miss Winifred Ritchie was appointed delegate to the annual meeting of the Alumnae in June in Halifax. The Alumnae here, said, are proud of the work being done by Alumnae in Halifax, Miss McGuffigan said in her address. The schools for the blind and for the deaf were being greatly aided. Mount St. Vincent was supplying a large share of braille for the blind young people's studies and reading. This was only one branch of the work being done.

Mrs. Wilson served dainty refreshments, assisted by several of the members. The closing meeting of the season will be at the home of Miss Bernice Borden, Douglas Avenue, later in May.

Taken to Rockwood Park For Outing

A new departure was introduced into the story telling at the army this morning. Miss Mary Gunn told them that the girls were to meet her at King Square a little before 2 o'clock and they would be taken to Rockwood Park for their story telling. The boys are to be taken another day by several young men, and these two occasions will close the story-telling for the South End children for the season at the army. Miss Marjorie Johnston was the story-teller engaged for this afternoon, and Miss Jean Doig accompanied the party to assist Miss Gunn. More than 20 girls from seven to ten were expected on the picnic party. The Boy Scout troops from the Church of the Assumption and the St. John Baptist Mission church were in attendance at the army this morning.

FORMER KONGSHAVN

The steamer *Solund*, formerly the *Kongshavn*, the first ship to enter the Saint John Dry Dock, arrived in port yesterday from Puerto Tarifa, Cuba with a cargo of 21,190 bags of raw sugar for the Atlantic refinery.

ON THE RIVER

According to reports from Indian town the steamers are carrying good sized cargoes up river, but freights down are light. It is expected, however, as the season advances that business both in passenger travel and freights will pick up. The Hampton will inaugurate the combined service to Wickham and Hatfield's Point on the Belleisle next week. She will make trips to the former on Monday and Tuesday and to the latter on Thursdays and Saturdays.

TO LORNEVILLE CHURCH

Rev. and Mrs. Peter Jackson, who have been for three years and a half in St. Paul's Presbyterian church, Hampton, have arrived in Lorneville to take the work of that church for the next year. Rev. Mr. Jackson was born in Glasgow, Scotland, and came to Canada 15 years ago and took the theological course in the Presbyterian College, Montreal. Rev. Mr. Jackson is taking the parish vacated by Rev. W. J. Bevis, who is in the United Church in East Saint John.

As Hiram Sees It

"Hiram" said the Times reporter to Mr. Hiram Frink, who is in charge of the "Com. Frink's" department has hauled new earth and reseeded the boulevard on G. m. a. in below Queen street. As an experienced gardener, what would you say about the new earth?"

"Well," said Hiram, "I'd hev all the kids run over it while it's soft—an' hev 'em haul their carts over it—an' git all the dogs in the neighborhood to make tracks in it—an' make a regular playground out of it."

"That would seem to me a very extraordinary thing to do," said the reporter.

"Well, now, see here," said Hiram, "if you kin stop that there grass from growin' it'll hev to be planted all over again—won't it?"

"Quite so," said the reporter.

"An' that'll mean more taxes, won't it?" demanded Hiram.

"Of course," said the reporter.

"Ain't that what you want?" said Hiram. "Don't you want more taxes to grumble about? That's the way it always looks to me—see, sir."

CUBS ON OUTING

Hike to Duck Cove and Have Afternoon on Beach—Certificate Presented.

Duck Cove was invaded this morning by several packs of Wolf Cubs, who made the air ring with their yells and scout calls. L. L. Johnson, secretary, had the boys in charge, with various Cub leaders assisting. Dinner was enjoyed and scout games participated in. The boys were to spend the afternoon on the beach. Several were to receive certificates giving them assurance of their capabilities as leaders. Miss A. Collins, cub master of the pack at the Church of the Assumption, was assisted at noon the Avon Trust, was for the Gillwell camp course, being the first to win this honor in Saint John.

COAL QUESTION AT HOSPITAL MEETING

Busy Session Fails to Complete Business—Patients Average 143 a Day.

The question as to who should order fuel, the coal committee, or the commissioner of the month, was raised yesterday afternoon at a meeting of the Board of Commissioners of the General Public Hospital. Mrs. J. V. McLellan, commissioner for the month, in her report said that J. King Kelley had ordered a car load of coal from the Emerson Fuel Company without authority, and that the hospital commissioners interfering with her duty. J. L. O'Brien and W. E. Emerson, members of the coal committee, said they had agreed to the purchase of this coal as it was a test car load. Mr. Agar thought it was an unfortunate situation but everyone had been acting in the interests of the hospital. The meeting approved the action of the coal committee authorizing the committee to make arrangements for supplies of coal for the present month and to call for tenders for the year's supply.

General Matters

Mr. Kelley asked if the method of placing the bill in the kitchen was not creating a fire risk, and the superintendent said the work had been approved by the fire marshal and two members of the fire insurance board.

Patients

The superintendent reported the average number of patients a day for the month had been 143. The receipts had been \$18,381.79 and expenditures \$13,946.89.

Miss Belle How, social service nurse reported 65 visits made and four cases reported to the Women's Hospital Aid. Dr. W. W. Wallis, appointed commissioner for the month, the schedule of the meeting was unfinished and will be resumed on Wednesday.

TRUCKS COLLIDE

Two auto trucks collided in Rockland Road yesterday afternoon but only slight damage was done.

LICENSE PLATE FOUND

Three juveniles were before Magistrate Henderson in the Police Court this morning on charge of running over the roof of property of Alexander Magee in Elm street. After listening to the evidence, the magistrate ordered the school and a committee of teachers was in charge.

TEST PLOT AS SITE FOR WAR MEMORIAL

Measurements Taken Today in Square to North of W.C.T.U. Fountain.

Measurements were taken this morning to see if the Soldiers' Memorial monument could be placed in King Square on the north side of the centre walk opposite King street, at the same distance from the fountain as the Tyler monument is on the south side of the walk. It was found this could be done and still clear the water main.

Commissioner Frink, under whose direction the measurements were made, said he had been asked by several members of the committee to investigate and see what could be done. He was accompanied this morning by E. T. Hayes, M. L. A., E. A. Schofield, C. B. Allan and others and the measurements were made by men from the public works department.

The commissioner said that after looking the ground over these present had expressed the opinion that it would be quite feasible to erect the monument in the plot of land which would give an opportunity to get all round it and still it would be visible from King street.

Now Agent Is In Quandary

THE following letter was received this morning by Rev. George Scott, agent for the Children's Aid Society:

"Mr. Rev. George Scott: I want you to come down to my place on Richmond street on Monday. I want you to come and take my children to the Home, for I can't keep them."

"And 'oblige 'em."

As no name was signed or street number given, Mr. Scott is in a quandary.
