Expenses.

Laying new services, setting new gates, laying new mains.

The numerous friends of Mr. George Thompson the deputy superintendent of edu-cation, were pained to hear of his sudden death which occurred at 3 P. M., Monday. Mr. Thompson has been ailing for two years, but up to last week was able to discharge his duties. He suffered from frequent para-lytic shocks, but quickly railied from them, and there was bothing in his physical con-dition that suggested such a sudden dissoludition that suggested such a sudden dissolu-tion. Mr. Thompson was in his 73rd year, and for thirty years held his position in the Education office. Hewas a faithful, courteous official, a kindly general friend, and a loving husband and parent. His sudden decease is a great shock to his family and a very large circle of relatives and friends. He the brilliant young journalist now of Chicago, and three daughters the eldest of whom is the wife of Hon. A. G. Blair, the others are unmarried. The remains of the deceased will be interred at 2.30 R, M. to-morrow.

The death of Mr. James Cary a young far-The death of Mr. James Cary a young farmer of Rusagornish, Sunbury County, occurred early this morning at Mrs. Harvey Strickland's, St. John street, under peculiarly distressing circumstances. A week ago Cary came to Fredericton with a load of wood for Mrs. Strickland, who was a former neighbor of his, and after unloading it started for Morrisons Mill to bring up a load of slabs for her, this latter act being proposed by himself, as Number of imperial gallons pumped during the street of the strickland of the street of the strickland of the street of the strickland. Getting his team loaded, Cary with the boys, started his team loaded him. his team loaded, Cary with the boys, started for the city, and in going from the highway to the flats just above Mr. Morrison's, the forward stakes of his wagon gave way, precipitating one of the boys to the ground, Cary made an effort to catch him as he fell, and in doing so, fell heavily himself on the frozen ground. The tumbling slabs alarmed the horses, and starting, they dragged the wheels over Cary's hand, crushing it to almost a jelly, and inflicting other serious injuries, including dislocation of the shoulder, and a cut on the head. The boys escaped unhurt. The unfortunate man was brought to Mrs. Strickland's and his wounds were 'dresself by Dr. Crocket, and he also had the eare of Drs. Coulthard, and Coburn, but all that medical skill could do did not save his life.

He suffered great agony till relieved by death

REPAIRS.

The repairs to mains and stop gates were principally in the direction of increased security against frost.

The Hydrants will always require more or less attention, as it is necessary to have them always in as effective state as possible. The leather valves being found unsatisfactory, I have replaced them with rubber whenever it became necessary to make repairs.

COMPARATIVE WORTH of BAKING POWDERS.

ANDREWS&CO."Regal"4 BULK (Powder sold loose)... RUMFORD'S, when not fresh

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder. "I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances.

E. G. Love, Ph.D." "It is a scientific fact that the Royal Baking Powder is absolutely pure.
"H. A. Mors, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious sub-stance. HENRY MORTON, Ph.D., President of Stevens Institute of Technology." "I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. Dana Hates, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American institute, New York, and at State Fairs throughout the country.

No other article of human food has over secrived such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

Note—The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair minded person of these facts.

While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength are to be avoided as dangerous.

Was it possible that Richard had been wild and indiscreet while at school, and had done something which he would be glad to have conceased? Had ale been too hasty in her judgment of the man standing apparently so crest fallen by her side? Was he, after all, a true friend to Richard, but out of a sincere regret for the past and a regard for her, had been betrayed into giving involuntary expressions to it?

These questions flashed through her mind all in a moment, and she began to regret her imperious words. The treatment of many thousands of cases of those chronic weaknesses and distressing aliments peculiar to females, at the invalids Hotel and Surgical Institute, Buffalo, N. Y., has afforded a wast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffied their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar aliments.

As a powerful, invigorating tonic, it imparts strength to the whole system.

suffering women. It is not recommended as a "oure-all," but as a most perfect Specific for woman's peculiar allments.

As a power ful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down." debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a scothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspensia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhen, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescriptions," when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."
