SEVENTH TIME!

Chicago Man Tried to End His Life and Succeeded at Last.

Chicago, Sept. 3.-After attempting six times to commit suicide during the last two years, Frederick Schultz, of 1,539 West Forty-ninth Place, killed himself, although after he had drank a quantity of carbolic acid he wanted to live. He died, however, before medical aid could reach him.
Schultz boarded with his stepmother, Mrs. Emma Briel, and was employed as an extra man in the butchering department at the Armour plant at the stock yards. He returned home from work on Saturday and talked for a while with Mrs. Briel, then went out. Half an hour afterwards he returned to the house and walked into the parlor, his lips twitching and his face ghastly white.

"I have fixed myself this time," said Schultz to Mrs. Briel. I wish I had not taken the stuff. Isn't there something I can do to save myself?"

Mrs. Briel placed the man on a lounge and sent for physicians, but by the time they had arrived he was beyond aid and died shortly after seven o'clock.

Since her stepson's repeated attempts at suicide, Mrs. Briel has been careful about keeping any poisonous drugs or acids about the house, but a short time ago she purchased a bottle of carbolic acid unknown to him. The bottle of acid was left in a basket in the hallway, and it is believed that when Schultz saw it there on Saturday he determined to end his life.

LABOR'S LEGIONS

Unite to Demonstrate the Growing Strength of Trades Unionism.

St. Thomas, Stratford and London Unions Celebrate Labor Day at the Railway City.

Magnificent Parade of 2,000 Organized Workmen-Programme of Sports and Games at Pinafore Park-Stirring Speeches By Prominent Labor Leaders.

Labor's holiday has never been celebrated so royally in the western district of Ontario as it was yesterday in the busy Railway City. The trades unions of St. Thomas, London and Stratford combined to mark the day, and their success was a demonstration of the strength of organized labor in the cities represented. The tollers are evidently being educated to the advantages of combination and organization, and each year witnesses a large increase in their ranks in the cities where unionism has attained a foothold. Yesterday's celebration at St. Thomas was certainly a magnificent demonstration of the growing strength of organized labor in Western Ontario.
The St. Thomas Trades and Labor Council, with the assistance of the local unions, planned and carried out a demonstration to eclipse which will require strenuous efforts on the part of labor in the sister cities. The success is all the more creditable because of the fact that this was the first celebration of Labor Day ever held in St. Thomas. The labor men were heartily seconded in their efforts by the merchants and manufacturers of the Railway City, who vied with each other in supplying floats and decorations, and thus making elaborate displays of their wares or handicraft.
London's trade unionists were out in force for the occasion. For weeks the local unions had been arranging for the outing, and when the day dawned the organized workmen were early astir. They formed in procession in and around Victoria Park, and marched to the G. T. R. station, where they boarded L. E. and D. R. trains. Over 2,000 tickets were sold to London excursionists. They reached St. Thomas shortly before 11 and found their fellow unionists awaiting their arrival. The Stratford delegation, numbering over 400, had reached St. Thomas about 10, going by G. T. R. special train via Tilsonburg.
THE PROCESSION.
The monster procession formed in four sections, the union men on Inker man street, the commercial section on Balachlava street, agricultural on Alma street, and the remainder on the main street. They commenced at 2:30, and continued with the speech-making, until 6:30 o'clock. The running events were judged by Aid Price and W. L. Shepherd, and Messrs. Lossing and Moody were the starters. The results were as follows:
Union men's race, 100 yards-1. Jas. Wilson, St. Thomas; 2. J. Doidge, London.
Bicycle race-1. W. R. Penfold, St. Thomas; 2. H. Batiste, St. Thomas.
Fat men's race-1. E. Connor, St. Thomas; 2. James Flowers, London.
Old men's race-1. D. Thompson, St. Thomas; 2. Aid. Trot, St. Thomas.
Needle and thread race for married ladies-1. Mrs. Connors, St. Thomas; 2. Mrs. H. Jordan, St. Thomas.
Single ladies' race-1. Miss Nellie Mayson, London.
Marchants' race-1. J. C. Doidge, London; 2. C. McGuffin, London.
Potato race-1. A. Nihnam, Oneida; 2. J. Murphy, Stratford.
Sack race-1. F. Carson, London; 2. T. McLean, London.
Three-legged race-1. H. Murray and H. Pareps, Aylmer; 2. W. Penfold and H. Batiste, St. Thomas.
Boot and shoe race-1. L. Smith, St. Thomas; 2. A. Dell, St. Thomas.
Peasant race-1. L. H. Anford, London; 2. Mamie Jagol, St. Thomas.
Half a dozen youngsters, ranging in age from four months to a year and a half, were entered in the baby show. The judging was left in the hands of Grand Master Sargent, Second Vice Grand Master Dodge, Squire Frank Hunt, L. H. Dingman and R. M. Anderson, and the first award was given to Mrs. Connell's five-months-old girl; second prize, Mrs. J. Bore's (London) nine-months-old boy; and third prize, Mrs. Joe Michener's (St. Thomas) eight-months-old boy.
The dancing was judged by Messrs. Munro, Olmsted and McIntyre, of St. [Continued on page 5.]

Always "On Top"

The housewife will find "Purity" Baking Powder indispensable in making finest foods. It makes the hot tea biscuit, cake and other pastry light, sweet and excellent in every quality.

Physicians inform us that dyspepsia, heartburn, sick headache, constipation and kindred disorders follow the use of alum, found in so many baking powders.

"Purity" Baking Powder is made from pure grape cream of tartar, the most healthful and pleasant of all fruit acids, and adds antidyseptic qualities to the food.

"Purity" is absolutely pure, and never fails to make delicious and wholesome, appetizing food.

street, and citizens on Manitoba street. The parade was over two miles in length, taking 50 minutes to pass a given point. There were four bands in it-the 25th, of St. Thomas; the 28th, of Stratford; Mr. Roselle Pocock's band, of London; and the St. Thomas band, of the St. Thomas pipers. The workmen in line were estimated at from 2,000 to 2,500, and the members of many unions went to the occasion, adding greatly to the picturesque of the parade.

The place of honor was accorded to the London unions. They immediately followed the carriage containing Messrs. Sargent and Dodge; George Wrigley, of Toronto; James Baker, president of the London Trades and Labor Council; W. Lovel, president of the Stratford Trades and Labor Council; William Bear, chairman of the St. Thomas committee; R. M. Anderson, president of the St. Thomas Retail Merchants' Association; and F. R. Mitchell, president of the St. Thomas Trades and Labor Council. Other delegates included members of the Ladies' Auxiliary, No. 37, of the Brotherhood of Locomotive Firemen, London's contingent was accompanied by Mr. Roselle Pocock's band, a new organization, and it was marshaled by Mr. Wm. Burleigh, with Messrs. Norman Lockhart and John Roberts as deputies. The cairncrossers rode by far the strongest turnout, being 100 strong, and wearing caps of white, with a blue band and white braid knotted over a black peak. The Broommakers' Union, No. 203; the Building Laborers' Union, No. 83, followed in the order named. Typographical Union, No. 133, made a good showing, 60 strong, the printers wearing black and white peaked caps. The Coal Employes and Tobacco Workers, No. 61, were well represented. The Stove Mounters, No. 33, wore natty-looking shirt waists, and were the only organization thus attired. The Tailors' Union, No. 18, and the Machinists' Union, No. 18, and the Machinists' Apprentices, were the strongest organization from the Classic City, and the other unions in line were the Cigarmakers, the Woodworkers and the Carpenters and Joiners.

The turnout of St. Thomas unionists was fully equal to that of London. The locomotive firemen and engineers made a decided hit with their engine, drawn on a truck by four horses. The importance of the railways to St. Thomas might have been judged by the number of railroad employes in the parade. Besides 75 engineers and firemen, there were a large number of conductors and trainmen.

The engine crews wore white caps and blue overalls, and the trainmen white caps. The machinists were in working clothes-smocks and overalls. The Federal Union, numbering 100 in number, wore blue caps. The bricklayers and masons, the barbers and the tailors, were also in the parade. The tailors wore an immense pair of shears and a pressing iron constructed on a wagon.

Excellent displays were made by the mercantile and manufacturing interests, their gaily decorated floats and wagons being an especially attractive feature of the parade. The fire brigades brought up the rear of the procession.

The chief marshal of the day was H. Westaway, of St. Thomas, and the divisional deputies were John Farrill, of the union men; William Smith, of the mercantile displays; Thomas Gray, of the fire brigades; and Courtland Shaw, of the citizens' section. Stratford unions were marshaled by J. O'Toole.

AT PINAFORE PARK.
The sports at Pinafore Park attracted an immense gathering in the afternoon. They commenced at 2:30, and continued with the speech-making, until 6:30 o'clock. The running events were judged by Aid Price and W. L. Shepherd, and Messrs. Lossing and Moody were the starters. The results were as follows:
Union men's race, 100 yards-1. Jas. Wilson, St. Thomas; 2. J. Doidge, London.

Pay When Cured

This is Dr. McLaughlin's offer to Weak Men, Rheumatics, Dyspeptics, Men with Lame Backs, Weak Kidneys, Lost Vitality, Varicocele, Wasting of Vital Strength, Sciatica, Constipation, "Come and Go" Pains, and to Women with the Weaknesses Peculiar to their sex.

Give me a man broken down by indiscretions—one who has lost the very essence of health—and I will make him feel like a youth of 20 within a month. How? You ask. Simply by pumping a vital stream of electricity into his body in the right way while he sleeps.

Dr. McLaughlin's Electric Belt

Does wonders in a few applications. It arouses all the dormant energies, develops muscular and nerve life and restores the feeling of youth, courage and manhood. It makes men over again. It makes perfect men of the puniest, weakest specimens of "half men."

Any man or woman who will secure me can have my appliance and pay when cured. I ask no pay in advance. Are you sick? Are you in pain? Are you a Weak Man? Are you tired of doctoring and paying out money without result? Then come to me or write to me. I AM THE ONLY MAN IN THE WORLD WHO HAS CONFIDENCE ENOUGH IN HIS REMEDY TO WAIT FOR HIS PAY UNTIL YOU ARE CURED. I give free test to all who call. If you can't call I will send you my beautifully illustrated book with full information free. Call or write now. Don't delay.

LABOR'S GALA DAY HERE AND ABROAD

How the Holiday Was Spent in Canada and the United States.

Toronto, Sept. 2.—The labor demonstration here was a splendid success. There were more men in line and more spectators thronging the streets than ever before. Almost 5,000 men were in the parade, which was headed by the mayor and members of the city council. The features of the procession was the remarkable turnout of men in the iron and steel working industries. There were hundreds in the "black squad," comprising boilermakers, shipbuilders and machinists. This is the result of the expansion of the big yards engaged in ship and other iron building. The building trades made a large show up. The house painters' parade turned out over 200 strong, every man in spotless white duck. The bricklayers, 150 in number, marched in white overalls, with their coats over their arms and their sleeves rolled up. The procession was enlivened by the music of some twenty bands, and by the uniforms of the fire brigade, the members of which were on parade. It took almost an hour and a quarter to get to the given point, and included many floats with men at work at their trade, making horseshoes, riveting boilers, steam fitting, etc. This afternoon was devoted to sports at the Exhibition Park.

AT KINGSTON.

The labor unions of the city had a mass picnic at the fair grounds. The throng was immense, as the day was fine. At noon a great crowd paraded the streets, with music and banners, making a great show. The afternoon was spent in sports, races and baseball matches. The Pioneers won, 7 to 2. During the races David Dewavain fell exhausted, having been in various other events, and is still unconscious. He is in the hospital. There was no speech-making.

AT MONTREAL.

Labor Day was celebrated in Montreal by a grand turnout of all the labor organizations under the direction of the Federated Labor Council. The procession today was said to have been the best in many respects that the city has known for some time. The little differences among some of the unions had been the result of injuries some of the demonstrations of the past few years. But this labor day practically settled the differences and there was nothing to interfere with the most sanguine expectations of those who were at the head of the demonstration. Over 5,000 took part in the procession, which was witnessed by an immense crowd.

Over the Line.

AT BUFFALO, N. Y. Business was generally suspended here today, and thousands of machinists and laborers turned out in a monster parade under the auspices of the United Trades and Labor Councils of Erie county. The parade was com-

posed of six grand divisions. There were between 8,000 and 10,000 men in line.

AT PHILADELPHIA.

Labor Day was generally observed in this city, business being practically suspended. There was big demonstration at Washington Park on the Delaware River. Among the speakers were Carrie Nation and Max S. Hayes, of Cleveland. It is estimated that over 100,000 union workers participated in the celebration.

AT NEW YORK.

Labor Day was observed in this city by a general suspension of business. There was no parade of workers, the day being given over to picnics and outdoor sports. The air was chilly, and rain fell at intervals.

AT BOSTON, MASS.

The holiday in Boston was, as usual, a day of band music, marching men and athletics. There were no less than four separate parades. The total of marchers approached 25,000. The weather was cloudy and cool.

AT OSWEGO, N. Y.

The celebration of Labor Day was marred by two accidents, in one of which a policeman was probably fatally injured, and in the other a number of persons badly cut and bruised. During the parade Policeman Frank Milo's horse ran away, throwing the officer to the ground with such force as to cause concussion of the brain. He also sustained a broken shoulder and was badly cut and bruised. A dozen people were knocked down and trampled upon by the horse before it was secured. None were seriously hurt, however. The collapse of a truck in the parade, on which was a huge boiler, injured several men.

AT WASHINGTON.

Labor Day was observed here today. The government departments and most business places were closed, and the labor organizations held picnics and excursions in various directions out of the city.

AT PITTSBURG, PA.

The city was given over to the sturdy sons of toil today, who paraded the streets many thousands strong in celebration of the Labor Day. The best of feeling prevailed and there was no disorder. Addresses were made by President Shaffer, Simon Burns, of Window Glass Workers' Association, Geo. J. Churchill and others. The day was spent in dancing and athletic sports.

Serious Fires.

Chicago, Sept. 3.—Logan Square terminal of the Metropolitan elevated road was practically destroyed by fire Saturday. The ticket agent narrowly escaped death in the fire, which destroyed about a dozen cars, a train shed, repair shops and other railroad property. Estimated loss, \$150,000.

Vankleek Hill, Ont., Sept. 2.—Lake-side Cottage, a summer home at Caledonia Springs, was completely destroyed by fire on Saturday night. The building was a large frame, owned by Mr. Arnold, proprietor of the Grand Hotel, in the same town. Everything except the piano and dining-room furniture. Some 25 guests lost all their wearing apparel. The loss to Mr. Arnold and Mr. McMaster (manager of the cottage) is nearly all covered by insurance.

A Victim of Summer Complaint

Mr. Armstrong cured of a Desperate Case of Diarrhoea by Ozone.

Mr. Chas. Armstrong is at present employed at Augustus Newell & Co.'s organ reed factory, 29 Hayter Street, Toronto. He suffered from dysentery so greatly that he almost died from weakened system. Maybe you would like to read his story:

June 21st, 1901.

OZONE CO.

Dear Sirs,—For three years I have been a martyr to diarrhoea. So badly did the disease attack my system that I was at death's door. I tried doctors, and every remedy I heard of, but all to no effect. I saw Mr. Francis' testimonial in the paper and decided to try Powley's Liquefied Ozone. I procured a bottle, and by the time I had taken this I was entirely cured, and have been well ever since, with the exception of a slight attack this spring. I used Ozone again and now feel as well as ever I did in my life.

I keep Ozone in my house as I know its value in my case, and esteem it a great family remedy in any event of sickness.

(Signed) CHAS. ARMSTRONG, 44½ Gerrard St. West, Toronto.

Powley's Liquefied Ozone is splendid for any affection of the intestinal tract. It heals quickly and stops the terrible weakening drains which accompany bowel disorder. If you have a severe attack take it in dessert-spoonful doses pure. It will soon give you relief. If you wish to prevent the disorders so common in summer, drink water in which you have Ozone—generally a dessert spoonful to a tumbler. This sterilizes the water, and makes your system healthy. Just try it once.

Consult our physician about your case. Write full details and you will get a specialist's advice free. Your letter will be absolutely confidential. Address the Consulting Department, The Liquefied Ozone Co., 229 Kinzie St., Chicago, U.S.A.

THE SULTAN REMAINS OBSTINATE

Refuses to Make Concession in Constans Affair.

The Work of Murdering the Macedonians Goes On—39 Persons Drowned By the Loss of a Steamer—Jules Verne Has Become Blind.

Paris, Sept. 3.—The Matin announces that it has received from a source, alleged to be authoritative in Constantinople, information to the effect that the sultan, relying upon the assurance of a great power that France will not proceed to force, will refuse any concession in the Constans affair.

It is rumored that a naval division will be ordered to Turkish waters tomorrow. Munir Bey will only return to Paris against the wishes of the French government unless the dispute is settled.

The result of Munir Bey, the Turkish ambassador to France, coming to Paris, in spite of the rupture of Franco-Turkish relations, and holding a fête in the most open way at the Turkish embassy yesterday in honor of the anniversary of the sultan's accession to the throne, has been that the French government sent him, the same afternoon, a request to leave France immediately and Munir Bey departed for Switzerland that evening.

Constantinople, Sept. 3.—Munir Bey, Turkish ambassador to France, wired the porte on Saturday that the sultan's strong hopes that a settlement of the Franco-Turkish difficulty would be reached which would preserve the dignity of both governments.

M. Delcasse, French minister of foreign affairs, on the contrary, wired M. Bey, counselor of the French embassy, categorical instructions to take no steps to show that the relations between the two countries were modified.

KILLED BY ALBANIANS.

Disorders and military uprisings are reported in Armenia, Macedonia and the neighborhood of Macedonia. A high functionary was carried off by brigands near Adrianople, who fought a bloody engagement with the troops sent against them.

A dispatch from Salonica says that M. Bey, aide-de-camp of the sultan, who was sent to investigate the brigandage in Albania, has been killed by Albanians. It is also said that Turkish troops are rioting because they have not been paid.

BILL WILL BE BIGGER.

The government of France is determined to compel Turkey to fulfill its entire obligations. Unless the sultan yields shortly he will have the bill against him increased by a number of other outstanding claims of Frenchmen which will make an appreciable addition to the sum now demanded.

THIRTY-NINE DROWNED.

London, Sept. 2.—A dispatch to the London Standard says that the Johnstone, line steamer Noranmore, with a cargo of oil, has foundered near Athens. The crew, numbering forty, were all lost except one.

VERNE IS BLIND.

According to reports from Amiens, Jules Verne has become completely blind. His eyesight has been failing for some time, and now it has completely gone. He is now in a world of darkness. "A Trip to the Moon," "Twenty Thousand Leagues Under the Sea," and a dozen other books have been read in all languages.

THE CZAR AND THE CZARINA.

The Russian imperial yacht Standart, with the czar and the czarina on board, which arrived in Kjögebay Sunday night, anchored at Elsinor, Denmark, at 2 p.m. Sunday. The imperial party was received at the water side by King Christian and all the members of the royal family.

In spite of the efforts made to preserve the non-political aspect of the coming meeting between Emperor William and the czar, the Schlesische Zeitung's St. Petersburg correspondent declares that the czar has been in auto-graphic correspondence with the emperor, special couriers visiting Berlin twice weekly, bearing letters which have not passed through the hands of any officials.

SULTAN APPEALS TO GERMANY.

Constantinople, Sept. 3.—The report that the sultan has appealed to Germany to use her good offices to settle the dispute with France, is, it is understood, will advise the Porte to settle with France as soon as possible.

Abdul Hamid is executing another unexpected maneuver. At the moment when relations between the Ottoman government and some of the great powers are disturbed, those between Turkey and Greece are growing friendly. It is more than possible that the sultan will visit the king in Constantinople in the not far distant future. M. Theotokis, the Greek premier, according to advices to the Berlin papers, will soon go to Constantinople to visit the sultan, and to personal communication with the sultan.

Should these visits take place—first that of the premier and then that of King George—it is expected they will assist in the final settlement of the Cretan question, the only open question between Constantinople and Athens.

HERBERT GLADSTONE'S ENGAGEMENT.

Not since Mr. Asquith's marriage has the House of Commons been so interested in a matrimonial affair as in Mr. Herbert Gladstone's engagement. Mr. Gladstone is exceedingly popular, and the great name which he bears so modestly draws attention to everything he does. He is 47 years old and his fiancée is 25. Her father, Sir Richard Paget, was for many years an influential Conservative member. Sir Richard was a resolute opponent of the late Mr. Gladstone's policy, but he was respected equally by Tory and Liberal for his personal character and his knowledge of county administration.

WILL NOT HAVE TO KOWTOW.

At 11 o'clock Sunday night, Prince Chun and his entourage left for Berlin by the imperial special train. Before starting, a member of the mission said that Emperor William had decided to waive the ceremony of kowtowing, and that the only person to be received by him in ceremonial audi-

ence would be Prince Chun and Ying Chang.

THE KAISER DANCED.

On his recent trip to Norway, Emperor William stopped at Molde, where he loves to play the role of a tourist, and where one of the first visits he pays is to an old acquaintance named Christian Herter, now 80 years old. Christian has a barrel organ which he considers so valuable a possession that he allows nobody to play it, and only plays it himself for a consideration. Another valued treasure is a bowl, which was given to him by King Oscar for saving some shipwrecked sailors.

On his latest arrival, William entered the room, looked at the bowl and grew much interested with it. Then, handing Christian a gold five-franc piece (\$1.25), he said:

"You are a noble fellow!"

Thereupon the gratified Christian said:

"I'll play you a dance." So he fetched out the organ and began to play. The officers accompanying the emperor began to dance to the music, and the emperor himself, who was in a jolly mood, also began to dance. Christian was so delighted that he even permitted the emperor to play, and Christian danced, too, and even his old wife joined in the merry sport, and he is over 80.

CABLE NOTES.

Turkish officials received only 40 to 60 per cent of their salaries on the anniversary of the sultan's accession. Count Von Buelow, the German ambassador, is formulating proposals, which he will soon submit to the German states, for the formation of the colonial army.

A dispatch to the Cologne Gazette from Teheran, dated August 31, says: "A widespread revolutionary movement is going on in Persia, fostered by discontent with the government on account of the new loan negotiations with Russia."

Cecil Rhodes is to erect a monument to Major Allan Wilson and 24 men who were surrounded and massacred by Matabele savages during a war against Lobengula.

The Birmingham Daily Post says: King Edward is likely to confer a dukedom on Lord Salisbury at the time of his majesty's coronation.

A private dispatch from Cologne says: Many laborers are being discharged from the coal mines and industrial establishments owing to declining business.

It is stated that the new Danish ministry has determined to maintain the price at which the Danish West Indies are to be sold to the United States at \$5,000,000.

The palace of Emperor William I. in Berlin has been kept in the condition in which he left it. In the bedroom there is still the simple iron bedstead on which he always slept, and on which he died.

A dispatch to a London news agency from Copenhagen says the new Danish ministry has decided to accept the United States offer of 15,000,000 kroner for the Danish West Indies.

At noon Sunday, King Christian witnessed from Amalienborg Palace, the ordinary residence of the Danish royal family in Copenhagen, a royal demonstration by the Liberals in his honor. Eight thousand persons passed in review. The king, in the presence of Queen Alexandra, King George, the dowager czarina and other royal personages, received a special deputation, who thanked him for reposing confidence in the people and appointing a Liberal ministry.

JAMES T. DALTON

DIED SATURDAY

Death of the Well-Known Vocalist After an Illness of Some Weeks.

James T. Dalton, the well-known vocalist of this city, died on Saturday night at Victoria Hospital of heart trouble, after an illness of some weeks. Mr. Dalton was born in England, and previous to coming to America he served an apprenticeship to the lithographing trade. While in England he spent much time cultivating his voice, and achieved considerable prominence in the domain of music. After coming to the United States he traveled with several opera companies of note. He was for several years with the Holman Opera Company, of this city, and eventually married Miss Sallie, the leading lady member of the company. After the death of his wife Mr. Dalton was connected for a number of years with one of the Chicago theaters. At the termination of his engagement with the Chicago company, he came to London, and during his residence here had made himself particularly useful in musical circles. He officiated as choirmaster in several of the churches, and organized a number of glee clubs in the city and surrounding townships. All his relatives, so far as known, live in England.

Mr. Dalton was a whole-souled, big-hearted man, and many a person in London was encouraged by his buoyant nature, optimistic always. He had a remarkable memory, and a mind stored with interesting reminiscences. His death will be sincerely regretted—most of all by those who knew him best. His funeral will be held tomorrow.

POLITICAL POINTS

At a British Columbia Cabinet caucus it was decided to invite J. C. Brown, of New Westminster, into the cabinet. Mr. Turner leaves this week for London.

A Windsor dispatch says: It is probable that the Edgys, the big sawmill firm of Saginaw, Mich., will follow the Saginaw Saw and Lumber Company to Sandwich. The Sandwich Lumber Company already have a large boom in a short distance below Sandwich, and will soon begin the erection of the mills and buildings.

The executive committee of the Ontario Conservative Association met in Toronto on Monday to prepare for the annual meeting of the association, which takes place today (Tuesday). The meeting was addressed by Mr. J. P. Whitney, Mr. J. J. Foy, K. C., and the Conservative candidates of a number of constituencies. All professed to feel confident that a Conservative victory was certain in the next provincial election.

The general provincial elections in Nova Scotia are expected to be brought on in October or November.

The Liberals of Pictou, N. S., in convention, chose A. E. McDonald, M.P., and George Patterson, M.P., as their delegates to the Glasgow conference of the Nova Scotia Provincial Government has been reconstructed. Hon. C. L. Church has resigned the commission of public works and mines, and Arthur Drysdale, K. C. of Halifax, succeeds him. Mr. Drysdale represents the county of Hants in the House of Assembly.

A HEART-BREAKING COACHMAN. Boston, Sept. 3.—Sued by the wife of a coachman for alienating the man's affections, Miss Maude B. Wetherell, one of the wealthiest belles of Gloucester, Mass., refuses to say anything about the matter, which has caused a great sensation there. Mrs. Martin Magnusson, aged 33, the suit and places damages at \$30,000. Miss Wetherell, a fine-looking young woman, and a lover of horses is

FORGAVE HIS ERRING WIFE.

Mount Clemens, Mich., Sept. 3.—Six weeks ago C. L. Ryckman, a farmer living at Mandamin, Ont., arose one morning to find that his wife had left him, taking with her her youngest daughter, aged 13. Investigation revealed the fact that Peter Brandow, a burly farm hand, was also missing. For weeks he searched for the missing couple, but without success. The little daughter returned alone, destitute and hungry. She told her father that her mother was in Michigan with the name of Moore. The husband's name was Moore. Ryckman came here and found the couple on a farm three miles north. When the erring wife was first confronted by her husband she denied all knowledge of him, maintaining that she was the wife of Moore, but the husband's name was Moore. ATTACKED BY A BABOON.

Omaha, Neb., Sept. 3.—William A. Pixley, amusement editor of a local paper, was injured seriously by being his flesh lacerated by a maddened baboon. Mr. Pixley was visiting the dressing tent of the dog and pony show. The baboon, known as Jim Robinson, attacked Pixley without warning, biting him several times, and opening the flesh in gaping wounds. The Pasteur treatment was at once administered to prevent the spread of the poison caused by the animal's teeth. The managers say the baboon took exception to the presence of a lady in the tent.

NEARLY ALL INFANTS are more or less subject to diarrhoea and such common complaints while teething, and as this period of their lives is the most critical, mothers should not be without a bottle of Dr. J. THE LAMENTATIONS
OF DAVID NATION!

Says He Has Borne Carrie's Abuse and Meanness Long Enough—Will Clinch Separation by Divorce.

Iberia, Ohio, Sept. 2.—David Nation, husband of the famous Carrie, has been spending some time here. He expects to leave for Kansas this week, but will return to Ohio in October. In an interview he is quoted as saying:

"If I had all the money I have made since we were married that she has squandered I could buy a good hotel and live at my ease. As soon as I can I am going to post up my books and see just how much money I have made and deposited in the banks since I went to Kansas in 1888, besides what I have made that never went into the bank."

In reference to the suit for divorce, Mr. Nation said: "It makes no difference to me whether she fights the case in court or not, but I will win. I care not for fear what she does. I have borne her abuse and meanness for 25 years and kept it to myself rather than have the scandal, but now that she has left me and started the ball rolling, I will prove it to the bottom and make her disgorge some of my property she boasts of having. She is posing over the country as a martyr, but the martyring business is just now beginning to blossom. The lion in its lair may look very quiet while sleeping, but arouse him and he shows his teeth, and if you don't keep out of his way he will make more than for it."

"The whisky business now annoys her more than it did when she induced her daughter to marry a saloon-keeper. It is true he quit keeping a saloon and had his brother run the business, which he is doing now, but before they were married and while they were engaged he was running the saloon. Where my wife is best known for is the laughing-stock of the people and can find no one to even go on an appearance bond. I see that the Topeka Capital, a prohibition paper published right in her home and where most of her 'mighty works' were done, has this to say of her: 'Uncle David Nation has at last asked for a divorce from his whoopiforous wife, but it took the old gentleman a long time to make up his mind to take this step. Uncle David will have the sympathy of a great many people who have something of an idea of the troubles that have bothered him of late. What a life it must have been for the old man in his petition for divorce, he says he has lived with his wife for 25 years. Still, there are a great many people who think hanging is the worst thing that can happen to a man.'"

"If the papers published in my town would publish such things about me

I would never go into court asking for a divorce, nor go into court when such a suit was brought against me. Mrs. Nation says she doesn't see what I want with a divorce, being 78 years old; but I certainly don't want to marry again. Her idea of divorce is only to marry again, while that is not mine. I know I would never marry again, but my object is to get rid of the wife I now have so that when I get a dollar I will not go to support her, and so that people cannot accuse me of hanging on to her apron strings any longer. I want the people to know I am not responsible for her conduct. Hundreds of people have asked me why I allow her to do so and so. My reply has always been, 'If you knew her as well as I do, you would not ask that question. I will assure you that I propose to be separated from her, and if the courts will permit it I will clinch the separation by a decree of divorce.'"

PEACEMAKER DEAD
KILLED AT A DANCE

While Endeavoring to Stop a Quarrel—
Telegraph Operator's Suicide.

Piketon, Ohio, Sept. 2.—Israel M. McCollister was stabbed to death last night while endeavoring to fill the role of peacemaker in a quarrel at a dance held at Salt Creek, south of Piketon. When McCollister fell, knives and revolvers were drawn all over the hall, which was crowded with dancers. A panic ensued among the women, many of whom fainted. In the excitement, those who had felled McCollister escaped. Two suspects have been arrested.

TWO MEN SHOT.
Walpole, Mass., Sept. 2.—Two men were shot and seriously wounded here this afternoon as the outcome of a quarrel between Fred L. Jenks, a mill machinist, and Myra Belle Spear, a young woman with whom he had been keeping company. Jenks thought that Miss Spear did not care for him as much as formerly, and by way of emphasizing a protest he threatened to shoot her. Chas. Majors, of Norwood, saw the infuriated man point a revolver at the girl, and when he grappled with Jenks the latter shot him in the body, the bullet entering four inches below the heart. Jenks then shot himself near the heart. He is not expected to live, but there is a slight chance that his victim may recover. Jenks is 30 years of age and a veteran of the Spanish war.

A STREET DUEL.
Shelbyville, Ind., Sept. 2.—In a street duel here this afternoon between Milton Evans and John Cunningham, the latter received a fatal wound. Evans was arrested. The duel grew out of a quarrel some time ago.

TELEGRAPH OPERATOR'S SUICIDE.

New York, Sept. 2.—Geo. A. Kent, telegraph operator of the West Shore Railway in Palmyra, N. Y., killed himself in the depot. For several hours the train dispatcher in Rochester called Palmyra, but was unable to get a reply. Train orders piled up thick and fast and half a dozen trains were held up at different points along the line waiting for the tied up orders. It was not until Owen Flynn, of Palmyra, happened to drop into the station that the tie-up on the West Shore was relieved. Flynn found the telegraph operator stretched out on the floor dead. He had shot himself. The cause for the act is unknown.

PART OF THE CREW LOST.
Conception, Chile, Sept. 3.—The British bark Collesio (Capt. Auld), from Newcastle, N. S. W., July 9, for Valparaiso, has been lost off Coicot Point. Part of her crew were lost.

FELL DEAD.
Toronto, Sept. 3.—Patrick Burns, an elderly man, who has been in the city for four weeks, and who came over from California, fell from his chair, in front of the Central Hotel, here, last night and died in a few minutes. Very little is known of Burns and no papers were found on him.

DIED IN A POORHOUSE.

Chattanooga, Tenn., Sept. 3.—Charles E. Ward died yesterday at the Hamilton poorhouse. He was born in Baltimore and was the descendant of an aristocratic English family. For a number of years he was an associate of Adams in the direction of the affairs of the Adams Express Company, but at the beginning of the civil war invested his fortune in Confederate bonds. He made several attempts to recoup his loss wealth after the war, but failed.

FATAL FIRE.

Pittsburg, Pa., Sept. 3.—The destruction yesterday of the Hotel McKee, a frame structure in the east end, resulted in the loss of one life, injuries to four others and narrow escapes of many more. The dead—Harry McKee, aged 11 years, son of the proprietor, who slept in a room over the kitchen, burned to death. The fire was caused by the explosion of a gasoline stove, which Della Campbell, domestic, attempted to light, and who is probably fatally injured.

PITCH-IN ON THE I. C. R.

Moncton, N. B., Sept. 2.—At Thompson Station, N. B., an eastern division, No. 76 freight train, going east, broke, and the rear end crashed into the front part. Two cars were derailed, and the road was badly damaged. Henry Buskirk, who was standing a ride was badly hurt. No one else was injured.

DROWNED.

Detroit, Sept. 3.—A 9-year-old boy named Leblut was drowned just below River Rouge bridge while in bathing with some companions yesterday morning. His body was recovered and the coroner notified.

Midland, Ont., Sept. 3.—The body of a man was found floating in the bay near Playfair's mill yesterday morning. The body was recovered and it is so that it could not be identified, but from papers found in the clothing, it is supposed to be that of Edward Deane, lumber inspector, of Bradford.

Jersey City, N. Y., Sept. 3.—Maurice C. Sutphen, a professor in Johns Hopkins University, was drowned in Shrewsbury River, near Atlantic Highlands, N. J., yesterday. With some friends he went in a small boat to see

MORE BOXES OF GOLD.

And Many Greenbacks.

To secure additional information directly from the people it is proposed to send little boxes of gold and greenbacks to persons who write the most interesting, detailed, and truthful descriptions of their experience on the following topics:

1. How have you been affected by coffee drinking and by changing from coffee to Postum.
2. Do you know anyone who has been driven away from Postum because it came to the table weak and characterless among the women, many of whom fainted. In the excitement, those who had felled McCollister escaped. Two suspects have been arrested.

3. Did you set such a person right regarding the easy way to make Postum clear, black, and with a crisp rich taste?
4. Have you ever found a better way to make it than to use four heaping teaspoonsful to the pint of water, let stand on stove until real boiling begins, then note the clock and allow it to continue easy boiling full fifteen minutes from that time stirring down occasionally? (A piece of butter about the size of a navy bean, placed in the pot will prevent boiling over.)

5. Give names and address of those you know to have been cured or helped in health by the dismissal of coffee, and the daily use of Postum Food Coffee in its place.

6. Write names and address of twenty friends who would be benefited by leaving off coffee. (Your name will not be divulged to them.)

Address your letter to the Postum Food Co., Ltd., Battle Creek, Mich., writing your own name and address clearly.

Be honest and truthful, don't write poetry or fanciful letters, just plain, truthful statements, and copies of the Declaration will be made between October 30th and November 10th, 1901, by three judges, not members of the Postum Food Co., and a neat little box containing a \$10 gold piece sent to each of the five best writers, a box containing a \$5 gold piece to each of the twenty next best writers, a \$2 greenback to each of the 100 next best, and a \$1 greenback to each of the 200 next best writers, making cash prizes distributed to 325 persons.

Almost everyone interested in pure food and drink is willing to have their name and letter appear in the papers, for such help as it may offer to the human race. However, a request to omit name will be respected.

Every friend of Postum is urged to write and each letter will be held in high esteem by the company, and evidence of such friendship, while the little boxes of gold and envelopes of money will reach many modest writers whose plain and sensible letters contain the facts desired, although the sender may have but small faith in winning at the time of writing.

Talk this subject over with your friends and see how many among you can win prizes. It is a good, honest competition and in the best kind of a cause.

SCHOOLMASTER LOSES HIS HAND

Toronto, Sept. 3.—Mr. John Spence, principal of Clinton street school, who had been for a few days camping with Major A. G. Henderson and family on the shores of Lake Scugog, met with a terrible accident involving the loss of a hand. On Friday, just before breaking camp to return home, Mr. Spence got a gun to shoot a kingfisher which had alighted on a stump near the camp, and crept on his knees to within range of the bird. While going through the long grass, however, the hammer of the gun caught in some obstacle and exploded. The cartridge rod the charge entered his wrist, coming out at the back of his hand. Major Henderson and Hector Cooper attended to the wound as well as possible, and Mr. Spence was taken to Port Perry, where Dr. Proctor and Dr. Warren, of Whitby, decided that an amputation was necessary and the hand was taken off just above the wrist.

EXPERT SWIMMER DROWNED.

Brooklyn, Sept. 3.—George Belcher, well known as an expert and fancy swimmer, was drowned at Broad Channel, Rockaway Beach, Sunday. He was giving an exhibition in deep water of how a swimmer could carry a person on his back, and the one he carried, a hundred of people were intently watching the two, when Belcher and his daughter began to founder in the water. The crowd thought this was part of the exhibition, and no one made a move to help until Belcher's wife, who was among the spectators, began to scream that something must be wrong.

MANITOBA WHEAT

MOSTLY GARNERED

C. N. R. Crop Report Most Favorable—No Damage by Frost.

Winnipeg, Sept. 3.—The C. N. R. crop report is most favorable. In most of the districts on its lines the wheat is all cut, and the oats and barley have been started upon. If fine weather continues threshing will be general this week. Already several gangs have commenced work, and the fields will soon be denuded of their crops.

The average is estimated at 20 to 25 bushels to the acre. There was no damage to wheat in any district. The Winnipeg Free Press prints reliable reports on the Manitoba and Territorial wheat harvest, received from resident correspondents at leading grain centers. The advices agree in stating that Manitoba's great wheat crop is being rapidly and safely garnered, fully 80 per cent having fallen before the binder. All eastern harvesters willing to work for fair wages have found employment, and more men are required at several points.

STRANGE SUICIDE!

Woman Killed Herself After Living 122 Years.

Kokomo, Ind., Sept. 3.—Suicide at the age of 122 years is the record of a doctored woman of this city. Last spring Mrs. Lucy Washington, who was 76 years a slave and part of the time a servant in the family of President Madison, was taken to the county house in stating that Manitoba's great wheat crop is being rapidly and safely garnered, fully 80 per cent having fallen before the binder. All eastern harvesters willing to work for fair wages have found employment, and more men are required at several points.

The New Municipal Association and Economical Municipal Borrowing.

The recent meeting at Toronto of the newly-formed Dominion Municipal Association, discussed two important questions—one, the question of public franchises; the other, the question of the rate of interest paid by municipalities.

The reports of the meeting state that Mayor Howland, of Toronto, introduced a resolution to form a public trust to float all municipal bonds. He pointed out how heavily the small municipalities pay in the form of interest for their isolation in the floating of debts, and figured that a million of interest could be saved by a co-operative arrangement. The convention unanimously adopted the idea, and steps will be taken to carry it out.

Prior to the late municipal election we pointed out to Mayor Rumball and the aldermen of this city, that municipal borrowing commenced at the wrong end; and that between \$40,000 and \$50,000 could be saved in London alone annually, if our suggestion was adopted. We are glad to notice that Mayor Rumball was at the convention, and that the suggestion of Mayor Howland was unanimously adopted, because Mayor Howland's suggestion will result finally in the adoption of the suggestion we made prior to the last municipal election.

We suggested the following course as perfectly feasible: Let every municipality borrow money, when required, on the security of its debentures, from the Government of the Province at 2½ per cent. Let the Government of the Province borrow this money from the Dominion Government at 2½ per cent; and let the Dominion Government borrow it in Great Britain, as it has been able to do, at the same rate. The effect of this, of course will be that the Dominion will assume the whole debt of the country, and deal with the Provinces only. The Dominion will be the security to the British bondholders for the payment by each Province. Each Province will assume the whole debt of every municipality in such Province, and be the security to the Dominion Government for the payment of such debentures. Each municipality would have the same debt as before, but the rate of interest would be materially lowered, and the annual saving to the country as a whole would be very great.

Take again, the city of London. It ought to gain between \$40,000 and \$50,000 every year, or more than half the cost of the maintenance of our public schools, or a very substantial reduction in the rate of taxation.

We have not seen or heard any argument against this suggestion that is not easily answered. We believe Mayor Howland's committee, if they consider it, will adopt it instead of forming a public trust to float municipal debentures on the co-operative plan.

Why? Because the Dominion and Provincial Governments have all the machinery necessary to carry out this suggestion without any additional expense. They always will have it. A co-operative public trust would be an expensive organization. You would not be always sure that you had men in it who "knew the ropes." There is always something to learn when you tackle a new job; and while the Finance Minister of Canada can borrow at 2½ per cent, with half a continent at his back, it does not follow that a public trust could accomplish it at as low a rate. Then, too, the Provincial Government has all municipal matters well in hand, even to the provincial municipal auditors. They would hardly need to employ an extra clerk to adopt our suggestion; and the same is true of the Dominion Government.

Let the public trust suggested by Mayor Howland and unanimously adopted by the convention be, in each Province, the Provincial Government. They were formed for just such purposes. After all there is nothing in the suggestion except that the mode of borrowing be reversed; that instead of the weakest municipal body (with, perhaps weak and inexperienced councillors managing its affairs) borrowing the money, the strongest municipal body, the Province, should do it through the Central Government. It is the plan that should have been adopted in the first place, and means so much money to the people that it should be adopted with as little delay as possible, so that from year to year, as the debentures mature each municipality can secure a proportionate saving in its debenture interest.

The convention evidently saw what it wanted, and what we have pointed out is the way to get it.

A Nation of Agriculturists.

[Highgate Monitor.]

Canada is not a land represented by its cities. Canada is a nation of agriculturists, not of shop-keepers. The energy, the prosperity, the wealth and the future of this land have all their hopes in the hands of the rural population.

History Repeats Itself.

The Toronto Mail and Empire, referring to recent attacks on Sir Wilfrid Laurier, denounces the Prime Minister as a very bad man, and makes out that, in point of political morality, he is away down below his predecessors in the Liberal leadership. Messrs. Blake and Mackenzie, declares our contemporary, "were the essence of propriety." Were they, indeed? Not so, said the Toronto Mail of less than a quarter of a century ago, when these statesmen were in public life. Not so, indeed, said the opponents of the Liberal leaders generally at that time.

They charged Hon. Alex. Mackenzie with raising large sums of money as a corruption fund from government timber licenses.

They charged Hon. Alex. Mackenzie with being implicated in a great oil swindle.

They charged that the Government, of which Hon. Alex. Mackenzie was a member, was more false, more faithless, more corrupt, than any government that had ever been known in Canada.

They charged Hon. Alex. Mackenzie with having conspired with his brother to rob the treasury of Canada.

They charged Hon. Alex. Mackenzie with being the touter of a ring to rob the Indians.

They charged Hon. Alex. Mackenzie with being the paid servant of the parliamentary contractors for printing.

They charged him with having used the power of his Government corruptly by granting silver lands in return for election funds.

Indeed, their accusation against this statesman, whom they now, for reasons that must be obvious, laud to the skies, embraced almost all the crimes in the calendar. And the shame was that they were made so persistently, and with so great vehemence, that many people believed them; though when the honorable gentleman brought his chief slanderer in Western Ontario into court, he got down on his marrow bones and confessed that he had no good ground for retailing what was known as the steel rail scandal, and that he personally knew nothing about the rascally conduct with which he had charged Hon. Mr. Mackenzie, he being contented to adapt the criminal libel from his political leaders!

When Mr. Mackenzie was alive, and a power in public life, these Opposition detractors of the present Prime Minister could not find too many crimes to lay at his door. Compared with Baldwin and Lafontaine, they declared, he was a rascal of the blackest description—a man unworthy of trust, a conspirer to defraud the public, a corrupt man that could not be trusted. Now that Mr. Mackenzie is no more, and Hon. Edward Blake, who was also slandered by his opponents, is in British public life, their political opponents are at their old tricks. They are lauding him to the skies as honest and capable—"the essence of propriety"—in order that they may the easier assail, belittle, and bring into disrepute the Prime Minister of today. The only Liberal statesman worthy of regard, according to these detractors, is he who is dead or out of Canadian public life. Surely their tactics are not difficult to see through.

Is Home Rule Dead?

It has seemed lately that in English politics everything was dead except the war. Anyone can easily see that such a state of things cannot last, and it is likely that in England soon there will be many political and social questions that will be very much alive. In Ireland, now, there is a strong agitation for a radical handling of the Land Question; and some statesmen think that instead of acting as a substitute for Home Rule, such a settlement would be a legitimate preparation for it. The Irish party is more compact, united, and better organized than it has been since the death of Parnell. Mr. Chamberlain and the Duke of Devonshire have warned their followers that Home Rule is not dead. If it was really dead, where would be the need of the "Unionist" party? Most Liberals admit that though the question has not now the first place on their programme, it still has a place. So whichever way we look it seems to be admitted that the question is not dead, but, as it were, in a state of "suspended animation." When it revives it will not need to be galvanized into life, but will come naturally to a place in practical politics. In what way will this come about? It is the opinion of many thoughtful men that the very influence of Imperialism of some kind is now the great cry, and is especially strong among those who maintained that Home Rule meant the disintegration of the Empire, Imperial Federation, which some years ago was only a "fad," seems now in a fair way to become a real movement. When Home Rule for Ireland revives, it may then be as part of a larger scheme for decentralization in local politics, and closer union in Imperial affairs. It is said that the parliamentary machine is breaking down, and there is a proposal for Grand Committees to deal with English, Scotch or Irish affairs. It is felt by many thoughtful observers that each part of Great Britain will need to manage its own affairs, so as to lighten the burdens of the Imperial Parliament and allow it greater freedom for its own work.

When this is done, the claims of Ireland may be in some measure met; and when the "Britons beyond the Sea" share in the Imperial burdens, and have a representation in Imperial questions, then the Imperial Parliament will be truly Imperial.

The thrift of the French may be inferred from the fact that one-tenth of the whole population are depositors in savings banks, and that the amount of their credit is over 4,000,000,000 francs.

Many Homes Must Be Rebuilt.

The water that flooded the streets has passed away through the sewers, and the streets that were six feet deep yesterday are actually to their usual condition and passable.

The department of public works, Mayor Johnson, the police and fire departments are giving all possible aid to repairing the damage done.

Emanuel (Episcopalian) Church, on Euclid avenue, and in the midst of the flood district, was considerably damaged, the water reaching to a height of four feet, flooding its interior.

No accurate estimate of the actual loss can be stated, but it will be heavy in the destruction of roadways, the caving in of street improvements, etc. The scene in Glen Park place is unprecedented, and several houses were prevented from being swept away because of the nearness of the next door residence, which served as a bumper, the second house being prevented from moving away because of its foundation having been washed from under

A Pertinent Question.

In the May number of "The Nineteenth Century and After," his Honor Judge Emden asks a pertinent question, namely, this: "Is law for the people, or the lawyers?" He takes as a motto Carlyle's words, "Difficult to sweep the intricate foul chimneys of the law," and gives a prominent place to the advice of Lord Chief Justice Willes, "Whatever you do, never go to law; submit rather to almost any imposition, bear any oppression, rather than exhaust your spirits and your pocket in what is called a court of justice." On this he says, "Matters have improved, but the advice is just as useful now." It may be that some of the judge's remarks as to the law's delay, expensiveness and vexatiousness do not apply with the same force to Canada, but we think the advice is appropriate here and elsewhere. Do not go to law if you can possibly help it. As the judge says, "There is little real justice done if the party in whose favor the judgment is given finds that he has merely un-plumed himself that others may be decorated with his feathers." We cannot follow the learned judge into all the details with which he is so familiar, but we can fully agree that something should be done to make the appeal to justice simpler and more effective. We can quite sympathize with the feeling that the interests of the public should not be altogether sacrificed to the supposed interests of a part of the legal profession.

In some cases, we are told, solicitors have to warn their clients against going to law, although their case is good. Then again there are lawyers who lead on a client, knowing that he has no case. So altogether there is much need for reform. The judge thinks that the public and the better class of lawyers see the need and the reasonableness of such reform, and that the demand for it will be greater the more it is seen that many of the elaborate and expensive proceedings are not only vexatious but unnecessary. It simply comes to this, that unless a nation can grant cheap and speedy justice to the poorest of its citizens, it has not solved one of the most elementary social problems.

Neatly Put.

Sir H. Campbell-Bannerman tripped Mr. Chamberlain, the Colonial Secretary, very nicely, as the following extract from a speech made by the former shows:

"I made a passing allusion to the strong declarations that were made at the time of the general election that the war was actually finished. The Colonial Secretary—(groans and cries of 'Judas')—never deficient in audacity—('Hear, hear')—said the other night that he was not aware that any member of the Government had made any positive statement to that effect. (Laughter.) He said he had searched into the matter, and come to that conclusion. (A voice, 'With one eye.') (Laughter and cheers.) No, he has two eyes, but on this occasion turned them upon other people, and he forgot himself. (Laughter and 'Hear, hear.') He may have searched the record of all his colleagues, but I find that at a meeting at Coventry on the 1st of October a minister said this: 'Now that the war was over, our people scarcely recognized how difficult a war it had been.' (Laughter and cheers.) And a week later he made another speech in which he said that we had come out of the war as victoriously as any other nation. This minister was the Colonial Secretary himself."

SUNDAY'S DELUGE IN CLEVELAND!

Streets Became Raging Rivers Six Feet Deep.

Many Residences Wrecked and Ruined—Life Savers Kept Busy—Cemetery Devastated by the Floods.

Cleveland, Sept. 2.—Today's sunshine and warm air, balmy breeze and clean streets filled with marching laborers affords a pleasant contrast to yesterday's devastation by a rainfall that flooded sewers and poured into low-lying streets, which threatened hundreds of lives and did great destruction to homes, roadways, boulevards and other property.

Notwithstanding the great property damage, not a single loss of life has been reported to police headquarters, and it is believed none has occurred.

Aside from the most seriously affected portions of the city there is no evidence of the havoc that has been wrought and street car traffic has resumed regularly. Trains on the roads from the east passing the flooded district are delayed about an hour.

The work of repairing the damage done to homes is going on, but in many instances houses will have to be rebuilt.

it, allowing the building to drop like a dead weight on its side.

Families in the washed out homes were cared for at the homes of friends. Sunday morning a great volume of raging water vented its anger over miles of the western portion of the city, and caused an amount of damage estimated at \$1,000,000.

A terrific rain that commenced to fall shortly after 2 o'clock turned into a perfect cloudburst between the hours of 3 and 6, and then continued with great force until nearly 10 o'clock. The storm, according to the weather officials, was the heaviest that ever swept over Cleveland since the establishment of the government bureau, over 40 years ago. From 5 a.m. to 6 p.m. there was a precipitation of 4.23 inches.

The surging waters spread over an area in the east end nearly eight miles and a half wide.

This extended from Woodland Hills avenue to east Cleveland and back to East Madison avenue.

Over a large share of this exclusive territory the water rushed with terrific force, varying in depth from one to six feet. Culverts, trestles and bridges were torn down and nothing seemed capable of stemming the tide.

LIFE SAVERS CALLED.

Hundreds of residents who were imprisoned in their beautiful homes like stranded islands were almost panic-stricken, expecting to be called upon to wade out into the swirling waters at almost any minute. Danger signals were flashed about the city as speedily as the disabled telephone system would allow, and the work of rescue commenced. Rowboats plied back and forth, assisting whole families from perilous positions, but those proved pitifully inadequate, and it was soon found necessary to go to the extraordinary precaution of calling on the life-saving crew from the river, a disband of seven miles.

The lifeboats were quickly loaded on wagons and hurried to the scene.

The torrent surged with awful force for hours in Deering street, from Fairmont to the boulevard, and over a dozen families were penned in like rats in a trap, with water five and six feet deep surrounding their homes. At this point the life-saving crew worked valiantly and, assisted by squads of firemen and policemen, finally succeeded in landing the terror-stricken people in safety. The fear was greatly enhanced by the momentary expectation that the great Shaker Heights dam would break loose, and belch forth terrible destruction.

DEVASTATED A CEMETERY.

Shortly before noon the torrent succeeded in undermining a score of graves in the St. Joseph Cemetery, at the corner of East Madison and Woodland avenue, and the bodies were soon being tossed about in the waters.

The great sea of water reached a depth of one foot on the first floors of scores of east end homes, pouring in off the streets carrying everything that came in its path along with it.

In many cases the fear-stricken residents battered down cellar walls to give the torrent an outlet and prevent the swamping of their homes. A remarkable feature of the storm which caused such terrific destruction is that until 6 o'clock Sunday morning hardly a drop of rain fell west of Wilson avenue, while during the early morning hours the east end was being fairly swamped. Another remarkable thing is that no thunder and lightning accompanied the storm.

SOME THRILLING EXPERIENCES.

The families of Mrs. V. E. Newton and F. A. Warren on Wilamette court, had a terrible experience with the flood. Mrs. Newton's mother, Mrs.

Caroline Cammell, 53 years old, is in a serious condition as a result of the fright and exposure.

For three hours the women signalled for help from their house, which sits down in a little valley, which placed it at the absolute mercy of the rushing water. The barn and shed were swept from their foundation, and this added to the terror of the two women, who were alone in the house. As the water reached a depth of six feet, and commenced to pour in on the first floor, the women became almost frantic. No boats were at hand, and as wading was out of the question, neighbors called to the frightened women to remain where they were, and that other means of rescuing them could be secured. A rude raft was hastily put together and the families rescued.

A LA ANARCHIST!

W. K. Vanderbilt Asked Too Many Questions and Got Arrested.

The Hague, Sept. 3.—William K. Vanderbilt's desire to see the young Queen of Holland launched him into an ocean of trouble.

The day after his arrival at Scheveningen, as he was wandering near the royal residence, he noticed a small group of strange men here and there along the road, and asked a peasant what it meant.

Being told that Wilhelmmina was expected to drive past, Vanderbilt took a position where he could get a good view. But after waiting a long time, impatiently walking up and down, he several times asked men, who proved to be police detectives in disguise, if they were sure the queen was coming, what might be delaying her, and if she was always protected that way.

His nervous manners and intermittent, jerky questioning in broken language finally aroused suspicion and, despite his protests, the millionaire was invited to go to The Hague and explain himself to the burgomaster. He had to walk the whole distance, two or three miles, and when half-way he aggravated his case by offering money to obtain his release.

The officials at The Hague spoke English, and were easily convinced that Vanderbilt was no malefactor. When the overzealous detectives had been reprimanded they were asked their reason for making so stupid an arrest. They offered no other excuse than that Vanderbilt looked and behaved like an Anarchist.

Bronchitic Asthma

is now easily cured, not by pouring nauseous, destructive drugs into the lungs, but by inhaling Catarrhoxone. Drugs do more harm than good, but the soothing, healing, medicated air that Catarrhoxone supplies to the lungs and bronchial tubes cannot fail to benefit. Catarrhoxone prevents those smothering spasms and headaches, cures the cough, makes breathing easy. Universally used; doctors recommend it; druggists sell it at 25c and 50c.

Three thousand troops were recently sent to help the inhabitants subdue a forest fire in Sweden.

There is no form of kidney trouble, from a backache down to Bright's disease, that DOAN'S KIDNEY PILLS will not relieve or cure.

Herman Ekegan, of St. Louis, has constructed a Turkish bath house to be run as a trolley car.

A TIME FOR EVERYTHING.—The time for Dr. Thomas' Electric Oil is when crampy symptoms beset the child; when rheumatic pains beset the old; when lumbago, asthma, coughs, colds, catarrh or earache attack either young or old; when burns, scalds, abrasions, contusions or sprains come to any member of the family. In any of these ailments it will give relief and work a cure.

He is one of the pioneers of this branch of the profession in London, and his fame is such that Dr. Howard Kelly has quoted him frequently in his work on operations.

THE MASONS ENTER THE NEW TEMPLE

Beautiful Home of the Fraternity Opened Last Night.

Blue Room Taken Possession of Under Dispensation.

St. John's Lodge No. 29 Had the Honor of Performing the First Ceremonial—A Happy Gathering.

The Masons of London took possession of their new home in the Masonic Temple last night, when an emergent communication for work, issued by St. John's Lodge, No. 29, brought quite a large number of the craft together.

Among those who were present were: R. W. Bro. John Thornicroft, P.D.D. G.M.; Lambeth; A. B. Munson, P.D. G.M.; J. S. Dewar, P.G.J.W.; V. W. Bro. J. W. Crinklaw, Lambeth, M.D. Dawson; J. H. Flock and W. C. Fitzgerald; W. Bro. Fred L. Wood, Dorchester; W. Bro. J. H. Wood, 308; R. Bonchester; P. Birtwistle, 64; J. W. Methersall, 330; G. W. Duncan, 350; John T. Stephenson, 203a; John Paul, 64; David Irwin, 107; W. H. Irvine, 330; C. C. Reed, 64; Thomas Oliver, 110; J. Wood, 64; Alex. Findlay, 20; Jeff N. Wood, 64; J. D. Balfour, 203a; U. A. Buchner, 64; John G. McNee, Thamesford; A. A. Campbell, 64; C. B. Edwards, Lucan; H. Stratford, 380; Neil Graham, 110; T. Clarke, John Smith, James Dunn, of No. 20, and others, whose names it was impossible to secure, but over one hundred in all.

The Blue Room was taken possession of under dispensation, owing to the absence of Grand Master Hungerford, whose unfortunate illness denied him a privilege that he had much desired, that of dedicating the new hall. The gathering was a very representative one, and those of the fraternity present were unanimous in praising the beauty of the new lodge room.

After the opening ceremony had been completed, the worshipful master, W. Bro. Oliver Ellwood, said that after an interregnum of eighteen months, the Masons of the city were again privileged to meet in their own hall, and he ventured to say, there was not a more convenient or better appointed room in this or any sister lodge in the city.

The resolution, seconded by R. W. Bro. Dewar, was put to the meeting, and unanimously carried by a standing vote. It will be forwarded to the family of the grand master.

The third degree was exemplified after which a pleasant hour was passed in a social way in the supper-room, where light refreshments were served, and a convivial time was spent. The speeches were character-istic of the occasion and were very

Hicks' Forecast for September.

In all probability a general storm disturbance will prevail in the middle and eastern parts of the country during the first two weeks of September. As we enter the regular storm period, central on the 10th, we may expect a very warm spell in most parts. From about Monday, the 9th, to Friday, the 13th, barometric readings will become disturbed, and dangerously low depressions will admonish of possible violence. Storms of this period are apt to reach a crisis on and touching the 10th, 11th and 12th. Tidal waves in the gulf and around the coasts will be abnormally high and fierce about the 12th and 13th. In all probability general rainstorms, gales, and changes of weather will visit the interior of the continent at this time, as well as the coal region. The magnetic and electric forces that normally lie dormant in our globe and atmosphere, as a rule, reach a maximum state of unrest and activity about Sept. 11. This is often manifested by earth-currents and auroral displays, disturbing telegraphy and illuminating the north sky. The reactionary storm period, central about the 16th and 17th, will bring perceptible changes to storm conditions—changes to warmer, falling barometer, growing cloudiness and precipitation; but more general and energetic disturbances are almost certain to result during the Vulcan storm period, central on the 22nd, coincident with the equinox. Ordinarily about Saturday, the 21st, to Tuesday, the 24th, would be the danger days of this period. If a touch of frost, snow and early winter visit regions northward and the close of these disturbances, readers well up in our theory and forecasts will not be surprised or caught napping.

WESTMINSTER ABBEY CHOIR

Will Use Exclusively the Famous Heintzman & Co. Piano in Their Tour in Canada.

To the long list of world-famed singers and musical artists who have visited Canada in recent years and who have made the Heintzman & Co. piano their exclusive choice, may now be added the celebrated Westminster Abbey Choir, who have been giving delightful glee and concert entertainments in leading centers of the Dominion. Accustomed to singing before the very finest-made instruments of the world's greatest makers one can readily understand the high compliment paid Heintzman & Co. by Mr. Edward Brancome, director and organizer of the Westminster Abbey Choir, in selecting one of this firm's instruments. London warerooms are situated at 217 Dundas street.

Already the Christmas trade has started here. This is the first department to show signs of holiday time. Lots of Christmas materials and goods arrived here a month ago, and they will all be out fresh and new for fair week.

Berlin Wools Just Arrived

All kinds of Wools coming in every week and selling out just as quickly. We have all the Umbrella Shawl Wool now, but it is hard to say how long they will last.

Full instructions given for making Umbrella Shawls.

Slipper Soles

There is a big difference in Slipper Soles. Compare these that we just got in with what you have had before; superior in every detail; all sizes. These are things that are almost impossible to get at Christmas time when you want them.

Stamped Linens

All that is newest and latest from New York and other foreign markets.

STAMPING DONE HERE.

Souvenir Novelties

Great display of Japanese China. Every article you can mention—Cups and Saucers, Five O'Clock Sets, Invalid Sets, Afternoon Lunch Set, Urns, Mustard Pots, Tray Placques, Jardinieres. Also Opalware Souvenirs of the Duke and Duchess of York's visit to London. Placques and Trays in all shapes.

Hand-Painted Wall Placques at 10c, 15c, 25c and 75c.
