ATTRACTIONS AT THE FAIR

Programme Each Afternoon at 2, and
Night at 7:30.

A meeting was held last night at
the Western Fair office in connection
with the attraction programme. Those
present were Col. Garsshore, Band-
master Slatter, who will have charge
of the military tattoo; Chief Aiken,
Col. Abbott, of the First Hussars; Mr.
G. N. Weekes, of the Boy Scouts; Mr.
A. D. Holman and the secretary, A. M.
Hunt. After going over the programme
carefully it was decided to start the
afternoon performance at 2 o'clock
sharp, and the evening at 7:30 sharp.
There will be plenty of music previous
to the opening of the programme, so
that there will be no tedious waits.
Everything will be carried through
with a snap and vim from first to last.
The exhibition of the freemen alone
will be well worth seeing, and some-
thing that very few of the citizens of
London have ever witnessed. All the
other features, as advertised, will be
given each afternoon and evening with
the military tattoo and fireworks each
night. There will be plenty of music,
not only at night, but throughout the
day as well, and it is fully expected
that the programme offered will be
the best ever presented. Programme
and all information will be given by
the secretary.

Chesterville, Aug. 21.—Sir James
Whitney opened his campaign against
reciprocity here today, when he and
Mr. Broder were nominated for the

Sir James came out for "reason-

drawers of water for the Americans
should the trade agreement go

ANTI-RECIPROCITY
Continued From Page One.

his country to a great accomplishment
and, by the same token, a manufac-
turer, he cannot sight the shadow of
an intrusion upon his trade interests.
Rather he thinks of an appeal made
to his father, the giant of all farmers
in Lambton County, from Chicago
firm for hay by the carload at ad-
vanced prices, with the hope expres-
sed that with the coming of reciprocity
the drawing upon the market of
Lambton and Ontario might be ma-
terially extended. Those are the sort
of arguments that Dr. Fairbank is
carrying to the men of the soil.

Perhaps it is that the candidate's
delving into science research for many
years gives him his ready grasp of
statistics. He can produce deductions
in verification of everything upon
which he presents an argument, and
yet his contact with practical business
has made him anything but a theorist.

American Benefits Familiar.
Lambton has an advantage over
many of the other ridings in that it
practically has given the United
States market a splendid trial. The
returns from the port of Sarnia will
show that thousands of tons of hay,
thousands of gallons of cream, and
\$100,000 to the value of more than
\$100,000 have gone through the tun-
nel in the best growing season, 1911,
and, thanks to Mr. Armstrong's en-
terprise, the present year is said to
have brought an increase.

Dr. Fairbank largely submerges
himself to the issue in this campaign.
He dwells little on the service of
himself and his father to the riding,
nor does he recall Mr. Armstrong's
bitter fight with his own party on
entering the field. He sends home cream
and sugar, and the farmers re-
spond. He is not drawing attention
to the work of the Lambton Publicity
Association, because that body is
strictly non-partisan, and he wishes
with Dr. Fairbank, among its officers
Mr. J. E. Armstrong, M. P., Hon. W.
J. Hanna and R. J. McCormick, M. P.,
P. Ward, and others. But others
are making plain the association's un-
compromising attitude on the question
of the day.

The Lambton Publicity Association.
The Lambton Publicity Associa-
tion, to quote its word of explanation,
"is a voluntary organization of lead-
ing citizens and members of the mu-
nicipal bodies of the county of Lamb-
ton, and has in view the development
of the latent resources and opportuni-
ties of this splendid territory. This
booklet has been compiled and print-
ed at public expense, and not with any
view to private gain."

The handsome folder, proclaiming
the county's claims upon settlers, was
issued some few months ago, and sent
to all corners of the continent. It is
admittedly Lambton County's well-
justified opinion of itself. It is Lamb-
ton County's official trade attitude to
the world.

Most of its well-edited and care-
fully-written matter was the work of a
Conservative Lambton County news-
paperman, who is also, by the way, a
relative of one of the Conservative
members mentioned in the above list
of officers.

Significant Questions.
The quotations which are herewith
presented need no further comment:
First—The county is traversed
east and west by three lines of rail-
ways, while branches run north and
south, and the men of both parties urg-
ing their platform, he expects to present
a splendid gain to the Liberal party.

CHANGE OF AIR
WOULD HELP POPE
But This Would Mean Moving Out
of the Vatican.

Rome, Aug. 21.—The Pope is out of
danger, and convalescent, but will he
ever be really well again? Will he
ever become as strong again as he was
before he threw away his return
ticket to Venice and shut himself up
in the Vatican?
That is the question of absorbing in-
terest here. Professor Macchiavani
and Dr. Petacci, the two celebrated
physicians who for months have un-
sainly and unsuccessfully attended the
Pontiff and studied profoundly his
condition, answer that notwithstanding
his 77 years, his rundown state,
and his overworked, strenuous life, he
could recover entirely on certain es-
sential conditions, chief among which
would be a change of air.

This would mean moving out of the
Vatican, thus renouncing one of the
forms of protest which the Holy See
adopted at the fall of the temporal
power in order to maintain its claims
for the civil possession of Rome.
There is a strong party which be-
lieves that so precious a life as that
of Pius X. must not be risked as a
sacrifice to what is really a simple

CONSERVATIVE WITNESSES FOR RECIPROCITY—NO. 6. "My honorable friend, the Minister of Finance, referred to the fact that there was a standing offer of reciprocity in this country from 1866 and for 25 or 30 years afterwards. It is perfectly true."

EAST LAMBTON AND THE PACT. The campaign in East Lambton is becoming one of the most interesting in the province. The wind of the Borden flag-waving demonstration has passed over this western region and now that it is gone eastward like most wind storms, the counties are settling down to forget all about it and discuss the pact on its merits.

OFFENDED BY MR. McEVROY'S BRAINS. Our local contemporary sneers at some references to Mr. McEvroy's platform ability and grasp of economic questions. We should have thought that even his bitterest opponent would not deny him these qualities.

THE SIZE FOR SOME. [Indianapolis News.] If that French scheme for photographing the human soul succeeds we may have a recurrence of the fad for miniatures.

LLOYD GEORGE'S TRIUMPH. [Toronto Star.] David Lloyd George, in settling the railway strike, has achieved a great triumph. It is a triumph, not of mere cleverness but of sincerity and high public insight.

A PATHETIC PLEA. [Windsor Record.] "I was elected for a term of three years at least. What crime have I committed that I should be banished at the end of a year and a half?" asks Mr. Wilcox.

A POOR OPINION OF CANADIANS. [Hamilton Herald.] Hon. J. B. Lucas is credited with this remarkable saying: "When a Yankee agrees to a bargain, you know who has got the bargain."

FARMERS WANT IT. [Ottawa Free Press.] New Brunswick expects a hay crop this year of \$85,000 tons. With the prospect of the removal of the duty of \$4 a ton, can anybody wonder that the farmers of the Province will vote for reciprocity almost to a man?

THE NEW ANGLO-AMERICAN ENTENTE. It is a great pity that journals like the Toronto Mail and Empire should be always engaged in fomenting hostility to the United States.

BEATTIE AND BOURASSA. McEvoy and More Markets. Men may come and men may go, but Barnum & Bailey go on forever.

Mr. McEvoy is a trained economist. This ought to count against him, according to the London Free Press.

Mr. Sifton is now getting more space than Borden in the papers that used to describe him as a pirate, a crook and a grafter.

Sir Mackenzie Bowell advises the Conservative party to work with the Nationalists and keep candidates out of the field where this will help Bourassa.

Mr. Bourassa says Mr. Borden no longer speaks of a Canadian contribution to the British admiralty, and will not risk outlining a naval policy for the future.

From 1870 to 1894 had inspired me, might be damped by a close examination of their more recent phases. But all that I have seen and heard during the last few years makes me more hopeful for the future of popular government.

Contrast the fairness of Mr. Bryce's attitude and the reciprocating friendliness of tone in the American papers with the yellow-dog snarling of some of our Canadian voices.

In England they talk of putting up a statue of Washington beside that of Cromwell at Westminster Abbey. At New York an International Conference is soon to be held to plan a celebration of the hundred years of peace.

The Anti-Reciprocity League floods Quebec with appeals to French-Canadians to vote against reciprocity on the ground that it will lead to annexation, and therefore to the loss of their religious privileges.

Lieut.-Col. J. P. Macpherson, a nephew and biographer of Sir John Macdonald, writes in the Montreal Star that the reciprocity treaty of 1854-56 was unprofitable to Canada.

Mr. Bourassa and Monk now express open approval of Mr. Borden's attitude on the navy question. The alliance for election purposes is sealed between Mr. Borden and Mr. Bourassa.

"A day will come when draught officers will be scouring the country for competent young men to enlist either in the navy or army, to go to foreign lands and fight the battles of Great Britain to co-operate with Downing street in the oppression of weak countries, and to maintain at the price of their blood the supremacy of the British flag in Asia and Africa."

Mr. McEvoy does not compare unfavorably with his opponent in this regard. It would be interesting to have them appear on the same platform to discuss the pact.

Our contemporary assails Mr. McEvoy because he criticised the financial side of the Ontario power scheme, like many others who are not sure yet that they were wrong.

Forest, Aug. 7, 1911. "This is to certify that Joseph E. Armstrong, M.P. for East Lambton, addressing the members of the Forest Grange during the Christmas holidays, while the reciprocity negotiations were being discussed, made use of the following statement: That he did not see how any person could reasonably object to reciprocity in natural products." (Signed) "DUNCAN WHYTE, Master of Forest Grange."

"W. RAWLINGS." Beattie and Bourassa. McEvoy and More Markets.

Barley sells for 65 to 67 cents per bushel in Toronto and for \$1 14 to \$1 16 per bushel in Buffalo.

Mr. McEvoy is a trained economist. This ought to count against him, according to the London Free Press.

Sifton is now getting more space than Borden in the papers that used to describe him as a pirate, a crook and a grafter.

Sir Mackenzie Bowell advises the Conservative party to work with the Nationalists and keep candidates out of the field where this will help Bourassa.

The direct charge is made that the Ontario Government increased its deposit in the Farmers' Bank from \$10,000 to \$50,000 under pressure from the Toronto World.

Mr. Bourassa says Mr. Borden no longer speaks of a Canadian contribution to the British admiralty, and will not risk outlining a naval policy for the future.

Eighty-eight thousand Canadian lambs were sold in the United States last year and paid a duty of 75 cents per head on entering the American

market. Sixteen thousand five hundred Canadian sheep were sold in the same market and paid a tax of \$1 50 per head.

Mr. W. F. Maclean rode in Mr. Borden's carriage and spoke from Mr. Borden's platform in Simcoe. Mr. W. F. Maclean came to London to speak against Mr. Beattie in 1908 on the ground that Mr. Beattie at Ottawa was one of the worst enemies of public ownership.

D. J. O'Neill, nephew of Sandwich South, says: "My farm is 11 miles from Detroit market. Land around me sells at \$60 an acre. Land in Michigan, not nearly so good, the same distance from Detroit, will sell at \$200 an acre. Why? Because the produce of the Michigan land has free access to Detroit market, while the produce of my land is barred from that market by a tariff wall."

The Anti-Reciprocity League floods Quebec with appeals to French-Canadians to vote against reciprocity on the ground that it will lead to annexation, and therefore to the loss of their religious privileges.

Lieut.-Col. J. P. Macpherson, a nephew and biographer of Sir John Macdonald, writes in the Montreal Star that the reciprocity treaty of 1854-56 was unprofitable to Canada.

Mr. Bourassa and Monk now express open approval of Mr. Borden's attitude on the navy question. The alliance for election purposes is sealed between Mr. Borden and Mr. Bourassa.

"A day will come when draught officers will be scouring the country for competent young men to enlist either in the navy or army, to go to foreign lands and fight the battles of Great Britain to co-operate with Downing street in the oppression of weak countries, and to maintain at the price of their blood the supremacy of the British flag in Asia and Africa."

Mr. McEvoy does not compare unfavorably with his opponent in this regard. It would be interesting to have them appear on the same platform to discuss the pact.

Our contemporary assails Mr. McEvoy because he criticised the financial side of the Ontario power scheme, like many others who are not sure yet that they were wrong.

Forest, Aug. 7, 1911. "This is to certify that Joseph E. Armstrong, M.P. for East Lambton, addressing the members of the Forest Grange during the Christmas holidays, while the reciprocity negotiations were being discussed, made use of the following statement: That he did not see how any person could reasonably object to reciprocity in natural products." FARMERS OF WEST LAMBTON A UNIT FOR RECIPROCITY

Crowded and Enthusiastic Meeting at Uttoxeter Strong for the Pact and for Mr. Pardee.

[Special to The Advertiser.] Uttoxeter, Aug. 23.—A crowded and enthusiastic meeting in the interest of Mr. E. F. Pardee, of West Lambton, was held at Uttoxeter last night. Samuel Bailey, president of the West Lambton Liberal Association, occupied the chair. Addresses were given by Duncan Whyte, Master of the Forest East Grange; H. J. Pettepiece, Forest; and Mr. Pardee. Reciprocity was the only question discussed, and the feeling of the meeting was almost unanimous in support of the pact.

The sale of Lambton cream and thus in the Port Huron market appealed to every farmer present as a good reason why the matter should be supported. The products of the Lambton farms, Lambton is within two hours' train distance of the city of Detroit, and for all our products, Lambton, before the McKinley bill went into effect, was one of the great butter-growing counties and the price of cream getting into the United States market duty free appeals strongly to the farmers of the county. Farmers' action by an increased market is assured.

WEST LAMBTON IS ALL FOR THE PACT

Pull of the Great Magnet of the American Market.

THE FARMERS FEEL IT

Business, Not Politics, the Issue—Conservative Farmers Want Reciprocity.

[By Our Own Men.] Saranac, Aug. 22.—One finds the modern parable of the Great Magnet, Reciprocity, in that favored section of "sunny Southwestern Ontario," bearing the name of West Lambton in the political geographies. The points of the Great Magnet lie that domain of ninety millions by the name of the United States, the St. Clair River. The power of the Great Magnet is awaiting the signal of the Canadian people, but all of the magnetism is directed toward the points of the Great Magnet are directed, in tingling with the polar influence. These are weights and barriers to the present contact of the force with its objects, but soon with a lift and a blow both obstructions will be removed.

A Force Among the Farmers. Ride through ten or fifteen miles of West Lambton, as an advertiser representative of today, and you will find the truth represented in the figure of the Great Magnet. Its pull upon the mountains of farm products is so strong as to be irresistible to a great majority of the masters of the situation—a conclusion which the farmers of the riding feel the magnetic force to such an extent that they mean to let it guide them to the great prosperity the country ever knew.

West Lambton farmers do not work most for the money, but for the life. There is a scolding insinuation of disapproval in the suggestion that it wears a suit of blue he need stain his face and hands with indigo. If there was a scolding insinuation of disapproval in the suggestion that it wears a suit of blue he need stain his face and hands with indigo. CORRESPONDENCE

A Sober Twelfth.

To the Editor of The Advertiser: Mr. A. W. Hone writes to the New Lakeside Speaker from Laurel, giving his experience of the working of local option in Dufferin County, where he spent the Twelfth of July. He says: "Never before did I see so many comfortable farms, mostly brick. I have yet to see a farm showing traces of neglect. Before I knew there was a section of the audience was feeling sympathy with his views. Before he began his address Mr. Borden was presented with an address on behalf of the Conservatives of the riding, which contained an invitation to absolute free trade, he raised the audience by demanding that he consider what would be the result of a general reduction of duties. He warned the hearers that 'factories will shut their doors, and the men who have made for themselves splendid employment abroad, and five, and thousands of Orange-men, over for lodges, poured into Shelburne, a local option town. The farmers say it is the largest crowd in the history of the town, and the biggest Orange celebration in this part of the County of Dufferin. Did name be used. But this agreement is business for me, not politics, and I mean to vote for the pull of the Great Magnet."

Many Liberal constituents have reports to make that which is being done by the conservative neighbors who "are not saying anything," more than to quietly indicate, as plainly by their tendency to be silent in every section, that they mean to accept a bargain of dollars and cents—indeed, many of them are in the open air and some of them have been the largest for their locality that the old-time twelfth, and rejoice in the description of the new order of things under local option. How long are we to go on actually producing facilities for the production of sin, sorrow and sickness? H. ARNOTT, SEN.

Reciprocity—Fact.

To the Editor of The Advertiser: From Eastern Manitoba to the Pacific, where the farming lands on one side of the boundary line, sell at \$15 to \$20 per acre, the very same kind of land and climate on the American side of the line sell at \$20 to \$25 per acre. The larger can do his own thinking. W. H.

German Engineer Was Held for Huge Ransom. Berlin, Aug. 23.—A dispatch from Salonika, Turkey, today states that Dr. Edmund Krieger, the German engineer, was captured by three bandits and held for a ransom of \$25,000, and is returning to Salonika. The capture took place in the mountains of Greece, and the bandits were delivered by Turkish villagers.

ASYLUMS ARE STOREHOUSES

Our prisons and asylums are consequently only storehouses, where a deficient human machine or phono-graph is locked up until it wears away, and the degree of perfection with which we are turned out of nature's workshop. The degree of moral responsibility one may possess depends on accidents of nature. If a man is born with a face that lacks proportion, he cannot be blamed for picking pockets or indulging in other ingenious devices of crime, since nature has unkindly deprived him of the normal balance he is entitled to. In other words, we work well or ill as we are born, and the degree of perfection with which we are turned out of nature's workshop.
