Julius

"What can be avoided whose end is purpos'd by the mighty gods."

By William Shakespeare

Caesar and Politics

By PROFESSOR JOHN RIPLEY

JULIUS CAESAR, was written about 1599 and has enjoyed almost unbroken popularity ever since. Writing of early seventeenth-century performances, Leonard Digges recalls:

So have I seen, when Caesar would appeare, And on the Stage at half-sword parley were Brutus and Cassius: oh how the Audience, Were ravish'd with what wonder they went thence.

Modern theatre-goers have consistently shared their ancestors' enthusiasm.

Although Julius Caesar is a political play, Shakespeare never loses sight of the men who make politics. Its personalities and their notions of government are as recognizable to us as they were to the Elizabethans.

The action of the play revolves around three men, each of whom represents one approach to politics, while remaining a convincing individual in his own right. Brutus is the idealist, the party-theorist, the man of principles, implemented by men, and men are subject to human weakness. Cassius, his closest companion, is the practical strategist, a power-seeker, whose acts are dictated not by highminded ideals, but by private pique and personal ambition. Opposminded ideals, but by private pique and personal ambition. Opposing them is Mark Anthony, the demagogue and opportunist, who prefers power-grabbing to policy-making.

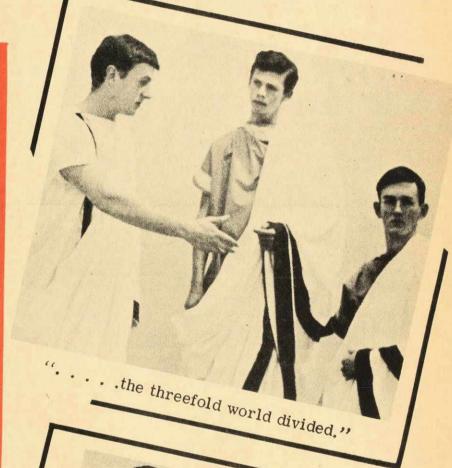

Over all looms the person of Caesar, seldom present in body, but never absent from the minds of those he touches. In the opening acts of the play the person of the epileptic, fear-stricken Dictator poses a formidable threat to the play, however, they discover that his spiritual presence, his brooding ghost driving them on to death, wreaks far more havoc than ever his physical presence could have

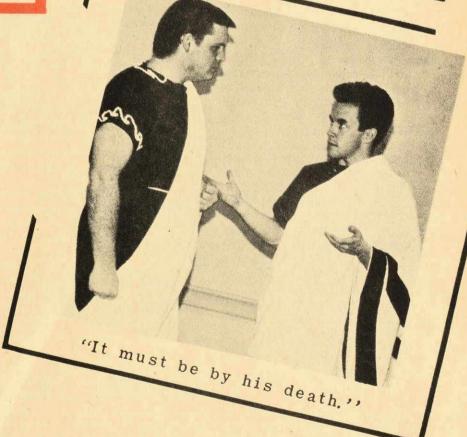

Surging through the play, now dancing in celebration, now weeping in national grief, now screaming with anger, now mad with blood lust, come the Roman people. If the play has a hero, it is the citizenry of the Eternal City. Caesar rules them; Brutus idealizes them, Cassius uses them; but only Mark Anthony understands them. Small wonder is it, then, that Mark Anthony is triumphant.

The Drama Workshop, a branch of Dalhousie's English Department, is happy to present in Canada's election year one of the most thoughtful political studies ever written. Julius Caesar is directed, acted and managed by Workshop staff and students who are participating in the Drama programme.

The only question that arises in his case is the location of his place or ordinary resnot living in the polling subdivision in which in this direction.

Section 16, Subsection 8 reads:

"For the purpose of a general election and notwithstanding anything in this Act, a person who, on the date of the issue of the writs therefor, is duly registered and in subsection 3 and 4 that Mr. Neish was reattendance at a recognized educational institution, and for such purpose residents to be in Tangier. The fact that he happened to be in Tangier on Sept. 8 and Halifax on were adopted and there was often in a polling division other than that which Sept. 9 is totally irrelevant, the point being no consensus of opinion, even inhe ordinarily resides and if he is otherwise qualified as an elector, is entitled to have in a place in which he intends to remain his name entered on the list of electors apart from his family to declare that place for the polling division in which he ordinarily his "home". Neish declared that King's delegations thinking about applyresides and on the list of electors for was his home. the polling division in which he resides on the date of the issue of the said writs, and to vote in either one of such polling divisions as he may elect."

Notice what this means. In this section a privilege is being granted to a student who goes away to university. If an election is called while his school is in session then he is entitled to vote either at his home (i.e. his place of ordinary residence) or at his university. In other words it gives the student a privilege not granted to other citizens. IT DOES NOT HOWEVER STATE THAT A STUDENT NOT BROUGHT UP IN THE TOWN WHERE HIS UNIVERSITY IS LO-CATED CANNOT ADOPT AN ADDRESS IN THAT TOWN AS HIS PLACE OF ORDINARY RESIDENCE. IT DOES NOT COMMIT THE FOLLY OF INSISTING THAT A STUDENT'S HOME IS WHERE HIS PARENTS LIVE NOR DOES IT STATE THAT A STUDENT CANNOT ADOPT A UNIVERSITY RESIDENCE AS HIS "PLACE OF ORDINARY RESIDENCE". IT MERELY GIVES A PRIVILEGE TO STU-DENTS WHO CLAIM THEIR HOME AS SOME-WHERE OTHER THAN THE UNIVERSITY TOWN AND WHO ARE AT UNIVERSITY ON THE DATE OF THE ISSUANCE OF THE ELECTION WRIT.

This being the case a student, like any other citizen, comes under all other sections of the Act, and in regards to "place of ordinary residence" under section 16 subsections three and four.

Section 16 subsection 3 reads:

The applause was tumultuous. U of M LOBBY

The struggle began in a closed door meeting of the Coordinating Committee which has the power to recommend new members to the General Assembly.

The U of M lobby insisted that McGill issue an unequivocal declaration of its intention to withdraw from the Canadian Union of They apparently felt that McGill would find this condition un-

The Committee however voted twelve to three in favor of Mc-Gill's application. It also approved the entry of Sir George Williams University, Marianopolis College and the 1500 Quebec students grouped in a separate organization in Ottawa.

When the proposals reached the Assembly floor around midnight Thursday, most speakers supported McGill's application in principle but questioned the wording of the motion which allowed McGill ten months to "normalize" its relations with CUS.

This clause finally was deleted and the motion was transformed into an unconditional acceptance of McGill into UGEQ. Apparently, the proposers hoped the motion would be defeated, but their tactics Some observers felt McGill still would have to leave CUS at the

end of the year since membership in two national student bodies is prohibited by the UGEQ constitution.

Leaders of the McGill delegation said McGill would try for some sort of associate membership in CUS. BITTER DEBATE

The debate itself was heated and sometimes bitter. At one point, Michelle Vaillancourt, a U of M delegate, moved

that McGill's application be shelved indefinitely. One speaker who supported the motion claimed it would be a "good syndicalist lesson" for McGill students to spend the rest of

the year deeply analysing the question. "Why not wait tea moaths until the executive has a clear mandate and studeats clearly define the role they intend to play in

Dear Sir:

I should like to comment on the article entitled "Shirreff Hall Girls Rap Complete Freedom---page two of your Friday Oct. 22nd issue.

Curfews have to be taken very seriously and I feel that the article was nothing much more than sarcasm. I realize the report consisted of several quotations but the manner in which it was presented was far from acceptable. News travels very swiftly throughout the Hall; however news of this interview didn't. Miss Gillingwater said she interviewed seventy-five girls yet I had to search until I eventually found one. Incidentally, there are approximately 140 more of us. There are many girls in the Hall who don't think the leave system is "quite fair", "very lenient", and "wonderful". We are; however, well aware of the fact that we have better leaves than do other institutions in Halifax, i.e. Alexandra Hall, and the V.G. Nurses residence, yet our system, like most others, has room for improvement.

Miss Gillingwater's article gave one girl in the Hall the impression that we are all considered "dull and dumb-witted". Why didn't she get some concrete statements as to why these girls do rap complete freedom other than the insane comments that some soon-to-be 22 year old can't yet say no or that the freshettes would go wild. If some brighter comments couldn't be obtained why did she bother with the article at all? She is trying to be progressive and radical in ridiculing all of us. I suggest that she didn't get a representative cross-section. The entire article was a mass of misapplied cliches --- what books

This has not been written to give my viewpoints on our leave system but to attack the sad article in your issue. For, there are many of us who do hold opinions other than those stated in the article and we, incidently, aren't extremists and do intend to pass our exams.

The Fraternities as a group of students off the Dalhousie campus are definitely failing to play a role in our campus life. Indeed, the fraternities obviously have so much spirit within themselves that one cannot help but to wonder if many potential leaders have been lost to the Dalhousie students, only to benefit the frater-

It is time that the fraternities should stand forth and assume their rightful place as the core of spirit around which university life could function. Although most students can never be members, they look up to fraternities, and would be willing to follow their example as far as possible.

An excellent first step for the fraternities would be to sponsor a large pep rally for all students before our first hockey game. They should then sit "en masse" at the game and lead in the cheering. After that, any Open House would be a most welcome and meaningful invitation to the students as a whole.

It would be an interesting challenge to the fraternities to see if they could re-build our school spirit from its present apathetic

A march to present a brief could have value as publicity. Thus. a march might illuminate in a novel way certain of students' attitudes that the public usually ignores, making a brief thus presented of more weight in the Legislature.

Unfortunately, however seriously the government looks at it, the brief cannot change its absurdity. It is far too meek and staid, it shows myopic lack of insight, and, if effected per se, it would do more harm than is done already. The harder it were pushed, the more laughable it would appear.

A march could have boosted student unity. A large group of students banding together with some common, altruistic aim is sure to be impressed by that spectacle: indeed, it might come to

think of itself as a group-a very important attitude. Still, there are those hop-heads who wreck every pretty plan that organizers sweat blood on. Someone felt that the group lacked unifying spirit sufficient to stop its doing what in fact, it really wanted-i.e., having a good time; so "parade marshals" had to be found to help the students do what CUS thought they really wanted; a case of paternalistic double-think that only student politicians can unravel. Suffice it to say that a march could not intensify a spirit that was not there.

"It is now and not in one year that we must participate in Quebec society," she said.

Some delegates questioned her right to speak for the McGill student body. Miss Sholzberg insisted her executive had a clear mandate to seek admission to UGEQ, subject to the Students' Council's ratification of the terms.

Ken Cabatoff, McGill External Affairs Vice-President, pleaded with delegates to show their confidence in McGill's good faith. "McGill student thought is evolving. It's becoming more progressive, but you must understand that we cannot become French-Canadian nationalists. All we can do is support nationalism if it will lead to a new social order," Cabatoff said.

When the debate petered out at 2:20 am weary delegates gave near unanimous assent to the motion that the General Assembly 'accepts the affiliation of the McGill Students' Society in UGEQ." The tense and acrid atmosphere of the debate disintegrated

Help me! I'm frantic!

Melvin J. Dubfinkinstine III (The Great)

Dear Mr. Dubfinkinstine III (The Great),

Your problems can be reduced to two basic difficulties; how to meet girls and how to finance your escapades.

In regard to the former, I would suggest that you stand on the

main steps of the AA building from dawn to dusk every day, wearing a sign proclaiming your name, address, vital statistics and attributes. This will invite interested inquiries. You might also throw in a casual phrase like "down with"

radicalism" or "who is Terry Morley, what is he". This will prevent any unfortunate incidents which might hinder the success of your enterprise. Have a mimeographed application form ready for all girls

to fill out. Any girl who approaches within 300 yards is eligible. But make sure that a photograph is attached to every application. By Christmas you should have enough leads to start following them up. If you're lucky, that great girl on the march may be one of them.

As for your financial problems, drop into my office sometime in the near future and pick up my illuminating booklet "1001 Ways To Make Her Pay." It should be a great deal of help.

Dear Maid Marion,

I have a sweet, affectionate pet named Fufu and I just couldn't give him up so I asked the Dean if I could keep him in my room at the Hall. She consented on the condition that I keep FuFu on a leash when we go out for walks. My problem is that my roommate, Cathy, dislikes FuFu and absolutely refuses to make any effort to return his friendly overtures. Why should anyone object to such an affectionate boa constrictor?

Jungle Jane

Dear Jungle J.,

Obviously your roommate has a problem. Her dislike of FuFu has its origin in a traumatic childhood experience. Obviously she intensely disliked the plot-line of Winnie the Pooh and her repressed hostility is manifesting itself in a tendency to reject any close relationships.

I would suggest that you continue your efforts to reconcile Cathy to FuFu's presence. If, however, your efforts are in vain, explain to FuFu that Cathy's aversion is due to an unfortunate psychological barrier and not a personal rejection. This is extremely important because it will prevent FuFu from developing a neurosis similar to Cathy's.

Dear Maid Marion,

Dear Disillusioned,

duct has been challenged!

The subject of this letter will be somewhat different from the usual content of your column.

I am always amazed to hear so many male students complaining of the difficulty in getting dates. This is surprising because there are an equal number of girls on campus bemoaning their dateless

I contend that the fault is with the "stronger sex". The average Dal man lacks the initiative and bravado to ask a girl out without at least twenty good references from his friends or the basis of a long-standing friendship.

Is there any reason why you can't ask a girl, in whom you are interested, for coffee after class? Is there any reason why you can't make the effort to learn the name of a girl you've seen on campus and take the plunge even though you know nothing about

You would be surprised at the number of girls who would be willing to go half-way and take the same chance you are.

There seems to be a social stigma attached to this sort of "blind" date. Just remember, it is the responsibility of the "stronger sex" to remedy the situation. So take the chance. She may look aloof and unapproachable but

the odds are that she's waiting for you to make the first move. It's your choice. Either exercize your prerogative or stop complaining. Disillusioned.

Your letter needs no further comment. Gentlemen, your con-

Unlike many of its relatives the cool cat is seldom found alone for he seems to demand a community base from which, he can forage for food or search for female companionship. A strong affection seems to exist between the male and female as when separate, they feel lost and try to drown their loneliness in coffee. Possibly some physical bond exists for conversation never begins without the male giving a tender caress to the shoulder or hair of the female. Despite its general robust appearance the cool cat is quite susceptible to diseases. The resulting high mortality rate would undoubtedly cause extinction if it were not counteracted by an equally high birth rate and constant influx from neighboring tribes.
