Hungary has deserved from her Kings the historical epithet of "generous nation," for she never allowed, herself to be surpossed in loyalty and furthful adherence to her sovereigns by any nation in the world.

Nothing but the most revolking treachery, the most tyramical oppression, and cruelties unheared of in the world of history—nothing but the infernal doom of annihilation to be national existence.

Nothing the three of American Canada and furthful adherence to her sovereigns by any nation in the world of history—nothing but the infernal doom of annihilation to be national existence.

Why then are the people of Canada so ly warned against American institutions why are their understandings possessed with tales of Democratic lawlessness ! Reader, the reason is a simple one. Five-and-twenty thousand office holders and their dependents, who contribute nothing to the industrial resources of the country clothed, and housed, out of the hard cars

simple, seasons rathers your understandings, your tongues and your arms weapons ith to wound each other—you toil through year mucky reads—you wish in vain for a bridge—you strive hard to educate your offspring—you submit to heavy taxation upon the moderate luxuries you purchase. Yet you tolerate an idea that

is eating into the vitals of the country.

Rouse from this apathy ere you perish, they lure you to battle with your fellow farmer— what matters it to you from what country your Know you not that it is the interest of those, who live by the present system, to sow discord in your ranks—for lay aside your animosities, and be united, and the Ministerial system must perial.

Parmers of Canada, it would be cruel mockery to hold forth hopes of better days, unless you rouse from your lethargy; you cannot be prosperous, nor can you aducate and advance your offinging in life, if you suffer the resources of the country to be grasped by office-holders who furnish nothing to the common stock.

When men warn you to beware of American us, they are knaves who profit by your ignorance, or fools who comprehend not what they denounce. American institutions mean the application of the elective principle. The Gover-nor, the Judges, and the Members of both Houses. are elected by the people. No man holding office is suffered to enter either the Upper or Lower House-no qualifications as to property are ex-

of the Senate; but three years since, even that slender patrongs was withdrawn, and the Judges are now elected by Universal Suffrage. What has been the result? Why, under the old system, men who went to law had to wait

well.

Are not inferior men elected Judges thus endangering property, the Caracle system-mongers

We firmly believe that there are thousands of persons in Canada perfectly convinced that, for a new country, Republicanism is the best form of government, but their feelings overpowering their interests and their convictions, will not allow them to join with those who believe indeendence desirable and practicable.

The converts to this belief have rapidly reased in number since the fatal step taken by England, of determining to make no distinction in comme ree between the Colonies and Foreign Countries. That event has but hastened desires which have been germinating for many years in the hearts of a very large number of the people. The advocates for Annexation are not so simple as to believe that the strong cords connecting this counthat Annexation to the United States can be the work of a day. But they do argue that the time come for the Canadian people to decide on some course whereby the country may be delivered for ever from its intestine feuds, and those continual ommercial fluctuations that bring ruin and deso

lation into so many happy homes. There is not one man, we will venture to say at least we never met with one, or heard of one, but will acknowledge that at some time or other this country must form a pert of the great North American Confederation. We know that some of American Confederation. We know that some of into Canada, as the surest gaurantee for the future the very persons at this moment most opposed to peace and progress of Canada—holding out to her the present movement, do not healtate to say that the day of separation must come; they seem only to object to it because it must come in their time. English statesmen have not hesitated to express the same opinion in their places in Parlia and it has been declared, time and again, by the most influential journals of the Mother Country, Five and twenty years ago GEORGE CANNING told Mr. Russ, that in a quarter of a century

England would be prepared to cede to the United States all her North American possessions : that all her policy was regulated with a view to that event :- and we are quite sure that no one can look what matters it to you from what country your on the occurrences of the few past years without feeling that this is the case. The Convention of Delegates of the British merican League assembles at Toronto this week; between this time and their last sitting the que tion of Annexation has arisen in strength; we know that the Addresses in favor of Annexation have been signed by many of the members of the League, and that some of the Delegates are decidedly in favor of it. Let the Convention put a bold front on-the matter, and permit the question Annexation has no supporters, the Convention need have no timorous fears of its discussion; nay, if they are ressouing and thinking men, they should permit it to be discussed, in order that they mentary ebullition of feeling caused by the out may refute, not by noise and clamor, but by fact Ferriers Stores, this day, (Tucsday.) SPIRIT OF THE CONTEMPORARY PRESS.

What are the leaders of the American movement in Monsreal doing! Have they only scared up the fox and left the chase for others to run down the game! Having commenced the agitation, it is incumbent on them to devise some plan tion, it is incumbent on them to devise some plan for ultimately carrying out their views. The friends of Annexation in the Townships are look-ing to Montreal to see the commencement of an friends of Annexation in the Townships are iona-ing to Montreal to see the commoncement of an organization, to concentrate and embody publis opinion on the subject throughout the Province. Nobody supposes that at present there is a majo-rity in the Province who are willing to come out and openly avow themselves in favour of Annexa-tion. The wonder is that the feeling in its favor than made an much progress as is publicly manihas made so much progress as is publicly manifested. The arguments in favour of the measure have scarcely reached the mass of the people. What is most needed at present is organisation for the purpose of disseminating light on the subject. Amexation is not, like French tion for the purpose of disseminating light on the subject. Ameration is not, like French tevolutions, a three days job, or to be accomplished by a movement in a single city. The work must be prosecuted calmly, persoveringly, and above all, peaceably.—Sterbrooke Gasette.

The Panestry Stath or Canada.—As there is not any subject which should, at the present moment, so deeply interest the inhabitants of this Province, as the consideration of their own affairs, we have festermined, for the messent, to devote the

political state. Whetever opinions may be pro-nounced for or against the action taken by them in the affair, we feel no hesitation in acknow-ledging their straightforwardness and candor. If they have moved unadvisedly, and without

clined to promote the objects they had in view, they have at least evinced their earnest desire to protect what they conceived to be the best interests of the country.

Whilst the journalists of the Province, almost without exception, have admitted the existence of commercial and agricultural depression, great diversity of opinion has arisen as to the remedies proposed by the advocates of Annexation. Within the Province the Ministerial papers, and also most of the journals in the interest of the Conservative party, have pronounced against the Manifesto.

On the other hand, there are a few journalists who are inclined to give the movement party at

On the other hand, there are a few journalists who are inclined to give the movement party at Montreal a fair opportunity of stating their case and the arguments which may be adduced in favor of it. This latter course we deem the most prudent, as well as expedient.

The general tone of the American Press shews a disposition for non-interference with our domestic concerns whilst we continue a dependency of Great Britain. One thing we think all parties will admit; and that is, that the introductory discussion of the subject of Annexation through the Press has tended to hasten a crisis, and to awaken the public mind throughout this continent to an examination into our alledged causes of distress and dissatisfaction.

Our readers are doubtless aware of the countermovement of those opposed to annexation, at Montreal.

The Government have taken alarm, and have

importance will naturally be attached to the pro-ceedings of the Convention of the British Ameri-can League, about to be held at Toronto.

In this body, as well as elsewhere, diversity of opinion on the great question of the day, will most probably exist; and the exercise of much forbearance and discretion will be requisite to enable the Convention to effect any amelioration of the condition of the people. It is to be hoped that the lateness of the season may not prevent the Delegance anyonging at their posts at the ap-

MONTREAL BROKERS' CIRCULAR.

FRIDAY, October 26. FLOUR.—A fair amount of business has been done during the week, chiefly for shipment to English markets, the bulk of the transactions being in superfine, at 20a. 3d. to 20s. 9d. per barrel. Extra superfine has changed hands at 20s. 6d. to 21s. 3dr, according to the repute of the Mill brand. Fine and sour are quite nominal at our constitutions.

Our quotations.

Wheat.—The only transaction is 2000 bushels inferior U. C. at 4s. 4½d. per 60 lbs.

Pass have changed hands at 2s. 5d. to 2s. 6d.

In Oats, Barley, and Oatmeal, no sales.

Brev has declined, and is taken at our quotations, for ships' use.

Poak. - With the exception of 250 barrels ness, at 65s. per barrel, we know

BUTTER.—A few parcels have changed hands at 54d. to 74d. per lb, according to quality.

ASHEE.—Pots were sold during the week at 35s. per cwt., but both Pots and Pearis are now steady, at about last week's rates. Sos. per cwr., but both Fols and rearis are now steady, at shout list week's rates.

Freights.—The engagements to Liverpool and Glasgow have been considerable at 3s. to 3s. 3d. per barrel for the former, and 3s. 6d. to 3s. 9d. for the latter Port. To-day the rates are firm at 3s. 3d. and 3s. 6d. to Liverpool, and 3s. 6d. to Glasgow. Ashes have been steady at the rates quoted in the table.

Exchange.—Bank sells, at the counter, at 12 premium, but is offering by other parties at 11j. Private is in fair demand.

Svacka.—Montreal Bank has been sold at 10 to 10j discount; City Bank has been taken at 40, and Commercial Bank at 10, discount; Bank British North America has been sold at 20 to 22 discount, and Upper Canada Bank at 30 to 37 discount, and Upper Canada Bank at 30 to 37 discount, Montreal Mining Consols, no sales. In Lower Canada, with two or three exceptions, the entire Press, both French and English, has declared for the cause of Independence. In this section of the Province, however, the virulence of party, and the complete subserviency of nearly the whole Press to party purposes, have been such as to deter even the Conductors of those Journals, whose opinions are known to be favorable, from espousing the cause. Whense large a proportion of the Press in the Other section of the Province, and so many isdividuals of respectability and intelligence in this, entertain principles and views similar to those which this Paper is intended to advocate, the Uncersigned considers it unnecessary, in a mere Propectus, to enter into the reasons which may seem to justify the advocac

benefitted by the attainment of this end, are already favorably inclined.

In Lower Canada, which contains considerably more than one-half of the entire population of the Province, and where the Press has taken the initiative, the feeling amounts almost to unanimity and in Upper Canada, a very large proportion, if not an actual-majority of the people, may be regarded as entertaining similar sentiments.

It is quite unnecessary to enter into an explanation of the causes which have led to this desire—mutually entertained in Britain and Canada—for separation. They are known to all. The measures adopted recently by the Imperial Government, have not only placed these Provinces on the same Inoting as atrangers, but they are actually kept, by harriers and restrictions, over which they can exercise so control, from a participation, on lavorable terms, in the trade of any country in the world.

TURE ISH BLACK SALVE

UNDER THE PATRONAGE OF THE MONORASED

THE GAST INDIA COMPANT.

THE GAST INDIA COMPANT.

THIS SALVE, prepared from the original recipe procured from a celebrated Turkish riskim, (physician) of Smyrma, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general smong all classes. The Proprietors, prompted by the very flattering reception it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established agencies in all the principal Caties. They flatter thems lives that when its wonderful properties shall become most generally, known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly entitles them. The contracted limits of an advertisement necessarity precludes their suttering into any sequent of the public, they intend to publish, from time to time, such statements of cures as have or my occur, and for the present will content the selves with merely enumerating some of the co-aplants for which it has been most with the r at complete success—Such as Swollen Glands. REDUCED RATES OF PREMIUM—HALI CREDIT RATES OF PREMIUM. CREDIT RATES OF PREMIUM.

THE greet and decided success which has attended this Institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avant hemselves of the important benefits of Life Assurance at much lower Rates of Premium than those of any other Assurance Company transacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their sespective Policies.

ED TO BE AT THE POINT OF DEA! H.

A respectable femnie, in the neighborhood of Loughall, was attacked with Typhus Fever, and lay for five days without it ing tasked any description of food. She was given over by the Surgeon, and preparations were made for her denings. Mr. Henjamin Mackie, the Quaker, whose case is referred to above heard of the eigenmetance, and knowing the minnense been fit that he himself had derived from Holloway's Piles recommended an immediate trial, and eight were given to her, and the some number was continued night and morning for three days, and in a very short time she was completely cured.

N. B.—From advice just received, it appears that Colonel Dear, who is with his Regiment in India, the Slat Fusileers, currd bimself of a very bad attack of Fever by these celebrated Piles. There is no doubt that any Fever, however mali; nent, may be cured by taking, highrand morning, cuphous down of the fine nedicine. The pattent should be induced to drink plentifully of warm lineed ten or burley water.
