Trade and Labor Council Says it's Disgraceful

The Courier Stand is Heartily Endorsed at Meeting.

"Disgraceful." That is what several of the delegates in attendance at the meeting of the Trades and Labor Council last night thought of the Brantford street railway. Delegate Tooke brought the matter up, and although the discussion was a short one it was to the point. Delegate Tooke said that the taking over of the street railway by the city was one of the planks in the council's platform, and they wanted to back it up. A portion of the road bed was considered good by several of the delegates. A delegate was appointed to gather information.

Credentials were received from the Brantford Typographical Union No. 278 and accepted.

The council recently sent a communication to the Post Office Department asking if the old post office was for sale. The matter was placed in the hands of the department of Public Works. A reply from R. A. Wright, Assistant Chief Architect, stating that so far as he was aware, the question of the post office disposal had not yet been decided.

A resolution asking for the resignation of Chief Slemis was recently passed by the council. A communication was read from Judge Hardy last night in which he advised the council that he would lay the communication before the board of police commissioners at their next meeting.

A communication was received from the Industrial Bazaar enclosing circulars calling for the labor educational convention to be held on Victoria Day at Ottawa. The communication spoke of the success of the Industrial Bazaar meeting. The choosing of a delegate to attend the conference was laid over until the next meeting.

A Labor Poster Scheme. Mr. R. A. Fraser of Toledo, Ohio, was present and submitted an advertising scheme in the form of a labor poster. The council had been considering a directory scheme, and in order to be in a position to do business with Mr. Fraser should they wish to the scheme would have to be dropped. After discussing the directory scheme, a motion was made that the labor directory scheme be dropped and the representatives be notified. Mr. Fraser's scheme was taken up and discussed, but nothing was done.

Judge Hardy. The grant of \$200 to Judge Hardy for services on the police commission by the city council, while not criticizing Judge Hardy personally it was thought to be inopportune.

Housing Question. It was thought at the meeting last night that the city council should take up the securing of vacant land and the erection of suitable houses for working men.

Special Committee. The special committee appointed to look into the question of wages received by girls and the amount necessary for a girl to earn in order to be decently, reported excellent progress.

Delegate Symons, representative from the Trades and Labor Council on the Hospital Board, gave a report on his attendance at the meeting on Tuesday. In his report he stated that he thought Brantford would have an ideal hospital when the extension is completed.

PARIS GREEN!

The following telegram speaks for itself: Ottawa, Ont., May 8, 1913. Harris L. Walsh, Secretary Baseball Club: Heartiest congratulations to yourself, Tom Nelson and all the boys. It was a regular "Paris Green" finish. J. H. FISHER.

THE MAYOR IS INDIGNANT

Son of Brantford Foreigner is Turned Back at the Falls.

His Worship Mayor Hartman was very indignant this morning, owing to the actions of W. S. Homan, one of the immigration officers at Niagara Falls, Ont. It appears that a foreigner by the name of Balkelian, who had taken out his naturalization papers and had resided in Brantford for the last five years, owing property here, went down to Niagara Falls to meet his son, Carriack Balkelian, who was on his way to Brantford to take up his residence. The father secured from Mayor Hartman a letter stamped with the seal of the city of Brantford, addressed to "Wm. T. May, Consular Agent, at the Falls of Brantford." The young man was admitted into Canada from the United States by one immigration officer, but was deported by W. S. Homan.

Malkelian came back to the city and reported the affair to Mayor Hartman, who was very indignant and sent the following telegram:

Brantford, May 8, 1913. W. S. Homan, Immigration Officer, Niagara Falls, Ont.:

Why Carriack Balkelian admittance into Canada refused? Father has lived in Brantford for five years. You have disregarded my letter. Answer. C. H. HARTMAN, Mayor.

If the young man is not allowed to enter Canada the Mayor will likely take the matter up with the officials at Ottawa.

Terrible

Woman Cuts Throats of Her Two Sleeping Infants.

(Canadian Press Despatch)

PHILADELPHIA, May 8.—Arising from the bed in which she, her husband and two infant daughters were sleeping at their home in the southern section of this city, Mrs. Mary Kutasa, 24 years old, early to-day obtained a long butcher knife and cut the babies' throats, accomplishing the deed so quietly that the slumbering man was not aroused.

The woman had been ill and it is supposed became suddenly insane. In a cell in the police station she became hysterical and kept muttering that she had killed her babies for religious

CHALLENGED BY HANNA, PROUDFOOT REMAINS DUMB AS AN OYSTER

Silence of Liberal Member Admission He Had Not Title of Evidence on Which to Base Charges--Toronto Legislature Adopts Strong Resolution Centuring Centre Huron Representative--Despite Utter Collapse of Case Sponsor of Calumny Declares Intention of Retaining Seat in House.

TORONTO, May 8.—With a roar of applause that echoed through the

buildings the Conservative members of the Legislature last night greeted the announcement of the vote that marked the exit from the scene of the ill-fated Proudfoot charges. The vote was reached shortly after 10 o'clock, when the House by a vote of 69 to 18 carried an amendment by T. W. McGarry, of South Renfrew, censuring the Centre Huron member for having made unfounded and untrue charges. It was an invitation to the Liberal member to pay the penalty of his partisan rashness with his seat in the House, but Mr. Proudfoot, after ten minutes before he defied the House to do as it pleased, he would hold his seat.

In other words, having assumed responsibility for his charges, he was, when confronted with his failure to prove them, unwilling to discharge that responsibility.

The closing of the debate was marked by bitter exchanges across the floor of the House, by challenges and counter-challenges. After listening to the Opposition members' voice their criticism hour after hour, Hon. W. J. Hanna was given his opportunity to answer Mr. Proudfoot, the Centre Huron member, fighting his case with an earnestness and a conviction that brought the members to a pitch of excited approval. The climax came when he challenged Mr. Proudfoot, who he liberally said, that when he made his charges he had no little piece of evidence upon which to base them, or had it now. The Centre Huron man sat silent, with a silent opposition around him, as the Government members shouted demands for a reply.

The only answer Mr. Proudfoot had to make was a declaration at the night session that he had evidence and would bring it forward if granted a Royal Commission.

Those who crowded the galleries, expecting to hear the Prime Minister pay his compliments to Mr. Proudfoot, were disappointed. Sir James was on his feet not two minutes. He declined to make any reply to the charge against him, merely thanking Allan Studholme, the Labor member, for his frank declaration that a man in the House cannot make a lie believe the Prime Minister guilty or that Hon. Mr. Hanna had secured any personal benefit from his connection with the matter.

When the charges had been disposed of Sir James moved the adjournment of the House until Friday afternoon, when prorogation will take place.

Charges Were Unfounded. The morning session was not marked by any fireworks. The debate was resumed by I. I. Hart, of East Simcoe, who declared that the verdict not only of the committee, but of the great tribunal of the people was that the Proudfoot charges were unfounded. The Prime Minister and Hon. Mr. Hanna had come out of the investigation without a mark upon their integrity and honor.

In paying his compliments to Mr. Proudfoot, the Simcoe member declared that others of the Opposition were following him because they had been dragged into it, and instanced the tributes to Hon. Mr. Hanna paid by Dr. McQueen and H. Munro, of Glengarry last night.

Z. Mageau of Sturgeon Falls added his tribute to the work Hon. Mr. Hanna had been doing for the Province, but he felt that something was being hidden.

"The ordinary man on the street," he declared, "will not believe there has been a full and free investigation of these charges. If there was nothing to conceal why was the com-

mittee not allowed to get to the bottom of the charges?"

Not the Proudfoot Type. A. C. Pratt of South Norfolk agreed that the ordinary man was not satisfied, but the dissatisfaction was with the course taken by the Liberals. He quoted a prominent Liberal in his riding who had come to him and declared, "I am a Liberal and not ashamed of it but please excuse me from being a Liberal of the Proudfoot type, the type of Liberal who would get up and make charges that he cannot prove and has not proved."

Mr. Pratt insisted that with the admission of the acceptance of the \$500 as a contribution to the general fund the Opposition case was gone, and as it pleased, he would hold his seat.

Mr. Elliott came next. He declared that no one would take pleasure in seeing Hon. Mr. Hanna in an embarrassing position he was in, particularly in view of his great services to the Province. He held however, that Mr. Proudfoot should have been given an opportunity to prove his charges.

The criticism of the Haron member on the ground that he had made use of the letter written to Maisonville was beside the question, he said. The main fact was that it was written by Thorne, a confidential employee of the Government, whose work in the arbitration had been accepted.

Mr. Elliott voiced his suspicion of the man who would say, "We want the doors thrown wide open," and then proceed to close and lock them. No man could read the evidence before the committee without being satisfied that something was being withheld. The Middlesex member thought Sir James would have merited more credit if he had made his statement to the House concerning the \$500 contribution before everyone was aware of its fact, and if at the time he first knew of it he had insisted upon its being returned.

Mr. McGarry Emphatic. In commencing T. W. McGarry, South Renfrew, recalled the diffidence of Mr. Proudfoot in making his charges in the House, and the fact that he had taken refuge behind the opinion of E. F. B. Johnson, K.C., not on the merits of the case, thereby proving the statement of the Prime Minister that he did not believe them himself. From this the speaker reviewed the points that were before the House, whether the province had suffered from the granting of the fiat or the making of the award, and also the characters of the men accused and their accuser.

The reputation of the Prime Minister was the first point dealt with by Mr. McGarry, and he recalled how 25 years ago Mr. Whitney had succeeded in securing his seat after having first been defeated by dishonest means, which he had exposed, and how from that day to this he has stood before the province as a man of honesty, fearlessness and boldness in adhering to his principles.

Hon. Mr. Hanna was characterized as the public man who has done more for the cause of humanity than any other man in public life in the Province of Ontario, and during eight years of office no charge of corruption has ever been made against either Minister.

Turning to the man who made the charges the speaker asked if he is a man whose statements should receive attention and referred to the charges

CLEAN UP CITY

WINNIPEG, May 8.—Winnipeg's segregated district will be dark to-night for the first time in several years, and it is apparently the determination of the morality officers to clean up the section permanently. Keepers and inmates were warned that operations would not be tolerated after last night. The morality officers have received many complaints of late regarding the district.

DISCOVERED A SHERLOCK

Interesting Grist of Police Court Cases on This Morning.

Four drunks were arraigned before His Worship this morning. They were quickly disposed of; three were allowed to go and one was remanded. The police have discovered a modern Sherlock Holmes and Dr. Watson amongst the foreigners. Last evening Louis Schwartz, a peddler was making his rounds among some foreigners on Wadsworth St. selling watches. Two foreigners, John Jurazak and John Servenski arrived home from work just as he was leaving their house; having sprung his watch story on the women, Servenski heard his wife's story and became suspicious of Schwartz. He followed him and arrested the peddler about a block off, telling him he was a G. T. R. policeman. They then sent for the patrol. In the meanwhile Jurazak and Servenski also began to rough it a little with their prisoner.

In the police court this morning they told his worship they did not know whether the watches were good or not, and where he got them, so they thought they would arrest him and let the police find out. His Worship said to Mr. Stander: "You tell Sherlock and Dr. Watson they cannot stop men like this, but they were right in informing the police." Schwartz showed he was not doing anything out of the ordinary except trying to sell three dollar watches for \$9. He was allowed to go.

Frank Atfield and Fred Thompson got a little spree and it is alleged pinched a horse and rig from in front of one of the hotels; also a horses saddle. The case was adjourned till to-morrow.

Serious Case.

Fred Symons, appeared, charged with selling liquor in Harrisburg, a local option town. This is the second offence he has been the defendant in. The penalty is very heavy in a case where there has already been one conviction. A. L. Baird, K.C., is appearing for the crown. Mr. Layton, K.C., Paris for Symons. The case will come up on Wednesday next.

A MILITANT COLLAPSES

Mrs. Flora Drummond Topped Over in Prisoner's Box.

Five Million Dollars is Amount of Damage Done.

(Canadian Press Despatch) LONDON, May 8.—"General" Mrs. Flora Drummond suddenly collapsed and fell in a heap on the floor of the prisoners' enclosure at the Bow St. Police Court this morning when proceedings under the Malignant Damage to Property Act were resumed against the seven militant suffragette leaders of the Women's Social and Political Union and their chemical adviser. She was practically carried out of court by a jailer and a wardress.

The revelations made during previous hearings had wetted the appetite and the court was filled to overflowing when the conspirators were brought in. They comprised besides the "general," Miss Harriet Rebecca Kerr, Miss Agnes Lake, Miss Rachel Barrett, Mrs. Beatrice Saunders, Miss Annie Kenney, Miss L. Lennox and the analytical chemist, Clayton.

Further correspondence was produced by counsel for the treasury in which the accused advocated "big things," such as a general raid upon the public letter boxes throughout London or a war on the House of Lords. It was suggested that the attack on the Peers could be accomplished by means of a suffragette typist, who could secure a position on the reporting staff of the upper house.

According to Archibald Bodkin, the treasury counsel, a circular had been found in Miss Laura Lennox's residence announcing the formation of a branch society called the "Y. H. B." This caused amusement when Inspector Lawrence of Scotland Yard explained that the initials stood for "Young Husbands' Brotherhood." The society was to be composed of the younger members of the Women's Social and Political Union and no married women were eligible for membership.

Damage Five Millions. LONDON, May 8.—The damage to property in the British Isles caused by the militant suffragettes during the past three months amounts to upwards of \$5,000,000, according to an estimate prepared by the authorities at police headquarters in Scotland Yard.

To this sum they say must be added the increased cost of protecting lives and property. Three detectives have been assigned to watch over each member of the cabinet at all times, while all suspected persons are shadowed by plain clothes men and all public buildings have been placed under special guard.

Greater Violence Now. The militant section of the British suffragettes intends to inaugurate a campaign of even greater violence than has hitherto been used in order to avenge the defeat of the woman suffrage bill in the House of Commons on Tuesday night and the prosecution of the officials of the Women's Social and Political Union, the central militant organization.

The more advanced members of the fighting sisterhood promise that the events of the last few days are to be eclipsed by worse things to come. "Votes for Women," the woman suffrage newspaper, edited by Mrs. and Mrs. Petibick Lawrence, says in its latest number:

"We see before the country a period of disorder such as has not been known for decades, perhaps for centuries. We see a prospect of violence being answered by violence in a terrible manner."

A JUST VINDICATION.

The majority members of the Ontario House did a very proper and seemly thing when they absolutely cleared Sir James Whitney and Hon. Mr. Hanna with regard to the contemptible charges preferred against them by Mr. Proudfoot.

The latter gentleman has appeared in a very sorry and pitiable light throughout. The personal spleen of a contemptible man named Maisonville who was fired from Provincial employment for letter stealing, was the commencement of the whole dirty business. Next a letter written by one Taylor, was placed in Proudfoot's hands and in the epistle that worthy made the fool pretence that he held the fate of the Whitney Government in the hollow of his hand.

Yet on this flimsy material Proudfoot sought to besmirch the fair name of two of Canada's most high-minded and honorable statesmen—men who for years at great personal loss have given of their time and of their talents as two of the leaders in a Cabinet which has admittedly been one throughout of clean and honorable methods.

TO THE HILT.

The Expositor actually has the nerve to attempt to come back in connection with the Waterworks controversy.

According to the local Grit organ to tell the truth is to misrepresent, and that accounts for very much in its columns.

When a buoy is to be "worked" the tender requires to a yard or station and by means of her crane lifts the deck of everything she is to be replaced.

When a buoy tender goes to "work" a whistler she clears her deck of everything else but the buoy, which is secured with checks and chains against the roll of the vessel.

Now it makes the grudging admission: "The Expositor for a time favored the local offer, while Mr. Robert Henry and his Conservative associates were endeavoring to force the Moffett-Hodge-Clarks proposition."

Once more, the Courier led in the fight for municipal ownership while the Expositor was opposing the same and it was Mr. Heyd who later fell in with this paper.

WHISTLING BUOYS

They Are Simple in Principle and Certain in Operation.

PLAYTHINGS OF THE WAVES.

The Rise and Fall of the Water Give Birth to Their Penetrating Shrieks. Placing and Removing Them Are Tasks Fraught With Deadly Peril.

Sea travelers up and down our coast lines often hear a strange, weird sound from port or starboard, a sort of compound of moan and shriek, at once soft and insistent, subdued and penetrating. It is the call of the whistling buoy to the man at the helm, warning him of shoal or dangerous places.

These whistling buoys, which are enormous masses of iron, often weighing several tons, are as simple in principle as they are certain in operation. The buoy proper consists of a huge pear shaped bulb, little end up, on top of which is a powerful whistle, protected from accidental blow or collision by a framework of iron bars, and an air intake. Below and projecting far down into the water is an open tube of metal. The whole thing is secured in position with an anchor and a chain, which last is long enough for the depth of the water in which the buoy is placed to permit the free movement of the mass up and down.

When a wave lifts the buoy up in the air the water in the tube, acting as a piston, sucks in air through the intake. It is confined in the bulb of the buoy by a simple valve which prevents its egress through the intake. When the waves drop the buoy in the trough of the waves the water in the tube presses up on the confined air and compresses it. It finds exit through the whistle, which thus sounds its warning note.

It might be supposed that, having no mechanism but a valve, such buoys, once put in position, could be left there for an indefinite period of time. But the sea has strange ways with her playthings, and even if the necessity of it from the action of sea water is not existent it would still be necessary to keep a watch on these signals and to take them up and replace them rather often, for the big tube projecting down into the water is a great attraction for barnacles and seaweed, and not infrequently these marine growths so interfere with the action of the buoy as to keep it silent in ordinary weather and to dim its voice in bad weather.

It then becomes necessary to "work" a new whistler in position, which is the duty of a lighthouse tender or buoy tender, of which vessels there are many in the service.

When a buoy is to be "worked" the tender requires to a yard or station and by means of her crane lifts the deck of everything she is to be replaced.

When a buoy tender goes to "work" a whistler she clears her deck of everything else but the buoy, which is secured with checks and chains against the roll of the vessel.

HABITS ARE TYRANTS.

Changing Them Too Suddenly is Apt to Produce Bad Results.

Those who form sudden resolutions to break off their habits, no matter whether they are good or bad, may be laying themselves open to an illness.

A man who for the last twelve years has made a rule of spending one week of his holiday each year in bed departed from the custom last year and for the first time throughout this period had an illness which kept him from business. The human body can shape itself to practically any conditions or habits, but if those conditions are discontinued suddenly one is almost sure to be ill.

In fact it is the opinion of a well-known physician that any kind of habit is bound to "hit back" if it is discontinued too abruptly. No man can suddenly switch off meat to a vegetable diet, for instance, and remain well.

There is a common instance of this in a man's habit of smoking. A man is kept to his bed for two or three weeks. When he gets up he finds it difficult to walk for the first day or two. He puts down this trouble to weakness. But his legs are not really weaker. It is simply that their mechanism is upset.

De Quincey is a notable example of the way habits become chains, which, if broken, bring illness and often death. The famous writer had accustomed himself to taking four ounces of laudanum a day. He would certainly have died if he stopped this daily dose.

OLD TIME TRAINED NURSES. Removing and Burying the Dead Was Part of Their Duties.

In their "History of Nursing" the authors, Miss Nutting and Miss Dock, quote from an article written in 1764 which gives an insight into what was required of the trained nurse in the eighteenth century. The article says: "This occupation is as important for humanity as its functions are low and repugnant. All persons are not adapted to it, and the heads of hospitals ought to be difficult to please, for the lives of patients may depend upon the choice of applicants. The nurse should be patient, mild, compassionate. She should console the sick, soothe their needs and relieve their tedium."

The domestic duties of the nurse are to light the fires in the wards and keep them going, to carry and distribute nourishment, to accompany the surgeons and doctors on their rounds and afterward to remove all dressings, etc., to sweep the halls and wards and keep the persons of the patients and their surroundings clean, to empty all vessels and change the patients' linen, to prevent noise and quarreling and disturbances, to notify the steward of everything they see and bring to the attention of the nurse.

DENVER'S MASSIVE MINT.

It Would Take a Burglar Fifty Years to Break into It.

If a man twenty-five years old should set out to rob the Denver mint, he would be seventy-five before he finished his task of tunneling and drilling, if he ever reached the vault. When he did reach the massive cage he could never get at the money without detection.

He would have to bring his diving suit along, as there is water several feet deep under the foundation of the mint. He would first have to go through a wall four and a half feet thick of brick and portland cement. The boilers and coal bins are far underground. They are on the Evans street side and more strongly protected than a man-of-war. They are at least twenty feet below the surface and surrounded on the top, side and floor with a concrete wall four feet thick.

Supposing our young boving friend got through that wall, when he emerged he would find another just as thick and just as strong. The lower portions of the mint building are divided into compartments. There are separated, each compartment with its own defense.

The thief or thieves would find a real problem to get into the storage vault. He would first have to break through a steel door weighing seven tons. He would then face what is known as the outer vault. The safe in this is 60 by 20 feet and is ten feet high. There are millions of dollars in it.

This safe is girt on every side with a lining of chrome steel. The corridor within the great vault there are four doors leading into the subvaults. The cells where are located these vaults are barred and netted with steel. There are no less than sixty doors in the storage vault. Each of the eleven minor storage vaults is in a steel girt cage, which has two massive doors. One is above, the other below.

The Diebold safe is secured by time locks. On the inner side of an eight inch thick door is a clock, which can be set at night to be opened at any selected time. Until that time arrives not even government employees can get in the ponderous door. Two officials with keys must aid when the clock is ready to let them in.

The guards will visit the storage vaults every few minutes and turn on the lights. Inspectors go about day and night and visit all of the treasure rooms of the building, upstairs and down. Special attention is given to the vaults, but no portion of the building is neglected. Every thirty minutes "All well" is heard over the private telephone.

All over the building are hidden high power magazine rifles. They are oiled and inspected regularly. It is said that there are at least a hundred of these guns always ready for use. Three out of the \$5,000,000 spent in the construction of massive gates leading to the rooms where the money and bullion are stored.

The alarm system is connected with police headquarters. It is said that Denver mint is the best protected in the world, and no big building has anything better in the way of defense, with the exception perhaps of the National City bank of New York. This bank has an elaborate system of steam pipes around its vaults for use against fire. If these valves were released it would roast every one in the basement of the bank alive.—Denver Post.

A Projectile's Gain of Speed. Experiments with improved instruments for measuring the velocity of projectiles for increasing after the missile has left the mouth of the cannon. Leaving the muzzle with a velocity of 1,474 feet a second, a projectile has been observed to increase its speed to 1,859 feet a second within the first six feet. It is only after having traveled twenty-five only after having traveled twenty-five yards that the projectile's velocity becomes reduced to the speed it had on leaving the muzzle. This is ascribed to the impulse of the expanding gas being felt for some distance beyond the cannon's mouth.—New York Tribune.

Moisten the Buttonhole. Every man knows the difficulty and agony of a refractory collar stud. With a breakfast to eat, a train to catch and an appointment to keep, few things are more maddening than the collar which simply will not ally itself to the stud. But few things are so easy to remedy. All that is necessary is to dip the thumb and forefinger in water and slightly moisten the obstinate buttonhole. Then the stud slips in without a murmur.

Model Short Story. Enclid lays down his plot, sets in stantly to work at its development, letting no incident creep in that does not bear relation to the climax, using no unnecessary words, always keeping his one end in view, and the moment he reaches the culmination he stops.—Robert Barr.

Sure. Binks was gazing into the showvase in front of the dental establishment when Jim's enigma him. "Hello," said Jimks. "What are you doing here?" "Oh, just picking my teeth," replied Blinks.—Cleveland Inquirer.

Reassuring Her. "Do you really love me?" she wrote. "Refraining to my last letter," he promptly replied, "you will find that I love you devotedly on page 1, madly on page 3 and passionately on pages 4 and 5."—Pittsburgh Post.

A MESSAGE FROM A WOMAN TO WOMEN

"Every Woman Should Take 'Fruit-a-tives'"

LAKELT, ONT., MAY 13th, 1913. "Kindly publish this letter of mine if you think it will benefit other women who might be afflicted with the diseases I have had in the past, but am now, thanks to 'Fruit-a-tives', completely cured of. It is my firm belief that every woman should take 'Fruit-a-tives' if she wants to keep herself in good health.

Before taking 'Fruit-a-tives', I was constantly troubled with what is commonly known as 'Nerves' or severe Nervousness. This Nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking doctors' medicine without any permanent relief. Constipation was also a source of great trouble to me and for which the Doctors said 'I would have to take medicine all my life', but 'Fruit-a-tives' banished all these troubles and now I am a well woman!"

Mrs. FRED. GADKE. 500 a box, 6 for \$2.50—trial size, 25c. At dealers or sent prepaid on receipt of price by Fruit-a-tives Limited, Ottawa.

The Kidneys and the Skin. If the kidneys are weak or torpid, the skin will be pimply or blotchy. Hood's Sarsaparilla strengthens and stimulates the kidneys, and clears the complexion. By thoroughly purifying the blood it makes good health.

Full Bins—Small Bills. No wonder the shrewd housewife is happy and contented when she knows her bins in the cellar are filled for which she holds receipts bills that are most moderate. If every housewife had the same good judgment she would see to it that her winter's supply of Coal was put in now before the prices advance still further. Every year of our Coal is selected to be of our best quality and free from rubbish or dirt.

## Trades and Labor

(Continued from Page 1)  
**New Post Office Laborers**  
The delegates from the Laborers' union brought up the dissatisfaction of the laborers on the new post office. The secretary of the council was instructed to write Mr. Kilmer, fair wage officer at Ottawa for an explanation of the distinction between builders' laborers and common laborers.  
**Board of Works Irregularities**  
The council was pleased with the progress made thus far as regards the alleged irregularities in the board of works department. It was also stated that information was in the hands of the committee who have charge of the matter, and it will be made public if the city authorities do not make public the alleged irregularities.  
President Pearce was in the chair.

## Militant Collapses

(Continued from Page 1)  
rrible crescendo. We foresee the likelihood of crimes being sympathized with if not condoned and approved by many of the most respected law-abiding members of the community.  
The police authorities are greatly concerned about the increase of violence and bomb attacks on buildings another of which occurred at Tottenham, in the northeast of London, this morning. Like that deposited yesterday in St Paul's Cathedral, the bomb was discovered before it had time to explode. It was found by a caretaker outside the door of a pawn broker's shop.  
The authorities have secured evidence that many of the former constitutional suffragettes have joined the militant body since the defeat of the woman's suffrage bill, and they say there is no way to tell what will happen next.

## CHILDREN WILL BE PROTECTED

New Act Adopted Makes Drastic Changes.

The section of the Ontario Statutes dealing with the Protection of Neglected and Dependent Children, has come in for several important changes during the revision of the statutes.  
**A Neglected Child.**  
The section describing a neglected child, includes many other changes. A clause which states a child loitering about in a public place after nine o'clock in the evening, is to be considered a neglected child; also a child who is a habitual truant or an illegitimate child, whose mother is unable to maintain it.  
The new act gives the agent power to return a child within a week without bringing the child before a judge.  
**Maintenance of Children.**  
Under the section dealing with the maintenance of children, the act states that a judge may order the parent to contribute toward the child's maintenance and in default, may commit for 40 days and recommit again for subsequent defaults.  
**Street Trades.**  
Under the section dealing with street trades the act says that no girl under sixteen and no boy under ten shall engage in or be licensed or permitted to engage in any street trade or occupation.  
**Loitering.**  
The act also states that no child shall loiter in a public place or be there after nine o'clock unless accompanied by parent or guardian.  
The Lieut. Governor has given his assent to the above changes.

## A SCHOOL OF WHALES

Is Now on a Tour of the Atlantic Ocean—A Visit to New York.

(Canadian Press Despatch)  
NEW YORK, May 8.—A school of whales on tour of the Atlantic sea coast is apparently intent upon a visit to New York. Recent reports that a large number of the "ministers" have been seen off this port are confirmed upon each new arrival of steamships. Captain Richard Hayes of the Steamer Orotavo, which docked to-day, said that a school of whales followed his ship most of yesterday afternoon until the steamer was within forty miles of Scotland lightship. Strung together the glistening bodies of the whales looked like a monster a thousand feet long, but just as a photographer was ready to take a picture of the "sea serpent" it broke up into an uncounted number of whales.

## ENGLISHMAN IS ARRESTED

American Authorities Act at Philadelphia Immigration Office.

(Canadian Press Despatch)  
PHILADELPHIA, May 8.—A well-dressed Englishman, who had in his possession jewelry belonging to Andover, Mass., students, and who claims to be William E. Wellington of London, is being held at the government immigration station at this port, pending the determination of an investigation whether he can be deported on the ground that he is insane. Wellington was turned over to the immigration authorities by a West Philadelphia insane asylum, where he was being treated as a "free" case. An investigation of his belongings showed that they consisted of costly clothing, jewelry and finely bound books. One of the books bore the stamp of an Andover library, and an investigation showed that Wellington had been at that place. Andover reported that other things, including jewelry owned by Dan Hanna, grandson of the late Mark Hanna, and Armour, son of the meat-packer, were missing.  
Wellington had made the acquaintance of the young men while posing as a wealthy Englishman of noble birth.  
He was wearing the scarpin and cuff links of young Armour when he arrived at the hospital. Wellington, it is said, admitted having stolen them.  
Further investigation elicited the fact that Wellington had been deported to England in May, 1912.

## Not His Duty.

TORONTO, May 8.—"There is no pretence that what he did was in any way within the scope of his official duties" declares Master-in-Chambers Cartwright in dismissing an all grounds the motion by Magistrate Jells of Hamilton for an order for security for costs in the action brought against him by Frederick Fritz. The suit is for \$3,000 damages for alleged wrongful eviction

**Your Furs are Safe in our Vaults!**

Why send them out of town when they can be stored just well in Brantford?

Furs are so highly prized by everyone, it follows that great care must be taken to protect them from the ravages of moths. It is a fact that most furs are ruined by these pests than by actual wear.

The cold, dry air system of storage is a positive safeguard against moths. Much work and worry can be avoided by simply depositing us at 619, and we will call for your furs and other winter apparel. You place your own valuation on each article, and we are responsible to you for that amount in case of loss by fire or moths. Our charge for storage and insurance is 3 per cent. of the value—a moderate charge when it is remembered that we carefully dust each article, and hang them in a vault that is intensely cold.

Nothing is packed or folded. Everything is kept on hangers, so that the most delicate article will not become creased or mussed, and will carry no odor of moth preventatives.

# Strikes

By HOWARD L. RANN

A STRIKE is an expensive form of arbitration which leaves everybody satisfied but the ultimate consumer. It is called a strike because it raises large welts on the common people, who are obliged to pay not only the funeral expenses, but heavy dividends on the outraged feelings of the strike.

Strikes are usually called in order to persuade capital to quit stealing the bedding from labor. When a manufacturer is squeezing 40 per cent. dividends out of stock which is 60 per cent water, on a pay roll averaging \$7.00 a week, he is liable to come down to the plant some bright Monday morning and find everything closed tighter than a mule's saloon on election day. He then makes a 10 per cent increase in wages and puts several healthy notches in the price to the consumer in order to assuage his mental anguish.

The coal industry generally manages to have one good adhesive strike every year which is usually pulled off just in advance of the time when the mine operators get together and erect a sliding scale of prices. A coal strike is always followed by several handspings in the price of that luxury which keep a man reaching for his check book with a grievous look. If there should be two coal strikes in one year, nine tenths of the people of this country would either have to burn their bedroom furniture or sleep in a haystack.

One of the most offensive forms of strikes is that which occurs in the kitchen. This is not caused by the wage question, but results from indignation on the part of the cook because she cannot have the front parlor four nights a week. Some cooks never strike until the invitations are out for a six-course dinner, and refuse to go on duty unless allowed the use of the piano in the reception hall. This attitude on the part of the hired help has caused a great many women to regret having exchanged \$60 a month in the Eighty grade for a glittering assortment of nuptial vows.

DODD'S KIDNEY PILLS MAKING A REPUTATION IN THE WEST.

Saskatchewan Man Tells How They Cured Him, After Four Months' Suffering from Backache and Other Forms of Kidney Disease.

ST. PHILLIPS, Sask., May 5—(Special)—In a new country, where changes of climate and impure water are among the difficulties to be surmounted, kidney trouble is prevalent. It is the kidneys, the organs that strain the impurities out of the blood, that first felt and undue strain on the body. Consequently Dodd's Kidney Pills have been well tried and tested in their neighborhood.

They have stood the test. Many here tell of backache, rheumatism and urinary troubles cured by Dodd's Kidney Pills. Mr. Otto Olshekski is one of these. In speaking of his cure he says:

"I suffered from kidney disease for four months. My back ached, I had heart fluttering, and was always tired and nervous. My skin had a harsh, dry feeling; my limbs were heavy; and I had a dragging sensation across the loins.

"I consulted a doctor, but, as I did not appear to improve, I decided to try Dodd's Kidney Pills. I used six boxes, and now I am all right."

Dodd's Kidney Pills always stand the test. Ask your neighbors.

MRS. CATT TO SPEAK IN ENGLAND

MRS. CARRIE C. CATT.

Mrs. Carrie Chapman Catt, a prominent suffragette of New York, intends to attend a meeting of protest against the payment of taxes by the Duchess of Bedford, upon whose property distraint was levied on April 21 and a silver cup belonging to her taken by the tax collectors to satisfy the claim.

MUCH WHITE SLAVE TRAFFIC

National Council of Women Now in Session Take Up The Matter.

PHILADELPHIA, May 8.—The prevention of the traffic in women was the principal subject discussed at the opening session of the convention of the National Council of Women held in St. James' Methodist church.

Asa Gordon of Ottawa handed the report on equal moral standards and prevention of trafficking in women which showed that the operation of the white slavers had reached alarming proportions and covered the length of the Dominion. On this continent it had been estimated that 100,000 "girls and women of the world" and for every one of them there were ten men of a similar character. As the life of the women was so short, it required 60,000 victims each year to supply the demand.

Many of these victims came from Canadian homes. Moral impurity was rife in this country. The moral reform committee of the Methodist church in Canada estimated that the total cost of \$125,000,000 was paid out in moral vice. White concerted work against the traffic was being done by the church, the report stated, no or denunciation was better suited for the work than the National Council of Women with its 125,000 members. Be-

cause women could be restricted in a vice area and men could range at large, it was necessary that the latter should be punished more severely than women. The men spread the diseases contingent on the traffic and doctors had proved that 60 per cent of the operations performed on respectable women in the hospitals were the result of this class of trouble.

All over Canada, in the cities and the villages, the report continued, there were palpable evidences of the operation of the traffic and spread of disease. As a practical suggestion for combating the vice Mrs. Gordon's report stated that a careful investigation of the condition under which the women lived must be made and honest work provided for them because it was known that parents and environment were largely responsible for vice conditions. The church should do something to vary the monotony of village life for girls. In the cities employment bureaus should be established and conducted in such a manner that girls coming in from the country would not fall into the hands of panders when they sought work.

The railway stations and docks should also be carefully watched and the operation of white slavers there checked.

Mrs. Stead presented the report of the committee on feeble-minded. It said there were now six thousand in Ontario alone and the numbers were increasing. Remedies recommended by the report were prevention of marriage of the unfit, compulsory education, medical and psychological clinics, government institutions, stricter immigration laws and also school classes for backward children.

Its moderate cost makes it easy to get.

A Clear Brain and healthy body are essential for success. Business men, teachers, students, housewives, and other workers, say Hood's Sarsaparilla gives them appetite and strength, and makes their work seem easy. It overcomes that tired feeling.

CHALLENGED BY HANNA, PROUDFOOT REMAINS DUMB AS AN OYSTER

(Continued from Page 1.) Liberal members one by one, taking advantage of a question which they knew to be inadmissible, filed from the room.

"Does any man doubt that the whole play had been rehearsed in the office of the leader of the Opposition?" asked Mr. McGarry. The speaker then recalled the famous charges in England about twenty years ago made against the whole Irish party and how the witness, finding himself on the verge of discovery as the perpetrator of infamous charges, had hanged himself.

"I don't say the hon gentleman has any idea of following his example," said Mr. McGarry amid laughter. The evidence of Mr. Cartwright, Dr. Gilmour, Messrs Montgomery, Thorne and Fasken were all reviewed to show that these men, all Liberals, or friendly witnesses, had declared in unmistakable terms the injustice of the charges. The evidence of Mr. Taylor was also recalled to show that he considered the award so far from being improper from the Opposition standpoint that he would be willing to return the \$20000 secured in the belief that he would obtain more from any business man who would act as arbitrator.

At this point Mr. McGarry caused some amusement by declaring that the only way in which to account for the action of the Centre Huron member is his exorbitant desire to shine in one way, whether famous or infamous.

"The hon. gentleman pictures to himself someone asking as he goes down the street: 'Who is that Roosevelt looking gentleman?' and the answer: 'That is Mr. Proudfoot, the man who unmakes governments,'" said Mr. McGarry amid much laughter. "And I understood how to account for the droop of his mouth as he left the committee and saw all that gone."

After asserting that Mr. Proudfoot could be left for posterity to dispose of as far as his charges are concerned, Mr. McGarry moved an amendment to the amendment, that the House deems it its duty to declare and to place on record its unqualified condemnation and censure of the conduct of the member for Centre Huron in making the charges which he did, charges which had been shown to be untrue and without any foundation. Also that the House further condemns the action of the women lived must be made and honest work provided for them because it was known that parents and environment were largely responsible for vice conditions. The church should do something to vary the monotony of village life for girls. In the cities employment bureaus should be established and conducted in such a manner that girls coming in from the country would not fall into the hands of panders when they sought work.

The railway stations and docks should also be carefully watched and the operation of white slavers there checked. Mrs. Stead presented the report of the committee on feeble-minded. It said there were now six thousand in Ontario alone and the numbers were increasing. Remedies recommended by the report were prevention of marriage of the unfit, compulsory education, medical and psychological clinics, government institutions, stricter immigration laws and also school classes for backward children.

(From Our Own Correspondent) A number from here spent Monday evening at Mrs. James Eadie's, Oakland. We are sorry to report that Mrs. Jas. Smith does not improve very fast.

Mr. Archie Campbell is adding much to the appearance of his lawn. The Scottish bowlers are out practicing now.

Mr. Wm. Wheeler has purchased Mr. Ace Robinson's house.

The T. H. & B. railway have opened a gravel pit on the farm lately owned by Mr. Jas. Nunick, just north of the station.

Dr. J. E. Anderson is running his new car.

It Makes New Friends Every Day.—Not a day goes by that Dr. Thomas' Electric Oil does not widen the circles of its friends. Orders for it come from the most unlikely places in the west and far north, for its fame has travelled far. It deserves this attention or no oil has done so much for humanity. Its moderate cost makes it easy to get.

A Clear Brain and healthy body are essential for success. Business men, teachers, students, housewives, and other workers, say Hood's Sarsaparilla gives them appetite and strength, and makes their work seem easy. It overcomes that tired feeling.

Mr. Rowell began to refer to the Proudfoot statement. "No, no," objected Mr. Hanna. "I put the question fairly. Will my hon. friend stand up in his position in the House, or any other member in this House, and say for one moment that there is even a suggestion of wrongdoing regarding coal or underfeed stokers?"

"The only way I can answer that is by referring to the document and see what it says," replied Mr. Rowell. "Answer the question," challenged several members.

"I will refer to the document," began the Liberal leader again.

"That is not the question," said the Minister.

"Whatever the document says that is what it means," parried Mr. Rowell amid ironical laughter.

"What do you say?" shouted a member again. But Mr. Rowell was not answering direct questions, and went ahead.

Launching into a discussion of the circumstances leading up to the investigation, Mr. Rowell declared that Mr. Proudfoot was entitled to great credit for pressing the matter as he had. He held that full and free investigation had not been given. While some evidence ruled out had not been properly admissible, evidence of the greatest importance, which would have been admitted under the strictest rules of evidence, had been shut out.

Referring to the Thorne letter, he claimed that Mr. Proudfoot's counsel should have been permitted to place the letter in Thorne's hands for reference.

Mr. Rowell declared that no counsel of eminence in the province or the Dominion giving his professional opinion would justify the shutting out of enquiry into the circumstances under which the \$500 payment was made. He could not imagine how the majority could justify the conclusion they had come to in view of the action of the committee in shutting out all evidence as to the circumstances surrounding the payment.

Hon. Mr. Rowell's friends had served him poorly both in the Public Accounts Committee and the Privileges and Elections Committee.

GIANT CUNARDER AT LAST LAUNCHED.

FIRST PHOTO OF AQUITANIA IN WATER.

The monster steamship Aquitania, recently launched in the river Clyde, which had to be waded at the mouth to let the boat out, is twenty-one feet longer than the German steamship Imperator, being 531 feet over all. But in the matter of horse power the German giant exceeds her by 5000.

This Woman Wants to Sell Body to Doctor

CINCINNATI, O., May 8.—A woman, plainly but rather well dressed, sat patiently for an hour last night in the receiving ward of the Cincinnati hospital, and when her turn finally came she startled the receiving clerk, Mr. Walsh, by stating that she wished to sell her body to buy fine clothes. The woman said: "My name is Eleanor Muchmore, and I've simply come here to sell my body."

"You don't want us to kill you?" the astonished clerk gasped. "Oh, no," replied Miss Muchmore, "but I want new clothes badly, and I thought I might be able to sell my body to some doctor in this institution to be delivered after my natural death."

Miss Muchmore seemed greatly disappointed when it was explained to her that her proposition could not be entertained.

JACK JOHNSON WAS HISSSED

(Canadian Press Despatch)

CHICAGO, May 8.—The effect of Federal Judge Carpenter's censorship of attendance at the trial of the negro prizefighter, "Jack" Johnson, on a white slavery charge, was apparent in the empty benches at to-day's session of court. A few negro friends of the defendant and a half-dozen white men constituted the audience. For appearance in court the fighter has discarded his diamonds and other jewelry, and presented himself in apparel of a subdued shade of blue. At the Union depot, where Johnson went to meet a friend before court opened, he was hissed by the crowd.

Estelle Henderson, alias Painter, proprietress of a resort at Pittsburgh, testified that she had dismissed Belle Schriber, the "white slave" of the present case, from the house. The Government had hoped to show that this action was due to the Schriber woman's association with Johnson, but objection of the defence to this line of examination was sustained.

REST CURE FOR MRS. BRYAN

MRS. W. G. BRYAN. PHOTO BY TOWNSEND.

Friends of Mrs. William Jennings Bryan, wife of the Secretary of State, have been alarmed by a newspaper report that she had broken down as the result of the active social schedule she has been forced to observe since her arrival in the capital. Mrs. Bryan was ordered by her physician to take a rest cure at a sanatorium.

Incongruities By WALT MASON

The man who pays a trifling tax is always out with battle-ax, condemning this, denouncing that, and talking wildly through his hat. The man who doesn't pay his debts, whose creditor in sorrow sweats, is always finding signs of graft in public men, and guile and craft. The man who lets his weary wife do washing to sustain his life is always active with his jaws discussing needed helpful laws. The man who has no traps to guard has fifteen watchdogs in his yard which howl all night till neighbors weep or call for poison in their sleep. The man who fails in all he tries on some high office has his eyes; oh, he could guide the ship of state, although he cannot pay the freight. The man who has a private jug too often roasts the thirsty plug who boldly seeks the shining bar where forty-rod and bitters are. The man who plays a quiet game in some resort unknown to fame is angry when he hears of chaps who waste their substance playing craps. And some who preach the love of man, the helping hand, the kindly plan, expounding divers creeds and gods, are stuck like beeswax to their wads.

AMERICAN CHOSEN FOR CHIEF RABBI.

DR. HERTZ CARRYING THE SCROLL OF THE LAW DURING HIS INDUCTION AS CHIEF RABBI

Extremely impressive was the recent induction of Dr. Joseph H. Hertz as Chief Rabbi at the Great Synagogue in Duke street, Aldgate, London, a position to which he was called from New York.

The floor of the synagogue was filled with representatives of Anglo-Jewry including Lord Swaythling, Lord Rosebery, Lord Crew, Sir Edward Stern, Sir Marcus Samuel, Sir Charles Henry, Mr. Leopold de Rothschild, Sir Stuart Samuel, Sir Herbert Cohen, Sir Adolph Tuck and Sir Philip Magnus. The ladies' gallery was also crowded. In Dr. Hertz's striking address he touched the words: "As for the Jews of this Empire—which is entirely a matter of justice coupled with humanity—loyalty to the flag for which the sun once stood still can only deepen our devotion to the flag on which the sun never sets."

### CAINSVILLE NEWS.

(From our own correspondent.)  
A large congregation attended the morning service last Sabbath, both of our own pastors being present. Rev. Mr. Morrow preached an excellent sermon on "The New Song." Several letters from other pastors and certificates of membership were read and a large number were received into church membership. At the close of the service fellowship meeting was held. This was followed by the administering of the sacrament.

Mr. Logan of Colborne St. church, Brantford, had charge of the Men's Bible Class, Sunday afternoon.

Rev. Mr. Cook delivered a splendid sermon on Sunday evening, his text being "Behold Your King." Solos were rendered in excellent voice by Miss Earley Westbrook of Langford and Miss Irene Shaver, the former rendering "Sun of My Soul," in the morning, and the latter, "Hold Thou My Hand," in the evening.

The League met on Monday evening, and as it was the evening decided upon for the election of officers, the topic was dispensed with. The following officers were elected: President, Miss Annie Hawley; first vice-president, Miss Annie Smith; second vice-president, Miss Neelands; third vice-president, Miss Ferguson; fourth vice-president, Rev. Mr. Cook; secretary, Miss Gladys Woltz; treasurer, Miss Mina Clark; pianist, Mrs. Wilson; assistant pianist, Miss Annie Graham; corresponding secretary, Miss Morrow; district representative, Miss Woltz.

We regret to report that Miss Leta Moyer who has been seriously ill for some time, is making very little progress.

Mrs. Carmody and Mrs. N. Shaver were the guests of her parents, Mr. and Mrs. Ira Day on Sunday.

Mr. and Mrs. Albert Hamilton, were the guests of Mr. and Mrs. Dawdy on Sunday.

Miss Kate Hanley of Loretta Convent, Hamilton, spent the week-end at her home.

Mr. Chas. Wilson spent last week at the home of his brother, Mr. Isaac Wilson, Smoky Hollow.

Mr. Lew Smith accompanied by his sister, was the guest of Mr. and Mrs. Will Norrie, Oakland, over Sunday.

Miss Irene Shaver spent Sunday with friends in the village.

Miss Minerva Westbrook of Brantford, was a guest at the home of Mr. and Mrs. Seymour Cole on Sunday.

Mr. Fred Gullen, who has just completed his course in law at Toronto, paid a short visit at Elm Croft Sunday morning.

Mr. and Mrs. Sherke of Dunnville spent the former part of the week at the home of the latter's mother, Mrs. C. Foulger.

We regret to report the illness of Mrs. Ira Day.

Mrs. Foster, of Montreal, who is the guest of her mother, Mrs. Rispen, spent last week visiting friends in

### HAMILTON and COPENHAGEN.

The monthly meeting of the Women's Institute was held at the home of Mrs. Stewart on Tuesday afternoon. Mrs. Kerr of St. George, the district president, delivered a splendid address on "Why women should be members of the Institute." A solo by Mrs. Herb Clark was rendered in excellent voice. The following officers were elected for the ensuing year: President, Mrs. Rose; 1st vice-president, Mrs. Wilson; 2nd vice-president, Mrs. Richardson; directors Mrs. A. Fair, Mrs. J. Shaver, Miss O. Fyle, Miss Reid, Floral committee, Mrs. H. Clark, Mrs. Carmody; secretary-treasurer, Mrs. H. Foulger; representatives to district annual meeting, Mrs. A. Taylor, Mrs. H. Clarke, auditors, Mrs. Taylor, Miss Reid. The next meeting will be held in July at the home of Mrs. Russell.

Mr. Lew Smith spent Tuesday evening in Hamilton, the guest of Mr. and Mrs. Richard Dark.

Mr. and Mrs. Thomas Rispen gave a housewarming to a number of their friends from Ancaster, Trinity, Albion, Hamilton, Brantford and Mineral Springs were present. The guests enjoyed themselves playing euchre until midnight, when a dainty lunch was served after which they tripped the light fantastic until the wee sma' hours.

The funeral of the late Mr. John Reid took place from iPerce's undertaking parlors, Brantford, on Saturday afternoon and proceeded to Brant cemetery for interment.

### EAST OAKLAND

(From Our Own Correspondent.)

Easy to do this with Catarrh-ozone, which cures a cold in ten minutes. Even to the lungs goes the healing vapor of Catarrh-ozone—all through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Catarrh-ozone follow. You'll not have colds, nor will you suffer from sniffles, bronchitis or throat trouble if Catarrh-ozone is used. Get it to-day, 25c and \$1.00 at all dealers.

### FAUCETT-CHARLTON.

A very quiet wedding was solemnized on May 7th, at the parsonage, Cainsville, when the Rev. Mr. Morrow united in marriage Miss Fawcett, youngest daughter of Mr. and Mrs. Robt. Fawcett, Newport to A. Harris Charlton, also of Newport. The bride who looked very pleasing, was dressed in a travelling suit of tan and grey shot whipcord, with tan silk hat, and was attended by Miss Edith Chapin, while Mr. Bruce Charlton performed the duties of best man. The young couple left amid showers of confetti and good wishes on the 6:35 train for London on their return they will reside on the groom's farm near Newport.

Ambassador Constantin Dumba of Austria-Hungary will likely be quite as popular as his predecessor, Baron Hengelmuller at Washington, D. C. The popular Baron possesses one marked advantage in that he speaks English perfectly, due to his long residence in London. The ambassador is a most polished gentleman as he fits one who has been in the diplomatic service of the straight laced and markedly polite court of Austria-Hungary. The arrival of Madame Dumba is awaited with much interest, as she is one of the most noted beauties of the Viennese court, famous for their beautiful women. The ambassador has been in diplomatic service since a mere boy having served in London, St. Petersburg, Rome, Paris and Bucharest and Stockholm. Madame Dumba, who has the reputation of being a most charming hostess is expected about June 1, in Washington, when they will select a summer residence at one of the prominent resorts.

Blessed indeed if she who knows how to "conserve" her strength and neither goes beyond it nor wastes it on it. She is wise who knows that she cannot go on recklessly over-doing. A simple help to letting down the nervous tension is to relax. When your nerves seem to run away with you, stop and let go of them. Let go of all the attendant little worries at the same time and let your mind be blank. Then stretch—stretch gradually; first one arm, and then the other, starting the force at the shoulder and allowing it to creep to the finger tips. Starting at the hips do the same thing, and after stretching relax, remembering not to jerk, but to do these movements smoothly.

Nothing is farther from common sense and truth than the old gymnastics, whose every move gave a shock to the nervous system. It is not big bunches of muscles we want but serviceable strength. Deep breathing is also an excellent antidote for nerves. The beauty of all this is that the nerve attacks will grow less frequent if these rules are kept up and a sense of power and self control will come to stay.

### MUSIC and DRAMA

### GRAND OPERA HOUSE.

The Franklin Stock Company which opens their summer season at the Grand, has selected for their opening play "The Man on the Boy." This play was made famous by Henry E. Dixey and played here at \$1.50 and \$2.00 prices. So no that patrons can witness this production at popular prices, it will no doubt test the capacity of the theatre. Mr. Weaver has purchased the entire special scenic equipment for this play and promises a stronger supporting company than he had here last season, during their summer run.

### Echo of P. Disaster

Claims for compensation by widows of the victims of the Bedford pit disaster in February, in which fourteen men were killed, came before the Mansfield County Court judge on Monday. Most of the widows were granted £300, a small amount being immediately handed to them, and the remainder to be invested and paid out in sums of two and three pounds per month.

The Mayor of Mansfield estimated that his special fund, which amounted to £2000, would last at the rate he proposed payment, for fifteen years. The Bolsover Colliery Company, it was announced, had paid all funeral expenses, and the loans they

had advanced to the widows they would not ask to be repaid.

### Motor Fatalities

John Jenks fifty-six, assistant superintendent of the Refuge Assurance Company, was killed at Wolverhampton while cycling. He was endeavoring to avoid a milk float when he was overtaken by a motor lorry weighing about four tons and run over.

Whilst returning from a football final competition at Oxford, Mr. Jas West of the Thames Motor Works, was thrown from his motor cycle. He was picked up unconscious and died on Sunday morning.

While walking along the main London road at Washington, Sussex on Sunday afternoon three young men were overtaken by a motor car going towards Horsham. Two of the three men were knocked down, one of them Ernest Knight, of Warminghurst, being so seriously injured that he died a few hours later.

### Wonderful Old Pastor

The funeral took place at Leicester on Monday of the Rev. James T. A. son, M.A., a Free Church minister who died at Narborough in his 83rd year. Born at Colne in Lancashire, he was brought up at Bradford, where he became a handloom weaver. His parents were very poor and he had no schooling and little to eat during these hard times. He acquired a knowledge of several languages, and at fifty graduated B.A. at Dublin University. His health compelled him to quit the ministry for a time, when he went to live in France. Returning he became a railway clerk at Bradford, and later resumed his ministerial career at Nottingham and Leicester.

### Hot Fat Started Fire.

BOSTON, May 8. — The overturning of a kettle of hot fat in a restaurant kitchen on Warren street Boston, early to-day, started a fire which destroyed ten buildings, tenement houses, with a loss of \$75,000.

One hundred and twenty horses quartered in a livery stable were suffocated by smoke. Several tenement dwellers had narrow escapes and one man was so seriously injured as to require hospital treatment.

# It Was a Glorious Victory--Red Sox 8, Ottawa 7

## Live Notes About Red Sox Victory Over Champions

What a crowd.  
What a victory.  
How they did yell, men, women and kids.  
Collins was the hero of the hour. "Ray" for Ray.  
Collins won his own game.  
The biggest crowd ever seen at a ball game in Brantford.  
The Sox played errorless ball.  
No flies on Collins and Brundage.  
Ray was given a royal reception after the game.  
Why shouldn't he?  
He deserved it.  
Tesch certainly made good.  
Kane was there with a cane, and he raised Cain when the Sox won.  
Ottawa are some hitters, but there are others.  
What a procession!  
The players were cheered all along the line.  
Brantford is certainly some baseball city.  
It's great to win, eh?  
President Speechley of the football league said: "It's great. Wish we could get a crowd like that at our games."  
The fastest infield Brantford ever had.  
Tesch and Wagner play like old timers.  
The rooters helped a lot.  
Lammond caught a grand game. Wagner is as fast as lightning.  
Empire Daly satisfied the fans. He's good.  
Duffy is rounding into form nicely and has speed to burn this year.  
Ottawa scored five runs on four balls and no errors.

Ball games are never won until the last man is out.  
Ottawa have a grand team which will cause a lot of anxiety to some managers.  
And by the way, St. Thomas beat London, and there was joy at the Railroad City.  
The Royals tamed Knotty Lee's Hamilton Tigers in great style.  
Berlin had a narrow escape with Peterboro.  
The Red Sox got away to a bad start, but on the whole they got away to a good start—whichever way you take it.  
Ottawa to-day then Peterboro Friday and Saturday.  
It was a great curtain raiser.  
The fireworks started in the eighth and were continued in the ninth.  
The Red Sox are to be congratulated for pulling the game out of the fire and winning what looked to be a sure defeat. They turned it into a glorious victory.  
All last year Donovan never had any luck against Ottawa.  
Bradshaw, the Berlin pitcher, did great work yesterday, holding Peterboro to two hits. He is a wonder and an enigma combined.  
When Burrill and Slemm report, what then?  
Brundage made good yesterday.  
Either Renfer or Lill will pitch today for Ottawa. Kane may send Donovan back again, if not Coose.  
Ottawa was retired very easily in the ninth, on infield taps.  
Fifteen hits off Mullen in eight innings.  
When Ivers was purposely given a base on balls in the eighth, he was so mad he threw his bat up into the box seats, but the screen stopped it.  
Mullen contributed an error which helped him along to his downfall.  
Red Rowe tried to pilfer second, but Lamond arrested him.

In Ottawa's seventh, Lage scored when Harris hit to Ivers. The latter could have been retired easily at first Ivers tried to cut the run off at the plate. Under Ban Johnson's ruling, Harris gets a hit.  
Brantford had a glorious eighth. Brundage singled, Diem singled, Lamond singled. Three on and nobody out. Some situation. Collins flled to Dolan. Then Tesch singled to right, scoring two runs, and when Rogers threw to the bleachers another man came in. Before Tesch came up Lindburn got a base on balls and forced in a run. The inning ended with the score even.  
Matty Lamond made Brantford's first hit in the third. Collins and Lindy followed with singles, filling the bases, but Tesch struck out and Wagner hit a liner to Rowe who doubled, Collins off second. It was real agony for the crowd.  
The Red Sox pulled off the first double play. Rogers tried to fly down a bunt, Collins threw him out at first, and Callahan who was on second tried to make the plate. Ivers' throw to Lamond caught him.

### The Hero

RAY COLLINS

Who Won His Fifth Straight Game in Canadian League Yesterday. He Has Yet to Lose One.

## IT WAS A GREAT PARADE, A GREAT GROWD, A GREAT GAME AND VICTORY

### Baseball Had Brantfordites in Pronounced Way Yesterday--Red Sox Fought Valiantly in an Uphill Struggle and Vanquished Last Years Champions--A Great Finish--Collins The Hero.

Three thousand hearts beat as one yesterday afternoon at Agricultural Park when Ray Collins drove out a single to left field and scored Brundage who was on second and won the opening game 8-7 after a hard uphill fight.  
It was a real garrison finish and a glorious victory and naturally Pitcher Ray Collins was the hero of the hour.  
The victory was all the greater for the reason that the Red Sox got away to a bad start in the first innings and five Senators crossed the plate before Harry Donovan to do the pitching and he seemed to have an off day as he was wild and lacked speed and control. Donovan was touched up for two runs right off the reel and was replaced in the initial innings by Ray Collins who allowed three runs to be made off him over the smoke cleared away. He went in cold. After the first innings he allowed only two of the visitors to cross the plate and finally won his own game by driving out a single in the ninth innings after two men were out.

The Procession.  
As early as two o'clock Market and Colborne street in the vicinity of the Market Square were crowded with people. From the corner of Market street to the Lorne Bridge, Colborne street was one mass of humanity who watched the parade pass by. The upper store windows and recessed places along the street were filled with spectators. The Dufferin Bandmaster Frank Johnson marched down from the armories shortly before seven o'clock.

## SPORTING COMMENT

By FREE LANCE

Brantford made a name for itself as a sporting centre yesterday. The Telephone City is the greatest town in Canada when it gets anything right.

If Brantford had lost yesterday's game the writer of this column, in making an analysis of the play, intended to lay stress upon the fact that pitching is a very important department of the game. Brantford having copped the opener, the same holds true. It was largely because Collins developed great stuff on the ball, and the farther he went the better it got. The first inning was disastrous, but it was due to ineffective pitching entirely. Not an error nor a misplay of any kind was made by the Red Sox. Ottawa simply hit the ball on the nose and six men crossed the plate in two innings, only one Senator being left stranded, waiting for the needed hit. That is a somewhat unusual situation in itself.

On the other hand, the Ottawa pitcher became ineffective, and when he wobbled his field wobbled behind him. This combination enabled Brantford to win. Had Mullen received the same support which was accorded Collins he might have won the game.

We don't believe Brantford is weak in its pitching staff. If there is a weakness on the club it will be with the pitchers. But Donovan, Coose and Collins should hold their own. It is just possible the staff might be crippled and overworked. These are contingencies in baseball which the management will have to meet when they arise. Certainly the Canadian League will furnish a fast brand of ball this year, judging from the hot pace set yesterday.

One swallow doesn't make a summer, or one ball game a pennant, but winning in such sensational style as yesterday cannot help but do the Brantford players and the patrons a world of good. The game could not have been staged better. It was just like the hero of a melodrama when Collins made the hit winning his own game. You can't beat that stuff.

President Nelson and Roy Brown are to be congratulated on their opening success. With two players missing from the opening fray, no expense was spared to bring capable substitutes here. In fact, before a ball was pitched yesterday it cost the management in the neighborhood of \$1500 expenses. And don't forget the fact that a good ball club will advertise this city.

### TESCH

The New Red Sox Shortstop Looks Like the Goods

At two o'clock and took a position on Wellington street opposite the Court House where they played a number of catches. The guests of the management assembled there and were allotted their seats in the different automobiles, which were kindly put at the disposal of the management by many friends. When the teams and guests had all arrived and everything was ready the signal to start was given by the secretary, who had charge of the parade and the Dufferin Rifles band started up a lively march and the procession started down Market street thence along Colborne street to the ball park. All along the crowded thoroughfares the two teams were given a royal reception.  
The order of the parade was as follows:  
Dufferin Rifles band.  
Auto containing Ottawa players.  
Auto containing Ottawa players.  
Auto containing Red Sox players.  
Auto containing Red Sox players.

Large dray containing a number of faithful fans and rooters and many others who naturally got into line.  
At the Grounds.  
Arriving at the grounds the guests of the club were ushered to their seats in the bleachers which had been reserved. The Ottawa players began to indulge in light practice.  
During the practice the band played several pieces.  
The Ottawa team trotted out on to the field and limbered up and the vast crowd looked on keenly.  
At the Senators had worked for some little time they came into the plate and were photographed along with the Red Sox.  
When the photographers had completed their business the Brants took the field and had a short work out.

The Grand Opening.  
Empire Daly of Rochester, waved his hand and Mayor Hartman went to the box. Ald. Spence took his place at the bat and President Fitzgerald of the Canadian League took up his position behind the bat. The mayor wound up and threw a bender behind the "coming mavor" which he could not see let alone hit.  
Mayor Hartman then declared the Canadian League season of 113 officially open as far as Brantford was concerned.

Empire Daly called "Play Ball" They were off and the game was on. It was an expectant crowd.  
Donovan got away to a very bad start, allowing the first batter Harris, to walk. Rowe singled. After Shaughnessy was out at first, Dolan and Robertson singled and Kane took him out of the box and put in Collins. Ray finished the game and finally won it by a single in the last innings.  
Callahan connected for a home run and the visitors had five runs to their credit, when the innings was over. After the first innings Collins settled down and grew stronger and stronger as the game went merrily on. He fought a great uphill fight, and was finally carried off the field on the shoulders of a loyal bunch of rooters, victorious.  
The Senators scored another in the second on a single by Mullen, a sacrifice by Harris and a beautiful double by Shaughnessy. With bull dog tenacity the Brants held on and played brilliant ball and kept pegging.

### Records of the Pitchers

Here are the pitching records for yesterday:  
Donovan—Hits allowed, 2 singles, one double, one sacrifice, one base on balls, two runs. Retired one man.  
Collins—Hits allowed, six singles, two doubles, one home run, two sacrifices. Inad ball, one; base on balls, one; retired, 26 men; struck out, three.  
Mullen—Hits allowed, 14 singles, one double. Bases on balls, three. Struck out, five; balks, two. Runs, seven. Retired 24 men.

Live Notes About Red Sox

(Continued from Page 9) What a garrison finish. Mullen had a peculiar delivery, and he made two balks. In neither case did a score result for Brantford. Brantford had eleven men left on bases to Ottawa's three. There were no stolen bases. Lamond stopped the only two attempts that were made. Donovan allowed three hits, and issued a base on balls. One man was retired during this procedure. Shaughnessy did not show the generalship of Kane when he allowed Mullen to stay on the mound too long. Wagner hasn't really started hitting, but he is fielding in grand style. With pitching equal, Brantford is every bit as good a club as Ottawa, and the Red Sox were better. Ivers was purposely walked in the eighth on orders from Shaughnessy. The dope was good. Tesch had a chance where he fell over on the ball, but he was not given an error. Del Orcutt was the only one who failed to get a hit. Lindeburn made a fine throw from left, cutting off a runner at third. Diem, the new outfielder, was the only Red Sox to hit for extra bases. He got two batters. There was much waiting and gnashing of teeth for seven innings. Brundage, the Chatham recruit, binged the ball three times out of four and scored three runs. He doesn't look like a flash in the pan either. Congratulations to President T. J. Nelson. Secretary Walsh rises to remark that yesterday's was the seventh annual baseball parade he has arranged. In favor of Shaughnessy derricking Mullen in had a little sooner, the game might have been going on yet. Donovan didn't seem to have anything. Mullen, the Ottawa boy biter is relative of the famous George Mullen of Detroit. With a little more experience he will do good work. Begg's were wired by W. S. Brewster, M.P.P., John H. Fisher, M.P., and J. J. McCaffery, President, Toronto Ball Club at their inability to be here. They all missed something, but they wished Brantford every success. Mayor Hartman complained of a headache at the finish. There must have been more excitement to produce that than at the city council. Brantford developed stage fright in the first inning and Ottawa in the ninth. Which will you have? Judge Hardy thought the umpire's decisions were fair and impartial and he is some judge. Tesch, the new shortstop celebrated his advent to Brantford by striking out on his first two trips to the plate and then making three hits in a row. That's good enough. Diem the new centre fielder satisfied everybody. He is good enough by a big majority for Canadian League company. Robertson, the Ottawa third sacker, made a beautiful catch in the eighth and robbed Wagner of a hit, also Brantford of another run. The game lacked somewhat in

knock out a man who is strictly on the defensive has little chance, for he gets few openings and the other fellow is devoting every instant of his time to dodging that O.K. punch that he knows is coming over. You must get a man to open up if you would knock him out and this evidently Matty failed to accomplish. Jeff O'Connell, the little Briton who is Matty's next most serious opponent is not going to lack for backing when he faces the Racine star Tom McNulty of the west side is a staunch friend of Jeff, and says that if Jeff trains properly for the contest he will, wagger \$1000 that he gets the popular verdict in ten rounds. Joe D'Andrea is also a popular supporter of the O'Connell end on this occasion. There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh can be cured by constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional Cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case if fails to cure. ## Lady Marjorie's Love

"I?" Her eyes were down and she did not see his smile. "Oh, I matter less than anybody! I am glad you came down this morning—it was the best thing you could do. Did you manage to sleep at all? I'm afraid not—you look quite exhausted still."

"No I tried, but I could not. I was so afraid of this morning." She shivered. "Poor child. There was no need, fortunately. You must try to sleep by-and-by. You know there is nothing to fear now."

"Yes I will," she faltered, glancing at him and glancing away. "I have not thanked you, Mr. Barrington."

"Don't cry again, Norah!" she said coaxingly. "I want us all to have such a jolly time presently—just not be there."

All the bewilderment, misery, fright, and humiliation of yesterday seemed to sweep over her again as she said the words, overwhelming her. She would have clasped her hands over her face and broken into passionate sobbing but for the firm hold which he still kept upon the one she had given him. He took the best way of helping her to control herself when he glanced in the direction of the library-door.

"Hush, hush!" he said at once soothingly and warningly. "Don't forget that they may come out, and they must not see you cry. That will never do—it will undo all that we tried to do last night. You are not fit to talk about it now, and since it is over, why need you talk about it? Let us change the subject, shall we? Or perhaps you are too tired to stay here—you have not slept and must be worn out."

"No, no!" She resolutely bit her lips, suppressed the on-coming sobs, and composed herself. "I want to say something else." She tried to look at him and failed. "You remember that last night I said—that if I explained—you would understand better? I mean why I went to London?"

"I remember." He still held her hand. He had taken it as cold as ice; it was all fluttering and glowing now. She pulled it away and clasped both together in her lap. She spoke almost in a whisper her head hanging down over them.

"I want to explain how it was. I should never have run away to London, to my cousin, but for something you don't know. I should never have thought of it—of course I should not—but for one thing. I have—I mean I had been engaged to him for a long time."

"I knew that," said Barrington quietly. "You did?" Struck with amazement she looked up at him wide-eyed. "You did? Oh, then had she been engaged to her hair. Had she completed the sentence it would have been, 'Then how dared you propose to me?' She bit her tongue in her eagerness to keep the words back. Only yesterday she had said to him, 'How dare you?' and the issue of the question could not be called triumphant, for him, it is only doing justice to his penetration to say that he understood what she would have said fully as well as she herself did. But he hid it with admirable readiness and tact.

CHAPTER XXXII. ADD LAST. It was late the following afternoon when Norah—now recognized

## The Joy of Giving

By RUTH CAMERON

WHENEVER most of us think of practical philanthropy, we push a mental button labeled "Pastime peculiar to the odiously rich." Therein lies a fallacy that robs us of much of the joy of giving. It is true that the very rich can afford to give largely. It is as true that we can give not largely, perhaps, but we can give in accordance with our incomes.

The trouble with the people who constitute the class to which most of us belong, neither disgracefully rich or disconcertingly poor, is that we give in the abstract. At Christmas time and again at Thanksgiving, we hearken to the appeal of the Salvation Army. At various times during the year we respond to the need of the heathen. A famine in India, a flood in China, or a lesser catastrophe nearer at hand, wrings a dollar, or ten, from us.

Strange folk that we are, we go no further. We can read "A Christmas Carol" and be divinely touched by the story of Scrooge's softening, yet we fail to grasp the lesson that Dickens tried to teach. The fact that "Tiny Tim" is but a type, and that, if sins of omission are counted, we are to be reckoned as but other Scrooges, escapes our observation.

The point of all this? I can answer best, perhaps, by telling of such things as I have observed. I know of a slimy salaried minister who devotes ten per cent of his income to helping needy families he himself searches out. I know of an old couple who would have long since been separated, the one in the parlor, the other in a home for the aged indigent, were it not for the charity of a girl who, from the money she herself earns, pays their rent.

I know of a crippled child who has a fairy godmother, whom you would describe as just a colorless little stenographer lady. I know of an old blind woman who prays daily—hourly, I might almost say—for a "vera bona lass" who comes to her, chats with her, and occasionally brings her the luxury she craves, tea, in quarter pound packages. It may be that you do not know of such cases. Then you have never looked. It may be that you think it would be nice of you, but dull. You are wrong. Scrooge gave not because he believed it his duty, but because of a strange, sweet warmth that thawed his heart, and because of a strange, new pleasure with which he thrilled in the act of giving. Far-fetched it may sound to you. But try it.

Ruth Cameron

## MRS. STEVENS RECOVERS

After Years of Suffering. Tells How Her Health Was Regained.

Waurika, Okla.—"I had female troubles for seven years, was all run down, and so nervous I could not do anything. The doctors treated me for different things but did me no good. I got so bad that I could not sleep day or night. While in this condition I read of Lydia E. Pinkham's Vegetable Compound, and began its use and wrote to you for special advice. In a short time I had regained my health and am now strong and well."

Mrs. SARAH STEVENS, R.F.D., No. 2, Comanche, Okla.

## Another Woman Recovers.

Newton, N.H.—"For five years I suffered from female weakness and dragging down pains. Lydia E. Pinkham's Vegetable Compound has restored my health and the pains are gone."

Mrs. F. A. PEASLEE, R.F.D., Box 88, because your case is a difficult one, doctors having done you no good, do continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ill, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## The Call of the Wild

"Any one who has once experienced a sojourn in the forests of the 'Highlands of Ontario' appreciates the rest and pleasure that can be found there in comparison with the hustle and bustle of the city life and what this means to the nervous system. Within a few hours of the larger cities of Eastern Canada, there are most delightful and attractive regions can be reached with ease and comfort by the Grand Trunk Railway System and as the district is becoming more and more popular with the ever increasing multitude of tourists and anglers who are looking for new fields to visit, the region is known as the 'Algonquin National Park' covers a territory of over 250,000 acres within the confines of which are located some 1,200 lakes offering the very best of fishing. The Grand Trunk recognizing the value of this wonderful playground and investing thousands of dollars in the erection of hotels and log cabin camps for the housing of the many who go up into this charming territory and who do not care for roughing it in camp life. The Highland Inn at Algonquin Park station has accommodations for about 200 people and the first of a series of camps that are being erected in different parts of the park will be in operation this year. It is named 'Nominigam Camp' and is situated on Smoke Lake seven miles from the railway and in the centre of the finest fishing grounds in Canada. Mr. H. R. Charlton one of the general officers of the Grand Trunk, has just returned from the Park and speaks enthusiastically of the prospects for a record business at this resort during 1913. The fishing season which has just opened is attracting the devotees of rod and line and the hotel is fighting up with anglers from all parts. Speckled trout and salmon trout are the principal attraction this month.

## IS YOUR CHEST "WHEEZY?"

Tightness and wheezing means your trouble is deep-seated. To delay is dangerous. Inflammation must be drawn out at once. Rub the throat and chest with Nerviline, and put on a Nerviline Porous Plaster. Relief comes in an hour. The counter-irritant effect of the plaster relieves the tightness and strain, draws out the soreness, eases the pain. The penetrating qualities of Nerviline enable it to soak to the very core of the trouble, and you experience a feeling of warmth and relief that proves the danger is past. For weak chest, sore throat and tendency to colds, the Nerviline Treatment beats all others, try it.

Ball Brings Out Rhyme

Fore Word
This is a lay which is somewhat fanatical. It's hard to talk ball and keep to the practical. The yarn that it tells is one of great glory. With Kane's kids raising Cain at the end of the story. From the parade so well run by Walsh, christian name Harris. The doings were great and tickled this parish. Second Word. With steady mien and eager gait. The Mayor walked up onto the plate. His brow was smooth, his eyes beneath. Flashed like a falchion from their sheath, To one Jack Spence he did address. His throwing arm, with much impress. And as for Jack, too small the lot. He thought to hold the mighty swat. That he had concealed about somewhere. Instead of which he fanned the air; And with the blow that didn't come. Near sent one Fitz to his last home. The Details. Innings one, the score was five.

Charity Cup Game Worthy of Support

Fine Brand of Football is Promised at Tutela Park on Saturday.

The Sons of England and Cockshutt United football teams are practicing hard and faithfully for their game in the John Hill Cup series which takes place at Tutela Park on Saturday evening next at 6 o'clock. The champion Cockshutt team are bound that the Englishmen will not lower their colors and are making one grand effort to get into the very best possible condition. The Flow Factory eleven realize that in competing with the S.O.E. team they are not going to have any "pink tea" and know the good qualities of their opponents are taking every advantage of the time allotted for practice, and are indulging in real hard work-outs. It will be no fault of theirs if the team is not in condition. On the other hand the sons of England lads are working like beavers to get into shape for they know that they are up against a foe worthy of their steel and will have to be in condition to win. At this early stage of the game condition is going to play a very great part in the game and realizing this the S.O.E. team are making hay while the sun shines. The game for the John Hill Charity Cup will be a battle royal and a game worth a journey to Tutela Park to witness that is defeated is down and out for the cup. There is one thing to say in reference to the two teams, i.e., they are all good sports playing fast ball for the love of, and the advancement of the game and no matter who walks off the field the winner, their opponents will be the first to cheer them and say "Good boy, you won; the victory is yours." That's the kind of feeling that prevails among the football teams. The football boys say "To the victor belongs the spoils, and let the best team win." They have all given their word that they will keep the game clean and free from unnecessary roughness, and one and all join hands and say "We are out for the benefit of football and to boost the game."

SAINTS BEAT THE COCKNEYS

They Pulled off the Same Old Trick at Tecumseh Park.

a Score of 16 to 6. LONDON, Ont., May 8.—London was trampled over and sat upon yesterday afternoon in the initial battle of the Canadian League season just after a flock of some 3000 elated fans had followed the inaugural procession to the place of the obsequies. St. Thomas' crew of speedmongers turned the trick at half the fifth round and at the conclusion of the ninth session the tally was registered at 16 to 6. The manner in which the Saints treated the Tecumsehs right in their own back yard was shameful and the fans had difficulty in believing that the locals are a real team. However, the dopsters have passed out the word for some time that Deneau has a real staff, and the more lenient followers are trying to call it an "off-day." A parade of hundred motor cars led by the Seventh Fusiliers Band and including many of London's most representative citizens, proceeded to the grounds by a circuitous route through the business section. Rev. T. B. Clark, rector of All Saints Anglican church, hurled the first ball with Mayor C. M. R. Graham on the receiving end of the battery, while Rev. Father F. X. Laurendeau, pastor of St. Martin's Roman Catholic church, was the batsman. All three, and President Samuel

Stevly, of the London Club, addressed the fans and predicted a big season for baseball in London. In the initial championship battle neither Chaput or Fitzpatrick had anything that the Saints could not slug at will, while the fielders worked like a lot of blind men and batted worse. Score.

POOR OLD KNOTTY HAMILTON LOST

Guelph Hammered Out a Victory to Joy of Fans.

GUELPH, Ont., May 8.—The Canadian League season opened in Guelph this afternoon with a win for the home team over Hamilton by a score of 13 to 9. There were no opening ceremonies of any consequence, no parade taking place and no fireworks. Ex-Mayor Thorp addressed a few remarks to the players of both teams and tossed the first ball. The game was replete with heavy hitting and errors on the part of both teams. The Maple Leafs forged ahead at the outset by scoring four runs in the second inning, but the visitors came back with eight in their half of the third, the result of several costly errors and a couple of timely hits. Schaeffer was taken out by Manager Cook after one man had been retired and "Lefty Dorbeck" was substituted. This ended the scoring, for he had the Hams tied up in knots the rest of the game. Ted in the box for Lee's team did very well until the eighth, when the Leafs fell on him for a bunch of hits, and coupled with a costly error seven runs came over the plate. This clinched the game for the home team. The attendance was about 2,000. The score:—

BERLIN WON THEIR OPENER

Bradshaw Allowed Only Two Hits—Tracy Was Good.

BERLIN, May 8.—Two thousand people saw Berlin and Peterboro open the Canadian League season here yesterday afternoon in a closely fought game that ended 2 to 1 with the locals on top. It was a fine exhibition of ball. For eight innings "Kid" Bradshaw, who was on the local firing line, held the White Caps hitless. In this chapter they grabbed their only two safeties, both doubles by McNeill and Byrne which counted their lone tally. Burns, Bullock and Getzie hit safely in the first frame for one run, and the second came in the eighth on hits by Bradshaw and Getzie. Tracey for the Petes pitched good ball. Both teams performed well in the field. A big parade opened the proceedings, and at the park Mayor Euler pitched the first ball. President Kalbfleisch was at the bat, Mayor Bradburn of Peterboro caught and Mavor Fischer of Waterloo umpired. Score:—

And Amby Kane he did surmise, That if on top of troubled ankle, Defeat should come 'twould surely rankle. With Bradford fans, and so instant he called on Collins—not a ranter. One more run came in the second, And 6 to 0 was what it reckoned. Then Collins, Ray, with whitewash doped, Commenced to raise up every hope. And so it ran until the fourth, When Brantford boys they blossomed forth. And when the tally it was writ, Red Sox had toted three by hit. And once again the eighth by gum, Four runs made Ottawa feel gum. Eighth innings with a tied up score, Draw from the crowd a mighty roar. On tip-toe edge they all did stand, Giving each to each the gladsome hand. And then, oh, tense the pent up feeling "The Ots" went out, one, two, three—ling. Brundage was poised on second sack, When Collins with a mighty whack, Sent out one with the proper gait, And Brundage—well—he made the plate. In other words, Ray won his game, And entered into joyous fame. L'Envo. 'Twas shoulder high for Ray, you bet. At last accounts, they're going yet. Double L'Envo. The gent who penned this fearsome rhyme, Left this a. m. for distant clime.

TO MOVE OFF A COLD. Cough mixtures "dope" a cold—but don't cure. Above all else, keep the bowels regular and stimulate the eliminating organs. More valuable than any cough syrup are Dr. Hamilton's Pills. They clear the system of every trace of cold—the dull headache, aching limbs, and cough disappears. Take the pills before retiring, they work while you sleep, and by morning your cold is broken and passes quickly away. All dealers sell Dr. Hamilton's Pills in 25 cent boxes.

Manager Ambrose Kane cracked a most beatific smile when the score was tied. He knew it was "Good-Night," and the Courier camera man caught him saying it.

HARTFORD

(From Our Own Correspondent) Gardening and planting and cleaning house keeps the women folks pretty busy these days. The fair weather has given the farmers a good chance to have their seeding well under way. Frank Hayes is having his house painted. The work is being done by John M. Curley. Herbert Bertran had one of his grey horses fall on the cement floor in the stable and badly bruise its hip. Arbor Day at the school was spent in the forenoon by the children cleaning up the yard, planting flowers, etc. At noon quite a number of the ladies and men came in and brought lunch baskets, and every one had a good time for half an hour. After dinner the scholars gave a well-varied program, which was much enjoyed by the visitors. Mr. Lutes is very busy these days with the entrance class. The Sunday School was organized Sunday morning. The officers are: Superintendent, Morgan VanLoon; assistant, Isaac Wilcox, treasurer, Herbert Renner; secretaries, M. Moore, Ross VanLoon, Emily VanLoon and Elaine Mulligan; organist, Clara Wilcox; assistant organist, Irene VanLoon. The Women's Mission Circle will meet Thursday in the hall.

ST. LUKE'S BOYS HAD GOOD TIME

They Returned From Toronto Cadet Tournament—Stiff Competition.

St. Luke's Boy Knights returned last evening from Toronto. They had a splendid time while away and showed up well at the tournament being placed at the head of the procession in the march past on Tuesday afternoon and evening. In the senior shooting competition out of the 15 teams competing St. Luke's came fourth, three of the boys making possible. The B.C.I. Cadets came first in the junior shooting competition, and second in signalling. Harbord carried off five first prizes. There were a large number of teams competing, in some events there being as many as fifty entries. Tuesday evening was certainly the best of the three performances, and the work done by the various cadet corps was very fine being a revelation to a great number of people who really did not understand the cadet movement. Many favorable comments were passed on the work of the Boy Knights. Mr. J. Hill took the boys to the theatre on Wednesday afternoon and a number of other places of interest were also visited by them.

Base Ball

The junior baseball league will start May 19, with President Nelson, Amby Kane and others giving the boys a send off. A meeting is being held to-night to draw up a schedule. The Sporting Editor of the Courier wishes to thank the officers of the Sons of England football team for one of their membership cards, and wish the team a successful season.
