THE ACADIAN.

WOLFVILLE, N.S., SEPT. 27, 1907.

Sanctum Suggestions.

From the accounts in the Kentville papers it appears that the Aldershot camp at Kentville is not regarded as an unmitigated blessing by the citizens of that town. We quote: "The soldiers made our streets a place where respectable people would not care to be found. Stores were rifled, thieves went on night after night," etc. While we have had for some time a feeling that the whole affair was a gross waste of time and money we had no idea that the condition of affairs was as bad as is stated. Certainly it is time for a halt to be called.

Sufficient progress has now been made in the placing of the curbing to enable citizens to get some idea of the improvement to be effected. There has, of course, been criticism, and perhaps the work has not been in all cases done to the best advantage. However, we believe the movement is in the right direction and the work now being done in the direction of better streets and sidewalks in the town. Wolfville needs these more than anything else at present. We have an up-to-date town in many respects and the time has come for an advance movement in this matter.

A matter which must shortly engage the attention of our people is the provision of more school accommodation in the town. For some time past the departments have been unduly crowded, and as the attendance is each year on the increase the present state of affairs cannot much longer be expected to continue. It will be well, then, for citizens to carefully think over the matter. Whatever action is decided upon the aim should be to make our schools the best possible. As an educational centre our schools should be equal in every respect to the best in the province, and we doubt if our people will be satisfied with anything less. A saving effected at the sacrifice of efficiency will be mistaken economy.

That large number of Nova Scotians who have obtained their fuel from Springhill Mines are fast now trying to solve the question as to where the supply for next winter is to come from. They are, of course, hoping against hope that the strike will soon be ended, but the ray of light in that direction is not either large or bright. To be sure there are a good many coal mines in the province, but as a rule during these late years their output has been booked long in advance. Unless the Springhill strike is settled in the very near future the already stiff price for domestic coal may be advanced. The situation is one that demands immediate attention at the hands of the government. Indeed, not only is the outlook not at all encouraging to private consumers, but to industrial concerns as well.

Rev. Dr. Barclay, of Montreal, who has returned from a visit to Scotland, believes Canada will profit much from the emigration of young men from the old land to the Canadian west. We quote from the *Gazette*:—"The pastor of St. Paul's said yesterday that many hundred sturdy young farmers were leaving for Canada, most of whom he thought would ultimately bring up in the western provinces. They are farmers' sons and farm hands, and Dr. Barclay is of opinion that the former class have considerable sums of money with them and will most likely begin farming operations soon after selecting homes for themselves in this country."

Although because of the late season wheat is not moving as rapidly from the west toward the seaboard as at this time last year, there is considerable traffic into and through Winnipeg. A western paper says:—"The average number of cars for last week was 35 per day, but of these at least twenty per day were loaded with last year's crop. But on one day last week 55 cars of wheat passed inspection at Winnipeg, which showed that this season's grain is commencing to pass freely. While a great deal of this grain is going to Liverpool a good deal of it is going to the Winnipeg milling companies, and it is stated that the majority of it is good wheat, showing no sign of frost."

Winnipeg has an epidemic of typhoid. Although it would appear that there is less typhoid in the city this year than in former years, an unusual condition exists in the General Hospital, in that at present there are twelve members of the staff down with the dread disease, and two dead. Three other doctors are seized with the disease, as well as nine nurses, one of whom is not expected to live. So far no reason has been assigned for the cause of this outbreak, in the institution, and among a class of people where it should be least expected.

The contention that if the export of pulpwood from Canada were prohibited it would result in the investment of American capital in pulp and paper mills in Canada is borne out by the report of the meeting held in New York last week of the American Newspaper Publishers' Association. The association went on record as in favor of immediate repeal of the tariff on printing paper and wood pulp imported from Canada.

The returns of Oriental immigration to Canada for the past seven years show that since 1901 the total number of Chinese immigrants has been 646, Japanese 868, and Hindustani 2,906.

Lumber Shipments.

We have received a marked copy of the Canadian Lumberman, which contained an article entitled "The evils of consignment." This article depreciates the action of the lumbermen of the maritime provinces in rashly consigning lumber to British or Eastern States ports, and states that this practice bids fair to seriously impair the well being of the lumber industry in this province and the adjoining province of New Brunswick. The Lumberman says that if the home market were not in healthy condition there might be some excuse for it, but when it is considered that there is not the slightest reason for fearing a material decline in the demand for Eastern spruce, pine and hemlock, it is rather difficult to realize why sane men would persist in deliberately sacrificing their own best interest and jeopardizing what would otherwise be a healthy industry.

The Lumberman proceeds:—"At the present time the British markets are flooded with spruce from New Brunswick and Nova Scotia, and prices which a short time ago were satisfactory, are to-day unreasonably low. The combined holdings of Liverpool and Manchester at the beginning of July were nearly double what they were at the same date last year, Manchester having 19,200 standards as compared with 7,800 twelve months before, while 15,000 standards are said to be still due to arrive. The actual decline in the prices of spruce deals is from 10 to 15 shillings a standard. One exporter of this material states that, whereas last winter he was getting £8 7s. for spruce he is now able to obtain only from £7 5s. to £7 15s. In spite of this extremely unsatisfactory condition, spruce deals continue to be shipped from all the regular ports in New Brunswick and Nova Scotia, on a scale which the *Timber Trade Journal* declares is much greater than the demands of the country warrant. There is a lack of confidence that even the present unsatisfactory position will be maintained at this present standard.

In the face of such a statement the only rational course of procedure should be an immediate cessation of exports on the part of the Canadian shippers. If such were the case, the English brokers might reasonably be expected to refrain from pressing on unwilling customers a commodity which the latter may very well presume will drop to even lower figures. In fact, if spruce continues much longer to flood the English market as it has recently been doing, buyers on the other side may be forgiven if they assume that a little later on they will be able to buy landed stock more cheaply than they paid c. i. f. rates. In London landing charges alone amount to £5 to £6, and with a few months' rent and interest, the total charges soon reach the £10 mark, and naturally it suits buyers to simply pick up stock as they require it, and let the brokers or shippers pay all the charges which they themselves would otherwise have to incur."

September Weddings.

PORTER-REDDEN.
On Sabbath evening, Sept. 22nd, a quiet but very pretty wedding took place at the home of Mrs. (Rev.) H. N. Parry, Main street, Wolfville, when her daughter, Miss Edna Redden, was married to Mr. Grant B. Porter. Owing to the absence of the pastor, Rev. L. D. Morse, who is spending his vacation in the United States, Rev. J. D. Spidel, of Kentville, performed the ceremony. Only the immediate relatives and friends were present.

The rooms were tastefully decorated for the occasion with potted plants and cut flowers. The bride was prettily gowned in cream silk, with lace trimmings, and carried a large bouquet of sweet-peas and maiden-hair fern. She was attended by her half-sister, Miss Pauline Perry, who was dressed in white and wore roses. The groom was unattended.

Both bride and groom have a large number of friends in Wolfville and vicinity who wish them a great deal of happiness throughout their wedded life.

The bride is the only child of Captain Geo. Redden, of Chester, N. S. The groom is a popular merchant of Wolfville, being the senior member of the firm of Porter Bros., grocers.

WEBSTER-COOKE.
A pretty wedding took place at the residence of W. G. Giles, 64 Crescent road, Rossdale, at high noon yesterday, when John T. Webster, of Cleveland, cousin of Mrs. Giles, was married to Miss Estelle A. Cooke, B. A., of Truro. The ceremony was conducted by the Rev. W. H. Withrow, D. D. The bride wore a wedding gown of mousseline de soie with old Irish embroidery and embroidered bridal veil, her going away gown being of navy blue cloth and unique Tyrolean hat. The floral decorations were artistic, the picturesque idea of vine trellising being successfully carried out against quaint leaded panes of the drawing-room windows, while the cornice above the large circular bay was banked with asparagus fern. Mr. and Mrs. Webster left for old Mexico and Cuba, and will in future reside in Cleveland-Toronto Globe.

[The bride was formerly a resident of Wolfville, and was graduated at Acadia in the class of '94. Her many Wolfville friends will join THE ACADIAN in best wishes.]

Wolfville Public School Library.

During the past week the library has received six handsome volumes, contributed by three persons whose kind interest is much appreciated.

THE GIFTS.
First—Four volumes from Mrs. W. Chase, viz.:—The Butterfly Book, with forty-eight colored illustrations, by J. W. Holland; The Insect Book, profusely illustrated, by Leland O. Howard; Bird Neighbors and Birds that Hunt and are Hunted, with ninety-six beautiful colored illustrations, by Nellie Baughan. The illustrations in these books show birds, butterflies and insects in their natural colors and will be a valuable aid to teachers and pupils in Nature work.
Second—One volume of "Grand Pre and Evangeline," from the author, J. F. Herbin, B. A.
Third—Story of South Africa and the Boer War, from Henry A. Welton, Port Williams.

The donors of the foregoing gifts are cordially thanked for their valuable addition to our growing library. It is hoped that others will follow their good example.

An Extraordinary Boast.

Mr. George Ross, Chief Post Office Inspector, gave out an interview recently from Ottawa in which he pointed with pride to the success of the new Canadian Postal Convention with the States. He stated that in Edmonton he noticed three packages of United States publications which had paid 5¢ in postage, whereas, under the old regulations they would have paid only 93 cents, a gain of \$4.15 on these three alone. This is an extraordinary boast for an official of the Canadian Post Office Department to make. The Canadian subscribers paid this money and the United States Post Office received it. The Canadian Post Office does not receive one cent of it. One not knowing the facts would infer that Mr. Ross was a United States Post Office employe.—Printer and Publisher.

Acadia Choral Club.

Woodman or the Principal.

"Beaver Flour" is a blend of the best in Manitoba Spring Wheat and Ontario Fall Wheat.

BEAVER FLOUR has ALL the strength of the wheat kernel—takes up water readily—and stands up in the oven.

Beaver Flour

is milled of two kinds of wheat—so fine that they require no bleaching or electricity to purify. It is a BLEND of Manitoba Spring Wheat and Ontario Fall Wheat. Just the right proportions of each are taken to make the most wholesome and most nutritious Bread and Biscuits—and the whitest, lightest, most delicious Cake and Pastry. One flour for both, because it is two flours in one.

If you are not getting AS GOOD Bread as you should—if you are not getting AS MUCH Bread, etc. to the barrel—you know the remedy, BEAVER FLOUR.

Your grocer has it. Dealers, write for prices on all kinds of Flours, Cakes, Grain and Cereals. T. H. Taylor Co., Limited, Chatham.

It is expected that on Sunday next the pulpit of St. Andrew's church will be filled by Principal Magill, of the Halifax Presbyterian College. Dr. Magill is said to be an unusually able and eloquent preacher and a large congregation will no doubt assemble to hear him. Rev. Mr. Wright will preach on that day at New Glasgow.

Mr. Moritz Emery, assisted by his pupil, Miss Joy Lawrence, gave a most successful song recital last Wednesday evening in Victoria Hall, Berwick. The audience was large and very enthusiastic; both performers were obliged to respond with encores. Other recitals are already being booked, and Mr. Emery's season promises to be a busy one.

Rev. Rural Dean Dixon presided at a meeting of churchworkers of the Deacons of Avon, at Windsor, on Wednesday. The bishop was unavoidably absent having to attend to some urgent business in connection with the Cathedral. Messrs Bullock and Prat attended from Wolfville. Rev. President Bouldin announced an attendance at Kings College of about fifty students. Other matters of interest were discussed.

Another very successful tennis tea was given on Saturday afternoon on the Starr tennis grounds. The hostesses were Mrs. (Dr.) Lawrence, Mrs. Earl Burgess and Miss. Eva Andrews. The season has been an auspicious one and the next tea will bring to a favorable termination the series of entertainments given by the tea members of the club. The players are much indebted to those who have so kindly entertained them.

The marriage of Mr. George J. Della Torre, of Windsor, to Mrs. Sadie B. Connolly, of the same town, was solemnized at St. John's Rectory yesterday morning, (26th), by Rev. Rural Dean Dixon. The bride, who was charmingly gowned in a blue traveling suit, was the recipient of many handsome presents, including a cheque from the groom. Mr. and Mrs. Della Torre left on the morning Blue-bus for Portland, Boston and other points in New England.

The reception given on Friday evening last by Principal DeWolfe and teachers of Acadia Seminary was a very pleasant and successful affair. Many friends of the institution availed themselves of the privilege of greeting old teachers and making the acquaintance of new ones. Among the latter are Miss Eliza Wells, the new vice-principal, and Prof. Ringwald, director of music. These with the other new teachers are a decided addition to the already strong faculty of the Seminary.

A farewell reception was tendered to Mrs. J. W. Manning, at St. John's, by the members of the Woman's Missionary union, on her removal to Wolfville, in appreciation of her service for so many years as president of the Maritime Baptist Missionary Union. Mrs. David Hutchison, on behalf of the society, presented her with an address and a generous purse of gold. Rev. Mr. Manning and Mrs. Manning will occupy the residence of Mr. Charles Hamilton, on Main street. Their daughter, Miss Manning, is in the second year at Acadia.

W. C. T. U. Convention.

The annual Convention of the Nova Scotia Woman's Christian Temperance Union will be held in New Glasgow, Oct. 1st to 3rd (inclusive). A full representation of the W. C. T. U. of the Province is expected on that occasion. The Executive Committee has secured the services of Mrs. J. M. Barney, of Providence, R. I., as Convention speaker. Mrs. Barney is Superintendent of Penal and Reformatory work in connection with the World's W. C. T. U., and is well known in the United States as 'The Prisoner's Friend.' She is to lecture on Thursday evening, Oct. 3rd, on the subject: 'Taking in the Situation,' and will give some of her interesting Bible readings during the Convention. The programme will also have various other interesting features, such as, Echoes from the last World's Convention, held in Boston, and also accounts of the late Dominion Convention held in Winnipeg.

A Chance for Farmers.

There will be held at Windsor, at the time of the Exhibition in that town, on Thursday, October 10th, a sale of pure bred rams secured by the Department of Agriculture of the Government of Nova Scotia, on condition that they be permanently retained within the Province for breeding purposes. The principal breeds represented will be Shropshires, Oxford, Southdowns, Leicesters, and Cotswold. Among them will be some of the finest sheep in Canada. The majority will be high class field rams that have not been pampered but are in good breeding condition. This is the first sale of this sort attempted at this centre, and it is difficult to know how many rams should be sold. As a venture, however, the number to be sold will be from 25 to 30. Railways will grant special transportation facilities in connection with the above sale. Agricultural societies and individuals in need of stock are advised to keep this sale in mind and, perhaps, make arrangements so that one buyer can secure the number required by the community he represents. In this way expense can be greatly minimized.

Dr. J. L. Peppard, of Great Village, Colchester county, and Samuel Lindsay, of Londonderry, who was assisting him in the harvest field, met each other on Friday last. The doctor, in preparing a cooling drink, took by mistake a bottle of poison instead of one containing fruit syrup.

To Keep the Skin in Health. It is quite possible that, while you know of Dr. Chase's Ointment as a cure for eczema, psoriasis and the most severe forms of itching skin disease, you may have overlooked its value as a beautifier of the skin.

There are minor forms of skin trouble such as rough skin, red skin, chapping, pimples, blackheads, blotches, irritation, or poisoning from the clothing, etc., which disfigure and form a starting point for serious disease. A few applications of Dr. Chase's Ointment at such times not only remove these blemishes, but also restore the health and beauty of the skin, and positively prevent further development.

Dr. Chase's Ointment is delightfully pure and creamy, is pleasant to use, and is rapidly absorbed. It acts as a food for the skin, making it soft, smooth and velvety. By its soothing, antiseptic and healing properties it always inflammation, relieves itching, and heals sores, wounds and ulcers; 60 cents a box, at all dealers; or Edmonson, Bates & Co., Toronto.

Years ago, when the G. A. Dear Sir—The country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disgraced for a couple of weeks. I was obliged to try your ointment to stave the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. HINARD'S LINTMENT is also a good article to keep off the mosquitoes.

Tell us not in mournful numbers that this town is full of gloom, for the men are cranks that slumber in these banking days of boom. Life is real, life is earnest, and the grave is not its goal; every dollar that flows through, helps to make the old town real. But enjoyment and not sorrow is our destined end or way; if you have no money, borrow—buy a corner lot each day! Live it up, then, all around us we can win immortal fame. Let us leave the chains behind us and we'll get the best of the game. In this world's bread battle, in the binnacle of life, let us make the dry bones rattle—buy a corner for your wife! Let us then be up and doing, with a heart for any task, still achieving, still pioneering, booming early, booming late.—E.

Halley's Comet.

It is now less than three years to the time when one of the most wonderful objects ever seen in the heavens will reappear after an absence so long that only a very few aged people remember having seen it at all. It is known as Halley's comet. It was last seen in 1835; it will be next seen in 1910. Unlike a total eclipse of the sun, lasting never more than eight or nine minutes, this spectacle will be on exhibition night after night during weeks, if not months, and again unlike a solar eclipse, it can be seen not only within certain narrow limits, but from pole to pole, the earth round.

At first it will show very faint and hazy, almost like an obscure star; then it will become brighter and a tail will develop. Finally it will stretch across the heavens, as long as the "Big Dipper," or longer, and will possess a brightness which will make it visible even in daylight. In 1835 this comet nearly drove Europe insane with fear, but in 1910 it will be a welcome visitor from far-distant space, whose light will cheer the heart of every beholder, and when it departs it will be mourned as a lost friend.

Oh, For a Clear Complexion! A clear complexion is the outward evidence of inward cleanliness. In bad health the face becomes a sign-board telling of disease within. If yellow, bile is not properly secreted; if pallid, the kidneys are faulty; if skin is murky and dark circles beneath the eyes look for constipation. Whatever the cause, no remedy compares with Dr. Hamlin's Pills which are mild, safe, purifying and vitalizing in their action. They give a marvelous rosy tint to the cheeks, brighten the eyes and establish health that defies age and disease. Sold everywhere in 25c boxes.

And She Was All Right. The other day, said a man passenger in a street car, I saw a woman in a street car open a satchel and take out a purse, close the satchel and open the purse, take out a dime and close the purse, open the satchel and put in the purse. Then she gave me the dime to the conductor and took a nickel in exchange. Then she opened the satchel and took out the purse, closed the satchel and opened the purse, put in the nickel and closed the purse, opened the satchel and put in the purse, closed the satchel and looked both ends. Then she felt to see if her back hair was all right, and it was all right and she was all right. That was a woman.—Ladies Home Journal.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the stomach, etc. A weak stomach, causing dyspepsia, a weak heart with palpitation or intermittent pulse, always means weak stomach nerves or weak heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop of Racine, Wis., will mail samples free. Write for them. A test will tell. Your health is certainly worth this simple trial. Sold by A. V. Rand.

FROM GIRLHOOD TO MARRIAGE

Mothers Should Watch the Development of Their Daughters—Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter.

Too often this is never imparted or is withheld until serious illness has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls over-indulgence and modesty often puzzle their mothers and baffles physicians, as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pain in the back or lower limbs, eyes dim, desire for solitude, when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change, and start this trying period in a young girl's life without pain or irritability.

Hundreds of letters from young girls and from mothers, expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them, have been received by the Lydia E. Pinkham Medicine Co., at Lynn, Mass.

Miss Mills has written the two following letters to Mrs. Pinkham, which will be read with interest:

Dear Mrs. Pinkham—(First letter.) I am but fifteen years of age, am depressed, have dizzy spells, chills, headache and backache, and as I have heard that you can give helpful advice in my condition, I Lydia E. Pinkham's Vegetable Compound Makes Sick Women Well.

Dear Mrs. Pinkham—(Second letter.) I am writing you—Myrtle Mills, Oquawka, Ill. I wish to write the following statement that I write to you to tell you what your valuable medicine has done for me. When I wrote you in regard to my condition I had consulted several doctors, but they failed to understand my case. I did not receive any benefit from any treatment. I had read your advice and took Lydia E. Pinkham's Vegetable Compound and took it faithfully and well, and all the distressing symptoms which I had at that time have disappeared.—Myrtle Mills, Oquawka, Ill.

Miss Matilda Borman writes Mrs. Pinkham as follows: Dear Mrs. Pinkham—(Third letter.) I have been taking Lydia E. Pinkham's Vegetable Compound for several weeks and I feel much better. I had such dreadful headaches. But since taking the Compound my headaches have entirely disappeared. I feel regular and I am getting stronger and well. I am telling all my girl friends what Lydia E. Pinkham's Vegetable Compound has done for me.—Matilda Borman, Farmington, Iowa.

If you know of any young girl who is sick and needs motherly advice, ask her to address Mrs. Pinkham at Lynn, Mass., and tell her every detail of her symptoms, and to keep nothing back. She will receive advice absolutely free, and a source of help has no rival in the experience of woman's life, and it will, if followed, put her on the right road to a strong, healthy and happy womanhood.

Obedience is Better than Sacrifice.

Some years ago there was a great revival in Ohio. Penitents were at the altar seeking pardon and believers seeking a deeper spiritual life. One of the leading members of the church, a wealthy farmer, was earnestly pleading for a pure heart. All at once he arose, walked down the aisle, and took his seat by the door. Afterward he slipped away without a word.

The meetings grew in power and interest, but he was absent. His friends began to wonder what was the matter. He had been in the habit of selling his corn to the distillers for making whiskey because they paid the highest price. He had several thousand bushels he intended to sell in a few days.

The third night he was back at the meeting. He looked radiant, and every one could see that something unusual had happened. He arose and said: "During the past two days and nights I have had a great controversy with the Almighty. When I bowed at this altar a few nights ago something seemed to say to me: 'If you get this blessing, what will you do with all your corn in your bins? You won't dare sell it to the distillers.' 'What will you do with the corn?'

"I answered, 'Lord, I will let every bushel of corn in these bins rot before I will sell one to the distillers.' 'Hardly had the words been uttered when I felt as if I was in Paradise. God flooded my whole being with light, joy and peace. And, brethren, I will never sell another grain of corn to the distillers as long as I live.' In less than a year corn became scarce, the price went up, and he sold all his corn for double the money he could have gotten from the distillers. —S. lected.

Just How Much? 'I would just do anything to get an education!' said Joe savagely, thumping the down sofa-pillow till a fine, fluffy dust flew from seams and joints. 'Just how much would you do, Joe?'

'Just practical Uncle Phil, interestedly. 'As much as Elihu Burritt!'

'How much did he do?' inquired Joe. 'Was he a boy without any chance?'

'No, indeed!' said Uncle Phil, who never sympathized with whining Joe's way of looking at things. 'As many chances as you have, or any other boy with brains and ten fingers. Had to work at a forge ten or twelve hours a day, but that didn't hinder him from working in his mind while his hands were busy. Used to do hard sums in arithmetic while he was blowing the bellows.'

'Whew!' said Joe, as if, he, too, saw a pair of bellows at hand. 'How old was he? Older than I am, wasn't he?'

'About sixteen, when his father died. By and by he began to study other things. Before he died he knew eighteen languages, and nearly twice that number of dialects. All this time he kept hard at work blacksmithing.'

'I don't have to work as hard as that,' said Joe, after a while, with a shamefaced look that rejoiced his uncle's heart.

'Joe was a farmer's son, and in busy times there was a good deal for a boy of his age to do. So far he had not been spared to go away to any preparatory school to fit for college. So he had faint heartedly and sulkily given up the thought of going there. Somehow, Uncle Phil's words had put things in a new light.—Christian Uplook.

Three Universal Talents. The late Robert Louis Stevenson had a happy way of applying religion to life and showing how it should work out in practice. Talking one day to the children at a school in Samoa about the parable of the Talents, he told them there were three they all possessed. Tongues, that they must use to be cheerful and make those happy who were round them. Faces, that they must keep as bright as a new shilling, so that they might shine like lamps in their homes. Hands, that they must keep employed in useful work cheerfully done, and if they spent their lives in doing these things for the good of others, they might be told at last: 'Inasmuch as ye did it unto one of the least of these, ye did it unto Me.'—Selected.

Attack of Diarrhoea Cured by One Dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. A faithful student of Genesis for many years insists that Adam's age was not 930 years, but 930 months, and counting thirteen moons to the year, he died at a little over 71 years. By the same calculation Methuselah (969) was only 74. Otherwise, says the sage, they would have required eighteen or twenty sets of teeth during their lifetime.

Chamberlain's Cough Remedy One of the Best on the Market. For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity until it is now one of the most safe medicines in use and has an enormous sale. It is indicated especially for acute throat and lung diseases, such as coughs, colds and croup, and can always be depended upon. It is pleasant and safe to take and is undoubtedly the best in the market for the purpose for which it is intended. Sold at Rand's Drug Store.
