WAR NEWS.

LONDON, May 4.—The Bloemfontein correspondent of the Standard, telegraphing May 2, says:

"I have just ridden hither from Thaba N'chu, along the line of our advance east of Bloemfontein. The distance is fully 40 miles, and yet almost every point of concentration is contested by the enemy."

"General Ruddle, with the Eighth Division, is posted on our right flank, with orders to guard a strong and boldly outlined frontal position in a country of a decidedly difficult nature. There the Boers have posted a number of guns of superior weight and range to our own. However, they show no disposition to do more than harass our advance."

"Further to the west General Ian Hamilton, with his division of mounted infantry, is pressing northward, encountering only desultory fire. The Highland Brigade from Del Krantz has been engaged, while General Tucker, commanding the Seventh Division, has moved eastward from Kamee siding and has returned south, followed by the Boers."

"Nevertheless, the cavalry, owing to the greater number of the enemy, have been prevented from completing the movement that was intended to encircle the Boers on the march to Brandfort, and the enemy are now prepared to offer stubborn opposition on an outcropped hill to the southeast of Kroonstad."

"General Tucker's attempt to advance on Brandfort showed the enemy to be in considerable strength. The colonial cavalry were engaged, and they lost 20 horses while under fire from pom-poms. The Boers, however, were driven from their position."

LONDON, May 4.—The Daily News has the following from Thaba N'chu, dated Wednesday:

"In yesterday's fighting movement, Capt. Towns and 99 Gordon Highlanders were surrounded by 200 Boers who demanded their surrender. Capt. Towns ordered his men to fix bayonets and charge. With a wild cheer the Gordons rushed at the enemy and swept them away with great slaughter. Capt. Towns was blinded in both eyes by the enemy's fire and throughout behaved most heroically."

MONTREAL, May 3.—The Star's special cable from London says: Captain J. E. Pelletier, of Montreal, and Major Pelletier, as reported, is the French-Canadian officer, involved in the case, now residing as a private in a house in West End, suffering from stroke and wounds. His left leg, neck and right leg are temporarily paralyzed yet, he talks bravely of going back to the front. His doctor hopes he may be able to leave and recruit his health at Brighton in a week or two. Captain Pelletier confirms the statement that five or six Canadians were killed or wounded at Paedburg by accidental bayoneting by the Gordons. As the Canadians fell back on the trenches the Gordons mistook them in the half light for Boers. Captain Pelletier adds the Gordons are not for a moment to be held blameworthy. Smith-Dorrien's command is highly praised by a captain in the Leinsters, also involved. He says he saw much of the Canadians and other colonials. The soldierly qualities of the Canadians excited universal admiration."

LONDON, May 5, 4.05 a. m.—The mounted infantry, with Lord Roberts, among whom are the Canadians, have picked their horses on the north bank of the Var river, 18 miles north of Brandfort. The head of Lord Roberts' column has thus advanced 32 miles from Kamee Siding in two days, or 62 miles north of Bloemfontein. Little powder was spent. The British work was hard marching, the Boers retired out of reach of the British shells. The correspondents supplement Lord Roberts' plain statements with a few details. As General Henton with the First Mounted Infantry brigade drew near Brandfort, he saw a Khaki-clad body of troops ahead of him. He was surprised but thought they must be the British. Soon, however, they opened fire upon the British who replied heavily. They were the Irish-American brigade from Lorenz Marquez, and it is reported that the Irish left severely."

The Boer flag was flying over Brandfort as the British entered the town. Several British wounded were found in the hospital. The Boer postmaster gave up the keys of the public buildings to Captain Ross. Lord Kitchener arrived at Brandfort at noon and Lord Roberts at dusk. General French's cavalry are sweeping the country northward. The expectation is that the infantry advance will be continued towards Kroonstad immediately. Although no prisoners were taken and although no hot pursuit was attempted, the news greatly cheers London. Nevertheless, it has not been received with the fine rapture that attended the first success of Lord Roberts."

General Hunter's crossing the Vaal at Winderton brings the relief of Mafeking, 196 miles beyond, almost within a calculable interval. It is now regarded as quite possible that Mafeking may be secured ere the Queen's birthday."

The debate in parliament on the Spion Kop despatches proved a disappointment to the supporters of the government. The Ministerial papers confess to a certain amount of inconsistency and weakness in the statements of the spokesmen of the government. On the other hand, the Standard points out, the opposition professes to be well satisfied with the despatches as they believe it has injured the government and has rendered Lord Lansdowne's continuance at the war office difficult."

Wagoners are to be garrisoned with a strong force from General Chemside's division commanded by Lord Castle-town. Mr. Henry W. Lucy, writing to the Daily News, says that he has ascertained that Sir Alfred Milner's letter against ladies visiting South Africa, was written as a result of an intimation from Queen Victoria."

Colonial, Capetown, May 4.—It is expected that a batch of Boer prisoners will be sent here. The Imperial government has approached the Ceylon authorities on the subject and has asked them to suggest a good site for a camp. London, May 4, 4.15 a. m.—General Broadwood's cavalry brigade has reached Jacobsfontein, 28 miles north of Thaba N'chu. General Ian Hamilton is bivouaching at Jacobsfontein, 15 miles north of Thaba N'chu. General Tucker's division is moving eastward from Kamee Siding. The divisions of General French and General Ruddle are in and near Thaba N'chu. Thus Lord Roberts has 60,000 men operating clear of the railway along a front of 40 miles. He has been advancing slowly with some success, but nothing decisive. Yet at all points of concentration the Boers appear in force sufficient to compel the British to proceed with caution."

Observers at headquarters in Bloemfontein seem to think that the Boers are preparing to evacuate Brandfort and Ladybrand. The Boers, still holding Thaba N'chu district are estimated at 4,000. They have among their guns 40 pom-poms. The correspondent, writing from Bloemfontein Wednesday, said that the British hoped to cut off the whole communication between the Boers and the sea."

The correspondents at Kimberley have been forbidden to communicate for several days, the deduction being that a forward message is under way there. The Boers are now restless. Two hundred men crossed Sunday's river Wednesday, and tried to reach the British outposts. New York, April 20.—P. Louise Wassels, special commissioner from the South African republic today received a telegram from the Hague, saying that the peace envoys, Fisher, Wessels and Wolmerston, will sail for the United States May 3. They will be the guests of the National Boer Relief Association in this city. The envoys will make a tour of the country under the auspices of the association."

LONDON, May 2.—Lord Roberts has telegraphed to the war office from Bloemfontein, under today's date, that news has been received from Colonel Baden-Powell, the British commander at Mafeking, saying all was well there. The despatch from Colonel Baden-Powell was dated April 20. WASHINGTON, Capetown, May 4.—A British six-inch wire gun opened unexpectedly on the Boer laager yesterday at a distance of seven and a half miles, throwing 100 pound shells with wonderful accuracy and causing a hasty retreat of the burghers. The bombardment continued today at all points by Howitzers and field guns, supported by two companies of the Munster Regiment, the Boers being driven from shelter and their guns being put out of action."

JAMES TOWN, St. Helena, May 1.—The British auxiliary transport Bavarian has arrived here from Cape Town with 1,000 Boer prisoners. All are in excellent health. They will be landed as quickly as possible, although the wharves are blocked with stores owing to the insufficient transport inland. CAPE TOWN, May 1.—At a big meeting held here tonight an Irish association was formed. Those present cheered all reference to the Queen and the deputy mayor declared that the voice of the Irishmen in South Africa was for "Queen and country."

LONDON, May 2.—Mr. Winston Churchill, telegraphing to the Morning Post from Thaba N'chu April 28, and describing the operations there, says: "Yesterday afternoon, upon the withdrawal of the British demonstrations on both flanks of the enemy, the Boers pressed to close quarters and Kitchener's Horse were unable to evacuate their position until midnight. The suspense caused great anxiety. "Today's operations were intended to drive out or to intercept the Boers. They occupied a wide horseshoe of mountains, with the convex face toward us. Gen. Hamilton succeeded in crushing the Boers on the right and opening a road for Gen. Dickson's cavalry brigade, which dashed through and hunted the enemy from ridge to ridge, shelling them with horse artillery. "At last we arrived at the rear of the

horseshoe and the Boers, in parties of 200, could be seen within the enclosed space, running about like rats in a trap. Dickson hoped to make a bag; and he signalled to Hamilton regarding the situation. Hamilton came at once bringing up every soldier he could find. "Suddenly, about half-past four, the Boer army, nearly 4,000 strong, moved out of the horseshoe and began marching northeast. I had never before seen such an array of Boers. Their order was so regular that at first it was believed they were Gen. Gordon's cavalry brigade. But they quickly opened with artillery on Dickson. "At the same time the Boers who had escaped earlier in the day from our impugned trap returned in force on Dickson's left and rear with two guns. In these circumstances Dickson resolved to retire, and the only possible retreat was in the direction of the north. "The Bloemfontein correspondent of the Times, telegraphing Monday, says: "The fighting at Thaba N'chu is of a desultory nature. The whole front is now to be swept by mounted troops, preparatory to a definite forward movement, for which the forces may now be termed organized. "LONDON, May 2.—Lady Sarah Wilson, telegraphing from Mafeking, April 19, says: "The investment is so close that no runners have entered or issued forth for 10 days. "There was a terrific bombardment on April 11 but, with the exception of destroying some houses, it was harmless. The Boers then made a determined attack on the southwestern forts, which was successfully repulsed. "The Boers have formed a new laager on the south. Many horses are dying of horse sickness. Traps are being cut down for fuel. The garrison is now eating the ambulance oxen, reserving the mules until the last. "The daily ration is now six ounces of gritty oat bread, a round of bully beef and a quart of skilly."

LONDON, May 1.—A special despatch received here from Cape Town under today's date says that Secretary of State Retz, of the South African republic, declared to a recent visitor at Pretoria that not only would every Englishman be cleared out of the State, but also every American, German, or any man of other nationality who was not prepared to shoulder a Mauser and fight for the country. "LONDON, May 2, 2 p. m.—The war office has published the following despatch from Lord Roberts, dated Vat Dico, Saturday, May 5, 7.15 p. m.: "I marched here today with Pollock's division. Headquarters and Wavel's brigade, of the seventh division, are two miles in the rear. Maxwell's brigade, of the same division, is the same distance to our right. "The enemy are in considerable strength on the opposite bank of the river. Our guns engaged theirs for some three hours without being able to force a passage of the river, but shortly before dusk, the mounted infantry, under General Hutton, turned the enemy's right, and, in a very dashing manner, pushed across the river under very heavy shell and musketry fire. "We are now bivouacking for the night within three miles of Vet River. Our casualties, I hope, are not numerous. "Hamilton was in action yesterday and succeeded in preventing a junction of two Boer forces by a well executed movement by some of the Household Cavalry, the Twelfth Lancers and Kitchener's Horse, who charged a body of the enemy and inflicted serious loss. The enemy fled, leaving their dead on the field and their wounded to be attended to by our doctors. "MacDonald's Highland Brigade dislodged the enemy on the right flank under cover of the naval guns, in which operation the Black Watch distinguished themselves and were skillfully led. "Hamilton was advancing this morning to a difficult drift over the Kleinvet (or Little Vet) River. "Hunter reports that Barton's Brigade was heavily engaged this morning, two miles north of Roiland. "The enemy's position was quite four miles long and strongly held. He states that our men marched magnificently and carried ridge after ridge in grand style. "Casualties in this force, in Hamilton's and Hunter's will be reported as soon as possible. "Captain Miller, who was taken prisoner near Thaba N'chu, has been sent to Ruddle's camp by the enemy, with a severe wound in the abdomen. "Brabant reports that one Sergeant and three men were captured on May 2, while on patrol and that one of them, who had been brutally ill-treated and left for dead by the Boers, was found the following day. "Lieut. Lille, Victoria Mounted Rifles, reported missing, was found at Brandfort dangerously wounded and has been carefully attended by the Netherlands Ambulance Corps."

REMINISCENCES.
(REPRINTED BY REQUEST.)

I muse as I look on the river,
The beautiful river St. John,
And think as the waters flow by,
They will never, oh, never return.
The river so buoyant and free,
Just loosed from the ice-bound chain,
Seems dancing in joyous glee,
To be out of its prison again.

Methinks life is like a river,
(The ebb and the flow of the tide),
Expanding broader and deeper
As it reaches the ocean wide,
So our lives should expand to all good-
ness,
With the Christian graces be crowned;
With faith as a helmet to shield us;
When we start for the heavenly ground.

With Hope to cheer as we journey,
An anchor of strength to our souls,
To lay aside all care and worry,
As we strive for the Heavenly Goal.
Sweet Charity, dearest and best,
That can pity the woes of another,
Will cherish if brought to a test,
And not wrongfully judge a brother.

While Patience sat on a high,
On a monument firmly stands,
Watching with hopeful eye
For fruition of all cherished plans.
I think of my happy childhood,
When blest by my kind parents' care,
My heart as light as a wild bird,
Knew neither a sorrow or care.

I think of the dear old schoolhouse,
Close by the village street,
The floor which re-echoed the noise,
Of children's pattering feet,
At recess or noon, 'twas joyous
After the lessons were o'er;
Fun then to our heads was more precious
Than ancient or modern lore.

But where have those children dispersed
Who attended that village school?
And the teacher who explained Bible
verses,
And taught us the golden rule?
Some have crossed the dark mystic river,
We trust safely anchored in heaven;
For God sent His Son, our Redeemer,
To guide to the heavenly realm.

Some to far distant lands have wandered,
Seeking the fortunes of earth,
Some teaching of Christ, not hindered
By greed for the lucre of earth.
But if on earth we ne'er should meet,
When Death does claim each one,
We'll cast our crowns at Jesus' feet,
Before the great white Throne.

—Mrs. A. E. HOSKINS.

ANYWHERE.

She was old and wan and wrinkled,
Though her pallid cheek was fair,
And the snows of winter
Tightly touched her soft brown hair.
Yet in those hands imprinted
Was doth youth and beauty wear,
And the sunny hues of girlhood
Tint anew her eyes and hair,
Still I know that I should know her!
I should know her anywhere!

Shall I dwell in mournful waiting,
Mother, for thee "over there"
While God's blessed angels daily
Waddle down the shining stair!
Round and sweet I know your lips are,
Kindled by that radiant air,
Oh, the sad and tender patience
Of the smiles they used to wear!
I should know your kisses, mother!
I should know them anywhere!

Should you touch me e'er so lightly,
As returning spirits dare,
And your spirit hand should linger
E'er so softly on my hair—
Hands, dear hands, by death made over,
Darling hands so used to care—
Hands which I have kissed so fondly,
Darling hands so used to care—
I should know your touch, dear mother!
I should know it anywhere!

Had I been the first to wander
From earth's dust and din and glare,
Thrilling through my lips new splendor,
I should still have felt your prayer,
And if spirit hands could do it,
Pausing not to think or care,
I should rend the veil that hid you
And with you my glory share.
Oh, my mother, darling mother,
I should love you anywhere.

A MOTHER'S PLEADING.

It is noble to die for our country,
It is grand to die and win fame;
But to those whose dear sons have fought
and died,
Life never can be the same.

We know how they fought for their coun-
try,
How bravely they died for their Queen,
How they battled for right and freedom,
And that they God's care have been.

But they, our dear ones, have left us,
Never here shall we see them again;
And though for them our Saviour died,
Even that cannot heal our pain.

For we know our brave lads have suffer-
ed
Woes of which we tremble to think;
May Jesus be closer than brother
To each soul when nearing the brink.

Oh! pray to the Lord God of battles,
Oh! pray to the Lord God of peace,
That he will subdue the harsh tyrants,
And cause war's dread terrors to cease.

Lord Jesus, give peace to the sad hearts,
That mourn for their dear ones who
died—
Who died for their Queen and their coun-
try;
Comfort mother, and sister and bride!
—Sheldon's Views.

Pessimism saps faith out of life.
Sorrow is a crucible for purification.
No person can be satisfied who is sick.
Riches are the source of unhappiness.
Transgress the law and reap unhappi-
ness. God can always overcome the
devil.

Any one who knows he is a transgres-
sor of God's law cannot be happy until
he repents.

What difference does it make to me
whether I have riches or not, if I know
I shall have eternal life?

Shoes and Stockings.

Never wear a shoe that will not allow
the great toe to lie in a straight line.

Never wear a shoe with a sole narrow-
er than the outline of the foot traced
with pencil close under the rounding
edge.

Never wear a shoe that pinches the
heel.

Never wear a shoe or boot so large in
the heel that the foot is not kept in
place.

Never wear a shoe or boot tight any-
where.

Never wear a boot or shoe that has de-
pressions in any part of the sole to drop
any joint below the level plane.

Never wear a shoe with a sole turning
up very much at the toes, as this causes
the cords on the upper part of the foot to
contract.

Never wear a shoe that presses up into
the hollow of the foot.

Never come from high heels to low
heels at one jump.

Never wear a pair of shoes all the time
unless obliged to do so. Two pairs of
boots worn a day at a time alterna-
tely last longer and are much more
healthful.

Never wear a short stocking or one
which after being washed is not at least
one-half inch longer than the foot. Bear
in mind that stockings shrink. Be sure
that they will allow your toes to spread
out at the extreme ends, as this keeps
the joints in place and makes a strong
and attractive foot.

Never think that the feet will grow
large from wearing proper shoes. Pinch-
ing and distorting make them grow not
only large, but unsightly. A proper,
natural use of all the muscles makes
them compact and attractive.

TO CONSUMPTIVES.

The undersigned having been restored
to health by simple means, after suffering
for several years with a severe lung affec-
tion, and that dread disease Consump-
tion, is anxious to make known to his
fellow sufferers the means of cure. To
those who desire it, he will cheerfully send
(free of charge), a copy of the prescription
used, which will find a sure cure for
Consumption, Asthma, Catarrh,
Bronchitis and all Throat and Lung
Maladies. He hopes all sufferers will try
his remedy, as it is invaluable. Those de-
siring the prescription, which will cost
them nothing, and may prove a blessing,

Charity.

Every good act is charity. Giving
water to the thirsty is charity; removing
stones and thorns from the road is
charity; exhorting your fellow men to
virtuous deeds is charity; smiling in your
brother's face is charity; putting a wan-
derer in the right road is charity. A
man's true wealth is the good he does in
this world. When he dies mortals will
ask, "What property has he left behind
him?" But angels will inquire, "What
good deeds hast thou sent before thee?"

Canada The Great Cry in England.

Mr. J. W. Lester, an old Toronto Boy, interviewed.

EXPERIENCES IN BUSINESS.

Canadian Goods, Owing to their Undeniable Merit, in Favor in Old London.

(From the Mail and Empire.)

A gentleman who has done much to bring Canada before the people of the Old Country is Mr. J. W. Lester, of London, England, who is at present a guest at the Queen's hotel. Mr. Lester is an enthusiastic Canadian, having prior to his sittings in London, been a prominent business man of this city, and an interview with him touching the spread of Canadian trade in the Old Land proved of more than usual interest.

"Canada for the Canadians used to be the cry here," said Mr. Lester, while seated in the corridor of the hotel on Saturday, "but I tell you now we Englishmen," and he smiled, "think Canada for the Britisher. Why, we are all Britishers. When first I went to London, not much more than three years ago, being that they did not look upon a Canadian as an American. Everywhere you went they knew your accent, at least they thought they did, and you were stamped 'American' at once. No use correcting them. Canadian was an unknown, another part of the United States as it were."

"The Jubilee helped Canada a little, but the glorious stand of our brave boys in this war in South Africa, who volunteered without being first asked by the Motherland, has cemented the tie between the Old Land and Canada as nothing else ever could."

"Yes there is New Zealand and Australia, India, and all the other cubs of the British lion, but Jack Canuck is the favorite son of John Bull, the big, staunch cub of a great and powerful sire."

"The merit of the Canadian is now fully recognized in London. I find that Canadians who enter into business over there are always successful. Canadian goods are very popular, not because they are from the Dominion, but on account of the fact of their being Canadian stamps them as worthy of approval. My personal experience is that a Canadian will do business there where an American now will not."

"The English business man is very conservative, but the spread of our business, the Canadian firm which I represent in London, has been phenomenal. There is a great building up of the Empire going on, and Canada is in the front piling up the great structures of trade."

At this juncture Mr. R. C. Davidson, of Melbourne, Australia, a former Torontoian came along and was introduced by Mr. Lester.

A word from Mr. Davidson was very gratifying on the same subject. Canada, formerly very little thought of, is now watched keenly in the Antipodes, he says. Canadian goods are great favorites with the Australians, and during the past two years many Dominion trade agencies have been established there.

Both Mr. Lester and Mr. Davidson have come to Toronto to attend the annual meeting of the Dodd's Medicine Company, Limited, when managers of the foreign branches of the company assemble from all sections of the globe to discuss the business campaign for the ensuing year.

"As you know," continued Mr. Lester, "I left Toronto a few years ago to establish a London office for the Dodd's Medicine Company, and at the same time Mr. Davidson here with Australia with the same object in view. The sale and reputation of these goods had spread so fast that the establishment of these two offices was absolutely necessary. The remedies have proved so efficacious that in England as in Canada they have come to stay."

"And in Australia, too," put in Mr. Davidson.

"Why," continued Mr. Lester, "I understand the business of the company has spread in the United States, too, that the sales there are something enormous. But it is the spread of the sale of Dodd's Kidney Pills in England of which they are most proud, because the Englishman is such a conservative and cautious purchaser. However, the company were satisfied to place these pills and also Dodd's Dyspepsia Tablets before the public and wait for the merit of the medicines to speak for themselves, and I tell you they have. They are every bit as popular and heavy sellers to the trade in England as they are in Canada, and you know what that is."

"A reliable cure for kidney disease is worth its weight, not in gold, but in diamonds, and the Englishman realizes this. There are so many imitations, you know, that do more harm than good, and will never sell in this great world."

"Why, to-day you read of some 'great' (?) remedy, and in a few months it is gone, and as dead as many a poor sufferer who has used the 'just as good article.' Dodd's Kidney Pills have been here in Canada for years and years, and are just what they are advertised to be."

"Without any foreign advertising the virtues of Dodd's Kidney Pills had spread to such an extent that it was found necessary to establish a branch in

London to supply the European trade. They are now being just as well received by the European public as in Canada and the United States, where they have been selling for years.

"Australia has always been in touch with the Old Land, more so than Canada, and with the increase of the London business that in the Antipodes grew proportionately, as Mr. Davison has already told you."

Mr. Lester will be in Canada for about three weeks, and Mr. Davison for perhaps a little longer. They are both shrewd business men, and just such Canadians as will not only push their own business, but in doing so, bring before the outside world Canada and its trade resources.

Why He Was Arrested.

There is such a thing as being altogether clever.
You think so?
I know it. I was walking along the street yesterday when I noticed a \$5 note lying on the pavement. I stopped to pick it up, but it looked like a counterfeit, so I passed on.

And the note turned out to be a good one of course.
No, it did not, but I was arrested before I had gone many steps farther.

Arrested? What for?
For passing counterfeit money.

Maude—Mr. De Jones asked me to sing for him the other evening after we had been introduced.

Clara—And what did you sing?
Maude—Why, how do you know that I sang at all?

Clara—Well, I noticed that he didn't ask you to sing to-night.

An irascible old judge, being annoyed by a young lawyer speaking to him about a legal point in the street, threatened to fine him for contempt of court.

"Why, judge," said the young attorney, "you are not in session."

"I'd have you know," angrily responded the judge, "that this court is always a subject for contempt."

How to Grow Onions.

Onions, like some other farm crops, require a large amount of labor to give the best results. But if given good cultivation and the weeds are kept down they make nice large onions. On the average farm onions are grown from sets, but the best are produced from seed, as there are not enough sets to go round. I have grown them from seed and have experienced on a small scale with planting the little ones the second year. This plan gave good returns, but I could not get enough little ones.

The soil for onions should be fertile, sandy, well underdrained so that it will not pack after every rain. It is best to apply a good coating of barnyard manure, but a great objection is that it always contains a large amount of weed seed. A fair amount of sand is an advantage if the soil is sufficiently retentive to resist droughts.

Begin to get the soil in shape two or three years beforehand. First sow as much clover as possible to increase the fertility of the soil. Also plant hood crops to kill out as many weeds as possible for two or three years of the greatest barriers to success. Barnyard manure and hen manure are good fertilizers to be applied before planting. For the onions to make a good growth the ground must be plowed as early as possible, about the last of April and not later than the 20th. They will make a crop planted a month later, but they will get only half as large.

The ground cannot be in too fine a condition for seed sowing, one of the greatest failures to success. I get the ground free from clods and trash as possible, frequently making it with a common garden hand rake.

To plant the seed, which is generally the Wethersfield variety, I use a garden drill which marks the next row, has an adjustable shovel and plants uniformly. I drill the rows about 13 inches apart, planting six or ten seeds per foot. I would advise every farmer who plants very much garden to buy one of these drills, which sows any sized garden seed.

I cultivate the onions as soon as they are large enough. The ground soon packs and the weeds make an early start. They should be plowed at least after every rain, so the ground then runs together and crowds out the young plants. They also have to be hand hoed, as the weeds cannot be plowed out of the row. For getting clear of these weeds I use a common knife. It is very hard work whatever it is used.

The plough we use runs astride the row and is a double wheel hoe with double hose. It has several attachments, some cutting horizontally and some cutting vertically. The former are best for cultivating the plants when small, because they throw the dirt away from the row. When the plants begin to enlarge, the latter may be used. The onions are pulled as soon as the tops turn yellow. Then they are topped and dried and laid away on shelves as they will not heat.

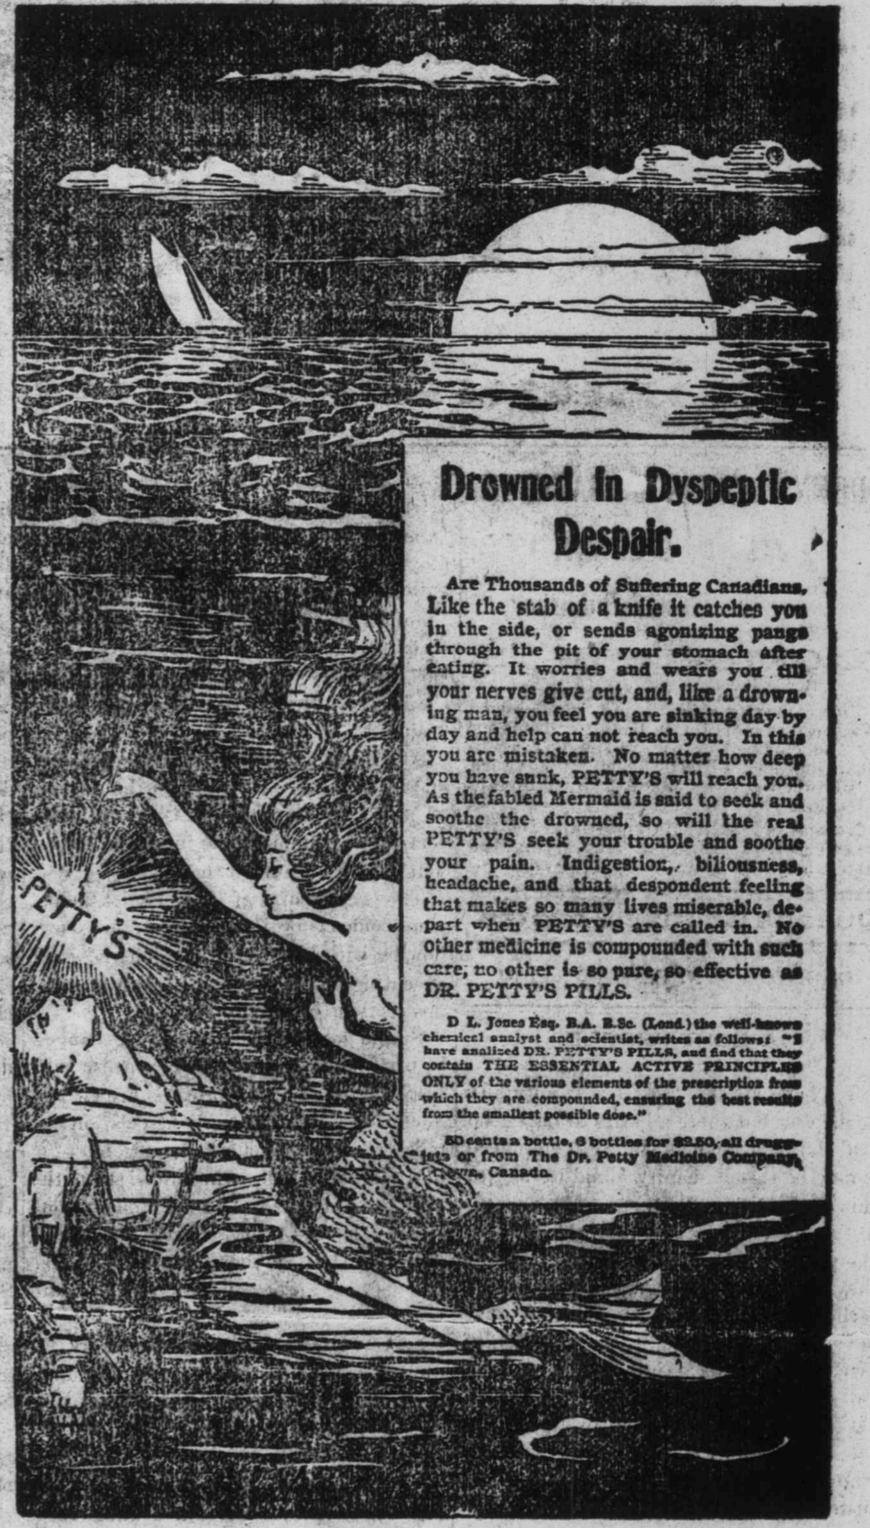

The foregoing is the only growing programme of a New England Homestead correspondent.

A LOST PEOPLE.

We have always looked for antiquity in the east but there appears to be a good deal that is ancient in the west. Indeed it may be that humanity found its way to this continent, and without a sea voyage, in the earliest ages of the world. If so, the people did not grow in the arts as they did in the Valley of the Nile for the earliest monuments of their work, that have been discovered, those of the Cliff dwellers, are supposed to be no more than two or three thousand years old. The Cliff dwellers are supposed to have been the ancestors of the Moquis of Arizona, who preserve, it may be, some of their customs and traditions. It is certain that they were a powerful and partially civilized people who have left behind them little except the ruins of their dwellings. One of these dwellings in New Mexico is being excavated as have been excavated the ruins of Herculaneum and Pompeii. It is 540 feet long by 350 feet wide, and four stories high. It contains 700 rooms of which 102 have been explored. A burial ground has been found in the neighborhood which is estimated to contain the remains of half a million people.

"Take the wings of morning And the Barkan desert trace, or loss Thyself in the continuous woods where rolls The Oregon, yet the dead are there, And millions in those solitudes since first The flight of years began, have laid them down In their last sleep."

ST. JOHN LETTER.

With reference to his subscription of \$50 to the Ottawa-Hull relief fund and of the same amount to the India Famine relief fund Rev. J. M. Davenport of this city writes that he wishes to make the stipulation with regard to both donations, "which experience of similar funds assures me is not unnecessary, that the money be not funded, but spent as soon as possible for relief of homeless sufferers and the starving." St. John people appreciate the significance of the reverend gentleman's stipulation very thoroughly. The scandalous management of the Fund of 1877 has prevented their making such contributions as they otherwise would for the Windsor, Digby, Indian town and Hull-Ottawa fire sufferers, to the India Famine fund, and in behalf of the soldiers in South Africa. It has humiliated them and made them distrustful of their fellows. The fund of 1877 in making men cynical, in destroying their faith in each other, has done far more harm than good, and smirched the fair fame of the city beyond repair.

Warren Webster, aged 7 years, had both of his legs amputated by a street car last Monday. No one saw the accident but it is supposed he was stealing a ride and fell from the front platform of the car.

St. John's exports last winter by the winter port steamers were valued at \$10,567,051, being an increase of more than 47 per cent over the exports of the previous season.

A Salvation Army lassie was knocked

down and run over by a grocer's wagon driven by a small boy last Wednesday. In any other city than St. John the employer of that boy would be considered guilty of a felony.

John Lahey, a young cartman of a convict turn, drove to Union Street slip last Wednesday and at once plunged into the harbor. He was rescued considerably against his will.

At Fernhill cemetery a larger staff is employed than ever before in the month of May. Superintendent Clayton thinks that by midsummer this beautiful place will be more beautiful than ever.

The greenhouses of H. S. Cruickshank, whose office is on Union Street, are overflowing with blooms, although he is daily executing orders for cut flowers from various sections of the province.

Staple goods generally are unchanged in price since last week. New cheese is in better supply but the price is firm at last quotations. The packer's association are talking of advancing quotations for new canned goods which has strengthened buying and a good many contracts have been closed for fall delivery by jobbers and retailers. Dry fish are lower: quotations are, medium cod \$3.10, large \$2.50 and pollock \$2 per cwt. Two small cargoes of P. R. molasses are landing and prices are firm at 34 cents for choice. Geo. S. deForest & Sons have a small lot of fancy P. R. at 30 cents, Barbadoes at 28 and 39 and very choice in tierces at 39 cents. Sugars are unchanged; American granulated is \$4.50 per cwt, superior Dutch in 100 pound double bags \$4.45 and \$4.50 per cwt., and Primrose, a bright yellow Extra C made in Liverpool \$3.77 per cwt, in bags of 224 pounds. Timothy seed is quoted at \$1.00 per bushel, two hoop rails \$1.90 per doz., and tubs \$2.35 per doz.

Washington Letter.

(From our regular correspondent.)

WASHINGTON, D. C., May 1, 1900.—It cannot be denied that the present course of the London newspapers in caviling at the actions of generals commanding in the field, clamoring for action on their part and grumbling at the responsible secretaries of the government, comes home as a peculiar balm to the people of the United States. Scarcely two years has passed since this country was in the thick of war against an enemy no more disproportionate in numbers—though greatly inferior in courage and resources—to the Boers, and its papers were filled with complaints against men who were conducting the war both in this city and in the field. The British press at that time took considerable pleasure in censuring the Americans for this, and the Americans are now consoled at getting even. But this is only an incident after all and the real reason why little sorrow is shown here at British complaints is because their existence silences the talk of our own papers in praise of the British stoicism and patriotism. Americans—real Americans, that is—do not wish Great Britain any harm but they have gotten very tired of having her held up as a model for them. Any schoolboy will remember how he detested the model boy of the school and how delighted he was when that paragon showed himself to be no better than the rest, after all. This is exactly the way that Americans look on the conduct of the British at present.

Gerald Stanford, of London, has been in this country and has talked entertainingly of Lord Roberts and of the Boer war. Among other things, he said: "General Lord Roberts or 'Bohe,' as he is more fondly known in the army, is the beau

ideal of the British soldier. Short and slight of figure, he nevertheless possesses physical strength beyond the ordinary, an iron constitution and great endurance and to-day carries his three score and eight years as lightly and holds his figure as erect as a man half his age. To my mind, this mighty struggle between Britain and the Boer, which has been so replete with sad scenes and pathetic incidents, contains none sadder than the death of young Roberts on the banks of the far Modder River. What hopes of the future were blasted that day, and what a hopeless future left to the great commander of our army in South Africa! Should Lord Roberts win Pretoria and establish British supremacy over the Orange Free State and the Transvaal, there are none who would venture to say what honors may not be his. An earldom—possibly a dukedom—will come to him. But such honors can be only as Dead Sea fruits to Lord Roberts; now that his hopes of direct descendants in the male line have been taken away by the untimely death of his son."

Gustave Beutelspacher, United Commercial Agent at Moncton, writes to the State Department as follows, under date of March 15: "The Discoverer's Mineral Corporation, of London, England, will, during the present year, dredge the Saskatchewan River for gold. In the opinion of some people the fineness of the gold found in the sands will preclude the saving of paying quantities, but the companies claim to have discovered a process by which at least 75 per cent can be saved. The gold holding gravel in the river bed averages a depth of 7 feet, although it has been known to go as deep as 25 feet.

The plant is called a New Zealand dredge, the cost of which is in the neighborhood of \$25,000. It requires three hands and a master to man each one. These dredges work something like those seen every summer in the St. Lawrence channel between Quebec and Montreal. Water is being used to separate the gold from the earth. It is stated that from tests made in hundreds of places in the river, the gravel will produce an average of 20 cents per cubic yard, and that this earth consisting of two tons, can be handled for two cents per cubic yard. The handling of 3,000 yards is estimated to be a day's work.

"According to a report issued by the geological survey, the mineral output of Canada for the year 1899 is placed at \$47,000,000. Of this sum, gold is the largest factor, the total being \$21,040,000, and of which the Yukon contributed \$16,000,000. Coal is the next item of importance, the production for the year 1899 being \$9,040,000. Since 1896, the mineral production of Canada has well nigh doubled in value. The production of other minerals was: Iron, \$248,372; lead, \$978,230; nickel, \$2,067,840; platinum, \$835; silver, \$1,834,371. Of the chief contributors to the total mineral production of the country, lead and silver are the only two showing a considerable falling off, and that notwithstanding more favorable prices. This is due to local causes in British Columbia not dependent on the value of the deposits."

Mr. and Mrs. Bromley, son-in-law and daughter of Lord and Lady Panmouthe left Washington Monday for New York and sailed for England on the St. Louis to-day. Mrs. Bromley will be presented to the Queen at the drawing room held May 24. She will wear a magnificent train of white satin which served as her wedding dress. Mrs. Bromley is a daughter of the British Ambassador and a general favorite.

THE VIRTUES OF

Paine's Celery Compound

Are Recognized by The Ablest Physicians.

IT IS THE GREAT SYSTEM BUILDER IN SPRINGTIME.

It Produces Solid and Healthy Flesh, Makes Pure Blood and Strong Nerves.

The peculiar and distinguishing medicinal virtues of Paine's Celery Compound are fully recognized by the ablest medical men in every part of the Dominion. In its peculiar power and ability to invigorate the body, to make new blood and to regulate the nerves, lies the great value of Paine's Celery Compound in all wasting diseases and disorders of the kidneys, liver and stomach. At this season of the year when thousands are tired, run-down and sick, Paine's Celery Compound comes to the rescue of the shaky and enfeebled nerves and keeps them from utter prostration and ruin, and banishes that feeling of exhaustion that is the cause of despondency, melancholia and depression among men and women of all ages.

Paine's Celery Compound makes solid and healthy flesh, pure blood and strong nerves. Paine's Celery Compound strengthens the digestive powers, and restores the nervous system when impaired from over-exertion of mind or body. The best test that can be applied to Paine's Celery Compound is to use a bottle or two at this time when the body needs cleansing and building up.

Guilty of Manslaughter.

PORTLAND, Me., May 4.—At a few minutes after 2 o'clock this afternoon the jury came in with a verdict of manslaughter against Maxwell. Maxwell took the verdict with countenance unmoved, preserving the same half smile that he has worn all through the trial. Judge Putnam announced that unless something made it necessary to change the plans of the court sentence would be imposed on Maxwell next Tuesday at 11 o'clock.

MILL SAWING—Mr. Scott's mill began sawing Monday.

METHODIST CHURCH.—Service will be held in the Methodist Church here on Sunday at 11 a. m. and 7 p. m., Rev. I. N. Parker, pastor.

HEAVY FROST.—There was quite heavy frost for the time of year on Sunday and Monday nights, making ice of considerable thickness.

A trial of Wheeler's Botanic Bitters will convince you of their value as a system regulator.

BUILDING A SHOP.—Mr. Jas. Law is erecting a building on Main street, on the county grounds, next the Recording Office. He will use it as a barber shop and beer saloon.

BASE BALL CHALLENGE.—The Gagetown Base Ball Club hereby challenge the Grammar School Athletic Club to play a game of baseball on May 24th.

DEBATING SOCIETY.—The Debating Society in connection with the Grammar School here, met on Monday evening last. A number of spectators were present. The society will meet every two weeks.

BAPTIST ASSOCIATION.—The Southern New Brunswick Baptist Association will hold its twenty-first session with the First Baptist Church in Johnston, commencing July 7th, next.

PREPARING FOR ENTIRE DAY.—Mr. D. L. Mitchell is preparing a programme for Empire Day, May 23rd. An entertainment under the auspices of the schools will be held in the Temperance hall in the evening.

BASE BALL PLAYING.—A number of young men are practicing base ball for a match game to be played on May 24th between the 'Dreadnaughts' of Gagetown and the Grammar school boys.

GOING TO KING COUNTY.—A correspondent from Lower Jemseg writes: We are given to understand the Rev. A. Goller intends leaving this Parish about the first week in August to undertake work in the Parish of Waterford, Kings County.

A GOLD BATH.—While the May Queen was unloading freight at the wharf on Saturday Mr. John Law was coming along the wharf, he slipped and fell into the creek. He caught the wharf while falling and only got wet up to the waist.

CHEAP NEWSPAPERS.—We have made arrangements with the publishers of the Montreal Daily Star, so that we can offer that excellent Daily and the QUEENS COUNTY GAZETTE for the remarkable small sum of \$1.75. The regular price of the Montreal Daily Star is \$3.00 per year. The offer is also open to old subscribers paying in advance.

DR. H. J. FUGOLEY, V. S., the skillful young operator will make a tour through the Counties of Sunbury and Queens beginning May 7th. This young man is unexcelled as a castrator and will be pleased to accommodate the public in any line of the Veterinary Profession.

ARMOR DAY.—In accordance with the provisions of Regulation 20 (2) of the School Law Manual, I hereby appoint Friday, May 18th, to be observed as Armor Day. Teachers will please to observe the conditions referred to in the section above named, Sub-Section (b).

R. P. STEEVES, Inspector of District No. 3, April 23, 1900.

COAL FOR WATER DEPARTMENT.—The Water Committee met Monday morning and topped the tenders for supplying 300 tons of coal for the Water Works. The contract was awarded to Mrs. Walter McFarlane for Grand Lake Coal at \$3.00 per ton, delivered in the shed at the pumping station. Last year the department purchased from the Cumberland Coal Co. at \$3.25 per ton. The Cumberland Co.'s tender this year was at the rate of \$4.40 per ton at the railway station—Gleaner.

GASPERAUX FISHING.—Extensive preparations are being made at French Lake and Lakeville Corner, Sunbury Co., for catching gasperaux, which are caught by nets. This gives employment to a large number of men during the fishing season. The big run has not yet arrived but the fishermen are all in readiness. These fish are cured for the West India trade, and this year the price is about 75 cts per hundred. This means, if a good catch is secured, a large amount of money for the people of that community. Messrs. H. S. Randall and Jas. S. Jewett are the principal operators, but there are numerous others who engage in the business upon a smaller scale.—Gleaner.

PERSONAL.

L. O. F.—All members of Court Aloha are requested to attend the meeting of the Court this (Tuesday) evening. Brother Kinghorn, P. H. C. R., will be present.

LAUNDRY—Parties wishing clothes laundered will kindly leave same at Mrs. Rubins this week.

SERVICE AT MILL ROAD.—Rev. Mr. Gausong will hold divine service in the school house, Mill Road, Sunday, May 13th, at 2.30 o'clock.

WEAR UNDERWEAR.—The highwater wharf here is partly underwater and has been considerably damaged by the freshet.

THE LITTLE CASE.—Mr. J. R. Dunn, who is being tried at this place for the murder of the Lawrence family at Lakeville Corner.

NEW GOODS.—Mrs. Rubins has a new stock of summer goods including ladies' shirt waists and wrappers, sailor hats, and hats, gentlemen's hats, laundered shirts, underwear and a general stock of dry goods, groceries etc.

BEER AND MEAT SHOP.—Mr. Fred Corey is having his shop, which was lately occupied by Mr. Jas. A. Law, repaired and fitted up for a beer and meat shop. He will also run a barber shop in connection.

SCOWS LAUNCHED.—Mr. R. F. Davis has had three scows launched this spring and will have the fourth ready for caulking in a few days. Mr. R. H. Weston's second scow was launched last week and taken to St. John.

BAD ROADS.—The roads between Armstrong's Corner and Welsford are reported to be in a very bad condition, the worst known for years. The small bridges in nearly every road in this vicinity have been thrown out by the freshet and are dangerous for travelling at night. The roads seem to take a very long time to dry up this spring.

CAPTAIN A WILD GOOSE.—While Mr. William Weston was at work in Mr. T. S. Peters' field one day last week, he saw four wild geese in the field. As he approached them they flew away, but he ran after the fourth one and caught it. He examined it but could find no cause for it not flying. Mr. Weston has the goose at his home and it seems in the best of health.

CAUSE ON THE WHARF.—The Steamer May Queen was about four hours behind her usual time in arriving here on Monday. The delay being caused by her getting fast on Lower Jemseg wharf. The scow was alongside of her loading freight and a very heavy wind blew her onto the wharf. The wharf is completely under water and one of the posts caught her and held her fast. The logs which were in the vicinity managed to tow her off. She was not damaged.

AN IMPORTANT GATHERING.—Mayor Daniel is in receipt of a letter from Hon. H. R. Emerson drawing his attention to the fact that the government some time ago asked the municipalities, cities, towns, and boards of trade of the province to appoint delegates to a conference to be held to discuss the establishment of an all-the-year-round steamship service from St. John by the Elder-Despater Steamship Company. The Premier expressed the hope that His Worship will give this subject consideration and arrange for the conference, as the establishment of the line is of importance not only to St. John, but to the whole province. Mayor Daniel will take the matter up immediately and will likely arrange for a conference here at an early date, as it is understood the various bodies have all appointed their delegates and are only waiting a call to meet. This will be a very important gathering, and one that the citizens of St. John will have to decide how it shall be entertained.—Globe.

PERSONAL. Mr. T. S. Peters returned home on Monday from a visit to St. John. He was accompanied by Mr. Thomas Lee.

Mrs. W. Edwards, of St. John, spent Sunday with relatives here.

Mrs. Harry Colwell, of Jemseg, went to St. John on Monday.

Probably Drowned. QUEBEC, May 1.—Schooner Blanche Alina, from Quebec for Matane, with a cargo of provisions, collided with the steamer St. Olaf, toward bound, off St. Roch des Aulnis, last night.

The schooner was slanted out in two, and disappeared, but whether she sank or went ashore is not known.

Two sailors, Louis Gastoigny and Elmer Allet, managed to jump aboard the steamer, but Captain St. Pierre and three other members of the schooner are missing and were probably drowned.

The St. Olaf promptly put about after the collision and searched the waters, but could find no trace of the schooner or men.

Editing a newspaper is a nice business. If we publish jokes people say we are 'wattle-headed.' If we don't we are an old fossil. If we publish original matter they say we don't give them selections enough. If we give them selections they say we are too lazy to write. If we remain in the office we ought to go out and hustle. If we go out then we are not attending to our business. If we don't go to church we are a heathen. If we do, we are a hypocrite. If we wear old clothes they laugh at us; if we wear good ones they say we have a 'pull.' Now what are we to do? Just as likely as not some one will say we stole this item from our exchanges. And so we did.

Trouble in Bullaria. Soria, Bulgaria, May 3.—The rising of peasants in the vicinity of Rastchuk is assuming alarming proportions. The peasants have succeeded in disarming some troops and have used rifles against others. Two officers and 15 men have been killed or wounded. A similar number of peasants fell. About 3,000 peasants are now marching on Rastchuk against two battalions of troops sent to defend the town.

Small Pox at Grand Falls.

GRAND FALLS, April 23.—This place is considerably agitated over the discovery of cases of smallpox near here. It was learned only yesterday that Valer Page, his wife and sixteen year old daughter, who live about six miles from here, were suffering from genuine smallpox, and the discovery has caused considerable apprehension and alarm.

The Page family live here being quarantined, and every effort is being made to prevent the spread of the disease. The Pages recently came from Montana and, it is claimed, brought the dread malady with them.

CHAPTER II.

(Continued from last issue.)

"You are too graphic, Miss Heath," said Lenthall, seeing Joan's sly face. "Let me take you to a seat, Miss Kennet."

Joan not unfrequently sent little notes to Lottie asking for her company. One day, in the middle of September, the latter called for her, and asked her to accompany her to the village.

"This is not the first time. I was at church last Sunday," he answered in the same manner. "Yes, I saw you," and Joan tried to appear unconscious of his quick glance.

POULTRY POINTERS.

Straw is better than hay in the nest boxes. To thrive well the hen must have some bulky food.

One-half the trouble with poultry comes from lack of hard, sharp grit. It will be hard to get a cross breed will lay at an earlier age than some of the pure breeds.

It is a good plan in winter to empty the drinking vessels as soon as the fowls have satisfied their thirst.

Hen that are kept constantly quiet and tame will make better mothers than the wild, uncontrollable ones.

New blood in poultry is the basis of beauty, vigor and prolificness. It is more essential to poultry culture than anything else.

Ten good hens and a rooster will constitute a very good breeding pen. Be sure that they are the very best fowls on the place.

Wit and fertility, to mate properly, one should be able to score a bird and know just what points are most liable to take a prize.—Louis Republic.

THE ROYAL BOX.

The sultan of Langkat (Sumatra) has ordered an automobile to be sent him in Paris. The car has proceeded on a new yacht to Prince George of Greece, who saved his life in Japan some years ago.

Emperor William has interested himself in a project to give Berlin a Wagner theater, in which the works of this master of music would be given in an open-air setting.

It is now settled that the German emperor and empress will pay a visit to Rome in the spring and that they will take the opportunity, while in Italy, of visiting the queen of England at Bordighera, where there is likely to be a large family meeting.

Authors presenting copies of their works to Queen Victoria usually have them returned to her in a box. The box is a communication received by a Scotch publisher from Sir Arthur Bigney, the queen's librarian.

THE DIAMOND KING.

Cecil Rhodes was relieved. The relief of Kimberley was an incident—Detroit Free Press.

The worst thing that has befallen England in the Transvaal war is the rescue of Cecil Rhodes—Tropica Journal.

In a case there is a stamp in the diamond business Cecil Rhodes might find employment in the museum as the \$10,000,000 prize beauty—Washington Post.

If Cecil Rhodes did take General French into that diamond vault and tell him to dip in and help himself to a handful of carats, he is an ungrateful man—Cleveland Plain Dealer.

Cecil Rhodes took advantage of the reputation of travel from Kimberley southward to demand for Cape Town. Cape Town is the farthest point in South Africa from the seat of war—Syracuse Herald.

THE HOME DOCTOR.

Do not neglect a cold. You cannot be told this too often. Colds are easily cured if treated at once, but neglected they may mean pneumonia or consumption.

Try this simple remedy for asthma: Extract the juice of eight lemons and mix it with one ounce of castor oil, S. S. and one ounce of cod liver oil. Take a tablespoonful of the mixture when the cough comes on.

A bruise should be immediately bathed with very hot water to prevent swelling and lessen discoloration. If the bruise is serious, a cloth wrung from warm or tepid water should be applied, changing when cold. After bathing a bruise with very hot water always smear it lightly with some soothing cream or ointment.

INDUSTRIAL ITEMS.

An Iowa concern is making farm wagons wholly of steel.

Pennsylvania factory inspectors report that in 1899, last year, three-fourths of which were due to carelessness.

In Virginia a company has been formed to make artificial marble of milk of lime, dated Queen River, 18th December, says: "Oh, the sights we have seen since we came here! The other day we lost four men, killed and wounded, at Springfield. It nearly makes you cry to see the wounded being carried about, some shot in the legs and others in the stomach—well, in fact, all over them. It took us three days to come from Cape Town up to De Aar, and we had no sleep for three nights, and no food worth speaking of, for we only had hard biscuits and bully beef, and they are not the same biscuits and beef you get in civilian life, for they are made by the military people purposely for this occasion. Whatever you do don't worry about me . . . for we have got too good a hold of our guns; and, another thing, the Boers are terribly afraid of the artillery, for after they have tested a few of the shells they scatter in all directions!"

Boers Fight With Coats on. Pte. Secker, of the 60th King's Royal Rifles, who has been invalided home from Ladysmith, has been detailing some of his experiences. He was wounded on the 29th October in the head whilst a piece of shell lodged in his left wrist. At Lombard's Kop the states that Gen. White had 8,000 men, but the enemy's scouts were exceedingly alert and informed the Boers of the advancing column. "Only the State Artillery and Kruger's Bodyguard are in uniform, the rest being dressed like workmen. They always fight with their coats off and sleeves up above the arm."

A physician, driving with his wife through a lonely country neighborhood, heard screams issuing from the open door of a cottage, and went in to see if he could be of use. A child had upset a kettle of boiling water on its legs and feet, and was in agony from the scald. "Have you linseed oil and lime water in the house?" asked the doctor.

Before the distracted mother could say there was neither, the doctor's wife said, "Do you burn wood in any room?"

There was a wood stove in the parlor. There is always lard in the country pantry. In three minutes an ointment of lard and suet from the stovepipe, was beaten up and spread upon old linen; in five minutes the scalds were covered with it. The relief was speedy; the cure complete in a day or two.

BACKACHE

Weak, Lame, Aching Backs, the Result of Stagnant, Inactive Kidneys.

Backache is in reality kidney ache. The kidneys become clogged, and fail in their work of filtering the blood. Backache is nature's warning that the kidneys are on strike, and that the blood is going through the system laden with foul poisons, which will cause Bright's disease, dropsy, diabetes, rheumatism or other equally painful and fatal complications.

Prudence tells everyone suffering with backache to set their kidneys right. The experience of thousands of people tells them that to accomplish this there is no means so successful as the use of Dr. Chase's Kidney-Liver Pills—the world's greatest kidney cure.

Dr. Chase's Kidney-Liver Pills cure permanently by making the kidneys healthy, active, and vigorous. They are purely vegetable, act naturally and directly on the kidneys, and are wonderfully efficacious. As a prompt and positive cure for kidney disease, liver complaint and all the complications of these organs, they are unapproached by any remedy ever discovered.

Bob McCready.

Above is a splendid portrait of Bob McCready, one of the best football players in Canada. He is a member of the Ottawa University team and has been in all of its championship matches. He is a splendid specimen of robust Canadian manhood, but strong as he is, he has known what it is to suffer from dyspepsia. So acutely afflicted was he at the opening of the past (1899) season, that he was not able to go out with his team. Pains in the back and sides, terrible headache, and the worst of all, he suffered after eating, the re-inspired digestion, warned him that he was in no condition to partake of any food.

He consulted his physician, and the doctor told him to use Dr. Pett's Pills, and he cured.

Dr. Pett's Pills never fail to give relief, and they cure if given an honest trial.

Heart Palpitation.

A QUEBEC LADY RELEASED FROM GREAT SUFFERING.

She Had Tried Many Medicines Without Avail, But Ultimately Found a Cure Through the Use of Dr. Williams' Pink Pills.

Few bodily afflictions are more terrible than disease of the heart. To live in constant dread and expectation of death, and with last few weeks unspoken, is for most people more awful to contemplate than the most serious lingering illness. The slightest excitement brings suffering and danger to such people.

For several years Mrs. Gravel, wife of P. H. A. Gravel, foreman in Barry's cigar factory, St. John's suburb, Quebec, was such a sufferer, but thanks to Dr. Williams' Pink Pills she is again in the enjoyment of good health. Mrs. Gravel says:

"My general health was bad for several years; my appetite was poor, and I was easily tired, but it was the frequent sharp pains and violent palpitation of my heart which caused me the greatest alarm. I tried many medicines, and was treated by several doctors, but in vain. Finally I became so poorly that I was not able to do any household work, and was frequently confined to my bed. At the suggestion of one of my friends I decided to try Dr. Williams' Pink Pills. After taking a few boxes I began to gain new strength and vigor, the pains in my heart were less frequent and less severe, and in every way my health was improving. I continued using the pills until I had taken eight boxes, when I had completely recovered my health. I have gained in flesh; my appetite is good, and I am able to do all my household work without feeling the awful fatigue I was before subject to. I am very thankful to Dr. Williams' Pink Pills for they have truly released me from much suffering, and I hope that others may be induced to try this wonderful medicine."

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark, Dr. Dr. Williams' Pink Pills for Pale People. If your dealer does not keep them they will be sent postpaid at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

The Turk Not Disturbed.

CONSTANTINOPLE, May 6.—The United States legation is doing nothing in the indemnity matter, which, apparently, is now forming the subject of direct communication between the Yildim Kiosk and the Turkish minister in Washington.

Horrible Murder.

SOUTH BERWICK, Me., May 1.—Mrs. Fanny Spriggs, thirty years of age, a domestic in the family of Samuel Locke, at South Berwick Junction, was murdered in the barn on the premises this morning, and up to late hour tonight the murderer had not been arrested. The unfortunate woman was the daughter of Thomas Abbott of South Berwick, and the badly mutilated condition of the body as found in the barn owned by Florence J. Knight, showed conclusively that the deed was committed about 10 o'clock this forenoon under conditions which indicate a premeditated murder of the most atrocious nature, and the attempt on the part of the murderer to burn the barn and conceal all evidence of his crime. The body, when found in a smoldering mass of excelsior, was entirely nude, with the exception of corsets and shoes, the remainder of the clothing having been eaten away by the flames, and the left arm of the woman was burned to a crisp. Mrs. Spriggs was probably dressed in her usual house apparel and wore a hat, and it is believed that when she left the house to go to the barn she was accompanied by the party who accompanied her. There is no evidence of a struggle in the barn, and it is generally supposed she was struck a terrific blow over the head and was afterwards dragged to a horse pen, where her throat was cut in three places; the body was covered with excelsior and then set on fire. The authorities learn that a man in Elliot, with whom the woman had lived previous to her coming here, and of whom she recently told her brother-in-law, Fremont, Littlefield that he was responsible for her delicate condition, had been out of town today. He returned to his home early this evening and local officers will visit him tomorrow morning to have him give an account of his whereabouts during the forenoon.

Thin, Watery Blood.

When the blood is thin and watery, the nerves are actually starved and nervous exhaustion and prostration soon follow. Feed the nerves with Dr. A. W. Steamer Wrecked.

St. John's, Newfoundland, May 4.—The British steamer Montpelier of the Elder Dempster line of Liverpool, from Cardiff April 27th, and Los Palmas April 29th, for Montreal, while bound up the St. Lawrence went ashore last night in a dense fog at Duck Island, three miles from Cape Ray at the entrance to Cabot Strait. Nothing has been heard of the crew. The ship is probably a total loss.

The Elder Dempster Line steamer Montpelier, which is ashore on the coast of Newfoundland; is a comparatively new boat, being built in 1897. She was bound for Montreal in ballast from the Canary Islands.

St. John's, May 4.—

The Montpelier struck at nine o'clock last night and beat out her bottom and bow on the rocks. She is breaking to pieces today. Her crew landed from the steamer's boats, in which they spent the night lying off the coast waiting for daylight. The crew had many narrow escapes while launching the boats in the darkness.

One box will satisfy the most skeptical. 50 cents a box, sold by all dealers. Buy no other.

Appalling Disaster.

SALT LAKE, Utah, May 2.—Two hundred or more lives were lost in the explosion Mine No. 4, of the Pleasant Valley in Coal Co., yesterday at Schield, Utah. One hundred and twenty seven bodies have already been recovered.

The work of rescuing is still proceeding, although there is no hope that any of the men who are unaccounted for escaped death.

The scene of disaster is just outside this place on the line of the Rio Grand Western railroad.

The explosion which occurred in the winter quarters of the mines is attributed by some, to the blowing up of a number of cans of blasting powder.

A special train was sent from Salt Lake bringing Sup't Sharpe of the Coal Co., and Sup't Wilby of the Railroad Co. and some doctors. As fast as bodies are reached they are taken to the boarding houses and other company buildings, where they are dressed and prepared for the corner's inquest.

These buildings are numerous and in each are ten to thirty-five bodies, which are laid in long rows. To those which have been identified are attached tags with names and addresses. These await the coming of relatives or friends.

Two hundred coffins have been ordered through local undertakers to be sent at once to the scene of disaster.

THE GULF.

Great Satisfaction in Quebec in Regard to Dodd's Kidney Pills.

Mrs. Anna Mongren, of Grand Metis, writes—Suffered Severe Pain in Region of Kidneys—Three Boxes of Dodd's Kidney Pills gave her Relief.

GRAND METIS, Que., May 7.—Throughout the Gulf district including the Maritime Provinces and Newfoundland, Dodd's Kidney Pills are conquering kidney disease and bringing people health and happiness. Every day brings news of another person cured, another home relieved from anxiety and suffering owing to the use of Dodd's Kidney Pills. The fame of Dodd's Kidney Pills has extended out into the Atlantic, and even on the fishermen's islands they have become the standard medicine.

It is a well-known fact that almost all the common and most fatal maladies spring from diseased kidneys, and it is on this principle that Dodd's Kidney Pills have been prepared. They act promptly and safely on the kidneys, restore them to perfect health and working order and thus cut away the foundation of nine out of ten of the diseases we hear most about to-day. Bright's Disease, Diabetes, Heart Disease, Rheumatism, Sciatica, Lumbago, Dropsy, Gravel, Inflammation of the Bladder, Women's Weakness and Blood Diseases all result from disordered kidneys and Dodd's Kidney Pills cure every time.

Mrs. Anna Mongren, Grand Metis, Que. writes: "I was suffering from a great pain in my side which caused me much pain and uneasiness. I took three boxes of Dodd's Kidney Pills and had no sooner taken them than I felt a great relief. I continued to take them and now I am perfectly cured and think myself obliged to tell my friends. I thank Dodd's Kidney Pills very much for such a great benefit."

One Irishman's Testimony.

The following is clipped from the Providence (R. I.) Sunday Journal:

To the Editor: I landed in this country last week, having come from Cape Town, South Africa. I came by the way of Liverpool, England. Hearing that the Irish, my own countrymen, are raising money for the Boers in Providence and vicinity, I desire to make a few facts known to them through your paper, if you will kindly let me.

I have lived in the Transvaal eight years, and I know a few facts about the Boers. In the first place—do they know that an Irishman or any other man never gets justice from a Boer in any court of law in the Transvaal? I will give \$1,000 to any man who will prove that they did within the last five years.

I will give you a type of the justice: In 1895 I was working in Johannesburg. I was working in the De Boer mines, which were owned by Mr. Rhodes, an Englishman, and Mr. Belt, a German. At that time there were about 300 Irishmen working in the mines.

That year a law was put in force whereby all children had to go to the Boer school, and all had to learn Dutch. Next door to me lived a man by the name of Patrick Fahey, who had three children, two boys and a girl. The girl was about 12 and the boys were younger, so he sent them to school, and one day, because the girl could not learn the Dutch, the teacher struck her on the head, and through that blow she went into convulsions and died. Mr. Fahey had the teacher arrested, but he was let off, as the teacher was a Boer. So Mr. Fahey would not let his boys go to school after that. So the Boer police came to arrest him, and because he would not go with them they shot him before the eyes of his poor wife. He lived about two hours after he was shot. Myself and Mike Carroll went and got the priest, but the Boer police would not let him into the house. This occurred on the 14th day of October, 1895. We called a meeting of all the miners, both Irish and English and Scotch, and we subscribed and got a wood coffin and buried him decently. We decided also to let the English Governor at Cape Town know of the facts of the case. So we did. He sent two men to investigate it, but through that 20 of the miners were sent out of the country, and all the property, furniture and such like the Boers confiscated. We that stayed got together £115 and sent Mrs. Fahey and her children back to Ireland.

I can tell you 90 cases similar to the above, but I think that will be enough to let you see what the Boers are. I don't love England; but I say, give me English laws as they are in Natal, where every man has equal rights. That is what England is fighting for. There are over 10,000 Irish volunteers in Natal alone, and we will fight to the death to down the cruel Boers, and I appeal to all Irishmen to help the widows and orphans of the Irish soldiers who fall in battle. I have come here on a little business, and am going to Cape Town next week to fight the Boers and Avenue post Pat Fahey. So, at the last, I say, God bless old Ireland and her soldiers, who are fighting for a good and just cause.

DANIEL MALLEY.

You will not regret it if you always keep Kendrick's Liniment in the house.
