man people have sustained in the Emperor William's death, the fact that Death must sooner or later come to all. The powerful sovereign, the hero of great battles, he who held the destinies of a great will seek investment. As was suggested nation, aye, of Europe, in his hand, has

had at last to submit to the inevitable granting of a bonus to a sugar refinery like us all, and been compelled to bid a long adieu, however regretfully, to the scenes of his former grandeur. Shirley, two centuries and a half ago, expressed the same thought as will be brough home to-morrow afternoon to all who at tend the memorial services at The

Victoria:

"The glories of our blood and state Are shadows, not substantial things; There is no armor against fate; Death lays his igy hand on kings : Sceptre and Crown Must tumble down, And in the dust be equal made With the poor crooked sorthe and spade."

It is, however, consoling in the case of the distinguished dead now lying in state in the Cathedral at Berlin to remembe

the closing lines of the seventeenth cen tury poet :

"Only the actions of the just Smell sweet, and blossom in the dust."

The St. Petersburg press is especially active in this particular. The opinion in that capital proves to be that if the Emperor Frederick lives for any rea- sonable length of time there will be a marked change in the German policy and one favorable to Russia and her schemes. Emperor Frederick is believed by the Russians to be opposed to Prince Bis- marck's scheme of alliance against the Car. Prepar- tions were at once made to drag the river for the bodies—and no little skill was shown in constructing appliances for that purpose. Though the most diligent search has been made ouly one body, that of Abel Wesley, has been found. Mr. R. Cunningham was saws in Vie- toria when the accident occurred. The People of the Royal City Decide to Drop the "New"-A Wise More. ISpecial to THE COLONIST.! New WESTMINSTER, March 13.—At a large and influential public meeting held here to-night a resolution recommending that the name of the city be changed to Westminster was adopted with but one dissenting voice. The matter has been under discussion for some time and opin- ion is virtually umanimous in favor of dropping the "New" and adopting West- minster for the future.	lodged in the provincial jail. The capture of these men and the recovery of all the stoleu jewelry within so short a time was a clever piece of detective work and re- flects the greatest credit upon Sergt. Sheppard, the officer who managed the case throughout. Had the stolen property, as was intended, been conveyed to the American side, it is doubtful if any of it would ever have been recovered, but by the prompt and effective manner in which the sergeant of police took the case in hand, the entire "swag" was restored to the owners and the supposed guilty parties committed for trial within the space of three weeks after the perpetra- tion of the robberies. <b>The Ceal Mines Regulation Act.</b> Following are the principal admend- ments proposed by Mr. Thomson to be added to the "Coal Mines Regulation Act, 1887:" To amend section 1 by add- ing the words. "And no Chinese shall be allowed to work underground in any mine to which this Act applies." Section 2 is proposed by making pro- vision for the appointment of two prac- tical coal miners on the board of examin- ers, said beard to examine and grant cer- tificates of competency as firemen to those only qualified under the act, all such ap- plicants to have at least five years' prac- tical experience in coal mines previous to application for certificates. An addition to sub-section 8 of section 9 is simend- ded by the insertion of a clause provides for the use of safety lamps in certain portions of the mines; and sub-section 9 is simend- ded by the insertion of a clause provides for the use of safety lamps in certain portions of the mines; and sub-section 9 is simend- ded by the insertion of a clause provides for the use of safety lamps in certain portions of the mines; and sub-section 9 provides for the more careful handling of explo- sives when charging a hole for a shot. Additional clauses are also proposed to be added to sub-section 9 providing for where dut is bedged, and all dry co dward	And whereas, in an effort to obtain a teacher to fill the vacancy caused by the resignation of the late head master of the high schools after having engaged, on dif- ferent occasions, three gentlemen of high scholastic attainments and graduates of eastern universities, were as often disap- pointed, they refusing to submit to what they consider the indignity of passing an examination. Wherefore, this board most respectfully request the support and influence of the members of the legislature to the restora- tion of that portion of the school act excepting graduates of British universities from examination." Seconded by Trustee Heisterman and carried. Trustee Ferguson brought up the matter of the invitation to the school children from the proprietors of the Club Theatre. He thought that in giving them a recom- mendation to the teachers that the chair- man had done wrong, as it was well-known that the place was not a proper one. The chairman understood that the thea- tre was not of such a low character as had been reported. He had heard that very respectable people frequented the place, even some of the school teachers he un- derstood went there. Besides he had not expressed himself either one way or the other to the proprietors when they had applied to him. Thus for Ferguson replied that it was about time that some notice was taken of the actions of some of the teachers. Fre- quenting saloons and losing money at poker were things not exactly in keeping with a teacher's vocation. Thus the place was much surprised when he had read in the papers that the chair- man had given his consent (The Chair- man had given his consent (The Chair- man had given his consent (The Chair-	<section-header><section-header><section-header><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text></text></text></text></text></text></text></text></text></text></text></text></text></text></text></text></text></section-header></section-header></section-header>
