The copy filmed here has been reproduced thanks to the generosity of:

Douglas Library  
Queen's University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Douglas Library  
Queen's University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## P R E F A C E .

ON presenting the fourth yearly volume of the Montreal Directory, to the Public, the Editor gladly avails himself of the opportunity of returning his thanks to that portion of the community, who, appreciating the value and utility of such a work, have uniformly extended their support towards it. Many of those gentlemen have doubtless a vivid recollection of the loss of time and labor, which was frequently incurred (before the first volume of this work made its appearance,) in ascertaining the whereabouts of parties whom it was desirable to find, and the writer is led to believe that if ALL would only give some degree of consideration to the same fact, the Directory would not languish for want of support, but on the contrary be liberally, and (as a matter of principle) universally sustained; such, however, he is sorry to say, is far from being the real state of the case, which on the contrary presents the (to him) by no means pleasing fact, that some mercantile houses in the City are in the habit of uniformly — borrowing (not buying) the work.

As a matter of justice both to themselves and to him, the Editor would most respectfully solicit the purchasers of the Directory, NEVER TO LEND IT OUT OF THEIR OWN COUNTING HOUSES OR STORES, and more especially not to those who are carrying on business in the City, to whom the answer should invariably be, *that if the Directory is worth using it is worth owning.* Much labor

has been expended in the compilation of this volume, and it is believed that every house within the city limits, has been visited to ascertain the name and business of the occupant. Such at least were the instructions given to the parties employed to do the work, and the public can judge by the increased number of names (nearly eight hundred) whether they were faithfully executed, or not.

It did not however fall within either the design or scope of the work, to give the names of persons (except specially requested to do so) who were not either carrying on business or keeping house in the City, consequently no disappointment need be experienced if the names of Boarders, or of those who live beyond the corporation limits are not to be found in the Directory.

Much inconvenience and loss of time, even to seriously delaying the publication, has been experienced in procuring the necessary information relating to Public Societies and bodies, and in several cases it has been found necessary to omit them entirely.

The Editor regrets this very much, but is induced to hope that the Officers of such bodies will in future furnish the necessary information in time; they were appealed to through the Press, to do so on the present occasion, and if they chose to neglect it, he hopes that no blame on that account may be attached to him.

The Classified Business Directory contains, as will be perceived, the names of *those only* who are subscribers to, or are known as steady supporters of the Directory; this was conceived to be merely a matter of justice to those gentlemen, who certainly deserve any additional prominence which this classification can give them, and it is an arrangement to which the Editor is determined in future scrupulously to adhere.

He trusts that taken altogether the present volume will

be found to meet the wants and wishes of the business community in even a higher degree than any heretofore published, and begs again to tender his grateful acknowledgments to those whose countenance and support he has heretofore received and will always endeavor to merit.

**EAGLE**  
**LIFE INSURANCE COMPANY,**  
**LONDON.**

ESTABLISHED BY ACT OF PARLIAMENT IN 1805.

*Capital, Two Millions Pounds Sterling.*

Affords a ready, safe and profitable investment of small savings by persons of limited incomes. The public are secured by an ample capital, besides which all payments are set apart to accumulate, as a distinct and inviolable fund, which at the end of seven years is strictly investigated, all existing claims provided for, and the surplus or nett profits are then apportioned, and four-fifths allotted to the Assured for the whole term of life, which may, at the option of the party, either be added to the policy, or applied in reduction of the future annual payments; so that persons insuring at this Office, may justly calculate upon a gradual annihilation of the annual premium, without incurring the responsibility of Mutual Insurance.

The Rates of Premium are fixed as low as the paramount duty of security permits, and the errors in these rates, if any, again corrected and reduced to the actual average risk by the periodical divisions of four fifths, of the profits among the Insured.

the Assured. On commencing the Fire Department of the business, the Company reduced the rates 25 per cent., and the decided success which has attended its operations in that department, affords satisfactory proof that the advantages which it offers have been duly appreciated by the public.

At the recommendation of many of the most respectable merchants of this city, and elsewhere, the Directors were induced to embrace the Inland Marine branch of the Insurance business, and accordingly have commenced to grant Insurance against all Loss and Damage to Vessels or their Cargoes, navigating the Rivers and Lakes of this Province.

In a short time the Company will also be prepared to commence the Life Department of the business, due notice of which will be given.

## LIFE ASSURANCE.

BESIDES the perfect security to the policy holder of a large paid up capital, and accumulating funds, with moderate rates of premium, the following is one amongst many of the advantages which belong exclusively to the principles of Life Assurance and Deferred Annuities, originated by the Society, viz:—Power to borrow (without delay, expense, or forfeiture,) Two-thirds of all Premiums paid upon a Policy of Assurance.

### PREMIUM FOR ASSURING £100.

### DEFERRED ANNUITIES DEPARTMENT.

By the plan exclusively developed by the Society, a single Deferred Annuity is made, not only to answer the same object, but to equal in amount the entire sum of all the advantages heretofore only obtained by the middle and industrious classes by separate investments in Savings' Banks, Benefit Societies, and Loan Banks.

1. A small yearly, or weekly contribution, will secure the most ample return for after life; thus,—£2 12s. per annum (1s. per week,) at 20, will, at 65, give the Policy holder the choice of an Annuity for life of £47 16s. 6d.; £394 11s. in cash; or Policy, without further contribution, of £466 at death.

2. Two-thirds at any time lent on deposit of Policy, being a fund always available during sickness or want of employment.

3. Two-thirds of all payments returned to representatives in case of premature death.

The Report to the Annual General Meeting of Proprietors, Prospectuses, Tables, &c., may be obtained at the Office of the Society, by letter or otherwise, 51, Great St. James Street, Montreal

### DIVISION OF PROFITS AMONG THE ASSURED.

This Joint Stock Company, established by Act of Parliament, without limited responsibility, affords the most perfect security in an ample paid-up Capital, and in the great success which has attended it, since its commencement in 1834, and the large accumulation of Premiums which has taken place.

On the 1st of July, 1841, the Company, at their General Meeting, declared an addition of one half to the sums paid by the Stockholders, and appropriated to those holding Assurances at the participating rate of £2 per cent per Annum, from the dates of their policies, so that the addition to a policy for £1000, in force for the previous 5 years, has been £100, making it in all £1,100. The Premiums payable to the Company are, nevertheless very moderate, and only one half of them, when an Insurance is for Life, need be paid for the first five years after the date of their policy; the other half, subject to the payment of interest at 5 per cent annually, to be deducted at death, or paid off at convenience. By this arrangement, it becomes easy for a person of moderate income to secure a provision for his family; and the policy may be relinquished on the acquisition of a fortune, within the 5 years, the Assured having paid only one half of the Premiums, instead of the whole, according to usual practice.

Thus, a person of 25 years old, may, by an annual payment of £28 16s. 3d., for the first five years, and afterwards of the full premium £57 12s. 6d., secure to his widow and children at his death, payment of no less than £3000, subject only to the deduction of £144 13s. 3d., being the amount of premiums unpaid. A person requiring a temporary advance of money may also, in terms of this arrangement, should he within five years relinquish the policy of Assurance, by means of which he has obtained the advance, give it up on payment merely of one half the Premiums instead of the whole, according to the usage of most other Offices.

The great facilities afforded by the Company, in these and other respects, are such that it really appears to be a moral duty in every parent who is not possessed of a fortune, but of an income, however moderate, to insure his life for a sum which may yield a comfortable provision for his family.
