Montreal Stock Market.

CONSIDERABLE SELLING AT HIGHER PRICES — REPUBLIC, WAR EAGLE AND GAS DECLINE — STOCKS ARE STRONG AND WELL MANAGED.

Montreal, Sept. 14.

Liquidation more or less voluminous and prices more or less depressed has been going on a day or two and would not be an un-mixed evil if continued. The strain of high valuation is capable of being too much prolonged and is better un-bent occasionally when circumstances allow, as they do now, with high rates and prosperity. Nothing can be injured by the bears being granted their innings, and somewhat protracted innings, if they wish, as a movement of this kind would strengthen the force of a bullish reaction. The local selling movement today was quite as much in evidence as it was yesterday, but the depressed valuations which generally go with it were not more, were perhaps less evident than yesterday. This must indicate a great underlying strength in C.P.R., one stock which rallied $\frac{1}{4}$ today and in Twin City, advanced $\frac{1}{2}$, for these stocks rise simply on their merits. It is true there was activity in them on Wall Street and quotations about C.P.R. were higher this morning both which, of course, helped the upward movement, but there are no two stocks less indebted to manipulation. What the price of Royal Electric advanced, $\frac{1}{2}$, Merchants' Bank $\frac{1}{4}$, Twin City $\frac{1}{2}$, Bell Telephone and Richelieu & Ontario $\frac{1}{2}$, indicates about these stocks must be that they have both great strength and are well supported. There were only three stocks of the clerical traded in which declined as was not unlikely at this time. These were Republic $\frac{1}{2}$ lower at 121, Montreal Gas 2 lower at 201, and War Eagle 1 lower at 210. These are all too highly priced stocks to be recommended without qualification as a purchase on such slender breaks as these.

MORNING SALES.

Can. Pac.—50, 91 $\frac{1}{2}$.
 Electric x-d—420, 192 $\frac{1}{2}$. 225, 192 $\frac{1}{2}$. 110, 192

 Mo. Gas—75, 202.
 Dom. Cotton—10, 104 $\frac{1}{2}$.
 Merchants' Bank—2, 170 $\frac{1}{2}$.

STRAWS.

Tennessee Coal and Iron's capital is \$20,000,000, and its earnings this year will be \$9,000,000.

Louisville city National Bank will liquidate. Capital, \$20,000; surplus, \$10,000. Depositors will be paid in full.

Brussels—The plan to Boycot the Paris Exposition, because of the Dreyfus verdict, is already under way in Belgium. Prospective exhibitors are withdrawing their names and a number of French commercial houses here are losing their old customers.

Large shipments of machinery and merchandise will be made in bond over the new Canadian Pacific branch into Republic district. The new line comes within 35 miles of Republic and is the nearest steam transportation road to compete with the Canadian line, the Spokane Falls and Northern Line will either have to cut rates to the extent of \$20 per ton or build a new line.

Michigan crop report for September says that drought has damaged corn and potatoes. The estimate of wheat crop is 8 bu. an acre, quality poor. As compared with that of average years its quality is 75 p.c., but 12 p.c. of last year's crop is still in the farmers' hands. Oats are estimated to yield 34 bu an acre and are in quality 96 p. c. Condition of corn is 77 p.c Rye will yield an average of 13 bu.

A circular has been received by many local banking houses about Brooklyn Rapid Transit. It says: "The plain, simple, honest fact is that business does not exist to enable B. R. T. to earn anything on its stock, and it is inevitable that there must be a deficit at the end of the fiscal year of at least \$1,000,000, after the franchise tax is imposed." The writer who issues this simple, honest statement, had not the simple, honest courage to put his name to it.

American Sugar Refining Company's new form of contract in use on Monday reads: 3-16, 30 days, 1 p.c. cash 7 days, no rebate. $\frac{1}{2}$ c rebate will be paid at the end of 60 days to those handling the American sugars only, except beet and domestic cane. B. H. Howell, Sons & Co. make the same price without the exclusive clause, 4.94, list price being 5.31. New York Sugar Refining Co. (Dosechers) have list price $5\frac{1}{2}$ less 1 p.c. less $\frac{1}{2}$ c equal to 4.95 net. Arbuckles' list price $5\frac{1}{2}$ net 4.80 or 1-16 below the American Co's net. Brokers are waiting to see what the wholesale grocers will do.

LONDON CABLE.

O. Meredith & Co.'s Cable gives the following London quotations:

MONTREAL MINING EXCHANGE.

STOCKS DULL — TRADING LIMITED —
LITTLE CHANGE IN ACTUAL VA-
LUE.

Montreal, Sept. 14.

Although business was limited, yet trans-
actions were steady and sales were made
at prices which in most cases show little
or no change.

The demand for the higher classed spe-
cialties is at present exceedingly limited,
excepting, perhaps, in the case of Old Iron-
sides, which was in good demand at 115,
although no sales were recorded; 500 shares
of Republic sold at 123. The bidding on the
last call was, however, only 117.

California remains steady round 11. Over
2500 shares changing hands. This is not,
however, as good a price as was obtained
yesterday by $\frac{1}{2}$ a point.

Big Three came in for its share of trad-
ing on rather a dull and uninteresting mar-
ket. The sales were made in broken lots,
the price being only fairly steady round 21.

In Montreal-London the tone was a little
firmer, 500 shares selling at 55 and a small
lot of 90 shares fetching the same price,
the reports in connection with the above
mine are reassuring and most encouraging.

The Slovan stocks remain firm and show
signs of buoyancy should an occasion permit
for a healthier and broader market. If the
labor trouble in that district, which has
for so long been a disturbing element,
should come to a satisfactory and final ter-
mination, all Slovan stocks would feel the
immediate benefit; 500 shares of Slovan Sov.
sold this A.M. at 37, and 1000 shares of
Rambler Cariboo at 49 $\frac{1}{2}$. There was no
enquiry for Dardanelles.

Enquiries for North Star still continue,
should Mr. Robbins' (who is at present
making an examination of the mine) verdict
be satisfactory, the result can easily be im-
agined. Mr. E. G. Rykert, who returned
from the West yesterday, speaks well of
this mine as being the leading property in
the East Kootenay. He affirms that regu-
lar shipments will soon commence, as soon,
in fact, as the C.P.R. have completed their
railway line to the mine, which will be in
two or three months time. Mr. Rykert
speaks most encouragingly of all the prop-
erties which he visited and is more than ever
convinced of the real nature of such world-
renowned mines as the Republic, Payne, etc.

MORNING SALES.

California—2540, 12.
Republic—500, 122.
Big Three—700, 21. 100, 20.
Montreal-London—590, 55.
Slovan Sovereign—500, 37.
Rambler Cariboo—1000, 49 $\frac{1}{2}$.
Virginia.—2000, 9 $\frac{1}{2}$.

AFTERNOON SALES

Deer Trail No. 2—2000, 24. 1000, 23 $\frac{1}{2}$.
Slovan Sov.—400, 38.
Big Three—500, 21. 500, 20 $\frac{1}{2}$. 500, 20 $\frac{1}{2}$.
Republic—1000, 121 $\frac{1}{2}$. 700, 122

NEW YORK EXCHANGE.

BANK OF ENGLAND STATEMENT BEING GOOD AND TRANSVAAL OUTLOOK BRIGHTER, AMERICAN STOCKS IN DEMAND - LONDON HOUSES BUY ATCH. PFD. AND ST. PAUL - T. C. I. AND B. R. T. DO NOT ACT WELL.

New York, Sept. 14.

The more favorable outlook in the Transvaal is reflected in the London market in advances of 3-16 p.c. in the price of Consols for both money and account. The market there is said to be dull, however, showing a firm undertone, with the usually active Americans, about $\frac{1}{2}$ to $\frac{1}{4}$ p.c. higher than our close.

The market is a waiting one, and business is somewhat restricted on account of the Jewish holiday Yom Kippin. London was not an important factor in our market yesterday. She probably bought some few stocks on balance.

The dominant influence was the greater ease or apparent ease, of the local money market.

The announcement that the government would forestall its October payments had a salutary effect upon prices, and later in the day when a great deal of money was offered round 6 p.c. the market displayed strength throughout the entire list.

There is a great deal of confident talk in the Street that A.M.T. will sell higher, provided the rest of the market does not develop weakness, and the recent buying of the stock tends to justify this belief.

New York (noon), Sept. 14.

The news from abroad this morning was again favorable. The British newspapers are inclined to take an optimistic outlook of the situation in the Transvaal, and the Bank of England rate not only remains unchanged, but the statement by the bank showed that it had again strengthened its position as compared with last week and was stronger than it was for the same week last year. Its proportion of reserve to liability is now 57.15 p.c. as against 51.25 p.c. last week and 49.25 p.c. last year.

Foreign houses were fairly large buyers of international stocks in the first hour, their purchases being especially heavy in Atch. pfd. and St. Paul. The fact that they were heavy buyers of the latter inclines the Street to believe that at the meeting of directors which takes place at 2 p.m. to-day an extra dividend will be declared in addition to the regular dividend. It is a well recognized fact that London houses often have better information in regard to the affairs of the St. Paul Co. than we have here.

T. C. I. showed strength at opening. On the advance, however, there were indications of liquidation by insiders, causing a decline of $\frac{1}{4}$.

It is not thought that B.R.T. acts well. It sympathizes more quickly with the weakness than with strength in the general market. The Flower support is rather scant.

Bull tips continue to be in circulation in regard to A.M.T. Co. It must be admitted that the stock acts very well and there are indications of good buying.

Manhattan continues strong, although the selling was called good. The Herald's story of a closer alliance between Man. and N.Y. C. is not altogether improbable.

Regular dividend has been declared on St. Paul.

MINING NEWS.

VIRTUE CO.

The news from the Cumberland mine recently acquired by the above company, indicates that the engineers who reported on the proposition were ultra conservative, in fact, the showing is such that the general public will wake up some day in the near future and find the stock selling around the dollar mark and will then wonder how it was they did not get in when they had an opportunity around 50 cents. Readers of the Exchange News who buy Virtue around present figures will make money, as the days go by and the work of development proceeds, the Cumberland mine shows that it is a veritable bonanza.

KNOB HILL.

A calculation made recently of the immense ore bodies on this property, taking the lowest values, shows that the ore at present in sight in the mine will yield a profit of some \$2,000,000; it is not surprising, then, that the price of the stock advances steadily and that notwithstanding its present figure, it is difficult to obtain any quantity. The whole mine is in ore, of course of varying value, but the average is much higher than what the general public suppose. We have heard talk of the stock ultimately selling at \$5.00, and though at the time we looked upon talk of this description as being of a distinctly 'ghostly' nature, we would not be at all surprised in the course of time to see the stock selling around the \$5.00 mark. Pending the erection of the smelter which is being pushed forward at a rapid rate, development work on Knob Hill is being actively pushed, and it is expected that early in the coming year Knob Hill will be in a position to pay dividends.

BIG THREE.

The news from the Mascot mine, one of the properties of the above company, confirms fully the report of the recent strike. The vein has not only been found, but as stated in previous issues of the "Exchange News," proves more valuable than the management at any time expected.

Present indications point to the assured success of the Mascot, which recent events have proved not only to be a mine, but one of exceptional value.

The latest report received from the Mascot shows that the development work is proceeding at a very satisfactory rate. Cross cut No. 3 in No. 2 Tunnel is now in 146 ft. and Crosscut No. 4 in the same tunnel measures 37 ft. The Intermediate West Drift is on 35 feet and Tunnel No. 3 is in 791 feet.

CALIFORNIA.

The feature of the business transacted on the different mining exchanges during the past week has been the large buying and selling of California, and the fact that over 200,000 shares of this stock has been thrown on the market and absorbed without depreciating values, but on the contrary enhancing them, speaks volumes for public opinion as regards its security.

The California mine is situated on the southwest slope of Red Mountain in the Trail Creek district, West Kootenay Sub-Division of British Columbia, and consists of 53 acres, the claim being 1500 feet wide. There is no doubt that the veins of the Le Roi, Jesie, and War Eagle properties run through the California, past development work having fully established this fact.

The new management have lost no time in arranging for a continuation of active development work, a complete electrical plant and equipment having been ordered which, as a matter of fact, is now on its way to the property, and there is every reason to believe that the close of the present year will see the California a shipper and probably before next summer a dividend payer.

The large quantity of stock recently thrown on the market and absorbed was the property of one of the original holders, who refused to join the present syndicate and did not, as we have heard stated, belong to a dissatisfied member of the syndicate. California is one of the most promising, if not the most promising, low priced stock on the list, and holders will undoubtedly realize handsome profits within the next twelve months.

INTEREST IN SUNSET SOLD.

Grand Forks, B.C., Sept. 7.—R. A. Brown "Volcanic" Brown, as he is known far and wide, received word recently that a bond on a fifteen-thirty-second interest of his in the Sunset, a Smilkameen copper proposition, has just been taken up by Hon. C. H. Mackintosh, of Rossland. The consideration was forty thousand dollars cash. The property was discovered by Mr. Brown in 1888, and located by him four years later. It is situated on Copper Mountain, ten miles from Princeton. The property has croppings one thousand feet wide in place. Its value may be learned from the fact that the workings only consist of a forty-three foot shaft. Average assays give 20 per cent. in copper, but the azurite has given returns of over 60 per cent.

Coffer dams to aid in the construction of the dam for the smelter now building here have been laid two-thirds of the distance across the north fork of the Kettle River. Men are removing the boulders preparatory to cutting out the bed rock to receive the foundation timbers of the dam. The river has already risen sufficiently to develop two thousand five hundred horse power. The lumber for the mill flume, which will convey the water to the smelter, sampling mill and dwellings of the officials, as well as the big retaining wall, have been completed.

WILL GO TO SPAIN.

Vancouver, B.C., Sept. 12.—W. A. Carlyle, superintendent of the Le Roi mine, has accepted the management of the Rio Pinto mines, in Spain, with a salary of \$25,000 a year. His present salary is \$10,000.

CHICAGO MARKET.

INCREASING WEIGHT OF WHEAT ON HAND MADE THE MARKET DULL — SPECULATION IS READY, BUT GETS LITTLE ENCOURAGEMENT FROM EUROPE.

Chicago, Sept. 13.

Spring wheat is at a premium on the local market and is so because the bulk of the local stocks is not of this option, but is in winter wheat now practically unsaleable, owing to lower offers from other places. Today's market was not of the ultra professional character of yesterday's when wheat at Chicago was very little below New York price, an unnatural condition in view of the freight charge. The increasing weight of wheat actually on hand acts as the principal depressing factor, there being daily primary receipts of one and a half million bushels. French and English crop reports too, are being reported better than expectations owing which no new buying orders are to hand, and demands of shorts for cover are satisfied in the meantime. Openings today were the half of them at the same price as the previous close and the other half $\frac{1}{4}$ higher. Succeeding sales appeared to be working to a higher level, but were not carried on with anything like yesterday's activity. Though strong, the market was dull and gave occasion for the remark that wheat price might rise by speculation, but there is little encouragement from Europe. The chief activity in the early part of the day was in December wheat in which option prices were working higher.

Liverpool cable gave this morning wheat and corn $\frac{1}{4}$ higher, while at Paris wheat and flour were unchanged.

Of provisions received today there were 26,000 hogs, 7,000 cattle, 14,000 sheep.

Primary receipts, 1,154,300; shipments, 234,000, as compared with last year, 1,110,671; shipments, 977,873. Minneapolis and Duluth, N. W. cars 879, as against 739 last year.

Thirty-one loads sold to-day at New York, that is, 248,000 bushels for export.
