HANNA STEMMED FLOOD OF ORATORY

Provincial Secretary Challenged Every Member to Suggest One Instance of the Wrongful Manipulation of Tenders and No One Answered.

Standing up on the floor of the legislature at a late hour last evening, Hon. W. J. Hanna stemmed a flood of opposition oratory and challenged every member in his place to suggest one instance of the wrongful manipulation of undertakers or coal tenders. The pause which followed the hurrying down of this gauntlet signified more powerfully than anything else could have done the utter collapse of the Proudfoot charges. Not a voice broke the silence for a few moments, and then Hugh Munro of Glengarry, whose declamation had been thus interrupted, confessed that he did not believe anything of a dishonorable nature had occurred. Applause broke loose and rattled about the galleries. This moment came as one of the more thrilling in an afternoon and evening session crammed with periods of high tension and strained political feeling. The bringing in of the report of the privileges and elections committee by Chairman Howard Ferguson, and the submission of a minority report, a few time later, with a full opposition lined up behind it, clamoring for a further probe with a royal commission, stirred the fighting blood of all the members, and aroused many a sharp exchange.

Wm. Proudfoot of Huron, standing by his guns, was the object of severe criticism by government members, and caustic statements from his lips drew some bitter retorts from the premier.

The notorious Malsonville letter was produced and read sentence by sentence to the house, and at its close, one by one, members rose to repudiate its contents and the breach of faith by which it had become public. Early in the afternoon, His Honor Lieut-Governor Gibson informally gave royal assent to the bills of the year and made them law. The assembly then turned to the Proudfoot charges and continued until adjournment. The first morning session of the year is called today at 11 a.m. Ragged Tempers. Mr. Proudfoot at once waded into his subject amid the feeble cheering of the opposition. The whole matter, he said, had been brought to his attention only a few days before it had achieved prominence in the house. It had sprung from two items in the public accounts which had been challenged, and the

BYRON H. STAUFFER SAYS HE'S A MUGWUMP

Was in a Box at the Laurier Meeting, But Is Not a Liberal.

Rev. Byron H. Stauffer glories in being put down as a mugwump. He says so himself, and he ought to know. He occupied a box at the Laurier meeting on Monday night, and his name appeared in The World with "other leading Liberals." Mr. Stauffer is not a Liberal. In a letter to The World he states that he is independent, always was and always will be. He thinks very highly of Sir Wilfrid Laurier and of Right Hon. R. L. Borden. He holds himself free to denounce corruption in both political parties. He asked The World to correct the impression that he is a Liberal. The World gladly does so. Rev. Byron H. Stauffer is not a Liberal. He is a mugwump.

COULD NOT STAND FOR TEDDY'S TRICKS

This Three-Year-Old Made a Year's Trouble in One Day.

Special to The Toronto World. HAMMONDS, Ind., May 6.—Mrs. H. E. Granger, an enthusiastic church and charity worker, found a three-year-old named "Teddy" in a tenement house last night, where his mother was too ill to talk. Mrs. Granger took Teddy home to care for him. She is willing to give him up now to anyone who wants him. This is his record for today: Knocked out her 7-year-old son, Forrest, in pit of stomach with baseball. Whipped 3-year-old Ellis Granger, who came to his rescue, set fire to the house by starting fire with box of matches in parlor and went to plant garden seeds in mess. Turned house on H. E. Granger, his benefactor's husband, a lawyer, and ruined his clothes. Painted front of house in yellow from paint left by workmen in woodshed. Teddy is now tied to the ice box.

FISHED FOR TROUT IN REFRIGERATOR

Danced at Four A.M.; Threw Cat at His Wife—Result, Divorce.

Special to The Toronto World. ST. PAUL, Minn., May 6.—Fishing for trout in the pan under the refrigerator at 4 a.m. was one of the amusements in which Harry Edward Hollum indulged during his married life, according to testimony in a divorce case tried today. Mrs. Dorothy Hollum, the plaintiff, said she had been subjected to the fishing exploit if it had been conducted with the silence usually observed by the disciples of Isaac Walton, but Mr. Hollum grew boisterous. Every time he thought he had a bite he hailed the household with joyful shouts. He varied this form of amusement by making his wife get up in the cold gray dawn of the morning to play dance music on the piano while he danced. Another form of surprise he used when he took the house cat and threw it upon his wife's bed to awaken her. Mrs. Hollum was given the divorce.

SLAYER OF FATHER BEFORE MAGISTRATE

GODERICH, Ont., May 6.—(Can. Press.)—Robert Gordon, charged with the murder of his father, Hugh Gordon, as a result of a blow struck during a quarrel with a woman, yesterday was given his preliminary hearing before Magistrate Johnston at Seaford tomorrow afternoon on arrival of the Goderich train with the prisoner, who is now in the county jail. The same nine witnesses called at Coroner Scott's inquest last week have been subpoenaed, so that the hearing promises to occupy the remainder of the day. Crown Attorney Seager will conduct the case. Miss Annie Gordon, who was ill when the inquest was held, may be called this time, and some questions may be asked Joseph Gibson, a neighbor, in connection with charging of blood stains from a post near the Gordon barn.

STILL WAITING

LIBERALS, FRESH FROM CAUCUS PROPOSE THAT NAVAL AND GRANT BE VOTED FROM YEAR TO YEAR

German, Mouthpiece of Opposition, Moves That Parliament Retain Control of Outlay as in Carrying Out Public Works—Senate Will Kill Naval and Highway Bills.

OTTAWA, May 6.—The two parties are coming to close grips in the final debate upon the bill, which began shortly before 6 o'clock this evening.

William H. German, the Liberal member for Welland, stated out with appear to be the lines of battle and announced the policy of the Liberal party. Mr. German's position is that the \$26,000,000 should not be appropriated by special act of parliament to be expended by the government-in-council free from parliamentary control, but that it should be voted from year to year in the supply bill and its expenditure kept strictly under the eye of the house of commons. With the Laurier naval service act on the statute books, Mr. German said the present bill was unnecessary.

TWO KILLED BY DYNAMITE

Bars of Steel Carelessly Thrown Caused Terrible Explosion at C. P. R. Construction Camp.

KINGSTON, May 6.—(Special.)—Two men, William Leeman of Sydenham and a Pole, whose name is unknown, were instantly killed in an accident which occurred in a construction camp for the Canadian Pacific Railway at Enterprise. The Pole carried some bars of the steel into the blacksmith shop and threw it on a box of dynamite caps.

EX-POLICE INSPECTORS GUILTY

NEW YORK, May 6.—(Can. Press.)—James P. Thompson, James E. Huesley, John J. Murray and Donald Sweeney, the four demoted police inspectors charged with conspiracy to obstruct justice, were convicted by a jury in the supreme court shortly after 8 o'clock to-night.

BOY FATALLY HURT BY MOTOR WOMEN INJURED IN RUNAWAY MINOR ACCIDENTS OF A DAY

Edgar Pike, Ten Years Old, Will Die of Injuries Sustained When Motor Car Ran Into Store at Harbord and Lippincott—Two Women in Hospital as Result of Yonge Street Runaway—Street Car Conductor Died.

When the driver of a motor car put his foot on the accelerator instead of the brake while going west on Harbord street at six o'clock yesterday afternoon, and one of the occupants of the car became excited and grabbed the steering gear, the car swerved, jumped across Lippincott street, tore thru an ornamental iron fence, swerved into the plate glass window of the furniture and print shop at the southwest corner of the streets, swerved again and knocked ten-year-old Edgar Pike inside the store, smashed another window and came to a standstill in front of a tree.

G. C. Campbell, barrier, 41 Willcocks street, was driving the car. He was overcome and is ill at home. The boy, whose left leg and right arm were broken, is suffering also from internal injuries, and at midnight it was stated at the Western Hospital, that he had very slight chance for recovery. His father lives at 149 Brunswick avenue.

The little fellow was delivering papers at the time, and was standing just inside the door, when the big machine shot across the sidewalk like an arrow from a bow. Before he could jump to safety he was caught by the front part of the auto and hurled inside the store with terrific force. The little wagon which he was using to convey the papers he was delivering was caught by the front wheel of the car and smashed into kindling wood against an iron fence. Dr. Harold Clark, 44 Wacker street, one of the trio of passengers in the car, picked himself out of the wreckage and immediately rendered first aid to the victim, who later was rushed to the hospital in Harry Ellis' ambulance.

How It Happened. Mr. Campbell, who drove the car,

was so upset by the occurrence that he was unable to clearly remember how it had happened. He referred to the president of the English movement as "the English movement" and said that he was very sorry they have my poem, "The Awakening," as their official song. Their conduct is a case of a bull in a china shop and equally intellectual.

Drayton's Salary Raised

OTTAWA, May 6.—(Special.)—Hon. Frank Cochrane, minister of railways, has given notice of a resolution to amend the Railway Act so as to provide that the chief commissioner of the board of railway commissioners be paid an annual salary of \$12,500. The present salary of Chairman H. L. Drayton is \$10,000 a year.

DRIBBED A WOMAN TO PUT BOMB AT HOTEL

Militant Suffragettes Accused of Hiring an Agent to Place Bomb at Door of Grand Central Hotel—Miss Wilcox Would Allow Hunger Strikers to Starve.

Special Cable to The World. LONDON, May 6.—(Copyright.)—Bribing a woman, an habitual drunkard, well known to the police, to place a bomb near a door of the Grand Hotel, Charing Cross, is the latest exploit attributed to the militant suffragettes.

This woman, Ada Ward, was seen by a policeman to place a parcel under a window close to a door of the hotel at 2.30 o'clock this morning. He picked up the parcel and found it to be a long tin canister with a lighted fuse and a "votes for women" label attached. The Ward woman had hurried away and the policeman, having put out the fuse, placed the canister against a gas lamp in the middle of the street and followed her, but she quickened her pace and ultimately was stopped by another constable.

REDUCED RATES ON AEROGRAMS

Four Pence a Word For Plain Word Messages Between Canada and Great Britain.

LONDON, May 7.—(C. A. P.)—H. F. Baxendale, managing director of the Universal Radio Syndicate, which controls the Poulsen system of wireless telegraphy here, said yesterday that although the contract which had been arranged with the Canadian Government for a wireless service between Great Britain and British North America provided that the service must be in operation within twelve months, he had no doubt it would be in operation in September. A site for their station on this side of the Atlantic at Ballybunnin, near the mouth of the River Shannon had already been selected, and two or three places on the other side of the Atlantic were now under consideration as possible sites for a Canadian station, in regard to which, decision would be arrived at shortly.

LONDON PATIENTS FEELING BETTER

But Local Doctors Treat Friedmann With Rather Marked Frigidity.

LONDON, Ont., May 6.—(Can. Press.)—Thirteen of the fourteen patients treated by Dr. F. F. Friedmann at his clinic in the Institute of Public Health on March 15 returned this afternoon to be examined by the German scientist. Of the thirteen one returned to receive another second was not necessary at the time and the other eight were given the serum.

INSPECT NEW HOSPITAL

A deputation of the Toronto Board of Education visited the new Children's Hospital for Consumptives building at Weston yesterday afternoon. Among those who visited this building, which is to be formally opened in June, were Trustees Brown, Noble, Hopkins, MacKay, Chief Inspector D. Ferguson and Mr. Kerr and the medical health officer, Dr. Hastings.

POLICEMEN HURT IN SERIOUS RIOT

Laborers' Strike in Syracuse Caused Trouble and Mob Was Fired Upon After Attacking Police.

Special to The Toronto World. SYRACUSE, N. Y., May 6.—Determined efforts are being made here to-night to settle the strike of building laborers, which today developed a series of riots, in which 25 persons, 9 of them policemen, were wounded.

The strikers met this afternoon with Charles Scott, Italian consular agent at Rochester, who came to Syracuse and appointed a committee of eight persons to wait on the employers, with a view of asking that the wage dispute between the laborers and contractors be adjusted by arbitration. The contractors have signified their willingness to have the matter arbitrated.

Order was restored with the first negotiations, and the three local companies of state militia, which had been called out when the riot situation assumed a serious aspect, had nothing to do. The soldiers were quartered at police headquarters.

The strikers, mostly foreigners, had paraded the streets daily, and this morning 500 of them attempted to force workmen from a structure on the square in front of the Cathedral of the Immaculate Conception, in the heart of the city. Fifty policemen and a fire company were rushed to the scene and were greeted with a volley of brick stones. The police took frighten the strikers, drew their revolvers and fired into the mob. The rioters continued to charge the officers, several of whom had fallen with scalp wounds. Weapons were then lowered and the police fired at the strikers, injuring a number and forcing them to retreat.

After this disturbance, Chief of Police Cadin ordered the police to "shoot to kill at the first sign of riot. Protect yourselves and protect property" were instructions.

A Dream of Success

EVERY young man starts his life with a dream of success. Dreams are the architect's plans for the building of life.

Every successful business, every successful career was conceived in the mind long before it was carried out. But remember this. Dreams are only plans. Intelligent and energetic action is necessary to make your dreams come true.

So dream your dreams, young man. Your dreams of wealth and power and happiness. But after you have dreamed your dreams then quietly take off your coat and go to work.

"That is all very well," you say, "but how shall I make a start? How shall I begin doing the thing that I want to do?"

HANNA STEMMED
FLOOD OF ORATORY

Continued From Page 1.

action of the committee had caused it
to be brought up in the present form.
For the first few moments he dealt
exhaustively with the proceedings in
that body showing that they had de-
clined to force Taylor to answer cer-
tain pertinent questions. Then all the
rest of the affair had followed in logi-
cal sequence.

But I did not intend to make a
charge upon the floor of the house
without having the fortification of leg-
al friends," he said, and quoted the
opinion of E. F. B. Johnston, K.C., and
others in support of the action he was
about to take. Mr. Johnston had felt
the charges warranted and would have
appeared before a royal commission in
his behalf. Mr. K. Cowan, too, had
given his services as far as available.

The member then referred to the
position of Thorne, the arbitrator, and
was inclined to derive the certificate
of acquittal given him by W. K. Mc-
Naught. Moreover, he had come to
the point to appear as a witness and
had beforehand had a chat with Mr.
Nesbitt.

Maisonville Letter.
It was the reading of the Maison-
ville letter, however, which stirred up
the first excitement. This, which was
given in full, contained several strong
expressions and allegations, upon
which the member dwelt with unctious
acknowledging that it provided some
basis for the charges. One unpleas-
ant sentence to the reader stated that
it was not intended for publication
and showed that it was only there
because of confidence that it ever had
become public.

On the completion of the reading,
the premier enquired sarcastically if
that were all. "Who is the Harry men-
tioned?" he demanded.
"Will let him draw his own conclu-
sions," was the non-committal reply,
and the rest of the government.

Where did you get your letter?"
and "How much did you pay for it?"
were further taunts which brought
the flush to the speaker's cheeks.
"I did not come from our party
anyway," he replied.
"That accounts for you not wanting
to go into the box," he said.

SMALL SUBSCRIPTIONS NOW
NEEDED FOR BOYS' DOMINION

No Personal Canvassing Is Being Done and if Ten Thousand
Dollars Is to Be Raised This Week Everyone Will Have
to Send Something.

In addition to the subscriptions ac-
knowledged in this column yester-
day the following have been received
for the Toronto Boys' Dominion:
Previously acknowledged \$1,350
John M. Gokey 500
W. G. MacKendrick 500
F. H. Deacon 200
A. F. Rutter 25
P. Lewis 5
Annie M. Alcock 2
A. Friend, Cobourg 2
\$2,885

All contributions, whether in cash
or promises, should be sent to Thomas
Bradshaw, treasurer, 123 Shuter st.
To insure the securing of \$10,000 by
Saturday, the remaining days of the
week must be used to the best advan-
tage. The larger subscriptions are saving
the day, but the smaller amounts are
especially desired, as showing a wide-
spread interest in the work. Remem-
ber that no personal canvassing is being
done, but that the Boys' Dominion
Board expect the friends of the work
to send in their contributions without
personal solicitation.

The Dominion of Canada affords a
model for a self-governing boys' club,
that can be carried on to its logical
conclusion. There is need of mature
judgment at the head of affairs, of the
superintendent, who acts as gov-
ernor-general, representing the high-
est authority which is vested in the
board of directors, can exercise. An
elected head subject to the popular will
could not hold the balance even. There-
fore the republican form as an ideal
cannot be consistently lived up to in
a self-governing boys' club.

The Toronto Boys' Dominion follows
faithfully its pattern, the Dominion of
Canada, with the various branch clubs
under its jurisdiction taking the place
of the provinces. Each province elects
its own legislature and passes all laws
affecting its own club; collects provin-
cial taxes and administers justice. The
Dominion Parliament is composed of
representatives from all the provin-
ces and passes laws only affecting the
general administration such as the
control of athletic meets and leagues,
summer camps, etc.

Each province has its own court
and the judges of all the provinces
preside over the supreme court. Hav-
ing real money, collected by direct
taxation, to spend, makes the parlia-
ment a real and not a mock parlia-
ment. Appropriations are passed for
each department and the money must
be carefully expended, as the watchful
eye of the opposition is constantly on
the alert. The minister of public
works keeps everything in repair that
may be injured or broken by the boys;
the minister of justice has his depart-
ment organized so as to check and
punish offences; the minister of ath-
letics provides the athletic goods and
prizes for meets; while the minister
of agriculture has to consider the wel-
fare of 150 rural communities and the
home gardens of the boys.

The two political parties are known
as "Federalists" and "Unionists." The
first election was fought on the merits
of the individual candidates chiefly,
but as soon as a party came into pow-
er it created a policy that the opposi-
tion sought to improve. In the uni-
versity and central neighborhood prov-
inces the Unionists are in power; at
Moss Park, the Federalists; East River-
dale Province has not yet held its first
election. The Federalists are also in
power in the Dominion—15 to 12.

PROUDFOOT CHARGES
WITHOUT FOUNDATION

Premier Whitney and Mr. Hanna
Completely Exonerated by
Privileges Committee.

The division of feeling which had
occurred between the members of the
two parties during the session of the
privileges and elections committee, be-
came apparent in the reports which
followed its close yesterday. That of
the majority which was presented to
the house in the afternoon, summed
up that after a full and complete en-
quiry, the committee found that there
was absolutely no evidence to support
the charges preferred by Mr. Proud-
foot, and that they had no foundation
in fact. The statement of the Liberal
opposition, on the other hand, maintained
that a full inquiry had not been re-
quired to appoint a royal com-
mission to investigate the whole sub-
ject of the charges, in order to secure
a full and impartial investigation.

The authoritative report tabled by
Chairman Howard Ferguson in the
afternoon, reviews the history of the
case from the time that the Taylor-
Scott contract had been arranged with
the government, and shows in detail
all the evidence accumulated in the
hearing. The difference of opinion and
the circumstances leading up to it, and
the ultimate settlement thru arbitra-
tion were given, and the evidence of
each of the witnesses showed the base-
less nature of the charges. It was
clear that neither of the ministers con-
cerned was in any way guilty of any
wrong conduct, and everything showed
that the premier was not closely in
touch with the matter.

The minority report, however, has
no hesitation in pointing out that the
methods of the committee were not
such as to allow a thorough investiga-
tion. The whole matter is there re-
ferred, and the proximity of election
and the fact that the issue of the flat
followed after a visit and threat of
Taylor, is still taken to mean that
corrupt practices was caused.

The last straw, they maintained,
was the refusal of the right to cross-
question Mr. Hanna concerning the
\$500 contribution.

and repairs to existing buildings are
relegated to the supervision of the
building inspector.

A Young Man's Investment
MONARCH PARK

To the young man of limited capital, MONARCH PARK of-
fers a very attractive and remunerative investment.
It is first-class property—naturally beautiful, and is in the
midst of the big East End developments.
It is situated in a good portion of the city—on Danforth Av-
enue, just east of Greenwood Avenue.
The Parliament Street cars run within a ten minute walk of
the property, at Gerrard Street and Greenwood Avenue.
MONARCH PARK has water and sidewalks already laid. Elec-
tric lights are in on part of the property. Arrangements are
being made to have gas and sewers installed.
It is a good investment, that will bring quick and substantial
returns, and, moreover, it is Cheapest Restricted Property in
the East End.

PRICES
range from \$35 per foot upwards. Terms—\$100 down, \$30
quarterly, and the whole to be paid in three years.
The price, the terms and the property are especially suited to
the pocket of the young man.

BUILDERS are requested to see us regarding special
reduction on selling prices.

TWO TOMMIES AGAIN MUTINY
DURING SALARY DISCUSSION

When Increases For Low-Paid Clerks Were Taken Up
Church and Foster Left the Meeting of the Board of
Control and Refused to Discuss the Question.

The two Tommies have again muti-
nied. Why they mutinied this time
is a conundrum. The board of control
was in private session in the office of
Mayor Hocken, dealing with the in-
creases in salaries of employees in the
works department. The higher salar-
ied employees were disposed of with-
out a hitch, but when increases of sal-
aries for those who are paid around
\$12 a week came under consideration,
Controller Church and Foster, who
were present, and they both raised ob-
jection on the ground that the recom-
mended increases were for those who
are not scheduled. The majority on
the board explained that the scheduled
employees would be given consideration
afterwards, but Controller Church in-
sisted upon having his way. He did
not get it, and he and Controller Fos-
ter left the room. Controller Church
kept on going until he was out of the
city hall, and he remained out. His
position is that if he could not boss
the board he would not stay to do
business.

It was then 11 a.m. and time for the
public meeting of the board. Mayor
Hocken, accompanied by Controllers
McCarthy and O'Neill, opened the
public meeting in the committee room.
Controller Foster followed in and took
his seat. He fought his best to pre-
vent any business being done in re-
spect to the salaries estimates, and
he found he had victory about as near
as a million dollars is to a has been.
"Protest against going on with this
meeting without a full board," Con-
troller Foster commenced.
"Why don't you bring Controller
Church here, then?" Mayor Hocken
enquired.
"We objected and left the room,"
Controller Foster declared, "and Con-
troller Church has not returned."
You Can Leave, Too.
"You, too, can leave the room now,"
Mayor Hocken suggested, disgust
at the mutiny showing plainly upon his
countenance.
"I mean that we adjourn," Controller

WHAT CHILDREN SHOULD EAT

After ten months' or a year of breast-feeding it is easy to wean a baby. Once upon a time it was the cruel custom to start a baby on artificial food at a month's notice. The poor child found himself one day happily enjoying every minute of life, and the next he was confronted by an immense glass thing with a rubber top, or a huge white thing called a cup, accompanied by a peculiarly shaped utensil somebody said was a spoon.

GREAT GOOD IS BEING DONE BY WOMEN'S NATIONAL COUNCIL

Domestic Service Problem Discussed—School Training For Girls Necessary—Better Class of Books and Moving Pictures Are Found as a Result of Women's Efforts.

By a Staff Reporter. MONTREAL, May 6.—(Special.)—"Compulsory education" was taken up briskly as the first important item this morning. Mrs. Bellon of London said that Manitoba has no compulsory educational act.

"I have looked forward to this day for years," was the prelude of Miss Peters' address on the subject. In her home in St. John, N. B., she had worked for years to obtain what the National Council of Women was now trying to obtain.

"The domestic service problem was gone into fully by Mrs. Short of Ottawa. She outlined graphically the home with its five or six young children, the mother confined by illness and the father struggling against the adverse circumstances of his surroundings. Yet no domestic help is available.

"Circumstances generally show that we are not going to get suitable domestic help in England or any other country." She knew the assertions sometimes made about the homes here not being such as would attract girls. The number of hours the majority of places that are waiting to receive the desirable immigrant girl.

A suggestion Mrs. Short threw out was that between 14 and 15 years are often unemployed, who might act in many cases as pages in winter and in summer work on the farms and to alleviate the pressure somewhat.

"One point not yet discussed," said Mrs. L. A. Hamilton, "is that standardization has not yet been arrived at. The number of hours the girl shall work; the amount of remuneration she shall receive, are not yet agreed upon. The moment this is done and the girl's feet are put upon the same footing as the other girls employed, at that moment will the girl prefer the service in the home to that of any other."

The report on employment for women then summarized the things desired by its framers. Mrs. Leathes said all the items for which the report of Miss Dericks reported close inspection over the-land. There is there an eight-hour day for men and women. No child under 15 may work in shops and factories. The fishing report for needy mothers with children have all been secured.

New Zealand for the last 20 years has had woman suffrage and results are as above quoted. "Fifty thousand immoral postcards have been printed from one plate in Montreal in the past few years," Mrs. Liddell's report on objectionable printed matter, in Victoria a number of books unfit for publication had been found in the stores. West Algona reported close inspection over the-land, picture shows and books. One objectionable play had been censored. The staff of the London library are endeavoring to induce its clients to read less fiction and engage in books of generally higher usefulness.

Over 70 picture shows are now in Canada a greater number than in all other countries. Some manufacturers would prefer to exclude trade-shows owing to expense, but the public demand it. A splendid use was made

of the moving pictures in the parks of Montreal last summer by showing screens from the child welfare exhibition being plentifully shown. A censorship board has been in operation about a week.

In seconding the adoption of the report on objectionable printed matter, Mrs. Mather claimed for Kingston the honor of having first brought the matter to the attention of the council. Much good has been done. The post office now passes scarcely any matter of the character mentioned. She, however, urged that the council should observe particular care with regard to the books that drift into public and Sunday school libraries, and also a greater guardianship over the moving pictures.

Two regrettable incidents which have affected the members of the council were the recall of Mrs. Plumtree to Toronto, due to the serious illness of her son, and the loss by drowning of the nephew of Mrs. Short of Ottawa. Both ladies have the sympathy of the entire assembly, and Mrs. Plumtree, as secretary of the council, is very much missed.

If it were not that the hospitality of Montreal increases day by day, it is possible that today the highest zenith possible had been achieved. Celebrating their twenty-first birthday, the Women's Club of Montreal, gave luncheon to the delegates at the Ritz-Carlton Hotel. Many of the hostesses and ladies of the city were also present. The charming environment of the luncheon provided by the unsurpassed beauty of the magnificent new hotel is something to be remembered.

Madame Fortier, president of the club, presided, and gave the visitors a charming welcome. Mrs. Torrington replied just as charmingly on behalf of the council, saying in the course of her address that this was one of the happiest moments of her life. An automobile drive thru the city, a visit to the Royal Edward Institute, the finest tuberculosis dispensary in America, and perhaps in the world. Addresses from Mrs. MacDonald McCarthy and Mrs. Short at the institute, and from Mrs. Owen Phillips, who all part of a long-to-be-remembered afternoon.

Copies of the first issue of The Women's Century, a paper devoted to the general interests of women, and containing a great deal of interest to the council, clubs and affiliated societies, were distributed during the evening session. The makeup and matter of the issue is most creditable, and it is hoped that women throughout Canada may become interested and make its columns the vehicle of expression for their many activities. The editors are Mrs. Campbell McIver and Mrs. J. C. Wilgar, and articles from Jean Blewett, Mrs. Albert E. Gooderham, Mrs. L. A. Hamilton, Sonia Leathes, Margaret Patterson, M. D., and other well-known women are found in this first issue. M. L. Haft.

Royal is absolutely pure and wholesome, the best in every way, of all the baking powders. It makes food of finest flavor, and adds anti-dyspeptic qualities thereto. It has greater leavening strength and is therefore the most economical.

For the benefit of the many persons who believe that it is an easy matter to stage and properly equip a picture company on small capital, it might be interesting to note that a large collection of tiger, leopard and other skins gathered from South Africa and other parts of the world are worth over five thousand dollars were used in a recent production of the Powers Company.

The Salada Tea Company have issued a writ for \$5000 against Messrs. Ward & Co. of Montreal for using the word "Salada" as a brand for salmon.

EFFICIENT HOUSEKEEPING

Home Made Bread—Setting the Sponge

THE first requisite for good bread is fresh yeast. A reliable brand of compressed yeast gives best results and is the easiest to use.

Break the yeast cake into flakes with a fork and put it into a cup of lukewarm water for at least an hour. This eliminates the strong odor so noticeable when yeast is first unwrapped and dissolves all the particles of the cake.

When you are ready to mix your sponge measure the amount of sugar that is called for in your recipe and put it in the cup with the yeast. Fermentation will commence at once. Then, when you mix all the ingredients together the rising, leavening process will begin immediately.

There are a number of old superstitions on the subject of bread-making that should be thrown into the discard.

Bread making may be included in the list of quickly cooked foods for, with the process that I am giving you, light, sweet bread can be made in a remarkably short time.

For eight loaves of white bread measure eight quarts of flour. Have ready a large bread bowl. Add two tablespoons of salt to your flour and sift it. Make a hollow in the centre of the flour; pour into it three pints of slightly warmed milk, two heaping tablespoons of melted shortening and the yeast and the sugar. Add a half a teaspoon of baking soda.

Stir the mixture slowly with a stout spoon or a bread paddle until all the flour is gathered in.

Sift a little flour onto the bread board and a little over the mass of dough. Lift the mixture from the mixing bowl and proceed to knead it. If you are not an experienced bread maker, separate the dough into two portions and work them separately.

Touch the dough lightly at first, pulling it up and pressing it down into the centre; if ever it seems wet or sticky add a little more flour.

When it is a compact mass and seems somewhat elastic to the touch knead more briskly with a rotary motion until a satiny, spongy feeling results.

The exact time for kneading cannot be given, for this is governed by the quality and amount of flour used. This knowledge will come with experience.

One of the mistakes that bread makers often make is working too much flour into the mixture. If you want a moist, fresh tasting loaf use as little flour as possible.

When the feeling of the sponge beneath your hands tells you that it is worked enough, form it quickly into eight nice loaves. With a few turns on the board it will almost shape itself. If large air cells form, pinch them open or pat them out.

Grease the bread pans and put the loaves in. Cover with a blanket and set to rise in a warm place; four hours later they will have almost doubled in size and be ready for the oven.

Bake in a slow oven over fifty minutes, cover with a paper if the tops get too brown.

The oven heat should be low at first, as I told you in my preceding article, so the bread can rise before a crust forms.

After twenty minutes the heat may be somewhat increased.

I am perfectly aware that my readers, who for years have set their sponge over night and gone thru the laborious, old-fashioned method of mixing, will call this a slipshod way of baking bread, but hundreds of women are making first-class bread in this easy way and agree with me that it is the best way.

Tomorrow—yeast plants.

HY MAYER'S FUNNY CARTOONS TO BE SHOWN ON SCREEN.

HY Mayer, the cartoonist of The New York Times, is one of the best known of American "funny" men. His apt lampooning of passing fads and fancies has made him a household name. His cartoons are so full of life and expression that he manages to instil a few strokes of the pencil, have given him a vogue as wide as the continent.

His host of admiring followers will be delighted to know that thru a recent contract with the Universal Film Company, Mr. Mayer has arranged to present a weekly series of his cartoons on the screen.

BARBARA TENNANT PROVES HERSELF A GAME RIDER.

The thousands of admirers of Miss Barbara Tennant, the leading lady of the Belair Company, have known her for some time as the charming society girl, and even as the beautiful, wild, Tess of the Hills; but few have ever thought of her as a real "honest-to-goodness" cow-girl.

In "The Return of Crime," Miss Tennant is shown, while riding a horse thru one of the beautiful parks of Florida, trying to get away from a young man in pursuit, also on horseback. Her horse dashed down the road like a mad runaway, and when they reached a turn in the roadway she gave a quick twist of the rein, the horse swerved and she went tumbling into the ditch alongside the road. It was a more dangerous "stunt" than Miss Tennant thought, and when medical aid was summoned she did not have to be advised not to do the fall again that day, which was necessary to complete the picture.

"THE UNKNOWN" TOUCHES THE HEART.

A domestic tragedy that had its inspiration in a real life happening is the Victor Company's "The Unknown," which will be shown at the Belair on May 9. It tells the story of William Gardner, who driven to desperation by the fatal illness and poverty of his wife, commits a theft. He is sent to prison and his little girl is left to strangers. BEAUTIFUL PICTURES SHOWN AT BIG KODAK EXHIBITION

The Art of Photography Is Seen at Its Best in Massey Hall This Week, Where Lectures Are Given to Camera "Fiends" and All Interested.

"It's just a photograph," used to be reckoned very severe criticism at art exhibitions, but since artists started to use the camera, the remark has lost its sting. A photograph now means anything from a hard-edged record of machinery to a wonderful monochromatic picture of Venice at its sunset.

Visitors to the Kodak Exhibition in Massey Hall this week will marvel at the variety of tint achieved by ordinary photographic methods, and the high art quality of many of the compositions.

The majority of the pictures, of course, are interesting because of the subjects—incidents in the life of the old world and the new, and places of historical and artistic interest.

Dr. William Torrance Stuchell, who is in charge of the exhibition, lectures afternoon and evening, illustrating his remarks with many beautiful pictures, depicted entirely, of course, to the credit of the camera towards a fuller life-making records of baby's early steps, for instance, or bringing back some pictures from vacation which will visualize past pleasure in years to come.

Those who seize the opportunity to talk with Dr. Stuchell after his lecture, will meet a very interesting gentleman. He is just completing a thirty-two weeks' tour with the Kodak Exhibition, and will go to the West Indies and South America after special photographs when his present tour is finished. His lectures do not deal with the practical side of photography, a number of experts being present to give any special information desired.

The lectures and motion pictures are different every day. This afternoon, "Out in the Open With Kodak" will be Dr. Stuchell's subject, and in the evening "The Kodak in Many Lands." One can spend a delightful half hour after the lecture viewing the pictures ranged round the auditorium and basement walls. Every country is represented by some intimate scene or subject of educational or artistic interest, and the remarkable feature of the exhibition is that these pictures are all selected from the work of amateurs using Eastman Kodaks. Many of them, of course, are very expert amateurs, but photography is not their business.

The exhibition is free to all, and while it is financed by the Eastman Company, no one is asked to buy anything or pursued to do business in any way. The only danger is, of course, that after seeing it, one may become a camera fiend. This need not worry, however, judging by the exhibition, fiendishness of that kind must be a very charming hobby, which might at any time develop to an art.

(Continued From Yesterday.)

"The fishing schooner Three Brothers put in to Atlantic City yesterday with the small cutter Sphinx in tow, and on board the latter was the dead body of a man, subsequently identified as Herbert W. Kyrle, a rich, eccentric resident of Absecon, New Jersey.

"The skipper of the Three Brothers reported that the cutter was sighted in the Atlantic about sixty miles off Cape May. The vessel was coming up with the wind and then falling off in a way that plainly showed she was not under control. Glasses revealed a motionless figure in the cockpit. The schooner ran alongside—and to the horror of the skipper and the crew, the derelict's sole occupant was a man who had been dead several days. The helm was loosely lashed, and a package of cigars was scattered about the cockpit.

"Everything indicated that death had come suddenly from paralysis or heart failure when the lone yachtsman was sailing his pleasure craft. The skipper recognized the cutter as having fallen from 'Atlantic City' waters. The prevailing westerly and north-westerly winds would account for the presence of the craft where she was picked up.

"The identity of the victim was established by means of letters and a pocketbook. He was little known in Atlantic City, being something of a recluse in his home in Absecon, known as 'The Rosery.' He lived practically the life of a hermit, so far as visitors from the outside world were concerned. His only relaxation was sailing his boat, and it was his custom usually to go out in the evening.

"There are reports that he was occasionally visited by a very handsome and distinguished looking woman, who is said to have been his wife.

"The body was examined by Dr. Gilman, the acting coroner's phys-

Leander Steingall, inspector in charge of the New York Detective Bureau, who, in the opinion of his devoted spouse, was unduly thoughtful as he asked for a second helping of kidneys and bacon that Sunday morning. Who-soever suggested "Leander" as a suspicious name to be interposed between "James" and "Steingall" had gone rather by sound than sense; for no one more unlike the jovial youth who swam the Hellespont once too often could possibly be imagined than the burly inspector. He was a big, roundly built man, bullet-headed, close-cropped, with round eyes, round limbs, and a huge fist that closed in a ball. Presumably, even in infancy, these characteristics were latent but decipherable.

But his eyes were very blue and highly intelligent, and his lips could wrinkle into a kindly though somewhat inscrutable smile, and his better half knew that some weighty question was troubling his active brain as he lingered over the one meal in the week that he could enjoy at leisure.

Sunday morning's breakfast was Mrs. Steingall's special time for learning those little tidbits of New York life with which the public is never regaled. Even in a criminal trial of the utmost notoriety there are side issues known to the authorities that are not allowed to appear in print. If Mrs. Steingall had kept a diary, and had jotted down therein everything she was told on fifty-two Sundays in the year during the last twenty years, she could have produced a book that would break the record in sales, and keep the courts busy for months.

WEDNESDAY MORNING, MAY 7, 1913.

A LEGAL SITUATION.
 In the publication of the contents of the letter written by Mr. L. E. C. Thorne to his next door neighbor and intimate, Mr. Harry Maisonneville, Mr. Proudfoot evidently sought to vindicate himself from the slur that had been cast upon the authenticity of his charges made against Hon. W. J. Hanna. The letter, which was a private one, and contained the clause, "Remember, this is not for publication," is not likely to deceive anyone who has indulged in gay and lively descriptions of current events for the amusement of his private friends. But Mr. Proudfoot and his friends are not lively, but severe, and they cannot understand the attitude of mind that would make a joke of a provincial secretary or even a prime minister. No doubt Mr. Proudfoot's private secretary, if he had one, would joke quite seriously about him behind his back. This is the penalty of greatness. Mr. Thorne was aware of Mr. Maisonneville's tendency to publish. Mr. Maisonneville would publish anything, having had United States newspaper training. So he did not regard Mr. Thorne's "remember" but Mr. Thorne will remember.

The letter adds nothing new to what has already been known. As the Globe has stated it guided the questions which Mr. Dewart put in his cross-examination. By holding it over till after the conclusion of the enquiry the sensation is slightly elongated, but it gets thinner as it is stretched. No one can go behind the statement of that staunch old Liberal, the deputy attorney-general, Mr. Cartwright, who swore that the flat was issued like any other flat, without any instructions or pressure. No one suggests that the \$500 contributed for the campaign fund by Mr. Taylor four years before the flat was issued had any relation to the flat, except Mr. Proudfoot, and that only by insinuation. And no one suggests that Mr. Hanna put it in his private pocket. That is too absurd even for The Globe.

The legalistic methods of the government in handling the case have given the opposition all the advantage they have been able to get out of it. Lawyers do not think of ordinary men. They never can see the good of putting all the cards on the table, and the lawyers who stage-managed the affair for the government quite forgot that it was laymen and not lawyers who were looking on. From a legal point of view the government was triumphant, and no one knew that better than Mr. Dewart when he threw up the case. He did not cross-examine Mr. Hanna nor Sir James Whitney when he had the chance.

But the layman's mind will ask why the government headed off anything? Why didn't they open all the office doors of the buildings and invite Mr. Rowell and Mr. Proudfoot and Mr. Dewart and The Globe reporters to examine everything in sight? Why did they object to the reading of a letter in the committee that was going to be read in the house anyway? Why did they object to the asking of questions that everybody is asking and the Liberal papers are supplying such answers to as they deem judicious? Why, in short, was the impression given that there was something to conceal?

The only answer we know is that lawyers and political partisans often lack common sense. Mr. Hanna is likely to supply some reflections, however, before long, which may give another appearance to the affair. Until he speaks most people will be satisfied with Mr. McClellan's conclusion that the case Mr. Proudfoot has built up is of the flimsiest materials.

ONE OF THE OLD REGIME.
 According to Controller Foster himself, his wrath was directed against Commissioner Harris. "I will not say that he dictates to the board what should be done, but he puts up a fight for his increases, and I protest against it." Which means that Controller Foster is still wedded to the old idea of civic government, where the council bossed the heads of departments, controlled appointments, and made ducks and drakes of departmental efficiency. The new method of appointing competent heads of departments, giving them authority and responsibility, does not appeal to men like Controller Foster, who did not even feel capable of reporting on the works in progress under the commissioner.

It is a notable fact that the latest scene in the city hall arises out of a revolt of the two Tommies against Commissioner Harris. They represent the old spirit that would reduce the commissioner to the impotence of his predecessors, and the city is fortunate in having a majority on the board of

control who will support the commissioner's authority.

AMERICAN RADIUM ORES.
 Washington has been started by the discovery that two-thirds of the radium supply of the world is being made in Europe from American ores. Hitherto it has been understood that Austria possessed the main source of this wonderful elemental force thru the radium ores of St. Joachim Stahl, now owned by the government, other and less valuable ores being found in Cornwall. But if the information now made public by the United States Bureau of Mines is correct, the radium now used in the European institutes has been mostly obtained from carnotite found in small quantities scattered over areas in the States of Colorado and Utah. The bureau's attention was directed to this exportation in consequence of the report that European buyers were insisting only on the highest grades of the carnotite ores, and that a great amount of lower grade ores was practically being wasted.

Pitchblende, the richest of all radium-bearing ores, has been found in small quantities in Connecticut and in the feldspar quarries of North Carolina, but the largest deposits lie in or near Paradox Valley, in southwest Colorado. Even before the exportation of carnotite, pitchblende was being sent out of the United States, and it is surprising that no American had sufficient knowledge to realize the value of these ores, or the reason for the European demand, more particularly in the case of pitchblende. Its value as a radium-bearing ore has long been matter of public knowledge, as was the extraordinary value of radium, purchasable in minute quantities at a price equivalent to two and a quarter million dollars an ounce. The bureau will now encourage the radium industry, and it is not at all improbable that radium ores will be found in Ontario and other parts of Canada.

Alderman Hubbard thinks it a joke that the city should attempt to supply pure milk at cost to the citizens. The joke is entirely on Alderman Hubbard.

Controller Foster was the culprit figure in a dramatic episode in the city hall yesterday. Controller Foster was backing the wrong horse in the municipal race, and in spite of some jockeying he still finds his favorite in the ruck.

WILL HELP POLICE TO STOP ROWDYISM

Ontario Motor League Directors Condemn Joy Riders.

New members to the number of 130 and four clubs were announced to have joined the Ontario Motor League at the regular monthly meeting of the directors, held at the National Club yesterday. There was an excellent attendance and several matters of moment to motorists were discussed, among which were the recent press reports of "joy-riding" and rowdiness by individual motorists. While it was known that none of those were in any way identified with the league, the meeting united in condemning the practice and will assist the police in stamping it out.

It was reported that every eighth telephone and telegraph pole between here and Windsor has received a white band of paint, and it is planned to have the same done right thru to the eastern end of the province for the guidance of motorists, and it was also stated that there is a movement on foot to organize a federal league for the whole of Canada.

It was announced that the next meeting of the directors would be at London, on May 31, where they will be the guests of the London Club, and it is intended that a pleasure trip to Fort Stanley will be taken.

Mr. Trethewey and Mr. Stone were appointed as delegates to the good roads meeting to be held in London, Eng., in June next.

The Philosopher of Folly At Osgoode Hall

Oh, the days which are past and over, the days which will come no more; I dwell in the midst of clover in the beautiful days of yore. In our years when we all were younger, with cookies and home-made pies we vanquished our pangs of hunger, while uttering joyful cries. When our bald-headed domes were yellow or chestnut or black with hair, they loaded each hungry fellow with dainties beyond compare. When I think of our old-time butter as it tasted on home-made bread, my heart gets all in a flutter and I mourn for the days now fled. I don't lie back when dreaming to nibble at ginger cake all spicy and warm and steaming, and I sigh when I needs must wake. But vain is my mournful sighing and foolish my sad complaint, for Time must always be defying, and things can't be as they ain't. Yet often I weep in pity for the ravenous youngsters now—the boys and girls of the city whose milk never saw a cow, who feed on machine-made crackers, on chemical bread and cheese, on butter from Pork the packer, and on other near-footed U.S.A. these I weep till I dim my glasses with the steam from my scalding tears as I long for some good molasses—molasses which is the original gateway to the joy bespred the stuff on their smiling features—but the joys of my youth have fled.

NEW MUSKOKA TRAIN.
 The Grand Trunk Railway System is putting on a new train from Toronto to Muskoka Wharf, commencing Saturday, May 17, leaving Toronto 10.15 a.m. daily, except Sunday, arriving Muskoka Wharf 1.40 p.m., making direct connection with steamers for all points on Muskoka Lakes.
 A brand new train, consisting of baggage car, vestibule coaches and parlor-library-buffet car, will be operated and passengers are assured of a comfortable ride along the most interesting route to Muskoka Wharf, which is the original gateway to the far-famed Muskoka Lakes.
 This train runs right to the side of steamer at Muskoka Wharf, thus avoiding any inconvenience to passengers.
 Return connection is made with train leaving Muskoka Wharf at 10.45 a.m. daily, except Sunday, arriving Toronto 2.10 p.m.
 Tourist tickets at reduced rates are now on sale to Muskoka resorts, good for return over at any point and good to return until Nov. 30, 1913.

 GALT SHIPPERS' RESERVE.
 GALT, May 6.—(Special.)—The police have lately been strictly enforcing the local traffic bylaw, which prohibits a conveyance standing at one place on the street for more than ten minutes. It was pointed out that in Toronto a rig or automobile could remain in one place thirty minutes, and in Hamilton any length of time.
 A deputation of merchants addressed the council on the hardship experienced by visiting shoppers on account of the bylaw. The bylaw will probably be amended.

GUELPH'S NEW CITY ENGINEER.
 GUELPH, May 6.—(Special.)—E. J. Holland, who has been acting city engineer since Mr. Ferguson was appointed engineer at St. Thomas, has been appointed city engineer of this city. His salary will be \$1500. He will be assisted by W. C. Clawson for the next six months at a rate of \$1350. Mr. Holland is an English engineer and has had many years of municipal engineering experience.

WARM WEATHER SPELL TAXES FILTER PLANT

Larger Percentage of Unfiltered Water as Season Advances.

Increased demand for water has resulted from the lengthy spell of warm weather, and the filtration plant is unequal to the demand. One-quarter of the water now supplied the central portion of the city is sent direct from the lake and is chlorinated. A larger percentage of unfiltered water will be supplied as the summer advances. Chlorination, however, is keeping the water in good condition.

Wickett Bros., contractors for the city abattoir building, reported to the board of control that the steel will not be supplied on time to complete the contract in the fall, as agreed. They ask that the time for completion be extended to February. The board instructed Commissioner Chisholm to investigate and report today.

BILL ANDREWS WINS THE STEEPLECHASE

Top Weight Beats Favorite in Feature at Pimlico—Light o' My Life Wins Handicap.

PIMLICO, May 6.—Bill Andrews, Miss Chamberlet's bay gelding, carrying top weight, landed the owner's handicap steeplechase today on his first appearance of the season. King Cash, the favorite in the betting, was forced to be satisfied with the place, while Mr. Specs, a serious contender, fell and lost his chance. Shannon River was the overnight favorite for this event, but Halph Part scratched him. The Orion Handicap went to Light o' My Life, Johnson's Peep o' Day colt, which, guided by Jimmy Butwell, fought off such good horses as Shackleton, Sherwood, Penobscot and Springfield. Fittergold, August Heilmann's Hastings colt, justified the owner's good opinion expressed some time ago, by carrying off the Druid Hill purse, which, carried by the colt, was a favorite. Holand had the consolation of carrying off the prize in the next event, however, with his fine campaigner, Donald McDonald, which once more demonstrated his worth. Summary:

FIRST RACE—Three-year-olds, 4 1/2 furlongs: 1. Bryndary, 108 (J. Wilson), \$4.30, \$3.10 and \$2.60. 2. Little Jupiter, 107 (Butwell), \$6, and \$2.80. 3. Bryn, 105 (Sterling), field, including Mary Scribe, Turkey in the Straw, Cour d'Alene, \$2.90.

SECOND RACE—Purse, 2-year-olds, 4 1/2 furlongs: 1. Hitter Gold, 107 (Ferguson), \$28.10, \$8.10 and \$3.60. 2. Gainer, 117 (Wilson), \$2.40 and \$2.10. 3. Trade Mark, 109 (Robbins), \$2.80. Time 55 3-5. Gallop, Cannon, Peace, Executor, Cantale, Nancy Orme and Centaurian also ran.

THIRD RACE—Selling, 3-year-olds and up, one mile: 1. Donald McDonald, 116 (Wilson), \$2.50, \$2.70 and \$2.90. 2. Hoffman, 109 (Robbins), \$6.30 and \$3.20. 3. Altmaha, 109 (Wolfe), \$3.60.

FOURTH RACE—Owners' Handicap, steeplechase, 4-year-olds and up, 2 miles: 1. Bill Andrews, 154 (Tuckey), \$11.70, \$2.60 and 82.90. 2. King Cash, 137 (Kernath), \$8.10, 82.60 and 83.60. 3. Elmer, 142, out. (Dreyer), 81.70. Time 3:55 3-5. Mr. Specs fell.

FIFTH RACE—Orion Handicap, \$600 added, 3-year-olds and up, 7 furlongs: 1. Light o' My Life, 114 (Butwell), 85.40 and 84.20 and 83.60. 2. Kieburne, 104 (Turner), 85.40 and 84.20. 3. Lochiel, 107 (J. Frach), 85.20.

SIXTH RACE—Three-year-olds and up, purse \$400, mile: 1. Fairweather, 109 (Montour), 83.60, 85.20 and 84.00. 2. Cogs, 103 (Connelly), 82.20, 82.90. 3. Elmer, 142, out. (Dreyer), 81.70. Time 1:42. Judge Walsler, Star Gaze, Hazon, Discovery and Bryndown also ran.

BATTED McHALE HARD

Buffalo Herd Drive the Slow Heater From the Mound—Big Crowd Present.

BUFFALO, May 6.—Buffalo and Jersey City had a perfect day for the opening of the International League season here and the first game was attended by 15,000 persons. Fullenweider went bad from the start, but Mains took up the job in the third and held Jersey City safely while the Bisons set out and made McHale seek shelter. The Bisons finally won out in the eighth.

WINGO'S DOUBLE TURNS THE TRICK
Goes in as Pinch Hitter and Knocks Out a Victory For the Cardinals.

PHILADELPHIA, May 6.—Wingo went to bat in the seventh inning of today's game as a pinch hitter for St. Louis with the bases filled and two out, and made a two-bagger which drove in two runs. St. Louis finally winning by 3 to 1. While Wingo was at bat, umpire Klem called an extra ball on Seaton, who had replaced Brennan in this inning, with two men on the bases and one out for delaying the pitch. And there was a lively argument after the hit was made. St. Louis hit the ball hard, but fast fielding and the catching of base runners off the bags kept the score down.

Kelley's Band Played Like Real Champions and Outplayed Newark in Every Department—Big Crowd on Hand For Opening Game at Maple Leaf Park.

MONTREAL, May 6.—Providence came strong at the finish and defeated Montreal, 3 to 5. Mason kept the Grays in check until the eighth, when he weakened after three singles and a heave by Burns followed an error by Yeager. In the ninth Smith was sent to the rescue after Mason had passed the first two men. Smith fanned the first man to face him. Three hits and two passes followed, getting five runs. Wheatley started on Providence, but was removed after he passed four and allowed one hit. Bailey started by forcing in one hit, the bases filled. Then he settled and performed in fine style.

RALLY IN TENTH WINS FOR BOSTON

Wagner Back in Game, But the Pirates Are Beaten—A Great Finish.

BOSTON, May 6.—With Wagner back in the game Pittsburgh was defeated by Boston today in a 10-inning contest, the score being 3 to 2. The final was a sensational one. Sweeney singled in the tenth, Titus sacrificed and Kirko, batting for Mann, lifted a high one to left. Carey, as he caught it, bumped into the fence of the bleachers, the ball falling over for Mann. He caught it with the winning run and Kirko was credited with a double. Score:

FOUR POINT DROP IN BRAZILIANS

Announcement of Preferred
Issue Came Like Bolt From
the Blue.

THE MARKET HELD WELL
General List Little Changed—
Short Interest Saved the
Situation.

Reports from London that the Bra-
zilian Traction Co. was underwriting a
ten million dollar issue of 6 per cent.
preferred stock convertible at 120 into
common, and that an offering would
be made of the shares at 100 3-8, acted
as a heavy drag-weight on the Toronto
stock exchange yesterday. The an-
nouncement came like a bolt from the
blue, "the street," so far as known,
having had no suspicion that any such
action was to be taken. Added to this
unfavorable factor there was the senti-
mental influence of another severe
break in Wall street. The most sig-
nificant feature of the session was that
the Canadian issues held their own so
well, the majority of the usual favor-
able not yielding more than a fraction
of a point.

The placing of a large preferred
stock issue above the common could
not be viewed as a bearish factor
on Brazilian, and the future alone can
tell just how much stress the public
will place on the incident. As it was
the shares dropped a full 4 3-8 points
yesterday under the heaviest selling
movement witnessed since the historic
decline last October, when the security
slumped from 97 to 85 in two days.

Adverse Criticism.
Considerable criticism was heard
over the fact that the shareholders
were given no hint of the proposal to
issue preferred stock, and that the in-
formation was given out in London
instead of the head office here. It was
probable that considerable selling was
occasioned by comment of that nature,
and it was frequently stated that, but
for the short action of the day, the
stock opened at 95 1-2, reached
94 by noon, and then took another
precipitate drop to 91 1-2, closing just a
shade better than that.

The general list moved along pretty
much in the even tenor of its way,
with price changes remarkably small,
considering the extent of the slump in
Brazilian. Toronto Railway was off
3/4 at 148 1/2; Winnipeg made a new low
point on March 20th; Pacific Burt
common lost another point to 22;
some of the preferred issues were
slightly easier. General Electric at 114,
Consumers Gas at 178 1/2, City Dairy at
102 and Cement at 30 1/2, were all high-
er for the day.

INVESTMENT BUYING IN LONDON MARKET

Confident Tone Stamped Dealings
Except in American Section—
Situation Improved.

LONDON, May 6.—Money was in
good demand today for repayment to
the Bank of England. Discount rates
were steady. The improvement in the
Balkan situation imparted further con-
fidence on the stock exchange during
the forenoon when business expanded.
Investors sought gilt-edged securities
more freely, speculative trading broad-
ened, and copper shares were buoy-
ant, but the markets failed to main-
tain their strength and closed easy un-
der realizing. Montenegro bonds were
lashed most of their higher gain, but con-
sols and American securities opened dull
and about unchanged. The exports of gold
from New York restricted business,
but prices advanced from 5/8 to 3/4 on
light covering during the forenoon.
Later the market declined under the
lead of Union Pacific and Southern
Pacific, which were sold in New York.
The closing was easy.

C. P. R. EARNINGS

In the first nine months (July to
April) of its present fiscal year the
Canadian Pacific Railway has earned
approximately 14.72 per cent. on its
outstanding common stock issue, or at
the rate of 19.88 per cent. per annum.

NEW STOCK ISSUE MADE BY BRAZILIAN

Company Has Underwritten
Six Per Cent. Preferred
Shares.

Cables from London received by
members of the Toronto stock ex-
change yesterday, reported that the
Brazilian Traction Co. had underwrit-
ten an issue of \$10,000,000 six per cent.
preferred stock, convertible into com-
mon stock at 120, and that an offering
would be made by bankers in the very
near future at 100 3/8 per share. The
announcement came as a distinct sur-
prise to shareholders on this side, and
as the security had been making for
higher prices in the old country mar-
ket during the last few days, the in-
ference was taken that it had come
like a bolt from the blue in Europe
also.

While nothing could be learned con-
cerning the special purpose for which
the new issue was being floated, it was
freely stated that the company had in
view considerable extension of its plant
and equipment, and that Sir William
Mackenzie's recent trip to London had
been for the purpose of concluding ar-
rangements for the placing of the of-
fering, as well as the raising of capital
for other enterprises of the Mackenzie
and Mann interests.

The reports differed materially as to
the price at which the new stock would
be put out, but late in the day further
cables set a figure at 100 3/8 as the cor-
rect one. This means that the com-
pany is paying a full 6 per cent. for
its money.

The placing of a preferred issue
above the common was viewed as a
bearish argument on the stock, and
the ordinary shares slumped heavily
in the Toronto market, sinking to 91 1/2,
their lowest level since last December.

BANK CLEARINGS OF THE CONTINENT

No Change in Standing of Can-
adian Cities—Toronto in
Tenth Rank.

There were no changes of any interest
in the standing of the cities of the con-
tinent of Europe, bank clearings last
week. Montreal maintained its usual
position of eighth, Toronto held its cur-
rently high position of tenth, and Winnipeg
the Canadian cities and the city imme-
diately above it. It would seem, how-
ever, that unless clearings increase mate-
rially on this side, there is not likely to be any
change in the order of ranking.

The most significant feature of the re-
port was the big decline shown by some
of the big centers. London showed a
decrease of 17.3 per cent., and Chicago
of 15.2 per cent. Philadelphia, Boston, all dropped below
last year's record. Of the smaller
cities included in the first fourteen, Win-
nipeg was the only one to indicate im-
provement over last year, but only
Canadian cities in the west, no less
than five reported smaller clearings than
the year before.

| The following table gives the record of the first fourteen cities: | |
|---|-----------------|
| City | Prev. Year |
| N. York | \$1,763,546,000 |
| London | 1,757,235,000 |
| Chicago | 401,913,000 |

BEST APRIL IN HISTORY OF BANKS

Clearings Last Month Made
Good Showing—Compari-
son Over Four Years.

Canadian bank clearings during April
made a fair showing, the net increase
over last year being \$1,200,000, or
total at sixteen cities (others not avail-
able, owing to lack of comparison), was
\$42,626,000. This sum is larger than
either of the totals reported in the two
preceding months, but it reflects a de-
crease of six per cent. from the showing
made in January. The total just given
is somewhat under those chronicled in
May, June, July, October, November and
December, 1912. On the other hand, it is
the largest ever recorded for any April.
This table gives the Canadian figures
month by month (three figures omitted):

| Month | 1912 | 1911 | 1910 |
|-------|------------------|------------------|--------------|
| Jan. | \$19,524,874.154 | \$22,526,348.229 | \$19,100,000 |
