ON THE WHOLE THINGS GO WELL

So that while trials are now well under way and our reasons for grief of all kinds may appear to be growing our cause generally is improving in a way that ought to hearten us all.

OUR GREATEST VICTORY AT THE MOMENT IS THE DECLINE AND FAILURE OF THE GERMAN CASE AS PRESENTED TO THE WORLD AND AS IT WILL BE PASSED ON BY HISTORY.

So that what we must do is to go on with the struggle to continue to make sacrifices; to stand the losses; to see and feel the heart pangs in every quarter of the empire over the loss of men and youths who are giving their lives for the cause of liberty and for the rights of the smaller nations.

Successes in Number of Naval Engagements Officially Reported at Rome—Enemy's Wireless Messages Intercepted, Confirming Losses of the Austrians.

ROME, via Paris, May 28, 11.40 p.m.—It is officially announced that an Austrian submarine was sunk by Italian torpedo-boats in an engagement yesterday.

A communication issued by the Italian ministry of marine gives the details of other naval losses by Austria and Italy up to the present as follows:

On May 24 the Austrian torpedo-boat S-20, having approached the canal at Porto Corsini, was so seriously damaged by the fire from our masked batteries that she was forced to be conveyed to Pola. The torpedo boat destroyer Scharschutsky, which was operating with the S-20, was damaged, suffering the loss of many of her crew. She called the scoutship Novara to her assistance, which also was tarred several times and also had several of her crew killed including a lieutenant.

Heligoland Badly Damaged.

The destroyer Ozepele, which is of the same type as the Triton, also suffered from our shells, due to the arrival of our naval squadron during the action commenced against the destroyer.

Italian Destroyer Lost.

After the preceding brilliant action we regret exceedingly to announce the loss of our destroyer called Turbine. She was built in 1901 and was approximately 330 tons. The latter, during the morning of May 24, while on a tour of reconnaissance, sighted an enemy destroyer and gave chase. The chase lasted half an hour, when four other enemy warships appeared, including the light cruiser Heligoland. The Turbine immediately turned about to return to her naval base, but was struck twice in her hull, thus reducing her speed.

Events which happened during their tenure in office are given by the Frankfurter Zeitung as grounds for the investigation.

MILITARY MISSIONS HAVE REACHED ROME

ROME, May 28.—(Via Paris, 7.10 p.m.)—French and British military missions, which will remain with the Italian general staff during the war, for the purpose of furthering military cooperation among the allies, arrived in Rome today. A Russian mission is expected soon.

Col. George M. Dunn, military attaché of the American embassy, and Lieutenant Commander Charles E. Train, the naval attaché, have applied for permission to go to the front.

BRITISH MAKE ADVANCE TOWARDS LA BASSEE

Strong German Position in Imminent Danger of Falling in Near Future—French Slaughter Germans in Tremendous Attacks at Angres and Arras.

SPECIAL CABLE TO THE TORONTO WORLD.

LONDON, May 28.—Further progress has been made in the British advance on the strong German position at La Bassee, according to the French office bulletin issued at Paris tonight. Details of the exact results achieved are being withheld for the present.

Just below La Bassee, at Angres, a violent battle has raged all day around the two strong field works captured by the French. A high value was set on the retaining of these positions by the enemy and their sudden capture stirred him up to great wrath. He made five strong attacks during the day and two during the night, making no less than seven violent assaults in 24 hours.

RAILWAY GRANTED LEAVE TO APPEAL

Company Not Satisfied With Decision of Ontario Municipal Board.

PLACED IN LIQUIDATION

Martin International Trap Rock Concern Was Wound Up Yesterday.

On the application of E. C. Cattar... the appellate division at Osgoode Hall yesterday granted the Hamilton, Guelph and Beamsville Railway Co. leave to appeal from the decision of the Ontario Railway and Municipal Board on the question as to whether the Dominion of Canada, after having once declared a railway for the general advantage of Canada, can withdraw that declaration.

An echo of the disaster which befel the Empress of Ireland was heard yesterday when the Merchant Trust Co. applied to the master in chambers for an order declaring that the proceeds of the policy of insurance on the life of Walter Woodard, who with his wife and child, lost his life in the wreck, should form part of the estate.

The appellate court list for Monday is: Delleo v. Hannah, Hayes v. Boomhauer, Wingrove v. Winarove, Davis Acetylene Gas Co. v. Morton, Morrong and Ottawa Electric v. Babin and nine others, McComb v. Nicholson.

RUSSIANS BEAT OFF HOSTILE ATTACKS

Tremendous Battle Continues on Both Banks of San River.

NO WIN FOR ENEMY

Austrians Who Pierced Russian Lines Near Stry, Destroyed.

PETROGRAD (via London), May 28.—Use by the Teutonic allies of asphyxiating gases to cover their offensive in the Oswetw region is reported in an official statement issued last night by the Russian general staff.

The Russian general staff reports that attacks on the whole of the Muscovite front between the Upper Vistula River and the left bank of the San on May 25 and 26 were repulsed everywhere with great losses to the enemy. A stubborn battle is being fought with great intensity on both banks of the San, between Peremyal and the Lubaczowka River, and between Peremyal and the great marshes of the Dnieper as far as Dolina. Heavy losses were inflicted on the enemy, who was nowhere successful.

FLAGLESS HOMES NOW RARE

Union Jacks Decorate Almost Every Home in This City.

The eager acceptance of The World's offer to supply flags to all patriotic readers is placing a flag in almost every home in the city, and in many instances several of these handsome emblems are secured for one single home.

Upon the terms at which they are offered, it is made possible to secure without noticeable strain on the purse, and as the outfits are complete in detail, leaving absolutely nothing to buy, they "fill the bill" admirably.

Flagless homes are few and far between, and before the expiration of this remarkable offer there will be practically no homes without the Union Jack.

The World has made it so easy for its readers to secure these handsome outfits that even coming for them is a pleasure, for there is no red tape, no conditions, no contracts to sign, merely the presentation of the coupon which appears on another page in today's issue, and the \$4.00 outfit becomes yours for the small expense amount mentioned in today's announcement, to help defray cost of assembling and distributing.

The War in The Sunday World

Counting a page of Lusitania pictures, taken right after the disaster, and a page of the officers of the 35th Battalion, there are seven pages of war pictures in The Sunday World. These pictures come from every part of the battlefield. Each week six or seven pages of war scenes are given, forming a very interesting and illuminating review of the recent war news.

Next Sunday there are a dozen special articles on interesting phases of the big struggle, including one on Salandra, the war premier of Italy, and another on the record of Canadian militia in wars at home.

A Palm Garden that is Different

The Palm Garden recently opened by the United Cigar Stores Limited in the rear of their big combination Store, 209 Yonge Street, is deserving of more than passing comment.

Situated right in the heart of Toronto's business activities, it is ideally located for those requiring a quick lunch or light refreshment amidst congenial surroundings. Stepping in from the hustle and bustle of the busy thoroughfare one is suddenly transplanted into an atmosphere of quietude and refinement.

Vocal and Instrumental Music

is provided every afternoon and evening. This innovation alone should spell success to the Palm Garden. Light lunches and reasonable refreshments from the soda fountain are daintily served at all times and the prices are most moderate.

SHORTAGE OF SHELLS HAS BEEN EXAGGERATED

Post Correspondent Says British Artillery is Doing Splendid Work.

LONDON, May 28.—A correspondent of The London Morning Post telegraphs from the north of France as follows:

"I have made it my business to make particular inquiries as to the actual state of matters regarding the shell supply. I am assured from a number of reliable sources that our artillery is doing magnificently, and that, while we certainly require high explosive shells in ever-increasing quantities, the situation in respect of this has been altogether exaggerated in some quarters."

"To quote an expression, we are 'dynamiting our way thru the German defences much in the same way as the French are. We are blowing parapets to bits and doing it rapidly and well."

"I find among our soldiers widespread indignation in respect of the attacks upon Lord Kitchener."

URUMIAH OCCUPIED BY RUSSIAN TROOPS

Army of Caucasus Makes Splendid Progress—British Clash With Turks.

LONDON, May 28.—The Russian army of the Caucasus has progressed a hundred miles over the border into Persia, and occupied Urumiah, which is adjacent to Turkey-in-Asia, and has been held by the Turks. Five hundred miles further south toward the Persian Gulf, the Turks in Mesopotamia (Turkish territory between the Tigris and Euphrates), have been in an engagement with British troops.

Urumsiah lies 64 miles southwest of Urumiah, and is a small town of 10,000 inhabitants. The Fiske seminary for girls under foreign direction, and Urumsiah colleges are located there.

"Urumsiah, Persia, has been occupied by the Russians after an engagement with the Turks in the direction of Diman, and near Bachtabaz, according to a statement issued by the general staff of the army of the Caucasus."

Just Suits My Needs Building Up the System

This is the Way Thousands of Women Are Speaking of Dr. Chase's Nerve Food.

"I want to state that I have never taken anything to do me so much good as Dr. Chase's Nerve Food," writes Mrs. Edson Brock, Tremholmeville, Que., "and I am never without it in the house. I was so nervous I could not sleep, but now I sleep soundly at night and wake up feeling refreshed and ready for the day's work. I used the Nerve Food for months and found that it just suits my needs and has built up the system wonderfully. I know it is Dr. Chase's Nerve Food that has brought about the great change in my condition and am thankful for it." "My husband was a great sufferer from itching piles and has been entirely cured by Dr. Chase's Ointment. We are constantly receiving letters like this in regard to Dr. Chase's Nerve Food. Everywhere it is being used because of its great restorative and reconstructive influence on the nervous system. Men and women who are run down in health, tired, nervous and discouraged, find in this great Food Cure the means of nourishing the exhausted system back to health and vigor. Headaches, indigestion, sleeplessness, nervous irritability, lack of energy and vigor—all tell of nervous exhaustion, and indicate the need of such treatment as Dr. Chase's Nerve Food. Instead of affording mere temporary relief by stimulating the nerves, Dr. Chase's Nerve Food builds up the system by supplying the ingredients from which nature forms new rich blood and revitalizes the wasted nervous system. Put Dr. Chase's Nerve Food to the test when you are feeling tired out and discouraged, fill the body with new rich blood and new nerve force and you will realize again the joy of good health. NEWS OF SPECIAL INTEREST TO WOMEN

FINE SUNSHADES MAY BE SEEN NOW

Splash of Vivid Color Becomes Effective if Costume is Sombre.

MANDARIN IS FAVORED

Clever Manipulation of Chinese Parasol to Keep Sun Away.

Mandarin sunshades are certainly monopolizing all the favors at present. This chaotic season has brought forth so many amazing surprises that the "artistic temperament" ceases to gasp when the devotee parades in a Victorian frock, a large tip-tilted chapeau stolen from some dainty Western maid, wearing her Louis XV. beehive shoes and shading her face with a parasol from the persistent caresses of "old Sol" by the clever manipulation of a Chinese parasol.

For the present then the mandarin shade is decreed, and it is carried. The splash of vivid color is astonishingly effective when the costume is rather inclined to be sombre but it is when the dainty white lingerie frock is worn that the "mandarin" achieves its real mission. Just a flash of dazzling color, and a vision in filmy white.

One extremely fascinating little frock of white crepe de chine had a full skirt, ruffled at the hem with three narrow full frills, built over a foundation petticoat of lace and net, which was wired to stand out quite noticeably. The blouse portion exploited an elegant little lace bolero over an under bodice of chiffon with long sleeves, vestee and softly rolling collar of the same exquisite lace.

Inauguration of Sunday Steamers to Niagara. The first Sunday service of the Niagara steamers will be inaugurated Sunday, May 30th, when two round trips will be made at 8:15 a.m. and 2 p.m. This will give friends of the boys at Niagara an opportunity to visit the camp and enjoy a delightful sail on the waters of Lake Ontario. Tickets on sale at 46 Yonge street near Yonge street wharf.

Clerical News. The Bishop of Toronto has appointed Rev. N. A. F. Bourne, B.A., of Penelagushene, as rural dean of West Simcoe, in the place of the Rev. Canon Murphy, whose term has expired. He has also appointed the Rev. C. W. Holdsworth, B.A., of Havelock, as rural dean of Northumberland, in succession to the late Rev. J. H. Ford of Brighton. His lordship laid the corner-stone of the new parish house of Christ Church, Mimico, on Tuesday evening last, and afterwards administered the rite of confirmation to 22 persons. He officiated at the confirmation service at St. Martin's Church, Toronto, Wednesday night. Bishop Revere confirmed at the same time in St. John's Church, Norway. The Bishop of Toronto has gone to Bobbaycon, where he will induct the new rector, Rev. T. B. Clarke, B.A., and confirm a class of persons to be presented at the service afterwards. There will be the usual "quiet hour" for the ordinary in the cathedral at St. Alban's Cathedral on Saturday afternoon, to be conducted by the bishop of the diocese.

There will be an ordination in St. Alban's on Trinity Sunday morning, at which the Rev. Mr. Powell, the new rector of Holy Trinity, will be the preacher. The bishop of the diocese will administer confirmation in St. John's on Sunday evenings.

MOTHERS OF LITTLE ONES. No mother of young children should be without a box of Baby's Own Tablets. The Tablets are mothers' best friend and are as good as a doctor in the house. Concerning them Mrs. F. Wurger, Ingersoll, Ont., writes: "I have used Baby's Own Tablets for the past eight years, and would not be without them. I can highly recommend them to all mothers of young children." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Women and The Sunday World. Special attention is given by Sunday World writers to the pages for women. Annie Laurie's "Advice to Girls" contains more human interest than any feature ever inaugurated by a Toronto paper. Each week, in a special page, Miss Laurie answers the letters written by women—and young men sometimes—on love problems. Winnifred Black contributes weekly an appealing "editorial" on some subject close to women's thoughts, and Lucia Bori gives an interesting little talk on beauty. A bride tells the story of her household adventures. Dr. Hirschberg answers the queries of readers on health topics, and there are hints for housewives and dress suggestions, and a splendid page of well illustrated fashions.

The End of Scarlet Blossom Week.

Scarlet Hollyhocks. Instead of dealing with the scarlet hollyhocks alone, we shall today talk of the hollyhock family, with special reference to those kind which send out pure scarlet blossoms.

Like many of our dependable old standbys, the hollyhock comes of a large and an aristocratic family—one whose name is as ancient as its lineage—the mallows of crusader fame. History has it that several members of this family, known to us here, were brought into western Europe by soldiers returning from the holy wars. Later, these stately plants took a longer and more strenuous journey, when the first settlers from Old England came across the Atlantic, bringing seeds and a few odd specimens of these plants with them.

The rose mallow and the marsh mallow, together with the hollyhock or hollyhock, are supposed to be the best examples of the family since these three are the hardiest and the most easily cultivated. The hollyhock itself is a splendid example of the results obtained by assiduous cultivation of an unknown plant, by careful selection and by a system of hybridization. The ordinary observer could scarcely recognize the original, single-flowered, lavender, rose-colored blossom, four to six inches across, which was the original parent plant, as being the father of the many gorgeous and bewildering double blossoms and lovely ruffles that cling to the tapering stem or crumpled stalk of this proud perennial.

Unfortunately hollyhock fell into disrepute some twenty or thirty years ago on account of an unfortunate blight of fungus growth that became common among the plants and destroyed thousands of them. This was worse, seemed to be carried on indefinitely from one generation of the plants to the next. Gradually, however, this disease has died out and perfect specimens are now cultivated. When the disease is, however, occasionally seen to crop up, a generous treatment with sprays of the famous Bordeaux mixture, should be used.

On account of hollyhock's predilection for the sun, a shady spot is not all desirable for the tall plants, because in their endeavors to get all the sun possible they will twist themselves into all sorts of distorted shapes and spoils the border or background in which they have been planted.

Our gardeners should try to make suitable color schemes where the hollyhocks are concerned. For instance, varied colored plants should not be planted together or near each other. A clump of ten or twenty scarlet blossoming varieties make a sight to the eye of the gods; and a clump of pinks, reds, yellows and the like make a sad sight for tired eyes.

Plant creams and yellows against red brick walls, but never pinks or reds or scarlets. Plant reds, scarlets and crimsons where they will flame out against the clear sky, or better still, foil up against a dark foreground of evergreen trees, or light up an otherwise gloomy corner.

A couple of clumps of royal kings, the one real scarlet variety, on each side of your garden gate, will make one of the most lovely and dependable ornaments of your garden for many a long year.

GAVE PICNIC MONEY TO BELGIANS. The scholars of St. Matthew's Anglican Sunday School, Riverdale, have decided to give up their annual picnic this year and contribute the money so saved to the Belgian Relief Fund.

Notes of Women's World

At a meeting of the Toronto branch of the Alma Daughters it was decided to hold the first annual picnic at Island Park and the date was fixed. It was reported that about 150 articles had been given to the Victoria mission. Delegates were appointed to attend the commencement exercises at Alma College in June.

A very successful shower in aid of the Red Cross was given by Mrs. Arthur E. Apled at her home. A feature of the hostess' decorations was a cleverly executed figure of His Majesty King George in khaki, which occupied the centre of the table.

The postponed bazaar of Niagara street school will be held today from 10 to 11 in the afternoon and from 8 to 10 in the evening.

Miss H. Ethel Shepherd has issued invitations for a series of showers and musical teas at the Conservatory of Music, in aid of the soldiers, to take place June 4 and 5. Cash contributions may be sent to her, care of the conservatory, or handed in on the days of the teas.

Under the auspices of the Canadian Business Women's Club two song recitals are being given by Miss Jane Tuttle and Company, on Friday and Saturday, June 4 and 5, in the Y.W.C.A. Hall, McGill street.

The Women's Missionary Society of the Methodist Church will hold its twenty-second annual meeting of the Toronto conference branch in the Parkdale Church, King street west from 2:30 p.m. and continuing during the next two days. Dr. Clifford Kilbourn, B.C., will be president, and Miss Bell, Japan, will give addresses in the afternoon; and Miss Brackbell and Mrs. Weston, Ontario worker, Vancouver, B.C., in the evening. Wednesday, Young People's Circle and Band Workers, with Mrs. Ross, president, will be in charge of the social. Miss McGuffin, editor of Missionary Outlook, as the evening speaker. Music and good reports. All sessions public.

An important meeting of the Executive Council of the Y.W.C.A. will be held today afternoon in Maitly's Hall. A full attendance is requested.

The ladies of the Montefiore Patriotic League will sew on Tuesday, from 10:30 a.m. to 5 p.m., at 254 McCaul street.

The regular monthly meeting of the Frances Willard Club will be held at headquarters, Mrs. Ward in the chair. The matron received 114.764 soap wrappers from all sources and is working for a number of girls.

The District W. C. T. U. convened at 7:30 p.m. at the home of Mrs. F. C. Ward, president. Miss Furgie, T. L. superintendent, reported having held 19 meetings, with an average attendance of 20 members. The district annual meeting will be held at Willard Hall on June 8, 9 and 10, and the delegates and members of the various societies are asked to bring in a contribution of fruit for the home.

CLOSING EXERCISES HAVE BEEN STARTED. St. Margaret's College. Thrown Open to Parents and Friends of Pupils.

Yesterday the first of the series of exercises which mark the closing of St. Margaret's College was held, when the house was thrown open to the parents and friends of the pupils, and a fine exhibition of drills and dances was given by the aesthetic dancing club. The exercises were held in the household science department had a fine display of the work of the pupils, which was later sold in the cause of the fund of the Red Cross. Everything in connection with the program was charmingly carried out, and all enjoyed with the home-making which is so pleasing a note in any institutional establishment.

BLUE CROSS TAG DAY FOR WOUNDED HORSES

Faithful Animals Doing Noble Share in Conflict, Need Care and Attention.

Yesterday was Blue Cross Tag Day, and a generous response was given to the pretty girls and bright women who stood at different corners holding out the tiny white flags marked with the blue cross, and with a persuasive "please" captured the always willing pedestrian, took him gracefully by the lapel of his coat and decorated him with the little badge that told he had done his part in some measure for the poor wounded horses, which like their masters, are doing their share so nobly in the countries across the water.

The "tagging" was not general throughout the city, which perhaps was a pity, as everyone seemed so responsive, and doubtless the 25 volunteers who were out in the cause of "God's little besties" were well rewarded. "How are you getting on?" asked a reporter from The World of one of the dainty girls who was on duty on Yonge street. "O, splendidly," was the reply. "This is my second basket since noon," and it was then only 4:30. There will be a goodly number of horses which will receive comfort and kindness which before for them was impossible.

Technical School

Had the war been expected it is quite certain that the magnificent Technical School which has just been completed would never have been built. It was difficult enough to get the authorities up to the mark when it was commenced. It is even declared that had the actual expense been known the project would never have been inaugurated.

"White elephant" is one of the epithets which have been bestowed upon it. This title was once exclusively applied to the city hall. Citizens who have doubts about the critical standards that sometimes govern in Toronto should go down and look at the present Union Station. When it was being constructed by that skilful contractor who also erected the King Street Subway, it was declared by certain wiseacres that such a building would be a "white elephant" and altogether out of proportion to the needs of the city. Neither the Union Station nor the city hall is large enough for the city's actual needs.

It is quite safe to say that the Technical School, large as it may seem today, will no more satisfy the demands upon it five years hence, than the university buildings as they now stand will be sufficient. Canada and Toronto will progress as ever before once the war is settled. They will progress in the light of the experience which has been gained in the last year. That experience places a high premium on technical education, and it is fortunate for Toronto that the Technical School is in so forward a state to meet the demands that will soon be made upon it.

One of the doubts expressed about the school is in connection with the fact that pupils will come to it from all over the province. Nothing could be a greater recommendation to the citizens than this testimony. If Toronto is really to be the capital of the province she must recognize some responsibility in connection with the position, and some liability also, in return for the advantages which her exceptional position gives her. There is no doubt that as an educational centre Toronto draws largely on the population of the province and on the resources of the province in payment for educational services, but this is not to be complained about, but considered as something of which hosts of Toronto citizens get the benefit.

Technical education is a most important link in the chain of culture by which Canada must expect to take her place among the great nations. Germany has been cited as an example of what technical education can do for a nation. What Germany has chiefly done has been to be a warning to the rest of humanity, and to teach us what not to do with the good things she had at her disposal. Technical education went hand-in-hand with nothing else in Germany, and the result is that Germany has done nothing but turn out technical fiefs.

We believe that in the new technical school in Toronto this is the great problem to be solved, and one that is of much more importance than whether the school cost one or two millions. If it cost five millions the point is whether the city got good value for the money expended. Now, that we have the school, the next point is to make sure that the education given in it will make good citizens, not merely clever and skilful citizens, but humane and intelligent and benevolent men and women. Toronto can do much by the atmosphere she creates for the pupils of the Technical School to influence the character of coming generations of Canadians.

Porcupine and Cobalt

Some interesting information regarding the mining industry in that part of northern Ontario served by the Ontario Government Railway is given in a report just issued, prepared by Mr. Arthur A. Cole, engineer to the Timiskaming and Northern Ontario Railway Commission. The introductory paragraphs deal with the general situation before and after the outbreak of the war and show more particularly in the case of the gold industry. The call for that metal, resulting from European conditions, has had the effect of stimulating production. The contrary, however, happened in the case of silver. London silver quotations were very soon suspended and when later resumed were restricted to consignments actually on hand in London at the time of the sale.

Reverting to the gold industry, the report states that the effect of the war has been to stimulate production from the already producing mines, except where mineral was required, as for prospecting and early development. But notwithstanding this partial curtailment, the value of the gold produced in Ontario, coming almost entirely from the Porcupine district, showed a substantial increase over those of the previous year. In 1913 Ontario yielded 219,403 fine ounces, valued at \$4,585,462, while in 1914 the value of the yield from the Porcupine district alone was \$5,200,220. In 1913, out of the total of \$4,585,462 for Ontario, Porcupine contributed \$4,234,823. Outside of Porcupine, the only gold production in the government railway district came from Larder Lake and Kirkland Lake areas.

Contrariwise, the value of the silver production of Cobalt declined from \$16,555,001 to \$12,179,973. Some decline, the report states, would likely have happened under normal conditions, but it has been emphasized by the war. It is satisfactory to note, however, that all the mines which ceased operations have restarted, and but for certain natural curtailments, the situation is otherwise normal. The curtailments of shipments of silver from London to the east and the restriction of Indian crop exports has resulted in a lower price for silver than has been reached for many years.

A few cents rise in the price of silver, the report says, would quickly bring out more bullion and ore and stimulate activity in the district. Another point of interest in the report is that, at the request of the British Government, the Cassel Cyanide Company of Glasgow, Scotland, agreed to sell none of their product outside of the empire, and there is now more than enough cyanide being manufactured in the United Kingdom to meet legitimate demands within the empire.

Direct Legislation

One result of the recent shakeup in Manitoba will be the introduction into Canada of the initiative and referendum. The Liberals of Manitoba are pledged to establish direct legislation. Should Mr. Norris disavow, a legislative will be returned pledged to carry out the Winnipeg platform of 1914. Even the by some makeshift a disavowal of the initiative and referendum of that platform into law including direct legislation.

By the initiative and referendum the people take a real part in their own government. The initiative consists of petitions to the legislature praying that certain bills be passed. If the petition is supported by the required percentage of the electorate the legislature must refer that bill to the people and if a majority of them vote for it it becomes a law of the land. The referendum feature requires certain bills that are passed by the legislature to be submitted to the people. They do not come into effect unless and until they receive the assent of the people. The people thus reserve the veto power.

It is in fact, as well as in theory, ruled by the people. Hence it is unpopular with some politicians. Both parties in Saskatchewan were pledged to the initiative and referendum up to the hilt in 1912, but they combined later on to jockey the people out of it. The fine constitutional point was raised that under our system of government the veto power belongs to the crown and that the people could not enact legislation without the royal assent. But so far as the practical application of the initiative and referendum goes we see no reason why this legal fiction should be taken too seriously. The royal assent would be given as a matter of course to laws passed by the people just as it is given as a matter of course to laws passed by their representatives.

If direct legislation be adopted in Manitoba we will see it adopted almost immediately in Saskatchewan and Alberta. Perhaps Premier Hearst may bring it into Ontario. Leader Rowell has never yet to our knowledge endorsed the progressive principles professed by the Liberals of western Canada.

Jitney Regulations

Jitneys are not going to have it all their own way, even if they wanted to which does not appear to be the case. They have been regulated in other cities, and while no one has suggested that they have been ill-regulated here, they are going to be regulated. The rules drawn up by the police commissioners do not seem to create any hardship, in comparison with regulations that are being enforced elsewhere, and as the object is merely the public convenience, a matter which always helps business for traction companies of every description, there should not be much objection.

The great point, so far as the actual operation of the cars is concerned, is summed up by Colonel Grasset in the remark that the jitneys "cannot be allowed to run wild." This is reasonable and sensible, and as long as the police stick to this principle there can be no complaint from the drivers. The

GERMANY'S LAST RESERVE

Mr. Hilaire Belloc is one of the most helpful and encouraging writers upon the war and its final issue. His knowledge of military history is great as is his personal acquaintance with the great battlefields of Europe. His latest statement in Land and Water with regard to the final triumph of the allied arms is most reassuring. "If the German army is superior to those of the defence, the enemy cannot but play now for very high stakes, and attempt, at a great expense of men, to obtain conditions as favorable as possible upon which to conclude what he calls "an honorable peace"—that is, a draw.

"But by the very use of this method he will, if he fails to achieve his object, find himself in a much worse position after that failure than he has already begun to put them into the field.

"The measure of our success and of his failure in the next couple of weeks will be his ability or inability to get thru. If he does not get thru, no local advance, no capturing of a few places here or there, or even of positions with which recent encounters have made us familiar, can have the least effect upon the final result.

"To put the matter baldly, supposing the Germans were within a week in possession of the ruins of Ypres; suppose that they retook the spur of Les Eparges; suppose that these continually arriving new numbers took back the whole of the belt which the French have gained during the spring of 1915; suppose they retook, one by one, the heights of the Vosges and reached the passes of those mountains as they have already retaken the summit of the Hartmannswillerkopf—suppose all this. It would not bring the ultimate success of the allied arms by an inch unless the effect produced upon civilian opinion should give the enemy politically what he could not achieve in the field."

FOR CHEAPER FRUIT.

Editor World: In a despatch from St. Catharines on April 29 it was announced that an effort was being made to eliminate the "profit-takers" from the fruit business this season. This unfortunately created the impression in some quarters that the producers intend to deal directly with the consumers of fruit and to cut out the middlemen. Their aim is to secure a closer co-operation with the middlemen, who render service in the distribution of fruit, and to eliminate those who try to create false market conditions for their own profit. There are indications that there will be an excellent crop of tender fruits this season, but thru proper harvesting and by making use of the cold storage system, it is hoped to distribute this crop economically, without permitting congestion in some quarters and shortage in others. If the lovers of good fruits will place their orders with their own dealers at the times suggested in the columns of the newspapers they will be able to get Niagara fruit in prime condition and at reasonable prices.

Ontario's Base Hospital

Ontario will hear with satisfaction that the provincial government has decided to establish a base hospital in England, where sick and wounded Canadian soldiers will be received. Six automobile ambulances are also to be provided for the conveyance of the patients to the hospital. Premier Hearst and his cabinet deserve every credit for the promptness with which they have responded to the call for more hospital accommodation for the brave soldiers who have so worthily upheld the honor of Canada and the empire.

SIX YEAR SENTENCE FOR ARTHUR CONLEY

Arthur Conley was sentenced to six years' imprisonment yesterday by Judge Coatsworth in the criminal court. He was being tried for intent to kill as he had shot at Detective Nicholls, the bullet passing thru the coat of the detective. Conley was suspected of being one of the men who held up the two girls in the Sterling Action and Keys Co. office. There are other charges that will be brought against him later for robbing houses and stores.

CADORINA IS PLANNING DRIVE TOWARD ALPS

Object is to Forestall Move by Austrians to Invade Italy.

ROME, May 28.—The official reports from the front show that Lieut. Gen. Cadorna, Italian chief of staff, is attempting to carry out a well-defined movement for the occupation of the important points in the Alps, along the Guldicaire chain of the Lesini Mountains, the Sugara Valley and the Carnic Alps.

This manoeuvre, if accomplished, would place the Italians in an advantageous position to meet the Austrians if they should undertake any serious attack for the purpose of invading Italy. It would also permit the Italians to choose their own time and place for making an attempt to force the mountain passes and penetrate further into Austria.

The occupation of Altissimo Mountain, which is 6700 feet high, is regarded as the most important achievement in carrying out this plan.

SERVICES HONORARY
 Contracts Will Be Awarded
 to Lowest Tenderer for
 Many Lines of Goods.

By Staff Report.
 OTTAWA, May 28.—The purchasing
 commission—which was appointed
 three weeks ago by the government
 has now moved into its permanent
 quarters in the Booth building. As an
 indication of the immense work that
 is being done, there have been 900
 orders already and thousands of let-
 ters have been answered.

The commission, which is composed
 of an honorary character, and the
 Laperle, has its staff organized. The
 commission was appointed for the
 purpose of assisting the different de-
 partments through which the war vote is
 expended in the purchasing of sup-
 plies, equipment, munitions and ma-
 terials. The commission has already
 expended in the purchasing of sup-
 plies, equipment, munitions and ma-
 terials for other purposes enu-
 merated in the War Appropriation
 Act of 1914, and is now in the
 process of making contracts in con-
 nection therewith.

The services of the commission are
 of an honorary character, and the
 commissioners say they feel that
 while they occupy a very responsible
 position, they are glad to render what-
 ever service they can to the empire
 in a crisis, such as the one confronting
 us at the present time.

Contracts are awarded to the lowest
 tenderer. The commission has already
 dealt with contracts for provisions,
 forage and supplies for all the differ-
 ent camps and outfits where soldiers
 are training or are on guard duty,
 from the Atlantic to the Pacific, also
 with the purchasing of equipment,
 surgical appliances, medicines, tents,
 etc., for hospitals in Canada where
 military camps are situated, as well
 as the necessary equipment for new
 hospitals in France. In all of these
 positions, the commission has been
 of great assistance to the empire
 of detail. Nearly every article and
 appliance which can be found in an
 ordinary stationary hospital in any of
 Canada's large cities is required for
 the field service and base hospitals.

The matter of supplies necessary
 for the manufacture of ammunition
 made by the Dominion government
 has also had the attention of the com-
 mission, also a considerable amount of
 supplies for horse equipment and field
 telephone equipment.

Contracts concerning the transport
 of troops abroad have also received its
 attention, also a great variety of tech-
 nical equipment for two railway con-
 struction units of 525 men which have
 been organized for service abroad.
 The matter of suitable equipment
 for dental surgical units had also
 attention.

The commission is constantly re-
 ceiving suggestions in regard to boots

 Young Soldier, Formerly a Good
 Correspondent, Has Not Writ-
 ten Since April.

The relatives of Pte. John Mc-
 Naughton, "C" Co., 48th High-
 landers, 1st Canadian overseas
 contingent, are much concerned
 as to his whereabouts.
 Nothing has been heard of him
 since April 18, when a letter was
 received by Duncan Hood, 2111
 Dufferin street, Fairbank.
 Prior to this he was a regu-
 larly weekly correspondent.
 He was 22 years
 of age, and was
 born in Perth, Scotland, coming to
 Canada seven years ago. Previous to
 enlisting for the front he was em-
 ployed by the St. Clair Construction
 Company, Pariscurt.

**SEND SUBMARINES
 TO ZONE OF SUZ**

Turks and Germans Appear to
 Be Meditating Extension
 of Piracy.

NOTE FOR NEUTRALS
 Enemy Encouraged by Pick-
 ing Off of Some Allied
 Warships.

LONDON, May 28.—The inference
 that the German-Turkish alliance pro-
 poses to begin a submarine warfare
 against vessels leaving the Suez Canal
 has been drawn from a note recently
 issued by the British Government.

In view of the signing of German
 submarines against British ships in the
 Dardanelles, such a policy, it is
 felt here, might interfere with marine
 communication between Europe and
 the far east.

A message to the Reuter Telegram Co.
 from Constantinople by way of Am-
 sterdam, says the note in question,
 which is addressed to neutral powers,
 reads as follows:

The Imperial Ottoman Government
 considering that the British Govern-
 ment has not fulfilled its obligations
 undertaken towards neutral powers
 by the convention of 1888 to keep no
 warships in the Suez Canal, and in
 view of the fact that the British Govern-
 ment has landed troops in Egypt, has
 by these facts, been placed under the
 necessity of taking military measures
 for the protection of its maritime terri-
 tory, of which Egypt forms part, and
 to extend hostilities to the Suez
 Canal.

To the foregoing note is added the
 statement that if these measures pre-
 judice neutral ships or goods, it is
 clear that the responsibility will rest
 with the British and French Govern-
 ments.

**LANGEMARCK BULLETS
 NEVER TOUCHED HIM**
 Pte. Douglas Freeman Came
 Thru Terrible Fight With-
 out a Scratch.

Pte. Douglas Freeman, Q.O.R., first
 Canadian overseas contingent, and
 afterwards transferred to the 14th
 Montreal, who resided with his
 parents at 28
 Bathurst street,
 Fairbank, has
 written home
 stating he has
 been in all the
 terrible battle of
 Langemarck and
 never received a
 scratch.

Pte. Freeman was a companion
 of Pte. John Mc-
 Naughton, "C"
 Co., 48th High-
 landers, and
 stated he was in frequent touch with
 him since arriving at the front, but
 has not seen him of late.

**How to Curl the Hair
 In Damp Weather**

Damp days have no terror for the
 woman who has adopted the silmerne
 method of keeping her hair in curl. The
 effect is more lasting than where the
 waving iron is used, and in the hair is
 quite manageable, regardless of how it
 is done up. Besides, the silmerne ap-
 pears of being more naturally wavy
 and curly, and the application is really
 beneficial to the life and growth of the
 hair.

In dry weather the hair will, of course,
 remain beautifully curly and fluffy for
 still longer period. Most any drug-
 store can supply the liquid silmerne, and
 need not get more than a few ounces.
 A small quantity should be put on before
 retiring, using for the purpose a clean
 tooth brush, drawing it down the full
 length of the hair, from root to tip. The
 effect upon arising is delightfully sur-
 prising, and there is no discoloration, no
 stiffness, greenness, nor any other un-
 pleasant accompaniment.

TWO SHIPS SUNK ANOTHER CRIPPLED

German Submarine's Guns Accounted for Cadeby Off Cornish Coast.

DANISH SHIP MINED

Ely Lost in Sea of Aland—Argyllshire Limped In to Port.

LONDON, May 28.—The sinking of two more British steamers and the crippling of another by German submarines became known today. The list of a Danish steamer which struck a mine was also reported.

From Liverpool came word that the Glasgow steamer Argyllshire had put into an unharmed port after being attacked.

The Argyllshire is a big steel twin screw steamer of 10,392 tons. She is owned by the Scottish Line, Limited. Her home port is Glasgow. Her length is 264 feet, beam 61 feet. She was built in 1911 in Glasgow and is equipped with wireless. Her captain is given in Lloyd's as W. Chisham.

Sunk by Gun Fire. Panaco, Cornwall, reports that the British steamer Cadeby was sent to the bottom yesterday off the Cornish coast by a submarine's gun-fire. The crew of eighteen, four passengers and a steward, were landed at Newlyn, a fishing village, by a fishing boat.

The Cadeby was a 1,120-ton gross, 677-ton net, steel screw steamer owned by the Cadeby Steamship Company, Glasgow, under British registry from the port of Hull. She was built in 1899, and was 112 feet in length and 22.4 feet beam. Her master as listed by Lloyd's was M. H. Jones.

Danish Ship Mined. Stockholm, Sweden, reports that the Danish steamer Ely, from Scotland with a cargo of coal, was mined and sunk in the Aland Sea yesterday.

The Aland Sea is around the Aland Islands at the junction of the Baltic with the Gulf of Finland and Bothnia.

The Ely was a 1,747-ton steel screw steamer, owned by a Danish shipping firm of which Christian Andersen is manager. Her port of register was Esbjerg. She was built in 1888, was 160 feet long and 26.7 feet beam.

MEANING OF THE UNION JACK

Its Three Crosses Symbolic of Three Saints, Its Blue Field, Union.

The Union Jack, like all emblems of heraldry, is full of meaning, briefly told yet strong in import. Its blue field represents the union, its three crosses, the crosses of St. Andrew, the cross of St. Andrew and the cross of St. Patrick. While the design is symbolic of three crosses, but two really show owing to the similarity of the cross of St. Andrew and St. Patrick. It is called the Jack after the French word jacque, meaning the short jacket worn by medieval men of arms, upon which was emblazoned the cross of St. George.

St. George, the patron saint of England, was a soldier in the Christian army; St. Andrew, the patron saint of the Scots, was the brother of St. Peter, while St. Patrick is the patron saint of Ireland. St. Andrew is revered also in Russia, where the order of the good saint is the highest rank in knighthood possible for the czar to bestow, the order being restricted to royalty. Thus the splendid flag now being distributed to readers of The World is not only our national emblem, but also the heraldic legend of our union.

Warm praise is being received from all sides for the master-stroke accomplished by the World in securing a special allotment of handsome flag outfits for distribution to its readers on practically gift terms, and the great numbers of flags have been carried away from this office already by enthusiastic citizens who declared them just the very thing at exactly the right time.

The big flags are made from an especially strong, stout material carefully dyed in fast and brilliant colors. They are headed by brass rivets with two brass rust-proof grommets at the halcyon. The pole is well varnished and complete with eyelets, ball and window socket. The pole can be taken down in two pieces for packing and storing between times of use, and the complete outfit is carefully packed in a stout carton case. The distribution is being made from both the Toronto and Hamilton offices of The World.

RUSSIAN BATTLESHIP PANTELEIMON SAFE

Russian Admiralty Make Categorical Denial of Turkish Claim.

PARIS, May 28.—The French minister of marine today gave out an official announcement, which reads as follows: "The Russian Admiralty denies categorically the Turkish official announcement, according to which the Russian battleship Panteleimon was sunk to the bottom in the Black Sea by a submarine. The day when this was supposed to have happened in the Pantheon was in a Russian port and no vessel of the Russian Black Sea expedition has been either sent to the bottom or wrecked."

DULL RECORD FOR NEW YORK MARKET

Turnover of Shares Was Smallest in History, But Quotations Show Gains.

C. P. R. AGAIN LOWER

Declined Three Points, But No Sale for Foreign Account Was Made.

NEW YORK, May 28.—All recent records for dullness in stock dealings were lowered today, the total turnover being barely 170,000 shares. In the first hour about 60,000 shares changed hands, but after that the hourly average was scarcely over 25,000.

Among the few noteworthy movements of the session was the weakness of Canadian Pacific, which declined 2 1/2 points. That stock is regarded as the barometer of the American list abroad.

Increased steadiness was shown by foreign exchange, receipts of an additional \$2,400,000 gold from Europe serving towards that end. Rates for practically all continental exchange are assuming more normal conditions.

TIMISKAMING SHARES HAD SHARP DECLINE

Dropped Several Points on a Weak Market—Beaver Also Showed Weakness.

Mining market was dull, the principal feature being the weakness of Timiskaming, which opened at 45 1/2 and sold down to 29 1/2. Beaver also was weaker, selling down to 51 1/2.

DIVIDENDS DECLARED

NEW YORK, May 28.—The following dividends have been declared, all being payable June 30.

Several Thought Maple Leaf Milling Co. Should Declare One.

DIRECTORS RE-ELECTED

Balance Sheet Was Adopted, Many Shareholders Stating Board's Action Correct.

ALTHOUGH the shareholders of the Maple Leaf Milling expressed their confidence in the directors by re-electing them and passing the balance sheet at the general meeting held yesterday, some dissatisfaction was shown that no dividend had been declared.

MAPLE LEAF MILLING DOWN SEVERAL POINTS

Maple Leaf Milling Shares Showed Weakness With Few Shares Placed on Market.

Business on the Toronto Stock Exchange remained unchanged, there being practically no trading done. What shares were placed on the market were sold at mostly the same prices as those prevailing at the close of Thursday's business.

PEARL LAKE REORGANIZATION

In referring to Pearl Lake in his weekly letter Robert E. Kemmerer says: "After various vexatious delays I have succeeded in bringing those in control of the Pearl Lake around to my ideas as to the reorganization of the property."

KERR LAKE PUMPING

COBALT, May 28.—While the pump at Kerr Lake will continue to work for the greater part of the summer, the snow is now resting on the bedrock, and with the completion of a sum of \$100,000 the water will be practically completed.

EXCHANGE CLOSES MONDAY

NEW YORK, May 28.—As May 30, Decoration Day, falls on Sunday, the legal holiday will be Monday, May 31, and the New York Stock Exchange will be closed.

CONSOLS STEADY

In London yesterday consols closed unchanged from Thursday at 66 1/2.

FIRST SHIPMENTS FROM HARVEST

Bearish Influence Was Placed on Wheat Market by Announcement.

RAIN BENEFITS CROPS

Plenty of Sunshine is Likely to Repair Injury Caused by Lodging.

CHICAGO, May 28.—Announcement of the beginning of shipments from the 1915 harvest had a decidedly bearish influence today on wheat. The market closed heavy at 78c to 4c net decline. Corn finished unchanged to 3c lower, oats up 1-8c to 1c, and provisions the same as last night to 10c down.

MONTREAL EXCHANGE WAS QUITE LISTLESS

Late Afternoon Buying of Iron Furnished the One Feature of a Dull Day.

MONTREAL, May 28.—Some buying of iron in the afternoon furnished the one feature in today's trading on the Montreal Stock Exchange. Upwards of 400 shares were taken at 27 1/2 to 28 1/2, the total trade for the day, 457 shares exclusive of mines. Iron was responsible for 470 shares.

PRICES PREVENTED FOREIGN BUSINESS

Inquiries Were Made for Old Manitoba Spring and New American Wheat Crop.

MONTREAL, May 28.—There was some inquiry for foreign business for old crop Manitoba spring and new crop American wheat, but the prices bid were so far out of line no business was done. The demand for oats was better, and sales of 80,000 bushels of No. 2 feed were made at 63 1/2c per bushel.
