PREMIERS IN CONFERENCE CARNEGIE SAYS WITH DOORS SHUT TIGHT WAN OF PEACE

welcomed by Sir Campbell Ban-WORTH \$1000 IN THE U.S. Results, But Points Out That Decisions Cannot Be Sinding -Delegates Send Telegram to Chamberlain.

LAURIER FOR THE POLICY OF EACH FOR OWN GOOD

ference between the premiers of Great Britain's self-governing colonies and the British colonial secretary was openthe presidency of the Earl of Elgin, secretary of state for the colonies.

Reporters are not admitted to the conference, so the public will have to be contented with strictly consored official summaries of each day's proceedings until a blue book on the conference is issued, months after its final ad-

The premiers present included Dr. Jameson of Cape Colony; General Louis Botha, premier of the Transvaal; Alfred Deakin, the Australian premier; Sir Joseph G. Ward, premier of New Zealand: Frederick R. Moor, premier of Natal, and Sir Wilfrid Laurier, premier of Canada. Premier Sir Robert Bond Newfoundland will arrive in the middle of the week.

The premiers were accompanied by their advisers. A number of British cabinet ministers attended the morning

Premier Campbell-Bannerman opened the proceedings with a speech of welcome, in which he outlined the subjects for discussion, such as preferential trade between the colonies and Great Britain and among the colonies themselves, a project providing for a permansation council, imperial defence schemes and manigration with minor questions, like penny postage, and naturalization Ship Their Goods to England and

The premier earnestly expressed the that the deliberations would have

The premier said this was not a ference between the premiers and the celonial secretary, but between them and the members of the government, which was a very different matter. hoped an agreement might be reached on the points under discussion, but if there were differences between the premiers and the government they would agree to differ in a perfectly friendly manner.

They had no power. Premier Campgovernment could not go behind the declared opinions of the country and par-liament, but subject to this limitation there were many matters of great mo-ment, in which there was room for ar-

He favored the was best for itself. That was the The Colonel and Ecclesiastics. great subjects they would discuss.

Deakin for Publicity. Hon. Alfred Deakin spoke in a similar strain, but advocated publicity for most of the proceedings. He said the greatest risk the conference could run was that of being ignored and misun-derstood, and he regretted that preconferences had failed in their full effect in the antipodes.

Dr. Jameson made a vigorous speech, which he said he hoped that South would be consolidated, and expected lasting results from this conference, leading to further unity, not merely from the sentimental standpoint, but in the practical and materal interest of the component parts of the empire.

Other premiers having spoken, a telegram of sympathy was sent to Mr. Chamberlain, expressing the hope that would be speedily restored to public After this the conference discussed the procedure, and then adourned

Press Opinion Divided Laurier Already Resigned

Canadian Associated Press Cable.) LONDON, April 15.—The Times says is a pleasure to say that Campbell-Bannerman's welcome to the premiers seems to have made a favorable impression. It was gratifying to note in Sir Henry's speech that there was no apparent sign of his former tendency to ignore the material links of empire.

The protectionist Mail, on the other hand, describes the speech as a "cold douche" and natural in Leurian's speech douche" and notes in Laurier's speech a tone of resignation to the apparent conference. It anticipates the British premier's speech will a revulsion in the opinion of

However, they could not go wrong if they remembered that the basis of union binding the empire was the proper and always permanent recognition of principle that commercial world. He favored the re-

> A lively debate ensued upon Colonel Sam Hughes rising to explain that he meant no offence to his French Cath-olic friends when he said a few nights ago that the exiled French priests coming to Canada were a curse to the country. He thought that all people agreed that ecclesiastical tyranny was a curse. He did not confine his remarks to any one religion. He be-lieved that the exiled French priests now in Canada were misleading the youth by teaching the French language

and disloyalty. Mr. Bourassa submitted that the remarks of Col. Hughes were inspired by ignorance and bigotry. The French priests had preserved Canada loyal to the British crown.

R. L. Borden paid a tribute to the Catholic clergy of France and quoted from the famous scene between the bishop and Jeanvaljean. He criticized Col. Hughes and regretted the phrase that he had used.

Mr. Lemieux also protested. Col. Hughes repeated that he had no-thing to apologize for, but he felt that some members were distorting his remark and making a mountain out a molehili. He said that he had brought about the sending of Canadian troops to South Africa, altho Sir Wilfrid and Sir Charles Tupper had united to op-

OTTAWA, April 15.—(Special.)—Railway subsidies covering 1013miles of projected lines, will be voted by the house this week. A resolution authorizing these subventions has been given no tice of by the financial minister. The subsidies are at the usual rate of \$3200 per mile, to a maximum of \$6400 per mile, accoording to cost of the railway. Taken at the minimum the subsidies would amount to three and a quarter million dollars, but they will most likely run to four and a half millions,

Big Tract of Valuable Timber Land of Province Suddenly Appropriated Under Act Calling for Certification or Defence.

PREMIER WILL FIGHT CLAIM TO THE FOOT OF THE THRONE

Licenses of Timber Areas Will be Deprived of Property-Correspondence Presented in Legislature Reveals a Startling Situation.

How far the Dominion government appear to be prepared to go in overriding the rights of the Province of Ontario, transpired form statements made in legislature yesterday evening by Premier Whitney: He laid before the house the startling conclusion of the negotiations which have been going on for some time past for the acquisition of the territory at Petawawa chosen for the new artillery camp.

Instead of proceeding with the nagotiations the minister of militia and

gotiations the minister of militia and defence has "peremptorily, without any notice being given to either the provincial government or the licensees, taken over the lands indicated and confiscated as far as possible, at any rate, the property both of the licensees and of the province."

This action is taken under a possible interpretation of the B. N. A. Act, 1867, section 117, by the advice of the Hon. Mr. Aylesworth. This section sanctions the expropriation of "lands or public property required for fortifications or for the defence of the country."

As the premier pointed out this land is hundreds of miles from the border, and the clause cannot be fairly made to apply.

and the clause cannot be fairly made to apply.

Recently, in reply to a question in the Dominion house, the minister, Sir Frederick Borden himself, stated that no compensation of any kind would be given to Ontario or to the timber licensees on the property for the confiscation of their rights.

This action follows on negotiation opened by the Dominion government, in which an offer was made to buy or lease the lands, of which 55,000 acres belong to the province and the balance of the area of 73,000 acres belonged to settlers and others.

The Ontario government offered the land at a nominal rental on a 99-year lease, and it was understood that satisfactory progress was being made with the negotiations. On the pleathat the demands of the fimber licensees were exorbitant, the department of militia and defence has taken the step

militia and defence has taken the step described ..

The Correspondence. Before adjourning the house, the premier asked permission to lay some communications before the mimbers on a matter of the utmost seriousness. Nothing, he thought approaching it in scriousness had come before them.

The first letter was from the under secretary of state. Joseph Pope, under date of March 22, to the lieutenant governor:

"His Excellency the Governor-General has had under consideration in council the urgent necessity of acquiring for the defence of Canada an area of ground conveniently situated to the capital, upon which the artillery of the militia may safely practice with the long range guns with which they are armed, and where the infantry may be trained to use their rifles under modern service conditions.

"The minister of militia and defence states that he has caused a number of states that he has caused a number of localities in Ontarlo and Quebec to be examined and reported upon by competent officers, with a view to the selection of the most suitable area, and having considered the reports and all the circumstances of the case, he is of opinion that the area hereinafter described the considered described the case. seribed, situate within the Province of Ontario, is the most suitable one for the

purpose.

"The minister is informed that there are certain outstanding timber licenses issued by the government of Ontario, conferring the right upon the licenseer for the present to cut the trees growing upon the said lands. "Portions of the said lands are also in the possession of settlers who are entitled, upon the performance of further settlement duties, or upon making fur-

ther payments to the government of Ontario, to obtain patents for the lands so occupied by them.
Will Protect Licensees.

"Except as to the aforesaid rights of the timber licensees and of the settlers in possession.se'd lands are vested absotration of the government of Ontario.
"The minister further states that it is not intended by the present lutely in his majesty under the adminisis not intended by the present recom-mendation to interfere with the existing rights of the said timber licensees or with the present interests of the settlers in possession; but he recommends

BUXTON REDUCES PATE N MAGAZINES TO GANADA

Rate of Two Cents a Pound Instead of Eight, Experiment for Four Years

LONDON, April 15.-The postage on newspapers, magazines and trade journals between Great Britain and Canada will be reduced to two cents per pound May 1, instead of the present charge of eight cents, thus putting Great Britain in a more favorable postal position towards Canada in respect to these classes of publications than any other country.

In making the announcement in the house of commons to-day, Postmaster-General Buxton said the concession must not be regarded as a precedent for a reduction in other classes. It was based on the special and peculiar position offered by Canada, geographical and otherwise, by which British newspapers, etc., were unable to obtain a footing in Canada. The arrangement, Mr. Buxton addwas experimental, and was limit-

A SACRIFICE FOR CANADA.

ed at present to four years.

OTTAWA, April 15.—(Special.)—In the house this morning, Hon. Mr. Lemieux announced the change in the postal rates with Britain. The arrangement, he said, had been

proposed years ago by Canada to England, but had been stoutly refused every time, on the ground that it would involve very great loss to the revenue in England. But, as stated by the British postal authorities, this advantage was given in favor of Canada on account of the special geographical posi-tion of Canada. The fear was that the same demand might be made by other colonies. It was a sacrifice of a pecuniary nature quite large on the part of Britain, and they owed special thanks to the British postmaster-general, Mr. Buxton, who, in the matter, had been very generous towards Canada.

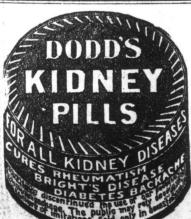

said the work of the postal department was hampered seriously by volume of American newspapers and magazines coming into Canada.

EMBEZZLEMENT CHARGED

Collector Accused of Having Juggled Accounts - Discovered During His Illness.

HAMILTON, April 15.—(Special.)-Peter Kenney, 242 West Main-street, one of the men of the Frank E. Walker weekly payment store, was arrested this afternoon on the charge of misappropriating funds. The amount is not large. Amongst his duties was collecting for the firm. A few weeks ago he was taken seriously ill. Walker's son took charge of Kenney's route and discovered that Kenney gave receipts for certain sums and turned only part of it into the firm. It is alleged that some twenty-eight small accounts were juggled with, the discrepancies ranging from \$1 to \$5. Only his collections for the last year have been inspected. The collector was under bonds to the extent of \$1000, a great deal more than he is charged with embezzling, and it is the guarantee company that is insisting upon a prosecution. Kenney had been employed by the company for ter years, and was a trusted employe. He has been very prominent in frater-ral organizations. He will appear in police court on Tuesday morning. HOUSE OF INDUSTRY The seventieth annual meeting of the abscribers to the House of Industry will be held in the board room to-day, 16th inst. The mayor is expected to preside at the meeting. All interested in the work of this HENRY O'HARA, Chairman

PROTECTING ISLAND SHORE. Messrs Macdonald and Church Take Steps to Have Work Commenced.

A. C. Macdonell, M.P., and Ald. T. tario and England. Judge Snider will L. Church, harbor commissioner, visitdecide as to which are entitled to the ed the island yesterday and found that the work on the construction of the long crib work and breakwater on Edward Joy, the G.T.R. flagman, the long crib work and breakwater on dropped dead outside of the Court the south shore of Centre Island, for which a contract was let by the government a month ago, has not begun, They had a conference with Haney & Miller, the contractors, and J. G Sing, the government engineer, and found, it is said, that there was a slight change in the plans, and that the work would begin in about ten The spring storms are doing days. great damage on the south shore.
After a lot of work extending over three months, the government's port on the western entrance is ready ecording to Ald. Church. Mr. J. G. Sing, the government engineer charge, left for Ottawa last night and will file his report with the government. The surroundings show the present entrance surface is hard rock but that 1000 yards south channel of 20 feet can be had and the rock moved easily and in some places there is 20 feet and no rock. The marine men, the city and harbon board asked to have the present entrance retained. The report of the engineers will likely be completed to-

day, and Mr. Sing will probably hand it to the government before his re-Mr. Church and Mr. Macdonell say there are good grounds for expecting that a considerable sum will be placed in the supplementary estimates. question of which entrance to choose will be settled later. Controller Ward by the Ministerial Association this and the mayor were in Ottawa and asked for improving the western en-

> trance also It is said Mr. Sing found much deeper water at the western entrance than the harbor officials reported. The difference now is due to southeast winds. The splendid work done by the member for South Toronto, Mr. Macdonell, M.P., for the harbor, is appreciated in marine circles, said Mr. Church. His activity at Ottawa in \$100,000 has been voted.

Beautiful faces are those that wear, It matters little if dark or fair whole-souled honesty written there.

Beautiful eyes are those that show, Like crystal panes, where heart-fires Beautiful thoughts that burn below.

Beautiful lips are those whose words Leap from the heart like songs of birds. whose utterance prudence girds.

Beautiful hands are those that do Work that is earnest, brave and true, ment by moment the long day thru Beautiful feet are those that go

On kindly errands to and fro Down humblest ways if God wills it so Beautiful shoulders are those that bean The needful burdens of homely care With patient grace and daily prayer.

Beautiful lives are those that bless, Silent rivers of happiness Whose hidden fountains but few may -Commercial Tribune.

TOILET ACCESSORIES.

It cannot be doubted that a woman is much more fastidious and much more careful of her appearance if she has the proper belongings on her dress-

have to rush around looking for pins, to let the hair go half falling down because no hairpins can be found, to be unable to see the back of one's gown because a hand-glass is missing will result in a careless get-up.

It is every woman's business to lock

It is her duty to be a rest for the eyes of men in general, men who are tired of looking at ugly things. So while a woman need not make her toilet the work of her life, she can The quickest and best way to do this

is to furnish the toilet table properly. TO ACCORD WITH TRADITION.

MADRID, April 15 .- The relics of Our Lady de la Santa Cinta, the pa-troness of the Town of Tortosa, have been transferred to the palace chapel here, in accordance with the old tradition that they shall be under the roof where the queen is delivered.

Elizabeth Dunsmulr, daughter of ex-

Dr. E. K. Richardson, as Hardcastle, Milton K. Lee as Tony Lumpkin, and J. S. Tilley as Diggory, did some remarkably good character work while Frank Kennedy doubled the roles of Hastings and a cle Church, of which she has been organist for the past five years. and Sir Charles Marlow, giving to both characters the convincing and faithful interpretation one has grown to expec from Mr. Kennedy's work. Miss Birdie Luttress as Mrs. Hard

There were things to be thought out and decided.

basic principle is to keep waste "on the move" to final annihilation. In his rooms he filled and lighted a pipe, and sat down with Beatrix Bu-The United States, in parts, has taken cognizance of these truths. So have chanan's letter on his knees, and he read the letter thru for the fourth some European cities. Canada as yet time. Then he began to count days, would be called by many an unsanitary going over, before each month, the little doggerel lines about "Thirty days hath September," etc.; for he could never remember without it which Before you spend the money you must want to be clean. Then you must hit on the right method. months had thirty and which thirty-one. Half-way thru he stopped to augh; for it came into his mind that from Toronto has given considerable thought to these matters. He sought Beatrix, in her letter, had said he would do just this count the coming the opinion of a scientist of world-wide days.

reputation. Dr. William Osler, who, the not resident in Canada, knows the Then there was to be settled his occupation for the coming six months—indeed, for the remainder of his life, situation here thoroly.

Dr. Osler sent the reply as indicated since his life was, happily, to be no onger independent. So far as income To The World this Canadian mayor was concerned, there was no necessity. yesterday expressed himself as follows: Chance for the Government. for occupation of any sort, since he had from the estate of his father, who was dead, a matter of ten to twelve thousand a year, and would have, eventually, from a certain uncle who was already an old man, very much balt seem to indicate that the exmore. Under ordinary circumstances this matter of income would have made no difference to him. save in the gestions as to what the government will be asked to do with this money. Much way of offering him increased resources; for, like almost all men who of it likely will be spent in a manner which will not give the people a full measure of benefit, which otherwise might naturally be expected. I venture lead very active lives, he had a great scorr for idleness, and was unable patiently to exist in it for more than a few weeks. But this new future which awaited him, glorious, radiant, golden-hued, at the end of the dark passage of those six dreary months took from him all his previous standards and habits of thought. He felt Whitney government as being among himself unable to see into it. It stood, as he pictured it, there at the end of that dark passage, unspeakably beaulages of Ontario is in a very backward tiful rather like the tangible gold state of repair; more especially in regard to a proper sewerage equipment. There are 450,000 people, mostly recruited from rural districts, who are congregated in these centres in such a simple, mediaeval souls imagined—a place of delights, of dreams realized; but he could not picture activities there the daily round of life, the drudgery of work. In Nirvana there

ommunities is drainage, but the cost Quite beyond this he had a simpleis so great that they cannot undertake nearted and naive determination to expend all the energy that the remainment. In all towns there are unsettled districts, which cannot be drained from der of his life might possess in the sole effort to make Beatrix Buchanan happy—to, make her forget that there had been such a thing as a past of bitterness and agony to make her world a place where beauty and joy and love dwelt, and nothing besides. It was quite characteristic that this should seem to him more tario would produce a fairly complete worth while than anything else to system of sewers. Towards this great work the Ontario government could well which he could devote his powers, and that the ordinary ambitions of mankind should seem, in comparison, petty or 25 per cent, of the cost. The method and inconsequential. When men of Faring's type serious-ly love a woman, and the love is happy manner somewhat similar to that of

and results in marriage, the world at large loses a strong and valuable force in its activities; for these men. being very simple and single-minded by nature, can do but one thing at a time. They do this one thing at a time. They do this one thing so very hard and so very steadfastly that, whether it is exploring dangerous country or leading armies or helping to shape the destines of an empire. or only digging sewers thru a city's streets, it is work which succeeds and makes history. But when they love, they love, not like other men, as one of many activities, they love with all

BUCHANAN WIFE-GAL ONE It has been said that this is because The Story of a Woman Who Dared to they have no imagination, and doubt-less that is true-at least, in part, for Wrest to flerself the Love and Hapless that is true—at least, in part, for imaginative men squander their imaginations. They apply them to everything about—to the "scheme of things entire"—and consequently are less apt to idealize their own private lives where facts are most intimate and stubborn and realities most salient. All the imagination that the simple and piness That Were Denied Her by Cruel Gircumstances. By Dustus Miles Forman and Published by Permission of Harper & Bres., New York and Lendon. the imagination that the simple and practical soul of Faring's sort possess-"That's all I need say, I suppose es, however, he uses like pearls and you will come. Till then it's waiting. jewels of price to drape and deck that relationship which is most intimate and Oh, Harry, the waiting will be long for me as well as for you. You must lost precious to him, and that is way the greatest romances of the world have been played out between women

and soldiers or statesmen, and not beand soldiers or statesmen, and not be-tween women and poets.

So young Faring looked upon his fu-ture dimly, thru that roseate yell upon which was wrought in golden charac-ters, "April eighth," and was troubled not at all. Remained, however, six yery terrible months somehow to be passed. A further excursion into his very terrible months som how to be passed. A further excursion into his favorite field, pioneer travel, was rather out of the question. To be sure, a little party of men was preparing to attack that unknown country behind the Bolivian Andes, and these men had begged him to go with them, but the thing was a six months job, with great labor and by

that is in them, and they are complete-

months job, with great labor and by no means small danger. It might stretch out into a year. So that was impossible. Moreover, he had been sore-ly racked, in his last adventure, with paludal fever, and was by no means recovered from its effects. Tropical ex-

ploration was closed to him by this trouble for a long time to come. He had, however, during his months in the upper Orinoco country, gathered a great mass of notes on certain In-dian tribes of that section, and he possessed revolutionary views upon the origin of these tribes. It seemed to him that the coming months might not unprofitably be spent in putting notes and views into the form of a book, as he had more than once been urged to do. He had no literary gift whatever, but few explorers have. The two things seldom go together. Still he had the knowledge, and his facts and views, set forth with the simple bluntness of which he was only capable, might

ance than all this, however, was the working out of just how many days ife between the eighth of October and the eighth of April. He found a small hoop-skirts on the last occasion. I eight to will get them out to lend distinction to your wedding. No one who sees me in hoop-skirts on the ninth of next April will ever forget the occasion."

"No," said young Faring, with profound conviction. "No, it would be found conviction. "No, it would be off the leaves from Jan. 1 to Oct. 8, and hung the thing on the wall just found conviction. 'No, it would be impossible. Never will there have been and hung the thing on the wall just above his writing-table. The leaves illness at his residence, 68 Coolmine-that remained—from the current day road. He was one of the oldest casket to make a dishearteningly thick packet, The am going to make my own small preparations. I cannot, perhaps, rival preparations. I cannot, perhaps, rival and he reflected that they counted but half of his dreary waste of probation. It is song. Betty." said he, staring under his brows at the little calendar on the wall. "Sixty minutes in each day! Outside in the street he halfed a hour! Twenty four hours in each day!

"It's long, Betty! Long!"

BUT WE WIN TO THE GATES AT LAST.

Duly, on April 9, in a damp, little hvy-smothered church which fronted the "Green" of a Connecticut village where she had spent the winter with a certain old kinswoman. Beatrix Bu-chanan was married to Harry Faring. Arabella Crowley was there not as bridesmaid, and without the hoopskirts, alas!-and little Alianor Trever. and the faithful elderly lawyer, who wept. These, with the kinswoman-a Mrs. Dawlish-and her little gran1daughter, made up the wedding-party. for neither Beatrix nor Faring wished to have many people there.

The road is not exactly completed but forty passengers came to the city on the return trip of the first car.

The road is about seven miles in length.

The Secret of Perfect Health

It used to be the general idea that there was some mystery about getting well and staying well. Sellers of quack nostrums took advantage of this fact and grew rich. We are growing wiser, however, and know that

Good Food, Fresh Air and Cleanliness

are all that are required. Cleanliness, however, means that you must be clean inside as well as outside. If your Kidneys, Liver and Bowels are not properly performing their functions, they are accumulating a mass of filth, as a result of your violation of some natural law, and you must

Assist Nature in Nature's Way

to cleanse the system. No necessity, however, to risk using some secret preparation. You can obtain a perfect compound of vegetable remedies, everyone of which is endorsed by your Physician. The formula of

King Palmetto Compound

is printed plainly on the wrapper. No secret, no mystery, just plain common sense. King Palmetto Compound will regulate the Liver, Bowels and Kidneys, tone the system and prevent serious results which might arise from neglect. Get a dollar bottle at

LACROSSE NEWS AND GOSSIP Trenton, a New Club, Wants to Play Intermediate C. L. A.

Fourteen Varsity players turned out to

Oakland—
FIRST RACE—Last Go, Dally, Charay.
SECOND RACE—Sainrida, Tetanus THIRD RACE-Earl Rogers, Hugh Mc-Gowan, Dorado: FUURTH RACE—Alma Boy, Bonar, Cor. rigan. FIFTH RACE-Entre Nois, Sugarmail.

SIXTH RACE-Native Son, Pimkin, Com-Tom Hanley, who played second defence for Orillia last year, will not be eligible to play with Varsity this year, having played hockey with Midland last season.

Hamilton would like very much to secure some Varsity men, but the players in ques, tion do not like the idea of turning pro-fessional.

Oakland Entries.

SAN FRANCISCO, April 15.—First race, 6 furlongs—Charay, Rio Vista, Dally, Last Go, Folde de L. 112, Rose H. 107, Herivez, Agripena, Katie Gleason, Vanua 107, Margie D., Baboo 107.

Second race, 6 furlongs—Sainrida, Avoña, Fritzi Ferri, Lugano, Azusa 107, Mass Turtle, Miss Martha, Tetanue, Eulaile B. 107.

Third race, 1 1-16 miles—Reservation 112, Earl Regers 103, Cabin 105, Oratorian 104, Woodthorpe 103, Dorado 101, The Captain 100, Hugh McGowan 100, Nigrette 99, Bakerer 98. 100, Hugh McGowan 100, Nigrette 99, Baker 98.
Fourth race, 1½ miles—Corrigan 112, Alma Boy 100, El Primero 100, Hippocrates 109, Fury 104, Black Gem, Bonar, Nine Spot 102, St. Orm, Jerusha, Avonella 101, Srndstone 98.
Fith race, 5 furlongs—El Otos 111, Billy Mayhem 108, Lem Reed 108, Batre Nous 106, G. Balerio 105, Gypsy King 105, Sugarmaid 103, Sanfara 106.
Sixth race, 1 1-16 miles—Ocean Shore, Pimkin, Native Son 107, Woolma 105, Otto Price 102, F. Neugent, Blagg, Kokomo 112, Common Sue, Nedda, Silver Stocking 100. Harry Latham and Tom Gifford, the only members of the famous New Westminster team of 1900 who played last year, and who toured Eastern Canada, have decided to retire from the game.

NEW YORK, April 15 .- First race, sell-

ing, 6 furlorgs—Eudora 106, Tanager 104, Gold Circle 108, Killochan 103, King Ahab 101, Autumn Flower 96. 101, Autumn Flower 96.
Second race, 4 furlongs—Magazine 116, Henry Kelly 106, The Danec 106, Blue Ban 103, Separator Paynter 103, Masks and Faces 103, Soph 103.
Third race, selling, 1 mile—Jack Makeon 108, Buttons 107, Gdlpin 104, Savable 104, Robador 104, Delmore 100, Beil Snicker 98, G. L. M. 98, Mary Morris 90.

Fifth race, selling, 7 furlongs—Bell Ace

Lauda Clay 104.
Fifth race, selling, 7 furlongs—Bell Ace 107, Buttons, Fustian 111, Waterbearer 99, Commun 107, Lally 90, Ballad 85.
Sixth race, 6 furlongs—Pulsus 125, Battleaxe 123, Sir Edward 116, Pretension 115, Cressira 111, Cederstrome 110, Workman 110, LaLonde 105.

So Jimmy Murphy is saying nothing, but doing a lot of quiet thinking, about his line-up for the Torontos. The smooth James will have to get busy soon, as some of the intermediate teams are already in the market. Of course, the latter cannot offer any coin of the realm, but somehow they seem to get outside players just the same.

get over to Parse unattended, they will cer-tainly do some lofty stepping when the lights are all on—and Fagan says he is going to Monte Carlo, if he has to swim the channel. For 2-year-olds—Victoria Stakes, \$1000 added; Tyro Stakes (selling) \$1000 added; Ctronation Stakes \$700 added. Steeplechases — Woodbine Steeplechase

Newmarket is the only team up to date to send in certificates to Secretary Hall, Apparently the other teams are waiting for

ows:

Other games will be arranged in the

> Baseball Brevitles. The Manufacturers' Life Baseball Club has reorganized for the coming season, A team will be entered in the Financial League, as heretofore, and a stremuous effort will be made to lift the cup. Address communications to Secretary E. J. Howson, care of Manufacturers' Life Insurance Company surance Company.
>
> The St. Andrews would like to arrange The St. Andrews would like to arrange a game for Saturday, Elms or North End A. C. preferred, Address W. Barrel, 369 West King-street, All players of the St. Andrews are earnestly requested to attend a meeting to be held in their club rooms to-morrow at 8,30 p.m.
>
> The Balmy Reach Juniors defeated East Toronto Juniors in one of the factors of the street games.

to attend. The Arctics of the Don Valley Senior League will play in Peterboro on May 24, two games. The Arctics will hold a meeting later on, notice of which will appea in the daily papers. Challenges from outside teams for Saturdays or holidays will be received. Address Manager R. Ferris, 21 Taylor-street.

and west End Manufacturers' League will meet at the Claremont House on Tuesday night at 8 o'clock, All members are requested to attend.

The St. Mary's junior baseball team will hold a meeting to-morrow night at 8 o'clock in their club rooms, All members and those wishing to join should attend this meeting. Quail, wild turkeys, black and grey squirrels—Nov. 1 to Dec. 1.
Swans and geese—Sept. 15 to April Ducks and other water fowl-Sept.1 to Dec. 31.
Suite, rail and plover—Sept. 1 to Dec. 31.
Capercalizie—Sept. 15 to Dec. 15.
Hares—Oct. 1 to Dec. 31.

Secretary Hall of the C. L. A. was in receipt of an application from Trenton yes-terday asking to be placed in the inter-mediate series. Trenton is a new club.

Carter of Elora, a younger brother of Nibs Carter, who played with Orillia last year, is a candidate for the Varsity team. Paddy Ramore, the well-known Fergus lacrosse player, who is attending Varsity, has practically decided not to go to Aus-tralia.

Varsity should have a lightning fast home, with Davidson, Campbell, Coombs, Ramore, Bryne, Graham and several others to pick from.

Bob Francis of the Torontos and Sport Murton of the Tecumsens were spectators at Varsity's practice yesterday.

The game between the Winnipegs and St. Paul for the Chipman Trophy, which it was proposed to play at St. Paul on May 30 (Decoration Day), has been called off, owing to the fact that the St. Paul Baseball Club will play at home on that day, and the grounds will not be available.

Harry Latham will be replaced on the ome by his brother Charlie. Alex. Turnbull, an old Paris boy, and the veteran centre-fielder of the New West-minster team, has moved to Vancouver.

According to Manager B. W. McIntyre of the Buffalo Lacrosse Club, Rochester has a real good twelve, and put up a good brand of lacrosse. When they see little George Kails in action this year, the Rochester people will witness a few stunts that will be new to them,

The three teams in Toronto this season, will surely work injury to either Torontos or Iroquois, and perhaps both, as these teams clash in their dates. The trouble is that there are not Saturdays enough to go around. It might be a good idea to convert a few of those blue Mondays into Saturdays—that would help some.

There are some warm members in that Capital outit that are now abroad. If "Percy" Fagan and "Harold" Hutton ever

The Capitals' Schedule. The Capitals will remain in London until Thursday, when they play the pick of London. On Friday they meet Bristol. On Saturday next they meet the Cardiff team. The schedule of the Caps' games is as fol-

on against All-England.
April 29—Play Cambridge University at May 2-Caps v. league champions, Man-

The Balmy Beach Juniors defeated East Toronto Juniors in one of the fastest games of ball seen on the Balmy Beach grounds. The score in the first of the seventh was 6 to 1 in favor of East Toronto. The Beach scored six in the eighth, winning out by 7 to 8. Features: Batting of Ryan and pitching of Stinson. Umpire-Parkinson. The Balmy Beach Juniors would like a game for Saturday next. Phone M. 1781, or write R. G. Ross, Balmy Beach P.O. The champion Capital Baseball Club accept the challenge from the Shamrocks for a game of ball next Saturday, to be played on Bayside Park, at 3.30 p.m. The following will line up for the Caps: J. Plunkett, E. Mottram, D. O'Reilly, B. Booth, J. Mc-Millan, Rogers, E. E. Minett, B. Clarke, C. Stickells and Jas. Lester.

The Wychwood Juniors beat the Beliance Juveniles in a friendly game on Saturday Juveniles in a friendly game on Saturday by 14—10. The features were the pitching of Case (of last year's Senior Sherbournes) for the winners, and the catching of Span ton for the Reliance. The Reliance would like to play the Wychwoods a return game on Saturday.

The Sunnyside baseball team will call a meeting at 8 o'clock at the Ocean House Hotel. All followers and players are asked to attend.

21 Taylor-street.

To-night at Central Y. M. C. A., in Room No. 9, the executive committee will receive applications from all baseball clubs of the city wishing to join the Interassociation Baseball League. There will be juvenile, intermediate and senior sections. All clubs wishing to join should send a representative to be present at 8.30.

The Victor baseball team would like to arrange a game for Saturdey effective of the sections. arrange a game for Saturday afternoon next with some intermediate team, to be played on the Don Flats. Address F. M. Sammie, 28 St. David-street, The West End Manufacturers' League

and those wishing to join should attend this meeting.

The Junior Shamrocks defeated the St. Josephs in an exhibition game at Bayside Park by 9 to 8. Batteries—King and Rus-sell; O'Reilly, O'Loughin and Wittze,

NOVICE BOWLING TOURNEY. Beef Trust High With 2128-To-Day's

to a good start at the Toronto Bowling Club last night. Mayor Coatsworth, assisted by Ald, McBride, McGhie, Wilson, Chisholm and Jones, did the honors by howling Flood Was Bad at Second in the the initial balls. Mayor Coatsworth made a brief speech at the beginning, and was loudly cheered. The club, which was tastefully decorated with plants and evergreens for the occasion, never looked bet ter. A large number of ladies were in attendance. Music was furnished by Fralick's orchestra. Daily bulletins of

Interesting whist games are to be held at the Toronto Whist Club, 43 Victoria-sireet, corner of Adelaide-street, commencing next Friday evening, April 19. A series of four will be played to decide city pairs championship. All pairs are invited. Suitable medals are to be given the winners. The first two pairs in the score for the series are to play a duplicate match in the final.

Yorkshire Society Cricket Club.

The annual meeting of the Yorkshire Society Cricket Club will be held on Wedness day next at 8 o'clock in the Central Y.M. C.A. rooms, Yonge-street, and all members are to play a duplicate match in the final.

STRICT MARATHON RULES. Disregard Thereof May Result in Disqualification.

George V. Brown, the manager of the Marathon, has sent the following letter to the men who have entered for the Boston 25-mile race : "No severe work should be done in the

week preceding the race. Long runs and tests of endurance should be finished before

"It is very important that the contestants should eat simple food, plainly cooked. Food should be eaten slowly, and chewed thoroly, and taken in moderate quantities. Avoid sweets and indigestible foods of all sorts. Eat plenty of fruits and vegetables. Drink water between meals.

"Alcohol in any form is positively forbidden before, during and immediately after the race. It never does good, and usually does harm.

the race. It never does good, and usually does harm.

"Disregard of the foregoing shall be considered sufficient grounds for disqualification by the physician in charge."

The full list of Canadian athletes entered for the race is: William Le Barre of the National Athletic Club of Hamilton; Thomas Longboat, West End Y.M.C.A., Toronto; H. O. Kerr. West End Y.M.C.A., Toronto; Dennis Bennett, International Harvesters' Club, Hamilton; T. D. Shipman, Gordon Athletic Club, Montreal, and Charles E. Petch, North End Athletic Club, Toronto. Longboat is the favorite.

Great Day for C.A.A.U. Yesterday was a great day for the Canadian Amateur Athletic Union, when these organizations applied for affiliation:

Irish-Canadian Amateur Athletic Club of

Toronto.

Barrie Athletic Club.
Orillia Athletic Club.
Orillia Athletic Club.
The Toronto Football Association, comprising 30 clubs and about 600 players, unanimously decided to affiliate.
President J. C. Lithgow of the Maritime Province A.A.A. wrote Secretary Crow, declaring that his association had no intention of joining the Montreal Federation, regardless of newspaper reports.

At the annual meeting of the Manitoba Football Association last week it was decided to affiliate with the C. A. A. U.

High School Games. Sporting Editor World: I wish to draw your attention to what I think you will agree with me is not quite justice in the high

with me is not quite justice in the high school games.

The age limit for entering the university is 14 years, therefore all students are compelled to remain in the collegiates until fully that age.

The highest age limit in the high school athletic events is 16 years, and under that age the student who competes in athletic events is compelled to compete against the oldest athletes in the institutes. We have recently had a case of exposure of a young man of 19 competing against boys of 17 years in the Broadview skating contests, which, I think, is a step in the right direction; yet the rules of the Toronto Board of Education goes that one better. Why not protect the students from unequal contests by raising the high school games age limit to 17 years. After that, if a student cannot enter the university let him take cannot enter the university let him take what he gets.

Parkdale Gun Club Shoot. Parkdale Gun Club Shoot.

The Parkdale Gun Club held their second shoot for the Ward Bros.' trophy on Saturday afternoon. The day being cold and windy, good scores were scarce:

Event No. 1, 10 targets—Fenton 9, Parker 9, Hooey 6, Moore 6, Giles 5.

Event No. 2, 10 targets—Fenton 7, Parker 7, Hooey 6, Godson 6, A. Gillies 5.

Event No. 3, 10 targets—J. Devins 8, Bush 5, Jones 5, A. Gillies 5, Pearce 4.

Event No. 4, 10 targets—Ward 7, Hooey Event No. 4, 10 targets—Ward 7, Hooey McKinan 6, Jones 5, J. Devins 5. Event No. 5, 10 targets—V. Reld 6, Pearce A. Gillies 5, Jones 6, J. Devins 4. Event No. 6, 10 targets—Fenton 8, Hooey Ward 7, Parker 6, Monkman 4. Event No. 7, cup shoot, 25 targets—Fen-Event No. 7, cup shoot, 25 targets—Fentou 22, Parker 19, Ward 17, Godson 14.

Heoey 13.

Event No. 8, 25 targets—J. Devins 15, Jones 13, Ward 12, Pearce 11, A. Gillies 11.

Event No. 9, 15 targets—Fenton 12, Parker 12, Hooey 9, Monkman 8, Pearce 7.

Event No. 10, 10 targets—H. Cluff 5, Giles 6, Moor 4, A. Orr 3, Pearce 3.

Event No. 11, 10 targets—Parker 10, Fenton 8, Giles 8, J. Devins 6, A. Gillies 6, Event No. 12, 10 targets—Hooey 7, Bush 5, Godson 5, A. Orr 3, Giles 3, Event No. 13, 10 targets—Fenton 8, Hooey 8, Ward 7, Parker 6, Monkman 4.

Glen Grove Rifle Club. The Glen Grove Rifie Club had a good turnout of members to the weekly shoot Saturday afternoon at the club range, Yange-street. The following scores were made shooting of hand at the 200 yard targets: Latimer 74 54 54

THE WORLD'S BASEBALL CONTEST

Can You Figure How the Toronto Baseball Club Will Stand on May 25th.

Ladies Coupon No 5.

I figure that the Toronto Baseball Team's percentage in the baseball race, after the games played on Victoria Day, May 24, 1907. will be as follows:

ADDRESS

The Toronto World will give two season tickets, one for a lady and one for a gentleman, to the first person of each sex, who can figure out the Toronto Baseball Club's average as it will appear after the "double-header" is played on Victoria Day, May 24, 1907. In the event of no person figuring the exact percentage, the closest guess will be considered the winner. The games to be played by the Toronto Baseball Team at home and abroad will be as follows: Rochester, April 24, 25, 26 and 27.

Buffalo, April 29, 30, May 1 and 2. At Toronto-With Rochester, May 3, 4, 6 and 7. With Buffalo, May 8, 9, 10 and 11. With Newark, May 13, 14 and 15. With Jersey City, May 16, 17 and 18. With Baltimore, May 20, 21 and 22

With Providence, May 24 (twice), To figure out the percentage of a baseball team in a league race, it is necessary to take the number of games won and add the number of games lost and divide the result into the number of

Ladies' and gentlemen's coupons will be issued alternately in The Daily and Sunday World. Only one coupon will be accepted from any one person on any one date. Address all coupons and communications to the Baseball Editor of The Toronto World.

PUBLIC OWNERSHIP LEAGUE.

CORPORATION ETHICS.

Some very serious questions have suddenly arisen in the matter of corporation ethics, and by that we mean those Tules of conduct which govern, or ought to govern, the conduct of directors of public companies. One of the masters of financial dialectics of this kind is Dr. Byron Walker, president of the Canadian Bank of Commerce, of the Canadian Bank of Commerce, masters should obtain on its books, who the other day discussed public masters should obtain on its books. ownership as applied to the Toronto Electric Light Company. We look to the doctor for light and exposition

The first question is whether the contracts made by the directors of the directors of the Electrical Development are something that can be justified: or whether they are necessarily unjust to the purchasing companies inasmuch as these contracts compel them to pay \$35 per horse power for energy that Hon. Adam Back of the hydro-power

But a still more serious question has arisen, if we are to accept the announcement made in an evening paper last night, that these contracts are about to be canceled. In that case the boot is on the other leg, because we have been led to understand that the investors who bought the bonds of followed sympathetically the evolution The cause of the death of Harriett Dew the Electrical Development Co. bought them on the strength of representations made to them that contracts at \$35 per horse power for long periods stands and admits without tinge of re- her body was burned had been closed. We cannot, there- gret that their loyalty is given, not to ler was intimate with Mrs. Dewing fore, understand how these contracts England or to Great Britain, but to the many months before the time he stated can be canceled without injuriously King and the empire. This is the basic that he first met her, namely, affecting the interests of the bondholders and the shareholders of the tion and conducts to consequences en- in

The Conference of the Colonies

Genesis of the Agenda-The Gradual Growth of the Program Since First Conference 20 Years Ago.

In reviewing the sphere of work which will engage the attention of the colonial conference, now in progress in London, it is impossible not to has been but forward and its compre-

ings.
Such a contrast is naturally most apparent on a comparison with the mode by which the harbinger of the present conference—that of 1887—sought to address itself to the subjects of common interest which at that day appeared to demand consideration at the hands of representatives of all parts of the empire. It is, for instance, interesting to note that the only subjects suggested by Edward Stanhope in the despatch whereby the then secretary for the colonies summoned the initial gathering of imperial representatives were those of defence and of postal and telegraphic communications. Sufficient pretext, it may be urged, did such subjects afford for inter-imperial deliberation; and it is not without significance that even to-day the question of defence should rank third amongst those questions of urgency advanced by the colonies themselves for consideration at the co-

Partially solved the it has been during the intervening years, the probconviction that "the provision of alternative routes of cable communica-

But the only two main items were thus suggested as agenda for the conference of 1887, the then colonial secindicated in his despatch intelligent expectation that "it is not impossible that there may be some other important question which in the general opinion of the colonial governments might properly and usefully be brought under consideration. But I should deprecate the discussion at the present time," Edward Stanhope went on to add, "of any of the sub-jects falling within the range of what is known as political federation. There has been no expression of colonia opinion in favor of any steps in that direction, and her majesty's government are of opinion that there would be no advantage in the informal discussion of a very difficult problem be-fore any basis has been accepted by

the arena of debate other imperial matters which in the view of at least a proportion of them called for earn-est deliberation. As evidence of this tho many of them were entirely without notice and only at the last mo ment, such topics as those affecting the Pacific Islands, the adoption by the colonies of similar legislation to patents, the effect of foreign bountle upon colonial sugar production and the investment of trust funds in colonial securities came in turn under the consideration of the delegates.

The Earlier Conferences. Somewhat different and certainly termining the agenda of the confer ence which met during the Diamond Jubilee year. At the initial meeting of that conference Mr. Chamberlain took occasion to indicate, in a speech whose every sentence testified to the keenness of his insight into imperial problems and to his unique appreciation of the value of colonial sentiment the subjects which he deemed it would prove most profitable for the assembled premiers to discuss. Embraced in the colonial secretary's suggest ed agenda were such questions as the pelitical relations of the mother country and her colonies, defence, commercial relations, matters relating to ocean cables, the establishment of an imperial penny post, and alien immi gration laws.

Upon the mode adopted in regard to the agenda the method pursued in respect of the conference which as ward's Coronation represented in its turn a distinct advance. In the case of this third conference Mr. Chamberprevious January, indicated as among the questions which His Majesty government desired to discuss with the colonial premiers attending the coronation of the King-Emperor those of the political and commercial relations of the empire, and its naval and military defence. In addition the several colonial governments were vited to remit a statement of any subjects which they thought might be usefully discussed, and, in order to facilitate and give a definite direction

CAPORAL

STANDARD OF THE WORLD

to the discussion the colonies were asked to furnish the text of any reso-lutions which they might wish to sub-

mit to the conference.

The result was to elicit eight topics for discussion from the New Zealand government, seven from that of the commonwealth, two from the Cape, and one from Natal. In addition to the question of political relations men-tioned in his despatch Mr. Chamber'-lain himself invited the delegates to consider the commercial relations of the empire, a subject also raised by Mr. Seddon and dealt with in a series of resolutions finally adopted by the premiers which the governments the Cape are now proposing that this year's conference should reaffirm.

This Year's Program.

The beneficent results of the prece dent set by Mr, Chamberlain five years ago are apparent to-day from the despatch forwarded by Lord Elgin to the governors-general and governors of the states to be represented at this year's conference, in which the secretary of state was able to embody the results of a careful study of the resolutions he had received from the various colonies for submission to the delegates when they should assemble. As in 1902, the Australian Commonwealth, the New Zealand, and the Cape governments have proved the most active colonies in propounding subjects for discussion This year Australia has sent in dou-ble her former number of topics for debate, namely, fourteen, New Zealand ten, and the Cape eight.

As for the matters with which the are, as Lord Elgin remarked in his despatch, "at least equal in number and importance to those which were discussed in 1902." Basing his tenta-tive arrangement of the conference agenda upon this most serviceable preliminary material, and giving precedence to those topics which the three "initiating" colonies have shown hemselves unanimous in desiring to discuss, the colonial secretary has been able to suggest a gradation of subjects which should commend itself to the acceptance of those over whose deliberations he is to preside, as it should tend to facilitate the delibera-

"The five primary subjects for consideration" as determined process are, as Lord Elgin has point conferences, preferential trade, de-fence, naturalization and emigration. 'Next in order will come judicial appeals, reservation of bills, and extension of British interests in the Pacific might proceed with regard to uniform ity of patents and merchandise marks reciprocity in professions, and the metric system. Separate discussions might be held on such matters as decimal currency, profit on silver coinage, stamp charges on colonial bonds, double payment of income tax, universal penny postage and imperial cable system, and the conclusion of

Viewed in relation to the proceed ings of the initial conference of twenty with gratification the advance which Chamberlain, has taken place in the direction of rendering these periodic conferences profitable meeting grounds for discussion of the affairs of our world-wide empire.

**** THE DUEL-PRINCESS.

"The Duel," Louis Parker's translation of Henri Lavedan's striking play of modern France, was presented at the Princess Theatre last night, and, during its three acts, Mr. Otie Skinner and his supporting company held the absorbed interest of the fairly large

"The Duei" might properly be designated a sketch rather than a play. The illicit love of Dr. Morey for the Duchess de Chailles, who reciprocates his affection, but who seeks the sanctuary of the confessional lest she be overcome, gives the foundation on which is built gives the foundation on which is built up the remarkably powerful situation upon which the curtain falls in the second act. The Abbe Daniel, to whom she confides the secret of the strivings within, is a brother of her lover, and it is between the two that the duel is fought. It is a crossing of the keen blade of the sneering scepticism of Dr. Morey, gross materialist and scoffer, with the earnest, whole-souled faith of the patient Abbe. The former, with his rapier thrusts of argument finds vulnerable spots in the armor of the priest who is stricken with the sudden fear that he is not sincere in his holy calling. He is stirred into a frenzy of doubt and apprehension until his uttheir vehemence, and the climax, which comes when the other, goaded into jealous fury, challenges divine interference with his plans, is of the utmost

dramatic power.

In the third, and concluding, act is found the Abbe, his spirit broken, convinced that it is useless for him to further stand as a barrier between the mutual love. He gently seeks to turn the duchess from her intention to enter cloister, and the tragic death of the duke freeing her of her bonds, gadly turns to her lover, while humble Abbe, no longer trustful of his mastery over human impulse, sets his face toward exile in the leper colony in

As the Abbe, Otis Skinner's portrayal of the strong, sincere, lovable character was of sterling merit. Mr. Skinner has many friends in Toronto, and the insistent recalls after the second act, in which he displayed great emotional power in the treatment of a trying situation, was a tribute to his ef-fectiveness. In his priestly vestments he fairly lived the role that he as-The supporting cast is an excellent one. Walter Hitchcock, as Dr. Morey, was at all times master of the part of the cynical scoffer at morality and religion, and Charles Walcot, as Val., the flags of England and the Unit-

Cooper, beloved husband of ister of militia and defence, at the interview mentioned in the said report, the undersigned understood his views regarding the rights and property of the timber licenses to differ widely from the views held by the minister by the deputy minister in his report, under the crown timber regulations, made under the Crown Timber Act, licensees are entitled to a renewal of April 15th, 1907, at his late the licenses upon payment of an annual ground rental of \$3 per mile and residence, 13 Sheridan-avenue, William crown dues at such rates as may be fixed by regulation.

"It must not be forgotten either that the provincial government has, besides the ownership of the said lands, an in-terest in the said timber, under the terms of the licenses, equal to about one-quarter of the value thereof. An estimate of the value of the timbercall on not of course necessarily conclusivewas made by an expert, whose qualifications were well known to the department, but this estimate has been characterized by the minister of militia and defence as exorbitant. In any event, the value could have been easily with Elsie Frazee and Aimee Buckley.
The story of the play is a simple one.
The royal chef is beheaded because he any method by which the value could be a simple one. tried to poison the rajah an dthe prime minister is ordered to get a substitute or lose his head. Heinrich Lemphauser department to this end, viz., determining the value of 'the existing rights of the said timber licensees,' the department of militia and defence has is released just before the curtain alls peremptorily, without any notice be-

Monseigneur Bolene, gave strength and character to the portrayal.

THE ROYAL CHEF—GRAND.

Val, the mags of England and the United States flying together and the chorus absolutely and without compensation, while the licensees must simply depend upon what may be called the bounty of the department of militia and defence, the head of which has already, in a manner entirely of parts of the reaction. in a manner entirely ex parte, charac-terized the claims of the licensees as exorbitant. In other words, one of the parties to the dispute is to pronounce final judgment on the claim of the

other party.
"Further, if this proceeding is constitutional, the existing licenses cannot be renewed at the expiration of the present year (April 30, 1907), at least, according to the view held by the department of militia and defence, their renewal would have no legal effect, the property having been assumed by the Dominion government and there being now no 'existing rights of the timber licensees."

"The undersigned hazards the opinion that this is a strange condition of affairs to obtain in a British country, and desires respectfully to inform your honor that, in the opinion of his colleagues and himself, the action of the department of militia and defence in this matter was unnecessary, un-warranted and arbitrary in the ex-

of \$5 from Hammersmith Lodge, S.O. E.B.S., toward the British Welcome League, and of \$1 from William Hyde,

which evidently pervaded the system of the minister of militia and defence, I would draw attention to the following reply from Hansard, of a question asked in the house of commons," said Premier Whitney, reading from the

Hansard report.

'Has the government by order-incouncil assumed certain lands in Townships of Petawawa and Mac-Kay?" The answer was "Yes,"
"Then it was asked, 'Is it the intention of the government to compensate the holders of licenses and the Province of Ontario?"

'The answer was, The government has not taken over the interests of lumber licensees and the Ontario government have no claim for compensa Province Over-Ridden.

"That is equivalent," declared the premier to the legislature, "to saying that the property belonging to the people of Ontario is to be taken in this wanton manner by the head of a department of the Dominion governnent, who had the assurance to say that he did not intend to pay any com-pensation, and after having offered a price for the land and after a lease of the land had been offered to him time after time. But because he chooses to imagine that the claim made by the timber icensees was exorbitant, and without seeing if there could not have been found a basis of proper valuation he dropped all question of negotiations with us, and without notice to the government of Ontario he takes advantage of a possible interpretation of the British North America Act and at once takes away the land, the timber, the rights of licensees and the rights of the province, which would accrue when the timber was cut. That is a bald statement of the actual undisguised

"All that the department of lands forests and mines asked was that the icensees should be settled with. These icenses are issued each year. and is taken away what right has the province to issue licenses at the end of the year? If this confiscation holds water the province will have no right to issue a license because the ownership of this province will have been taken away. The timber licensees will have no rights either for the same rea-The minister seems to think that because he says he this, subject to the present and existing interests of the licensees, that means the licensees can go on and cut timber. But what is to become of the rights of the province? He says boldly he does not intend to province any compensation he does not intend to give the the British does not North America Act entitle the As if the the British North America Act contemplated taking away for reasons of defence, the property of any individual without due consideration being given for it! As I say, in my report, there are two parties to this dispute as to the value of the timber, and by this action of the minbounty what I think your property is worth. That is the conclusion to which the department of militia and defence has arrived. Now, sir, I am not prepared to believe, and I do not wish to express an opinion hastily, that section 117 of the British North America Act authorizes or excuses any such taking over, forcibly and without notice, of property of this or any other province. Let me read that section:

me read that section:
"The several provinces shall retain all their respective public property not otherwise disposed of in this act, sub-ject to the right of Canada to assume any lands or public property required for fortifications or the defence of the

Not Needed for Defence.

"This land," the premier continued,
"is situated where it will not need to
be defended. It is located hundreds of
miles from the border of the only country that could ever become hostile so that it would be safe and would not need defence. Consequently this land does not, in my opinion, come under the operation of the section I have

ernment, that all intercourse and comreference to its treatment received when in the course of its duty it has been that subject to these necessary to communicate with the terests as they now extend the course of its duty it has been that subject to these necessary to communicate with the taking away of our property. I do try." not believe the leader of that government, or the principal members of that the defence. I do not propose to take any hasty action. My first intention was to present a resolution to the house How It Affects Licensees. on the matter, but I refrained from that because of animadversions with reference to the motives which might have ence to the motives which might have been charged as actuating this government. But I say to the people of Ontario, and to the members of this house, that while this government remains in power, it will leave no stone unturned in the effort to stop this outrageous attempt on the part of a minister at Ottawa to take over this property of the people of Ontario, without ty of the people of Ontario, without

compensation. ((Applause.)

"If necessary, we will go to the foot of the throne with our claim, and we may well feel certain that when the time comes for final decision, this man, Sir Frederick's Version.

Hon. Mr. Whitney had wired to Sir Frederick Borden (March 26): "I do not understand the action taken by your regarding Petawawa as shown by your despatch to the lieutenant-governor of the 22nd or New Your case of the 22nd or New Your despatch to the lieutenant-governor of the 22nd or New Your despatch to the lieutenant despatch despatc safe." (Prolonger applause.) The premier then laid the papers or the table and they will become part of

the records of the house. The Negotiations.

Among them was a memorandum pre-Among them was a memorandum prepared for the prime minister by Aubrey White, deputy minister of lands and forests, and Hon. Mr. Whitney read THE BURGLAR'S DAUGHTER—MA-JESTIC.

compensation for surrender, their licenses amounting to the exorbitant sum of \$112,000, department of justice was consulted. On advice of the min-

ister of justice that the lands could to the crown, on such tenure as migh be taken for defence purposes under be mutually agreed upon for a nominal British North America Act, steps were charge, details to be worked out, and an order-in-council to be passed cover-ing the area.

The official application for the land

was of date Oct. 3, 1904, and was for a lease for ninety-nine years. No orderin-council was passed, nor action taken before Mr. Davis retired from office, nor was any taken during Mr. Mac-Kay's term of office.

Mr. White was not a party to the early negotiations, but as soon as he became aware of them he pointed out

that the territory was under timber license, and that the rights of the licen sees woud have to be considered. The licensees, when asked, objected to any disposition of their timber unless they were compensated for their loss. Hon. Mr. Cochrane wrote the minister of militia, explaining the whole position and offering details which were accepted and transmitted. Sir Frederick Boren next had an interview with Premier Whitney and Hon. Mr. Cochrane and subsequently, Jan. 21, 1907, he wrote asking that the province should issue direct to the department of militia pat-ents for the lands in the camp site area, which the department had purchase from settlers; secondly, that the de-partment should be given a lease or allowed to purchase the remaining which were vested in the crown. The minister of militia requested that the lease should be given at a nominal rental for as long a period as the lands should be required for military purposes without reference to the holders of the timber licenses, "leaving the question of the acquisition of the nights of the licensees or otherwise compen sating them for any encroachment this department to be adjusted this department and the themselves." In the event of sale the minister asked that the province sell

the lands at 25 cents an acre.
The Area Required. The total area required was about 73,000 acres, 12,175 of which were purhased by the department from settlers; 5780 of this being unpatented. There, were, also 5989 acres additional to be purchased from settlers, of which 2870 acres are unpatented. The unpatented lands held by settlers therefore approximate 8600 acres, the area remain ing in the crown being about 55,000

On Feb. 13 the department of lands replied to the enquiry of the Ottawa government that patents would be issued to the minister of militia for such lots as he had purchased from settlers upon filing proper assignments from the settlers and paying in the balance of the purchase money due the crown with with the conditions under which the ernment would be prepared to issue lease for the lands in the crown at nominal rental for such term of might be agreed upon, the lands to revert to the crown in Ontario when no longer required for camp purposes the proposals in both cases to be sub ject to the rights of the timber licen sees being acquired by the department of militia and their consent to the issue of the lease being filed here; also that the crown dues, which would acister, the one party becomes the judge or the timber cut, would have and says T will give you out of my bounty what I think your property is plied of the kinds and quantities, of timber on the territory of the Pem broke Lumber Co., which the minister of lands and forests regarded as conservative, and suggested as a basis for

the payment of the dues.
On Feb. 21 the deputy minister of militia wrote that with respect to the issue of patents for lots purchased from individual owners the proposal was quite satisfactory; that with respect to the lands under license the militia department had no desire to interfere with the rights of the licensees, but would undertake to facilitate the cutting and removing of the timber if a lease were granted by the department of lands and forests.

The request for a lease or for sale at 25 cents an acre was renewed. On March 1 the province stated that if arrangements were made with the timber licensees a lease would be issued at a nominal consideration, without consent of the licensees it was not possible at the present time. On March 5 the Ottawa government stated the matter had been referred to the

n.inister of justice. "I have received no reply except a formal acknowledgement. I regret this occurrence, first of all because I am bound to say here, as leader of the gov-"the lands are absolutely in His Ma munication between us and the government of Canada have been of the most pleasant nature. This government of Ontario; that it was not intended to interfere with the rights of the said licensees or with the rights of settlers in possession, but terests as they now exist all the lands government at Ottawa. I do not be-lieve the principal members of the British North America Act of Dominion government have anything 1867 in the right of the Dominion of to do with this attempt at the foreible Canada for the defence of the coun-

A further telegram stated that "on advice of the minister of justice government, knew anything about this that the lands could be taken for de-action of the department of militia and fence purposes under British North fence purposes under British North

The timber licenses affected have been granted by the Ontario govern-

ment and been renewed for a great many years, altho some of them have been acquired by purchase within recent periods from former owners. Under the regulations licensees are entitled to a renewal of their licenses upon payment of an annual ground rent of \$3 per mile and the fixed crown

The stumpage value of the timber is estimated by Mr. White at about \$100,-000, and in addition the province has a direct pecuniary interest to the extent of probably \$25,000 or \$30,000 dues payable as the timber is cut. In Mr. White's opinion the safety of the timber would be seriously jeopardized by the presence of a large military camp where bodies of soldiers would be moving about using matches for lighting pipes and fires.

The effect of the order-in-council, if the action is constitutional, is to take away from the province the surface rights and the rights in the timber and to deprive the licensees of their property, unless some provision is made for compensation, both to the

SPECIAL FARMING & LIVE STOCK EDITION

POULTRY RAISING. There is a peculiar fascination hanging around the rearing of poultry. he interest that attaches to the hatching and rearing of the domestic fowl seems to fasten itself, upon both young and old, male and female.

This love for the business has carried the enthusiasts into many a wild goose chase, and has often succeeded in making many a lover of birds a pessimist of the worst kind. In the springtime when nature flings abroad her lifegiving zephyrs and fuses new hopes into sluggish veins, many a shipwrecked hope cprings into renewed life, and lives in a fools' paradise for a few more

Chicken raising as an experiment or diversion is a very pleasant one. As a business it is weighted with the old question of making returns pay a good investment upon the outlay. Mix these two aspirations in the wrong proportion and disaster leaves it empty poultry farms on many a corner lot. But when the combination of love for the work enters into exact union with the business acumen of the commercial man, then there results a compound of pure delight. It requires carefulness, calculation and good marketing. It will not do to build castles in the gir at all. All success is personal and individual. Every certainty in the chicken business is obtained after trial.

Perhaps the most paying enterprise with fowl is made upon the farm, where fowls are raised as an adjunct to the other departments. A little care in selection and feeding, a fairly comfortable house and inexpensive feeds, with a sharp outlook for the latest schemes in marketing, produce results on the

correct side of farm economy. A flock of pure-bred fowl scratching with their garrulous persistency around a contented farmstead evidence more contentment and preach more of the joys of the country life than whole

folios of successful theory. DRAINING THE FARM,

There is no improvement that a farmer can make on his farm that is more directly productive than the tile draining of his farm. Often a complete compensation accrues in one year after the expenditure. Not only is there a loss by the presence of water in the soil. but the lack of aeration is a serious defect. Tile drains do good in two ways. They drain the soil and cause a

good drainage scheme is hard to work allowing them plenty of exercise. out, and much expense in wrong calculations and labor is saved by a judicious plan for work. To this end the employment of a competent engineer would be a go 1 thing. The expense of such has often deterred farmers from such consultations, but the offer of the week for the sale of a brooder and in-O.A.C at Guelph last year, and also continued this year, will simplify matters very much. William H. Day, B.A., of the department of physics at Guelph, writes in another column of the feasibility of the work Farmers might well club together and get the expert to their neighborhoo.

years. The trains will be met, and it may be a good day's pay for any farmer to take the train to-morrow morning.

THE MILK PRODUCERS.

Much depends on the farmers as to what they themselves will receive for their milk this season. It will be to interests if they make no contracts for longer periods than six months, or any conditional contracts that they are to receive the price prevailing. If the dealers could live at six cents a quart last year, while paying the farmers \$1.05 per can, they can live at seven cents, which they are charging to the consumers, if the farmer gets \$1.30 per can. If the price of milk is to go up to seven cents or even remain at the six cents, the farmer is justly entitled to the four cents per quart net, at least. Subterfuges are tried by some dealers to put down in a growing population such as we have. Stay to your guns. Get the price

FARM WORK THIS WEEK.

April is here. Everything is to be done now. The farmer who has managed well will find his work go on with a clocklike harmony. The other employment also. Just such offers are who has just been drawn along by events will find himself all tangled up with work now. The seeding mus be done just as soon as a seed-bed can be made. The early seeding in all but peas is the one that pays in big yields. The manure is still to get out of many yards, but this heavy item of labor should have been spread over the winter months. Cleaning up of old rubbish, trimming orchards, burning brush, rebuilding old fences getting wood up for summer and drain ing, are all clamoring to be done This week do one thing well. Steady persistency will overcome the delay yet, and it is not too late to have all things done decently in order In the meantime get the team on the fields as soon as possible and pre-pare the seed bed well.

SEEDS FOR THE FARM.

Now is the time to sow the seeds and he is a wise man who sows the good seed. A few cents in the price of the price, but these things won't last in a growing population such as we graft of three years, but the general a clean bushel is not much just now, but it means much in the fall. Attention tion is called to the advertisement in this issue of George Keith. His oats are apparently a good yielder, with a straw that will stand up. A postcard from you to send some by express C.O. D., will have you oats at your station in short order. A change of seed will not hurt, anyway. Try some, Mention Norval April 17 The World.

FARM LABOR IN SCOTLAND. Desire for Change and Chance Overcomes Persistent Thrift.

Canada is passing thru an acute gricultural labor question just now Many parts of rural Ontario have less inhabitants now than they had last year. The scarcity of farm labor is assuming an acute form in some districts. The immigration to the Northwestern provinces is one great of so many hands in railway con-struction is drawing them away from the farm.

The Ayrshire Post in Scotland talks about their agrarian troubles along a similar line. It says:" ing these shores. If it were the ne'er-do-weels which were going away, it would probably not matter very much; but in many cases it is the very best orers who have left these shores, the writer has made a point of enquiring as to what the betterment of their condition really amounts to. From the great body of evidence before us, we find that had the men who are new in Canada put the same zeal into their labor here, as they have done since going to Canada, and spent as little in frivolous enjoyment as they same number of hours as they do in Canada and you will see what answer will be forthcoming. However, the point is not whether the laborers are better off in Canada than here; the question at issue is how to prevent the rural depopulation which has been going on during the last quarter of a century. If the small landholders bill will accomplish this end, then, sooner it is passed into law the bet-ter; but on looking over the figures given by responsible authorities this has not been accomplished by the Crofters Acts, as the ratio of decrease of population is greater in these parts than anywhere in Scotland

INCUBATOR CHICKS.

Success of the Incubator Method is Assured-Care and Patience Needed

Several people both in the suburbs will find little difficulty of sale for and in the country, are experimenting some weeks to come. There is every this year with the incubator plan of assurance of the increase of raising chickens. The work is decidedly interesting in its initial stages, the curiosity of the thing ensuring good and from beginning to end, the market is careful regulations during the first possessed of every encouragement for hatches. But the hardest work follows breeders. In short, it rather looks as it gree of moisture, regulation of temperature etc. The taking care of the young had already set in. ing attention to the necessity for ab- ary measures for the care and feeding chicks is everything, and if precaution of them are taken, with a willingness to use any amount of patience, no doubt profit will ensue

Care should be taken to select the eggs, testing them thoroly, so as to ensure fertile ones. Run the incubator according to directions, and at the ap-pointed time the chicks will appear. The main thing to do after the hatch is to keep them in warm and wellventilated compartments. The question of feed is not a difficult one, for anyone who observes nature and adheres closely to her laws will experience little difficulty on this score. Over-feeding will probably be a bigger danger than will probably be a bigger danger than under-feeding. We do not believe in soft-feeding. It may do for a change orce in a while, but the dry method carries more common sense with it. Absolute cleanliness is essential. Disease durks in dirty pens and once it starts among the flock the labor of weeks fades away in a few moments.

We had occasion to visit a neat farmhouse recently in which the incubator had been successfully introduced. Over per cent. of the eggs, hatched and the chicks were being cared for in the best of condition. The brooder was placed in a "V"-shaped coop on the window on the south and a door on the north were neatly inserted, and here the chicks were secure from chill. This house will form a valuable place each hatch at its beginning. As the chicks grow they can be moved to similar but smaller coops, which can be ced at various parts of the yard. The danger from skunks, weasels and

hawks continues all the season, and a steady attention nightly of the coops is the only surely for success. Other things will creep up that will discourage the worker, but he must be pre-pared for some discount on his expec-The market for good fat chicks is always good. With the growth of the cities and increase in Canada's population, this feature of farming will by a profitable undertaking.

CONSTIPATION CLOGS THE BOWELS

No other cause produces so much sickness as constipation, and therefore it is dangerous to allow the bowels to become clogged up. Bad blood, dyspepsia, headaches, biliousness, boils, pimples, and piles, are all caused by constipation. Avoid all of these troubles by the use of

BURDOCK BLOOD BITTERS.

nature's remedy for all diseases of the atomach, bowels and blood. It acts on the bowels and promotes their free and regular action, curing constipation and all troubles which arise from it. It has been on the market for over thirty years so you are not using a new and untried remedy. B.B.B. has cured thousands of others and will cure you, Mr. B. Woodcock, Nashwaak Bridge, N.S., writes: "For over two years my wife was troubled with constipation. She tried several physicians but could get no relief, but after taking three bottles of Burdock Blood Bitters she was completely cured and is to-day in good health. My wife and I cannot speak too highly of B.B.B.

Sales Brisk and Prices All Round Reported Good With a Free Demand for Quality.

While there is nothing phenomenal going on in the horse market, that is, no striking prices are being paid for extra high classes, the situation is de: cidedly healthy and shipments out of the country are considerably larger than they have been for s me years past. In addition there have recently been a few transactions of some importance in the city, consequent upon the approaching horse show. Dealers, in fact, say things were never more brisk and that for well-mannered carriage pairs in particular, the demand for the right sort is assuredly be-yond the supply. Saddle horses and hunters are also liberally enquired for in short, all round, the market is strong,

Workers continue to bring fair but not exorbitant prices, the market, as i always is, being entirely governed by the sorts at hand. From the North-west there is the usual brisk spring demand, and shippers are continually being made, but heither purchasers nor sellers appear anxious for publicity The former say they are pestered with request to buy if their names are mentioned, and the latter say that reports of their doings lead to exactions by the men they buy from. Nothing more de finite, therefore, can be said than tha all offerings find a market and that turnovers are rapid, dealers rarely hav ing to keep horses in the stable for any length of time.

With the approach of spring, too. transactions in roadsters and light horses generally are increasing in num ber, but the general tendency is to take chances with promising green horses rather than to pay big prices for re-cognized performers of merit. Still, The World has of late reported an unusual number of matinee horses chang ing hands, and it is safe to predict that well-bred trotting and pacing horses clubs all over the country, which, o course, means an ever continual growth of the demand for a bit of speed. Thus

Messrs. Burns & Sheppard of The Re pository and Horse Exchange report that prices all round are good just now, and horses that are up to the mark are bringing excellent turns right along. The prevailing prices are as follows: Single roadsters, 15 to 16 hands

Single cobs and carriage horses, 15 to 16.1 hands 150 to 180 Matched pairs, 15 to 16.1 hands Delivey horses 1100 to 1200 150 to 16 deneral purpose and express horses, 1200 to 1350 pounds 150 to 180 Draught horses, 1350 to 1750

Serviceable second hand work-Serviceable second hand driv-... 50 to ers

To-day the regular Tuesday sale a The Repository will be of rather more ordinary importance. Several well-bred Hackneys and other carriage horses of exceptional quality are to be offered, as well as a number of traps of the best London and New York make, suitable for show purposes and including a four-in-hand park coach. Six polo ponies from the stable of Col. Lessard, who is leaving town, along with the colonel's entire stable outfit, Several carriages and stable fixings are also to be disposed of by order o Col. Ogilvie of the Royal Canadian Ar tillery. These are all in addition to 150 selected draughters, general purpose and heavy and light delivery horses, expressers and drivers.

D. W. Wilson, U. S. consul at Cardiff n a report to his government, says that the United Kingdom, which is the largest importer in the world of cattle and sheep for slaughtering purposes, is oddly enough the largest exporter of horses for the same purpose. that the number of horses, which now average one for every 22 inhabitants has varied very little from 2,100,000 for 15 years, but the number exported for Il purposes rose from 27.612 in 1901 1to 47,708 in 1905, and 60,414 in 1906. The exporting of horses for by and other purposes has horses for breeding profitable for many years, the increase since 1901 is together due to the trade in horse meat in certain continental countries This, says the consul, is apparent from the fact that only 10,990 of the number exported in 1905 were valued at more than \$100 each. Belgium seems to be the principal buyer of old horses, and British exports to that country 1905 showed 3005 at under \$25, and 18. 454 at \$25 to \$50. The average price of ordinary horses, ponies excepted, is about \$27, but fat horses have sold for more, The best horseflesh is sold for 10 cents to 12 cents per pound poorer parts for 7 cents to 9 cents, and the residue is made into sausage. This sausage is said to be the staple food of many people. The growing demand for horse meat on the continent is due

chiefly to the shortage and high prices of other meats. John E. Madden is building an exercising ring at Hamburg Place, near Lexington, Ky., that will rival Alfred G. Vanderbilt's. M. H. Tichenor, who recently visited Mr. Madden's farm, and steel, 200 feet long and 100 feet wide, and will cost about \$40,000. It is be used for exercising thorobreds trotters and carriage horses in weather. In three adjoining stalls at Hamburg Place, Mr. Tichenor saw Chance, Siliko and Salvidere, respecof buying only such stallions and mares tors already heard from are A. Yeager won the championship for hunters

SAMPLES

AND SEE FOR YOURSELF.

Considerable interest is being shown n the special bacon meetings now being conducted in Eastern Ontario. The farmers, for the most part, are very busy, but their appreciation of the value of attending such meetings leads them to turn out in fairly large, num-

The average attendance in the County of Glengarry, in which county meetings have just been completed, was thirty. All in attendance were persons keenly interested in the bacon industry, and from the variety and pointed questions asked of Mr. Duncan Anderson, who is giving addresses at these meetings, it is clear that the dairymen of the east are waking to the necessity for raising a larger number of hogs of the desired bacon type. In this county, where we have over 31,000 milch cows, ones appear this week. Yours ought the farmers kill or sell only 21,000 hogs. Every dairyman should produce at least two hogs for every cow he keeps. This would mean 60.000 hogs for Glengarry, instead of 21,000. From this source they would receive annually over \$500,000, or \$300,000 more than at present. In this county only 700 acres of mangolds or turnips are grown annually. If the farmers would break up some of their almost worn-out hay fields and grow a

well-known breeders of Ontario, the majority belonging to J. E. Brethour of Burford, who is personally super-intending the conduct of these sales at various points. At the opening he made an introductory explanation, pointing out the necessity for improvement in the production of export bacon by the breeding of pure bred swine. The bidding was fairly brisk, but such as to convey the impression that farmers of this district are ready to pay fancy prices. In all, twenty hogs were sold, ranging in price from \$8 to \$25 each.

Various Old Fences Are Giving Way to the Modern Woven Wire.

FARM FENCING.

Each spring makes its demands upon he farmer and rural dweller, for fences. Many of the old "worm" rail fences are disappearing, even the pine samp fence is being cut up for firewood. This scarcity of building material makes it imperative to use something

The modern wire fence has come to be looked upon as the successful farm fence of to-day. From the barbed wire fence, which still obtaines in many places, and the straight wire fence generally an eye-sore to all who see it, to the modern, neat, serviceable and ornamental woven wire fence, there has been a steady evolution for utility and cheap-

Farmers everywhere want a fence that will look well after years of wear. One that can be put on easily and withstand the shocks of frost, accident and strain. Improvements have gone on in the wire manufacture also, until to day we have Canadian a familiar advertisement to many of our farmers. We take pleasuse in calling at into the majority of our constructions. The World carries a few fence ads. in this page that are genuine ones. The ther you want a farm fence to hold self. The Lamb Fence of London is ther you want a farm fence to hold back the wildest of animals; whther chickens desire a netting, or whether the front yards and gates need to be artistically done, the Page people of Walkerville con file.

Page fence has a lasting name for it self. The Lamb Fence of London is made of the best of materials and the manufacturers are good people.

The hinge stay fence of Owen Sound has many warm admirers, and its build.

HASTINGS FIRE SWEPT MAIN PORTION GUTTER

Every Business Establishment on Front Street, West of Bridge, Prey to Flames.

HASTINGS, April 15 .- One of the most destructive fires that ever visited Hastings broke out shortly after 1 o'clock this morning, destroying the

main business portion of the town.
The buildings burned were: The
Coughlan House Hotel, Buck and
Buck's general store; the Howard
Block, O'Reilly's Grocery, H. A. Wilson's, gents' furnishing; Tracey's Bakery, P. M. Howard's Grocery and
Liquor Store, and Weldman's Machine

Shop.

With a strong north wind blowing, control of the blaze soon got beyond control of the local fire brigade, and a despatch was sent to Peterboro for aid. Within two hours after the alanm was sent in, all the places of business on Front-street, west of Bridge, were completely destroyed.

The agreemate loss is estimated at nearly \$80,000. Most of the buildings were partly covered by insurance.

WILL DIRECTORS BE SUED? Ontario Bank Will Decide Vital Point

It is expected that at the weekly conerence of the new directors of the de funct Ontario Bank, to be held to-mor row, a decision will be reached in regard to any action that may be taken by the new directors in the name of the Ontario Bank against the directors in control at the time of the smash. in control at the time of the smash.

A. B. Morine, counsel for the Bankers' Association, told The World yesterday that any action to recover the money lost by McGill from the old directors would have to come from the new directors, the curator and the advisory committee appointed by certain hanks which curanteed the Bank of banks which guaranteed the Bank of Montreal against loss in taking over the

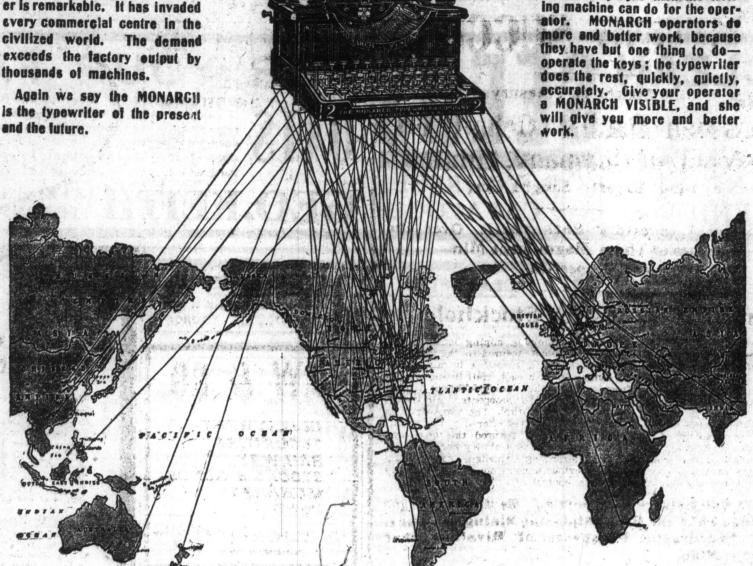

defunct bank. The Bankers' Association had nothing whatever to do in the matter. At the present time correspondence regarding the stand that would be taken by the present directors was going on and a decision would be made within a short time.

The civil suit against McGill, also instituted by the new directors, will come up for trial on May 27. Part of the evidence has been taken, but it may be necessary to bring McGill back to Toronto for further examination in May.

GOT A PAIN IN YOUR BACK?

You get a pain in your back, and you wonder what is the matter. You perhaps pay no attention to it. Backache is caused by imperfect action of the kidneys, in fact,

is the first sign of kidney trouble to follow. The kidneys, proper, are composed of a close network of fibrous tissue, interlaced with tiny elastic fibres. Their object is the excretion of the uric acid, and other poisonous matter composing the urine, from the blood.

They are continuously at work to pre-serve the general health of the body and most people are troubled with some form of kidney trouble, but do not suspect it. Some of the symptoms are: A feeling of wheels passing over his hand. pains in back, puffiness under the eyes, and swelling of the feet and ankles, urinary troubles such as supressed urination, exces-

sive urination, cloudy, thick or highly colored urine, etc. Mr. J. L. Whiting, Osnabruck Centre, Ont., writes: "I suffered for two years with kidney trouble. I had terrible pains in my back, hips and legs. I could not sleep and had a poor appetite, I took four boxes of Doan's Kidney Pills, and the pains left me, my appetite returned and I now sleep well. I can recommend Doan's Kidney Pills to anyone suffering from kidney trouble. Boyle.

It has been reported that Adams and the other indicted officers were to be removed by the police board this afternoon.

THE JUBILEE YEAR.

Editor World: If Queen Victoria had her accession would have been celebrated in June of this year. Edward VII. has been a power for

good in the sovereignty of the British empire. But there will never be another jubilee like the jubilee that WAS in 1897, or the jubilee that MIGHT HAVE BEEN in 1907. Never again will the rejoicing sons of the widow robe the world in their Union Jack, or Rev.E.C. Laker of Crawford-st. Church fill the universe with their song, God If the late lamented George III. had lived till the middle of next week he would have been able to celebrate the

hundred and somethingth anniversary of the propounding of his famous unanswerable query: "How apple get in the dumplin'?" "Oh, the pity o't!".
Doubtless William IV. was a bold, brave sailor laddie, but he could not be expected to wrestle with such question, and, but for the decease of George aforesaid, IT MIGHT HAVE BEEN that the great problem would have now been satisfactorily settled

for all time. But alas! alas! the why and wherefore of the apple in the dumpling is, like the origin of Jeams, "wropt in mystery." Hyper. Not Desired by China. WASHINGTON, April 15.—The emi-gration of Chinese coolies from their country to Panama and Colombia as laborers is not desired by the Chinese

COBALT --- Professional Selling Weakens the Mining Stocks --- COBALT

NEW YORK MINING EXCHANGE. NEW YORK, April 15.—About 200 members attended the opening of the new mining and miscellaneous securities department of the Produce Exchange to-day. A call was conducted, during which sales of 1200 shares were made, the first transaction being 100 Furnace Creek at 1½. Bids and offers were made in about half of the 150 mining and industrial stocks listed. TO START WORK ON HAZEL-

COBALT. April 15.—John A. Donaldson and J. Spearing of Buffalo spent Friday last looking over the Hazel-Jewel Mine in which they are heavily interested. Mr. Donaldson was well pleased with the outlook, and stated that active operations would be commenced on the property in a short time. short time.

BEWARE OF THEM.

prove the market situation otherwise than the technical state of holdings, and the weakness at the New York stock market have been staked during the winter whereweakness at the New York stock market was taken advantage of by traders. Foster, Trethewey and Silver Queen were hammered, and these had an influence on other market issues, the whole fabric being consequently under the effect of a weak undertone. The rumor of smallpox at the camp, with the possibility of a long quarantine, assisted those who were engaged in depressing prices. The prolonged spell of weak prices is having its influence on ontside holders, and some liquidation for this account occurred in to-day's market. The market closed weak, and with little gemblance of support, except from those short of the market.

Great numbers of these claims have been staked during the winter whereever a mineralized rock happened to stick up thru the snow, and in even less promiting circumstances.

No claims can be patented, of course, until they have passed government inspected, much less passed.

In spite of this, strangers, Americans, and even Canadians, who ought to know better, are buying these so-called claims.

A little consideration may save much worry and even litigation later on.

MINING SUCCESS

The 500,000 Shares of Treasury Stock in

Canadian Pacific Cobalt Development Company, Limited

Being Eagerly Sought For.

Experienced Investors Enthusiastic Over the Future of These Magnificent Mining Properties.

Early Dividends for Stockholders

The big "scoop" of 971 acres of promising mining lands in the very heart of the richest ore district of Cobalt, secured by the Canadian Pacific Development Company, has created a sensation in mining circles. Hundreds of letters are coming in with each mail in request for stock. Numbers of these from some of the most prominent mining men, who express genuine optimism over the prospects. All indications point to an early close of the stock books. The proposition is without doubt the best and safest investment yet offered to the public, while the personnel of the company who have secured this vast area of mining properties, are men of known business ability and standing, who stand in the front rank of enterprising Canadians, careful, cautious and capable. As stated in a previous announcement, the company have secured absolute and complete control of:

27 Well Selected Properties, Having a Larger Acreage Than the Great Nipissing Mining Company. With Encouraging Prospects of Rivalling that Famous Mine.

Treasury Stock at 12 1-2 cents is the greatest opportunity for the investing public ever placed on the market. It is bound to make fortunes for those who are wise enough to secure stock now. Engineers' reports and opinions of expert mining men are of the most optimistic and positive character, and the immediate response for Treasury Stock has already exceeded the most sanguine hopes of the directorate. Now is the time to get in. Only 500,000 shares of Treasury Stock will be offered at this price. NO PERSONAL LIABILITY! PAR VALUE \$1. Capital \$3,500,000.. Fully Paid and Non-Assessable

Buy Stock Now at 121/2 Gents It is going fast, and this may be your only opportunity. Buy before the advance, which is bound to come. The point is, that the same

ore body which has made others rich, has indications actually exposed on these magnificent claims. This is a great chance for the small investor as well as the large.

LARDER LAKE

UNDERWRITERS' SYNDICATE.

We extend an invitation to investors to join us in taking over the first issue of shares which we have underwritten of a Larder Lake first issue of shares which we have underwritten of a Larder Lake Gold Mining Cempany at 10 cents per share. The Company has just been organized and will be managed by mining men of highest standing. The Company owns 27 well located gold claims, 1,080 acres in all, which have yielded extraordinary geld values, located in the new gold district of Larder Lake, 60 miles north of Cebalt, New Ontarie, which will be systematically developed. All investors who join this Syndicate will share in profits from a ground fleer basis, and will participate in an immediate profit or increase in market value of shares of 500 per cent. Immediately upon the Underwriters' Syndicate being closed Law & Co. will in their custemary vigoreus manner place the shares upon the market by judicious advertising throughout Canada and the United States at an advance of five times the cest price to the Underwriters' Syndicate, in the of five times the cost price to the Underwriters' Syndicate, in the profits of which all members of the Syndicate will participate.

The Trusts and Guarantee Company, 14 King street west, Toronto, will act as Trustees for the Underwriters' Syndicate in receiving and holding the shares and issuing receipts therefor, and also as Registrars and Transfer Agents for the Company.

For application blanks and full particulars, call upon or address

REGISTEARS AND TRANSFER AGENTS THE TRUSTS AND GUARANTEE CO. 14 KING STREET WEST TORONTO, ONT.

LAW & CO., 728 - 729 - 730 - 731 - 732 Traders Benk Building, Toronto, Ont.

Of Interest to **Miners and Investors**

The North Ontario Reduction & Refining Company, Limited, who are installing a plant for the refining of Cobalt and other ores at Sturgeon Falls, have their buildings, including a laboratory and sampling plant, just about completed and have contracted for all their machinery, which will be installed as rapidly as possible. They expect to be ready to receive ore some time in June.

This is the first refining plant to be erected in the Province of Ontarlo, which should enable the Company to secure the bounty offered by the Ontario Government, which amounts to \$165,000 a year. This will pay thirty per cent. on the entire capital. In addition to the bounty, enormous profits made by refiners will enable the Company, with its low capitalization, to pay very large dividends.

We advise you to investigate this proposition. As a bona fide investment it has no equal. Prospectus and full information will be mailed on application to

609 Temple Bldg., Toronto

Phone Main 2385.

GANADA PERMANENT MORTGAGE CORPORATION

TORONTO STREET, TORONTO

SECURITIES ARE WEAK THRUOUT THE WHOLE DAY

12

Heaviress the Outstanding Feature of the Wall Street Close-Canadians Dull.

World Office, World Qince,
Monday Eve ding, April 15.
The Toronto stock market was so dull
to-day that many brokers remained at their
offices and attended to matters having relation to the New York market. / The market was weak thruout the day, but insuffiiation to the New York market. [The market was weak thruout the day, but insufficient to disturb confidences and therefore liquidation was precipitated to only a small extent. The fact that several of the local issues are offering without bids, gives an exceedingly weak appearance to the situation and causes considerable unrest among speculators and investors. Toronto Electric continues to be offered at 145, but the insiders are not sufficiently imbued with the outlook to even put up a bid for the stock which is offering. Those interested in the Rios have given out a statement that no opposition is in the all to this carpany, but the disclaimer lent no particular strength to the bonus shock, while the bonds were offered quite freely around current prices. The local issues with New York affiliations were weakened with that merket and Twin City, Mackay and C.P.R. sold lower. There was only a very light denand for bank stocks to-day and sales had to be made at lower prices. Sales of Electrical Development bonds occurred to-day for the first time in many weeks. The liquidation was thought to have been precipitated by recent agitation. The market closed heavy and particularly dull.

M.P. issues \$4,000,000 equipment trust 5 per cent, gold bonds,

M.P. issues \$4,000,000 equipment trust

There were a good many stop loss or-ders caught in Union on the decline of two points, but short covering caused that ssue to rally sharply to Saturday's closing vel and above. The short interest that a still ousttanding in this stock is presumed to be of very large proportions, and we would not be surprised to see this rally extend considerably further. On all breaks we would buy Union Pacific for a turn.

low levels and continue dull for a long period until the new advance begins-un. "strong hands" which evidently are still carrying the stocks invent some are still carrying the stocks invent some new manipulation for unloading purposes. The violent break in March induced much investment buying, in large and smill amounts, but this gradually petered out as stocks rose, and public participation almost wholly ceased. The public has not since changed its attitude.—J. S. Bache & Co. The cutlook for the stock market is for near or less irregularity. At the moment, there is no reason for anticipating any serious decline nor for any extended buil movement. Fluctuations promise to continue within comparatively safe and narrow limits. The easier condition of the money market has, of course, a strengthening effect; altho this is somewhat offset by the enewed demands for capital thru fresh is considered to the union of the union of the money market has, of course, a strengthening effect; altho this is somewhat offset by the enewed demands for capital thru fresh is gradient strength is being shown by pennsylvania, N.Y. Central, the the price level is low and the market would be call.

Beyond stating that the freturns and commercial affairs in America are if anything imported and that traffic returns and commercial affairs in America are if anything imported anything imported and that traffic returns and commercial affairs in America are if anything imported anything imported affairs in America are if anything imported anything in the way of stock market instanting anything i new manipulation for unloading purposes

where they will probably remain for an in-definite period.—Henry Clews.

M.P. Issues \$1,000,000 equipment trust be derived. The continued bonds.

Large increase in loans in bank statement considered largely due to transfer of loans from London and unwillingness of trust companies to lend at present low call increase.

Capper selling agencies say no stock of netal on hand and no reason for decline in prices.

Anthracite business active and with large sales.

Banks gained \$1,934,000 from sub-treasury gince Friday.

New York—Al man who keeps in very close fouch with the copper metal situation and who is reasonably familiar with the affairs of the Amalgamated Company says that while the company does not publish statements of carnings at regular periods it may be taken as a fact that the resonance of the manufacture in the continued attacks against corporate Interests and the uncertainty as their present dividend payments. We continue firmly to believe that good stocks all thru the company on actinue firmly to believe that good stocks all thru the continued attacks against corporate Interests and the uncertainty as their present dividend payments. We continue firmly to believe that good stocks all thru the company says that while the company does not publish statements of carnings at regular periods it may be taken as a fact that the tion and who is reasonably familiar with the affairs of the Amalgamated Company says that while the company does not publish statements of cearnings at regular periods it may be triken as a fact that the profits are large and that the stock is timpossible to say." Perhaps an equally related to the profits are large and that the stock is timpossible to say." Perhaps an equally related to follow proceeding advances, seeing, which produce it is impossible to say." Perhaps an equally related to the profits are large and that the stock is timpossible to say." Perhaps an equally related to the profits are large and that the stock is simply established on 8 per cent, dividend basis.

Joseph says: The verdict against the Standard Oll Company will prevent acceptions. The stock market against the standard of further rebates. This will benefit small shippers, railroads, and security holders. Traders continue hearish and they will resume their guerilla warfare marketwise. Atchison gains a great victory and is free to build its Texas line. On further, the support is a specified to stock market to-day. The support is as specified by any very striking evidence. As prices are not inflated, the effect of the stock market to-day. The support is as specified by any very striking evidence. As prices are not inflated, the effect of the stock market to-day. The support is as specified to buy for a turn when individ in weakness appears, should protect contracts by small stop-loss orders.—Financial News.

Marshall, Spader & Co. wired J. G. Beaty Twin City at the close of the market: Beyond stating that the world's financial merkets appear to be in a healthy condi-tion and that traffic returns and commer-cial affairs in America are if anything im-

ed attractive by investors except for incidents like the above.
Emis & Stoppani wired to J. L. Mitchell ed attractive by investors except for incidents like the above.

Ennis & Stoppani wired to J. L. Mitchell at the close:

The marnet to-day has ruled irregular, recording a sharp raily after early depression in connection with aunonucement of a minor failure on stock exchange, but losing ground again as soon as short covering was completed. London soid some long stock was disposed of in similar manner to that handled last week, the bear contingent continuing active. Reduction in discount rate of Bank of Netherlands and expectation that the English bank rate will be further reduced on Thursday or one week from Thursday were favorable factors as easier money abroad, reduces possibility of gold exports from this side. The Great Northern ore land lease was ratified at a meeting of stockholders of the Steel Corporation, and it is maintained that there is still fair prospect for an increase in Steel common dividend rate on the 29th irst. The Amalgamated Copper dividend meeting is scheduled for next Thursday. It is stated that pig iron production on the curiral west has been soid for remainder of the year. Copper metal juvations here were unchanged to day. Crop advices continued unfavorable, but too much importance should not be attached to such reports at the present time. A rumor as to pit-spective borrowing on a considerable scale by Union Pacific was an adverse influence. Statements of railroad carnings for the first week of April showed quite general increases. Time money was slightly firmer. Sentiment is unsettled and predictions of a reaction in business of less favorable money rates and political considerations are the chief factors inducing sales of stocks. The price level is low and the short interest is becoming rather heavy. This marks a distinct improvem and in the technical position and we anticipate a sharp reversal of the downward movement within a short period of time.

Dann & Robinson to J. Lorne Campbell' The market has every indication of going lower. After the first hour the market rallied and for

Marshail, Spader & Co. wired J. G. Beaty at the close of the market:

A falling off in the movement of some importance appears to be in progress and while the amount in sight to date has exceeded 12,000,000 bales the remaining four mouths of the season may witness a much stronger statistical position than now expected in the fact that mill takings will almost surely continue on a scale fully up to their capacity and these takings must come from the visible supply of American cotton and amount yet immarketed in farmers' hands.

These two items will hardly furnish four million bales of cotton available as to quality for spinners' uses and the statistical position of the staple is therefore, becoming stronger every day.

Weather predictions concerning for the stable in the stable of the stable is therefore, becoming stronger every day.

weather predictions generally fair to-lay and to-morrow, occasional showers rising

BRUSSELS, April 15.-King Leopold's return is expected to mark the beginning of a new phase in the struggle between the monarch and parliament over the question of the annexatilon of the Congo free state by Belgium. His refusal to permit the Congo administration to furnish informa-tion concerning the finances of his Af-rican state to the parliamentary commission of the country of which he is

the constitutional king, practically checkmates the parliament. Public opinion in Belgium is divided on the question. The commercial class generally reaps indirectly large profits from the wealth coming out of the Congo and the mass of the people, dazzled by the prodigality of the monarch, his manifold gifts, the magnificent structures he is constantly building, are indifferent or on the side of the king. Nevertheless, sentiment in favor of annexation grows constantly. In parliament the majority is strongly convinced that the destintes of the

immense black population of the king's African possessions, comprising 900,000 square miles, demand that a civil adninistration amenable to public opinion and a cabinet responsible to par liament, should be substituted for the rresponsible will of one man. How much the king's revenue really s has always been a matter of specuation. It has been estimated from \$6,000,000 to \$12,000,000. He is supposed to get half the profits of the conces-

sionary companies.

Above all, the king seems apprehenof a conference to revoke his trustee

Ever since the tariff was imposed in 1883 there has been a deep resentment in England because English goods are practically barred from the Congo. Estates of the Dead. The late Robert Boyle of 10 Glou-

cester street, druggist, left an estate valued at \$28,985. After a payment of legacy of \$2000 to his mother, the residue is for his widow. On her death the property goes to Miss Florence Boyle.
Mrs. Catherine Murray, widow, died ntestate, leaving an estate of \$11,019. Her daughter Ella and sons, John and

being her next kin, share equally in the estate. The children are not of age. Ella is 18, John is 16 and George is 12. George Whelan, their uncle, has petitioned to be declared the guardian. The estate of the late Robert Gouir commercial traveler, totals \$32, 702. He owned No. 92 Spadina-avenue, worth \$7000, and had one-half in-

terest in 174 and 176 Jameson-avenue, totaling \$4000. Legacies of \$200 each are left to his 13 nephews and nieces, a bequest of \$1500 to his sister Eliza-beth Hannah Muir, \$1000 to his bro-991/4 ther James and the residue to be invested for the benefit of his three sisters, Mary Monteith, Ellen Watson and Lillie E. Gouinlock. George Hope, farmer of Etobicoke, left legacies of \$400 each to his three sons. His estate totals \$4061. The resi-

due goes to his and Fred Hope. Chartered Accountants' Students. The second annual dinner of the Chartered Accountant Students' iety was held in the St. Charles' Restaurant last night under the chairmanship of President W. F. Page Higgins. The students were addressed during the evening by W. B. Tindall, F.C.A., and Osler Wade, upon technical lines.

to his two other sons, Chas.

by Messrs. Jamieson and Mott and the secretary, W. H. Thompson. First Trains in Fortnight. REGINA, April 15.-Two Canadian Northern trains arrived here this 14 morning from the north, the first for 1374 nearly a fortnight.

The musical program was supplied

MARINE

The board of trade received the following communication yesterday from Frank E. Gibbs, Dominion grain inspector, Fort William:
"The ice-breaker, James Whalen, hav

Arthur to Fort William and place the Minch, at elevator 'B,' and the Bixby at the Empire elevator, left Monday, April 8, in the forenoon. She broke her way with difficulty to the Canadian Northern coal docks; thence along in front of the smelter works and out into the bay, opposite the MacIntyre River. On account of having some of her machinery out of order, she returned to Port Arthur, and Tuesday, being a very cold and stormy day, she did not leave the dock. At 7 o'clock Wednesday morning, she started out again and broke her way to within about a mile or so of the Empire elevator, where, there being 28 inches of solid ice, she used dynamite. She got up to the Empire elevator about 6 p.m. and went up the river without a stop, past elevator Arthur to Fort William and place the up the river without a stop, past ele-vator 'B.' She then returned to Port Arthur, doing it in half an hour. On Thursday morning she came back and placed the vessels at their elevators. The whole is a wonderful performance. The condition of the ice in the bay is the same as it was in February, and unless the Whalen can break her way out to open water, which is forty-five miles distant, I do not think navigation could be opened before the first of May

PORT DALHOUSIE, April 15. - The Weiland Canal opened this morning at 8 o'clock. The first boat to lock up was the steamer Robert Wallace, followed by the John Gault

PORT DALHOUSIE - Passed up Steamer R. Wallace, Ogdensburg to Duluth, light; steamer Prince, Ogdensburg to Chicago, general cargo; steamer J S. Gault, Charlotte to Alpena, light. Down — Nothing. Wind—Southwest;

DETROIT.—Ice conditions in the St. Mary's River have not improved for the past week. On the contrary, the opening of Lake Superior navigation does not seem to be as near at hand as it did then. KINGSTON.-Arrivals-Schooner Ly

den, Fairhaven, coal. Cleared—Steam-ers Fairmount, Rosemount, Melrose, Westmount, Niagara and the steam

CLEVELIAND, OHIO, April 15.—The threatened strike of cooks and stewards on the lakes was settled to-day.
The chief cooks get a raise from \$80
to \$85 a month. The \$70 cooks get
\$75; second cooks and waiters are raised \$1 a week, getting \$34 a month before Oct. 1 and \$37.50 after that date.

PORT COLBORNE, April 15 .- The Mutual Steamship Company, Limited, was organized at Port Colborne tohaving for its object a general transportation business on the great lakes of Canada and waters contigu-ous thereto. The following were elected on the board of directors: D. McGillivray, Port Colborne: W. M. His Majesty is Checkmating Parlia-ment's Quest for Information.

German, M.P., Welland; W. E. Phin, Welland; Roy Wolvin, Duluth; J. W. will sail for England in about a fort-night to supervise the construction of a ship now building and to arrange for a second ship.

Turbine Battleship Launched. KURE, JAPAN, April 15.-The bat-tleship Aki was launched here today in the presence of a representa-tive of the Japanese emperor, and Vice-Admiral Sir Arthur William Moore, commander-in-chief of the It is said that he Aki will be fitted with turbine engines.

Freight Off Track. ST. JOHN. N. B., April 15.—(Special.)

—An eastbound freight ran off the track near Harcourt to-day, smashing four cars to atoms. one was hurt, but the cars sustained much damage.

Chicago Gossip. Wheat was nervous all day, with a large general trade. During the early session, altho numerous damage reports were again in evidence, local professional traders were rather free profit-takers, and there was some indication of short selling by those who anticipated precipitation in districts where needed, despite the fact that the weather bureau predicted clear and dry weather. On the resultant decline to a 1/4c below Saturday's close, resting orders in the hands of commission houses checked the hands of commission houses checked the downward turn and held the market steady, and the final figures showed all the early loss regained. The late upturn was early loss regained. The late upturn was on buying from the southwest, accompanied by damage reports, of which all were from the same territory that has contributed news of this character for the past ten days. Market factors were bearish, such as foreign advices, poor cash demand, and an increase in the visible supply.

Corn and oats opened a shade easier, but rallied sharply on good buying of a general character. Moderate receipts and dry weather were the factors.

ther were the factors. The close was firm.
Melady & Co. had the following at the

near future.
Oats—There was an easy cash market, but receipts were rather small. Crop advices were no better than last week. Of course, oats are high, and the scattered holders are afraid of the concentrated long interest selling out, leaving them to hold on to the bag, which makes the market nervous. We do not look to see any selling by the leading holders until prices advance further.

operated by the Minnehaha Mining & Smelting Co.

This district is doubtless destined to be the Rand of Ontario, and the Mantitou as a gold filed will be a name to conjure with. Word comes that the Little Master mine has also struck the Laurentain's Bonanza run. This is another proof that the gold in this district is not pockets, but is all ores,

PARRY SOUND, April 15.—The by-law voting \$100,000 to the Dominion Smelters, Limited, was carried to-day by 322 to 13. 24c. Cheese—Firm; receipts, 903; state full cream, colored and white, small, Sept. fancy, 15c; do., Oct., best. 13c to 14½c; good to prime, 13c to 13½c; do., winter made, average best, 12½c; do., large, Sept. fancy, 15c; do., good to prime, 12¾c; to 13½c; do. inferior, 11½c; to 13½c; do. inferior, 11½c; to 12¾c; to 13½c; do., inferior, 11½c; to 12¾c; to 13¾c; do., inferior, 11½c; to 12¾c; to 13¾c; do., inferior, 11½c; to 12¾c; to 12¾c; do., inferior, 11½c; to 12¾c; to 12¾c; do., inferior, 11½c; to 12¾c; to 12¾c; to 12¾c; do., inferior, 11½c; to 12¾c; t The smelter is to be the largest in

London Stock Market.

LONDON, April 15.—The supplies of money were abundant on the market to-day and rates were easy. Discounts were weak. The Bank of England secured the bulk of the \$3,000,000 in gold in the open bulk of the \$3,000,000 in gold in the open market. On the stock exchange a confi-dent tone prevailed, owing to the abun-dance of money and the prospects of an early reduction of the Bank of England's early reduction of the Bank of England's discount rate, but public buying was very meagre, and the transactions, therefore, were small. Prices were inclined to sag, except consols and home rails, which were fractionally harder. Americans went below parity in the forenoon on the disappointing New York bank statement and the weakness of copper, which were the chief influences in the selling movement. The decline continued until New York bid up various favorites, and then fluctuations became PLANS NEW \$1,000,000 SCHEME FOR AVENUE

Supt. Bishop Wants Expropriation on University Avenue-Trouble Over Flag Omission.

Mr. Bishop, who will ask the board of education to consider his idea in con-nection with the plan for a central technical school site, thinks the schem could be carried out by expending \$1,-000,000. Centre-avenue would have to be closed, and a block of land about a

Such a device was employed in United States cities, he pointed out.

was one with sire that their island may become a part of the Dominion of Canada.

In describing some of the incidents of the recent earthquake he said he was 40 miles away at the time of the was 40 miles away at the Chief Thompson said that the police great shock, but it was very severe even at that distance. It was untrue that

did fairly well at present in turning in night alarms and he was not strongly impressed with the need for the special lighting. A report will be had from Secretary MacGowan as to the cost. Would a Light Stop Them? Ald. Whytock, in support of his mo-tion to have electric lights installed at every street car stop, said there had been many complaints because the cars

wouldn't stop at the corner of Bloor and Givens-streets, and at Arthur and Claremont-streets. There being no lighting, motormen couldn't see the waiting, would-be passengers Ald. McBride thought it would prove very expensive to carry out the scheme, and Ald. Church believed that the rail-

Rust will report,
Ald, Whytock brought with him another grievance from ward five. The electric lights on Jersey-avenue did not filumine the gloom until about 11 o'clock nightly. Secretary MacGowan of the fire department will investigate. Approval was given the recommendation of Chief Thompson and the city architect that a permit be granted to the King Radiator Co. to erect a foundry at the corner of St. Helens

and Dora-avenues. Chief Thompson reported that he taker Jos. Donelly, retired; also John case where it is justified. Acheson and Robert Cross to take the Prof. Osborne devoted t places of two firemen detailed for duty at the island. The appointments which American immigration has had

Corn—The lower prices for cash corn Saturday were followed by no recovery today, but the futures were strong under buying by elevator and cash houses. On the advance, however, it looked like the Armour house was trying to self some corn, which the market was too small to take. The market acts toppy, and we feel friendly to sales on bulges for the find McCrae property, now owned and the market acts toppy, and we feel friendly to sales on bulges for the friendly to sales on bulges for the first McCrae property, now owned and the market acts toppy, and we feel friendly to sales on bulges for the first McCrae property, now owned and the market acts toppy. tem, proposed that an arrangement should be made with the Bell Tele-This district is doubtless destined to phone Company for the use of one or more of their ducts. The officials were instructed to confer with the company.

No Day and Night Work. At the meeting of the island committee yesterday the board of con-trol's report against working day and night shifts on the sand pumps was approved. The park commissioner reported

that it would cost \$2345 to lay down a concrete walk from the entrance to the ferry company's grounds to the present concrete walk at the old Heber Hotel property at Hanlan's Point. Mr. Chambers was instructed to ask the company to contribute towards the Hanlan will be the ultimate choice. cost.

City Issues a Writ. The city has issued a writ against he Toronto Railway Co., claiming damages for the company's neglect to give a service of cars reasonably complying with the agreement of the first of September, 1891.

The city claims \$6000, being a charge of \$100 a day for the company's neglect from Feb. 14, 1907, to April 14.
Dr. Sheard says that the three smallpox patients at the Swiss Cottage are doing well and should recover. No fresh cases have been reported. Altho it is four months yet until the convention of the American Association of Park Superintendents will open in the city hall, arrangements for the event will be begun probably within the next few days. Mr. Chambers, who is vice-president of the association, expects that the secretary, F. L. Mulford, superintendent of parks, Harrisburg, Pa., and Mr. Keith,

will be attended by about 75 representatives of cities thruout America.

A New Industry.

The industry to which Mr. Thompson referred in his letter to the works committee, is backed by a big United States firm, who desire to establish a marble works in Toronto. The commarble works in Toronto. The company promise to employ about 75 men. The commissioner says he had a visit within the last few days from a representative of a large United States industry, who, having read of the Ashbridge's Bay district as an industrial site, had his curiosity aroused. Mr. Thompson, who took him over the ground, says that the visitor was greatly impressed with the desirability of the location, and that he declared he knew of no other city which was

York Township Board of Health. W. J. Carter, inspector for West-York, reported favorably to the estab-Fork, reported favorably to the estab-lishing of a rendering plant on lot 33, concession 3, F.B., by J. W. Young. The board recommended to the coun-cil that a permit be issued. The medi-cal health officer, Dr. Warren, report-ed only one case of scarlet fever, and the isolation removed from the patients previously reported.

Mesdames Sifton, Cook and others complained about a manure pile close to their residences in Deer Park. Inspector Michell stated that it was only horse manure and will be plowed under in a few days, and is not injurious to health.

No action was taken. The nuisance created by Mr. Austin on Davenportroad, by a drain from a kitchen and cesspool must be abated at once, or legal proceedings will be instituted. The medical health officer and inspector for

the year the colporteurs sold 2136 copies of the Scriptures, 21,368 books, traveled 9871 miles, and visited 17,081 homes. From the Depository there were sent out 15,234 Bibles and Testaments, as well as thousands of religious books and tracts. In mission work among sailors, 717 visits were made to vessels in canals, 7700 tracts and 3500 books distributed. The Snug Harbor in the east at Kingston, under charge of Mr. Pound, received 1693 visits from sailors, to whom during the year 500 Bibles and 14,000 books and thousands f pages of tracts were distributed. The work of the society along the frontier, ministered to lumbermen miners, railway construction men, who were all given varied assortments of literature by the society's missionaries. The foreign work of the society had been carried on thru the China Religious Tract Society of Hankow, report of which was not at hand. The financial side of the society's ar

nual progress had been \$1200 in adof last year's contributions. The treasurer's account showed ag gregate receipts at \$75,697.94, and expenditures at \$71,543.71. Officers were re-elected.

Makes the Fact Clear—Further Supplementary Estimates—
Day in Legislature.

Further supplementary estimates

were brought down in the legislature yesterday afternoon. The main items are grants of \$4000 and \$1000 respectively to Mrs. Helen St. John, widow, and to Miss Winnie St. John, daughter of the late Speaker St. John. A grant of \$4000 is also made to the drainers. \$4000 is also made to the drainage scheme on the River Raisin.

Hon. Mr. Beck introduced a bill to provide for the transmission of electric power to municipalities. It will take the place of one recently introduced, which will be withdrawn in committee. The present measure has been drafted by the commission for the revision of the statutes and will harmonize the existing legislation. It defines the power of municipalities to supply light and power to users, and to those in adjoining places, with the consent of the hydro-electric commission. It also makes clear that the Conmee Act does not apply to municipal corporations entering into contracts with the commission. Another clause makes the not apply to municipal corporations entering into contracts with the commission. Another clause makes the mission. Another clause makes the line loss a part of the cost of operation, to be paid by the municipalities, and forms of application to the commission are drafted. The bill was also given a second reading.

Hon. Mr. Hanna introduced a bill to provide for the plugging of gas and oil wells. This is the measure A. B. Mc-Coig introduced some time ago which he government has taken up.

resspool must be abated at once, or legal proceedings will be instituted. The medical health officer and inspector for West York have to inspect the premises once more and give Mr. Austin ten days to make a change.

U.C. TRACT SOCIETY.

A Year of Widespread Gospel Literature.

The annual meeting of the Upper Canada Religious Tract and Book Society was held last night in the Central Methodist Church, J. K. Macdonald residing. The annual report showed that the field of labor had been enlarged, the staff of the sailors' missionaries increased, as well as a greater liberality on the part of those specially interest ed in the society's work and a growing the servers and staken up.

Railway Subsidies.

Premier Whitney found it impossible to make his promised statement on railway subsidies, but will do so to-day, when there will be three sessions of the house, the first at 11 o'clock. The loquacity of some, or even of one of the members threatens to prolong the session into next week. The promised opposition field day will probably resolve itself into timely debate, as the several contentious topics are reached. The privacy of the university governors will not be overlooked.

Hon. Mr. Hanna announced an amendment to the clause in the Municipal Amendment Act, by which locomotive and steamboats are left out from its operation, and no action could be entered until 90 days' notice had first been given by the municipality to the party against whom the suit was brought.

on the part of those specially interest ed in the society's work and a growing interest on the part of the public, with a much larger amount of good literature circulated, which had produced greater results for good than perhaps greater results for good than perhaps any like paried in the part of the words "oral or written" added the words "oral or written" added the words "oral or written" added the words "oral or written" after the words "express notice," which the amendment requires to be given to the officials of municipalities before damages can be claimed for injuries received on defective highways. A. G. a much larger amount of good literature circulated, which had produced greater results for good than perhaps ages can be claimed for injuries received on defective highways. A. G. any like period in the past. During direct knowledge was possessed by officials would be exempted, but Mr. Hanna thought the law would cover

such cases, while some protection must be afforded municipalities. Herbert Lennox declared municipalities had no more right to protection than other bodies. If the amendment Were adopted corporations employing labor should be given the same advant. age. Such actions were the result of negligence usually, and very few actions were brought in the province against municipalities. It was not a question of changing the law, but of do-

ng what was right. Studholme's Philosophy. "Protect your little fellow," said Allan
