INCAPACITY OF THE BOER GOVERNMENT EXPOSED MR. WHITNEY MAKES A FORCEFUL DENUNCIATION

Record of Liberal Party Weighed in the Balance and Found Wanting.

J. P. Whitney, Conservative leader in the Ontario Legislature, denounced his platform in an address which he gave before the Ontario Liberal-Conservative Association in Victoria Hall on Tuesday night. His address was of nearly three hours' duration, and was looked upon in the light of a pronouncement. It really was a condemnation of the course of the government with respect to the issues that have been kept in the forefront of politics during the past quarter of a century. As to any new policy, Mr. Whitney refused to be drawn, and in this respect he quoted a splendid precedent. It was no less than a speech of Mr. Joseph Chamberlain when in opposition, in reply to taunts of government members for an avowal of his policy and the avowal of his colleagues. Mr. Whitney, on that occasion, refused to be drawn out, saying that any policy which he and his colleagues had in view, when they were entrusted with the reins of government, would be kept to themselves, as they did not propose to write the prescriptions for their country's affairs while their opponents collected their fees.

Reforms to Be Made.

This statement was important inasmuch as it indicated that Mr. Whitney and his colleagues proposed to inaugurate some radical reforms. He was strong in his denunciation of Mr. Ross' ministry, and accused them of stealing the issues from the Conservatives had originated in the past. He stated his case in a clear and concise manner, showing what has been and what will continue to be the policy of the opposition touching the matters that have engaged the attention of the Legislature. He quoted freely the minutes of the House, pointing out how the Conservatives had driven the government to adopt their ideas, and wound up a forceful and thoughtful speech by giving a summary of what he would continue to uphold.

Was Particularly Strong.

He was particularly strong in refuting the oft-quoted statement of the government that the Conservatives have no policy. The last session of the Legislature proved the effectiveness of that policy, and its success was shown by the straits to which Mr. Ross was driven.

Those on the Right.

It was a warm night for a political meeting and the hall was not filled. A few ladies were in the gallery. Mr. J. P. Whitney presided, and among those on the platform were: E. F. Clarke, M.P.; J. S. Joseph, M.L.A.; E. Carleton, M.P.; Col. Matthews, M.L.A.; E. A. Colbourne, M.L.A.; M. Macmillan, M.L.A.; E. B. Oiler, M.P.; W. H. Hoyle, M.L.A.; E. McLaughlin, M.L.A.; R. McCully, St. Thomas, and Henry Duncan.

Chairman's Remarks.

The chairman announced that owing to

the meeting of the Ontario Liberal-Conservative Association it was decided to give Mr. Whitney an opportunity to address the delegates on the issues that will have to be met during the coming campaign. At the gathering of the association the defects in the organization of the party in the province were discussed, and it was decided that whatever defects there were, the party would endeavor to have cured, and that the cutting of wheat along the coast, which has been the subject of the Conservatives' policy, had been attempted to get out the vote, and the officers of the various associations would go home and give such an account of themselves that will leave no doubt in the mind of any voter that the government sees fit to make an appeal to the people.

Given Rousing Reception.

When Mr. Whitney spoke he was accorded a rousing reception. He stated that the welcome which he had received was in keeping with the state of the weather and in keeping with the interest which the people are taking with reference to the political questions of the day. He proposed to bring up the subject of each political party to date and the record of the

Policy of the Conservative Party on All Vital Topics Confidently Proclaimed

The Liberals have never suggested anything. They obtained power by accident and they wind up a record of incompetence by selling off the timber resources of the province, and when they get to the end of that they come to the end of breaking open ballot-boxes and destroying the evidences of their iniquity by fire.

Adverting to the policy of the Conservative party with regard to agriculture, Mr. Whitney contended that it was a matter of knowledge that the Conservatives had insisted agricultural colleges, and in this position of the party at the present time was that they will never rest satisfied till there are more, or one, or even more than four or five, agricultural colleges in Ontario. It was an unqualified falsehood that he had opposed the appointment of a Minister of Agriculture. He outlined the legislation in respect to the best sugar proposals, claiming that his position was one that was in the interest of the farmers. The record of the party on the labor question, he declared, was one of which they need not be ashamed.

Timber Resources.

As to the timber resources of the province, the policy of the Conservative party was twofold. That policy was to conserve those resources, and to find out all about the timber wealth and see how it can be best and most profitably used. In this matter, the records of the House show that the party has been moving in the direction of conserving the immense wealth of the province and of requiring that the logs shall be sawn in Canada.

Something to Come.

He promised an important statement in the future as to the concessions granted to American lumbermen. "I will tell you again," he said, "what return the American lumbermen gave for these concessions."

"What our policy has been in the past in regard to this great asset which is being frittered away at a rate that the people do not dream of, will continue to be our policy," he said, as he dismissed the subject.

Pulp Concessions.

Taking up the pulp concessions, he declared a great many had been made blindly. No one really knows what these concessions cover, as it was impossible to get satisfactory information on the subject. He would have been better to sell these lands by public competition, but a movement in this direction was squelched by the government. After fifteen years' dealing with the question of timber and pulp lands, the people must see that the policy of the Conservative party has been in the best interests of the province.

Fee to Dees.

He declared that he was an unalterable foe to the system of imposing onerous dues on the mineral resources by Order-in-Council.

UNARMED BRITISH SCOUTS ARE BRUTALLY SHOT DOWN

Governor of Cape Colony Reports Further Outrages on the Part of Boers—Dewet Issues a Proclamation Indicating That He is Qualifying for the Gallows.

LONDON, Sept. 3.—The Colonial Office published to-night a despatch from the Governor of Cape Colony, Sir Walter Hely-Hutchinson, received Sept. 1, announcing that the Boers, Aug. 8, captured two unarmed British scouts near Baarekloof and shot them in cold blood.

DEWET THE MURDERER.

LONDON, Sept. 3.—"Dewet has issued a proclamation," says a despatch to The Daily Mail from Cape Town, "that he will shoot all British troops found in Orange River Colony after Sept. 15."

BOERS LOOT BARRYDALE.

Cape Town, Sept. 3.—A well mounted force of Boers have looted Barrydale, 140 miles from Cape Town.

Schoener's Boer commando passed close to Montagu, 150 miles from Cape Town yesterday, and had a slight brush with the local scouts. They had spare horses and were apparently well equipped. A column of troops has gone in pursuit.

EVIDENCE FROM CAPE COLONY.

LONDON, Sept. 3.—Dr. Krause, former governor of Johannesburg, a prominent official of the late Transvaal government, who was taken into custody in London last night, was charged at the Bow-street Police Court this morning with high treason in the Transvaal under the fugitive offenders law, and was remanded for a week without bail.

No evidence except as to Dr. Krause's arrest being offered, Sir George Lewis, on behalf of the prisoner, asked if any deposition against his client supporting the charge existed. Prosecutor Muir replied that there was, of course, information against the accused in Cape Colony. The police here he said, acted upon telegraphic instructions.

The police testified that Dr. Krause, who was arrested, looked at the warrant and remarked "The charge is absurd."

WEEKLY TALLY.

LONDON, Sept. 3.—A despatch from Lord Kitchener, dated Pretoria today, says: Since Aug. 26 the colonial report 19 Boers killed, three wounded, 212 made prisoners, and 127 surrendered, and that 194 rifles, 27,500 rounds of ammunition, 700 horses and 700 head of cattle have been captured.

ANIMALS FOR SOUTH AFRICA.

New Orleans, La., Sept. 3.—The British officers in command of the agency here

for the purchase and shipment of mules and horses to the British army in South Africa report that they have sent to Cape Town 100 carcases, consisting of 1700 mules and horses, about equally divided between the two.

The animals cost \$2,500,000, and with the provisions for three trips to Africa, \$15,000,000.

CRITICISM FOR KITCHENER.

LONDON, Sept. 3.—Edgar Wallace, whose despatches regarding the shooting and wounded men at Volksfontein created a sensation, now publishes a letter in The Mail, showing that the optimistic view of the South African situation, which prevails in England, is not shared by the anti-Boer press of Cape Colony. One journal emphasizes the necessity of rendering the British forces as mobile as the Boer commandos which they are set to catch, and also advocates an increase in the number of British troops. Similarly, another South African newspaper severely criticizes the slow movements of the British troops, and another deplores the unhealthy condition of their columns. But the want of mobility is not the sole point of the criticisms leveled at Lord Kitchener's mode of war. A little higher out that hitherto he has entirely failed to inspire the Boers with salutary fear.

COL GORDON BETTER.

Ottawa, Sept. 3.—A cablegram received here to-day from the Cmsary Department, Cape Town, states the condition of Lieut. Col. Gordon, Aug. 30, slightly improved.

BRITISH PATROL CAPTURED.

Cape Town, Sept. 3.—It is reported that Commandant Myburgh has issued an order directing that all armed colonials captured after Sept. 15 are to be shot.

Capt. Wallis, with a patrol of 25 men, from Outpost, was taken prisoner by 24 Boers. He and two men were killed and four wounded, and the remainder fled the scene of the encounter, were released.

OLD BOYS' DAY AT THE FAIR

Not Radiantly Successful in Numbers of Reunions, But Otherwise Up to the Mark.

TO-DAY BOUND TO BE A BANNER DAY

Interesting Speeches Made By Many Guests at the Banquet Luncheon of Directors.

As an Old Boys' day, yesterday at the Exhibition was not radiantly successful. From every other point of view, however, it was a splendid day. The attendance was well up to the average, and if Old Sol had been a little less generous with his rays, almost ideal conditions would have existed. Still the old boys from various places in Ontario now living in Toronto, and the many others who have left to seek fame and fortune elsewhere, who were there, had an immense time. The reunion they held in their tent in Society Row was a particularly happy affair, and to those who had returned to their own home after an absence of many years, it was a most interesting case of "Fond memories bring the light of other days around me." The exhibition director honored the more prominent old boys in their usual cordial way, and everything was as merry as the proverbial bell.

AFTER THE TRADES UNIONS

Consequence of the Recent Decision of the House of Lords re Picketing.

ONE WRIT FOR \$20,000 DAMAGES

Case is Viewed Seriously and it is Believed Funds are Threatened.

Swansea, Wales, Sept. 3.—A commotion was caused at to-day's session of the Trades Union Congress here by the action of some employers in endeavoring to recover damages under the House of Lords decision of July 22 last from labor organizations for picketing by their members. A delegate from Blackburn was served with a writ yesterday restraining him and the members of the Blackburn branch of the Weavers, Winders and Finishers Association from picketing Banister & Moore's Works, where a strike is now in progress. Damages and costs were claimed.

Besides this suit, the Taff Vale Railway is suing the Amalgamated Society of Railway Servants for £20,000 damages, incurred as a result of the strike of 1900. These suits will be strenuously defended, but their seriousness puts in the shade almost every other topic of discussion.

The Chronicle to-day supports this view, maintaining that no association of workmen can stand long against such litigation, and that, if the decision regarding picketing is final, then any unscrupulous capitalist will have his employees at will strike back again into an organized and impotent crowd.

BE ALL OVER IN SIX WEEKS

Threshers in the West Are Busy, and Wishes Are for Continued Good Weather.

AVERAGE YIELD 25 BUSHELS AN ACRE

Encouraging Reports From Manitoba Point to Saving Crops in First-Class Shape.

Winnipeg, Man., Sept. 3.—Speaking of the harvest to-day Hon. Mr. Davidson, who has just returned from the country, had been no more so far as the wheat and the corn harvest are concerned. He said that the wheat already threshed would grade No. 1 hard as a general rule, and the average would probably be not less than 25 bushels to the acre, as the grain was well filled and plump. The recent hail storm struck along the M. & N. W. in spots, but owing to most of the grain being in stack no damage was done. There had been no frost as far as reported along the line, and at those farms which could get threshers at once they were busy stacking. There was little if any damage from rain.

The number of threshing outfits this year seemed to warrant the supposition that the crop would be threshed and saved in doubly quick time over that of other years, provided the weather was good, but the immense crops required an enormous number of outfits.

The shipments of cattle from Western Canada to Liverpool, England, are now going on rapidly, and best trains are leaving the city daily. Last week 1800 cattle left the Northwest Territories and Manitoba for Montreal. The animals this year are in splendid condition and look well.

The report of wheat in store at Fort William for the week ending Aug. 31 was as follows: Receipts 29,110 bushels, shipments 82,847 bushels in store 255,077 bushels.

It may now be said that scarcely an acre of wheat is to be seen in Manitoba with no damaged wheat. The hum of the threshing machines is everywhere heard. The weather is delightful and all conditions perfect for the farmers. It is the finest harvest in the history of the country.

The C.P.R. officials report that new wheat is beginning to move to Fort William and that one hundred cars have passed through the city for the lake elevators.

PRO-BOER BACK IN QUEBEC

Mr. Bourassa Has Been Sizing Up English Public Opinion, With Various Results.

FOUND PUBLIC IGNORANT OF CANADA

Only a Little Group Around High Commissioner's Office Know 'Aught of Us.'

Montreal, Sept. 3.—Mr. Henri Bourassa, M.P. for Labelle, has returned from England, where he says his views on imperial matters were looked upon as decidedly revolutionary in one respect. He has seen the people of England are against Lord Salisbury's war policy and in the next member for Labelle says Chamberlain is able to hoodwink the people, and that his ideas are making great progress. He also complains that the people of England confound Canadians with Americans, and that apart from a little group around the High Commissioner's office the majority are quite ignorant of Canada.

Mr. Bourassa could not say if he would resign the secretaryship of the International Commission. The Canadian government he added, had nothing to do with it, his nomination coming from the commissioners themselves.

THE STEEL STRIKE SITUATION

Decided Gains Are Shown for the Manufacturers By the Developments of Yesterday.

STRIKERS DECLARE IT IS A BLUFF

Amalgamated Officials Are Satisfied With the Progress of Affairs.

Pittsburg, Sept. 3.—Developments to-day in the steel strike show decided gains for the manufacturers. The accession of 22 men to the strike plant, the installation of three mills on slight turn at the Clark mill, all point to an early resumption all along the line, as viewed by the steel officials.

The Amalgamated officials, however, make the claim that everything is progressing as usual, and that the men are not to be taken in by the manufacturers' claims to have many men at work. In fact, the men are better off than they were when the strike broke out. The Amalgamated people claim that J. S. Hitley, ex-president of the district, visited the Lindsay & McCutcheon plant, to-day in the guise of a roller skating rink. He made an inspection of the mill, and, according to his report, there are 30 men at work, six of whom are skilled workmen. He also stated that at the Moenness plant the product turned out last week amounted to 250,000 pounds. It is believed that the strike, if fully out, will be 1,000,000 pounds.

As for the strike, the strikers to-day are quiet, and all appearances unchanged.

APPEAL TO THE COUNTRY

The Legislature of Nova Scotia Was Dissolved Yesterday Afternoon.

ELECTIONS WILL BE HELD OCT. 2

Campaign Will Be a Short One—Nominations Take Place in Three Weeks.

Halifax, Sept. 3.—The Legislature of Nova Scotia was dissolved this afternoon, and an appeal will be made to the country. The campaign will be a very short one. The nominations will take place on Sept. 25, and the elections will be held on Oct. 2.

For \$35.00. You had a lot of new jackets about electric seal. They're a great success, but they're not as much different as electric seal as in any other fur. Here's an opportunity for you to get one of the best selected fur jackets—easily colored, dense and soft, and specially for this week, and will only hold good until Saturday. It's a bargain. Each jacket was made in the big work rooms of the Dismen Company from French made quality electric seal selected by their experts—these jackets are 24 inches long, and made with bell or plain collar. Also electric seal jackets, with mink trimmings, \$65; with chinchilla trimmings, \$85. The Dismen Company, corner Yonge and Temperance streets, will remain open Thursday, Friday and Saturday evenings until 10 o'clock.

Canadian Exchanges Did a Big Day's Business.

New York Stocks Droop, Reflecting the Movement of Currency and the Depletion of the Banks' Reserves—Sterling Exchange Again Weakens—Twin City Moves Up Another Notch.

World Office. Tuesday Evening, Sept. 3. The Canadian exchanges did a big day's business, with the full contingent of speculators, and a great revival of interest in speculation in local stocks and, as a consequence, an aggressive movement in the money market.

Railway Earnings. Lents & Naph. net for July, \$56,980; increase, \$14,606. Wis. Central, fourth week of August, \$187,000; increase, \$22,476.

New York, Sept. 3.—The reason for the sudden revival of speculative opinion in today's stock market so far as events of the day throw any light upon it was rather obscure.

Notes by Cable. In London today consols were 1/4 lower. In London today rail silver steady at 27 1/2 per cent.

ATLANTIC

The steady progress of our business in all departments has necessitated our doubling our entire floor space, and in view of the increasing popularity of Tailor-Made Costumes we are devoting exclusively to this department an entire flat, 48x10 feet, for the display of

Ladies' Tailoring Fabrics. For Fall Trade we show a larger assortment of Broadcloths, Venetians, Friezes, Homespuns, Serges and Worsteds than ever before, and are offering our usual policy of placing before the trade only such fabrics as merchants can sell and fashion demands.
