Movement Reported Spreading But Service is Not Yet Stopped.

Paris, Oct. 27.—A strike of street car employes, which began in the suburbs of Paris yesterday, is reported to be spreading to the central district. Up to the present the strike has not resulted in the stoppage of the service, but there is considerable diminution in the number of cars run.

The intrusiveness says the strike is due to the high prices of food and the insufficient wages paid the employes, especially the women, who receive five francs (about \$1.00) daily.

The step resulted from the order recently issued by the Russian government for the placing of mines in particular sections of the Gulf of Bothnia.

#### GERMANS USE DESTROYERS IN CHANNEL FIGHT

Berlin Seeks to Cover Up Failure by Extravagant Claims.

#### "NO LOSSES" FOE STATES

British and German Reports of Encounter Widely at Variance.

London, Oct. 27.—Two German destroyers and an empty British transport were sunk, a British destroyer is missing and another disabled as a result of a sharp encounter last night in the English Channel, the admiralty announced today.

Berlin, making its customary extravagant claims, asserts that at least eleven outposts steamers and two or three destroyers were sunk or damaged by a German torpedo boat squadron in the fight in the channel between Folkestone and Boulogne, and that the German flotilla returned safely to its base without any loss.

German Admiralty statement follows: "During last night, the enemy attempted a raid with ten destroyers on our cross-channel transport service. The attempt failed.

"One empty transport, the Queen, was sunk. The whole of her crew was saved.

"Two of the enemy destroyers were sunk, and the rest were driven off. "H. M. torpedo boat destroyer Eilat, Lieut. Richard P. Kellert, R.N., is missing, and it is feared she may be lost, but none of the crew has been saved.

"H. M. torpedo boat destroyer Nubian, commander Montague Bernard, R.N., was disabled by a torpedo and taken in tow, but owing to a displacement of the tow parted and she has grounded. "The destroyer Eilat was one of the oldest British destroyers. She was built in 1912, displaced 385 tons, and carried normally 71 officers and men.

There are several British steamers named Queen. It is probable that either the 456-ton London Queen or the much smaller Southampton steamer of the same name is referred to.

Berlin's Version.

Berlin's communication says: "Parts of our torpedo force moved from a German bay Thursday night through the Straits of Dover and Calais to the line of Folkestone-Boulogne in the English Channel.

"According to the report of Commander Nicholson, at least eleven outpost steamers and two or three destroyers or torpedo boats were sunk, partially or wholly in hostile ports. Some members of the crews were captured and some were killed.

"Several other guarding vessels and at least two destroyers were heavily damaged by torpedoes and artillery fire. Also the English post steamer Queen was sunk south of Folkestone, the crew having time to leave the ship.

"In the channel near the Farnes Lightship, there was a strikingly active traffic by hospital ships. Our torpedo boats safely returned to German waters without any loss."

London, Oct. 27.—Great liveliness is being shown by the German artillery north of Verdun as a result of the French success, and today the foe directed a continuous violent bombardment against the first line of the French, especially on Hamoncourt ravine, Douaumont Fort, and the Damloup battery.

The Germans also attempted to develop an infantry attack west of Douaumont Village, but this was observed by the French and they ably checked all movement by their curtain of fire.

While the enemy was still smarting from the repulse of his four determined counter-attacks yesterday, and was for the moment without fresh troops, the French made a local attack in the region of Fort Vaux. West and south of this position, they appreciably advanced their lines and took 100 more prisoners.

During the night the French aeroplane squadrons made many raids on railway stations and depots of the enemy in the Verdun region, notably on the stations of Grand Pre, Chaligneres, Conflans and Courcelles. Bivouacs at Pretoy-le-Cateau and Avricourt, north of Lasseyrie, were also bombed and two fires were started.

On the front of the Somme considerable artillery activity prevailed on both sides in the sectors of Sallières, Sailly, Bouchevaine and Blaches.

On the British front of the Ancre heavy rains prevented action. North of the Ancre German artillery and French mortars were active between La Bassée and Hallue, and in the neighborhood of Beaumont and Hamel. The British bombarded German trenches south of Armentieres.

The French report that bad weather is general and is impeding operations. "Foe Was in Bad Way.

A German carrier pigeon was captured by the French at Fort Douaumont during the fighting in the region of Verdun on Tuesday. It carried the following message:

"The rolling fire of the enemy with guns of the heaviest calibre is such that sectors C and H are, to a great extent levelled. The garrison, including that of sector V, is disorganized completely. Some of it has been obliged to fall back on the 3rd and 34th regiments, which also had to retire.

"Sector V (Von Raunk's) was subjected to such fire that its observation post was put out of order. All sorties are being bombarded and one is occupied constantly in replacing them.

"The battalion demands its immediate relief this evening by fresh troops. It can fight no longer."

London, Oct. 27.—After repulsing the Germans who invaded the Roumanian province of Moldavia, thru passes in the Carpathians, the Roumanians have invaded northeastern Transylvania, where they have captured the Transylvanian Village of Bajan and the heights of Piatrosokul. The Roumanians are continuing their advance into Transylvania by way of the Ural valley, today's Bucharest official communication says. The Germans are still making violent attacks at Tulgheș and Biczac and also in the Trotus valley, but these efforts have been repulsed.

On the northern Roumanian front the Germans have been defeated in the Pravața valley near Dragoslavele after violent fighting, and the valley is covered with German dead. They have also been repulsed west of the Alt. Fighting is in progress at Azulei, southwest of Fiedrol, while in the Jul valley the Roumanians have retired towards the southern outlet of the pass.

In the Dobruja the Russians and Roumanians while retiring are fighting a furious battle with the forces under Von Mackensen. Petrograd reports that while offering stubborn resistance they are retiring northward toward the Harsova-Casapohli line, about 30 miles north of the Constanta-Cornavoda Railway, and their lines are everywhere intact.

The Germans reported today that the forces of Von Mackensen are pursuing the allies near Harsova. Sofia claims that Russians and Roumanians are everywhere in flight in evident preparation to evacuate the entire province of Dobruja.

#### WAR SUMMARY

##### THE DAY'S EVENTS REVIEWED

THE brilliant French recovery before Verdun has aroused the Germans to great fury, and they violently bombarded the French lines, particularly in the neighborhood of the Haudremont Ravine, Douaumont Fort and the Damloup Battery yesterday. They also attempted to attack the French positions lying west of Douaumont Village, but this move was stopped by a curtain of fire. In the preceding night the French took 100 prisoners in local actions west and south of Fort Vaux. Their aeroplanes went out and dropped bombs on many stations in the rear of the German lines, including that of Conflans, and pretty generally the Germans had the worst of it.

#### British Firm Making German Emblems, States Employee Was Careless

In accordance with T. P. Tansey's telegram of Thursday regarding the German flags that were found among the Belgian flags, which were ordered from Mr. Tansey for Belgian duty, the following telegram was received yesterday giving the explanation of the United States firm that made a part of the order:

"Montreal, Oct. 27, 1916.

"World, Toronto: Further reply your telegram, have just received reply from United States firm as follows: 'We executed an order for German flags for Springfield same time as your Belgian flags. Through mistake our employee few of German may have mixed in.' Knowing this firm was Canadian or British-owned or controlled we had no reason to imagine they would make German flags."

It is not surprising that the Germans have been chagrined at the results of their operations before Verdun. When they attacked this point in the French system of defence in February they stood at the zenith of their power. Literally their last good troops were employed in the adventure. The French gave them the hardest punishment that they ever endured and their strategic reserve, the body of 50 divisions that they were keeping massed for offensives, was all shot to pieces. Many of the army corps employed before Verdun were handled so severely that they have never been able to fight again. Notable among these was the Brandenburg Corps, the best in the Prussian service. This unit was practically destroyed. Only isolated regiments and battalions of this organization have since appeared in the field, and these have had no stamina left for fighting. By the end of March Verdun may be said to have been definitely decided as a great victory for the French, yet the Germans kept on uselessly sacrificing men until the offensive on the Somme put an end to their efforts. Since the loss of so many good troops in the attack at Verdun the German army has never been able to fight well again and the French proved their ability to hold their lines without breaking. Verdun is the greatest failure in war for the Germans that any army

LADY DRUMMOND EXPOSES ERRORS

Statement in Montreal Papers, She Calls Amazingly Incorrect.

CENSURES FIGURES

Canada Charges Britain Heavily for Treatment of the Wounded.

Canadian Associated Press Cable.

London, Oct. 27.—Lady Drummond says that the statement from Ottawa appearing in Montreal papers recently regarding the disposition of Canadian wounded is amazingly incorrect. It says, for instance, that only 30 per cent. of Kitchener's army are restored to fighting strength and 61 per cent. of regulars. The war office knows nothing of these figures, and in any case never makes any separate estimates of this character.

"Another imaginary estimate," says Lady Drummond, "is that \$4,000,000 was saved in some mysterious way by the Canadian Medical Corps last year. The prophecy that in the new scheme the saving will be doubled hardly inspires confidence in those who are in a position to compare the cost of providing and maintaining Canadian hospitals for Canadians with a charge of two shillings a day made by the British Government for each Canadian soldier in British military hospitals. The whole statement shows a confusion of mind between Canadian wounded in primary hospitals and Canadian convalescent soldiers. Ever since the Canadian convalescent hospitals have been established all Canadian convalescent soldiers have been sent to them, and the main question at the present moment is whether through all previous stages of treatment the Canadian wounded are to be kept away from all the other wounded of the King's forces. It should be known that the charge made by the Canadian Government for every British soldier in its hospitals has been put at three shillings and two pence, while the charge for every Canadian soldier and for officers seven shillings against the charge by the British Government. The attention of the Canadian Government needs only to be drawn to this to have the matter rectified."

BRITAIN WILL CARE FOR GRAVES OF SOLDIERS

National Committee Has Charge of Burial Grounds at the Front.

Special to The Toronto World.

Ottawa, Oct. 27.—The Dominion Government has received from the British War Office a memorandum on the registration and care of soldiers' graves. This document says that during the war a branch of the adjutant-general's department has been created to care for and preserve the identity of the graves of British officers and men. Units were established for this purpose in France and Belgium, also in Egypt, at Salonica, and in Mesopotamia. These units have registered and marked a large number of graves at the front, but it has been impossible for them to mark all graves, for the enemy has not marked the graves of British officers and men buried in his lines, and a large number of these have been lost. Even in some cases inside of the British lines it is impossible to preserve records. The French Government is responsible for the permanent burial grounds for British officers and men at the expense of the French nation. Authorized cemeteries have been established and accepted the presidency of the national committee on this duty. Communications on this subject should be addressed to the director of graves registration war office, St. James square, London. If possible, photographs of graves that are accessible to the photographers will be furnished to the relatives free of cost.

Reading Public Must Bear Increased Newspaper Cost

The report of the circulation and rates committee of the Association of Canadian Advertisers in annual session yesterday dealt at length with the situation recently created by the increase in the cost of paper. In the advertiser's opinion he is already carrying too large a proportion of the publishing costs and the reading public is paying too little. Further increases in the cost of advertising will be considered but only if it was felt that increased publishing costs would have to be met by a general increase in the subscription prices of the daily newspapers and other periodicals.

It was reported that with few exceptions publishers had willingly operated by furnishing complete details of the circulation information and that more than half the publications of interest to the Canadian advertiser were measuring up to the association's requirements in this particular.

One of the most interesting features of the report was a round table discussion in the afternoon of topics connected with the sales department at which members exchanged views and reports were heard from the legal, educational, outdoor advertising and other committees. The next meeting will be held in Montreal early in 1917. The following officers were elected for the ensuing year: President, L. R. Greene, Tuckett Tobacco Co., Hamilton; Vice-President, G. F. Morton, Alliant Sugar Refineries, Montreal; Treasurer, J. H. Kirkpatrick, E. W. Gillett Co., Toronto; Director, C. B. Bennett, G. G. Hodges, E. S. Hodgins, O. Elving, A. A. Bittles, W. M. Mackay.

THE SHADOW OF BROKEN HEALTH

Can Be Quickly Dispelled Through the Use of Dr. Williams' Pink Pills.

When the shadow of poor health follows your life when hope begins to fade and friends look serious, then is the time you should remember that thousands just as hopeless have been cured by the use of Dr. Williams' Pink Pills. These pills actually make new, rich blood, which brings a glow of health to the cheeks; cures indigestion, headaches, and backaches, drives out the stinging pains of rheumatism and neuralgia, strengthens the nerves, and relieves as no other medicine can do the aches and pains from which womanhood alone suffer. In any emergency of poor health give Dr. Williams' Pink Pills a fair trial, and they will not disappoint you. Here is a case that will bring hope to many a weary sufferer. Mrs. E. C. Taylor, Ascot avenue, Toronto, says: "A few years ago I was so run down with anemia that I could scarcely walk about the house and was not able to leave it. I had no color, my appetite was poor and I was constantly troubled with headaches, dizzy spells and general disinclination to move about or do anything. I tried many medicines, but none of them helped me, and my friends thought I was in a decline. One day a friend who was to see me asked if I had tried Dr. Williams' Pink Pills. I had heard of this medicine often, but had not used it, so I determined to give it a trial. I certainly got a pleasant surprise, for after using two boxes I could feel an improvement in my condition. Continuing the use of the pills I began to regain my health, the headaches and dizzy spells were disappearing and I began to gain in weight. People began enquiring what I was taking, and I was not slow to give Dr. Williams' Pink Pills the credit. I took the pills for less than two months and completely regained my old-time health and strength. I hope my experience may convince some doubting persons as to the great merit of Dr. Williams' Pink Pills. As I certainly have cause to be a firm champion of them."

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache. The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid, which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

LIEUT. GERALD WOUNDED.

Waterloo, Oct. 27.—W. H. Gerald received word today that his son, Lt. G. A. Gerald has been wounded in action. The lieutenant is well-known in north Waterloo. He went overseas last July with the 109th Battalion.

Take Salts at First Sign of Bladder Irritation or Backache.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act free. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is Inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

LAST OPPORTUNITY TO SEE WAR FILM

Remarkable Run of Somme Pictures Closes at Rialto and Globe Tonight.

RETURN IS UNCERTAIN Long Time Before Another Film So Realistic Appears in Toronto.

With no future booking listed, the last opportunity to see "The Battle of the Somme" official motion pictures in Toronto will be presented Saturday at the Globe Theatre, 72 West Queen street, and the Rialto Theatre, Yonge and Shuter streets, when these theatres will close the second week's successful exhibitions of this film.

Whether the pictures will again be shown in Toronto is problematical. As least there is no certainty and unless persons who desire to see the film attend Saturday at the theatres where the pictures have been presented since Monday under the auspices of The Toronto World, it is doubtful if they will be given another opportunity.

No theatrical enterprise has ever scored so big a success in Toronto, and it will be some time before another film so important or realistic will be shown to Toronto theatre-goers.

"The Battle of the Somme" film deserves the attendance of everybody. King George, Lloyd George, British minister of war, Sir Douglas Haig, commander of the British army and other personages high in the councils of Great Britain's Government, as well as Canadian and Ontario officials, recommend this picture to the public.

At the back of our minds is the thought that war is an exciting adventure, an adventure in which there is nobility and chivalry and some goodness. There is virtue in those who fight, but as the film proves with a realism that leaves nothing to the imagination, there is no virtue in war itself.

Under the relay system thru which the films are shown at the theatres, there are no relays or congestion of crowds at the door. People can enter as soon as they buy their tickets. Special music is rendered by orchestras, and all accommodations are made to add to the pleasure of the spectator.

A "children's matinee" will be given this morning from 9 o'clock until 11 noon, permitting children to attend in company with an adult guardian. Only five cents is the price of admission to this film. The spectators are expected to attend the playhouses today to prevent missing the opportunity of seeing this greatest and most remarkable of all films.

HAVE CERTIFICATE TO ENTER ONTARIO

Children From Quebec Must Show They Are Free From Infantile Paralysis.

TO PREVENT SPREADING Death From Disease in Toronto Prompts Action of Health Authorities.

To prevent the outbreak of infantile paralysis in Westmount and Montreal from spreading to Toronto, Dr. J. W. S. McCullough, chief of the provincial health department, yesterday issued a regulation prohibiting persons under 16 years of age from entering Ontario from the Province of Quebec, unless they have a medical certificate dated within 24 hours of their time of departure, certifying to their good health and to the fact that they have not been exposed to infantile paralysis.

Dr. McCullough has sent Dr. P. J. Maloney of Cornwall, to investigate conditions in Quebec. The medical officer of health is informed that there are 25 cases and 10 deaths in Montreal, and believes that the number may be greater than this.

In consequence of the death yesterday from this disease of Betsy Kirkpatrick, 121 Fairbank avenue, it was suggested that Brown School should be closed. This, however, neither Dr. McCullough nor Chief Inspector Cowley advised. The child is thought to have contracted the disease in Montreal. She had been staying there a week, returning to Toronto on Saturday.

NOT OPEN ROSEDALE END OF VIADUCT THIS FALL Block Pavement Not Yet Down and Cannot Be Laid Because of Frost.

Answering a newspaper report that the Rosedale section of the Bloor street viaduct would likely be opened in two weeks, Engineer Powell of the works department, declared yesterday that there was absolutely no possibility of it being opened this fall.

The fills and grading of the approaches to the viaduct have hardly been touched yet. At Parliament street the big fill has yet to be made and then pavement laid after the land is settled. At the end of the Rosedale section of the viaduct near Drumhead road, the ground hasn't been touched for grading and further along the bush has not even been cut yet, in so far as pedestrians and light vehicular traffic using it Engineer Powell says that the approaches are littered with scores of tons of contractor's material.

When I was satisfied that I had a suitable man I passed on my recommendations that he be appointed secretary. Like a Boy at 50 Bubbling Over With Vitality—Taking Iron Did It

Doctor Says Nuxated Iron is Greatest of All Strength Builders—Often Increases the Strength and Endurance of Delicate, Nervous Folk 200 Per Cent. in Two Weeks' Time.

NEW YORK, N.Y.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 30 and as full of vigor, vim and vitality as a young man. In fact a young man he really was, notwithstanding his age. The secret he said was taking iron—Nuxated Iron had filled him with renewed life. At 50 he was in had health; at 46 was worn and nearly all in. Now at 50 a miracle of vitality and youth. As he has said a hundred times over, iron is the greatest of all strength builders. Many a person would only throw away patent medicines and nauseous concoctions that take simple nuxated iron. I am convinced that the lives of thousands of persons might be saved, who now die every year from consumption, grippe, indigestion, kidney, liver and heart trouble. The real and true cause which started their diseases was nothing more or less than a weakened condition brought on by lack of iron in the blood. It is absolutely necessary to enable your blood to change from iron into living tissue. Without it, no matter how much you eat, your food merely passes through you without doing you any good. You don't get the strength out of it and as a consequence you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you need Nuxated Iron. You cannot take any man or woman under 50 who lacks iron and increase their strength 200 per cent. or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by J. Tamm, Limited, and all other druggists.

Stop Side-Stepping

The Dominion Government should either grapple with the illegal forces that combine to make prices of food products extortionate or frankly declare that it cannot or will not do anything to reduce the grievances of the municipalities. It is simply grotesque. How on earth can municipalities put a stop to the gambling in wheat futures, break up unlawful combinations in restraint of trade, investigate and regulate cold storage warehouses, and fix the prices of food commodities crude and finished, and the rates to be charged for their storage and transportation?

Suppose for example, the Town of Newmarket, or the City of Belleville, undertook to fix maximum prices for food commodities in their respective limits, what would happen? The local merchants would sell out what they had on hand, but how would they replenish their stocks? The packers, the millers, the commission men, the jobbers of food products, and the farmers, too, for that matter, would ship nothing more to Newmarket or Belleville. The individual citizen might as well attempt to regulate prices by announcing that he would only pay so much for his bread, butter, eggs and bacon.

True, a man may by raising his own chickens and having his wife bake her own bread effect considerable economies, and in like manner municipalities may help their citizens by municipal bake-shops and abattoirs. But if any powers are needed by the municipalities in these respects they must be sought and obtained from the provincial legislatures. But, the municipalities can do something to protect their citizens from the raids of the combines, trusts and food speculators, the underlying abuses will remain. The city may bake bread, but it will still be held up by the miller when it goes to buy its flour, as the miller may be bled when he goes to buy his wheat. More than one federal minister has been quoted as saying that the problem presented by the ever increasing cost of living is world-wide. Whether this be the case or not it is certainly nation-wide, and must be dealt with by the national authority.

Appointing commissions to make up a blue book for the parliamentary waste paper basket at the session of 1918 will not answer the purpose, nor will the people long submit to dilly-dallying. The government must learn the situation, frame a policy and execute it; that is the way the British Government has been doing. Does the Ottawa Government intend to stop this wholesale gambling in wheat? Are the bucket-steps to run with impunity, and are the telegraph and telephone companies to carry their messages? Are men to be allowed to combine for the purpose of unduly enhancing the prices of flour, wheat and bread? Is cattle to be exported if there be not enough meat in the country to feed our own people? Are the combine-owners to raise the price of beef and bacon at will? Are they to use the cold storage facilities of the country to create an artificial scarcity of food, and then demand famine prices? Are greedy and unscrupulous men posing as patriotic citizens to inflict on Canada all the hardships that the British blockade has inflicted upon the people of Germany? Can these men buy immunity from prosecution by contributing to party funds or escape the scourge of public indignation by giving a small percentage of their loot to patriotic funds? Will sending a few socks or cigars to the soldiers atone for making the wives and children of soldiers go thru the coming winter half frozen and half fed?

The authorities at Ottawa should wake up or they may be rudely awakened. Upon Sir Robert Borden and his colleagues is the responsibility. It is up to them to deal with a nationwide situation that confronts us. They can neither pass on the responsibility nor the duty to township trustees and city aldermen.

ened. Upon Sir Robert Borden and his colleagues is the responsibility. It is up to them to deal with a nationwide situation that confronts us. They can neither pass on the responsibility nor the duty to township trustees and city aldermen.

Democracy and the Ward Associations

Little or no general public interest is taken in the election of the officers of the ward political associations, yet it is in these officers' hands that rests practically the choice of the candidates for whom, sooner or later, the public will be called upon to vote. This week and undemocratic feature of our political system is of far more importance than is generally understood. The ordinary citizen only thinks about candidates at election times, and it is usually to wonder why the party managers do not choose better men, or why such a one or another ever came to be selected.

Those who do not belong to ward political associations may continue to wonder. The only thing they can be sure of is that they have nothing to do with choosing their own representative. They are generally certain also that a very much better choice could have been made with little or no difficulty.

The general result in politics is a grading downwards of the public representatives of either party, until, as in 1904, a revolution occurs, an upheaval of the whole political terrain, and in the reorganization new men and new forces set new opportunities. We laugh at the revolutions of the south and central American republics, but our own little political revolutions are no less radical, and it might be better if they were more frequent.

Absolutism and autocracy are the prevailing principles of the political machines, the ward associations among them; and this autocratic note, so thoroughly undemocratic, is the vital defect in our present system.

It has been recognized elsewhere than in Canada, and various expedients have been proposed, and one or two adopted, with a view to its elimination. Among these are the primaries of the United States, the second ballot system of France, the open convention system, and proportional representation. It is not to be thought that any particular system will obviate all existing evils. All that can be done is to adopt safeguards which may make it more difficult than formerly to carry out the wishes of the minority in spite of the majority.

To put it plainly the effort of all autocracies, whether German or British, is to impose the will of the minority on the majority. Any system which permits a few men to choose the candidates for which the public have no option but to vote is government by minority, no matter what pleasant or patriotic things may be said in connection with it.

This is becoming so obvious in Great Britain and elsewhere that proportional representation is gaining ground in all communities where a thorough democratic representation is desired. In the meanwhile in Toronto the ward associations are being officered, and these officers will endorse the delegates, who will choose the candidates for whom the public may vote or stay at home. There should be some effort made to get as good men in authority as the system will permit.

CITY HALL NOTES

Mayor Church yesterday afternoon had a conference with Chief Smith of the fire department, and instructed him to report on the condition of all hospitals, also as to the fire exits of all theatres and public halls.

Even the city jurors are after a raise in wages. Yesterday a deputation of them asked the board of control for larger fees. The board recommended that their pay be raised from \$2.50 to \$3 per day.

At the board of control meeting yesterday Controller Foster moved that the city's hired carters' wages be increased from \$3.50 per day to \$4.00. The matter was laid over pending a report from the street commissioner.

If the court of revision, declared Mayor Church yesterday, keeps on reducing the assessment in the business portion of the city as they have been doing for the last few days the city will have no taxes at all next year. It's a real black eye we are getting," he concluded.

Following a recommendation for the appointment of a restaurant inspector by Dr. Hastings, yesterday the board of control decided to "look for a returned soldier to take the position. So far as possible they were only returned soldiers will be taken in the city's pay roll in future."

Controller Cameron has received from E. H. Scammell, secretary of the Military Hospitals Commission of Canada, a reply to the complaint that the military hospitals were not in day coaches. The secretary states that these men were not included but were on base duty. He says there was no complaint in reference to the food.

#### "HIS BROTHER'S KEEPER" AT THE ALEXANDRA.

"His Brother's Keeper," starring Robert Edeson, and staged under the management of Lyle D. Andrews, will be the attraction at the Alexandra Theatre next week, with the usual matinees on Wednesday and Saturday. This is the first play to be produced from the pen of Robert Porter, the author, it contains every requisite for a successful dramatic offering. It is absorbingly interesting from start to finish, the suspense is sustained to the moment of the final curtain, and it is replete with barbed shafts of quaint irresistible humor. The play reaches a strong dramatic conclusion, and one that is entirely different from that which is ordinarily seen on the stage. Seats are now on sale for all performances.

#### HOBSON'S CHOICE.

The week of Nov. 6th at the Royal Alexandra Theatre we are to see that amalgamation of tender sentiment, kindly humor, and quaint characterization "Hobson's Choice," the unqualified praise of New York, Boston and Chicago last season, and is now the reigning sensation of London.

#### RICHARD BENNETT IN "ZACK."

The hero of "Zack," the new comedy of provincial English life which begins an engagement at the Grand Opera House Monday, Nov. 6, is a too-modest, too-retiring youth, whose amiability and love of domestic peace really costs him his life happiness. The seat sale opens on Monday morning.

#### "FAIR AND WARMER."

"Fair and Warmer," coming here from its run of one year at the Eltinge and Harris Theatres in New York, will be presented at the Grand Opera House next week with the New York company, headed by Miss Madge Kennedy in her original role. During the week the regular Wednesday and Saturday matinees will be given.

#### LOEW'S.

"The Telephone Tangle," a clever and unusual comedy by Charlotte Bannell, will be the headline offering at Loew's the coming week. It is something absolutely unique of its kind, and sure to be a big hit with everyone who enjoys a real laugh.

An added attraction will be Charles E. Lawler and his daughters, Mabel and Alice, in a series of their own character compositions. Another big act will be Will Rawls and Ella Kaufman, presenting their minstrel comedy "The Willing Worker." Motion pictures include Kubanoff, the celebrated Russian violinist and the three Dolce sisters, vaudeville's faintest singing trio, an extra attraction, Theda Bara, the international film actress, will be featured in "Roméo and Juliet."

#### SHEA'S.

"The World Dancers," May Tuily's famous teiprospect organization featuring Emilie Lewis and Tom Dingie will headline the bill at Shea's Theatre next week. Tom Smith and Ralph Austin are clever comedians with a bright attractive offering. Marion Weeks is headlined as the only coloratura-soprano in vaudeville. J. C. Nugent and company in "The Ideal Hound" have a week film novel playlet, while George Lyons is a harpist of unusual ability. Falfrey, Hall and Brown, in "Follies of Vaudeville," Kenney and Nobody, novel comedians, Kane Brothers, expert equilibristas, and feature film comedies complete the bill.

#### HIPPODROME.

For next week the Hippodrome management offers as the headline attraction the newest and best of the "Triangle" films, "Double Trouble," featuring Douglas Fairbanks and Lillian Langdon. "The Frolickers" present new singing and dancing organization to vaudeville. Lambert and Fredericks, known as "The Fashion Show Fair," sing and dance in pleasing fashion. Back Water and the Cliff Sisters have an impressive variety offering while Dale and Weber, "The Musical Misses," have a ten-minute offering. The Two Throwing Tablers in a juggling offering; the Blue Sisters, singing comedians, and "Keystone" film comedies complete the bill.

CONDITIONS OF ALLIES ACCEPTABLE TO GREECE

Recruiting by Venizelists is Not to Be Interfered With.

OUTLOOK OF BRIGHTEST

Negotiations for Greece to Join in War Can Proceed.

Athens, Wednesday, Oct. 25, (Delayed).—The understanding reached Tuesday by King Constantine and representatives of the Entente powers generally is believed to be the immediate result of the conference of the military and political leaders of France and Great Britain at Besancon on Friday last.

First—Sincere compliance with the demands of Admiral Fournet. Second—Effective maintenance of order in Athens and Piraeus. Third—Guarantee of constitutional liberties to Greeks thru the operation of the legal functions of their government.

Fourth—No opposition to recruiting for the Venizelist movement, which now is characterized as "anti-Bulgarian" instead of "national defence."

The Forward, the Royalist organ, today strikes the keynote of the situation asserting: "The Besancon conference has opened the way to a large understanding between the powers and Greece."

One of the leaders of the Greek pro-war party declared to the Associated Press correspondent: "Now that the irritations due to mutual distrust of one another by King Constantine and the extreme ministers is out of the way, we can go to work negotiating for Greece to join the allies as a nation and a people, not as individuals."

South Porcupine, Oct. 27.—A party of about 25 men arrived in the camp in a private car attached to the regular train last night and left this morning for a trip of inspection over the Davidson Gold Mines—properties in north-eastern Tisdale township, about one and a half miles north of the town.

The Davidson was resumed only last June, but is understood to have made considerable progress since then, the vein having been located and followed for a considerable distance on the 200-foot level the shaft continued to a depth of 300 feet and lateral development started, and the No. 2 shaft commenced. Meantime surface work has revealed a promising new vein on the south lot, and revealed spectacular ore on the extension of the main vein, several hundred feet north of the shaft.

Davidson stock rose to a new high record again on the Standard Exchange on Thursday at 52 1/2 cents, and closed with none offering under the 53 cent mark.

Plummer & Co. Report

IN making the investment of any sum of money, whether large or small, two essentials are to be considered—first and paramount the safety of the principal, and secondly, the percentage of income return upon the investment.

The solution of the problem is, therefore, not to be found in the selection of any one security, but rather in a diversification of investments among not only a number of securities, but also different classes of securities: a course which is quite practicable and which, provided a judicious selection be made, achieves the combination of safety and a satisfactory percentage of return.

The widely-circulated slogan of "Safety First" applies in fullest measure to investments and the greater bulk of principal should always be so invested as to be absolutely unassailable. These first-to-be-sought securities must be expected to be of low yield and naturally one turns first to bond issues, since a bond is, in essence, simply a part of a mortgage upon certain definite and tangible assets.
