FIGHTING IN MONTREAL OUR POLITICAL MATTERS

Violent Kind of Agitation at Meeting in East End; Anti-Conscriptionists Beaten in Street Fights

(Canadian Press) Montreal, Oct. 15.—Agitation of a violent kind has broken out in the east as a result of the determination of some anti-conscriptionists not to permit any criticism of Sir Wilfrid Laurier, Mayor Martin or any others of the prominent Liberals of that district.

GERMANS PUSH FORWARD ON RUSSIAN SOIL

Speculation as to Result of Landing on Oesel Island—Call to Kerensky to Unite Petrograd Frontiers

Petrograd, Oct. 15.—The German forces which were landed on Oesel Island, at the head of the Gulf of Riga, are pushing forward to the east and south, placing in a difficult position the Russian forces and batteries in the district of Arensburg at the southern end of the island, and especially those on the Cerul peninsula. Military critics predict a development of the invasion of the mainland on the coast of Estonia, rather than an attempt toward the Gulf of Finland, which the Germans would have to sweep under the menace of the Russian fleet.

The Bourse Gazette says: "On the whole we must accept as a fact that we have let this whole group of islands fall into the hands of the enemy and that the enemy will be full masters of the Finnish Gulf."

"The cabinet consulted Premier Kerensky by telephone. A programme is being issued in a proclamation calling on the Petrograd citizens to defend politics and to unite to serve the endangered capital."

A military conference was held at the headquarters on Saturday, Premier Kerensky presiding. A programme was adopted providing for the systematic training of soldiers and the application on the whole Russian front of the technical military processes developed in the present war and the strict regulation of the soldiers' daily life, so as to produce maximum efficiency.

The Bourse Gazette says the situation is the most complicated because a solution must be found not only of the unsatisfactory state of affairs in the rear, but of the problem presented by the closing of the Gulf of Riga by the Germans.

Three weddings were solemnized in the Church of the Assumption in West St. John this morning. The first took place at 6:20 when the pastor, who officiated at nuptial mass, united in marriage Edward McGee and Miss Ann McGee.

The second wedding was solemnized at seven o'clock when the pastor united in marriage Frederick Desjardins of the province of Quebec, and Miss Rosetta Mary Hood of Goderich, Ontario.

The third to be united in the bonds of matrimony were Francis Peters of Prince Edward Island and Miss Thibideau of St. Alberts, Kent County.

London, Oct. 15.—(Montreal Gazette cable)—The Times announced the death of both of Claude Arthur Askew and Alice, his wife, novelists and dramatists. Major Askew was attached to the Serbian army. Both were drowned in the Mediterranean on October 5 as the result of an enemy submarine attack while going to Corfu.

London, Oct. 15.—The latest war news caused weakness in Russian issues on the stock exchange today. Exchange was also set at 310. The rest of the market had a good undertone. Glittered securities and industrials were maintained by week-end orders, while Marconi and shipping stocks and Chinese and Peruvian bonds were the best of the other sections. Argentine rails recovered, but American securities were

Daughter of Governor General Is to Wed On Saturday, Nov. 8

Ottawa, Oct. 15.—The marriage of Lady Maude Cavendish, eldest daughter of His Excellency the Duke of Devonshire to Captain Angus McIntosh, A. D. C., Royal Horse Guards, has been arranged to take place on Saturday, November 8.

NO FURTHER CLASHES OF THE INFANTRY

Germans Lose Heavily, Though In Raids

Deluge Almost All Day Saturday—British Work Outstanding Under Terrible Conditions—Heavy Guns Busy on French Front

London, Oct. 15.—No further infantry engagements have occurred on the front of the British attack in Belgium. In successful raids yesterday large losses were inflicted on the Germans. The following is the official statement:

"Our positions on the main ridge south of Broedende were heavily bombarded during the night by the enemy. No infantry action has taken place. In a successful raid carried out by us yesterday afternoon southeast of Monechy-le-Peux, Eastern County troops captured thirty-six prisoners and two machine guns. Two hundred Germans were killed by the infantry and seven of the enemy's dugouts were destroyed with explosives."

Another successful raid was carried out by South Midland Territorials early last night northeast of Roux. Some of the enemy were killed, his tanks destroyed and twelve prisoners were taken."

British Front in France and Belgium, Oct. 15.—(By the Associated Press)—With the exception of two brief intervals of sunlight there was a continuous rain here today on the Belgian front. This was the most important news from the front since the beginning of the war.

The British were rapidly being turned into that state of liquidation which represented flanders at its worst, and flanders at its worst has few comparisons.

Troops in the forward lines were wading out in the wilderness of mud and water with little protection from the cold, drizzling rain, watching each other intently, but making few attempts to stir from their morose positions.

That Field Marshal Haig's men were able to advance at all over this almost impenetrable ground is still a matter of wonder among observers.

As a result of yesterday's attack the British greatly improved their positions, especially along the important Pauschens Ridge and on the left wing of the offensive north of Poelcapelle. In some few places they made no advance at all or only a few yards.

Paris, Oct. 15.—Violent artillery fighting is again in progress on the Verdun front. The French are reported to have captured several enemy positions during the night. Gerban artillery dropped bombs last night in the region of Dunkirk. It is reported there were several victims among the civilian population.

Austria Report. Vienna, via London, Oct. 15.—The official communique from general headquarters yesterday reads:

"On the Isonzo and other fronts there was lively artillery fire at numerous places. South of Dellegio our thrusting detachments captured prisoners and war materials."

Rome, Oct. 15.—The Italian official statement says: "Our airplanes on Saturday bombed several enemy destroyers near the Istrian coast, causing an explosion aboard one of them."

HEAVY BLOW ON LAKE ONTARIO. Kingston, Ont., Oct. 15.—Another severe gale held sway on Lake Ontario yesterday. The steamer Richard W., belonging to Montreal, went ashore four miles below Long Island. The Donnelly Wrecking Company has sent three tugs to the scene.

The Donnelly Company succeeded in releasing the steamer Ithaca, which broke away from her lines and drifted on to Barfield shoal.

THEIR WAGES INCREASED. Plainfield, Conn., Oct. 15.—Cotton mill operatives in New Britain, Conn., Masp. Jewett City and Central Village have been notified of an increase in wages of from five to ten per cent, effective November 1. About 9,500 hands are affected. The 12,000 employees of the French Ray Textile Company in Mechanicsville will receive a ten per cent increase beginning October 22.

Faber Against Benton Is Guess For Today

Some Even Money, Other Bets 2 to 1 on Chicago; Bigger Crowd Expected; If 7th Game Necessary, it Will be in New York

New York, Oct. 15.—The Chicago White Sox and New York Giants will meet in the sixth contest of the world's championship baseball series on the Polo grounds today in what Comiskey's home team, disappointed at its failure to hold the lead they had in Chicago, are fighting with their backs to the wall.

Although Rowland's men have the edge in the series, supporters of the Giants express confidence that McGraw's fine pair of pitchers, Ferdie Schupp and Babe Benton, will hold the Sox while the Chicago men. Manager Rowland has expressed the utmost confidence in winning the series.

Another successful raid was carried out by South Midland Territorials early last night northeast of Roux. Some of the enemy were killed, his tanks destroyed and twelve prisoners were taken."

Ran Over To Enemy And Upbraided Them For Firing On The Stretcher Bearers

Remarkable Act of British Officer, Incensed At Inhuman Work of The German Snipers

British front in France and Belgium, Oct. 14.—(By the Associated Press)—The Associated Press correspondent today talked with several wounded stretcher bearers who came back from Poelcapelle, and from their heart of a remarkable incident during Friday's battle. They said they operated continually in mud that at the best was up to their knees and in addition were constantly harassed by enemy snipers concealed in shell holes and even in shattered trees.

Infuriated by this outrage, a British officer seized a Red Cross flag, and waving it over his head rushed toward the snipers. When he arrived within speaking distance of them, he bitterly denounced their treacherous action, employing as his medium the German speech, which he speaks fluently. He called the enemy's attention forcibly to their violation of the laws of war and humanity and pointed out that the German stretcher bearers had been operating without molestation. The officer, after having expressed himself fully, marched back to his own lines and he was not fired upon.

From that time on, the stretcher bearers said, the Germans ceased sniping at them.

SEA FIGHTING NEAR OESSEL

Petrograd, Oct. 14.—German forces which landed on the Russian island of Oesel, at the head of the Gulf of Riga, on Friday, occupied Arsenburg, the capital of the island, on Saturday. The northern group of German warships, the statement adds, despatched to Oesel Island and Dago, which pressed back the Russian patrols. Russian naval forces reinforced the patrol and accepted battle, whereupon the German ships retired. Fighting for Oesel Island, the war office announces, continued all day yesterday. A third group of German warships, consisting of cruisers and torpedo boats, approached the southern coast of Oesel Island and bombarded unimportant parts of the coast. German submarines were observed at various times and places in the Baltic. German air forces are supporting the land forces on the northern and southern sections of Oesel Island.

He has issued an address in which he announces that he accepted as a matter of duty Premier Borden's invitation to join the government, and that he will put forward every effort to help bring the war to a successful conclusion.

EVERYBODY NEEDS PURE, RICH BLOOD

Pure blood enables the stomach, liver and other digestive organs to do their work properly. Without it they are sluggish, there is loss of appetite, sometimes faintness, a deranged state of the intestines, and, in general, all the symptoms of dyspepsia. Pure blood is required by every organ of the body for the proper performance of its functions. Hood's Sarsaparilla makes pure blood, and this is why it is so successful in the treatment of so many diseases and ailments. It acts directly on the blood, ridding it of scrofula and other humors. It is a peculiar combination of blood-purifying, nerve-toning, strength-giving substances. Get it today.

FORESTRY BRIGADE BUILD WOODEN CITY

Canadians Construct Huge Warehouses and Workshops on Coast of France Stewart Lyon, correspondent of Canadian Press with the Canadian forces, sends the following: Taking advantage of a lull in the operations, I have spent a short time at certain points on and near the coast, where a large part of the business administration of our armies in France is centered. At one of these, where a Canadian Forestry company has to do with the woodworking side of things, I saw warehouses and workshops on a scale that probably is unparalleled in the world. One of the sheds in which foodstuffs for man and beast, medical supplies and parcels for soldiers from friends are housed, awaiting despatch to the front, is almost half a mile in length by a hundred yards wide. More than 1,000 men, chiefly negroes from the West Indies and Kafirs from South Africa, are required to handle the goods passing through this shed, yet it looks almost deserted. The setting free of men fit to fight, and the utilization of the unfit men, women and coolie labor is an important part of the work of the management in every branch. For instance, there are very efficient machinists and construction ironworkers. These are especially employed in bridgebuilding and similar work. Speedy replacement of wrecked bridges is most important to an army campaigning in Flanders, that land of innumerable small water-courses. The engineer in charge of a more or less damaged crossing, hours from the receipt of orders to replace any bridge up to a 75-foot span he could have a ready-made bridge taken from the stock on hand, loaded on cars and en route to the front. Some bridges of 120 feet of a span, capable of carrying the weight of the tanks, as well as the heaviest of the equipment, are kept in stock, he said. In the other industrial services the same up-to-date was found. Perhaps the most interesting of all the operations carried on at this base is the work of the salvage department. After every battle thousands of sets of equipment are left on the field. The great mass of equipment is sent down to the base to be renovated. I saw the whole process, from the fumigation of everything in the original packages to the assembling of all the parts, cleaned and repaired for re-use. The work is done by hundreds of French and Belgian women and girls, many of them war widows to whom this means of earning a living is the door of hope.

REVIVAL SERVICES There were three great services in the Coburg street Christian church revival yesterday. The large chorus led the music at all services. Mrs. George Horton sang very acceptably at the 11 a. m. service. Rev. S. B. Culp took for his theme "Nash, the Ark and Deluge." About two hundred ladies attended a service for women at 4 p. m. Mrs. Key sang in the choir. The great mass revivalist spoke on "Woman, Her Place and Power." There was a very appreciative audience at 7 p. m. Mrs. Coe sang a number of songs. The theme was "The Unpardonable Sin." One person made the good confession at the morning service and an impressive baptismal service was held at the close of the evening service when eight persons were baptized.

AWAY TO CONVENTION Mrs. J. A. Beaver, wife of the local manager of the National Cash Register Company, and Mrs. R. A. The convention is a novel one and is designed to make known to the wives of the salesmen the problems that confront the salesman in his work.

HOW ROUMANIA WAS BETRAYED

Germany Worked Through Russian Channels Rasputin's Willing Aid Declaration of War Forced Prematurely, Then Supports Were Held up—Le Quex's Version of Disaster

William Le Quex has been well known for years as a sensational novelist dealing preferably with diplomacy and international intrigues. Since the war he is credited to a more penetrating pen, he has asserted that while he was writing his apparently incredible stories of adventure he was really studying the German government of Germany's real intentions. Mr. Le Quex is now in possession of a copy of correspondence carried on between Berlin and Rasputin, a Russian monk, in the court at Petrograd. A Plague for Russia In the review of a previous article the details of a German plot to assassinate Gen. Korniloff and Gen. Brusiloff were set forth. In a later number of the London Illustrated Sunday Herald, this novelist discusses the plot against Roumania and an effort to start a plague in Russia which would force a separate peace. It appears from the correspondence that it was Rasputin who suggested the epidemic. He is informed that on a certain date a trusted bacteriologist will see him and that by the same ship will arrive 126 barrels of Canadian apples and 98 cases of Canary bananas. He is instructed to see that Prottopoff had the consignments promptly distributed in Odessa and the utilization of the unfit men, women and coolie labor is an important part of the work of the management in every branch. For instance, there are very efficient machinists and construction ironworkers. These are especially employed in bridgebuilding and similar work. Speedy replacement of wrecked bridges is most important to an army campaigning in Flanders, that land of innumerable small water-courses. Marcus Can Save You Money On Furniture

By being out of the high rent district and keeping down every item of expense to the lowest possible point, we are able to undersell those who pursue the other policy—big expense, with the idea of "stimulating" business by artificial means. Many people do not know that since the fire, which destroyed our premises some few months ago, we have remodelled our former quarters into one of the most modern furniture stores in the Maritime Provinces, stocked with the very newest and best in Furniture and Home Furnishings. We have three large show-rooms for display of samples only, duplicate stock being carried at warehouse. You Always Get the Lowest Possible Price Here. Quality and Price Guaranteed.

J. Marcus, 30 Dock St.

Paris, Oct. 15.—Mata-Hari, a Dutch dancer and adventurer, who two months ago was found guilty by a court-martial on the charge of espionage, was shot at dawn this morning. She was, according to unofficial press dispatches, accused of conveying to the Germans the secret of the construction of the Entente "tanks." Further Plans for Drive for British Red Cross Funds The citizens' committee in charge of the plans for the canvass for funds for the British Red Cross, met this morning, with F. A. Dykeman presiding and R. G. Schofield acting as secretary. The Boy Scouts will be asked to undertake the collections in outlying districts and, if the school board approves, the children will be given an opportunity to contribute through their teachers. It was decided also to have the two ambulances stationed at prominent corners in charge of Red Cross nurses who will accept contributions. The arrangements for the canvass of churches, places of business and dwellings were completed, the city being divided into districts which will be visited by about fifty citizens as collectors. INTOLERANCE CRITICIZED Andover, N. B., Oct. 11, 1917. Editor Evening-Times: Sir—I noticed in your paper of today an announcement to the effect that a film entitled "Intolerance" is soon to be shown in St. John. I think the public should be informed as to the real nature of this film as intimated in the enclosed cutting from "The Pioneer." It is really an attack upon prohibition, and there is reason to believe that a good part of the \$2,000,000, it is alleged to have cost, came out of the coffers of the liquor lords. Knowing your interest in the cause of temperance and moral and social reform, I venture to hope that you will enlighten the public on this important issue. I remain, dear Editor, Yours sincerely, C. FLEMINGTON, Secretary. N. B. Branch Dominion Alliance. (Extract from Pioneer) "INTOLERANCE" PART OF BREWERS CAMPAIGN The much advertised film "Intolerance," which has been exhibited in this province, is shown up in its true light by the following, which is taken from the October issue of the American Brewer. Awakened by the dangers of the intolerant conditions which the prohibition fanatics have caused, it has dawned upon the film producers that aside from a profitable business, it would be a wise undertaking to arrange a production to combat the fanatics. The dark and doubtful ways of the prohibitionists are to be shown to the public in general; it is to become acquainted with the workings of the hypocrites. Those that have previously sided the fanatics are now to line up against them. A welcome sign, indeed. D. W. Griffith is now producing a film entitled "Intolerance." It is part of an educational campaign against prohibition. Prominent men of various walks of life have attended the production and signified their willingness in spreading the gospel of truth by assisting the producers. TWENTY SEVEN THIS A. M. Twenty-seven men were examined this morning by the local standing medical board. Sixteen were put in class A; three in class B; four in class C; one in class D, and three in class E.

NO COUNSEL WILL BE ALLOWED BEFORE MILITARY TRIBUNALS

Ottawa, Oct. 15.—Reception of the proclamation calling out the first-class of men under the military service act is reported here as in every way satisfactory. At post offices all through the dominion, there have been numerous applications either to report for service or to file a claim for exemption. Everywhere there was an evident desire to comply promptly with the provisions of the law. Considerable interest is manifested in the provisions of the regulations about to be issued that no counsel or advocate shall be heard before a local tribunal. The main purpose of this provision, it is understood, is to place the poor man on an equal footing with the rich in respect to his application. Neither, in claiming exemption before a local tribunal, will he be better able to deal with the applications from a common-sense point of view, if the issue is not clouded with legal clauses.

LARGE NUMBER IN FREDERICTON ARE SEEKING EXEMPTION

Fredricton, N. B., Oct. 15.—The Medical Service for the Fredericton district under the Medical Service Act, began work today. Up to noon fourteen men had been before the doctors and all but two claimed exemption, the men were classified as follows in Class A, 2; six in class E, and one with examination not completed. Applications for blanks at the post office numbered 110. Of that number only fifteen wished to register and examine by the medical board. The others all filed out exemption blanks.

SHERIFF O'BRIEN IS LIKELY TO RECOVER

Newcastle, N. B., Oct. 15.—The condition of High Sheriff O'Brien shows some improvement today. He passed a restless night. It was found that his hip was not broken, but is dislocated. His nose was broken. There is every hope of his early recovery. Patrick Clancy, an aged resident of Derby Junction, died last night after a long illness, aged eighty-four years. He was buried in the morning at St. Thomas, station agent at Derby Junction, and Mrs. A. J. Morrison of Newcastle.

USED BROTHER'S REVOLVER TO PUT END TO HER LIFE

Fredricton, N. B., Oct. 15.—The funeral of Miss Ella May Nason, who took her life by shooting at her home in Devon on Sunday morning, will take place tomorrow at 11 a. m. She was the daughter of Thomas and Mrs. A. J. Morrison of Newcastle.

THE KING'S DAUGHTERS

To the Editor of The Evening Times: Sir—Will you kindly, through your columns, permit me to express the thanks of The King's Daughters to the merchants and citizens who have so generously sent donations to our Superfund Store? May I also briefly answer a few inquiries made, possibly by strangers, as to the nature and scope of our work, especially wanting to know the attitude toward the Y. W. C. A. recently organized in St. John. First—The King's Daughters are a band of women representing all our churches, pledged to definite service, their slogan being "Lead—A Hand, In His Name." There are five circles of membership ranging from about fifteen to fifty, doing charitable work, providing food, fuel, clothing, etc., meeting to sew for infants, children and the aged, each earning and dispersing its own funds. These circles together with individual members form The City Union, which conducts a boarding house for girls, in receipt of small salaries. Here the young girl, usually a stranger, finds a safe, comfortable, Christian home at lowest possible rates. It waters Red Cross time and space to give any adequate idea of the many, many women traveling, and otherwise, who have here found a kindly welcome, especially when friendless and without funds. This boarding house is essentially the work of the Y. W. C. A., but there was none in our city, and the need great, so The King's Daughters have tried as best they could to carry on the work. Because they realize as no other can how great, how tremendous, the need, they are most desirous of seeing a strong, well equipped Y. W. C. A. which will take over and greatly enlarge the work which they have been doing. The war has hit us hard, first by the discontinuance of the government grant of five hundred dollars paid for our care of immigrant girls, and, secondly, the soaring prices of fuel, food, and other necessities. It has thus become imperative for us to appeal to the citizens, asking their co-operation and assistance in helping us to "carry on" until such time as the Y. W. C. A. is ready to take over the work. Thanking those who have already contributed, and those who may do so in the next few days, and thanking you, Mr. Editor, for your valuable space, I am, Yours respectfully, "A KING'S DAUGHTER."

ST. JOHN TEAM LOSES TO FREDERICTON

Defeated by Score of 22 to 0 in Game of Inter-Scholastic League

A badly defeated squad, but in no way discouraged, the St. John High School football team returned to the city late on Saturday night from Fredericton where they opened the Inter-Scholastic Football League in the afternoon against the capital High School boys. The Fredericton team outclassed the local aggregation and outgeneraled them on the field and won quite easily by a score of 22 to 0.

In the first half the game was played almost entirely in the St. John boys' territory, and soon a field goal had been scored and a couple of touch downs made. As the game progressed it was evident that the home team were too well versed in the game for their opponents and the result was never in doubt. In the second half the St. John coach switched several of the players and the result was soon apparent. The play goals were scored in the Fredericton territory and remained there for the greater part of the period, although the St. John boys did not succeed in crossing their opponents' line for a touch.

The game was a demonstration of efficiency and confidence, backed by good leadership, versus inexperience, poor condition and little knowledge of the game. The Fredericton boys have a team composed of players well drilled in passing and punting and with experience from former years of playing, while the St. John boys were new to the game, having been handicapped by having no grounds on which to practice.

The St. John team showed up quite well and with more practice should develop in efficiency and make a good showing during the remainder of the playing season. They have lots of weight and got the ball out to their quarters often enough to give them ample opportunities to score. They failed to follow up, however, and as a result some of the touches and one of the field goals should never have been scored. The quarters showed up well, especially in the second half. The half backs failed to punt and the line backs did not develop proper coaching should develop a point winning combination. Akerley at full back, Kerr on the half line and Hutchinson, one of the side quarters, were the three St. John boys who made the best showing.

The one bright spot in the game was the loyalty of several St. John girls, who are studying at Normal School, and who went to the grounds and continually cheered the representatives of their former Alma Mater. Several U. N. B. boys, who formerly played for St. John High also tried to cheer them on to victory.

In the evening the girls of the Fredericton High School entertained the football players at a banquet. Speeches were given by members of the home and visiting teams, after which games and dancing were enjoyed.

The line-up of the teams follows:

WOMAN WITH BABY IN ARMS SITS ALL NIGHT IN RAIN TO SEE BALL GAME

New York, Oct. 12.—"Set right there nearly all night with a baby in her arms," said the big cop, pointing to a particularly soggy spot near the Eighth avenue gates of the Polo Grounds. He remained over the recollections.

"Settin' there with that baby waitin' to crash into a baseball game."

"She's a little dame," continued the cop, calmly. "Don't weigh more than 90 pounds, even after she's soaked with rain. She has an empty soap box. Some guys bought it after she goes inside and makes a bonfire on Manhattan Field there to keep warm. Thinks I to myself, I'd like to see the color of your old man's hair, ma'am, lettin' you set out all night with that kid waitin' to horn into a ball game, but when I try to give her a buss to find out who she is, it don't take me no time to figure just about how the old man stands around his joint," the cop went on.

"She as much as tells me to mind my own business," he said. "She just the same as told me to go to Chicago. She says she's here to see the world's series and she's going to see it. She says she always sees all the games the Giants play in the regular season, and always sets in the same seat, and that she's going to have that same seat today or bust something."

UNION GOVERNMENT

The formation of a union government at Ottawa will soon be complete. The Nova Scotia Liberal member has not yet been sworn in, and a representative of labor is yet to be secured.

RECONSTRUCTION

They have already a minister of reconstruction in England. His duty is to study conditions and outline policies and methods of solving problems that will arise after the war.

Universal sympathy goes out to the family of Hon. F. B. Carvell, and especially to the daughter whose husband, and the mother whose son has given his life in defence of the Empire and of civilization.

It is freely predicted that the next great war will be between capital and labor, and one English writer has pointed out that the workingmen who are fighting the battles of democracy will demand when they have won the victory that the conditions of life for them and their families be improved, even if the privilege of piling up millions must be denied the shrewd capitalist and fortunate investor.

Only by increased productivity should we be able to overcome the devastation caused by the war. Labor should be entitled to a share in the benefit of increased output, and be protected against cutting rates. The fear of unemployment largely responsible for hostility to improved methods, and that had to be removed. Labor should also be brought into council on the general questions of the conditions and hours of labor.

There is a great deal of solid wisdom condensed into this short paragraph, and it shows a changing attitude on the part of the authorities toward labor. If there is to be an increased output labor should share the benefit, and should be protected against cutting rates.

Summarizing his views on the whole subject, Dr. Addison laid down the following among conditions as representing the primary needs of the nation in order to overcome the effects of the war: Better co-operation between capital and labor.

Better conditions of life. Better industrial methods. Better training.

The London Chronicle, commenting on Dr. Addison's remarks, points out that so far as getting raw materials, for which there will be intense competition after the war, is concerned, the Allies have a great initial advantage, in that they control by far the larger portion of the world's sources of these materials; but that there must be forethought and preparation and concerted government action, as well as individual enterprise, to ensure the best chance of speedy recovery after the war.

The stress of his speech was laid (and rightly laid) on the need for improved co-operation between capital and labor. In particular it is essential that labor should be given, what it was too often deprived of in the pre-war days—a direct interest in improved and increased production.

The Whitley committee's scheme for a system of joint councils representing employers and employees has, we think, great possibilities. But if these are to be realized, the councils must be regarded as having wider and more constructive functions than merely to keep the peace between the parties. They must be used to make labor an active and interested partner in industrial enterprise, entitled to a share in the benefit of increased output and protected against the cutting of rates.

It is freely predicted that the next great war will be between capital and labor, and one English writer has pointed out that the workingmen who are fighting the battles of democracy will demand when they have won the victory that the conditions of life for them and their families be improved, even if the privilege of piling up millions must be denied the shrewd capitalist and fortunate investor.

GUYNEMER The hero of a hundred fights, With fiery soul to fear unknown, No longer scales empyreal heights Nor ranges depths of air alone To mark the foeman's albatross Linnæus 'gainst the blue of distant sky; Who counted the garden party's not loss, As swift he onward sped on high, Could he but grapple with that foe And send him hurtling far below!

Dead eagle of aerial plains, Who had a hundred fights had won, In years to come when Silence reigns O'er fields where War its course has run, Proud France will mourn above thy tomb, And travelers from distant lands Will note where poppies' reddest bloom Above thy dust, and reverent hands Will tend and guard his resting place— This knightliest soul of France's race! A farmer who had recently bought a vacuum cleaner met a friend of his, and persuaded him to go home and see it work. The farmer said it would clean anything. In front of the house was a dirty cow. The friend humorously suggested that the cow be given a dose of the cleaner. A few days afterwards the friend had to tell how the vacuum cleaner carried successfully through.

President of Commission of Inquiry Says This—Political Matters in Russia

Petrograd, Oct. 15—General Chablovsky, president of the commission of inquiry into the Korniloff affair, has returned to Petrograd, and in an interview declared that he did not see in the actions of Korniloff and the other accused officers any character of high treason. It was proved, he said, that Korniloff throughout the movement committed no act of a nature to weaken the fighting spirit of the provisional parliament.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

If Peevish, Feverish and Sick, Give "California Syrup of Figs"

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, which is followed by the bowels passing and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile, and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again.

This harmless, delicious "fruit laxative" and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Ringworm on Child's Head

Caused Great Distress and Spread to Neck and Ears—Cure Was Speedily Effected When Right Treatment Was Recommended

Grand Bend, Ont., Oct. 12—There is no disease of the skin more obstinate than ringworm, and the mother who writes this letter does so fully realizing what it will mean to other anxious mothers to know about Dr. Chase's Ointment.

This remarkable cure was brought about two years ago, and as there has been no return of the distressing disease there can be no doubt that the cure is permanent.

Mrs. D. Stebbins, Grand Bend (Ont.), writes: "I am going to tell you of my experience with Dr. Chase's Ointment. My little girl had some sores come out on her head which looked like ringworms. They were spreading fast, and I tried home treatment, but nothing helped her. I took her to the doctor, and he opened some of the sores, which were as big as the yolk of an egg. The same he gave me to put on was very severe, and the poor child would cry for an hour or more after an application. For six weeks it continued to spread all over her head, and came down to her neck and ears. She suffered terribly. At last some kind ladies told me about Dr. Chase's Ointment, so I got a box, and the first time I put it on she was relieved of pain, and the second time the swelling was all gone. Before we had finished the first box the sores were nearly all gone. I have told all the people around here about your Ointment, and I cannot praise it too much. It is now two years since my little girl was troubled in this way, and it never came back, so you can see she is completely cured. You are at liberty to use this statement for the benefit of others who may be suffering in a similar manner."

Joseph Brenner, J.P., endorses this statement as follows: "This is to certify that I am personally acquainted with Mrs. D. Stebbins of Grand Bend (Ont.), and believe her statement with reference to Dr. Chase's Ointment to be true and correct."

NURSE HAD POOR HEALTH

Suffered Much Pain, Yet Had to Work. Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Toledo, Ohio.—"I am a widow and go out nursing, and suffered from a female trouble that caused a great deal of trouble. I was unable to get across my back, and through my abdomen. Sometimes it would be very painful after a hard day's work. I read a book about Lydia E. Pinkham's Vegetable Compound and tried it and it has helped me wonderfully, so the soreness is all gone now. I believe Lydia E. Pinkham's Vegetable Compound is the best remedy for female troubles."—Mrs. ELIZABETH JOHN, R. F. D. No. 4, Toledo, Ohio.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today is regarded as the most successful remedy for female ills. There are thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., to prove this fact.

How to Save Wheat, Beef and Bacon for the men at the front. Issued from the Office of the Food Controller for Canada.

Instead of beef or bacon tomorrow serve creamed human haddie.

Creamed Human Haddie

Four boiling water on the human haddie. Leave a few minutes, and pour off. This takes away the strong smoky taste. Lay the fish in a baking pan and cover with milk. Cook gently in the oven until done. Make a white sauce, in the milk that is on the fish. To one cup of this milk use two tablespoons of flour, two tablespoons of butter and one-eighth teaspoon of pepper. Carefully remove the bones from the fish, breaking the fish as little as possible. Add this flaked fish to the white sauce. Re-heat and serve at once.

Save wheat flour by making more use of cornmeal.

Try Cornmeal Gems

Cornmeal, 1/2 cup; flour, 1 cup; milk, 1/2 cup; baking powder, 3 teaspoons; eggs, 1; sugar, 1 teaspoon; melted dripping, 1 tablespoon; salt, 1/2 teaspoon. Mix and sift flour, baking powder and salt; add sugar, milk, egg, well beaten and melted shortening. Bake in greased gem pans in a hot oven.

Dr. A. M. Fisher Killed in France

Son-in-Law of Hon. F. B. Carvell Gives His Life While on Duty at the Front--His Career

A telegram received yesterday by Mrs. Fisher, of Woodstock, wife of Dr. Arthur M. Fisher, and daughter of Hon. F. B. Carvell and Mrs. Carvell, conveyed to her the stunning news that her husband had been killed while on military duty in France on Friday, October 12. No further particulars were given. Mrs. Fisher had just returned to Woodstock after motoring with her mother to Danforth (N.B.), to meet Hon. Mr. Carvell on his return from Ottawa, where he had recently been sworn in as minister of public works in the new union government, when she got the message telling of her husband's death. It came as a terrible shock. The sympathy of a wide circle of friends, both in this province and in Upper Canada, will go out to her in her bereavement.

Hon. Mr. Carvell left Ottawa Saturday afternoon for home and in order to make connections he arranged for his automobile to meet him at Danforth (N.B.). Mrs. Carvell and Mrs. Fisher went with the car to Danforth and the party motored back to Woodstock by way of Hamilton. On their arrival in Woodstock they got the news of Dr. Fisher's death. Mr. Carvell had planned to be in St. John tonight, but his arrangements are now unsettled.

Before going overseas, Dr. Fisher, who was a graduate of McGill University, was a young surgeon on the staff of the Royal Victoria Hospital in Montreal. He was recommended by his chief to be one of the four surgeons from Canada to join the British medical forces. He crossed to England in the summer of 1915, and for a long time was medical officer on a large transport running between England and Alexandria. This steamer was torpedoed and Dr. Fisher barely escaped with his life, losing all his belongings when the vessel went down. He continued in this service until he was compelled to undergo a very serious operation for an intestinal malady which attacked many surgeons and others in the Mediterranean and Bombay service. After he recovered so that he could make the journey he returned home and spent part of the summer of 1916 recuperating in Carleton county where his wife and mother were. His wife had spent the winter and spring in England. In the fall of 1916 Dr. Fisher returned to his old duties overseas, and later went to France.

Dr. Fisher's father, who is not now living, was a former collector of customs at Woodstock. He was married to Miss Carvell a short time before he left for overseas. His widow is the only child of Mr. and Mrs. Carvell.

FERTILIZER VERY SCARCE

(Frederick Gleaner.)

The Gleaner's attention has been called to the serious situation confronting farmers who are building their soil on potash. The fertilizer outlook is gloomy. It is a very forbidding way, and is presenting a situation which does not look good.

All farmers know that there was a tremendous scarcity last year, and a considerable advance in price. This season there will be a greater scarcity than last and an increase in price of at least one-third over last year's figures.

There are several causes contributing to the situation. One is the difficulty of transportation. Many of the elements entering into the manufacture of high grade fertilizer come from South America. It is almost impossible to get ships now to deliver the nitrate from those ports to the factories. Potash, of course, is out of the question, that being chiefly a German product, the small supply in the United States not being sufficient to keep factories going.

The acid phosphate, usually coming from the United States to Canadian factories, is being curtailed, and, in fact, there is talk of an embargo being placed upon it.

By this it will be seen that the manufacturers are up against it hard and fast and the goods are not to be had.

URUGUAY STRONG FOR ALLIES' CAUSE

Fervid Words of President at Big Manifestation on Break From Germany

Montevideo, Oct. 15.—At a great public manifestation organized on the occasion of the rupture of diplomatic relations between England and Uruguay, the president of the republic, reaffirmed the sympathy of Uruguay for the Belgian cause and the solidarity of the republic with the countries which are fighting for the cause of justice and right.

"When the sovereignty of Belgium was violated," he said, "I knew that the spirit of neutrality was no longer possible. I knew with what profound anxiety you were awaiting this time when the government would answer your thoughts and your feelings by international action.

"People of Uruguay! The hour has struck, we are no longer indifferent to the foremost struggle in which justice and democracy are writing under automatic oppression. That is fulfilled the hour we are summoned in the name of supreme interests by the noble President Wilson, who translated into facts our deep rooted principle of continental solidarity."

FURTHER ACTION IN PROTEST AGAINST SENDING OF FATHER LANDREAU TO FORB CITY

Chatham, Ont., Oct. 15.—French-speaking residents in the vicinity of Paincourt yesterday endorsed the opposition which has developed against Bishop Fallon since the Ford City incident of Sept. 8, when it is alleged, riots were precipitated when Father Landreau was sent to that parish as successor of the late Father Beaudoin.

A thousand or more gathered yesterday on the school grounds at Paincourt and adopted a resolution which it was agreed to remain away from church if Bishop Fallon were present.

T. P. O'CONNOR ON HOME RULE

Three Channels Through Which He Says Liberation of Ireland May Come

Chicago, Oct. 15.—The liberation of Ireland will come through the present convention, through prompt action of the British government or through the peace conference that ends the war, according to T. P. O'Connor, in an address delivered on Saturday before the Irish Fellowship Club here.

He charged England with oppressing Ireland as severely as "any nation now under Germany's yoke," but declared the only obstacle to a free Ireland were England's mistakes since the war and the Sinn Fein policy which, in his belief, "has arrayed Ireland against all the civilized nations in the world."

He had come to America, he said, to speak against this policy, which he demanded be abandoned, "rather than raise America as an enemy to Ireland."

After such a conclusive proof of the real position in which the Irish in this part of America stand, declared Mr. O'Connor, it will no longer be possible for a small but noisy faction to misrepresent Irish sentiment.

BROAD WAR POWERS

Trading-With-Enemy Act in the United States

Washington, Oct. 15.—Broad war powers conferred upon the president by the trading with the enemy act, were put into operation under an executive order issued last night delegating the authority to various government departments, and a newly created war board.

This board is composed of members of the exports administration board, which it will replace, with the addition of a representative of the trade board. It will continue to license exports and will exercise a similar control over imports so soon as the president proclaims, under authority of the trading with the enemy act, the articles to be so restricted.

Trading or commercial dealings of any nature with any enemy company or agent in this country or abroad is forbidden except under license of the war trade board, which also is authorized to license enemy or "ally" of enemy companies doing business in the United States, except insurance companies whose supervision is entrusted to the treasury.

To the electors of the Parish of Lancaster, Ladies and Gentlemen: Considering that it is not in the best interests of our parish to allow the present council to be re-elected by acclamation I have decided, after many solicitations from electors representing the different sections of the parish, to offer myself as a candidate for the coming contest. Holding interests both as a business man and property holder, the same should be sufficient evidence to the electors to warrant the very best that is in me, regarding the welfare, prosperity and administration of the parish, and should I have the honor to represent you after the 16th, I make one promise and that is fair consideration to all sections. As to the present councillors personally I have nothing against them, but it is impossible to see all the electors personally and I think those who will see their way clear to render me their support before and at the polls. Thanking you in anticipation of such support, I remain in the best interests of the electors. Yours faithfully, GLENDON H. ALLAN. 10-16

This Morning In Wall Street

New York, Oct. 15.—Favorable developments over the holiday were not in effect at the opening of today's stock market even though some issues were again under pressure. Gains of one to two and a quarter points were made by leading steels, Central Leather, Anaconda Copper, Texas Company and other equipments as well as Reading, New York Central, B. & O., M. O. P., and Rock Island Railways. C.P.R., Atchison and St. Paul were lower, also ship-pings and active specialties. Gains and losses became more mixed later. New York, Oct. 15.—Wall street (noon)—The uncertain trend of the list during the moderate trading of the morning was illustrated by the course of such prominent issues as United States Steel and Union Pacific. The former reacted from its low of 104 1/2 to below 106 and Union Pacific fell six points after a substantial fractional gain. Further evidence of liquidation in specialties was furnished by the weakness of tobaccos, shippings, oils, metals, motors and utilities, in which recessions extended from 1/2 to 4 1/2 points.

HARDWARE PRICES

(Hardware and Metal, Oct. 15.) The last week has been one of interesting developments so far as price changes are concerned. Important commodities of the hardware trade have undergone numerous changes. Electrical goods of various kinds have been increased in price in a number of instances, while in other cases slight readjustments downward have been made. Flashlights, cycle lamps, electric hand lanterns, trouble lights, cigar lighters, section switches, carbon candelabra lamps, meters, electric stoves, toasters, boudoir sets, iron and ironettes are lines that have been changed in price. Bicycles have registered a 10 per cent. increase in price and prices on bicycle accessories are now in process of revision with the intimation made that prices in many lines are likely to be higher. Automobile tires are holding steady in price, but manufacturers in some instances will guarantee prices no further into the future than December 1. Among the other lines of hardware that have advanced in price are stove polish, apple parers, saw sets, thimbles, egg beaters, wedges, cobblers' lasts, draw knives, lamp and lantern burners, rivets and burs. Cotton waste is in firm market with strong probability of an advance in the not distant future. Galvanized sheets were in weaker tone with lower prices quoted in some quarters. The market for future linseed oil is weaker, but spot oil is somewhat scarce, owing to the difficulty of getting flaxseed. Turpentine is in firmer market with advances recorded in some quarters. A decline of 50c. per hundred pounds was registered in white lead in oil. Glass market is firm with intimations that advances may take place in the near future. Hardware business is reported very good.

SHORT NOW OF IRON AND STEEL

Germany Seizes All Stocks—Dutch Stop Shipping Service Because of British Restriction

Amsterdam, Oct. 15.—The Measbode says it learns that all Dutch shipping to England has been stopped on account of the pending difficulties between Great Britain and Holland. Great Britain on October 11 stopped all commercial cable communication with Holland until such time as the Netherlands government placed absolute restriction on the transit of sand, gravel and scrap metal from Germany to Belgium by way of Holland. Copenhagen, Oct. 15.—The growing difficulty of obtaining iron and steel for war purposes in Germany is indicated by an imperial regulation just promulgated in Berlin confiscating stocks of structural iron and steel, common tubing, sheeting, cast iron and cast steel. The order prohibits the use of any of these kinds of steel or iron except by special permission. The order goes far beyond the original regulation issued in last July, which applies only to certain kinds of structural iron.

THE CORN MARKET

Chicago, Oct. 15.—Fine weather to promote the drying out of the corn crop had a bearish effect today on corn prices. Shorts, however, covered on declines and brought about something of a rally. Announcements later that current prices of cornmeal would be reduced by the food administration tended to discourage bulls. Opening quotations, which ranged from 1/2c to 1/2c lower, with December at 1.12 1/2 to 1.12 1/2, and May at 1.08 1/2 to 1.08 1/2, were followed by a moderate transient upturn.

TWENTY HANGING IN DEATH TO POLES ON RAILWAY LINE

Jaurea, Mexico, Oct. 15.—Passengers arriving here last night from the south report seeing the bodies of twenty Mexicans hanging to telegraph poles along the Mexican Central right of way between Torren and Chichihua. Mexican officials say the bodies are those of Villa followers, who a few days ago attacked a military train, mistaking it for a passenger train.

TO THOSE WHO HAVE THOUGHT OF BUYING A CHALMERS CAR An arrangement has been effected whereby the Maxwell Motor Company has leased for a period of five years the properties of the Chalmers Motor Company. The immediate effect of this transaction is: 1. The Chalmers car will be continued under the Chalmers name for a period of five years. 2. Those distributors or dealers who have been successfully marketing the Chalmers car will continue to do so. The appraisers of the property and their engineers report the current Chalmers model a good car and the Chalmers plant a wonderful factory. The first move we have made is to increase the efficiency of the Chalmers organization. The second move was to place behind the Chalmers car the resources of the Maxwell Motor Company. This is a business transaction between two automobile companies of probably no more than ordinary interest to the public but important to you if you have thought of buying a Chalmers for these obvious reasons: 1. You obtain a good car. 2. You obtain a car produced in a magnificently equipped plant. 3. You obtain a car produced by an organization materially strengthened by the addition of able executives. 4. You obtain a car produced by an organization materially strengthened by additional financial resources. 5. You obtain a car from a distributor or dealer who will have the support of this organization. In this way all three of us prosper in the transaction. Naatu E. Stauder President and General Manager Maxwell Motor Company, Inc.

TORONTO AIMS AT HALF MILLION

This Week's Campaign for The British Red Cross In Queen City

(Toronto Globe)
From Monday morning, October 15, to Saturday night, October 20, is to be Toronto's British Red Cross half-million week. Headed by Mayor T. L. Church and dynamic committee of campaigners, the city proposes to conduct a revival of patriotic giving which will give leadership not only to Canada, but also to all overseas dominions of the British empire. "Toronto's patriotism has put this city on the world's map for serving and giving," said the mayor, "and we are going out to prove again that we mean the loyalty we profess."

In response to the mayor's public proclamation a big and enthusiastic meeting of citizens—ladies and gentlemen—was held in the board of control committee-room at the City Hall. They heartily recorded a unanimous decision to launch a whirlwind week of civic campaigning with the objective of \$500,000 for the British Red Cross. Sir Edmund Walker was chosen chairman of the campaign and Colonel Noel Marshall, vice-chairman. The campaign committee selected was as follows: Colonel Marshall, H. H. Williams, Kenneth Dunstan, Norman Sommerville, A. H. Campbell, J. E. Atkinson, Ald. J. J. Gibbons and W. S. Dinwiddie, with power to add. Colonel Dinwiddie was requested to act as campaign organizer. After the meeting the committee met and appointed Mayor Church as honorary president of the campaign. The committee was also able to report that the Rotary Club had already volunteered to canvass the employes of the various factories and business houses, while the Y.M.C.A., which had booked a membership campaign for October 16, 17 and 18, offered to postpone it in order to give the Red Cross call the "right of way."

ENEMY HARVEST LESS THAN HALF NORMAL

Much Depends on Potato Crop—Worse Even in Austria-Hungary Than in Germany

London, Oct. 14.—The Press Association, from a reliable source, publishes an economic review of the condition of the Central Powers, in the course of which it says that, as a result of a special investigation of the 1917 harvest as ordered by the chancellor, it is estimated that the yield will be forty per cent lower than in normal years for wheat and forty-five per cent for rye, oats and barley. The total harvest of wheat and rye amounts to 7,500,000 tons, compared to 18,000,000 tons in 1913. The shortage will be partly compensated from the Roumanian granaries. The reviewer considers that the food situation in Germany during the coming winter will depend mainly on the results of the potato harvest. At present potatoes are being delivered with fair regularity but should frost, lack of labor or other reasons cause a shortage in potatoes, it may well spell disaster. The situation in Austria-Hungary, it is declared, is worse than in Germany.

REPLY TO MRS. LAWLOR.

Sharnock Dairy,
60 Brussels street,
Oct. 12, 1917.
To the Editor of the Times:—
Sir:—Would you kindly allow me a small space in your paper to answer Mrs. J. W. V. Lawlor re the farmer. It would seem that Mrs. Lawlor would lead the public to believe that the farmer is trying to hold the people up for large profits and blames them for the high cost of milk, cream and butter. But she seems to overlook the real guilty parties. She failed to mention the cold storage or the wheat speculation. What has the farmer to do with the beef and butter held in cold storage for high prices? What has he to do with wheat held by the speculator? Is he responsible for the rise in the price of midlings from \$24 two years ago to \$46 today, or bran from \$22 to \$42 today? Will Mrs. Lawlor tell the public who is responsible for these changes, also the difference from eighteen cents for beef-steak two years ago to thirty-five cents today? Can she blame the farmer for this difference in price? Is it not reasonable the farmer should ask a chance to live? Now the public knows that the farmer is the first man to starve in any other country. Without him the country is tied up. He is the man we all look to.

SAD FATE FACES BRITISH CAPTIVES

Fears Expressed That 9,000 Prisoners in Asia Minor Cannot Survive—Weakened on Tigris

London, Oct. 15.—Attention is drawn by Thomas Seccombe, an eminent scholar and critic, to the melancholy position of British prisoners of war in Asia Minor.

"Unless," he declares, "these men be exchanged before the severity of the winter overtakes them, few, if any, can survive. Even good treatment, according to Turkish standards, would involve nothing less than slow and very painful death to men already weakened by Mesopotamian starvation, toilsome forced marches, insubstantial food and the inevitable rigors of that ferocious climate." Enquiries made by the Daily News show that with the exception of 800 men exchanged directly after the fall of Kut, no exchange of prisoners yet has taken place between Great Britain and Turkey. "There are nearly 9,000 British and Indian troops in the hands of the Turks, of whom some 180 are in Constantinople, the others being at various camps in Asia Minor."

PARK DEDICATION, FEATURE OF BOSTON'S COLUMBUS DAY

The dedication of Columbus Park, recently completed on the South Boston strandway on the shore of Dorchester bay, was the principal feature of the observance of Columbus day in Boston on last Friday. A parade of Portuguese societies from the South station to the park was followed by an open air mass, celebrated by Cardinal O'Connell. Music was furnished by military bands and a large chorus. Flags were presented to the Portuguese society by Gov. McCall and Mayor Curley. Twelve Italian societies joined in a parade from North End park to the Columbus statue in front of the Catholic cathedral.

at meal time including the members of the Housewife's League. You might as well try to force a super-dreadnought ahead at sea without fuel as try to run a country without the farmer, for he is the man first, last and all the time. Now about the substitutes for pure milk or butter. Mrs. Lawlor might as well tell the public that a farmer could paint a bag of mill feed on paper and make a cow believe it was the real feed, as well as make people believe creamed milk is as good as pure cow's milk, or that it is as cheap at eighteen cents a tin as cow's milk is at twelve cents. Or she might as well tell a young lady that a wooden man would make as good a living for her as a real live man would. There is just as much reason in this comparison as there is in telling people that oleomargarine is as good as butter, for there is no substitute as good as the real article, no matter what it is. So it would seem the home loving housewife will not try to make her children's stomachs suffer when the real milk is cheaper than the canned goods and she can readily see that the farmer is her friend and not the speculator. And let her ask the Housewife's League to do something about the cold storage. So she can have cheap meats and to place wheat on the market and don't hold it up for big prices and mill feed will drop, so will milk, for those are the ones that send the prices soaring. Thanking you, Mr. Editor, I am yours,
JAS. SHEEHAN,
East St. John.

For Your Sons and My Sons

The noble work of the British Red Cross knows neither race, creed nor colour. Its "Quality of Mercy" is not strained. But its financial burden has become more than the Motherland alone can bear. That is why October 18th has been set aside as a day to receive generous offerings to enable the British Red Cross to "carry on." Sons and Daughters of the Empire, wherever they may be, are once again urged to give generously to this cause. And it is most earnestly hoped that, as was the case last year, the contributions from Canada will set a standard in generosity that will be a pattern to the World.

Give Nobly and Generously on "Our Day", October 18

A Few Facts about the Work of the British Red Cross
The British Red Cross Society is the only institution which carries voluntary aid to the Sick and Wounded of the British forces on land and sea in every region of the War. Its work is therefore the concern of all classes of British subjects, whether living in the British Isles, in the Dominions and Colonies beyond the seas, or in foreign countries.

Joe Page Comments on the Play in the Fifth Match of the World Series—Still Thinks White Sox Will Win Championship
ing what looked to be a hopeless cause, he pulled and switched pitchers and batsmen at every critical point of the game, when a hit or a change might be expected to give him one or more runs. The White Sox played masterly ball for the first half of the game, while the New York club was all to the good and playing good ball. In the fifth, after Collins had fled out, Jackson stepped to the plate and lined a terrific drive directly at Sallee and before the latter could recover himself, Jackson was safely in first. From this point New York, Sallee and McGraw himself went to pieces and what with a bombardment of hits in this and the eighth frame easily overcame the Giants' lead of three. McGraw showed a woeful lack of judgment during this period and many attributed the loss of the game to him. The White Sox played rings around the Giants at Chicago in the first two games and the same may be said for the Gothamites in the two played at New York. In the fifth game both teams on the whole showed miserably. It was the poorest played game by far that has yet taken place for the ribbon event. However, while the writer may be wrong, it looks, after viewing the last five games, that Chicago has the edge of one game, with Faber and C-

John Smith Mitchell, a former well known resident of this city, died suddenly at his home in Boston on September 18 from heart trouble. He was born in St. John in 1841 and for many years was employed on the staff of the News and later with the Sun. He went to the United States many years ago and was employed with the Boston Herald. He was a member of the Boston Typographical Union and was highly respected. He is survived by one daughter and two sons.

MAJORITY PARTIES IN REICHSTAG TO STAND BY PROGRAMME

Berlin, Oct. 13, via London, Oct. 15—Matthias Erzberger, leader of the Centerist party in the Reichstag, which has demanded greater deference to that body from the government, told the Associated Press today that recent developments would not interfere with the majority parties' peace attitude as based on the resolution of July 10, or in any way retard the movement for parliamentaryization. If anything, he asserted, the latter will be accelerated as the result of the government's predicament.

He asserted that the majority bloc, now made up of Socialists, Centerists and Progressives, continues to present a solid plan behind the issues for which it stands, and that it is not improbable it will be augmented by substantial support from the National Liberals in connection with some of the more pertinent issues growing out of the present situation. Even without that support the coalition would have an ample working majority.

The premier is expected back on October 22, after his trip to the Near East, and it is assumed he will confer with the factional leaders of the Reichstag.

The Liberal and Socialists have continued outspoken in demanding the resignation of the men responsible for the launching and collapse of the government's indictment of the Independent Socialists in open session of the Reichstag.

WASHINGTON ANNOYED BY PUBLICATION OF NEWS OF ARRIVAL OF TROOPS OVERSEAS

Washington, Oct. 15—Aroused by publication of private cablegrams announcing arrival of American troops in France, the war and navy departments today took steps to prevent further publication of the incidents, which may result in the court-martial of the officers who sent the messages.

In one case a former national guard officer wired his governor of the arrival of the state's troops, but so far as is known here newspapers in that locality observed the government's voluntary censorship request and did not print the cable.

In the other case, however, a former national guard officer telegraphed the governor of his state of the arrival of his regiment with a request that it be given fullest publicity. The governor's office gave out the cablegram and many papers in that section printed the news. This morning other newspapers published the despatch and the cablegram, and designation of the regiment, all in violation of the voluntary censorship.

Clarion Call By Wilson For The Liberty Loan

Washington, Oct. 15—President Wilson, in behalf of the Liberty Loan, last night issued a proclamation setting aside October 24 as liberty day, and urging the people of the nation to assemble on that day in their respective communities and "pledge to one another and to the government that they represent the fullest measure of financial support."

"Let the result be so impressive and emphatic," the president urges, "that it will echo throughout the empire of the enemy as an index of what America intends to do to bring this war to a victorious conclusion."

Chicago, Oct. 15—Ralph Mulford captured first honors in the Grand Prix race meet at the Speedway on Saturday by finishing second in another and third in the twenty mile dash. The big event of the day, scheduled for 100 miles, was cut to fifty because of slim attendance. Coming from behind in the final lap, Mulford shot into the lead and won the first fifty mile race in a thrilling finish with Pete Henderson and Tom Alby. The time was 28:13.7. Mulford averaged 106 miles an hour.

SERVICE AFTER WAR

Ottawa, Oct. 15—It is announced that authority has been given to the department of naval service to retain the services of all Royal Canadian naval volunteer reservist men for a time not exceeding six months after the war.

NOTED INSTRUCTOR COMING TO THE Y.M.C.I.

Joseph McNamara to Take Charge of Physical Work At Local Institution.

Joseph McNamara, who is reputed to be one of the best physical instructors in America, has been secured by the directors of the Y. M. C. I. to act in that capacity for the local institution.

JOSEPH McNAMARA

At the present time Mr. McNamara is considered by many a master athlete on the part of the management and it is felt that his presence will create an interest in athletics unequalled in years in the history of sport in this city. Mr. McNamara is expected to take charge about the first of November.

Mr. McNamara is well known throughout the city and some years ago his name was a by word among all lovers of sport for his achievements as a ball player and also as a runner. He came to this city as a member of the old St. Stephen's (Boston) baseball team. His position was on first base and his work attracted fans in general. His remarkable speed called forth many comments and he was induced to enter short distance races here. Many who witnessed him in these will recall his great burst of speed and his beautiful stride and lift. One of his best races was against Fred Scott, a well known local runner.

At the present time Mr. McNamara is attached to Curtis Hall gymnasium in Jamaica Plain, which is situated near Boston, where he is physical instructor and trainer. He was also attached to L. street gymnasium in South Boston, Charles Bank summer gymnasium where he was swimming instructor and other gymnasiums in and about Boston. He himself is a powerful swimmer.

Mr. McNamara has been spending part of each summer here for a good many years, as the guest of his cousin, John T. Power, and he will receive a warm welcome on coming to take up his work here.

A COMPLAINT ABOUT THE PATRIOTIC FUND AND AN EXPLANATION

A soldier's wife called at The Times office this morning to make a protest against what she alleged to be a reduction in her patriotic fund allowance of \$5 a month. At the office of the fund it was said that the \$5 was deducted on her own authority by the payment of an overdue grocery bill which she had previously promised to settle but had neglected to attend to.

Investigation of occasional complaints regarding the fund have only served to emphasize the fact that the money is being administered in the best interests of those for whose benefit it was established. The executive committee has taken the stand that a soldier should not have to return home to find his family in financial straits. If dependents have not enough to live on the pay and allowance are supplemented to meet the needs of the case and it is only when the money is wilfully squandered that the committee intervenes in behalf of the creditors and then only to an extent that will cause no hardship to the soldier's family.

In some cases where creditors have been openly defied the committee has found it necessary to take action and, as a result of their action, merchants and landlords will be protected.

CARDINAL BEGIN TO BE IN CITY TOMORROW

His Eminence Cardinal Begin, Archbishop of the Diocese of Quebec, will visit St. John tomorrow afternoon, arriving in the city at 5:30 o'clock. He will be on his way to the consecration of Monsignor P. Chaisson at Church Point, N. S., who will be consecrated bishop on Friday.

While in the city Cardinal Begin will be the guest of Bishop LeBlanc at the Palace. On Tuesday evening at 8 o'clock in the Cathedral there will be an address by clergy and laity, presented to His Eminence. This will be followed by Benediction of the Most Blessed Sacrament. Following this, about nine o'clock, there will be a public reception in the Palace.

AMERICAN FLOUR FOR SERBS IN AUSTRIAN CAMPS

Washington, Oct. 15—Shipment of 5,000 bags of flour for Serbians in Austrian prison camps, the first of a series of food purchases which the American Red Cross, in co-operation with the Serbian government, is making in this country for relief of prisoners, was announced today.

"RAISING THE WIND."

Amsterdam, Oct. 15—The Frankfurter Zeitung says that Germany and Turkey have made an agreement whereby Turkey is to issue paper money of the equivalent value of fifty million pounds sterling, against which the same amount of German exchequer bonds is to be deposited in Turkish banks.

A. Ernest Everett
THE HOUSE FURNISHER

Dear Mary:

I thought I had all the furniture I needed, but when baby arrived I just had to rearrange things and make room some way for his clothes. So I went down to Everett's and bought a new chifonier. It's a beauty and the price was so reasonable.

I'd never had a chifonier before. My, what a lot of room one saves! And how convenient! I'm going to get another.

Baby's well. Come soon Love—HELEN
