WHITE STAR LINE IS SOLD TO R. M. S. P.

ANNOUNCEMENT
OF DEAL MADE
LONDON TODAY

Whole Share Capital Is
Acquired in Trans-
action

IN FORCE JAN. 1

Purchase Price to Include Part
Cash Payment With Re-
mainder Deferred

Canadian Press
LONDON, Nov. 27—The
Royal Mail Steam Packet
Company announced today that
arrangements have been con-
cluded to acquire the whole
share capital of the White Star
Line as of the date January 1,
1927.

The International Mercantile Marine
owners of the White Star fleet, con-
framed the announcement. Transfer
of the shares will not affect the contin-
uity of the White Star Line, its organi-
zation and agency arrangements.

DECLINES STATEMENT

P. A. S. Franklin, president of the
I. M. M., who negotiated the deal, de-
clined to make a statement. Reports
that the International Mercantile
Marine had completed negotiations for
the sale of its British registry White
Star Line fleet, with a view to develop-
ing an all-American merchant fleet,
were current yesterday.

The sale price was said to be approxi-
mately \$35,000,000 for the 500,000-ton
fleet, which includes some of the finest
liners afloat.

P. A. S. Franklin, president of the
I. M. M., entered into negotiations in
London last spring with Furness
Whitby Company, for the sale but the
deal fell through shortly after the British
general strike commenced.

The stockholders of the Oceanic
Steam Navigation Company, the White
Star organization, had been notified
that the line must either sell the ships
or finance an extensive building pro-
gram. Among the ships of the White
Star fleet, are the Homeric, Maclive,
Olympic, Adriatic, Arabic, Baltic,
Cedric and a dozen others. The I.
M. M. also has other vessels under
the British and other flags. Part pay-
ment in cash is reported with re-
mainder deferred.

Wall Street speculation is that com-
pletion of the White Star deal may be
followed by a bid for the United
States lines. The I. M. M. recently bid
for the Levantian, but the bid was
rejected by the shipping board in the
absence of a bid for the entire fleet.

STRIKE DATE SET
SAYS S. N. BERRY

Declines, However, to Release
Time—Leaves For
Cleveland

Canadian Press
MONTREAL, Nov. 27—Prior to his
departure for Cleveland, Ohio, to
confer with international officers, S.
N. Berry, senior vice-president of
the Order of Railway Conductors, an-
nounced that a date on which 15,000
conductors and trainmen employed
on Canadian railways would be
asked to cease work, if their de-
mand for a six per cent increase was
not met by the railways, had been
arranged, but declined to say what
it was, pending further action on the
part of the union executive.

DECLINES COMMENT

Mr. Berry declined to comment on
the statement of the managers of
the latter refused to re-open nego-
tiations, but returned the union of-
ficials to the executive of the rail-
ways for further parleys.

"We have not had time to fully
discuss this phase," Mr. Berry de-
clared, "but this will be taken up
next week. We are still hoping that
the matter can be adjusted without
recourse to extreme measures."

Mr. Berry expects to return to
Montreal early next week.

LONDON, Nov. 27.—King George
always wears a wedding ring.
He is so much in favor of the
custom that he cautioned an artist
who is painting his portrait to be
sure to get his ring in the picture.
It was while he was posing for
Richard Jack, R. A., that His
Majesty noticed the artist had not
yet painted the plain gold band on
his finger.

COUNTRY WOULD

HERE TODAY

Rail Board Chairman to Leave
Tomorrow on Return to
Ottawa

HON. H. A. MCKEOWN, chair-
man of the Board of Rail-
way Commissioners, arrived in
the city today to spend the
week-end. He will leave tomor-
row afternoon on his return to
Ottawa to take up again the
hearing in the railway rate case.

Interviewed in Montreal yes-
terday, he was non-committal
concerning the outcome of the
general freight rate hearings,
which will resume before the
Board of Railway Commissioners
on Tuesday.

The chairman said that if the rates
in Canada could be placed on a basis
equitable to all parties concerned, the
country would reap the advantage of
eliminating any discriminations which
are alleged to exist, it would be greatly
to the advantage of the country.

GROWTH OF WEST!

The difficulties of the case, Hon.
Mr. McKeown stated had arisen out
of the great growth of many of the
western centres and out of the ex-
istence of territory that had to be taken
into consideration. He predicted that if
rates were established which would
prove more beneficial, it would have
a stimulating effect on the movement
of grain particularly.

LONDON, Nov. 27.—British
coal owners are refusing
to consider the German offer
to form an Anglo-German
coal trust, the purpose of
which is for Germany to re-
tain the markets she won in
Europe owing to the coal
stoppage in Great Britain.
British owners assert that they
believe they can do so
without co-operating with the
Germans.

Marie Says Good-Bye

BY COMPARISON with the multitudes which acclaimed her when she arrived from Ruma-

TALK OF CAROL

Marie to Visit Paris by Special
Train Before Going to
Bucharest

BUCHAREST, Nov. 27.—The
Roumanian Foreign Office to-
day formally authorized the As-
sociated Press to categorically
deny "unfounded and fantastic
rumors that King Ferdinand is
dying of a blood disease and
that the King's mental vigor is
impaired."

The King is continuing to re-
ceive and work with his minist-
ers daily. Reliable and authori-
tative resources report the
King's condition improved. The
newspapers announce today that
the physicians in attendance
upon the King are ready to fore-
go an operation if his health ap-
pears to be better, and there is
general agreement from every
available source that it is im-
proved.

There has not been the slightest
suggestion either in the press or in official
circles, regarding Princess Helen, wife
of the former Crown Prince Carol, for
membership in a regency.

SEND QUEEN A MESSAGE

S. S. BERENGARIA, Nov. 27.—Queen
Marie, voyaging homeward from the
United States, received a reassuring
personal message from her husband,
King Ferdinand, last night, saying he
was feeling better.

Madame Laboulaye, of the Queen's
suite, made this known today after
the attention of the royal party had
been called to a radiogram from New
York saying it was reported there
that Ferdinand was near death.

"We read the radiogram," said Mme.
Laboulaye, "and don't believe it to be
true in the least, as the Queen last
night received a radiogram from the
King himself, saying he was feeling
better and wishing her a good cross-
ing."

It was announced further that Marie
plans to proceed to Paris before going
to Bucharest. She will travel on a
special train which is to await her at
Cherbourg.

PARIS REPORTS

PARIS, Nov. 27.—Roumanian seem-
ingly is on the threshold of moment-
ous political events. King Ferdinand
is reported to be near death and west-
ern Europe is flooded with unverified
and unverifiable reports that former
Crown Prince Carol may return from
France to the homeland and by coup
d'etat take possession of the throne,
rights to which he renounced last
January.

BICYCLE TO BE GIVEN AWAY

Prizes Also Include Skates and Boots; Pass to Skating Rink

One of Saint John's oldest established bakeries, the Estate of Wm. McLaughlin, 320 Haymarket Square, have hit upon a happy plan that will provide some lucky boy or girl with a real Xmas present—one they can work for. This reliable bakery is giving a coupon, value 100 points, with each loaf of their delicious, wholesome "X-LD" bread, and the lucky boys or girls collecting the most coupons by Friday morning, Dec. 25, will receive the prize in time for Xmas. This is a clean, straight, honest competition, with no difficult conditions. Their advertisement on page 8 explains all about it. The coupon in today's paper counts 500 points, and should be filled in at once by the boy or girl competitor.

A BIG MONDAY AT THE IMPERIAL

Leatrice Joy and her famous boyish bob will be an attraction at the Imperial Theatre Monday and Tuesday in another of the excellent F. D. C. features "The Clinging Vine." This is one of Cecil B. DeMille's new brand of productions and treats of a modern girl who suddenly became aware of the fact that she was taking life too seriously in the realm of commerce with her plain business-like clothing and matter of fact manner. In fact she was becoming a Dumb-Dora, she thought. So she broke loose in a riot of apparel and flapperish notions that set the town a-whoop. It is a diverting business-social-comedy and should please everybody. The Pathé Weekly will depict the great naval demonstration in the Fifth of Perth held for the Dominion premiers, some big European news films, the sea-please race in Virginia and the art treasures of St. Peter's in Rome. Agost's Fables organ and orchestral music.

"Big Ben" Cracked Badly, Say Experts

LONDON, Nov. 27.—Big Ben is cracked. Most all radio fans who have heard on their sets the clock strike the hours from the Westminster Tower, thought there was a flaw in the bell and this is confirmed by W. Boulton, of the Ancient College of Youth, England's oldest bell-ringing fraternity. He says professional bell-ringers agree that Big Ben is so cracked "that you can stick your arm through the fracture."

ENGLISH ORGAN BUILDING ART IS DESCRIBED

Swell-organ and High Pressure Reeds Invented in England

LONDON, Nov. 27.—The mighty new Willis organ just opened at Liverpool Cathedral will demonstrate to the whole world the present-day supremacy of the English art of organ-building. It is the largest organ in the world, regarded as a "tonal entity." There are enormous United States organs with more stops, but compared with the Liverpool organ they are as an agglomeration of churches would be to a cathedral.

The great revival of English organ-building was in Victorian times—its leaders, William Hill, from whom is descended the famous firm of Hill, Norman & Beard, and "Father" Henry Willis, grandfather of Henry Willis III, the builder of the Liverpool organ and present head of Henry Willis & Sons.

DESTROYED BY CROMWELL

Most of the older organs in England were destroyed under Cromwell. The art took long to recover. But the swell-organ was an Englishman's invention (Jordan, 1712). And the Victorians made up all the leeway. "Father" Willis' great innovation—high-pressure reeds—led the rest of the world, as did the swell-organ. French organs were made famous in the 19th century by Cavaille-Coll, but French art in this branch has not kept the lead. German and American organs are mechanically remarkable. But English organs are at once the

Independent Program For Western Grain Rates

REGINA, Sask. Nov. 27.—An effort to have an independent program brought down on the application of Railway Commissioners in Ottawa when it sits Nov. 30. This announcement was made today by W. P. McEwen, counsel for the Saskatchewan Government, who left the city last evening for Ottawa to argue the claim of the province. He will be associated with S. B. Woods, K. C., and A. Chard, Edmonton, representing the Alberta Government.

Live Fox Shipments Heavy Via Montreal

MONTREAL, Que. Nov. 27.—Live fox consignments approximating in value \$1,000,000 have passed through Bonaventure station within a few days. The largest contribution to that total being received today when a shipment of 855 foxes, each possessing an approximate value of \$200 was handled by the Canadian National Express. This consignment came from fur farms at Northam, Prince Edward Island and is destined for various points in Wyoming, Colorado, Utah, Idaho, Minnesota, Montana and North Dakota.

LEGACY TO CHURCH

Judgment Given in Toronto on Dispute Over Will

TORONTO, Nov. 27.—The United Church of Canada will receive legacies of approximately \$6,000 as a result of a judgment given by Mr. Justice Rose at Osgoode Hall yesterday. Burnt Johnson, who died recently, left three legacies to the Home Mission Fund of the Presbyterian Church in Canada, the Foreign Mission fund of the same church and the Ministers, widows and orphans fund. Whether the executors, R. S. Cassels, K. C., for the Presbyterian church and G. W. Manson, K. C., for the United Church.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 98 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise, no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil). The inventor, O. K. Johnston, 246 Craig street, W. Montreal, is offering to send a lamp FREE to the first user in each locality who will help him represent it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$200 to \$500 per month.

ARSON CONFESSION IS REPORTED MADE

Fire Marshal Investigates Destruction of Buildings at Three Tree Creek

A confession that he had set fire to a building at Three Tree Creek in April last, in consideration of the sum of \$300 of which he received \$200 on account, was made, it is understood, by a man employed at a farm at that place, an investigation held before the Provincial Fire Marshal H. H. McLellan at Fredericton within the course of the last two or three days. It appears that a resident of Three Tree Creek, with a partner, owned a farm and buildings. A mortgage was held on the farm and an insurance policy of similar amount was taken out on the farm buildings. It appears that the idea was conceived that if the houses were burned the insurance money would clear the amount of the mortgage on the land and, according to the confession, the informant was hired to set the buildings on fire. The one who confessed, it is said, further alleges that he was paid the receipt for the amount and took the precaution to affix an excise stamp on the receipt. The house and barn were completely destroyed by the fire and the matter was taken up by Fire Marshal McLellan with the result that the investigation was held recently. Whether he has been adjudged for a week, the matter is to be placed in the hands of the Attorney General's department.

Only Ontario Relative Is "Dry" Organizer

EDMONTON, Alta., Nov. 27.—Mrs. Emily Murphy said at Edmonton yesterday that her alleged relationship with Ontario Premier Howard Ferguson of Ontario being cleared up she felt obliged to state that so far as she was aware her only relative taking any part in the campaign of Ontario is the organizer of the Prohibition forces, the Rev. Wm. Wallace Pack.

HANGING DEFERRED

QUEBEC, Que., Nov. 28.—The date for the execution of Eugene Biacucette, set for Dec. 3, has been deferred to Jan. 21. Chief Justice Sir Francis Lacombe granted the extension today at the request of counsel for Biacucette, Ephraim Beaud, K. C., and Aloys Taché, K. C. The prisoner was convicted on a charge of murdering his aged mother but his case is being appealed to the Supreme Court of Canada.

Advise Women

to adopt new hygienic method and retain freshness this way; true protection; discards like tissue

LARGELY on medical advice, women are abandoning the old-time "sanitary pad" for a new way that supplants uncertainty with positive protection. Sheer frocks and ill-timed social engagements no longer remain as worries. Last days are fewer, and health better. It is called "KOTEX." Ends the insecurity of the old-time sanitary pad. Five times as absorbent! And odorless—ends ALL fear of offending.

As easily disposed of as a piece of tissue. No laundry. No embarrassment. You get it at any drug or department store simply by saying "KOTEX." You ask for it without hesitancy. Costs only a few cents. Eight in 10 better-class women employ it. Proves the risk of old ways.

Plaintiff Gets \$344; \$387 To Defendant

After three hours' deliberation, the jury in the case of Thomas vs. Worden returned a verdict yesterday afternoon in the Circuit Court in which they awarded \$344 to the plaintiff on his claim and \$387 to the defendant on his counter-claim. Argument of law is still to be heard. The case has been in course of trial since Wednesday morning. The action arose out of a claim on behalf of the plaintiff in which he sought compensation for board and lodging supplied and care given the defendant in 1923 during the time the former lived on the latter's farm at Baywater under an alleged agreement whereby Thomas was supposed to get a deed to the farm in consideration of taking care of the defendant.

P. J. Steel and J. F. H. Teed appear for the plaintiff and G. H. V. Belyea, K. C., for the defendant. Court adjourned until Tuesday next.

SAINT JOHN, N. B., NOVEMBER 27, 1926.

A SINGULAR MALADY

SO far as can be learned, the attention of the Provincial Health Department has not yet been directed to a singular malady that is reported to have become more or less prevalent in Saint John.

This disease appears to have purely negative symptoms. According to current rumor it gives no sign of approach, but seizes upon its victim the moment he enters upon his official duties.

News and Views From The British Capital

LONDON, November 11, 1926—Amid the strenuous bustle of modern politics it is probable some people have forgotten what happened to the Capital Levy, which was only three years ago the Socialist panacea for all ills.

When the Labor Party daily, if somewhat unexpectedly, found themselves in office, a minority Ministry, Mr. Snowden in the Treasury had this ill-conceived financial measure hanging round his neck.

The probability of the Prince of Wales visiting Canada again next year was first mentioned in a message stating that H. R. H. is to be asked to dedicate the carillon in the Victoria Tower of the Houses of Parliament.

A visit to Cardington, the airship base near Bedford, has been included in the busy program of the projected great airship routes to India and Australia, and the object of the visit will be to show the Empire the progress made with the huge new airship R-101.

The dining room of this super-giant of the air will be big, most of all to accommodate fifty people sitting down to table at one time.

With eggs at seventy-five cents a dozen it is quite clear that we need more poultrymen, and such a change as will make eggs available at a reasonable price at any time of year.

The fact that an increase of wages amounting to about \$3,000,000 per year has just been awarded to railway men in the United States may encourage those in Canada to hold out for the increase they are seeking.

A nice wind-fall has come to the Provincial Government. It is estimated that the succession duties from the estate of the late Lady Smith will amount to between \$200,000 and \$300,000.

Queer Quirks of Nature

TOLERANT, BUT TERRIBLE WHEN ANNOYED.

By ARTHUR N. PACK.

HERE is a creature that has made for himself a name respected in every home. He is about the size of a cat. Some say his peculiar black and white pattern is the purpose of camouflage—that it looks like moonlight and shadow on the ground, and thus the enemy is befuddled.

Often he will turn his back on all such and bring up his family beneath a shed or barn, coming out at night to forage and seldom giving any trouble unless the family dog is indolent.

The musk of the skunk surprises in quality all similar scents thus far known to man. The French term him the "Child of the Devil."

When danger merely threatens, he will stamp his foot and perhaps even hiss, but he never resorts to his weapon until he is actually attacked.

CHURCHES WILL HELP IN WHITE PLAGUE FIGHT

Appeal to People to Buy Christmas Seals to be Read Sunday

At the request of the Saint John Society for the Prevention of Tuberculosis, a letter will be read in all the city churches, tomorrow asking the people to buy the Christmas seals which are being sent out next week by the society to raise funds for the carrying out of their work, so it was announced this morning.

A committee of the society, which has the work in hand, is now busy preparing the seals for distribution. A list of about 3,000 names has been prepared and to each person on the list there will be sent out 100 Christmas seals, for which they will be asked to send back \$1 in an addressed envelope which is enclosed. It is expected that these appeals will be placed in the mail early in the week.

APPEAL BY RADIO

Those who were listening in last evening heard an appeal broadcast from one of our big stations in the United States urging the people to support the campaign which is being carried out all over the United States and Canada by organizations allied with that in Saint John. In his address the speaker stressed the fact that the work which had been accomplished by these organizations in the reduction of the death rate all over the continent from the white plague.

Col. Lawrence's Book On Arab Revolt Priced at \$150

LONDON, Nov. 27.—Outspoken pen pictures of famous men of all nationalities during the Arab revolt of 1916-1918 are given in T. E. Lawrence's eagerly-awaited book on the Arab revolt. The work has been privately published, and the price of each copy is \$150. The book covers the period from the outbreak of the Arab revolt to the staff of Sir F. Wingate's Hedjaz Expeditionary Force, and later to the staff of Lord Allenby.

TALK OF ALLENBY

Some of his striking pen-portraits are as follows: Field-marshal Viscount Allenby, Commander-in-Chief, Egyptian Expeditionary Force, 1917-18. "Allenby was physically large and confident, and morally so great that the comprehension of our littlest came slow to him. He sat in his chair, looking at me—not straight, as his sides were, but sideways, as if he were looking at me through a pane of glass."

Time of College Appeal For \$400,000 Extended Until January 1, 1928

HALIFAX, N. S., Nov. 25.—President H. Moore of the University of King's College, announced tonight that the appeal for the Building and Endowment fund made earlier in the year had obtained response from over 6,200 subscribers, amounting to \$334,443.20 of which \$115,547.18 had been paid in cash.

King's was originally required by its agreement with the Carnegie Corporation to raise \$400,000 before July 1, 1928, in order to qualify for the \$600,000 offered by that corporation as permanent endowment of the Arts and Pure Science work of King's in association with Dalhousie University. In consideration of the progress and of a request for extension of time from the Advisory Board of the Carnegie Corporation for the Maritimes, the trustees of the corporation, Dr. Moore explained tonight, recently decided to extend the time period in which King's must complete its quota to January 1, 1928, and agreed to continue its annual grant of \$80,000 until that date.

AGTION APPRECIATED

"This generous action on the part of the corporation" was highly appreciated, Dr. Moore stated, not only by the governors of King's, but also by the friends of higher education throughout the Maritimes. There should be no doubt now," he added, "of the ultimate success of the King's appeal."

"Plans approved by the board of governors for continuing the appeal with its objective of \$600,000 reaffirmed, contemplative carrying it to places outside the Maritimes in view of the wide-spread interest in preserving the oldest university in Canada," Dr. Moore said, and referring to a letter he had recently received from the presiding bishop of the Episcopal Church in the United States, expressing sympathy

200TH YEAR FOR FAMED EDIFICE

St. Martin-in-the-Fields, London, Once Had King for a Warden

LONDON, Nov. 27.—Charwomen and professional men, theatre girl attendants and clergymen, public men and people from the ranks of the unemployed, knelt side by side in the Church of St. Martin-in-the-Fields, in Trafalgar Square, at lunch time the other day. They were celebrating the bicentenary of the famous church, which includes Buckingham Palace and May-fair in its parish, and once had a King—George I—as a church warden.

The Admiralty and the War Office sent representatives to the Services, and the Mayor and Mayoress of Westminster, with aldermen and councillors, attended in state. There were tears in many eyes when the Bishop of Willesden referred to the splendid work of the Rev. H. R. L. Sheppard, who, after

Italy Planning Billion Candle Power Beacon

ROME, Nov. 26.—The erection of a huge light house on Mount Etna, to serve as a guide to aerial navigation of the Mediterranean area is being planned by the Italian Government.

The light of one billion candle-power, will be more powerful than the one near Dijon, France, which guides planes across the English Channel on their nightly flights between Paris and London.

Current for the Etna light will be generated by a windmill device operated by the strong constant wind that blows across the volcano.

12 years' service as vicar of the church, recently announced his resignation owing to ill-health. One of Mr. Sheppard's innovations was to throw open the church throughout the day and night for the shelter of "down-and-out" who are allowed to sleep inside its walls without question and without charge.

INSURANCE RATES ADVANCE ON DEC. 1

Three Increases Between Dec. 1 and 12; Effective End of Each Season

MONTREAL, Nov. 26.—Marine insurance rates on lake steamers will advance one-quarter of one per cent. after midnight next Tuesday and the increase will be effective until midnight on December 4, when another increase of one-quarter per cent will be effective until midnight on December 8. Thereafter, until midnight on December 12 an additional one-quarter per cent will be charged, making a total addition of three-quarters of one per cent for the period December 1-December 12.

This increase is customary and is made as a result of the extra risk of lake navigation in the early part of December when gales and lee hampers navigation.

The rate this year has been five per

YARMOUTH LADY IS DEAD IN LONDON

YARMOUTH, Nov. 26.—A cable from London has conveyed the news of the death there of Eliza, widow of Robert K. Kelly of London, but formerly of Yarmouth. Mrs. Kelly was formerly a Miss Soley, but had resided in London since her marriage to Mr. Kelly in 1874. Mrs. Kelly is survived by six daughters, all of whom were in London at the time of her mother's death. Although Mr. and Mrs. Kelly had lived far away from their early home for so long, they always maintained an interest in the Maritime Provinces and their welfare.

Wives, Don't Let Motherhood Crowd Out Your Love for Your Husband, for Nothing Will Separate Him From You More Quickly Than to Regard Him Merely as "The Children's Father."

WE HAVE a theory that children form the strongest tie that binds a married couple together. Sometimes this is true spiritually and baby hands wield a magic that makes an indissoluble bond between a husband and wife. Very often it is true physically, for many a man and woman endure the misery of an unhappy marriage for the sake of the helpless young creatures that they have brought into the world.

DOROTHY DIX

BUT children separate their parents just as often as they unite them, and if the true co-rependent in many a divorce case was named, it would be neither a vamp in silky clothes and long jade earrings, nor a varnished, haired jazz hound, but a bald-headed, pink infant with its fist in its mouth, and whose seductions were carried on by means of gurgles and goes and other inarticulate sounds.

For in many a marriage the first rift within the lute comes with the first baby. The first cloud on many a domestic horizon is the size and shape of a feeding bottle. Many a man finds in the cradle the fatal rival who steals his wife's heart from him. Many a man is driven away from his own fireside and into the company of gay ladies by a small atom of humanity that yet is, somehow, big enough to fill the whole house and crowd him out.

UP TO the time of the baby's arrival, everything had been happy and peaceful and joyous. The man had been cock of the walk, with the household revolving around him. He had been the centre of the universe to his wife. She had dressed herself to look beautiful in his eyes. She had striven to please him. She had been full and lover to him. But with the advent of the baby all was changed. The man found himself deposed as king, with none so poor as to do him reverence. His wife no longer considered his taste, or his happiness, or his pleasure. The baby was her sole thought, and baby hands were at her throat.

She no longer doted herself up, because baby tore at her chiffons. She was never willing to go anywhere of an evening because she couldn't leave baby. She answered at-random when talked to her because she was listening for baby's cry, and was so frankly glad when he would go out by himself because that left her free to indulge in her child worship.

WHAT wonder that a man so circumstanced takes his hurt vanity for consolation to some woman who lets him see that she considers his conversation more interesting than the babbling of a babe? What wonder that he finds other playmates when his wife prefers nursery games to going to places of amusement with him? How inevitable that he should grow indifferent to a wife who shows him every day in every way that a secondary place he occupies in her heart!

THOUSANDS of men who would have been good, loving, faithful husbands to the end are alienated from their wives and literally pushed into other women's arms by their wives' abject passion for motherhood.

FOR no many women their husbands are merely their children's father. They do not exist as a father to their husbands, with any rights as such. Still less do their wives feel that there is any necessity of cajoling, charming, amusing or considering them.

THEIR business in life is to work and provide the children with food and clothes and college educations and automobiles and whatever else their extravagant youthful fancy may desire. They are ruthless in their demands. Because fresh country air is good for children, thousands of women shut up their homes every summer and take their broods of youngsters to the mountains or sea, leaving husbands to toil through a hot summer alone in the city, with no comfortable home to come to at night, no good dinner awaiting him. Because the children want fine clothes, and to go to fashionable schools, and live in a smarter neighborhood, many a woman works her husband to death.

CRUELEST of all the wrongs that these women, who are all mother and no wife, do their husbands is the way that they monopolize their children and make their sole corporation. It is always mother and the children against father. Mother, who is always trying to get things out of father for them. Mother, who always sides with them against father. Often mother criticizes father to the children and cheapens him in their eyes.

SURELY life holds no bitterer situation for a man than this: To have toiled like a slave for his family; to have worked while they played; to have gone shabby while they were resplendent, and then to be rebuffed of his wife's affection by his children and defrauded of his children's love by his wife. To get neither love, nor gratitude, nor appreciation. To be just the human cash register that they punch for all they can.

IT IS a wicked thing that a woman does when she permits herself to love her children more than she does her husband, and to put them above him. She cheats him when she does it and falls in her duty as a wife. And it is a foolish thing she does and shortsighted, because in a little while her children grow up and marry and go about their business, and then she is left desolate if she has lost her husband's love.

Feminist Movement Extends Even To Walking Sticks

WOMEN have had the vote for several years and they are quickly assimilating the knowledge and adroitness necessary to rival men in the business world. They have learned to smoke the cigarette with éclat. And now they have taken another of men's treasured possessions and are using it in feminized form. That is the walking stick. Swagger sticks they have carried for some time, but the idea seems to grow and elaborate.

For instance, in the sketch to the right above is a walking stick which

has attached to it a vanity case, rouge container, fashonette cigarette case and a match safe. All this is topped by a Dresden china doll as a handle for the cane. It is a far cry from the gentlemanly walking stick or even from the swagger stick, which so recently satisfied "the fair".

At the left of the picture is sketched a pretty little dinner frock that is made elaborate by the trimmings. The frock was developed in a soft shade of green and the bodice and girdle are of crystal beads with a wide fringe of ostrich feathers forming a deeply scalloped hem on the skirt.

STYLE WHIMISIES

Garter watches have been introduced in Mayfair. They are about one-half inch in diameter and are set in jeweled garters about three-quarters of an inch in width. The garters have a buckle and strap, like an ordinary wrist watch and fasten just below the wearer's right knee. The watch face appears on the left-hand side.

Silk and wool combinations are mentioned as sponsored by style experts abroad. The skirt of silk is worn with a woolen jacket trimmed with the silk of the skirt.

MENUS For the Family

SUGGESTION.

If you have an old-fashioned range with no thermometer, here are some ways of managing it: If the oven becomes too hot place a basin of cold water in it. If "broiling" fails to take place a few sugar lumps placed on the oven shelf will turn the trick. If you wish to test the heat of the oven a white unglazed bit of paper will brown in three minutes in a quick oven, in 15 minutes in a moderate oven, and not at all in a slow oven.

WINTER SALADS.

The value of salads, especially during the winter months when they aid in counteracting the acid-forming foods, has long been appreciated. Salad plants have occupied a prominent place on the world's menu since the earliest times, although the ancients served them as a first course, or appetizer, and not with the meal, as the practice now is. The leading dietitians have said that a salad made from fruits or vegetables should be a daily feature on the table of every well-regulated household for the reason that they are very palatable and have a high nutritive worth.

PINEAPPLE SALAD.

Pineapple Salad—One cup cubed pineapple, one-half cup halved grapes, one-quarter cup chopped marshmallows, sugar dressing, head lettuce. Combine pineapple, grapes and marshmallows; add the crisp salad dressing and mix lightly. Serve on lettuce leaf, allowing two heaping tablespoons for each individual.

Is Combined With Crystals

What could be more flattering to a pretty complexion than blonde chiffon, with bands of crystals? The dress above makes the most of this delightful combination, using only slender bands of the crystals to heighten the charm of the soft chiffon. The short bolero jacket is an interesting note, also the fullness of the graceful skirt, concentrated at four points.

The Rhyming Optimist

By ALINE MICHAELS.

There's too much thought of money of pomp and rivalry, to keep the world as sunny as once it used to be. When we were children playing, the joyous days were long, with golden sun-rays straying and woodlands sweet with song.

But now bright, shining coins are all the gold men heed; grim care their bliss purloins, their only god is greed.

But you and I and laughter, brave friends since long ago, care not what men are after, leave not old joys we know.

To others we resign them, the gold, the pomp, the fame; we cheerfully assign them such gains as they would claim. But now and ever after we keep allegiance true, for you and I and laughter can make Earth and heaven anew.

BEHIND THE SCREEN

RESULTS of the questionnaire sent out to film exhibitors throughout the country to ascertain which players were the best box office bets disclosed that Tom Mix was second in popularity and Fred Thompson third. Both of them "western" stars. Mix has a large following in the big towns, but Thompson is known mostly in smaller places. In cities of small population, Thompson has hosts of admirers, as the result of the questionnaire indicates.

Not only is the small boy held enthralled as a western thriller is thrown on the screen, but dad and older brother, and frequently mother and sister, find romance and heart interest in the hero from "God's country" routs the desperados and wins the demure heroine. Especially is this true in the smaller houses.

Tom Mix is the best known exponent of this type of acting. First National has Ken Maynard, and F. B. O. has Fred Thompson. Now Paramount has launched a new "western" star on the road to film fame. He is Gary Cooper and is to become a star in his own name. Only 25 Cooper has Fred Thompson. Now Paramount has launched a new "western" star on the road to film fame. A survey carried on by a motion picture exhibitors' magazine in California disclosed the fact that Colleen Moore ranked as the best office bet in pictures. A list of 240 names of screen players was submitted to 2,471 exhibitors and Colleen Moore led with 28 more votes than Tom Mix. Fred Thompson, Western star, was one of the surprises of the affair, coming in at three votes behind Mix. Harold Lloyd ranked fourth and Hoot Gibson fifth.

HEALTH SERVICE

Wash Your Neck Well To Ward Off Boils

By DR. MORRIS FISHBELN

THOSE frequent and unwelcome visitors—boils—always are due to skin infection. The greatest preventive is constant cleanliness of the skin, particularly of the back of the neck, which is commonly affected.

In the back of the neck is the part most commonly affected, because of the constant rubbing of the collar on the hair of the lower part of the back of the head.

MAY BE SERIOUS SIGNAL

Certain diseases, such as diabetes, seem to predispose the person to skin infection with boils, and the constant recurrence of boils should be the signal for a visit to the doctor.

See-Sawing On Broadway

NO custom of the rural districts has been itself so many comic cracks as that of "going down to see the train come in."

I have no doubt that, with the age of autos and radios, this charming old pastime went out.

I know a man who goes to Grand Central Station at least twice a week to meet the incoming train from Indiana. Catching him at it recently he said, rather wistfully:

"Well, you see I almost always see somebody I used to know, and in a place like New York it's certainly grand to meet somebody from home and hear all the home news. Then, too, the train brings the most recent newspapers. I buy them from the news hatcher and go to my office and read them."

THERE is another man I know who, every few months, goes into the New York depot just to read the big train schedules. On this schedule is the name of his home town and he likes to convince himself that trains just run there in case he decides to take one.

It is not likely that either will ever go back, but there are innumerable thousands who yearn for the "old home" but who admit they wouldn't know just what to do if they went back. They haven't enough money to retire and they feel they couldn't hold just an "ordinary job" or undertake a business venture all over again.

And so they just go along yearning, never seeming to be able completely to adjust themselves to the complex social life of the great city. Their inclinations are to be chummy and friendly and neighborly and these desires are not so easily realized in the larger cities.

MUCH has been written of this loneliness in the midst of millions of people. It will always seem to me that these very lonely ones, never have learned how to lean on themselves and have too long found it necessary to restrict their lives to minor social contacts in the larger cities.

Somewhat, in spite of my sympathy for them, I have felt that their predicament was largely due to their own limitations and that New York was not entirely to blame.

After there is no place beneath the globe where more distractions are open to those who seek them and when opportunities for colorful and unpremeditated adventure are greater. An imaginative and pliant nature can be diverted in endless ways.

But, comes the answer, this does not take the place of contentment and companionship, but not, of course, those so close and chummy as in the home town. One must adjust oneself to the sort offered.

There are quite enough people in New York now who go down to meet the trains from Indiana and way points.

WINTER PICNIC

The winter picnic of the children of the primary department of the Sunday school of Central United church yesterday afternoon was most heartily enjoyed. There were 68 children present and their ages ranged from two and a half years to nine years. Many of the mothers came with the children and there was a good time for both the young people and the grown-ups. In the afternoon the kindergarten teachers, Miss Lou Estey and Miss Edna Colwell directed the children in a series of games and they had a wonderful time. Delicious refreshments for the children and for their mothers were served.

Canada's Immigration Problem

THE NEW ECONOMICS—OVER-POPULATION AND UNDER-DEVELOPMENT—HUMAN VALUES

By C. W. Peterson

ARTICLE 3

IF we emphasize that portion of the national income which is ascribable to human effort it is found to be from six to eight times all property values. Even the staggering amount of life insurance in force is only a fraction of this capitalized value. We may, therefore, readily conclude that Canada's "vital" asset is easily her greatest. A study of the economic value to Canada of a new settler is illuminating. Incidentally it is shown that over \$168,000,000 have been brought to this country in cash and effects by immigrants. This new wealth has played its important part in the development of the country. Prof. Irving Fisher calculates that the capitalized productive value of the average individual to the state is \$3,000. The new-born child has a money value of \$85, the value increasing to \$4,000 by 20 years of age, and dropping to \$2,500 at 50, according to accepted calculations. The recent European war and its aftermath brought home to the world a multitude of strange economic facts, many of them wholly as the hills, but up to that time wholly unrecognized. One of the outstanding lessons taught mankind was that there is absolutely no limit to the amount of work which man in this world, or to the amount of business to be developed. The truth is that over-production is theoretically inconceivable. The purchasing ability of every country lies primarily in its own power of production, and the more each country produces, the greater may its trade with other countries. The more they all produce together, the greater the variety of comforts and necessities available for the world's people. Even in the most progressive countries multitudes are living in a perpetual state of bare subsistence. We have not even approached within measurable distance of satisfying reasonable human wants alone over-producing them.

UNBALANCED PRODUCTION

What Canada, and many other countries, has suffered from since recent times, has not been over-production, but unbalanced production. While Canada's urban and rural populations have been unequally distributed, our aggregate working force has been, and still is, vastly below our minimum, urgent, national requirements. With untold mineral and forest wealth and millions of acres of the world's richest agricultural lands lying idle and undeveloped, and the

be an enormous direct advantage to Canadian agriculture in a largely augmented population. The home market now absorbs 887 million ounces worth of agricultural products as against our export market of 600 millions. The annual per capita consumption of farm products in Canada is \$187.50. The Western farmer, producing almost entirely for export, receives little benefit from our present home consumption of farm products, but with our population doubled the domestic market would loom up as a very important factor in his sales. At present he is at the mercy of overseas countries, which are now striving with every nerve, and with more or less success, to protect their agricultural interests. At any moment he may be virtually closed out by tariff walls, as happened to his animal products in the United States market. His wheat will always be wanted, but his other products cannot afford to neglect. A bitter lesson has already been administered to him by our neighbors across the line.

QUANTITY PRODUCTION.

But that is not the only, or indeed the main consideration. Mass production is the essential element in successful, modern industry. It is the goal towards which Canadian policy, under both political parties, has been consistently directed ever since Confederation. Following the war every country under the sun, including even Great Britain with certain limitations, has adopted a protective system with the sole aim of promoting within its boundaries mass production in order to ensure efficient manufacturing. The economic principle of protection is that competition at home will regulate prices and ultimately reduce them to the level of competing countries. But such obviously cannot come to pass until the consuming population at home is sufficiently great to permit of quantity production with all its economies.

Canadian agriculture will clearly suffer by reason of inflated commodity prices, leading to a higher production of population, until our general consuming population reaches a point where our industries can function more effectively and will voluntarily—or, if need be, by compulsion—reduce commodity prices, resulting in a lower cost of farm operation and living all around. Until we can bring about a spectacular increase of population, the present handicap of high commodity and operating costs, cannot be removed. This handicap is the chief grievance of Canadian farmers, culture, buying, as it does, in a protected market and selling its own produce against the competition of white, foreign and black labor.

FARMER AND COLONIZATION.

The Canadian farmer, however, has a more direct and immediate interest in colonization. In fact, lasting agricultural prosperity is not possible in a new country without the steady, progressive colonization and development of the vacant spaces by permanent settlers. Land values today, east and west, are at a very low ebb, and many farmers have thus seen their chief asset shrink to such an extent that substantial equities have in some instances totally disappeared, representing the loss of the fruits of years of hard labor on the part of every member of the family. This condition is the chief cause of the present agricultural unrest and exodus. Land represents his principal borrowing asset. Stable land values lie at the foundation of rural credit, practically all its forms. When land values become demoralized the whole agricultural credit structure is undermined. Credit of all sorts is curtailed and interest rates advanced. In fact, it may be laid down as an economic axiom, that a prosperous agriculture and a contented rural population are not within the possibilities, with receding and unstable land values. The demoralizing effect upon our farmer of the progressive shrinkage of his chief capital asset is in itself bound to exercise a most unfortunate influence upon his morale.

SOCIAL INVESTMENT.

Accepting Prof. Irving Fisher's estimate of average value to the state at \$3,000 for each productive citizen, we may logically conclude that it would apparently be sound business to expend up to this amount upon the maintenance, education and training of the

native-born child until it reaches the productive age, or, in order to compensate for a falling birth rate or to speed up settlement, upon propaganda of agricultural products as against our export market of 600 millions. The annual per capita consumption of farm products in Canada is \$187.50. The Western farmer, producing almost entirely for export, receives little benefit from our present home consumption of farm products, but with our population doubled the domestic market would loom up as a very important factor in his sales. At present he is at the mercy of overseas countries, which are now striving with every nerve, and with more or less success, to protect their agricultural interests. At any moment he may be virtually closed out by tariff walls, as happened to his animal products in the United States market. His wheat will always be wanted, but his other products cannot afford to neglect. A bitter lesson has already been administered to him by our neighbors across the line.

COMPETITION ARGUMENT

Our farmers, particularly those of the West, are often apprehensive of the effect of largely augmented agricultural production on market prices. The increasing population of Europe and development of trade in agricultural products with the teeming millions of oriental countries, coupled with the rising home demands of many of the present exporting countries, will apply counterbalance any enhanced Canadian production of basic foodstuffs. So we need not apparently concern ourselves over much about the question of not finding a ready market for any volume of Canadian staple agricultural products we are apt to raise. We might also reasonably conclude that a farmer in Great Britain, Sweden or Rumania is apparently just as much in competition with the Canadian farmer in the export market, whether he produces in his own country, in ours, or in any other. A healthy inflow of new settlers has a decidedly beneficial effect on the prices of horses and domestic breeding stock of all classes. The absence of such outlets for a class of stock not always in demand in the public markets, owing to age and the question of not finding a ready market for any volume of Canadian staple agricultural products we are apt to raise.

A SETTLER'S TRAFFIC VALUE

Canadian railways are vitally interested in ascertaining the traffic value of the settler. Some years ago able statisticians obtained, as a basis, the percentage of their whole prairie freight traffic derived from grain, livestock, coal and in and outgoing passenger revenue, and divided the number of settlers into the figures given. The exact percentages of each of the railways were worked out, based on the total tonnage for the year between the first of September, 1915, and the 31st August, 1916. The total for the prairie provinces for the classes of revenue referred to was \$168,516,918. In 1916 there were 219,108 farmers in these provinces and the division of one total by the other places the settler's traffic value at \$768.38. This amount, capitalized at 5-1/2 per cent, gives a return of \$13,669.63, which would appear to be the capital value of each farmer to our railways.

FAMOUS OLD RECIPE

for Cough Syrup. Easily and cheaply made at home, but it beats them all for quick results. Thousands of housewives have found how to save two-thirds of the money usually spent for cough preparations, by using this well-known old recipe for making cough syrup. It is simple and cheap but it has no equal for results. It gives immediate relief, stopping an ordinary cough in 24 hours or less. Diet 2 1/2 ounces of Pinex from any drugstore, pour it into a 16-oz. bottle, and add plain granulated sugar syrup to make 16 ounces. If you prefer, use refined honey instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time. It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, hoarseness or bronchial asthma. Pinex is a special and highly concentrated compound of genuine Norway pine extract and palatable guaia-coumarin. J. C. BOYER HEADS ST. MARTINS CLUB

Begins Seventh Consecutive Term as President of Agricultural Society

ST. MARTINS, Nov. 24.—Reports submitted at the annual meeting on Thursday night of St. Martins Agricultural Society, No. 54, show the organization to be in splendid financial condition. During the session it was decided to affiliate with the New Brunswick United Agricultural Societies and the sum of \$135 was voted as payment on the bill. A committee was appointed to look into the matter of purchase of fertilizers. Addresses were delivered by the president, First Vice-president A. F. Bentley and Michael Kelly.

SENSE OF HUMAN VALUES

It is instructive to contemplate the unfriendly attitude of European nations towards the emigration of their citizens, except to their own overpopulations. No matter how fierce the economic pressure, how widespread unemployment, how deliberately promoted emigration to evacuate obvious surplus population. There is, on the contrary, a keen appreciation of the potential value to the state of the vital asset, and nations will go to almost any lengths and incur the most fantastic expenditure on relief, to preserve this precious asset intact during periods of economic stress, in the hope of the unemployed population being ultimately absorbed in gainful production. We, in Canada, lack almost completely this sense of human values. We sit idly by while three hundred million dollars worth of our productive citizens, the flower of the nation, move across the boundary each year. Even the problem of their replacement gives comparatively small concern. For a country with our fabulous, undeveloped resources, it seems an amazingly unintelligent attitude of mind. The colonization problem in Canada is not in any sense a class problem. Every citizen, irrespective of occupation, has a direct financial interest in its effective solution. If every class of the community would intelligently study the effect of an increased producing population upon its own fortunes, we would speedily create a favorable mass opinion on this subject. (The fourth article will appear in next Wednesday's issue.)

The performance of Balkite "B" has yet to be equalled

The first Balkite "B" purchased by a radio set owner nearly four years ago is still rendering satisfactory service. It will continue to do so for years to come, for it has no tubes nor anything to replace. Since that time over 75,000 Balkite "B"s, all based on the same principle as the first, have been purchased. Of these, to our knowledge, not one has ever worn out. This record has yet to be equalled by any other "B" device. To be as good as Balkite "B," a "B" power device cannot be an experiment. It must have stood the test of time. Balkite "B" is offered in three models to serve any set: Balkite "B"-W for sets of 5 tubes or less requiring 67 to 90 volts—\$39. Balkite "B"-X for sets of 8 tubes or less including power tubes, capacity 30 milliamperes at 135 volts—\$59.50. Balkite "B"-Y for any standard set, capacity 40 milliamperes at 150 volts—\$96. WILL OBSERVE 2ND BIRTHDAY OF CHURCH SUNDAY

United Church at East Saint John Has Anniversary

The United Church of East Saint John will observe its second anniversary tomorrow. In the morning Rev. McN. Matthews will preach, and in the evening Rev. P. T. Bertram. The church began its work in the church hall, Park avenue, on Sunday, Nov. 16, 1924, under the ministry of Rev. W. J. Bevis. Its first board of trustees was composed of: Chairman, J. W. Flewelling; secretary, Lorne McFarlane; treasurer, George Elliott, with Willis McIntyre, Alexander Robinson, Alexander Magee and Murdoch Morrison as additional trustees. On Sunday, Nov. 23, 1924, the formal opening of the church took place and enthusiastic meetings were held.

PERMANENT ORGANIZATION

On February 25, 1925, permanent organization of the church was effected, and the communicant roll was constituted with 48 members. Four elders were elected, as follows: Rev. W. R. Pepper, M. J. Montford, J. W. Flewelling and Alexander Magee. The stewards elected were: Chairman, A. J. Robertson; treasurer, George C. Elliott; secretary, L. C. McFarlane, as well as C. C. Weldon, Robert McAllister, Robert L. Magee and A. W. McIntyre.

IS THIRD BOOST

The United States shop employees have received two increases already and the one reported last night, makes the third. Consequently their wages are considerably higher than in Canada. Shopmen here had been negotiating for a flat ten cent an hour increase and several meetings of representatives of the labor organizations and railway management, were held without reaching any decision.

GAME ASSOCIATION MEETS IN DIGBY, N. S.

DIGBY, Nov. 26.—The Fish, Forest and Game Association of Western Nova Scotia met in Digby last night at the Court House with a large attendance. Dr. D. B. Hemmerson, president, was in the chair. Matters discussed were consideration of the constitution of the association, game sanctuary, the sportsman's show to be held in Boston in January and February, 1927.

PROPERTY SOLD

Two properties were sold by auction today at Chubb's Corner by R. F. Potts, the auctioneer. The Jardine property, Westmorland Road, was bid in by Mrs. Chester Brown at \$4,000 and the Robinson property, Manawagonish Road, was bid in by G. Earle Logan, at \$1,675. Both were foreclosure sales.

DEATHS NUMBER SIX

Deaths in this city for the week showed a decrease from last week. The number this week was six. Marriages totalled 11 and births 27, 17 boys and 10 girls. The causes of death were senility, inanition, myocarditis, cerebral abscess, cerebral embolus and chronic rheumatism.

BOYS ENTERTAINED

One hundred and three boys attended the social evening of the Junior and Senior schools at the Y. M. C. A. last night. During the evening stunts and games were carried out at the close of which refreshments were served.

MORE THIS WEEK

Fifty-two children attended the story telling hour at the Free Public Library this morning an increase of 20 over last Saturday. The story this morning was a sketch of the jungle and domesticated life of the elephant and was told by Miss Carrie Bailie.

ALL SEATS FREE. REV. R. P. MCKIM, Rector

FOR THREE SUNDAYS, Morning and Evening, beginning November 28, Rev. R. P. McKim will endeavor to answer some interesting questions:

Will there be a great world crisis in the near future?
Tidings from the Spirit world tell us of impending terrible catastrophes. Can we believe them?
What credence can be given Mother Shipton's prophecy of 500 years ago? Are Fascism and Bolshevism related to one another?
What has the Jew to say to us?
Will Jesus come back to earth again? Will He reign on the Throne of David? What is to become of the Church?
Will there be another great World War?
Are there signs of the times hung out? Can they be read?

MODERN DANCES ARE ASSAILED

French Master Says Cannibals Being Copied

PARIS, Nov. 25.—If you want a new dance take an ancient professor who taught the waltz and the lancers and the polka to forgotten generations send him to the lost islands of the south seas and let him try his gymnastics on the natives. Thus will be born, not perhaps the tango, but certainly the cake walk, the fox-trot and the Charleston. This is the opinion of Gustave Duvernois, who, according to his own story, has acquired a fortune by doing just that.

NOTHING NEW, CLAIM.

"There is nothing new in the dances of nowadays," said Professor Duvernois the other evening at Montmartre cabaret. "I was a dancing master in Paris fifty years ago. Those were the good days. But rival came along and I had to go. I decided to try my fortune at the other side of the world. I reached Tahiti and became acquainted with several members of the reigning family.

"I tried to inculcate the first principles of the gavotte. I told them to hold their heads high, the body curved, to give themselves an air of royal dignity. I guided their steps with confidence which was sadly misplaced. My pupils jumped, cavorted and twisted themselves until there was nothing left of the gavotte but the outline of the steps and one had to be a connoisseur to recognize even that. In desperation I came back to France. First thing I knew they were launching a new dance—the cakewalk. I went to see what it was. Eh, bien, the most renowned teachers of the new dance were the two worst pupils I had in Tahiti. I was angry, I told my compatriots what idiots they were but they laughed at me. I went away again, this time to the Fiji Islands.

25 YEARS A WANDERER

"For twenty-five years I have been wandering from island to island always trying to teach the old dances which I love. I have acquired a fortune but what a cost. I have had to witness the degeneration of all the classic dances. I might, if you will, call myself the creator of all the new class my natives brought into the intertropical world an entirely new dance. If you are looking for a new dance just tell me—if I have cannibals to help me.

"As for the latest, the Charleston, that was started some centuries ago. Do you notice how the whole body except the legs is still? Well, that's what happened to the poor creatures in the middle ages who got St. Vitus

SEARCH FOR NORRIS BODY STILL FAILS

Saint John Man Said to Have Fallen Into River When Blinded by Match

MONTRÉAL, Nov. 26.—Summonsed from his home in Saint John, N. B., by his daughter after a pair of her brother's gloves were found at the water's edge near the place in the harbor where a man was drowned early Sunday morning, Robert James Norris yesterday spent the day in vain watching at the foot of Bonsecours street to see if the body of his son would rise to the surface.

Followed employees of James J. Norris, aged 35, of Lanouette street, Verdun, found a pair of woolen gloves on the wharf at the foot of Bonsecours street which they identified as belonging to him. His sister, who lives in Montréal, also recognized the gloves. This leads the police to believe that Norris is the man who was seen struggling in the water on Sunday and who shouted "Joe" until he sank.

Norris was last seen alive by a friend at 4:15 o'clock on Sunday morning ten minutes before his supposed death.

It is presumed that Norris later wished to talk with some of his friends at shed 17 near the foot of Bonsecours street, that when he was behind the shed he lit a match to light his pipe and in doing so dropped the gloves. Blinded from the light of the match, he groped for his gloves. Harbor employees have dragged the river unsuccessfully.

Steam Packet Seeking White Star Purchase

NEW YORK, Nov. 26.—Negotiations for the sale of the White Star Line ships of the International Merchant Marine to the Royal Mail Steam Packet Company for seven million pounds are nearing completion, Wall street heard late today.

Directors of the I. M. M. met this afternoon and reported only routine business transacted, but it was learned that the sale had practically been decided upon and that official announcement would come from London.

Under the plans tentatively reported as having been agreed upon part of the purchase price will be in cash and the balance arranged through a deferred payment plan, probably by means of serial notes or debentures of the Royal Mail Company.

Negotiations earlier in the year for the sale of the ships to the Furness Widby interests for 7,500,000 pounds fell through, due to a withdrawal of the offer on account of the British coal strike.

This case came up a week ago but Baxter was reported ill and a substitute named O'Brien appeared in his place. The magistrate refused to hear the case and demanded the appearance of Baxter. On appearing yesterday he was found guilty and fined \$200.

W. W. DONAHUE IS SELECTED AS RHODES SCHOLAR

West Side Student To Go To Oxford After U. N. B. Graduation

The committee to select this year's Rhodes Scholar met yesterday afternoon in the office of the Chief Justice, Sir Douglas Hazen, and last evening announced their selection as William W. Donahue, final year student in Arts at the University of New Brunswick.

HIS INTENTIONS

Mr. Donahue's present intentions are to complete his studies at U. N. B. where he will graduate this year and to continue his studies at Oxford University, specialising in physics and mathematics.

Those present at the meeting were Sir Douglas Hazen, Ralph St. John, Frederick, Prof. David MacGregor of Sackville, Judge H. O. McInerney and A. B. Gilbert of Saint John.

There were eight applicants for the scholarship, four being graduates of U. N. B., two from St. Joseph's University, one from Mount Allison University and one from Dalhousie University.

BOARD WILL HEAR RATE CASE TUESDAY

Equalization of Charges on Roads Will Be Given Final Airing

OTTAWA, Nov. 26.—The Dominion Railway Board next Tuesday enters upon one of the most important phases of a question concerning the whole country. On that day will open the final hearing of argument respecting the order to the board from the King (Government) for a general review of freight rates.

Before counsel for the railways are called upon to present their case against any proposed downward revision of freight rates, two or three days are likely to be consumed in receiving further material from various applicants, such as the Western provinces, the Montreal Board of Trade and possibly the Canadian Manufacturers' Association.

There are a number of local aspects to the general or national situation in regard to freight rates. There is the demand by potential distributing centres in the Prairies Provinces for rates that will put them on a comparative basis with the Winnipeg distributors.

There is the demand of Quebec City in this, with whom are associated Maritime Province people, for a grain rate that will encourage more export movement over the National Transcontinental road to Quebec. The Maritimes, too, are seeking concessions for themselves.

In addition to the equalization case, the board will soon have to deal with the order to facilitate the movement of coal from Alberta and the Maritimes, the order regarding the facilitating goods and movements throughout Canadian ports and the application of the express companies for approval of a higher scale of rates.

Coincident with commencement of a series of cases, in almost all of which there is an initial demand for lower freight rates, is the threat of the two Canadian Railway Brotherhoods to strike unless they are given higher wages.

HOME IS THE WHISKY, HOME FROM THE SEA

Mystery surrounded the unprecedented seizure 140 miles off the American coast of the three-masted barkentine Carmen on which, government officials said, there were 100,000 cases of Scotch whisky valued at \$5,000,000.

The Rim of The Limelight

THEN DINNER TIME CAME HONG KONG, China.—The French steamer Hanoi plowed her way laboriously through a smooth sea. The shores of Kwangchowang loomed up on the port side—a welcome sight because they told of the approach of Hong Kong and relief from the cramped quarters of the boat.

Conversation dragged. A bored passenger and a ship's officer, tiring in their chairs, dozed away. Lip forward a group chatted languidly. They had agreed that modern conveniences and influences had made the world softer—that the days of red blooded men and deeds of daring were at an end.

Just then 20 pirates boarded the craft, shot a member of the crew, ransacked the ship, rifled the pockets of the passengers, tossed \$10,000 in gold bullion and loot into their craft turned the Hanoi into the open sea.

NEW CAUSE FOR 'QUAKES

DETROIT, Mich.—Chase Osborn, former governor of Michigan, has just announced a new theory relative to the direction of the earth's movement.

"Theoretically," said Osborn, "the earth rests perpendicularly to the sun; that is to say, the north pole never changes its regard to the sun. Under this theory, however, the position of the north pole, in regard to the earth, changes a mile yearly, bringing back to its original place every 25,000 years.

"To compensate for this new position the surface is stirred and from this stirring earthquakes are resultant."

IT TAKES A SOLOMON NEW YORK.—Mrs. Victoria Bennett, 27, left her baby with a neighbor while she attended a party. When the affair lasted longer than she expected the neighbor turned the child over to the police and now the mother is facing jail on an abandonment charge.

PRIZE DONATED TO ROTHESAY SCHOOL NEWCASTLE BRIDGE, Nov. 26.—At the meeting on Monday of the Fredericton Rural Deacons held with Rev. G. F. Edworthy, priest in charge of the parishes of Canning and Chipman, it was decided to offer a prize at the Rothesay Collegiate School to be known as the Deacons prize, the subject for competition to be left with the school staff.

LOADING PULPWOOD FOR SAINT JOHN CO. ELGIN, Nov. 26.—Arthur Harrison is loading pulpwood at this station. A carload was shipped this week. Mr. Harrison has 200 cords ready to load and send to a firm in Saint John. Mr. Otto Blakney is getting a carload of boxwood also to go to Saint John and has several cords of pulpwood at the station.

L. A. W. Jouett. FREDERICTON, Nov. 26.—(Special)—John W. Davidson, of Hawkeston, died last night in Victoria Hospital here, from appendicitis. The deceased was sixty-six years of age. The body was sent to Hawkeston for interment today.

SHEDIAC, Nov. 26.—The death occurred today at the home of his son, William, at Square Lake, near St. Andre de Shediac, of Joseph Vienneau, the eldest resident of Shediac parish and one of the oldest men in the province. Mr. Vienneau was in the 89th year of his age and was born in the community where he died, the son of one of the earliest settlers of that district, which is located near the intersection of Shediac, Sackville and Botsford parishes.

FREDERICTON, Nov. 26.—(Special)—Lemuel Allan Wilnot Jouett died this afternoon at the home of Gordon Woodcock Saint John street, aged 79 years. The deceased had been in ill health for some time. Surviving is one sister, Josephine A. Jouett. Mr. Jouett was a member of one of the old families of this section of New Brunswick and also was related to the Wilnot family, of which his mother was a member. He was a native of the parish of St. Marys. He had been a resident of Fredericton for the latter years of his lifetime, previously farming.

The funeral will take place Saturday afternoon with prayers by Very Rev. Dean Neales at the late home at 2:35 o'clock. Service will be conducted at Christ Church cathedral by Dean Neales at three o'clock. Interment will be made in Forest Hill cemetery.

BIRDS, RABBITS AND DOGS PART OF CARGO Some varied cargoes have been unloaded in the port of Montreal this season. The White Star liner Regina, arriving at Montreal Tuesday, however, probably set a small record when she unloaded 17 rabbits, four dogs, 83 canaries, eight pigeons and one parrot. Some of the crew, who, in their spare time, specialize in bird and animal lore had a great time studying the canaries and the pigeons during the heavy weather in the Atlantic, while those who bred rabbits in their youth had an equally interesting time noting how the rabbits reacted to the motion of the liner. The manifest did not complete the story of this strange assortment because it only gave the bare announcement of their inclusion in the ship's cargo.

VOICE APPROVAL OF COMMUNITY CHEST SCHEME

Health Centre Board Give Matter Favorable Consideration

Very appreciative reference to the generosity and enterprise of the Gyro Club in undertaking to assist with the financing of the Lady Byng camp was made at the meeting of the Board of Governors of the Saint John Health Centre, held yesterday afternoon, when also the community chest project for Saint John received favorable consideration.

Dr. G. A. B. Addy, president, was in the chair. Reports of a special meeting told of the grateful acceptance of the offer of the Gyro Club to assist with the financial responsibility of the Lady Byng camp if the name were changed to the work. The camp will be conducted under the auspices of the Health Centre.

PASTOR WELCOMED PETTODIAC, Nov. 26.—Last evening the congregation of the Petodioc United Baptist church held a reception for their new pastor, Rev. M. C. Higgins. The vestry of the church was filled and a short musical program was enjoyed, after which the chairman, Rev. A. Perry, called upon the clergymen of the village, including Rev. W. J. Domyville, of the United Church, Rev. Jos. McAlden of the Anglican church, and Rev. Mr. Young, retired. Rev. Mr. Higgins responded fittingly, expressing his appreciation of the very warm welcome extended by the congregation of his own church and the whole community.

COMMUNITY CHEST. W. Shives Fisher spoke of the community chest project, explaining how it would operate. The members favored an organized effort to get the money required by the various welfare societies rather than continuing the separate appeals.

SEPTEMBER STATEMENT. The September report showed 1,254 home calls were made by the nurses and an attendance of 1,291 at 87 clinics, besides five immunizations at two clinics.

MONTHS TOTALS. The totals for the month showed 1,024 home calls and 1,265 was the attendance at 90 clinics. In addition there were 21 scarlet fever immunizations at three clinics.

TREASURER'S REPORT. John MacKinnon, treasurer, reported a balance of \$304.93 and said nothing had yet been received from the municipal grant outstanding. There was a discussion of the financial situation as outstanding bills amounted to \$328.98. The treasurer of the municipality was to be communicated with.

Miss H. Dykeman, for the ways and means committee, reported the tag day had realized \$948.90 after expenses were paid, but from that sum \$154.43 was paid for coal. The baseball game had realized \$48.69.

As director, Miss Dykeman reported that every room in the building was now being utilized, the apartment being now used as an office for the child welfare nurses and as a place to hold Little Mothers' League classes and the pre-school age clinic.

Woodstock To Hold Vote On Town Management System

WOODSTOCK, N. B., Nov. 26.—Prompted by a resolution emanating from the local Board of Trade, which gained favor with the Woodstock Town Council, and as a result of a resolution passed by the latter body, a plebiscite of ratepayers and property holders will be held here on Wednesday, Dec. 8, to register the wish of the citizens on the question of Council-Manager form of Municipal Government.

An object of the plebiscite, other than that of determining the policy of civic government to be pursued in the future, is to settle definitely a question which during recent town elections has obscured other issues and befogged equally important phases of town affairs. As the plebiscite precedes the town elections some five weeks, and as two of the three aldermen at present opposed to the policy of council-manager, who remain at the Council Board throughout 1927, have expressed themselves as favoring the plebiscite and unwilling to further oppose the system of government if the people decide in its favor, considerable interest has been aroused.

At a public meeting to be held at the Town Hall, here, under the aus-

spices of the Woodstock Board of Trade, on Friday, Dec. 3, the citizens will be afforded an opportunity to discuss the pros and cons of the council-manager system.

CANDIDATE IN VIEW. As a consequence of the plebiscite called, little interest has so far been evident in the coming mayoralty and aldermanic elections, the element offering being largely dependent upon the result on Dec. 8. John A. Lindsay, retired local magistrate, who served Woodstock as mayor during the year 1904, following the present incumbent, Wellington Belyea, in the latter's previous term as mayor, 1901-1904, has already expressed his intention to run for mayor. Non-committal upon his attitude in the council-manager controversy, Mr. Lindsay is already busy soliciting support in the event of a contest. Whether Mr. Lindsay will repeat the sequence established twenty-three years ago when he followed Wellington Belyea in the mayor's chair, unopposed, will depend upon the response Mayor Belyea makes to the insistent requests made upon him by his friends who, despite his completion of the customary two-year term, are asking that he again offer himself for the mayoralty on Jan. 17.

DANCE IS HELD BY CAPITAL MASONS

FREDERICTON, Nov. 26.—Hiram Lodge No. 6, F and A. M., of Fredericton, with members of some other lodges in this part of the province, were the hosts tonight at a ball held in the Old Gaiety hall. The Masonic building, a few yards away, was used for supper and bridge. A covered way was erected along the street to protect the guests from the weather. Upwards of 200 were in attendance, including a number of the guests from outside Fredericton.

The committee in charge of the ball was composed of S. A. Limerick, W. M. J. B. McNair, H. W. Wilson, A. W. Good, H. A. Watson, J. Winters, T. E. Sutherland, H. Limerick, H. B. Colwell, H. R. Guiter and J. H. Sansbury.

Present Day Conquerors

By a surprisingly simple method thousands today conquer their ills—win Health and Happiness

NOT a "cure-all," not a medicine—Fleischmann's Yeast is simply a remarkable fresh food.

The millions of tiny active yeast plants in every cake invigorate the whole system. They aid digestion—clear the skin—banish the poisons of constipation. Where cathartics give only temporary relief, yeast strengthens the intestinal muscles and makes them healthy and active, daily releasing new stores of energy.

Eat two or three cakes regularly every day, one before each meal: on crackers, in fruit juices, water or milk—or just plain, in small pieces. For constipation dissolve one cake in hot water (not scalding) before meals and at bedtime. Dangerous habit-forming cathartics will gradually become unnecessary. All grocers have Fleischmann's Yeast. Buy several cakes at a time—they will keep fresh in a cool dry place for two or three days.

And let us send you a free copy of our latest booklet on Yeast for Health. Health Research Dept. L-742. The Fleischmann Company, 208 Simcoe St., Toronto, Ont., Canada.

"I HAVE BEEN BOTHERED FOR OVER TEN YEARS WITH STOMACH TROUBLE. I spent a great deal of money on medicines but was never completely well until I started eating Yeast, three cakes a day. Thanks to Fleischmann's Yeast I can eat anything now and do not suffer a bit. I will always recommend Yeast to everyone for it certainly has been worth its weight in gold to me." J. W. Robertson, Toronto, Ont.

"FOR TWO YEARS MY FACE WAS COVERED WITH PIMPLES. I felt weak and tired. I tried many tonics and remedies for the blood but nothing was able to help me. Three weeks ago a friend recommended Fleischmann's Yeast. I obtained such good results that now not a single pimple is left and I am in perfect health." Rodolph Potvin, Sorel, Que.

"A YEAR AGO MY HEALTH BEGAN TO FAIL. I was nervous, tired and had no appetite. I lost all interest in life and only wanted to stay at home. A friend told me of Fleischmann's Yeast. I took two cakes a day. In a short time I began to notice that I was no longer nervous and irritable and again desired the company of my friends." Jean Lawson, London, Ont.

LILY LAKE GAVE CITY ITS FIRST WATER SERVICE

Story of Earliest Distribution System Told in Archives

SUCCESS ATTAINED ON SECOND ATTEMPT

Earlier Effort Fails to Bring in Enough Financial Support

The records of the Dominion archives, Saint John, N. B., have been given a lengthy account of Saint John's first water distribution system. From the foundation of the city in 1788 the citizens had been dependent upon wells situated in various parts of the city, as the source of their water supply.

Again in 1822 the project was reviewed and this time met with more success. An act passed on March 9th 1822 incorporated William Black, Nelson Merritt, James White, John Ward, Geo. D. Robinson, Thomas Barlow, Hugh Johnston, John M. Wilton, James Hendricks, Thomas Millidge, R. W. Crookshank, Zalmon Wheeler, Robt. Parker, W. B. Company" with a capital stock of \$20,000, divided into shares of \$5 each. Lauchlin Donaldson, a very energetic and prominent man in his time, secured the services of Colonel Baldwin of the Royal Engineers and under his advice, decided to take the water from Lily Lake, conducting it by a sluiceway from the dam at Gilbert's Mill to a large cistern situated adjacent to the "Laudin, in the westward and from thence pumped by a steam engine into the city. This work was completed in Aug. 1828 and was announced very enthusiastically by the editor of the paper of the day as follows:

"The works have been got into operation without a single accident or the least necessity for alteration of any kind, and reflect great credit on the gentlemen concerned in the undertaking. They have persevered through good report, and evil report, and through a period of the most severe pressure in money affairs that we have almost ever known, in bringing their works into operation and well deserve the thanks of the city. "We understand that the entire management of this company's affairs has devolved on Lauchlin Donaldson, Esq., the president, whose highly praiseworthy zeal and activity in the matter have never flagged for a moment, and we also understand that the execution of the work has been trusted to J. W. Wrennan, Esq., of New York. We have occasionally noticed the activity and intelligence of this gentleman in our daily walks, and the manner in which the works have been finished reflects on him the highest credit and leaves us no room for doubting that the whole will be fully completed in the most workmanlike and perfect manner."

URGES BOARD ON PAY ISSUES

Heads of Railways May Endeavor to Secure Peace

MONTREAL, Nov. 26.—Further negotiations between the Canadian railways and the conductors and trainmen of their lines tonight seemed probable before any development leading to an immediate strike of the men to gain the wage increase which has been refused. The "Managers' Committee" of the Canadian National and Canadian Pacific Railways today advised the general committee of the men, now in session here, they did not see "that any useful purpose would be accomplished by further negotiations between the committees."

Pay Increased in U. S.

Canadian Press Despatch. CHICAGO, Ill., Nov. 26.—Wage increases estimated at \$8,000,000 annually on eleven western railroads operating out of Chicago, affecting about 100,000 shippers, have been granted by the roads, it was disclosed today. The advance ranges from one to three cents an hour, in most cases two cents an hour. The roads involved are the Chicago, Rock Island and Pacific; the Chicago and North Western; the Chicago and North Western; the Missouri Pacific and Chicago and Alton. Four eastern railroads have increased 30,000 shop men's wages. The roads include the Chicago, Rock Island and Pacific; the Chicago and North Western; the Chicago and North Western; the Missouri Pacific and Chicago and Alton. The aggregate increase was placed at about \$1,250,000 annually by the News.

MAYOR WHITE HANDS PENNANT TO SCOUTS

Presentation of Baseball Prize is Made at Imperial Theatre

The baseball championship pennant, played for by teams representing local Boy Scouts' organizations, was presented to the Victoria street United Baptist church team from the Imperial Theatre last night at the close of the first show of the pictures. His Worship Mayor White officiated.

CONFERENCE LIKELY.

"The general committee of the men continued its meetings today armed with strike power given them by a vote of the membership of the two bodies represented, the Order of Railroad Conductors and the Brotherhood of Railroad Trainmen. Of a membership of upwards of fifteen thousand, 80.60 per cent. of the trainmen, and 81 per cent. of the conductors voted for a "peaceful withdrawal from the railroad service," unless a satisfactory settlement could otherwise be made. The men are asking for a wage increase, which would bring their salaries to a level with those paid in the United States. This would represent an increase of six per cent.

DISCUSSIONS TO KEEP ON.

S. N. Berry, senior vice-president of the Order of Railroad Conductors, stated tonight that he and the other officials were remaining in Montreal over the week-end and continuing to study the matter.

WEBB IS RE-ELECTED

Winnipeg Mayor Defeats Labor Candidate by 7,000

WINNIPEG, Man., Nov. 27.—Mayor Ralph Webb was re-elected chief magistrate for a third term yesterday by a majority of approximately 7,000 over F. G. Tipping, labor candidate. The poll was light, and Mayor Webb had his majority of last year greatly reduced. Last year he was elected by 10,000 majority after a campaign in which he was also opposed by Mr. Tipping. The labor candidate won back some of the labor strongholds which he lost last year. The final figures on the voting were: Webb—12,234.

Remarkable Run of Pollock Off Digby Shore Has Ended

Two Fishermen, With Handlines Only, Have Taken Nearly 50,000 Lbs.

DIGBY, Nov. 26.—The great run of pollock centering around Digby Gap and off Point Prim is over, and the harvest from that source is the biggest in the history of the county. The pollock, breaking in about the late summer, continued to run in great quantities long past the usual time, and the fishermen were very busy until the last day the fish were here.

Others Make Hauls. Many other fishermen and residents who are not fishermen, residing on the Digby and Annapolis shores in the vicinity of the Gap, also reaped a good harvest which netted them a tidy sum. The livers of the fish were sold across the Basin at Victoria Beach, where they were boiled down and shipped to Tiverton, Digby county. From Tiverton the oil is shipped to American markets from whence it undoubtedly finds its way back to Nova Scotia in the form of emulsion, etc.

Read the Secret of Health in These Letters

EVERY woman is interested in another woman's letters, and we shall give the women a chance to present their experience with Dr. Chase's Nerve Food by quoting their letters. There is scarcely a town, village or hamlet in this great country but can produce splendid evidence as to the restorative, uplifting influence of this well-known treatment for the blood and nerves.

Especially for Women

From my experience as a wife and mother I find that the majority of users of Dr. Chase's Nerve Food are women, especially women passing through the change of life; next by young mothers to regain strength after baby comes, and also by mothers for their young daughters entering their womanhood. While it is good for all classes of humanity, I am sure it is especially so for women, as they seem to be troubled most by nervous diseases."—Mrs. H. Alchorn, 23 Gerald Street, Charlottetown, P.E.I.

Motherhood

Mrs. A. Ernest, R.R. No. 4, Walkerton, Ont., writes:—"For some time after the birth of my first child I was in a weak, nervous condition. I could not sleep well, had frequent headaches and buzzing in the ears. I also had neuralgic pains through my body, twitching of the nerves and was subject to weak spells. I had indigestion and seemed tired and languid. I began to use Dr. Chase's Nerve Food and found the result most satisfactory. I have used a great many different medicines, but never found one as good as Dr. Chase's Nerve Food. It is especially good for quieting the nerves and I feel very grateful for the good it has done me."

Middle Life

Mrs. M. E. McCarthy, Gardner's Creek, St. John Co., N.B., writes:—"In my estimation there is no medicine that will so quickly build one up and restore the nervous system as Dr. Chase's Nerve Food. From worry and hard work I began to get behind as regards general health. It seemed as though each day some new ailment cropped up and before I realized it I was just about 'down and out.' I turned to Dr. Chase's Nerve Food for help and was not disappointed. My nerves are as steady as I could wish them to be and I am having no trouble at all in passing through that time of life when some women experience so much suffering."

I spent a lot of money using medicine from the doctor, but it did not do me any good. At last a friend told me to use and after using a couple of boxes I was not the same woman. I began to feel much better, and after a few more boxes I was all perfect. I always recommend them to all those I know who are suffering from heart trouble."

FIRM TONE DEVELOPS IN TRADING NEW YORK MARKET TODAY

INDUSTRIALS IN HEAVY SALES TOLD OF TODAY

Irregular Trend at Opening of Montreal Exchange

NEW YORK, Nov. 27.—A firm tone characterized the opening of today's stock market. Accumulation of high grade industrials was resumed on a large scale, the first sale of United States Steel common being a block of 3,500 shares at the "split" price of 198 1/4-1/2, an extreme gain of one point. In the latter part of the day, the market opened a half higher at 199 1/4-1/2, a new high record. Loosely-held blocks of United States Steel common were sold at 197 1/4-1/2, and National Lead each opened a point higher.

AT MONTREAL

MONTREAL, Nov. 27.—Stock prices revealed an irregular trend at the opening of the local stock exchange this morning. Trading was fairly active. Alouhi and Laurentide led the market in point of activity, the former being firm at 27 1/2 to 28, while the latter was irregular. Opening at 27 for Alouhi and 28 for Laurentide, but in subsequent sales eased to 26 1/2 for Alouhi and 27 1/2 for Laurentide.

EMPLOYMENT SITUATION IS BETTER IN NOV.

Statistics Indicate More Favorable Conditions in Canada

MONTREAL, Nov. 27.—Employment at the beginning of November showed a seasonal contraction that exceeded losses registered on Nov. 1925, but the situation continued to be more favorable than in any month of the years 1921-1925 owing to the important factor that, to date, have been indicated continuously during 1926. Statistics were tabulated from 2,894 employers whose pay rolls declined from 84,174 persons on Oct. 1, to 84,273 at the beginning of November. Reflecting this reduction of over 3 per cent, the index number decreased from 105.2 in the preceding month to 102.8 on Nov. 1, as compared with 97.1, 92.0, 88.8, 96.8 and 90.2 on the corresponding dates in 1925, 1924, 1923, 1922 and 1921 respectively.

Agricultural, Industrial Progress in Canada

OTTAWA—September's production of 16,953 automobiles in Canada marked an increase of 11 per cent over August's output of 15,281 machines and also scored an advance of 32 per cent over the record of September, 1925. Comparison of September 1926 with the same month in 1925, 4,874 passenger cars as against 4,885; closed models 1,276, compared with 2,981; and chassis 1,300 compared with 1,254. The sales value in September was \$1,950,447 against \$1,645,258.

ATLANTIC SUGAR MUST REDUCE DEBT \$1,300,000 Cut Necessary Before Dividends Can Be Paid

MONTREAL, Nov. 26.—Some estimates as to the task still remaining for Atlantic Sugar Refineries before a start can be made on the paying off of the heavy arrears in dividends on the preferred stock, appear to be rather wide. The mark to reach and to sustain that work might be expected to mean a delay of three or four or even five years.

GAIN IN PRODUCTION OF REFINED SUGAR Total From Jan. 1, However, Sharply Under Last Year's Figures

Receipts of raw sugar in Canada during the four-week period ended November 6 amounted to 102,746,656 pounds as compared with 77,548,840 pounds for the corresponding period of last year. Meltings and reshipments totalled 97,424,841 pounds as compared with 73,859,525 for the same period of 1925, an advance of 33,565,316 pounds.

CANADIAN INDUSTRY TO DEVELOP MORE

MONTREAL, Nov. 26.—That the present phase of the Canadian stock exchanges is high, must be admitted by those who are familiar with the market. It is a broader strata than that which has been known in the past, and it is a sign of a new era in Canadian corporate history.

Dominion Engineering Issue Shows Strength

MONTREAL, Nov. 27.—Dominion Engineering shares have shown decided strength in the stock market. The stock is 135 bid at the present time, up from 100 at the beginning of the year.

MAROONS AND SENATORS WILL FIGHT FOR LEAGUE LEAD TONIGHT

FIRST MEETING OF LAST YEAR'S LEADING TEAMS

Ottawa Stronger Than Last Season—Other Games Tonight

MONTREAL, Nov. 27.—Montreal is in the early season lead of the National Hockey League, after their clash tonight at the Capital, according to which team wins. Maroons have a one point lead at present. It will be the first meeting this year, of the two clubs which fought out the finals for the league championship last year. Ottawa is stronger in substitutes than when they last clashed. Dr. Jerry Lafamme, who is not very popular with the World champions just now, because of what they think was over-penalizing on Thursday night, will be referee.

If Canadians have really struck the stride they are credited with, there should be a bang-up game here between the Habitants and New York Rangers. Tex Rickard will be on hand to see his much-heralded team Johnson, referred to as one of the best, if not the best, in the league, will try to smother the speedy local forwards. But Rangers didn't do so well where they lost as against the heavier Maroons, whom they beat 5-1. Manager Cecil Hart, of the Frenchmen, is hot on the trail of another left wing man to replace Leo Lafamme, who finally persuaded the N. H. L. team to let him go to Duluth. A substitute for Jolt is needed to bring the Canadians to strength.

MRS. HALL TO DENY HAVING KNOWLEDGE OF DOUBLE MURDER

Detective Arrested at Trial After Appearing as Witness

SOMERVILLE, N. J., Nov. 26.—With a procession of witnesses, including Felix Di Martini, detective, once employed by Mrs. Frances Stevens Hall in an investigation in the death of her husband and Mrs. Eleanor Mills, the defense in the Hall-Mills case today finally and definitely paved the way for Mrs. Hall to testify in her own behalf.

The widow of the slain rector, on trial with her brothers, Henry and Willie Stevens, on a charge of murdering Mrs. Mills, will go to the witness stand tomorrow. The case of the defense will be closed after Mrs. Hall adds her denial to that of her brothers of being present or knowing anything of the double killing more than four years ago.

CAUSES MILD SENSATION
Di Martini created a mild sensation when he entered the court room just before the luncheon recess. He was arrested last month in Brooklyn on a New Jersey warrant charging him with being an accessory after the fact of the murder, of concealing evidence and attempting to bribe witnesses. The New York Court of Appeals ordered his release.

After testifying this afternoon in denial of all allegations made against him by the state, the New York detective through his attorney accepted service of a warrant for his arrest and posted bail for his appearance. His lawyer argued for dismissal of the complaint after the adjournment of court. Judge Francis J. Cleary denied the motion, but promised another hearing tomorrow.

CARPENTER RULED OUT
Justice Charles W. Parker presiding, ruled today that Henry De La Bruyere, carpenter, cousin of the defendants, and under indictment awaiting trial on the same charges, could not testify in denial of testimony of Mrs. Jane Gibson at a preliminary examination that he was present at or near the spot where the bodies of the minister and his sister were found. Mrs. Gibson in the present trial said Henry Stevens and "another man" were there, but she was told by the state's attorney not to identify the "other man."

VERACITY ATTACKED
The court session today was brought to a close as a dozen neighbors of Mrs. Jane Gibson went to the stand for brief examinations, testifying that her reputation for truth is bad in the community in which she lives.

EFFORT TO UNSEAT BLACK IS STARTED

Petition Against Election in Yukon Filed, Alleging Corruption

VANCOUVER, B.C., Nov. 26.—Captain George Black, M.P.-elect for the Yukon, was advised in a wire today from Dawson that a petition against his election was filed there yesterday, alleging that his agents and supporters committed "illegal and corrupt acts" in connection with his election. The document was said to contain all the usual allegations of election petitions. Captain Black, who defeated Fred T. Coogson, Liberal candidate, by a majority of approximately 175, declared that there is nothing in the charges and that he will fight the action to a finish.

Under the law, Captain Black stated, the court to try election petitions in the Yukon consists of a Judge of the Appeal of Supreme Court of British Columbia and if the petition goes to trial it will necessitate British Columbia judges proceeding to the Yukon. As all proceedings are stayed during the session of parliament, a trial could not take place before next summer.

As Hiram Sees It

"I was thinkin' says I to the town feller, as we watched the patch o' moonlight on Long Reach, about them poor French folks that tried to hold on to their homes on the river."

"They was just paws the game," says he—"them an' the Injuns—but the feller, as we watched of it in the end. Some of 'em fit on one side an' some on the other—an' they was thinned out a good deal from 1636 to 1789. The French could come back to New Brunswick—an' they did—but where's the Injuns? They was all cruel in them days—French an' English an' Injuns—Long Reach seen a lot of different sights from La Tour's time to that of Boishobert—and from Old Ben Church to Colored Moncton an' the fust English settlers. Yes, sir—we've seen a lot o' ghosts—an' they're still comin'. I never go up or down the Reach without thinkin' what a treasure house o' history the river is. An' you'd be surpris'd to know how few folks they is that knows about it."
