ULSTER MEN BREAK AWAY FROM CARSON

Cleavage in Ranks Over Home Rule Matter

HARD HIT IN POCKET Belfast Losing Trade and English Banks Curtailing Credit—Ulster Clergyman Writes—A Test of the Sentiment in Canada

(Times' Special Cable) London, Aug. 26.—There are signs of considerable cleavage in the Ulster ranks. Belfast business men are quietly questioning the wisdom of a policy which is already being disastrously felt commercially.

While Southern Ireland is saying nothing much is being done under the nose to transfer business of all kinds from Belfast to other ports. Ulster is beginning to feel the real pinch of her policy, which will be mainly financial and industrial.

Yesterday's Irish Times, the organ of the Irish Unionists, contains a significant letter from an Ulster clergyman who declares that a considerable number of Ulster Unionists are against the Carson policy. They signed the covenant in the hope of forcing the government to test the feeling of the three countries on their bill. A provisional government will not work, Sir Edward Carson knows it will not work.

TEST FEELING IN EACH PROVINCE OF CANADA (Canadian Press) Vancouver, Aug. 26.—The Unionist party of Great Britain and Ireland has made up its mind to a deliberate and organized attempt to secure the true public opinion of the people of Canada on the subject of Home Rule for Ireland, was the statement made by Rt. Hon. Stuart Wortley, M. P. for Sheffield, one of the most prominent of the Conservative members of the British parliamentary party, before he left Vancouver this week for Ireland.

"We Unionists believe," he said, "that the form of home rule for Ireland as proposed by Asquith and Redmond is a sort that will lead not only to civil war, but eventually to the dismemberment of the empire, because it gives the Nationalists of Ireland the chance to become independent."

"It is the duty of the British and Dominion governments to test the feeling of the people of each province in Canada to test the public opinion and we hope to secure such a verdict of public opinion as will enable us to go back to Westminster and say that the resolutions passed years ago by your parliament do not now represent the true opinion of the people of the Dominion."

ANGLER HOOKED HIMSELF IN NOSE Then Became So Excited That He Fell in the Humber River Toronto, Aug. 26.—When the hook on the end of his fishing line caught in his nose while he was fishing on the banks of the Humber River, D. Morrissey became so excited that he fell into one of the manholes. He was almost suffocated before employees of the Hydro-Electric succeeded in rescuing him.

Morrissey had indicated too freely. Consequently he could not tell an eel from a bass. In some manner he got a large hook caught in his nose, and in struggling about fell down the bank into the black bog in the marsh. The hydro man heard his groans and pulled him out with a rope. He was then left on the bank to dry.

FORWARD TO THE LAND IS CRY OF NEW LEAGUE Boston, Aug. 26.—The old cry, "Back to the farm," was repeated by the Forward-to-the-Land League in convention here. The object of the league's activity is the utilization of unoccupied land by people who will benefit both themselves and the community by producing from the land.

Miss Haviland H. Lund, organizer of the league, announced that an attempt would be made to obtain 1,000 acres in the vicinity of Boston for colonizing purposes. In speaking of the "possibilities of waste land in Massachusetts," Sec. Wilfred Wheeler, secretary of the state board of agriculture, said that there are 6,000,000 acres of waste land in the state capable of producing all the crops the people need.

Adult is Sentenced Cohasset, Ont., Aug. 26.—Robert Ault, Jr., of St. Louis, was sentenced by Judge Benson to two weeks in jail on a charge of obtaining money under false pretences. At the expiration of this term, the authorities of Lexington, Ky., want the young man on a similar charge.

Noted Missionary Dead London, Aug. 26.—Father Ohwalder, a famous missionary, who was a captive of the Mahdi for ten years, died at Omsurman.

STRIKE WILL CAUSE CITY TO BE DECLARED IN A STATE OF SIEGE

Ninety Thousand Workers in Barcelona Are Out

MACHINE GUNS IN STREETS Cavalry Patrols Are on Duty in the City—Two Hundred and Forty Men of the Lusitania and Mauretania Strike

(Canadian Press) Madrid, Aug. 26.—The situation in Barcelona, where 90,000 workers are on strike and 887 factories are closed, is regarded in government circles as very grave, and it is expected that the city will be declared in a state of siege in view of the fact that the government regards the strike as a revolutionary movement.

The Socialists held a meeting here yesterday, and resolved to join hands with the Barcelona strikers. Newspapers in Barcelona have been ordered to suspend publication and the telegraph offices are guarded by police. Machine guns are mounted in the principal streets, and cavalry patrols the city.

Liverpool, Aug. 26.—Two hundred engineers and fitters of the Cunard liner Lusitania went on strike yesterday at the Liverpool docks over a dispute with the millwrights. Forty engineers of the Mauretania also went on strike.

Officials of the Cunard line say this trouble will not interfere with the sailings of the two vessels.

FREDERICKSON FIRM MAKES ASSIGNMENT Fredericton, N. B., Aug. 26.—Lucy & Company Ltd., dealers in drygoods and clothing, have assigned for the benefit of their creditors. Deputy Sheriff Timmins closed the establishment this morning. A Toronto wholesale house which has a claim for \$2,000 is said to be the largest creditor.

The business was managed for several years by the late Thomas Morris who worked up a large trade. He died a few days ago.

YARMOUTH-ST. JOHN DIRECT SERVICE, STR. JOHN L. CANN Yarmouth Light.—After months of agitation the St. John Board of Trade and other parties interested have succeeded in getting the various subsidies granted and rumor has it that this service will be started in a very short time. Messrs. Hugh Cann & Sons have been ready for some time to perform the service, and will put the steamer John L. Cann in commission, calling at Westport, Prescott, and Tiverton. Captain L. MacKinnon will be master of the John L. Cann.

"WILD MAN" CAPTURED Pittsburg, Pa., Aug. 26.—After a chase of several miles through the suburbs of the North Side, terminating in a desperate battle in the woods on Spring Hill, Patrolman Phillip Mall captured a "wild man" who had been terrorizing the foreigner, had been annoying residents for several days, and repeated efforts were made to capture him. He was turned over to the department of charities for examination as to his sanity.

BISHOP FALLON TO BE MADE ARCHBISHOP Brandon, Man., Aug. 26.—Rumors are current in Catholic circles that a Catholic bishop will be elevated to the see of Brandon. The bishop, the newly created bishop-coadjutor to Archbishop Langevin, will have a new with Brandon as his Cathedral city. Some influential workers of the church declare that Brandon will be made the archdiocese with Bishop Fallon, of London, Ont., as the archbishop with jurisdiction over all English-speaking congregations in the west.

Samuel Brilliant In The Defence of Government

New Marconi Contract Ratified by House of Commons After an Able Speech by the Postmaster General

(Times' Special Cable) London, Aug. 26.—Yesterday's debate on the Marconi contract was a brilliant triumph for Hon. Herbert Samuel, postmaster-general, who is rapidly being recognized by all parties as among the most brilliant of our younger business statesmen. Even his opponents describe his defence of the government policy as decidedly effective. It was a superb parliamentary performance. He simply demolished the opposition.

The new contract is far better for the country than the old one. Patent royalties have been modified, and the company takes all risks and is bound to establish an effective system. The Liberal opposition, however, contains a provision entitling the Marconi company to better financial terms if the contract is not ratified.

Mr. Samuel's emphatic declaration that wireless stations, though constructed by private contract, will be from the outset state owned and state worked. Many would have liked to see the government itself undertake the construction of the stations, and it is evident that as quickly as possible the Marconi Company will be quietly eliminated in favor of entire government administration.

Much opposition to the present Marconi contract is unquestionably due not to a desire to advance wireless efficiency, but for political prejudice and to dislike of the methods of the Marconi Company, which is shared by many here in both parties.

(Canadian Press) London, Aug. 26.—The House of Commons yesterday ratified the contract with the Marconi Company for the construction of an imperial wireless chain. The vote was 210 to 188. Postmaster-General Samuel defended the contract. He spoke for an hour. He quoted statements recently made by the privy council and the Admiralty on the urgent need of a wireless chain. How could the government ignore the representations of the Admiralty and the War Office for the defence of the empire? He had followed Norman's lead, he would have followed the Admiralty and would have followed himself involved in a quagmire. He brushed away with scorn any suggestion that he had fallen heir to an estate in Germany valued at \$1,750,000.

He had been informed of his good fortune, from manual labor a few miles from the city. Yesterday he engaged steamer passage to Danzig.

LABORER FALLS HEIR TO FORTUNE OF \$1,750,000 (Canadian Press) Omaha, Neb., Aug. 26.—Frederick Gross Van Alvenleben for twenty-seven years, a day laborer, received notice yesterday from the German consul at Chicago that he had fallen heir to an estate in Germany valued at \$1,750,000.

When informed of his good fortune, from manual labor a few miles from the city. Yesterday he engaged steamer passage to Danzig.

SAYS BALKAN TREATY MUST BE REVISED Ignores Essential Features and is Devoid of Permanence, in View of Correspondent

London, Aug. 26.—The Times' Balkan correspondent says the treaty of peace concluded at Bucharest, completely ignores the essential features of the distribution of the various Balkan races in Macedonia and consequently is devoid of all elements of permanence. Bulgaria, surrounded by five enemies and in need of desperation, was, the correspondent says, compelled to assent to their demands and these arrangements cannot be regarded as final.

A revision of the treaty of Bucharest, he added, is obviously necessary in the interest not only of justice, but of the Balkan tranquillity and European peace.

ENGLAND HAS DONE WELL IN INSURING THOSE OUT OF WORK

First Report on Unemployment Insurance Gives Pleasure

MARKED SUCCESS IN SIX MONTHS Every Prospect For Brighter Outlook Should There Come Depression—Two and a Quarter Million Men Are Insured

(Times' Special Cable) London, Aug. 26.—England is proud of the first report of unemployment insurance, issued yesterday, for it reveals the capacity of the nation successfully to lead the way in this reform. The British act was the first of national experiment on a large scale ever made. Unemployment insurance, unlike sickness insurance, has been carried out from the first with the cordial good will of both parties. The first report covers only six months experience of payment of unemployment benefit. Two and a quarter million men are insured, of whom four-fifths were uninsured previously.

The financial results are better than the actuary anticipated, voluntary insurance has been encouraged and increased as a result of the demonstration afforded the workmen of the satisfactory nature of the work.

The act has been administered with remarkably little friction. There have been only twenty-four prosecutions—employers mostly—for failure to pay contributions and one of a workman refusing to apply for an unemployment book.

There have been very few fraudulent claims although forty-seven prosecutions took place for false statements made to obtain the benefit. When the officers held the workers up, they found no liquor in the sags, but concluded to take a few bottles of beer to the workers.

While driving along they heard glass breaking on the side of the road and, on a minor detail or two, had several bottles smashed, and one which was not broken which they say the women had concealed.

While the officers were after the bottles the women started in to make trouble and had to be handcuffed. They were lodged in jail, where they will remain until they are taken to Portland for examination.

P. R. A. SHOOT IS TO BE STARTED MONDAY AT SUSSEX The fifty-seventh annual meet of the Provincial Rifle Association will open on the Sussex range on Monday, and will continue until Saturday.

The privilege of camping on the range is becoming more appreciated each year, and the executive committee have prepared for a larger contingent than ever before.

The shooting will start on Monday this year instead of on Tuesday as formerly, to give the members an opportunity to accustom themselves with the Mark 7 ammunition containing the pointed bullet, which is being used for the first time this year. It requires about twenty-one degrees more elevation at 1,000 yards than the old Mark 6, besides quite a difference in the wind gauge.

Although the weather was not so favorable as on the first day, the scores made in the extra series will be tallied in with the aggregate for the highest averages.

One of the features of the meet will be a cadet match to be shot on Tuesday. The teams will be composed of three members from any authorized corps within the province. Messrs. Ferguson and Page have presented a offer shield this year to be competed for by the cadets.

L. O. Bentley of Springhill, N. S., arrived in the city this morning and will attend the meet at Sussex.

A BUSY LIFE IS ENDED; EDWARD LANTALUM DEAD

One of St. John's Most Widely Known Citizens

MANY REGRET HIS PASSING Sturdy Worker in Liberal Cause For Long Years and One Whose Judgment Was Valued Highly in Councils of Party

In the death of Edward Lantalum, ex-M.P.P., which was learned of with such general regret today, St. John lost one of her staunchest citizens; many lost a good friend and the Liberal Party lost one who had been in the forefront of the political battles of years and one whose well-tempered judgment was always sought and carried much weight in the party councils.

For forty-two years Mr. Lantalum had been a most active worker in city, provincial and Dominion politics. At the early age of nineteen he began his public active interest in public affairs as a worker in Kings ward. Later years were to see him time and again Liberal chairman of that ward and with a very large personal following, not only in that district, but throughout the whole city.

For some years before the time of his death he was a councillor for Kings and later he sat at the common council for nine years as alderman for that ward. In provincial and Dominion political affairs he had early come to exercise a strong influence, and there was none more active than he or with wider knowledge of political conditions and of the electorate individually and collectively.

He knew the people, for he was always mixing among them, and his mind was well trained to assembling his knowledge of not only people, but events, so that he was able to draw from this storehouse at any time facts of value as applying to the matter under consideration. Shrewd of judgment, and a man of great resources, his opinions were sought by chiefs of all in the deliberations of his party, and he was a man who never feared to express his self and sturdily hold out for what he believed to be right and just.

He was one of the representatives of St. John in the provincial legislature during two terms and while not given to the making of speeches, his work was always effective, and he brought a great strength to his side. Several times he has been the most prominently named for the Liberal nomination for the federal house, but that nomination never was finally tendered him.

ARRESTED ON LIQUOR CHARGE, TWO HOULTON WOMEN MAKE FIGHT

Arrested While Driving and Sound of Smashing Bottles Follows

Houlton, Aug. 26.—Deputy Collector J. P. Dudley, accompanied by Deputy Sheriff H. D. Stuart and Chief of Police Ralph Whitney, caught two women whom the customs officers have been pursuing for some time, on Wednesday evening. They met Mrs. Ollie Williams and Mrs. Sarah Curtis in American House on Broad street. When the officers held the women up, they found no liquor in the sags, but concluded to take a few bottles of beer to the workers.

While driving along they heard glass breaking on the side of the road and, on a minor detail or two, had several bottles smashed, and one which was not broken which they say the women had concealed.

While the officers were after the bottles the women started in to make trouble and had to be handcuffed. They were lodged in jail, where they will remain until they are taken to Portland for examination.

THIS FINE OLD GENTLEMAN ANSWERED 187 LETTERS IN REGARD TO "FRUIT-A-TIVES"

People In All Parts of Canada Wanted to Know More About These Wonderful Tablets Made From Fruit Juices

N. JOUBERT, Esq. "I heartily recommend 'Fruit-a-tives' to all who suffer from Constipation and the painful consequences—Piles. I am now over 74 years old and suffered for over 20 years with Constipation and Piles. I tried all kinds of remedies, saw the doctors and took their medicines but nothing cured me. About four years ago, I tried 'Fruit-a-tives'—found they were doing me good. Then I procured an additional supply and was much gratified at the wonderful good they did me. After taking four boxes, I felt well—my bowels were regular and the Piles had disappeared. My wife was troubled for three years with Asthma, and Eczema on the hands, which made her hands almost useless. The doctor gave her several ointments to use none of which had any effect. He also advised her to use rubber gloves (she wore out three pairs). I persuaded her as a last resort, to try 'Fruit-a-tives.' The effect was marvellous. Her hands are cured and the Asthma has also left her. We both attribute our present good health to 'Fruit-a-tives.'

N. JOUBERT, Grande Ligne, P. Q. Whether it was the fine, honest, straightforward face that inspired confidence or the simple language which rang true as a silver bell, that made some people think over this letter, is hard to say. But the fact remains that one hundred and eighty-seven persons have written Mr. Joubert to enquire more fully about 'Fruit-a-tives.' An old and this delightful old gentleman who is now 74 years old—happy in his release from pain—grateful for his cure—looks to the time to answer every inquiry. Take his advice and try 'Fruit-a-tives.'

Summer-Spotted Skin Removed by Absorption (From Home Queen)

As undue summer exposure usually leaves an undesirable surface of tan, dust or grease, often freckles, too, it stored his mind with a record of events and an acquaintance with people that he was valuable to himself and to the people of this and other generations and could, at a moment's notice, trace family relationships and recount business connections that it might almost be said, the people themselves had forgotten.

Mr. Lantulum was one of the principal men on the old Shamrock Baseball Club. He was very prominent in the famous Irish Friendly Society, the forerunner of the present Irish Literary and Benevolent Society, and was actively and closely interested in Branch 194 of the C. M. B. A. In his home life and in the intimacies of his most deep friendships, he was ideal—a man of exemplary life, a kindly friend, a wise counsellor, one who sought not to spare himself when the call came to him to do a good act. Those who enjoyed close friendship with him are those in deepest sorrow today because of his passing.

Was 64 Years Old Mr. Lantulum was born in St. John in 1852—sixty-one years ago. He was a son of the late Mr. and Mrs. James Lantulum, and was one of a family, prominent in the life of the city. Only four now survive—James V., Dominion immigration agent in St. John; T. T. Lantulum, auctioneer here; William F., in Vancouver, and Miss Margaret at home. J. F. Lunney, Dr. F. H. Lunney, Harry, Victor and Edmond Lunney are nephews, and Miss Helen Lunney a niece.

Mr. Lantulum had always enjoyed good health until last November, when his first sickness came to him in the form of pernicious anaemia. Though with the best of medical advice and care, he did not improve, but he was able to be about as usual. Latterly, however, he had been out only for an automobile drive, though able to be around the house until less than two weeks ago.

On Monday last, a sinking spell came, but he rallied and seemed to gain strength until two o'clock yesterday afternoon, since when he sank until death came at eight o'clock last evening. For the members of his family bereaved by his death there will be deep sympathy from very many friends. The funeral will be held at 2.30 o'clock on Sunday afternoon from his late home, 104 Union street.

A BUSY LIFE IS ENDED; EDWARD LANTULUM DEAD

(Continued from page 1) He had a remarkable memory and could give names of candidates and number of votes polled in practically all the elections in which he had worked, and could give day and date of this or that contest. This, too, in scarcely less degree, applied to the more important elections outside the city, while he kept closely in touch with the larger, as well as the smaller, political events and the chief men in the conduct of public affairs in Canada. At Ottawa, he was well known and his worth recognized.

Forty-two years is a long time in political battling, but he liked it and was always happiest when a contest was on. The influence he wielded was exerted widely for the benefit of many, and they are not few in number who thank him for public-made smoother and life's struggle lessened.

Other Activities Mr. Lantulum served for years as a member of the St. John Pilotage Commission, where his knowledge of vessels and commercial conditions made him again a valuable man. In other public positions, as well, he had served with distinction.

The firm of E. Lantulum & Co. was founded by him. At the early age of fifteen he began buying and selling junk. Soon he became a purchaser of wrecks—schooners and larger vessels—and he would repair the rest of them break up for their metal. His business, with which several of his brothers later were associated, took him on many trips over the maritime provinces and Quebec and he became a well-known and respected man in his territory as at home. So, too, in his travels, applying his faculty for acquiring knowledge of affairs, he stored his mind with a record of events and an acquaintance with people that he was valuable to himself and to the people of this and other generations and could, at a moment's notice, trace family relationships and recount business connections that it might almost be said, the people themselves had forgotten.

Mr. Lantulum was one of the principal men on the old Shamrock Baseball Club. He was very prominent in the famous Irish Friendly Society, the forerunner of the present Irish Literary and Benevolent Society, and was actively and closely interested in Branch 194 of the C. M. B. A. In his home life and in the intimacies of his most deep friendships, he was ideal—a man of exemplary life, a kindly friend, a wise counsellor, one who sought not to spare himself when the call came to him to do a good act. Those who enjoyed close friendship with him are those in deepest sorrow today because of his passing.

Was 64 Years Old Mr. Lantulum was born in St. John in 1852—sixty-one years ago. He was a son of the late Mr. and Mrs. James Lantulum, and was one of a family, prominent in the life of the city. Only four now survive—James V., Dominion immigration agent in St. John; T. T. Lantulum, auctioneer here; William F., in Vancouver, and Miss Margaret at home. J. F. Lunney, Dr. F. H. Lunney, Harry, Victor and Edmond Lunney are nephews, and Miss Helen Lunney a niece.

Mr. Lantulum had always enjoyed good health until last November, when his first sickness came to him in the form of pernicious anaemia. Though with the best of medical advice and care, he did not improve, but he was able to be about as usual. Latterly, however, he had been out only for an automobile drive, though able to be around the house until less than two weeks ago.

On Monday last, a sinking spell came, but he rallied and seemed to gain strength until two o'clock yesterday afternoon, since when he sank until death came at eight o'clock last evening. For the members of his family bereaved by his death there will be deep sympathy from very many friends. The funeral will be held at 2.30 o'clock on Sunday afternoon from his late home, 104 Union street.

COURTENAY BAY FOR BATHING While in the city this week, E. B. Nelson, formerly of Massachusetts, where he has conducted bathing resorts, but now of Montreal, examined into the prospects for surf bathing about St. John. He looked with favor upon a beach site at Courtenay Bay. He and others interested may provide bathing facilities there.

RECENT DEATHS

At the residence of her son-in-law, A. M. Winter, 121 Duke street, Mrs. Catherine Scott, widow of Alex Scott, passed away yesterday at the age of 73.

Scott came to Canada at the age of 14. She was a member of St. Paul's church. She leaves three sons, Alex, employed by the C. P. R., William, of the A. R. Williams Machinery Company, and Harry, of the Corona Candy Company, and one daughter, Mrs. Winter at 40; in all, the youngest daughter of the late Vincent White Wiggins, Captain of 62nd Queens Own militia, New Brunswick, and a direct descendant of Captain Thomas Wiggins of the British army, a native of Devonshire, Eng., who, in 1663, was sent to America by Lords Tay and Brook as Governor of the State of New Hampshire. Mrs. Campbell leaves beside a husband, two daughters married and living in New York city, who were with her during her last illness; also four sisters and one brother—Mrs. Arthur D. Boncompagni, of Amherst; Mrs. Robert Duncan, of Woburn, Mass.; Mrs. Stone Wiggins Rice, Denver, Colorado; Mrs. George Bennison of Duluth, Minn., and Mr. Thomas M. Wiggins, Waterbury, Conn., Queens county, N. B. The remains were interred in St. Martin's cemetery, Long Island, U. S. A.

The French government has passed a special law permitting Miss. Deulafay to dress in the attire of men. She is a noted explorer and mountain climber and is the only woman in France enjoying the privilege of wearing man's clothing.

Amherst News—Mrs. Alma Wiggins Campbell, wife of Fred W. Campbell, passed away in New York city on July 24, 1913. The Standard says this morning that the government will award the contract for the grain conveyors. The only warrant the Standard has for making the statement is found in a letter from Mr. Valiquette, who says that if the government does let a contract, the work

BIRTHDAYS OF NOTABILITIES

SATURDAY, AUGUST 9 The Hon. L. G. Power, senator of the dominion since 1877, celebrates his seventy-second birthday today.

C. C. Ballantyne, one of Montreal's most prominent manufacturers, is forty-six today. He is identified with the paint industry.

H. M. Molson, of Montreal, who is interested in many companies and is reckoned one of the leaders of Canadian finance, observes his fifty-seventh birthday today.

This is also the natal day of the Rev. Dr. Shearer, secretary of the Social and Moral Reform Council of Canada and formerly general secretary of the Lord's Day Alliance, who was born on August 9, 1830.

SUNDAY, AUGUST 10 W. F. Maclean, M.P., observes his fifty-ninth birthday today. He is a newspaper man by profession, and started his newspaper career on the Toronto Globe.

Dr. Neil Macphatter, of New York, one of the founders of the Canadian Club in that city, and for several years its president, was born on August 10, 1855, at Killalee, Ont.

"Mamma," said 4-year-old Thelma, "Harry wants the biggest piece of pie and I think I ought to have it."

"How's your son, the lawyer, who went to college and paid."

"Did you punish your son for throwing a lump of coal at Willie Smiggs?" asked the mother.

"An old lady on the train had worried the brakeman pretty nearly to death with questions all the way down the line. Finally, as the train came to a stop at a little tank station, she inquired:

"Say, Mr. Brakeman, how long does this train stay here?"

"Everyone suffers more or less from aches and pains. Limber up stiff joints and sore muscles by applying Peerless Liniment.

It has great power to drive away soreness and speedily ease pain. It is elegant for weak backs and stiff joints.

The Marathons fell on Lee, the St. Croix twirler, in the third inning of yesterday afternoon's game on the local grounds and before the session closed had made four runs. They had one before the visitors' two so that left the game at five to two in favor of the home team. In the fifth came a slaughter, the Greeks batting Lee very hard and crowding them in doing so. Howard playing in right field missed one and after that right field was a popular place for the Greeks to send the ball. They made nine runs in that inning.

Howard was sent in to pitch in the seventh and was batted hard and runs piled up, again aided by bad errors. In the eighth, with three on bases, Shanky hit one to deep right. McPhee misjudged it, the ball was lost and four runs came in.

The St. Croix men hit Tarbell fairly freely, and made six runs, the last one a homer over the right field fence by Jacobson. Naturally the game lost its interest on account of the one-sidedness, but at that it was rather spectacular as a heavy hitting exhibition. Pease and Waterhouse worked a sensational squeeze play successfully. The score—

COCHRANE GIVES WAY; RATES ON I. C. R. TO BE CUT

A Back Down By Government—Labor Dispute Eased, in Moncton Announcement

Moncton, Aug. 8.—After a review of the rate adjustments resulting from the revised freight schedules adopted by the late board, the management of the Intercolonial Railway have reached the conclusion that some modifications are desirable in some of the schedules, particularly those affecting the movement of some of the lower-priced commodities or where too great a disturbance of the commercial conditions has resulted from the present schedules.

The rates on live stock under the revised schedules now in course of preparation will be increased but little, if any, over these in effect prior to May 1 last.

While the revised schedules on lumber will be provided for a small advance per car, the amount of such will be reduced to a figure more in accord with existing market conditions. On pit props and pit timber the former rates will be restored.

It has also been decided to restore the former minimum charge as made on small consignments.

The actual changes will be announced in the tariffs of the railway as soon as the detail work can be completed.

Moncton, Aug. 8.—The conference between the I. C. R. management and C. P. of R. E. committee was concluded today, but the agreement was left over to be signed at a further meeting next week.

Mr. Mosher, grand president, gives out a statement that everything is satisfactorily settled, but the details are withheld for the present. The increases, he says, range from 85 to 115 per month. General Manager Gulestus left this afternoon for Montreal.

HUMILIATED WOMAN

Would Not Attend Social Functions Because of Her Hair

There are many women in this world, handsome in features, perfect in form, graceful of movement and brilliant of mind, who keep in the background just because they have thin, colorless and lusterless hair.

In Paris they understand things about the hair that we do not know in this country. It was a Parisian, Dr. Sangerbon, who discovered that thin hair and dandruff are caused by a microbe.

It is Parisian Sage that proves Dr. Sangerbon's theory to be correct, for it is rigidly guaranteed to kill the dandruff germ and cure dandruff, falling hair and itching scalp in two weeks or money back.

Parisian Sage is a delightfully pleasant hair dressing and invigorator; it is not sticky or greasy. It should be used freely in Spring and Summer, as it keeps the scalp clean and cool and free from odors.

Parisian Sage comes in large 50-cent bottles and is for sale by all druggists and leading druggists everywhere on the money-back plan. "The Girl with the Auburn Hair" is on every package. Made in Canada by The T. T. Booth Co., Ltd., Fort Erie, Ont.

THE "MAKE-UP" STONE MARKS HIS GRAVE

Epitaph by William Dean Howells Recites Virtues of His Brother, a Veteran Editor

One of the most remarkable grave-stones on record was placed in the cemetery at Jefferson, Ohio, recently.

It stands at the head of the grave of J. A. Howells, veteran editor of the Ash-tabula Sentinel, who died recently. It consists of the "make-up" stone used by Mr. Howells for fifty years during his

successive evolutions as printer's devil, printer and editor. On it is inscribed a verse written by William Dean Howells, novelist, a brother of the dead man. The verse reads:

Stone upon which, with hands of boy and man,
He framed the history of his time un-til,
Week after week, the varying record ran
To its half-century tale of well and ill,
Remember now how true through all those days
He was—friend, brother, husband,
son;

Fill the whole limit of your space with praise,

There needs no room for blame—
blame there was none.

The boyhood of William Dean Howells was passed to the office of the Sentinel. The father of William Dean and J. A. Howells was editor of the paper.

Do not suffer another day with itching, bleeding or protruding Piles. No surgical operation required.

THINGS WORTH KNOWING TO THOSE INTERESTED IN THE DRINK CURE

One year ago we opened a Neal Institute treating the drink habit at 46 Centre street, St. John (N. B.), to demonstrate to the public that we had a treatment that would cure all desire and craving for alcohol in three days time. Some few call it a "fak" while others tried it with the remarkable result we cured several scores of men and women. St. John was only one of our sixty branches that we have established throughout Canada, U. S. A., and foreign countries. After running it at a big expense for one year we closed our eastern branch as well as several other places where there was a danger of its becoming known that certain prominent people had taken the drink treatment. For the self-same reason we established a large central hospital at the Capital City Ottawa some two years ago, where we have every convenience, thoroughly trained male nurses and graduate female nurses for women. Our twenty-two private rooms with electric fans, bath and every modern convenience guarantee to the outside patient comfort and secrecy while taking treatment. While the ride may seem rather long when starting, it is well for the public to know that it is not necessary for the patient to arrive here perfectly sober, inasmuch as we never cut a patient straight off from liquor. Another feature that adds to taking treatment away from home is the fact that a good long ride after completing the Neal treatment acts as a tonic, the fresh air, change of scenery and the knowledge that when one returns nobody will be a bit the wiser. Remember our fee or charge is \$125 out of which we allow you transportation both ways with the understanding that we guarantee to return all money paid if the patient is not perfectly satisfied that all craving and desire for liquor has been destroyed when leaving the institute. If you have a loved one at home who is near and dear to you speak kindly to him and try and persuade him to take the Neal treatment. P. S.-There is no charge should the patient wish to stay with us a few days longer after completing treatment to make sure he is perfectly cured.

MORNING NEWS OVER THE WIRES

At the hearings of the Frawley committee of the New York legislature yesterday, it was said that Governor Sulzer had been nearly \$50,000 in debt as a result of stock market speculations, and had used some money given him in campaign contributions to square himself, but had also made additional purchases.

It was said, while this debt was being over him, there is a possibility that the committee may move for his impeachment.

At a fine rally of the Young Men's Liberal Club of King's county, N. S., an night, Hon. Sydney Fisher, Hon. Wickersham King, Sir Frederick Borden, and Hon. H. H. Wickwire, addressed the audience. There was a large gathering.

The Halstead, Eng. Urban Council has decided to hold an inquiry into a report that many young people in that area are postponing their marriages owing to lack of suitable houses.

A Miner's Destiny. Miss Townsend will continue in her operatic selections and there will be comedy pictures.

NOTORIOUS BRIGAND AGAIN IS ON TRIAL

Calenda of Calabria Has To Answer For Two Murders and Two Attempts

Wlan, Aug. 8—Calenda, a notorious Calabrian brigand, is again on trial at Catanzaro in the same grim crime cage which imprisoned him a few days before his condemnation to thirty years' hard labor for murders. Hardly had he shaken off his shackles than he was before the Monteleone court to expiate an outrageous crime for which he served five years in Brindisi central settlement.

Calenda then expressed his intention of settling down quietly. This he did until 1908, when he heard that a young fellow named Macri had made a boast concerning Calenda's beautiful niece. Mad with rage, Calenda waylaid him with a gun. The shot missed; but a few nights later Macri was found pierced through the heart.

The brigand disappeared; and in his absence he was sentenced to twenty years' imprisonment. A few days later a shepherd stumbled across two bodies on the mountain where Calenda was known to be hiding. The two murdered men had given evidence against him. They had been shot in the back by bullets of a pattern that Calenda was carrying. The judicial authorities impressed the penalty to one of life long incarceration, and castigated were despatched to scour the mountain fastnesses in hopes of capturing him.

Monte Calabro—Aurora was with a false passport—was on his way to New York. No more was heard of him till 1911, when an Italian detective, slipping into a Brooklyn pharmacy, recognized the ex-brigand in the chemist's assistant. Hence his expulsion from the United States and his reappearance to answer for two murders and two other attempts at murder. This is the first time that the court has been occupied in judging his blood debts.

"Charles," said a sharp-voiced woman to her husband in a railway car, "do you know that you and I once had a romance in a railway car?"

"Never heard of it," replied Charles, in a subdued tone.

"I thought you hadn't. But don't you remember it was that pair of slippers I presented to you the Christmas before we were married that led to our union?"

"You remember how nicely they fitted, don't you? Well, Charles, one day when we were going to a picnic you had your feet upon a seat and when you weren't looking I took your mittens. But for that pair of slippers I don't believe we'd ever been married."

A young unmarried girl, sitting by, immediately took down his feet from a seat.

Effect of Cable From Ottawa in England

HAD TO DO WITH LABOR

A Warning That Market For Workmen in Canada Was Flooded—The Matter Being Taken With Seriousness in Old Land

(Times' Special Correspondence)

London, July 29—Questions of Canadian interest are sure of wide and thorough discussion, but it is safe to say that within recent years no Canadian topic has received such immediate and widespread attention as a cable from Ottawa warning the people of Great Britain that the labor market in Canada is flooded and that unemployment has reached serious proportions.

For the moment it is difficult to gauge the sequel but the flood has immediately released a public of critics that may well have some degree of permanence.

Much of this criticism is leveled against the government offices which are established in London. That criticism, coarse, wrongly directed as these offices have encouraged only the settlement of men who were prepared to do the work of the land; but in a matter of this kind the public is not likely to discriminate, and it is this lack of discriminatory power which will probably operate badly on Canadian emigration.

Though the hardships reported are restricted to those in industrial occupations, they will most probably influence the minds of the agricultural classes, for whom there is an abundance of work. From many sources that could be acquired of this prejudice, however, we have had warnings of nearly equal seriousness.

Prior to the arrival of the cable, the labor party in the House of Commons had been petitioned by the local unions to raise the question in parliament. A serious view is entertained by the parliamentary representatives of labor. They are the protectors of labor and they cannot very well do less. An outline of the ground they make is perhaps to be found in the following quotation from the "Daily Herald" which some of the labor press have taken to heart.

"Advertisements are inserted in English papers by the labor press. No mention is made of a dispute being in progress, and if the applicant is impatient enough to ask his labor agent direct. The consequence is he goes out to blacklegging, or starvation to death."

Discussion in the house will offer the opportunity of a debate. There is only one Canadian method now prevailing. There is, however, a danger that the Canadian method may be revised, and that delegates of the kind who encourage men to emigrate should have more sympathetic realization of what it means to sell up a home in order to go to a distant land for a few years' wages for an assurance that men who are told there is work for them shall find that work when they get there.

Canadian Marksman Just Went Plugging Along

HAWKINS' VICTORY

Veteran Omuudsen at First Fire in the Lead—Dominion Marksman Fears He Might Have Failed Had He Known 'His Chances'

(Times' Special Correspondence)

London, July 29—All Canadian readers to witness the firing of the last shots of the competitions. The spectators were well rewarded by as dramatic a finish to a contest as we have seen for years.

So far as the Canadian marksmen were concerned only their continued confidence in the narrowest of margins, it is true, but all the more disappointing for that. It was going to be a close race between the two.

They took it like sportsmen—like Canadian sportsmen. It seems to be an unwritten regulation for the marksmen you send over each year never to explain, certainly not to complain. Yet without doubt the variable wind and fickle changes of light operated more hardily on the Canadian team than on their competitors who shoot all the time under similar conditions.

It was therefore with a minor interest that the Canadian competitors in the final for the King's Prize were regarded. Omuudsen, a seasoned competitor, would win the most coveted prize in British marksmanship, as a matter of course. Gradually he drew away from his nearest rival and everybody thought it was all over. Every shot followed by the signal from the bullet made his position more secure.

Then there was a break in this register of points. No score was signalled to his seventh shot, but that was thought to be due to a little delay. When the scoring board registered a miss, that was clearly a mistake, was the thought. Omuudsen looked blank for a minute, as though the thing might be true. Then he challenged the target, but the result was repeated. Unprecedented; the champion had missed.

Hawkins Climbing—All this time Hawkins, much further down the range, had been shooting steadily and well, undisturbed by the crowd of spectators, which now flocked Omuudsen and assembled behind him. Unlike the seasoned champion who takes attention of this kind as a matter of course, Hawkins flinched under the gaze of so many eyes. This disturbed him far more than the handicaps of wind and light and was, I believe, responsible for his "fauly" last but one shot. At any rate he told me afterwards that he might have felt considerably unnerved had he known he was likely to win. He turned round wondering what was the cause of the press of spectators. Then he settled down for his final shot, the last of which gave him supremacy over the marksmen of the world empire.

Even then he did not seem to realize that he had won, and the first thing he did was to pull out and fill his briar and make smoke. Then the shouts of congratulation and the advancing figures of General Douglas Haig, Lord Chylesmore and Colonel Duff Stewart, his commandant, seemed to inform him that he was the winner.

"I might have been worried a great deal had I known I was likely to win the prize which is the ambition of every Canadian marksman," he said. "I kept plugging away, determined to do my best, and I did not think of anything but that. I feel proud of course, proud for myself and proud for my native Canada. Every Canadian sportsman wants to get to Bisle, but there is great competition and he has got to fight for it every time."

Then he was carried away, hoisted in to the chair for the procession of honor to the strains of "See the Conquering

Here Comes." He received the prize from the Duchess of Wellington.

Experts say he has the typical make-up of a good shot. Just as no really great runner is without wide nostrils, so great shots have the outward signs. His grey, well-sunk eyes, are of the kind frequently found in champion rifle-men, grey and brown being the predominant colors. He has, too, the well-developed nose usually seen among shooting men.

Mr. Hayes' experience in Wales was somewhat different from Simon Northrup's in Jersey City. Mr. Northrup attended a church there for two years. Every Sunday morning of that time, after the service, a kindly old deacon who sat across the aisle took him by the hand and said:

"How do you do, sir? I am glad, indeed, to see you in our midst this morning. Are you a stranger?"—Newark News.

WORK OF DOMINION DEPARTMENT OF AGRICULTURE

The report of the minister of agriculture for the year ended March 31, 1913, has been printed. It contains in concise and readable form a review of the work carried on by the department of agriculture through its several branches and divisions during the year. It includes also the orders in council that were passed affecting agriculture.

Referring to the trade in dairy products, it is pointed out that for the first time in sixty years no butter was exported to the United Kingdom, but on the other hand more than six and one half million pounds were imported into Canada during the year.

In the seed branch among other work almost nineteen thousand samples of farm seeds were tested for farmers and seed merchants.

The live stock commissioner by means of public sales distributed upwards of 1,800 breeding sheep about one-third of which were pure bred rams. In the record of performance about one thousand and five hundred head of cattle were shown have been entered for test. These represent stock of about 150 farms.

Four years ago Mr. Motherwell gave a personal demonstration of his remedy for the treatment of the disease known as the "Bleed" and received unqualified praise from the medical profession. Your people we all know—people who are well known to the medical profession. It is pointed out that the new "Bleed" remedy yielded at the rate of eighty-one bushels an acre. The still newer "Prelude" wheat which ripens early and produces good crops, was sent out for test during the year. A much larger quantity is promised for distribution during the coming winter. Many other useful points are recorded in the minister's report, copies of which are available to those who apply for it to the Publication Branch of the Department of Agriculture at Ottawa.

EXPERIENCES

Newark Men Tell of Things They Have Observed at Church.

A Newark pastor stopped in the middle of his sermon last Sunday morning and looking straight down at the big Bible before him, said:

"There are persons present who are not behaving as they should in the house of the Lord. I will not indicate them by looking in their direction."

It reminded James L. Hays of an experience he had in Wales last summer. One Sabbath morning he entered a little church near the inn where he was staying, and took a seat well toward the front.

There was no hymn book in his pew, so he stood up without one. When the congregation began to sing he was astonished to see the minister descend from his pulpit, walk up the aisle and hand him a book open at the proper page.

It impressed Mr. Hays as rare courtesy. He had never seen a minister do such a thing before, and he commented

Lord Newton's Bill Would Disclose Real Names TOUTING MONEY-LENDERS

Intelligence Service That Enables the Sharks to Know When a Man is in Difficulties—Fleeing of Wealthy Young Men

(Times' Special Correspondence) London, July 31.—No one who has lived long in London at what is known here as a "good address," can fail to be impressed by the fact that the English aristocracy is the most philanthropic in the world. It is just burning to lend you money, without security and at a ridiculously low rate of interest. Hardly a past arrives without a letter offering any sum from £25 to £25,000 on your note of hand alone and if you happen to have a birth or death or engagement or any other expensive emergency in the family, your letter-box is fairly choked with missives on thick cream-laid created paper begging you to accept a small loan.

In the bill which has been introduced in the House of Lords by Lord Newton, and which has passed its second reading, becomes law, there will be a great change in the signatures of these attractive letters. Lord Newton has set himself to deal with the professional money lending evil, one of the most difficult and persistent in England today; and the method which he has adopted is publicity. His bill will require every money lender to use his own name in all correspondence and furthermore would forbid him to send circulars to any one who had not asked for them. Newspaper advertising under their own names would be permitted to money-lenders.

Some idea of the extent to which aristocratic names are used by these humiliated sharks can be gained by the following list, which is taken from the files of Somerset House, where all money-lenders are compelled by the present law to register themselves. The first is the real name of the money-lender and the second the name under which he trades. Eliza Abraham—E. Graham. Henry Abraham—H. and S. Russell. Abrahams & Marks—Rosilyn Stuart. Josiah Abrahams—Rosilyn Stuart. Abrahams—Henry Maxton, Stuart. Agnes Abram—Henry Arthur Pearson. Jacob Baron Cohen—E. Charles. Jacob Baron Cohen—Henry Lawrence. Jacob Baron Cohen—George May. Benjamin Cohen—H. and S. Russell. Daniel Cohen—John Fletcher. Edward Cohen—T. Cowan. Jacob Cohen—E. S. 8d. for one month which is equivalent to the use of £7, 19s. for a year. But he has paid £8 for the accommodation, which, of course, works out at more than 100 per cent.

It is said that the London money-lenders are not content with trading in the West End clubs who cater on a young and foolish son of wealthy parents, introduce him to a stage girl, who is well paid for her work as a decoy, and who runs him heavily into debt for jewels, dresses, etc., which are supplied by other members of the gang. It is possible that the king could reject the advice of his constitutional advisers and refuse to give his signature to the bill. Things will proceed, I believe, with rapidity next year. The home rule bill, which will be early in February, cannot take more than three or four days altogether and it is possible that it may be in the House of Lords towards the end of March or the beginning of April. There is an idea that the House of Lords may attempt some postponement of the measure by dilatory or obstructive tactics, but I don't know that. Their Lordships have yet another bill in going, once it is clear that the bill is going to pass into law. It may be taken then that the bill will become law on June 11, 1914.

Then will come the stage of reconstituting the new administration of Ireland. The period during which that can take place is represented by a minimum and maximum in the home rule measure. The minimum is one month after the royal signature has been given, the maximum is fifteen months. It is quite possible that the minimum will suffice. By that time, the Irish office will have got through all the parliamentary arrangements, including the many documents necessary. The first thing of course to be done in reconstituting the new administration is to appoint a provisional executive. This executive will hold office until the new parliament, and will, of course, re-

HOW HOME RULE WATER NOW STANDS

Bill on Statute Book Next Year, Writes T. P. O'Connor—Rapid Action Then and Redmond First Prime Minister of Ireland

(By T. P. O'CONNOR, M. P.) London, Aug. 7.—It is now admitted practically by everybody that the home rule bill will find its way next year to the statute book. This involves the beginning, at an early date of all the preliminary arrangements for setting up the new system of government in Ireland. This is a complex and a laborious operation. Innumerable forms have to be drafted, offices have to be reorganized to meet the new conditions, proclamations have to be prepared, many important details have to be fixed. It is well then that the bill will find its way to the statute book in the next year.

And first it is necessary to correct a widespread error. Many people are under the impression that the House of Lords has rejected the bill when they have only refused to give their signature to it. They can either reject or accept or amend it. It may be taken then that the bill will be introduced next year. The home rule bill, which will be early in February, cannot take more than three or four days altogether and it is possible that it may be in the House of Lords towards the end of March or the beginning of April.

POET SPENCER HEARS FROM AN OLD FRIEND

Writing from Tokio, Japan, to his old friend, H. L. Spencer, on receipt of a copy of Mr. Spencer's poems, The fugitives, Rev. C. K. Harrington, himself a poet, says:— "The volume of your poems which I have read with much pleasure, and I am very glad to be able to add it to the small collection of Canadian poets which I have in my library. It is a pleasure to see your poems collected and published in so suitable a form. The poems have a musical sweetness and softness which appeals to one who sometimes writes in the sweetness of friendship which many of them exhibit; for a delight in nature and in friendship forms very large part to me of the value of life."

Dr. Harrington enumerates a number of poems and sonnets which especially appeal to him. Referring to Mr. Spencer's advancing years (he is 84), Dr. Harrington writes:—"If the shadows lengthen and hide some of the beauty of the world as the sun dips down the west, I pray it may only be to bring out in fairer colors the glory of the coming sky. Tennessy is still to come, and that it is our privilege to like what we may call his little swan song."

THE PINES OF KOSE (Written for a very young lady, over-seas.) "It is fresh and sweet in Kose wood This golden August weather; So smilled the world and life was good; When walked we here together. The careless hours tripped light along Till evening's stars were seen; And all the birds made vesper song. Amid the pines of Kose. The trees their solemn sages said, The semi-shaded to cheer us; The jays flew screaming overhead, The squirrel chattered near; Beneath the wide boughs' grateful shade, Where close we sat, and cooed, The butterflies about us played, Amid the pines of Kose. A mossy mound our rustic board, No banquet hall such feast afford, Now in such goodly company, Up stole our camp-fire's fragrant smoke To kiss the branches o'er; While peered and peeped the fairy folk Amid the pines of Kose. But now for you the morning's shine 'O'er Horton's stony meadows,' While evening's penive dreams are mine In broad Asama's shadow. So take I pray, this homely bloom— This poem, this pay, It bears a woody faint perfume From 'mid the pines of Kose. Our hearts may have their Kose woods, Or here or there, God's planting, Where tranquil summer ever broods, And happy birds are chanting. When drea December sulks and lowers, And earth grows poor and prosy, We'll live again those shining hours, Amid the pines of Kose. "Grand Pre, the Home of Evangeline."

Potatoes and Berries on the River Steamers—News of the North End

Great quantities of potatoes are coming down the river boats this season and are now selling for fifty and sixty cents a bushel, and in some cases potatoes are reported to be of exceptional fine quality this year and of good size. Peas are still coming quite plentifully and have been selling from \$1.25 to \$1.50, while for beans they are asking from seventy-five cents to \$1 a bushel.

With the small fruits, raspberries, which are not as plentiful this year as formerly, have been bringing fifteen cents a box by the crate. Blueberries are exceptionally high at twelve cents.

Attention is drawn to the conditions of the sidewalk on Douglas avenue, near the Suspension Bridge. There is a complaint that because of the tearing down of a building there the walk is so obstructed that people have to take to the roadway.

The local Brotherhood of Railway Trainmen met in Temple building in Main street last evening to welcome James Murdoch of Toronto, grand officer of the Brotherhood, who is in the city on his annual tour of inspection.

Mrs. WILLIAMS ELIAS, London, Ont., writes: "My little girl had Diarrhoea so bad that nothing would stop it. In fact she got so bad she passed nothing but a thickish blood. I even steeped raspberry leaves, but all to no purpose, until a neighbor told me to try Dr. Fowler's Extract of Wild Strawberry, which I did, and with such good results that after four or five days she was quite normal again. I would not like to be without it. I used it when we were in Saskatchewan too, for we could not get without it out there."

Dr. Fowler's Extract of Wild Strawberry has a world wide reputation for the cure of all Summer and Bowel Complaints. THE GRAIN CONVEYORS

A letter was yesterday received by Commissioner Schofield from Mr. Vaillette, inspecting engineer of the Dominion Public Works department, Ottawa, saying that that department had received tenders for the construction of grain conveyors to No. 5 and No. 6 berths, and the matter of letting a contract was now before the government.

He said if a contract were given the understanding would be that the conveyors must be finished before December 15, which Commissioner Schofield thinks would be in plenty of time.

F. W. Wickensham, grand regent of the Royal Arcanum, and Hon. B. N. Nead, deputy supreme regent, who are in the city, were entertained to a delightful cruise up the river this morning on the steamer Majestic, they were accompanied by a committee from the local council and left Indiantown at ten o'clock and expected to return about six o'clock this evening.

At a representative gathering of the order held in their honor last evening a hearty welcome was extended to the visitors by Mayor Frink on behalf of the city, and Commissioner Wigmore, Geo. Kimball and V. A. Ramsay also made addresses, to which the visitors replied. About sixty members were in attendance. The visitors will be shown round the city tomorrow after church services and will leave on Monday for Bangor.

He is expecting that the big dredges to leave Southampton on next Tuesday for here under their own steam and is carrying her own crew.

ENGLAND'S GREAT EDUCATION SCHEME

(Continued from page 9).
A deputation of the International Cotton Federation waited upon the Marquess of Crewe, Secretary for India, at the India Office the other day to urge upon him the importance of encouraging the growth of cotton in India. The deputation, which was introduced by Sir Charles Macara, president of the Federation, included Herr C. O. Langen, Germany; M. C. Berger, France; M. J. de Hemptine, Belgium; S. Wantanabe, Japan; S. M. Johnson and J. F. Idury, India; J. B. Tattersall and J. McConnell, England.

the most prolific producer of the staple. The Indian crop this year, it was expected, would be worth \$250,000,000. Some improvement in quality and quantity was already manifest, and he attributed it largely to the educational work of the last few years, which had brought about better co-operation among governments, growers, spinners, and manufacturers. The present cotton crop was three times greater than the crop of forty years ago, but if the demand for cotton goods was to be adequately met the cotton fields of the world must be enlarged at an even greater pace than had been the case in the past.

many used six times more than England. Lord Crewe said it was satisfactory to notice, by the admission of more than one of the speakers, that in their belief some progress had been made in the promotion of cotton growing in India. They would recognize that the government of India had tried to do what it could. As regards large and immediate expansion in the growth, it was recognized that certain qualifications must be admitted. It was not reasonable to ask the Indian cultivator to displace other crops by cotton unless the cultivator could be definitely assured that the cotton crop would be more lucrative than that of which it took the place. Of course there were other means of expansion, such as the use of land which had substitution of a superior for an inferior quality of cotton. He was glad to admit that something substantial might be hoped in the direction of an increased output, and he

Alice Lloyd Refuses \$1,500 a Week
She May Follow English Circuit Next Season—Eva Tanguay Willing to Take \$2,000 Every Seven Days—The Pink Lady and Other Great Shows Coming

There is talk in London that Tom McNaughton is proposing to place Alice Lloyd, who was in St. John last year at the Opera House, out next season in a vaudeville road show on the other side. The Orpheum Circuit is reported to have offered Miss Lloyd a return engagement over its line next season, a salary of \$1,000 weekly. She declined the offer.

There is reason for becoming interested in the cast with which William A. Brady will present Believe Me, Xanthippe, Frederick Ballant's comedy, this month. Frank Campeau has been engaged for the desperate and Theodore Roberts for the sheriff.

Dallas Welford and Crawford Kent have been engaged by the New Era Producing Company for the forthcoming production of the musical play, *Adels*, which opens at the Longacre Theatre on Aug. 28.

Miss Alice Moffatt, the charming impersonator of the frolicsome *Angie* in the international musical comedy, "The Pink Lady," was born in Edinburgh, within a stone's throw of Princess Street Gardens, and in sight of the castle go dear to all loyal Scotch folk.

Edna Goodrich, who has been abroad for three months, returned this week to New York. She hesitated to discuss a report that she is to be married on New Year's Day in London.

Charles Hawtry was the first star from the legitimate stage to receive in check the advance of modern vaudeville class, but the scale of prices will range from five to twenty-five cents, while such magnates as Keith, Proctor and Hammett will undoubtedly raise their admission scale to that which is adopted by the best legitimate theatres and present programs of uncommon strength which, when compared with those given by them, will seem extraordinary indeed.

Lillian Russell for several years had been sought by every manager and agent in America. Mr. Proctor, however, secured her at a salary of \$8,000 weekly. The same Lillian Russell appeared for a few days at the Metropolitan, but in the spring of the following year, after she had become a star in musical comedy, she was paid \$2,000 for a similar period.

THE ACTRESS AND THE SIXPENCE

(London Life.)
Miss Edith Craig, the talented daughter of Ellen Terry, who has made her fame as actress, costumer and writer of stories, is one of the most unassuming women in the theatrical profession. She shares her stage name, Ailsa Craig, with a rocky island off the coast of Scotland. Ailsa Craig will not talk much about herself; most of her stories are about her famous mother. She stayed once—under her stage name—in a little boarding house where some people were getting up private theatricals.

Popular Mechanics says:—"A prediction may safely be made that in the near future provision will be made for moving pictures in the home. When a man decides to build a house to cost, say \$25,000 or more, the architect will plan the picture room, in which the family and their guests can enjoy a select program of latest productions. It may be in connection with a dancing room, or it can be accomplished in much less space.

TRAGEDIES OF THE STAGE

Actors Fatally Shot and Stabbed While Amusing Their Audiences
(From a Foreign Exchange)
The serious of matinee recently given at the Court Theatre in London marking the recovery of Victor Willshire from a severe wound sustained during a stage duel at Southampton, is a reminder of Fate's fondness for imparting a spice of reality to theatrical make-believe tragedies. It may be recalled that during "The Miracle," at Olympia, there was an accident of the sort that nearly proved fatal, the dagger of the king (G. Kenneth) only just missing the eye of his masked brother (H. de Handt) and making a very nasty gash on the latter's cheek; and in Paris a few years ago a music hall assistant, whose business it was to stand still while articles were sent flying from his head by the well-aimed bullets of a "crack shot," was unfortunate enough to receive one of the missiles in his eye, with immediately fatal results.

At Kettering, in 1907, two actors playing as brothers at deadly enmity in a play called "The Siege Hammer," quarrelled fiercely in the dressing room just as the curtain was about to rise, and one was stabbed in three or four places. There was also no make believe in the stage duel with knives between the two actors in the Chinese theatre at Yolo, Cal., in 1884. But the audience of miners did not know that at first, and cheered frantically at the magnificence of the "acting" until the blood began to soak the boards. The cause was a love quarrel, and one of the actors died of his wounds.

"Movies" In the Home In Near Future

Popular Mechanics says:—"A prediction may safely be made that in the near future provision will be made for moving pictures in the home. Another new industry which will soon come into existence in all the larger cities will be film photography. Children's birthdays, garden parties, weddings and other functions which, in later days or years, recall pleasant memories will thus be perpetuated by the film photographer. He will eventually be considered as much a necessity as the most acceptable wedding presents in days to come from parents to bride and groom, as well as a necessary part of showing the children as they advanced from infancy to high school days. As a feature of the wedding festivities the pictures will afford amusement."

Irene Hunt, former leading woman with the Lubin Western company, who has been engaged by the Essanay Company in a picture, has fully recovered and is playing leads with the Reliance Company.

Laura Sawyer, a popular Edison leading lady, has been honored by election to the motion picture chapter of the Gammage, a well-known college society. As only a very few of the well-known stars have been chosen by the society, Miss Sawyer's election is a commendation upon her popularity.

Richard C. Travers, who has been engaged by the Essanay Company, has had plenty of experience on the stage and in pictures. After two years with the Lubin Company, he left to play an engagement in Chicago, in *Evil*. Among other plays he has appeared in are—*Alias Jimmy Valentine*, *Girls Making Good*, *A Gentleman of Leisure* and *The Gamblers*.

McKay, a comic artist with genuine imagination, again revealed his motif picture of a mosquito's gay career, film was made from 6,000 drawings, photographed in succession. The nature of little Nemo was almost equally entertaining.

Warren Chaudler Brown, treasurer of the United Motion Picture Corporation of Boston, figured in a romance that would have made a good film for his concern. He is the son of a wealthy Salem shoe manufacturer and eloped with a waitress of the Hotel Needham, Lawrence, after a courtship of five weeks. She was Florence Wright.

Brown went to Lawrence to superintend the making of some films and while there met Miss Wright. They were married in Salem, N. H.

The biggest laugh at Hammett's Theatre, last week, came when Winsor McCay, a comic artist with genuine imagination, again revealed his motif picture of a mosquito's gay career, film was made from 6,000 drawings, photographed in succession. The nature of little Nemo was almost equally entertaining.

Gladys Hulette, whose delightful performance of *Beth* in Little Women will be remembered, has returned to the Edison studio and is soon to appear in some prominent roles. Miss Hulette, though a very young girl, has had valuable experience, playing among others, with Madame Nazimova, Bertha Kalbh, and Henry Miller. Her portrayal of *Ivan* in *The Doll's House*, *David* in *The Kreutzer Sonata*, and her presentation of the long and difficult role in *The Blue Bird*, stamp Miss Hulette as being accomplished far beyond her years.

business, aspiring to take the place vacated by policy when that vile fraud was killed after a fight of almost ten years.

Toren insists his profits have been nominal, but there is reason to believe that a veritable flood of money has been rolling into his office.

The baseball pool operated by Toren is almost identical with others being run in various parts of the city.

A score card on which are spaces for the total runs of a series of each of the eight teams in four leagues, the National, American, International and New York State.

The buyer of the chances is allowed to select, or is assigned, one team in each league, and at the end of the week, if his combination shows the highest number of runs of the thousands that are possible, he is in line for a large money prize.

Various other prizes beside the big prize are held out as an inducement. As the case of other operators of the baseball lottery, Toren depends upon the pretext that the buyer of the chance is "subscribing" to the "information service" of the Metropolitan Baseball Information Bureau.

The Cincinnati Hit. The so-called "Cincinnati base hit" has received a thorough test this season, and according to leading baseball managers and players it is a scoring absurdity.

The fans have seen this play come up frequently, and also have heard it generally ridiculed. Frank Chance from the outset declared that the abolition of the time honored "fielder's choice" was a mistake, and during the recent western trip of the New York Americans he became doubly convinced that the rule was a joke.

Chance, in discussing the rule, said yesterday: "In one of our games the enemy had three men on bases with one out. A baseman hit a grounder to an infielder, playing in and the ball was thrown to the plate for what should have been a sure force out. Gossett dropped the ball, however, the runner scored—and the batsman received credit for a hit—a Cincinnati hit—which was an injustice to our pitcher, and saved Gossett from a fielding mistake which helped to lose the game. At least that was the way the official scorer recorded the play in his book, obeying the rule."

The Royals. Montreal, Aug. 8.—President Lichtenhein, who has some deals in view, was in Toronto on Wednesday with the Montreal club. Before leaving he admitted he had received an offer of \$50,000 for Gilroy, and had turned it down.

He did not like the offer, and he would not sell Gilroy for \$50,000, unless he could get a certain sum, and two players. "If I sell Gilroy we will lose Frank Smith, or Burns by trade, if a good offer is not forthcoming I shall stand pat and take a chance by losing one for the draft price (\$25,000), and save the others for next season."

While away the president will try to get a pitcher to replace Geo. Mullin, who left town on Saturday morning without giving notice. Mullin's only grievance was that he was kept on the bench. He will probably be sold to some other club.

Joe Boehling. Frank Chance believes Joe Boehling, Washington's sensational southpaw youngster, who won eleven games in a row, will not last long in the big leagues.

"Four out of five balls he throws are curves," says the P. L., "and he will be all through in a couple of seasons. It doesn't matter how strong he is, no body can confine himself to curves and stay up here. I've seen a lot of them head into the big leagues and curve eight out of every ten balls, and in a year or two they were back in the minors. Griffith might as well use him all he can now, for he won't have him to use many seasons."

Bedient in Trim. Boston Globe, Thursday:—Hugh Bedient pitched a great game against the Browns yesterday, and won it easily. He received a bad bump on the middle finger of his pitching hand in trying to stop a hot shot from Pratt's bat, and the crowd let out a groan when, for a moment, it looked as if he would have to go back to the hospital contingent from which he escaped so recently. He went through the game, however, and finished strong.

If no bad results come from the crack he received yesterday, Bedient will be pitching in his old-time form the next, or the second next time out, which means alright ball. He has been under the weather all summer, and up to within a short time has suffered greatly from boils. He is coming along

Overwhelmed. New York, Aug. 8.—The Australian cricketers began a two days' match against a West Indian eleven at Celtic Park, Long Island, today. When stumps were drawn, the Australians had nine wickets down for 212 runs. They had disposed of the West Indians for the small total of thirteen runs in their first innings.

Owing to the roughness of the field a broad strip of matting was laid between the wickets so that neither batters nor bowlers had any advantage.

MANAGERS MAY NOT HOLD THEIR PLACES

Rumors of wholesale decapitations among crowned baseball heads in and about Chicago are rife just at present.

Not only is Johnny Evers, manager of the Cubs, marked for the slaughter, but so is Jimmy Callahan, the leader of the White Sox. Tom Chivington, president of the American Association, is also walking in the slippery places.

The stories concerning Evers have been going the rounds for some time, but the Callahan and Chivington reports are of a more recent vintage. The leader of the White Sox has been getting the portion of all managers who fall into a losing streak, and he has become unpopular with the "fans" especially out in the caustic bleacher sections.

The famous "comeback" is being criticized for the methods he uses in handling his men, thereby causing much dissension on the team. It is generally felt that the White Sox, with such stars as Chase, Lord and Russell, ought to be fighting up in the forefront of the battle instead of trying to keep out of the second division. Comiskey has had nothing to say about the stories, and as he is well experienced in the ways and wherefores of baseball, he is not likely to yield to popular clamor if he is convinced that Callahan is a good manager.

The case of Evers is somewhat different, and while Murphy professes now to be thoroughly satisfied with Johnny, it is known that he considered the Cubs at the beginning of the season to be capable of winning the pennant, provided the team was properly handled. After the Chance episode of last summer little stock can be taken in Murphy's protestations of good faith. While he will be loath to remove Evers as long as the Cubs have a chance to win the pennant, it would not be surprising to see the second baseman deposed after some time has elapsed.

Refreshments were served towards the close. During the evening grand lodge delegates were chosen as follows: Mr. and Mrs. M. N. White, Mrs. E. N. Stockford. The grand lodge will meet at the Narrows, Queens county, towards the latter part of the month.

EXAMPLE FOR ST. JOHN
Amherst News—Seventy-five boys were swimming in the swimming hole yesterday. Half a dozen boys were advanced to C Class. Don Cameron and Arthur Aresneau fulfilled the requirements for A Class by swimming ten trips across the pool. Mr. E. Baker has very kindly consented to allow the West Highland boys to make a swimming hole in his brook. The boys are busy at work this afternoon and expect soon to have a place for the little fellows to learn to swim. It is planned to screen the pool in with some form of a fence so that the boys may have a pleasant trip here as long as they behave themselves and are orderly.

LADDER FALLS; MISS O'NEILL'S ARM BROKEN
Friends of Miss Katherine O'Neill will regret to learn that she suffered a broken arm yesterday when a ladder which had been in use in the Cathedral, fell and struck her, inflicting the injury as stated. She had been in the Cathedral and was just leaving. Dr. Fleming attended her. Miss O'Neill is said to be a little improved this morning, at her home in Richmond street.

ROBBERY OF STORE IN SPAR COVE ROAD

Daylight Thief Takes \$27 From Till and Leaves \$1 and Some Silver

A very bold robbery took place in the grocery store of Miss Minnie McGinley, in the Spar Cove Road yesterday between 12 and 2 p. m., when a thief or thieves entered her store in broad daylight and took \$27 out of the cash drawer.

Miss McGinley had been in the country for a few holidays and in her absence she had a young girl, who lives at her house, tending the store. The store door has a bell on it, which rings whenever anybody enters the shop, and attracts the attention of whoever in the house is tending store.

Yesterday the young girl had been in the store, and heard nothing out of the usual, but when Miss McGinley came home she found that the cash drawer had been rifled and \$27 in bills taken. The thief had apparently been in a hurry, as a \$1 bill and some silver were left in the till.

BANCH OF SOCIETE DE L'ASSOMPTION HERE

Organization Completed Last Night With Jean E. Leger as President

A movement which has been under consideration here for some little time was brought to a successful issue last evening in the rooms of the Keith suite, when Branch Monseigneur A. E. LeBlanc, of the Societe Mutuelle de l'Assomption was launched with an encouraging membership and an active list of officers. It is a branch of a well known society of the same name which has for years flourished amongst French Catholics throughout the United States and Canada.

At the meeting last evening there were about sixty present, some of whom were members of the society in other places, but will probably transfer here. The charter roll of the local branch will number something more than twenty. Jean H. LeBlanc, of Pittsburg, grand organizer of the society, was present at last night's meeting and gave an excellent address. He is passing through to Charlottetown, N. B. on a branch there. Others who delivered interesting addresses were Rev. Alphe Gaudet, Jean E. Leger, Alphe Babin, and Paul Bonneau.

The election of officers resulted as follows: Jean E. Leger, president; Paul Bonneau, chancellor; A. J. Babin, vice-president; Frank R. LeClair, secretary; D. LeBlanc, financial secretary and treasurer; and Thadde LeBlanc, Cyrille Chaisson, and Edmond LeBlanc, members of the executive. Rev. Father Gaudet, subject to the approval of the bishop, was chosen as spiritual director. The society will meet for the present in St. Malachi's hall.

MAY EAT MEAT ON NEXT FRIDAY

It is only on a rare occasion that the Catholic people throughout the world are permitted the use of flesh meat on Friday, and the coming Friday, August 15, will be one of these times.
The New Freeman says over the signature of His Lordship Bishop LeBlanc that "By special dispensation of the Holy See the Catholic people of this diocese are permitted the use of flesh meat on next Friday, August 15, the feast of the Assumption of the Blessed Virgin Mary."

GRAND TRUNK STATEMENT AND SOME LONDON COMMENT

London, Aug. 8.—Commenting on the G. T. R.'s monthly statement as financial correspondent of the Daily Mail says that, despite all protests, the directors persist in their policy of issuing monthly statements which are utterly useless as an indication of profits available for shareholders.

Whereas the monthly statements up to the end of May showed an increase of \$126,882 to net profit on the main line and gross receipts for June showed an increase of \$28,000, the statement for the half year shows an increase of only \$74,000 in the main line net profits and, after allowing for deficiencies from subsidiary companies and for prior charges, the surplus available for dividend is merely \$20,000 more than a year ago. Thus, there is practically nothing for the third preference stock.

IN THE MARKET

There was rather a slim market this morning, as the farmers are busily occupied just now getting in their hay while the fine weather lasts.

Lamb was the most abundant meat, and showed a decline in price from last week, selling at from 12 to 15 cents a pound. Beef brought from 12 to 15, veal from 10 to 18 and pork 18 to 20. Chickens were scarce and rather small. They were also dear at \$1.70. Fowls sold from \$1.25 to \$1.75.

Beans and peas are now coming in in large quantities and the price is rapidly going down. Beans sold at 45 cents a peck and peas at 35.

There was a large amount of other garden vegetables for sale. Carrots, beets, lettuce, radish, and onions all brought 5 cents a bunch. Cabbage brought from 5 to 8 cents, cucumbers 5 cents each. Native tomatoes are becoming more plentiful. This morning they sold at from 12 to 15 cents a pound. Swedish turnips went at 30 cents a peck and small white turnips at 5 cents a bunch. Butter and eggs ranged about the same as last week, butter bringing from 25 to 30 cents a pound and eggs from 25 to 30 cents a dozen. Berries were scarce. What blueberries there were sold at 15 cents a box. Raspberries in three quart pails brought 50 cents.
