War Has Shattered Old Party Lines in Britain

Political Conditions Never so Chaotic as They Are Today

Coming Elections to Decide Whether Country Will Permit Lloyd-George to Carry on Work of Reconstruction; Six Million New Female Voters a Big and Uncertain Factor

London, Nov. 14.—The issue in the coming elections is whether the country will endorse Lloyd George's proposal that at the present coalition government, with himself as premier, shall be continued after the war for the work of making peace and carrying on the labor of reconstruction. Never before British political conditions have been so chaotic as they are today. The war has shattered the old party lines.

The electoral reform bill adopted by parliament during the summer of 1917, virtually doubled the number of voters. It gave the ballot to all women over 30, men over 21, and soldiers and sailors under 21. This added 6,000,000 males and 2,000,000 males to the voting lists. How the women will vote and what parties the soldiers will support none can predict.

The prospect of plunging the country into the excitement and expense of an election at such a time as the present has excited strong opposition. On the other hand, the legal life of the present house of commons expired three years ago, and it has extended its own tenure of office from term to term by resolutions. This has been an informal proceeding which would have been impossible except that it had the endorsement of public opinion, because no one wanted an election during the great war.

As the new voters will be entitled to take part in choosing the government, Mr. Lloyd George has before him the difficult task of trying to keep together that majority of the Conservative party which supported his war measures and enough Liberals to give him a balance of power. The decisive factor will be how many Liberals will follow him and what the Labor party will do.

No Organization Behind Him. Herbert H. Asquith remains the official leader of the Liberal party, while Mr. Lloyd George has been elected without any party organization or party funds behind him. He wishes to continue the coalition which all parties declared at the beginning of the war, and trusts to the slogan that he is the "leader who won the war" to attract voters.

The program of his followers is apparently to nominate Lloyd George Liberals in all districts where the regular Liberal candidates will not endorse the premier's plan. This is a serious situation. It means a split in the Liberal party, which will have to decide whether the Lloyd Georgians or the Asquithians control it. How many candidates the Labor party will nominate and how many votes it will muster is an uncertain situation.

So far as Ireland is concerned, the election probably means the almost total disappearance of the old Nationalist party of Redmond, leaving the Sinn Feiners in the center. The Sinn Feiners are expected to sweep Southern Ireland, but he members elected by the Sinn Feiners always refuse to take their seats.

In addition to trying to hold together his Conservative and Liberal supporters, Mr. Lloyd George is trying to reconcile the Asquith faction. Mr. Asquith could have had a high seat in the present cabinet if he would have accepted it. There were two obstacles, however, home rule and protection. One of these the Conservatives will not have, and the other is objected to by the Liberals.

FRANCE DOES AWAY WITH POLITICAL CENSORSHIP. Paris, Nov. 14.—It is understood that there is to be no further political censorship on press dispatches leaving Paris, and that there is to be full recognition of the principle of open diplomacy. Premier Clemenceau has expressed himself positively in favor of being the freest of press telegraphic facilities now that military precautions are unnecessary.

Y., secretary of the National Association of Professional Baseball Leagues, who today closed up affairs of the annual meeting.

ST. JOHN HAS DONE WONDERS BUT THERE'S A CROWN TO BE WON; NOW FOR THAT LAST \$600,000

Victory Loan Committee Confident Of Success In Attaining Super-objective If The Citizens Will Stand Behind Them; Small Amounts Will Do It If There Are Enough Of Them

With their primary objective realized and the goal of their ambition in sight the Victory Loan committee are striving to secure \$600,000 in small subscriptions in the remaining short time before the drive is terminated. The grand total of the city and county of St. John is estimated to be \$5,520,000, and if St. John can get a crown for their honor flag they will make a showing second to none in Canada.

In the city proper, Lansdowne ward continues to forge to the front and these committee men are the sensation and, in reality, the dark horses of the big campaign. Their objective was \$160,000, but they have more than doubled that amount and are out to lead the city in round figures as well as applications. Queens ward is leading with \$440,000 odd, but Lansdowne is after them, and from the smile of John C. Chesley, he seems confident of running a great race. Like all men after big things he is not saying much but doing a whole lot.

Lorne ward and Brooks ward went over the top today, and the county went over a few nights ago. The county's objective was \$93,000 and they had up to last night \$99,000. The firm of E. Leonard & Sons, of London, Ont., through their local agent, G. H. Evans, this morning subscribed \$10,000 towards the local campaign.

MORAL REVOLUTION NEEDED BEFORE HUNS CAN BE NEIGHBORS

Paris, Nov. 15.—Germany must undergo a moral revolution as well as a political upheaval before she can be admitted to a league of nations, says Leon Boulogne, former cabinet minister, who is president of a commission recently appointed to study the plan for a great combination of states for the future.

"The universal war has demonstrated to all nations the necessity for an international constitution," he says. "This would assure to each nation the sanctity of its rights. Diplomatic and judicial measures could place a discordant state in intolerable solitude, and not only the state, but its citizens would suffer. President Wilson has admitted the legitimacy of economic penalties and hinted that they might possibly be used against the central empire."

"If this weapon should fail, there would remain international military intervention. But economic measures, which would deprive a country of raw materials and interrupt land and sea transport, would be sufficient to crush resistance."

QUEBEC WILL DO ITS PART TO BRING ABOUT CANADIAN UNITY. Toronto, Nov. 14.—Declaring that the province of Quebec will do its duty in the future in bringing about national unity in Canada and at the same time strongly condemning the national leader, Henri Bourassa, for his "scoundrel and shameful course" in the last few years, Lieut. Col. Desjardins, of Quebec tonight delivered an address to members of the Ontario committee of the "Bonnie Entente" at a dinner in the national club.

"We have done our best to help win the war," he said, "we have now to undertake with equal courage to solve the new numerous and difficult problems sure to be the outcome of the restoration of peace."

America Must Share In the Responsibility And Take Up Her Burden In World Politics

Close Co-operation Between Great Britain and America Best Guarantee for Peaceful Development of Civilization, says General Smuts

London, Nov. 14.—(Reuter's Limited)—Lieutenant-General Christian Smuts entertained a party of American editors on behalf of the government tonight. Addressing the guests he said that the greatest and most fruitful fact of the great war had been the coming together of Europe and the United States.

"Old Europe is dead, and a new world is slowly emerging," he said. "In the upbuilding of this new world the co-operation of America is essential. It is for the good of both America and Europe that the former henceforth take an active share in the councils of the old world and take up her burden in world politics. America has become jointly responsible with Europe for the new order which will arise from the ruins of this war. America and Great Britain are bound to the same great principles and ideals. Their close co-operation henceforth will form the best guarantee for the future peaceful development of civilization."

Helping Hand Needed. Not only the liberated territories of our Allies, not only our small neutral neighbors, but the enemy countries themselves require our helping hand. Let us extend it in all generosity and magnanimity. The idea of organizing food supplies for these lands will help to purify an atmosphere cursed with war, hate and untruth. It would all have been so much easier if Germany had fought a clean fight and not stained her hands with such crimes, but even so we must be influenced by the larger considerations.

A Call to Humanity. "We must feel that in the call to common humanity there are other purposes besides the prevention of war, for which a league of nations is a sheer practical necessity. One of the first steps must be to create an organization against hunger and ration in all the countries where disaster threatens."

"The existing inter-Allied machinery, which is the nucleus of a league of nations, probably will undertake this task. At this period of reconstruction after the war, all countries, Allied, neutral and enemy, will have to be rationed for certain raw materials. Here again international machinery is necessary. We thus are making straight for a league of nations charged with the performance of these international functions."

More Danger of War. "Then, as regards the primary object of the league, from Finland to Constantinople, the map will be covered with small nations divided by profound antipathies and most of them with minorities conducive to internal weakness. We may, therefore, expect more dangers of wars in Europe than in the past. Therefore it is imperative that we create an international organization to keep peace."

Scope of the League. "The league also would be useful in solving other problems. For instance, when the league is established, America ought to be asked to act in some trouble in Turkey or Russia on behalf of the league which would give her general directions. Or take the case of the former German colonies. Some of them must fairly and properly be given to the British dominions who conquered them and for whose future development and security they are necessary. But there may conceivably be others which the Allies, while refusing to restore them to Germany, as they cannot force what course the future development of Germany might take, might transfer to certain powers until their ultimate disposal is settled."

Probably other knotty territorial problems could be deferred in the same way. The task will be as difficult as it is great, but where the United States joins hands with Europe and Great Britain in attempting to solve it, I have no doubt a solution will be found.

The age of miracles is never past. The history of South Africa since the Boer war bears immortal testimony to the wisdom of a policy of conciliation. If the victors of this greatest of all wars imitate the temper of Great Britain that occasion I have hope that the bitterness of this war may lead to a great reconciliation of peoples in the future, perhaps even to the disappearance of war."

SOCIALISTS STORM AUSTRIAN PARLIAMENT BUILDINGS IN VIENNA. Paris, Nov. 14.—Socialists stormed the Austrian parliament buildings in Vienna Wednesday and tried to enter the chamber where the new state council was in session. Shots were fired before order could be restored and twenty persons in the crowd outside the building were injured, according to despatches reaching here. President Dinghofer denied that the firing began from the parliament buildings.

The new national flag of three bands, red, white and red, was hoisted over the building, but soon afterward some one removed the white band and the crowd cheered the red flag. A party of Socialists occupied the offices of the Neue Freie Presse and brought out special editions advocating the establishment of a socialist republic, as in Germany.

ROME WELCOMES VICTOR EMMANUEL

Rome, Nov. 14.—All Rome turned out today to welcome Victor Emmanuel, the king, who had been at the Italian front since the beginning of hostilities. From the railway station to the Quirinal there was one black mass of cheering people.

The king drove to the palace in an open carriage. After his arrival here he was found to arrive at the windows several times with the queen, in response to the continuous storm of applause from the crowd.

THE POPE AND AUSTRIA. Rome, Nov. 15.—Pope Benedict has written a letter to Cardinal Gasparri, the papal secretary of state, in which the pontiff says:

"We pray that the question between Austria and Italy will receive a solution confirming the just aspirations of the peoples."

The pontiff's letter continues: "We have given instructions to the nuncio at Vienna to put himself in friendly relations with the nations of Austria-Hungary which are now being constituted into independent states."

SPAIN REAFFIRMS HER FOREIGN POLICY. Madrid, Nov. 15.—(By the Associated Press)—At the first meeting of the new Spanish ministry, held early this week, it was unanimously decided, after an address by Premier Romanones, to continue the policy which was initiated in 1902, and re-affirmed in 1907 and 1913.

The ministry has issued a note saying that the new government will be directed in a democratic spirit and guaranteeing that order will be maintained throughout Spain.

The foreign policy referred to in the above despatch apparently alludes to pacific agreements with France and Great Britain by which the integrity of coastal and insular and colonial possessions in the east Atlantic and Mediterranean were mutually guaranteed by the three countries. This foreign policy of Spain was considered a step aimed against German aggression. In 1907 the signing of a treaty between Spain, France and Great Britain carrying out the above objects was looked upon as the foundation of a future United States of Europe.

REPORTS UNDER COMPENSATION ACT IN TODAY

Last Minute Rush of Employers to File Statements

BENEFITS FOR EMPLOYEES

New Law Provides Liberal Allowance While Suffering from Injuries and Lump Sum or Pension in Case of Death

There was a crush of employers of labor in the office suite of the workmen's compensation board atop the Pugsley building this forenoon striving to get statements of wages, etc., filed before the expiry date, which is today. The act provides for a fine of \$20 per day for delays in making returns and unless reasonable explanation can be made the fine will be collected, the chairman, J. A. Sinclair, said.

This workmen's compensation act is somewhat new to the people of New Brunswick, although every other province in Canada, excepting our own and Quebec, have been having the advantages of it for some time. The filing of statements of wages now being made by all employers of labor in the province is the first step. As the act goes into operation on Jan. 1, 1919, officials have their work cut out to get ready to shape before claims for compensation, etc., commence to come in.

However, Mr. Sinclair has his staff well organized and everything seemed to be running along smoothly and with dispatch this morning, giving evidence of a thoroughly business-like establishment and creating a splendid impression with many representatives of important industries with whom the board officials had conferences.

What the Act Will Give

The Workmen's Compensation Act is clothed in legal technical and legal language that many citizens are yet not quite clear on its contents. It provides money compensation amounting to 65 per cent of a man's or woman's wages during a period of idleness enforced by injury sustained while at work. The lowest compensation paid will be \$6 per week and the highest is based upon a maximum salary of \$1,500.

For instance: No matter how low a wage a person may be earning they will at least get \$2 weekly if hurt while on the job. On the other hand the board will not attempt to pay 55 per cent of any salary higher than \$1,500. This makes it necessary for employers, when making their statement to the board, to pare the salaries of their "big" men and women down to a basis corresponding with this figure. The act is not intended as a safeguard for high-salaried people, it is a moderate wage earner's insurance.

How the Money Is Raised

Employers of labor of all kinds are legally compelled to make a yearly statement of the wages they disburse, giving the monthly pay-roll and deducting all excesses over \$1,500 salaries as above outlined. The working people, seaman, and others whom an employer may desire to come within the benefits of the act, are reported to the board. Some employers are omitting to include salaries of their office help and other non-risky jobs, so as to reduce the assessments upon employers' range from one-half of one per cent to as high as five per cent, according to the nature of the industry and the risk its employees entail. It is upon the total wages submitted for the year that this tax will be made. The money so collected will become a fund for the relief of injured workpeople.

Act Has Other Benefits

The Workmen's Compensation Act has other benefits. There will be no legal fees to pay. Lawyers for injuries sustained will be practically made impossible. The workman, or his wife, will alike be protected against total loss of income if hurt while employed and it will be necessary only for the employer to report an accident and the board's investigators will take charge, consider the case and make their award.

In case of death from accident while on duty a workman's wife or widow receives various amounts up to as high as \$3,500. The board may tender this in a lump sum or decide to pay it in the form of a pension on a basis of \$20 per month with \$5 additional for each child, up to four children. When a child becomes sixteen years of age its special share of the pension stops.

NO TONIC LIKE HOOD'S Sarsaparilla For a Time Like This, After Influenza, the Grip.

When purified blood, rebuilt strength and regulated bowels are essential in the after-effects of influenza, the grip and other prostrating diseases, Hood's Sarsaparilla has remarkable health-helping effect. It expels the poisons that have weakened and depleted the blood, causing pallor, anemia, flabby flesh and lax muscles. It is the standard blood remedy with a successful record of nearly fifty years.

Many people—it is really astonishing how many—need a fine, gentle, easy cathartic in these trying times. We recommend Hood's Pills, used in the best families, and equally effective with delicate women or robust men.

The usual reactions, due to profit-taking, set in before the end of the first half hour.

A MAGNIFICENT DISPLAY OF FURS

And what we mean by a display of furs is a great big handsome assortment, the kind you love to look over and feel quite satisfied that the fur of your liking is to be found there. Magnificence, luxuriousness, warmth and comfort are not the only considerations in choosing one's fur coat this season. There are new lines, new graces heretofore unthought of in connection with fur wraps, but indescribably lovely. The prices exclusively Dykemans'. Hudson seal coats in an amazing variety of styles from \$175.00 to \$450.00. Others in matched materials, mink, marmot, etc. Plain or in combination with other peltries, superb, exclusive models, luxurious in warmth, lavish in loveliness. Our entire lot of skins is arranged in their winter dress of furs. The exhibit is worthy of a special visit alone.—Dyke & Lemmon.

The local victory loan committee, with their energetic leader, Stanley B. Elkin, M. P., has passed their objective of \$5,000,000 and now the goal of their ambition is to have a crown placed on their honor flag.

The central committee has offered a splendid impetus to the "new drive." There are two days left in which this total will be accomplished and they say that if the citizens will subscribe \$300,000 worth in small bonds they guarantee an equal number of large subscriptions which, all combined, will make the new objective possible.

Agents of the various allied countries already are seeking large houses in Paris for their delegations. The American representation will move from the small residence which Colonel House and his staff now occupy to one much larger.

Paris, Nov. 14.—(By the Associated Press)—It is probable that the first meeting of the peace conference will be on a date before December 15, after the English parliamentary elections, and at a time which will give ample opportunity for the American and other delegates to arrive.

Allied conference, soon to be held, will finally determine the details of these questions.

Premier David Lloyd George and Foreign Minister Balfour of Great Britain, Premier Orlando and Foreign Minister Sonnino of Italy, Premier Venizelos of Greece, and Foreign Minister Pachitch of Serbia, are on their way here for a resumption of the conferences at the home of Colonel Edward M. House, special representative of the United States government.

Besides outlining the general programme, the question of meeting the good situation in Germany and Austria probably will be considered.

SOME WAR DATES.

To look at a list of some of the principal dates in connection with the great war is to review a record that was gloomy enough for the most part though it had many bright spots and finally was turned with surprising speed into the full sunshine of victory. In looking over the mile-posts the average reader will be reminded of some of the narrow corners the Allies turned in the dark days when there was grave anxiety but never despair. We know now that Germany planned the war long before it was actually begun. Secret documents secured by the United States Intelligence Department have proved that conclusively. As to the actual record, the pretext for war came on June 28, 1914, with the murder of Archduke Franz Ferdinand at Sarajevo. A month later, on July 28, Austria declared war on Serbia. On August 1 Germany declared war on Russia and invaded Luxembourg. On August 3 Germany declared war on France, and on August 4 Great Britain declared war on Germany.

The British were quick to strike after their declaration and August 23 brought the battle of Mons, followed by that marvellous retreat of the old British regular army whose glory will endure forever. September 6 saw the beginning of the first battle of the Marne—one of the shining days of the whole war. On December 8 the British destroyed the German squadron at the Falkland Islands. At the close of that year, on December 24, came the first German war raid on England.

In 1915 the German submarine blockade of the British Isles began, on February 18. On the next day the Allies made a naval attack on the Dardanelles, which was followed soon afterwards by the tragic failure at Gallipoli. In April came the second battle of the Yser, when the Germans introduced poison gas for the first time in warfare. On May 2 the Russians met overwhelming disaster at the Danubio. On May 7 the Lusitania was sunk. Italy had been out of the war up to this time, but on May 23 it declared war on Austria. In October the Allied expedition landed at Salonika. The Allies hoped for great things in 1916, when for the first time the British were able to pour their new armies into France. February of 1916 brought the beginning of the mighty struggle around Verdun. While it was still raging the German high seas fleet left its shelter and engaged in the only general naval action of the war—the Jutland sea battle—and was forced to flee back to its base with the British grand fleet in close pursuit. On July 1 was begun by the British the first battle of the Somme.

In 1917 the war developed many critical and dangerous phases. In January Germany began its unrestricted submarine warfare, and for months there was grave danger that communication with France might be interrupted and that Great Britain might face starvation. These perils were escaped only through the grim resolution and mighty enterprise of the British and the work of their supreme navy. Then began the Russian collapse. On March 9 the Russian revolution burst out, and three days later the Czar abdicated. The next great event—one of the turning points of the war—came on April 6 when the United States declared war on Germany. On June 26 the first American troops landed in France. Russia had been useless in a military sense from March onward, and on November 6 the Bolsheviks seized complete control. Three days later came the great Italian defeat on the Piave, which at the time threatened to put Italy out of the war. British and French reinforcements were poured in and the line was held. On December 9 the British captured Jerusalem.

The last year of the war was the most wonderful of all. By March, 1918, the Germans with the aid of the Bolsheviks had forced Russia into an infamous peace, and soon afterwards they launched their great drive on the Somme and swept back the Allied forces in a series of tremendous battles which caused the gravest anxiety throughout the Allied world. In the day of disaster Foch was made commander-in-chief of the Allied forces. On July 6 the Americans attacked at Chateau Thierry, which was the first sign of an Allied counter-attack. In mid-July Foch launched his mighty counter-offensive and began to win the war. On August 23 the British smashed the Hindenburg line. By the middle of September the Allies were everywhere victorious. Certain great dates speak volumes for themselves. On September 30 Bulgaria surrendered. On October 6 Germany asked President Wilson to arrange an armistice, and two weeks later he sent the German proposals to the Allies. By that time the Italians were inflicting smashing defeat upon Austria. Turkey surrendered on October 30, and Austria on November 8. On November 9 the Kaiser abdicated, and on November 10 the armistice was signed.

These are but a few of the outstanding dates, and yet the mere mention of them makes a long story. Volumes will be written about what happened on every one of these dates, and on each of hundreds of others. If we take but a single example, the British world has yet had no adequate account of the breaking of the Hindenburg line by the British, in which the Canadians played a great part.

Let us hope that patriotism and very real craftsmanship will guide the pen that sets down the official history of Canada's share in the war, not to speak of Britain's or Australia's, New Zealand's or that of little Newfoundland, South Africa, India and other British lands from which men went forth to war when the testing time came.

It is less than six weeks away—that glad Christmas time which turns men's thoughts from worldly affairs to the higher things and the great beyond. Christmas is the day of the Prince of Peace, but war has usurped its recognized rights and since 1914 a shadow has dimmed the proper observance of the great festival. The Christmas of 1918 will be different. While joyous hearts will thrill with the spirit of the great day, there will be added joy because a war-weary world has returned to the ways of peace and man no longer battles against his fellow man.

An Ottawa despatch to the Montreal Herald says that in the demobilization of Canada's army overseas it is likely that married men, original firsts and veterans will be given precedence on the home-bound boats. The most eager of home folks, anxious to see their soldier boys home again, could hardly quarrel with such an arrangement as that. It also is said that possibly precedence will be given to farmers, miners, railroad men and others who may be speedily absorbed by the labor demand on their return.

The war has brought its numberless heroes, but not all the brave have been to the battlefields. The epidemic through which New Brunswick has just passed, or out of which it is just emerging, has developed its heroes as well. Doctors, nurses and emergency helpers have responded nobly to the demands of the crisis. To them be all honor and credit for onerous duties well performed with thought centered solely on the care of the afflicted.

DOWNED MANY OF THE ENEMY AIRPLANES. With the American Army in France, Nov. 13—(By the Associated Press)—In the period from September 12 to 11 o'clock on the morning of November 11, American aviators say they brought down 478 German machines. Of this number 383 already have been confirmed officially.

On hearing the armistice terms the emperor bitterly reproached the supreme army command, declaring that he had been misled. One general advised against the emperor's flight as unworthy. Field Marshal von Falkenhayn, the former chief of staff, to accompany the emperor, with whom was his eldest son.

Would Have More Rolling Stock Allowed For Carriage of Food — Say Otherwise There Will Be "Unspeakeable Disaster."

Washington, Nov. 14.—Appeals addressed to Mrs. Woodrow Wilson by the women of Germany asking that the armistice terms be modified to prevent "unspeakeable disaster" have been sent from the German wireless station at Nauen. They were picked up by the military intelligence radio at Houlton (Me.), and were made public tonight by the war department. The appeal to Mrs. Wilson said the women and children of Germany have been "starving for years" and that they "will die from hunger by the millions" unless the terms of the armistice are changed so that sufficient rolling stock will be made available for moving food from the farms. It was dated Berlin and signed by Gertrude Baemer and Alice Solomen for "the national council of women of Germany." The appeal to Miss Adams was from Anita Augsburg, of Poz, under date of yesterday. It said that the German

SPEEDY OPENING UP OF RUSSIA

London, Nov. 14.—Commenting on the arrival at Constantinople of allied ques-tions, the London newspapers forecast the speedy opening up of Russia through Odessa and other Black Sea ports and predict a betterment of conditions at Petrograd soon through the forthcoming opening of the Baltic to the Entente. "The way into the Black Sea is clear, and great results must follow quickly the appearance of the allied fleets off the Golden Horn," says the Times. "By opening up the Roumanian coast and the mouth of the Danube the Allies will complete the task of the liberation of Roumania, though in effect Roumania is free already and her German garrison under General Von Mackensen is seeking a pathway home. "When Admiral Goltorp arrives off Odessa and Sebastopol, the Allies will have a gateway into Russia, and our coming entry into the Baltic should help to lift the clouds which still lie heavy over Petrograd. "The German route through the Black Sea to the middle east has already van-ished with the collapse of our principal foe. The wheel has come to a full cir-cle and the tragic isolation of Russia is at an end. "The announcement that British and Indian troops now garrison the Gal-

SALMON SITUATION INTERESTS GROCERS
Salmon is still an item of interest to the trade. Conditions emanating from the recent order-in-council commanding the pack are considered anything but satisfactory, and the feeling prevails that the Canadian trade has been treated unfairly. The government order takes 100 per cent. sockeyes and red springs, the big sellers on this market, lines which the trade has been educated to use, thus leaving the cheaper and by no means popular grades for domestic consumption. A hitch in the price has occurred also, and until this is straightened out, packers have to finance the pack, adding materially to their costs. Extra handling has been entailed also, and it is estimated that packers today are out about half a million dollars through delays in completing arrangements as provided for in order. The situation created is a most unsatisfactory one, and the packers feel that it has been aggravated by delayed action. The tendency towards standardization and elimination of unnecessary sizes has been further carried out, this time by salt manufacturers. An announcement to the trade is being made showing a revision in the size of package and method of packing. After next Monday all orders will be filled from just three sizes of package. These are to be a 3-1-2 lb. bag, a 7-lb. bag and a 14-lb. bag, packed 30, 40, and 20 bags respectively to the barrel. A decline in prices of flour for export seems possible. It is understood buyers for British account will be in the market shortly and there is a feeling that a price about ten cents lower than today's level may be quoted. As far as domestic business is concerned, this, it is thought, will be unchanged.

OTTAWA FLOODED BY RELATIVES' LETTERS

Nine Stenographers Unable to Deal With Them— Replies Only in Cases of Compassionate Leave.

Ottawa, Nov. 14—After nine stenographers specially detained for the war had endeavored unsuccessfully to cope with the flood of letters received requesting the immediate return of soldiers from the front, the militia department issued the following statement:

In view of the very large number of letters received at militia headquarters during the last few days, requesting that, in view of the armistice, sons, brothers and other relatives may be immediately discharged from the army and returned to Canada, the department of militia and defence finds it necessary to state:

First, that owing to the large number of these communications and the tremendous labor involved in dealing with them, replies will not be sent to any received during the last few days, unless the cases appear to come within the policy effecting leave of absence on compassionate grounds, in which event they will be dealt with in the usual way.

Second, that it is impossible to accede to, or even consider, such applications unless they are based upon circumstances involving hardship which bring them clearly within the policy governing compassionate leave. Any other course of action would involve the return to Canada of soldiers by preference, or selection for private reasons, which could not in any way be justified.

berlain, who is the other great example of the "local man" having just fallen short of the highest office. He has raised the average stature by at least one cubit from Rhyl to Aberystwith. His brass plate is still to be seen by visitors and it is possible that his name will yet be found occurring in six-and-eighty year willis which have not yet taken effect. Men are to be seen and spoken of with along the coast, his contemporaries and professional rivals, who have risen to be clerks of the peace and mayors of boroughs and view their own careers with admiration.

When he finally awoke to the facts that the things going on about him were real he was in a cold, stone-walled dungeon. Then the thrills continued.

There was a beautiful maid in distress just across the corridor. George knew she was beautiful because he had met her; but she had fallen in love with her on shipboard and she had been kidnapped with him. But the United States troops arrived just in time.

"The Kid is Clever" is a corking comedy drama of the type for which George Walsh has made himself famous. He has the advantage of an excellently well-balanced cast in which are Doris Pawn, Ralph Lewis, A. Burt Wesner, Don Lakes and Clyde Hopkins.

Good Pathe news weekly and a lovely comedy complete the bill. It will be repeated tonight. On Saturday come five acts of vaudeville and two reels of "The Eagle's Eye". The Gem has been nicely re-novated during the close-down period.

FINANCIAL

LLOYD GEORGE AT TOP BY REAL BRILLIANCE

His Career Recalls That of the Lincolns, Garfields and Grants, and the Sure Straight Road from Log Cabin to White House.

It is a striking and significant fact that says "W. H. M." in the Manchester Guardian, that at this supreme crisis our fate should be in the hands of Wilson, Lloyd George, and Clemenceau, a professor of law, a country solicitor—lawyers again—and a plain journalist. These three—usual, ordinary men who have all earned their livings in black coats—on the one side, and the other, not one scintilla of divine right, the apostolic majesty, a Kaiser, an Emperor, a varied assortment of Crown Princes, men who wear epaulettes and go about half their time dressed like peacocks as against a number of counts and barons with nobody among them that we ever hear of who is not entitled to the prefix "von." In a way it personifies the systems that are at war—the one system under which the people belong to the statesmen, and the other under which the statesmen belong to the people. Among these three men named there is not one scintilla of divine right, the divine right of the king or priest, or even the divine right of the squire in the village, or yet even the title of the Balliol man to govern the earth. Not one of them inherited anything worth speaking of, except perhaps a stray good example and the temperament for success.

Our modern civilization is supposed to be pretty nearly past praying for. We are under a vow to "reconstruct" it the moment the war is over, but it is at any rate something that in the last thirty or forty years career has seen the world. There must be some oxygen in our society, clear fuses, and a good strong draught, that so small a spark of wit should have been fanned into such a flame. We seem to be catching up with the United States with its Lincolns and Garfields and Grants, and its sure, straight road from the log cabin to the White House. There is lots of caste still left in England but it is being swept into holes and corners; into social life, for example, where it does no great harm; into private schools; into villages, where we shall have to catch up with it some day. There is no tolerating it at all in really great affairs.

Without Social Aid.

Let us not exaggerate the importance of this case of Mr. Lloyd George. Many men before him have written the aid of money or birth forced their way to great power and authority in English public life. Burke and Sheridan are examples even in the eighteenth century, though anyone who is familiar with the lives of Burke and Sheridan will remember how their empires were built. Mr. Lloyd George has been fortunate in that, though any man who is familiar with the lives of Burke and Sheridan will remember how their empires were built. CURED OF DYSPESIA BY USING BURDOCK BLOOD BITTERS

The symptoms of dyspepsia are so numerous and diversified in different individuals that probably no description could exactly represent them as they occur in any given case, but a few of the most prominent are a rising and souring of food, pain, flatulence and distention of the abdomen, a sensation of discomfort after every meal, which is sometimes followed by sickness and vomiting. To get rid of dyspepsia a careful arrangement of the diet is necessary and due time must be given for the digestion of the meal.

You will find that Burdock Blood Bitters will help with this digestion. It does this by toning up the stomach in such a way that the dyspepsia soon disappears.

Mr. Robt. Baldwin, Winnifred, Alta., writes: "I cannot speak too highly of Burdock Blood Bitters for curing dyspepsia, of which I have been a sufferer for years. I have tried a good many doctors and proprietary medicines, so one day I thought I would try something different. I got a bottle of B. B. B. from our local store, as it was about the only remedy he kept, and I can certainly say that I was more than pleased with the results, as I got better right away. I will always recommend it to other sufferers."

MORE CARDS COMING
DOWN THAN ARE
GOING UP NOW

Influenza Situation Shows Steady Improvement—Special Precautions When Schools Re-open on Monday.

"We are removing more influenza cards today than we are putting up," said Dr. J. L. H. Brown, the new district health officer, this forenoon. "We are getting a few new cases from day to day but they represent families who have doubtless become infected at the last of the big sweep when a stray member of their home became ill."

Dr. Brown explained that this condition is liable to be the case right along now, as the epidemic has subsided to a satisfactory degree and will in every probability continue to subside.

The district officer thinks St. John will have a few straggling cases of this new type of influenza throughout the winter, but generally been the state of affairs with old-fashioned la grippe and heavy colds. It is not reasonable to suppose otherwise.

Regarding School Children.
The re-opening of the public schools on Monday, following the re-opening of the theatres and churches, called for special precautionary measures. In these measures the local health board, government officers and school teachers and superintendents, as well as the public school medical officer, Dr. Mabel Hannington, will co-operate.

No child will be allowed to return to his or her studies if there is a case of influenza in their home. This is to be an imperative ruling.

The secretary of the board of school trustees has been supplied with a list of infected homes and means may be readily taken to prevent any spread of the malady through the medium of school children.

Parents and others in authority in the homes are asked to give their earnest attention to this matter and not send their children to school if there is still any cases of the prevalent disease at home.

How the Theatres Opened.
The lifting of the ban on theatres and other public gatherings yesterday did not create the rush that some officials thought it would because of the weather conditions. The first cold, wet slush of the season is always a deterring factor to the entertainment business but in spite of this the attendance at the show houses yesterday was possibly above normal. With the clearing of the weather a boom will start in, it is expected.

Blames It on Asia.
Toronto, Nov. 14.—Dr. C. W. Service, superintendent of the men's hospital at Shengchi, China, who is spending his furlough in Toronto, declared tonight that the recent influenza epidemic could be traced, not to Spain, but to Asia, and that China was the breeder of all kinds of contagious diseases which might spread over the earth if they were not checked at their source.

Church of England Clergymen Protest Against Ban on Public Worship, and Appeal for Change in Act

The clergymen of the Church of England in the City of St. John, assembled at the first opportunity after the lifting of the ban, this morning. They recognized the debt of gratitude to Almighty God for the passing of the epidemic and expressed their deep appreciation of the heroic work of all who ministered to the sick, and passed the following resolution:

"Whereas united supplication to Almighty God has been in all ages the strength and confidence of the people in time of stress; the existence of the Litany being a standing witness to that fact; and whereas it is a recognized principle of healing that the hope of recovery is a potent factor in overcoming disease and this hope is promoted by the prayers of the congregation assembled in the House of God;

"And whereas the British Constitution secures to every citizen full civil and religious liberty, which liberty, we think, was contravened by the recent ban on public worship;

"Be it therefore resolved:

"That we protest against Section 7, Sub-section 2 of the Public Health Act of New Brunswick;

"That this section, as interpreted during the late epidemic is ultra vires and contrary to the British Constitution;

"That the legislature of New Brunswick be respectfully requested to so change the act that never again may the right of public worship be withdrawn.

had Inglorious Record—Stayed at Bottom and Blew Crew Up.

Germany's first undersea boat to be used as a weapon of offence was built in 1850, and by means of it the Germans drove off the Danish fleet which then attacked the German coast. This first submarine was known as the Sea Diver, and was planned and navigated by one of the most brilliant naval engineers of the time, Baron Robert Bauer, a Bavarian naval officer who had no technical training in boat construction or engineering, but who was an unusually good mechanic.

Public Must Have Courage to Avoid Commercial Panic

Spirit of Co-operation Will Not Permit Return to Destructive Competition, says President of U. S. Steel Corporation

New York, Nov. 14.—Elberth Gary, head of the United States Steel Corporation, has warned the American people to be on their guard against "economic demoralization, depression and possibly panics" which might accompany readjustments after a world war.

In a statement issued before he left for Washington to confer there tomorrow with the War Industries Board regarding steps necessary to return the steel trade to a peace basis, Mr. Gary cautioned the public to "exercise prudence, deliberation and courage," as "much depends upon the attitude and the speech of men."

"The United States is the richest of all countries. If industry is protected and fostered in accordance with its merit, the war burdens surely, even though gradually, will be lifted.

SHOULD ASSIST SMALLER MEN IN EXPORT TRADE

Toronto, Nov. 14.—W. J. Bowman, president of the Canadian Manufacturers' Association, who is going to Montreal and Ottawa to take part in post-war trade conferences, expressed his pleasure today at the proposal of Sir Thomas White, minister of finance, to establish a system of export credits, but was of the opinion that the government should arrange to assist the small manufacturers in doing their share of foreign trade.

"The big manufacturers can afford to investigate the financial standing of foreign buyers, but this cannot be done by the small manufacturers," he said.

CITY CORNET BAND FAIR IS OPENED

Good Crowds Gather in St. Andrews Rink for First Night—44th Anniversary

The mammoth fair of the City Cornet Band opened in St. Andrew's rink last evening and judging from the enthusiasm of the large gathering pleasure seekers, the interest manifested in the various games and amusements, the pleasure derived from the musical programme and the general excitement which was in evidence on all sides, it will be one of the most successful ever held under the auspices of this popular organization.

The spacious building, with its magnificent and artistically decorated booths, its illuminations and its unique and numerous attractions, bids fair to attract thousands of citizens. Those who have visited the great amusement resorts will be afforded an opportunity to recall those days of joy by a trip to St. Andrew's rink where will be found equally exciting amusements in addition to excellent music.

Attractive Booths.

Entering the rink the visitor beholds a panorama of decorated booths, with artistically draped bunting and paper trimmings, which blend harmoniously and give the building an appearance of a great festive auditorium. The alluring music of the band and whirl of the chance wheels, the gay chatter of the fair attendants and the happy countenances all unite in attracting to the one whom dame fortune has led into this whirl of joy.

On the right are an ice cream booth, a chance booth, fancy booth, sunken treasure booth, the H. M. S. Lusitania, a grocery booth with numerous substantial articles to be had for the taking. In the rear of the building is the good ship Victory on the decks of which the juvenile band are assembled. Alongside is a game known as "The Downfall of the Ago" quartette, which is to be one of the feature attractions. On the left side moving towards the entrance is situated a game known as "Kilenny Cats", followed by another attraction, the five ball tiffany. The Noodly booth comes next, then jingle board booth, a percentage wheel, a candy and money booth and a refreshment stand. In the centre is situated gaily decorated band stand. In addition there are large phonograph with numerous records, and a Pathophone, which is being offered to the lucky holder of a ticket. This was dominated by the Pathe-Ferres Company through their local agent, Amund Bros.

The musical programme last night consisted of selections by the band and chanted songs by the juvenile band assisted by Mr. Punter. The programme of the former follows:

March—Crawley, by Jewell. Overture—Oriental, by Blegie. Waltz—Missouri. Selection of patriotic airs. Solo—"All the World Will be Jealous of Me" Gavotte—Hypatia. March—"So Long Mother."

The chanty songs rendered by the boys made a great hit and the audience were generous with their applause. They were as follows: "We Sail the Ocean Blue," "The Black Ball" line song; "Sailing," "Spendah," "Ship Ahoy," and "Rule Britannia." Miss Alex.

SUBSTITUTE ORDER IN CANADA IS CANCELLED

Ottawa, Nov. 14—The first order of the Canada food board issued after the signing of the armistice fulfills the board's undertaking to withdraw as many war-caused restrictions on food as possible at the earliest moment.

Following the action of the Allied food controllers, all orders of the ruling, requiring the sale, purchase, use or consumption of substitutes for wheat flour are repealed from Thursday, whether in the trade or in private homes. The main factor enabling this to be done is the immediate release of Allied shipping to make the voyages from Europe to Argentina, India and Australia, where there are accumulated stocks of wheat.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sores, causing the disagreeable symptoms which every stomach sufferer knows so well.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poorer sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalers and nose douches are liable to irritate the delicate air passages which are the cause of the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your Druggist 1 ounce of Permian (Double strength). Take this home and add to it 1-4 pint of hot water and 4 ounces of granulated sugar; stir until dissolved. Take one tablespoonful every three or four hours. This will bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Permian used in this way acts directly upon the blood and mucous surfaces of the system and has a slight tonic action. This facilitates obtaining the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh should give this treatment a trial.

The estimated cost of the work was \$4,900, and as all of the tenders were nearly double this figure the commissioners decided to return the checks and to defer the work for the present.

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

GETTING OUR MEN BACK TO CANADA

Perhaps Bulk of Men Home By Next June—Canada's Claims For Damages Because of War.

Ottawa, Nov. 14—It is expected that the great bulk of Canada's overseas army can be brought back and discharged by June of next year. The general principle will be to bring back first the men of the first contingent, with the 1915 reinforcements to come next, and the men who have been the shortest time away from home to come last. Departures from this principle will be made in cases where occupational services are concerned and industrial or business needs in Canada demand it. It is also probable that married men will be brought back ahead of the single men so far as is practicable.

ACTRESS GIVES RECIPE FOR GRAY HAIR

A Well Known Actress Tells How to Darken Gray Hair With a Simple Home Made Mixture.

Jocely Williams, the well known American actress, who was recently playing at the Imperial Theatre in St. Louis, Mo., made the following statement about gray hair and how to darken it.

Anyone can prepare a simple mixture at home, at very little cost, that will darken gray streaked or faded hair, and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Olex Compound and 1/2 ounce of glycerine. These ingredients can be bought at any drug store at very little cost, or any druggist can put it up for you. Apply to the hair twice a week until the desired shade is obtained. This will make a gray haired person look 20 years younger. It does not color the scalp, is not sticky or greasy and does not rub off.

Thirty Feet of Danger

The intestinal canal is an important part of every individual, important every inch of its thirty feet.

The upper portion of it is intended for the digestion of food and absorption of its useful portions. But the lower part is concerned with the elimination of waste materials.

It is, in other words, the great sewer of the body. The more food eaten the greater the waste. If a sewer becomes clogged up, its contents stagnate and become more and more dangerous.

Constipation means more than failure to evacuate the bowels regularly and thoroughly. It means stagnation, increased fermentation, putrefaction and germ action. Increased amounts of irritating and poisonous substances are formed. Absorption of these into the blood follows. Self-poisoning results.

Danger, disorder, disease, or even death follows.

Pills, purgative mineral waters, castor oil, salts, etc., do not cure constipation or prevent its consequences. They make it worse because they do not only irritate the bowels, but they "wear out" in effect and so must be taken in increasing doses, making constipation a habit.

But the Nujol Treatment for constipation overcomes constipation by helping Nature re-establish easy, daily, thorough bowel evacuations as "regular as clockwork."

Nujol prevents stagnation and self-poisoning. Nujol forms no habit, except a natural, healthy habit. After Nujol has trained the bowels to act, it can be dispensed with.

Arrangements are also being made for the speedy demobilization of Canada's naval forces on duty in home waters. The total Canadian naval force on the Atlantic and Pacific coasts is about 4,000.

Canada will file its claim for damages and reparation when the peace details are up for consideration. There will be a demand for reparation for the direct war losses including such items as the Canadian hospitals bombed by the Huns, Canadian ships torpedoed and probably also for the destruction caused in the Halifax disaster.

Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendances most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my household work, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KRAMER, 935 West Race Street, Portland, Ind.

A Sure Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find all itching and digging of the scalp will stop instantly, and your hair will be shiny, lustrous, glossy, silky and soft, and look and feel a hundred times better.

The Casualties

Perth, N. B., Nov. 14.—The sad news was received by Mr. and Mrs. Henry Green, a few days ago, of the death in action of their son, Sergeant Signaller Clair V. Green, who was killed on September 27.

The soldier enlisted in September, 1916, with the 9th Siege Battery, and proceeded overseas with the first draft

from this unit. After a course in England he went to France on July 17, 1917, serving in the artillery. He was promoted on the field.

George W. Grant, of Pleasant Hill Farm, Evansville (N. B.), has received the sad news of the death of his brother in England. Official advice from Ottawa says that his brother, Sergeant M. R. Grant, had died at Bramshot, England, from influenza on November 7, leaving

besides his father, mother and brother, his young wife to mourn his loss. He had been married only nine months ago to Miss Ada Cloke, of Dover, England. He went overseas with the 58th Battalion, later being transferred to the 1st Battalion Canadians. He was wounded three times and gassed once and had been out of hospital only a short time before going to Bramshot.

On October 27 he wrote home, stating that he was taking an officer's training course, and expected to receive his commission any day, and was in best of health and spirits.

He had a wide circle of friends in St. John, Halifax and Sydney who will regret to hear of his death. It seems the irony of fate that he should come out of the war alive, after going through so much, to succumb to influenza.

General Townshend is

Acclaimed in London

London, Nov. 14.—(British Wireless Service)—Major-General Charles V. E. Townshend, who while commanding the British forces at Kut-el-Amara was forced to surrender to the Turks in 1916, after standing a long siege, visited yesterday afternoon the Mansion House as a guest of the British and Foreign Sailors' Society. The crowd which awaited his arrival gave him a round of hearty applause.

It was General Townshend who bore the Turkish request for an armistice to the British admiral in command of the Aegean Sea.

Allied Soldiers, Freed By Germans, Reach the American Lines

With the American Army in France, Nov. 14—(By the Associated Press)—The advance guard of several hundred Russian, Polish and Italian soldiers freed by the Germans in Lorraine reached the American lines in the region of St. Hilaire today. The first group numbered forty-five. They said they were released several days ago, the Germans telling them to

start for the Allied lines immediately. The released prisoners were attired principally in German uniforms. They expressed the opinion that the Germans had set them free so as to be rid of them during preparations for moving northward. The arrivals were taken in charge by American officers and furnished with additional clothing and plenty of food.

Our Made-To-Measure Garments Are the Greatest Values Offered Today

DON'T be skeptical about the wonderful fabric values we offer in Made-to-Measure Garments—you are the loser if you allow yourself to believe "it can't be done" before you even take the time to investigate.

After reading the Ready-made clothiers' advertisements you may possibly get the idea that dependable Made-to-Measure Clothes cannot be had except at very high prices. Ordinarily this might be so—but our mill connection and our inside position on conditions of the woolen market, enables us to save our customers all the retail and a big part of the wholesale profit.

In other words our customers can buy a single garment as cheap as retail clothiers can buy ready-made clothes in dozen lots.

ANOTHER WAR IN BASEBALL THEATRES
Minor Leagues Objecting to Draft System and Financial Losses Involved.

Pooris, Ill., Nov. 14—War between the major leagues and the minor organizations threatens to develop as a result of action taken at the annual meeting of the national association of professional baseball leagues here today protesting against the privileges of the major leagues to draft star players from the minors.
The protest was embodied in a resolution drawn by A. R. Tearney, of Chicago, president of the Three Eye League, and presented by Jack Holland, owner of the St. Joseph (Mo.) club of the American Association, was appointed to present the protest to the National Baseball Commission at its first meeting.
"We shall demand the right to dispose of our young stars to whom we see fit instead of having them drafted by the major league clubs at prices ranging from \$2,500 down to \$750 as pretexts under existing conditions," said President Tearney. "It is the minor leagues that develop these stars of the major and the smaller leagues should reap the reward."

LABOR VIEWS ON INTERNATIONAL PEACE TREATY
Laredo, Texas, Nov. 14—Samuel Gompers, president of the American Federation of Labor today made known the programme which organized labor in America wishes to be embraced in the international peace treaty. A resolution embracing five fundamental principles and seven second planks was introduced by Mr. Gompers before the pan-American labor conference, which was organized here today. The resolution is being considered tonight by the resolutions committee which will make its report tomorrow.
The labor peace plan declares against reprisals for the purpose of punishment but makes no mention of indemnities. It asks establishment of order by a league of free peoples of the world banded together to secure justice and peace in relations between nations. The welfare of the people affected, the resolution declares, must be the sole factor in determining changes and adjustments in power.

WAKE UP! ST. JOHN

Two Days Left in Which to Invest in
the World's Greatest Investment---

VICTORY BONDS

Never has St. John had a better opportunity to show her fighting spirit than today. With the \$5,000,000 goal ahead and a trifle over half a million to be raised in order to reach the goal this grand old patriotic city looks with confidence to her citizens to put her in the list of loyal places that have met and passed their quota.

Two short days remain. Two days only in which you have the opportunity to get in on the best investment ever offered. Monday will be too late. The simple, safe and easy Bond Buying method of saving money will be a thing of history—a subject of sorry conversation and sad regrets. NO red blooded person can afford to let the opportunity slip and it is safe to say none will.

3 Ways in Which You May Invest

1: The denominations are \$50, 100, 500, and \$1,000. You may pay cash for your bond and there will be no interest charge. In other words the bond will cost you the par value of the bond.

2: The government has made it possible for you to buy a bond on a monthly payment plan which will be explained by the canvasser. This plan is: Ten per cent. with application, twenty per cent. in December, twenty in January, twenty in February and thirty odd per cent. in March.

3: Chartered banks and many other financial institutions will buy the bond for you and you may pay them back on a monthly payment plan which spreads the total amount over ten months.

**Now:---The Terms Make it Easy for You to Own a
Bond; The Security Offered is the Best and the
Interest High. There is, Therefore, No Reason
Why You Should Not Own a Bond---If
You Sincerely Want To**

A SUGGESTION TO THOSE WHO HAVE ALREADY BOUGHT A BOND

Many who have purchased Bonds on the Cash or Government's monthly payment plan will find in the Bank's ten month payment plan an easy way in which to carry another \$50 or \$100 Bond. The payment for these falls around the middle of each month; and as the Government's monthly plan of payment falls on the first week of the month the additional bond can be carried without undue financial obligation.

Payment Plan**
