CANADA HAS THE
BEST WHEAT IN
THE WORLD

American Experts Make the
Award at New York Exhibition.

New York, Nov. 5.—The announcement of Canada's victory over the United States in the contest for the prize offered by Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, for the best wheat, spring or summer, grown on either continent of America, was made yesterday afternoon at the land show in Madison Square Garden.

The committees of award, composed of C. G. Williams, agronomist at the Ohio agricultural experiment station; Professor Alfred Atkinson, of the Montana agricultural college, and Professor W. M. Jarman, of the Kansas state agricultural college, concurred in the official statement that Canada rates the best wheat in the world.

The winner of the world beating wheat prize was Senator Wheeler, of Colorado (Sask.). He received a prize of \$1,000 in gold. Another Canadian, W. I. Glass, of Macleod (Alb.), was the alternate.

W. K. Sudduth, of Montana, and Asa W. Smith, of British Columbia, respectively won the \$1,000 silver cup and the \$1,000 silver trophy for the best alfalfa and potatoes.

PRODUCE PRICES IN
BOSTON MUCH HIGHER
THAN IN ST. JOHN

Market Quotations from Week to
Week Tell Eloquent Story of Lost
Opportunities for New Brunswick
Farmer.

A comparison of the wholesale prices of farm produce in St. John and Boston this week still shows a marked difference in the prices quoted, the wideness of the margin being illustrated in the list given below. The Boston prices were published in Wednesday's Transcript, and St. John prices are taken from this morning's list in The Telegraph.

The Boston jobbers' price for Canadian hay ranges from \$10 to \$20 per ton, according to the grade, while the best prices quoted at St. John are \$10.50 to \$11. Eggs show a difference of fifteen cents a dozen. On the other hand, the difference in the price of flour is in the other direction, a reduction being noted in the Boston markets.

The following is a comparative list of prices on staple products:

Wheat, western—Boston, 55 to 59 1/2 per bushel; St. John, 41 to 53 per bushel.
Potatoes—Boston, \$1.75 to \$1.85 per bushel; St. John, \$1.50 to \$1.75 per bushel.
Butter, dairy—Boston, 27c to 28c per lb.; St. John, 25c to 24c per lb.
Butter, creamery—Boston, 22 1/2c to 23 1/2c per lb.; St. John, 24c to 27c per lb.
Eggs, henery—Boston, 44c to 46c per dozen; St. John, 38c to 39c per dozen.
Eggs, farm—Boston, 38c to 39c per dozen; St. John, 28c to 24c per dozen.
Squash—Boston, 60c to 75c per bushel; St. John, 40c to 1 1/2c per bushel.
Flour—Boston, \$2.10 to \$2.50 per bushel; St. John, \$2.50 to \$2.45 per bushel.

F. H. S. PAISLEY
GOING TO REGINA

Sackville Newspaper Man Honored
by His Many Friends
Thursday Evening.

Sackville, Nov. 3.—(Special)—Last night in the Liberal Club rooms there was an informal gathering of some sixty or seventy citizens of the town to do honor to Herbert F. S. Paisley who will leave today for Regina where he will join the staff of the Regina Leader. Mr. Paisley occupied the chair, while A. B. Copp, M. P., made an appropriate address expressing the general regret at Mr. Paisley's departure from Sackville.

SPLendid GERMAN OVER MOROCCO?

Kaiser's Sons Openly Hostile

Crown Prince Applauded Criticism of the Set- tlement

Chancellor Defends the Out- come, and Declares Gov- ernment Got All it Wanted

—Declares it His Duty to Avoid War if it Can Be Hon- orably Done.

Berlin, Nov. 9.—Imperial Chancellor Bethmann-Hollweg vigorously defended the Franco-German Moroccan agreement in a fifteen minute speech in the Reichstag today. The German government, he said, had obtained all it set out to obtain. He denied having retreated from the original German position, and added that in any event Morocco was not worth fighting for. The crown prince and many notables listened to the chancellor's speech. There was a noticeable lack of enthusiasm among them and no doubt exists that the country generally is much dissatisfied with Germany's bargain. It is more than likely, his explanation having evidently failed to give satisfaction, that the chancellor and Foreign Minister Kiderlin-Waechter will ultimately be forced to resign.

Crowded Galleries.

The galleries of the Reichstag were crowded when the chancellor rose to speak. He began by taking up the reports that the despatch of the German gunboat Panther to Agadir, Morocco, was "a bolt out of a blue sky" and that Germany planned to acquire territory in southern Morocco.

Before sending the warship to Agadir, Herr von Bethmann-Hollweg said he had proposed that France and Germany should open negotiations for the purpose of reaching a basis for the recognition of France's political position in Morocco, the economic guarantees to be obtained by Germany and colonial possessions in France, to which were attached positive proposals, in the meanwhile going ahead with the occupation of Morocco. The despatch of the gunboat Panther then was necessary, and it produced the desired result. The failure of the assertions that Germany contemplated the acquisition of Moroccan territory was plainly shown, the chancellor continued, by the relations commencing called to the powers immediately before the arrival of the Panther at Agadir as well as the inspired statements printed in the newspapers immediately after the German warship had anchored off the Moroccan seaport.

Germany Has No Need to Threaten.

Herr von Bethmann-Hollweg discussed the resignation of the secretary of state for the colonies, Dr. Lindquist, who refused to appear in the Reichstag in defence of the Morocco-Congo agreement, and then passed over the accusation of weakness, maintaining that German prestige rebuked those demanding a display of the German fist.

Aviator Vaniman Concludes His Big Airship Requires a Third Engine.

New York, Nov. 9.—The airship Akron will probably not attempt the trans-Atlantic flight until next year. This decision was announced last night after a conference between Melvin Vaniman of Atlantic City and F. A. Zibbeling of Akron, Ohio. The reason given is that the preliminary flight of last Saturday demonstrated the necessity of installing a third engine as was originally planned.

C. P. R. STMR. "PRINCESS SOPHIA," FOR THE PACIFIC COAST SERVICE, LAUNCHED

Montreal, Nov. 9.—A cablegram received by Canadian Pacific Railway officials yesterday announces the launching of their new boat, the Princess Sophia, at the yards of the Bow MacLachlan Co., Paisley, Scotland. She is 245 feet long, 45 feet beam and with 18 feet depth, and is equipped with triple expansion engines and the furnaces and boilers are arranged for either coal or fuel oil.

ASQUITH OUTLINES BRITAIN'S POLICY

Will Stand by Treaties and Understand- ings With Other Countries

Says Government Will Not Hamper Lawful Aspira- tions of Other Nations in Colonizing—Deplores Recent Strikes, But Declares Law and Order Must Be Maintained and Public Services Must Not Be Tied Up—Pays Magnificent Tribute to Mr. Balfour at Lord Mayor's Banquet.

London, Nov. 9.—A new lord mayor of London, Sir Thomas Boor Crosby, M. D., was inducted into office today and at the lord mayor's banquet tonight Premier Asquith made his fourth successive speech in honor of such an occasion.

Welcomes Moroccan Settlement.

It was a satisfaction to turn to the welcome and happy consummation of the two great countries of the negotiations regarding Morocco between France and Germany. The settlement was a relief to Europe, for it removed perhaps the greatest obstacle to the smooth working of European diplomacy.

STOLEN MINIATURE OF BABY SON RETURNED WITH OTHER VALUABLES FROM CONNECTICUT HOME.

Greenwich, Conn., Nov. 9.—Among the articles stolen from Judge Frederick A. Hubbard's residence when burglars called last Sunday was a patent porcelain miniature of his son, Daniel L. Hubbard, now a business man of Seattle, and it was a baby. The miniature was set in and surrounded by a row of diamonds. It was valued at \$250, aside from its associations.

SUSTAINED MINISTER'S CALL TO BLACKVILLE

Newcastle, N. B., Nov. 9.—(Special)—The Miramichi Presbytery met this forenoon in special session to consider a call from Blackville to Rev. Mr. Beaton, of Calabogie, P. E. I., Rev. E. J. MacArthur, of Newcastle, presided. Messrs. Grindlay, Davidson and Melrose presented the call, which was unanimously approved by the presbytery. Blackville offers \$1,000 salary, exclusive of manse and glebe.

DIGBY RESIDENCE GUTTED BY FIRE

Digby, N. S., Nov. 9.—The house owned and occupied by Harry Franklin at the south end of the town was almost completely destroyed by fire at noon today. The furniture was saved in a damaged condition. Mr. Franklin, who was ill, was removed to a neighbor's house. The fire appeared to have caught in the roof and was well under way when the alarm was given. There was a very small insurance special from Springfield Junction to Amherst with the injured man.

MAN BADLY INJURED AT SPRINGFIELD JUNCTION

Amherst, N. S., Nov. 9.—(Special)—Abel Cormier in trying to board No. 15 train while in motion, leaving Springfield Junction tonight, lost his footing and was caught under the wheels, which crushed his foot and leg badly and probably caused other injuries about the body. The intercolonial railway ran Conductor Capson's special from Springfield Junction to Amherst with the injured man.

APPOINTED GENERAL PASSENGER AGENT OF EASTERN S. S. CO.

Doston, Nov. 9.—(Special)—President Calvin Austin of the Eastern Steamship Society has announced the appointment of J. H. H. Outwirth as general passenger agent. Mr. Outwirth assumed office today.

BIG NOVA SCOTIA INDUSTRIES MERGE

Stanfields Buy Out Hewsons

Woolen Mills at Amherst Will Continue to Be Operated

Contests in Two Nova Scotia Bye-Elections — Attorney-General Elected by Acclamation — Veteran Halifax Merchant Dead.

Halifax, Nov. 8.—It is learned that Stanfields Limited, of which John Stanfield, M. P., is president, whose works are at Trinity, has absorbed the Hewson Woolen Company, of Amherst, the terms of the merger being that the Hewson shareholders shall receive far for their stock to equal the current half yearly dividend.

It is proposed to push the knitting department at Amherst, where labor for this purpose is more easily obtained. H. T. Hewson, manager of the Hewson mills will remain at Amherst as local manager there.

One of the oldest Halifax citizens, James K. Munis, died suddenly this afternoon aged 82. Mr. Munis came from Ireland to Nova Scotia the year before Confederation when he went into the clothing business, which he has conducted ever since. A daughter is the wife of C. S. Cameron, of Sydney, comptroller of the Dominion Iron & Steel Co.

Bye-elections Nominations.
 This was nomination day for the houses of assembly in three counties in Nova Scotia. In Annapolis, Hon. O. T. Daniels, attorney-general, was elected by acclamation.

In Lunenburg William Duff, of Lunenburg, fish merchant, and treasurer of the municipality, was nominated by the Liberals and A. Claremont Zwickler, of Mahone Bay, lumberman, was nominated by the Conservatives. The nomination proceedings were marked by many interruptions and proved very stormy.

In Digby Harry H. Marshall was nominated by the Conservatives and A. E. Wall, who was the Liberal candidate in the federal election, was nominated by that party.

RENO DIVORCE FOR WOMAN WHO LIVED IN ST. JOHN

Wife of Dr. Le R. G. Crandon of Boston, Granted Custody of Child and \$175 a Month.

Reno, Nev., Nov. 8.—Annie Lawton Crandon, wife of Dr. Le R. G. Crandon, a surgeon of Boston, was granted a divorce today in the district court here. The plaintiff alleged cruelty. Dr. Crandon did not contest.

Mr. Crandon was granted the custody of their six-year-old daughter and \$175 per month alimony.

The decree is the result of a second visit by Mrs. Crandon. A suit instituted there four years ago was abandoned at the request of Dr. Crandon, but upon her return to Boston the husband's proposal was that the two should live together, but not as man and wife, and Mrs. Crandon refused to accept it. A former separation had ended owing to the illness of the child.

Dr. Crandon lives at 300 Commonwealth avenue, is an instructor in Harvard Medical School and a visiting surgeon of the Boston City Hospital. The couple were married in St. John some years ago.

They Keep the whole system in the pink of condition.

Their singular curative properties discovered by an Indian tribe—introduced to civilization nearly a century ago—compounded since 1857 in the Comstock Laboratories at Brockville, Ontario.

Dr. Morse's Indian Root Pills

have a remarkable record for consistently curing constipation, biliousness and indigestion, purifying the blood, banishing headaches and clearing the skin. 25c. a box everywhere.

BALFOUR DESIGNS AS UNDISPUTED LEADER

Gives Advancing Years and Indifferent Health as the Cause

Says a Younger and More Elastic Man is Needed to Steer the Tory Party in These Days of Radical Legislation—Walter Hume Long, it is Thought, Will Succeed Him, Although F. E. Smith and Austen Chamberlain Have Hopes.

London, Nov. 8.—The Unionist party is to swap horses while crossing the Home Rule party stream. Arthur J. Balfour, at an emergency meeting of the city of London Conservative Association this afternoon, announced to his constituents his retirement from the leadership of the opposition.

Impaired health, increasing age and the desirability of the leadership passing into the hands of a younger man were the reasons which he gave for this step in a speech which was marked by much feeling. But, no one doubts that the increasing attacks against him by the ambitious younger Conservatives, particularly the tariff reformers, were the principal factor inspiring his decision.

While a number of influential Unionist and would-be leaders, notably Austen Chamberlain, and F. E. Smith have been demanding his retirement from the leadership few believed that Mr. Balfour would drop the helm in such an important stage of the party's fortunes.

A Political Sensation.
 The announcement was a sharp surprise to all parties and made an immense political sensation. No sooner was Mr. Balfour's withdrawal known than reports were circulated that Lord Lansdowne, leader of the opposition in the House of Lords, who shared in the attack, would accompany his colleague to the background. But Lord Lansdowne issued a denial of this tonight.

Mr. Balfour will remain in the House of Commons, although he could be elected to the peerage if he so desired. While he, as premier, was recognized as the leader of the whole party the leadership will now be divided, his successor sharing it with Lord Lansdowne.

His successor doubtless will be the Right Hon. Walter Hume Long, who represents the Strand. A caucus has been called for Monday for the purpose of choosing a new leader. Mr. Long commands the confidence of the older and younger elements of the party.

Advancing years and indifferent health are the reasons given for Mr. Balfour's resignation. Mr. Balfour was received in audience this afternoon by the king and informed his majesty of his decision.

Balfour's Reasons.
 During the course of his speech before his constituents, he said:
 "I desire to leave the position of heavy responsibility which I hold before I am suspected of suffering from that most insidious of all diseases—that disease which comes upon those who without losing their health or intellect nevertheless get petrified in the old course they have pursued, whose authority grows because they have been so long in public service or are great men of science or eminent men of business, but who cannot keep with the problems which in this changing world are perpetually arising with all."
 "Freshness and elasticity are desirable qualities which have got to conduct great concerns. No one knows himself when that hour arrives. I am vain enough to hope that I have not reached that period, but I would be miserable if I ran the risk of power."
 Mr. Balfour deprecates the report of party dissension. There were always grumblers when the party was out of favour, he said, but he thought it was in normal condition and declared that the country was fast tiring of sweeping radical legislation. The party, he said, would soon return to power.

Many Conservatives contend that the question of his health was the only reason for Mr. Balfour's retirement. Some members of the Salisbury Club, which was reported to be working for his resignation, stated that the club adopted a resolution of confidence in Mr. Balfour and Lord Lansdowne only last Monday. They say that the club members threatened to resign if Mr. Balfour's retirement was made a plank of the club's programme.

The Liberals and the adherents of the Irish party join the Unionists in regretting that the house of commons is not doing a great share of interest when the figure to whom followers and opponents alike look for intellectual pre-eminence is no longer in the forefront of the battle.

REV. DAVID LANG WILL RECEIVE A TORONTO CALL

Pastor of St. Andrew's Invited to Become Assistant at Bloor Street Presbyterian Church.

Toronto, Nov. 8.—Bloor street Presbyterian church decided tonight to invite Rev. David Lang, of St. Andrew's church, St. John (N. B.), to become assistant pastor there.

RICHESON PLANS TO BE A MISSIONARY

Expects to Work in Foreign Fields After Acquittal—Women Parishioners Cry at Thought of His Resignation.

Cambridge, Mass., Nov. 7.—While women cried and pleaded that nothing should be done to appear in any way prejudicial to the interests of their pastor, members of the Emmanuel Baptist Church Society last night voted at a special meeting to accept the resignation of Rev. V. T. Richeson, pastor of the church, now in jail on the charge of murdering Avis Linnell of Hyannis, a young conservatory of music student, who died from poisoning on October 14. By another vote they decided to lay the matter on the table until Nov. 24.

While the police are searching all Massachusetts for evidence against the Rev. Clarence V. T. Richeson, under indictment for the poisoning of Miss Avis Linnell, the accused minister, confident of his acquittal, said in his calm planning for a future in the missionary field.

"I suppose I am done with the ministry because of this, but I think there ought to be a chance for me in missionary work, don't you?" Mr. Richeson inquired of one of his visitors.

Miss Grace Edmunds, whose daughter Mr. Richeson was to have married and who is supplying the funds for his defence, is very active in foreign missionary work. Through his influence the imprisoned pastor is said, expects to get an engagement in the mission field.

CHURCH PICKS UP TWO MILLIONS IN MONTREAL REAL ESTATE DEAL

(Toronto Saturday Night)

Montreal Methodists are to be congratulated for they have managed to turn over a pretty penny in a real estate deal. The sum of \$2,000,000 has been realized and that sum, it is understood, will be accepted by the Methodists of Montreal for their St. James' church property. Some fifteen or eighteen years ago this property was situated on St. Catherine street, Montreal, in what was then a residential district. The real estate upon which the church stands is a city block in size, and the edifice which adorns it, for the past years Montreal's residential quarter has shifted, as it has done in other places, and St. James' Methodist church finds its congregation at its back door as it were, in place of in front and at the sides. Business intrudes and realty values are enhanced. However, as a matter of fact, the church is still within easy reach of its members.

It is interesting to recall the fact that the Montreal Methodists asked for and received contributions for the purchase of this property and the erection of this church from all over Canada. Indeed, one prominent member of the congregation, the late John Torrance, gave a goodly share of his fortune and a great deal of his time to the cause. Just what this property, building and land, cost the congregation, I am unable to state with exactness, but it would be well within the facts to place the first cost at something like one-twelfth of the two millions that it now realizes.

KING'S COLLEGE NOTES

Windsor, N. S., Nov. 7.—The Students' Missionary Society has decided to send at least two delegates to the men's missionary convention to be held in Halifax on Nov. 22, 23 and 24. During the new year the society hopes to secure some of the men prominent in missionary activity to deliver the late John Torrance, gave a goodly share of his fortune and a great deal of his time to the cause. Just what this property, building and land, cost the congregation, I am unable to state with exactness, but it would be well within the facts to place the first cost at something like one-twelfth of the two millions that it now realizes.

The college has been visited recently by the Rev. R. A. Hiltz, M. A., traveling secretary of the S. S. M. commission of the Church of England in Canada, and the Rev. H. B. Schofield, G. O. D. City and others.

This evening the anniversary service was held in Christ church, parish church, where Rev. Canon Powell preached to a large congregation.

Tomorrow evening the delegates and their wives are to be entertained at the Bishop's Court, by his lordship and Mrs. Richardson.

It was time for baby girl to be in bed, but no amount of coaxing could take her. At last father offered to lie on the bed till she fell asleep. Off she went "pick-pack" and the tired mother leaned back in her chair with a sigh of content ready for a hard-earned rest.

Ten minutes—twenty half an hour, and she was wondering when father would be down, when all at once she heard a soft, stealthy "pit-a-pat." Nearer came the steps, and then a little water-soaked form with a tiny finger on her lip stood in the doorway.

"Hush, hush, mummy," she said, "I've got father to sleep!"—The Bitt.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Dr. J. C. Ayer* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of

Dr. J. C. Ayer

The Kind You Have Always Bought In Use For Over 30 Years.

BIG WORKS WILL NO BILL AGAINST COST MILLIONS ST. GEORGE MEN

Tory Government Plans to Carry Out Liberals' Programme

Strikers Accused of Intimidating Workmen Freed in St. Andrews Court

THREE PLEAD GUILTY

St. Andrews, N. B., Nov. 7.—The circuit court, after two postponements, got down to business this afternoon, with Judge Barry presiding. The grand jury brought in true bills against John Thomas Quinn charged with felonious and indecent assault upon Herbert Amis; also against Floyd Brown and Chyman Cheney, accused of entering Ben McDonald's store, Grand Harbor, Grand Manan, in January 1910. All three prisoners pleaded guilty and were remanded for sentence.

One Charged With Assault and Two Others With Burglary to Be Sentenced Later—C.P.R. Awards Contract to Enlarge Algonquin Hotel.

No bill was found in the case of William Hayes, of St. John, who was charged with stealing Harold Purvis' dog, and the same finding was brought in the case of Charles Blaney, Chris Wren, Frank Morrison, Raymond Morrison, Joseph Howe and Edmund Mullins, accused of intimidating workmen at St. George's Pump Company's mill, where a strike was on. The defending lawyers in the civil suits brought against the St. Croix pulp company by Harry Mann and William Riddout, arising out of logging operations. A large sum is involved.

Monk Anxious for a Start.

Hon. Mr. Monk will, however, make a vigorous effort to get his colleagues to endorse his proposal to begin the work with out further delay, especially in view of the fact that it will take fully ten years to complete the canal. Political considerations will naturally enter largely into any decision reached, and while the actual beginning of construction may be postponed for the present, it is probable that the government will hold out the promise of a comparatively early start on the undertaking.

AGAIN CRITICISES LICENSE INSPECTORS

Wednesday, Nov. 8.

The members of the St. John county branch Temperance Federation held a very enthusiastic meeting in the Christadelphian Hall, in Union street, last night, the president, C. Fraser McLavish, occupying the chair. There was a good attendance of members present, including Rev. W. R. Robinson, Rev. H. E. Thomas, J. Willard Smith, president of the provincial federation, and E. S. Hennigar.

Also Gives Another Warning to the Politicians—Temperance Meeting Last Night.

In an address to the members, Mr. Robinson severely criticized the liquor license inspectors of this city, and declared that he was guilty of gross neglect of duty. He also declared that the chief of police, as deputy inspector, was the wrong man for the position. Touching on politics, he said: "Politicians must not try to hoodwink the temperance people. They must understand that inconsistency cannot be tolerated."

PROOF POSITIVE

"See here, Mr. Casey," said Pat to the tax assessor, "shure and ye know the roost isn't worth 88."

"O'm sorry," responded Casey, "but that is the law," and, producing a book, he read the following passage: "All property abutting on Front Street should be taxed at the rate of 82 per foot."

SOCIALISM

A Great Controversy.

Consequently we may take it as certain that the present condition of things will gradually give place to some form of social organization, or to individualism largely modified by Socialism. And it will be beyond measure unfortunate if church and State, lay and clerical, range themselves in opposition to this uprising of the people, as we are in some danger of doing. In this connection we should, I think, take heed of the fact that the clergy, and especially the clergy, to consider how we are to regain the position and influence of a national church, or at any rate to avoid further loss and how we are best, by sympathetic co-operation, to save the Socialist movement from being, as it seems to be in some other countries, mainly material and selfish. It is our duty to help to secure that the spirit which directs it is truly Christian.

The conference passed a resolution protesting against the disestablishment of the church in Wales.

SLAYERS

this diabolical charge and its continued insinuation might have on the mind of the British people, and that the present public opportunity on his return to London to give an unqualified denial to any such reports as affecting any section of the Canadian people, and that the patriotism of Sir Wilfrid Laurier and the great work he has done for Canada and the empire. It is to be hoped that this is the last time that charges of diabolism and of being annexationists will be brought against any Canadian party, especially in connection with a purely economic matter.

DAIRY

WHY MILK SOURS

Bacteria Play Important Part—How to Check and Prevent.

The souring of milk is not unlike the souring of fruit juice or vegetable matter. It is due to the action of a particular kind of micro-organisms which we call bacteria. These little organisms are a good deal like the forms of life that we must have air, moisture, warmth and food in order to live, multiply and work. The particular food of a great many bacteria is sugar, and the product which they manufacture is called acid. For instance, when the juice is pressed from the apple it is called sweet cider because of the sugar it contains. But soon the bacteria enter from the air, from unclean utensils, or from other surroundings and at once begin work upon the sugar which soon turns the cider hard and finally it becomes vinegar unless put into an air-tight keg and kept in a cool place.

Among the constituents of milk are water to the amount of 87.1 per cent, fat 3.8 per cent, sugar 4.8 per cent, and matter .75 per cent and sugar 4.75 per cent. When the milk is first drawn it tastes sweet because the sugar is in solution. It becomes sour when it is first pressed from the apple. The average milk as will be seen contains nearly 5 per cent sugar, which means that there are 100 pounds of milk, which when changed into acid by the bacteria produces what we call souring.

To work these bacteria require warm surroundings of about 70 degrees of room temperature, besides they need some air and enough moisture to keep their food, the sugar, in solution. The milk, the same as cider, has all these conditions present so just as soon as it is drawn the bacteria begin to work rapidly because since the milk is warm all the conditions necessary for exactly right. Then unless the milk is cooled they continue rapid work until all the sugar is changed to acid—the milk sours.

Since these little organisms must first get into the milk, then have a warm temperature in which to work, the way to prevent the milk from souring is to keep the bacteria out as much as possible, and make the surroundings so cold that they cannot work. To do this we have all our surroundings as dry, stable and still in good sanitary condition. Then, when we take the cow at least with as much care and attention as is given the horses. Keep all pails, strainers and other milk utensils scrupulously clean and finally cool the milk to 50 degrees F., immediately after milking. Setting milk into an ice box, a cave or a cellar to cool is not a very good plan because of frequent poor ventilation and bad odors. A more satisfactory way is to make either a small vat, large enough to hold several short-gum milk cans, or cut a barrel into halves and provide with a well fitted cover to keep the heat of the sun and shield from the heat of the sun. By placing this between the pump and the water trough, then running a spout from the pump to the cooler, and having the cooler in the trough, fresh, cool water may be kept about the contents of the cooler at all times. The average temperature of the water is about 50 degrees F., so an arrangement like this is a simple, inexpensive and effective way to keep milk from souring.—G. L. Martin.

POULTRY

DUCK RAISING

Points to the Experience of a Nova Scotia Poultry Man.

I have often wondered why, when duck-raising is so easy and pays so well, more girls and women farms do not go into the business. I think there is little danger of the market being overstocked, says a Cumberland county (N. S.) writer in the Farmers' Advocate.

During quite an extended drive through eastern Nova Scotia, I was surprised to find that in that section of the province there is a sort of prejudice against ducks on account of their voracious appetites; but while ducks are large eaters, they will consume almost anything. It is not a matter of quantity that appeals to them. Grass, weeds and all sorts of stuff will go to fill up, and what will "fill up" will help fill the rest of the flock. I have heard people say that the white breeds are less hardy than the colored ones, but I have not found it so. I prefer the white breeds, but from an aesthetic standpoint, and because they are easier to make presentable for market.

I was never in the business in a large way, but I have had an incubator, but always with my ducks. One year I raised and found they made satisfactory mothers. Immediately on being hatched, I take the young ducklings from the nest, putting them into a sack, and take them to a warm place. They dry off, without any danger of being trampled to death.

STOCK

TESTING COWS

Many dairymen do not fully understand what kind of information is necessary to determine the true productive value of a dairy cow. The dairymen must know, first, the total amount of milk produced during the entire milking period; second, the amount of butter fat contained in this milk; third, the amount and value of the food used by the cow during the period.

The following method is used by large dairymen to secure data of this kind. The food fed to the cow is weighed daily in the morning and evening. A composite sample is made of all the milk given by the cow, and the sample is tested weekly. The milk is weighed every day in the year, and the figures secured from these operations are recorded on sheets made for the purpose. A great deal of work is entailed in making these complete records. Rather than take this trouble, the average small dairymen makes a rough estimate of the value of his cows; or perhaps makes one test of the per cent of fat in the milk, and assumes a value based on that one test. Knowing that many dairymen will not weigh milk and food daily, and take daily composite samples, we publish herewith the

Paper Prepared by Judge McDonald of Brockville, Ont., and Read by D. R. Jack at Monthly Meeting of New Brunswick Loyalists' Society Last Night, a Treat for Those Who Heard It.

Wednesday, Nov. 8.

The monthly meeting of the New Brunswick Loyalists' Society was held last evening at 8 o'clock in the United street, D. J. Seely, president, in the chair.

After business of a routine character had been disposed of, a very interesting paper by Judge McDonald of Brockville (Ont.), upon the United Empire Loyalists, was read. This paper had been forwarded by Judge McDonald to Archbishop Raymond with permission to make such use of the whole or part of it as might appear to him to be desirable. As the paper contains references to Campbell Managosh, and to the wonderful growth of the Province, few extracts will doubtless prove interesting to many readers of this journal. In the absence of the Ven. Archbishop Raymond, who was obliged to leave for Fredericton on Monday to attend the synod, the secretary, D. R. Jack, read the paper at his request.

It was in part as follows:

"In June, 1784, at the meeting held at Adolphustown (Ont.), to celebrate the centennial of the first settlement of upper

Points to the Experience of a Nova Scotia Poultry Man.

I have often wondered why, when duck-raising is so easy and pays so well, more girls and women farms do not go into the business. I think there is little danger of the market being overstocked, says a Cumberland county (N. S.) writer in the Farmers' Advocate.

During quite an extended drive through eastern Nova Scotia, I was surprised to find that in that section of the province there is a sort of prejudice against ducks on account of their voracious appetites; but while ducks are large eaters, they will consume almost anything. It is not a matter of quantity that appeals to them. Grass, weeds and all sorts of stuff will go to fill up, and what will "fill up" will help fill the rest of the flock. I have heard people say that the white breeds are less hardy than the colored ones, but I have not found it so. I prefer the white breeds, but from an aesthetic standpoint, and because they are easier to make presentable for market.

I was never in the business in a large way, but I have had an incubator, but always with my ducks. One year I raised and found they made satisfactory mothers. Immediately on being hatched, I take the young ducklings from the nest, putting them into a sack, and take them to a warm place. They dry off, without any danger of being trampled to death.

the bottom of the coffin; men may rush to and fro, but they are in the coffin all the same.

A world of acquaintances, but how many friends? There is flesh on both sides of your hand.

Easy to see flowers, but hard to embrace. You need a needle to draw the thread.

The blind man say he saw a ghost. Mountains do not turn, but that's so.

The able minister keeps his mouth shut. A spring rain is worth as much as oil.

Those who live near rivers understand the fishes. Clear water, few fishes.

No matter how high the waves, sit tight on the fishing stone. When the waters rise the boats rise also.

If you have money, any place is a place. The buffalo longs for the moon.

Carry your umbrella when the weather is fine; carry food when you are not hungry.

The horseman does not know the footman's trials. At home you may get on for a thousand days.

But the traveler is in trouble all the time. To converse with a superior man for one night is better than studying books for ten years.

Hold your temper for a moment and avoid one hundred days of sorrow. Men look up; water flows down.

If you have money the devil will grind for you. If you are near ink you will become black.

You can substitute a turnip for an egg only once. Whoever buys the horse rides it.

A worn out boat still has three thousand mulls in it. A man's heart is kept from his view by his skin.

A tiger's heart is kept from his view by his skin. If the farmer is diligent the soil will not be lazy.

If you will respect me an inch I will respect you an ell. When idle arrange things for busy days.

If there are three roads, keep in the middle one. A big heart is better than a big house.

Don't work on a tiger hill. Worship the idol and it seems a god; not worship the idol and 'tis but a clod.

If you know how, a thing is not hard; if it is hard, then you do not know how.

False humility is genuine arrogance. One hand cannot make a clasp.

Men honor the rich; they bite the ragged. Sacrifice a sheep to kill a woolly man.

To a full man even honey is not sweet. Too many cooks spoil the dog.

WANTED—An experienced housemaid with references. Mrs. T. E. O. Armstrong, 27 Queen Square, St. John, N. B.

AGENTS WANTED—Representative wanted at once for work in your locality. Will guarantee \$2.00 to \$3.00 per day. Opportunity to advance rapidly. Will pay liberally for spare time. Work not difficult. Experience not required. International Bible Press, Toronto Ont.

BUSINESS GOOD ON THE INTERNATIONAL

Thomas Malcolm, of Campbellton, arrived in the city yesterday, coming from Ottawa and Montreal, and will spend a few days in the city before returning to Campbellton. Speaking of conditions on the North Shore, Mr. Malcolm said that a large number of men are being sent into the woods this fall, and as far as he can tell the operations will be on about the same scale as last year. The last season has been a fair one for the Intercolonial Railway, in spite of the great blow to business caused by the destruction of Campbellton. Speaking of the new hotel in operation, he expects that the road will get a large share of the tourist business.

In New Zealand powdered milk is becoming a formidable rival of condensed milk. The powdered milk is said to be much more digestible and more suitable for infants' food.

OCEANS OF WINE AT BORDEN FEAST, SAYS CHRONICLE

Halifax Journal Gives Startling Account of Generative Jubilation

CHAMPAGNE AND SHERRY, PORT, WHISKEY AND BEER

"Greatest Collection of Liquors Ever Got Together in Canada for a Function" — How They "Flooded" the Temperance People — Halifax Newspaper Makes Definite Charges.

(Halifax Chronicle, Nov. 7).

The correspondent of the Toronto Star, in a dispatch on the Borden banquet, reports that the banquet was held at the Hotel Victoria, and that a large number of guests were present.

The correspondent of the Toronto Star, in a dispatch on the Borden banquet, reports that the banquet was held at the Hotel Victoria, and that a large number of guests were present.

A goodly number of those who came to Halifax to attend the banquet were unable to do so because of the storm.

The lovers of the flowing bowl who did not attend the banquet did not suffer from thirst. In plain view of men who had been elected to the house of assembly, pledged in favor of provincial prohibition, wine was opened and served. Over 400 quarts of champagne, 300 bottles of port and sherry and vast quantities of whisky were consumed.

A certain quantity of wine was given gratis to each guest furnishing the dinner. For those who could not be satisfied with that a reserve stock was at hand, with every reach, which those who desired could purchase at the banquet hall for places which they could not afford. Although a very large staff of waiters and bottle openers were employed some of the celebrants could not be served with enough drinks and left the banquet hall for places where they could get a drink.

Nov. 7.—The governor and council announced last night their decision to accept the amendment to the vote of Limestone, Westfield, Athol and Matinec, which defeat the repeal of constitutional prohibition, by 738 votes.

Gov. Plaisted announced that he would call a special session of the Legislature, probably in February.

Gov. Plaisted, speaking to the council called attention to the fact that the resolution of the Legislature made a special session of the Legislature imperative.

There are strong reasons why the Legislature ought to assemble before another general election is held, he contended.

IN THE COURTS

Probate Court. Tuesday, Nov. 7. In the probate court yesterday the matter of the estate of Caroline Sophia Coster, widow of Nathaniel Allan Coster, clerk in holy orders, came up. She died on October 10, leaving a will whereby she directs that she be buried in the lot in the Churchyard of St. John's Church at Gagetown, where her husband, formerly rector of the parish, lies buried. She gives to Kate Thompson, daughter of the late Marion Coster of New Zealand, who was the widow of her step-son, Pensioner Coster, the lot in the churchyard, where her husband lies buried.
