It is an acknowledged fact that Cod Liver Oil and Iron are the two most success a tonics—iron for the blood and the medicinal curative elements contained in Cod Liver Oil, for building up bodily strength and sound nerves and for the successful treatment of throat and lung troubles.

Old Fashioned Cod Liver Oil and Emulsions always had a serious drawback—that was the heavy, greasy oil which many persons could not digest. To overcome this objection, two noted French chemists, after years of study and experimenting, discovered a method of separating the medicinal elements contained in the cod's liver from the useless oil or grease. To these medicinal curative elements Tonic Iron was added—thus combining in Vinol in the most agreeable form the two most world-famed tonics, viz:—all the medicinal elements of Cod Liver Oil and Tonic Iron, without a drop of oil or grease.

It is for these reasons that Vinol is fast superseding old fashioned Cod Liver Oil and Vinulsions.

Vinol is delicious to the taste, easily assimilated and agreeable to the weakest stomach. Children love it.

A Real Cod Liver Medicine without Cod Liver Taste or Smell. Contains no Oil or Grease.

# How to Have Good Bread

#### To Have Good Bread the Following Rules Must be Observed

Use the best flour, it is the cheapest in the end.

Always sift flour or meal for bread twice. Part milk and part water is preferable for mixing raised bread. If milk is used, scald it first and let it cool to blood heat before using. In winter the water or milk used in mixing should be lukewarm, and if the flour be kept in a cold place, warm it before using. In summer the water need not be warmed, but the milk should be scalded and cooled.

To make biscuits crisp use water instead of milk for mixing and double the

quantity of shortening.

Bread should be kneaded until perfectly smooth, and so elastic that an indentation made with the finger will instantly fill up again. Bread should be double its bulk at the first rising in four hours, and in one hour

at the second rising. A new baking pan should always be burned blue in the oven before it is used

for bread. Bread should be kept in large tin boxes, or earthen jars which should be scalded

frequently, then dried in the sun. Cooking School Famous Recipe for Baking Powder. Any Woman Using This Receipt Can Make a Better Baking Powder Than She Can Buy and It Will Be Absolutely Pure.

One pound of pure cream of tartar, one-half pound of cooking soda, one-half pound of corn starch. Mix together and sift seven times through a hair sieve.

This more than fills two onepound cans and makes a pure baking powder that is absolutely reliable.

#### Never-Failing Potato Yeast.

Boil three good sized potatoes. When well done mash fine and dd enough water to make one juart. When lukewarm, add one tablespoonful sugar and one tablespoonful flour mixed together. Then add one-half of a yeast cake mashed fine. Set away in a covered vessel and when the potato rises to the top it is ready for use and will keep for weeks in a cool place.

#### White Raised Bread.

Sift two quarts of flour into a mixing bowl. Rub into the flour two tablespoonfuls of butter or lard until it is fine, like meal; add one scant tablespoonful of salt, and one tablespoonful of sugar. Draw the flour to the edges of the bowl leaving a hole in the middle with about two inches of flour covering the bottom of the bowl.

Dissolve thoroughly one cake of compressed yeast in a teacupful of lukewarm water, and pour the liquid into the hole in the flour, stir in the flour from the edges, adding sufficient lukewarm water, or milk and water mixed, to knead well. Knead for half an hour, then cover to exclude all air, and set to rise. When it is well risen, knead again for ten minutes, divide into loaves and put in wellgreased pans. Cover, and let it rise again to the top of the pans. Bake in a moderately hot oven nearly one hour.

VINOL Builds up the Weak and Run-down and Creates Strength.

Cough syrups are palliatives only—not curatives—and often upset the stomach, and not one person in twenty can take greasy cod liver oil and emulsions owing to the nauseating taste and odor.

#### Vinol

is a specific throat and lung healer—it goes to the seat of the trouble at once, stops the cough and heals the inflamed surface of the bronchial tubes.

Moreover, it builds up the patient's strength at the same time.

It is the combined action of the medicinal, curative elements of the cods' livers, without the greasy oil, aided by the blood-making and strength-creating properties of tonic iron that makes Vinol so efficient in treating chronic coughs, colds and bronchitis, at the same time building up the weakened, rundown system.

#### Our Guarantee.

We have had so much experience with Vinol and seen such remarkable results from its use, that we offer to return your money without question if it does not accomplish all we claim for it.

Can anything be more fair? Try Vinol on our guarantee.

Proof that Coughs, Colds and Bronchitis Yield to Vinol.

#### "Chronic Cough Yields to Vinol."

Percy E. Smith, Ottawa, Ont, says: "For two years I had a severe cough accompanied by spitting of blood. The first bottle helped me and by the time I had finished the third bottle the cough and the spitting of blood had disappeared."

#### Vinol Stopped His Cough.

Mr. George Cole, of Kincardine, Ont., says: "For years I suffered from catarrli and a cough, was run-down owing to a severe attack of bronchitis, and after seeking relief in vain from several so-called remedies, I took Vinol, which completely restored my usual vigor, entirely removed the mucous and cured the cough. I consider Vinol the greatest and most beneficial remedy ever offered the public, and am glad to testify to its efficiency."

#### "Vinol Best for Coughs."

Mrs. Howard Wagner, Milton, Pa., says: "I had a conic cold and cough; would cough until midnight. Doctors and medicines failed to help me. Vinol stopped the cough, gave me a hearty appetite and I gained 12 pounds."

#### Vinol

will build them up, create a hearty appetite, sound flesh and muscle tissue, pure, healthy blood, and make them strong, robust and rosy.

Vinol contains no oil or grease and does not upset their weak, delicate stomachs, like old-fashioned cod liver oil or emulsions.

Vinol is the one cod liver preparation that children love to take and is easily assimilated by their delicate digestive organs. It builds up firm, healthy flesh and makes thin little limbs round and plump.

#### Our Guarantee.

We guarantee Vinol to be the best body building and strengthening tonic for delicate, sickly children. If it fails we will return your money. Proof that Vinol Makes Delicate, Ailing Children Strong and Healthy.

#### Wonderful Medicine for Delicate Children.

About Birthdays

They say the luck of life begins with the first breath; and it me all the difference in the world whether you are born on a Thurs or Sunday. This is the way an olden rhyme sets forth the matter

Monday's child is fair of face,
Tuesday's child is full of grace,
Wednesday's child has far to go,
Thursday's child is filled with woc,
Friday's child is loving and giving,
Saturday's child must work for its living;
The child that is born on the Sabbath Day
Is blithe and bonny and rich and gay.

# How to Treat Constipation

A great London physician once said "More than half the sickness, especially of women, is caused by constipation."

The waste matter from the food if not discarded, ferments in the bowels, is carried back through the blood, and poisons the system.

#### Avoid Purgatives

till?

nd ng

ter

VO

You must avoid strong purgatives like pills, salts and powerful physic. The symptoms produced by violent cathartics, with pain and griping, show that their effect is similar to that of poisons. Moreover, purgatives relax and weaken, and the more you take, the less effect they will have upon you. After the violent movement and pain, the bowels are left exhausted and weak. This is no cure, for the bowels become more sluggish and the trouble is thus aggravated.

#### Vinlax for Constipation

There is no medicine made, one dose of which will cure constipation. The bowels must have a regular tonic treatment, and the liver stirred out of its lazy, inactive condition.

This requires a little time and systematic attention. One dose of Vinlax may not move your bowels next morning, but its persistent use night and morning for a while will strengthen the impoverished nerves of the intestines, and increase the activity of the liver—and thus overcome constipation.

#### For Children

Vinlax is especially good for children. It is gentle and cannot hurt them. You should not give to children cathartics, strong laxatives or poisonous pills which do mischief even to older people. Many deaths have been caused by giving children purgatives too violent for their tender, young bowels. It is absolutely impossible for Viplax to harm a child—it always does good.

The testimonials from notable people published this book show that the fame of Vinol has spread ar and wide, having completely outgrown this limited a scality. This is additional evidence that Vinol is immensely superior to any other tonic or cod liver oil preparation in the world.

# VINOL

# Pourquoi Le Vinol Est-il Un Bon Tonique

Parce que c'est un fait bien connu que l'huile de foie de morue et le fer sont les deux toniques très efficaces: le fer pour enrichir le sang et les éléments médicinaux contenus dans l'huile de foie de morue, pour redonner des forces au corps, comme reconstituant des nerfs, et pour le traitement efficace des maladies de la gorge ou des poumons.

L'huile de foie de morue vieux genre et les émulsions avaient toujours un défant sérieux, e était cette huile épaisse, grasse que beaucoup de personnes ne pouvaient digérer. Pour surmonter cet obstacle, deux remarquables chimistes français, après des années d'études et d'expériences, ont déceuvert le moyen de séparer les éléments médicinaux contenus dans l'huile de foie de morue, de l'huile. On a ajouté à ces éléments médicinaux du peptonate de fer, en combinant ainsi dans le VINOL, sous la forme la plus agréable ces fameux éléments, c'est-à-dire les éléments médicinaux de l'huile de foie de morue et le peptonate de fer sans une goutte d'huile ou de graisse.

Le VINOL a un goût délicieux, s'assimile facilement et est agréable aux estomacs les plus débiles. Les enfants l'aiment.

C'est à cause de ces raisons que le VINOL est très recommandé pour le traitement de la toux, des coups de froid, des bronchites, et des maladies de la gorge et de la poitrine et aussi comme un reconstituant et fortifiant pour presonnes âgées, les enfants délieats, les personnes affaible, et pour redonner des forces après les maladies.
