## The Pope for Peace

How vitally the Papacy lives while dressed to the Emperor of Austria in regard to the Macedonian massacres. True to the traditions of his exalted office and to his responsibility as the arbiter of nations, the Holy Father has spoken strongly to the Emperor upon the necessity of a union of the Powers to put an end to the atrocities, in so far as they are contrary to the principles of the Church which Pius stands for. The Pope urges that it is the opportunity of the Catholic powers of Europe to come to an agreement as to the best way to stop the massacre. It is the general opin-ion in Rome that the Pope is fully justified in publicly and unsparingly denouncing the brutality of the Turks and in calling upon all the nations of the civilized world, irrespective of religious differences, to make com-mon cause against them in the name

of humanity. Meantime, the outrages seem to be unabated. The Autonomye publishes the names of 50 villages burned by the Turks in the following districts: Resen, 30 villages; Kostur, 14 villages; Krushevo, 6. The Turks also burned four villages in the district of Strushkopolis and murdered the priest. The population fled to

The Turks have destroyed all the flour mills in the district of Resen and also every church. A fight is reported to have taken place at the village of Vertso, between a body of in-surgents and a Turkish battalion, It lasted four hours, and the Turks, it

is said, lost heavily. Reports have reached revolutionary headquarters here of atrocities by the Turks in the village of Velkosti. Regular troops and bashi-ba-zouks surrounded the villages. Part of them entered and began plundering the houses and assaulting the women. The other soldiers remained outside and killed those inhabitants who tried to escape. The Turks then set fire to the village in four places, burning 12 women and children. One child was hanged. Altogether 60 peasants were killed and their bodies were left in the streets.

The bat is not a bird; it rears its little ones as the cow does her calf. There is a well-known cow that is said to have jumped over the moon, but she did not fly. The bat is the only four-footed animals that flies. The flying-squirrel does not fly; it floats or sails from one tree to another. It always lights lower down than the place it starts from. The bat flies to catch insects. Attracted by a light, it comes into a room. Then it flies about wildly, trying to room is to take the light out; the bat will follow the light. BLESSINGS OF SUNSHINE

Prof. Lugeon, of the University of Lausanne has been studying population of the valley of the Rhone between Martigny and the Rhone gla cier. The statistics show that the right bank of the river between these points has a population of 34,000, while only 20,000 persons live along the left bank.

There are two reasons for this difference in the density of population of the two banks of the Rhone. One is that the right bank is less hilly and therefore offers better natural conditions for the building of hamlets and towns; but Prof. Lugeon is convinced that a more important influence exerted by the different degrees

sunshine enjoyed by the two banks. He has found that along a part the river banks which present exactly the same topographic conditions th population of the side which is most exposed to the sun has from four to five times as many inhabitants as the other bank which is in the shadow of the mountains that ward off most o the direct rays of the sun. With one or two exceptions all the villages have been built on the bank which is most fully exposed to the sun's rays This influence of the presence or ab

sence of sunlight also manifests itself in the psychic characteristics and the material conditions of the population of the two river banks. On the right side of the river in the sun the popu lation live more at their ease, more prosperous and present a degree of civilization more advanced than those of the opposite shore.

He calls those who are most favored with sunlight the solar aristocrac and says that they contemplate with a certain disdain the inferior popula tion who dwell in the shadow across the river.

The people of the village of Reckingen, which occupies both banks of the Rhone, are notably divided into two He threw himself into the arms of distinct castes whose origin, in the last analysis, may be attributed to the difference of sunshine to which the two groups are exposed.

193 King street East, Toronto, Nov. 21, 1902, John O'Conner, Esq., Toronto:

DEAR SIR-I am deeply grateful to the friend that suggested to me, when I was a cripple from Rheumatism, Benedictine Salve. I have at in tervals during the last ten years been afflicted with muscular rheumation. I have experimented with every available remedy and have consulted might say, every physician of repute, without perceivable fit. When I was advised to use your Benedictine Salve, I was a helpless cripple. In less than 48 hours I was in a position to resume my work, that of a tinsmith. A work that requires a certain amount of bodily activity. I am thankful to my friend who advised me and I am more than gratified to be able to furnish you with this testimonial as to the cacy of Benedictine Salve. Yours truly, GEO. FOGG.

Tremont House, Yonge street, Nov. 1, 1901,

John O'Connor, Esq., Toronto: DEAR SIR-It is with pleasure that I write this unsolicited testimes. and in doing so I can say that your Benedictine Salve has done more for me in one week than anything I have done for the last five years. My ailment was muscular rheumatism. I applied the salve as directed, and got speedy relief. I can assure you that at the present time I am free of pain. I can recommend any person afflicted with Rheumatism to give if a trial. I am, Yours truly, (Signed) S. JOHNSON,

288 Victoria Street, Toronto, Oct, 61, 1901,

John O'Connor, Esq., Nealon House, City: DEAR SIR-I cannot speak too highly of your Benedictine Salve. has done for me in three days what doctors and medicines have been trying to do for years. When I first used it I had been confined to my bed with a spell of rheumatism and sciatica for nine weeks; a friend recommended your salve. I tried it and it completely knocked rheumatics right out of my system. I can cheerfully recommend it as the best medicine on the market for rheumatics. I believe it has no equal.

Yours sincerely, JOHN McGROGGAN. 475 Gerrard Street East Toronto, Ont., Sept. 18, 1901,

John O'Connor, Esq., Nealon House, Toronto Ont .: DEAR SIR-I have great pleasure in recommending the Benedictine Salve as a sure cure for lumbago. When I was taken down with it I called in my doctor, and he told me it would be a long time before I would be around again. My husband bought a box of the Benedictine Salve, and applied it according to directions. In three hours I got relief, and in four days was able to do my work. I would be pleased to recommend it to any one suffering from Lumbago. I am, your truly. (MRS.) JAS. COSGROVE.

7 Laurier Avenue, Toronto, December 18, 1901.

John O'Connor, Esq., Toronto, Ont .: DEAR SIR-After suffering for over ten years with both forms Piles, I was asked to try Benedictine Salve. From the first application I got instant relief, and before using one box was thoroughly cured. I can strongly recommend Benedictine Salve to any one suffering with JOS. WESTMAN. Yours sincerely.

12 Bright Street, Toronto, Jan. 15, 1902,

John O'Connor, Esq., Toronto: DEAR SIR-It is with pleasure I write this word of testimony to the marvellous merits of Benedictine Salva as a certain cure for Rheumatisms. There is such a multitude of alleged Rheumatic cures advertised that one is inclined to be skeptical of the merits of any new preparation. I was induced to give Benedictine Salve a trial and must say that after suffering for eight years from Rheumatism it has, I believe, effected an absolute and permanent cure. It is perhaps needless to say that in the last eight years I have consulted a number of doctors and have tried a large number of other medicines advertised, without receiving any benefit, Yours respectfully, MRS. SIMPSON.

35 Carlton Street, Toronto, Feb. John O'Connor, Esq., 199 King Street East: I was a sufferer for four months from acute rheumatism in my left arm; my physician called regularly and prescribed for it, but gave me no relief. My brother, who appeared to have faith in your Benedictine Salve, gave enough of it to apply twice to my arm. I used it first on a Thursday night, and applied it again on Friday night. This was in the latter part of November. Since then (over two months) I have not had a trace of rheumatism. I feel that you are entitled to this testimonial as to the efficacy of Benedictine Sa've in removing rheumatic pains.

Yours sincerely, M. A. COWAN.

Toronto, Dec. 80th, 1901,

John O'Connor, Esq., Toronto: DEAR SIR-It is with pleasure I write this unsolicited testimonial. and in doing so I can say to the world that your Benedictine Saive thoroughly cured me of Bleeding Piles. I suffered for nine months. I consulted a physician, one of the best, and he gave me a box of salve and said that if that did not cure me I would have to go under an operation. It failed, but a friend of mine learned by chance that I was suffering from Bleeding Piles. He told me he could get me a cure and he was true to his word. He got me a box of Benedictine Salve and it gave me relief at once and cured me in a few days. I am now completely cured. It is worth its weight in gold. I cannot but feel proud after suffering so long. It has given me athorough cure and I am sure it will never return. I can strongly recommend it to anyone afflicted as I was, It will cure without fail. I can be called on for living proof. I am,

Yours, etc., ALLAN J. ARTINGDALE, with the Boston Laundry.

2561 King Street East, Toronto, December 16, 1961,

John O'Connor, Esq., Toronto: DEAR SIR-After trying several doctors and spending forty-five days n the General Hospital, without any benefit, I was induced to try your Benedictine Salve, and sincerely believe that this is the greatest remedy in the world for rheumatism. When I left the hospital I was just able to stand for a few seconds, but after using your Benedictine Salve for three days. I went out on the street again and now, after using it just ever a week. I am able to go to work again. If anyone should doubt these facts, send him to me and I will prove it to him.

PETER AUSTEN, Yours forever thankful,

Toronto, April 10, 1002,

Mr. John O'Connor: BEAR SIR-I do heartily recommend your Benedictine Salve as sure cure for rheumatism, as I was sorely afflicted with that sad disease in my arm, and it was so bad that I could not dress myself. When I heard about your salve, I got a box of it, and to my surprise I found great relief, and I used what I got and now can attend to my daily household duties, and I heartily recommend it' to anyone that is troubled with the same disease. You have this from me with hearty thanks and do with it as you please for the benefit of the afflicted. Yours truly.

MRS. JAMES FLEMING. 18 Spruce street, Toronto. Toronte, April 16th, 1902.

J. O'Connor, Esq., City: DEAR SIR-It gives me the greatest pleasure to be able to testifu the curative powers of your Benedictine Salve. For a month back my hand was so badly swollen that I was unal a to work, and the pain was so intense as to be almost unbearable.

Three days after using your Salv as directed, I am able to go work, and I cannot thank you enough. Respectfully yours, 72 Wolseley street, City. J. J. CLARKE. 114 George street, Toronto, June 17th, 1902.

John O'Connor, Esq.: DEAR SIR-Your Benedictine Salve cured me of rheumatism in my arm, which entirely disabled me from work, in three days, and I am now completely cured. I suffered greatly from piles for many months and was completely cured by one box of Benedictine Salve. Yours sincerely, T. WALKER, Blacksmith.

Ghost produced wonderful effects in the little room of Jerusalem. Previously fearful of the terrors of the Sanhedrim, and suffering from the loss of their Divine Leader, they, now having received the Holy Spirit of God, went out boldly into the streets

of Jerusalem to preach Christ crucified. St. Peter planted that day the standard of Catholic faith in the very heart of Jerusalem, which, as our Saviour promised, has never yet been borne down. The first fruits were 3,-000 souls. The apostle presided at his great work, and according to the Acts of the Apostles, personally baptized them

In these days of labor we find St. Peter performing the acts of jurisdiction that belonged to his office as Pontiff. He was the first mover in the election of a new apostle in the spokesman of the rest as we have seen on the day of Pentecost; and he it was who answered the charges when the apostles were brought bein the tragic scene of the death of Annanias and Sapphira; he was the first to break down the wall of prejudice of race by receiving a Gentile convert into the Church; he was the first to propound in the Council of Jerusalem the question to be discussed as to the Mosaic observances; and, finally, we find him acting as president at that council in 49. From this forward his life is one of constant labor and work in many portions of the world, converting thousands by his preaching, and suffering innumerable persecutions from the enemies of Christianity. In 42 he took up his residence in Romes and from that city kept up constant communication, as far as possible, with the workers in instructions from him, and were en-In Rome itself innumerable evidences of his labors could be traced. very stones speak of the work of the Supreme Pontiff, and bring back the mind in wonder to the time when the great Catholic Church, that now has temples and churches and millions of adherents in every land, was in realiity the "little mustard seed" which our Saviour speaks.

## FEAST OF ST. PETER IN ROME.

The Feast of St. Peter is a day on which the Romans annually display their love and reverence for their first Bishop in an impressive and solemn manner. The Piazza Venezia to St. Peter's itself is thronged with tens of thousands, making you imagine, if you are a stranger, that you will find some difficultyin entering the great temple; but when you pass the doors, St. Peter's is not half full. though there are probably between 30,000 and 40,000 of the faithful in it. There is one feature of the solemnity that is most impressive, and that is the sight of the immense line of people that file past the bronze statue of St. Peter and reverently kiss the foot as they pass. The Romroom of Judas Iscariot; he was the ans never on any account neglect this testimony of their love and reverence for their first Bishop on his feast nay, the good mothers bring their babies to kiss the foot of the fisherfore the council; he is the chief actor man, and fathers lift their little sons high enough to permit them to touch the venerated statue with their lips. This has gone on now for about fifteen centuries, with the result that even the bronze has been worn away from the foot.

The above carefully prepared consus of towns and cities in Ontario reveals remarkable shrewdness on the part of the public in selecting typewriting machines. There was a time (years ago) when a hustling typewriter agent could sell the public a blind machine—that time is past. The Underwood, with its clear, visible writing, beautiful touch and action, has won the heart of the stenographer on the one hand, and saved hundreds of dollars in time to the business man on the other.

## THE TRANSGRESSIONS OF PENELOPE

Why did I do it?

Well, I never could tell. One never I suppose I deserved the punishment I got, severe though it was.

But the night was so warm, and I was so lonely! Everybody had gone ward the open grand piano he reaway and left me, and as I sat in marked: "Do you play?"

"A little," I replied, admiring the and down the hot, dusty street, I thought how foolish I had been not to go too. Still, it was my own wish that I had remained behind. I did not care for the bustle and annoyances of those preliminary trips to Newport, with the house in disorder and the servants at war with themselves and everybody else. So I insisted on remaining behind this time. With two maids to take care of me where could the harm be?

Up to that moment I had thoroughly enjoyed being alone. The solitary evenings in the great drawing-room, shrouded in its sombre summer wrappings, held a sort of mysterious pleasure that enchanted me. A single jet of gas in the hall was turned low and threw a faint, flickering light through the arch, from which the portieres had been removed. The tall chairs and sofas were ghostly in their shrouds of yellow linen, and, lost to all familiarity, seemed weird and un- a step or two, he picked up my

"Don't you think this is rather foolish," I asked, "not to tell me who you are, particularly as we have many common friends?"

ers lying on top of them while in an inebriate condition. In Germany such deaths are almost unknown. German mothers do not get drunk; English mothers do.

Interesting facts regarding the prevalence of drunkenness on the Continent have been gathered. Medical statistics show that the high mortality from pulmonary consumption is almost entirely due to alcoholism. Twothirds of the inmates of the lunatic asylums in France are there from the same cause, it is declared. Cheap absinthe is adulterated with diacetate of copper, and the effects of this beyrage, if taken regularly, drives the drinker insane. The only remedy suggested is in prohibitive legislation and the creation of a state monopoly of alcohol, which would mean that pure alcohol only would be served and at a high price.

(1) Herein I have endeavored in cursory manner, necessarily, to illustrate the doctrine of materialism or evolution: that man, instead of being the result of special creation, is literally "the beast's younger brother," being evolved from the monkey, without interference of God-there being In fact, no God-man having reached his present high bestial estate through a tedious progression-a chance progression or evolution-from the first hance germ, through "eternities" of change in time, nature, form, climate conditions, etc., to some simian family born without tails-abnormaltiesand hence considered unfit by their fellows to live in the tree tops.

Not being able to keep up with the band in swinging from tree to tree, they were driven out of the arboreal society of their kin to find lairs in caverns, and cover their naked condition by the evolution of their cunning, for it seems when they lost their tails they discovered their

If we follow the law of evolution, as illustrated by evolutionists, we find it, in a material sense, even more wonderful than creation in the Biblical plan. Where it took God only a portion of a day to make man to His mage and likeness and breathe into that likeness His everlasting spirit, It has taken millions and millions and millions of years to produce the evolved man-man without a soul! Man, the beast's younger brother! this evolutionized man, who knocks boldly at the gates of the infinite, who counts and comprehends the stars-has them all charted in his little book-and who is hobnobbing with Mars and Venus to compare notes with other "soulless things" like himself, returns from his stellar flights to his elder brothers, the beats, lies down beside them, goes to sleep with them, and is no more! Oh,

the pity of it! Were the whole horror true, man would have high grounds on which to curse his simian ancestors and the arboreal evolution which caused them to be driven from their instinctive natures into the caverns where they drank at the fountain of Evil Knowledge, which would become his living hell, and which would drive him such excess s—to kill reason—as would result in such involution or re-evolution as would restore him his tail again and take away his reasoning laculties! Yet a very large number of our Protestant scientists, so-called are working along evolutionary lines, are feverishly expectant to discover the missing link-the link which will lorever chain man to the beast which they would present to the world with more professional pride than if they could open the gates of Paradise.

Catholics, and plain Protestant Christians, can scarcely comprehend this evolutionary madness, which would destroy God and soul at one iell swoop; yet it fills a very large place in the curriculum of the colleges of the Christian world, and the professors who are mad enough and bold enough to avow their belief in the doctrines are but "one in the hundred" compared to those who believe therein, but shrink from avowing that belief behind a cowardly film of acquiescence in Special Creation! If put to a vote - a secret ballot these men would all vote no God!

I refer to this subject in this poem simply as one more, and the greatest reason, why Irish and Irish-American Catholics should remain true to their race, its teliefs and aspirations, until Ireland, a nation, shall place that race beyond the danger of dying as the beasts die. The man of Irish blood who lapses from Irish national faith will not long remain a Catho-Leaving the House of Faith, there is no Halfway House for himhe plunges at once into the mad whirl of unbelief and evolution, and consequently goes back to his elder brothers, the beasts, to live as beasts and to die the beast's death.

Toronto Live Stock.

Trade at the Western Cattle Market to-day was good, and the moderate receipts were entirely cleared up early in the day. Prices all round show very little change, and trade was generally steady. Hog prices declined 25c per cwt. Sheep and lambs were about steady. The receipts totalled 62 cars, and included 85 cattle, 1,551 sheep and lambs, 519 hogs and 33 calves.

Cattle-There were very few offering, and these few were mostly common to medium grade. Quotations for thers are nominal. A heavy run would have had a tendency to lower prices, not many cattle were wanted, but a is, quotations are about steady. Extra choice cattle are duoted at \$4.70 to \$4.80 per cwt., choice at \$4.40 to \$4.60, others at \$4.20 to \$4.30, and cows at \$2.50 to \$3.70. \$4.20 to \$4.30, and cows at \$2.50 to \$3.70. Butchers'—There was a fairly good demand for cattle, and everything offering was cleared up at prices about steady with those of last week. There was, perhaps, a slightly easier feeling in the case of low-grade cattle, but quotations are generally unchanged. Picked lots-ran at about \$4.40 to \$4.50 per cwt., choice at \$4.10 to \$4.25, fair to good at \$3.75 to \$4, rough to common at \$2.25 to \$3.10, and cows at \$2.50 to \$3.50.

\$2.60 to \$3.60.

Stockers and Feeders Trade is inclined to be quiet for these cattle. There were not many offering, and the demand was mostly for the good class. Quotations for stockers have an easier tone at \$2.25 to \$3.70 per cwt. Feeders also look easier at \$2.75 to \$4.

Milch Cows—The run was light, and prices were generally steady at \$30 to \$60 each.

cach.

Calves—Trade was good and everything was sold. Prices were unchanged at \$2 to \$16 eac2, or 4c to 51/2c per lb.

Sheep and Lambs—The run was fair, Sheep and Lambs—The run was fajr, but the demand was good, and everything was sold. Prices for sheep are steady at \$2.50 to \$3.50 per cwt. for exporters, and \$2 to \$3 for culls. Lambs are 15c per cwt. lower at \$3.75 to \$4.10 per cwt. Hogs—As expected, prices declined 25c per cwt., despite the fact that the run was inclined to be light. Selects are quoted at \$6 per cwt., and lights and fais at \$5.75.

## HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the Northwest Territories, excepting and 26, which has not been homesteaded or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter sec-

Entry may be made personally the local land office for the district in which the land to be taken is situate, or if the homesteader desires he may, on application to the Mintster of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of \$10 is charged for a homestead entry.

## HOMESTEAD DUTIES

Under the present law homestead duties must be performed in one of the following ways, namely:

(1) By at least six months' residence upon and cultivation of the land in each year during the term

of three years, or-(2) If the father (or the mother, if the father is deceased) of any person who is eligible to make a homestead entry resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the law as to residence prior to obtaining patent may be satisfied by such person residing with

the father or mother, or-(3) If the settler has his permanent residence upon farming land owned by himself in the vicinity of his homestead the requirements of the law as to residence may be satisfied by residence upon the said land.

## APPLICATION FOR PATENT

Should be made at the end of the three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to Commissioner of Dominion Lands at Ottawa of his intention to do so.

## INFORMATION

Newly arrived immigrants will receive at the Immigration Office in Winnipeg, or at the Dominion Lands Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them.
