

GERMANY IS READY FOR A RIGHTEOUS PEACE, SAYS HERTLING

Will Receive Proposals If Offered In Spirit Of Sincerity

GERMAN FOREIGN POLICY, LAID DOWN IN REPLY TO PAPAL PEACE NOTE, WILL BE ADHERED TO, STATES CHANCELLOR

Righteous Peace Desired, and Germany Will Not Change Her Policy, "However Strong Idea of Destruction is Expressed in Allied Countries" - Wilson and Balfour Forced Continuation of Struggle.

By Courier Leased Wire.

LONDON, July 12.—There is the closest union between the political leaders of Germany and German army headquarters regarding their readiness to receive peace proposals from the Allies if they are offered in a spirit of sincerity. This statement was made in the Reichstag by Imperial Chancellor von Hertling, says an Exchange Telegraph dispatch from Copenhagen.

The program of Germany's foreign policy, the Chancellor added, was laid down in Germany's reply to the papal peace note, and it would be adhered to. That would be a righteous peace, and Germany has not and will not change her policy, however strong the idea of destruction was expressed in speeches in Allied countries.

The recent utterances of President Wilson and Foreign Secretary Balfour, he continued, "forced Germany to continue the struggle."

Admiral von Hintze, the new German foreign secretary in succession to von Kuehlmann, made a similar declaration to Count von Hertling that he was willing in every way to follow the imperial chancellor's advice.

Chancellor von Hertling told the Reichstag main committee that the government intended vigorously to prosecute the reforms already begun. He commented on the problem in the East and in the West, and concluded with remarks on the government's future program regarding the declaration made in November, 1917, which had been accepted by a large majority in the Reichstag.

The change in the foreign ministry, the chancellor said, was not caused by any real differences of opinion, but arose out of personal discussions, revealing matters which should not be made public.

GERMANY EXCLUDED Paris, July 12.—"Germany has excluded herself from the society of nations, and will remain outside of it as long as she is embarrassed by militarism and the door will not be opened until she has changed," says Andre Leby, who is writing a report on a League of Nations for the foreign affairs committee of the Chamber of Deputies. In a statement to The Parisien, Deputy Leby adds:

"The Allies have organized at Versailles an inter-Allied war council. Why should they not organize then an inter-Allied committee to study the idea of a league of nations? This would be a sort of a small sized inter-Allied peace parliament to do for peace what the war council acts to do for war. The two actions are parallel and complementary. This first international parliament would be the germ of a league of nations. Why not seize on the occasion of the anniversary of July 14 to create it?"

INDEMNITY CLAIM Paris, July 12.—(Havas Agency)—Germany's claim for indemnity from Russia amounts to the round sum of seven billion rubles, according to a report.

NORFOLK NEWS

FINED FOR INSULT TO RETURNED MAN

John Stuart of Glenshee appeared before Pt. Rowan J. P.

HIGH SCHOOL RESULTS

(From our own Correspondent) Simcoe, July 11.—John Stuart of Glenshee, out in Charlotteville, paid a fine of \$25 and \$20 costs for insulting in expressions detrimental to the interests of the returned man at Port Rowan on Monday.

The penalty followed an utterance of his as a part of some talk on matters in general to his neighbor, Geo. Wingrove, who is home from overseas, back to his large family of small children and again settled down to his duties to provide for their wants.

He enlisted in the 133rd, and carries a plate in his skull to remind him that he narrowly escaped death from a shell. Stuart lightly remarked that Wingrove went overseas not to fight Britain's battles but as a means to having his family better provided for than they ever were before—words to this effect. A relative of Wingrove heard the remark, and laid the information.

If there had been half a dozen of such women at those meetings in the north of the county, how much might have been done! Stuart said nothing in comparison.

Failed to Convict
The charge against the Lynnville young men, Ammerman and Wintermute, charged with breaking windows in the dwelling of one Vanetar, at Brandy Creek, on June 26th, was heard yesterday.

Evidence went to show that the two men had been over past Vanetar's to say farewell to their grandfather. Ammerman was in military uniform, and returning to camp next morning, and Wintermute was on duty next day. Tracks of military boots were found in the mud in front of the broken windows, and so distributed as to indicate a throwing posture. Magistrate Gunton had not summoned Ammerman from camp, as the crowd had not obtained any circumstantial evidence, and on the conclusion of taking the evidence of witnesses present, the case was thrown out.

May Be the Wrong Man
Frank Wilson, of Fonthill, was brought out to Simcoe yesterday, charged with stealing a manure spreader from the Grand Trunk freight platform last summer. He was wearing with Wm. Culver in "townsend last summer," and is a married man. On arrival he was remanded to jail, and at 5 o'clock appeared before Magistrate Gunton. The Crown was not prepared to proceed. Acting Attorney Agar questioned the man briefly after warning him. Wilson remarked that he did not care to answer many questions. But he told the Crown flatly that he never saw the implement, never heard Mr. Culver speak of having any such machine, and did not know of any one else bringing such a machine to the Culver farm. He was, however, detained all Monday with the option of supplying bail by two sureties in \$500 each and himself for \$1000. He had hoped, he said, that the matter might be squared away to-day in order that he might get back to his job.

HOW THE U. S. IS TAKING THE WAR

Simconian Returns From Inspection of Michigan Factories
Simcoe, July 12.—(From Our Own Correspondent).—Mr. Robert Craig, who has been for some months over in Michigan as inspector in canning factories under the Imperial Government, says The Courier Agency "a call yesterday morning. He is home for a few days owing to a hold-up in the work there.

Mr. Craig could not desert from Simconian on the whole-heartedness with which our cousins over the border are backing up the front-line in the struggle. Race courses and golf links are in cultivation, the latter not of necessity, for there is considerable untilled land. Many athletic fields and tennis courts have gone to grass. One preacher he met on the train was working 75 miles from his charge in a factory and going home for the week-end to preach.

No Party Politics
When one asks a citizen whether he is a Democrat or a Republican he replies "I was" or "that," but he belongs to the war party now. "Even on Simcoe's streets," said he, "I hear remarks that would bring down at least a five-year sentence over there." You absolutely cannot get off with it.

How would our Norfolk annexationists blend in over there at present," we queried. "About one week as I have heard some of them talk since Monday would settle the whole bunch. They would all have five to twenty-five years or worse in the German element.

In Marshalltown, largely German, they had a big parade on July 4th and any man who should fail to turn out was by pre-arrangement to be slated and shadowed. The result was the biggest parade ever. And few to witness it. There was such a parade that it couldn't parade. The German element is speaking English and talking war. You have only to stay a week or two in the United States to be convinced who is going to win the war. The old men on the farm are not waiting for the boys overseas. They sent them overseas and they are backing them up. They are only a year in the war, but they are in to a finish and every man everywhere as I met them is on the job."

Mr. Craig confessed that the atmosphere here impresses him quite differently from what it did some time ago, and though not an annexationist or one minute, confessed that he would like to see a couple of our townships hitched up to the Union for a week or two just to bring a few sinks to their senses.

And That May Explain
Why American men of leisure have to come over to Canada to fish. A couple of well-groomed gentlemen without passports or registration cards got through to Simcoe, but the conductor on the Port Rowan branch refused to take them the rest of the way down the line to the bay. They were put off a short distance down the line and had to walk back to Simcoe and get an auto for the last 20 miles. They did some grumbling, but matters might have been worse. Chief Constable is alert for idlers or men without useful occupation and they might have been run in.

PRISONERS EXCHANGED
By Courier Leased Wire
Berns, July 12.—More than 600,000 invalid and sick prisoners of war of different nationalities have been exchanged and repatriated through Switzerland since the beginning of the war, according to official statistics.

The number of officers and soldiers interned at Swiss health resorts recently was 30,000.

Since 1914, the Swiss postal service has transmitted between belligerent countries for prison camps over 500,000,000 letters and about 10,000,000 money orders, aggregating more than 150,000,000 francs.

A Fine Record.
The High School entrance examination returns have been announced for Inspector Cook's district. In Simcoe of 34 pupils who wrote, 26 took honors and all passed. In Port Rowan, Dohi, St. Williams, Courtland and Doan's school, Woodhouse, all likewise passed. The names will be published tomorrow.

SPRING GRAINS LOOKING WELL

Ontario Department of Agriculture Weekly Report on Crop
The following is a summary of reports made by agricultural representatives to the Ontario Department of Agriculture:

Hay is in full swing, and the weather has been favorable for field work. The crop of clover will not be as heavy as was expected but second growth is said to be coming on nicely. Timothy is also short in the stalk. Alfalfa has given a fair first cut.

Fall wheat, although badly thinned out by the trying weather of March and April, is giving promise of a good quality of grain for seed. Kent reports some fields as ready for cutting in a week.

All spring grains look well, although perhaps a little short in the straw. Barley, spring wheat and oats are heading out, but they are some complaints of smut in barley. The present excellent appearance of beans is giving much satisfaction to growers.

Peas have not looked so well for years. Norfolk reports that some raised for factory purposes have been heading out, but they are length covered with blossoms. Corn has not been making the growth that was expected earlier in

STRAWBERRIES TO ENTER SASKATOON

FAVOR STRIKE
By Courier Leased Wire
Winnipeg, July 11.—Metal mechanics employed in all railway shops in Winnipeg at a mass meeting held here last night for the purpose of

taking a strike vote as to whether they were prepared to await until the McCadoo award had been given in the number of sheep in that county.

Owing to the generally favorable weather and the greater use of hay loaders and other improved implements, the shortage of labor has not been keenly felt so far in the hay fields. Lincoln reports that National Service girls are working throughout the fruit belt in comparatively large numbers, and very good reports are to hand regarding their work. At present there is considerable demand for hoeing and cherry picking.

PATIENCE IN A DUG OUT

Colonel Brain's battalion was in its place, eagerly awaiting the order to advance when a runner arrived with a message cancelling the advance until further notice.

The effect of this message varied according to the moods of the hearers. The pipe smokers welcomed the opportunity of finishing their "Dill's Cut Plug" and the letter writers concluded their half-written epistles with appeals "to put in a few lines next time" and the cheerful assertion that "we are all in the pink."

Colonel Brain himself spoke his mind about the staff in general, and the Brigade Major and the Colonel directed the residue of his watch against the rain which had caused the postponement, and retired into his dugout. There he drew up a programme of work to be concluded before dusk, and of the tasks to be undertaken as soon as night should screen the workers from the Boche's observation.

Half an hour later the Second in Command "rang up" whistling Rudin's Melody, not quite in "key" but near enough to exasperate Colonel Brain still further.

"Stop whistling that Han tune," shouted the late Colonel. "Bright oh! Sir, you seem upset about something. Has Boris been catin' your jam?"

Boris was a perfectly respectable grey rat, the fumes of the ten that generally lived in the environs of the Colonel's dugout, and the Colonel never left the jam tin without its lid. But the double slender fell on heedless ears, for in the left hand of the whistling Second in Command was a pack of cards and the Colonel's eye glanced eagerly.

"Where did you find these cards?" he asked, with a poor attempt at indifference. "Special present from an admirer, Sir, but you'll see soon enough, I leave against yours that you won't get this game out in two hours."

The Second in Command sat down at the table and laid out the seven rows of cards of pedes, to which the Colonel, immediately settled. "Send these programmes on to the Company Commanders, will you?" he said. The Second in Command obeyed and "despatched" the cards, leaving from the C.O.'s note book to their respective destinations, filled and lit a pipe and affected an interest in the Colonel's game which appeared to be going very badly.

"He's resigned his watch, but what led him to a well-known tune for which the Regimental poet had written a topical song: "When this bloomin' war is over, Oh, how happy we'll be, when we'll cross the bloomin' ocean To our homes across the sea."

"Do you think this war will ever be over, Sir?" he asked. "Not yet, I hope," said the C.O. "If it ends, we should have another within ten years and this one would have been useless. They push the war into next summer and then we've got 'em. 'Rain has its uses until it rains down your neck, but you'll see soon enough that he could be beaten enough now to satisfy us. Then he would start at once preparing for the next day."

"A page?" "If only I could find old Sir's name, this game would come out. I believe it's missing."

The Second in Command said nothing, for he had abstracted the ace of spades on purpose, and was giving his Colonel something to occupy his attention during the dreary wait. His fidgeting went on.

"Only one more marching order, Only one more church parade, Only one more K.I. inspection, Then we march off to be paid."

The song seemed endless. "The men don't think really think that do they, Sir? There's Corporal Maloney who sings that song at every concert and he owns that he has never had such a time in his life; and he has had all the times there are too. He doesn't want to be paid off. I tell you his comment of the huckster's note he carried in making worse out of the Rubaiyat."

Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for women's ailments I ever saw."—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Mrs. Shaw wrote the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did.

Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years experience is at your service.

THE SITUATION.
The fighting in the Balkans is proceeding satisfactorily. The Allied advance into Albania, a south-western province of European Turkey, continues without abatement and the Austrians in retreating are destroying their depots. It is stated that the port of Durazzo is the present objective and at the existing rate of progress should soon be reached.

BRANTFORD'S WATER SUPPLY.
For a great many years Brantford has depended upon its water supply on the filtering gallery basis, but a plan good enough for a smaller place has long since become superceded. There is no use thinking that fact and it might as well be faced. Under existing circumstances residents are getting river water which is freely chlorinated and although this method is intended to eliminate danger this cannot by any means be regarded as a satisfactory service.

MUSTARD GAS.
This has been the latest form of Hun deviltry and the Allies are now meeting it in kind. In a late issue of the New York Times an American chemist gives some interesting information with regard to the concoction.

CHAPTER I
A Terrible Fight
No I was not at all sure that Elsie was right; that to give up all my ideas of right and wrong, what was good for Bob and what was not would help matters.

CHAPTER I continued
The clock struck two. It sounded weirdly loud in the stillness. Then softly, very softly, I heard the front door open and close. Who could it be and what were they after? A burglar of course. I remembered all the stories I had read of what to do in case a burglar visited you at night.

OTTAWA SAYS RESIST ARREST continued
Sheriff Graham explained to the court that he therefore considered it advisable to report back to the court without an attempt to enforce the mandate by placing Lieut.-Col. Moore in custody, for the reason that he feared physical resistance.

The following facts show why we got the street railway contract: We submitted the best goods shown by any of the bidders at any price. The business was transacted entirely from our store at 120 Dalhousie St., in the manner specified on the contract forms.

OTTAWA SAYS RESIST ARREST continued
Immediately upon receipt of this information, the court ordered that all the solicitors in the cases involved, and Major Carson, representing the military, be ordered to appear at 2 o'clock this afternoon at the Court House. At this appearance Solicitor Muir, representing the Minister of Justice, presented a five-page telegram, stating that it was from the Minister of Justice, and pleaded for a stay of action until the Supreme Court had time to consider the case.

AMBULANCE IS "SOME BUS"

Don't All Try to be First to Ride in the New Conveyance

"Ald. Burrows and myself are perfectly satisfied with the new ambulance now that it has been installed in the fire station," said Ald. Hill to The Courier this morning. "There has been a lot of hard work connected with the business, but we are confident that we have finally succeeded in getting an ambulance

which is a credit to the city and indeed to the province."

The ambulance, which is thoroughly up-to-the-minute in both construction and equipment, was built by Greer and Son, of London, Ont. The chassis is of Dodge manufacture, painted a battleship grey; the interior is spacious and furnished with a view to providing every possible comfort for patients. So luxuriously, in fact, is the vehicle equipped, that some alarm is felt lest there be a stampede of citizens eager for the honor of having the first ride.

The ambulance is to be kept at the Central Fire station, and can be summoned at any time by telephoning 154. All calls will be promptly

answered. A charge of \$2 per trip within the city will be made, and of 50 cents per mile or fraction thereof, outside the city.

O'LEARY SAYS HE'S LOYAL
By Courier Leased Wire.

New York, July 11.—Jeremiah O'Leary, indicted for conspiracy to commit treason, took the stand today as a witness for his brother, John, at the re-trial of John O'Leary on the charge of aiding Jeremiah to flee justice.

The witness was questioned by the prosecution as to his alleged anti-British and pro-Irish sympathies from which he is charged with having conspired with Germans and Sinn Fein sympathizers to destroy

British ships. He said that as editor of The Bull he had devoted his time and talent to the Irish question, because he wished the United States to assist in freeing Ireland. He insisted he was a loyal American, had no hatred for English men and women, was opposed to German imperialism and believed in an efficient army and navy, but only to defend the United States.

TO-HOLD CONFERENCE

By Courier Leased Wire.

Chicago, July 11.—S. J. Koenenkamp, president of the Commercial Telegraphers' Union, said he would go to Canada in a day or two to confer with Senator Robertson, who is attempting to mediate the threatened strike against the Great Northwest Telegraph Company. The strike, set for yesterday was deferred on request of Senator Robertson, who urged Mr. Koenenkamp to visit him for a conference.

CANADA'S NET DEBT

By Courier Leased Wire.

Ottawa, July 12.—Canada's total net debt the end of June was \$1,254,715 and not \$840,373,367, as stated in a Canadian Press Limited dispatch yesterday. The debt stood at the last mentioned figure on June 30, 1917, but it has since passed the billion dollar. For the month of June the debt increased to \$9,772,087 or a sum approximately five millions less than the war expenditure for the month. The increase for June in the net debt is considerably lower than the average for the 12 months ending June 30, the increase for the year \$314,024,548, an average of over twenty millions per month.

AUSTRIANS FACED COURT-MARTIAL

Declared They Could Not Fight Against Friends in Europe

TWO "OBJECTORS" UP A General Court Martial Had a Busy Session Yesterday

Toronto, July 12.—At its second session, the general court-martial, held at the Armouries to consider the cases of men who have refused to wear the uniform or to join the fighting ranks, found itself faced with four men of foreign birth, all of whom claimed Austria or Austrian Poland as their native land, and who contended that they were not naturalized British subjects, or had relatives in the ranks of the enemy, though they would be willing to take over some non-combatant work. At the first session of the general court-martial there were seven to appear, six of whom were conscientious objectors, and at yesterday's hearing there were six more two of whom were conscientious objectors. This particular form of military hearing has been brought to Toronto, owing to the fact that the district court-martial has too limited powers in inflicting punishment, the maximum penalty which it can impose being two years. As considerably more than a hundred years' imprisonment with hard labor have been handed out in this manner by the D.C.M. without appreciably lessening the stream of "objectors," it was decided to try out the effect of the court with unlimited powers. Against His Conscience. One of the objectors to be heard was Pte. George W. Crawford, of the 2nd Depot Battalion, 2nd C.O.R., who pleaded guilty to refusing to do so by Major E. Clark of the Niagara Camp. He claimed that though slated in Calgary "A" he was physically unfit, had domestic obligations and conscientious objections. "Fourteen years ago," he added, "I passed through a severe illness, and at one time was given up for dead. I rallied, and God placed it in my heart that I was to become a mighty force on His earth to do His bidding. From that time I have had the spirit of good-will towards all men, and for that reason I cannot perform military service." Accused added that he had refrained from carrying arms in order to be able to support his mother. The mother appeared on the son's behalf and gave him an unusually fine character. No Faith in Medicine. The second objector was Pte. William K. Solberg, of the A.M.C. Training Depot, who had refused to be inoculated. "God can take care of our bodies as well as our souls," was the explanation he is said to have made to the officer at camp, but in court, after pleading guilty, he stated: "When I was drafted into the army I was conscious of the fact that there were rules and regulations which I could not obey and obey God as well. About three years ago I was sick unto death, but God healed my body as he has healed my soul." Accused further stated that he was a member of the Pentecostal associations of the West, that he did not believe in medicines, and was of the conviction that the true cure for all disease rested with God. Though warned that if he refused to be inoculated he would be a menace to other men, the accused did not change his views. Would Not Fight Relatives. First among the four foreigners was Pte. Mike Wozchuk, of the 2nd Depot Battalion, 1st C.O.R., who, owing to lack of knowledge of English, was allowed counsel, Mr. J. E. Lawson. Through an interpreter it was brought out that Wozchuk was born in Austrian Poland, and that he came to Canada in 1913. He stated that after two and a half

years in Canada he was forced to sign some papers which he did not understand, and added that if they were naturalization papers he did not know it at the time. Pte. Pete Maniak, of the 2nd Depot Battalion, 2nd C.O.R., who refused to wear the uniform, declared his father and all his brothers are with the Austrian army and that he could not fight against them. Pte. Steve Piskalny, of the same unit, stated that he had four brothers in the Austrian army and a wife in Galicia, hence he could not fight while Pte. Joseph Horodsky contended that he was married before the date fixed by the M.S.A. No decisions were made in any of the cases, the announcement as to the results to be promulgated later.

AUSTRALIANS AGAIN ATTACK

Enter German Lines and Take Over Seventy Prisoners

London, June 11.—The official report from Field Marshal Haig's headquarters in France to-night says: "A few prisoners were captured by us last night northeast of Ypres without casualties to our troops. "During the day Australian troops entered the German lines in the neighborhood of Oeris (47), penetrating to a considerable depth, and brought back over seventy prisoners and a number of machine guns. A few prisoners have also been taken by our patrols on other parts of the front."

Successful Raids

The text of the day statement reads: "We improved our positions slightly during the night east of Villers-Bretonneux. "Yesterday afternoon and last night successful raids, in which we captured several prisoners and a machine gun, were carried out by us in the neighborhood of Merris and Pastubert. "The hostile artillery has shown some activity against our positions astride the Somme."

Berlin's Claims

Berlin, July 11.—The text of the War Office statement to-night reads: "Throughout Thursday there was moderate fighting activity, which subsided frequently in the evening. A strong advance by the enemy northeast of Bethune was repulsed. "There has been lively artillery activity between the Aisne and the Marne. Partial success was also achieved from the Forest of Villers Cotteteris pressed back our posts in the Savieres region. "Five American airplanes of a squadron of six landed at our hands Thursday. The crews were taken prisoner."

ASK CONCILIATION BOARD

By Courier Lensed Wire. Ottawa, July 11.—On the receipt of a telegram from Fred Bancroft, well-known labor man of Toronto, leading to the request of the men to act for them, the committee of the street railway employees filed applications for a board of conciliation at the Department of Labor yesterday. This action follows the failure of the company and men to compromise on a schedule of wages. The company is now given five days in which to make reply to the application of the men and to nominate some one to represent them.

ROYAL VISITORS. Canadian Reconstruction Exhibit Seen by the King. Press cables recently contained the information that their Majesties King George and Queen Mary, together with other members of the Royal Family, had visited the Canadian exhibit at the Inter-Allied Conference on Re-Education, held in London. This exhibit included a gallery of 150 enlarged photographs of institutions conducted by the Invalid Soldiers' Commission and of the work done in connection with the medical care and industrial re-education of disabled soldiers in the country. Products of the shops and classrooms wherein disabled soldiers are being trained, and a moving picture entitled "Canada's Work for Wounded Soldiers," covering the whole field of the activities of the Canadian Government, were also shown to their Majesties. This exhibit has been open to the general public, in England, and literature dealing with the reconstruction work in Canada has also been distributed. FIRST MOTIONS UP By Courier Lensed Wire. Toronto, July 11.—The first of the motions for habeas corpus on behalf of drafted men to come up in Toronto was before Mr. Justice Sutherland this morning when Gordon Waldron moved for the issue of writ directed to Martin Burrill, acting minister of militia and to the officers commanding the camps at Kingston and London to show why Privates B. D. Whitney of Durham county, and Alexander Macfarland of Hinton, should not be set at liberty. They were exempted as farmers, but were ordered last May to report for military service under order in council, 919. The matter was enlarged for one week so that the militia authorities might be served with notice. OFFICERS MAY BE JAILED. By Courier Lensed Wire. Quebec, July 11.—Col. Rogers and other officers of the Royal Canadian Mounted Police, who were in court O.T.C. will be jailed on July 17, if they have not produced in court one, Edward Durand, of Loretteville, Que., on a writ of habeas corpus. This was the ruling of Justice Dorian in the Superior Court to-day. Armand Lavergne appears for Durand in a case of a writ of habeas corpus issued in favor of Durand. The writ was returnable yesterday afternoon and the officers in question failed to bring in their man. Justice Dorian stated that if on July 17 the officers in question have not appeared with their draftee, they will be sent to jail. Over the Top. Come and fish in the hot pond Saturday afternoon at the French lawn tete. Be able to tell a good fish story.

ST. JUD'S PICNIC.

The annual picnic of St. Jude's church was held yesterday at Port Dover with great success. Rev. G. E. Jenkins, who was in charge of the outing, states there was one of the largest crowds he had ever seen attend a picnic of its kind. The children amused themselves by swimming, fishing and numerous other pastimes. The party left Brantford at 9 a. m., returning at 8 p. m.

KITH AND KIN.

The members of the North Ward Kith and Kin met at the home of Mrs. Laing on Thursday evening. The president occupied the chair, and the time was spent in knitting and sewing; it was also planned to hold a talent tea in the near future. The meeting was brought to a close by singing "God Save Our Splendid Men." The next meeting will be on July 18th at the home of Mrs. Steele, 140 Albion street.

CRICKET NOTES.

Secretary P. W. Farnsworth will journey to Hamilton Saturday afternoon to make final arrangements with the A.M.C. team of London, who are playing in Hamilton that day, to play here on Saturday, the 20th inst. Captain Geo. Elliott is busy getting a strong eleven together and rounding his men into shape for the game. The grass at the grounds has been cut and Groundsmen Deans say he will have a first class crease which has been much improved by the recent rains. Players are asked to be on hand for a practice Saturday afternoon.

DANGEROUSLY ILL.

Mrs. James Marshall, R.R. No. 5, has received official word from Ottawa that her son, Irving, of the 4th Battalion, is dangerously ill at a hospital in France. He went over with the 125th Battalion, and at the time of enlistment worked at the Brandon shoe factory.

JUNIOR KITH AND KIN.

The usual meeting of the Junior Kith and Kin was held on July 9th at 121 William street, the president in the chair. The chief subject was the outing of the several members to Port Dover in August. The meetings will be held on Tuesday evenings, instead of Wednesday, for the remainder of the summer.

USE OLD AMBULANCE.

With the purchase of the new motor ambulance, the question of the disposal of the old one arises. This is still a live property, and of some value, it is suggested, and no longer fit for general service. Aid. John Hill this morning suggested that the vehicle be remodelled and used exclusively for contagious cases in conveying patients to the isolation hospital.

TWILIGHT MEET.

Following is the program for next week's athletic meet: Boys' 1-2 mile Bicycle Race. Men's Team Tug of War. Motorcycle 5 mile (no special machines). Men's 3 mile Bicycle Race. Girls' half mile Bicycle Race. Boys under 15, 1-2 mile Bicycle Race. Girls' Bicycle Race, 75 yards. Old Boys' Bicycle Race, 2 mile. Men's 2 mile Scratch Brigade Race.

WEATHER SPOILED MEET.

The weather man again interfered and put a spoke in the wheel of the twilight athletic meet last night, kidding the spectators along into a belief that the meet could be pulled off, and then breaking forth with a fresh downpour which necessitated a postponement after the first race. Miss Bamford and Mr. Walker attempted to hold their race on the baseball diamond, but the ground proved too soggy, and after such a rider had a spill, the event was called off. Miss Bamford will return to Brantford on July 31.

LEFT ON THE WAYSIDE.

Boy, page Mr. Diogenes, He went hunting for an honest man with a lantern, but in Brantford there's a coal dealer who went him one better, for last night he, without a lantern but with two wagon loads of perfectly good black diamonds, found a whole city full of honest men and women. Two wagon loads of coal, left standing on Park Avenue, between Nelson and Chatham streets yesterday afternoon, remained on the road all night, without so much as a light to warn passing vehicles, nor a sentinel to guard the precious contents of the wagons. Where were the police, citizens asked themselves, and then, aved by even the absent majesty and morale of the forces, wended their way onward, and the coal still remained.

WHEAT SUBSTITUTES.

The question of wheat flour substitutes was discussed at some length at Ottawa yesterday between representatives of the baking authorities in Canada and representatives of the Canada Food Board. Winnipeg, Toronto, Hamilton, London, Montreal and Ottawa and other cities had representatives. The main point at issue was that the bakers could not secure a sufficient supply of substitutes. It was contended that a satisfactory loaf could not be made with 20 per cent. substitutes for wheat flour. Mr. Lynn was emphatic in declaring that a loaf satisfactory to the palate, white in color and more nutritious could be made with 20 per cent. substitutes. It was all a matter of skill. He declared that the best loaf could be made with a mixture of wheat flour and oat flour or rolled oats. There were a sufficient number of substitutes, all satisfactory which could be used in case oatmeal or any other particular brand became excessive in price.

RETURNED VIA AIR.

By Courier Leased Wire. Paris, July 12. (Havas Agency).—The King and Queen of Belgium, who had been visiting England, returned to France by the same means by which they used to be crossing the channel to England—through the air. The return passage, the newspapers say, lasted thirty minutes. The royal couple said they were delighted with the experience of the aerial voyage.

SPEND MORE IN AMUSEMENTS

And Less for Travel in the United States

By Courier Leased Wire. Washington, July 12.—The American people are spending slightly more for amusements, but less for travel as the war progresses. This fact is revealed in a comparison of the May receipts of taxes collected by the internal revenue bureau which were made public to-day with the receipts for previous months. War taxes from all sources collected in May amounted to \$123,396,104. Taxes collected during May by the ten per cent. charge on admissions to theatres, concerts, cabarets and like places amounted to \$4,524,994, indicating that \$45,000,000 was spent on such amusements during the month as compared with taxes collected of \$4,708,000 on an expenditure of approximately \$37,000,000 in February. The 8 per cent. tax on passenger fares during May yielded \$3,723,220 which shows that approximately \$44,549,000 was spent in travelling during the month. During February the same tax raised for the treasury \$4,485,200 representing expenditures for travelling of \$55,920,000.

SEPARATE SCHOOL PICNIC WAS HELD

Rain Interrupted the Merry Makers at Mohawk Park Early in Evening

Ideal weather conditions contributed to the success of the Separate School picnic at Mohawk Park yesterday until the rain commenced to fall, and even after that affairs might be said to have gone off swimmingly. The attendance of young people from St. Basil's and St. Mary's schools, accompanied by their elders, was exceptionally large, and all were heartily into the spirit of the afternoon. First and second prizes in the baby contest were won by the infants of Mrs. F. Huff, and Mrs. Seviery, respectively, and a special prize by Mrs. Parker, Rev. Dean Brady and the assistant lady judges were unable to make a selection for third prize, so the honors were awarded among the following: Mrs. Jos. Convery, Mrs. Geo. McHugh, Mrs. Slickney, Mrs. Vinell, Mrs. Logan and Mrs. W. J. Kelly.

The Separate School Board, under whose auspices the picnic was held, are desirous of thanking the ladies of St. Basil's and St. Mary's churches for their hearty support and co-operation in the work involved.

SHOULD NOT STRIKE WHILE WAR IS ON

Neither Should There Be Lockouts, Says Government Memorandum

Ottawa, July 11.—Principles which for the preservation of industrial peace in Canada at the present critical time should in the opinion of the government guide the actions of employers and workers alike are set forth in a memorandum issued here to-night. The document, which takes the form of a report by the Minister of Labor, approved by the Cabinet Council, and the Governor-General, represents the considered views of the whole Government. It is evoked by the industrial unrest which has been revealed of late in the Dominion, and which the government declares is due to the shortage of labor, the high cost of living, and, in some cases, to the attitude taken by employers or employees. The memorandum is not mandatory in character, but it affirms that the outset that there should be no strikes or lockouts while Canada is engaged in hostilities with a foreign power, and that the necessity for the maintenance of the maximum production, particularly in war industries. At the same time it emphatically lays down the principle that the right of workers to organize and of employers to form associations should be recognized. It expresses the view that in fixing wages minimum rates of pay should be established and the workers should be paid wages ample to enable them with thrift to maintain themselves and their families in decency and comfort and to make provision for old age. It asserts the right of women to equal pay with men for equal work. It urges and recommends that employers and employees once established should be made operative for the period of the war, subject only to such changes in rates of pay as fluctuations in the cost of living may justify. Finally, it urges employers and workers to resort to arbitration for the settlement of disputes, and provides machinery to which all appeals from recommendations of the board of conciliation constituted under the Industrial Disputes Act. Hitherto there has been no such appeals referred to which a recourse could be had by parties dissatisfied with the finding of a conciliation board. Hereafter a board of appeal may be formed consisting of two members nominated by the Executive of the Trades and Labor Congress of Canada, two nominated by the Executive of the Canadian Manufacturers' Association, and a third member selected by the aforementioned four, or, in the event of their failure to agree, by the Minister of Labor.

OBITUARY

The death occurred in Echo Place this morning of Mr. E. L. Hamilton, son of the late Robert Hamilton, and brother of Major J. S. Hamilton. He was in his 64th year and had been a sufferer for some time. He was one of the best known men in the county and had been a member of the County Council and Warden. On two occasions he ran for Parliamentary honors in North Brant. He was of a most genial disposition and had a very wide circle of friends, who will sincerely regret his passing. He leaves to mourn his great loss a sorrowing widow and one son, in partnership with him. Mrs. James Hagen of Welland, Alberta, is a sister.

Charles Simons, age 73 years, 174 William street, passed away at his home on Wednesday. The deceased had been suffering from gangrene for the past six months. He had been a blacksmith in active life. The funeral will take place from his home this afternoon, to Mt. Hope Cemetery.

Sporting Comment

Grover Alexander, waiting with his artillery regiment at a camp near New York for a transport to carry them to France, wandered over to the aviation field at Mineola, where a couple of service teams were playing a game of ball.

The bench was just long enough to hold eight men and the catcher of the aviators' team sat on the ground to give Grover room. The shortstop of the team was at bat. He swatted a long one, and by a hard run circled the bases on it.

Alex stood up hastily, with a funny look on his face, but before he could move away he was caught and the aviation team member who had ordered him to vamoose was introduced.

The remarkable case of four men being called out in one inning and the umpires trying to stick to it that all were out is still being talked about in Chicago.

It was a benefit game attended by a lot of people who don't often go to ball games and some of those

novies are still asking their fan friends why it is that in some innings it takes three outs to retire the side, in other innings it takes four outs.

Charley Dryden says Billy Evans caused the mix-up so he would have something to write about next winter.

STALLINGS SEES ROW OVER PERRY

Chicago, July 11.—Manager George Stallings, of the Boston National League Club, which is implicated in the case over Pitches Perry, of the Philadelphia American League men, have given only their side of the story.

Stallings said that he had called Perry out and that he was out. Evans declared that he was out. Neither had anything further to say. The scribbles finally decided to mark the out against Collins, which technically left Russell stranded on base, thus making away the credit of a "close" decision from Nalin.

FURTHER STEPS AGAINST ALIENS

British Government Takes Action Following Report of Committee

WIND UP ENEMY BANKS Certificates of Naturalization During the War to be Revised

London, July 11.—The menace of enemy aliens living freely in England has been the text of a newspaper agitation in the past two weeks more keen than any of the numerous anti-German waves of feeling, which the country experiences at frequent intervals, since the war began.

The subject was discussed in the House of Commons to-day, the House having before it the report of the committee of six which Premier Lloyd George appointed on July 8 to consider the question and make recommendations.

The Home Secretary, Sir George Cave, whose department has charge of aliens, said that the principal recommendations of the committee will be carried into effect. The foremost is the winding up of German banks, which have been in the hands of receivers for more than three years and the closing of which has been demanded by the newspapers for more than a year past.

Insufficient Knowledge. Sir George Cave, Secretary for Home Affairs, who opened the debate, referring to the public anxiety on the question, said he believed the anxiety was due to insufficient knowledge of the steps taken to protect the country from anything like alien danger.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer.

FURTHER STEPS AGAINST ALIENS

British Government Takes Action Following Report of Committee

WIND UP ENEMY BANKS Certificates of Naturalization During the War to be Revised

London, July 11.—The menace of enemy aliens living freely in England has been the text of a newspaper agitation in the past two weeks more keen than any of the numerous anti-German waves of feeling, which the country experiences at frequent intervals, since the war began.

The subject was discussed in the House of Commons to-day, the House having before it the report of the committee of six which Premier Lloyd George appointed on July 8 to consider the question and make recommendations.

The Home Secretary, Sir George Cave, whose department has charge of aliens, said that the principal recommendations of the committee will be carried into effect. The foremost is the winding up of German banks, which have been in the hands of receivers for more than three years and the closing of which has been demanded by the newspapers for more than a year past.

Insufficient Knowledge. Sir George Cave, Secretary for Home Affairs, who opened the debate, referring to the public anxiety on the question, said he believed the anxiety was due to insufficient knowledge of the steps taken to protect the country from anything like alien danger.

affect the point of view from which the question was approached. If the enemy permitted acts of that kind enemy subjects must suffer in the estimate which all decent people formed of them.

The Government proposed, he said, to ask committees in each country to undertake the revision of all exemptions from internment in the case of men and exemptions from repatriation in the case of women.

The British Government proposes bringing under review the certificates of naturalization granted during the war, Sir George said.

It was also proposed that no person, not a natural-born British subject, should be allowed to change his name without a license from the Home Office. The provision would be retroactive, he announced.

Regarding certificates of naturalization, continued the Home Secretary, they would also be brought under review, and those granted during the war were not likely to be continued unless there were good public reasons for doing so.

The demand has been made, said Sir George, that persons of enemy origin in government offices should be summarily dismissed. However, enemy origin meant, he did not know. To discharge such persons would cause in many cases very grave injustice. It was proposed, however, to make rules that no person should during the war be employed in government offices unless he was a natural-born British subject, or where there were definite national reasons for making an exception.

Regarding enemy banks, said the Secretary, they were at present so far as business was concerned, practically dead, but the Government proposed to apply at once to the courts for a winding-up order, so that they would be put into liquidation, their assets collected and distributed, and they themselves put an end to in the shortest possible time. This step would be of no value if they could be re-opened after the war.

Grover Alexander, waiting with his arm a reluctant camp near New York for a transport to carry them to France, wandered over to the aviation field at Mineola, where a couple of service teams were playing a game of ball.

Alex. stood up hastily, with a funny look on his face, but before he could move away he was caught and the aviation team member who had ordered him to vamoose was introduced.

The aviator took it so to heart and was so fearful he had made a mess of things that he was upset for the rest of the game, but Alex. tells us a good joke on himself and says he supposes an aviator has a right to think the men in the flying services are the only ones who can play ball.

The remarkable case of four men being called out in one inning and the umpires trying to stick to it that all were out is still being talked about in Chicago. It happened in a White Sox-Cleveland game. Eddie Collins was on second and Reb Russell was on third as a pinch runner. Two men already had been retired when Russell and Collins decided on a double steal. Collins changed his mind and started back to second, Wamby tagged him, and Evans, umpiring the bases, called him out. Russell kept on going to the plate, the ball was thrown there by Wamby, and Nalin gravely called Russell out, making four outs.

STALLINGS SEES ROW OVER PERRY

Boston Braves' Chief Thinks National-American Clash May Go to Better End

Chicago, July 11.—Manager George Stallings, of the Boston National League Club, which is implicated in the case over Pitcher Perry, of the Philadelphia American League, said: "American League men have given only their side of the Perry case. They have not told how Perry deliberately jumped his contract with the Boston Nationals last summer to play independent ball at Joliet. He was under suspension when the Athletics signed him to play, and according to all rules of the national game, every player that has played against the Athletics is a free agent. That is the technical construction one can put on the case if the laws of the major leagues are adhered to the letter. But, of course, that is one of the questions at this time.

"Perry came to the Boston club on a thirty-day trial. While on that trial he did not take care of himself, and also had a lame arm. He was with us for thirteen days when he left the team. We had seventeen days yet to ascertain whether he would do. The Athletics club, from which he came, was paid \$500 for that trial. If he had made good we were to have paid to that club \$2,000. We lost \$500, as the commission ordered it to be paid, although Perry did not finish out the thirty days contract.

"Last fall, as the records of the commission will show, we asked that Perry be put on our reserve list, but Secretary Heyler informed us that he belonged to the Atlanta team and that because he had jumped his contract was under suspension. The American League says he was not tendered a contract this spring. That was not at all necessary. Because he was under suspension, to get back into baseball he had to make application for reinstatement with the commission, which he did not do. By signing him the Athletics disobeyed all rules of baseball.

The Boston club at least for a seven-day trial, since we had to pay the Atlanta club \$500 to look at him for thirty days, and he worked only thirteen. When the commission voted in the Boston club's favor I was not determined to have the player and was willing to take another from Mack, and I did not expect a star, either. I would have been satisfied with an ordinary player, one who showed prospects of development. But Mack, probably influenced by President Johnson, took the case into the courts, where it will probably remain for some time, and even declined to give up the least consideration.

But if I had my way and the National League has the backbone it should have it will let Johnson know where he gets off at and see the light through to the finish."

The foremost is the winding up of German banks, which have been in the hands of receivers for more than three years and the closing of which has been demanded by the newspapers for more than a year past. The Secretary said that it would be impossible for the banks to reopen for some years after the war.

Many Germans and persons of German descent have been changing their names during the war. The committee proposes that the changes be cancelled or that they be not permitted to take effect until six months after the war. There are only a few thousand aliens left interned in England. A considerable proportion of them are old people. Another fairly large contingent has been serving in the British army, and there is a sharp difference on the question of internment.

INSUFFICIENT KNOWLEDGE

Sir George Cave, Secretary for Home Affairs, who opened the debate, referring to the public anxiety on the question, said he believed this anxiety was due to insufficient knowledge of the steps taken to like alien danger.

The Home Secretary said it was true that there was anxiety among thoughtful and reasonable men as to what might be the effect of so large a number of aliens in England, and that it was the duty of the Government to take all reasonable steps for the safety of the country.

Such outrages as the sinking of hospital ships, Sir George said, must affect the point of view from which the question was approached. If the enemy permitted acts of that kind subjects must suffer in the estimate which all decent people formed of them.

BLESSINGS? OF A GERMAN PEACE

Shaping of Russia by German Heel—Subjunctive of Ukraine Prussian Masterpiece

(By Captain E. P. Rowe.)

The world has now had a convincing demonstration of a German peace. The process of welding Russia into shape proceeds apace. The shaping is done with the German heel. Discontent in Estonia, Latvia, the Ukraine and elsewhere will soon cease to exist, and this admirable result is being achieved by the simplest means. Yet it may be claimed that no race but the Prussian could have conceived and adopted a procedure so astute for all its simplicity.

Discontent is produced by malcontents. Remove the latter and the former is non-existent. This truth is axiomatic, yet only Prussia has had the brains (and villainy) to apply its unanswerable logic. Of the malcontents, some are removed by the tightening of a rope round the neck and many more by the promiscuous use of the machine gun. The machine gun is not only an instrument of compulsion, but of persuasion; for by removing many malcontents for all time, the discontent of others comes miraculously to an end.

Take Away Grains.

The most valuable medicine of all for discontent, however, is starvation. It acts as a purge for an unhealthy stomachic condition. Though bread may not be the sole diet of mankind yet it has much to do with our continued existence. It has been convincingly demonstrated that the forcible removal of the con-

stituents of bread from the occupied districts of Russia, tends to stimulate life in Germany and largely to decrease life in the occupied districts. In the latter the process is cleverly antedated by making the population do useful work and a great deal of it. Prussia has found out how to make a man work as long as he can stand. When he can no longer stand, he soon ceases to exist; and as he was probably a malcontent it is just as well—from the German point of view.

All this is to the credit of Prussian methods, and it is hard to understand why those who are not Prussians so jealously withhold their admiration. To convert the latter to a more favorable view, it may be worth while to give a few more instances of Prussian astuteness.

The Ukraine is still wrapped in the mystery which the German government so shrewdly envelops all things Russian, but it can no longer be doubted that its latest revolution is a feather in the cap of Prussian diplomacy. Consider the position as stated by the German Vice-Chancellor in the Reichstag. The government of the Ukraine was unable to get grain for Germany from the Ukrainian peasants. The problem was complicated by the fact that the Government of the Ukraine had communistic theories and did not believe either in land monopoly or the principles of forcible persuasion. Incidentally there came into existence a body which called itself the "Committee for the starvation of the Ukraine."

"This Committee," says the Vice-Chancellor, "pursued an anti-German tendency, and several Ministers belonged to it. They went so far as to aim at driving the Germans out of the country, and met in the 'house of the War Minister.'"

It is in the Vice-Chancellor's credit that he stoically conceals surprise at this amazing circumstance. The rest of his explanation can be given in a few words. "Nothing," he says, "remained but to render

A LITTLE LESS NOISE, PLEASE. Go easy with that soup, Sir—don't forget we're the Silent Navy. —Passing Show, London.

the foolish instigation of this plan. It was quickly done. German troops were marched into the Rada, while that body was sitting, and arrested the foolish ones. Army had Control.

Concurrently, Field Marshal von Eichhorn declared a state of emergency, (Zustandserklochten Schutzen) in the Ukraine. Complete legality for this and subsequent procedure was secured by a simple and admirable device. It was laid down that all offences against public peace and order (any offence that mattered) would be included under the term 'insulting the German flag.' The field tribunals that is to say by the German army of occupation. The Vice-Chancellor's comment on this step was that not only was it wise, but "even in the Ukraine's interest."

Then came the revolution. The peasants who clung so dogmatically to their corn were at the bottom of it. So completely were they converted that they clamored for the restoration of their land to more responsible owners, and forgetting their democracy asked only for a strong hand over them. How was it done? It is an amazing tribute to Prussian diplomatic methods. As the peasants after "treatment" were apparently anxious to sell their souls and their corn to Germany, that obliging country is presumably accepting the latter. For the former she has little use.

Are Holding Prisoners.

Even so short a panegyric of Prussian methods would be incomplete without some reference to an achievement which for masterliness has no parallel. When Germany was making friends with Russia she promised a wholesale exchange of prisoners. She has now made friends with Russia; but since the Russians do not understand what is good for them, they must be taught. Berlin has therefore ordered (and has taken military steps to make the order effective) that all able-bodied German prisoners in Russia shall be returned forthwith to their native land, and as a natural corollary, all sick and disabled Russians in Germany shall be sent back in exchange.

As all fit Russians are to be kept in Germany and all useless Germans to be left in Russia, the "double-edged" serenity of the step is obvious. Sick Germans, who have served their turn, are left to die at Russian expense. It is good economy. Sick Russians can starve in Russia, if they ever get there, more profitably than in Germany. It is also good economy. As for the Russians in Germany who have not yet worked themselves to death through over-severity, it is only reasonable that they should be allowed to achieve that laudable ambition. In short the whole arrangement is a masterpiece of policy.

After this simple statement of

NEW YORK HONORS HER FORMER MAYOR

Last Tribute Paid to Body of John P. Mitchell, Killed While Flying

(By Courier Leased Wire.)

New York, July 11.—The body of John Purroy Mitchell, in a flag draped casket, was borne through the streets of New York to-day while tens of thousands watched in silent tribute.

New York has seen other military funerals, for heroes of the nation, but those who witnessed the solemn procession which escorted the former mayor's body from the City Hall to St. Paul's Cathedral, felt that none could have been more impressive. All along the route, a distance of approximately four miles, people stood with bared and bowed heads.

The ball in the City Hall tolled as the casket was borne from the rotunda, where it had lain in state throughout the night and placed on an artillery caisson, drawn by four horses which conveyed it to the cathedral and thence to Woodlawn cemetery.

City Hall Park was packed with citizens and the procession of soldiers, sailors, policemen, firemen, Red Cross nurses, civilians representing all city departments, distinguished men of the city, state, nation and representatives of the Allies had some difficulty in forming. The pall bearers included Col. Theodore Roosevelt and Col. P. M. House.

The "Dead March from Saul," "Nearer My God to Thee" and other hymns were the music to which the procession marched as it made its way slowly to the cathedral on Fifth Avenue.

An airplane circled overhead as the march began, later to be joined by six others which flew back and forth over the road-dropping flowers. The hum of their motors carried to the crowds below a sorrowful significance for it was as an aviator that Mitchell met his death. Meantime much of the mourning club's business was suspended. All exchanges closed for an hour and many concerns gave their employees opportunity to watch the procession or to attend the services at the cathedral, which were open to the public.

BRITISH BIRDMAN BESTED THREE HUNS

Lone Pilot Beat Off Attack by Trio of German Planes

With the British Army in France, July 10.—(By the Associated Press).—On July 1 a British pilot, while on offensive patrol about Estaires, was pounced upon by three German scouts. As they swept down toward him, two of them collided, the third opened fire on him, but fled when the Britisher maneuvered into position and offered battle. In the meantime one of the other enemy planes had had both its wings torn off in collision and crashed to the earth and the other was soon down in slow spirals. The British pilot followed and fired into the Boche machine and close range. The enemy dropped another 3,000 feet smoking and then burst into flames, which finished it.

Another fatal collision occurred the other day. A British Hefferton with a patrol of six machines was flying over German territory when he saw six enemy scouts making for Villers-Bretonneux.

The British machines raced into a battle and the lieutenant tackled one of the Huns at close range. This enemy went down vertically after being badly shot about. Another hostile airplane, which was close by, turned so suddenly that it smashed into the German leader and both machines collapsed, and went down in tangled wreckage.

The nerve of British airmen under trying circumstances is illustrated by an incident which occurred a few days ago. A British pilot and observer were making a low reconnaissance over the German zone when the petrol tank was pierced by a bullet from the ground. The observer climbed out onto the wing of the straggling machine to investigate the extent of the damage. Having

satisfied himself that he could repair it, he crawled back to the seat and after obtaining his leather cap and stick again mounted the wings and plugged the hole in the tank with the stick and cap. The reconnaissance was finished before the pair returned home.

More than fourteen thousand acres were homesteaded or purchased in thirty days, the settlers bringing in one hundred and thirty carloads of effects.

ANTI-VICE CAMPAIGN.

Montreal, July 11.—The big gun in Director of Public Safety Joseph Tremblay's effort with the Montreal police to clean the city of vice, was fired last night when two big raids were carried out by the director and his assistant, Arthur Mann, and Deputy Chief of Police Grandchamps.

Both raids were worked on the same plan, the men entering all the places on the list at the same time, and on each occasion the plans were successful. In the first raid thirty-two gambling machines were seized, while in the second raid nearly two hundred and fifty men and women were arrested.

WINNIPEG WILD MAN CAUGHT AND PUT INTO ARMY

Unshaven and Unwashed For Eleven Years, Enemy of His Fellow Men

A TACITURN RECLUSE

(Manitoba Free Press) Unshaven, unwashed, an enemy of his fellow men. For 11 years, Henry C. Dudgeon, the "wild man of Balsam Bay," Man., to-day was drafted into the army.

Accompanied by Charles Chatterton and A. K. Mackay, of the Dominion police, A. W. Lewis, owner of the land on which the outcast has squatted for more than a decade, went on Saturday afternoon and got Dudgeon.

One man only has dared approach the man for eleven years, for anyone who came near his burrow by the side of Lake Winnipeg was sure to hear the rip of slugs from a shotgun through the trees far too near to be comfortable.

Armed with revolvers the three crept through the brush toward the latest's lair. Saturday afternoon, and lay hidden under bushes waiting for him to appear.

His face matted with a decade's growth, and unwashed in all that time, his clothing, tattered, torn, and laced with holes, was the work of a wild man come from the lake toward his dugout. In one hand he carried a shotgun, in the other a bag of fish he had just caught. In his belt of rope was a ten-inch dagger. Revolver in hand, Chatterton sprang up in front of Dudgeon and called "put up your hands."

Without a moment's hesitation, the wild man dropped his bag of fish and raised his shotgun. It was

a matter of seconds which would shoot first.

At the same moment, Lewis and Kolmack, who had been hidden behind the man, jumped up and threw themselves on him from behind. In the struggle which followed, they disarmed the man and Chatterton placed a pair of handcuffs on his wrists.

Tied together with bits of cord, two plates of steel were fastened over his body, at front and back, directly over the skull. Covering this was nothing but a canvas smock, cut from a piece of stolen tent, and held together with bits of rough roots and cords. Dudgeon's only other garment was a pair of trousers made in the same way.

Once subdued, Dudgeon surprised his captors by speaking in highly cultured English, in a perfectly rational way. He came from St. Louis, Mo., he said, and was born in 1881. He would not tell why he had chosen to live his savage life for so many years.

After a little searching his captors found Dudgeon's burrow. It was a dugout in the ground, bare of the slightest comfort of any kind. In a corner was a big log of powder and a pile of slugs and shells he had been making himself. No skin or piece of furniture was there, nor was there any kind of cooking instrument.

Fish, which he caught in the lake, 100 yards away, with a crude net, and potatoes, which he grew near his hole, were his only articles of diet. He did not even use salt.

A Taciturn Recluse. Dudgeon was brought to Winnipeg Saturday night on the Grand Beach train. He has spoken to fellow men only once in the 11 years he has lived alone at Balsam Bay. That was in 1914, when Sam Sturgeson, provincial constable at Selkirk, risked of his life alone and arrested him for shooting a neighbor's cow. Dudgeon spent several months in provincial jail for the offence.

He told his story in provincial police court, when he appeared on a charge of neglecting to register for the draft. He is the man arrested Saturday afternoon by Dominion police in a burrow on the shores of

Like Being Hit By Rattle Snake

Says that every time you cut or pick at a corn you invite lockjaw

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called Frezone, which at the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts right out with the fingers, without any pain or swelling. This Frezone is a sticky substance which dries the moment it is applied and just loosens the corn without inflaming or even irritating the surrounding tissue or skin. He says a quart of Frezone will cost very little at any of the drug stores, but this is sufficient to rid one's feet of every hard or soft corn or callus. Frezone is positively warned that cutting or picking at a corn is a suicidal habit.

Lake Winnipeg, six miles south of Grand Beach, where he had squatted since 1907.

Standing in his tattered canvas slacks, originally white, but now blackened with grime, his reddish beard combed and his face washed, he appeared much more a human being than a wild man crazed by some fancied wrong, and eager to do his fellow men, as he had been painted.

Doesn't Like Busy World. His brow is high, and his face the strong, sensitive face of the thinker. His mouth is firm and denoting strength, with his gray eyes are quiet and confidence inspiring. When he spoke, it was with a quiet, perfectly modulated voice, in irreproachable grammar, and the simplicity of his statements inspired confidence. "I do not know if I am guilty or not, your honor," he said. "I have lived away from the world for a long time and I do not understand all the tremendous changes which have been caused by the war. When I tell you my story, you will be able to judge whether I am guilty or not. Is Naturalized."

"I was born in St. Louis, Mo., in 1881. Eleven years ago I came to Canada and took out my naturalization papers, at the same time registering for a homestead. I drew a piece of ground at Balsam Bay. For the first year, I tried hard to put it under cultivation, but the ground is not such as can be cultivated with ease."

"I managed to put in three acres of potatoes, but a physical ailment, therefore, never could gain the title to the property. I had no money with which to go elsewhere, and my homestead gave me a hard time. I was not able to construct a home, so I built one in the ground. "Since then, sir, there have been many attempts to rob me of my home. Here the hermit showed the first signs of emotion. There was almost a sob in his voice as he continued: "They have tried to dispossess me, when I had not a thing to show for it. They have come and tried to cut down my trees. Defends Himself With Gun. "I have an old gun. With that I defended myself against them as best I could. God knows I never would have harmed anyone. I must have something with which to awe trespassers. I hammered a set of armor, front and back, from heavy pieces of metal, to defend myself against them. "I have lived there, sir, happily. I would have been completely happy but for these ambitious trespassers, who cannot understand the meaning of peace. They have taken some of my home and my dreams. There alone with God, I have tillied my ground and caught fish and lived in perfectly happy solitude. "It is by that I have broken any of the laws of the world, and am willing to take the consequences. All I wished was to defend my home or be allowed to live in peace. "It was a pathetic sight, as the hermit finished his plea. Wildly garbed, a stranger in mind and habits to all present and in the midst of strangers he had no craving to leave forever, he stood alone, pleading that they understand him and let him be. Magistrate Noble decided to remand him until Monday. Investigation into his sanity may be made. Since he is 38 and has no military authorities believed yesterday, it is probable he will be released, unless his mind is found to be deranged. As exhibits in court were the pieces of heavy stove-pipe iron, hammered four-ply and hinged together with cords, which he wore under his tunic, and the old double-barreled shotgun without which he never left his burrow.

WORK ON CANAL BEGUN. By Courier Leased Wire. Buffalo, July 11.—The announcement by Sir Adam Beck, chairman of the Ontario Hydro-Electric Commission, that work on the Chippewa canal at Niagara Falls would be hurried to completion, was followed to-day by the beginning of actual operations on the new channel.

The canal, running from Chippewa Creek, above the Cataract, will have an outlet before Queenston Heights, giving the flow of water a drop of about 300 feet and sufficient head to develop 800,000 horsepower. No economic method of harnessing of work by steam shovels on the new channel. The work will be pressed, Sir Adam announced, to a point where it was possible to put in Buffalo that are now short of power. He had nothing to say in regard to Congressional inquiry as to whether the diversion would diminish beyond treaty limits 1,600,000 cubic feet of water a second per day.

SHOPMEN AND RY. BOARD DON'T AGREE

Settlement of Wage Dispute Still in Abeyance—Deadlock Reached

By Courier Leased Wire. Montreal, July 11.—A settlement of the wage dispute between the shopmen and the railway board apparently was no nearer to-day than yesterday. Large numbers of replies have been received in response to the circular ballot, some of them from points as far west as Alberta and Saskatchewan, and the verdict is said by members of the committee to be overwhelmingly against compromise or further delay. The ballot was couched in such terms that the unions had but to pronounce their assent to whether the committee would recede from its original demands, and whether prolonged negotiations should be carried on. As an instance of the attitude in one case, 100 to 20 against prostration or weakening. A conference of the railway board and the committee of the Federated Shopmen was held at 11 o'clock this morning, but it was called off. It was understood to-day that the committee was waiting for answers to ballots from a number of the railway shops, and more especially the Angus shops in Montreal and the Winnipeg shops, before presenting their ultimatum to the board.

"The situation is critical, indeed," said a shopmen delegate to-day. "In face of the overwhelming sentiment expressed by the membership, the committee cannot back down at this stage. It is understood that no further offers will be made by the railway board, the members of which believe they have gone as far as a business proposition will permit. They have offered that the employees of the United States railway will get and to give more would place them at a tremendous disadvantage in competing with the rival American lines."

The men employed at the Angus shops of the Canadian Pacific Railway held a meeting last night to discuss the strike question, and no definite conclusion was reached. It was stated to-day that the majority of the meeting was against a strike. A further meeting will be held to-morrow night, when a decision will be arrived at.

Loss of appetite during the summer months is a common trouble, and indicates that the digestive system is out of order. Lacking a healthy appetite, men and women, especially women, go too long without food, or eat sparingly, because food seems to distress them, and it is for this reason that they are constantly tired and unable to stand the hot weather. This simply means that the digestive system is out of order. It is important that the nutrient that should come from the food is not being distributed to the various organs of the body in a timely manner, and the blood is growing thin and watery.

You need a summer tonic, and in all the realm of medicine there is no tonic so equal as Dr. Williams' Pink Pills. Take a short treatment with these pills and notice how promptly your appetite returns and your power to digest food improves. Your food will then do you good, your strength will return, and you will no longer complain that the hot weather tries you out. Begin taking Dr. Williams' Pink Pills the moment you feel the least bit out of sorts. The sooner you do so the sooner you will feel like your old country. You can get these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from Dr. J. C. Williams' Medicine Co., Brockville, Ont.

ITALIANS GAIN ON TWO FRONTS. Drive Back Austrians on Asiago Plateau, And Advance in Albania. By Courier Leased Wire. Rome, July 11.—Italian advanced posts at Cornone on the Asiago plateau, yesterday, drove back Austro-Hungarian detachments, says the Italian official statement to-day. It is stated that the Italian army is making progress on the Asiago plateau. The Italian mountain front, artillery fire was lively in the Brenta valley. On the remainder of the front, there were the usual reconnoitering and harassing actions. Advance in Albania. London, July 12.—Italian troops on the offensive in Albania continue to advance, says a dispatch from Rome to the Central News Agency. The Austro-Hungarians are falling back on the Skambriv river, 25 miles north of Berat. Carried All Positions. Washington, July 12.—An official dispatch from Rome reports an unchecked advance of Italian advances in Albania with Berat as an objective. From the Vorona, the Italians have carried all positions on the Scambriv in an advance of approximately 15 miles over a fifty-mile front.

BANKS AMALGAMATE. By Courier Leased Wire. London, July 12.—The amalgamation of the London Provincial and Southwestern Bank and Barclays Bank (Trustee) Company, has been approved by the Treasury Department, the Daily Express says. The banks have a joint paid-up capital of £20,000,000. Their deposits and other accounts total 213,000,000 pounds. The combine is the first since the 1910-11 amalgamation of the Bank of Inquiry into bank amalgamations was issued in May.

WALKER TELLS OF WIFE'S TROUBLE

Health Was Failing Fast—Takes Tanlac and Her Troubles Overcome

"I actually believe that Tanlac saved my wife from a serious illness, for when I started her on it she was so weak and run-down that her energy was just about all gone."

John W. Walker, the well-known proprietor of the grocery and meat market at 513 Carlaw avenue, Toronto, the other day. "For several months," he continued, "my wife's health had been failing fast, and she suffered dreadfully with her nerves that her whole system was in a wretched condition. She lost her appetite and when she went to the table nothing appealed to her and she could hardly force down a thing. Every morning on getting up she complained of feeling tired and worn out, and she didn't appear to have a bit of life or animation left. Her strength was all gone and she was so weak that she was barely able to get around. I was very much worried about the condition she was in, for I knew that if she kept going down at that rate it wouldn't be long before she would be laid up in bed."

"I had read so much about Tanlac and heard so many people praising it that I got a bottle for her, and I'm here to say that it was worth many times what it cost in the food it has done her. In fact, she began to improve right away and I never saw anybody pick up like she did right from the start. She has taken four bottles now and is much stronger and better in every way than she was before. That old tired, worn-out feeling is entirely gone, she looks better and says that she feels better than she has for a long time. Her appetite is just fine and she eats his hearty meals and relishes them, too. All that nervousness has been overcome and she never complains of a thing being wrong with her now. I do not usually recommend medicines, but Tanlac has done my wife so much good that I am glad to endorse it and only hope that what it can do will help some one else to try this wonderful medicine."

Tanlac is sold in Brantford by Robertson's Drug Store, in Paris by Apps Ltd., in Mt. Vernon by A. Tommasini, in Middleport by Williams & Peattie, in Onondaga by Nell McPhadden.

Music and Drama

Pauline Frederick, the noted dramatic screen star, is seen at the Brant Theatre this week in her latest production, "Resurrection," adapted from the book of the same name by the late Leo Tolstoy.

The world-to-day sees and knows the German Emperor as he really is, and senses the barbarity cloaked beneath the camouflage of Teuton Kultur, but it is doubtful if a more startling arraignment of German Philistinism has ever been made by tongue or pen than that which is placed upon the screen in the form of the picture, "The Kaiser, the Beast of Berlin," which is shown at the Rex this week. It is a picture of the Kaiser in the role of the Kaiser. While there is a strong vein of romance and adventure running through the whole of the picture, it is really a frank exposure of the brutality of the German military elite, and it is a safe conjecture that not even the most outrageous incidents in the picture are exaggerated beyond their actual proportions. The picture is one of unusual force, yet of a nature to offend none—unless shown in Germany, which is hardly probable. Other attractions in the program are the latest episode of the serial, "The Woman in the Web," and a laugh-raising Mack-Sennett comedy.

Fired Mothers. It's hard work to take care of children and to cook, wash, and clean, but it's harder still to do it without the help of a good appetite, which is the best of all the appetite, assures a healthy sleep, and helps in

KILLED BY TRAIN. By Courier Leased Wire. Regina, Sask., July 12.—George Miller, a well known resident of Moosomin, was yesterday instantly killed by a C. P. R. train in their yards. He was loading a car and slipped in front of the train. He tried to jump clear of the track but failed. He leaves a wife and ten children.

FROST IN BRAZIL. By Courier Leased Wire. Washington, July 12.—Tremendous damage from frost in Brazil has been reported to-day in official dispatches. Unusual freezing temperatures in Sao Paulo have ruined the young coffee plantations and reduced the production of other agricultural products about 50 per cent. A number of the plantations of sugar cane, castor beans or fruit are destroyed.

LADY'S DRESS.

The wide vest which is gathered to a straight band is of soft white Georgette, the narrow roll collar is of dark blue satin and the dress is of Quaker gray silk poplin. The dress is an excellent style for the rather slender woman, because the skirt is gathered all around and the arrangement of the vest gives a wide effect which is very becoming. The waist is gathered under the belt, which is a broad, straight piece of the poplin corded on both ends. The long sleeves gradually widen to a point below the elbows, where they are slashed and shaped to fit the wrists.

The lady's dress pattern No. 8732 is cut in four sizes—36 to 42 inches bust measure. Width at lower edge of skirt is 1 1/2 yards. As on the figure, the 36 inch size requires 3 1/2 yards 36 inch or 2 1/2 yards 54 inch material, with three-eighths yard 12 inch Georgette, 1/4 yard 14 inch silk and one-quarter yard 3 inch banding.

To obtain this pattern send 15 cents to The Courier office, or two for 25 cents.
