

THE ACADIAN.

WOLFVILLE, N. S., NOV. 10, 1911

Editorial Notes.

Canada is now third among the oat growing countries of the world. Russia leads with 860,000,000 bushels, the United States is second with 792,000,000. Canada's crop this year is estimated at 358,000,000. Canada stands fifth among wheat-growing countries.

Some of the papers contain a report to the effect that Premier Borden will be knighted at an early date. Should this report prove correct, he will then be known as Sir Robert Borden. (The report may have nothing in it, but the probabilities are that Mr. Borden will not remain in his present position long, before a knighthood is offered him.)

Mr. C. E. Tanner, M. P. for Pictou, was chosen leader of the Conservative party in the local legislature at the annual convention of the party in Halifax last week. He was given an enthusiastic reception, and a resolution praising his services to the party was cordially passed. Mr. Tanner accepted. In the election of officers, John R. McLeod was unanimously selected as President; John C. Douglas, Vice President, Dr. Hayes, Secretary; and T. S. Rogers, Treasurer.

We hope the new government has something good in store for the Maritime Provinces. Canada, says the Canadian Century. Those provinces have great natural resources. They are nearer to England than any other part of Canada. They have not made the progress that their natural resources and their geographical position entitle them to make.

A Good Choice.

Dr. Trotter, now of Toronto, but late President of Acadia College, pays a warm tribute to W. T. White who has been chosen by Mr. Borden to be Finance Minister in his government. Dr. Trotter, according to the Berwick Register, says—"There is some bickering here in the Conservative ranks over the passing over, by R. L. Borden, of some time-long Conservatives, who thought their day of elevation should have come, and the taking in of Mr. White as Finance Minister, a man up to now a Liberal and wholly without parliamentary experience. White, however, is one of the finest types of men in the country. Just in his prime—about forty years old—he is a thoroughly educated man, a brilliant financier, possessed of great force of character, a fine spirit of independence, an engaging personality, and, I should say, every quality for distinguished service in public life."

Ida Lewis.

Ida Lewis, who died in the Lime Rock lighthouse last week, where she had lived to save life for fifty-four years, was generally known as the Grace Darling of America. Like the British heroine, she was the daughter of a light-house keeper, Captain Hosca Lewis. At fifteen she went to live with her father at Lime Rock, and as he was crippled with rheumatism she learned to look after the light. He was the first keeper, and in three years he died, Ida at eighteen succeeding him. There were some younger children, and Ida rowed them to and from the mainland so that they could go to school.

In her first year of service she went in a heavy sea to the rescue of four men who had been capsized in a catboat by a squall, and took them off the bottom of the boat in a state of exhaustion. On a winter day in 1868 she risked her life again during a blizzard to save two soldiers who were being rowed back to Fort Adams by a boatman. From the upset craft Ida Lewis pulled the benumbed soldiers into her dory, but the boatman sank before she could reach him. The soldiers were unconscious when she got them to shore and to complete her rescue she had to work over them for an hour.

Fort Adams made a heroine of her, showing its gratitude by giving her a purse of money, while the people of Newport bought her a fine rowboat and, placing it on wheels, drew her through the streets on a day which was made a holiday. At the same time the Rhode Island Legislature presented her with a gold cup. Among her other notable achievements was the saving of three sheep herders adrift in a boat and of three sailors under conditions of danger to herself. At the age of sixty-five she made her last rescue, that of a woman who fell overboard from a boat near the lighthouse.

The New York Life Saving Association and the Massachusetts Humane Society bestowed silver medals upon her, and Congress a gold medal. One of her cherished possessions was the cross of the American Cross of Honor Society, which for the first time in 1907 bestowed the distinction on a woman. It may be true that none of the records made by Ida Lewis was as dramatic as Grace Darling's rescue of the survivors of the "Porpoise," but the saving of life was a passion with her, and she risked her own on several occasions with the spirit of true heroism.

Ask for Minard's and take no other.

Reviewer.

Mr. Borden's speech at the Halifax banquet, given in his honor, was not that of a party leader hilarious over a victory, but the calm utterance of a responsible statesman who realized the responsibilities of leadership to all the people of Canada, and of devoted intentions of service to the State. The works his Government finds ready at hand are neither few nor easy, and questions by no means simple will present themselves rapidly, incidental to the growth of this fine new country, our Canadian Dominion.

While comprehensive and far seeing statesmanship is required for the solving of our Canadian problems, subtle statecraft is not needed for many a long year yet. Mr. Borden has just the qualities that are needed. He has keen political insight and foresight, made absolutely clear and penetrating by his thorough knowledge of the Canadian people, by his strong faith in them and in our country, and by his sympathy with the great ideas of imperial policy. His absolute honesty of purpose will count tremendously in the work of dissipating the misunderstandings and confusion that were brought about in the most unfortunate way by the political class whose rule was ended on September the 21st.

Duplicity will have no place in the processes of Mr. Borden's politics. His general policy, which was presented in exactly the same terms in whatever part of the country he campaigned, is the same now as it was before he came into office. He then gave the people promises. He will now give them due performance. Mr. Borden opposed reciprocity with the United States. He did so because the agreement meant a reversal of the Canadian policy that had been proved and found beneficial by many years of success, and by the wonderful advances of the country's wealth under that policy. He was not actuated by any feeling of unreasonableness towards the United States, and this he took occasion to say, not only during the campaign but after the election, and in his speech at Halifax.

Canada's reciprocal affinities are within the Empire. We have Newfoundland next door to us, we have the British West Indies on the same side of the Atlantic, with both of which British systems it should be easy to make reciprocal arrangements. Very shortly there will be mutual preference, as between the other Country and Canada. And closely related to the external aspect of our trade policy is the Government's dealing with our home industries.

That will continue to receive the benefit of whatever degree of protection is fairly required. The tariff will have no tinkering with for the purpose of favoring some interests and of retarding others. Mr. Borden will have a permanent tariff commission of capable and independent men who will investigate the conditions of industries upon whose welfare the

We have just received a shipment of the latest creations in Ladies' Wrist Bags. We have them in assorted colors in Suede finish and the regular Seal grain finish, some are Leather lined and some Moire lined.

These are priced very reasonable at \$1.35 to \$6.50.

Also a nice assortment of Card Cases, Purses, Bill Books, and Collar Cases at prices that will please you.

Tariff has any bearing.

To the question of transportation, as Mr. Borden showed in his Halifax speech, his Government is writing and will give very careful attention. Agriculture will be encouraged, and in the Government's arrangements for the conservation of natural resources the economizing of the soil will receive special consideration. It will be one object of the Government's transportation policy and of its general administration to promote the prosperity of the west and east, and to intensify the intercourse between them. The aiding of the provinces in roadway construction will very greatly contribute to these objects. An all-Canada policy will be carried out by the Government of which Mr. Borden is Premier, and we have entire confidence in his honest ability and in his Cabinet as well.

Lecturer Coming.

Miss Louise R. Hollister, of Evanston, Illinois, W. C. T. U. lecturer and organizer is coming to work in this province for a month or more and will address a meeting in the open house, Wolfville, on Friday evening, Nov. 24. Miss Hollister has had ten years experience in the States where she has been very successful. She is a most eloquent and interesting speaker and captivates her audiences by her convincing arguments as well as by her personality. Some of her subjects are: The Burning Questions of the Day, Kings and Queens of Society, The Flag and the Patriot, etc. It is hoped that all will embrace the opportunity to hear Miss Hollister while she is in town.

Cooperage Production—1910.

The amount of cooperage produced in Canada during 1910 has been compiled by the Dominion Forestry Branch at Ottawa. Reports were received from one hundred and thirty three firms of which ninety-four were in Ontario showing that slack and tight cooperage was produced in Canada to the value of one million seven hundred and forty thousand dollars. As the hardwood forests are steadily depleted and as the Canadian products transported are chiefly flour and apples, requiring only slack cooperage, the light cooperage stock manufactured in 1910 amounts to only one-fifth of the total value. Barrels made from tight stock are as containers of oil, alcohol liquors and other liquids, and as Canada has practically no sufficiently clear quality for such stock, the most of it has to be imported as stave or stave bolts from the United States. Of the total, slack cooperage made up 1,359,000 dollars, which is 200,000 dollars less than the 1909 value. Notwithstanding the decrease in value of slack cooperage for 1910, the number of pieces produced was five hundred thousand more than in 1909.

Practically no cooperage is manufactured in Canada for export, and whatever quantity is shipped out in the cooperage line on the manufacturer's hands after the domestic market has been satisfied. In the middle of the last decade the export trade was quite an important branch of the cooperage industry, but in 1910 exports of staves, heading and barrels amounted to only one hundred and fifteen thousand dollars.

A Fresh Supply Just Received

NYAL'S COD LIVER COMPOUND.

This is the greatest all-round tonic, strength restorer and body-builder that can be found, and it is no wonder that so many people are buying it, for it is equally good for children, for middle-aged persons, and for old people.

It is a real tonic containing cod liver extract, extract of malt, wild cherry and hypophosphites—a splendid combination.

The cod liver extract builds you up so does the extract of malt. The wild cherry gives you a better appetite and the hypophosphites supply phosphorus to the nervous system—just the thing it needs.

The taste is pleasant and agreeable—it will not nauseate the weakest stomach. Large bottle \$1.00.

Tired-out Kidneys.

Kidney troubles are so frequently common because the kidneys are so easily upset by overwork or excess of eating and drinking. Care is effected not by whipping them out to renewed effort, but by awakening the action of liver and bowels by the use of Dr. Cassa's Kidney Liver Pills. This restores the kidneys and makes them well. Backache and urinary disorders then disappear.

If the cellar stairs are not well lighted, paint the bottom step white. This will save many an unfortunate misstep.

PILES

Do not suffer another day with itching, bleeding, or protruding piles. Dr. Cassa's Ointment will relieve you at once and as a permanent cure. It is sold by all druggists, or Edmondson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

Wig—Hello! old man, I never saw you looking better.

Wagg—Well, I do feel in pretty good shape. You see, I've been too busy this summer to go away for a rest.

Fell in a Faint.

Mrs. Edwin Martin, Ayer's Cliff, Que., writes: "Before using Dr. Cassa's Nerve Food I was in a terrible condition. My appetite was gone, and I would faint to the floor. I could not sleep without fainting. Dr. Cassa's Nerve Food has so built up my system that I can wash and do my housework. Your medicine cured me when doctors had failed."

When you are taking considerable risk in letting your young men owe two to three weeks' board.

Yes, there is some risk, answered the boarding house keeper. But then, you see, they worry over it so that they lose their appetites, so I save money in the long run.

It is very wrong to tell a falsehood, said his mother to little Jimmie, who had caught him in one.

Then were both of you sinners 'a int me, maw? queried Jimmie.

Why, you told Missus Smith yesterday that you hoped she'd catch again, and after she wuz gone you said you wished she'd never come again.

CASTORIA For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. Watson*

He was a raw recruit, just enrolled in a crack cavalry regiment, and paying his first visit to the riding school.

"Here's your horse," said the instructor.

The recruit advanced, took the bridle gingerly, and examined his mount with great care.

"What's it got this strap around it for?" he asked, pointing to the girth.

"Well," explained the instructor, solemnly, "you see, all our horses have a keen sense of humor, and, as they sometimes 'ave sudden fits of laughter when they see the recruits, we've put bands around them to keep 'em from bur' tin' their sides!"

Children Cry FOR FLETCHER'S CASTORIA

Her face is drawn, her eyes are haggard and sunken, and her expression is that of a woman on the verge of nervous prostration.

"What in the world is wrong?" asks the astonished friend. "I never saw anyone look so terribly."

"It is all because of a terrible nightmare I had last night," explains the sufferer. "It simply shattered my nerves, and although I know it was merely a dream, still I cannot rid myself of its effects. I dreamed I was called upon unexpectedly to plan a dinner for Dr. Wiley, Dr. Woods Hutchinson and Upton Sinclair,—Life.

We Make Them Differently

You see no hackneyed styles—or last year's patterns—in "Progress Brand" Clothing.

The little niceties of fashion—the exclusive effects—that make "Progress Brand" conspicuous—were never seen in a garment before.

Some styles are so absolutely unique that we have been able to patent them.

You can always tell these "different" clothes by this trademark—

"I suppose," said Collector Loeb, "that is the past a good many people looked on a strict observance of the customs laws from a selfish and worldly point of view. They are like Aunt Mary Perinamoon."

Aunt Mary called one day on the village lawyer.

"Well, old lady," he said, "what can I do for you?"

"Ah, wants to divorce mah husband," said Aunt Mary.

"Divorce? Good gracious! Why?"

"Because he's done got religion, dat's why," said Aunt Mary, "an' he ain't had a chicken on de table for six weeks."

Misery's Lintment used by Physicians.

Catching Cold.

Have you ever noticed in church immediately after a prayer or a sermon is finished some one starts a cough and that a whole battery of coughs explode? The modern physician will tell you by way of explanation that microbes emanations from the breathing of coughers find their way into the respiratory tract of others, who thereupon cough, too. Not alone in church, but in theatres and other indoor places where people gather in large numbers, is this coughing habit noticeable.

In an article dealing with this subject published in the Independent it is explained that colds are slight infectious fevers which spread particularly among the population of cities and which are due to contagion and not at all to changes in the weather. These may predispose by lowering the resistive vitality and by disturbing the circulation of mucus in the bronchae, but it is the presence of an infectious germ that gives rise to the symptoms of the cold. When one of these bacterium affections gets into a household usually more than one person suffers from it, and it spreads in offices and schools and the like. It is much more frequently caught in a crowd than anywhere else.

"The people who have a succession of colds during the winter time; and those who have to work where many people come and go during the day are particularly susceptible to them. It is not to some sudden change in the weather that the physician looks for the origin of a cold, but to some rather intimate contact with other sufferers from similar affection."

A Great Discovery.

CERTAIN INGREDIENTS THAT REALLY PROMOTE HAIR GROWTH WHEN PROPERLY COMBINED.

Rosorcin is one of the most effective germ destroyers ever discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin, although not a coloring matter or dye is a well known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp. These ingredients in proper combination, with alcohol added as a stimulant and for its well-defined nourishing properties, perhaps the most effective remedy that is known for scalp and hair troubles.

We have a remedy which is chiefly composed of these ingredients, in combination with other extremely valuable medical agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp in spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness or we will return your money. If the scalp has a glazy, shaly appearance, it's an indication that baldness is permanent, but in other instances we believe baldness is curable.

We want everyone troubled with scalp disease or loss of hair to try Rexall's '93 Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will return every cent paid us for it. We print this guarantee on every bottle. It has effected a positive cure in 93 per cent of cases where put to a practical test.

Rexall's '93 Hair Tonic is entirely unlike, and we think it in every particular better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our risk. Certainly we know of no better guarantee to give you. Remember, you can obtain Rexall Remedies in Wolfville only at our store—The Rexall Store, A. V. WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

The following letter from Mrs. Orville Rock will prove how wise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

Here is her own statement.

Friend Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not walk on my feet for a long time. My physician treated me for seven months without much relief, and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with my female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

SAVE OVER \$25 WHEN BUYING YOUR RANGE THIS FALL.

You Can Buy "DOMINION PRIDE" RANGE At Factory Price

Direct From The Largest Malleable Range Works in Canada

If you want to save from \$25 to \$50, and at the same time get the most satisfactory kitchen range made, write for our Catalogue and look into the merits of the "DOMINION PRIDE" range. If we sold you identically the same range in the usual way, through a dealer, you would have to pay from \$69 to \$78 for it. You would be paying two extra profits—to wholesaler and retailer—which would add \$25 to \$50 to the cost of your range, but absolutely nothing to its value.

"The Evolution of the Cook Stove"

Looking from the time the Cave Boy lit the dropped stones into the pot to boil, it is all the same. The "DOMINION PRIDE" Range is the result of the evolution of the cook stove.

A "DOMINION PRIDE" Range, with high chest shelf and elevated tank or hot reservoir, with zinc sheet to the sides, range is enclosed with air chambers—and double-lined floor lined with asbestos—the "DOMINION PRIDE" is the most economical range you can buy. Actual tests have proved that it saves over 50% of fuel, burning either wood or coal.

J. F. HERBIN OPTICIAN & WATCH-MAKER.

Woodstock, N.B., Aug. 10, 1910.

"I had a very severe case of stomach trouble which caused me great pain, and a lot of distress. I tried several doctors, but could get no relief. I was told about all the patent medicines that are recommended for stomach trouble, and still I was getting worse—in fact, I felt like dying, and had to stop work. My friends thought I was going to die, and I thought so myself. I had heard a great deal about the wonderful skill of Father Morrissy, and thought I would give him a try. He prescribed his No. 11 Dyspepsia Cure for me, and I took his medicine as directed, and soon began to feel relieved, and today I am a very well man, have gained in flesh—have no pain in my stomach, and am feeling first-rate. There is no doubt but that he saved my life, and I only wish I could find words to express my gratitude. I hope all who suffer as I did will use his marvelous No. 11 Stomach Remedy."

John H. Mitchell.

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morrissy prescribed it for 44 years, and it cured thousands after other doctors failed. Price, 50c. per box at your dealers or Father Morrissy Medicine Co., Limited, Montreal.
