Saturday, June 11, 1910.

A Reminder of the 1898 Contract

We notice that the City Council has been considering the standing of those who have built houses near the Battery, that the Council is in receipt of a communication from Mr. Massey of the R. N. Co. in which the Company states that the land is their property under lease from the Government, and that they have given no titles to those who have built on the land in question. The Solicitor of the Council gives his opinion that the settlers there are mere squatters.

It may interest our readers to learn that in one of the drafts of the 1898 Contract this land was excluded from the purview of the contract, as was the old track from Harbor Grace to Carbonear.

For some reason the clause containing the exclusion of this waterside land was dropped.

The clause excluding the old Carbonear track was retained, but not that which referred to the land in question.

The reason is not apparent.

As the contract provided for a West End terminus, the transfer of this land to Mr. Reid was unnecessary. Again, during the past 12 years, i.e., since the contract came into being, this land has not been used for the purpose of operating the railway.

Why, then, was the clause excluding it from the conveyance of the railroad dropped?

POLICE COURT NEWS.

In the police court to-day two drunks were discharged and a third was fined \$2 or 7 days.

A disorderly, who made his 6th appearance this year, was fined \$5 or 14 days.

A young man who assaulted a little girl named Rodgers and hit her with a hockey stick Thursday night was asked to give bonds for his appearance Monday, when the case will be heard.

An assault case between two females of Hoytestown was dismissed. The son of one of them appeared for arraignment and beating the complainant in the previous case and was let off on paying costs.

First Trap Fishing.

Mr. Wm. Holwell, of the South Side, had the first fish in his trap this morning, securing 3 cwt. None of the others did anything. At Pouch Cove yesterday on a caplin baiting some of the people got as high as 3 qts. of cod of good size. The Hickeys, of Flatrock, using buttoes, got 3 qts. also yesterday. It is hoped that the cod will soon be plentiful.

The Governor's Trip.

The special car Terra Nova is now at Scott's Sliding between Gambo and Dighton where His Excellency the Governor and party are fishing on the Terra Nova River. The Governor will visit Placentia to-morrow, and will return to town about Wednesday next.

Inland Fishery.

A telegram from South Branch to-day says that lots of salmon have been seen in the rivers there but none have been caught.

A scene from "Men and Women," which the Chicago Stock Company will present on Monday night.

Notes From Harbor Grace.

Miss Sadie Hayden of this town joined the S. S. Invermore here on Wednesday night as stewardess.

Mr. James Gorman of the W. T. E. Co. has his hands full now wiring houses of citizens anxious to install the lights. This rush indicates that people are expecting their friends on the occasion of the forthcoming celebration, and are determined to give them all the light possible.

Mr. Jeremiah Shea, of the hill, barely averted serious loss by fire a few days ago. Mr. Shea had an occasion to go out to his barn, quite near his house at night, and falling in some way the lantern he carried immediately caught fire. The flames spread very quickly, and only his presence of mind in smothering the flames with some clothes lying around the loss would have been a severe one. Very little damage was done.

Mr. Timothy Hayden, of this town has gone to Labrador on the S. S. Invermore as Assistant Collector.

We were pained a few days ago to see a "mother" beating her little daughter about the head. This is a cruel and very dangerous practice. Who knows but that some cases of deafness and even insanity may be traced to ear-boxing in early life.

This is the best report of the condition of this market for the past two years, and before any more of our produce reaches there it is likely the stocks on hand, which are meagre, will be all consumed and tend to a stiffening of prices. The Minnie Pearl is now nearing Oporto with a western vessel; the Dunure left here a few days ago, and the Mildred also leaves to-day with fish for that port.

PRICE OF LOBSTERS.—Lobsters are now quoted at \$14 per case in the market and there is a ready sale for them at this figure. This is \$1 more than that given for them this time last year.

WHALES PLENTIFUL.—The pilots say that for the past few days whales have been very plentiful in the neighborhood of Cape Spear and also up around Petty Hr. and Bay Bulls. If a whaling ship was about she would reap a pretty good harvest.

An Appreciation of Good Workmanship.

The Nova Scotia Steel Co. through its manager, Mr. A. R. Chambers, has conveyed to Mr. J. Callahan, of Callahan, Glass & Co., its thanks and congratulations for the beautifully finished drill core case in which the Wabana exhibit has been sent to the Festival of Empire.

Clothing for Honor and Beauty.

Let us see how garments were spoken of symbolically.—Aaron had to wear Holy Garments for honor and beauty (see Exodus XXV III. 2); Solomon said: "Let the garment be always white"; Isaiah says: "He hath clothed me with the garments of salvation." We are told in Zechariah that Joshua, the High Priest, stood in filthy garments, and the Angel was told to put on him clean garments. The garment, the apparel of a person, very oft bespeaks his attributes. The keen intelligent eye, discovers and detects uncleanness. So go to FRIEDMAN, where you can get up-to-date ready-made Clothing, Dry Goods and Furniture for cash or credit. B. FRIEDMAN, 301 Water Street (Water Side); Phone 546, P. O. Fads and Fashions.

Albatross is being much used this spring.

Afternoon gowns are more or less elaborate.

Tucking is used a great deal on the summer gowns.

Swiss fabrics are often worn with a colored slip.

This season one finds entire coats and wraps of cretonne.

The elastic belts, in different widths, are more popular than ever.

Coarse Russian braid is used a great deal for trimming coats and caps.

The chantecler is found embroidered on the instep of the latest silk hosiery.

The finest of roses are used for trimming caps of muslin or lace for the baby.

The shoulder seam on the new shirt-waists is much longer than that of last season.

Lingerie embroidered with the all prevailing chantecler is one of the fads of the hour.

Many of the summer coats have long revers that cross and button below the waist line.

A box-plated quilting of net is the finish at the wrist of a pretty sleeve seen recently.

Ribs of brass as well as of gilt and white enamel are seen in some of the summer sunshades.

Separate blouses of black net with lace insertion are worn over and under blouse of white.

One of the old fashions that has been revived is the use of oblong gold buckles to trim gowns.

Exquisite separate blouses are made of the soft crepe printed in the rich Paisley patterns.

An exquisite combination seen recently on a house gown is a blue tulle veiling silver embroidery.

Bathing suits fashioned after either a princess model or the Russian blouse are favorites this year.

The sleeveless coats of the most diaphanous materials promise to be more popular than ever this summer.

Either banding, piping, or feather-stitching in color is effective for the small boy's Russian suit.

Wreaths, bow knots and roses are the favorite designs on the embroidered silk hosiery for the bride.

Parasols of embroidered linen are popular. They are only suitable for carrying with linen or cotton frocks.

Sentiment versus Sentimentality.

Mr. Roosevelt's Idea Regarding Them.

London, June 4.—The "Times" this morning publishes a letter from Mr. Roosevelt in reply to a correspondent, who requested him to substitute the word "sentiment" for "sentimentality," which he used in his address at the Guildhall last Tuesday, when the freedom of the city was conferred upon him.

Mr. Roosevelt said in that speech: "Those who have to do with uncivilized peoples, especially fanatical peoples, must remember that in such a situation as that which faces you in Egypt, weakness, timidity and sentimentality may cause infinitely more harm than violence and injustice. Sentimentality is the most broken reed on which righteousness can lean."

To the objector to the use of the word "sentimentality," Mr. Roosevelt writes:

"I exact sentiment as the exact antithesis of sentimentality and to substitute sentiment for sentimentality in my speech would directly invert my meaning. I abhor sentimentality, and on the other hand, think no man is worth his salt who is not profoundly influenced by sentiment, and who does not shape his life in accordance with a high ideal."

TOURISTS UP WEST.—At present there are quite a number of American tourists on the West Coast, especially at South Branch, Crabbe's and Little River. Both salmon and sea trout are numerous and excellent catches of both are being made.

Johnson Dismisses His Manager, Who Refuses to Leave.

San Francisco, Cal., June 5.—Open warfare between champion Jack Johnson and George Little, his manager, which started Saturday night, wound up this afternoon when Johnson told Little that he was discharged. Little says that he has an iron-clad contract with Johnson until May 1911, and threatens trouble. He says that unless the differences are settled he will stop the fight on July 4. Despite the fact that he was discharged, Little insisted on remaining at the door to take the tickets. Not until Johnson, backed by a squad of city policemen, requested him to leave, did Little depart.

According to Johnson, the trouble arose because Little became jealous of Sil Hart.

This is the statement issued by Little: "I have a contract with Johnson that binds him to give me 25 per cent. of his profits, and I am authorized to make all contracts for any boxing match, theatres, shows or anything of like."

This trouble delayed the boxing in the afternoon, but Johnson went through with an unusually hard programme which included three rounds with Cotton and Cutler and two with Dave Mills. At the conclusion of his work Johnson weighed in for the newspaper men, tipping the scales at 212 pounds, the lowest he has weighed since his training started. Following the discharge of Little as his manager, Jack Johnson announced tonight that Billy Nolan was handling his affairs hereafter.

The sermon in question was preached in his own church a week or two ago and excited so much interest that many have expressed a desire to hear it. Strangers and visitors to the city will be welcome and provided with seats by the ushers.

His Clothing Stolen.

Seamen about the city report that either on Thursday night or early yesterday morning some persons boarded the Grace which lay in the stream and forcing open the fore-castle companion way stole therefrom all the clothing and effects of the bosun Mr. M. Dalton. Mr. Dalton is a navigator and his clothing which was held in two seamen's bags and a chest, with his nautical instruments and books was worth \$150 or more. He has no idea of who committed the theft but will endeavor to discover the authors of it by informing the police.

Broke the Glass.

Yesterday afternoon a drunk passing down Water Street fell through a large pane of glass in Mr. M. J. Summers' shop window and barely escaped serious injury. He passed down the thoroughfare but officer H. Lumber captured him and made him pay up. The glass was worth \$3.00.

MORNING TIREDNESS.

Understand its meaning? To wake up in the morning tired is proof of poor blood, of starved and weakened nerves, of a brain irritated and exhausted by loss of sleep and poisoned blood. Plenty of food, of course you have, and yet you starve, and destroy nerves and blood and brain. It is poorly digested food? Yes; that is the cause. You have exhausted nerve force, stomach does poor work, so does the liver. Then the blood gets watery and a general condition of breakdown holds you in its grip. Build up, fortify the stomach, enrich the blood, feed the starving nerves. In this way you reach the road to health. All this and more you can do with Ferrozone (blood food). Ferrozone makes blood, strengthens the nerves, overcomes that fagged-out feeling. Ferrozone imparts strength or vigorous thought and action. In a little while morning tiredness disappears and you get color, vim and endurance—in a word, you get well. Ferrozone (blood food) is an invitation to health; be wise, accept it. Price 50c.

Nutritive Hypophosphites.

When a person feels "blee"—"all tired out"—doesn't feel the doing anything"—cannot concentrate his mind on his work—feels weak mentally and physically—doubts his powers—complains of poor appetite and sleeplessness—suffers from headaches—then his nervous system is run-down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork, worry, devotion to trying family cares overstudy, etc.

Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health. Large bottle, \$1.00.

OVER-WORKED KIDNEYS.

Cause, Rush of Blood, Fulness, Dizziness.

J. T. Chetland, the well-known railway engineer of Hamilton, found the strain always vastly intensified by a tendency of the blood to rush to his head, and often at times when clearness of vision and great steadiness were demanded. Finding some difficulty in bending—a stiffness with pain having settled in his back, it occurred to him that his kidneys might be at fault. "This was a happy idea, for by it I not only got rid of the pain but many other troubles as well. I took a full dose of Dr. Hamilton's Pills and was glad to note that some obstruction of the kidneys which I had lately noticed, was at once relieved. The flushed appearance of my face gave way to a more rational color and there was a perceptible improvement in my appetite. Dr. Hamilton's Pills certainly act splendidly upon the blood, removing heat and fulness and that sort of dizziness that makes a man at the throttle wish when it seizes him that he were elsewhere."

No medicine gives such unquestionably good results for stomach, liver and blood troubles as Dr. Hamilton's Pills; they are mild, certain, and always curative.

Last Evening's Performance.

At the T. A. Theatre last night the members of the Chicago Stock Co. reproduced the drama "Clothes" to a large and appreciative audience. The company were seen to better advantage than on the opening night, and the applause accorded the performers evidenced the delight which the audience felt in witnessing the work of the combine. The handsome costumes worn by the ladies and the beautiful stage scenery, together with the strong acting, has already popularized the company. The piece for this afternoon's matinee and to-night will be "The Lost Trail," delineating an interesting and exciting story of life in the great western plains. Next week some of the most fascinating plays in the company's repertoire will be produced, commencing with David Belasco's great success, "Men and Women." We bespeak for the company large audiences and they certainly deserve much encouragement.

MARSHALL BROTHERS.

Shipbuilding Yard for Canada.

Special to Evening Telegram.
OTTAWA, Ont., June 10.
Plans have been made at Ottawa by Vickers, Son and Maxim, of England, for a two and a half million dollar shipbuilding and ship repair plant to be erected at Montreal, the plans including a floating dry dock, three large berths for the repairing and building of steel vessels, machine shops and a plant capable of doing the heaviest construction and repair work covering some 50 acres of ground. Application has been made to the Government for a dock subsidy, and this will undoubtedly be granted at the rate of 3 1/2 per cent. for 25 years on two and a half millions. The working and final plans of the project are being brought by Mr. Vickers, who will shortly reach New York. An examination of land on file at Ottawa indicates the intention of the firm to make a serious bid for the construction of the destroyers, which Canada will soon give. Contracts for this class of craft has been a specialty of the firm.

The gathering, over which Lord Alverstone presided, was a most representative one, including Captain Robert E. Scott and other British explorers. The American pilgrims were represented by J. P. Morgan, General Stewart and others. Lord Alverstone in a speech paid tribute to the courage and determination of Peary and other American explorers. The Commander in reply, after expressing his thanks, related interesting incidents of these years of struggle in the frozen north.

He said he was doing all he could to make such arrangements, so that no letters would leave Canada for Europe marked via New York.

Swift Running Autos.

Wednesday night as a well known business man was driving out to the city with his family, when near White's Bridge, above the Lunatic Asylum, all narrowly escaped being killed or seriously hurt on account of an automobile. It turned the curve at great speed, the driver took the wrong side of the road, and but that the horse in its flight swerved a collision must have resulted. Drivers of autos on country roads travel altogether too fast. On Coronation St. Thursday night two men drove out at a high rate of speed, sounded no horn and pedestrians had to jump to the side of the road hurriedly to escape being killed. The pair singing lustily kept up the speed till they reached the outskirts of the city. If most autoists do not soon regulate the rate at which machines are driven in the country, plain clothes policemen will have to take a hand in and bring them to their senses.

Disgusted With the Government.

The settlers of Grady, Indian Tackle and other parts of the Labrador coast are disgusted with the action of the Government in not giving them information as regards fishery regulations this spring. Believing that it was not legal before a certain date to do so, these settlers did not put down their traps or secure their berths as usual and had not time to go act before the people from the Newfoundland bays were upon them and placed their twine in all the most eligible localities. The Government should have had a steamer down the shore far earlier than they had when this condition of affairs would have been obviated. They are incensed over the manner in which they have been treated in the premises and curse the stupidity and bungling of the Government.

THE KOHLER AND TONK Pianos are famous and their agencies are world-wide. Hundreds of users in Newfoundland can confirm their splendid tone and should be better than one solitary opinion. Call and see them at the White Piano and Organ Store. CHESLEY WOODS.

A Good Idea.

Editor Evening Telegram:
Dear Sir,—I think it would be very satisfactory and would relieve house-keepers and their assistants from a lot of unnecessary trouble and annoyance if street vendors, as they pass along the city thoroughfares, would call out the kind of articles they have for sale, instead of battering at our doors or putting our electric bells out of business, as is now the usual proceeding. Fancy being engaged in some remote part of one's house, when an alarm comes from the street entrance. You must, of course, enquire the cause, and when you open the door the question asked you is: "Do you want any splits, dandelion, salmon, etc." Your reply is simply yes or no, and this ends the business, as you think, and you again resume your occupation. But you have scarcely done so when another bang comes at the door and on opening it the same or similar questions are asked.
These interruptions occur many times each hour of the day from "sunny morn to dewy eve" and are a source of great worry to our domestics. If it be in the power of our Municipal Councillors to remedy this condition of affairs, they should give it immediate attention and compel street sellers to call out their wares, thus, any house-keeper wishing to purchase vegetables, fish, splits, etc., would be on the "qui vive" for what she required.
Come, then, Councillor Martin, if you value the support of the women of the city make a move in this matter and you may feel assured the result will be to your advantage.
Yours truly,
A SUFFERER.
St. John's, June 11th, 1910.

The Chicago Stock Co.

The Chicago Stock Company attracted another large audience to the People's Theatre last night to witness its splendid production of Clothes. This afternoon and to-night The Lost Trail will be given, which is considered the very best drama of western life seen in years. It is not, as its title might suggest, a lurid melodrama of the old type, but a clean, well written, handsomely staged production, enacted by an exceptionally strong company of twenty people.
It is a story of heart throbs, with villainy as a matter of course, but not of the impossible or the improbable sort. It deals with the efforts, finally successful to reclaim a young man who is temporarily, on the "wrong trail." The action takes place at a military post in Colorado, and there is an army flavor that adds to its charm. There are four beautiful settings, and the company carries all the needed scenery and properties for a genuinely artistic production. There is also an abundance of comedy and a judicious selection of persons to fill the comedy roles, while specialties are interpolated during the action, from time to time, to lend variety.

C.E.I.-C.L.B. Sports.

The football lives in the C. E. I.-C. L. B. Sports came to a conclusion last evening on St. George's Field. The Collegians beat the B. I. S. by 2 goals to 1; and the St. Bon's beat the Casuals by a corner to nil.
The final inter-collegiate game was between the Methodist and St. Bon's teams, the former beating the latter by 2 goals to 1 corner.
Mr. W. J. Higgins refereed in his usual impartial way. The Sports will be held next Wednesday week, and great interest is being taken in them.

Country Please Them.

The members of the Chicago Stock Co. are much pleased with the country, though they have not yet enjoyed our best summer weather. Several of them are enthusiastic waterloons and intend to have some fishing before they leave here. Mrs. Rosskam, mother of Manager Rosskam, is here with the company, and though of an advanced age enjoys the variety incident to travel. Mr. Bonnel has with him a fine dog which he purchased while in Moscow and which is known as a Russian frontier dog.

Said to be a "Strad."

Reading an article in our paper of June the 3rd on Valuable Violins, Mr. Cook of the Southside was set thinking. He remembered that there was an inscription on the inside of his violin and he forthwith got the instrument and examined it and found the following: "Antonius Stradivarius Cremonensis faciebat Anno 1736." This was followed by a small circle with the letters A. S. and a cross within it. Mr. Cook believes

that he has a genuine "Strad." There is no doubt the instrument is very old, but whether it is a genuine "Strad" or no one but a virtuoso with long experience in violins can say. There are said to be 600 Strad's in existence which are valued from \$2,500 to \$6,500 each.

Rector of St. Paul's, Exeter.

In an English paper we find a cut of the Rev. Edward Reid, a native of this city, and a well known footballer and under it:—

The photograph given above is that of the Rev. Edward Reid, who has just been appointed to the joint livings of Saints Paul, Pancras, and All-hallows, Exeter. Mr. Reid has for some years been senior curate at St. James', Exeter, and has also had charge of a mission church in that parish. He leaves that part of the city to the regret of all, but what will be St. James's loss will be St. Paul's gain, for in these comparatively poor parishes a clergyman of energy and resource, as Mr. Reid is, will find plenty of scope for missionary work, which is his special forte.

Apart from being a good Christian worker, Mr. Reid has put in some of the best work seen on football fields, and he played for Swindon and Plymouth Argyle Clubs. On going to Exeter he joined the amateur Exeter City team, and played regularly for them. The increased demands on his time, and the fact that the latter club adopted professionalism, compelled him to sever his connection with it, but even now he is an enthusiastic supporter of the code.

\$400,000 Fire at Pictou.

Logan's Tannery and other Buildings Destroyed—Stock on hand valued at a Quarter of a Million.
Pictou, N. S., June 4.—Logan's tannery, the largest tannery east of Montreal, situated at Lyon's Brook Village on the West River and Short Line Branch of the Intercolonial Railway, four miles from Pictou, is totally destroyed as a result of a fire which started at 12.15 this morning, and was not under control until near 5 o'clock this a.m.
The store of Dougall Logan, a large shareholder in the tannery, home of Mr. Logan, and home of Mr. Stewart, manager of the tannery, were burned to the ground, as well as barns and sheds belonging to tannery, hide houses, piles of bark and several box cars containing a bark. The total loss is now estimated close to four hundred thousand dollars. One hundred and fifty thousand dollars would be a conservative estimate of the plant's value, and stock of hides, bark, etc., on hand was valued at \$250,000, this being at the time of year at which stock is heaviest. Logan's

loss of store and goods would be about \$5,000 with \$2,500 for dwelling. The house occupied by Mr. Stewart and owned by the Tannery Co. was valued at \$5,000.

How to Reduce the Cost of Living

We hasten to present a few methods by which the cost of living can be greatly reduced, says the Literary

Magazine. They are the following:
1. Keep a garden. A man with his backyard full of turnips can tell the butcher to go to thunder any time.
2. Walk instead of using a street car. This saves carfare and besides it makes you so hungry that you will enjoy the turnips.
3. Wear your last year's clothes. This will be saving in two ways. You will save the price of new ones and because of the hole in the old ones you will stay at home from the theatre, thus making a large saving.
4. Get up early and work in your garden. This will compel you to go to bed early at night and will reduce your light bill by \$1 a week.
5. Adopt the fresh air fad and leave your windows open. After a little practice you will be able to exist in only tolerable discomfort at a temperature of 50 degrees. You have no idea how much coal this will save.
6. Make your own breakfast food. Buy the handsomest colored paper; box you can find and keep it filled with oatmeal. This will save you half the price of your breakfast foods.
7. Discover that coffee and tea are highly injurious. People who discover

this fact save enough in ten years in narcotics and cream to go to Europe—or would if the steamer rates did not go up every year.
8. When your vacation comes put it in exploring the city and country in which you live. You will get better food at home for less money, and the railroad fares you will save will almost make up the loss caused by the raise in eggs and butter.

Poor Fishery North.

By the Prospero we learn that the fishery down North is very poor and the outlook is far from encouraging. The Twillingate schooners on the N. E. Coast are doing practically nothing. Caplin has made its appearance but it is significant that the cod is not following it to the shore. Messrs. Howell and Gillett, at Crenshaw, on the French Shore, were the only ones who had any fish under salt and they had secured only 50 quintals each. Salmon is very plentiful all along, and a man named Pilgrim had 49 fine fish at St. Anthony on Monday last.

We All Use Them

Perhaps you have seen their best days and you have about made up your mind to purchase new. You think you are sure if you ask for and receive "Rogers goods" it will be all right. You are not, however, for there are many grades of so-called "Rogers goods." There is only one "1847 Rogers Bros." brand of Knives, Forks, Spoons, etc. (since "1847"), which is the original and genuine. This same brand was used by our grandparents and is the only "Rogers" silverware which has been in use since the year 1847. Fictitious brands of "Rogers" goods, etc., were unknown till many years later. Be sure the prefix "1847" is stamped on every article and you will get original quality.
