Fresh Fish Shipments Direct From Canada

SCHEME OF MAJOR GREEN IS NOW COME INTO PRACTICAL FOCUS

AND PLAN IS OUTLINED. From time to time the last few months passing references have been made to the scheme of Major Hugh A Green for the organization of a great trade in fresh fish based on Nova Scotia and having its main marketing outlet in England, with tentacles reaching to the Continent. Dur ing the last month what were previously but proposals and negotiations have come to some extent into practical focus, and the originator of the scheme is now able to speak with some certainty of the lines to be followed.

A Fish Luncheon. Towards the close of last month a meeting, combined with a fish luncheon was held at the Savoy Hotel. London. Major Green presided, and among the gathering were Sir Thomas Lipton and several foreign representatives. One side of the reception room was given to the display of Canadian fish caught on the North Atlantic fishing banks. The fish, although twentythree days old was still in prime condition, and, apparently, quite as good as any live quality fish caught in the North Sea. The items on the luncheon menu were fish caught on the North Atlantic Banks, all of which were excellent.

After the luncheon, Major Hugh Green, in a speech regarding the prospects of the scheme, said that it was intended to form a company, which would commence operations in this act comedy drama "Take My Advice," country about the end of September. at St. Joseph's Parish Hall, was play-The fish would be brought over here ed before a large and delighted au by special insulated steamers and dience. The fish which comprised fresh haddocks and catfish was entrusted to Messrs. Peter Forge for sale, and created a very favorable impression, the condition being all that could be desired.

Should subsequent arrivals reach this country in the same excellent order, there will be a big future for this scheme The progress of the venture will be watched with interest The full success of the scheme will The Sunny Meadow to the pond largely depend on whether or no sup. ARLIE MARKS PLAYERS GIVE MASTERFUL PERFORMANCE AT CASINO.

"The Lure" is the title of last night's play by the Arlie Marks Players, and to say that it satisfied the tastes of its audience is simply putting it mildly. The large audience at the various climaxes applauded thunderously, whilst at other times the suspens. was so great you could almost hear a pin drop. Many claim that this play is the best seen so far as it brought out the dramatic ability of each performer besides being acurately handled. The plot is a deep one and is treated with dexterity and all through the production there is not an objectionable episode. The reviewer does not intend to give away the plot here as it will not be fair to those attending the remaining performances, but advise is that no person in search of good dramatic entertainment should miss "The Lure."

well under way by next session, so that we might have the satisfaction of knowing that that feature of the forward policy of the Government had been successfully carried out. HON. MR. MORINE said the sum

of \$700,000 was specified in the Bill more as a rough and ready measure of the class of hotel that was required than as a condition. In fact the amount would be better out of the Bill altogether. Owing to the contractors being in a hurry to go on with their work and the Government being anxious to have the hotel erected as quickly as possible more details could not be gone into. It was only necessary to place confidence in the Government that the rights of the people would be protected. In the present Bill the Government was assuming more responsibility than ordinarily, and if they did not see that the contract was properly carried out there would be no one but the Government to blame. He felt that left with the Government every detail re ferred to would be safeguarded.

COULD NOT SLEEP NIGHTS Pains and Headaches Re-

lieved by Taking Lydia E. Pinkham's Vegetable Compound

Dublin, Ontario. - "I was weak and irregular, with pains and headaches, and could not sleep nights. I learned about Lydia E. Pinkham's Vegetable Compound by reading the letters in the newspapers and tried it because I wanted to get better. I have got good results from it as I feel a lot stronger and am not stronger and am not troubled with such bad headaches as I used to be and am more regular. I am gaining in weight all the time and I tell my friends what kind of medicine I am taking. You may use my letter as a help to others."—Mrs. James Racho, Box 12, Dublin, Ontario.

Halifax Nurse Recommends Halifax, N. S.—''I am a maternity nurse and have recommended Lydia E. Pinkham's Vegetable Compound to many women who were childless, also to women who need a good tonic. I am English and my husband is American, and he told me of Lydia E. Pinkham while in England. I would appreciate a copy or two of your little appreciate a copy or two of your little books on women's ailments. I have one which I keep to lend. And Men Have Fashion Fads Too

There are something like 5,000,000 wrist watches in London which nobody wants. About three years ago every man in three wore a wrist watch. Now not one in twenty does One of the reasons for this is that they are easily lost when removed for vashing, and moreover, with the very long and very tight shirt cuffs that are now worn they are extremely uncomfortable.

Smart young men now wear the hinnest of platinum watches worn in vest pocket with the finest of platinum chains. Some of the watches are no thicker than a dollar piece and some are set with jewels.
