C.P.R. CONFERS WITH CITY ABOUT A ROAD

Important Meeting of the City Railway Committee Yesterday

CITY OBJECTS TO THE ANGLE OF THE ROAD

It Would Interfere With the Route of the Street Railway

A meeting of the railway committee of the city council was held yesterday afternoon to discuss the plans submitted by the C.P.R. for a diversion of the road allowance between sections 11 and 12 in East Calgary in order that they may complete the grade for a street which will cross the engine house at that locality.

The road in question is the "Inland" leading to the new industrial building which crosses the railway at a point near the Walker estate, east and south of the intersection of the street with the C.P.R. on a slant and the city wishes to give the city a road in exchange for the right of way for a distance and then crossing the street for an overhead bridge at right angles to the line.

The only point objected to by the committee was that the approach on the north side of the bridge, turned at right angles to the bridge thus making it very dangerous to traffic when the very dangerous in operation over the bridge. By taking in a small portion of some property owned by Mr. Burns, the approach may be built on the same line as the bridge. Mr. Brooks, divisional engineer of the C.P.R., who was present, stated that the only objection to this was that the railway had secured the right of way for the bridge, but that the approach was built at right angles to the bridge and further that Colonel Walker had sold some of his property, the purchase being made conditional that the road and approach were as shown on the map.

At Colonel Walker's is at present absent in the east and he gave the release claim to the C.P.R. conditional on the approach being built at right angles to the bridge nothing can be done without his consent. After discussing the matter in detail the committee asked the city engineer to draw up a reply to the letter from the C.P.R. laying these facts before them and ask the company if they would be willing to purchase the property, provided they receive Colonel Walker's consent.

Mr. Brooks stated that the bridge which is to be constructed will cost in the neighborhood of \$50,000 and will have two approaches of five hundred feet each. The C.P.R. has the right of way on both sides of the road and allows as last out in the original survey it would cost \$100,000. The C.P.R. would not want to pay for the road and approach to such an extent that they could not shut trains of sixty-five cars without a split, that number being the best that they were building on the new yard. The letter received by the mayor from the C.P.R. is as follows:

R. R. Jamieson, Esq.,
Chairman Board of Commissioners,
Calgary.

Dear Sir: I enclose herewith a print of proposed lay-out of new yards in East Calgary.

After mature consideration it has been concluded that the right of way operations of the yard necessitate the construction of the engine house at a point east and north of the yard, some three or four years ago, and that the lay-out as now shown will necessitate the closing of the road allowance for a very considerable distance and our proposed road diversion is shown upon the plan submitted. It is desired, therefore, that you will authorize the company's tracks to be an overhead bridge.

We would be glad to receive a communication from you at the earliest date expressing the views of the committee on this proposal. It is of some importance that a very considerable distance of this matter as soon as possible as we are practically let the contract for the construction of the engine house, and we desire to commence grading the yards within the next ten days.

Yours truly,
A. PRINCE.

By Sentenced to Irving Hamel

Blond, Fla., April 13.—Irving Hamel, a 14-year-old Connecticut boy, was found guilty of murdering a 13-year-old school girl and was sentenced to be hanged.

ALBERTA HAS CENTRE OF THE STAGE NOW

Mr. Hotchkiss Publicity Agent Tells Of the Interest Taken in the Province

Edmonton, April 13.—"Alberta has been the centre of the stage at the present time, and judging from the reports we are receiving from our agents we continue to hold it for some time," said Publicity Agent Hotchkiss this morning.

Mr. Hotchkiss was commenting on the unusually large batch of enquiries he has been receiving from intending settlers anxious to get information regarding the province and was telling how their wants were being supplied by the government.

"We now have immigration committees at Montreal, Toronto, Detroit and Alpena, Michigan, Winnipeg and St. Paul," he said, "and these men, in addition to the men mentioned above, we have a special committee to travel all over the United States, wherever pressure of work is being put on us, and we are rushing in to take up the slack."

Mr. Hotchkiss said in addition to the committee mentioned above, he is kept busy with the men who have a special commission to travel all over the United States, wherever pressure of work is being put on us, and we are rushing in to take up the slack."

BUILDERS DISCUSS DEMANDS OF THE MEN

And Will Give a Definite Answer To The Requests on Tuesday Night Next

The demand of the Calgary carpenters for an increase in wages and an eight hour day, in place of the present one of nine hours, came before the meeting of the "builders' exchange" last night, and was left to that section of the board employing carpenters, who will report back to the exchange at a special meeting to be held on the 21st. This special committee will meet on Tuesday next and it will be known then if the demands are to be acceded to.

Considerable routine business was transacted at the meeting last night while twelve new members were enrolled.

For the purpose of securing new members for the exchange a smoking concert will be held at which all building contractors and contractors for building supplies of the city will be the guests of a special committee which will meet today to arrange for the rental of a suitable hall and the big smoker, which will probably be held this evening.

Next week two new sections of the exchange will be organized, the Master Masons and the Painters, both of which have a large membership.

COLORED POPULATION IS NOT APPRECIATED

Edmonton Protests Against Entering Immigration

BOARD OF TRADE SIZES UP THE SITUATION

It is Suggested That Head Tax Be Placed On All Colored Men

Edmonton, April 14.—That the increasing influx of colored people into the Dominion and especially into the Edmonton district and the homestead country surrounding, constitutes a serious menace, and that immediate steps for the prevention of immigration of negroes from the other side should be taken, was the opinion expressed by Mr. Powell at the meeting of the board of trade yesterday afternoon. The question was raised in a communication on the subject in which Mr. Powell dealt with the race problem of the States and prophesied a similar problem on this side of the line unless immediate steps are taken.

Mr. Powell, who has been in the country for many years in the southern states where, he states, the attitude of the police courts is the handling of cases of negro crime. Edmonton, it was claimed, already had over 100 colored residents and their presence had a demoralizing effect. Even the best of negroes were not desirable as citizens, since they were unassimilable with whites. In 1910 there were about 5,000,000 of them in the United States, in 1890, 7,898,000 and in 1870, between 10,000 and 15,000.

A desire was expressed that a capitation tax of \$1,000 be levied on all colored people entering the country. In his address to the board, Mr. Powell pointed out that the passage of a resolution condemning negro immigration might have the same effect as the passage of the head tax. He declared that already trouble had been caused in Edmonton by the presence of colored people.

On Thursday last week, he said, two women had been attacked by negroes in the north part of the city.

It was decided that a committee should be appointed by the board to draw up a resolution expressing the board's desire that negro immigration be stopped. The committee was appointed.

President McGeorge pointed out that some of the finest homestead land is being taken up by negroes, thus becoming worthless for white settlement.

Messrs. Powell, Montgomery and Fisher were nominated by the president to deal with the matter.

Mr. Somerville called attention to the contemplated action on the part of the customs department which will mean serious inconvenience to the business community. The express and mail departments are to be moved from the corner of Fraser and Rice. Mr. Somerville moved that the arrangement as thus projected would be the worst conceivable and that especially in view of the fact that the elevator in the post office building will not be in running operation for some time to come, the business community must be severely handicapped. Messrs. Ludwig, Brown and Somerville will act as a special committee to take any action that may be necessary in regard to this matter.

Brooms Will Go Soaring

Chicago, April 13.—Unless the broom crop of the country is subjected to a plan of conservation there will be a further shortage and the price of the ordinary broom will go still higher, according to statements of the sessions of the National Association of Broommakers of America, last night. It was said that the crop this year would fall far below that of last year.

W. B. Wilson of New York was elected president and W. L. Slawski secretary of the association.

Cook's Story Was False

Fairbanks, Alaska, April 13.—The Fairbanks Mount McKinley expedition that reached the summit of the peak, started to follow the route Dr. Cook said he took, but was obliged to abandon it as it is impassable.

Thomas Lloyd, the leader, declared today no traces of Cook's camp were found.

Another Crushing Blow To Rutherford Government

Clark and Minty of the Great Waterways Railway Refuse to Face Royal Commission and Give Evidence--Minty and Robson Leave Edmonton Suddenly

Edmonton, April 13.—W. R. Clark, president of the Alberta and Great Waterways railway, and J. H. Minty, general manager, who they did not want to come before the commission, Mr. Walsh and Mr. Johnston refrained from taking the documents from the office last night because Mr. Minty was present when they looked the documents over. Taking advantage of that fact, Minty may possess himself of important papers since that time.

Edmonton Full of Rumors

Edmonton is full of rumors, as it always is. The live wire rumor tonight was that Clark had come to town at the time. The rumor was that Clark was in town and there was some searching by anxious scribers. It was said that he had been tipped off properly and that he had been in town and was making ready for a dash out of town.

The story was very circumstantial. The son of John A. McDougall saw him getting shaved in a Jasper barber shop. And he was talking to Jim Cornwall at the time. The barber was interviewed and corroborated the statement. Sure it was Clark, he knew, he had shaved him hundreds of times. But what was the matter with many weary miles from this burg, and there is a sort of a hunch that he isn't reducing the distance in a Jasper barber shop either.

The action of Minty and Robson in leaving as they did appears to have prejudiced the people against the government more so than at any previous development. It is indisputable evidence, or it is at least considered so, that the people are frightened and they are scared there must be a good reason for it. There is just a possibility that they do not like the manner in which Messrs. Walsh and Johnston went through those telegrams in the local offices.

So long as there is no doubt, the immediate cause of the sudden migration of the two Winnipeg lawyers was the refusal of Mr. Clark to come here to testify. It is probable that Mr. Robson would have been more than any other man, except perhaps Clark, himself. It is possible that he will try to escape giving his testimony on the grounds that he is in the civil suit for \$250,000 instituted against him by Alfred Hawes of Toronto.

Investigation Will Be Resumed

Senator Walsh announced tonight that the investigation will be resumed.

How About the Papers?

It is thought possible that Minty and Robson will take the papers with them.

BIG GAME HEADS TO GO TO EXHIBITION

The Rest of the Buffalo Now in Montana to be Brought to Alberta at an Early Date

Howard Douglas, commissioner of Dominion parks, is at present in Edmonton, securing specimens of buffalo, musk ox, mountain goat and other heads of big game animals, which will be sent from Calgary to the International exhibition at Brussels, Belgium, which will open on May 1. Mr. Douglas states that the remainder of the buffalo herd purchased by the Dominion government from Michael Pablo of Montana will be received early in May and will be placed in the buffalo park at Vainwright. The number of animals to be received is about 150 and with the calf crop of this year will bring the total number of buffalo in the park close up to 1,000.

This will constitute the largest collection of not only buffalo, but of any kind of wild animals in the world.

New Westminster Bishop Very Ill

New Westminster, April 13.—The condition of Bishop Darr, who was stricken with paralysis on Thursday, still remains critical. He passed a fairly easy day, but was very weak this evening.

The Debate Overhadowed By the Anderson Revelation

IRISH ARE AFTER SCALP OF SCANDAL AUTHOR

Lord Rosebery Submitted His Plan for Reforming Lords

London, April 13.—The preliminary debate on Premier Asquith's veto resolutions which will close tomorrow, has been somewhat overshadowed by interest excited by the revelation of Sir Robert Anderson's share in the political events of 1897, and the determined efforts the Irish members are making in the House of Commons to secure a governmental investigation of the affair, with a view of covering Sir Robert's pension of £4,000 on the grounds that his action was a breach of official confidence.

Mr. Cornewall is silent

Mr. Cornewall will be the first witness called this morning. He will probably be on the stand all day, telling the story of the organization of the Athabasca Railway Co. and its successor, the Alberta and Great Waterways railway company, which he probably knows better than any other man, except perhaps Clark, himself. It is possible that he will try to escape giving his testimony on the grounds that he is in the civil suit for \$250,000 instituted against him by Alfred Hawes of Toronto.

U. S. FEELS THE NIP OF QUEBEC'S ACTION

And Believes That It Will Interfere With Trade Treaty

Much of the Pulp in Quebec is Owned by Americans

Washington, D.C., April 13.—The announcement that the province of Quebec would almost immediately prohibit the exportation of pulpwood to the United States, was received here with surprise and regret. It is a department, it was said that the prospect of close commercial relations and a trade treaty with the Dominion, which had been thought to be mutually encouraged to deter any of the provinces from imposing prohibitory restrictions on the exportation of pulp.

Such summary action as is proposed it is felt, would interfere seriously with the realization of the suggested trade treaty, and might, in a number of ways, interfere with the friendly relations into which the two governments have recently been brought.

The proposed increase of stumpage dues and license fees for the sake of increasing revenue, is not questioned, but the intention of prohibiting the exportation of pulpwood is regarded in some quarters as closely approaching a trade barrier.

After the tariff negotiations in Ottawa, and subsequently in Albany and in Washington, there was some discussion of the wood pulp situation, but that matter is understood to have been left to be further discussed in connection with the proposed reciprocity treaty between the United States and the Dominion, the initial steps in which it was believed would be taken next month.

That the decision of Quebec is detrimental to the Dominion is understood to have been left to be further discussed in connection with the proposed reciprocity treaty between the United States and the Dominion, the initial steps in which it was believed would be taken next month.

Ultimately the treaty will result in a string to the gift. He stipulated that hundreds of jobs have closed and volunteers among the women are out today as pickets to give warning if any dealer opened his store. The magistrates to send women arrested for rioting to the workhouse had little effect in checking disturbances, which were reported from all parts of the affected district. Many Gentiles who had been purchasing meat from the Koshers shops because it was cheaper joined their Hebrew neighbors today in the boycott movement.

One University Objects

Toledo, Ohio, April 13.—The university of Toledo, will not be made a beneficiary of the Carnegie pension fund, for superannuated professors. This has been decided by the Presbytery of Dayton, representing all Presbyterian churches in five counties in southwestern Ohio. At a meeting of delegates, held at Hamilton, on Tuesday, a determined stand was taken against accepting any of the Laird or Sigbee's money, because Carnegie had a string to the gift. He stipulated that in order to obtain the money, the university would have to be released from all denominational control. The delegates, after a lively debate, voted unanimously, to reject the offer.

Sympathy Strike a Failure

Marseilles, April 13.—The 24-hour strike to support the naval reserves was a failure as few workmen were ponded.

Fire Interfered With Power

The power wires from the city power house were burned shortly after the fire broke out this morning. That, it is believed, is the delay in the paper this morning.

SIX FIREMEN LOSE LIVES IN NEW HAVEN

Were Trapped by Metal Doors and Barred Windows

GASOLINE EXPLOSION SLAMMED THE DOORS

And the Firemen Were Completely Cut Off From Safety

New Haven, Conn., April 13.—Trapped by metal doors and barred windows, six firemen, who were fighting flames in a workshop, were caught by a back draft and burned to death during the partial destruction of the New Haven county jail, today. Three of their comrades were saved, through the heroism of firemen outside. The bodies of the six men were found late today, after the debris had been removed. Many other firemen were badly burned, but remained at work. The dead are: Captain C. L. Chasman of Truck 1; Lieut. Wm. Doherty of Truck 1; Ladderman John Buckley of Truck 1; Ladderman James T. Chasman of Truck 1; Ladderman John Buckley of Truck 1; Ladderman James T. Chasman of Truck 1.

The seriously hurt are: Ladderman E. Wilcox and Thomas J. McGraw of Truck No. 1; Ladderman J. H. Hussey, Captain Charles H. O'Neill, of engine company No. 4, and Ladderman Shagrug, ladderman of Truck No. 1.

Six men from truck number one were fighting their way through the cell room into the workshop when an explosion of a gasoline tank caused a back draft, and slammed behind them, the iron doors, separating the two buildings. Three of the men were hemmed in a corner and burned to death, while the other three made their way to a barred window, to which they clung with streams of water playing on them from the outside. Soon after reaching the window, the roof fell in, and ladders were put down from the outside and the men climbed out.

The other dead firemen were caught by the same back draft as they were working at the back door of the building, and they were carried down by the roof, when it fell in.

The fire was discovered by a prisoner, and the 17 men in the workshop were sent to their cells. When it was seen that there was danger of the building falling, the men in the building were taken to the police station and the foot guard armory. Under authority of Governor Wood, when an explosion of a gasoline tank caused a back draft, and slammed behind them, the iron doors, separating the two buildings. Three of the men were hemmed in a corner and burned to death, while the other three made their way to a barred window, to which they clung with streams of water playing on them from the outside. ANOTHER CRUSHING BLOW TO RUTHERFORD GOVERNMENT

(Continued from page 1.)

Edmonton, April 13.—Unexpected developments have arisen the last fifteen hours in reference to the A. and G. W. railway contract, developments which will seriously affect the investigation that was resumed before the royal commission this morning.

At nine o'clock last night A. G. Minty, a director of the railroad company and its general counsel and H. A. Robson, solicitor for the company before the commission, suddenly took their departure for the east over C. N. R. The only explanation they left was a letter from Mr. Minty to Solicitor Walsh, all the contents of which he does not divulge. They limited to close friends here, but the latter have no explanation for action.

Robson arrived here from Winnipeg only last Monday afternoon. When they left so suddenly last night, the insurgents thought it most probable they had gone to meet Clark and come here with him, but the letter in the hands of Walsh places a different aspect on the matter.

Whether the men were actuated by a desire to avoid the investigation altogether having learned that the insurgents have some damaging information or other that they have been stamped by the Hawes case is not known yet. Yesterday a request from Toronto for a verbatim report of Minty's testimony before the commission was received in this city, giving rise to a report that Minty is to be sued for a statement made that Hawes in stating his civil suit for damages did what amounted to blackmail. The suit will be remembered was started by Hawes in the case commenced with the Atchafalaya railroad to receive \$250,000.

On opening the session this morning Solicitor Walsh announced that Clark and Minty had refused to attend, that Minty and Robson had returned to Winnipeg. He had read Minty's letter only half an hour before. Minty says he would give his testimony only in Winnipeg.

"Under the circumstances myself and Mr. Johnston feel compelled," said Mr. Walsh. "On the opening day of this investigation Mr. Robson assured me that Mr. Clark would be here. In view of that fact Mr. Johnston and myself had outlined a schedule of proceedings. Mr. Cornwall was to be our first witness on the main enquiry.

"How far these new developments will change the course of the investigation it is impossible to say. The evidence of Mr. Clark, or Minty and their associates is absolutely essential."

Little Else But a Farce
"In view of these not entirely unexpected developments, this evidence is to become little more than a farce," said Mr. Bennett.

"The commission has been trifled with. The province has been made a laughing stock of the outside world. It is a public calamity. Of the three directors of the railroad, two reside outside the province, outside our jurisdiction and refuse to be here. The secretary is sick and the engineer is an alien. We have been made the sport of two men who came here Monday afternoon and left last night. There is not much use for me to appear here further."

"I think the action of Mr. Minty and Mr. Robson constitutes one of the boldest assaults ever offered on a British court. It is simply a case of Mr. Clark's not being willing to come here and face the music. I know why he did not want to give his evidence. I suppose Mr. Minty and Mr. Robson decided to go back to Winnipeg after becoming assured of Clark's attitude. This Clark should refuse to come after his solicitor had promised so unreservedly that he would come seems reprehensible to me. As for the Alberta and Great Waterways railway, there won't be any in six weeks."

When Mr. Bennett concluded Justice Scott explained that the commission was bound to go on with the investigation and take what evidence it could. Justice Beck asked Mr. Bennett if he had intended to cast any personal aspersion on Mr. Robson and Mr. Ben-

MRS. W. K. VANDERSILT, has rented a house at Reno, Nevada, where divorces are quickly obtained.

nett said he had not. "Since you have asked me, however," said Mr. Bennett, "I will say that I believe it was the duty of Mr. Robson to appear personally before this commission and ask for permission to withdraw."

Mr. Cushing Gives Evidence
Mr. Cushing the minister of public works was the first witness, being examined by Mr. Johnston. He filed several documents.

Mr. Waddell, chief engineer of the railroad was the next witness. He said he also directed such work for the Canada West Construction Co. He said he had no objection to furnishing all records but brought no documents with him.

Didn't Look at Papers
Mr. Walsh recalled to him that he and Mr. Johnston had refrained from examining the documents in the local office of the A. and G. W. railway, last week because of Mr. Minty's request that he (Minty) be present when that was done.

On cross-examination by Mr. Bennett, Dr. Waddell said that the first letter he read from Mr. Clark in reference to the railroad was when he (Waddell) was in British Columbia a year ago. His home was in Kansas City. He came to Edmonton about a year ago. He came into Clark's employ a year ago last September. He was employed by Clark six or eight months before the formation of the company. He was not prepared to say that all the documents whatsoever were on file. His stenographer was Mr. Dudo. He thought Mr. Goddard's papers were also on file. He didn't know of general documents of the company. He considered himself in the employ of the company but affirmed he had not received any pay from the company.

Here Mr. Bennett was called to order by Justice Harvey for being too offensive. Mr. Bennett explained that he was purposely so, his questions reflecting his harsh state of mind. The cross-examination was resumed. Dr. Waddell said he did not know

whether all papers bearing on the matter were under his control and that papers under his control would be under immediate charge of Mr. Dudo.

He said he did not bring the cipher book with him because he wanted to consult his general manager.

"Were you not subpoenaed to bring it here?" asked Mr. Walsh.
"Then why did you violate the order of the court?"
"For the reason I have mentioned."

At the suggestion of Justice Harvey he offered to bring copies of the translated telegrams, which was deemed sufficient. Adjournment was taken until tomorrow morning to give Mr. Walsh time to examine the code telegrams etc. The commission will meet in the court house hereafter.

LONDON WILL BE CITY OF OPEN AIR AMUSEMENT

The Gayest Metropolis of the World This Year

London, April 13.—It really looks as though London this year is destined to be pre-eminently the city of open air amusements, and wind and weather permitting, the gayest metropolis in the world. The admirable practice of holding pageants which has been revived of late with such brilliant success will provide visitors with two unique entertainments in the open air. The first in interest and prestige will be the pageant of London, with which will be combined the Festival of Empire. In the past of the imperial city will be vividly displayed, with fidelity to history, in a series of magnificent scenes. The second pageant, that of the British army, will show us the slow growth of the force that has carried the flag of glory on so many fields. We shall witness the Saxons bowmen at their work; the Norman knights galloping over the green award; the iron soldiery of Cromwell charging at Naseby; and the most memorable episodes of our modern wars. The night will be spent with its romance, beauty and pathos, will be recreated with a splendor eclipsing even that of the superb displays in the Roman amphitheatres.

In another direction, the Japanese exhibition will give an opportunity of enjoying the English summer among surroundings devised to please and enable all to picture the East without the trouble of a protracted journey. There are many, of course, who doubt and distrust our British and imperial glories, warnings of its disastrous possibilities. They remind us that pageants are almost infallible specifiers for attending rain. The only message to a seasonal downpour spoiled the cheerful merry making of the Brighton tournament and marred the magnificence of the church pageant. But the mercury cannot be always falling, even in the British Isles, and the English summer at its best is something to rejoice the hearts of the gods.

London as a city of pleasure has beyond question incomparable attractions. Its hotels today are the best in the world, and their prices compare favorably with any abroad. The transit system of our capital, once a stumbling block to the tourist, is now at once fast and efficient owing to the development of the "tube" and the abundance of taximeter cabs. No capital, except perhaps Paris, has such beautiful scenery in its immediate neighborhood, and no capital boasts such charming parks. The belief that London is a city of gloom is dying rapidly. Even our fogs are lessening. The only message to a season of exceptional attractions is the fearful possibility of a fresh general election.

NAVIES COST MORE THAN COLONIES EXPECT

Some Speaking at The Royal Colonial Institute in London

London, April 13.—Speaking at the Royal Colonial Institute last night, Major T. A. Brassey said he believed both Canada and Australia would find maintenance of their navies more expensive than they now thought.

Lord Dindif, former governor of Victoria said he believed that in a generation or two the centre would shift from London to Ottawa.

Sir George Parkin in reference to press service of Canada via New York stated that over a long series of years the Canadian mind had received a wrong impression of Great Britain and of British public life because of unblushing misinterpretation.

Australian Army Getting Arms

Wellington, N.S.W., April 13.—The government has been authorized to purchase \$50,000 in military equipment. The total expenditure will amount to \$100,000.

ADDITIONAL LOCALS.

You are invited to inspect those Ladies' semi-ready embroidered suits, collars and jabots. Just arrived, Irish Linen Store, 602 Centre street. 835-918
Watch Repairing—All kinds English, American and Swiss. Moderate charges, good workmanship. Dickson Working Watchmaker, from Edinburgh, 311 5th Avenue East, "Just before the Queen's". Open evenings till 9, Saturdays 11.

PARKS SET ASIDE FOR PLAY GROUNDS

An Important Meeting of The Horticultural Association Held Last Night—Work in Garden

The report of the special committee appointed by the horticultural society to take up the matter of city parks and city playgrounds was given at the regular meeting of the Horticultural society last night. Wm. Pearce, a member of the special committee, which met on Tuesday evening at Dean Paget's, compiled a lengthy memorandum of the available park sites, details as to how much of the property is obtainable and who holds it, of a line extending around the city from the Sarcee reserve and circling the city back to the Wesel Head.

Mr. Pearce also prepared a report of the city sites available for playgrounds for the use of Calgary children in the future. Mr. E. S. Smith, who represented the special committee at the meeting last night, stated that Dean Paget and Mr. Pearce had been appointed a committee to wait upon the city parks committee and submit the information to that body and that also two members of the committee, Messrs. Smith and Pearce would prepare a map showing all the parks and playground sites available with all information appertaining to each which would also be submitted to the city as soon as completed.

The meeting last night accepted the report with thanks and the members were complimented on the splendid work they were doing. The paper of the evening was prepared and read by W. R. Reader, the secretary of the society, the subject being "A Year's work in the garden," and it was one of the best ever read before the society. Mr. Reader gave many practical hints on the best methods of home gardening in the climate and the best flowers to grow.

The question of electing a new President, as Mr. Tregillus wished to resign, his term having been completed, was discussed and it was decided to have Mr. Tregillus hold office for the time being until a suitable member could be found for the position.

Mr. Reader, the secretary, tendered his resignation some time ago, but was persuaded to remain in the office and Professor W. T. Bard, L.L.B., a practical horticulturist, was elected deputy secretary to assist Mr. Reader. The gardening tools which the society has arranged to supply at half price to the children of Calgary, have not all arrived in the city yet, but as soon as they do notice will be given through the press for those anxious to secure them.

THAW SAYS COUNSEL SQUANDERED FEES

Denies That Any Money Was Spent in Silencing Women Who Might Tell Things

New York, April 13.—Harry K. Thaw looking pale and nervous took the witness stand today in the trial of the suit brought by Clifford W. Hartridge against Mary Conley Thaw for \$25,000 which Mr. Hartridge claims is due him for his services as counsel in Thaw's first trial for the murder of Stanford White. Thaw gave testimony that he had paid \$10,000 to Hartridge in an indirect and unconnected manner. He said he never had authorized Mr. Hartridge to spend money on women in order to silence them. Up to December 1904, he said he paid \$10,000 to Mr. Hartridge. "He told me," said Thaw, "that he was spending the money for counsel fees and to obtain witnesses. In October, 1904, I heard Mr. Hartridge was gambling with my money and had lost \$11,000 at roulette. The next month, he said, the case virtually was taken out of Hartridge's hands, although he was allowed to remain one of the counsel.

A REMARKABLE DISCOVERY

Electro-plating Can Now Be Practiced at Home

A new method of electro-plating, so simple that it can be practiced at home was explained by the inventor, Mr. Augustus Rosenberg, in a lecture at the Royal Society of arts. Prof. Silvanus Thompson was in the chair. Mr. Rosenberg said that the materials used were known by the general name of "galvanit," and were in the form of a dried granular powder. The powder was sprinkled upon a moistened cloth and applied in the manner of an ordinary metal polish. In a few seconds a film of any pure metal desired was applied to the surface. No preliminary cleaning was required, nor was the application of heat necessary. Thus, worn electro-plated could be renovated by a deposit of pure silver; dish covers and the inside of copper cooking utensils might be retinned; tarnish might be removed; many articles in daily use might be renovated by their metals.

A Simplified Process

In the electrical industry the process simplified and shortened the soldering of cable joint sets for a coating of pure metallic tin could be applied in a few seconds without any preliminary cleaning or cleaning of the wire. The powder could be applied by the electrician with the corner of a moistened handkerchief. The process also expedited the forcing of zinc or copper process printing blocks with nickel, thus making them serviceable for printing with a useful range of reddish inks, which usually set into the metal. In the case of silver articles the surface could be cleaned and replated, and the silver oxide or sulphide was removed and the silver redeposited in pure metallic form. The preparation did not soil the hands, and was not poisonous, containing neither cyanide, mercury, nor any free acidity. Exposure to the atmosphere for several weeks did not appear to produce any deterioration of the mixture. As a commercial article galvanit would be obtainable for depositing silver, tin, nickel, and cadmium, and these preparations would plate any metal surface with the exception of aluminium; and aluminium could be plated when the ingredients of the mixture were in suitable proportions. The motorist will welcome it. The nickel parts of his car will never look shabby. A bicycle can be replated by its owner at home for less than 20 cents; it is therefore inexpensive to use as ordinary polishing powder. We understand that Mr. C. Smallbridge of 322 5th Avenue West, city is introducing it in the Northwest to the wholesale trade.

Our First Friday Bargain Day in Calgary

The Geo. H. Rodgers Co., Limited For Friday Bargains

We intend making our first Bargain Day a hummer in every department of our Three Stores. Extra salesmen put on for Friday and Saturday.

Clothing Store

FACING 4th STREET EAST

10 DOZEN MEN'S BLACK CASHMERE HALF HOSE

These nice black Lama Socks are stamped 50¢ each to retail all over at this price. However this Friday you can have them at.....25¢
Or four pairs for.....\$1.00

FIVE DOZEN BALBRIGGAN UNDERWEAR AT 50¢ EACH

We will have a phone at the earliest possible moment.

PLUMBERS WRITING FOR THE CERTIFICATES

Thirteen Men Are Trying The Municipal Examinations

Thirteen plumbers were writing last night on the municipal examination for plumber's licenses, four for the Master Plumber's certificate and nine for Journeyman Plumber's cards.

The examination was held in the city council chambers under the Municipal Board of Examiners consisting of Messrs. Chas. Wood, E. P. Fletcher and J. Bewick.

The examination last night was on "Theory" and next month the examination for the practical end will be held.

Should a man fail in the examination he is given another opportunity to qualify in three months' time.

The examination is held for apprentices to secure their licenses as for strangers coming into the city to qualify under the civic ordinances.

Manitoba Farmer Killed
Winnipeg, April 13.—Alexander Phillips, a farmer of Roland, Man., was fatally injured today by being thrown from his rig.

The examination was held in the city council chambers under the Municipal Board of Examiners consisting of Messrs. Chas. Wood, E. P. Fletcher and J. Bewick.

LONDON TOWN HAS TAKEN ON NEW LIFE

During the Last Two Years It's Progress Has Been Phenomenal

THE GOOD LUCK TOWN IN HORSE SHOE DISTRICT

Interesting Facts About the Town and District by Mr. J. N. McDonald

(By J. N. McDonald)

London, April 12.—Although the name of London has been on the C.P.R. time tables as the name of a siding ever since the railway was built, it was not until two years ago that it started to grow into the appearance of a town. Prior to that time, London consisted of a section of a store, a livery barn and half a dozen houses. Now it is a flourishing and growing little town of over 300 population with ambitions to become a place of considerable importance as a trade center. The influences that have brought about this transformation have been those of water and soil. A few years ago, it was not predicted that London would ever be anything more than a little hamlet or that the country around it would ever be anything but a barren waste.

The citizens of London have named it "the good luck town," on account of its situation, the horse shoe in the western section of the irrigation block, between the two secondary canals. All branches of business required to supply the wants of the settlers in the surrounding country are represented in London by modern business houses carrying large and up-to-date stocks of goods. These comprise two general stores, 2 hardware stores, grocery store, millinery and bazaar, branch of Union Bank, two lumber yards, drug and book store, four implement agencies, hotel, large boarding house, butcher shop, newspaper office, three real estate offices, harness, blacksmith and shoemaker's shops, pool room and barber shop, two livery and feed barns, two restaurants, bakery, laundry, four building contractors, cabinet maker, etc.

London School and Churches—London has a splendid four roomed school building which was erected at a cost of over \$5,000. Two fully qualified and efficient teachers are employed and a third teacher will be required after the midsummer holidays. The enrollment of pupils is about 100. All the branches of the public school curriculum are taught up to the end of Standard V, entrance to high school.

In the matter of churches, London will soon be well supplied. The Methodists have completed a very comfortable church; the foundation for a new Anglican church are built and the Presbyterians and Roman Catholics are planning to commence building operations on their churches early in the summer.

Fraternal Societies—London is also well supplied with fraternal societies. The I.O.O.F. lodge has a membership of about 100. The A.F. & A.M. are organizing a lodge with a large charter membership, and the United Woodmen of America and the Orangemen have flourishing lodges.

Civil Improvements—London was incorporated as a village municipality in the fall of 1908, with Roy Cowen, chairman; D. D. Harper, secretary, and already

ROOSEVELT, being interviewed on his arrival in Egypt

has made considerable progress with street grading, sidewalk construction and other public improvements. A somewhat elaborate plan of improvement is now under consideration. This includes a water and sewerage system, the installation of electric light plants and a public park. For the proposed drainage system which it is expected will develop into a sewerage and water system, the provincial government is giving a grant of \$5,000; the municipality is allowed to borrow \$2,000 for that purpose and it is proposed to lay the pipes along main street and charge a frontage tax. This will give in all over \$7,000 available for the work. The outlet of the drainage system will be into Weed Creek, one mile distant from the town.

London is blessed with an abundant supply of excellent water, there being over a dozen flowing wells in the town, water being struck at a depth of from 30 to 40 feet. A water system can be installed very cheaply by using the water from one of these flowing artesian wells.

London has an energetic board of trade with 12 members, of which Mr. D. D. Harper is president and Dr. Wright, secretary.

Future Development—Some of the questions which it is at present considering in conjunction with the village council are the arranging for a public park in the northern part of the town, the remedying of the train service, the improvement of the roads leading to the town, and the construction of bridges over the irrigation ditches in the district. It has already accomplished a great deal along lines that have for their object the improvement in the conditions existing in both town and country. It is generously supported by every business man in the town.

Natural Gas—Being for natural gas will be commenced shortly at London, Mr. Dingman of the Calgary Natural Gas company was in the town a few days ago looking into conditions and gave it as his opinion that natural gas could be struck at a comparatively short depth. A local company may be formed to prospect for gas or the board of trade may make an effort to induce outside capital to develop the prospect which, if successful, would be of great benefit to the town. The gas could easily be piped into Calgary at small cost.

Towns is Growing—At the present time, there are four or five business blocks and private residences in course of erection in London and a \$50,000 hotel is among the projects proposed for the near future. The Riverside Lumber company has plans prepared for a big building to be used for a bank and stores on the ground floor, and two halls upstairs.

FARMERS TO COMPETE IN ALFALFA GROWING

Saskatchewan Agricultural Department Will Award \$24 Cash Prizes

Regina, Sask., April 13.—Arrangements are being made by the department of agriculture for provincial competition in the growing of alfalfa. Special commission appointed by minister of agriculture at request of agriculturists' convention consists of the following: Dean Rutherford of the Saskatchewan agricultural college; Supt. of experimental farm, Indian Head; president of Grenfell agricultural society. Six prizes will be offered in each of four districts, viz.: First, \$50; second, \$40; third, \$30; fourth, \$20; fifth, \$10; sixth, \$5.

The provincial championship will be awarded to the best of the four first prizes. Judging will commence in June 1914, and entries must be made not later than August 1, 1913. Fields entered must be of at least ten acres and have been sown not later than the season of 1912.

Wm. McKenzie of the C. N. R. is representative towards the Saskatchewan competition, and the editor of Bulletin magazine \$250. It is hoped that competition will result in much greater interest being shown by the farmers of Saskatchewan in grass crops.

THE DANGER OF ELECTING THEODORE ROOSEVELT AGAIN

His Control of People Would Become An Autocrat

Louisville, Ky., April 13.—In an editorial in the Courier-Journal headed: "Whether?" Henry Watterson will say tomorrow, Monday. He says that the people of the United States to consider Theodore Roosevelt as they have never considered him before; to take him more seriously; that they have over taken him; to realize that he is altogether the most startling figure who has appeared in the world since Napoleon Bonaparte, a circumstance not without significance and portent.

"He must be a poor American whose heart does not glow with pride at the unenvied honors bestowed upon this man, who has done for his country and well with exultant admiration at the splendid way he is carrying himself. It is too late, if it were not personally offensive, to talk about self-exploitation."

Should Be No Mistake—Let no one fancy this as unmeaning, or an idle compliment. Taken in connection with what appears to be the hopeless breakdown of the tariff administration, it constitutes an event of the first consequence.

"If we are to return Theodore Roosevelt to power, we must have no misgivings about the terms of the new commission which is to be issued to him. History has agreed that the best of all government is a wise and benevolent despotism. The government of the United States under our written constitution is a failure—many think it, and if there be need for its executive head already, then have the courage to take all the bulls of corruption by the horns, and regardless of obsolete legal restraints, to shake the life out of them, then, indeed Theodore Roosevelt would be a man for the job. He is a patriotic American with humanitarian proclivities. He is an incorruptible man. He has shown himself fearless in consequences."

Up to the People—If the people are sick and tired of the slow processes of constitutional procedure; if they want in the White House a president who, disregarding the seal of the popular approval, will substitute his own interpretation of its spirit and intention; if they think that the reign of hypocrisy and cant and graft which marks our professional politics may be ended by the absolutism of a ruler who, as Roosevelt himself puts it, "translates his words into deeds; and who, charged with the cleansing of the Augean stables by an election putting the seal of the popular approval upon conceded excesses in the use of power and bidding him to go forward and apply the same remedies to a disease seriously incurable, then Theodore Roosevelt fills the bill to perfection, for he comes directly from the family of the kings of men and is a lineal descendant of Caesar and Cromwell."

"Before we get into the acrimony of party conflict, the Courier-Journal asks its contemporaries throughout the country to reflect without passion or levity, and to answer to themselves seriously the basic question which casts an aureole about our wandering Ulysses, whether representative government in America is a failure, and whether the only cure for the evils which are admitted to be the cause of our present ills is the one-man power; because they may be sure that the return of Theodore Roosevelt to power will be so construed by Europeans, and that on this account, the demonstration of monarchism has its chief significance."

Pittsburg Bribery Case

Pittsburg, Pa., April 13.—Three former councilmen appeared before Judge Cohen today, in criminal court, and entered pleas of nie contendants to charges of bribery. They were each given suspended sentences.

Alberta. In reply to these questions, I always say that every district has particular advantages and it depends altogether on what kind of farming the settler desires to engage in. If he wants mixed farming, my advice is to go to Central Alberta, than which there is no better country on earth. If he wants to raise grain, winter wheat, oats, barley, etc., and engage in a small way in mixed farming, go south, but for a combination of the two go to the irrigation district around London, and north and east from there.

The more I see of the irrigated districts of Alberta, in the C.P.R. irrigation block, the Southern Alberta irrigation area, and the country tributary to the C.P.R. and the company's irrigation block, the more I am convinced that alfalfa and sugar beets will be an important factor in producing the future wealth of the province.

There is without doubt a great future before the sugar beet industry in the C.P.R. irrigation block, and London from its situation and its present and future railway connections will be the center of the sugar manufacturing, and the country tributary to the C.P.R. and the company's irrigation block, the more I am convinced that alfalfa and sugar beets will be an important factor in producing the future wealth of the province.

As an example of how real estate was advanced in price an inside lot adjoining the general store of Mr. Roy Cowen on Main street, is held at \$1500, and across the street, 75 ft. frontage belonging to Henry A. Stewart is held at \$4,000. These lots could have been purchased a few years ago for from \$200 to \$300 each. During the past year a large number of transfers of real estate have been made and a new subdivision was added on the east side of the original townsite.

The London District—The district directly tributary to London includes approximately 750 square miles. It extends east 14 miles; west 7 miles to Shepard; south 14 miles to the Bow river and north for practically 25 miles. All this immense area of country is adapted to the highest purposes of the husbandman, and is under irrigation. The town of London must for all time depend on the country surrounding it for support.

The citizens realize that it will always be overshadowed by the big city to the west, but even its proximity to Calgary cannot prevent its being an important trade center for the large district surrounding it. London in a very few years will be a town of 2,000 to 3,000 population.

The settlers in the district are mostly from the United States and Canada, of the best pioneer nationality—men who have been accustomed to pioneer work and who easily adapt themselves to every condition existing in a new country.

The soil is a black loam, resting on a clay subsoil, easily broken and adaptable to cultivation. This has been evidenced by the big crops of ages of humus and silt, and forms a richness beyond belief. When water is applied to this either by natural or artificial means, there is no richer or more fertile country on earth.

I am often asked in my travels to say what district I consider best in the first consequence.

CHILDREN'S GLOVES—In fine thread, colors of tan, grey, white, brown, navy or black; sizes 3 to 6. Very special values at a pair, 15c 25c and 30c. BINNINGS 112 EIGHTH AVE. The Ticklemouse and his Sleepyland Adventures with Davy and Dorfy

A Chinese Baby's New Year

"Well, chilluns," said the Ticklemouse, bundling the twins into his airship last night, "did you say 'Lans ben, maing' gins' to the Chinese laundrymen?"

"Yes, we said it over and over," said Davy, "but they just jabbered at us and tried to make us go home."

"The Mouse laughed and longed when the little boy told him what the laundrymen had said.

"What's funny?" asked Dorfy. "Do you know what it means?"

"Sure pop!" laughed the Ticklemouse. "It means 'You heap bewitched Melican babies—no got any laundry here!' The words I taught you last night, you see, meant 'Two come for my laundry.' You remembered them, all right, it was that!"

He chuckled again as they drew near Peking—from the east, this time—and waited in the sheltering clouds till after dark to hunt up poor Humpty. Great was their disappointment when at last they slipped through the deepening shadows to the city gates, to find no trace of the suffering China Egg man.

The Mouse sighed. "Too late; they've carried him back to the palace by this time, probably, and flung him on the Imperial scrap heap. Too bad! I had hoped we could rub the tables and Mother Goose and make that rhyme come out right. Well, we've done our best for Humpty. Let's take a peep at the Chinese babies, with their giant eyes and their little coal-black piglets and their New Year's presents—if they give such things over here."

headed by shaven priests followed by sacrifice-bearers with their burdens of roasted fowls. They shuddered when an immense golden dragon wriggled along through the streets blowing smoke from his nostrils and flame from his cruel mouth—only a make-believe creature, though, with dozens of men inside its silken skin.

The Ticklemouse guided the airship slowly above the long parade till the doors of a lantern-hung joss house

Patently the Mouse followed out one street after another, always keeping about even with the second-story windows. Suddenly the baby gave a jump that almost carried him overboard, crying out, "Ching Foy! Ling yo, ling yo, Ching Foy!" and stretching his tiny hands towards a woman weeping behind the flower pots of a sootily lighted balcony.

"Says he wants his nurse!" chuckled the Ticklemouse. Davy and Dorfy saw the weeping woman lift a white, scared face—then reach so far over the railing that the flower pots crashed to the street. The Mouse brought the airship so close to Ching Foy's side that the happy baby sprang right into her eager arms.

"Kwang he fat boy!" whispered the Ticklemouse as she snatched the child to her breast and vanished into the house. He laughed in delight and shouted something else after her as the airship rose high in the air and sought the eastern trade wind.

"What was that you said to the little boy's nurse?" Dorfy asked as they flew homeward, happy to have helped somebody in spite of Humpty's mysterious disappearance.

baby talk, but the "bad old witch-bird" wouldn't shoo away.

"He says he's Chow Len's little boy," explained the Ticklemouse to the twins, "and that he's lost, and the Sing Song Tong and the highlanders will get him if his amah—his nurse—doesn't come quick, but he can't remember his way home. Let's see if we can't help him, and he lifted the struggling youngster into the aeroplane, holding him close as they sped from house to house through the wealthy part of the city."

Patently the Mouse followed out one street after another, always keeping about even with the second-story windows. Suddenly the baby gave a jump that almost carried him overboard, crying out, "Ching Foy! Ling yo, ling yo, Ching Foy!" and stretching his tiny hands towards a woman weeping behind the flower pots of a sootily lighted balcony.

"Says he wants his nurse!" chuckled the Ticklemouse. Davy and Dorfy saw the weeping woman lift a white, scared face—then reach so far over the railing that the flower pots crashed to the street. The Mouse brought the airship so close to Ching Foy's side that the happy baby sprang right into her eager arms.

"Kwang he fat boy!" whispered the Ticklemouse as she snatched the child to her breast and vanished into the house. He laughed in delight and shouted something else after her as the airship rose high in the air and sought the eastern trade wind.

"What was that you said to the little boy's nurse?" Dorfy asked as they flew homeward, happy to have helped somebody in spite of Humpty's mysterious disappearance.

The Mouse stopped singing, and kissed the little girl as they bowed merrily, along home.

COOK'S CLAIMS NOT YET ENTIRELY DISPROVED It is Just Possible That He Did Ascend Mount McKinley

New York, April 13.—Although Professor Parker of Columbia university has never believed Dr. Frederick A. Cook's assertion that he reached the summit of Mount McKinley, he said last night that the Fairbanks expedition, which reported that it reached the summit April 3, neither proved nor disproved Dr. Cook's claim. He pointed out that Dr. Cook essayed the mountain from the southern side, while the Alaskans scaled it from the north. He does not doubt the accuracy of the report of the success of the Fairbanks expedition, but he holds that until an ascent is made from the southern side and the records compared with Dr. Cook's that the explorer's claim cannot scientifically be regarded as proved.

Don't Put it Off ANY LONGER Don't wait for your neighbors to teach you what you can find out for yourself. You don't risk a penny when you make this wonderful trial of No-mor-dust. We pay you a CASH FORFEIT if it fails. Think of the weary dusting it will save you—Try No-mor-dust TODAY.

Dust Before You Sweep—Dust your piano, your pictures, your mirrors, before you sweep. THEN sweep the room with No-mor-dust. THEN look at your piano, mirrors and pictures. You will find them free from dust, and clean as before you swept. No-mor-dust "looks like green sawdust."

Comes in round green packages—15c. No-mor-dust is not like anything else you have used before. People who see it work are dumb with amazement.

Takes the Dust With It—It does not just "lay" the dust and keep it from rising, it picks up the dust and grit and carries them away. Just spill it out of the box, and make a line of No-mor-dust along one side of the room. Then sweep it across the room with an ordinary broom. It makes carpets bright as new.

BIG MEET ARRANGED FOR VICTORIA DAY

Annual Meeting of Calgary Turf Club Also of The Calgary, Matinee And Driving Club

The Calgary turf club got away to a good start last evening at the organization meeting at the Empire hotel. From the business done the local turf racing will see during the season of horse racing, one of the best and most successful racing seasons ever held in Calgary. So far in sight the turf club will have to days on May 24 and 25, the annual exhibition meet, and a fall meet. This will be outside of any racing put on by the Matinee club. The program for the value of \$3000 for the turf days will be given. The program for each day will consist of three runs, and three horses, racing, racing, racing. A special committee consisting of J. Alford, J. MacRae and R. Mitchell will be in charge of the events. The committee and P. Moodey for harness events were selected to draw up a program and report at another meeting to be held at the same time and place on Friday evening.

President L. G. Ruttle was in the chair and when he called on the members the room was jammed with enthusiastic horse men.

The officers were then elected for the coming year as follows: President, L. G. Ruttle; vice president, W. MacRae; secretary, Fred Johnson; treasurer, John Hamilton; directors, W. McKillop, W. Stewart, H. P. Sommer, Geo. MacRae and J. Alford.

A resolution was then passed tending a vote of thanks to the western members of parliament and horsemen who took such interest in defeating the Miller anti-racing bill.

The business of the May meeting will be undertaken by the turf club without any assistance from outside subscriptions. It was decided to have the membership and to call for another ten dollars on membership shares. A committee was appointed to oversee the baseball executive to see that the would postpone the ball game on the afternoon of Victoria Day.

The baseball club will be asked to play games morning and evening at that time. A meeting will be held on counter-attendant.

A committee of Messrs. Ruttle, Johnson and Young was appointed to get the members.

In past years only one horse from the one born was allowed to enter a race. A motion was passed at the meeting that two or more horses from one barn could enter for this year. This will assure a larger entry list.

A. Storey and J. Towhey were appointed a committee to interview the commission's people in the track, and ask to have some jock and kept in good shape. Teams were appointed to get some stock and members as follows:—L. G. Ruttle and F. Johnson; Storey and J. Moodey; and J. Young and J. Alford.

A committee of A. McKillop, J. MacRae, G. MacRae and R. Somerville were appointed to arrange for the Alberta circuit to take in towns both north and south. By this arrangement a good circuit can be organized which will foster better racing and put things on a better business basis.

Matinee Club Organized
After the turf club meeting the Calgary Matinee and Driving club held their reorganization meeting with H. R. Somerville as president of the club.

The officers were then elected thus: President, H. R. Somerville; vice president, L. G. Ruttle; secretary, W. Stewart; directors, G. O'Brien, A. Storey and A. McKillop; starter, A. McKillop.

It was decided that the Matinee club get A. McKillop a starter's license.

This season the classes will be: A class, open special, hobbie, class, B class, C class and D class.

Messrs. A. McKillop, C. Hagg and J. Russell were appointed the classifying and handicapping committee for the coming year.

The matinee will open in May, the date to be decided later. Routine business followed, after which the meeting adjourned.

TOM SHARKEY COULD LICK EITHER OF THE BIG ONES

He Admits Himself That He is Willing To Get in the Game

New York, April 13.—Tom Sharkey, the man who never gave up the ship, convinced that he can navigate once more on the troubled waters of the heavyweight situation.

See Tom: "I will be at the ringside in San Francisco, Cal., on the day of the fight between Jeffries and Johnson, and I will challenge the winner."

"They haven't anything on me—nothing of them. I know I can lick either of them. It's a question of whether Jeffries trimmed me decisively."

"To show you that I am in earnest in this matter, I will begin active training next Tuesday. I feel as good as I ever did in my life. I am only 36 years of age. I have never been foolish in the matter of physical culture, and I know that I can give Jeff as hard a time today as I did in Coney Island."

And see here: "I always man enough to say that I give him the toughest fight he ever got."

Tom is Ambitious
"I'm going along nicely in this world and I don't have to get into the ring again through want or desperation. I have the ambition to get that heavy championship tag on me."

"Don't you think you are a little bit heavy?" he was asked.

"Nothing like that in mine," said Tom. "I'm none of them nobby guys who get away with themselves when they get old and coming strong."

"I eat four meals a day and a snack day, and nobody can shake me up when I get to the feathers. Not even when the boy begins to canister each side of the corner. You've got to use 'em. The guerillas are my pals."

"Now, although I came from Louth, the smallest county in Ireland, I no longer am a foreigner. I have been in America some of the most famous men I ever fought. And see here: "I don't forget that Tom Sharkey, yours truly, is about the best of them all."

"The best part of this story is that Tom is absolutely sincere. When a man is expressed about the possibility of his getting back into proper physical condition for a heavyweight championship battle he said: "I showed it could be done. I saw the work he needs. I'm working half the time."

Some of our first impressions were made by mother's slipper. Men are more or less afraid of a woman who flatters prof. The trouble with the unexpected is that it too often refuses to happen.

VICTORIA CURLERS HAD A GOOD SEASON

Annual Meeting Held Last Night At Which The Officers For Year Were Elected

The Victoria Curling club held a successful reorganization meeting last evening at Prunnett & Savage's offices. There was a large attendance. The report of the secretary-treasurer was very encouraging and showed the finances of the club to be very good and the past season a very successful one.

The following officers were elected for the coming season: Patron, O. C. Smith; president, W. M. Parslow; 1st vice president, Dr. MacRae; 2nd vice president, A. McKillop; secretary-treasurer, C. H. Russell; chaplain, Rev. H. P. Hillocks; Executive, E. J. Fletcher, A. Beth, D. J. McLoughlin, J. A. Smith, W. H. R. Gardner. Representatives to annual, C. H. Russell.

President Parslow and Dr. MacRae were appointed as a special committee to confer with the Calgary Curling club. Horse breeders' association, Hockey club, Horse Show company and other organizations with the purpose of making arrangements for the building of the proposed big arena for holding these athletic sports, etc.

Other business of the evening was mostly routine.

BILLY LAUDER WILL GO UP AGAINST ASH IN WINNIPEG

And Then Billy Will Leave Winnipeg for Calgary

Winnipeg, April 13.—Billy Lauder, the celebrated heavyweight boxer, will jump into a "dark" horse when he goes up against Kid Ash at the Auditorium rink at Toronto tonight in a ten-round boxing exhibition.

The raspberry from Cincinnati made such a splendid showing last week that Lauder, who has been the majority of those present believe he will prove too strong an opponent for the fast going little Scotchman.

Ash has had more experience than the westerner, having boxed with such men as Joe Jones, Tommy Burns and several other stars. He is like a bundle of forked lightning, assimilates any punishment about the head and has a "kick" that is not to be despised.

Both boxers have agreed upon Tony Caponi as referee. This will be Lauder's last appearance in Winnipeg for some time, as immediately after the bout he returns to Calgary.

Jeff Has Got The Wind

Ben Leonard, Calif., April 13.—The much talked of first boxing bout between Jeffries and Berger seems to have pleased the big fellow's trainers today by its results. To them the most satisfactory point developed was the excellent wind shown by Jeffries. The wheezing and labored breathing which characterized his bouts on the stage have disappeared entirely. Berger was enthusiastic.

"He has improved a thousand per cent, since I boxed with him last," said the manager. "The big fellow hardly seemed to breathe at the end of his fight. His strength was such that it was like wrestling a stone wall."

Jeffries himself wore a complacent smile after he had completed the bout. Some rope skipping, and bag punching. "I am in good condition right now," he declared.

Work on the gymnasium was commenced today. The roof is to be taken off immediately over the ring, thus permitting fresh air and more light.

Schedule Calgary Intermediate

The Calgary Intermediate Baseball league schedule was completed last evening at the Y. M. C. A. and is officially as follows: St. Mary's—Vs. Cubs, May 11, 25; June 8, 22; July 5, 22; Vs. White Sox, May 23; June 6, 20; July 6, 20; Aug. 3; Vs. Y. M. C. A., May 18; June 1, 15, 20, 29; July 15, 22.

Cubs—Vs. St. Mary's, May 11, 25; June 8, 22; July 5, 22; Vs. White Sox, May 18, 20; June 13, 20; July 13, 27; Vs. Y. M. C. A., May 18, 27; June 10, 24; July 11, 25.

Y. M. C. A.—Vs. Cubs, May 20; June 3, 17; July 4, 18; Aug. 1. Vs. St. Mary's, May 18; June 1, 15, 29; July 16, 29. Vs. White Sox, May 18, 27; June 10, 24; July 15, 25.

White Sox—Vs. St. Mary's, May 23; June 6, 20; July 6, 20; Aug. 3. Vs. Cubs, May 16, 20; June 13, 27; July 10, 24; Aug. 1. Vs. Y. M. C. A., May 18, 27; June 10, 24; July 15, 25.

Y. M. C. A.—Vs. Cubs, May 20; June 3, 17; July 4, 18; Aug. 1. Vs. St. Mary's, May 18; June 1, 15, 29; July 16, 29. Vs. White Sox, May 18, 27; June 10, 24; July 15, 25.

White Sox—Vs. St. Mary's, May 23; June 6, 20; July 6, 20; Aug. 3. Vs. Cubs, May 16, 20; June 13, 27; July 10, 24; Aug. 1. Vs. Y. M. C. A., May 18, 27; June 10, 24; July 15, 25.

BRITISH EMIGRANTS TO BRING 25 MILLIONS

The Salvation Army Men Who Are Coming Are Unusually Well Supplied With Money

London, April 13.—Four hundred and fifty Salvation Army emigrants sail for Canada tomorrow, many of whom possess sums up to £100 and over. Of last week's batch of emigrants, 300 it is stated possessed a total capital of \$30,000. It is expected that 100,000 emigrants who will leave for Canada this year will probably represent a capital of nearly £5,000,000 in cash.

Hundreds of emigrants are now paying £2 extra via New York because they are unable to obtain direct passage to Canada.

Cooper Pardoned for Killing Carmack
Nashville, Tenn., April 13.—Governor Patterson this afternoon pardoned Col. Duncan B. Cooper, whose sentence of twenty years in the penitentiary for the murder of United States Senator E. W. Carmack, was confirmed today by the state supreme court, created a sensation. The friends of the late Senator Carmack are indignant over what they term the hasty action of the governor, and the matter is being discussed by groups of men on the streets.

Closing Out Sale

A Grand Success From the Moment the Doors Open

The Western Clothing Co

211 Eighth Ave. East. Calgary, Alberta

NEVER before in the history of the business of Calgary did so many people attend any one sale. From the time the doors opened until a late hour last night throngs of people were eagerly working their way to the bargain counters.

We Still Have Left Many Thousand Dollars Worth of High Class Merchandise Which is being sold at ridiculously cut slash prices. If you would do justice to your pocketbook you cannot help but attend this sale. We carry a full line of Men's Clothing, Hats, Caps, Shoes and Furnishings and we wish to say right here and now that this entire stock must be closed out by June 1st for the reason that a furniture company has rented our store room and forced us out on the street. Come and get your share of the great bargains we are offering.

The lots are numbered and with every lot sold there is a numbered coupon given that calls for a rebate and bonus of from \$20.00 to \$150.00 and over. There are:

- 20 rebate coupons which call for \$125.00 each, or . . . \$2500.00
 - 20 rebate coupons which call for \$ 50.00 each, or . . . \$1000.00
 - 20 rebate coupons which call for \$ 45.00 each, or . . . \$ 900.00
 - 20 rebate coupons which call for \$ 40.00 each, or . . . \$ 800.00
 - 20 rebate coupons which call for \$ 35.00 each, or . . . \$ 700.00
 - 20 rebate coupons which call for \$ 30.00 each, or . . . \$ 600.00
 - 20 rebate coupons which call for \$ 25.00 each, or . . . \$ 500.00
 - 20 rebate coupons which call for \$ 20.00 each, or . . . \$ 400.00
 - 20 rebate coupons which call for \$ 15.00 each, or . . . \$ 300.00
 - 20 rebate coupons which call for \$ 10.00 each, or . . . \$ 200.00
 - 20 rebate coupons which call for \$ 5.00 each, or . . . \$ 100.00
- \$8,000.00**

Making a grand total of \$8,000.00 given away free in cash rebates. The coupons are redeemable at the expiration of twelve months, or as soon as the 220 lots are sold and paid for.

That the public may have every confidence and a positive guarantee that this plan of rebate is bona fide and made in good faith, we have deposited with the Bank of Toronto, at Calgary, Alberta, a sealed plan of the townsite. On each and every lot there is plainly marked the amount of the rebate, and it shows the total distribution of the sum of \$8,000.00 as per description given above. This plan does not favor a few buyers, its basis being an equitable one.

The sealed plan is to be opened and the rebates and bonuses paid by us at the Bank as soon as the 220 lots are sold and paid for.

The rebates and bonuses amounting to over \$15,000.00 apply to all the lots with odd numbers sold on monthly payments. The lots having even numbers do not call for rebates (only bonuses).

You select your lot from the plan of the townsite, secure a numbered coupon corresponding to the number of the lot purchased. This coupon is good for the amount of the rebate as marked on the back of the lot selected by you from the plan. The coupon is numbered the same as the lot, and calls for one of the rebate amounts as specified above.

Extra Special!

We will give one grand premium of \$1,000.00 in gold to the person or persons purchasing one or more lots under this plan, who sends us the first estimate that is the nearest to what the population of Silver Lake City will be in 1912. All estimates to be handed in at the time you purchased your lot.

A cash premium or bonus of \$500.00 will also be paid by the promoters of this townsite to the person who will furnish the best plan for lighting, draining and supplying the town with water. This competition is open to all persons who purchase one or more lots under the above plan in the townsite known as Silver Lake City, Alberta.

A second cash premium or bonus of \$500.00 will be paid to the person owning one or more lots in the townsite, for the best suggestion or plan for beautifying the town, including costs of same, etc.; all plans submitted subject to our approval.

To the person purchasing one or more lots in Silver Lake City, and building thereon within two years the best dwelling or business block, we will pay a bonus of \$500.00 in gold.

To the person who purchases one or more lots in this townsite, and who is the first to build thereon a hotel that is up to the requirements and specifications according to law, we will pay, if built of cement, a 10 per cent. bonus on the cost of the building as soon as completed; we will also pay an additional bonus of \$500.00 in gold, payable as soon as these 220 lots are sold and paid for. Cost limit, \$10,000.

To the person who will build under the same conditions, a general store and stock the same, we will pay 10 per cent. on the cost of the building, and an additional \$500.00 in gold if built of cement or stones.

To the person who will build under the same conditions, a building of cement suitable for a blacksmith and general repair shop, size 20x40 feet, we will pay a bonus of 10 per cent. on the cost of the same, and an additional bonus of \$500.00 in gold.

To the first child born in Silver Lake City who is the offspring of parents who own one or more lots on which there is a dwelling in which they have lived for not less than one year, we will pay \$500.00 in gold. The said \$500.00 in gold to be deposited by us in the Bank of Toronto, Calgary, Alberta, to the credit of the child, to there remain on deposit until the child has reached the age of 21 years. The interest and compound interest in 21 years at 5 per cent. would amount to the large sum of \$———. Should the child fail to reach the age of 21 years, the amount so accruing becomes the property of the parents in 21 years, and should they fail to live, the total amount with interest accruing is to revert back to the city, and becomes the property of the same.

To the first couple who own one or more lots in Silver Lake City, and who have lived on their property for not less than one year, and who are married publicly in the said City of Silver Lake, we will pay a bonus of \$500.00 in gold.

To the person owning one or more lots in Silver Lake City, and who plants thereon or on the boulevards of the streets opposite their lots, trees, and who cares for the same so that they are alive in two years from the date on which they were planted, we will pay a bonus of \$3.00 per tree; the said trees are to be planted ten feet apart, and after they are paid for those planted on the boulevards are to become the property of the said Silver Lake City. Trees so planted are to be cottonwood, poplar, evergreen, or trees adapted to the climate, and are to be not less than 10 feet high when first set out or planted.

GUESSING CONTEST—Amounting to \$500.00 in Gold, divided in three premiums; first premium \$250.00, second premium \$150.00, and a third premium \$100.00, will be paid to the purchaser of one or more lots under this plan who correctly guesses the year in which the manager of this Company, F. Coulson McCool, was born. The first correct guess received by us is worth \$250.00, the second \$150.00 and third \$100.00, payable when the 220 lots are sold and paid for. To facilitate your guessing facilities, call on F. Coulson McCool in person.

Sick Benefit Clause. To the person owning one or more lots in Silver Lake City that are paid for, on which there is a dwelling in which the owner has lived for not less than one year, we will pay, in case of sickness that incapacitates the person for work, the sum of \$5.00 per week for a term of not more than three months. Should you die we pay \$200.00 funeral expenses. Time limit, two years from date.

This makes a total of over \$15,000.00 given away in bonuses and rebates; \$7,000.00 in premiums and \$8,000.00 in rebates to the purchasers of Silver Lake City lots at \$130 per lot, \$10.00 down and \$10.00 per month for 12 months, without interest, as per above. The lots are 25x117 feet. The townsite is situated in the richest section of Southern Alberta, on the Canadian Pacific Railroad, less than 50 miles from Calgary.

There are no building restrictions. If you will build with cement, brick or stone, we will allow you a rebate of 10 per cent. on the cost of your building, payable on completion of same, in gold. There is adjacent to this townsite an unlimited quantity of good building stone. This proposition applies to all kinds of buildings, shacks, barns, dwellings or business buildings; our preference is that you build with cement, for this reason—a cement building of any kind, properly constructed, is the cheapest and most durable; they are warm in winter, cool in the summer, saves insurances, are fire proof and will stand for hundreds of years. Bonus: Time limit, two years.

Send or call for a plan of the townsite, select your lot from the number of the same, remit us \$10.00 with the number of the lot selected; we will then send you a receipt for the \$10.00, our agreement, and a numbered rebate coupon corresponding with the number of the lot selected by you. You will thereafter pay us the sum of \$10.00 per month for 12 months. We will then furnish you with a deed of the lot, and redeem your rebate coupon. On the receipt of the initial payment from you, you are entitled to compete for one or all of the premiums as specified above, amounting to over \$15,000.00 in gold.

All valuable letters containing money must be registered, or you can remit by bank draft, post office money order or by express. We will not be responsible for money unless sent as above.

Full, particulars, plans, etc., may be had on application to

F. Coulson McCool & Co.,

Suite 3, 221a 8th Avenue East, Calgary, Alberta.
THE LAND MEN OF CALGARY.

P.S.—Read this prospectus carefully over more often than once. The more you read it the better you will like it, and don't forget the fact, that it only costs an initial payment of \$10 to get in on the good thing that is conceded to be the poor man's opportunity to secure a home.

We ask you to join us and lend us your help to build the city.

We are also prepared to offer exceptional inducements, large cash bonuses, etc., to all kinds of manufacturing industries. There is a good opening in this townsite for a shirt factory, glove factory, cigar factory, etc. The bonuses paid for manufacturing industries will be estimated on the number of people employed. The above offers will increase the amount of rebates and bonuses given by us, away beyond \$16,000.00.

As the 220 lots offered for sale are placed at the uniform price of \$130 each, \$10 down and \$10 per month. Those who call first have the first choice. Sale opens on Monday, April 4th at 10 a.m.

CALGARY'S REAL ESTATE OPPORTUNITIES

There are Still Some Splendid Ranches in Alberta

Bow View Ranch

A splendid ranching proposition. 2,110 acres near Morley, about one-half of which is good farming land, the balance first-class grazing land; splendid buildings, modern house worth \$3,500, stables, corrals, chicken house, carriage house and other necessary buildings, 8 miles of fencing, 3 strands of wire, 7 miles from post office, 14 miles from a market town, daily mail delivery. Price \$12.00 per acre. Part cash, balance arranged.

This is a first-class ranching proposition for either cattle or horses, or would make a good sheep farm. There are a number of never-failing springs and spring creeks through the property, part of which have clumps of timber, which afford splendid shelter in the storms.

There is an undeveloped coal mine on the property and a splendid site for a water power proposition.

Besides the springs this property is well watered by the Bow and the Ghost rivers, the land forming a triangle near the junction of these two rivers.

This property should especially appeal to parties from the old country, as there are very few ranches to equal this in scenic beauty or abundant water and grass, supplied in all Alberta.

2400 Acres of Splendid Ranching Land

Located in township 15, range 29, W. 5th. There are a number of small houses, stables and cattle sheds on this ranch and the water supply is the best as there are any number of springs, which flow both summer and winter, of good sweet water.

There is an abundant growth of grass and some small clumps of brush, which affords good shelter to stock.

Post office and general store on property.

Price \$12 per acre. One-third cash, balance to arrange.

Section of land 5 miles east and south of Airdrie. All at steam plow proposition at \$19 per acre. One-quarter down, balance to arrange. All the land in this district is priced much above this. Exclusively listed with us.

Ranch 2859 Acres

All in township 21, range 27, W. 4th M. All lying south of the Bow river.

The above ranch is situated on the south bank of the Bow river, and lies about twelve miles south of Langdon and fifteen miles east of De Winton. The survey of the Alberta Southern R. R. runs within four miles of this land.

This property is all well fenced and cross-fenced. Has two sets of ranch buildings, 200 acres broken.

Three-quarters of the land lies above the river bottom and almost all of it is tillable. Over twenty-one hundred can be steam ploughed. In the river bottom there is a considerable quantity of tillable land, part of which is under cultivation. On the outbanks there is quite a growth of spruce and poplar.

The Government report on this township is as follows:—The land is all first-class, with a rich black clay loam soil. Undulating prairie except where broken by Bow river, in the valley of which there is a good supply of cottonwood timber with very fair spruce on the escarpment of the southern banks. The water in the Bow is clear as crystal. The river flats are covered with a rich growth of grass. C. F. Miles 1882.

Price \$20 per acre. Terms, \$12 per acre cash, balance spread over five years with interest at the rate of 6 per cent. per annum.

CALGARY BOY WILL FLY IN VANCOUVER

Alfred E. Lauder is About Ready to Make His Journey in The Air

Vancouver, within the next six weeks or two months, will witness experiments of a flying machine of a type new to the aerial world, of home production and the first to be built in British Columbia, and will be piloted by one of its own young citizens, Alfred E. Lauder, says the Vancouver Province.

Already this ardent and aspiring aeronaut, although but 19 years of age, has the lower framework of his machine about completed, is preparing for the canvas covering, and has ordered a seven-cylinder rotary 30-horsepower gasoline engine which will supply the motive power for the first machine of his kind in the world, so far as he is aware.

To give his own description: "It will be a large and perfected kite of the loose canvas type, will balance automatically, will have the simplicity of an automobile and be capable of carrying two passengers." It will differ from all other monoplane in the fact that it will have this automatic balance, which young Lauder says is the aim of all builders of aeroplanes today. In a word in this Lauder monoplane the weight of operator, engine and propeller will work in the air like the pendulum of a clock. And in the fact that the propelling power and steering gear will be in the front instead of in the center or the rear, it will also differ from all other monoplanes.

Alfred Lauder is the son of Mr. Thomas B. Lauder, who recently removed his family from Calgary to make Vancouver his home. Young Lauder is in his experience ripe, particularly in aviation of the air in this son. He is of medium height, of light build and exceedingly active.

Upon this idea of an automatic balancing kite flying machine, he has been at work for more than two years, and has already won considerable praise for it from Alexander Graham Bell, the great inventor, and Glenn Curtiss, who built at his works at Hammondsport, N.Y., the monoplane which Aviator Hamilton recently gave such successful exhibitions at Minnie park. It will be in the same park that young Lauder will make his experiments.

Seen by a Province reporter in his home in Grandview, in the large basement of which the lower framework is being adjusted, the young Vancouver aeronaut described, in a general way, the main features of the machine. He is building it alone and from original ideas.

Here lay the base or lower portion of the framework nearing completion, 25 feet long and some six or seven feet wide. But when the machine is completed the width will be 35 feet surface which includes the single plane and 25 feet long with a ten-foot upright frame slightly secured to the front of the base and attached to the other and smaller end by what he chose to call a "backbone."

"It will have 312 square feet of canvas, loosely attached to permit of the right curves, and necessary pockets for the air," said the aeronaut. "My seat will be there in the front at the steering wheel similar to the guiding wheel of an auto. Directly in front will be the engine and in front of that the propeller. As it will all balance automatically and there will be no levers to watch or the rest of the device of the ordinary monoplane my chief duty will be to guide the wheel and regulate the engine which will control the forward movement of the machine. I have already proved that a similar machine will fly with my weight and I am confident this will with two passengers."

The other experiment was with a model of smaller dimensions which young Lauder built at Calgary last July. It made several successful flights and frequently carried the young inventor. It was, however, not large enough to travel any great distance. It will be entirely exceeded in size and completeness by the present machine.

It was the Calgary model, the drawings and description of which won the praise of Bell and Curtiss. With the present one Lauder hopes to win the prize of the aerial world with the happenings of which he is exceedingly well versed.

E. TROWBRIDGE, the new Deputy Provincial Secretary of Alberta, nearly 150 board feet of spruce and the entire machine with operator will weigh about 500 pounds. Lauder himself only weighs about 140 pounds. The machine will be equipped with bicycle wheels with motor cycle spokes and specially made tires.

Lauder has been but 28 days at work on the lower framework and expects to have his machine completed by the end of May. He has chosen Minnie park for his initial flight.

PITTSBURG PROBING IS OVER FOR A TIME

An Adjournment in the Grand Jury Taken Until Next Monday—Extradition Asked For

Pittsburg, Pa., April 12.—All further probing of countermanic graft has been temporarily suspended by the adjournment of the special grand jury today, until next Monday. In the meantime, it is expected that Frank H. Hoffman, under indictment in connection with bribing councilmen, will be brought from New York to answer the indictments.

Extradition papers were made out today, and tonight an assistant district attorney left for Harrisburg, where Governor Edwin S. S. Stewart is expected to sign them tomorrow.

District Attorney Eightly will go to Albany and ask Governor Hughes to grant extradition.

Judge Fraser today ruled that Harrison Nesbit, the former National Bank examiner, who was alleged to be incompetent to serve as foreman of the grand jury was competent. Judge Fraser holds that the jurors are not required to be qualified voters.

"Bronchitis"

is generally the result of a cold caused by exposure to wet and inclement weather and may be recognized by a tightness across the chest, sharp pains and a difficulty in breathing, a secretion of thick phlegm, at first white, but later of a greenish or yellowish color coming from the bronchial tubes when coughing, especially the first thing in the morning. Cure the first symptoms of bronchitis by the use of Dr. Wood's Norway Pine Syrup.

Miss Martha Bourne, Little Falls, N.Y., writes: "Last spring I was very poorly, had a bad cough, a headache, could not sleep, and was tired all the time. I consulted two doctors and both told me I had bronchitis, and advised me to give up teaching. I tried almost everything but none of the medicines gave me any relief. One of my friends advised me to try Dr. Wood's Norway Pine Syrup. I had scarcely taken the first bottle when I began to get better and when I had taken the fourth bottle I felt as well as ever, my cough had left me and I could sleep well."

"Dr. Wood's" is the original Norway Pine Syrup. It is put in a yellow wrapper, three pine trees the trade mark and the price 25 cents. Manufactured by The T. Millham Co., Limited, Toronto, Ont.

Fully Modern House

PROPERTY STANDS ON 50 FEET IN SOUTHWEST PART OF CITY.

Seven roomed, all modern house, good basement, fine lawn, and in every way up-to-date. The cheapest buy on the market at \$3700. Terms \$1000 cash, balance \$25 a month.

An investigation would be worth your while.

FIGURES THAT TELL STORIES

CANADA'S IMPORT TRADE

Canada, like other countries, must rely on other parts of the world for necessary articles of consumption. Our total imports for the six months ending September last amounted to \$173,200,432. We bought almost twice as much from the U. S. as from the Empire. Our principal sources of supply in the Empire were:

Table listing import sources from the Empire: United Kingdom (\$44,807,979), West Indies (\$488,553), East Indies (\$459,098), Newfoundland (\$70,571), British Guiana (\$69,511), British Africa (\$65,840), New Zealand (\$57,312), Australia (\$49,495).

Table listing other foreign sources of supply: Belgium (\$1,637,119), Switzerland (\$1,047,501), Japan (\$938,552), Argentina Republic (\$477,092), Austria-Hungary (\$467,757).

Had Given Up All Hope of Living.

Heart Trouble Cured by Milburn's Heart and Nerve Pills.

Mr. Andrew Savoy, Grattan, N.B., writes: "In the year 1905, I was taken sick and did not think I could live any length of time. My trouble was with my heart and people told me that nothing could be done for a case like mine. I consulted the very best doctors, but they could do me no good. For seven weeks I could hardly cross the floor. I had no pain, but was so weak nobody in the world could believe how I felt. I had given up all hopes of living and had given my little girl to my sister-in-law. One day a friend came to see me, and calling me by name, said, 'Lizzie, if I were you I would try a dose of Milburn's Heart and Nerve Pills as they are good for heart trouble.' My husband got me a box, but for two days I was not feeling any better. On the fourth day my husband said, 'I believe those pills are doing you good.' I was able to say, 'Yes, I feel a good deal better this morning.' He said, 'Well, I will get you another box right away.' I took two boxes and three doses out of the third one, and I was perfectly well and have not been sick since then. I will never be without them in my home for God knows if it had not been for Milburn's Heart and Nerve Pills, I would not have been alive now."

Charles Tupper Married in Edmonton

Edmonton, April 13.—At All Saints church at noon today, Charles Tupper, eldest son of Sir Charles Hibbert Tupper, of Vancouver, and Miss Mary M. Dickey, daughter of the late Hon. A. R. Dickey of Annapolis, N.S., were married, the ceremony being performed by Archbishop Gray.

No, Altona, all clubmen are not on the police force.

SHRINERS 35,000 STRONG IN SESSION

During the Year There Had Been a Net Increase of Membership of 11,021 Members

New Orleans, La., April 13.—The Nobles of the Mystic Shrine in annual convocation today divided pleasure and business and opened the thirty-sixth meeting of the Imperial council. Tonight the registration indicates that over 35,000 Shriners are in attendance. The reports submitted today show that during the past year there has been a net increase in the membership of 11,021. There is \$107,116.31 in the treasury. Temple of Chicago, heads with a membership of 8,183; Mexico New York, is second, with 6,882 members.

GENERAL BOOTH, head of the Salvation Army, who is now seriously ill.

DUTY OF RAILWAYS WHAT IS DUE THEM

An Important Debate on the Railway Situation Now Before the House of Representatives

Washington, D. C., April 13.—The opening gun in the battle in the house over the administration railroad bill, the feature of President Taft's legislative program, was fired today by Representative Mann of Illinois, chairman of the Interstate Commerce committee, which reported the measure after a thorough revision of its text. The bill was originally introduced by Representative Townsend of Michigan. Mr. Mann declared that railroad transportation is an industrial necessity and for convenience. "With a full realization," he said, "of the benefits and the necessity of wise and successful management, operation and progressive construction of our railroads we also realize that in the benefits which they confer upon the people they are the servants and not the masters. It is their duty to treat all persons upon equal terms. It is their duty that they be treated with fairness and reasonable consideration by the government and by the people, and it is our duty that they shall treat fairly all those who deal with them and that they shall furnish with reasonable diligence those advantages of convenience and economical transportation for which they are constructed and operated under favors granted by the States." Mr. Mann said the bill would give greater expedition to justice, greater advantages on equal terms to all shippers, greater security to those who care to invest their money in railway stocks or bonds, and greater protection to those railroads whose management desire to operate them efficiently in the interests of the people who use them and the stock holders who own them. He summarized the propositions involved in the pending bill under three general heads. These were: 1. Speedy determination of disputes by the creation of the commerce court with expert judges, having no greater jurisdiction than the circuit courts now have. 2. Enlarging the statutory duties of the railways and the rights of shippers and increasing the powers of the interstate commerce commission, so that classifications, regulations and practices shall be just and reasonable and enforceable as such, whether affecting the rates as charged or not. 3. Regulating the consolidation of railroads and their issues of stocks and bonds so that competition may be kept open as far as possible and rates shall not be maintained unreasonably high in order to pay returns upon capital nominally, though not really invested either in the construction or equipment of the road. He said among other things, the bill eliminated secret agreements between railroads as to classifications and rates by requiring the filing of such agreements and by not authorizing advance approval of them by the commission. It avoided having approval constituted as a decision favoring rates.

A RAILWAY DEAL

and THERE IS \$50,000.00 IN IT CAN YOU HANDLE IT, OR SYNDICATE IT? YOU'LL HAVE TO ACT QUICKLY

One Section of Land on Langdon trail, one mile east of Prospect Park in which 25-foot lots are selling daily at \$40.00 and \$50.00 per lot, i. e., \$400 to \$500 per acre. And don't forget those lots ARE selling.

One mile frontage on proposed Chestermere car line. Government road allowance on three sides. Both G. T. P. and C. N. R. surveyed through the property. There is every indication of a big rise in east end property. Buy while you have the chance. For a limited period the price is \$125.00 per acre. FIVE YEARS TO PAY FOR IT.

Full information of CECIL A. HADFIELD 708 FIRST STREET EAST Phone 946 Box 1513

ERUPTIONS ON THE SUN Remarkable Phenomenon Observed by Professor Frost. Strange eruptions have appeared on the sun, according to a statement by Prof. Edwin B. Frost, director of the Yerkes Observatory at Williams Bay, Wis. The eruptions shoot from the surface of the sun like skyscrapers, said Prof. Frost. They are easily visible at the edge of the disc. One of them shot out to a length of 150,000 miles, as near as we could estimate. It then detached itself from the main body and shed through space a mass of luminous gas not dissimilar to a comet. Before it had disappeared it had reached a distance from the sun of about 350,000 miles. The eruptions are probably caused by the release of pressure on some portion of the sun. Prof. Frost said the disturbance probably accounted for brilliant auroral displays which had been seen recently. The signature on a check is a sign of prosperity.

A POINTER IN EAST END REAL ESTATE

Get on the Road to Fortune! Now is the Time!!

THE CITY OF CALGARY is the Commercial and Manufacturing Centre of Southern Alberta, and Calgary is the recognized Manufacturing and Railway District. It is now an established fact that at least two new railroads are approaching from the East. There will be several more railroads coming into Calgary within the NEXT FEW YEARS. NO MATTER if your nose were pulled in any other direction it would switch to the East again if the Eye would see the GREAT OPPORTUNITIES which have been lying dormant in East Calgary heretofore. Railroads will bring Manufacturing Industries, which must be in East Calgary. STREET CAR facilities are also a great factor to be considered when buying Real Estate. We are assured that the proposed Electric Car Line to Calgary's Unique Summer Resort, "CHESTERMERE LAKE," will be built this season. This Electric Car Line will in all probability, pass through "GOLDEN ROSE PARK," as we have already been approached as to a right-of-way through this Subdivision. "GOLDEN ROSE PARK" is beautifully located EAST OF THE BOW, and will be within 12 minutes' ride from the C. P. R. Station. From every lot a splendid view of the ROCKY MOUNTAINS can be had, which makes this locality an ideal site for homes. Streets and avenues are 66 feet wide, lanes 20 feet, the size of the lots 25 by 122 feet. REMEMBER OUR OFFER: \$10 down secures any lot, balance can be paid at \$5 per month. NO TAXES to be paid until January 1st, 1911.

GOLDEN ROSE PARK LOTS ARE SELLING FAST!! On proposed Electric Line to Chestermere Lake. Railway Junction will be within a Stone-throw! Great Activity NOW ON PRICES \$60 per LOT up 1/2 CASH BUY NOW

5 PER CENT. DISCOUNT FOR CASH. CLEAR TITLE ABSOLUTELY GUARANTEED. The selling of these lots is subject to the following guarantees from us: If at the expiration of the year 1910, your lot is not worth double what you paid for it, or 100 per cent, increase, based on the price at which our salesmen will then be selling similar lots, we will refund all the money you have paid us, with 8 per cent. interest additional. If you should die at any time before payments have been completed, we will give to your heirs a deed of the lots WITHOUT FURTHER COST. If you should lose employment or be sick, YOU WILL NOT FORFEIT THE LAND. IT IS THE OPPORTUNITY OF A LIFETIME to share in CALGARY'S PROSPERITY. Isn't this sufficiently convincing to warrant your sending us a first payment on from 2 to 10 lots? In fact (as these lots will sell very fast), we will say this: In order to secure for you the earliest possible advantage of selection and an immediate share in the increase of values, we agree to return your first deposit—cheerfully and without quibbling—if you are not PERFECTLY SATISFIED that we have made no misrepresentations, upon investigation later on. Isn't this fair? Come in as early as you can, or sit down right now and mail us a first deposit. YOU'LL NEVER REGRET IT. NO MORE THAN 10 LOTS TO EACH PURCHASER. Address all Communications to---

NOVA SCOTIA TO HAVE PART PROHIBITION

It Will Operate Throughout the Province With Exception of Halifax

PEOPLE PERMITTED TO VOTE UPON IT THERE

And the Licenses Considerably Reduced in That City

Halifax, N.S., April 13.—The government of Nova Scotia effected a change in its temperance policy today when Attorney General MacLean, introduced into the legislature prohibitory liquor bill. Hitherto the government legislation has been directed to strengthening the enforcement of the Canada temperance act as the federal liquor act law is called or enacting provincial license laws. There are two counties in this province, Halifax and Richmond, where the Canada temperance act is in force. These are exempt from the provisions of the proposed prohibitory law, but all the rest of the province is brought under its scope. As regards Richmond the law comes into force there with the expiry of the existing licenses.

In the city of Halifax prohibition shall not become effective till after the census of 1911 and after a majority of the ratepayers shall have voted against license. In the meantime in Halifax the power of granting licenses is taken from the city council and vested in a license board. The number of licenses after the expiry of those in force is reduced to seventy and following the census of 1911 there shall not be more than one license for each thousand of population. An inspector in chief for the enforcement of the law will under its provisions be appointed by the government. The bill will come up for a second reading on Thursday.

C. P. R. Announcements

Winnipeg, April 13.—Two important appointments were announced by the Canadian Pacific passenger department this morning. A. G. Richardson, formerly agent at Portland, becoming city passenger agent here, and R. Tidman, former agent at Nelson, city passenger agent in succession to the late Mr. Roebuck.

Even a truthful man is sometimes guilty of exaggeration.

THE MENTHOL PLASTER
CURES every sort of Muscular pain, such as Sciatica, Stitches, Cricks, Tic, Twinges, the Mumps, Lumbago and Headache. Don't throw away money for worthless imitations by unscrupulous makers. Get the genuine.

Each plaster 25c. in an air-tight tin with directions for use. Mailed upon receipt of price, or sample for 5c. **WE GUARANTEE** that they will relieve you quicker than any other plaster. **DAVIS & LAWRENCE CO., Montreal.**

MAIN FRONT OF THE TORONTO GENERAL HOSPITAL IT WILL COST \$2,500,000.

UNIVERSITY HAS VALUABLE INSECTS

Collection of Kansas Institution Worth \$50,000—Numbers 130,000 Specimens
Lawrence, Kan., April 12.—Prof. S. J. Hunter, of the entomological department of the University of Kansas, has just finished involving the collection of insects belonging to the university, and has valued them at \$47,000. The collection was begun by Dr. F. H. Snow in 1873, and now numbers approximately one hundred and thirty thousand specimens, all of which are labeled and mounted for use in the classes of the department. The collection probably would sell for \$50,000 if the university would part with it.

Beetles, flies and butterflies make up the larger share of the collection. Most of the specimens are of American insects, though a fair foreign collection has been built up by exchanging with other collectors. This exchanging is going on all the time, and the university collection is now one of two or three best collections owned by educational institutions in the world. By the cost to the university was very small.

"We have one of the best collections in America," Professor Hunter said today, "and it is arranged in such a way as to make all of it useful to our students. We are going to keep adding to it until it is absolutely the best we can make it." Professor Hunter and his students collected insects in the summers of 1897, 1898 and 1899.

One of the most useful and interesting to the state is the collection of harmful insects that has been arranged. All the known Kansas crop pests are mounted, together with samples of their devastations. It is in this line of the work that Professor Hunter is specializing his advanced students.

Wireless at Port Arthur
Port Arthur, April 13.—The first wireless message ever received at Port Arthur, was taken today by the tug Whaler, from the steamer America, asking to have coars ready to unload some heavy machinery which she is bringing from Duluth.

Prisoner Was Insane

Montpelier, Vt., April 13.—"Not guilty by reason of insanity," was the verdict of the jury in the Demetrius Mikales murder case today. Mikales, also known as James Mitchell, was charged with the murder of Mrs. C. C. Mascott, wife of his employer, at Barre on July 26, 1909, by shooting.

There was no motive for the crime. The prisoner was sentenced to the state asylum for the insane at Waterbury.

Delegates to Sunday School

Winnipeg, April 13.—The Manitoba Provincial Sunday school association will be represented by thirty-one delegates from all parts of the province at the sixth world's Sunday school convention, which will be held at Washington, D.C., May 19 to 24.

BILLIONS FOR INSURANCE

Policies Issued on Lives Estimated at \$1,688,000,489 Last Year
Everybody knows that ubiquitous individual, the life insurance agent. He may be imported or indigenous, but he is everywhere, and the sun never sets on his activities. He was particularly busy in the United States during the year 1909. Representing 130 companies he wrote \$1,688,000,489 in policies; some \$2,000,000,000 in excess of the record for 1908.

The policyholders were somewhat busy at the same time. It takes some hustling for the generality of them to meet their premiums, but they worked nobly, paying in \$564,735,696, a gain of \$13,000,000 over what they paid in 1908. Interest and other payments swelled the income of the companies to \$747,194,981. During the year the companies disbursed to policyholders \$369,663,053 and laid by "for the future protection of policyholders" \$342,346,874. Statistics as to how much went to "yellow dog" funds are lacking, but probably will come out in the course of future legislative investigations.

The assets of the 130 companies at the close of 1909 amounted to \$3,664,106,542, an increase of \$264,000,000 during the year. The surplus on policyholders' accounts increased nearly \$30,000,000, to \$544,410,426. The figures which are taken from a tabulation by one of the leading insurance papers of the United States, give some idea of the enormous growth of the life insurance business. Taking the ordinary and the industrial business together, the insurance in force in the companies operating under the legal reserve laws amounts to \$15,475,909,466.

The notable gains made all along the line reflect the improvement in financial affairs since the murky conditions of 1907. The insurance agent made a good record for himself last year and is entering upon the work of 1910 with improved prospects. He is rolling up so much business that the figures already are so big as to stagger the ordinary man's comprehension. Small wonder that financial magnates are struggling for control of the great insurance companies while the busy agent is hustling and the policyholder is saving the freight.

Youngest Mother in the World

Chicago, Ill., April 13.—Officials of the juvenile court today began an investigation of the case of Annie Zoppa, ten years old, who gave birth to a girl baby at the county hospital several days ago. It was reported tonight that the young mother and her child were doing well. The young mother's age has been investigated and it has been shown that she is just ten years old, said a physician at the hospital. She is probably the youngest mother in this part of the world.

A girl isn't necessarily a jewel because she is in her ways.

Conservative Convention Postponed

Ottawa, April 13.—The Conservative caucus this morning decided to postpone the proposed Dominion convention, which was to have been held this year in June. No definite date has been set, but it is not likely it will be held before next year.

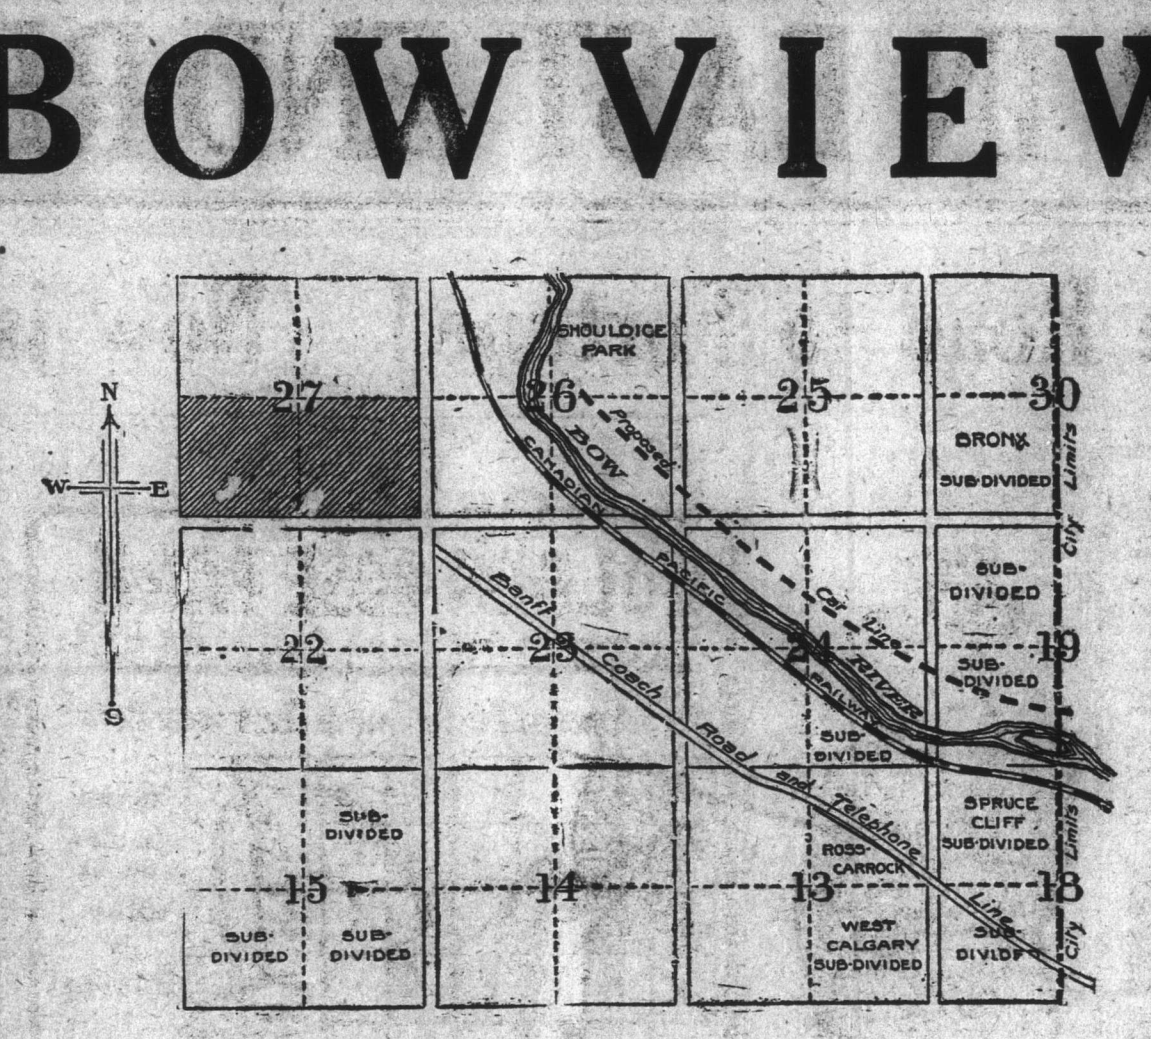

\$8.50 an Acre
AND PICK YOUR OWN LAND
2,000 Acres
Half Breed Scrip for sale at above figure for few days.

COSTELLO & RYAN
127 Eighth Ave. West The Land Men Phone 2200

ACREAGE IN Ten Acre Lots

Splendid soil, perfectly level, on main road. Telephone by the property. Don't buy a 25-foot lot when, by going a little further out, you can secure enough ground that will allow you to have a garden, the proceeds of which would pay for the property first season.

Calgary is rapidly coming into her own, and the position of wanting property such as above.

(Taken From The Albertan)
Messrs. Tregillus & Hextall Will Give 150 Acres of Land BRIDGE TO BE BUILT ACROSS THE RIVER TO PARK

"The Exhibition company has been offered practically free of charge very fine grounds to the far west of the city. The proposed donors are Mr. W. J. Tregillus and J. Hextall, and the property is a portion of that part of the west of the city known as Bowness. It is on the south of the Bow river and directly across from the park now known as Shouldice Park.

"The advantages of this place as exhibition park is that the railway runs right past it and freight and passengers could be brought in that way. Then again, it is directly across from the park to which a railway will be projected at an early date. Arrangements are being made to have a bridge span the river very soon. That will bring the park in direct communication with the street railway, with practically no additional expense."

BOWVIEW

Adjoins and overlooks this land. A bridge will make the land on the south of the river as valuable as on the north, 30 acres having been recently sold for \$600 per acre.

We quote from Mr. W. J. Thorold, of London Press Association: (Albertan, March 11, 1910).—"To me the city presents the most remarkable future. I am told that in Calgary and vicinity, there will be commenced construction of works requiring an ultimate expenditure of TWENTY-FIVE MILLION DOLLARS, and of this sum the C.P.R. will expend Sixteen Million Dollars on the extension of their branch lines. The balance is to be expended in civic improvements and the construction of other branch lines into Calgary. Such an expenditure as this can only result in Calgary becoming one of the foremost cities in the Canadian or American West."

Try and realize what this will mean for Calgary. As a city expands, land suitable for gardening, or property that lends itself to home building, becomes greatly in demand and valuable. The near future will see such property commanding prices double what we are asking.

\$100 PER ACRE AND UPWARDS

\$125.00
Per Acre After
April 25th

Calgary's progress during the last few years has borne out the saying, "There is no tomorrow." Putting off until "Tomorrow" in Calgary realty has meant a lost "Yesterday" in thousands of instances. The future will bring regret to many who let OPPORTUNITIES pass. Others will take advantage of present offerings and invest, reasoning out the truth of Mr. Thorold's statement: That Calgary will become one of the foremost cities of the Canadian or American West, with the consequent increase in values.

SPLENDID TERMS.

BORDEN'S WANT OF TACT CAUSED ALL TROUBLE

A Great Man, But There is Just One Thing That is Lacking

ARE SEVEN FACTIONS AMONG THE OPPOSITION

Independent Paper Calmly Discusses the Conditions

The Toronto Star sums up the situation in Ottawa like this: This is a summary of the inner history of how Mr. R. L. Borden, a gentleman, a brilliant lawyer, and in fact, a great man, but for one thing, has demoralized the party which selected him as its leader in the house of commons by his lack of that one quality—tact. The authority for the incidents mentioned and the names used is from within the circle of those who know. Most of your correspondent's informants were men who are loyal to Borden and yet even they recognize his limitation. The story was given in the hopes that a frank statement of conditions might perhaps make the situation clearer and with the feeling that it could at least make it no worse.

It is the story of Borden's lack of tact, of his growth of unrest, of the splitting up of the party into factions of secret meetings of cliques within the party of the letter which one Conservative member wrote to his constituents, and of the general disorganization of the Conservative party in the house of commons.

Seven Factions
 Out of eighty-six members of the opposition there are seven men representing different elements in the party. Two of them, Northrup and Thomas W. Crothers, of St. Thomas, both of them said to be personally ambitious, are reported to disparage Borden's leadership. Monk and his French-Canadian protest formal loyalty to Borden, but would no doubt be decided by the vote of the majority in convention. W. F. McLean is leader of a one-man faction supporting a policy of 1-myself-McLean. In the general stirring up which he is giving things he hopes, the unfriendly Conservatives say, to get a better position in the party, so that when he returns to the electorate in South York he will be better able to satisfy the Conservative voters of his standing in the party.

Foster is Forgotten Almost
 Hon. George E. Foster counts for little or nothing in the situation. He is sick and poor. He has lost a fight and has many enemies. None of the factions is eager to have him. They have troubles of their own.

Out of the eighty-six members in the opposition your correspondent has been able to secure a list of about fifty who are at present regarded by the others in the party as Borden men. Foster is rated as one of them. The others, outside of the French followers of Monk, are said to be either supporters of Crothers or of Northrup. Meanwhile out of the fifty who are considered to be Borden men, only about twenty are definitely counted upon as certain to stand by him through everything.

Crothers' faction is probably stronger than Northrup's party for the reason that Crothers has been unwilling to be singled out as a possible leader, but has been selected by a number of men who believe he would fill the position well.

Beattie Backs Crothers
 John D. Reid, of Prescott (Greenville), is perhaps the most prominent of Northrup's supporters. Major Thomas Beattie, of London, is alleged to be Crothers' chief man. Meanwhile with Foster away, Borden is using Doerney as chief lieutenant, and his circle of supporters and advisers, the men who are in a way to blame for the trouble, have still confidence in him. They are Sam Hughes, Dr. Sproule, Joseph P. Armstrong, Samuel Barker, Richard Blain, George A. Clare, O. S. Crockett, Hon. John Haggart, and David Henderson.

Brewing for Years
 This trouble in the Conservative party in parliament is said to have been brewing four or five years back. While the wind of slander has never breathed against Borden, while all his men swear by his personal honor, his breadth of view, his intelligence, and his culture, while he is in fact a major parliamentarian, still he lacks so much in tact and good fellowship in dealing with his men that he has lost their confidence.

"Mr. Borden is all right," say the loyal members when first you question them. "Yes, but is it not true that to many of the opposition he never has anything to say? That he does things without consulting the individuals? That he is dictating to by the four or five men who dominate the caucus? That he stays in his room and expects the members to come to him instead of mixing among them?"

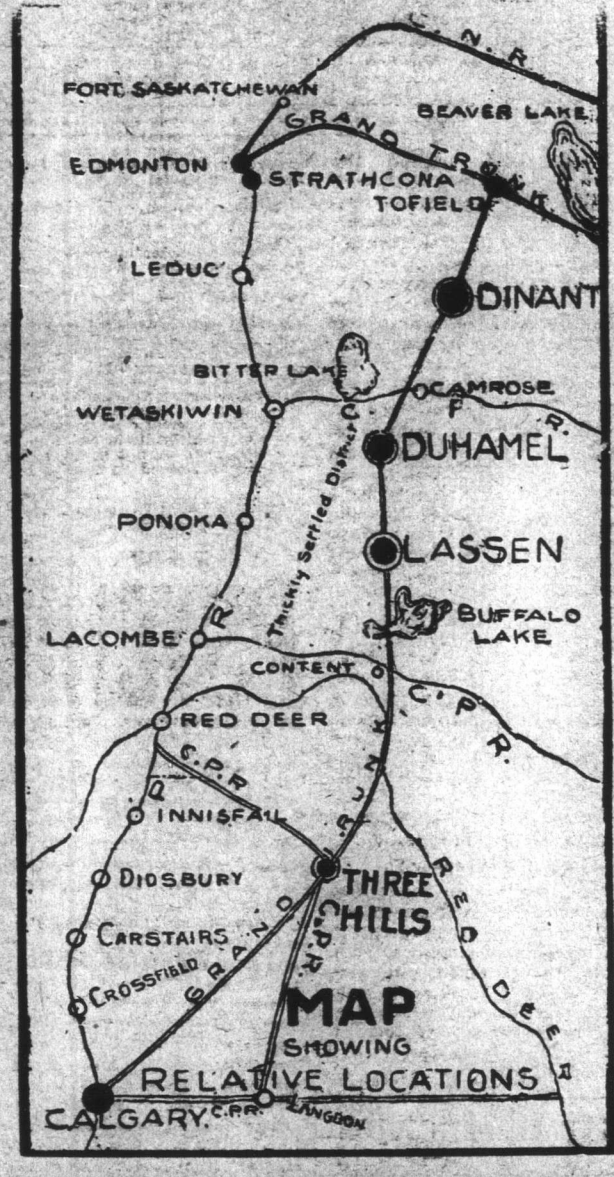

"Well," comes the reluctant answer in not a few cases. "Well, yes, that is— Well, it's true, but, of course—" and like loyal men they try to explain it away. But apparently there is no explaining it.

Different from Laurier
 It is these very things that have brought Mr. Borden and the Conservative party in the house to its present state. Retiring, courteous, cultured, correctly spoken, with well-modulated voice, and pleasing accent, with a profound knowledge of law and with a great belief in the established order of things—R. L. Borden would make an excellent governor-general, an excellent diplomatic representative, an excellent barrister to plead one's case, and, indeed, an excellent friend.

As a figure before the Conservative public he inspires some confidence, and is, no doubt, worthy of it, but where Laurier, when the strenuous part of the work in the house is over, slips back into the back benches and holds all sorts of intimate little conversations with his most obscure supporters, laughs with them, or takes them seriously, as the case may be, Borden, when his work is over, slips out into his private office very quietly and retires into his library, which has the air of a study rather than of a place where men may come and talk things over. He has a kind face, and one may meet him talking affably in the corridors of the house, but he is by nature reserved. The result has been that only those men who are willing to go to him have his ear. Others who do not like having to go into an office have gradually drifted

The Town of THREE HILLS

70 miles north-east of Calgary, celebrated for its Knee Hill coal and two railroads

WE have some fine business lots on the main business streets for sale that will make you 100 per cent. interest on your money.

R. G. Hurd, Esq., is commencing to build a \$12,000 hotel this month which will be completed July 1st.

C.P.R. and G.T.P. will each have a station at Three Hills the latter early this summer.

We have Exhibition Association, Creamery, Bank, Telephone, General Stores, Meat Market, and the nicest natural location for a large city in Canada.

Call and see plan and get terms. **THREE HILL COAL STOCK** will be advanced to \$1.00 per share on August 15th next.

J. A. McCullough

Real Estate, Stock and Bond Broker
Phone 574 Samis Block, 8th Ave. East

of his party saying that he believed Mr. Borden would lose his position as leader, and that he, the writer, might have a good chance to get the leadership. Unfortunately for him, some of those who received the letter were more loyal to Borden, and a copy of the letter was sent to Borden.

Love Feast for Naught
 Then, again, Borden gave a big dinner up in the Parliamentary restaurant which, so far as anyone could see, seemed to be a regular party love feast. There were French-Canadian men of eloquence there, and wild cheers greeted his speech. He said that the Conservatives would have to afford a platform wide enough to include the French-Canadians. And the

Conservatives cheered in an ecstasy of confidence. But it was not two weeks before the French members under the hypersensitive Mr. Monk, had "put out" against the leaders in the house for having, as they said, failed to propose a six months' hold-up on the Naval bill, when they had undertaken it was to be moved. Borden made a speech, and right after him Monk rose and in a passion declaimed against the leader's course.

The Insurgents Meet
 These little incidents apparently did not improve the general happiness of the opposition. In the last six months The Star is informed, there have been

(Continued on page 13.)

Contractors and Builders, Attention!

Tenders will be received up to Saturday, the 23rd inst., for the construction of this Club House. Plans can be seen at the office of J. J. O'Gara, Architect, room 78, McDougall Block. The usual conditions will apply.

Chestermere Aquatic Club

NON-PERSONAL LIABILITY CAPITALIZED \$20000 LIMITED DIVIDED INTO 200 SHARES OF \$100.00 EACH

The Chestermere Aquatic Club, Limited, have obtained their charter and will build the above club house early this spring. The club house will be used for a Canoe and Boat club, Fish and Game club, Country club, Tennis club and Golf club; each club paying for their own apartments at an annual rental. A membership to the Canoe and Boat club will carry with it the privilege of storing your boat or canoe. Shares in the Chestermere Aquatic Club, Limited, are to be had from the undersigned and full particulars will be given on application. Twelve million dollars being spent by the C.P.R. this year on their irrigation system. Chestermere Lake is the main reservoir for the whole irrigation system.

SPECIAL ATTENTION—Golf Links and Tennis Courts are being made on the 160 acres of land adjoining the Chestermere Aquatic Club House, and the membership in the Aquatic Club carries with it the privilege of playing Golf and Tennis. A tournament is being arranged for next September, when a program of rowing, canoe and motor boat racing will take place.

PARK REALTY COMPANY MONTREAL

The Park Realty Co. of Montreal will make enormous profits in the sales of its lands into lots, as the city is growing at an extraordinary rate, with a population of over 500,000 already, and 1,000,000 is predicted within ten years.
Money invested in such a company now will reap big profits. Write me today for full particulars, maps, etc.

\$10 Only

Secures you a \$65 lot in Golden Rose Park. As these lots are selling fast, you should come in at once and make a first payment. Railway surveys are adjoining these lots and proposed electric line to Chestermere Lake passes them. Get in now on these easy terms.

\$160 each for two lots in Crescent Heights Village, facing south, near Centre street.

\$175 each, 4 corner lots, facing south, 1st Street west in the village, 1-3 cash handles this.

See you for West Mount Pleasant lots. We have 'em.

Do you want to live in British Columbia? If so, we have a fine 10 acre block, in the finest fruit district of the Kootenays. It has a well built house, costing \$350, with stable and chicken house; a fine running creek, right by the house; 1 acre is cleared; portion is covered with heavy, good timber worth the price of the land; rest is easily cleared. Located 1-2 mile from stores and postoffice. **\$1200** or trade for Calgary farm property.

If you are willing to invest from \$100 to \$400 in a fine investment, with immediate returns, long terms, on which you must make money, call in and we will explain this to you.
