### HOLY NAME SUNDAY

Roman Catholic Societies Will Parade Thru Streets to Service in Churches.

Sunday next, January 15, being Holy Name Sunday, the Holy Name Societies of Toronto will hold their annual demonstration. Special services will be held in St. Patrick's Church, McCaul-street, for the branches east of Spadina, and in St. Patrick's Church for those west that thoroughfare. The eastern branches will assemble at St. Michael's Cathedral and leave there at 3 o'clock, going by way of Bond, Queen and McCall-streets to St. Patrick's Church in the following order: St. Michael's, St. John's (East Toronto), St. Ann's, St. Basil's, St. Joseph's, St. Paul's and St. Patrick's. The procession will be in charge of Mr. James Delaney, president of the Archdiocesan Union, and Mr. T. C. Murphy, president of St. Patrick's branch.

The west end branches will assemble at St. Francis' Church, Arthur-street, leaving there at 2:45 o'clock and go by way of Arthur and Dundas-streets to St. Helen's in the following order: St. Francis', Holy Family, Holy Rosary, St. John's (Weston), St. Anthony's, St. Peter's and St. Helen's. Mr. J. J. Foley, president of St. Helen's, will be in charge of the procession. Mr. D. A. Curry, president of St. Francis, will have charge of the arrangements.

At the special services, which will begin at 3:30 o'clock in each church, the musical portion will be supplied by the members of the society, themselves and special sermons appropriate to the occasion, will be preached.

**Sagamore Hill**  
Oyster Bay is, after all, not a noisy metropolis. It has always been a small, quiet village with a fine view of Long Sound, without either accommodation or invitation for the stranger. Lately the town has acquired a new note, the opera house but even these adjuncts have altered it but little, and it still remains a very quiet town. A number of New York families have summer residences here, but these are chiefly along the road that leads out from the village proper toward what is called the Cove, says a writer in The Review of Reviews. And from this road, at right angles branches off a road that runs along the bay and leads on to Sagamore Hill and to the homes of its neighbors. To the house of Mr. Roosevelt has had been a really noble bit of forest land.

Seventy of the 100 acres are covered with splendid oak and chestnut trees, birch, locust and hickory. The massive foliage and abundance of the underbrush make of this the best tended grove with gravel footpaths, but a genuine piece of woodland that really brings nature to the owner's very door. Perhaps sixty yards before the house the road becomes an avenue of maples, and by Mr. Roosevelt himself twenty-five years ago. On the slopes about the house, where the trees are very few, there are merely green lawns and a tennis court without any attempts at elaborate exotic garden-making. Beyond the house, on the right, as you approach, lie the vegetable gardens, the farmland and more woodland. The house itself, externally at least, is merely a pleasant-looking, what Stevenson called "a fine" wooden country house peculiarly American, with its lines, porches, painted grey and with "crisp" awnings. The house stands upon the highest point in Oyster Bay, yet so thick is the wood about it that no other house can be seen from its porches and lawns. Altogether it is a very simple and charming.

### DISEASES IN SCHOOLS MANY DEFECTS FOUND

Nose, Throat and Eye Troubles Numerous, Say Inspectors Graham and MacMurphy.

That diseases of the respiratory organs are most common in school children was made plain by reports of examinations made in December. Eye troubles were also found to be numerous.

Dr. Willmot Graham, medical inspector for the boys, reports as follows: Number of visits, 84; schools visited, 10; pupils with defects, 34; pupils absent, 31; examined for contagious diseases, 42; examined for defective breathing, 32; throat and nose, 34; defective hearing, 35; skin diseases, 21; nervous condition, 11; enlarged glands, 14; anaemia, 5; other defects, 21; number of defects in 310 pupils, number referred to family physician, 116.

**Dr. MacMurphy's Figures.**  
Dr. Helen MacMurphy's report on the girls is: Visits to schools, 84; schools visited, 10; visited at homes, 12; referred to medical officer, 284; number of photos, 23; number absent, 6; examined for enlarged tonsils, 53; for defective sight, 42; for defective hearing, 18; for defective breathing, 32; for skin diseases, 24; pupils with two defects, 15; pupils to whom cards were sent to parents, 128.

**Smuggled Bracelet in Photographs.**  
Of smuggling tricks there is no end. The Bangor customs officials had a new dodge sprung on them one day recently in an attempt to get a gold bracelet through the payment of duty.

Some one took a number of cabinet photographs, but before trying them together to make them appear as a bundle of photos he carefully hollowed out a hole in the centre and deposited the bracelet therein. A superficial examination of the package would have caused one to think that it was simply a bundle of photographs and allowed to proceed without question.—Portland Press.

"They say," remarked the student, "that truth lies at the bottom of a well."

"I guess that's right," replied the old lawyer, "judging by the amount of pumping we have to do in order to get a little of it."—Chicago News.

### STREET RAILWAY FAILS TO QUASH INDICTMENT

Justice Riddell Made Slight Concession Only—Not Within Railway Commission's Province

The determined attempt on the part of the Toronto Railway Company to quash the indictment charging them with committing a common nuisance, on legal grounds, without pleading fault, in the criminal justice court yesterday. A change in the technique of the indictment was made and clause 5, charging the company with running too few cars and impeding the traffic, was struck out.

Justice Riddell decided that since the indictment is criminal in its nature it does not come within the jurisdiction of the Dominion Railway and Municipal Board, and his lordship disagreed with Wallace Nesbitt, K.C., senior counsel for the company, in his contention that the company was not responsible for overcrowding on its cars.

Mr. Nesbitt complained that the company did not receive proper assistance from the police in the matter and that under present circumstances they were unable to prevent it. His lordship maintained that it was not a matter of the ability to prevent overcrowding but the fact that the common law specifically requires that there shall be no overcrowding of a common carriage. That rendered their attempt to offset the charge futile.

**Charge Was Split.**  
Taking the indictment count by count, Mr. Dewar argued that the count which referred to "the property and comfort of the public being in danger" didn't come under the head of a common nuisance as the statute read that a common nuisance had to do with the life, safety or health of the public. His lordship agreed that it was probably too general and so consented to having the clause split, making the property and comfort endangerment a separate count.

Justice Riddell also found fault with clause No. 4, charging the company with having too few cars and with impeding traffic as he did not believe that the former constituted a common nuisance, and so the count was struck out.

The demur, as yesterday's hearing was called, was a decided victory for the city in that the indictment remains almost the same as when it was served. The only change came up before Mr. Justice Riddell and a jury at 11 o'clock Monday morning, when the Toronto Railway Company will endeavor to substantiate a plea of "not guilty."

### "DRY'S" HOPE TO CREATE MANY MORE ARID AREAS

Ontario Temperance Alliance Looks For Banner Year—Aftermath of Battle.

"Already the campaign for 1912 is well begun, and the prospect is that this year will be the greatest in the local option history of the province."

The foregoing statement is contained in the official announcement of the program of the executive committee of the Ontario branch of the Dominion Temperance Alliance, which will hold its annual meeting in the Confederation Life Building this afternoon.

It will be recalled that last year the alliance determined to use pressure upon the Ontario Government to repeal the three-fifths requirement in local option contests. The government firmly refused to budge, and it is doubtful again whether the experiment will be tried again.

**Hard to Come Back.**  
Rev. Ben H. Spence, secretary, says in his report:

"The most striking thing about the campaign was the utter failure of the liquor interests to make the slightest gain in their efforts to repeal local option. There were 184 municipalities where local option bylaws had been in force for three years or more, and where, if the measure was such a dismal failure, as some folks said, the people had an opportunity to repeal it in 131 places the matter was not even brought to a vote, in many of these places the liquor interests made the most strenuous efforts to get petitions signed or to induce councils to submit opposing bylaws. In three places repealing bylaws were submitted and in all three places local option was sustained by a decisive majority.

**Popular Vote.**  
"The aggregate vote in all these places was:

For local option ..... 25,766  
Against local option ..... 20,492

Majority for ..... 5,274  
"In the last three elections the local option question has, in one form or another, been before the electors in 238 municipalities, and the aggregate voting in all these places has been:

For local option ..... 85,874  
Against local option ..... 96,733

Majority for ..... 29,091  
"In 107 of the above places giving municipalities, however, the three-fifths requirement has operated to hinder the measure from coming into force."

**Recent Battle Reviewed.**  
Regarding recent local option campaigns, the report says that local option bylaws were voted upon in 81 municipalities. Of these, 22 carried the bylaws by sufficient majorities, and on the first day of May 65 licenses will be cut off. A majority was secured, but not sufficient to bring the law into force, in 30 other municipalities, in which there were 100 licenses. There was a majority against local option in 25 municipalities, in which there were 118 licenses.

Of the 26 places carrying local option 3 are incorporated towns, 8 incorporated villages and 15 townships. These are: Aldboro, Eastford, Camden E., Elizabethtown, Flamboro E., Gullinbury N., Hinchinbrook, Howick, Kenyon,

Every room completely renovated and newly carpeted during 1910.  
\$2.50 and up per day. American Plan.

Lochiel, Loughboro, Plympton, Roxboro, Thorold, Wolford.  
County Field Days.

Commenting upon the success of Ontario temperance sermons are delivered from as many pulpits as possible, the report says:

"During 1910, over 2000 such meetings were held in many instances these county field days have been followed up by county conventions. These county conventions have been held in the following counties:—Addington, Dufferin, Essex, Haldimand, Huron, Kent, Middlesex, Peel, Perth, Prince Edward, Simcoe, Victoria and Dundas. It is proposed to still further pursue our present work along this line."

Other matters that will come before the executive are the publication of The Alliance, which is developing most successfully.

The fixing of the date of the annual convention and planning for the same will also come up for settlement.

**Needn't Pay Tenant's Bills.**  
According to the judgment of Judge Morson in the division court yesterday, a doctor cannot hold the landlord liable in his place the matter was not even brought to a vote, in many of these places the liquor interests made the most strenuous efforts to get petitions signed or to induce councils to submit opposing bylaws. In three places repealing bylaws were submitted and in all three places local option was sustained by a decisive majority.

### WOULD VERY OFTEN FAINT AWAY.

Doctor Said That Sometime He Would Never Come Out of One.

Many people may be unaware of having anything wrong with their heart till some little excitement, overwork, or confinement in an overheated or overcrowded room or public building makes them feel faint or dizzy.

If you neglect the warning the slight feeling of dizziness gives you, and fail to take treatment, there will be a gradual progression to something more serious.

There is no reason you should wait till your case becomes desperate before you avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills.

Mr. F. S. Chute, Wheatley, Ont. writes:—"It is with gratitude I tell you my Milburn's Heart and Nerve Pills benefited me. I was very weak and run down, and had headache, nearly every day and would very often faint away. In fact, my doctor said that sometimes I would never come out of one of them. After taking three boxes of your pills I am glad to relate that it has been a number of years since I have had a fainting spell and scarcely have had a headache. Too much cannot be said in praise of Milburn's Heart and Nerve Pills for in me they have effected a perfect cure."

Price, 50c per box, or 3 for \$1.25. At all dealers or mailed direct receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## STAMMERING IN SCHOOLS

Investigation May Result in Employment of Expert. Every member of the management committee of the board of education turned out to the first meeting yesterday, and assisted in the disposal of a large amount of business. The question of a new principal to the technical high school was reshaped, as usual, and a sub-committee was appointed to consider the question. Trustees Fairbairn, Dineen, Shaw, Hiltz, and Dr. Embrose, senior principal of high schools, will look into the matter.

## SETTLERS STRANDED RAILWAY NOT BUILT

Lively Time in Railway Committee Over British Columbia Line. OTTAWA, Jan. 12.—(Special).—There were some lively exchanges in the common's railway committee to-day over the bill respecting the Kootenay and Arrow Head Railway Co., which asked for extension of time for construction. Mr. Goodeve wanted the company pinned down to compliance with the condition inserted in the bill at his instigation two years ago, that the railway should build a portion of the line equal to fifteen per cent. The two years are up, and the company asks for a further extension without having done any construction.

## WHERE THE MONEY WENT.

OTTAWA, Jan. 12.—A return, asked for by Mr. Monk, has elicited the information that between March 31, 1916, and Nov. 15, 1916, the following amounts were paid by the government to Montreal and Quebec papers for printing: Montreal Herald, \$29,874; Montreal Star, \$28,374; Montreal Telegraph Printing Company, \$27,188; Montreal Gazette, \$17,188; La Presse, \$468; Le Bulletin, \$18; Le Semaine, \$24; Le Canada, \$32.

## MESSAGE NEVER FINISHED

Mrs. Ball, After Taking Carbolic, Tried to Scrawl Note. "I have taken....." These words scrawled upon a sheet of paper and on a nearby table, were the plain explanation of the finding of Mrs. Samuel G. Ball in a dying condition at her home at 681 Crawford street, by a neighbor. She died about two hours later, after medical aid had been summoned. Her health is given as the cause of her act. She was 45 years of age and lived with her husband.

## Press Independence.

He wished The Mail and Empire could be a little less dyed-in-the-wool Conservative and The Globe a little less dyed-in-the-wool Liberal, and that each would show a little more independence. He thought it should be a character to stand before a Canadian audience. There should not be a suggestion even of that sort, for where there was some smoke there must be a little fire.

## IMPERIAL PARLIAMENT HOPE OF CANON TUCKER

Political Change Is in Air, He Says, and Something Must Happen.

Canon Tucker of the Cathedral, London, addressed the Empire Club yesterday on "Canada and the Empire." With some conventionalities he managed to say quite a number of things very freshly and pithily, and he took broad views and wide of Canadian citizenship.

"We are not only citizens of the greatest empire in the world, but citizens of the planet, members of the human race," was one of his points. He dwelt especially on New Ontario, which, he said, furnished a reduplication in size and resources of old Ontario, enabling the province to double in power and population, and become not merely the banner, but an imperial province.

## Will Span Wilderness.

He referred to the cleavage between eastern and western feeling, accentuated by the 1000 miles of wilderness that lies between the Ottawa and the Winnipeg Rivers. New Ontario would be a factor in merging the east and the west, he believed, and in this respect New Ontario was a national asset of the most important character.

"There are men in Vancouver who think the Kingdom of Heaven consists of real estate and corner lots," he said, speaking of the western spirit. As Egypt was to the ancient world, Canada would be to the modern world, he said, something larger than dollars and material prosperity eventually.

"If you had to pick out a piece of ground on this planet whereon to build a nation, you could find nowhere better situated than Canada for the purpose," was another point.

## A Romantic History.

There was nothing more romantic in Grecian history than the stories of La Salle and others of the early explorers. These men would stand out in the future with "Theseus and Hercules."

"I would not exchange my parentage in Canada for all the blood of all the world," was another point.

## Caught a Heavy Cold.

It Left Him with a Hacking Cough.

Mr. J. H. Richards, 1852 Second Ave., East, Vancouver, B.C., writes:—Allow me to write a few lines in praise of your Dr. Wood's Norway Pine Syrup. Last fall I contracted a heavy cold which left me with a hacking cough, and every time I would get a little more cold this hacking cough would become a lung splitting one.

It kept on getting worse and I kept on spending money buying different cough remedies until a friend asked me if I had ever tried Dr. Wood's Norway Pine Syrup. I thought I was willing to try anything, and I bought two bottles, and on the same day I thought I would try the first one. I used it as directed and I found it much easier, and by the time I had used a bottle and a half my cough was gone. I am keeping the other half bottle in case it should come again but I am quite sure I have a positive cure. Let me recommend Dr. Wood's Norway Pine Syrup to all who suffer from a cough or throat irritation of any kind."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pine trees the trade mark; price 25 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

## Nurses in the Schools.

Toronto people are not so slow after all. It was announced yesterday that Miss Lina L. Rogers, the head nurse of the public schools, has, with the permission of the school management, instituted a post-graduate course for school nurses of thirty days' duration, which will be the first of its kind in the world.

## Have Hopes of Winning Both Federal and Provincial Seat in N. Oxford.

WOODSTOCK, Jan. 12.—The meeting of the Woodstock Conservative Club last night was attended by a large number of members. In regard to contesting North Oxford, both provincial and federal ridings, it was felt that there was a good chance of winning them at the next election with a good candidate.

## AND IT ONLY COSTS FIVE CENTS.

The funny section of this week's Toronto Sunday World is printed in four colors and will be in demand by every kiddie in town and country. It has the Katzenjammer Kids and their trick on the captain; Foxy Grandpa and how he fooled the boys; Happy Hogan's baby; Bad Man's; Jimmy and L. L. But the funniest of the funny sights is to see how the automobile craze hits Caville.

FRIDAY MORNING, JAN. 13, 1911

CANADA FOR CANADIANS.

By adopting the group system when giving notice of a series of amendments to the motion to go into supply, the member for South York succeeded in forcing public attention on a number of matters of great national importance.

The first of Mr. W. F. Maclean's propositions is that requiring government inspection of bank management, the supervision of individual bank notes issued by a national note issue properly secured, and the repeal of the double liability clause.

When the revenue from the city service must be reduced, as all the public service should be, to the actual amount required for operation and provision for other necessary changes, nor should more be asked from the consumer.

That provincial governments should have the right to expropriate telephone lines within their territory is another proposition entirely in line with progressive ideas.

When Thomas Edison declared that he regarded his electrical storage battery as a greater blessing and of more utility to humanity than his invention of incandescent light, he inaugurated a new epoch in the history of transportation.

There can scarcely be any doubt of the adoption of the storage battery on the new civic system. After nine years of experiment it is being used on street car lines in New York. It will work equally well, and perhaps under the circumstances, rather better, in Toronto.

One of the reasons for this is that every car carries its own peak load. Consequently it is unnecessary with the storage battery to maintain the enormous peak which is required to meet the demands of some hundreds of cars which may all call for it about the same time.

post service needs no commendation after the exposures made at the recent investigation by the Dominion Railway Board into the character and methods of the express companies.

The last of Mr. Maclean's proposals deals with the control of capitalization of public service companies. This question of capitalization and its control is absolutely necessary in the public interest.

The World says again that every one of these propositions is reasonable in itself, is of prime necessity for the national welfare and should be strongly and heartily supported by every citizen who wants to be numbered among the makers of a country where the greatest good of the greatest number is the paramount consideration.

In suggesting that the city is getting too much out of the Street Railway Company when it receives as its share of receipts almost \$2000 a day, The Globe may not intend to revive the old idea that there should be a new agreement about fares and division of profits, but hitherto every suggestion of the sort has been followed up by a proposal of that nature.

If there be anything in the shape of indirect taxation in the revenue derivable from the street railway, there is all the more need to set aside the money so obtained for the special purpose of improvement of the street car service and street car transportation in general.

The sum of \$678,000 received this year from the Railway Company should certainly form part of a fund for future extensions and improvement of the city lines, and for covering the cost whatever it may be of getting back the franchise in 1921.

When that is done the revenue from the city service must be reduced, as all the public service should be, to the actual amount required for operation and provision for other necessary changes, nor should more be asked from the consumer.

There can scarcely be any doubt of the adoption of the storage battery on the new civic system. After nine years of experiment it is being used on street car lines in New York. It will work equally well, and perhaps under the circumstances, rather better, in Toronto.

Here are a few of the considerations: Toronto can save \$6000 or \$7000 a mile in trolley wire construction by adopting the battery. This difference in favor of the storage system means the saving of a huge sum over the new lines.

There will be a further saving of over 70 per cent in actual operation of the cars. This seems incredible, but should be well noted. Toronto can operate storage cars at less than 30 cents for each dollar of the present expense.

One of the reasons for this is that every car carries its own peak load. Consequently it is unnecessary with the storage battery to maintain the enormous peak which is required to meet the demands of some hundreds of cars which may all call for it about the same time.

ANNOUNCEMENT. WING to the rapid growth of our business we have found it necessary to establish a more central and commodious downtown location. We have accordingly moved our Toronto Showrooms from 21 Lombard St. to 78-80-82 Adelaide St. East.

spair of engineers, and it was in view of this dead night period that opponents of the Hydro-Electric Commission prophesied disaster for Hon. Adam Beck and all his following. But Mr. Beck is a long-headed gentleman and had a particularly long-headed engineer behind him, and like scientific men with a little imagination, and a good deal more knowledge they were able to foresee the success of Mr. Edison's experiments.

The result will be that no dead period will occur to boost the peak load to those unbelievable heights to which the anti-hydro, and even Hon. A. G. MacKay assured us it would soar.

With cars equipped with these batteries, there will be little difficulty in arranging for the passage of civic cars over the company's down-town tracks. There will be no complication in supplying power, for each car will run over the lines with its own stored power.

With all this in view, there appears to be no urgent necessity for demanding the expropriation of the street railway system at present.

City Engineer Rust was placed in a most unenviable position yesterday and will have the sympathy of citizens generally.

Either it is too hazardous and impracticable to lay the new intake at present or it is not. Mr. Rust staked his professional reputation on the assertion that it would be waste of money to try to go on now, and he would not think of attempting to lay the pipe in midwinter.

The mayor, perhaps with visions of editorial criticism in view, thought it would make the board of control look foolish to stop now. There will be various opinions about this point later.

Meanwhile, the mayor has issued his orders like Capt. Nolan, and it is not for Mr. Rust to question why; his but to do or die with the intake pipe in the middle of winter in Lake Ontario.

Dr. Chapman ought to hire a good fiddler. That gets the crowd.

HOME LIFE ASSOCIATION

Annual Meeting Reports Show Its Sound and Flourishing Condition. The annual meeting of the Home Life Association of Canada was held at the head office, Home Life Building, on Thursday, Jan. 12.

The statement shows a total of invested assets of \$1,200,000. Hon. Mr. Stratton, president, in submitting the report for adoption, commented upon the gratifying interest rate the investments of the association carried, the average of the several classes being 6 1/4 per cent, the highest point of a steady rate of advance for the past several years.

The vice-presidents also referred to the high character of the investments of the company. The total assets for the security of policyholders amounted to \$2,027,739.25.

At a meeting of the board of directors held subsequent to the annual meeting, Hon. J. R. Stratton was elected president; Messrs. Jas. L. Hughes, chief inspector public schools, Toronto, and J. S. King, boss and shoe manufacturer, vice-presidents; Mr. J. K. Mc-

Cutcheon, managing director, and Mr. A. J. Walker, secretary-treasurer. The reduction in management expenses for the year reflects credit on Mr. Cutcheon, the managing director, who as a writer of insurance is not surpassed in Canada. His geniality and business acumen have made him and his company hosts of local friends.

"Sparrow" is informed that the jury's verdict against the York Radial was \$1200 in the James Jones case. It was a recommendation to Justice Riddell, who reserved judgment.

Editor World: Every broad-minded and honest citizen ought to thank you for your editorial of Jan. 10, calling attention to the "Evanistes" cry for more praying in public. Not only does the passage you quote (Matthew vi, 6-7) condemn this sort of praying and praying, but the entire New Testament is taking up in rebuking the prevailing Pharisee (or hypocrite) with the exception of a continual command to relieve the sick and suffering, and to help the poor and needy.

AT OSGOODE HALL

ANNOUNCEMENTS. 12th January, 1911. Judges' chambers will be held on Friday, 13th inst., at 11 a.m.

Peremptory list for divisional court for Friday, 13th inst., at 11 a.m.: Brown v. C.P. Ry. Co. (to be continued).

Masters' Chambers. Before Cartwright, K.C. Master. Holmes v. Mowery—P. Aylesworth, for third party. M. J. O'Connor, K.C., for defendant. E. Meek, K.C., for plaintiff. Motion by third parties to vary or set aside the order for directions as to trial of third party issue, or for leave to amend their statement of defence or for other relief.

McVeety v. Ottawa Free Press—H. M. Mowat, K.C., for defendants. J. T. White, for plaintiff. Motion by defendant for an order for security for costs in a libel action. Judgment: The motion is entitled to prevail. The authorities, so far as material to this motion, show that with the unsatisfied judgment against the plaintiff and the balance due on the chattel mortgage on his household furniture and effects, which are his only valuable property, it cannot be said that there are any assets realizable to the value of \$800, or even of \$400. Costs of motion to defendants in the cause.

Wagstaff v. Claxton—R. H. Greer, for plaintiff. W. Burns, for defendant. Motion by plaintiff for judgment under C.R. 603. Order made for judgment for \$148.98 and costs to be taxed. Hemmeyer v. Toronto and York Ex. Co., Ltd.—Lawr. Aylesworth & Co., for defendants. T. F. Slattery, for plaintiff. Motion by defendants for an order for medical examination of third and sixth paragraphs of statement of claim. Order made for medical examination by Dr. Primrose at such time and place as he may appoint. A copy of report to be furnished to plaintiff. Particulars having been given, same to be taken as the particulars and plaintiff to be bound by same. Leave to plaintiff to move for liberty to serve further particulars. Costs in cause.

Sands v. O'Connor—G. E. McConn, for defendant. G. C. Campbell, for plaintiff. Motion by defendant for an order dismissing action for want of prosecution. Motion enlarged for one week.

Galagher v. Mathieu—Macdonald (Blake & Co.), for defendants. Motion by defendants on consent for an order dismissing action without costs. Order made.

Whitney v. Clark—Higgins (McMunnah & Co.), for defendant. Motion by defendant on consent for an order dismissing action without costs. Order made.

Aziz v. Solomon—O. H. King, for plaintiff. Motion by plaintiff for an order substituting service of writ of summons. Order made.

Midland Loan Co. v. Staples—R. S. Defries, for plaintiff. Motion by plaintiff for an order continuing injunction granted by Justice at Cobourg, restraining the cutting of timber on the land in question. Injunction continued to trial. Leave to either party to move to dissolve if necessary.

Lytle v. Boyle—J. T. Mulcahy (plaintiff), for plaintiff. Motion by plaintiff for an order continuing injunction. On statement of counsel that settlement negotiations, pending, motion enlarged sine die. Injunction continued meantime. Motion may be restored to list if settlement not carried out.

Clarkson v. Saunders—M. L. Gordon, for plaintiff. T. H. Wilson, for defendant. Motion by plaintiff for an order continuing injunction restraining defendant from dealing with \$45,000 of notes of Farmers' Bank, withdrawn from said bank on day of its failure. Motion enlarged sine die. Injunction continued meantime.

Farmers' Bank v. Orpen—M. L. Gordon, for plaintiff. J. R. Roaf, for defendant. Orpen. Motion by plaintiff for an order continuing injunction granted restraining defendants dealing with the goods and chattels in a certain bill of sale. Motion enlarged sine die. Injunction continued meantime.

Clarkson v. Robinson—M. L. Gordon, for plaintiff. J. M. Ferguson, for defendant. Motion by plaintiff for an order continuing injunction restraining defendant by \$2000 of notes of Farmers' Bank, drawn out by defendant. Enlarged sine die. Injunction continued meantime. To be restored on two days' notice.

Re Trusts of Noah Chan's will—R. F. Justin, K.C., for applicant. Motion by applicant for an order relieving executor of his executorship and vesting property in the remaining two executors—M. G. Leadley and Moore. Motion enlarged sine die, pending negotiations for settlement.

Clarkson v. Robinson—M. L. Gordon, for plaintiff. J. M. Ferguson, for defendant. Motion by plaintiff for an order continuing injunction restraining defendant by \$2000 of notes of Farmers' Bank, drawn out by defendant. Enlarged sine die. Injunction continued meantime. To be restored on two days' notice.

Re Bennett Estate—J. M. Ferguson, for Margaret Frawley. E. C. Cattnach, for official guardian. W. H. Hunter, for Mr. Davidson. M. H. Roach (Beaverton), for executors. An appeal by Margaret Frawley from the order of the surrogate court of the County of York of 11th November, 1910. In this case deceased left a cheque for \$2000 to claimant shortly before her death not to be cashed until a month after

her death. On her death the cheque claimed that the cheque passed the Fund 40 her as good domestic money. The judge held that a cheque could not be a good domestic money, and disallowed the claim. Appeal therefrom argued and judgment reserved.

Re Moore Estate—W. A. Lampert, for petitioner. N. B. Gash, K.C., for lessee. F. W. Harcourt, K.C., for infant. Motion by applicant for an order approving of lease of property on Yonge-street. The lease approved. To be executed both by infant and the official guardian. The agent's commission to be charged on the income, the details to be worked out before the Judge later.

Clarkson v. Robinson—M. L. Gordon, for plaintiff. H. E. Rose, K.C., for defendant. Motion by plaintiff for an order to add L. M. Montgomerie, third party, defendant, and for an injunction restraining him from dealing with certain Farmers' Bank bills. Motion enlarged sine die, to allow of cross-examination of Montgomerie on his affidavit filed in opposition to the motion. Pennington v. Michigan Central Ry. Co.—A. E. Knox, for plaintiff. D. Saunders, K.C., for defendant. F. W. Harcourt, K.C., for infant. A motion by plaintiff for approval of order of settlement between the parties in an action for damages for injury to infant plaintiff, caused by a piece of timber falling upon the said plaintiff. Judgment for plaintiff in any \$300. Of the sum to be paid into court for credit of infant, \$100 to be paid to father, and remaining \$200, if not reduced by senior taxing officer, to be paid for costs. If reduced costs to be paid and balance added to infant's share.

Beasmuth v. Nivn Nickel Co.—H. S. White, for plaintiff. F. W. Harcourt, K.C., for infants. G. C. Campbell, for defendants. Motion by plaintiff for judgment pursuant to settlement. An action by the widow and six children of an Austrian subject killed by a blast in defendants' mine, for damages for his death. Judgment for \$100, to be paid to court, and the details of apportionment to be worked out later.

Clarkson v. Boyle—W. M. Douglas, K.C., for defendant. J. G. Wallace, K.C., for plaintiff. An appeal by defendant from the report of the local master at Woodstock. The evidence to the alleged new contract, in May, 1909, is not well taken, and owing to the confusion of the pleadings, the parties may not have apprehended its importance. It is ordered that the master be sent back to the master to take in shorthand any evidence relating to this and going to show compliance by Clarkson on his part with anything that may have been arranged. Matter reserved to be dealt with by the judge on the evidence. This evidence to be taken as soon as Boyle returns to Ontario, and Mr. Wallace to be notified of his return.

Nippingss Coca Cola Bottling Works Co. v. Wisse—C. H. Porter, for plaintiff. No one contra. Motion by plaintiff for an order continuing an injunction restraining the sheriff at North Bay from taking possession of the goods under seizure continued until 16th inst.

Parties v. Sanderson—R. C. O'Connell, for plaintiff. A. W. Burks, for defendant. Motion by plaintiff for an order continuing an injunction restraining the sheriff at North Bay from taking possession of the goods under seizure continued until 16th inst.

WANTS TO PRAY IN PUBLIC. Editor World: I should be glad if you would allow me a little of your space to present another point of view from that of your correspondent "Truth-Seeker" in to-day's World. To be candid, I did not think you, in your editorial of Monday, made such a "palpable hit" as your correspondent seems to think. I think that what Jesus condemned was not the act of prayer, but the motive behind the act ("to be seen of men"). One might as well say, I think, that Jesus was opposed to almsgiving because he made a very similar statement concerning the ostentatious giver, as that concerning the ostentatious prayer. Certainly public worship may be as essential and beneficial a part of such worship as preaching, singing, and so forth. It is right in deploring the fact that so small a proportion of men who took part in public worship could (or would) privately pray. At the same time I entirely agree with you that the habit of private prayer should be encouraged.

Incidentally, suppose I should be in Dr. Hinckley's church on a Sunday morning, I did not think you, in your editorial of Monday, made such a "palpable hit" as your correspondent seems to think. It is right in deploring the fact that so small a proportion of men who took part in public worship could (or would) privately pray. At the same time I entirely agree with you that the habit of private prayer should be encouraged.

Incidentally, suppose I should be in Dr. Hinckley's church on a Sunday morning, I did not think you, in your editorial of Monday, made such a "palpable hit" as your correspondent seems to think. I think that what Jesus condemned was not the act of prayer, but the motive behind the act ("to be seen of men"). One might as well say, I think, that Jesus was opposed to almsgiving because he made a very similar statement concerning the ostentatious giver, as that concerning the ostentatious prayer. Certainly public worship may be as essential and beneficial a part of such worship as preaching, singing, and so forth. ### CONSERVATIVES HELD FINE ANNUAL MEETING

#### West Toronto Cons. Elect Officers and Hear Good Speeches—Ontario Plowman Meet.

WEST TORONTO, Jan. 12.—(Special.)—The annual meeting of the Liberal-Conservative Association, held in the lecture room of the Annetto-street Public Library here to-night, was in all respects a most successful and enjoyable event. There was a large and representative gathering of the Conservatives of ward seven, and the speeches and general tone of the meeting throughout was most enthusiastic and cordial.

Following the resignation of the office of president, held by R. G. Agnew during the past year, with the greatest acceptance, Mr. Agnew was made the recipient of the coronation of member and in a few choice words and fitting terms responded.

R. L. McCormack, a host in himself, was chairman pro tem and the election of officers proceeded with the following result: President, Dr. Hodgins; first vice-president, T. W. Thompson; second vice-president, Sam Kyuing; third vice-president, A. M. Wilson; secretary-treasurer, Ald. W. A. Baird; auditor, R. L. McCormack and the following: The chairman of the different sub-divisions are as follows: No. 1, R. W. Hamilton; No. 2, E. Conry; No. 3, J. P. Findley; No. 4, J. R. Bull; No. 5, W. J. Yeale; No. 6, Enoch Ward; No. 7, W. Leakin; No. 8, A. Gillie; No. 9, J. J. King; No. 10, A. M. Gill; No. 11, W. W. Howell; No. 12, A. E. Campbell; No. 13, W. J. Fullerton; No. 14, T. Moore; No. 15, J. I. Schultz; No. 16, J. H. Brown; No. 17, A. McMaster; No. 18, P. Langton; No. 19, J. W. Dodds; No. 20, John Bingham; No. 21, M. McGill; No. 22, A. A. Maffett.

Following the election of officers, and in the early stages of the speaking, the entrance of Mayor Geary and Dr. Forbes Godfrey, M.L.A., was the signal for the greatest enthusiasm. His worship and Dr. Godfrey got a fine reception and later spoke some words.

Dr. Hodgins, the president-elect, gave a short but interesting address, replete with good advice and friendly counsel, and a prosperous year is looked for under his presidency. T. W. Thompson spoke briefly and to the point, as did Sam Ryding, second vice-president, and A. W. Wilson, third vice-president. The latter, in the course of his remarks, stouped his opposition to the course pursued by W. F. Maclean, M.P. for South York, in advocating reforms outside the party lines.

It is no fault to find with Mr. Maclean, said Mr. Wilson, who thinks the reforms outlined should come from within the party ranks. "The Conservative party," he charged, "could only win by presenting a united front. Ald. Baird, always a favorite with the West Toronto audience, contented himself with a few remarks along current lines. Dr. Godfrey, M.L.A., made a rattling good speech, dealing with Ontario political matters in general and making a strong appeal for higher ground in political life. "The man in public life today," as a rule, is seeking the best interests of the people. "Don't know but boost him," was the slogan thrown out by the representative for West York.

The address of Mayor Geary was along municipal rather than political line, and urged for greater interest in the introduction of the political element in municipal elections, his worship distinctly avowed his opposition. "I don't believe that we should have many governments in the city hall. We would have an incubus to ourselves with no real benefit," said Mayor Geary, amid applause.

Referring to the existence of Niagara power, the mayor declared that with the hydro-electricity, they would be in a position to cope with the railway difficulty when the time came, which could never have happened under private ownership.

It is proposed to hold another meeting in Victoria Presbyterian Church to-night, Rev. W. H. Patterson spoke to a large and attentive congregation and reached a powerful sermon based on Exodus xii. 13. "Personal deliverance from the blood of Christ was the theme of the doctor's discourse. Mr. Weaver was in charge of the singing, and Rev. Mr. Locke was also associated with Dr. Patterson in the service. The cards distributed throughout the

#### Mayor Frost with Deputation of 200 at Dr. Chapman's Meeting in Metropolitan Church

It makes no difference whether the meetings are held in Massey Hall or in the Metropolitan Church, interest in the great revival goes on apace. Dr. Chapman was in his element last night. Perhaps it was the artistic architecture and the influence of the church itself, or it might have been the result of Wednesday's rest, but whatever the influences were, they had a tremendous effect.

Unusual interest was lent to the meeting by the presence of about 200 people from Orillia and Barrie, who came down to Toronto to renew the acquaintances of some two years ago, when Messrs. Chapman and Alexander held a successful revival in Orillia. Several prominent citizens of that town, including Mayor Frost, Police Magistrate Clark, J. Thompson and the Rev. Mr. Gregor, pastor of the Presbyterian Church, spoke in the warmest terms of what excellent work the evangelists had accomplished by their recent campaign in Orillia.

#### RECITAL AT BEETON.

BEETON, Jan. 12.—(Special.)—On Friday night the pupils of Miss Leitch, Toronto, will give a recital in the town hall here. Miss Leitch's pupils will be assisted by Miss Katharine Ingles, reader, and Master Douglas Stanbury, the boy singer. The program will conclude with a drill, which will illustrate Canada past and present and will be exemplified by pupils only. The principal characters will be Canada, Mrs. Walkin; Altarata (an Indian girl), Beth Bowerman; Mary, Velma Bell; Ireland, Mary Fraser; Scotland, Bell Coulter; Britannia, Katherine Scott; Miss Leitch, the hostess. The program will conclude with a drill, which will illustrate Canada past and present and will be exemplified by pupils only.

#### ONTARIO PLOWMEN.

The executive of the Ontario Plowmen's Association met in the city yesterday to draft the constitution and to prepare a resolution for submission to the government in the near future.

Among those present were Simpson Rennie, president; E. L. Wallace, secretary; Frank Weir and T. A. Paterson of Scarborough, William Warkington and Neil Muller of King and James McLean of Vaughan, together with J. Speers of Malton. The preliminary work was not completed yesterday and another meeting will be held next Thursday.

#### NORTH TORONTO.

NORTH TORONTO, Jan. 12.—(Special.)—There is a general desire on the part of the township to expedite in every way possible the preliminary negotiations between the city and township looking toward annexation, but big questions cannot be expected to come with the celerity of small ones and a few days may elapse before any particular progress is made. Mayor Brown has made overtures to the township and a joint meeting will be held between the two governing bodies. The mayor and council of North Toronto are anxious to go on with the township and to be annexed with the board of control and the city council as well, and it is probable that this may be done in the near future.

#### SCARBORO RECOUNT TO-DAY.

The outcome of the appeal made by Councillor Frank Law in Scarborough Township for a recount and which comes before Judge Winchester this morning, is being awaited with great interest. The appeal was made by the returning officer, W. H. Paterson, who received a majority of three votes over Mr. Law for the office of first-deputy reeve of the township, and the recount will be held to finally determine the whole matter.

#### AGINCOURT.

AGINCOURT, Jan. 12.—(Special.)—The Women's Institute, Agincourt Branch, will hold their January meeting on Tuesday, Jan. 10, at 2:30 p.m., in the hall of the Agincourt branch, Agincourt, on Tuesday evening, Jan. 17, at 7:30 sharp, to discuss the question of beautifying the school grounds of the township. All are invited, especially the trustees.

#### WEST HILL.

The circumstances connected with the death of two well known young men, sons of Mr. and Mrs. John Bennett of this place, are particularly sad. The younger of the two, Walter, 24 years of age, employed with Nairich Bros. as an investor, came home on Saturday, Dec. 24, to spend his holidays, and almost immediately symptoms of scarlet fever developed and he died on the 31st. His brother, Charles (Sam) contracted the disease, which also proved fatal, he dying on Wednesday, Jan. 11, following his brother's death. Two bright young lives thus suddenly been cut off in the prime of early manhood, having before them apparently a long and useful career.

The family had been looking forward to a happy reunion, as a younger brother, Henry, who has been resident in the Northwest for a number of years, has come home to spend a short time at the old homestead. The father and mother, now advancing in years, are prostrated with grief and neediness to see the afflicted family has the heart-breaking news.

Besides the father and mother, there are surviving three brothers, John of this place, William of Rainy River, Henry (now quarantined) and one sister, Mrs. R. Dixon of Port Union.

### Francis Macmillan and the Symphony Orchestra

Francis Macmillan can come back any time. His performances at Massey Hall last night marked him as one of the great violinists, if there be any. He appears to have nothing left to acquire in technique and he showed in the "Ave Maria" and also in his own pretty "Causerie," with which he responded to the encore. Last night it was the technique that arrested, that dazzled, that held spellbound the great audience that almost filled the house, and turned their enraptured gaze into a rapturous ovation.

His playing was so steady, long and supple, and while evening was in the air, at times for sturring, he could bite into the lightning steps of a prestissimo scale with absolute precision, and his harmonics were a revelation even to the experienced.

Every trick and device of execution was at his command, as with much expectation of one who was laureate of the Brussels Conservatory at 16, just ten years ago. Macmillan was born in Ohio, but is the product of German and Belgian tuition since he was eight years of age.

Mr. Macmillan's chief feat last night was the solo part in Karl Goldmark's "Ave Maria" in A Minor, Op. 28. With the noble pathos of the first movement, the close of the first movement, an allegro moderato, Macmillan's playing was highly appreciative and to the accompaniment of the orchestra, and the storm of applause which greeted the conclusion of the display of technical facility was a quiet masterpiece.

Which extended the artist gave a first movement in merit, but not so loudly applauded. The third movement, a scherzo, was a study in musical pyrotechnics, and ended up in the ovation mentioned. Repeated recalls followed. The artist gave a Bach sonata, which was also heartily received. The Schubert, Wilhelm "Ave Maria" followed, with much of the golden tones that distinguished Wilhelm himself. Mr. Macmillan played the number with fine depth and bowing power. His next item was the G string arrangement by Paganini of the Moise fantasia, and it was played with true wizardry. A furious series of recalls brought the charming little piece to a close.

The Toronto Symphony Orchestra, whose concert it was, must not complain if it is somewhat overhauled by the orchestra. But Frank Weisman is too good a musician to be other than delighted at the success of his fellow violinists.

### ONLY MONKEY IN HERALDRY.

"On the Leinster coat of arms are three monkeys standing with plain collar, and chained motto, 'Cross-a-book' (To Victory). This is the only coat of arms, I am told, which writes Mr. Curtis in his book, 'An Irish Summer,' that has ever borne a monkey. The coat was adopted by John FitzThomas Fitzgerald in 1818 for romantic reasons.

Infant he was in the castle of Woodstock, which is now owned by the Duke of Marlborough. The castle caught fire. In the confusion the child was forgotten, and when the family and servants remembered him and started a search they found the infant in a ruin.

"But on one of the towers was a gigantic ape, a pet of the family, carefully looking after the child. The ape saw the animal with extraordinary intelligence had crawled through the smoke, rescued the child, and carried it to the top of the tower.

"When the earl had grown to manhood he discarded the family coat of arms and adopted the monkey for his crest, and they have been retained to this day. Wherever you find the tomb of a Fitzgerald you will see the monkey at the feet of the effigy or under the inscription.

### Strength Gones

Not From What You Eat, But From What You Digest. A Tablet Digests a Meal—Trial Package Free.

Most people eat most foods without discrimination—it matters little what, few stop to think what that food does for them. This is the first turn on the road to dyspepsia. Reckless disregard of the proper choice of foods, rapid eating and improper mastication, are the unquestioned causes of all stomach disorders from the slight ache to the malignant ulcer.

There is nothing more revolting than a dyspeptic stomach—a very fat var putrefaction, sending forth its poisonous effluvia, and its sour, watery risings, belchings, heartburn and painful breathing.

There is only one way to relieve this condition. If the stomach refuses to digest your food put something into it that will Stuart's Dyspepsia Tablets are nothing but digestives. They are not a medicine. They work when the stomach will not.

Each tablet contains enough pepsin, diastase, golden seal and other digestive elements to reduce 3000 grains of ordinary food to the proper consistency for assimilation into the blood. Stuart's Dyspepsia Tablets are absolutely pure. There is nothing harmful in them as shown in their endorsement by 40,000 physicians in the United States and Canada.

Ask your family physician his opinion of Stuart's Dyspepsia Tablets and if he is honest toward you he will state positively that they will cure your stomach trouble whatever it may be, unless you have waited too long and have allowed your disorder to develop into cancer.

Act to-day and begin to eat and breathe. A free trial package will be sent to your address upon request. The 50-cent size packages are for sale here your druggist's. F. A. Stuart, Co., 150 Stuart Building, Marshall, Mich.

#### Meeting of Ratepayers Will Be Held re School Matters.

DOWNVIEW, Jan. 12.—A meeting of the ratepayers of public school section No. 17, Downview, will be held in the school room on Saturday afternoon, Jan. 14, at 10 o'clock. A large attendance is requested, as several important questions are to be dealt with. At the meeting will be decided as to whether the school will be sold and a new modern building erected or to continue in the old building.

On account of the increased number of scholars, an assistant teacher has been engaged and the annex to the school, known as the band room, will be given over to the junior classes.

The vacancy on the school board caused by the withdrawal of T. Hartley, furnished a keen election contest, in which H. Deafoff defeated R. Phillips by 15 majority.

FRIDAY MORNING

NEW EXPRESS TRAFFIC ON FESTIVE QUEBECKERS FRUIT TO BE DISCUSSED GIVE ALLIANCE WORRY

Representatives of Niagara Growers Will Confer With Heads of Companies.

GRIMSBY, Jan. 12.—Niagara Peninsula fruit growers, at their annual meeting here this afternoon, approved the action of the representatives of the Ontario growers, in agreement to cut in two the import duty on grapes, in order that the States may be induced to lower its duty on Canadian apples. The duty on grapes is now two cents a pound.

Another very important matter taken up was the recent victory over the express companies in regard to rates. General Manager of the Canadian Express Co., and General Manager of the Dominion Express Co., have agreed to come to the district to confer with the growers as to a new tariff, satisfactory to the following committee: A. E. Kimmings, Niagara; G. C. Brown, Fonthill; E. Burkhoff, Bartonville.

Growers who attended New York State Growers' Convention at Rochester, N.Y., reported that there it had been demonstrated that an arsenic of lead mixed with lime and sulphur spray would greatly increase its efficiency. The only danger is in getting too strong a mixture, but to overcome this hydrometers to regulate the strength had been arranged. One has been purchased for the Niagara district.

The report of Secretary-treasurer Fisher shows a balance of \$253.13 in the treasury. Regarding annual meeting in February, Prof. Patrick and Whit-geo of Geneva, N. Y., were held in the work of the directors.

A life membership and honorary directorship was bestowed on Dr. Joseph M.L.A. for his active interest in the work of the growers.

The election of directors resulted as follows: Niagara, A. Onslow, H. C. Fisher, William Armstrong, F. A. Gordon, Hudson Usher, Grantham, W. H. Stewart, Robert Thompson, W. C. McCaig, J. H. Parnall, W. A. Briggs, Fred Hamilton, W. C. Bush, Louth, E. E. Rittenhouse, J. H. Hensinger, J. E. Croft, F. Blackie, J. A. Willis, Adam Craik, Ezra Hensberger, Pelham, G. C. Brown, A. Ralton, D. GRAIN GROWERS OF N.S. HOPE FOR RECIPROcity

So Says Prominent Dakotan Who Admits Advantage Would Lie With Uncle Sam.

The western grain growers are no more zealous for closer trade relations across the 49th parallel than their neighbors of the Western States. According to John A. Cleaver, a few days ago, S. D., who is in Toronto for a few days, man in the west and for many years has been connected with public relations in South Dakota. He believes that reciprocity will mean a heavy loss to the United States, although on account of the vast greater number of people in the States he believes his country will be the chief gainer.

Both countries have entered negotiations, he thinks, with the honest motto of mutual betterment and neither country entertains any advantage over the form of an unpolitical permanent tariff commission should be adopted by every other nation. A political permanent commission should be adopted by every other nation, he contends, and that the tariff should be so regulated without when a country becomes unreasonable in its tariff, the other can retaliate, if need be, until the former withdraws.

ANNUAL MEETING

The Home Life Association

The annual general meeting of the shareholders and participating policyholders of the Home Life Association of Canada was held at the offices of the association, in the Home Life Building, Thursday, January 12th, 1911, many shareholders and policyholders being present.

The president, Hon. J. R. Stratton, M.P., occupied the chair, and Mr. A. J. Walker, secretary-treasurer of the association, acted as secretary of the meeting.

I have much pleasure in submitting for your consideration the annual financial statement of the Home Life Association of Canada for the year ending December 31st, 1910, accompanied with a statement of the assets and liabilities and a comparative statement for the period under review.

In so doing, it is a pleasure to be able to congratulate those interested upon a general improvement in the results of the operations of the association—a considerably improved earning capacity of its investments and a general improvement in condition of the interests of the investment and the if not all, of the departments participating in the prosperous financial and commercial association generally sharing in the past year, and which promise to be continued in the year to come. Many of these are worthy of more specific reference.

The improved condition of the standing of the association, as represented by its assets, is shown by the fact that the total of assets including capital not subjected to call, now amount to more than 20 millions of dollars, the exact figures being \$20,277,739.29—an increase of \$158,891.60 over the figures of last year.

The inventory of a company or corporation of a financial character changes in character and form as well as amount from year to year. At the close of 1910, the invested assets of the Home Life Association, amounting in round numbers to \$1,200,000, were composed as follows: First mortgages on real estate, \$487,815.58. Bonds and debentures and collateral, \$287,220.68.

Loans on policies of the association, \$158,893.28. Real estate owned by the association, \$169,708.03. To this may be added cash in banks and on deposit receipts, \$82,459.23 and accounts receivable, \$268.13.

During the year the mortgage account has been strengthened to the extent of nearly \$100,000; the sum of \$21,337 added to the total of municipal debentures and bonds, and a considerable increase has been made in loans on the policies of the association.

The interest earning capacity of the investments of the association are very satisfactory, showing an increase, during the year, of 7.88 per cent.; bonds and debentures five and one-third per cent. (5 1/3 p.c.), and loans on policies five and one-third per cent. (5 1/3 p.c.), the average being eminently satisfactory. The Home Life Building, in which there is at present no vacancy, has maintained its revenue-producing value.

The insurance in force, showing an increase of \$289,799, from \$5,583,901.70 to \$5,873,701.70, corresponding increase, the figures of last year premium income showing an increase of \$1,161.34, from \$204,625.65, and this year \$210,636.99—an increase of \$6,013.34. The legal reserves, which in last year's statement stood at \$329,536.14, now total \$1,047,564.39, a substantial increase of \$717,028.25.

The interest rate again shows an increase, this year to six and one quarter per cent. from 5.99 per cent. in 1909, which places the Home Life Association, in this regard, in the front rank among insurance corporations, and indicates that the investments have been placed with care and judgment.

In the matter of death claims, the showing is the best in the history of the association for several years, the demands being substantially below the estimated expectancy of mortality, in emphasis of the importance of careful selection and acceptance of risks.

The amount paid to meet the expenses of operation is \$1,920.02 less than the preceding account exhibits a continuous, prosperous and healthy condition, the interest payments being promptly met, and the security represented by our mortgages being of a sound and satisfactory character.

The sum written off office furniture, as the real value of the \$2,835.24, more than provides for depreciation, as recorded in the assets. The Home Life Building, as an asset, is gaining in its investment and net revenue-producing value, a further reduction of liability to the amount of \$500 having been made during the past year.

Loans on life policies, recognized as one of the most advantageous forms of life assurance business, have increased, and the interest payments on all undertakings have been unduly and uncompleted death claims to the amount of \$4500. The policy and practice of the association is to pay all claims promptly on the necessary probatory documents being approved by the solicitor of the association.

The invested assets of the association now amount to \$1,196,485.55, an increase of \$154,623.31. These assets are of a character to stand the closest scrutiny in regard to safety, soundness and earning value. During the past year, and in accordance with the insurance department, has also made its examination and inspection covering all securities held by the association, as well as all details of its business operations. In both cases the results were in all respects satisfactory.

CHARITY COMMISSION TO STOP OVERLAPPING

Controllers Will Consider Proposals Will Extend Intake at Once

The matter of organizing an investigating charity commission to supervise the work of charity organizations in Toronto was again before the board of control yesterday. It was in the form of a resolution presented by Controller Spence, that the mayor nominate to the board, to be sent to the city council, the names of several citizens connected with philanthropic and charitable works, which should form the commission. The object of the proposed commission is to coordinate and prevent overlapping in charity work. The controllers decided to go over the correspondence the mayor has received on the subject.

After a wordy warfare between Mayor Geary and City Engineer Rust, the board decided to issue a peremptory order to the latter, to proceed with the work of laying the 500 foot intake pipe. Mr. Rust said it was a physical impossibility to attempt to lay a pipe in Lake Ontario in midwinter. But admitted that the agreement was possible to make some progress on the placing of the T pipe in position. The mayor contended that the idea was in no way impracticable and said that he would make them appear foolish to stop now.

TREAT CONTRACTORS FAIRLY

City Engineers Would Make Provision for Repairs in All Paving Tenders.

Are paving contractors subject to an unfair disadvantage in competing with the city? City Engineer Rust reports to the works committee as follows: "From time to time there have been complaints made that the city and contractors are not on the same footing in regard to the maintenance of pavements after they are constructed, the contractor being called upon to guarantee the pavement for five years, while the city are not in a position to do the same. Last year legislation was applied for to enable the city to retain the full amount of the price tendered by this department for the period of guarantee, charging all necessary renewals or defective portions to this appropriation, and any balance left at the end of the guarantee could be put to the use of the city for repairs on all streets. In this way the appropriation made yearly for repairs would, in the course of time, be constantly increased, I believe, that we were unsuccessful in obtaining this legislation, and I would suggest, if your committee approve the same, that we again make application."

REINDEER PLACED IN CANADIAN LABORATORY

Government Satisfied With Way Dr. Grenfell Carried Out His Undertaking.

OTTAWA, Jan. 12.—(Special).—In the senate to-day, Senator Landry asked if the government had given Dr. Grenfell financial aid to place draught reindeer in Canadian Labrador, and if Dr. Grenfell had not placed the reindeer further aid.

Sir Richard Cartwright said the government had granted such aid, and was satisfied with the manner in which Dr. Grenfell had carried out the undertaking. Further aid would be granted.

On motion of Senator Landry the senate ordered a statement of sums received by the expense of the commission and payments for land.

Senator Loughheed said that the senate had come back from a recess had had some of the personnel of finding a large amount of business ready for its consideration, but had been disappointed, as apparently there was really no sign of anything of the government providing the senate with some work to do.

Looking down upon St. Andrew's College and the homes of Beautiful Rosedale, this is the last home plateau overlooking the city at close range. The advantages of healthful elevation, grand view and quick transportation to the centre of the city have already sold 75 per cent. of these delightful home opportunities. There still remain some very desirable sites for early buyers. Be an early buyer and have a material interest in the remarkable growth of this northern extension of Rosedale.

Prompt action will secure a home-site in Rosedale Heights at the very reasonable prices and easy terms that now prevail. Get complete information and arrange for a motor trip over this property.

#### RIOTING IN BOMBAY

#### The Annual Fracas Between Rival Sections of Mohammedans.

BOMBAY, Jan. 12.—Troops called out today to quell a riot fired several volleys into the crowds, killing eleven and wounding 14 persons. Each year riots mark the celebration of the Muharram, the first month of the Mohammedan year, when trouble is bound to arise between the Sunnites, or orthodox section, and the Shiites, the second great division of Mohammedans.

A great procession was arranged for today to mark the close of the Muharram festival, but this was prohibited by the police. Rioting began and mobs gathered in large force. The police were stoned and found themselves unable to stop the fighting. Then troops were rushed to the scene of the fiercest rioting, and orders were given to fire on the mobs. It is probable that many received minor wounds in addition to the fourteen accounted for. The bodies of the killed lay in the streets for a considerable time after the rioters were dispersed.

#### THE PLAGUE IN MANCHURIA

#### Chinese Government Appeals to Foreign Community for Assistance.

PEKIN, Jan. 12.—Bubonic plague in Manchuria is spreading rapidly. Reports received here state that hundreds of persons are dying every day, and that the number of fatalities is increasing. A French plague expert has succumbed to the disease. The Chinese Government has appealed to the foreign community for assistance in combating the epidemic, and four missionary doctors, one an American and the others British, have volunteered their services.

#### Comb Penetrated Scalp.

LONDON, Ont., Jan. 12.—When crossing the boy street at the corner of Talbot and Dundas-street today Mrs. John Westman of East Dundas-street fell, striking her head on the ground. The comb in her hair penetrated the scalp and caused a serious wound. Her head was also severely bruised.

KINGSTON, Jan. 12.—(Special.)—It is stated that the Ontario Powder Co., which becomes part of the big Montreal merger, will close its office here in a couple of months. Its manufacturing plant at Tweed is also to be closed.

#### Complains of Blank Cheques.

City Auditor Sterling finds the finances of the exhibition board satisfactory, save that he "deprecates the method of leaving cheques signed in blank, from time to time, for the use of the exhibition board." He recommends that in the absence of Manager Orr, some official be given power to sign cheques.

## MAKE DOLLARS BY BUYING LOTS IN

### Only \$100 Each—\$25 Cash—Balance 3, 6 and 9 Months

CALGARY is the leading city between Winnipeg and Vancouver, and has as fine a climate as you can get in the world. It now claims a population of 50,000, and this coming fall will have three railroads instead of one. There is no city in Canada with brighter prospects.

The above illustration shows the location of PASADENA. It is right in the heart of railway activity, and is located in the section that should shortly be dotted with manufacturers' buildings, where they will be convenient to sidings, etc. Free sites are being offered manufacturers in the vicinity of above property and it is claimed that at least four have decided to locate there.

PASADENA lots are being sold at a close figure for a quick sale. Buyers should make from 50 to 100 per cent. on their investment before the present year is gone.

This choice Calgary suburb, PASADENA, is being sold by the owner, J. E. Hammond, who will be at the Walker House, Toronto, for a few days. There are only a limited number of lots for sale, and the owner guarantees every lot a choice building lot. Don't wait until they are all sold. Buy first-hand and let these lots make a good salary for you.

PASADENA! This is the name that the owner wishes to impress vividly upon your memory. In order to do so, he will give \$500 IN GOLD to the buyer of two lots or more in this sub-division who counts correctly or nearest to the correct number of dollar signs on the above sketch, and whose correct or

nearest correct answer first reaches the owner, Mr. Hammond, said prize to be awarded as soon as blocks one to ten, inclusive, have been sold. You may send in one answer for every two lots you have purchased.

Call, write, wire or phone the owner.

### AN UNPROFITABLE REGION

#### Report of Geological Survey on District South of Hudson Bay.

OTTAWA, Jan. 12.—Two very interesting reports on portions of the Northwest Territories southwest of Hudson Bay, have just been issued by the geological survey. They are of especial value to Ontario, on account of the fact that the region comprising which they give information is that part of the unorganized Northwest Territories, formerly part of the district of Keewatin, which Ontario is so strenuously endeavoring to have added to its area.

### LETHBRIDGE BURNED.

LETHBRIDGE, Alta., Jan. 12.—The Balmoral Hotel was burned this morning. The fire started in the boiler-room about 8 o'clock, and nothing was saved from the building. The firemen had a hard time, as the thermometer was more than 30 below zero. The loss is estimated at \$75,000, and the insurance is not known.

### OTTTAWA, Jan. 12.—(Special.)

The railway committee today authorized the C.P.R. to construct a branch line from Guelph Junction on the main line to Windsor, to a point near Hamilton, immediately west of Hamilton Junction on the joint section from Toronto. This projected line is less than 20 miles in length, and will enable the C.P.R. to take its freight from the T.H. & B. to Toronto over its own rails, instead of using the joint section, as at present.

COBALT LAKE AFFAIR

Manager Seymour Leaving—Will Have Surplus of \$60,000.

It is announced from Cobalt that A. P. Seymour, manager of the Cobalt Lake mine for the past 18 months, has resigned his position and will leave the company at the end of this month.

The World got in touch with Sir Henry Pellatt, president of the Cobalt Lake Mining Company, regarding the report, and was informed that M. R. B. Gordon of the Little Nipissing would succeed Mr. Seymour as manager as soon as the position was vacant.

Regarding the statement made in the Cobalt Nugget to the effect that the Cobalt Lake would probably show a surplus in the neighborhood of \$100,000 at the next general meeting, the president stated that this was a little too optimistic.

In reference to the report that the Cobalt Lake had been heavily indebted at the time Mr. Seymour took hold of the mine, Sir Henry Pellatt said that this was an erroneous statement.

The company had some \$37,000 from smelters at that time, and as the new vein had already been discovered, all that remained was to open it up, as which work is in sight in large quantities.

GOOD NEWS FROM BAILEY.

Bailey stock has been exceedingly quiet in the markets dealing in it during the last few days, mainly due to the absence of offerings.

EARNINGS ART HIGH.

The advance in Tretroway on the local markets and the good demand for the shares was due to the report that the company is having remarkable earnings and that mill results are much in advance of those of any time previous in the company's history.
