ated Council of Building Trades Will Quit Work at 5 p. m. To-day in Sympathy With

The immense amount of building going on in Toronto now is to be tied up ia a sympathetic attitude toward the striking carpenters. This was decided upon last night, after nearly four hours of animated discussion by the Federated Council of Building Trades, at a most representative meeting in the Labor Temple. At 5 o'clock to-night the trades, with the exception of the bricklayers and bricklayers' laborers will put away their tools until the carpenters' difficulty with the employers is settled. The trades interested are plumbers, sheet metal workers, plasterers, lathers, steamfitters, painters, electrical workers, stone cutters and mar-

trical workers, stone cutters and marble workers.

The bricklayers, according to the reports from the Labor Temple, are in sympathy with the movement, but cannot go out on account of an agreement with the employers at the settlement of their recent strike, which settlement was to the effect that on receipt of their additional 5c an hour they would not join in a sympathetic strike such as this.

It was a warm night at the Labor Temple, not only from the standpoint of atmosphere, but also from the view of argument. It is understood that the action taken was hardly unanimous, but the decision was greeted with cheers shortly before midnight in the lodge-room, and by the small audience of waiters for the vertict downstairs.

After the meeting the representatives were loth to say anything of the meeting the representatives were loth to say anything of the meeting the representatives. After the meeting the representatives were loth to say anything of the procedure. They seemed to be fairly satisfied. The chairman, Mr. Harris, was tacturn, and only the secretary, Mr. Weese, was willing to give any information, and that was just as to the conclusion arrived at. He hoped an amicable settlement could be reached, and when asked exactly what the action of the council meant said: "It means that the members of the union must abide by the conditions of the 'red card.""

Editor World: As a life-long Liberal, but one who refused to vote for Ross, I have read with much interest your suggestions for a new leader of a regenerated party. At a progressionist let me suggest the name of Rev. D. C. Hossack, who did no small work in holping Liberals in 1905 to assert their manhood.

The World made enquiries in wellnformed Liberal circles yesterday, after the receipt of the above letter, and discovered many signs of leaning toward the Rev. D. C. Hossack, whose famous open letter to George W. Ross during the last provincial campaign is still a political docu-

ment.

Rev. Mr. Hossack is out of the city, but his friends see in him the calibre of man needed by the old-line Liberals in their effort to reorganize the party. It is said, however, that Mr. Hossack has no desire to leave the Presbyterian ministry, where his influence grows greater day by day. Yet it is believed that he could be got to see the matter in the large, as a public duty, which he would hesitate to shirk.

If He Should Lead. One of his most intimate friends said yesterday: "I don't think Mr. Hossack will enter politics as leader of the Liberal party as it is now constituted. BACKACHE

Pains in the back are the direct result of unhealthy kidneys. And if this important organ of the body is diseased you should "be up and doing."

We imagine we have dyspepsia, heart disease, nervous prostration and a hundred and one ills, but nine times out of ten the real trouble is that the kidneys are so weak and diseased that they are utterly unable to carry the waste matters out of the body, and the uric acid accumulates in the system, and slowly but surely paves the way for Bright's disease, diabetes, blood poisoning and a horrible death in convulsions. courage hands for the harvest. This is \$7.50 less than the usual rate to Toronto, and is understood to be too strong a counter-attraction. The Ontario farmer is therefore likely to be short-handed this season.

Superintendent Southworth had a visit from an Irish gentleman farmer yesterday, one of the class that have been able to live at home until recently. The Land Purchase Act has practically compelled many land owners to sell their property, and the gentleman in question, and two brothers-in-law, having sold their farms, purpose settling in one of the fruit districts of Ontario. They had intended to go to the Northwest, but on application to the Dominion agents at Charing Cross. London, were recommended to try Ontario. This may be accepted as a pleasant token of good feeling on the part of the federal authorities.

auticipations, and some inmatience, judging from the magnitude of last night's audicince.

It was a capacity house that greeted the rising of the curtain on Arthur J. Lamb's metogramatic triumph, "Queen of the White Slaves," which, tho popularly called a success, might be more aptry referred to as a combination of successes. To produce this play it requires 16 scenes, each of which in itself is a success.

The plot is a broad one, and could never have been produced so that it would be easy to follow, without the introduction of many scenes. The four acts are very thrilling, each with its hair-raising climax. The first is supposed to be a section of life in San Francisco, in which all the characters appear, including Fong Low lord of a Chinese harem, and a power in the country—president of the Terrible Nine. He becomes infatuated with beautiful young Grace Fawn, whom a traitor friend, seeing an opportunity for big gain, promises to deliver to him in China. They succeed in getting her to China, but are followed by the hero, Bert Hall, and his meagre circle of friends, who, during the remaining three acts of 12 scenes, sip of success many times, only to be foiled over and over again. They are cast adrift in the sea on a raft, picked up by a U.S. man-of-war (here the scene is beautifully worked out), have horrible experiences with the Terrible Nine (a highbinder ring) in the dead man's corridor, and the chainber of death, but at last, thru the ingenuity of Bessie, one of the slaves of the harm, an escape is effected by the U.S. man-of-war Virginian. The presenting company is a splendid one and every "cirtain" was amidst a whirlwind of applause.

NICK WRITES TO EDWARD

King Starts To-Day for Marienbad and Speculation is Rife as to Object of Meeting.

London, Aug. 13.-King Edward and Queen Alexandra returned to London majesty's annual trip to Marienbad, on which he starts to-morrow. The King will cross the channel in the royal yacht Victoria and Albert to Flushing, whence a special train will convey him to Friederichsof, near Weisbaden, Prussia, where he will meet Emperor William on Aug. 15. There has been much

speculation on the political significance of this meeting.

The Pall Mall Gazette says that re-The Pall Mall Gazette says that recently an autograph letter from Emperor. Nicholas to King Edward was brought by special messenger to the Russian ambassy here, and delivered to the King personally by the ambassador, and that at the same time other personal letters from the Russian empress were received by relatives in this country. The Russian emperor's letter to the King is understood to have been a request for advice on the situation a request for advice on the situation in Russia. A reply is said to have been sent, and almost immediately afterwards the meeting between King Edward and Emperor William was arranged.

After the conference at Friederichshof, it is expected that a joint letter
will be sent to Emperor Nicholas, containing the advice of King Edward and
the emperor. Grand Duke Alexis is
staying at Homburg and probably will
represent the Russian emperor if further royal conference should be neces-

ARRESTED FOR BIGAMY

George Burling of Essex County

Detroit, Mich., Aug. 13.-While siting on a street corner last night to keep an appointment with Miss Stella Brady of Maidstone, a small Resort and Escapes.

New York, Aug. 13.—While Oceanic Walk, in the Bowery, at Coney Island, was still crowded early to-day, an unidentified man pulled a revolver and fired two shots into the back of a waiter at Stauch's Restaurant, and then turned the weapon into the crowd and fired four times as quickly as he could pull the trigger.

Four persons were writhing in agony on the board walk when the man fled towards the ocean, threatening any person who would pursue him.

The injured, three of whom may die, are: Thomas Fitzpatrick, 25 years old, of Brooklyn, shot in breast and side, may die; Thomas McDonald, 19 years old, of Brooklyn, shot in back, may die; Annie Smith, 20 years old, of Coney Island, shot in back, may die.

A panic ensued and women were thrown to the walk as men ran over them in an effort to reach a place of safety. The stranger defied anyone to follow him. He had the revolver in his right hand and shouted: "The man who follows me I will kill."

No one ventured to approach him then. He jumped over a railing and vanished in the direction of the ocean. Fully a thousand persons stood at the entrance to the Bowery, and from them a cry swelled that the murderer must be lynched. They broke down all the police barriers and forced their way to the Bowery, over-running the physicians whom the police had summoned. The man escaped.

WON'T EAT IT AT HOME. Kingston Meat Men Send Veal to Toronto.

Kingston, Aug. 13.—(Special.)—On enases are shipped from this city every spring to Toronto. Some of this is known as slink or bob veal by the dealers, and is so immature that the local butchers will not offer it to their customers. Hence it is sent to the big packers, and by them prepared in the form of potted meats.

Thieving Teller Sentenced. Thieving Teller Sentenced.

New York, Aug. 13.—Edward H.

LOCAL FRUIT MARKET.

Monday's deliverles on the wholesale market were comparatively light, while the prices even for the small offerings received was barely enough to whet the appetite of the wholesale market mount. Another lisappointment was the frect that the G.T.R. at the lagt moment failed, as agreed upon, to rush a special fruit train thru to arrive at the wholesale market about 11 o'clock. At a meeting of the express company and the commission men it was urged that the delivery of a train at the hour named would greatly facilitate business generally and do away with much of the delay at present prevailing. The fact that the old order of things was in vogue yesterday, the time appointed for the change, was strongly commented upon. Prices for Lawton berries continue very firm, ranging all the way yesterday, from 7c to 10c per box, while the few odd lots of raspberries went from 7c to 9c. Lemons show a decided upward tendency, selling as high as \$6 per box.

MARKET DULL, WITH NORTHERN NAVIGATION HIGHER.

World Office, Monday, Aug. 13.

The position of the Toronto market to-day was of even greater dulness than that of last week. Few brokers are sitting out the sessions at the exchange, being convinced that there is no likelihood of a surprise at any point in the list. The trend of quotations leads to the inference that real purchases are few and far between and that many quotations are nominal for the issues represented. Room traders are doing nothing. They are prepared to act either up or down in the market, but prefer to remain untrammeled until a more definite cause of action presents itself. Northern Navigation stock was the only issue to distinguish itself to-day, but speculation in these shares is too small to concern the in-and-out trader. The rise in this stock on small transactions conclusively proves that the holdings are still intact and that an opinion exists that the company will be able to pay more than a 6 per cent. dividend The settlement with the Long estate, the addition of two boats to the earning capacity and a proposed increase of 40 per cent. in grain rates after Sept. 1 are points on which much larger earnings are looked for in the present fiscal year.

Mr. Rust looks well after his hurried visit to the other side of the ocean, and he arranged with an English expert to brepare a plan for sewage disposal.

Finding Expected Soon.

Whether the sewage of the city will be poured into the lake or treated at enormous expense in a great reduction works, is now under the consideration of G. R. Strachan, an eminent English engineer, whose finding is expected to be made public perhaps next week. All data bearing upon the sewage situation in Toronto were laid before Mr. Strachan, including the several reports upon the subject made by the city engineer himself. Mr. Rust himself in previous reports favored the construction of a trunk sewer out into the lake. While in England he made another examination of several sewage disposal mination of several sewage disposal ystems, which he inspected about five

amination of several sewage disposal systems, which he inspected about five years ago.

"I found that they were still experimenting with different systems," he said yesterday, "and they had not yet found a system that was in all respects satisfactory. Birmingham has spent \$6,000,000 already upon sewage disposal works. The sewage was at first poured upon a farm which covered some three thousand acres. The present system is one of septic tanks and bacteria beds. When I was over before they were using 'centinuous beds,' but they have now changed to percolating beds. The sewage is spread upon these by a mechanical device known as a revolving sprinkler. These are giving considerable satisfaction, but the cold weather would probably prevent their successful operation here all the year round."

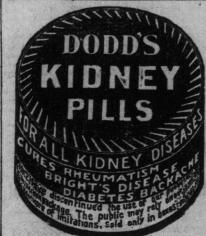

Cause of the Nuisance.

Mr. Rust said some people complained of the septic tanks as a nuisance, but these tanks were not well protected. The tanks proposed to be built at the Woodbine will be different from those objected to in England. They will be covered and on a smaller scale than those in England.

In Manchester the sewage goes from the septic tank thru the primary beds composed of coarse filtering material and then into the river. This is not satisfactory, and another set of beds is being installed for better filtration.

TWO BOYS IN PERIL.

Upset in Lake, Two Miles Out, Early on Sunday Morning.

There was almost a double drowning in the lake about 6 o'clock on Sunday Two boys, aged about 13, "borrowed" a canoe from the beach near Munro

Park. When about two miles out, suf-

ficently to catch the force of the strong off-shore breeze, they were upset. A little angel up aloft must have been watching over their safety, for, as luck had it, Fred Lyon and Bob Rielly were staying on the yacht Vida, and the latter spied the unfortunates. The yacht made quick time to the rescue. One of the youngsters was pretty nearly all in; the other had climbed on to the canoe and was resting more easily.

They refused to give their names.

The canoe was claimed later in the
