At the end of an examination of over three hours, in which Mr. Blackstock, special examiner for the crown, had questioned Miss Florence Kinrade, a witness, as to her visits to various places in Ontario, her friends, her trip to Virginia, her knowledge of revolvers, her friendship for her sister, and a very close recital of the events of the tragedy, he said:

"What do you think became of the revolver?"

"I can't tell." "Do you know the awful solemnity of these questions?"

"You know the awful sin it would be to vary a hair's breadth from the truth?" "Yes."

"And you tell us at this solemn moment and under these solemn circumstances that you don't know who shot your sister?"

"I do not know that man." "Either that man killed her, or else the only persons in the house were you and your sister, Ethel, and if no man was there, only you two girls were left in the house.

Mr. Blackstock probed on and on and on. How did she sleep? What did she do in Toronto? Where had she traveled? Did she stay at Savannah or Atlanta? When was Miss Elliott mar-ried? Had she ever fired a revolver? Did she travel alone? How often did she stay at the Queen's Hotel alone? What was Mr. Baum like? did she sing on spadina-avenue?

Increase of \$15,000,000 Over Last Year's Estimates-Four New "Dreadnaughts" Called For.

LONDON, March 12. - The British naval estimates, which were issued tonight, and show an increase of close to \$15,000,000 over the estimate of last year, possibly will fail to please the big men of the navy, but they fully prove that it is the government's determination to keep pace with the other naval powers, and that no halt is likely to be called in the international comly to be called in the international competition for superior naval armaments. In addition to four new Dreadnoughts, which are to be built as speedily as possible, the government seeks the power to start building, if necessary, in 1910, four additional large armored vessels. The type of these latter ships is not indicated in the estimates, tho it is generally expected that they are to be two battleships of the Dreadnought type and two armored cruisers. Nominations for offices in the Canadian Lacrosse Association close with the secretary W. H. Hall, on April 2, while all notices of amendments must be in his hands by March 30. The list of clubs eligible to have delegates vote at the annual aneetings shows how active were the lacrosse players thruout Ontario.

North End Lacrosse Fan writes: I see it reported and contradicted that the Toronto Lacrosse Club are to play Munro Paik way this summer. If so, not for mine. I -have watched lacrosse up here ever since old Jarvis-street grounds, and if we cannot have the game at Rosedale, I guest the Maitlands and Young Torontos will do for me. If we want a ride to a lacrosse game, we can go to Newmar-Three miles, open—1, J. Tait, West End; a lacrosse game, we can go to Newmarket, and Aurora, not to mention Weston; which is about the same distance as Scarboro Beach. At that, I admire the east end promoters, who are game, if nothing else, and I hope they can pay a distinguish.

Annual Match for Reid Cup Decided on Soft Ice at Pros-

vesterday afternoon for the annual match between the Toronto Caledonians and the Hamilton Victorias for the Reid Cup. The heavy going just suited the local Scotchmen and they were chead thruout, Davis and Milne each losing two on the first end, tho Dixon counted three. The president, with the veteran Miller as vice, president, with the veteran Miller as vice, and John Watson had a merry game on centre ice, the Toronto skip gaining his margin with a brace of twos the fifteenth and sixteenth heads. Three big ends counted Davis no less than ten shots, and that was his total, Skip Rennie being in his best form, even tho the ice was beavy.

"If Johnson is the real champion, why does he challenge me? Champions never challenge anybody!"

When Delaney was informed that Jeff would not consider Kaufman, he said that it was about time that the bollermater made a definite statement regarding a fight with Johnson, and also stated that as soon as Kaufman winds up a theatrical engagement he will be ready to box the winner of the Ketchel-O'Brien bout, scheduled for March 26.

McIntosh Corners Jeffries.

NEW YORK, March 12.—Promoter Mcntosh, who arranged the Burns-Johnson
fight, to-day said that he would be satisfied to arrange for the contest between
Jeffries and Johnson to take place in
either England, France or Australia, but
preferred England. He said his sole purpose in coming here was to see Jeffries
and try to induce him to take on Johnson.
His offer of a \$50,000 purse stood, he declared. McIntosh Corners Jeffries.

His offer of a \$50,000 purse stood, he clared.

"I am satisfied that Jeffries can be trained and brought into fit condition for the fight," said McIntosh. "For him to enter the ring with Johnson without being in the best condition, however, would be extremely foolish, for Johnson is a wonderful fighter. There is no man-living who can beat Johnson without being in the best of condition, and whether he can be beaten at all how remains to be seen. It was hard work to get Jeffries into condition when Jeffries was only 24 years old. It will therefore be an extremely hard matter now, but I am pretty certain that it can be done."

McIntosh said he wanted to arrange for the fight to take place within six board was the state of the fight to take place within six best was to the fight to take place within six best was the state of the fight to take place within six best was the state of the fight to take place within six best was the state of the fight to take place within six best was the state of the fight to take place within six best was the state of the fight to take place within six best was the state of the fight to take place within six best was the state of the fight of the fight to take place within six best was the same of the fight of the fight

for the fight to take place within six months. He added that if Jeffries could be got into fighting condition at all the work of making him fit could be done in

six months. He would not want to arrange a match, he said, unless both men were fit, for he did not believe in giving the spectators at such an event anything less than the full worth of their money. Johnson is perfectly sincere, McIntosh declared, in his expressed wish to meet Jeffries in the ring. "He has said to me, McIntosh quoted, 'I'll fight Jeffries and want to, but he won't fight me,' and has added, 'I can't drag him into the ring.' I said to him, 'If I can get him into the ring then you'll fight, will you?" Johnson's answer was yes, and it is now up to Jeffries."

## More About New Spring Suits, Men!

At 14.00 some exceedingly dressy suits in fashionable new spring shades

One, a sort of an olive, is of an extremely handsome stripe effect material. The pocket flaps are formed of straps of self-buttoning in centre. Fancy cuffs give a jaunty finish to the sleeves. An exceedingly smart looking suit, yet quite in keeping with good taste.

Another comes in new slate shade with effective stripe design. Cuffs on sleeves; vent in back. An attractive new model. Drab and olives in various new striped patterns offer equally

The materials are solid worsted of English make; excellent wearing fabrics. Coats cut single-breasted—all in new models. They have undergone the best of tailoring—the collars felled on by hand—the fronts well interlined with canvas and haircloth.

Here is uncommonly good buying for any man whose spring 14.00 clothing needs call for a moderately-priced suit - -

MODEL Y. 7 PASSENGER 40-60 H.P. \$5450 The Acme of Motor Car Luxury.

### The Reasons for Stevens-Duryea Light Weight

The light weight of Stevens-Duryea Sixes has always been notable. They are decidedly lighter than other cars of the same power and size. In the Big Six the difference is sometimes 1,000 pounds or more.

There are several reasons for this, but most of them are concerned directly with the Unit Power Plant and the Three Point Suspension.

The elimination of the sub-frame and most of the crank-case and gearcase feet means less weight.

Since all parts of the power plant are protected from road strains, they need not be made so strong. saves more weight.

Since the frame does not have to be made heavy and rigid, more weight is saved.

Forty-five pounds are saved in the Big Six Flywheel---six cylinders do a not require a large flywheel.

The two Sixes, however, have an additional advantage, in that for a given power the engine is lighter than that of the Four, and the parts that are affected by the impulses of the engine may be made lighter also.

It is true that there are two more cylinders in the Six, but they are about 50 per cent. smaller than in the corresponding Four. And obviously, lighter gears, shafts, bearings, etc., are needed to withstand 2,000 pound blows than 3,000 pound blows. As a matter of fact, the impulses of the 60 horse-power six-cylinder engine are no greater than those of the Four of 40 horse-power.

Peer Gynt.

Shakespeare gave us the seven ages of man: Ibsen is briefer and in "Peer Gynt" gives us but three phases, yet in that brief span the whole of a life's history is revealed with so vivid a photographic accuracy that the result is almost uncanny. First the youth, flery, impetuous, rollicking, reckless, thoughtless, warped by whims and controlled by his passions. Then the man, a creature of affluence, debonnaire, autocratic and austere. And lastly, the old man, impoverished, with an ill-fitting and shabby cloak, eager to find shelter and comfort, returns to the woman he loves, to discover that she has been waiting his home-coming, ever loyal, still loving him, ready to forgive. This wonderful fantasy will occupy the stage of the Princess for the entire week commencing Monday, March 22.

### BOARD OF CONTROL WILL NOT GIVE TERMS

Reiterates Opposition to Midway Hopes-Will Be Approached Later - County News.

The Village of Chester will, by the ruling of the Railway and Municipal Board, become together with the "midway" part and parcel of Toronto. So said Frank E. Hodgins, K.C., last night, and Mr. Hodgin's familiarity with the long-standing and much

vexed question entitles him to speak with authority.

The northern boundaries as originally proposed went some 450 feet north of Danforth-avenue, but later this was extended to 1040 ft. north of Danworth from the Don Valley to Leslie-street, at that point dropping south again to within 250 or a little less of Danforthavenue, and which is continued to the westerly boundary of East Toronto.

Similarly the southerly limit is 200 .t. north of Queen-street from Greenwood-avenue to the westerly limit of East The board further expressed their sympathy with the implied and ex-pressed wish of the petitioners for some concessions from the city in way of fixed assessments," said

Mr. Hodgins last night. Mr. Hodgins last night.

The board of control yesterday, however, with the idea evidently of heading off any concerted movement on the part of the "midway" people to obtain the concessions suggested, adopted a resolution opposing conditions of any sort whatsoever.

Provincial Treasurer's Budget Speech Favors Direct Taxation for Municipalities.

QUEBEC, March 12. — (Special.) — Treasurer Weir made his budget speech to-day and announced that in the last ascal year the surplus of ordinary receipts over ordinary and extraordinary expenditure amounted to \$1.035.636. They had started the year with a cash balance of \$706,187, against which there were outstanding warrants \$136,921, leaving a balance of \$569,865. They had finished the year with a cash balance of \$1,693,225, against which, however, there were outstanding warrants of \$234,660, leaving at their disposal for the present year a net sum of \$1,148,574. He admitted, however, that such a surplus will not soon october 150,000 and 150 the present year a net sum of \$1,148,574. He admitted, however, that such a surplus will not soon october 150,000 and 150 the present year a net sum of \$1,148,574. He admitted, however, that such a surplus will not soon oc-cur again. The provincial debt of \$25.-600,000 is huge, and the annual interest and sinking fund charges are heavy burdens. He contrasted Quebec's dis-advantage with Ontario in the matter advantage with Ontario in the matter of municipal contributions, showing that in Ontario counties paid direct for their instruction and maintenance of court houses, jails and asylums, and for a large proportion of the cost of administration of justice, borne in this province by the government. Ontario municipalities had also paid millions of dollars in railway subsidies, while in Quebec the bulk of such subsidies had been paid by the government. He combeen paid by the government. He com-batted the national cry of free lots for free settlers by declaring that the pro-vince could not break faith with the vince could not break faith with the lumbering interests without destroying the credit of the province abroad, as well as at home, while if lessees of limits had to be reimbursed, he declared with a full sense of his responsibility, as treasurer of the province, that direct taxation must follow upon the municipalities or else the real estate within their limits. When the treasurer concluded by moving the house into committee of supply Mr. Bourassa rose to criticize the budget and moved an adjournment of the debate.

#### DO YOUR OWN THINKING Advice of President Falconer at Young Men's Banquet.

"We've had our little troubles at the university," said President Falconer speaking at the fifth annual banquet of the Baptist Young Men's Union in College-street church. "It's a sign that we are alive. You can never get rid of your difficulties by sitting on them. Think these things out, and don't be afraid. The trouble with some people is that they have a notion they can get everything cut and dried ready to hand.

A Woman's Sympathy Are you discouraged? Is your doctor's bill a heavy financial load? Is your pain a heavy physical burden? I know what these mean to delicate women—I have been discouraged, too; but learned how to cure myself. I want to relieve your burdens. Why not end the pain and stop the doctor's bill? I can do this for you and will if you will assist me.

All you need do is to write for a free box of the remedy which has been placed in my hands to be given away. Perhaps this one box will cure you—it has done so for others. ## ORIENTAL RUGS CLEANED

"We Make Them Like New"

Rugs need cleaning at least once a year. The deep pile gets filled with dust, and no sweeping or beating can get it all out. The wool itself gets soiled and nothing but washing will make it clean again. Don't try to wash your own rugs, for you might injure the colors as well as warp the fabric. There's only one safe process and that is the PERSIAN PROCESS. It is a process which has to be operated by an expert, and is the only method of cleaning which positively improves the rugs, making them brighter, silkier and more durable. We are the only ones in Canada who understand and are equipped to operate the Persian Process of cleaning. Old rugs that may not look good enough to give the ragman, may be shown by cleaning to be beautiful and valuable. Particulars and estimates cheerfully given. Rugs sent from out of town promptly cleaned and shipped.

specialty bullish operations again seem likely in the stock market to-day, while readjustment occurs during attacks on vulnerable positions elsewhere in the general list. The market as a whole seems to be oversold. It falls to sympathize with specific weakness. Information from responsible sources indicates an expectation of slow rallies. Reports on Interboro preferred and C. & O. continue favorable to improvement in those stocks. The Herald says the Erie must refund equipment notes soon. The pounding of that stock has not been completed, but we think the receivership talk may be dismissed. Southern Pacific, Union Pacific, Great Northern and M. While the market will continue susceptible to tariff talk, more attention, we think, will be paid to unfavorable than favorable forecasts, especially as there will be much debating before anything is finally done and as the market has few bull ear marks. There is too much uncertainty in such important industries as Iron, Steel, Copper and Coal to permit of any successful attempt to secure outside buying at these levels, while the drop in Erie has helped undermine confidence. The latter may rally on short covering, but we believe these securities are destined to sell lower. More gold goes by to-morrow's steamer, and the easy money situation would quickly disappear were there much improvement in business or speculation. Important financing under way will incline banking interests to support the market against raids, but we still regard leading active stocks as short sales on rallies. NO SIGNS OF IMPENDING CHANGE.

World Office, Friday Evening, March 12.

Strength in investment stocks and absolute lethargy in the speculative issues were the two characteristics of the Toronto stock market to-day. There was no room for comment on the market operations. Trading for outsiders in speculative stocks was almost nil again today. It is not improbable that the market is being kept alive by inspired business, and such necessarily constrains floor traders from attempting to take part in the in-and-out operations. The market displays nothing at the moment to lead to the inference that any change HERBERT H. BALL. is impending.

#### IMPROVEMENT APPARENT Weight Has Now Been Lifted Off the Mining Markets.

For the past week it has been apparent to discerning observers that the Cobalt market, after its long period of depression and liquidation, had begun to harden. The pressure of liquidation of long distance option stock has been mainly the cause of the steady the past three or four months. Such a top heavy account in this long dis tance option stock had been accumulated that when forced selling set in the whole market gave way and broke

This necessitous, selling, according to general brokerage opinion, has fin-ally about ceased. There is not more than a remnant of it left, and as this weight is taken off the market it is rising without effort. A few days ago a hardening tendency here and there in the market was noted, and yesterday quite a strong tone was develop-ed. Nipissing advanced to 11 1-8, Nova Scotia ran up to 54 1-2 bid, Peterson Lake rose to 28 5-8. Kerr Lake was strong at 8.25, Little Nipissing harden-ed to 31 1-2 bid, City of Cobalt worked up to 80. Demand for Hargrave again appeared and it closed strong with bids for over 20,000 shares this afternoon. Chambers-Ferland was very strong on account of the recent good discoveries. Brokers are getting in a lot of en-quiries asking what is best to buy. In several of the leading stocks there were large orders that could not be filled. In Nova Scotia there were orders for fully 10,000 shares that were unfilled at the end of the day.

SMASHES ALL TIME-TABLES If Trains Are Forced to Slow Up at

OTTAWA, March 12.-When the Lancaster Level Crossing Bill came back to the senate railway committee this morning A .R. Creelman, for the C. P. R., said:

"East of Fort William we have 720 level crossings in cities, towns and villages, of which 79 are protected. In the west we have 853, of which 5 are There were other crossings in the west which were not level and were protected. Accidents in the west, he said, were rare.

Mr: Creelman produced a letter from General Manager McNicoll of the C. P. to the effect that the Lancaster Bill would necessitate a revision of all timetables, and would result in the If it were not for the inclusion of villages' it wouldn't be so bad.

### Ground Floor Syndicate

I have been watching the development of the new silver fields carefully and trying to get some good property that I could ask my friends to join me with. I find it hard to secure at a reasonable price, property with

fair showing. My judgment is that PROSPECTS carefully selected and offered at reasonable prices are the BEST BUYING. If they make mines the profit is enormous. If they turn out no good the loss is small.

I have a well located claim in Gowganda, quite near the good ones, with good veins, good formation, title right, assessment work done and low price. I am forming a small syndicate of 100 shares of \$50 each to pay for same, and \$1000 of this money will be used to test the claim. If considered worthy after that is expended, a company will be formed and the syndicate holders will be on the ground floor. Write for particulars.

"Business is humming," he said, "and "Business is humming," he said, "and "Chairman Coatsworth said that they chairman Coatsworth said that they compared to the press discussed in a preliminary way the cut of 40 licenses.

"Business is humming," he said, "and everyone seems to be making money. The snow is five feet deep on the level. "Whiskey is being sold, I was informed, at five dollars a bottle.

"Lumber is \$80 to \$90 per thousand feet, brought from Elk City. The mill at Gowganda is running again and lumber is being sold at \$55 per thousand. Ten men are waiting for one who can get his orders filled. The slabs are sold at five cents each and sawdust at five cents each and sawdust at five cents each and sells at 50 cents per double loaf and side bacon at 30 cents a pound.

"But there will be no favoritism, no question of the individual," said Mr. Lamb. "What is done will be on a well grounded and equitable basis."

The chairman Coatsworth said that they had talked over the license reduction, but nothing had been decided. A meeting would be held next week to consider the matter. The meeting would be private.

"We have not formulated our policy yet," said the chairman.

"On the O'Kelly there is a remarkable vein of calcite and silver seven feet wide. The shaft is down about 16 feet, and the ore is running 3000 ounces in silver. The vein occupies a zone of fracture caused by a great anticlinal fold in the diabase. It strikes north and south, parallel with the axis of the fold, and has been traced forty chains, the full length of the two locations. At the surface it shows niccollect chalcopyrite and bismuth, in addition to silver.

## PROPERTIES WITH REAL MERIT

**OPERATORS** The present opportunities for investing in real mining properties passed in the history of the great silver camp. This is but natural under present conditions-every day bringing forth new and valuable discoveries in the great silverland. Our business is to secure these properties direct from the prospectors and men in the field, and our representa-tives on the ground have enabled us to secure some of these on very favorable terms and at reasonable prices. We have a splendid list of properties ranging in value from \$500 per claim to \$250,000. The former are usually claims staked during the winter on which calcite leads are found in the diabase around Obuskong, Spawning and Hanging Stone Lakes. Theso properties are practically undeveloped, and when the snow leaves and real prospecting takes place, may produce some of the wonders in the camp. The higher-priced properties show mineral in place, and range in value according to silver in evidence, location, etc. We endeavor to secure an engineer's report on all silver properties, as well as owners' statement. We also insist on reasonable terms and conditions,

We have the latest maps of Gowganda and Silver Leke districts, as well as all township maps.

We do not confine our efforts to Gowganda and Elk Lake district, but have properties for sale in Coleman, Bucke, South Lorraine, etc.

REAL MINING PROPERTIES

We have been successful in securing several of the best mining properties in the heart of the rich diabase ridge on which the famous mines of Gowganda are situated. These are not snow-staked claims -secured in winter-but properties located last fall when formation and other conditions that mark valuable mining properties were visible to prospectors and mining engineers. Development has proven the merits of these properties, and native silver in quantity is visible to the naked eye. Some of these properties are still in the original owner's hands, and these are claims we believe offer the greatest opportunities to shrewd investors. If you want to buy a real mine at a fair price, we can deliver the same.

The above statements apply with equal force to Silver Lake. James, South Lorrain and other portions of the great silver camp, and real buyers will find it to their interest to consult us before looking

Aside from these properties we have a line of medium-priced claims—properties that show mineral in place—some of which are worthy of more than passing attention. We direct the buyer's special attention to these. All our properties are offered subject to

Among the list of properties offered we have four forty-acre claims adjoining Townsite of Smyth, the surface rights for residential purposes being worth more than we are asking for the whole

We have unexcelled facilities for handling mining properties, and have an extensive clientele, in Canada, the United States and Great Britain. This clientele is daily increasing, and we are desirous that it should. In order, however, to maintain the position of leadership we have established for sale of mining properties, we believe it advisable to state openly so that all claim-holders may understand, the information we have forwarded to many prospectors who have writ-

ten us to sell their claims. j- We must have an owner's state-ment clearly setting forth forma-tion of claim, description and number of veins showing values.

2-Send particulars as to title, giving number of claim and stating number of days' work actually performed. Also if surveyed.

3-Do not have your propositions loaded two or three times their actual value by middlemen and others. We do not and will not offer prop-

we do not and will not offer properties this way.

4—We do not accept for sale all properties offered, and do not demand an option until we have real, buyers in sight.

5—We believe you would make more money out of well-located and undeveloped claims by placing the same under working options. These properties at present sell from \$500 to \$5000. Suppose you place same with real operators who will accept an interest in your property and proceed with continuous development, you reserving an unassessable interest. If it proves to be a mine, you will have an independent fortune—if otherwise, you are only out of pocket cost of staking and recording. We have placed several properties this way, which we consider fair to all parties interested.

The fat cattle went for about 5c per lb. 3rd and 4th inst. The first day of the try, and to some extent blocked the roads. This condition affected the at-

the success of the courses as much as wood, 12 miles to the southwest, and some from Edenvale, 18 miles to the northeast. Good interest was manifested all thru, many questions being asked and warm discussions indulged in more or less frequently.

Gainsboro IV., five years old, sold for \$30. Grasmere Gem, five years, with seven pigs, brought \$40. Four young sows, bred to farrow in April, averaged \$30.50, while Gem sows, bred to farrow in June, brought \$25; young sows, six weeks old, brought \$6 each.

At Creemore. The first forenoon was devoted to seed-judging, under the supervision of Prof. J. Buchanan of the O. A. C. staff. Two samples of oats, one white and the other black, were distributed to the members of the class, who were asked to place them first and second;

also of the College staff, took the class in the judging of beef cattle. The use of the score card was demonstrated with a very fine 2-year-old heifer. A with a very fine 2-year-old heifer. A 3-year-old steer was then brought in for criticism, after which a class of Shorthorn cows was arranged, followed by another of Hereford cows.
When these classes had been judged and reasons given, so that the desir-tions, but upon arrival at North Cot able features were impressed upon the minds of the farmers present, they fine style. The disposal of the farm were returned to the stables, and atmust be a great regret to Mr. Smith. were returned to the stables, and attention was turned to the bacon hog. Prof. Wade discussed the characteristics of the hog that supplied the famous "Wiltshire sides" demanded by the British market. An illustrated comparison was made between the ideal "bacon type" and the "fat type." Then a class of four animals of the former, the bacon type; was brought out for the class to exercise their judgment upon. Needless to say, there was a difference of opinion among members.

must be a great regret to Mr. Smith, as the aeres are admirably located and most productive. Good stock has been kept for a long time here as Mr. Smith's father laid the foundation of his fine herd of shorthorn milkers. The Cotswold sheep and Yorkshire swine were equally good, regarding individuals and pedigrees.

A large crowd assembled, and the eggistence and not eggshumed from cold storage, one that does not eggsture also, and that was in not providof the class, but Prof. Wade, in awarding his placing, gave reasons that enlightened those who had not seen all before. In the evening a meeting, presided over by Samuel Hisey, the popular drover and grain merchant of Creemore, was held in Leonard's Hall, and was addressed briefly in the beginning by R. E. Mortiner, representative of the department of Egriculture for Simcoo County; then by Dr. H. G. Reed

Stable Ventilation. Dr. Reed's subject was "Stable Sanitation," dealing with which, he gave reasons for his belief that the matter of ventilation was being too much ne-glected in the building of new barns, stables and houses. Mr. Buchanan spoke on "Some Interesting Things About Common Plants," showing that the farmer has merely to open his eyes to nature as exhibited all around him, if he wishes both enjoyment and profit.

This concluded the course at Creemore and assurances were coming from every side that the lectures had been most interesting and instructive. Many most interesting and instructive. Many persons were soon interviewing the representative to learn whether he intended to make them an annual affair, but nothing definite was promised, tho the attendance and the interest mani fested were very pleasing to those in charge.

At Alliston. The work of the first morning was taken by I. F. Metcalf, assistant representative of the department at Colingwood, owing to the fact that Prof. Buchanan had to conduct the class at Creemore at the same time. Mr. Metcalf took up the work of oat judging very similarly to the way it had been dealt with at Creemore on the previous morning and gave a very interesting "Common Weed's and Their Eradication," as well.

In the afternoon Prof. Wade took class of about 100 farmers in the judg-ing of beef cattle and bacon hogs. The beef cattle classes were one of two yearling Shorthorn heifers, and one of two 2-year-old heifers, and were conducted similarly to those at Creemore Prof. Wade then gave a brief talk or Treeding and Management of Beef C-ttle, after which a class of hogs was arranged and judged, with rea-

In the evening there were about 125 people assembled in the town hall. Mr. Mortimer, taking the platform, spoke briefly of the pleasure it gave him, as representative of the department of agriculture, to welcome them to the short course. Gamebridge Grange Talks About Soil Fertility—By Studying Soil Progress is Made.

The Gamebridge Grange had a regu lar meeting on Monday evening las in the Sons of Scotland Hall. A fairly ed out and two new ones were received.

"Conserve the Land" was the subject of an address by F. M. Chapman of The World, wherein he dealt with the building up of our farm soils at all times without waiting for poor crops to advertise their depletion of plant food.

"While there are the subject of the work of the work

crep production, such as moisture, heat, light, seed and plant food, an increasing emphasis should be put upon creasing emphasis should be put upon "While there are several factors i creasing emphasis should be put upon the supplies of plant food in the soil. Of course the drainage of the lands, so as to take off surplus water, must be done, and it has its advantages that are not necessary to state here. Suffice it to say that investigators tell us that the heat required to raise the temperature of soil 10 degrees will raise water only one degree.

Climited

only one degree.

"The chief elements in plant food are nitrogen, potassium and phosphoric acid. All soils have some of these in greater or less quantities, and the need of a "balanced soil," is essential to the healthy development of seed.

The speaker dwelt upon the necessity for farmers looking to a more dignifor farmers looking to a more dignified and intelligent comprehension of their calling, as it was one of the most honorable and most practical, as well

their calling, as it was one of the most honorable and most practical, as well as giving the most scope to intellect.

He claimed that in the collection of nitrogen, use could be made of crops for this purpose so that in rare instances need any nitrates be purchased except in special intensive crops. We Ask Judgment on a Further Issue of Our \$25.00 Suits

WE HAVE introduced one set of our \$25.00 Suits for 1909. GETS pretty "hard sleddin'" to pull the average boy through the winter on one suit. We think word of spring suits will prove welcome in many.

They have been seen and criticized. The wordist we hold. They have been seen and criticized. The verdict we hold a family of boys.

To-morrow we bring about twenty more styles to the bar of public opinion -\$25.00 Suits. You know how strong we were in this section of the stock last year. This Spring we have double the stock last year. This Spring we have double the number and variety of last year's showing. Come to-morrow to the number and variety of last year's showing. and see the latest reinforcement to this brilliant series. We await your decision—are they successful Suits in the opinion of Toronto? The materials, we might say, are English Worsteds, all wool
