RUSSIAN ARMY  
WILL KEEP UP  
BIG OFFENSIVE  
Every Prospect Exists for Con-

Advance.  
DISCIPLINE IS GOOD  
Spirit of Men Favors Going  
Forward, U. S. General  
Says.

Petrograd, July 8.—(Delayed.)—The  
Russian army is going to fight. The  
spirit among the troops everywhere is  
excellent. The advance so brilliantly  
begun has every chance for successful  
continuation.

This was the reassuring comment on  
the Russian military situation made  
by Major-General Hugh L. Scott, chief  
of the general staff of the United  
States army, on his return tonight  
from a ten-day tour along the south-  
western front into Rumania. General  
Scott described in detail and with the  
greatest enthusiasm the Russian ad-  
vance of June 11, which he personally  
observed at close range from a point  
near Brzezany.

"Few observers," said General Scott,  
"have had such opportunity of view-  
ing the active operations of any Euro-  
pean army since the war began. When  
we arrived at Tarnopol the Russian  
artillery preparation had been in pro-  
gress nearly 48 hours, but we were in  
time to watch the brilliant climax."  
His remarks were accepted with  
triumph in the automobiles and were im-  
mediately escorted to the trenches. A  
tremendous bombardment was in pro-  
gress and the Austrian lines were be-

GERARD RESIGNS FROM

Washington, July 9.—James W.  
Gerard, former ambassador to Ger-  
many, has resigned from the diplo-  
matic service and returned to private  
life. His resignation was accepted  
some time ago, but the fact was not  
allowed to become known until today.

CALL CONFERENCE  
ON BALKAN POLICY  
Allies Summon Important  
Meeting in Paris at  
Russia's Request.  
TO SETTLE QUESTIONS  
Delegates Will Deal With Im-  
portant Military and  
Political Matters.

London, July 9.—The entente allies have  
decided to hold a conference in Paris for  
the consideration of questions of military  
and political interests in connection with  
the Balkans.  
The subject of an entente conference,  
such as was proposed by Russia, was  
brought up in the house of commons to-  
day. Answering a question on this point  
Foreign Secretary Balfour let it be known  
that the allies have been considering the  
constitution of such a conference.

A declaration issued by the Russian  
provisional government last week said  
Russia's representatives would be in-  
structed to insist upon the application of  
foreign politics of the general principles  
proclaimed by the Russian revolutionary  
government. In this connection the gov-  
ernment deprecated the enforcement of  
the change in the rulership of Greece, re-  
garding interference in the internal af-  
fairs of Greece as not permissible.

GENERAL CHANG HSUN  
RESIGNS ALL OFFICES  
London, July 9.—General Chang  
Hsun, leader of the attempt to place  
the Manchus again on the throne of  
China, has resigned all his offices and  
handed over the administration of af-  
fairs in Peking to General Wang, who  
is a friend of Tuan Chi-Jui, leader of  
the Republican forces. Special de-  
pates from Peking and Tientsin  
said that the fighting between the Re-  
publicans and Imperialists has ceased  
and that the Republicans surround  
Peking.  
The railway station in Peking is held  
by the Republicans and trains are not  
running between Tientsin and the  
Chinese capital.

STREET CAR SITUATION  
STILL VERY SERIOUS  
Neither Side Shows Signs of Yielding, But Mayor  
Calls Special Conference and Compromise  
Is Not Impossible.

Ottawa, July 9.—Hon. T. W. Crothers said tonight that E. N. Compter, an official of the labor department, had gone from Cobalt to Toronto and that he had instructions to do what he could to induce the Toronto Street Railway to continue work and to get them to apply for a board of conciliation.

With the union members standing pat on their 48-hour ultimatum of increased pay or a general walk-out, the Toronto Street Railway Co. vigorously contending that it cannot afford and will not grant the demands, and Mayor T. L. Church working industriously to obtain arbitration, the principal developments in the city street car strike controversy yesterday were these:

1. Mayor Church arranged a conference to be held at 10.30 o'clock this morning in the city hall, at which General Manager R. J. Fleming and other representatives of the corporation; the Toronto Street Railway; Aldermen Joseph Gibbons and W. D. Robbins, James Scott, A. Conn, T. Dulan and H. Johnston, besides President John Kent of the Toronto Board

of Trade, and possibly Premier Sir William H. Hearst and other civic and provincial authorities will be present. A final effort will be made to prevent a strike.

2. The union's committee met officials of the company before the Ontario Railway Board at 2.30 o'clock yesterday afternoon in the parliament buildings in a futile attempt to adjust the differences.

3. President Sir William Mackenzie, of the company's board of directors, went to Ottawa yesterday morning, supposedly to enlist the aid of the Dominion labor department and the Industrial Disputes Investigation Act.

Settlement Not in Sight.  
Twenty-four hours of the forty-eight hours ultimatum of the union expired last night without seeing the termination of the controversy between the railwaymen's organization and the corporation.

Ten Bombs Dropped on  
Krupp Workshops, But  
Result Unknown.

Grand Headquarters of the French Army in France, July 8.—(By the Associated Press.)—The most daring air raid yet carried out against the great Krupp munition works at Essen was recounted to a correspondent of the Associated Press today by Sergt. Maxime Gallois, who defied all the German anti-aircraft defenses and bombed the heart of the German armament-producing factories with high explosives, crossed the German front line twice, flew over many Rhinish cities and reached home scathless.

The whole flight lasted seven hours, during which the daring French aviator was guided only by the moon and stars and the compass, as the voyage was made in the darkest hours of the night, the destination being reached exactly according to plan. Sergt. Gallois narrated his story in the simplest manner.

Rifles Battered Fire.  
"Four of us, Lieut. Ardison de Perdiguer, Sergt. Durand, another comrade and myself left our base at night-fall Friday with the intention of reaching Essen. Soon afterwards we ran each other's rifles, however, rapidly disappeared in the mist.

The batteries fired at me crossing the Rhine, and as I passed over Metz were found guilty of the crime of searchlighting the sky. At Thionville I heard another airplane nearby, but made it out to be Ardis-

London, July 9.—Twenty-two airplanes of the Gotha bombing type, took part in the raid on London last Saturday, Premier Lloyd George announced at the secret session of the house of commons this evening, according to the official account. Three of the raiders were destroyed and six machines of protecting squadrons also were destroyed. Following is the official account of the secret session:

"The premier opened the proceedings by giving briefly an account of the raid. He said 22 airplanes of the Gotha bombing type, carrying about one ton of explosives apiece, came over London. Of the three destroyed, protecting London. Besides this, out of the protecting squadrons which the Germans organized to assist the return of the raiding squadron, six machines were destroyed and one damaged.

"The attack in fact had not been made with impunity. He wished to point out that the fact that the house should get into its mind was that complete protection in the air could never be secured.

"At the front our machines daily are crossing over the German lines, and despite the most terrible German air fire and very powerful German air squadrons, they are yet able regularly to bomb stations and headquarters behind the German lines. This is possible daily in a region where German airplanes and anti-aircraft strength is concentrated most closely. The house should realize that no measure would give complete immunity. The nearest approach to immunity lay in making their visits as costly as they would not become worth the Germans' while. He wished to point out also that during the last four or five months our naval bombing airplanes had dropped

to reunite the majority by Monday, he was thoroughly mistaken. The correspondent of the Fremdenblatt asserts that continuance of the submarine campaign was not questioned for the moment in the debate of the main committee, even in the speech of Herr Erberger. The campaign was discussed merely as a factor in the problem of revision of war aims, in so far as its consequences affect the general situation.

The despatch to the Fremdenblatt should be interpreted in the light of the correspondent's view that the chancellor should retire. Momentous upheaval. The clerical party is the largest in the Reichstag. Hitherto it has worked with the Conservatives in giving the government a majority. Any such move as is indicated by the foregoing despatch would amount to a practical overturn of the first majority.

The Berlin Vossische Zeitung declares that Herr Erberger had a long audience with the Emperor of Austria last week in Vienna. His attitude, the paper adds, is believed to be the direct outcome of that audience. "Hindy" Leaves Berlin. Official announcement is made at Berlin that Field Marshal von Hindenburg and General von Ludendorff, who came to Berlin on Saturday to make a report to Emperor William on the military situation, have returned to headquarters. The two visited Austrian headquarters a few days ago.

Empress William invited the neutral ambassadors and ministers to a conference on Saturday last, according to Berlin reports by way of Rotterdam. PICTON WOMAN HELD. Cora Harrison, of Pictou, Ont., was taken into custody last night by Detectives Montgomery and Croome on a charge of abandoning her two children. Information was sent to local headquarters at Pictou that the woman, with her six-year-old daughter, had come to Toronto, and Detectives Montgomery and Croome were told to watch for them. The children are said to be wards of the Children's Aid Society.

# WAR SUMMARY

## THE DAY'S EVENTS REVIEWED

THE smashing success of the Russians west of Stanislaw, in southeastern Galicia, forms the chief feature of the war news. The Russian attack speedily broke through the strongest line of enemy defence and it carried Jezupol, a small town on the Dniester River, across from Halicz, a five village. The enemy retreated precipitately and disorderly, so that Russian cavalry pursued him to the Lukva river, a small tributary of the Dniester, across the Russian line of advance. Seventeen thousand prisoners were taken by the victorious troops. Forty-eight guns, including twelve of heavy calibre, also fell to the victors. The Russian advance is along the south bank of the Dniester River and, according to the enemy, on a seven-mile front.

The new Russian blow west of Stanislaw, in the direction of Dolina, has the purpose of turning, or getting behind Halicz, in order to compel the enemy to evacuate this important point on the Dniester. Judged by previous standards, the loss of Halicz would compel the enemy to resort to a war of manoeuvre, coupled with a retreat westward to the Carpathians. The fighting is a desperate and well-equipped Russian army in the open field is what the enemy most desires to avoid at this juncture for a smashing defeat in the east when the allies are as strong as they are in the west would be irreparable for the German fortunes. The Russians are also striving to cut in behind the enemy's line of retreat to the Carpathians, so as to secure a grip on this mountain barrier. As the German fight rages on the Danube the further their lines in Galicia have to go back the longer and thinner they become.

The front on which the Russian offensive has begun has a total length of about 275 miles between the Pripiet River and the Carpathians. The Russians, besides, are threatening Pinsk, north of the Pripiet Marshes, as a preliminary for an advance into Poland. The enemy has about 600,000 of his poorest quality troops stationed on the 500 miles of front between the Pripiet River and the Gulf of Riga. Thus he has 600,000 men guarding over 880,000 yards of front, or under five-sevenths of a man per yard; whereas on the western front of about the same length, 500 miles, he feels compelled to mass nearly three men per yard. The value. The Russians would gain much more by advancing into Galicia and Hungary.

In the west and in the south the allies are in the main employing artillery against the enemy. Their infantry remains concealed in its dug-outs and trenches. They are awaiting the attempt of the enemy to transfer to the open field is what the enemy most desires to avoid at this juncture for a smashing defeat in the east when the allies are as strong as they are in the west would be irreparable for the German fortunes. The Russians are also striving to cut in behind the enemy's line of retreat to the Carpathians, so as to secure a grip on this mountain barrier. As the German fight rages on the Danube the further their lines in Galicia have to go back the longer and thinner they become.

This admission of the enemy, designed to break the news to Germany that the submarine has failed to win, has the utmost importance for it reveals the failure of Germany's campaign plans for this year. These were quite plain. They were to intrigue for a separate peace with Russia, a project that went to smash with the revolution; to remain on the defensive in all the other theatres of the war and wait until the submarines had destroyed sufficient of the allied shipping to cut off the allied support from countries over the sea. At first it was thought that three months would see this done, then the enemy at the end of four months extended the time till October. Now his censors and his high command instruct the publication of the news of failure. This is one of the things that have made the Kaiser call a conference. It was really Von Hindenburg that forced Germany to go to war with the United States rather than forego the submarine advantage. He may now be dismissed as chief of staff by the Kaiser.

# PARALLEL GRAND TRUNK FOR COMMON ENTRANCE

## Engineers' Report on Railway Lines May Recommend This as Solution.

Hamilton, Tuesday, July 10.—While the report on the question of a common entrance into this city for steam and radial lines alike has not yet been received, it is understood that Engineer Tye and his assistants, Engineer Causton, and his assistant, Engineer Tye, have recommended that the Grand Trunk street, which would be used, would mean that the proposed new entrance line would practically parallel the Grand Trunk from near Burlington to the present G.T.R. yards, where the tracks would be linked up.

De Wiloughby is still confined in jail here. The statement does not appear to take him back to Boston. The papers show that the Hueber girl is adopted daughter of the wealthy Syracuse contractor.

# COAL SHIPMENTS MAY BE CUT OFF

## President Wilson Issues Proclamation Stopping Exports for Sixty Days.

Special to The Toronto World. The chairman, in opening the meeting, announced that a paper would be filed in two weeks and it is probable that in the interval certain influences will be at work to bring about some change in the organization.

# CANADA AFFECTED

## Unless Something is Done This Country May Go Without.

Considerable agitation was caused in business circles yesterday by the proclamation of President Wilson requiring the licensing of exports, especially of coal. It is believed that the same recognition as that given members of the Canadian expeditionary force who were discharged in Britain without having served on the battle front, did not claim equal privileges with the great war veterans.

At the present time coal is a very scarce article in the City of Buffalo and many other cities are in a bad way for fuel. While the Buffalo dealers are not certain as to how light the embargo will be they are extremely apprehensive and are making strenuous efforts to border a maximum amount across the border in the few days that remain.

It is certain, according to the best information obtainable, that the Buffalo, that any coal coming into Canada after Sunday will come under special license and it is felt that the Canadian Government should lose no time in making arrangements with the proper authorities at Washington to the care of the coal and the many manufacturing concerns in the Dominion that indirectly affect the output of munitions, as well as public utilities and other institutions that have to do with the health, sanitation and comfort of the community.

# BUTCHER BLUE SHIRTS AT SCORE'S \$1.95.

These shirts were formerly \$2.75, but we have a great sale for them. There is solid cotton, in stripes and solid stripes. Some have French cuffs, some have stiff cuffs. There are not all sizes in all the patterns, but the shirts are all sizes in the lot. Just a few dozen to clear at \$1.95. And butcher blue is always a favorite. It is a clean, clean, clean fabric for summer wear. R. Scarce & Son, Limited, tailors and dressmakers, 77 King street west, Toronto.

# GORGE WRECK VICTIMS SEEN IN WHIRLPOOL

## Two or More Bodies Sighted, But Recovery is Very Difficult.

Special to The Toronto World. Niagara Falls, Ont., July 9.—Two bodies are possibly those were sighted floating in the whirlpool today. They are thought to be the bodies of victims of the Gorge wreck. May, an employee of the International Railway, and Mrs. C. A. Reuter, who lives in Deseronto, Ont., were seen by the boatman, who was directly opposite the whirlpool, saw the bodies. They were seen in the whirlpool, and a woman clothed in a light dress. A third object appeared now and then on the surface of the pool, but it could not be determined whether or not it was a body.

# Wm. Tedina, who has recovered many bodies from the whirlpool, is now attempting to recover the bodies of the late hour tonight he had not succeeded. There is a large quantity of drift wood on the pool and the recovery of the bodies is difficult. The sisters in charge of the Canadian Red Cross street today received inquiries concerning Miss Anna Howe of Rochester. Her friend, who she perished in the gorge wreck.

## Discontent Apparent at Meeting of Honorably Discharged Men.

Discontent is apparent at the meeting of the Association of the Honorably Discharged Soldiers in the city. The meeting was held last night at the Central Y. M. C. A. last night. While the members addressed each other as comrades and camaraderie that was implied and, indeed, there were indications of imminent disruption and the association was formed. Men who were heard to suggest that another body be formed that would "conduct things in a businesslike manner."

# OBJECT TO RULINGS

## President's Attitude Resented by Some Members, and Break Imminent.

There was not peace and harmony at the meeting of the Association of the Honorably Discharged Soldiers in the city. The meeting was held last night at the Central Y. M. C. A. last night. While the members addressed each other as comrades and camaraderie that was implied and, indeed, there were indications of imminent disruption and the association was formed. Men who were heard to suggest that another body be formed that would "conduct things in a businesslike manner."

From the outset there were symptoms of disruption. A storm raged outside and there appeared to be a natural tendency inside to conform with the elements. But also discord and disorder were rampant. It was in a subdued form and only manifest on the surface. It only required the necessary spark to give effect to the fiery glances and whisperings of the members. The meeting was held last night at the Central Y. M. C. A. last night. While the members addressed each other as comrades and camaraderie that was implied and, indeed, there were indications of imminent disruption and the association was formed. # CONSCRIPTION BILL MAKING HEADWAY

The chairman then announced that clause four was under consideration. This clause provides for the calling out of the conscripts and punishing those who fail to report for duty or who, after having reported, absent themselves without leave. Sir Wilfrid Laurier asked if deserters would be tried by a civil magistrate or by a court-martial. The bill provided for both. Sir Wilfrid Laurier asked if a conscript is notified to report and fails to appear he will be taken before a civil tribunal. If he reports and afterwards deserts he will be tried by court-martial. Sir Wilfrid Laurier: Who will prosecute? Mr. Meighen: The federal authorities. Mr. Sinclair (Guysboro) wanted to know where the deserters were to be confined. Would they be sent to jails or to penitentiaries? Mr. Meighen: To both. Mr. Morphy (St. Perth), Mr. Glass (N. Middlesex) and other government supporters suggested against the mildness of the punishment. The bill provided for a maximum punishment of three years in prison, but no minimum punishment was prescribed. Mr. Morphy thought it would be a regular picnic for the slackers if it could serve a year or two in prison instead of at the front. He thought the term of imprisonment should be increased to ten years. He wanted a drastic law.

From a Woman's Standpoint

SUMMER has put in an appearance at last, and the holiday hammock swings under the trees. How good it is to subside for a brief while into the sweet state of doing nothing.

There, to begin with, is Robert Louis Stevenson's "Travels With a Donkey." If you have not read it you have a treat in store. His "Inland Voyage," too, has a true holiday flavor in its delightful narrative of his unique canoe trip into Belgium and Northern France--along the very rivers and canals, in fact, that intersect the western battlefront of the present war.

These bright little sketches of the navy in "Naval Occasions" and "The Tall Ship" might well be included. They are by a frequent contributor to Blackwoods. And when it comes to that row of jolly yarns by Stevenson, venture to say that any one of them is capable of keeping you late for your swim or your game of tennis. "A Safety Match," "The Right Stuff," "Happy-Go-Lucky," and "A Man's Man"--they are all brimming with that delightful humor which brightens the pages of the "Junior Sub's" far-famous "First Hundred Thousand."

As for the new books in the stand on the table--that's another story. The Scribe.

MAKERS OF PAPER ARE DOING WELL

United States Commission Reports on Newsprint Cost Here.

PREVENTS COMPETITION

System of Allotting Customers by Manufacturers' Association a Bad Feature.

The costs of producing news print paper, sulphite and ground wood in the principal Canadian mills, as found by the accountants of the federal trade commission of the United States, are published in the commission's final report on the news print paper industry which is now being distributed.

The report shows that the average cost of news print paper during the first six months of 1916 in 10 Canadian mills producing about 75 per cent of the total Canadian production was \$27.45 per ton. The cost in one mill is given as \$25.68 per ton. There is no report as to the increase in cost during the second half of 1916, but it is stated that returns for that period from the principal mills of United States show an average increase of \$1.50 per ton over the cost for the first half of 1916. If the increase in cost during the second half of 1916 was the same in Canadian mills as in the mills of United States, the average cost in Canadian mills would be \$28.95 a ton.

The average cost of sulphite in 8 Canadian mills during the first 6 months of 1916 is given as \$24.85 per ton. It is stated that returns from 15 mills in United States for the second half of 1916 showed an increase in sulphite costs of \$1.75 per ton. The arbitrary figure for sulphite used by the commission for the first six months of 1916 was \$20 a ton.

The commission found that \$10.54 per ton was the average cost of ground wood during the first 6 months of 1916 in 10 Canadian mills. Cost data secured from 35 mills in United States covering all or a portion of the second 6 months of 1916 showed an average increase in cost of ground wood of \$1.06 per ton as compared with the figures for the first 6 months of that year. Many of the Canadian manufacturers in their returns to Commissioner Pringle put in ground wood at the arbitrary figure of \$2 per ton.

The report states that the average profit during the first 6 months of 1916 of 10 Canadian mills producing about 75 per cent of the total Canadian production was 49.54 per cent, or 25 1/2 per cent on the net sales. This was on a net selling price during that period of \$37.88 per ton.

Competition Prevented. The commission finds that competition in the selling of news print paper both in Canada and United States has been prevented by the system of allotment of customers or by the non-interference by members of the news print manufacturers' association with the customers of any of the mills of the second group. This organization includes many of the Canadian manufacturers, and that its executive committee of five members, Geo. F. Francis, president of the Spanish River Pulp and Paper Mills, Limited, and Geo. H. Mead & Company, of Dayton, Ohio (which sells the product of the Canadian mills of the river and the Abitibi companies); J. H. A. Acer, sales manager of Laurentide Company, Limited; E. W. Backus, president of the Canadian Pulp and Paper Company, Limited; and G. H. P. Gould, of Donnanona Paper Company, Limited. These five Canadian companies that directly represent the interests of the news print manufacturers shown to have produced almost 60 per cent of the total Canadian production in 1916. The meetings of the executive committee of the association, it is stated, are held alternately in New York, Montreal and Chicago.

Unreasonable Profits. The commission states that "The increase in prices has been due in part to the fact that free competition has been seriously restricted in the newsprint paper industry. Important manufacturers in the United States and Canada were banded together to secure unreasonable profits."

Considerable information is given in the report in regard to the Canadian Export Paper Company, Limited, of Montreal, whose business Mr. W. N. Tilley, K.C., representing the daily and weekly newspapers in the investigation under Commissioner Pringle, wished to probe. The refusal of Commissioner Pringle to permit that probing led to the withdrawal of the daily and weekly newspapers from the investigation. The federal trade commission states that the organization of the Canadian Export Paper Co. Limited, was urged by the secretary of the News Print Manufacturers' Association, and that it has resulted in the entire suppression of competition in bidding for trade in United States between the five companies interested in it.

Reference is made to two alleged campaigns of the secretary of the News Print Manufacturers' Association to urge manufacturers to take steps to show general and large increases in costs as a justification for proposed sharp advances in prices.

Ask Government Operation. The recommendations of the federal trade commission following an investigation of over a year were announced a few weeks ago. They were, in effect, that the government of United States should operate the news print paper and pulp mills of that country and should ask the Canadian Government to adopt a similar policy in Canada. It was recommended that if the Canadian government could not see its way to adopt that policy the importations of news print paper and pulp into United States should be restricted to imports on account of the United States Government.

Special interest from a Canadian standpoint attaches to the findings of the federal trade commission because four of the leading Canadian manufacturers representing 60 per cent of the total Canadian production were among the signatories to a letter asking the commission to fix the estimated increase in cost during the period from March 1 to September 1, 1917. This letter was dated February 17, 1917, which was over two months after the publication of the preliminary report showing the costs in Canada and in United States for the first three months of 1916. The commission declared its response to this letter that \$2.50 per 100 lbs. l.o.b. mill would be a fair price for roll news in the United States for the six months ending September 1, 1917. The commission had previously found that the cost in Canada was 22 1/2 cents per 100 lbs. less than in United States.

GREAT OPPORTUNITIES

Volume Contains Classified Information and Comparative Tables.

The report of the Special Trade Commission to Great Britain, France and Italy, which has just been issued by the authority of the minister of trade and commerce, is of special interest to all who desire to see Canada maintain her present favorable trade balance and improve herself as an exporting nation. The commission was authorized by the privy council on the recommendation of Sir George Foster, following a visit to Canada by a number of French business men for the purpose of enquiring into the sources of supply for materials needed in the reconstruction of France. These gentlemen expressed surprise at the resources of Canada, and it was apparent that new conditions brought about by the war had opened possibilities not only for greater export but for the supply from France, Belgium and the United Kingdom of many commodities that were previously obtained from Germany and Austria.

The commission consisted of H. Edmond Dupre, Frank Hatheway, Theo. Wardlaw, Frank Paule, Geo. W. Allan and James W. Woods, chairman. Arriving in London on May 30, 1916, the large commercial centres of the United Kingdom were visited, and the various commercial bodies afforded every opportunity of studying conditions. Paris, Bordeaux, Lyons, Limoges, Marseilles and many other cities and towns were visited in France, and a short but interesting visit was paid to Rome, Genoa and Milan in Italy. At all points the commission was greeted and courteously received, and much information was gathered that will have a very large and useful effect in guiding the export and import trade.

The findings of the commission are concisely set forth in a one hundred and fifty page report, many comparative tables and many other appendices. The volume deserves the closest attention of all Canadians.

Canadian Government Employe Now Gives Tanlac Her Endorsement.

TROUBLES OVERCOME

Suffered All Winter With Catarrh - Is Delighted With Improvement.

Mrs. Elizabeth Wilson, who resides on Harding avenue, Weston, and is in the employ of the Canadian Government as inspector of munitions, is another Toronto woman of culture and refinement, whose deep sense of gratitude, and desire to benefit other sufferers, will not permit her to remain silent in regard to the wonderful results she obtained thru the use of Tanlac. Mrs. Wilson has lived in Toronto for twenty years. Her statement follows: "Since the early part of last winter I have suffered a great deal with catarrh. My nasal passages felt raw and irritated all the time; my throat was dry, and my head felt stopped up - just like a severe cold. I had dull, throbbing headaches that kept me awake for hours many nights. My appetite is much better, and I don't suffer with indigestion any more. I simply cannot tell you how much better I feel in every way. My husband is simply delighted with my improvement on Tanlac, and has begun taking the medicine himself."

VETERANS' COLONY WEST OF COCHRANE

Hon. G. Howard Ferguson Says There is No Better Land Under Sun.

COMMUNITY BUILDINGS

Recreation Hall and Co-operative Store Will Be Completed Before Winter.

Hon. G. Howard Ferguson, minister of lands, forests and mines, who returned from the north yesterday where he made an inspection of the training camp for returned soldiers and of the tract of land selected for them in the Township of O'Brien, 67 miles west of Cochrane, gave some interesting information on the progress being made in the provincial government's plan of land settlement for returned soldiers, and incidentally refuted a statement made by a local politician that the land given to soldiers was situated beyond sundown and was all rocks and stumps.

COMMUNITY BUILDINGS

Recreation Hall and Co-operative Store Will Be Completed Before Winter.

Mr. Ferguson stated that the 27 men in training at Monteth will be transferred this week to the banks of the Kapuskasing, where in six weeks thirty houses would be erected and ready for occupation by the soldiers and their families. He had contracted for 200,000 feet of lumber for the construction, which would be shipped to its destination immediately. The National Transcontinental, which runs thru the township, began the survey of a half a mile of siding, the track to run thru the centre of the community, thus affording splendid shipping facilities to the settlers.

COMMUNITY BUILDINGS

Recreation Hall and Co-operative Store Will Be Completed Before Winter.

Mr. Ferguson stated that while he was north he and the members of his party laid out the ground plan of the buildings. Forty or fifty acres in the community had been chopped land and burned over. By fall this land would be cleared up, and cropped next spring for the maintenance of the community settlement.

COMMUNITY BUILDINGS

Recreation Hall and Co-operative Store Will Be Completed Before Winter.

At McPherson station there has already started the nucleus of a little village. Across the river from the village is the Dominion Government demonstration farm of 1,000 acres, which is practically all cleared, 200 acres being under crop this year, with the prospect of 500 acres next year. This farm would be an object lesson in agriculture to the farmers, said Mr. Ferguson, and the village would be 150 or 200 acres around the community buildings. This winter the men will spend their time cutting down the timber, which will be sold to the pulp companies for the betterment of the community. As fast as ten acres on each lot are cleared the men will be located on their own places, the selection to be made on any plot made more to themselves. All the houses front on the river, and each householder is provided with a plot of ground for himself. Large bank house will be built for the single men.

COMMUNITY BUILDINGS

Recreation Hall and Co-operative Store Will Be Completed Before Winter.

A recreation hall, barns for stock, storehouses for supplies, and a co-operative store will be built and ready for use this fall. The men now at Monteth will be transferred shortly, and additional men will be sent to the buildings. This winter the men will spend their time cutting down the timber, which will be sold to the pulp companies for the betterment of the community. As fast as ten acres on each lot are cleared the men will be located on their own places, the selection to be made on any plot made more to themselves. All the houses front on the river, and each householder is provided with a plot of ground for himself. Large bank house will be built for the single men.

AUTOMOBILE BANKS

Unique Suggestion for National Saving Campaign.

Motor cars, equipped as banks traveling from one end of the United Kingdom to the other, was one of the methods suggested to the British Government for securing national savings for Government loans. The country was to be mapped out in suitable areas with a car allotted to each area. The motors were to carry notices that the cars had been commissioned by the Government for use as Motor Saving Banks and other appeals urging the necessity for national thrift, announcing the rates of interest on the Government bonds, etc. It was felt that by such methods the attention of every individual would be riveted upon war needs. Without adopting such dramatic methods the National Service Board is appealing to all Canadians to practice economy. It wants every man and woman to save every possible cent and invest the savings in War Savings Certificates. By such collective action millions can be secured for the prosecution of the war. With the financial burden growing heavier every day, such investment is necessary in the interests of the country and of the men at the front. C-13

CASE WAS ADJOURNED.

When the suit regarding the disposition of between \$600,000 and \$700,000, comprising the estate of the late Samuel May, came up before Chief Justice Mabee yesterday, J. Gray, counsel for the plaintiff, Albert May, asked for an adjournment until July 24 in order that R. A. Bonner of Winnipeg might act as counsel. J. F. Holliman, for W. G. Thurston and W. N. Tilley, K.C., for C. F. Wheaton, defendants, were exasperated at the delay, and opposed the enlargement. Ultimately Sir William adjourned the case until September 24, the plaintiff paying the costs, which were fixed at \$52, by August 1.

The fiery Cross from clan to clan, the flaming beacon fires, Are calling all the fighting men, to emulate their sires; Then call the roll and see that all who lose the ball are there. A talkingfest is moral death, and many from it die; But no Canadiana worth his salt can from your slogs fly; Can Rids or Frank, the Jap or Yank our thind' battalions fill? No, none but Canada's own sons our honor's soul can thrill. Who care for green or orange now, who cares for rouge or bleu? The boys who grip the crater's wall have learnt to Dare and Do. The name of God's Manitou in this His land we leave; Your tomahawks must hew the stone to make His Pipe of Peace. Canadians of Albion's tribes your island courage bring, And o'er you may your viking sires their chants in battle sing.

Canadiens of Breton race, and Norman pedigree, The Cross of Christ is heavy now on Sorrows' Galvary; His Crown of Thorns is worn today by His own Little Ones. Whose only shield is Mary's Heart to save them from the Huns. The Hermit Peter calls again, this Crusade needs your lance, Go, join your own Laurentian few, beside the knights of France; Descendants of the voyageurs and coureurs des bois, Prove how your forest pride can match a Cree or Iroquois. Invaders of the Lion's tail to Jericho have led, And from the air, God's babes are slain—what can invasion be? Let politics and parish spite float down the swift Lachine, And vow your hottest, reddest blood, with honor shall be clean. The Fleur-de-lis and England's Rose are wedded evermore—Canadians! Canadians! Strive who shall march before!

To France, Columbia sends her sons, to pay Old Glory's debt, Of chivalry, a million-fold, with thanks for Lafayette; The Eagle's gaze is on the sun, the stary banner waves, Before the men of Grant and Lee, who buried strife in graves; They march with Britons foot to foot—their password "Washington"—Against the old Germanic creed, that God and King are One. The twisters of the Lion's tail to Jericho have led, And Hessian boots no marks have left since George the Third is dead. The Roosevelt trumpet call was heard, and Wilson's final note, Is "Brotherhood to All the Free," like that which Franklin wrote. No double-headed crow can share the Eagle's mountain nest, It shelters exiled millions safe in Freedom's golden west. "We're Laming, Father Abraham, Five Hundred Thousand More," And "Dixie's Land" now thrills the Huns from "Hail Columbia's" shore. —The Toronto World, July 10, 1917.

Relieved of Monster Tapeworm After Doctors Fail

This is Cecil Staub, of Elm St., La Salle, N. Y. One dose of Professor Mulveny's Famous Tapeworm Exterminator did the work quickly, relieving head and all. It measured about 45 centimeters in length, and was found in the stomach of a 73 Niagara St., Buffalo, N. Y., with many others from Buffalo. Prof. Mulveny's office is at 187 Dundas st., Toronto, for Canadian orders.

RUSSIAN MUNITION WORKER IS DISLOYAL

Brantford Socialist Refuses to Honor Poast to King, and Starts Trouble.

Special to The Toronto World. A Russian socialist, employed in the department of a local plant, caused trouble by refusing to honor King, and was expelled from the plant. He was found in possession of a large quantity of munition, which may or may not be on the map. The Germans were comparatively tame, and such as would not offend the feelings of any of the "comrades" unless they were offended on the reflection, on their part, to salute the King and the King's army, and the men, the honor of their shop satisfied, went back to work turning out shells.

NON-COM. INSTRUCTORS LEAVE FOR WINNIPEG

Men From Eastern Canada Will Be Attached to Military District No. 10.

Camp Borden, July 9.—Ten n. c. o.'s from the school of bayonet fighting and physical training of eastern Canada are being sent to Winnipeg as instructors in Military District No. 10.

Sixty-six men returned from the front for permanent base duty were today transferred to Special Service Co. No. 2. Unless some change is made in the policy of the Toronto and York Patriotic Fund committee, these men will cease to draw allowances from the fund from the date of their transfer.

SGT. DUNCAN MACNEIL OF THE CANADIANS

Says Dr. Cassell's Tablets Cured His Dyspepsia Completely.

Sergeant Duncan MacNeil of the Canadian Expeditionary Force, writing from Europe (his home address is 116 Pleasant street, Halifax, N.S.) says: "For six years I suffered from frequent attacks of dyspepsia, often being in bed for days at a time. When he broke out I joined the Expeditionary Force and came to England. I had not been long there, however, when my old trouble returned, and I had to go to hospital. While in hospital a friend told me of Dr. Cassell's Tablets, and I decided to try them. The first box brought such pronounced relief that I continued the treatment. To make a long story short, a complete cure was effected."

AT THE MADISON.

Madame Petrova's soon to great advantage "The Undying Flame" the strong Laaky production which is being shown at the Madison Theatre for the first half of this week. Her versatility is really remarkable and it has seldom been better exemplified than in this picture.

CLARA KIMBALL YOUNG IN "THE RISE OF SUSAN"

Clara Kimball Young has an unusual role in "The Rise of Susan," the feature picture at the Regent Theatre this week. She plays the part of a pseudo countess. Altho somewhat exaggerated, the theme of the picture and the acting of those playing the principal role hold the interest until the final scene. As Susan, Miss Young is first seen as a milliner, who is afforded an opportunity to act as a modiste's model. On this occasion she displays a new and service to impersonate her, and in doing so she captivates a young man whom Mrs. Luckett is desirous of having as a son-in-law. How the plans of the social climber succeed temporarily, and are finally frustrated provides an unexpected denouement.

Excellent pictures, showing the arrival of General Pershing and the headquarters staff of the first United States contingent in France; the "Topical Review" and a good comedy complete the program.

EXCELLENT BILL OFFERS AT THE HIPPODROME

A capacity house greeted the opening performance at the great Hippodrome yesterday afternoon, when the vivid drama of "The Promise," in which the principals are Harold Lockwood and May Allison, shown in the five act Metro film, headed the bill. Built up around the story of a son who is evicted by his father for some escapades, and a girl who rejects him for the same cause, the plot develops thru a series of vivid episodes and graphic scenes of western life from which the youth evolves with the best side of manhood developed and wins his reward in the restoration of the confidence and love of the girl by whom he had for a time been doubted.

The "Melini Five" won round after round of applause, their musical number in which good voices, a variety of instruments, spectacular scenery and operatic and other selections all had part. The ever popular Hawaiian music was featured by Princess Maybelle and capable support. The Johnston Brothers in the "Minstrel" had an entertaining variety act. Some of the best juggling seen on the vaudeville boards was presented by a review by Gen. Pershing and M. Viviani.

TRICKS WITH STOCK WHIP.

A genuine novelty is the feature of the grand vaudeville entertainment at Scarborough Beach Park this week. It is the act of Burt Shepard, who calls himself the "Australian Whip King," and who performs some remarkable stunts with the stock whip, familiar in Australian fiction as the boomerang. Local military bands will give the evening concerts, and there are many films for the open air movies.

CANADIAN CHANGES

Canadian Associated Press Cable. London, July 9.—Capt. H. M. Pease ceases to be attached to the overseas forces. Canada, on return to Canada. The 26th Canadian Battalion is to be known as the 26th New Brunswick Battalion.

Capt. Rev. R. E. Hay (Pres.) has proceeded overseas for duty with the Canadian corps. The following chaplains are posted for duty at Camp Borden, E. H. Young, (C. of E.) to Shorncliffe; S. Hawthorne, (C. of E.) from Shorncliffe to Canadian military hospital, Kirkdale, Liverpool; J. Elliot (Pres.) from Hastings, to Crowborough; W. H. Walker, (C. of E.) from Hastings to Leeds-York Hospital, Canada.

Major Rev. J. C. Davidson, (C. of E.) is granted one month's sick leave on recommendation of medical board. The endeavours to economize food in the military camps continue, and new orders have been given to the Canadian force. Purchases of flour will be restricted so as not to exceed 1-1/2 cwt. per man per week. If plain biscuits are required, they must be purchased in lieu of flour and will be restricted to 2 cwt. per man per week. It is notified officially that standard rations at railway refreshment rooms in England can be obtained by Canadian troops. The meals comprise: One ham or beef sandwich, (meat or fish); one or more plain buttered rolls or four slices bread and butter; one sausage or 2 ozs cheese, one pint tea or coffee or (during licensed hours) 1-2 pint ale.

SUBMARINE SINKS AMERICAN STEAMER

Crew of Massapequa Land on Small Isle Near Brest. London, July 9.—The American steamer Massapequa was sunk on Saturday by a German submarine. The crew was landed at the small island of Seln, off the French coast, 23 miles southwest of Brest.

The Massapequa, 3103 tons gross, was armed with guns mounted by naval gunners. She was built in 1902 at Sunderland, England, and owned by the New York & Porto Rico Steamship Co. She sailed on June 18 from the United States for France, with a general cargo. She was commanded by Captain A. H. Strummel and had a crew of 31 men.

The immediate requirements have been ordered at over \$5,000,000 more than the order placed before the war, and steel cars at an even higher price. It is almost, if not more, for people who are of practical railway realize the difficulties continually faced conditions. This was true in the financial and business demands arising, such as the carrying conditions and war supplies, and above all, the services of the large company's men who are needed for the prosecution of the war work of the railway. The railway management is now in a position to make a plain statement in defence of which I have the best. We are all of time of extraordinary conditions which, while they brought more clearly before the Canadian the strength of the trunk case, still might annoy or ill-feeling which in the conditions now existing in the world it is a paralytic. Victim of Gorge-Route Accident Tells of Her Experiences.

Miss Rachael Belle Simpson, one of the survivors of the tragedy on the Gorge Route, is in Toronto for a few days, the guest of her aunt, Mrs. Wells, 118 Christie street.

Miss Simpson has spent a week in Mount St. Mary's Hospital, Niagara Falls, and as soon as she was able to leave her bed she came to Toronto.

Mrs. Wells, her aunt, was called by telegram, and she came to Toronto on the day on which the accident occurred.

Mrs. Wells referred to the pluck of two members of the 74th Regiment, who worked until they dropped, and were the means of saving many lives.

Several prominent citizens of Toronto, when interviewed yesterday pronounced themselves in favor of the adoption of methods of aerial attack upon German towns and cities as well as English towns.

Rev. P. M. Lamb, St. Cuthbert's, Leeds, is in favor of reprisals but not of the German variety.
