Why, they're all engaged to our girls!"

LONGSHOREMEN MAY RAISE RATES Nothing Decided Yet About Rates for the Coming Winter's Business.

The Longshoremen's Association has not yet considered the question of rates for the coming winter season. Talking with members of the association this morning they said the matter would not come up until the latter part of October. So far as could be learned the feeling seemed to be that the rates charged last winter would be asked again this year, though some are said to be in favor of a higher rate, owing to the increase in living expenses.

NEW YORK, Aug. 29.—James J. Hill came east today on one of his frequent unannounced visits to this city. While reluctant to talk, Mr. Hill let it be known that he was in a pessimistic mood. The country at large, he thought, will not recover from the present state of financial uncertainty and there will be no restoration of confidence on the part of people who have money to invest, he said, until greater trust can be placed in the government's general policy toward corporations and the business world. Out in the west he said, he had noted signs of caution on the part of business men.

(Continued) CHAPTER XXII. A CHANCE ENCOUNTER.

The great terrace of the big hotel at Ouz was thronged with the usual motley crowd which marked the height of its season. Holiday makers reluctantly returning home and lingering for a few days on the scenic heights; others southward bound to linger in Italy; all the fets and jets of the great outward and inward tides of travel.

Far down below Lake Lemna lay, like a burnished mirror, reflecting the crescent sweep of its northern shore, ablaze with the autumn splendors of the vintage, a "golden Horn." Indeed, as the yellow leafage glowed resplendent in the sunset light, in front of the Savoy Alps loomed up in the shadow, a rampart of the deepest indigo, their fantastic outline delicately etched against a sky aquiver with light, into which, closing the picture, the Dent du Midi reared its shattered white crests.

But for many eyes upon the terrace that suspicious frown of frown and light and color was outspread in vain. They were much more occupied with the various groups who came and went, drunk tea or liquors at the many little tables, or who, eagerly followed up by the people, who, though they would have stoutly denied it, were secretly not a little gratified to be seen talking to this man of a world which they could never aspire to enter. Both, however, were too full of one subject to remain silent upon it for long, and presently a word or two on one of these cases of mistaken identity, which occur every now and then, and which chance to be attracting general attention at the time, gave an opening.

strove to focus the object of interest. "Give me—oh!" the murmur passing in to a long-drawn note of blank astonishment, and then the glass hopped away from eye and reduced him to helpless groping.

It was not only their attention, though which had been arrested, but that of all the other occupants of the terrace, though in a less demonstrative fashion, by the entrance of a party of three—a tall, somewhat elderly man, with a slight stoop and an abstracted, indifferent air; a woman, handsome indeed, but even more distinguished by a certain stately grace of air and movement; and a girl—a good many drew a long breath as the sunset light struck upon her hair, kindling it to a sudden glory round the delicate, exquisite face. She moved forward to the parapet, apparently unconscious of all the glances following her, and stood for a moment, a tall, slim figure against the illumined sky.

Ash, who had half risen to join the Stormont party, sat down again. A little time might be more profitably spent where he was, but he shifted his chair slightly so as to intercept a florid frau between himself and them. A paper fluttered from "Henry's" hand. Ash picked it up and restored it, and the old gentleman profuse thanks led to a remark on two, eagerly followed up by the people, who, though they would have stoutly denied it, were secretly not a little gratified to be seen talking to this man of a world which they could never aspire to enter. Both, however, were too full of one subject to remain silent upon it for long, and presently a word or two on one of these cases of mistaken identity, which occur every now and then, and which chance to be attracting general attention at the time, gave an opening.

THE NEW PLAIDS MAKE ATTRACTIVE DRESSES.

Plaid materials have always found their greatest use in children's dresses and this season is no exception to the rule, if we may judge by the number of plaid frocks in the fall lines of children's wear. While there are some very attractive dresses, especially in the jumper style, made of the larger plaids, the small, unobtrusive patterns, miniature Scotch effects designed to be worn to school, are more often seen. The pictured dress is a splendid model for a growing girl, as it is made in one piece from shoulder to hem, being laid in deep plaits at the shoulder to give a fullness to the skirt and confined at the waistline by a stitched tailored belt. It may be made with or without an inner lining, but is usually constructed without it, for in this way the dress in no wise confines the figure of the fast-growing school girl. The skirt of this frock is cut out in a V and shows a chemise of the same color as that in the blue and brown plaid serge. The sleeves are full and gathered into a turn-back cuff of the white cloth with blue braiding. Tiny brass buttons ornament the front of the waist and a large size is used to fasten the belt in front.

STRATHCONA TALKS ON CANADA'S PROGRESS

New York, Aug. 28.—Lord Strathcona, Canadian Lord High Commissioner, reached here this morning on a special train from Montreal, hurried across town in an automobile, and caught the White Star liner, Oceanic for Liverpool, without any too much time to spare. He used the intervening time, however, to receive graciously a number of metropolitan reporters, and told them of the wonderful progress the dominion is making. He predicted confidently that before the close of the century, and perhaps long before, Canada's population would be as great as is that of the United States now.

LORD STRATHCONA.

viewers on the vessel's deck about Canada, her past, present, and future. He said that the Dominion had been called to the other side, as a preliminary to being superseded in his position, as rumormongers had been talking of his resignation. "You can see that I am still the Lord High Commissioner," was all he would say of that growing rumor. "I am not resigned," I came from Morayshire, Scotland, to Canada, seventy years ago, when I was a mere clerk of a boy, ten years old, who had great possibilities, which I soon learned, and have since seen developed. At present her progress is as tremendous as was the wilderness. By the close of the century if not, indeed long before that time, she will have a population of equal to the present population of the United States. Then there will be two great sister countries side by side, living, I hope, in the same positions of amicable regard that characterize their relations now. Canada has possibilities almost unlimited in scope.

The greatest strides that Canada has made have been in agriculture. The great northwest, once the property, entirely of the Hudson Bay Company, to be exploited merely for the furs it could supply, is now cut up into small farms and ranches. In 1870 there was no wheat grown in the North-west. The factors of the Hudson Bay Company had to send to the United States or to the far east Canadian cities for their wheat and other breadstuffs. Last year the North-west produced more than 100,000,000 bushels of wheat and more than 200,000,000 bushels of other grains. It was the same with your Minnesota and other portions of your Northwest, but they developed more rapidly.

"That reminds me of 'Jim' Hill. Oh, yes, I knew him. Thirty years ago he and I were closely allied in various enterprises, especially railroads in Canada and the United States. "What's your opinion of Mr. Hill?" was asked. "I think he's one of the biggest railroad men of the age," said Lord Strathcona. "He has that reputation among railroad men the world over, and it's a terrible pity that he is not here. I would have liked to see him. I tell you, we have come over here to keep you boys

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by the insertion of a catheter into the ear, which carries to the inflamed condition of the mucous membrane a fluid which causes the formation of a new membrane, and the hearing is restored to its normal condition. Hearing will be restored forever, and the cause of deafness cured. F. J. CHENEY & CO., Toledo, O. Sold Everywhere. Take Hall's Family Pills for constipation.

Fruit Cures Constipation

"Fruit-a-lives" cure Constipation because they are Fruit Juices in Tablet form.

Constipation means a disordered liver. When the liver is weak, bile is lacking. And it is the bile—which the liver excretes—that flows into the intestines and moves the bowels. Fruit is the great liver tonic. It invigorates the liver and causes more bile to flow into the bowels. Purgatives, powders and purging mineral waters, never reach the bowels. They irritate the bowels and FORCE them to move. They generally do harm. They NEVER do any PERMANENT good.

"Fruit-a-lives" are fruit juices—in which the medicinal action is many times intensified by the wonderful change which

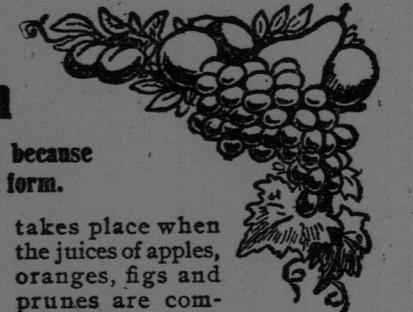

takes place when the juices of apples, oranges, figs and prunes are combined. "Fruit-a-lives" are free from calomel, cascara, senna and other bowel irritants. They are concentrated fruit juices with valuable tonics and internal antiseptics added. "Fruit-a-lives" move the bowels regularly and easily every day—and thus cure Constipation.

They had been attracted to each other from the first. She had a cunning depth in her cheek, and he had two gold-filled teeth. From this they knew that their hearts throbbled in unison.

A CABINET SHUFFLE?

The Ottawa correspondents of the press have been giving out some very interesting statements and surmises concerning the cabinet changes.

For example, the correspondent of the Toronto Mail and Empire says that Hon. Mr. Fisher went to the Thousand Islands at Sir Wilfrid Laurier's request to discuss with Mr. Sifton the question of the latter's return to the cabinet.

The correspondent of the Toronto News declared that Sir Wilfrid Laurier was anxious to have Mr. Sifton, and that western Liberals insisted on his return, on the ground that without his strong hand the government would do as well in the west in the general elections as in the two previous ones.

The Ottawa correspondent of the Montreal Star declared that it was known there "that Liberals of Manitoba and Saskatchewan have for months past been urging the ex-minister of the interior to re-enter the public life, as they recognize that the Hon. Frank Oliver has little political strength outside of Alberta."

The Ottawa correspondent of today's Telegraph and Sun state that it is practically certain that Mr. Graham will be the new minister, along with Dr. Pugsley, and the Telegraph's correspondent says he will run in Brockville, Mr. Derbyshire retiring. Both these correspondents forecast a cabinet shuffle. For example,

The Sun correspondent quotes a report to the effect "that though Dr. Pugsley will succeed Mr. Emmerson it may not be as minister of railways, and that though Hon. G. P. Graham will succeed Hon. Chas. Hyman it may not be that he will be given the portfolio of public works."

POLITICAL NOTES

The Hull Circle of the Alliance Nationale has arranged for a monster picnic to be held on the baseball grounds in Hull on September 15. It is generally understood that Mr. Henri Bourassa, M. P., will be the chief speaker of the day.

At a great Liberal meeting at Bowen's Mill, Pictou County, yesterday, the speakers were R. M. MacGregor, M. P. P., Wm. Chisholm, M. P. P. for Antigonish; E. M. MacDonald, M. P. P. for Pictou; Dr. Beland, M. P. P. for Beauce, Quebec; Alex. Johnson, M. P. P. for Cape Breton, and J. H. Sinclair, M. P. P. for Guysboro.

A meeting of the Conservative members of parliament and officers of the Conservative associations of the counties of Grenville, Dundas, Stormont and Glengarry, was held in Cornwall, Ont., to form a branch of the Dominion Liberal-Conservative Association for this group of counties.

Says the Toronto Mail and Empire—"Mr. Sifton, whose return to the cabinet is being discussed, has just been supplied with his new steam yacht, the finest on the St. Lawrence. For the yacht a special dock was dug on Mr. Sifton's estate at Brockville. The estate has been described in George Graham's paper as magnificent. It cost \$200,000 to get in readiness for Mr. Sifton, and is charming in every particular. This, however, is merely Mr. Sifton's country seat. His town house is at Ottawa, and is said to be rich in the extreme. According to the London Gentleman which described it some little time ago, it shows what wealth and good taste can do when judiciously intermingled."

The Halifax Herald says—"Hon. George E. Foster will address meetings during the week as follows: Wednesday evening at Lunenburg; Thursday, at Yarmouth; Friday, at Kentville; Saturday evening at Amherst. From Amherst he goes to New Brunswick. Local speakers will accompany Mr. Foster in Lunenburg and Yarmouth."

In an interview with a Vancouver paper on his return from Nova Scotia Sir Hilbert Tupper said—"I visited Pictou to thank my old constituents for their support in the Dominion election of 1900, which I had never before had time to do. I represented Pictou continuously in the dominion house from 1882 to 1904. It is true that I have decided to run again in my native province for Pictou county, though I would have preferred to run in this province, where my home is. However, while I was in Nova Scotia tremendous pressure was put on me to run there and this, together with the claims of my old constituents, decided me." Sir Hilbert further stated that his father, Sir Charles, will take no part whatever in the next election. While it is to be supposed that the old war horse of the Conservative party smells the battle afar, his physician will not allow him to speak in public. He is in his 87th year and a weak heart forbids the excitement incident to a political campaign.

**Foraker Attacks Taft's Stand on Tariff Revision.**

CINCINNATI, Ohio, Aug. 24—Senator J. B. Foraker, the leading and, for that matter the only Republican of prominence in the country actively and openly opposing President Roosevelt's politics and the nomination for President of Judge Taft, M. Roosevelt's choice, gave an interview in which he answered portions of Mr. Taft's Columbus speech and stated the point of his controversy with the federal administration.

Senator Foraker will reply to Secretary Taft in full at a speech to be delivered at Georgetown, Ohio. In his interview Senator Foraker said:—

That Secretary Taft is losing ground in Ohio, although if nominated all Republicans will support him.

That his controversy with the President is over the question whether a public servant shall do his own thinking.

That if Secretary Taft is correct in saying that there are evils in the tariff, they ought to be removed at once, without waiting eighteen months.

That the secretary is wrong in saying that any great body of republicans desire the tariff revised either now or eighteen months hence.

That the rate bill, instead of strengthening the Elkins bill, weakens it.

That through an amendment inserted by Senator Lodge, a friend of the administration, the harm was done, and his amendment required proof that an offense was "knowingly" done.

That if the Standard Oil rebate offenses had been committed after this amendment, the word "knowingly" would have cost the United States \$29,000,000 in fines in Judge Landis' court.

That the "unfortunate circumstance" which Judge Taft speaks of in describing the elimination of imprisonment from the Elkins law was made at the suggestion of the Interstate Commerce Commission itself.

**CLEAR STATEMENT OF JAPANESE QUESTION**

**R. G. Macpherson's Article in the Canadian Courier, Setting Forth the Situation in British Columbia at Present.**

(R. G. Macpherson, M. P. in Canadian Courier.)

The Pacific Ocean Province of Canada is the port of entry for the Orient and has a climate in many respects the equal to Japan, China and India, is exceedingly rich in natural resources. Fisheries most abundant; timber wealth enormous; mineral wealth an El Dorado; valleys fertile and all comprising an area of 387,000 square miles; population estimated at 220,000, less than 34 of a person to every square mile.

Japan lies within a fortnight's journey, with a population of 45 millions or 440 persons to every square mile, with a natural yearly increase of over half a million. The Japs are obliged to seek other fields for their surplus energy and population. The average man may say, "Well, that is just what we need in Canada." Granted, but not of a race of people we cannot assimilate. A race of people who send their men only—a race of people who have a skin not colored like our own. The latter may not be a sin, but an unwelcome barrier to intermarriage, and a non-marrying people means a raising of two separate and distinct peoples, of different customs, social and political, as non-assimilative as oil and water.

in the east who views it only from an academic standpoint?

I say the Macedonian cry is going out today from our people here to the east and if that is not heard, I see without the aid of prophecy a day of reckoning ahead, which will not be averted by academic discussion, nor by newspapers of the east calling me a Sand Lot Orator of the Kersey Straps. The subject cannot be disposed of in a short newspaper article, but I am glad of the opportunity of putting some of my views before my eastern brethren through the columns of your excellent publication.

**THE W. & S. BOARD**

Interesting Session Last Night -- Director Murdoch and Union Foundry Co. Disagree About a Casting.

Much of the time at a lengthy meeting of the water and sewerage board last evening was taken up discussing the ultimate fate of a special casting made by the Union Foundry Company and pronounced sound by H. G. Hunter and the makers and condemned by the director, G. H. Waring, sr., expressed with much freedom his views of the director's competency to judge. Eventually the matter was left in the director's hands to settle. He will obtain another casting elsewhere.

A question of discontinuing construction work owing to the cost of labor was referred to the treasury board. A considerable amount of business was transacted. Ald. Frink occupied the chair and Ald. Christie, McGoldrick, Pickett, McGowan, Kelley, Sprout and Willet were present with the director, Mr. Hunter and the common clerk.

J. Wilson applied for the extension of the water main to his lot in Woodville Road, Lancaster, a distance of 300 feet. He expressed himself willing to give the usual guarantee of six per cent on the cost, estimated at \$500.

Ald. Kelley raised a new point in connection with guarantees of this nature by a motion that in future all special contracts should be placed on the records. He contended that in the event of the sale of the properties the city could recover the guarantee against the purchasers.

Ald. Kelley agreed with Ald. Kelley and the motion passed.

On the common clerk requesting Mr. Wilson to bring in the deed of his property he took some exception to his being the first to have to comply with the new rule.

The chairman remarked that the board was always open to profit by past mistakes.

Mr. Wilson then consented and withdrew.

The following tenders for repairs to the cartaker's house at Little River reservoir were opened: J. Pratt, \$1,482; Peter Ryan & Son, \$1,226.29; Thomas Maloney and Edward Grayson, \$1,825. As the limit was \$1,200, none was accepted.

The director reported that the proposed drinking fountain in Main street would cost \$200 and upward.

Much to Ald. Willet's disgust Ald. Christie moved the report be laid on the table. The alderman for Dufferin said his original idea was something costing about \$20. He didn't want a monument. The matter was held over for a further report.

The report of the director on a petition for a sewer in Barker street to cost \$2,000 was laid on the table.

A private telephone from the water office to the director's house was ordered.

The question of repairs to the aqueduct at Union Point to cost \$400 was left to the chairman, director and recorder with power to act.

A report from the recorder and director on a request from St. John Pulp and Paper Company that the city repair the roofs, buildings and dam at the Mispec mill brought out the information that in the lease the company were required to keep in repair "mill machinery and engines," there being no comma between mill and machinery. It was therefore the contention of the company that they had

VERY NATURALLY. She—I wonder who originated the saying "There is always room at the top?" He—Some hotel clerk, I guess.

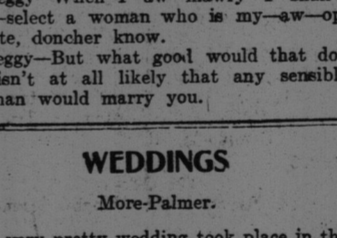

HE WAS NEXT. Katharine—There is never any excuse for ignorance. Kidder—That's right. There were even knight schools in the Dark Ages.

THE SERIOUS MAN—He has six daughters, but he won't let any of them get married. The Joker—Maybe he doesn't want to break the set.

AN INSINUATION. Reggy—When I saw Mary I shall select a woman who is my—opposite, doncher know. Peggy—But what goal would that do? It is at all likely that any sensible woman would marry you.

BOTANICAL RADNAGE. She—Ah, dearest one, when you are gone I shall pine away. He—Tut! tut! Spruce up.

WEDDINGS

More-Palmer. A very pretty wedding took place in the Fairville Presbyterian manse last night when Miss Margaret Palmer of Tabusinat was united in marriage to Edward Bruce More of the C. P. R., West End, by Rev. Dr. A. M. Hill.

The claims committee of the common council met yesterday afternoon and a number of applications before them were advanced a stage. In the majority of cases matters were left over for a decision to be arrived at.

### THE LOG DRIVE ON THE ST. JOHN

River Will Be Cleaner at End of Season Than for Years Past.

(Fredericton Gleaner.)

The last drive which the Messrs. Moore, contractors on the lower corporation for the St. John River Log Driving Company, will have to make is now reported as being about Woodstock. It is said that there is about two million feet of logs in the drive and the contractors are making good progress.

This has been a very successful year for the Messrs. Moore. They have done their work well, and the river will be cleaner of logs this fall than it has been for a number of years past.

At Springhill this year between 15 and 16 million feet of logs have been handled. Of this amount about 9,600,000 feet were river logs, and about six millions were bank logs.

The work at Springhill is now about completed, with the exception of what there is to be done after the next corporation drive comes in.

### THE FORESTERS AND THE ORPHANS

Supreme Councillor Says Recent Report is All Nonsense.

A Kingston despatch of Aug. 26 said:—

"Sweeping changes are about to be effected in the affairs of Foresters' Island, in the Bay of Quinte. The expenses of maintenance have been enormous for about forty orphans, the treating alone costing \$3000 a year. The present changes will result in the transfer of the orphans to the house built for the late Dr. Oromyatekha, and the castle and the orphanage will be rented for a summer hotel. J. C. Morgan, the superintendent of the orphanage, will be given the post of organizer in addition to his present duties."

Referring to the above, W. H. Hunter, supreme councillor, stated to The Toronto World that the only changes he knew about were that during the coming winter the smaller buildings would be used for the care of the orphans.

"It is all nonsense about the buildings being rented for a summer hotel," he said, "and I do not think that \$125 for the care of an orphan for a year is enormous."

### CHESTER MARTIN IS STILL AT OXFORD

Closed His Three Years' Term With Honors—Is Still Studying Hard.

Chester Martin of this city, the New Brunswick Rhodes scholar, has closed his three-year term at Oxford, and took the finals with honors. "He took a very full course, doing much extra work."

After winning the Gladstone prize last year he was invited to read a paper before the Colonial Club at Oxford, and received very high praise for that work. Later he attended by special invitation the dinner at the Hotel Cecil, London, to Lord Milner, and heard the addresses of Lord Milner, Lord Curzon and Mr. Chamberlain.

During his vacation last year Mr. Martin visited his old teacher Prof. Stockley, formerly of the U. N. B., and with him saw the beauties of Ireland. At that time Mrs. Stevens, of Montreal, formerly of Lord Curzon, and Mr. Chamberlain.

Although the term closed two months ago, Mr. Martin is still hard at work at Oxford, and no doubt he will be further heard from in educational circles ere long.
