Canadian Artillerymen Show Their Worth In Fight With Germans

Men From Dominion Win Praise of General French—Latest Arrivals in England Well Housed at Shorncliffe

Toronto, March 10.—The Globe prints the following cable today:

London, March 9.—Messages from France say that the Canadian artillery has proved exceedingly efficient in several duels with the Germans. The Canadian gunners did brilliant work in supporting the infantry in recent encounters, and the Canadians are more than holding their own with the Kaiser's crack Bavarian and Prussian corps.

Other reports say that in action at the end of last week the Canadians inflicted heavy losses on the enemy and that their own casualties were generally light. Warm tributes to the fighting qualities of the Canadian division are paid by General French.

Private Hutchinson, of Caledon, East Ontario, invalided to England, tells me that the Ontario men are in high spirits and taking things easy.

At Shorncliffe, wintry weather attends the second Canadian contingent, who had their first route march today. All are well and comfortably housed in permanent barracks. They will complete their training under all kinds of conditions.

British Destroyer Sends Down U-20

Germans Lose Another Submarine, Making Seventh Since War Began—Crew Surrendered And Will Be Tried

London, March 10.—The German submarine U-20 has been sent to the bottom, according to a statement issued today by the English admiralty.

The submarine U-20 was built in 1913. She had a displacement of 840 tons, and a speed of seventeen knots on the surface and twelve knots submerged. She was equipped with four torpedo tubes.

The submarine, according to the official announcement, was rammed today by the British torpedo boat destroyer Ariel, and went to the bottom. The members of the submarine's crew surrendered and were saved.

The location of the sinking of the submarine is not disclosed. The captured crew will be deprived of all special privileges as was done in the case of the men on board the U-8, and they will be held for trial in connection with the sinking of merchant vessels.

The U-20 probably is the submarine sunk by the British steamer Blackwood.

Equipped with four torpedo tubes, two in the bow and two in the stern comparatively she was one of the largest of the German submarines, the U-8 and U-9 having a tonnage of only 300 and a submerged speed of not more than eight knots. The maximum radius of boats of the U-20 type has been given in marine authorities at 2,000 miles.

The loss of the U-20 marks the seventh German submarine to be destroyed since the beginning of the war, according to the statements given out officially in London. These boats are U-15, sunk by the British cruiser Birmingham in August; U-18, rammed and sunk by a British patrol boat on November 19; and three unidentified submarines, officially declared lost on October 26, October 30 and February 28.

...The sixth submarine to be destroyed was the U-8, which was sunk off Dover on March 4.

BRITISH BOMBS BADLY DAMAGED ENEMY SUBMARINE

Several Batteries on Belgian Coast Also Hit in the Recent Air Raid

London, March 10.—The press bureau reports regarding the recent British raid: Besides thirteen soldiers killed and thirty-five wounded, a submarine was badly damaged at Zeebrugge. Several batteries on the coast suffered greatly and many guns were destroyed. At Knocke an officer was killed and many artillerymen wounded. The bombs did not kill a civilian or touch a house.

POLICE COURT

Frederick Gauffet, under arrest on a charge of creating a disturbance in the home of L. M. Gordon, Queen street, on Monday night, pleaded guilty and was sent below.

The case against Michael Harley for allowing fighting in his saloon, and also for interfering with Policeman Corbett was disposed of. The magistrate fined him \$80 for each offence.

Three men arrested on drunkenness charges were fined \$8 or two months in jail.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.

Synopsis—An important disturbance has developed off Newfoundland and snow has fallen in Cape Breton while in all other parts of the Dominion the weather has been fine.

Maritime—Northwest winds; fair to night and on Thursday; not much change in temperature.

New England Forecasts—Fair tonight and Thursday, moderate to fresh north-west winds.

IDLE REPORTS WHICH AFFECT TRAVEL HERE

Again Publicity Given to Story That Americans Must Have Passports on Coming to Canada

Just what ground there is for the statement is not known, but a report in a recent issue of a Boston paper concerning travel to Canada is calculated to lessen considerably the possibilities of a development of tourist traffic from the states to this country this year. The report told of it being necessary for Americans planning to visit the Dominion to secure passports from official United States authorities, which would be the only means of permitting their entrance. No announcement to this effect has been made in Canada, and authorities in St. John are entirely unaware of such regulations.

J. V. Lantulum, Dominion immigration agent here, said today that he had no knowledge of any such provision. H. S. Culver, American consul at this port, said that he would be only too pleased to submit a report to Washington, showing that such statements were absurd and erroneous, if it were possible in this way to correct the false impression seeming to prevail in some parts of the states. Aside from the item in the Boston paper to which his attention was drawn by a Times' reporter, Mr. Culver said that a citizen here had told him of a projected visit from a relative in Montana, which the local man had said had had to be deferred because the intending visitor had been told it was necessary for him to procure a passport in order to get into the Dominion. Thirty days would probably elapse before he would be able to secure it.

An effort will be made to have these ideas and statements corrected. There is, apparently, no foundation for them.

THE NAVARRA

H. J. Ganson, who recently purchased the steamer Navarra, which ran aground on the Tusket ledges, N.S., left for there yesterday. He said that a Halifax wrecking company would endeavor to float the steamer and if they were successful they would tow her to Halifax where she would be sold. If they failed the steamer would be broken up and the plates, etc., sold. It is expected that the attempt will be made to float her Thursday.

NEW BATTLE IN PROGRESS TO THE NORTH OF ARRAS

At Least Four Divisions Engaged—French Get Big Guns Over Vosges Passes and Bombard Alsatian Towns Held by Germans

Paris, March 10.—A new engagement between the allies and the Germans is in progress north of Arras, where forces of at least four divisions are engaged. Each side is using a heavy amount of artillery and a long range duel has been in progress for two days across a valley between the heights of Notre Dame de Lorette. The cannonade has been varied with infantry attacks.

Prisoners taken by the French and British on the Arras-Bethune highway include reservists between forty and forty-five years of age, who have recently been brought into the theatre of war from Germany.

In Belgium the Germans have shifted the weight of their attacks from the region south of Ypres to a point between Ypres and Dixmude.

In Champagne the tide of battle is still swinging backward and forward between Souain, Perthes, Les Mesnil and Beauséjour. Almost every day sees a French gain in that region, although some of the German counter attacks have been slightly successful.

Stimulating is in progress north of Souain in Upper Alsace. The French were fortunate in getting a great amount of heavy artillery through the Vosges mountain passes and several Alsatian towns held by the Germans are being bombarded.

Her Course Probably Run; Prince Eitel Puts Into Newport News

Newport News, Va., March 10.—The German auxiliary cruiser Prinz Eitel Friedrich arrived here today, presumably for coal and supplies. She also is said to be in need of repairs and may return here.

She is reported to have 800 French and Russian prisoners of war aboard.

One report says that the Eitel Friedrich was chased to the mouth of Chesapeake Bay by a British cruiser.

ONE SIDE WHITE; OTHER BLACK

While at sea the German cruiser has been painted white on one side and black on the other.

With the Prinz Eitel Friedrich definitely located in an American port, there remain at large on the high seas only three ships of war flying the German flag. These are the Kronprinz Wilhelm, last reported off the coast of Brazil; the cruiser Dresden, last reported after the battle off the Falkland Islands, in Chilean waters; and the cruiser Karlsruhe, last reported as operating in the West Indies. One report said that the Karlsruhe had been successful in reaching home waters.

Mine Sweeping in Dardanelles Preparing For Another Attack

Athens, March 10.—During the bombardment of the Turkish forts on the Dardanelles, on Tuesday, four shells fell upon the French battleship Suffren and six upon the British battleship Lord Nelson, according to information received here today. The extent of the damage caused by these shells, is not known. Mine sweeping operations continue and when they are completed, a combined attack will be launched against Killid-Bahr.

REAR ADMIRAL IS NEARLY HIT

Paris, March 10.—A fragment of a Turkish shell fell at the feet of Rear Admiral Guédrappe, commander of the French division operating in the Dardanelles, as he was directing the operations of the battleship Suffren, which had executed a daring manoeuvre by penetrating the extreme limit of the mine fields, says a Tenebris despatch to the Petit Parisien, and adds that several shells are reported to have struck the warship, but the correspondent makes no mention of her having been damaged.

After yesterday's operations, says the despatch, the crew of the battleship Gaulois was warmly praised by Vice-Admiral Carden, for assistance lent in the reduction of the Dardanelles redoubt. Powerful Turkish batteries were silenced by the Gaulois, which was herself struck by two six inch shells, although the damage done is declared to have been insignificant.

Operations of the French warships have been delayed for a few hours by the necessity of taking aboard coal and ammunition.

The New York Anarchist Bomb Plot—Figures In Frustrated Scheme to Wreck Church and Kill Millionaires

Three clever detectives, resorting to the disguises of dime novel sleuths, frustrated a gigantic bomb plot to wreck St. Patrick's cathedral in New York and kill the Rockefellers, Carnegies, Vanderbilts and numerous other millionaires. The detectives, pictured below, from left to right are Patrick Walsh, Jerome Murphy and James Stratton. Walsh and Stratton were disguised as scrubmen and Murphy as a church usher when Frank Abramo entered the cathedral for 7 o'clock mass. He was smoking a cigar and carried two bombs in his hands. Reaching the front of the church he deposited the bombs, touched the lighted cigar to the fuses and was about to leave the church. But the detectives were on him in a moment and took him to the station house. His arrest revealed an anarchist plot to kill the wealthy men. Abramo is pictured above at left. Above at right are two bombs.

Germans Use Liquid Fire Against Russians

Desperate Fighting North Of Rivers Pilica and Vistula

Petrograd, March 10.—"Liquid fire" is being used by the German troops to repel the fierce attacks of the Russian forces in Poland north of the Pilica river. This inflicts severe burns.

The fighting in this district, as well as north of the Vistula, is of desperate character. An official statement today claims some successes for the Russians. Their aviators have successfully attacked with bombs the German positions at Szczecin and Stawiski, between the Bobr River and the East Prussian frontiers.

In the Carpathians, the statement says, Russian forces have captured the commander of an Austrian battalion, eight officers and three entire companies. It is admitted that the Germans have succeeded in rallying their forces at Augustowo and hard fighting is now in progress there. The statement says—"The confusion existing among the German forces operating against us is assuming enormous proportions. We recently found a detachment amounting to an army corps composed of different battalions."

GERMAN FAILURE IN EAST PRUSSIA

London, March 10.—Telegraphing from Petrograd the Times correspondent, dealing with the reported withdrawal of German forces which have been attempting to reduce the Ossowetz fortress, says:

"The retirement of the last of Field Marshal von Hindenburg's armies in North Poland marks the failure of his whole effort in East Prussia. The German raid will doubtless be judged by impartial observers as one of the costliest of the German failures on the eastern front, and as confirming the impression long ago formed here that the Germans, despairing of success on the western front, had staked everything on a chance of victory over the Russians, if not by an invasion of Russia, then at least by harrying a Russian advance toward Berlin."

An Unlikely Report

Rome, March 10.—Although declaring that it considers such an agreement impossible, the *Idea Nazionale* discusses a report that Germany has agreed with Italy that if Austria refuses territorial concessions desired by Italy, no objections would be offered by Germany to an attack upon her present ally, provided Italy did not enter into an alliance with the Triple Entente powers. The newspaper calls such a plan "folly" and says it would mean a betrayal of Italy.

CHECKS FOR I.C.R. MEN AMONG THE SOLDIERS ARRIVE

Their Railway Pay in Addition to Military Checks

Officers to be Present at Opening of House—Recruiting—3rd Regiment Men Called to Meet Colonel Armstrong Tonight

GOING TO FREDERICTON

The members of the local military units who were formerly employed with the I. C. R. were recipients of substantial pay checks from the railway headquarters today, covering the period during which they have been in uniform. Full time has been granted them during their tenure of service in addition to their allowance from the militia department.

Today's Drill

Some forty horses have been placed in the service of No. 5 Company, C. A. S. C. in West St. John and these are being made use of in connection with their daily drill. Training today with this unit as well as with the 26th was in the neighborhood of the barracks.

MR. ADAMS' SUGGESTION RE MONUMENTS IN OLD BURYING GROUND

A suggestion for the improvement of conditions in the old burying ground given by Thomas Adams, town planning expert, may lead to some action. His attention was drawn to the graveyard and the monuments which are falling into disrepair as he was passing and he asked if it would not be possible to have all the upright stones laid flat in beds of concrete. This would prevent their destruction and make it easier to read and preserve the inscriptions which are of particular interest on account of the number of Loyalists who have found their last resting place there.

EXTENSION OF WATER AND SEWERAGE FACILITIES

A start has been made by the water and sewerage department on the extension of water and sewerage facilities from Cranston avenue to Park street. About twenty-five men already are at work and others will be added as the work is opened up. The mains will run from Cranston avenue along First street to Cedar Grove Crescent, branching there into two lines and running to Park street (Cradle Hill) along which new mains will connect the ends of the branches and thus form a circuit. The installation of these facilities will be an advantage to several houses already built, will open up many new building lots and will make it possible to drain the swampy spot in the hollow.

TO ADVERTISE ST. JOHN

F. W. Sumner, who has been appointed as agent-general for New Brunswick in Great Britain, has written to Mayor Frink expressing his desire to do anything he can to help make known in the old country the attractions which this city has to offer, and offering to make use of any printed matter or photographs which could be furnished. Arrangements are being made to describe a supply of the latest booklets of Frederick of this city.

The Evening Times and Star

ST. JOHN, N. B., MARCH 10, 1915.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE WAR NEWS

One of last night's reports was to the effect that the German chancellor would make a statement in the Reichstag today setting forth the terms on which Germany is willing to make peace.

The British government has given another evidence of its determination to pursue this war to the bitter end by taking over control of the entire engine-ering trade of the country in order to increase the output of munitions of war.

A NOTABLE CHANGE

It is interesting now to recall the fears which existed some five or six months ago in relation to possible achievements of the German navy.

CHILDREN'S AID SOCIETIES

What are the objects of Children's Aid Societies? The question is very well answered in the annual report of the Superintendent of Neglected and Dependent Children in Nova Scotia, as follows:

For Your Lunch at Bed-Time

This, lightly spread slices of BUTTERNUT BREAD, with a glass of milk, or a cup of hot cocoa, will be found delightfully tasty and comforting just before retiring.

Operation Decided On As Only Means of Relief

This is not an isolated case, for we frequently hear from people who have been cured of piles by using Dr. Chase's Ointment.

GREATER ST. JOHN

The town planning commission is wise in its effort to make the boundaries of Greater St. John include a large area east, north and west.

The dentist had just moved into a place previously occupied by a baker, when a friend called.

CHILDREN'S AID SOCIETIES

What are the objects of Children's Aid Societies? The question is very well answered in the annual report of the Superintendent of Neglected and Dependent Children in Nova Scotia, as follows:

For Your Lunch at Bed-Time

This, lightly spread slices of BUTTERNUT BREAD, with a glass of milk, or a cup of hot cocoa, will be found delightfully tasty and comforting just before retiring.

Operation Decided On As Only Means of Relief

This is not an isolated case, for we frequently hear from people who have been cured of piles by using Dr. Chase's Ointment.

LIGHTER VEIN

Keeping Out "Hey, don't you see that fight going on over there, officer? Why don't you jump in and stop it?"

Courage. "That fellow's got courage."

The Silver Lining. "Mother (to newly enlisted son)—Good-bye, and I hope you'll come back safely."

"By jove, I am glad to see you looking so gay and festive!" said Mr. Old-Friend.

Angeline—And so you love me with all your heart? Would you die for me? Edwin—No, dear, I wouldn't.

Angeline—You wouldn't die for me? Edwin—No; mine is an undying affection.

Diamond's Peculiar Position

The South African Diamond Mines are closed. The cutting and polishing industry of Antwerp is ruined.

CHILDREN'S AID SOCIETIES

What are the objects of Children's Aid Societies? The question is very well answered in the annual report of the Superintendent of Neglected and Dependent Children in Nova Scotia, as follows:

For Your Lunch at Bed-Time

This, lightly spread slices of BUTTERNUT BREAD, with a glass of milk, or a cup of hot cocoa, will be found delightfully tasty and comforting just before retiring.

Operation Decided On As Only Means of Relief

This is not an isolated case, for we frequently hear from people who have been cured of piles by using Dr. Chase's Ointment.

AFTER THE RAVAGES OF WINTER

The Man In The Street

Now look out for March winds. The legislature will open in Fredericton this week.

With Germany becoming hard pressed for food, the Prussian Diet is none too safe.

The Unemployed Problem
Today's despatches tell of Sir Max Aitken and J. J. Carrick, Canada's "eye-witness," starting for France to take up their "jobs." By way of an explanatory note something should have been added about a "night-seeing" tour.

Speaking of "jobs," did you ever consider what a soft time the captains of German merchant ships, interned in New York, must be having?

To say nothing of the officers and men of the German navy in the Kiel Canal.

Pardon This One
News despatches: "Flour in Austria jumped to \$50 a barrel because of war," and another, "Austrians seeking information of the enemy offers \$25 for every Russian captured." Hardly likely they're doing a Russian business in either line.

No doubt you've heard something like this before, but we felt we really had to say something about it.

"What's In A Name?"
When the sign was first printed on the door of a dealer in North End it read: "Marriage Licenses," but in some way a few of the letters in the last word have become erased so that it now runs "Marriage Liens." Of course, fellows, you can get 'em just the same—the distinction is merely technical.

Of course they need guards while the legislature is in session; 't's crowd might walk off with the parliament buildings if no one was watching.

Germany's latest ally already is looking more like a goose than a Turkey.

And an alderman in Hamilton, Ont., comes to bat with the suggestion that the common council should wear evening clothes at their monthly meetings, coats of their course of lectures, and the alderman's \$4.55 from a friend in Waterville, N. B., system in St. John a coded hat and per E. E. Lewis.

ADDRESS FILLED WITH VERY SOUND ADVICE

Dr. J. V. Anglin Speaks Before Fairville Brotherhood

A profitable and interesting address was last night delivered before the members of the Fairville Brotherhood by Dr. J. V. Anglin, of the Provincial Hospital, on "The Human Skin, Its Uses, and How to Care for It." The lecture was keenly enjoyed by a large audience, and at the close they showed their appreciation in a hearty vote of thanks moved by David Linton, Jr., seconded by G. W. Macaulay, and tendered by the chairman, Stephen Shaw.

Dr. Anglin dwelt upon the remarkable profits to be derived from the skins of animals, much of the prosperity of Canada today being due to the activities of pioneer settlers in the establishment of trading posts where the skins of fur-bearing animals were bartered for with the Indians. The human skin, while affording no profit like this in a financial sense, was especially when in a healthy state, an asset for which the owner might well be thankful. The speaker then showed by diagrams the formation of the skin, and explained its uses to the body. He followed this by some sound advice as to its care.

The removal of hair was then dealt with. Baldness, said the speaker, was the bane of mankind. In some cases it was due to heredity, but in other cases the falling out of the hair was from natural causes. Brushing, shampooing and massaging were the chief helps to healthy growth. The speaker gave much appreciated practical advice to those present as to questions of hygiene and his address in its entirety was particularly well received.

FOR PROHIBITION IN CANADA WHILE THE WAR GOES ON

Alliance Committee in Ottawa For Meeting With The Government Today

Ottawa, March 10—On Monday Venerable Archbishop Lloyd, of Saskatoon; Rev. H. R. Grant, of New Glasgow, N. S.; and Mr. H. H. Stavers, of Norton, N. B., arrived in the city as a special committee from the Dominion Temperance Alliance Council to make arrangements for a meeting with the members of the government at which matters relating to prohibition would be discussed. The meeting was to be held at noon today. A written invitation was sent to the various members of the commons and of the senate. The Dominion Alliance Council will make three requests:

1.—That a law be placed on the statute books making it a criminal offence for any outside party or company to ship, sell or liquor to any party or company within any province or territory where any law prohibiting the sale of intoxicating liquors is in force.

2.—That an order-in-council be passed forbidding during the present year the destruction of the 150,000 gallons of grain which is annually destroyed in Canada for the manufacture of intoxicating liquors.

3.—That the sale of intoxicating liquors for beverage purposes be prohibited during the war.

AN EXCITING MATCH

By a score of 15 to 10, the Lingley rink routed the Ledingham rink last night—or rather this morning—in the final game for the Estey trophies on Thistle ice. Despite the lateness of the hour, some enthusiasts remained until the last stone had been played, and they were well rewarded for their patience by drawing a port, cutting Ledingham out of an almost certain six end, and converting it into a point for himself.

The play started well for the Ledingham rink, as they secured three points on the first end. At the end of the seventh end Lingley's rink had forged ahead, and the score stood 7 to 4. Good shooting by Currie and Estey tied the score at the conclusion of the eighth end. At this period the excitement ran high, and there was considerable speculation. Lingley's rink then took the lead with three points, but had the margin cut down immediately after, when their opponents scored two. From that on the Lingley rink crept ahead, and soon had six points lead. The match finally ended 15 to 10. Their victory entitles them to the trophies donated by A. W. Estey. The winners were heartily congratulated for their plucky finish as they were forced to win three straight games to clinch the championship of the series. The rinks and the scores were:

H. Stubbs G. L. Warwick
D. Currie Harry Warwick
A. W. Estey T. A. Armouh
T. C. Ledingham L. T. Lingley
Skip 10.

The ice was excellent for this time of year, and became better as the morning approached.

RETURNED HOME
H. C. Groat, superintendent of the C. P. R. Atlantic division, accompanied by his wife and family, returned to St. John today in his private "Home-Mercer," attached to the Atlantic express, from Montreal. Mrs. Groat has been in Cowansville, Que., where she went to join in the celebration of the 40th wedding anniversary of her parents, Mr. and Mrs. R. Curley, of that place. Her mother, Mrs. Curley, accompanied her here today, and will be here for a time.

MONEY WAS IN GOAT LINING

James Hanlon I.C.R. News Agent Fully Cleared

PASSENGER RECOVERS IT

Caddigan Reports That it Slipped Through His Pocket—Young German American is Questioned—Mencton School Bonds

Moncton, March 10.—James Hanlon, a news agent on the I.C.R., who was arrested on a charge of stealing money from James Caddigan, of Buctouche, a passenger on No. 15 express for St. John on last Saturday, has been honorably discharged. Yesterday Caddigan belonged to the news company. He had slipped through his pocket into the lining of his coat.

Hanlon was charged with taking \$24. When he was arrested \$25 was found in a box in his possession, but this amount belonged to the news company.

A young German-American giving the name of Eugene Schlutz, caused a stir about the I.C.R. shops and was obliged to answer a series of questions yesterday in the local police station. He was suspected of being a German spy. He told the police that he was born in Nebraska, of German descent and, being a machinist by trade, was interested in looking through the railway shops. When he made enquiries about securing a pass to go through the shops, suspicions were aroused. He gave no explanation as to his business in this part of the country, except that he was a "victim" of the "sawdust" and expected some day to settle down.

He was very well dressed and spoke excellent English. Before being released by the police, he discussed the war, and declared that he did not believe in war, and he had a friendly feeling towards Canada.

Sunny Bras will soon vote upon the question of incorporation of a petition to Sheriff Willett for a plebiscite is granted. It is proposed to have three wards with two aldermen representing each.

At a meeting of the Moncton School Board last evening tentative plans for the new Aberdeen school, prepared by Architect Brodie of St. John were submitted. It was decided not to deal finally with the plans until a full meeting of the board could be held. The board decided to issue \$45,000 four per cent bonds, maturing on March 1, 1920.

WANT J. N. HARVEY FOR MAYORALTY

Moncton Man Brings Home This Report From Vancouver

A Moncton despatch says that J. Newton Harvey, who some years ago conducted a clothing business in St. John, and who later established a business in Vancouver, is doing well in the western city, and is being urged by friends to be a candidate for the mayorship in Vancouver. A. E. Peters, of Moncton, who has just returned from the western provinces, brings this word. Mr. Peters said that after he left New Brunswick he noticed depression and conditions grew steadily worse until he reached the Pacific coast.

GRAND ORANGE LODGE

Meeting at North Bay—Some One Cuts Down String of Street Banners

North Bay, Ont., March 10.—The grand lodge of the Orange Association of British North America, will get down to business this afternoon. About 600 delegates have arrived. An epoch-making session is expected. Among the many notables present are Major-General Hon. Sam Hughes, Thos. Reesay, K. C. of London; Dr. J. J. Williams, Woodstock, G. M., of Ontario west; William Fitzgerald, Toronto, G.S.; H. C. Hocken, Five small boys, the oldest not more than seven years of age, were standing in the middle of the street and one held a large Union Jack and waved it as the battalion passed by. Colonel McAvity saluted the flag, and the men cheered the lad as each company passed by. The little chaps thought a great deal of the colonel's salute.

YOUTHFUL PATRIOTISM

A patriotic incident occurred in Waterloo street, opposite St. Mary's church, as the 26th Battalion was returning after their route march yesterday afternoon. Five small boys, the oldest not more than seven years of age, were standing in the middle of the street and one held a large Union Jack and waved it as the battalion passed by. Colonel McAvity saluted the flag, and the men cheered the lad as each company passed by. The little chaps thought a great deal of the colonel's salute.

Sealing Steamers Escape
St. John, N.B., March 10.—The sealing steamer Nascope, which took a cargo of seals from Halifax to England returned yesterday from Liverpool, coal laden, and is going to undertake the seal fishery on next Saturday.

Four wooden steamers were caught in the ice near Cape Spear, and almost driven ashore, but ultimately escaped.
