Belfast, Nov. 16.—Fifty armed Sinn Feiners boarded the steamship Minnie Horn, lying in Cork harbor late Saturday night, and held up the crew with revolvers. They searched for arms, firing shots to intimidate the ship's crew and badly damaged the wireless room.

Fate of Harbor Act
To Be Decided By
Council Tomorrow

Time When the City is Unprotected—The Matter of Granite Blocks

It was said in the committee meeting of the common council this morning before the matter of harbor commission is submitted to a plebiscite by the voters, the act will have to be agreed to by a vote of four of the five commissioners. The matter will be taken up at 2.30 tomorrow afternoon before the council meeting.

The estimate for sewerage work in Douglas avenue was increased by \$200, and the estimate for the water main decreased a like amount. This was done on account of the necessity for a larger sewer pipe than that planned. In answer to Commissioner Fisher, the city engineer said that the estimate was ample to cover restoration of the street as far as could be done at present.

Commissioner Fisher asked the council to decide about the offer of Morrison & Newlands to supply granite blocks for \$87.50 a thousand. Even if the contractors could not supply all that were required, the commissioner thought it would be advantageous to accept this offer. He proposed using the blocks for the south and western sides of Market Square and in Prince William street, which could use up more than Morrison & Newlands could supply. The matter will be recommended.

Com. Bullock said that in the police court this morning one of the policemen testified that there was no policeman on duty at seven o'clock in the morning. Commissioner Thornton said that unless there was an increase in the staff this could not be remedied.

WILL BE PREMIER

Prediction of Rev. W. Watson, Ontario Farmer M. P.

Says New Government Wants to Know About Big Newspapers—Declares Commodities Farmers Use Are Controlled by Corporations

Lindsay, Ont., Nov. 17.—Rev. W. Watson, U. F. O. member-elect of the Ontario legislature for North Victoria, at a meeting of the U. F. O. of Victoria county here on Saturday afternoon, predicted that Hon. T. A. Crearer, president of the Grain Growers' Association of the west, and former minister of agriculture in the Unionist government at Ottawa, would be the next premier of the dominion.

This was greeted with hearty applause by the gathering of farmers. Mr. Watson said that he knew the government was going to find out who really owns the big newspapers. The Globe, Star, Telegram, Mail and Empire, and other papers, to see if, when they announce a certain drop in pork and other products, Sir Joseph Flavelle is not behind it all, and getting the price of the salt.

He also said that there was not a single commodity the farmer used or ate that was not controlled by some corporation; but the farmers were organizing and would take their proper place, it would not be necessary for them to take a trip to Ottawa with their hair properly combed, in order to get a hearing, but just as soon as the telephone rang and Ottawa found out that the farmers were on the other end of the line, Ottawa would jump four feet to give attention.

He predicted that the farmers would cut a wide swath for the rights of the people.

NOT READY FOR
COAL CONFERENCE

Operators Not Prepared Yet With Counter Proposal on Wages Matter

Washington, Nov. 17.—The conference of wage scale committees in the central competitive bituminous coal fields was postponed today at the request of the operators, who were not ready to submit a counter proposal to the demands received from the miners on Saturday. Meantime a committee of the operators was framing a reply.

It was said the question of the renewal of work by the miners was one of the matters to be brought up by the operators.

Wyoming miners and operators have received a settlement satisfactory to both parties and the mines will be reopened at once, according to a telegram from the president of the Wyoming Coal Operators' Association. He said the final contract in the Wyoming field is to be based on the agreement reached in the central competitive field.

Washington, Nov. 17.—Operators in the soft coal industry today considered the offer made by the department of justice to enforce more vigorously the federal court mandate against the striking miners and to force resumption of work in those districts where the men walked out on November 1.

The government has not done its full duty in merely requiring the withdrawal of the strike order, several operators declared, pointing out that a general stoppage of production of coal exists in many mines employing union labor.

Notices of the withdrawal of the strike order were sent out on plain paper instead of the official stationery without the organization seal and facsimile signatures of the officers of the United Mine Workers of America, it was said.

FINED FOR GIVING
FALSE INFORMATION
TO THE INSPECTORS

In the police court this morning William Cummings was charged with being drunk and also with giving false information to the liquor inspectors as to where he got his supply. He was arrested on a charge of being drunk and when asked where he got the liquor the inspectors found he got beer from a shop. The inspectors went to the shop and searched but could not find anything. The accused then admitted that he had not \$8 for beer liquor there. He was fined \$8 for being drunk and \$25 for giving false information.

Robert Brown was charged with assaulting his wife. He was fined \$20 or two months in jail.

Harry Andrews, charged with assaulting Mrs. Lottie Spencer in Brunswick street, pleaded guilty. He said that he was under the influence of liquor. He was fined \$20 or two months in jail.

WRECKED IN THE
ST. LAWRENCE

Quebec, Nov. 16.—(Canadian Press)—The three-masted schooner "George S. Bluffs" was wrecked on the St. Lawrence river today. The schooner was on her way up the Gulf this morning, lost her way in a snow storm and piled upon a reef about 100 yards from the lighthouse at Pointe Des Monts.

The St. Lawrence river is today literally strewn with stranded vessels of all kinds. Early today the steamer Rio Neigero went aground about one mile northeast of Pointe Des Monts. Yesterday afternoon a row-boat was capsized in the wake of the P. O. S. Minnedosa near Sorel, and one man was drowned.

London, Nov. 17.—A floating mine was responsible for the sinking last week of the American steamer Council Bluffs, off the coast of Holland, according to advisers received here. All the members of the crew were saved.

A despatch from The Hague last Friday said that two boats containing thirty-six members of the crew of the Council Bluffs had been picked up by a mine sweeper near Terschelling. The Council Bluffs arrived in Rotterdam Nov. 4 from Philadelphia, and presumably was outward bound from that port when she struck the mine.

ALL CLAIM VICTORY IN
ELECTION IN WHICH LADY
ASTOR WAS CANDIDATE

Plymouth, Eng., Nov. 15.—All three candidates in the parliamentary campaign said after the polls closed on Saturday night that they believed they had won, but must wait until November 28 before the result is announced.

Lady Astor believed she had won by a majority of 5,000. The Laborites claimed the election for their candidate, W. T. Gay, by 4,000. The Liberals, while not making any noisy claims, expressed the opinion that Isaac Foot would prove to be the dark horse winner. They based this on the fact that numerous Conservatives did not vote for Lady Astor, on account of her sex and American birth, and also that a certain element among the Laborites switched because of Mr. Grey's espousal of the extremist policy.

Stockholm, Nov. 16.—The evacuation of Omsk by the Russian government, as denied by General Waskoff, according to the Tidningens Helningsöga correspondent. On the contrary, Admiral Kolchak, it is added, has just established connections with the Cossacks advancing from Turkestan.

A Moscow official despatch Saturday stated that Omsk, capital of the All-Russian government, had been occupied by the Bolsheviks and that Kitchka forces were retreating in an easterly direction.

Reval, Nov. 16.—(By the Associated Press)—The position of General Yudenitch's northwestern army, it has been known for many days, has become more serious. Statements by him about future operations have been made to hide the real situation from the public, according to information reaching Reval. The disorganization of his army is daily more evident. The Yudenitch forces are crowded together in a small space near Yamburg.

Bolshevik pressure has been too great to allow Yudenitch to reorganize his forces, and since the loss of Yamburg the situation has become aggravated.

London, Nov. 16.—General Yudenitch has resigned the command of the Russian northwestern army, according to a special despatch to the Daily Mail from Helsinki.

Youngstown, Ohio, Nov. 17.—Miner clashes between striking steel workers and mill workers took place this morning, it being estimated 6,000 men filled the streets near the mill gates. Some men were injured.

Pickets were out in force this morning and for the first time the union organizers themselves were in charge. Mill officials said production increased somewhat today.

MATTER OF PROFITS
ON BOOTS AND SHOES

Subject Before Board of Commerce—Suggestion of Greatest Profit on The Lower Priced Article

Toronto, Nov. 17.—Lieut.-Col. W. B. Price, who has been acting for the board of commerce in connection with the probe into the price of boots and shoes in this city, laid his case before the board here on Saturday and declared that excessive profits were being made.

After explaining how the manufacturers fix their prices (on estimates made several months before the shoes are sold), Colonel Price told the board that prices of various materials have been going up at an alarming rate.

Profits of department stores were too large, the colonel's opinion, and he thought they should reduce their prices in view of their enormous turnover. In one store the net gain in 1918 was more than \$80,000 on boots and shoes alone, and in 1918 the turnover was more than \$8,000,000 and the net profit \$222,000.

To eliminate the extravagant styles, the colonel suggested that the retailers' profit on a high priced pair of boots should be smaller than on a low priced pair. He thought would cause the merchant to push the sale of the latter.

As to profit fixing, he urged that prices be fixed from the factory and to the consumer.

BULLET FLATTENED
AGAINST SHOULDER BLADE

Policeman Stinson Under X-Ray This Morning and That is What Picture Shows

This morning an X-Ray photograph of the wound received by Policeman William Stinson of Fairville last night, showed that the bullet, which seems to be of about .32 calibre, has not flattened against his shoulder blade but it is not Ottawa. The bullet, which seems to be of about .32 calibre, has not flattened against his shoulder blade but it is not Ottawa. Dr. J. H. Allingham, who is looking after the policeman, said this afternoon that he was resting comfortably and he did not expect any serious complications. Mr. Stinson was able to go to the St. John Infirmary to have the photograph taken and then return to his home.

A CHALLENGE IN THE
INTEREST OF GIRLS

Hamilton, Ont., Nov. 16.—The keynote of this conference is a challenge to new things, a challenge to big things, a challenge to difficult things, and most of all, a challenge to bring to the girlhood of the world a knowledge of Jesus Christ and to win the girlhood of the world to the needs of his service," said Miss Iuse Beatty, of Toronto, addressing Saturday afternoon's meeting of the Y. W. C. A. president in session here. The Lady Falconer, Toronto, was in the chair.

FULLER COLLISION ENDS
THE PORTLAND-BOSTON
SERVICE WEEK EARLIER

Portland, Maine, Nov. 16.—Steamer service of the Eastern Steamship Lines between Boston and Portland, was discontinued on Saturday, as was intended because of damage sustained by the passenger steamer Hanson B. Fuller, which collided with the lumber lader Denton's run last night. The schooner, which was abandoned, was anchored today near Highway Rockhouse, by a member of the light-house crew who discovered her floating with sails set and lights burning. Her bow was damaged.

NEW BILLIARDS RECORDS

Cleveland, Nov. 16.—Two world's records of three-cushion billiards were broken here on Saturday by Cliff Denton of Kansas City. He scored fifty points in thirty innings in his match with Byron Gillette of Buffalo in the three-cushion billiards championship tournament, breaking the previous record of thirty-six innings. Gillette scored twenty-three points. Denton also broke the world's record for high runs for match or tournament games by scoring seventeen points in the fourteen innings. The previous record was fourteen points in one inning. Denton's run was within one point of the highest three-cushion run ever scored, eighteen points, made by Pierre Maupome in an exhibition game. This is the first tournament Denton ever played in.

CRISIS IN AUSTRIA

Government Unable to Maintain Power and Republic Liable to Collapse

Berne, Nov. 16.—A serious crisis appears imminent in Austria. Political discontent and the economic distress are arousing the people. The Vienna government, it is reported, is unable to maintain its power, and the republic is likely to fall to pieces. Several groups declare for a union with Germany. It is asserted that the Austrian army will not attempt to prevent a new revolution, as its officers have for some time been gradually replaced with socialists.

REVIVAL OF AMATEUR SPORT

Major Fred Smith, national physical director for Canada, will leave this evening for Fredericton to deliver a course of lectures on physical education. Today he said a wonderful revival of sport had taken place throughout the country especially in the maritime provinces. He had just returned from Glace Bay and plans are now under way for a large programme during the coming summer season. The organizations behind amateur sport expect to have this programme arranged.

There is to be a meeting of the Amateur Athletic Union of Canada, maritime branch, in Halifax November 29 at which plans will be drawn up for a complete re-organization of the amateur sport in the maritime provinces. F. A. Dykeman of this city is to be secretary of the New Brunswick branch of the Y. M. C. A. league, which is an allied member of the A. A. U. of C. A. W. Covey of this city will hold a meeting of the local amateur branch soon to line up a programme for the delegates to present to the association at the meeting in Halifax. It is understood that a strong delegation will go from New Brunswick to Halifax to look after the interests of amateur athletes in this province. This meeting is being held to arrange a large programme for next season as the olympic games will be held in Belgium next summer and there is a possibility that probably New Brunswick may be able to enter for these games.

KAISER IS TRYING TO SELL HIS YACHT

New York, Nov. 17.—The former Kaiser is seeking an American purchaser for his schooner yacht Meteor III, after apparently having failed to dispose of it in Scandinavia, where it was advertised for sale last July for \$45,000.

Forty wealthy New York yachtsmen have received letters from one of the ex-Kaiser's agents announcing that the craft is on the market.

HAVE YOU SCROFULA?

Now Said to be as Often Acquired as Inherited.

It is generally and chiefly indicated by eruptions and sores, but in many cases it enlarges the glands of the neck, affects the internal organs, especially the lungs, and if neglected may develop into consumption.

It causes many troubles, and is aggravated by impure air, unwholesome food, bad water, too much heat or cold, and want of proper exercise. Hood's Sarsaparilla, the medicine that has been used with so much satisfaction by three generations, is wonderfully successful in the treatment of scrofula. Give it a trial.

If a cathartic or laxative is needed, take Hood's Pills,—there is nothing better for biliousness or constipation.

THE PRINCE AT WHITE SULPHUR SPRINGS, VA.

White Sulphur Springs, W. Va., Nov. 16.—The Prince of Wales attended service yesterday in a little wooden church among the pine trees at White Sulphur Springs.

At the close of the service the prince waited at the door of the church to greet Bishop Gravatt, who surprised him by telling him that he had been introduced to him once before in London when the British heir was a boy of seven.

In the afternoon the prince played golf with Sir Godfrey Thomas, his private secretary, but the main interest was centered on what was announced as the "chess championship" of the United States and Canada, played between Gen. Burdett, of the Canadian army, who is attached to the prince's staff, and J. M. Nye, chief special agent of the United States state department. Both claimed to be the worst players on the continent and Nye won.

In the evening the prince attended a sacred concert in the hotel. The prince's vacation will end today when he will leave for New York. He is scheduled to arrive at the metropolis at ten thirty o'clock Tuesday morning.

BEWARE OF TENDER, INFLAMED GUMS

Pyorrhea, with a premature loss of teeth, is almost inevitable if you do not properly care for your gums. Here is the explanation: As you age, the body tissues naturally relax. You see this tissue loosening in the neck. It goes on in your gums, too. As you grow older, your gums shrink below the normal gum line. Through lack of care they become spongy and inflamed. Then you have Pyorrhea (Riggs' Disease). Four out of five people over forty have Pyorrhea. And many under forty, also.

Don't let a tender gum spot develop. These tender spots breed disease germs which enter the system through tiny openings—infected the joints or tonsils—or causing other ailments. Immediately get Forhan's, which positively prevents Pyorrhea if used in time and used consistently. Forhan's tones the gums and hardens them. They in turn keep the teeth healthy. Brush your teeth with Forhan's. It cleans them scientifically—keeps them white and clean.

If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 36c and 60c tubes. All Druggists. FORHAN'S, LTD., Montreal.

Active Christianity Will Mend the World. THE United National Campaign—representing the co-operative feature of the simultaneous, but independent, Forward Movements of the Anglican, Baptist, Congregational, Methodist and Presbyterian communions invites all followers of our common Lord and Master to pray earnestly for the peace and well-being of Canada and the world, and for a renewal of the Christian spirit of sacrifice and service.

Thirteen National Conventions. Thirteen National Conventions are about to assemble at the call of the United National Campaign. The dates arranged, and the places of meeting here follow: November 24th and 25th Toronto and Montreal. November 25th and 26th Montreal and Moose Jaw. November 26th and 27th Regina. November 27th and 28th Saskatoon. December 1st and 2nd Edmonton and St. John. December 2nd and 3rd Calgary, London and Halifax. December 4th and 5th Charlottetown and Vancouver.

The Objects of the Conventions. 1. To give thanks to God for Victory. 2. To re-affirm the principle that the Gospel of Christ is the only cure for those conditions which produced the world war, and the only foundation for ensuring national stability, social welfare and individual happiness in the day of peace.

The Reason for United Action. His Grace, the Archbishop of Canterbury, preached the opening sermon of the Church Congress held at Leicester, England, on October 14th, 1919. On that occasion, he said: "We ought to be able to make more of the real oneness, which, thank God, is already ours, the oneness, both in faith and in potential action, of all who can and do kneel to Christ as their living Lord. We want to dwell upon and foster the power of that fellowship for united impact upon the world, or penetration of the world, at an hour so inexpressibly difficult as this. That need not, it will not interfere with complete loyalty to the distinctive truths, which in our smaller circles within the Church of God we conscientiously hold dear."

THE GROWTH OF ST. JOHN.

The feeling of dissatisfaction in relation to the slow growth of St. John, in view of its great natural advantages, may find expression, it is said, in the organization of a strong body of the younger men pledged to a progressive civic policy.

Undoubtedly an awakening is needed but it should mean a great deal more than raising money by taxation and spending it on public services.

The need of St. John is a new spirit of confidence and a settled purpose on the part of all the people to put St. John more prominently on the map.

We need more industries. Before we can get them in numbers we need cheaper power. We need first of all such a prevailing spirit as will bring the people together with a determination to prove their faith in St. John as they have never done it before.

There is plenty of money in St. John to launch local enterprises of the sort that would develop industries, increase the population and add new and vigorous elements to the city's life.

We have an unsettled claim against the government of Canada, whose spokesman in 1911 pledged it to the nationalization of this port.

There are big problems affecting the future of St. John as a seaport and railway terminus on one of the great trade routes of the Empire, which can only be solved by a united and determined people who can forget political and other prejudices for the common good.

If any group of young men will grasp the situation in all its breadth and significance, and rouse the citizens to the proper pitch of enthusiasm, all Canada will begin to talk about the new St. John, and we shall hear no more about having the smallest city debt per capita along with wretched streets, inadequate public buildings and institutions, and a horrid gas indicator.

The American Farm Bureau Federation is the next development in the United States. Its purpose is "to protect the business, economic, social and educational interests of agriculture and to represent the farmers of the whole nation," and its slogan is "an honest day's work for an honest day's pay."

President Wilson is improving in health. The senate has gone on making trouble for him and for the world, and his early restoration to health and vigor means much to the nation.

The epidemic of influenza left its mark upon the death rate in St. John during the year ending Oct. 31. One month there were 186 deaths. The number of deaths from tuberculosis was not as large as in former years, but was large enough to show the need of still greater efforts to stamp out the disease.

If it be true that Gen. Yudenitch is in a serious situation and has resigned the command of the Russian northwestern army, the previous stories of his strength and his successes must have been gross exaggeration.

An amicable agreement on the question of longshoremen's wages is a source of universal satisfaction at the beginning of what promises to be a busy winter season at the port of St. John.

And now there is a proposal to unite the farmers, labor men and returned soldiers in a people's party. The old parties must look to their policies. Sheep do not always follow the shepherd.

A soft coal shortage in Canada would be most severely felt in the west. Hence the drastic action adopted in Ontario to conserve the supply for public utilities and essential industries. Canada is feeling the effect of the strike in the United States.

The appeals of the representatives of women's organizations at Ottawa and other capitals will now receive a good deal more attention than before the women got the franchise.

With more than a thousand smallpox cases the little protest against vaccination in Toronto should have very little effect.

Instead of \$4,000,000 St. John has subscribed more than \$5,000,000 of the Victory Loan, and the province nearly or quite \$15,000,000 instead of \$9,000,000. This is a most gratifying record.

The news that St. John can get into the New England baseball league has aroused universal interest. The opportunity to get for St. John the advantages accruing from this association with New England cities should not lightly be cast aside. It is an attractive business proposition, as well as a guarantee of good baseball throughout the summer season.

When a policeman is shot as a result of bootlegging it is time more of the people who are not policemen took a hand in the game. Bootlegging can be stopped whenever the people make up their minds to stop it. Every prominent bootlegger is well known to many people. When they get after him his activities will cease. The trouble is that they wink at the violation of the law.

The American government has not changed its views in regard to the Bolsheviks. A Washington despatch says: "There is to be no compromise with the Bolshevik government in Russia by the United States, and no movement is contemplated which could be considered as offering to confer with the Bolshevik element in that country, it was learned today at the state department. Officials said there had been no exchange of notes between this government and the British or any other government concerning suggestions that a conference with the Bolsheviks be undertaken. This country's attitude is the same now, it was said."

as it was last year, when Secretary Lansing appealed to the civilized nations of the world to declare the Bolsheviks outlaws. Emphasizing that there could be no compromise with the Bolsheviks, officials said recent radical outbreaks in the United States were largely due to Bolshevik influence.

The opening of the new St. David's church yesterday afforded representatives of other denominations an opportunity to give a practical illustration of Christian unity. The congratulations extended to the pastor and people of St. David's made denominational differences appear as mere secondary considerations.

The cost of living in Canada has declined a very small fraction, but is still nearly double what it was in September, 1914. We can at least say that the tendency is now in the right direction, although any marked decline need not be anticipated for a long time to come.

D'Annunzio is running his head toward a noose. Not satisfied with Fiume he has set up his standard in Zara, on the Dalmatian coast. He is becoming a very sharp thorn in the side of Italy.

MELANCHOLY DAYS.

On this broad continent, somewhere, the warmth of spring is in the air, and daffodils are in bloom; but where I live the winds are bleak, and drearily the heavens leak, and all is wrapped in gloom. Somewhere the skies are blue and bright, and mockingbirds sit up all night to sing their sweet refrain; but here the north wind has an edge that pierces like an iron wedge, and frost is on the plume. And they will be long months of iron wedge, and frost is on the plume. And they will be long months of snow, and many weary storms will blow, before we see the spring, before that season we behold when blossoms bright adorn the world, and empty-doodles sing. And so, distressed, upon a time, I have a sigh for some bright clime where skies are always bright, till I reflect, "In such a land the pesky flies are never canned, and chiggers always bite!" If I am prone to grumbling here, I'd be distraught where skies are clear, and balmy breezes blow; I'd grow accustomed to the sights, to perfect days and scented nights, and dig up some cheap woe.

CANADA—EAST AND WEST

Dominion Happenings of Other Days

THE EXECUTION OF LOUIS RIEL.

In May, 1884, Louis Riel, having completed his term of banishment as a result of his first revolt fifteen years earlier, returned to Western Canada from the United States. He was thought to have learned wisdom from the first experience but the following March found the Métis Indians ready for trouble again. They demanded 240 acres of land each; it is said that they had been promised in their stand by one. The Indians and half breeds assumed a very threatening attitude and rebellion loomed clearly on the horizon. Scattered throughout the land were only 500 mounted police to maintain order and protect the settlers. On March 22 Riel selected the mail bags at Duck Lake and cut the telegraph wires. That left the west a great unknown land in reality. The next day General Middleton left Ottawa for the west hoping that he might be able to avert open hostilities but before he arrived at his destination there had been a fight and Major Crozier, a mounted police officer, had been forced to retire to Fort Carlton. There were engagements at Duck Lake, followed by uprisings in many other places. Riel took up arms for the Métis' cause and for a time with fairly good success. But later in the summer the soldiers came from the east and the end was in sight quickly. Riel was captured and brought to trial at Regina. He was ably defended but the verdict of the court was that he had forfeited his life by his conduct and he was sentenced to die on the scaffold. A determined effort was made by his friends in all parts of Canada to secure a reprieve and the case provoked much discussion and excitement—even on the floors of parliament. But the decision of the jury was allowed to stand and on Nov. 16, 1885, he paid the penalty of revolution. His body was buried in St. Boniface Churchyard, Winnipeg, by some of his friends.

LIGHTER VEIN.

"Pa, what's an excavation?" "Why, an excavation, my son, is a place from which dirt has been taken." "Is baby's face one?"—Boston Transcript.

The Smiths were at dinner. The woman was brought on, and there was a period of silence, broken only by the sound of fork and knife. Then Smith looked up. "What is this?" he asked, pointing to the meat. "The butcher said it was spring lamb," replied Mrs. Smith.

"He's right," grunted Smith. "I've been chewing one of the springs for the last five minutes."

"And where are you going for your vacation this year?" Brown asked his friend Grey. "Well," said Grey, "I am not thinking of anywhere."

"What! Not going away?" "No. You see, the people who live next door to me are going away and taking their baby, the parrot, and the gramophone with them, so I've decided to stay at home and have a rest."

Tact! Total Stranger—How like a Chinese that woman is! Absolute Ditz—Indeed? She is my wife. Total Stranger—Y-ee-s-s. Her—ah—fect are so delightfully small, y'know—Edinburgh Scotsman.

He was going home and it was growing dark. His road from the station was a lonely one and he was getting along as fast as he could, when he suddenly suspected that a man behind was following him purposely. The faster he went the faster the man followed, until they came to a cemetery.

"Now," he said to himself, "I'll find out if he's after me," and he entered the cemetery. The man followed him. Vague visions of revolutions and loused claus grew upon him. He circled a grave and his pursuer dodged after him. He made a detour of a family vault. Still the man was after him. At last he turned and faced the fellow.

"What do you want? What are you following me for?" "Well, sir, it's like this: I'm going up to Mr. Fitzbrown's house with a parcel and the porter at the station told me if I followed you I should find the place, so you live next door. Do you always go home like this?"

He was a collector for an installment system establishment, new at the business, and very sensitive about performing his unpleasant task. He was particularly distressed because the lady upon whom he had called was so exceedingly polite and beautiful. Still the van was at the door, the lady was in arrears in her payments and he remembered his duty.

"Good morning," said the lady. "It is a beautiful day, is it not?" "Beautiful, indeed," he agreed. "Wont you take a chair?" she said. "No, thank you, not this morning," he stammered. "I think I'll take the piano."

She Knew the Symptoms. "Madams" announced the new maid; "your husband is lying unconscious in the reception hall, with a large box beside him and crushing a paper in his hand."

"Ah," cried her mistress in ecstasy. "my new hat has come!"—Houston Post.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

New York Musical Comedy Coming Soon

"My Soldier Girl" A Sparkling Novelty of Song, Dance, Fun and Beauty

"My Soldier Girl," a bright, jingling and freshly costumed musical comedy, novelty will inject verve and vivacity in the local entertainment situation at the Imperial Theatre Monday and Tuesday, November 24 and 25. LeCompe Fisher, proprietors of this production, have been making a continuous conquest of the Eastern Canadian territory, starting at Toronto and terminating in Halifax. "My Soldier Girl" has been received with enthusiasm in every city in which it has played, the merriest of the piece, its scores of popular songs and choruses, bewildering ballet, marionettes and ensembles having struck a popular chord and adding that blitheome sensation that has been somewhat lacking in show circles since before the war. The comedy element in "My Soldier Girl" is supplied by Al Johnson's nearest rival, Billy Moore, who, as Jasper Pebbles, a colored valet to the colonel, is a riotous centre of refined fun. A grotesque comedian, serving as "feeder" to Jasper, is the well known Billy Murphy of light opera fame. The show includes thirty-two girls in the beauty chorus and ballet, a splendid male quartette, four hard-worked comedians, a lavish display of stage settings and orchestra. In a word, "My Soldier Girl" is a breezy bit from Broadway, bringing to St. John a little of the famous Follies, the Mid-nights of the Vaudeville and the sensations of the last two seasons. One of the features of the production is an illuminated promenade or "Firtation Walk" extending from the stage into the audience. Ticket sale opens Thursday, November 20th, Imperial Box Office.

Norma Talmadge At Imperial Tonight

Charming Star, Supported by Conway Tearle, in "The Way of a Woman"

In "The Way of a Woman," Norma Talmadge's latest Select Picture, adapted from the famous play, "Nancy Lee," by Eugene Walter, the beloved screen star, excels even her own high mark in a story of the American life. The scenes of the stage are laid on a Southern plantation and in the gayest parts of New York. "The Way of a Woman" will be shown at the Imperial tonight and tomorrow. Nancy, the eldest daughter of the fine old Lee family of Virginia, finds at the age of twenty-one that her whole life and happiness are being sacrificed to the empty family traditions. She was made to give up Anthony Weir, the man she loves, because her father thinks he is not "good enough." She turns against the family pride which has brought them so little and decides to marry George Trevor, an impossible New York boulevarder, for the material advantages he can bring to her family. In the end, however, Anthony realizes that his love is greater than his doubt, and the romance comes to a happy ending. Miss Talmadge is wonderfully supported in this richly mounted production by Conway Tearle, George LeGuere and other favorites.

CITIZEN'S DUTY TO PUBLIC HEALTH (Bangor Commercial) At the lecture room of the high school, an audience of nearly 100 listened most attentively to Dr. H. D. Worth, district officer of the board of health, as he spoke upon the duties of citizenship regarding public health. He emphasized the thought that citizenship means the responsibility of every member of a community to every other member, even to the least and the smallest. "Health is purchasable," said Dr. Worth. In proof of the statement he spoke of diseases like smallpox, diphtheria and typhoid fever, which have been largely robbed of their terror by inoculation. Formerly the medical world had no idea of preventive medicine. His story of the introduction of vaccine into Harvard college 119 years ago and of the smallpox as it appeared, was given as proof of its value in stamping out the dreaded disease. "We could not have a serious epidemic of smallpox," said Dr. Worth, "because of state laws regarding vaccination. When smallpox has always been on the border line it has always been discovered that vaccination has been neglected. Quoting words sometimes heard, "I would rather have smallpox than be vaccinated," he stated his belief that such remarks are made by people who have never heard of severe cases resulting from the old arm to arm vaccination in the days before antiseptic surgery was known. To protect the life of the community, to save sickness among friends and neighbors by making use of the discoveries of science is one of the duties of citizenship. Pneumonia still baffles the skill of the closest students in the finest laboratories of the land, but the lesson was expressed that the time will come when the medical man will be able to approach that disease with the same certainty of success that he approaches typhoid fever and diphtheria.

JACK DEMPSEY SPEAKS OF PLANS Salt Lake City, Utah, Nov. 16--Jack Dempsey, world's heavyweight champion, in Salt Lake City today for a short visit with his mother, declared his physical condition "fit as a fiddle." Regarding his next fight, Dempsey said he would meet the winner of the Carpenter-Beckett match to be staged abroad Dec. 4, if the victorious European fighter will agree to come to America. If not, Dempsey says he is willing to go to London or Paris. He confirmed a report that he had signed a \$175,000 contract with Dominick Tortorich, New Orleans promoter, to meet either Carpenter or Beckett, if the proposed match can be arranged for New Orleans. This match probably would take place on March 17. Jack Kearns, his manager, is expected here tomorrow. In a few days the champion plans to leave for Southern California to begin work on a moving picture contract. Dempsey said he expects four months to pass before this engagement is completed and that at that time he would begin rigid training for his next fight. USE The Want Ad Way

THREATENED TO SHOOT.

Campbellton Graphic: One day last week Policeman Andrew Smith had occasion to go to Sellwood to serve a warrant of commitment upon Mrs. Agnes McLean, who had been fined for having a dog upon her premises. He was obstructed from executing the warrant by John McLean, who came out of the house

with rifle in hand and threatened to shoot the officer. Smith managed to get hold of McLean and grabbed the rifle. He brought him to town, where he was tried summarily before Police Magistrate Matheson and fined \$100 and costs or six months in jail. Mrs. McLean, whom the officer found it necessary to leave in Sellwood, has since come to Campbellton and paid up her fine.

Premier Lloyd George Still The Master Mind

Remarkable Domination of Parliament in Almost Any Circumstances—Wonderful Revival of Industry—The Facts About The "Pussy Foot" Johnson Incident

(Special Cable to Times by F. A. McKenzie. Copyright.)

London, Nov. 17.—The premier's varied Russian policy, with its rapid changes and clever moves, and amazing ignorances and equally amazing avowals, continues to arouse intense anger among critics, puzzle his enemies and stimulate the ingenuity of his political supporters to defend his action.

The truth is the premier has not a free hand. He is hemmed in by powerful political pressure from France and powerful forces here, supported by the mass of Unionists, Churchills and others, which compel compromises at every turn. The government's decision, made after M. Pichon's conference with the British minister, that neither France nor England will make any fresh sacrifices beyond repressing anti-Bolshevik forces, but both countries will equally

refrain from initiating any overtures calculated to increase the strength of the Bolshevik cause, is a compromise. Many both in London and Paris denounce it as futile.

The premier's statement does not satisfy anybody. The Times brings its heavy guns to bear, using every possible means to arouse the nation against Bolshevism. The Telegraph is inclined to regard the premier's position as inevitable, saying complete satisfaction about the Russian situation and British action connected with it is a thing not to be hoped for and may as well be clearly recognized.

"It is simply not in the power of the government, situated as it is, to pursue a policy of active intervention in the fall scheme, and it is on the other hand morally inconceivable that the government should close the Russian account by the simple but suicidal method of concluding a treaty of peace with rulers of Soviet Russia."

The Figaro deplores the policy of non-intervention, in view of German intrigues with this country, declaring Allied intervention would in the long run prove less costly to both Great Britain and Europe as a whole than indefinite prolongation of the conditions of anarchy now prevailing.

Influential Liberal papers like the Westminster Gazette are inclined to view the situation as so confused that it is difficult to find a solution.

"Much of what passes for truth about Bolshevism," declares the Westminster, "is not a democratic paradise as some people think, nor chaos. Other people think it has behind it very shrewd brains and skilful ministers, and unless we are much mistaken is developing rapidly on lines which will make it something altogether new in the world, something which, whether they like or hate it, will have to be reckoned with by other governments."

Meanwhile it becomes more evident that the coalition parliament, while complaining and grumbling and showing its teeth on occasion, will not risk the possibility of a real government defeat. Under almost any circumstances whatever, the premier's remarkable domination of the house remains unimpaired. Coalitions are easily satisfied, say Liberal critics sneeringly. This is the dominating factor of politics here.

Business Recovery.

Distinguished visitors to the city of London are amazed at the remarkable recovery of business and finance now being witnessed there. City authorities tell me great concerns which were expected a year ago to take fully two years to recover their standing are now doing better than ever. New great building enterprises are being launched. New fresh schemes of a most gigantic nature are being proposed. Our danger, the

possibility of excessive speculation, is being carefully watched by controlling financiers, who believe New York's serious check from over-speculation may do much good here. My inquiries in the city of London give the same result as inquiries over the rest of the country. Everywhere I discover surprising evidences of fresh prospects, and encouraging signs of the times if labor permits. The "Pussyfoot" Capture.

Thursday evening's disturbance here was not so much a demonstration against prohibition as a university students' rag. London medical students have been having an exuberant week. Tuesday saw a great rag between rival schools at University College. Wednesday they demonstrated in front of a newspaper office, burning a copy of the paper because they objected to certain criticism. Thursday they all united to rag Pussyfoot John-

son, the famous American prohibitionist leader here. The Overseas Club had arranged a debate between Pussyfoot and a representative of the anti-Prohibition League, with myself as chairman, and the medical students objected. They say Americans are attempting to teach us our business.

About 2,000 assembled outside the hall. A number securing admission rushed the platform, seized Pussyfoot and my-

self, and led us captives through the main streets of West London—Pussyfoot upon a stretcher, myself carefully guarded upon a student drawn cart. The proceedings were conducted with the greatest good nature, the worst trouble being when the police attempted to rescue us. Certain damage was done to hall chairs and the reporters' table was smashed. Ladies were very naturally indignant and alarmed, but both leading

victims regard the affair as a jolly, boisterous exhibition of student spirits. Johnson's eye was injured when the police made a final effort to effect his rescue. Students finally released me, with cordial expressions on both sides. The incident has given the prohibition movement a magnificent advertisement. Everyone agreed it was the greatest rag London had witnessed not alone this year but for many years.

LYLOYD HARRIS TO PLACE IN CANADA'S CABINET

A Possibility if Sir Geo. E. Foster Gets High Commissionship in London

(Special to Times.) Ottawa, Nov. 16.—Lloyd Harris, who recently returned to Canada, is now in the United States recuperating after his somewhat strenuous work abroad. He is known to have been willing to take the high commissionship in London, but Sir George E. Foster claims to have precedence with the government. It is not impossible that he may be succeeded in the position of minister of trade and commerce by Lloyd Harris.

WENT 21 MILES TO GET BOTTLE

Shad Bay Man Would go 100 Miles, He Says, Rather Than be Without Tanlac.

"Knowing what I do about Tanlac since trying it I could go a hundred miles for a bottle rather than be without it," declared John Redmond of Shad Bay, Halifax county, when he called at Kinley's drug store in Halifax for more of the medicine, recently.

"For six weeks before I started taking Tanlac," he continued, "I had not been able to do a lick of work and felt so bad most of the time that all I could do was lie around the house. But now I am working every day, have gained twelve pounds on three bottles of Tanlac, and am feeling just fine all the time."

"Two years ago I weighed one hundred and seventy pounds and was about as healthy a man as one generally sees. Then my appetite went back on me and I commenced suffering from indigestion and going down hill. I would go to the table feeling like I could eat and just the sight of food would sicken me so I would have to leave without eating a bite. I have gone for days at a time, scarcely eating enough to keep soul and body together, and what little I did force myself to eat seemed to do me harm in place of good. I would blot all up with gas and have cramping pains in my stomach that would almost draw me double, and if I ventured to eat any supper I would suffer so much pain from it that I couldn't sleep. Many a night I never slept thirty minutes. I was also badly constipated and all the time taking something for this, as well as for my stomach, but I kept going down until I got so weak I could hardly walk and finally I simply had to stop work and do nothing but try to find relief."

"But I had tried so many medicines with no results that I had about concluded that nothing was going to do me any good. I was getting weaker and more discouraged every day. After seeing so many statements in the papers about Tanlac I made a special trip to Halifax, which is twenty-one miles from my home, for my first bottle. Well, I never have regretted it and if Shad Bay was a hundred miles from Halifax I would go all that distance to get a bottle after the way it has helped me. That first bottle put me on my feet, in shape to work, and I have not missed a day since that time. My appetite is so big that meal time comes too slow for me and my stomach never gives me the least bit of trouble although I am eating just anything and everything I want. I am no longer constipated and nervous, I sleep good and sound every night, and all that tired no account feeling has left me. Well, to put it all in a few words, I don't believe I have ever felt much better than I do now and Tanlac gets all the credit. It's wonderful medicine, no doubt about it, and I'll tell anybody they can't make a mistake by trying it."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative.—(Adv't.)

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs kidneys, then back hurts and bladder bothers you. Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

TAXING THE LAND HELPS HOUSING

(Halifax Echo.) Among the satisfactory results of the shifting of some of the burden of taxation to idle land, is the launching of the present housing scheme on the corner of North and Oxford streets. Other tracts of land have also been thrown up on the market, as it did not pay their owners to carry them for further speculative profit. Evidently the rate is not yet high enough though, as some are still hanging on to their holdings apparently in the hope that the pressure of population will compel would-be home-owners to pay the price asked.

YOUNG LADIES' SUNDAY SCHOOL CLASS ANNUAL

The Young Ladies' Class of the Victoria street Baptist Sunday school held its annual meeting last Friday evening at the home of Mrs. Edmund Fiewelling, 19 Cedar street. Thirty members of the class and a few invited guests were present. The first part of the meeting was taken up with a business session and the election of officers, which resulted as follows: President, Miss Watts; first vice president, Miss Webb; secretary, Miss Starkey; treasurer, Miss Jocelyn; auditor, Miss McKenzie. A pleasing feature of the evening was the announcement of the coming marriage of Miss May McKenzie and Arthur Powe. Both Miss McKenzie and Mr. Powe are very active workers in the Victoria street Sunday school. Mr. Powe is a teacher of a class of boys. Their marriage is to take place on November 27. The young ladies who furnished the refreshments and served them on this occasion were Misses Lizzie Bartlett, May McKenzie, Hazel Reicker, Hilary Webb, Mabel Starkey, Beulah Watts and Miss Stockford.

CULLOM LODGE FAIR

The fair held by Cullom Lodge, L. O. B. A., No. 36, in Orange Hall, Simonds street, closed Saturday night. There was a good attendance and a good sum was realized. The door prize, a ham, was won by Mrs. Wilson. The floodgates, a guest towel, went to County Master Francis Kerr. Mrs. John Beaman was successful in guessing the name of the doll, and Mrs. C. F. Cooley guessed the correct weight of the cake. A hand bag, the prize for the ladies' bean toss, was won by Miss Maud Kierstead, while the men's prize, a pair of gloves, was taken by John Beaman. F. Woods was the lucky holder of the ticket for the barrel of apples and H. Ramsey won a ham. E. W. Goodall won a sofa cushion, and O. S. Dykeman won a lottery for a fancy dish. Mrs. J. W. Foster and James Rogers each got a bag of flour. Miss Effie Kierstead guessed the number of beans in a bottle and won a doll. Mrs. Henry Kilpatrick was the treasurer of the fair.

FOR BRIDE-TO-BE

A novelty shower for Miss Ida Costes of Rothesay was held on last Thursday evening at the home of Mrs. H. V. DeLaney, 117 Metcalf street. She received many useful presents and the evening was happily spent with games, music and refreshments. Miss Costes will become a bride this month, and many friends extend hearty good wishes.

TEXT OF ARTICLE X AND RESERVATION

U. S. Assumes no Obligation to Defend Others' Territorial Integrity

The Foreign Relations Committee's reservation to Article of the league of nations covenant, as adopted by the U. S. Senate reads—

"The United States assumes no obligation to preserve the territorial integrity or political independence of any other country or to interfere in controversies between nations, whether members of the league or not, under the provisions of Article X, or to employ the military or naval forces of the United States under any article of the treaty for any purpose unless in any particular case the Congress, which under the constitution has the sole power to declare war or authorize the employment of military or naval forces of the United States, shall by act or joint resolution so provide.

Article X of the league covenant reads:—

"The members of the league undertake to respect and preserve as against external aggression the territorial integrity and existing political independence of all members of the league. In case of any such aggression or in case of any threat or danger of such aggression the council shall advise upon means by which this obligation shall be fulfilled.

ANNIVERSARY OF THE KNIGHTS OF COLUMBUS

St. John Council 15 Years Old—
Banquet and Honor Roll Unveiling

Fifteen years ago, on Nov. 15, 1904, the Knights of Columbus were founded in St. John. The anniversary is being appropriately celebrated by St. John Council with a banquet in honor of the occasion in their rooms in King street at which their returned soldier members will be guests and the unveiling of an honor roll containing nearly eighty names will take place. The order has flourished and expanded considerably since first being organized here, not only in St. John but elsewhere through the province, where now it has six other branches besides that in this city.

The founding of St. John Council took place with the exemplification of three degrees, the first and second in the afternoon, the third in the evening, in the C. M. B. A. hall in Union street. J. D. Anderson of Eastport, Me., with his team was a man of fine character and made many friends in St. John. His death a few years ago caused keen regret. Simon J. Nevins, district deputy of No. 16 Massachusetts district, exemplified the third degree. Coming here from Boston with his degree team Mr. Nevins made a fine impression and at once became popular. His remarks increased his circle of friends and his name is fondly recalled by many local knights. Because of its being the institution of a council a large gathering of followers of Columbus came to the city to witness the degree.

The first officers of the council were: W. J. Mahoney, grand knight; Dr. T. L. Lantry, deputy grand knight; the late George Y. McInerney, chancellor; the late Harry O'Neill, recorder; the late J. J. Doherty, treasurer; J. F. Gleeson, financial secretary; H. O. McInerney, lecturer; E. S. Ritchie, advocate; George Lundy, warden; J. M. Elmore, inside guard; F. P. Curran, outside guard; J. J. McGaffigan, W. E. Scully and John Kelly, trustees. The membership of St. John Council has increased steadily and now stands at about 600. The council for a time occupied rooms in Berryman's hall, Charlotte street, later in the Schofield building, Charlotte street, but are now the owners of the handsome quarters in Coburg street which they have enlarged and beautified.

The honor roll will be unveiled by Lieut.-Governor Pugsley. It is a beautifully artistic work. Five of those whose names are enrolled upon it have given their lives in the war—Flight Cadet Joseph D. Brosnan, Lieut. Frank J. Corr, Pte. Harry Leonard, Lieut. Maurice Mulhoney and Lieut. Henri Pettis. Besides the unveiling there will be speeches by members and others, motion pictures and other features of interest. On Sunday morning many of the members received Holy Communion at the 7 o'clock mass in the Cathedral.

CITY SHARE IN LOAN IS ABOUT \$5,500,000

At Victory Loan headquarters today it was expected that the total from St. John in the campaign which closed on Saturday would be about \$5,500,000, and from the province, something more than \$15,000,000. Saturday was one of the best days in the campaign. As the award of the German guns, it is expected to be a close fight between Albert and Madawaska. Rogersville has won four crests, having doubled its objective. The reports from the various city wards will not be available as to complete returns until tomorrow. A wire received Saturday from the north shore stated that the two parts of Northumberland county, east and west, captained by J. B. Snowball and G. P. Burchill, would each have at least \$500,000, making a million from that county. E. Leonard & Sons, Water street, through their manager, G. H. Evans, on Saturday added a subscription of \$5,000 for the local loan.

THAT HARBOR CASE

The case of Harbor Master Alward against Captain Henderson of the S. S. Batsford, charged with disregarding and disobeying an order given by the harbor master, was resumed in the police court this morning. Daniel Mullin, K. C., counsel for the harbor master, asked that he be given leave to amend the information by inserting the words "to charge the captain with disobedience as regards loosening the lines that held the scows."

F. R. Taylor, K. C., counsel for the captain of the Batsford, objected to this on the ground that the amendment was not in order, as the evidence of the harbor master was already taken. He argued that the information was changed to meet his preliminary objection, made at a former hearing and he contended that the case should be dismissed and the new information laid. The magistrate allowed Mr. Taylor's objection.

Advocates "People's Party"
Ottawa, Nov. 17—David Loughnan, editor of the Veteran, official organ of the G. W. V. A., in an address last night advocated a peoples' party, composed of farmers, labor men and returned soldiers united on common grounds.
