Flogging For Those In White Slave Traffic

Police Worn Also Suggested at International Conference — A Little Impatience Over England's Land Reform Policy — Free Churchmen and the Education Bill

(Times Special Cable).

London, July 5.—Much interest has been aroused in a conference on white slave traffic being held in London this week.

The Lancashire dispute now centers mainly around the question of recognition of the laborers' union.

Free Churchmen were considerably perturbed this week by the Times announcement that the government intend to abandon their plan to introduce the education bill this session in order to lighten the government programme so that parliament may be prorogued in reassurance of the public.

The Education Bill

Some impatience is revealing itself in the Liberal ranks over delay in declining the government land reform policy.

Now Seventy-Brigand Chief is Pardoned After Fifty Years as Prisoner

Milan, July 5.—King Victor Emmanuel has pardoned a notorious Sicilian brigand chief, Giuseppe Ferrara, who has been in the Ancona convict settlement for half a century.

Reciprocity with Canada

Melbourne, Australia, July 5.—The Canadian-Australian reciprocity negotiations started by Hon. Geo. E. Foster during his recent visit to Australia will be continued by his successors to the Fisher administration.

For St. John

Steamer Shenandoah will leave Halifax for St. John tonight.

Don't You Enjoy Music?

Wouldn't a piano make the evenings at home delightful? If you feel that the cost of a piano is a bit more than you want to pay, or if you only want one for temporary use, why don't you rent one?

CAMP WAS BEST ONE EVER HELD

A Review of The Training Time at Sussex

MANY VISITORS THIS YEAR

Work in the Various Branches of Service Remarkably Good and 10,000 Returned Much Benefited By the Drill

(Special To Times)

Sussex, N. B., July 4.—Camp Sussex of 1913 is no more. Yesterday saw the beginning of the end; today witnessed the final scene. On every train from a little after noon yesterday the troops in squads, companies or regiments left the big camp grounds, continuing to do so throughout the night and until late this morning, until only the enormous stretch of green which for the last two weeks has sheltered close to 3,500 men bears a forlorn and deserted aspect.

Camp a Marked Success

Little else suggests that this has been the site of one of the most successful militia camps ever held in this province, and indeed it was said by more than one of the inspecting officers that in all their experience they had never seen a camp so well conducted.

Discipline Good

It was also a very well disciplined camp. There were but few arrests by the police, and the number of minor disturbances, caused mostly by liquor being smuggled either into the camp or by the troops themselves, was quite well adhered to and the number of cases of drunkenness was not nearly so numerous as in former years.

Inspiring Pictures

From a spectacular as well as a practical viewpoint, the camp this year presented much of interest and appeal. There was no march-past held, but an idea of the magnitude of this feature of former camp life was given on Sunday last at the annual divine service and again on July 1 when the picture display was truly inspiring.

Hand in Hand With the Maker

In years gone by it used to be that a manufacturer's responsibility for the things he made stopped with the sale of them. But that is no longer so. We are living in an age of progressive and efficient business building.

Hand in Hand With the Maker

By this kind of arrangement retailers offer their patrons two-fold evidence of quality and reliability—a double responsibility that spells safety to the prudent buyer.

LATEST PICTURE OF THE PRINCESS PATRICIA

A profile of Princess Patricia, daughter of the Duke of Connaught. This is her most recent picture, and is interesting because of her probable return to Canada with her parents.

INDIGNANT OVER I. C. R. TREATMENT

Passengers on Ocean Limited for St. John Held up for Many Hours—This Kind of Thing Must Be Stopped

The train which arrived in St. John this morning at six o'clock from Moncton carried probably more indignant passengers than any train coming to this city in many years.

At Moncton, when it was found that the passengers who had reached that city nearly four hours late on the Ocean Limited were to be detained there until 8:30 a.m., the facts were brought to the attention of all the I. C. R. officials within reach, but every one of them said that Messrs. Gattelus and Brady were away and that in their absence nothing could be done.

James Locke is Drowned in Nashwaak

Fredericton, July 5.—James Locke was drowned in the Nashwaak River at Marysville last evening. He was bathing with two companions and is supposed to have been seized with cramps. His companions tried hard to save him but without success. The body was recovered.

Stole Jewels Worth \$6,000

Hamburg, July 4.—A well-dressed foreigner ordered a Bremen firm to send \$6,000 worth of diamonds and jewelry, which he selected, to his hotel. Two employees took the jewelry to the hotel, where, in their presence, the foreigner appeared to put the gems in a box, which he sealed.

Police Court

In the police court this morning, five prisoners were arraigned. Three charged with drunkenness were fined \$8 or two months. Mary Craig, who once more given to the spirit of roving, was arraigned yesterday while attempting to make good her passage to Boston, before Magistrate Ritchie this morning on charge of vagrancy. She was remanded.

Paris, July 5.—Legal convolutions more involved than the famous labyrinth of mythology to decide whether a woman must pay for a hobble skirt in which a sylph cannot even hobble have brought Parisian justices to the verge of nervous prostration and led Dame Justice gasping with indecision.

Paris, July 5.—Legal convolutions more involved than the famous labyrinth of mythology to decide whether a woman must pay for a hobble skirt in which a sylph cannot even hobble have brought Parisian justices to the verge of nervous prostration and led Dame Justice gasping with indecision.

Gold Mine Riots Very Serious; Four Killed

Anarchy Regins, Buildings Are Set Afire and Troops Have to Shoot—Fear Outbreak of Natives as They Are Becoming Restless

Johannesburg, South Africa, July 5.—Complete anarchy prevailed here last night as a result of the strike of the gold miners. The authorities were obliged to order the troops to fire on the rioters, who applied the torch to the Star newspaper offices and another large building in the centre of the town, as well as to Bramfontein station.

Four Killed

Johannesburg, July 5.—Four civilians were killed, and fifty wounded in the midnight riots. The cavalry made repeated charges against the mobs, and wild confusion continued throughout the night, with most of the streets in darkness, the lamps having been destroyed by the rioters of the city. The rioters held up all outgoing trains.

Looks Very Serious

London, July 5.—The Johannesburg correspondent of the Daily Mail sends the following:—"The authorities blundered, first, in taking advantage of an old Dutch law to prohibit a meeting of the strikers, and second, in permitting the strikers to enter the square to hold a meeting."

Drank Millions of Gallons More Than During Year 1911

Great Increase in Use of Liquors in the United States — Much Tobacco Consumed

Washington, July 5.—The American people drank more whiskey and beer, smoked more cigars and cigarettes, and chewed more tobacco during the fiscal year 1912 than in any other year of the nation's history, according to estimates based upon the record-breaking internal revenue receipts of the federal government for the twelve months ending June 30.

The drinkers of the country consumed 148,800,000 gallons of whiskey and brandy, an increase of 7,000,000 gallons over the previous year, and brought the former high record of the fiscal year 1907 by 7,000,000 gallons. They drank 64,800,000 barrels of beer, exceeding 1911's great record by more than 1,000,000 barrels.

Smokers puffed into space 7,071,000,000 cigars and 14,012,000,000 cigarettes during the year just closed. This was 217,000,000 cigars and 3,790,000,000 cigarettes more than ever before consumed in a single year. Patrons of the pipe smoked 408,200,000 pounds of tobacco, or 3,400,000 pounds more than the consumption of 1912. Chewers of snuff used 88,200,000 pounds, an increase of more than 8,000,000 pounds over the previous year.

Despite the high record consumption of intoxicants, returns to the internal revenue bureau show that the number of saloons of the country decreased by 18,000 during the year, the retail liquor dealers numbering about 450,000.

Assessments on drinking and smoking luxuries, on corporations and on oleomargarine and other articles taxed by the federal government brought into the United States treasury \$844,426,884, the greatest amount in history, exceeding the previous high record of 1911 by \$21,900,000.

Pay Day for City Officials

The semi-monthly payroll of the civic officials, disbursed today, was made up as follows:—Market \$ 142.48 Ferry 819.38 Officers 1,865.98 Fire and Salvage Corps 1,816.66 Police 1,410.41 Sundry 947.91 \$6,202.62

Hobble Was Too Much That Way; Case Goes to Court

Paris, July 5.—Legal convolutions more involved than the famous labyrinth of mythology to decide whether a woman must pay for a hobble skirt in which a sylph cannot even hobble have brought Parisian justices to the verge of nervous prostration and led Dame Justice gasping with indecision.

A woman bought a hobble skirt. She wanted it to be just as hobbly as the most stringent dictates of fashion demanded. When she got into the skirt she found her only practical method of locomotion had to be after the manner of the kangaroo.

She refused to pay the tailor. He sued her and the haggly over the hobble rang in court chambers for months. The original court ordered the woman to pay for her hobble skirt, and also the costs of the legal proceedings, but the higher court has now said that the woman shall pay for the hobble, and the tailor pay the law bills. But the court does not decide whether a hobble or hobbly is a legitimately marketable piece of clothing.

THE LONDON TIMES AND GEORGE WASHINGTON

London, July 5.—The Times in an editorial on Independence Day, referring to the fact that the celebration of the fourth of July has become an Anglo-American festival, says:—"It has become one of the established customs of British life and we, who rarely commemorate triumphs of our history, make an annual point of joining with Americans in celebrating its greatest disaster. Such a spectacle as is seen twice a year at London, where the Britishman eulogizing Washington's memory and honoring Independence Day, would be well-nigh unimaginable anywhere else."

Two Picnics Today

Two Sunday School picnics are slated for today. The Carleton Place church are holding theirs at Westfield Beach. A large number of children and parents left in the nine o'clock suburban train this morning and many more are expected to spend their half holiday on the grounds this afternoon. They will return at eight this evening.

The Sunday School scholars of the St. John Presbyterian and Calvin churches left this morning for Rothesay, where a programme of sports and baseball games will be held. The excellent bathing beaches will also afford a great deal of pleasure to the little ones and to the older people who are going out on the suburban at 11.15.

Demand Attention

Policeman Howard reports a sewer in the old burying ground congested and a menace to the public health. It should be seen to immediately.

TO-DAY EVERYDAY

King Cole Tea. You'll Like the Flavor. 35¢-40¢-50¢ Per Pound.

"MOST MAGNETIC WOMAN IN AMERICA" TO THRILL NEXT SEASON'S PLAYGOERS

MISS HELEN FERMAN, BELASCO'S MYSTERIOUS NEW STAR.

New York, July 1.—David Belasco, the wisest astronomer of the stage, has found a new star—Helen Ferman. He is going to see that she shines next season.

Last season Miss Ferman appeared in a minor role in one of the Belasco productions and then dropped from view. But David did not lose sight of her. He saw in her rare talent and has been planning how to bring it out. He is giving her much personal attention and declares that with a little more development and a suitable role she will leap to a great success.

Nobody knows anything about her. But when Belasco says he has made a discovery, most persons take his word for it, remembering Mrs. Leslie Carter, Frances Starr and a score of other unknowns that he has made famous.

Aside from her talent and personality, she is one of the most beautiful women on the stage.

The plum trees in the garden of William Longfellow at Machias, Me which are now in full blossom, were brought from Wisconsin many years ago, and are of the type which grow wild in that state.

Our stock has been selected with the greatest care. Each stone has been bought with the idea in mind of giving to our customers only high quality diamonds, the kind that are continually advancing in price, so that they will prove to be not only a source of satisfaction and pleasure, but also a good investment.

REGENT WEDDINGS. A pretty wedding took place in the Church of the Blessed Sacrament, Cambridge (Mass.), on Monday, when the Rev. Father Crowe, pastor, united in marriage Miss Katherine A. McParland, daughter of the late James McParland, and Thomas L. McDermott, son of the late William McDermott, both of St. John.

Also on Face. Began to Ooze Water-like Matter, Torture of Itchiness, Pimples Festered and Enlarged. Cured in Two Weeks, Thanks to Cuticura Soap and Ointment.

Wm. Downie to Retire. When William Downie returns next spring from England, it is understood he will not again assume the duties of general superintendent of the Atlantic division of the C. P. R., but will accept superannuation. He would be entitled to retire after another year's service, but this will be dispensed with in appreciation of his successful work with the road.

Mr. and Mrs. Melrose have many friends in the east and in the west who will read the announcement with pleasure and who will heartily congratulate them.

Time is an estate that will produce nothing without culture, but will always abundantly repay the labors of industry.—Johnston.

ALLEGED WIFE DESERTION CASE BEFORE COURT

The case of Sherman Johnston, charged with non-support, was resumed before Magistrate Ritchie yesterday afternoon.

At the request of the complainant, the S. P. C. A. conducted the prosecution. J. King Kelly, K.C., acting for the society, A. A. Wilson, K.C., and G. H. V. Belyea appeared for the defence. There were four witnesses examined, and the case was adjourned until Tuesday afternoon.

Mrs. Johnston gave evidence that her husband had kicked her on one occasion and on another had threatened her life. He forced her to leave her own home and refused her medical assistance, when it was necessary. Dr. J. H. Allingham testified that he was the family physician, and that he was called to attend the complainant. He ordered her to go to the country for her health. This witness told that the complainant had related different cases of her husband's cruelty.

Dr. D. C. Malcolm, superintendent of the General Hospital, said he examined the complainant on June 17 and corroborated Dr. Allingham's statement that the lady was suffering from nervous breakdown. She is suffering from tuberculosis, but in such a stage that a sanatorium would not take her.

The Magistrate recommended an amicable settlement. The lady could be sent to the country, but she would not be able to support herself. The doctor's orders, at the expense of the charitable citizens if the husband could not pay. One who would take her was Horatio N. Raymond, who was called to give evidence. He told how Mrs. Johnston came to live with them before her marriage. He was quite willing to take her back on certain conditions—but the settlement could not be made.

The defendant was allowed liberty on \$800 bail being given.

STILL ANOTHER TRICK. Bruce Thought He Knew All About Carpenter's Trade.

Bruce Lingo thought he knew carpenters; anyway, he knew the preliminaries that some of them are accustomed to observe before they get finally to work. But his knowledge was not quite so complete as he thought it was.

Early one morning Lingo went to Lem Hicks, who did odd jobs found town.

"I've got a little piece of work down at the house I want you to do this morning."

Lem finished chewing a bite of his breakfast that he had brought to the door with him, and looked speculatively at Lingo at nothing in particular. But after mature deliberation, he replied: "I reckon I can do it, Mr. Lingo."

"You have a saw, I suppose?" Lingo asked him.

"Why, yes, of course I have," replied the carpenter.

"And a hammer?"

"Sure," he looked with some astonishment at Lingo.

"I suppose you own a square?"

"Well, I should think so," Lem was growing indignant.

"That is all you will need," said Lingo. "I have the lumber already there."

"I'm putting the lumber in the pile, he took out a half-dollar, and offered it to the carpenter.

"What is that for?" asked Hicks.

"That is to pay you for bringing your tools the first trip. I am in a hurry this morning."

"All right," said Hicks, and put the half dollar into his pocket.

Promptly at 8 o'clock Hicks arrived with his tools.

"I see it worked," remarked Lingo to his wife, with satisfaction. "I knew I should have to pay him for that wasted hour anyway, and I had rather pay it and get the work done. It always takes a carpenter an hour to come, squint his eye at a board, rub his hands on his overalls, and then go back and get his tools."

But a half-hour, even forty-five minutes passed, and there was no sound of hammering.

Lingo went out to investigate. The hammer and saw and square were just where they had been dropped; but there was no carpenter.

He was fast getting angry when Hicks came leisurely across the corner of the lawn from the street, with a three-cornered paper package in his hand.

"I had to go down town and get some nails," he explained, without a smile.

Youth's Companion.

In the Steerage in a Storm. Next night the wind rose again; our masts broke; the seas washed over us and soaked us to the skin. Even in the hold, where many of the peasants naves like maniacs, there was a considerable quantity of sea-water. The waves leaped over the gunnels; they smashed the glass roof of the second-class cabin; they washed one of the boats away. We seemed to be making no progress, but even at times going astern. At last I heard a sailor say: "It's not in our hands anymore. The captain has ordered the men to pray for the safety of the ship. Then a priest had a happy thought, and asked the captain for permission to invite the pilgrims to subscribe to an ikon of St. Nicholas the Wonder-worker. The distressed captain started the fund with a ruble, and the priest borrowed the metal stop-basin of a samovar and set off on his wonderful mission."

"The captain says we are going to the bottom in a quarter of an hour," said the priest, "but I have prayed to willing St. Nicholas and promised him a rich ikon if we get safely to land once more. What will you give?"

The peasants put in ten-ruble bits and twenty-five ruble notes and bags full of silver and copper. They put in fifties and hundreds of rubles—all that they had. "What is money beside life?" they said. "Take all that we have!"

Then the priest, who was quick-witted enough, saw that such a collection would be an impossibility to hold should the storm die down, and he returned and gave back the money, taking only sixpence from each. "If the storm abates you will be in as bad a plight as ever if you have no money," said he. De-

Royal Vinolia VANISHING CREAM

A Perfect Tonic for the Skin and Complexion.

DELICATE, luxurious, soothing and refreshing, restoring elasticity, while vanishing quickly and completely through its rapid absorption by the pores.

It is especially welcome to those who dislike the feeling of anything heavy or oily. It is absolutely non-greasy, and will not cause growth of hair.

Soothes and refreshes the most delicate skin.

Used by gentlemen after shaving, it promptly allays the irritation from the razor.

Supplied in a convenient, patent, collapsible tube, having the advantage that the user cannot lose the cap.

Can also be had in glass jar with screw top.

Sold by all druggists and stores.

A WONDERFUL REMEDY

Orange Lily is daily curing the most obstinate cases of Female Disorders, Paining the Womb, Leucorrhoea, Painful and Suppressed Menstruation, etc., etc. All of them relieved from the start by its use, and a few weeks' or months' treatment accomplishes a complete cure. This remedy is a positive, scientific preparation, and is based on the discoveries of Pasteur and Lister. It is an applied treatment; that is, it is not taken internally, but is applied direct to the suffering parts, and it, therefore, acts with all the certainty of the known laws of chemical action. As it comes in direct contact with the diseased tissue, its antiseptic and nerve-food properties cannot help have a beneficial influence. I receive from 10 to 50 letters daily, speaking of the benefits and cures it is performing, and so sure am I that it will do what is claimed for it that I will send, absolutely free, a 5c. box to every suffering woman who will write for it. Price \$1 per box, which is sufficient for one month's treatment. Address: MRS. FRANCES E. CURRAN, WINDSOR, ONT.

INCENDIARY SEEN

SETTING \$25,000
CITY ROAD FIRE

Cormeal Mill Owned by J. Har-
vey Brown Destroyed, Axe
Factory Threatened—Descrip-
tion of Fire Bug

In what is regarded with certainty
as an incendiary fire last night, the
cormeal mill in City road, owned by
J. Harvey Brown, was almost complet-
ely destroyed. The loss will be about
\$25,000. A man was seen to enter
the building about 10:45 o'clock, guide
himself through with an electric flash-
light and about half an hour later the
department was called.
The building fronts on City Road and
extends back to the Intercolonial Rail-
way track. Mrs. Oliver A. Geldert and
her daughter, who reside in the last
house on Johnstone street, directly op-
posite the scene of the fire, were about
to retire when they heard the noise of
breaking glass, and running to the win-
dow facing the track they saw a man
near the mill. He was about five feet
nine inches in height, dressed in
dark clothes and wore a hard felt hat
and carried the electric flashlight by
which he found his way around the back
of the building. After standing for a
time at one window he passed around
to the side of the building and entered
by another, smashing the panes in a de-
termined manner.
Mrs. Geldert became suspicious of the
man and went in search of a police-
man. She encountered Wm. Bolton and
Harry Ingraham, two young men whom
she asked to look for the police, telling
them the circumstances. While she was
returning to her home she saw the fire-
bug come out of the factory, take off
his coat and shake the dust from it. He
started off in the direction of Gilbert's
Lane, taking the railway track. Robert
Finnegan, who lives nearby, saw the
flames a short time later and sounded
the alarm. There were really two sepa-
rate fires for the men to fight in the
same building, and they seemed to have
quite a start.
It was only with much difficulty that
the department stopped the fire from
spreading to the building of Josiah
Fowler & Co. standing close by, which
building caught several times.
Blanchard Fowler, manager of the
Josiah Fowler Company, had passed his
place of business on his way home and
just reached his home on Wright street
when the alarm sounded. Seeing the
flames in the direction of his factory, he
returned to the scene, "I distinctly re-
member the fact," Mr. Fowler told a
reporter last evening, "I distinctly re-
member the fact that I saw a man
running kerosene and mentioned the fact
to a man who was walking along with
me."
Fortunately the night was calm and
the flames and shower of sparks were
kept from reaching any of the adjoin-
ing houses, but had there been a
breeze at all stirring, there is no doubt
that the fire in the mill would have
been more difficult to fight and that
many of the wooden buildings in the
neighborhood would have been destroyed.
The fearless work of the firemen is to
be commended, as even when the roof
was almost a mass of flames, they mounted
the ladders from all sides and kept a
continual stream on the mill and the
surrounding buildings until the blaze
was completely extinguished. They
were fortunate in discharging their duty
without an accident.
The cormeal mill had not been in
operation of late and there has been no
fire in the building for several weeks.
Owing to the rain and the fact that
Mr. Brown early this morning was
unable to give insurance particulars.
Besides the slight damage to the build-
ing, Josiah Fowler & Co. sustained
considerable damage to their stock of
axe and tool handles by water, but their
loss is covered by insurance, placed by
T. B. & H. B. Robinson, for about \$30,000.
The Maynes & Riley mill has figured
in a number of conflagrations recently,
the last fire occurring two or three
months ago. Last night's was the third
within a year.
An interested spectator of the fire was
Chief Henry Fox, of the Boston fire de-
partment, who was very much pleased
with the work of the local corps.
"Gold and Prices."
If there be any truth in the contention
that the increase of gold supply has been
a potent cause in moving prices upward,
why has not the interest rate on gold de-
clined? This should be the logical and
natural consequence unless some other
causes have intervened. That the inter-
est rate has advanced during recent years
no one will dispute. The English and
Continental financial publications espe-
cially are constantly discussing the prob-
lem. The enlarged demand comes
from two well-defined sources: the need
of the merchant for more capital in con-
sequence of the higher prices he must
pay for his merchandise, besides the ad-
ditional capital needed for business ex-
tension; the other enlarged demand
comes from the railroads and other great
enterprises for the extension of their
business. These two facts, the enlarged
demand for capital and the higher in-
terest rate cannot be reconciled with the
present high prices for commodities. We
must therefore account for their advance
in some other way than the enlarged gold
supply. If gold is so abundant as to
send the prices of commodities upward,
surely it should send the interest rate
downward. The new gold supply can-
not act on prices for commodities and
rates for the use of money in directly
opposite ways, sending the price of the
one up and the other down. It is true
the assertion has been daringly men-
tioned that the interest rate has been ad-
vanced to cover gold depreciation. This
is a purely imaginary assertion, contra-
dicted by the entire world of finance and
business. It is hopeless to attempt to
enlighten any one who will thus dis-
regard plain fact. For if any fact has
been established in recent times it is the
fact that the lenders of money have advanced
rates, not to cover past, present, or future
depreciation of gold, but because
the demand for money, credit or capital,
for the reasons above explained, has
vastly increased.—Albert S. Bolles in the
July issue of The North American Re-
view.

**Few People Realize the Enormous
Stock of an Up-to-Date
House Furnishing
Department**

Such As We Have. **HERE** The Problem of Beautifying Your
Home Is Made Easy. The More Complete The Stock The
Easier To Choose. We Here Enumerate a Few
Leading Lines That Make This Department
Worthy of Your Acquaintance.

English French and American Cretonnes, Chintz, Linen
Taffeta and Art Tickings, the colorings include all the best de-
signs and newest shades. Used for furniture coverings, window
seats, cozy corners, shirtwaist boxes, for curtains, bedspreads
and sofa cushions, suitable widths for all purposes, being from
30 to 50 inches. Prices from 10c. to \$1.85

Art Saten and Silkoline, shown in almost every color, very
richly designed, suitable for mantel drapes, cushions and screen
fillings, from 30 to 36 inches wide, at 18c. to 50c. a yard

Portieres, made of high grade plain Reps, in myrtle, Nile,
rose, olive, terra, crimson, blue, tan, etc., trimmings of hand-
some tapestry borders. Prices \$7.75, \$8.00, \$8.75, \$9.00 to \$14.00
a pair.

Plain Reps in the above colors are sold by the yard, suit-
able for overcurtains, portieres and table covers, at 75c., 85c.,
\$1.15 and \$1.30.

Tapestry Borderings, many patterns to choose from, 10c. to
45c. a yard.

Shirtwaist Boxes, covered with straw matting, in a variety
of sizes, selling from \$4.00 to \$8.50 each. Leave your order,
choose your pattern from the different materials and we will
cover shirtwaist boxes, work guaranteed.

Maxican Red Cedar Moth Proof Chests, these are made in
beautiful designs, self and brass trimmings, one of these in the
home will do away with the necessary storage expense of furs,
etc.

MANCHESTER ROBERTSON ALLISON, LIMITED.

KING STREET GERMAIN STREET MARKET SQUARE

**ATTEMPT TO WRECK
MARITIME EXPRESS**

Moncton, July 4.—While running at a
speed of forty miles an hour, the Mar-
itime express, which left here at 22
o'clock Thursday evening, came within
an ace of falling up in the ditch near
Derby Junction at 24:15 Friday morn-
ing, when it struck a sleeper which had
been placed across the rails on a curve
half a mile east of the northwest Mir-
amichi bridge between Derby Junction
and Newcastle.
The locomotive was derailed but
through some fortunate fluke, stuck to
the roadbed instead of taking to the
ditch, probably averting what would
have undoubtedly have been one of the

worst disasters in the history of the I.
C. R.
The placing of the tie on the track
was clearly the work of train wreckers.

Many More Immigrants

Ottawa, July 4.—The total immigra-
tion to Canada during April and May,
1913, was 146,000, made up of 59,940
British, 80,507 American and 55,553 from
all other countries.
During April and May, 1912, the total
was 129,438, composed of 48,279 British,
82,028 American and 40,179 from all
other countries.
The increase is thirteen per cent.

**TWO LIVES LOST IN
COLUMBUS AUTO RACE**

Columbus, Ohio, July 4.—Harry C.
Knight, of Indianapolis, known as the
hero of the Indianapolis speedway, was
almost instantly killed and his mecha-
nic, a native of Houston, Texas, died
at the hospital late tonight from a frac-
ture of the skull sustained this after-
noon when Knight's car blew a right
rear tire and turned turtle on the 100th
lap of the 200-mile automobile race given
under the auspices of the Columbus
Automobile Association.
Ralph Mulford won the race, break-
ing the world's record for 200 miles on
a dirt track. He made the distance in
three hours, 21 minutes and 48 seconds.
The previous best time was made on the
Columbus track last year by Spencer
Wishart, in three hours, 28 minutes and
four and a half seconds.

Among the gifts to the Kaiser's
daughter at her wedding was a clock
sent by the city of Hannelin. It is
made from a wine cask saved in two
laps of the 200-mile automobile race.
The hours are champagne corks. The
hands are cork-screws and the weights
are bottles filled with champagne.

Courtesy and attention from our pretty Brown Betty Tea Shop Girls.

We close at 11 p. m.

35 Charlotte street, next Bank of Nova Scotia.

NEW FREEMAN GETS AFTER STREET RAILWAY SERVICE IN ST. JOHN

(New Freeman)

Our national holiday in St. John, N. B., would be much improved if the public had reader access to some such recreation grounds as Rockwood Park.

Hence, on Dominion Day great crowds of people were morally compelled to congregate in the city, instead of being able to take a street car tour of Rockwood Park, and strike its summer aspect of hill, and lake, and woodland.

In England and the United States, the city controls its street car corporation or knows the reason why.

SUFFERED TERRIBLY WITH HAY FEVER

Until "Fruit-a-tives" Completely Cured Her.

Mrs. Henry Kemp.

Cornerwall Centre, Ont., November 27th, 1911.

"I was a martyr to Hay Fever for probably fifteen years and I suffered terribly at times. I consulted many physicians and took their treatment—and I tried every remedy I heard of as good for Hay Fever. But nothing did me any good. Then I tried "Fruit-a-tives" and the question is soon settled, and not in favor of the street car corporation either.

GUARD TEETH OF THE SCHOOL CHILDREN ALSO, SAYS DR. J. D. MAHER

(Continued from page 1)

Feeding the Man

The lines of the Service Corps, practically the only body composed almost entirely of St. John boys, competed strongly for favoritism, and many there were who watched the staff of bakers amongst them kneading the dough and preparing to feed the large force of men with the staff of life—seeing the bread placed in the large clay covered ovens and later forked out and delivered about the camp. The other branch of supply—the storehouse, where the rest of the rations for the men were kept—was also one of the spots of interest to the vast crowds of sight-seers.

The hospital lines surprised and interested, the first because of their modern method and up-to-date equipment and the second because of the efficiency of the corps and the model for neatness throughout, the other branch of supply visitors were amply repaid for coming even a lengthy distance to the encampment, though probably none of them was aware that it was considered one of the best in Canada.

It is in the past now for another twelve-month and the men who have been factors in the making of it have returned to the homes, widely scattered throughout the province, satisfied with their training, the things, the insight into soldier life and things about Camp Sussex in general.

Colonel Rutherford, O. C. the 6th division, Halifax, while at Sussex yesterday complimented the officers on the success of the camp, the field operations and the brigade, saying that all who participated in making the two weeks' training such a marked success were deserving of hearty commendation. He was greatly pleased with the appearance and conduct of Camp Sussex this year, saying it compared very favorably with other militia camps throughout Canada.

In his orders issued yesterday the camp commander, Colonel W. M. Humphrey, had words somewhat similar to say. He expressed his appreciation of the men in which the duties of officers and men had been performed. The behavior of all had been satisfactory. He extended his thanks to the officers and the brigade commanders and all officers commanding units, his hearty congratulations to the officers of his staff, the excellent results obtained.

Belgrade, July 5.—The Servians have captured Kotorska after a severe battle.

It is reported that the Servians annihilated the right wing of the Bulgarian army commanded by the war minister, General Kovatchev, capturing important war trophies.

London, July 5.—A Vienna despatch to the Daily Mail says it is officially announced that Bulgaria and Roumania have accepted Austrian mediation.

Sofia, July 4.—It is officially announced that three Servian battalions have been defeated and driven back north of Pristina. Two hundred Servian officers and men were taken prisoners and several guns captured.

Athens, July 5.—Premier Venizelos read a message from King Constantine in the chamber of deputies last night urging his people to a new struggle with their former ally.

"The Hellenic nation," the message reads, "relying on the justice of her cause, will shrink from no sacrifice in this struggle which is blessed by the Almighty."

Collision on I. C. R.

Moncton, July 5.—As the result of a freight train running into another freight train standing in front of L'Islet Station, Quebec, a van was destroyed, two box cars damaged and an engine slightly damaged. The Ocean Limited was blocked for quite a while. No one was hurt but the roadbed was torn up.

Johannesburg, July 5.—Two biplanes collided together in the dusk at an altitude of sixty feet last evening. Aviator Helischer was killed and Captain Friederich's spine badly injured.

Pittsburg Pa., July 5.—Marty O'Toole pitcher, was operated on yesterday.

MOOSE PICNIC

The Moose picnic which was to have been held on July 1 was postponed till today and will be held at the Ferns this afternoon. The weather promises to be very favorable and a good time is looked for.

MARKET MORE LIKE THE SUMMER TODAY

An abundance of green vegetables was to be seen in the market this morning; all varieties were high but in demand; beets sold at twelve cents, spinach ten cents a bunch, squash was worth six cents a pound and carrots ten cents a piece or three for twenty-five cents; a few potatoes were offered for sale today at about 75 cents a peck. Native green beans brought 70 cents a peck; green peas \$1.

Lamb was scarce and high ranging from eighteen to twenty-five cents a pound. The demand for veal has slackened lately; it brought from twelve to eighteen cents by doing it only by its weight to twenty-five cents a pound. A few pairs of chickens were to be seen in some stalls but they were expensive. Native strawberries were scarce but what came in were in demand at twenty cents a box. Eggs and butter were plentiful bringing around twenty-five cents.

If you think you can achieve anything more or more by doing it only by its and starts up that erroneous idea out of your head at once.—Charles Dickens.

GREENE TO HAVE DREADNOUGHT

Athens, July 5.—The "Patrios" learns from an authoritative source that, as the result of an exchange of views amongst the president of the council, the minister of marine, and Admiral Condouriotis, the construction of a dreadnought has been definitely decided upon.

The new unit of the Greek fleet will be of 12,000 tons displacement. Admiral Condouriotis has planned the disposition of the guns from experience gained in the various naval fights with Turkish warships.

NEW OIL FIELDS OF NAVAL VALUE

Sydney, N.S.W., July 5.—In view of the raw state of the British administration to secure adequate supplies of oil for the navy, the discovery of oil fields in Papua, is of importance.

If the anticipations of the discovery are fully realized, the industry in Papua is certain to reach large proportions and will revolutionize the development there.

Only Eight This Year

Chicago, July 5.—The celebration of the 4th of July with fireworks this year resulted in only eight deaths and 955 injuries in the entire country.

CHURCH SERVICES

First Church of Christ Scientist; service at eleven a. m., at 15 Germain street; subject, "God"; Wednesday evening service at eight; reading room open daily from three to five; Saturday and legal holidays excepted.

First Presbyterian Church, West Side, Rev. J. A. Morrison, D. D., minister; service at 11 a. m. and 7 p. m. Strangers cordially invited.

CAMP WAS BEST ONE EVER HELD

(Continued from page 1)

Feeding the Man

The lines of the Service Corps, practically the only body composed almost entirely of St. John boys, competed strongly for favoritism, and many there were who watched the staff of bakers amongst them kneading the dough and preparing to feed the large force of men with the staff of life—seeing the bread placed in the large clay covered ovens and later forked out and delivered about the camp. The other branch of supply—the storehouse, where the rest of the rations for the men were kept—was also one of the spots of interest to the vast crowds of sight-seers.

The hospital lines surprised and interested, the first because of their modern method and up-to-date equipment and the second because of the efficiency of the corps and the model for neatness throughout, the other branch of supply visitors were amply repaid for coming even a lengthy distance to the encampment, though probably none of them was aware that it was considered one of the best in Canada.

It is in the past now for another twelve-month and the men who have been factors in the making of it have returned to the homes, widely scattered throughout the province, satisfied with their training, the things, the insight into soldier life and things about Camp Sussex in general.

Colonel Rutherford, O. C. the 6th division, Halifax, while at Sussex yesterday complimented the officers on the success of the camp, the field operations and the brigade, saying that all who participated in making the two weeks' training such a marked success were deserving of hearty commendation. He was greatly pleased with the appearance and conduct of Camp Sussex this year, saying it compared very favorably with other militia camps throughout Canada.

In his orders issued yesterday the camp commander, Colonel W. M. Humphrey, had words somewhat similar to say. He expressed his appreciation of the men in which the duties of officers and men had been performed. The behavior of all had been satisfactory. He extended his thanks to the officers and the brigade commanders and all officers commanding units, his hearty congratulations to the officers of his staff, the excellent results obtained.

Belgrade, July 5.—The Servians have captured Kotorska after a severe battle.

It is reported that the Servians annihilated the right wing of the Bulgarian army commanded by the war minister, General Kovatchev, capturing important war trophies.

London, July 5.—A Vienna despatch to the Daily Mail says it is officially announced that Bulgaria and Roumania have accepted Austrian mediation.

Sofia, July 4.—It is officially announced that three Servian battalions have been defeated and driven back north of Pristina. Two hundred Servian officers and men were taken prisoners and several guns captured.

Athens, July 5.—Premier Venizelos read a message from King Constantine in the chamber of deputies last night urging his people to a new struggle with their former ally.

"The Hellenic nation," the message reads, "relying on the justice of her cause, will shrink from no sacrifice in this struggle which is blessed by the Almighty."

Collision on I. C. R.

Moncton, July 5.—As the result of a freight train running into another freight train standing in front of L'Islet Station, Quebec, a van was destroyed, two box cars damaged and an engine slightly damaged. The Ocean Limited was blocked for quite a while. No one was hurt but the roadbed was torn up.

Johannesburg, July 5.—Two biplanes collided together in the dusk at an altitude of sixty feet last evening. Aviator Helischer was killed and Captain Friederich's spine badly injured.

Pittsburg Pa., July 5.—Marty O'Toole pitcher, was operated on yesterday.

MOOSE PICNIC

The Moose picnic which was to have been held on July 1 was postponed till today and will be held at the Ferns this afternoon. The weather promises to be very favorable and a good time is looked for.

MARKET MORE LIKE THE SUMMER TODAY

An abundance of green vegetables was to be seen in the market this morning; all varieties were high but in demand; beets sold at twelve cents, spinach ten cents a bunch, squash was worth six cents a pound and carrots ten cents a piece or three for twenty-five cents; a few potatoes were offered for sale today at about 75 cents a peck. Native green beans brought 70 cents a peck; green peas \$1.

Lamb was scarce and high ranging from eighteen to twenty-five cents a pound. The demand for veal has slackened lately; it brought from twelve to eighteen cents by doing it only by its weight to twenty-five cents a pound. A few pairs of chickens were to be seen in some stalls but they were expensive. Native strawberries were scarce but what came in were in demand at twenty cents a box. DYKEMAN'S

A Manufacturer of Shirt Waists in Montreal wrote us a few days ago that he would clear out the balace of

Shirt Waists

on hand of this season's make at a certain price

This price included waists which he had sold as high as \$33.00 a dozen. We wired for him to ship the lot, and they are now here, and on sale at three prices.

Ninety-nine cents, which price includes waists that are worth up to \$1.75. \$1.19, which price includes waists worth up to \$2.25; and \$1.75, which price includes waists worth up to \$3.75.

These are without doubt the best lot of waists that this store has shown at popular prices for a long time. See the window display which will give you an idea of the wonderful value. Note the fine embroidery used. Many of the waists are made from voile, beautifully trimmed with pearl buttons and velvet ribbon.

PRETTY SERVICEABLE

Dresses for Children

At Prices That Will Please Mothers

This complete assortment of Children's Dresses contains many agreeable surprises in the way of new designs and patterns. Makers have produced many new designs that are sure to be very popular. In addition to being very pretty these new dresses are sturdy and well made. Another thing of great importance—the colors are absolutely fast, will not fade or run. Every mother knows that the wear of a child's dress depends as much on the color as it does on the durability of the materials or the quality of the workmanship. That's why we want to impress you with the fact that the colors of these dresses are absolutely fast. No matter how hard or how often you wash them the colors will always be fresh—you won't have to discard one of these dresses because the colors have faded. This is a most important point to remember when buying dresses for your children.

Prices for these superior dresses for children are very moderate too, as the following items will show.

PLAID GINGHAM DRESSES, sizes 8, 10, 12 years, low neck, sailor collar, trimmed with Swiss embroidery,	at \$1.75
CHAMBRAY DRESSES (many shades) sizes 3, 4 and 5 years, low neck, trimmed with striped chambray,	at 95c.
CAMBRIC DRESSES, square neck, trimmed with plain folds of chambray and buttons, sizes 10, 12 and 14 years,	at \$1.10
PLAID GINGHAM DRESSES, large lace sailor collar and cuffs, sizes 8, 10, 12 and 14 years,	at \$1.95
LINEN DRESSES, turn-over collar, Persian trimmings, Colors tan, sky and cadet, sizes 8, 10, 12, 14 years,	at \$1.10
ROMPERS (extra strong material)	50c.

S. W. McMACKIN, 335 Main Street

LOCAL NEWS

THIRTY-EIGHT BABIES
Twenty-one marriages and thirty-eight births, twenty-two boys and sixteen girls, were recorded with Registrar Jones during the last week.

VICTORIAN NURSES
The Victorian Order of Nurses are to have a district nurse appointed in Fredericton permanently, following an organization of a branch of the order here next fall.

TWELVE DEATHS
Twelve deaths were reported to the Board of Health this week from the following causes: Phtisis, three; senility, suicide, hemiplegia, paralysis, asthma, septicaemia, Bright's disease, gastric carcinoma and cerebral degeneration one each.

EXAMS COMPLETED
The University Matriculation and Normal School entrance examinations, which were being held this week at the High School under the supervision of Inspector Wm. McLean were completed yesterday. The results of the papers will be issued by the education office during the first week in August.

CRICKET TODAY
The St. John Cricket team will play a match this afternoon with the Sugar Refinery team. The umpires will be Mr. Masters and Mr. Macmichael, while the St. John team will line up as follows: Hayes, Crawford, Coulthart, James, Stubbs, Sancton, Sollows, Sturdee, Poppenham, Munroe and Williamson. The game will be on the Barrack Square.

DIED THIS MORNING
The death of Joseph E. Wright, a respected employe of the city, took place this morning at his home, 66 Brussels street. He is survived by his wife, two sons, four brothers, and two sisters. The brothers are Horatio E. of Millstream, Miles B. of this city, and James E. and William A. of Barré, N.B. The sisters are Mrs. Catherine Northrup of this city, and Mrs. Eulalia B. Lewrens, of Barré. The funeral will be held on Monday, 2.30 p. m.

IS IMPROVING
The friends of Edward Adams, who met with a painful injury on July 1, will be pleased to hear that he is rapidly improving. The accident occurred about one hundred yards from Indian town, while he was the way up river in his motor boat, and was not witnessed by anyone. When about to adjust some piece of the machinery his foot was caught in the revolving shaft and was severely wrenched. Since then he has been confined to his home in Queen street, West End.

CREDITORS MEETING
A meeting of the creditors of the Pneumatic Service Delivery Company was held yesterday in the office of J. A. Barry, when the assignment of the company to Mr. Barry was confirmed. A statement of the company's condition showed liabilities of about \$1,000, and assets consisting of their interest in one of their two cars. There is a bill of sale on the other car and the rights of the mortgagee under this will be investigated. The other car was ordered sold by J. A. Pugsley & Company to settle the estate.

NEW FIRM OF ENGINEERS
A new engineering firm is that of Smith & Turnbull, about to open an office in the city. The young men are David B. Smith and James P. Turnbull, both well up in the profession and well known in St. John, having been for the last three years with the firm of Smith & Smith graduated from the University of New Brunswick in 1906 and took the degree of bachelor of science from the same college in 1910, and is also a deputy land surveyor for New Brunswick, while Mr. Turnbull has been practicing in different branches of engineering for the last twelve years.

A suite of offices has been secured in the Lynch building in Prince William street. Many friends in the city and throughout the province will wish these young men every success in their new venture.

RISE IN MARKET AVERTED
Some excitement was caused last evening in Union street when a farmer's wagon became caught in the rails of the track and hindered traffic until, through the combined efforts of bystanders, the wagon was lifted out of the tracks. The wagon was about to topple over, but was held fast until the horse was gotten under control. The wagon was taxed to capacity with hay and other produce, which were intended for market sale. Fortunately for the consuming public the accident was averted, as the contents of this popular delicacy kept within the limits of reason.

DEER ON THE TRACK AS

SUBURBAN COMES ALONG

Bound into Thicket Near City and Watch the Train Speed By

There are indications that big game will be plentiful this year and New Brunswick should be able to provide the best of sport for visiting hunters. A few days ago a young bull moose strayed into St. John and yesterday the passengers on the Intercolonial suburban train, en route to the city, saw two fine deer on the right of way. The deer were crossing the tracks when the train approached and frightened them off. They bounded to the thicket at the side of the railway and, from the bushes, watched the train roll by. From various other parts of the province reports have been received indicating the presence of game in unusually large numbers this year.

LACROSSE PLAYER

MAY LOSE AN EYE

Toronto, July 5.—Late last night Eddie Longfellow, centre player of the Toronto of the D. L. A., was rushed to the general hospital, where a hurried operation was performed in the hope that the sight of an injured eye might be saved. Longfellow sustained a serious injury in the battle between the Toronto and Tecumseh on last Saturday.

"Buck" Yeaman, of the Tecumseh, dealt Longfellow a blow across the face. Yeaman has been fined \$50 and suspended for two weeks.

C. P. R. steamship Empress of Japan left Hong Kong on July 2 at 12.30 p. m.

JACK WATT TO CATCH THIS AFTERNOON; BEIN WAS HURT YESTERDAY

Ramsay to Right Field to Complete Line Up—New Pitcher to be Sent Against Fredericton

The Marathons arrived home on the noon train and are all feeling very much elated over their victories while away. They certainly are playing good ball and batting up to the highest average. Blen, the popular catcher, was hurt yesterday in Bangor, and the result is he will be laid off for a few days, but the ever reliable Jack Watt will fill the position as back stop for today's game. The line up for this afternoon's game, which will start at 8 o'clock, will be: Watt, catcher; Charles or Tarbell, pitcher; Shankey, first base; Pinkerton, second base; O'Brien, third base; Black, centre field; Riley, left field; and Ramsay right field. At Tuesday's game with Bangor here the school children are all to be admitted free and through the kindness of George A. Riecker, druggist, of Charlotte street, a band of music will be in attendance and provide a good programme of music during the afternoon for the children. The generosity of Mr. Riecker's part will be appreciated by the many children who will attend this game. At the same time the management are to be thanked for their kindness in setting a day apart for the school children of St. John. The Marathons are now leading the league in batting average, and with Fredericton against them this afternoon a whitewash game is expected. Condon will likely pitch for Fredericton.

TO GET BETTER RECORD OF BIRTHS IN CITY

Mr. Jones Takes up Matter With Government—Likely Arrangement With Medical Society

Owing to the difficulty experienced in securing complete records of all births, as required by law, Registrar John B. Jones is endeavoring to secure an amendment to the present legislation. At the last meeting of the provincial government, held in St. John, Mr. Jones said he had presented his ideas on the subject. The chief difficulty has been the ignorance of parents of their duty to report births and the impossibility of keeping this requirement before the public. He suggested that it would be an easier matter to depend on the doctors for notification of the cases they attended and, if the parents did not report the birth within the required time, the registrar could take steps to secure the registration from them. The matter was taken up several years ago and, pending the placing the responsibility for the registration upon the doctors, but an appeal from this place in 1908, the matter was dropped. It is believed that the doctors would be willing to co-operate with the government along somewhat different lines, but it is understood that the government will take the matter up with the medical society.

HERE FROM SOUTH AFRICA; TALKS OF HER PROBLEMS

H. Cooke Sees One of Greatest Troubles in Lack of Harmony Among Races

"South Africa has many problems to solve before we can expect a period of substantial progress and development," said H. Cooke of South Africa, who is in the city at present. "One of the greatest difficulties is found in the lack of harmony between the English and Dutch and the politicians are spending their time squabbling over questions relating to the use of the two languages instead of devoting themselves to matters of greater importance to the country. "The natives also form another side to a triangular contest for supremacy. As they outnumber the whites by two to one and are increasing more rapidly, the accident in the affairs of the country is an important matter. They are but a few stages removed from actual savagery and it will take more than one generation to fit them for the responsibilities of self government. The negroes are gradually acquiring large tracts of land and this will complicate the problem still more. "The whites have become accustomed to depend on the negroes for most of the rough labor and, while they do not accomplish their tasks as efficiently as white laborers, they do it at about half the cost and people have become used to the idea that a half done job is good enough and this is having an effect on the standards of the country. Again, it limits the sphere for white workmen who refuse to do any work which they can classify as a 'nigger's job.' "Among the white workers, the labor unions are beginning to make headway and the conservatism of those at the head of affairs does not make it easy for those who are trying to establish the unions. When I last heard from Johannesburg a general strike of the miners and allied workers which would tie up all the mines, was threatened. "The strike to which Mr. Cooke refers was begun this week.

STUNG TO DEATH BY BEES

Poor Eyesight Causes Elderly Jeremiah Kramer to Wander into Big Swarm

Pittsburg, July 5.—Unknowningly because of poor sight, Jeremiah Kramer, aged 72, who resides on a large farm in the Wind Gap road, in Charters Township, ran into a big swarm of bees which were about to swarm on a projecting eave in his wagon shed. Instead of taking to the beam, the bees enveloped Kramer and piled on his face. Kramer called for help and fought the bees as best he could, but he was soon blinded and helpless.

The onslaught of the bees rendered him unconscious and he was found three hours later in the wagon with the hundreds of bees on his arms, legs and face. Although medical aid was hurriedly summoned, Kramer died.

Hose, Gloves, Ties, Ladies' and Children's Underwear, Neckwear, etc. F. W. McCAW 609 Main Street

New Houses in Clarendon Street; More Are Likely

Temple of Honor Band to Be Heard In King Square - News and Personal Notes

In Clarendon street, a new residential avenue being opened up opposite St. Peter's church and running from Douglas avenue to Marble cove, two new houses are already being erected. These houses are being built by Mrs. Collins and Mrs. Gallagher, both of Bridge street. I. C. Brown has the contract for building both houses, and has them well under way, and the work will be completed by November 1. P. McCarthy has the contract for the mason work. Both are to be double tenement houses, and will be occupied in part by the owners. Applications have already been received for the flats to be rented. The city workmen are still at work opening up the street and putting in water and sewers. Several lots have already been sold, and it is expected that more buildings will be erected soon.

It was his first trip through the dominion. He epigrammatically summed up one aspect of his impressions by saying: "If any girl of good character who is able to fry bacon comes to western Canada she can do much better than Miss Daisy Markham did yesterday with her English marquis. The latter got the money but missed the man. The former will get both the money and the man, in your Canadian west."

HALIFAX TERMINAL CONTRACTS AWARDED Contracts for the first part of the new terminals of the Intercolonial Railway at Halifax have been awarded. The successful bidders are the Cooke Construction Company, of Sydney, and A. B. Whelan, of Amherst (N. S.), who will carry out the work jointly. The price is a million and a half dollars, and the work consists of the construction of a line of railway from Rockingham to the new ocean terminals in the south of the city. It will be double-tracked. The Intercolonial is to be double-tracked at once between Lewis and Chaudier, a distance of nine miles, and a new cut-off construction provided at Chatham.

BATHING CAPS 19c

Regular prices 25c. and 35c. Newest styles in Bathing Caps, 70c. and 85c. each.

Sponge Bags, 25c. and 35c. Extra large, 60c.

COME AND BE CONVINCED FOR YOURSELF.

Beatty & Giggey

North End 695 Main Street

The Temple Band is well equipped with instruments and the boys present a pleasing appearance in their new uniforms. Engagements have been made with the band by the city for several concerts to be played on King square during the summer. The first of their concerts will be given on next Monday evening, and an excellent programme has been arranged. The steamer May Queen has been engaged by the band for a moonlight excursion to be held on the following Monday.

The fire department was called out last evening to extinguish a blaze in about three hours last evening, and lamps which were placed in the store windows gave the only light available.

The street lights in Douglas avenue and part of Main street were off for about three hours last evening, and lamps which were placed in the store windows gave the only light available.

CANADIAN SOLDIERS IMPRESS SIR IAN

British Inspector General Completes 6,000 Mile Tour of Inspection in Fortnight - To Maritime Provinces Next

Ottawa, July 4.—After a quick charge across the continent and back again—5,000 miles in less than a fortnight—Major-General Sir Ian Hamilton and Col. the Hon. Sam Hughes, with their staffs, Imperial and Canadian, returned to the capital this evening. It was a rapid action engagement with Canada's portion of the empire's militia forces, but though the battles fought were all sham battles and the inspection by the military experts of the two war offices was necessarily somewhat hasty, all odds the most comprehensive and successful annual inspection of Canada's militia forces ever made. The rapidity with which the successive camps from Quebec to British Columbia were visited was due to the joint energy of Col. Hughes and

the C. P. R., the former supplying the steam and the latter a special train.

The results of the trip, which will be concluded next week with a similar round of inspections in the maritime provinces, have greatly impressed the inspector-general of the overseas forces, Sir Ian Hamilton, and has delighted the heart of the energetic and enthusiastic minister of militia and defence for Canada.

With the potential greatness of western Canada and its wonderful development, Sir Ian was equally impressed.

Hiatt's Hygienic Milk Bread

is made of the highest quality flour and other absolutely pure and healthful ingredients. Milk is used instead of water. These are combined with my experience and the result is a (perfect loaf). Its crust is light and crisp, its texture fine, it is healthful, nourishing, digestible. Children thrive on it. Every loaf labelled Hiatt's Hygienic Milk Bread. ASK YOUR GROCER FOR IT. BAKERY, 134-138 Mill street PHONE 1167.

COM. McLELLAN TELLS WHY HE WAS PRESENT

To the Editor of The Times: Sir,—I noted in the news columns of the Globe and Times of this date that I was present at the meeting of the commissioners this morning and discussed with them the placing of some new hydrants throughout the city. The facts are these: I received a letter from the commissioner of water and sewerage this morning requesting that I select locations for any new hydrants which might be required along the line of work which was being constructed on certain streets. I immediately prepared a list of same and proceeded to city hall to deliver the list, and upon entering the lobby I noticed that the door leading to the ante-room was open. Thinking the usual noon meeting of the commissioners was over I entered the committee room and upon finding the commissioners present, inquired, "What is the matter this morning? Are you running the open door now?" They laughed, as I proceeded to hand Commissioner Wigmore the list. In examining the list the commissioner of water and sewerage and myself discussed the several locations, simply from a standpoint of checking the same. I was not present during any discussion between the commissioners of any business which may have come before them, and did not attend their meeting, and if the committee room doors had been closed I would have been contented to await the end of their meeting before delivering the list. I can hardly believe the reporters intended to make any capital of my presence in the committee room, but if so, I make the explanation, in justice to myself,

self, after having taken a stand on a matter in which I believe I am rightly proud from which stand I do not propose to recede until I am proven wrong. In conclusion I would like to inquire of the newspapers and especially the advocates of commission form of government, why the present hall all knocking at city hall for the open door? Are you contented to leave so important a matter involving the true intentions of commission government in the hands of one commissioner to fight it out for you, or do you intend to lend further aid? Without waiting for your answer I will state for your benefit, irrespective of any newspaper aid, I will make all possible attempts to secure the open door, and I am not in the least worried as to the result. Yours respectfully, H. R. McLELLAN, Commissioner. St. John, July 4, 1913.

NERVOUS TROUBLES ON THE INCREASE

They Are Due to an Impoverished Condition of the Blood

Nervous exhaustion—or neurasthenia, as medical men call it—is one of the greatest evils of the present day. For it is destroying the life and energy of thousands of men and women, or worse, driving them to insanity. The signs of this trouble are usually great weakness after any exertion, nervous headaches, trembling hands, shakiness in the legs, irritability of temper, weak digestive power, insomnia. The life of the sufferer becomes full of misery. The true treatment for this trouble must consist of a building up process, for the above signs mean that the exhausted nerves are calling for more nourishment from the blood supply. Dr. Williams' Pink Pills make new, rich blood that feeds the starved complaining nerves, and in this way they have cured thousands of times neurasthenia, neuralgia and other nervous disorders, and have restored strength and nerve-energy to despairing people. Mrs. Isaac Wilson, Calabogie (Ont.), gives thanks for having been restored to health through the use of this medicine, she says: "When I began using Dr. Williams' Pink Pills I was a nervous wreck. I couldn't do my work, could not sleep at night, suffered from nervous headaches, and the least noise would completely upset me. Only those who have suffered from nervous trouble can tell what I endured. I doctored for a time but did not get any benefit. Then I learned of Dr. Williams' Pink Pills and sent for a half dozen boxes. By the time I had used these I was almost well, and a couple more boxes completely restored my health, and I have had no return of the trouble. I can cheerfully recommend Dr. Williams' Pink Pills to those who suffered from any form of nervous trouble." If you are weak, nervous or out of spirits begin to cure yourself today with Dr. Williams' Pink Pills. You can get them from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE NIAGARA RETURNS FROM HER LAKE GRAVE

ABOVE THE REMAINS OF THE NIAGARA WHEN RAISED FROM THE BOTTOM OF THE LAKE. BELOW, THE HULL IN PROCESS OF RESTORATION.

(Times' Special Correspondence) Erie, Pa., July 2.—When the Niagara war brig, sails into Put-in-Bay in September to fire a salute over the unmarked graves of the naval heroes of 1813, she will be more than a ghost of a century that is gone. The oak keel that was hewed from primeval forests with crude tools has withstood the ravages of time. Much of the planking remains. But, as the rebuilders assert, the keel is the foundation of the ship, and as long as it remains what new timbers are supplied may well be called mere repairs. After more than ninety years the Niagara was recovered from Misery Bay, where it was sunk when malaria and fevers had so devastated its crew as to make it seem useless to maintain it as a receiving ship after the war had closed. It was covered with six feet of sand. It was raised during the winter when the work was hampered by ice. The state of preservation was remarkable. The keel, 102 feet in length, was intact. Sixty feet of the port side to the top of the rail remained. Most of the starboard side was gone. There was no official record of the plans. Beyond the fact that she was a

square rigged brig, with 110 foot water line, a 90 foot beam, carrying 18 32-pound "carronades" and two long 12 pounders, the work of restoration has been guided by a study of old books and prints. This task fell to Lieut. W. L. Morrison of the Pennsylvania naval forces. In working out the details he consulted every book on boats written from 1760 to 1820. The carronades were mounted on slides instead of wheels, designed to throw heavy balls a short distance. Sea fighting had then reached none of the refinement of modern warfare, with its long range of miles and its scientific destruction of human life. The Niagara, as it is being restored, is no imposing sight. Today it would scarcely frighten a motor boat. In but one respect will the restored Niagara differ from its prototype. The original sails were of flax and its ropes of hemp. Flax and hemp have long passed out of modern life. But the old carronades, the 12-pounders for the men, the scant quarters for the men, the two masts with their square rigging will make her look exactly like the vessel that caught the sight of those who watched and waited at Put-in-Bay a century ago. It is estimated that about a third of the original timbers will be in the Niagara when she is restored. "Enough remained to show that

Thomas Eckford, the naval constructor who built her, was a genius whose ideas of sailing boats have been but little bettered in 100 years," says Lieut. Morrison. "The model could hardly be improved, and it is likely that she could have given any of the fancy yachts of today a stiff race."

How to Rent a Piano, or Find Those Who Wish to Rent

Harmony in the Home for a Few Cents a Week. Can't You Afford a Piano?

Then rent one. Some dealers and individual owners will permit rent to apply on purchase price. Or you may combine rent and instructions in one small price, payable weekly or monthly. Don't go through life without music in the home. It gives you new purpose, recreation and pleasure. If you deal in pianos or have an instrument you won't use for some time, rent it. A piano in use lasts longer. One of our little Want Ads is the straight path to what you desire. Tell your message in a few words. Get it in tomorrow's paper, and watch results. It is cheaper than carfare. It gives you many offers to select from. It is the modern method of leasing pianos and no matter what you desire, the best things will come to you if you—

(Suggestions for You to Adopt) WANTED TO RENT.—An upright piano; also with manufacturer in music for daughter. Will lease for a year; under plus of applying rent on purchase price. Ad. draw. PIANO TO RENT.—Splendid new and used uprights, \$2.00 to \$4.00 weekly. Rental apply on purchase price if you want to buy size. Call or address.

THE STAGE AND ITS PEOPLE; MANY WELL REMEMBERED HERE

Says English Scheme for Chain of Canadian Theatres Prospers

Wm. Holles, Who is Projecting Venture, Reports Hopefully--Parker Working on New Play With Napoleon Central Figure--News of Our Friends

William Holles, who is projecting a group of important theatres in Canada has returned to London and reports that the scheme for building the theatres and for presenting therein the best English attractions, is going strong. The undertaking, it is said, has assumed big proportions. It has received the support of many distinguished Canadian financiers. Mr. Holles has arranged for his firm to build playhouses at Montreal, Toronto, Vancouver, Winnipeg and forty other towns. His visit to London is for the purpose of looking the biggest and best theatrical and variety attractions. It is not explained whether the scheme contemplates a co-operation with American producers or only English attractions in drama and vaudeville. Evidently, however, Mr. Holles expects to report principally upon London to supply his chain of houses with attractions.

Verba and Luescher are interested in the formation of a permanent light opera organization in New York city. The idea is to present the works of contemporary composers of this and other countries in a theatre built and maintained expressly for the purpose. The project is to be backed by a syndicate and Verba and Luescher are to be the managing directors. Pauline Neff (Munyon), wife of the patent medicine man, James M. Munyon, whose suit for divorce is now pending in the Philadelphia courts, has returned to the footlights, from which she retired when she became Mrs. Munyon in 1908. She appeared at the Harlem Opera House in Winchell Smith's 'The Only Son, June 28. Milton Aborn from all accounts, is stirring up a perfect cyclone of excitement in London in his efforts to organize an English-speaking company for the Century Opera House. The Savoy Theatre has been besieged by male and female singers hoping to be picked out for the City Club opera. So many sought appointments with him that he was forced to hire a hall room for the voice trials, but singers continued to come in such rapid succession that Aborn in desperation enlisted the services of Daniel Mayer, the concert impresario, who assisted in the selection. That Margaret Anglin has actually entered the field of the theatrical producing manager in all that the term implies is being amply demonstrated in the fact that she has leased an entire floor in a building on Forty-fifth street, New York. Work will begin immediately on the two hundred costumes necessary in her revivals of 'The Taming of the Shrew, Twelfth Night, As You Like It, and Antony and Cleopatra. Miss Anglin will not present Euripides' Medea, at the University of California, this season, as has been her intention thus far. Instead she will substitute the Electra of Sophocles. The

for September 6. Louis N. Parker, author of 'Disraeli,' 'Pomander Walk,' and other successful dramas, is now at work on a new play with Napoleon as its central figure. Cyril Maude is to open a New York run in the fall, after which he will visit Canada. One of the plays which he will produce is 'The Headmaster,' by Messrs. Wilfred T. Coleby and Edward Knoblauch.

The incidental music for the stage version of 'Evangeline,' to be produced by Arthur Hopkins, has been written by William Farm. 'Evangeline' will be given at the Park Theatre, New York, on Monday, August 29, with Edna Goodrich in the title role. Sir Johnstone Forbes-Robertson will dedicate the Shubert Theatre, New York, this fall, according to the announcement made by Lee Shubert on the latter's return from Europe Friday. The English actor-manager will then make his farewell tour with Gertrude Elliott in a repertoire of Shakespeare plays and standard successes.

The Royal Mounted, a vigorous drama of the Canadian Northwest, was the attraction last week of the Castle Square Theatre, Boston, Mass. A. H. Woods has completed the cast for his production of 'Potash and Perlmutter,' which has been made into a three-act comedy from Montague Glass' stories. The players engaged include Alexander Carr, Barney Bernard, Joseph Kilgour, Lee Kohman, Louise Dresser, Edith Proctor Otis and thirty others. The play is to open in the George M. Cohan Theatre in August. Margaret Hinton is about to head a western company in 'Within the Law.' Lillian Russell sailed July 31rd ostensibly for a monthly rest by travel, really to collect picture data on the conditions of working girls in other countries. She will visit Germany, Austria, Belgium, Holland, bringing back from those midrib countries proof that things aren't so bad with us as they might be. By showing that women yoked with an ox, ploughing the fields, she will win by comparison to lessen the miseries of standing behind the counter eight hours a day. She will address department store girls and others by invitation. But it will not follow that Miss Russell will deduce from her sociological studies that she should not endeavor to improve existing conditions. She is the daughter of one of the original suffragettes and didn't march in the last parade because she wasn't in town. September 4 is now definitely fixed for the production at the Duke of York's London, of the new Barrie play, 'The Legion of Leonora,' with Sir John Here and Mrs. Patrick Campbell in the leading parts. Mame, Lina Cavalieri, the beautiful and fascinating prima donna, is to marry Lucien Muratore, the tenor who accompanied her and sang with her on her last tour in America. So it has been announced definitely by those very close to the lovely soprano. They declare that Cavalieri and Muratore will be married perhaps in the presence of a few intimates at her country house just outside of Paris. The ceremony is to take place in August, it is said authoritatively. Eddie Foy and his company which met with poor success in its tour of the Northwest in 'Over the River,' closed suddenly at Calgary, June 19, with twenty-four weeks' booking ahead. Twenty-five members of the company reached St. Paul, where they were stranded until they received money from New York. A comic opera with all the characters negroes is to be written by Miss Katharine Lorraine, an actress of Los Angeles. Miss Lorraine was brought up on a plantation and has a close acquaintance with negro ways and feelings. The idea was suggested to her by her old negro mammy who nursed her when she was a baby. The managers of the Negro Players believe the poor patronage accorded their offering at the Empire Theatre, Brooklyn, was due to the fact that few colored people live in the vicinity of the theatre. However, they are pluckily renewing their endeavors to interest colored folks in colored talent at the Lafayette theatre, and feel certain they will have a better opportunity of gauging the interest in their offering than has been heretofore offered. The Board of Health of Chicago has decreed that all theatres must be properly ventilated before September 1. Those failing to provide a ventilation system in accord with the board's plan will be closed, and kept closed till the 685 theatres, large and small in Chicago, only about 100 have ventilation systems, which are in accord with the rules of the Sanitary Department of the Board of Health. 'Summer shows' will usually but a short season on one season at most. Those failing to provide a ventilation system in accord with the board's plan will be closed, and kept closed till the 685 theatres, large and small in Chicago, only about 100 have ventilation systems, which are in accord with the rules of the Sanitary Department of the Board of Health. 'Summer shows' will usually but a short season on one season at most. Those failing to provide a ventilation system in accord with the board's plan will be closed, and kept closed till the 685 theatres, large and small in Chicago, only about 100 have ventilation systems, which are in accord with the rules of the Sanitary Department of the Board of Health.

THE LONDON STAGE

Sir Henry Irving's Son Back From South Africa

WILL TRY A NEW PLAY Jim The Penman Successfully Received by Kenneth Douglas--Who the Real Jim Was--Queer History of 'The Gilded Pill'

(Times' Special Correspondence) London, June 21--'Harry' Irving, bronzed and weather-beaten and looking more like his father than ever, got back to London last Saturday after a South Africa tour that seems to have been uncommonly successful. Last night he was 'in front' at the Queen's Theatre, where 'Get-Rich-Quick Wallingford' recently gave way to 'Typhoon,' watching his younger brother's clever work in the Lenzel play, quite the best piece of acting that Laurence Irving ever has given us. Dutton-holed in the lobby and questioned as to his experience in South Africa and his future programme, Irving said: 'It appeared down there in some of my father's greatest parts--Hamlet, 'The Lyons Mail,' and 'The Bells,' and also produced 'The Great Game' by Stephen Phillips. 'The Sin of David'--a play dealing with Cromwell's period--which was received in so hearty a fashion that I intend making it one of my principal offerings when I open at the Savoy early in the autumn. 'My opening attraction there, however, will be a romantic play, as yet untried, called 'The Grand Seigneur' by Edward Ferris and B. F. Mathey, and I also have a new piece by Roy Horniman called 'After Many Days' and one by Desmond Cole named 'An Hour of Life.' I shall also realize an ambition of long-standing by appearing in 'Richard III.'

Maybe Irving's appearance there will bring luck back to the famous Savoy, where never a success has been registered since George Baskin's production of 'Tooth and Nail,' held the boards there for so many nights on end. Alas for the high hopes of Edward Hemmerle, K. M. P., his 'Cardinal's Romance' seems as fore-doomed to a thing as 'The Seven Sisters,' 'Brother Alfred' and 'The Lionel Lincoln.' 'The Lionel Lincoln' is a comedy of Gilbert and Sullivan opera. There is no need to go into details about the 'Cardinal's Romance,' whose learned author is now engaged in polemics with at least three of the critics who mercilessly slated the piece. It is about a man who got engaged to a girl and then received apparently overwhelming proof that she was his sister. Of course he broke it off and joined the church, only to discover twenty years later, that she was his sister at all. Hemmerle's plot is not without dramatic possibilities but he has told his story in so turgid a fashion and, withal in such stilted language that it is as unpalatable and privately desired to associate ourselves with the denizens of the pit and gallery who were his long and long. Old Times Revived. Middle-aged playgoers in London must rub their eyes and wonder if the latter are trustworthy on beholding advertisements of such old theatrical stages as 'London Assurance,' 'Diplomacy,' 'The Second Mrs. Tanager,' and 'Jim the Penman.' The last of which revived last night by Kenneth Douglas, a pretty Renee Kelley in the cast, proves to have lost little with age and is likely to be as successful as 'Diplomacy' now past its 100th night. So many people have seen 'Jim the Penman' that it is not surprising that its central character was taken from life. The real 'Jim the Penman' was Townsend Seward, a barrister of the Inner Temple, who was tried in 1857 for forging and 'uttering' a bank check. This was only one of a long series of frauds of the gang in which Seward was made chief owing to his wonderful skill with the pen. Their operations which dealt with bills of exchange as well as checks, were so wholesale, in fact, that they began to affect the whole business community, but at last, by a combination of detective work and accident, they all were captured and Seward was sentenced to transportation for life. At the forthcoming production of 'London Assurance' at the St. James' which will be honored by the presence of the king and queen, Sir Herbert Tree will be Sir Harcourt Courtney, H. B. Irving, Dandle; Irene Vanbrugh, Lady Gay Spanker, and Marie Tempest, Fert. This is the third revival of the Boucicault piece since the old days. The first was made by Sir Squire and Lady Bancroft in 1877, with another famous pair, Mr. and Mrs. Kendal, in the cast. Sir Charles Wyndham put the comedy on at the Criterion, in 1890, himself playing Dandle. At this time Arthur Bourchier was the Charles Courtney, Cyril Maude the Cool and Sir Charles famous leading woman, Mary Moore the Grace Harkaway. 'The Gilded Pill,' produced at the Globe Theatre this week, with a fair amount of approval has had at least three names so far. It was originally dramatized by the author, Storer Clouston, of his novel 'The County Family' and was so named. Then it was pure farce, subsequently it was worked over on comedy lines and re-named 'The Gilded Pill' then Rutland Barrington of Gilbert and Sullivan fame, got hold of it, and tried it out successfully in the provinces under the title of 'Days and Means' and finally it got round to London under its second name after various tinkering by various hands. Even now it is not looked upon by the London critics as an ideally-written comedy, but it fits dear old Barrington like a glove, and apparently is going to do well. A society of centenarians has been formed in Tokio, by Count Okuma, the former Japanese premier. All persons eight years and over are eligible for membership. At the first meeting 600 people came together. The oldest person present was a woman of 111 years, who had traveled a long distance to attend the meeting.

Amherst Idea in Movies Is Being Agitated in New York

Educational Films for Children on Saturday Mornings--Another Graduate From Picture Playing to Vaudeville Stage-- St. John Scenes

An idea which John R. Bradford, the community worker, has introduced in Amherst, that of having a special programme of moving pictures for the children on Saturday morning with a male run in charge, is now being agitated in New York. The Children's Motion Picture League aims at having certain of the picture houses open from 9 o'clock a. m. to one p. m. on Saturday and during the summer holidays. Interesting pictures will be shown which will illustrate history, geography, industry, commerce, science, plant and animal life and others which will inculcate ideals of patriotism, honesty, courage and purity. Means are to be provided for the entertainment of groups of children on special days. Strong efforts also will be made to improve the present tone of moving pictures and to better conditions in the theatres.

The Billboard--'Rodman Law's' latest stunt consisted in going over Stillwater Falls, in the Penobscot River, Maine. The name, in itself, is something to marvel at. Charles Urban has secured the rights for the production of Masterlink's Mary Magdalene, for Kismetcolor. Madam Masterlink is to play the title role, and the filming is to be done in Paris. Later, The Bluebird will be produced. The little kingdom of Greece is the first government to take steps toward making the motion picture an important item in the curriculum of the public schools. Charles Hawtry, heading original company, being filmed in A Message From Mars; Seymour Hicks, being filmed in Scrooge, and Sir Johnston Forbes Robertson, being filmed in Hamlet, will constitute three notable releases by all-British picture corporations. Moving pictures of submarine life have been made possible through the invention by Captain J. H. Williamson of a flexible tube with a windowed chamber in which three men can work. A son of the inventor has successfully developed a series of pictures he took in the tube last week. He descended to a depth of thirty-five feet at night and with the aid of four powerful electric lights took pictures of fish at the bottom of Hampton Roads. Another picture was made by his brother, who dived down in front of the window in the tube. They gown film productions just as accurately as they ever did stage productions, nowadays. It is interesting to note in this connection that Maude Fealy, starring in Thanhouse's King

Rene's Daughter, wore the very same lavender gown that Ellen Terry did in her celebrated stage presentation of this piece. Marie Eline, the Thanhouse Kid, is the latest player to enter 'big time' vaudeville on the strength of a 'picture reputation.' She opens at Proctor's Fifth Avenue Theatre, New York, July 7, where she is to be headlined over a dozen stage celebrities on the bill for that week. On Monday, June 26, McVicker's Theatre, Chicago, will celebrate the 100th performance of the Kleins-Clines photodrama, Quo Vadis? This breaks all known Chicago records for the continuous showing of any single motion picture subject. William Farnum and his brother, Marshall Farnum, have been now engaged by the Selig Company for some special productions that will be made at the big Selig plant in Los Angeles, Cal. They will begin work here on July 8 in a pictorial version of Churchill's The Crisis. The first question to be settled by referendum in Hutchinson, Kansas, will be that of Sunday moving pictures. There is strong opposition to the idea on the part of the ministers, both sides are confident that they will win and are equally eager for settlement by resort to the referendum. That no new moving picture theatre should be allowed within eight city blocks of any existing theatre is the request made to the Newark city council in a petition promoted by the moving picture theatre men of the city. The Dramatic Mirror of this week shows a picture of Rodman Law and Miss Beryl Bouton in a scene in the Reliance Company's plan 'Death's Short Cut,' part of the scenes for which were taken in St. John.

A three months' successful experiment of teaching the Bible by moving pictures ended last week at the University Congregational church, Chicago. During that time dozens of picture plays of a religious nature, scenes from the Holy Land and the city slums were thrown on the screen and their lesson explained to the children. 'We believe that children learn better through the eye than through the ear,' said the Rev. Oscar C. Hemlin, the pastor, after the closing of the summer school, which was built in the Sunday school room. Moving pictures of submarine life have been made possible at Norfolk, Va., through an invention by Capt. J. H. Williamson, a flexible tube with a windowed chamber, in which three men can work. A son of the inventor has successfully developed a series of pictures he took in the tube recently. He descended to a depth of 85 feet at night, and with the aid of four powerful electric lights, took pictures of fish at the bottom of Hampton Roads. Another

FALLING HAIR

Dandruff and Itching Scalp are Caused by Microbes

There is no doubt about it. Doctor Sangerboud proved it when he infected a guinea pig with dandruff germs and all its hair disappeared in a short time. The entire medical world has accepted Dr. Sangerboud's discovery as final. Any worthy physician. Parisian leads the world in remedies for diseases of the hair and knowledge for the same. Parisian Sage which can now be obtained at leading druggists all over Canada, is the one great remedy that kills the dandruff germs. That is why all druggists say to every reader of the Times-Star, if Parisian Sage does not banish dandruff, stop falling hair or itching scalp in two weeks they will refund the purchase price. Dandruff is the forerunner of baldness. Take care of your hair while you have hair to take care of. Kill the dandruff germs now before the dandruff germs kill your hair. Use Parisian Sage, the guaranteed dandruff cure and delightful hair dressing. It is used extensively by ladies of refinement because it keeps the scalp absolutely clean and gives a bewitching lustre to the hair. Comes in large 50-cent bottle at all druggists, and leading druggists everywhere. Girl with Auburn hair on every package. Made in Canada by The R. T. Booth Co. Ltd., Fort Erie, Ont. Mail orders filled, all charges prepaid.

At a conservatory examination Professor--How would you set about it to obtain the best possible results from your pupils? Candidate--Collect the tuition fees in advance. Professor (promptly)--You pass with one hundred per cent. Never mind the other questions. 'Where's what's-his-name, the leading romantic actor of his day?' 'Kean Kemble? Why, he's flinging at a thousand a week.' 'And where's Patty Lind, the marvelous young soprano?' 'She's cabaretting at two hundred a night.'--Cleveland Plain Dealer. Mosakowski said recently that he never plays poker with Paderevski. Asked the reason why, Moritz, the E major vase writer, said: 'Ignace always draws full houses.'

The Modern Search for an Honest Man

So many people have seen 'Jim the Penman' that it is not surprising that its central character was taken from life. The real 'Jim the Penman' was Townsend Seward, a barrister of the Inner Temple, who was tried in 1857 for forging and 'uttering' a bank check. This was only one of a long series of frauds of the gang in which Seward was made chief owing to his wonderful skill with the pen. Their operations which dealt with bills of exchange as well as checks, were so wholesale, in fact, that they began to affect the whole business community, but at last, by a combination of detective work and accident, they all were captured and Seward was sentenced to transportation for life. At the forthcoming production of 'London Assurance' at the St. James' which will be honored by the presence of the king and queen, Sir Herbert Tree will be Sir Harcourt Courtney, H. B. Irving, Dandle; Irene Vanbrugh, Lady Gay Spanker, and Marie Tempest, Fert. This is the third revival of the Boucicault piece since the old days. The first was made by Sir Squire and Lady Bancroft in 1877, with another famous pair, Mr. and Mrs. Kendal, in the cast. Sir Charles Wyndham put the comedy on at the Criterion, in 1890, himself playing Dandle. At this time Arthur Bourchier was the Charles Courtney, Cyril Maude the Cool and Sir Charles famous leading woman, Mary Moore the Grace Harkaway. 'The Gilded Pill,' produced at the Globe Theatre this week, with a fair amount of approval has had at least three names so far. It was originally dramatized by the author, Storer Clouston, of his novel 'The County Family' and was so named. Then it was pure farce, subsequently it was worked over on comedy lines and re-named 'The Gilded Pill' then Rutland Barrington of Gilbert and Sullivan fame, got hold of it, and tried it out successfully in the provinces under the title of 'Days and Means' and finally it got round to London under its second name after various tinkering by various hands. Even now it is not looked upon by the London critics as an ideally-written comedy, but it fits dear old Barrington like a glove, and apparently is going to do well. A society of centenarians has been formed in Tokio, by Count Okuma, the former Japanese premier. All persons eight years and over are eligible for membership. At the first meeting 600 people came together. The oldest person present was a woman of 111 years, who had traveled a long distance to attend the meeting.

EMPIRE NAVY THE FINEST PLUG CHEWING TOBACCO ALWAYS SATISFIES 10¢ Per cut.

Every Brewer Knows Light Injures Beer

Anheuser-Busch Brewing Co.—Budweiser—says: "Our reason for using a case with lid is to prevent the sun or light from coming in contact with the beer—the sun or light affecting the quality—caution your friends accordingly."

Pabst Brewing Co.—Blue Ribbon—says: "To preserve the—quality of our bottled beer—do not expose it to direct sunlight."

Val Blatz Brewing Co. says: "To preserve the brilliancy and quality of bottled beer, do not expose it to light."

Fred Miller Brewing Co. says: "Keep this cover on to protect beer from light."

Minneapolis Brewing Co. says: "Never expose beer to the light. Keep this cover on."

A. Gettelman Brewing Co. says: "Keep this cover on. Light injures beer."

Peter Schoenhofen Brewing Co. says: "Do not expose beer to sunlight."

John Gund Brewing Co. says: "Never expose beer in white bottles to light. Keep this cover on."

Jung Brewing Co. says: "Never expose beer in bottles to the light. Light affects the beer quickly, and makes it unfit for use."

Schmidt Brewing Co. says: "To protect beer from the light, keep this cover on."

C. & J. Michel Brewing Co. says: "Keep this cover on so as to protect this beer from the light."

Fisher Brewing Co. says: "Beer in white bottles should never be exposed to the light."

The statements above appear on case covers or caution cards sent out by the above brewers with cases of their beer in light bottles.

We have the originals on file.

CRUSADE AGAINST GREAT PUBS BILL

Eight Hundred Million Dollars a Year In Britain

BIG CAMPAIGN IS ON Object is to Get Back Into Parliament the Licensing Bill For Which Much is Claimed—Would Cut Off 30,000 Saloons

(Times' Special Correspondence) London, June 26—One of the biggest "campaigns of education" on record in this country is being carried on at present by the United Kingdom Alliance...

The rejection of the licensing bill, which its advocates are limiting the number of saloons throughout the country would have reduced to reasonable dimensions the national revenue...

What It Would Do "How great a service the passage of the bill would render to the cause of temperance, it is scarcely possible to estimate," said Alexander Thomson...

"We temperance workers," he continued, "are not clamoring for the abolition of the saloon, (or 'pub'), but only for its effective regulation with the public health in mind..."

LABOR REPORTS SENT TO OLD LAND

No Work and Starvation is Tenor of Letter Which is Being Made Use of

(Times' Special Correspondence) London, June 24—The parliamentary labor party is to consider the question of drawing the attention of the House of Commons to emigration to Canada...

The letters of complaint from Canada have been frequent this year and the feeling is so strong that a resolution was passed before the Scottish Chamber of Agriculture asking the Chamber to take steps to bring back from Canada "our starving countrymen..."

nor would the late King Edward, whom no one here has denounced as a fanatic on the subject of temperance, permit the existence of a 'pub' on his Sandringham estate...

"The Children's Act" "Since 1908," the parliamentary agent continued, "only one important temperance measure has passed into law, this being the Children's Act..."

"Great Britain is growing more temperate slowly but surely," was the reply, "though, of late, it must be confessed, the decrease in the consumption of spirits has to be attributed rather to the increased duties that have been placed on wine..."

THE FAMOUS PRISON OF SING SING

Warden John S. Kennedy is shown in the inset and the prison in the main picture. The Westchester grantation now to demolish the prison.

ASQUITH HAS WON THE STURDY ALLEGIANCE OF THE LIBERAL PARTY

T. P. O'Connor Sets Out New Personal Valuation of Big Men of Cabinet After Recent Important Events—Premier's Control in the House Remarkable—Home Rule

(By T. P. O'CONNOR, M. P.)

London, July 4—One of the by-products of the Marconi scandal is to create a new personal valuation among the prominent members of the Liberal ministry...

Checks His Great Land Project "There never was a moment in his career when such an arrest of his splendid progress could have been more unexpected..."

And he would have done so, I believe, for the country is ripe for a big land campaign. Even the Tories are getting alarmed at the exodus of laborers from the country districts, especially in Scotland...

However, in political life in England, men of prominent position either go backward or forward, they rarely stand still. If they do, others rush past them and make up the running...

command, such reserve and simplicity of manner that even the strongest proposals would sound moderate from his lips. This colleague put it to me humorously by saying that if the monarch had to be dethroned and executed, Grey would introduce the bill for that purpose by a simple statement...

premier very strong "For the moment, however, Asquith holds the field and he is looking extraordinary robust. The little sea trip he took with Winston Churchill in the Mediterranean has bronzed his cheeks and his splendid constitution requires but a little rest and fresh air to make him as fit as a fiddle..."

Whenever the Liberal party is in trouble his followers always say "Asquith will get us out of it." When they are in doubt, they are ready to wait for Asquith's advice and then they all take it. The Marconi debate would have been a great deal more but for the knowledge that Asquith was to have the entire management of it...

As for the party as a whole, its determination to carry home rule grows stronger every day, never did I see that determination more displayed than when in the midst of the Marconi scandal every Liberal except three was accounted for in the division on the second reading of the home rule bill...

the prime minister and now and then they get into trouble with their own supporters and the house becomes anarchic and the prospects of the government in a division rather uncertain. If Asquith were there, he would only have to get up for five minutes and he would make everything straight and the sky from clouds would turn to sunshine.

But Asquith very often is not there and his supporters in the press have begun to complain, and no knowledge of the exact amount of work he has to do will save him from such complaints. These complaints, too, are at once a compliment and a rebuke, and they have become specially loud, of course, since Lloyd George got under a cloud...

And this again makes Asquith more necessary. He cannot get help either from Grey, who is too immersed in his foreign situation to have time for day work of the House of Commons. It is therefore, he holds down to his hands and must keep his hands busy, for during the first week of the reopened sittings, he has been more than George. His face has grown thin and lined and, I know, not the feeling that he has, though innocent, got his friend and his party into a scrape...

As for the party as a whole, its determination to carry home rule grows stronger every day, never did I see that determination more displayed than when in the midst of the Marconi scandal every Liberal except three was accounted for in the division on the second reading of the home rule bill...

FRENCH ARTISTS CAUGHT BY SWINDLE

Works to Apparent Fake Sale In London

DOPING OF RACE HORSES Scientists' Experiments Show That it Can Be Detected by Analysis of Saliva—The Story of An "Antique" and Its Sale

(Times' Special Correspondence) London, June 24—A large number of delegates from Canada are attending the international road congress now being held in London. In recent years the change in the nature of road traffic has revealed new problems and Canada, with so many new arteries to construct, is profiting by the latest advances in this work...

On the invitation of the king the delegates will visit Windsor Castle and there will be a garden party in the royal botanical gardens. A banquet will be held at the Hotel Cecil on the last day of the congress.

QUEBEC MINISTER ON A VISIT TO ENGLAND

Cordial Parliamentary Reception for Hon. C. R. Devlin, Who is Studying Road and Other Problems

(Times' Special Correspondence) London, June 24—His old colleagues, the Nationalist members of the House of Commons, gave a cordial welcome to Hon. C. R. Devlin, minister of mines, on his visit to England...

Mr. Devlin is accompanied by J. A. Velsie, inspector of game and fisheries, who is acting as secretary. While in England he hopes to gather a good deal of information about roads, a matter which he considers to be of first importance to Quebec.

ALBERTA IN LONDON

Hon. A. L. Sifton Decides That the Province Must Have an Office in the Empire's Capital

(Times' Special Correspondence) London, June 24—It did not take Hon. A. L. Sifton, Premier of Alberta, long to decide the question of establishing a London office for his province, and his decision was influenced by advisers who impressed on him the fact that Alberta was practically unknown to the every day man here.

The following notice appears in the current number of the Weybridge Parish Magazine in Surrey, Eng: "A request has been made by the owners of dogs to endeavor to prevent their attendance at St. Michael's church. A colic, an Aberdonian, a fox-terrier, and some others have been late presented themselves, not knowing that they were not welcome visitors."

On March 6 he received a notice from the expert, saying that four of his pictures were not put up on the 15th, but that the others were not suitable for exhibition. The British police proved the right kind. The eight other pictures would be promptly returned. Since then M. Trochain has been unable to extract any information from the expert, who appears to have vanished.

On the 24th of June, M. Trochain was informed by the expert that the pictures were not put up on the 15th, but that the others were not suitable for exhibition. The British police proved the right kind. The eight other pictures would be promptly returned. Since then M. Trochain has been unable to extract any information from the expert, who appears to have vanished.

"Doping" of Race Horses A scientific inquiry has been conducted by direction of the minister of agriculture in France to discover the means of detecting the presence of certain excitants can easily be established, and the only question was really, how long the traces of the intoxicant or stimulant lasted.

The committee appointed by the minister was presided over by Doctor Dastre, member of the institute. They divided their work into two parts, the first experiment was to see if any horse not drugged might nevertheless show signs of something analogous to the salivary traces of cocaine administered in small doses vanished one hour after it had been administered. The drug called heroin lasted two hours Strychnine disappeared after five hours, and kola in twenty-four hours. But it depended a good deal upon the strength of the dose. Kola might, with a strong dose, be still perceptible after forty-eight hours, and the others in proportion. The question to be decided was whether or not it might be possible to discover traces of stimulants if horses had been given certain medicines containing drugs a day or two before and without, of course, any intention of doping. The committee was satisfied that this would not be possible unless very strong doses had been administered.

Needles to say, no trainer would send to the race course horses that were known to be ill, and had to be treated with medicine. The scientific conclusion is that it is possible to detect the presence of drugs.

M. Cochon, a benevolent protector of horses, evicted by landlords on the score that there are too many children, has scored a success. Instead of trying the Elysee Palace or the Madeleine, he took upon the poor old Moulou Rouge, and fixed a family of twelve persons there the other night just when the ball was at its height. All the family except one were not welcome visitors.

MINARD

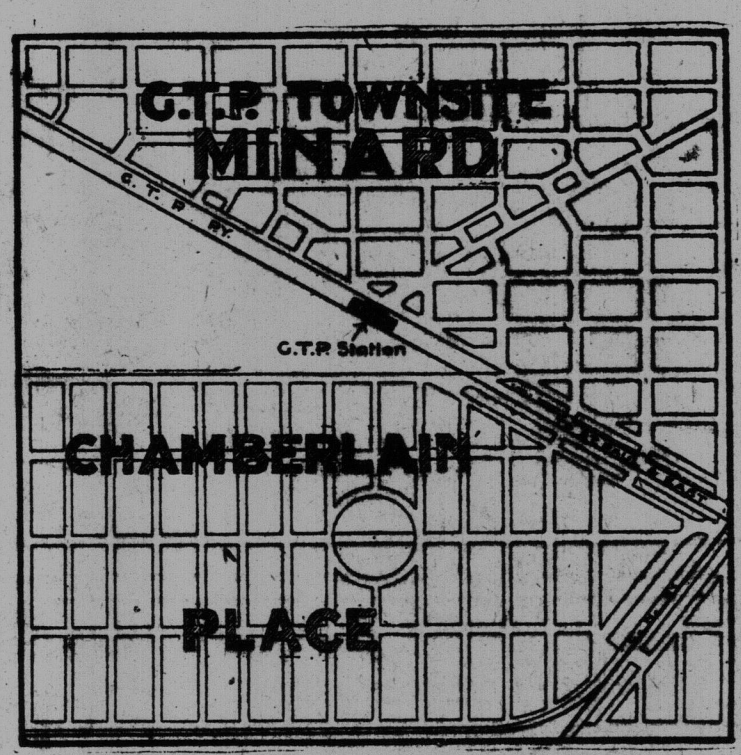

Western Canada's Remarkable New Town

WAS established May 1st, 1913, by the Grand Trunk Pacific Railway and in a single day every lot placed on the market by this railway company was purchased by merchants and investors. More than that—\$25,000 worth of orders could not be filled on account of there not being enough lots.

Now why should people from all parts of Canada and the United States apply for Minard lots? Here is the reason: Minard is in the centre of Saskatchewan's famous coal and gas fields; the surrounding country is well settled and agriculturally prosperous, and a town at this point was needed as a manufacturing and distributing centre. The G.T.P. recognized this—they established the town and called it Minard. The Canadian Northern Railway's station is close to the G.T.P. station and the Canadian Pacific Railway's survey runs between the two. Three powerful Transcontinental Railways coming together, and each sending out branch lines is not exactly a coincidence. On

MONDAY, AUGUST 4th Chamberlain Place

Adjoining the original G.T.P. Townsite of Minard, immediately to the south, goes on the market. Some lots in Chamberlain Place are not more than two hundred feet from the

G.T.P. station. Chamberlain Place property has already been enhanced in value by the numerous business houses now being built in the G.T.P. town merely a stone's throw away.

The map above tells the story of Chamberlain Place. It means to you

An Opportunity

To Secure Property on the Easiest Easy Terms at Low Prices

To secure property in a new town—one which is freely predicted to have a population of several thousands in a few short years—say three to five years at least.

You are well aware of the rapid advances made in a new town's real estate in Western Canada. You are well aware that a Railway Company establishes towns only because those towns are needed. You are well aware that, where three Transcontinental

Railways centre, there must be an unusual town. Being aware of these facts won't you let us send you others contained in a folder. The coupon below will bring you this circular and price list. Send the coupon today and get all the facts before Monday, August 4th—the day that Chamberlain Place goes on the market. By acting at once you can have your selection made early. Send coupon below to our Winnipeg office.

Jeff Takes No Chances When Mutt is Around

By "Bud" Fisher

The Championship of the Lightweights of the United States

By TOM ANDREWS

For three years Freddy Welsh, the British lightweight champion has been trying to get on a championship match in the United States, but without success. In 1910 he tried to match with Battling Nelson and then Ad Wolgast, but did not succeed in getting near his goal until 1911, when he was matched with Wolgast at Los Angeles. The illness of Wolgast at the eleventh hour prevented the contest and Willie Ritchie was substituted, Welsh winning the bout on points. Then came the match between Ritchie and Wolgast for the title and Willie won it. Welsh, unable to get on a title match, returned to England to try to wipe out the defeat he suffered at the hands of Mutt Wells for the British title. Freddy finally got his rival into another match, and in November 11, 1912, he turned the tables, defeating Wells. Later he defeated Hughie McEgahan, an Australian, and thereby won the lightweight championship of Europe and Australia. With the title of two countries at his belt, Freddy returned to the States and once more began a campaign for a title match, and this time it looks as though he will succeed, for from reports received by the writer he will meet Ritchie in a world's championship fight at Vancouver, on Labor Day. It will be the first international match of the kind since Kid Lavigne fought in England some years ago. Of course this all depends upon Ritchie winning from Rivers at Prisco on July 4.

CRUSADE AGAINST GREAT DRINK BILL

(Continued from page 12) The consumption per head of the population, reduced to gallons in regard to beer and pints in regard to spirits, was, in 1908, 88.84 gallons, spirits, tea pints and wine 424 pints, whereas last year the figures were 87.26 gallons, spirits, 3.44 pints, wine two pints. The average expenditure per head for liquor in 1912 was \$17.50, and per family of five \$88.00, which is an improvement on the preceding year when the expenditure was \$18 per head and roughly \$90 per family. "Our drink bill remains an appalling thing, amounting last year to \$607,766,500. This sum, which is half as large again as the receipts of the British railways, and a quarter as large again as the annual value of all the private dwellings in Great Britain, and which makes the sum that the United Kingdom spends on its army and navy seem insignificant, represents a decrease of \$62,119,450 as compared with 1911 and I wish we could claim this as a result of the work that we and others have done in the cause of temperance. As a matter of fact, however, the credit for this decrease belongs mainly to the present chancellor of the exchequer, Mr. Lloyd George, who, in his famous budget of 1909, made a heavy increase in the licensing duties in this country.

SAYS ENGLISH SCHEME FOR CHAIN OF CANADIAN THEATRES PROSPERS

(Continued from page 10) ried the other evening to Herbert S. Bolin, son of Mr. and Mrs. August Bolin of Randolph. Macterlinck, the playwright, has discovered a substitute for tobacco. Some years ago, according to his eulogist, M. Gerard Harry, he was unable to work without the inspiration of his pipe. "If he has not overcome the need, he has outlanded it. Smoking, he noticed, had met its virtue as a stimulant, and instead of rousing the brain to activity, as at first, had come to disturb its functions; so now, in lieu of ordinary tobacco, he fills his bowl with a de-nicotinized preparation, tasteless indeed, but harmless. His pipe is still always alight when the pen is busy, but it is hardly more now than an innocent superfluous intended to cheat and so satisfy an irresistible mechanical craving. The mechanical craving that Macterlinck got over is a common one. In the country a man may often be seen walking around with a bit of hay or straw in his mouth, and in the city "cold" cigars or pipes are not unusual.

FRENCH ARTISTS CAUGHT BY SWINDLE

(Continued from page 12)

facts of the homeless party had been packed upon a wheelbarrow, and, with the Polycarp hand braying its most blatant and best, the dilapidated procession, children first, marched into the gaily lighted building. The unexpected apparition paralyzed the dancers, the orchestra, and the public, but M. Cochon was more than equal to the occasion. He induced the manager to permit him to make a collection for his proteges, and in a few minutes by means of a mock auction, at which the volunteer musicians sold their instruments, some \$60 was got together. With this little capital M. Cochon and his company retired, and history does not say where those ten children and their parents slept that night. A French maître d'hotel has based on long years of observation behind the chairs of diners as a waiter. Among the most essential qualities of the accomplished waiter, he says, are agility and physical self-control. He has known waiters to be discharged at a moment's notice from distinguished restaurants because they sneezed while on duty at table. The best "tips" it is said are received in London and New York, where a maître d'hotel often receives \$5 from a diner. Head waiters average \$90 a week in "tips." The writer relates an instance of a waiter who, by speculation, made a fortune of \$100,000. Returning one day to dine at the restaurant in which he used to serve, he recognized in the waiter at his table an old patron who had been particularly generous to him in the past.

On Bath Tubs and Holidays

By J. R. HAMILTON Former Advertising Manager Wanamaker's, Philadelphia

IN DAYS gone by, before the era of lather and luxury, in the olden times when our sainted grand fathers ate in their shirtsleeves and slept in their cotton drawers, Sunday was used for the cleansing of the body as well as the soul. It was first the family wash tub and then the family pew. Today the family wash tub has given way to the stationary Bath Tub and the hot water spigot has supplanted the tea kettle. Luxuries have become comforts and comforts necessities. But still we cling to off-days and holidays for doing things. Men especially. Probably two-thirds of the men in this City have waited for this coming Saturday to buy their summer clothes. It is a sort of holiday in a way. It comes between the First of July and Sunday and it will no doubt become the greatest clothes-buying day of the season. You men who have been sweating in heavy clothes will get light ones. You who have been wearing hats that felt like helmets, will be hunting for straws. You who are still clinging to heavy shoes and heavier underwear will be looking for easier comfort in lighter wear. All the good stores know this. All of them expect you to make your annual summer rush on this in-between Saturday. All of them are prepared for you. In this paper you will find their advertisements telling you what they have to offer and making their bid for your attention and your good trade. The advertising of today, too, usually has something real to offer you. Something worth while. Advertising today is NEWS. And mighty good news often for the pocketbook. Turn to these advertising-news columns now and see what they have to offer. Read these columns as you would any other news. The men who advertise are invariably the leaders in their line and what they have to say is always worthy of attention. Make this Saturday a real holiday for your comfort. Buy cool things and be happy.

A Paris Chemist Has Discovered How to Grow Hair

(Continued from page 12)

In Paris the ladies have entirely abandoned wearing hats, which is due entirely to this new discovery. It has been proven that Henna leaves contain the ingredients that will positively grow hair. That they contain this long-sought-for article is proven every day. The French are now placing on the market a preparation containing the extract from Henna leaves, which is having a phenomenal sale. This preparation is called SAI-VIA and is being sold with a guarantee to cure dandruff and to grow hair in abundance. Being dandruff perfume, SAI-VIA makes a most pleasant dressing, and is sold by your druggist. A large, generous bottle can be purchased for 50 cents. Ripe sale at all druggists. A REAL GOOD TIME What constitutes recreation depends, of course, on the point of view of the one who is recreated. This anecdote shows what one youngster thought enjoyable—A boy in a certain school wrote his father thus:—"Dear Papa—We children are having a good time here now. Mr. S— broke his leg and can't work. We went on a picnic and it rained, and we all got wet. Many children here are sick with mumps. Mr. H— fell off the dogcart and broke his ribs, but he can work a little. The man that is digging the deep well whipped up boys with a horse-whip because we threw sand in his machine, and made black and blue marks on us."

Ernest cut his finger badly. We are all very happy.

According to experts, the force of the rotation of the earth on the gyroscopic compass which has been adopted by the United States Navy is 201 times as great as the force of magnetism on the magnetic needle.

STOP TAKING DRUGS

Advertisement for M. L. McLaughlin's 'FREE TO YOU' book. Text: 'They Are Poisons To Your Stomach, Nerves and Vitals. Ever since you can remember you have understood that the way to cure pain outside was to take something inside. That is the foundation of our Canadian drug habit. Since childhood you have depended on drugs to kill pain. It has never occurred to you that the drug was also killing the nerves of the stomach and over-taxing the heart. That is the reason for your stomach trouble. You have ruined your stomach with strong drugs and weakened your heart by driving it beyond its strength with heart stimulants. You can put on extra fire and draft in the furnace and drive an engine at top speed, but you can't do that very often with your heart, because it is not made of iron. You don't realize that until your heart refuses to be forced any more—that it is the time when drugs, which "used to do the work right away," don't seem to have any more effect and you are forced to realize your health is gone. Every time you take a drug to force the stomach, liver, kidneys or lessen their natural vitality—and taking another, because they are weakened by each other, and anyone can see that in time, by steady dosing, you will have no natural action of any of these organs. From that time on your existence will depend upon forced stimulation, and when that fails you are gone. Electricity is a relief from the old habit—the drug habit. It does by natural means what you expect drugs to do by unnatural means. It gives real strength to your body, can't be any pain because there is no artificial stimulation. The exhilarating sensation is felt without sting or burn, and I have perfected it with the regulating device which makes the current mild or strong at will. Get my 84-page book describing my treatment and with illustrations of fully developed men and women, showing how it is applied. This book tells in plain language many things you want to know, and gives a lot of good, wholesome advice—no professional tommy-rot. I'll send this book, prepaid, free, if you mail me this coupon. Don't wait a minute; cut out the coupon now. Office hours: 9 a. m. to 6 p. m. Wednesday and Saturday to 8.30 p. m. M. L. McLAUGHLIN 237 Yonge Street, Toronto, Can Please send me your book free. MARATHONS AND ST. CROIX WON TWICE

Bangor and Fredericton Lost Both Games on July 4 - Double Headers and Heavy Bunting Mark Games

N. B. and Maine League Standing table with columns for team, wins, losses, and percentage.

Heavy hitting marked the two games which the Marathons took from Bangor yesterday by a score of 11 to 0 in the morning, and 17 to 11 in the afternoon.

The two teams obtained thirty-two hits between them in the afternoon, but the Marathons were able to punch theirs more and won easily—nine of their seventeen runs were scored in the third inning.

Score by innings table for the morning game between St. John and Bangor.

Afternoon Game. St. John. A. B. R. H. P. O. A. E.

Score by innings table for the afternoon game between St. John and Bangor.

Notes of the Game. Well, that puts us where we want to be—on top again!

This new man, Charles, looks good from the roadside. A shut out and only four hits is a nice way of introducing himself.

"O'Brien" was right on the job, as usual—a clear homer, two three sack drives and some lighter ones as well.

Poor old Bangor has a hard time trying to get off the toboggan.

Take a look at the error column in the morning game.

That double-header gives the home team a fairly strong lead—but those St. Croix boys have a strong team.

Pinkerton, Bien, and Riley batted well. "Pinkie" had five hits in the two games, one for three bases.

It was a disastrous "fourth" for Bangor—that "thirtieth" when the Marathons put nine over the plate was none too cheerful, either.

Say, that "hit" column shows thirty-one for both games. As the few would say, "That's wallowing it a few—then some!"

St. Croix defeated Fredericton in both games at the Capital yesterday, winning in the morning 9 to 8, and in the afternoon 10 to 2. Numerous errors were made by infielders of both teams and affected the result of the games materially.

The heavy batting of St. Croix in the second game drove both Ahern, Fredericton star pitcher, and Dietrich, lately

SPORT NEWS OF A DAY; AT HOME AND ABROAD

BASEBALL

Players We Know

The Fredericton Gleaner says:—The day off won't hurt Jack Fryor at all. It takes just something like that to make some ball players keep going at top speed.

The infield probably is very much unsettled as yet. Fredericton is keeping the wires hot for another pitcher and he may come along any day.

Lowell defeated Lynn 9 to 5 on Thursday. Frank Harrington was taken out of the box by Lynn in the fifth. Lowell made seven hits off him in four innings and a half.

National League

At Chicago—Cincinnati 4, Chicago 0. Batteries—Brown and Clarke; Smith; Richie and Stapp.

At Chicago—(second game)—Chicago 6, Cincinnati 8. Batteries—Cheney and Leber; Ames and Kling.

At Pittsburg—St. Louis 8, Pittsburg 2. Batteries—Burk, Calk, McLean and Wang; Robinson, Camnitz, Adams, Simon and Kelley.

At Pittsburg—(second game)—St. Louis 12, Pittsburg 8. Batteries—Griner, Steele and Wingo; Cooper, Camnitz, Simon and Kelley.

At St. Louis—New York 5, Brooklyn 2. Batteries—Teraura, Crandall and Wilson; Yingling, Curtis and Miller.

At St. Louis—(second game)—New York 9, Brooklyn 8. Batteries—Marquard, Meyers and Hartley; Rucker, Hall and Fleck.

At Philadelphia—Philadelphia 6, Boston 2. Batteries—Seaton and Killifer; of St. John, to the bench; the St. Croix team scored thirteen hits in six innings.

THE BING

Willard Wins From Williams. Reno, Nev., July 4.—The Jess Willard-Al Williams fight was the eighth round and the decision given to Willard. Williams was badly punished.

Cross Knocks Anderson Out

Los Angeles, July 4.—With a right swing to the jaw, Leach Cross, the New York lightweight, knocked out "Bud" Anderson of Oregon today in the twelfth round of what was to have been a twenty-round battle at Vernon arena.

Dundee Defeats Dixon

Albuquerque, New Mexico, July 4.—Johnny Dundee, of New York, got the decision over Tommy Dixon, of Kansas City, at the end of a ten-round light here today. Three knockdowns were scored by Dundee.

SPORT BRIEFS

W. R. Applegarth, of the Polytechnic Harriers today made a world's record by running 150 yards in 14.25 seconds at sports in Cardiff, Wales, last month. He also tied the British record of 9.45 seconds for the 100 yards. Applegarth ran third in the final of the 200 metres at the Olympic games. The 150 yards world's record of 14.45 seconds, made by C. G. Wood of England, has stood since July 21, 1887.

It looked as if Hans Holmer had "come back" when he defeated a man of George Dinning's class in a 10-mile race.

At Rochester—(first game)—Rochester 4, Detroit 2. Batteries—Quinn and Williams; Maxwell, Graham and Bemis.

At Rochester—(second game)—Rochester 4, Toronto 8. Batteries—Willhelm and Jacklitsch; Heame and Graham.

At Baltimore—(first game)—Baltimore 9, Providence 2. Batteries—Bailey, Reisig and T. Onslow; Danforth, Roth and Dan Ahern, who holds the world's amateur record of 51 feet 2 3/4 for the running hop, step and jump, defeated Gus Lindholm of Sweden, the Olympic champion. Ahern did 47 ft. 2 1/2 in, set the best of the world's record in 4. ft. 1/4 in. Lindholm cleared 48 ft. 5 in. at Stockholm last July.

MORNING LOCALS

The three-year-old son of Mr. and Mrs. Harry Bailey, of Windsor Terrace, Rockland road, fell from the outside stairs at the back of the building at No. 11, Montreal 8, yesterday afternoon at about thirty feet yesterday. He was knocked unconscious, but escaped with a few bruises about his head and body.

Five little girls held a bazaar yesterday on the grounds of W. I. Fenton's residence, Garden, and by the sale of articles made by themselves realized the sum of \$23, which they decided to devote to the La Tour school piano fund.

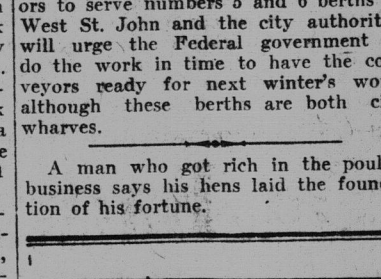

The girls are: Misses Marion Burley, Muriel Belyea, Margaret Henderson, Jean and Clemmie Fenton.

The C. P. R. has refused to undertake the construction of grain conveyors to take numbers 5 and 6 berths at the new St. John and the city authorities will urge the Federal government to do the work in time to have the conveyors ready for next winter's work, although these berths are both city wharves.

A man who got rich in the poultry business says his hens laid the foundation of his fortune.

RITCHIE STILL LIGHTWEIGHT CHAMPION

In the eleventh round of a scheduled twenty round bout yesterday in San Francisco, Willie Ritchie, lightweight champion, knocked out Joe Rivers. The mill was strenuous throughout, but the wicked right crosses of Ritchie proved too much for Rivers.

THE BING

Willard Wins From Williams. Reno, Nev., July 4.—The Jess Willard-Al Williams fight was the eighth round and the decision given to Willard. Williams was badly punished.

MORNING NEWS OVER THE WIRES

Mayor Harrison, of Saskatoon, has tentatively sold \$500,000 of city bonds to Chicago bankers, who also took an option on \$400,000 more.

Children playing with matches in the bay started a fire which destroyed a barn at Gagetown belonging to W. Corbett and rented by Fred Cooper.

The contents of the barn, including wagons, sleighs, farming implements and two pigs, were also destroyed. Neighbors are taking up a collection for the farmer, and have already secured \$100.

James White was appointed at Ottawa yesterday to the post of assistant to the chairman of the Conservation Commission with the rank and salary of a deputy minister.

In the Canada Gazette this week notice is given of the incorporation of the Telegraph Publishing Co., which is to publish the New Liberal daily in Montreal. The capital stock is \$500,000.

Captain F. H. Smith skipper of the schooner Greta, which is owned by Captain Howell, of Dalhousie, has disappeared and \$400 of the schooner's funds disappeared at the same time.

The schooner is lying at Fire Island, Northumberland county, where she discharged a cargo of coal. Captain Smith received \$400 for the freight on Monday morning and has not been seen since, but a man answering to his description purchased a ticket for Boston that day.

The captain is an elderly man, belonging to West Point, P.E.I., and bore an excellent reputation, and those concerned in the matter were unwilling to believe that he had decamped with the money.

London, July 4.—The Rt. Hon. Alfred Lyttelton, member of the house of commons for St. George, Hanover Square, died tonight. He was born in 1837.

Another natural beautifying treatment—for wrinkled skin—is to bathe the face in a lotion made by dissolving an ounce of arsalite in a half pint with wash effective.
