HAIG VISIT TO SAINT JOHN PLANNED

FATHER LOCKARY BRINGS WORD ON RETURN TODAY

Coming To Province on Salmon Fishing Trip SAILS ON JULY 10

Will Tour Ontario and Quebec Before Coming to New Brunswick

Earl Haig will likely visit Saint John next August. That is the news brought here today by Rev. F. M. Lockary of Woodstock, home from a pilgrimage to Rome.

While in London on the way home, Father Lockary, who is president of the G. W. V. A. in New Brunswick, had an interview with Capt. Simpson, secretary of the British Empire Service League, of which Earl Haig is president and hopes as a result that the British Field Marshal will meet a representative body of New Brunswickers in Saint John next August, when he comes to this province for salmon fishing on the Metepedia river.

PRESENTS MATTER Father Lockary took it upon himself as a war veteran representing New Brunswick to introduce the question of a visit from Earl Haig to the Metepedia river, which he will be the first to do.

It was assumed, from what Secretary Captain Simpson said that Earl Haig was quite favorable to visiting here and it would require only some official invitation, no doubt, to have Saint John included in his route.

GENERAL INVITATION Therefore Father Lockary thinks that in addition to the Great Victoria official invitation, which would go forward in due form, Canadian clubs, other patriotic bodies, and the government itself, might gracefully extend the same courteous invitation to the eminent soldier and thus assist his visit to this section. The ex-chaplain offers this as a suggestion.

FISHING HERE AUG. 3 Earl Haig will leave Liverpool on Friday, July 10, and is expected to arrive in Quebec on the 18th. On July 19, he will pass through Montreal en route to Ottawa, where he will be here for four days. After that he is booked for Toronto, Hamilton, Winnipeg, Niagara Falls, the Big Horn, and the Thousand Islands and then on Monday, August 8 he is to be on the Metepedia in New Brunswick for two days of fishing. His sailing date is scheduled for August 7.

THINKS HE WILL COME That Earl Haig's itinerary can in all probability be altered to allow of a visit to this city for a grand New Brunswick get-together seen a sure thing to Rev. Father Lockary from impressions gathered during his interview with the Earl's league secretary.

A GOOD SUGGESTION With the New Admiral Beatty Hotel having its grand opening this summer, the visit of Earl Haig, it is felt, would prove a powerful attraction for Saint John. Sentimentally it would be interesting that the head of the British land forces in the late war should visit Saint John while on his tour in honor of the leader of the sea forces, Admiral Beatty, should have his gala inaugural.

SEES GOOD CHANCE FOR ABATTOIR HERE Commissioner Frink Speaks of Proposed Enterprise—Help to Province.

Commissioner Frink this morning, speaking of the proposed establishment of an abattoir and meat packing plant in this city, said he could see no reason why such a plant should not be a success here.

He said New Brunswick should be producing hogs and cattle enough to keep such an establishment supplied with the raw material and he thought the men behind the move to have an up-to-date abattoir established here were to be commended for their energy and foresight. New Brunswick had about the same area as Ireland, and that country exported more hogs and cattle than the whole of Canada. There was no good reason why this province could not produce as many head of live stock as Ireland and if the farmers were assured of a market for their stock he felt sure they produce them.

Ont. Hydro Railways Had \$185,159 Surplus Canadian Press Despatch.

WINDSOR, April 3.—During the year ended Oct. 31, 1924, the hydro-electric railways, Essex District, carried approximately one million more passenger than in the previous year and piled up an operating surplus of \$185,159.22, it was revealed today.

SAINT JOHN'S NEW VOCATIONAL SCHOOL

TENDERS FOR CONSTRUCTION CLOSE MONDAY

Provision Made in Plans For Forty Class Rooms

COST IS \$250,000

Must Be Completed by December 31, For City to Get Govt. Assistance

The new vocational school, tenders for which will close on Monday, will be a splendid addition to the magnificent public buildings which the city can boast. Standing as it will on the top of the rock in Douglas avenue it will be visible from all parts of the city and will attract the eye of visitors to the city as they come in from the west by motor car or train.

A large number of contractors are figuring on the building and it is expected there will be at least a dozen tenders for the entire work, with some for various portions of the work. Among those who are known to be figuring on the job are eight city contracting firms and three or four from outside the city.

ON DOUGLAS AVENUE The lot on which the building will stand is 400 feet long on Douglas avenue and runs back a depth of 480 feet. There will be an entrance to the lot from Brunswick Place as well as from the avenue. The building itself will be 400 feet long on the front and two hundred feet wide on the side, making a total of 100 feet. In one of these wings will be located the gymnasium and auditorium and in the other the shop building. The building will be of sandstone and red tapestry brick, three stories in height and with every-thing to give a proper vocational education to the boys and girls of Saint John.

FORTY CLASS ROOMS Leading up from the street to the main entrance will be wide granite steps. There will be forty class rooms and a large auditorium in the building. Construction will start just as soon as the contract has been awarded as the Board of School Trustees must have the building completed by December 31, 1925 in order to get the full amount of government assistance which has been promised for the erection of the building. The estimated cost of the building is \$250,000 and the equipment is expected to cost about \$100,000.

AGED WANDERER IS FOUND BY FRIENDS Nova Scotia Man, 92 Years Old, Alive After Two Days' Exposure.

ANNAPOLIS, N. S., April 4.—Rufus Henry, aged 92, missing from his daughter's home at Round Hill, near here, since Wednesday afternoon, and for whom several hundred men spent hours in search, was found yesterday afternoon at Black's Stillwater, lying on the ground, soaking wet, but, beyond being completely exhausted, apparently none the worse for his exposure. The old man had lost his way.

WATER CONTINUES TO DROP IN RIVER Down Three Inches Last Night—Eggs Started For Saint John.

SPECIAL TO THE TIMES-STAR. FREDERICTON, April 4.—There is a steady run of snow ice down the river and the water dropped some three inches last night. At noon it was about stationary. The steamer Majestic is reported making good progress from Saint John in spite of heavy cargo and ice conditions.

Eggs Shipped. Eggs have begun to be sent into the egg centre at Saint John, operated by the N. B. Poultry Exchange, Digby, N. S., in to ship there by water. Enough patrons have been secured at Staney, York County, to form an egg circle.

WORK FOR 1,000 MEN Five More Breweries Are to Start Manufacturing Beer in Ontario.

TORONTO, April 4.—The Dominion Brewers' Association estimates that about one thousand men will be employed in the province shortly manufacturing 44 per cent. beer. Five additional breweries are getting ready to start operations, or about thirty per cent. more than are now working. Even with these operations, however, the number of breweries turning out stock will be only about sixty per cent. of the total that was operating before the Ontario Temperance Act came into force.

Will Go To Jail Rather Than Accept \$1 A Day CALGARY, Alta., April 4.—Calgary unemployed are willing to face acting mayor Dr. T. H. Crawford's work or jail threat, and will go to jail rather than take part in the lowering of the working man's standard of living by accepting jobs at a rate of \$1.00 a day. This was the emphatic utterance of A. J. Boulter, president of the provincial council of unemployed.

3 Glace Bay Stores Make Assignments HALIFAX, April 4.—Three stores in Glace Bay made assignments yesterday, and it was intimated that "unless business conditions improved quickly others would go into liquidation."

ROYAL GIFT ARRIVES HALIFAX, April 4.—Two swans presented to Halifax by His Majesty King George, arrived here yesterday. They will be placed in the public garden.

Man Who Sued Miss Gish Says He is World's Worst Witness

NEW YORK, April 4.—Under perjury charges as a result of testimony which he gave in his suit to compel Lillian Gish to make pictures solely for his film company, Charles H. Duell has issued a statement admitting himself to be "the world's worst witness."

Although himself a lawyer, Duell said he was "utterly benumbed" while on the witness stand. While he was under cross-examination, Judge Mack yesterday dismissed the case, ordered Duell held for perjury, and barred him from ever appearing as a lawyer in Federal court.

Despite this reversal, Duell retorted that he had been engaged to Miss Gish and that he was a motion picture star. These assertions Miss Gish strenuously denied.

Ont. Premier May Be On Hydro Commission

TORONTO, April 4.—In a news article the Globe this morning says: "The end of the present session of the Ontario Legislature may see Hon. G. Howard Ferguson, Premier of Ontario, on the Ontario Hydro Electric Commission, in the place vacated by the retirement of Alderman J. G. Ramsden, who asked to resign when the Ferguson government assumed office."

Geneva Rotary Club Will Be Organized

GENEVA, April 4.—Rotary club came officially before the League of Nations yesterday, when a group of Geneva business men informed Sir Eric Drummond, secretary general of the League, that they were about to organize a Geneva Rotary Club. They said the Geneva club would be affiliated with the International Rotary organization.

Polish Minister Sends Note to Russia Regarding Slaying of Terrorists.

MOSCOW, April 4.—The Polish minister has presented a note to the Soviet Foreign Commissariat in which regret is expressed over the murder of Baginal and Wierzokiewicz, Communist agitators, who were killed by a Polish police sergeant while being taken to the Russian border, where they were to have been exchanged for two Poles, held prisoner by the Soviet.

Home From Rome

REV. F. M. LOCKARY, who returned today after visiting Rome and other places in Europe.

ORGAN CHIMES TO BE DEDICATED SUNDAY

Bishop Richardson to Officiate at Ceremony in Trinity—Tablet Also Unveiled.

The new organ chimes of Trinity church will be dedicated tomorrow at the 11 o'clock service when His Lordship Bishop Richardson will officiate.

The addition to the organ consists of a complete set of two octaves with 25 notes.

The chimes were given to the church in memory of Mr. and Mrs. Robert Edward Coupe by their two sons, George and R. S. Coupe.

At the service there will also be unveiled a tablet which commemorates the various stages through which the organ has gone.

Preparations are also being made at Trinity for the service of the Three Hours on Good Friday when Rev. Arthur H. Moore, head of King's College, will be the preacher.

Bishop Richardson, while in Saint John over the week-end, will be guest at the home of Mrs. James F. Robertson.

TOWN THREATENED

Fire Does \$75,000 Damage in Indiana—Citizens Form Bucket Brigade.

ST. MENRAD, Ind., April 4.—A fire, which for a time threatened the whole town, was finally got under control at 4:30 this morning, when hundreds of citizens were aroused and formed a bucket brigade to fight the flames. Damage was estimated at about \$75,000.

WINS PROMOTION

M. Barney Mulroy Becomes Rail Lines' Ticket Agent on Minnedosa.

M. Barney Mulroy of the C. P. R. port ticket staff, has been promoted to be rail lines ticket agent on the Canadian Pacific steamship Minnedosa, which is due in port tomorrow.

He will take over his new duties next week. He is very popular with his fellow associates and is being heartily congratulated on his promotion.

Tag Day in Toronto For The N. S. Miners

TORONTO, April 4.—At Wednesday night's meeting of Trades and Labor Council it was decided to make an application to local police commission for permission to hold tag day to raise funds for miners and their families in Nova Scotia.

Approves Bill For Minimum Wage Rate

CAPETOWN, South Africa, April 3.—After an all-night sitting the House by a vote of 31 to 31 gave the second reading to the wage bill enabling the introduction of a minimum wage in each industry in South Africa and the establishment of a board to fix such wage.

Ont. Premier May Be On Hydro Commission

TORONTO, April 4.—In a news article the Globe this morning says: "The end of the present session of the Ontario Legislature may see Hon. G. Howard Ferguson, Premier of Ontario, on the Ontario Hydro Electric Commission, in the place vacated by the retirement of Alderman J. G. Ramsden, who asked to resign when the Ferguson government assumed office."

Fell Farther But Hurt Less

British United Press. NEW YORK, April 4.—Timothy Nelson, 23, is dying in a hospital after an eight-foot fall from the seat of his truck yesterday.

Meanwhile three-year-old Robert Lickenback, who fell four stories from a fire-escape into a backyard, is suffering daily from minor scrapes and bruises.

VETERAN OF PRESS HONORED IN P. E. I.

J. E. B. McCready Gets Presentation and Address on 86th Birthday.

CHARLOTTETOWN, P. E. I., April 4.—J. E. B. McCready, veteran Canadian journalist, was yesterday recipient of congratulatory messages from His Excellency the Governor-General, Premier Mackenzie King, and Rt. Hon. Arthur Meighen on the attainment of his eighty-sixth birthday.

Last night Mr. McCready was welcomed by about 400 citizens of Charlottetown who made a presentation and a congratulatory address was read by His Honor Lieut-Governor Healey.

Dr. Chown Tells Halifax Gatherings That He Never Cause Shame.

HALIFAX, April 4.—Dr. S. D. Chown of Toronto, general superintendent of the Methodist church in Canada, speaking at a church banquet here last night, declared that the Methodist church had played the game fairly in matters of church union, and that they would never be the cause of any shame in connection with the movement.

The banquet was given in honor of Dr. Chown by the 300th anniversary of Nova Scotia conference and was presided over by Premier E. H. Armstrong.

FIRE CLOSES MINE

Men Will Get Employment in Another British Columbia Pit to be Opened.

COALMONT, B. C., April 3.—Fire which broke out in the main tunnel of the Cosmocon Collieries mine at Blakelyburn recently, does not appear to be as serious as first reports indicated.

The entrance to the mine was sealed up and will remain so as long as necessary.

In the meantime the new mine, No. 4, is being made ready for intensive development. This will furnish employment for a number of men, including those thrown out of work by closing of the burning mine.

CAPTURED ABLAZE

Fire-wrapped Rum Runner Sinks as She Was Being Towed Into Port.

Canadian Press Despatch. SAN FRANCISCO, April 3.—Ablaze from stem to stern, a 50-foot fishing launch of San Pedro, was taken as a liquor smuggler by the coast guard cutter Tampora after an exciting chase shoreward today. She sank while she was being towed into port.

Geneva Rotary Club Will Be Organized

GENEVA, April 4.—Rotary club came officially before the League of Nations yesterday, when a group of Geneva business men informed Sir Eric Drummond, secretary general of the League, that they were about to organize a Geneva Rotary Club. They said the Geneva club would be affiliated with the International Rotary organization.

SAINT JOHN BOYS ELECTED AT U. N. B.

W. W. Donahue and Paul Fraser Amongst Officers Who Are Chosen.

SPECIAL TO THE TIMES-STAR. FREDERICTON, April 4.—In the election of officers of undergraduate bodies of the University of New Brunswick which are unfinished, W. W. Donahue, of Saint John, was elected treasurer of the Students' Union and Council and basketball manager for 1925.

Paul W. Fraser, of Saint John was elected president of the Students' Union and Council and track manager for 1925.

Fraser also is rugby football captain for 1925.

SKIPPER IS INJURED

George Watkins, Yarmouth Officer Crubes Arm in Smock's Winch.

YARMOUTH, N. S., April 3.—George Watkins, skipper of the Simpson-Roberts Company's lobster smack Polyanna, met with a very serious accident on board that craft evening.

He was engaged cranking the winch when his mitten became entangled in the gear and before he could clear himself his left arm was drawn into the barrel. It was badly crushed and broken, and he was also badly bruised about the head.

REGRET EXPRESSED

Polish Minister Sends Note to Russia Regarding Slaying of Terrorists.

MOSCOW, April 4.—The Polish minister has presented a note to the Soviet Foreign Commissariat in which regret is expressed over the murder of Baginal and Wierzokiewicz, Communist agitators, who were killed by a Polish police sergeant while being taken to the Russian border, where they were to have been exchanged for two Poles, held prisoner by the Soviet.

CARLETON TOWER RECEPTION HELD

Pythian Knights Hosts to 250 at Gathering in West End Hall.

More than 250 guests enjoyed the informal annual reception and dance held in Masonic Hall, West Saint John, last evening under the auspices of the Carleton Tower Lodge, No. 37, Knights of Pythias. Red, yellow and blue, the colors of the order, were used effectively in the decorations. The men's committee was under the direction of C. T. Willis, chairman; Frank MacFarlane was secretary and the following were members: Frank M. Hamm, B. B. Brittain, John S. Allan, chancellor commander of the lodge, B. Edwards, Frank Adams and William Merryweather. The ladies, convened by Mrs. B. A. Edwards, looked after the refreshments, which were delicious. The committee was Mrs. Edwards, Mrs. C. Coey, Mrs. George Merryweather, Mrs. Delbi Ring, Mrs. F. Nichols, Mrs. George Perry and Mrs. Kate Dean. Those receiving the guests were Mrs. John S. Allen and B. Edwards. A good orchestra furnished delightful music and the function was declared one of the best ever held by the lodge.

KING'S DAUGHTERS Thieves Get \$300 Stock From Shediac Store

MONCTON, April 3.—Stock valued at over \$300, was stolen from the general store of James E. White, Shediac, late Wednesday night, or early Thursday morning. The thieves gained entrance from a back window and took away dry goods, silk, clothing, overcoats, rifle and gun. Before leaving they ate a lunch of canned lobsters from the stock. No clue as to the marauders has yet been discovered. U. S. army experts found that the best gas mask could be made out of the charcoal resulting from burned coconut shells. This substance absorbed more gas than any other found.

A Profitable Profession for Women

Paying \$30 a Month and Living while in Training. McLean Hospital School of Nursing offers a three years' course in the care and treatment of nervous and mental diseases, with additional that also offer training in medical, surgical and obstetrical work. Instruction consists of lectures and practical work on the wards. Board, room and laundry are furnished and an allowance of \$80 per month. This course is open to young women who have had one year or equivalent in high school. Entrance in January and September. For information apply to the SUPERINTENDENT OF NURSES, McLean Hospital, Waverley, Massachusetts.

THE PLAYGROUNDS

May Not Open Rockwood Field Until July 1—South End Work.

Commissioner J. H. Frink attended the Saint John Playgrounds' Association meeting yesterday afternoon and sought the advice of the members in relation to the opening of the Allison playgrounds at Rockwood. It was the opinion of the meeting that these grounds should not be opened until July 1, in order to give the sod ample time to become thoroughly set. Captain A. J. Mulcahy presided in the absence of F. T. Lewis, president. There was a good attendance. The Association will spend \$800 or \$900 this year on the Allison grounds for small children at the South End of the city. Miss Emma I. Heffer, general superintendent, gave a good report of the work going on in the East End Boys' Club. She reported several applications for the position of supervisors and playground leaders for the recreation centres for the summer. She, with Mr. Lewis and Parker Hamm, was appointed to decide on the male supervisors and to act with the ladies' committee in the choice of female playground leaders. Japan is the largest market for American softwoods, taking more than \$60,000,000 feet from the U. S. last year.

HONOR HEROES OF ZEEBRUGGE ON APRIL 23RD

IMPERIAL THROUG APPLAUDS C. P. R. MEN, FIRST AID WINNERS

Colonel Hodgetts Presents Trophy to McAdam Team—Regret Expressed That Saint John Police Did Not Compete This Year.

Belgian King to Unveil Memorial to British Officers and Men

SURVIVORS TO BE AT THE CEREMONY

In Regent Street Shops Money Is Made Fast—London Topics.

Correspondence of The Times-Star. LONDON, March 18.—Arrangements have been completed for the unveiling by the King of the Belgians of the memorial to British officers and men who fell in the Zeebrugge operations. The ceremony will take place on April 23, the seventh anniversary of the main exploit. The comparatively recently-formed Survivors' Association, which has been active in getting as many of the survivors as possible to attend the unveiling, has induced the Admiralty to provide water transport for a party of about 200, who will embark at Dover early on the morning of the ceremony. A couple of Belgian regiments stationed at Zeebrugge have invited the victors to lunch. The association is arranging for the accommodation of the whole of the party at Dover the night before they cross the channel, and will financially assist those unable to pay their railway fares to the port.

RIFLE SHOOTING.

One of New York's regiments will probably send a team to Bisle this summer, primarily to try conclusions with the Territorials. Twenty-two years have elapsed since an American national side came across, and the approaching visit promises to open the question of reviving an interchange of shooting contests, which at one time were fairly regular events. As regards Empire teams, there will be some falling off in the number of Bisle entries compared with last year. In connection with the effort to wipe off the heavy debts incurred by the National Rifle Association, it is understood that the Mansion House dinner to be held on the 11th of this month in support of the appeal the Prince of Wales, who is president, will be able to announce generous donations from some of the city's liveliest companies. The N. R. A. is not alone in financial misfortune, as the Army Rifle Association, notwithstanding an influx of new members, and the soldiers' increasing interest in rifle shooting, has had to dip into reserve funds to make ends meet.

AN AIR FISH.

Commander Burney's new monster airship, which will be of 8,000,000 cubic

Col. C. A. Hodgetts, C. M. G., M. D., of Ottawa, director-general of the first aid work in connection with the St. John Ambulance Association, formally presented the New Brunswick championship shield to the C. P. R. team of McAdam Junction at the close of the concert in Imperial Theatre last evening. He made a congratulatory speech after he had been introduced by Dr. J. M. Magee. W. F. Balley, captain of the victorious men, made a brief reply, in which he regretted that the St. John police had not remained organized to defend the trophy they won last year.

The Winning Team. The winning team is composed of W. F. Balley, captain; G. W. Gehan, W. Dawson, Cameron Bogart and C. W. Lee. They are not only the champions of New Brunswick in the St. John Ambulance Association divisional competition but are eastern leaders in their own C. P. R. contests. Best of all is their all-Canada C. P. R. championship, which they won from the western champions, the Winnipeg C. P. R. team, at the Place Viger Hotel, Montreal, last fall.

feet, filled with non-flammable gas, and capable of 90 miles an hour, should fill Polonus' trite description. She will "look very like a whale" up aloft. For the inventor of the paravane, perhaps the most useful war device next to the tank, is putting everything except the engines inside the body, dispensing altogether with the Zeppelin's suspended carriage, and thus securing an almost unbroken stream line from nose to tail. Aeroplane experts laugh derisively at airships as a practical proposition, contending that nothing lighter than air can ever surmount storms. But Commander Burney's proud confidence is unbroken, and he talks of Bagdad from London in two days, and Australia without a halt in just over six. The Burney airship, by the way, resembles H. G. Wells' prophetic creation of long years ago.

SHOPKEEPERS' ELDERADO.

Regent street seems to be the Eldorado of the shopkeeper. A city accountant assures me that in order to make a comfortable fortune all that is needed is to get your name over a shop in Regent street. Such is the business of the street that you can dispose of the remainder of a short lease on quite small premises for anything round £40,000. The only obstacle to getting-rich-quick on this method is that it would cost you a small fortune to get your name plate up in the first instance. None of the shops, some old established in Regent street, and recently transferred to neighboring streets, removed because rents were heavily raised. It paid them to sell

out the remainder of their leases, and start elsewhere with big balances at the bank. One small trinket shop, with only a narrow frontage, brings its proprietor in about £20,000 a year.

WHAT CUSTOMERS WANT.

One explanation of the competition to get a shop in Regent street, or some other famous West End street, is that profits are really forced on you. In Regent street there is one firm that has another branch shop in the city. Goods that are marked and sold at 7s. 6d. in the city shop are on sale in the West End establishment at 8s. 6d. There is little demand for them. Customers insist on having an identical glove, as to cut, quality, and pattern, with only slightly varied pattern, at 10s. 6d. Artificial pearls are in great demand. But at the West End, an artificial pearl pin is marked at 7s. 6d., at which it might easily be sold, there would be no demand. At 90s., or better still £2 10s., the same article goes handsomely. So here you have a shopping thoroughfare where the customer positively insists on the shopkeeper profiting. Is it any wonder that shop leases are beyond price?

FOOD PRICES.

While food prices continue to soar, housewives await, with faint but fervent hopes, Sir Auckland Geddes reports. Even though the customer takes a strong line, and denounces the trusts, middlemen, and retailers who in too many cases are profiteering in food, it is difficult to see what practical results can ensue. Nothing will ever be accomplished by pious ministerial admonitions. The Government will have to set itself to the formidable task, in defence of the capitalist system, of suppressing illicit boomer prices by force majeure. One of the gravest legacies of the war is the substitution, for honest commercial rivalry, of secret conspiracy to loot the public.

AN ITALIAN PRECEDENT.

The problem of food profiteering has been grappled in other countries. Long before the war was even a distant threat, the Italian government was gravely alarmed by riots in Sicily, due to gross profiteering by the bakers. The ministers in Rome took prompt action. They sent energetic officials to Palermo, and established state bakers' shops throughout the island, where bread of standard quality and full weight brought the profiteers to their senses, and drove many of them out of business. The state bakers still remain, and, according to the Italian press, are enticed to leave them weighed in the Government shops.

EDWARD REK.

The first of Sir Sidney Lee's two volumes of King Edward's Biography is fascinating without being startling. Sir Sidney's handling of his infinite material, like his literary craftsmanship, is beyond reproach, but he rather amazes existing impressionists than reveals new phases of King Edward's character. The reader gets a picture of a very human boy, normal to the extent of not being at all exceptional,

gradually developing into mellow maturity through a period of protracted adolescent vivacity. The Prince was nearly 60 years before he even presided at a Privy Council. The Queen obstinately opposed her ministers' efforts to bring the Heir Apparent into touch with Cabinet affairs.

UNCLE AND NEPHEW.

Prince Edward's statement was Gladstone, with whom his relations were more cordial than with Disraeli. The latter always sided with his royal mother; Gladstone did his best to secure adequate recognition for the Prince. Sir Sidney Lee deals fully with relations with the ex-Kaiser. There the uncle did his best, in the interest of European peace, to smooth over his nephew's enmity, which sometimes expressed itself in open insult. The ex-Kaiser played a real hypocrite's part; Sir Sidney proves, when he intrigued to get a European Cabal against this country, at the crisis of the Boer war, and when the plot failed, posed as the virtuous personage who turned it down.

LUDLOW STREET LEAGUE

The League of the Ludlow street Baptist church met last night with the first vice president, Mrs. George Price, in the chair. After the business session a social hour was enjoyed and refreshments served by Mrs. J. E. Rupert, Mrs. G. Jones, Mrs. E. Hughes and Mrs. C. Northrup.

Mr. Miller was one of the pioneers in starting the Florenceville Consolidated school, had always been active in educational matters, acting as teacher for last fifteen years. He was a Conservative and a member of the United Baptist church, he was summoned but it was too late.

Editor 86 Today

J. E. McCready Who celebrates his eighty-sixth birthday today, has a remarkable record in the history of Canadian journalism. He represented the Toronto Globe at the first Parliament after Confederation and was subsequently editor of the Saint John Daily Telegraph for some years, and later on the Moncton Free Press and the Charlottetown Guardian. He retired from active journalism in 1912, but has continued to serve the Charlottetown paper since that time with a daily column of "Notes by the Way." He has known personally every Governor-General and Prime Minister since Confederation.

Deaths

Mrs. Joseph Miller. MINTO, April 3.—The passing of Mrs. Joseph Miller, Newcastle Bridge, near here, has left a vacancy in the life of that village which will be difficult to fill. She leaves her husband and one son, Clayton, Portland, Me.; one daughter, Mrs. George Miller, Newcastle Bridge; one brother, R. Kennedy, Saint John, and three sisters, Mrs. McGill, of Devon; Mrs. G. Graham, of Newcastle Bridge, and Mrs. Charles Stone, of Minto. The funeral services were largely attended and were conducted by her pastor, Rev. A. Gibson.

Oliver Miller.

FLORENCEVILLE, April 3.—Oliver Miller dropped dead at his home in Connel, Tuesday night. He had been a sufferer from heart trouble for several years. He had been no worse than usual until he succumbed so quickly that even the members of his household were unable to reach him. Mr. Miller was one of the pioneers in starting the Florenceville Consolidated school, had always been active in educational matters, acting as teacher for last fifteen years. He was a Conservative and a member of the United Baptist church, he was summoned but it was too late.

Great Jardine

CHATHAM, April 3.—The death of Great Jardine, a well known citizen of Chatham, occurred last night under tragic circumstances. Death was due to hemorrhage of the brain, Mr. Jardine being suddenly taken ill while driving from the Snowball depot to Chatham on the Miramichi Road where he will dance and ride, and we shall all know the difference between the karoo and the veldt. Dr. Delaney was summoned but it was too late.

Mr. Jardine is survived by his wife, one son and one daughter. His parents, Mr. and Mrs. George Jardine, also survive, as well as one brother and three sisters.

Mrs. J. R. Stuart

The death occurred at Chipman on March 28 of Mrs. James R. Stuart, aged 71 years. She was formerly Miss Della Stilwell and is survived by her husband, three daughters, Mrs. Harry Maston, of North Devon, and Mrs. James Hennessy, Providence, R. I., and five half-brothers, William and Alonso Crowley, of Saint John; G. Fred, Harry D. and Joseph Crowley, of Fredericton, and Mrs. Lesley Harper, of Montreal, a daughter. There are 14 grandchildren and three great-grandchildren. The funeral took place on Sunday, Rev. Mr. Crandall conducting service. Interment was made at Chipman.

Miss Edith Johnson

RICHIBUCTO, April 3.—The death occurred yesterday of Edith, daughter of B. J. Johnson, high sheriff of Kent county, aged 20 years. She is survived by her father and mother, three sisters and three brothers. The funeral service will be held tomorrow morning at 9 o'clock in the Catholic church conducted by Rev. Father J. J. McLaughlin. Interment will be in the Catholic cemetery.

The Prince and Geography.

(Boston Post.) The Prince of Wales is on his way again. And it will not be long before magazines and newspapers will be printing pictures of the South Africa where he will dance and ride, and we shall all know the difference between the karoo and the veldt. He is doing a good job. He is conducting an extension course in geography for the British Empire.

Weddings

Powers-Ackerman. An interesting event took place on March 19 at the home of the officiating clergyman, Rev. James Ramsay, Moncton, when Miss Estella May Ackerman, daughter of Mr. and Mrs. Robert Ackerman, of Chipman, N. B., became the bride of James E. Powers, of the same place. The young couple were unattended. The bride was comely attired in a suit of navy tricotine with blouse and shoes and stockings of pearl gray. Her hat of pearl gray visca cloth had a trimming of small colored flowers. The young couple have many friends who wish them joy in their future life. They will reside in Chipman.

Miss Edith Johnson

RICHIBUCTO, April 3.—The death occurred yesterday of Edith, daughter of B. J. Johnson, high sheriff of Kent county, aged 20 years. She is survived by her father and mother, three sisters and three brothers. The funeral service will be held tomorrow morning at 9 o'clock in the Catholic church conducted by Rev. Father J. J. McLaughlin. Interment will be in the Catholic cemetery.

He is doing a good job. He is conducting an extension course in geography for the British Empire.

Deaths

Mrs. Joseph Miller. MINTO, April 3.—The passing of Mrs. Joseph Miller, Newcastle Bridge, near here, has left a vacancy in the life of that village which will be difficult to fill. She leaves her husband and one son, Clayton, Portland, Me.; one daughter, Mrs. George Miller, Newcastle Bridge; one brother, R. Kennedy, Saint John, and three sisters, Mrs. McGill, of Devon; Mrs. G. Graham, of Newcastle Bridge, and Mrs. Charles Stone, of Minto. The funeral services were largely attended and were conducted by her pastor, Rev. A. Gibson.

Oliver Miller.

FLORENCEVILLE, April 3.—Oliver Miller dropped dead at his home in Connel, Tuesday night. He had been a sufferer from heart trouble for several years. He had been no worse than usual until he succumbed so quickly that even the members of his household were unable to reach him. Mr. Miller was one of the pioneers in starting the Florenceville Consolidated school, had always been active in educational matters, acting as teacher for last fifteen years. He was a Conservative and a member of the United Baptist church, he was summoned but it was too late.

Great Jardine

CHATHAM, April 3.—The death of Great Jardine, a well known citizen of Chatham, occurred last night under tragic circumstances. Death was due to hemorrhage of the brain, Mr. Jardine being suddenly taken ill while driving from the Snowball depot to Chatham on the Miramichi Road where he will dance and ride, and we shall all know the difference between the karoo and the veldt. Dr. Delaney was summoned but it was too late.

Mr. Jardine is survived by his wife, one son and one daughter. His parents, Mr. and Mrs. George Jardine, also survive, as well as one brother and three sisters.

Mrs. J. R. Stuart

The death occurred at Chipman on March 28 of Mrs. James R. Stuart, aged 71 years. She was formerly Miss Della Stilwell and is survived by her husband, three daughters, Mrs. Harry Maston, of North Devon, and Mrs. James Hennessy, Providence, R. I., and five half-brothers, William and Alonso Crowley, of Saint John; G. Fred, Harry D. and Joseph Crowley, of Fredericton, and Mrs. Lesley Harper, of Montreal, a daughter. There are 14 grandchildren and three great-grandchildren. The funeral took place on Sunday, Rev. Mr. Crandall conducting service. Interment was made at Chipman.

Miss Edith Johnson

RICHIBUCTO, April 3.—The death occurred yesterday of Edith, daughter of B. J. Johnson, high sheriff of Kent county, aged 20 years. She is survived by her father and mother, three sisters and three brothers. The funeral service will be held tomorrow morning at 9 o'clock in the Catholic church conducted by Rev. Father J. J. McLaughlin. Interment will be in the Catholic cemetery.

Tells Story of Shooting at Nicholas River

Evidence in Murder Charge Against William Grant Heard at Richibucto

Victim Was Fatally Wounded With Gun

Eye-Witness Tells of Struggle Between Prisoner and Victim.

Richibucto, April 3—William Grant, charged with the murder of James Mitchell, of West Galloway, at St. Nicholas River, Monday night, March 30, appeared before Magistrate Leon Daigle this morning.

Temperance Hall and when court opened at 11 a. m. about 200 residents of Rexton, Richibucto and sections near where the accused resided, were present.

The first witness was Hugh Jardine, of Rexton, who was called to the home of George Woods on Monday night. The patient, he says, was delirious and conscious at times and one of his legs was greatly swollen.

CORONER TESTIFIES. Coroner Senator P. J. Bourque testified to holding the inquest and referred to the wounds.

Charles McGovern, East Branch testified that he and Mitchell went to Grant's home the afternoon of the alleged crime. Mitchell showed no signs of having been drinking.

SHOOTING DESCRIBED. After they got Mitchell a short distance away William Grant, the prisoner, came to the door and challenged Mitchell to return and get all he wanted.

BEAUTIFY IT WITH "DIAMOND DYES"

Social Notes of Interest

Wilbert McAuley of Jacquet River, was in the city this week to accompany his mother, Mrs. George McAuley, to her home there.

The friends of T. Dalton Popham, of Oromocto, formerly of Saint John, will be glad to hear he is recovering rapidly after an operation performed in the General Hospital here.

Little Joy LeBlanc, who has been visiting her aunt, Mrs. Daniel Desmond in Smithtown has returned to her home in West Saint John.

Mrs. Daniel Desmond arrived in the city on Tuesday to spend a week the guest of her sister, Mrs. A. M. LeBlanc, 411 City Line, West Saint John.

Mrs. T. Dalton Popham of Oromocto is spending a few days the guest of Mrs. A. M. LeBlanc.

Mrs. Arthur S. Bowman was hostess at an enjoyable small luncheon Wednesday at her residence, Crown street. The table was prettily arranged with spring flowers and covers were laid for eight.

Mrs. H. F. Puddington and her daughter, Miss Florence Puddington, are visiting the former's sister, Mrs. H. A. Holmes, and Mr. Holmes in Toronto.

Mrs. Kent Scovell left yesterday for Montreal, where she will visit her sister, Mrs. Fred McKean, and Mr. McKean.

Mrs. Silas Alward was hostess during the week at a delightful sewing party at her residence, Burpee avenue, in honor of Mrs. Balloch, of Fredericton, who is visiting her daughter, Mrs. Guy FitzRandolph, at Randolph.

Mr. and Mrs. Hugh Bruce entertained informally at bridge Thursday evening at their residence, Mount Pleasant.

Those present were Mr. and Mrs. Bruce Burpee, Mrs. Howard Robinson, Miss Emily Sturdee, Miss Kathleen Sturdee, Mr. J. B. Strirling and Mr. Victor Crosby.

Mrs. Walter C. MacLennan, of Chatham, N.B., is the guest of her brother, Mr. Cecil F. West, and Mrs. West, Princess street.

Professor Henry S. Munro, of Dalhousie University, is the guest of Mr. and Mrs. H. A. Howell, Queen square.

Mr. Harvey P. Hayward arrived home Thursday from Bermuda. His daughter, Mrs. Roy H. Spryell, who accompanied him, when both went to the Bahamas, returned a month ago, leaving her father to visit in Bermuda.

Mrs. James Smith entertained recently at her home Harrison street, in honor of Miss Beale J. Barton. Many pretty novelties were showered upon Miss Barton. Refreshments were served by the hostess.

Miss Margaret Sullivan, of Moncton, accompanied her aunt, Mrs. Ruthen Harvey, to Saint John, where they are visiting relatives.

Mr. Frank T. Lewis, who went to Fredericton this week, returned home last evening.

Mr. William F. Cronk announces the engagement of his daughter, Florence M. to Frederick R. McMullin, the wedding to take place Easter week.

Mrs. T. B. Mullin was hostess for several friends at a small tea this week in honor of Mrs. Hodgson, of Montreal, who has been visiting her son, Mr. F. J. Hodgson and Mrs. Hodgson, 184 Princess street, since they came to the city last August.

Mrs. Hodgson expects to leave soon for her home in Montreal. Mrs. Mullin's home at 90 Orange street was prettily decorated with tulips, daffodils and marigolds, the drawingroom being very pretty with its candles and artistic floral centre for the tea table, where Mrs. Rupert W. Wigmore presided and was assisted in serving by Mrs. Carey Hatfield, Mrs. James Pendrigh and Mrs. J. A. Needham. Music was enjoyed with Mrs. F. J. Hodgson and Mrs. J.

LET SAINT JOHN PROSPER BY ITS INDUSTRIES

Industrial activity turns villages into towns and towns into cities. By industry we prosper, thrive and build up our communities. Every producer is an asset to his town or city, and his commodities should be looked upon with pride by his fellow citizens. Let every producer of a worthy article receive the full support and backing of every citizen—Let Saint John, the Maritimes and Canada prosper by their industries.

SPRING OPENS WITH BRIGHT PROMISE OF INDUSTRIAL GAIN

Saint John Manufacturers Astir Making Their Products Better Known and New Industries For 1925 Show on Horizon of City

Waking Up

There is a feeling around Saint John that the local manufacturers are waking up and beginning to realize the importance of publicity.

Manufacturers whose names are seldom seen in print have been doing a certain amount of advertising during this year, and since the time of the last Saint John exhibition. Business men of the city say that this is a good sign, and one of the first steps to be taken in stirring up industrial activity.

An issue of The Telegraph-Journal and The Evening Times-Star last week, in which appeared two pages devoted to local manufacturers, caused considerable favorable comment, and one this week shows many additional products, whose activities go towards making Saint John an industrial centre.

Saint John Exhibitors

It is the opinion of the "Made in Saint John Exhibit" committee of the Saint John Exhibition Association, that this coming exhibition will see many more local exhibitors than last year, even though a most splendid showing was made in 1924.

David Magee, chairman, states that the committee feel confident that the entire machinery hall can be filled with goods of Saint John manufacture. Last year many exhibitors desired to use larger spaces, but were compelled to crowd their exhibits owing to lack of space.

It is also understood that several manufacturers will be willing to show working models, and many others who did not exhibit last year will be seen in the machinery hall this year.

New Industries

Scarcely a week passes without some announcement to the effect that a new industry is intending to locate in Saint John.

Only this week it has been announced that W. I. Fenton is interested with Capt. P. M. Starley, of England, in the establishing of a packing plant in Saint John. Captain Starley represents British capital to the extent of \$250,000.

Last week it was announced that a wire bound box company was considering establishing in West Saint John, and also that another concern was considering the manufacture of alcohol here.

Naturally, all these propositions take a little time in working out, but there is no doubt but that 1925 will see many new undertakings established in the city of Saint John.

Jeweled Shoes Are Rage in Paris

PARIS, April 4.—Shoes made by the fashionable Parisian shoemakers this season are works of art. Some have real seed pearls threaded across them. Others in rich brocades and colored and gilded leathers are studded with imitation jewels. Heels are gaudy.

Tassels, bows, and artificial flowers ornament these elaborate creations. One pair of plain gold shoes has large jeweled heels on the straps with diamond eyes and opal wings.

The shoes are cut low on one side and shaped differently on the other to give adequate display to the jewels and ornaments.

Publicity Needed

"No manufacturer can build up a wide business connection without the proper publicity," stated a well known and successful manufacturer of Saint John, in discussing the possibilities of local industrial development.

"Too many concerns start in business without making provision for the advertising of their goods, relying too much upon the old 'word of mouth' system of doing business. Nowadays, to be successful, a manufacturer must advertise widely. To be without advertising appropriation is worse than to be without necessary plant. Advertising will create business with which to pay for plant, but without advertising it is very difficult for a plant to create business to pay for itself. Many concerns have commenced a successful business with, figuratively speaking, ten cents' worth of stock and ninety cents' worth of advertising."

FALSE WIGS GAIN FAVOR IN FRANCE

Paris Fashion Makers Start Campaign Against Bob and Shingle.

By MINOTT SAUNDERS

PARIS, April 4.—In a wide window of a fashionable hair dresser's shop in the Avenue de l'Opera is a life-sized figure of a beautiful and nude young woman. Long, curly, light-brown tresses flow from her head, screening her figure to a point just above the knees. She is modelled to represent the popular art conception of Eve before the fall. The figure arrests the admiring eyes of many.

The display is only an instance of a widespread campaign now conducted in Paris against the bob and the shingle. War against the fad of clipped locks and shaved necks has been declared by hair-dressers, milliners, couturiers and other potentates of fashion at whose shrine women worship. Of course, they are looking for the return of their vanishing profits.

Hair Styles.

Wigs of coiled hair knotted at the back are quite the vogue among women at fashionable balls in the early spring season. Many of them are fantastic and gaily colored. They have come into use to cover up the shaved neck and to provide a headress to set off a gown.

Although the spring fashions keep to the slim, clinging effects in gowns, ruffles and other details are tending more and more to a style which demands a new coiffeur. Dictatorial dressmakers declare that bobbed hair confines designs to a very limited field for chicness.

British factories produce more than 100,000,000 pairs of boots and shoes a year.

HARNESS

Harness, collars and blankets, superior quality, manufactured at reasonable prices, under the most careful supervision by experienced workmen.

Every job guaranteed to give satisfaction.

M. T. Kane & Co.

Chief Monument Works in East

The largest plant and the largest patronage in the Maritimes places M. T. Kane & Co., Ltd. in a unique position as Monument workers.

Dominating the Saint John field, their ability in men and machinery to produce the highest class of carved stones at the lowest prices has gained them equal leadership in the provincial field.

Their plant at Fernhill Cemetery proper gives employment to a large number of men, while their unmatched equipment embraces many labor-saving features exclusive with this firm alone. Throughout a great part of the complicated and laborious process of Monument production, their machines work with the speed of ten men.

The result is seen in their capacity for turning out the most particular exactness and finish at prices lower than all by a wide margin. Furthermore, they maintain the largest stock and selection of finished stones in the East. Their designs and services are sought near and far.

Write for catalogue and prices.

SAINT JOHN, N. B.

FLATTERING BUT UNFAIR

For ten years the words "BLUE RIBBON" have meant to the people of Saint John and other cities and towns of the Maritime Provinces, the name of a high class line of wholesome carbonated beverages.

This name meant so much to us and became so valuable that we took the precaution of registering at the Patent Office, Ottawa, "BLUE RIBBON" as applied to Ginger Ale, Fruit Syrups and Carbonated Beverages. No other firm or individual in Canada may use this name for such products; but because of its outstanding success and our progress in the bottling industry, unfair and unscrupulous competitors have at different times attempted to mislead the public by branding their products with names very similar to Blue Ribbon.

Just at the present time a brand of beverages is being offered to the public bearing a name so similar to ours that, although not exactly an infringement on our patent rights, when hurriedly read may easily be mistaken.

Please remember that BLUE RIBBON is the name of the carefully compounded beverage of which we are so proud. Look at the bottle labels closely when purchases are made.

Our name "BLUE RIBBON" is your guarantee of purity and wholesomeness. Imitations are very flattering to us, but most unfair to you.

ALL ABOUT THE COMPETITION

How many Purity Bottle Caps can you collect before the 16th day of May? To the boy or girl who collects the most we will give a brand new BICYCLE. The second highest will also receive a BICYCLE, and even the third highest will get a BICYCLE too. Then the fourth highest will get \$15. The fifth highest will get \$10 and the sixth will get \$5. When you have decided to enter this competition, write your name and address plainly on a post card and send it to The Purity Milk Co., City Road. This will be filed until the competition closes. Then you must go to work and collect all the Purity milk bottle caps you can. Every cap counts and helps you to win.

HOW TO WIN AN EXTRA \$10

Can you write a good essay? For what we consider the best essay on "Why Purity Milk is the Best, and Reasons for Using More of It," we will give a cash prize of \$10. You can win this in addition to the other prizes. Handwriting and neatness will be taken into consideration. Mail your essay to our office, 111 City Road.

HOW TO GET CREDIT FOR 25 CAPS

Any boy or girl bringing their father or mother for a visit to our plant, which is the best and most mechanically perfect in Eastern Canada, and by far the finest in the city, will be credited with 25 caps. One visit only will be credited to any one boy or girl.

HOW TO GET CREDIT FOR 50 CAPS

Any Boy or girl securing a new customer for Purity milk will receive a credit for 50 caps for each quart. To get this credit you must phone or send in the name and address of the new customers.

GET AS MANY QUARTS AS YOU CAN.

NOTICE—No credit will be given for a new customer already purchasing Purity milk from a store or from a dealer.

THE THREE BICYCLES ARE ON DISPLAY IN THE KING STREET WINDOW OF W. H. THORNE & CO., LTD.

HAS PLAN TO BOOST MARITIME TRADE

HANGE LOGAN TELLS OF WEST INDIES VISIT

Asks Government for Better Service From Saint John and Halifax

VISIONS BIG FRUIT BUSINESS OUTLOOK

Ottawa Conference Next June to Discuss Commerce Is Announced.

Special to The Times-Star. OTTAWA, April 3.—All the colonies of the British West Indies have accepted the invitation of Premier Mackenzie King to be represented at a conference in this city this summer to lay the basis for an enlargement of the trade pact between Canada and those islands, says Hans J. Logan, minister of the Caribbean Sea, who as a commissioner visited those islands last December and who in a lengthy speech in the House of Commons this afternoon announced the results of his mission.

He stated subsequently that at the request of the Barbados and the date of the conference in Ottawa would probably be June 15.

NEEDS TO BUILD UP TRADE

"The two greatest needs to build up a trade between our country and the British West Indies and other lands in and about the Caribbean Sea," said Mr. Logan near the conclusion of his speech, "are efficient trade commissionaires and better transportation facilities, not only for freight but also for passengers. Canadians rarely visit these wonderful countries and their people rarely come to Canada. We should know each other better, and work together with a common policy of trading within the Empire."

BETTER SERVICE WANTED.

"The biggest of all questions," he continued, "is that of communication. It is admitted by everybody that the present service is unsatisfactory. The routes were established and the ships made to suit the trade. They are not proper freight boats, the passenger accommodation is very meagre and there is a serious loss in operations. I think the annual loss to the Canadian Government in this service is in the vicinity of \$450,000, and we are continually breaking the terms of the treaty. We agreed to give a fortnightly service. We do not pretend to give more than a three-weekly one, and we have not provided cold storage. No new treaty will be possible unless the delegates are assured the above conditions are to be greatly improved."

WEEKLY SERVICE.

Mr. Logan's speech first dealt at length with the various islands visited, their trade conditions and the possibilities of enlarging their business with Canada.

TO BUY MORE BANANAS.

One of the big items of import from the British West Indies, said, would be bananas which Canada now gets almost entirely from the United States. "In 1924," he said, "we imported 2,429,886 stems of bananas, practically all from the United States. Of these 1,867,266 stems came into Canada between May and October inclusive. This is a part of the year when the port of Montreal is open, and of course, the ports of Halifax and Saint John in the East and Vancouver and other Pacific ports in the West. Vancouver would be the logical distributing point for bananas used west of Winnipeg while Montreal would distribute as far west as and including that city. I am making this statement in view of the fact that the request may be made at the conference that there should be a duty of say fifty cents a stem imposed on bananas coming from the United States."

"I want to say in conclusion," said Mr. Logan, "that I am more than ever convinced that in trade with these southern islands lies Canada's opportunity. It means extensive and ever-increasing markets for the products of our soil and our manufacturers, and the cost of tropical products to the consumers of Canada would be very greatly reduced. We have one advantage in that the banks of Canada have blessed a trail. It is up to us to follow."

SAINT JOHN INTERESTED.

Of great interest to the ports of Halifax and Saint John are the details of the plan whereby Mr. Logan would improve the West Indies steamship service. His plan, which

Salvation Army Celebrates 40th Anniversary of Work in Saint John

Royal Rancher

Prince Charles Philippe, d'Orleans, descendant of Louis XVIII, and a nephew of the King of Belgium, who passed through this port en route to Lord Rodney's ranch at Fort Saskatchewan, Alta., where he will study ranching as a pupil for a year prior to taking up a ranch on his own account.

NO INTERRUPTION IN FORD SERVICE

Business as Usual is Slogan at Foley's Sales and Repair Plant.

In conversation with Royden Foley it was learned that the damage sustained in the recent fire at 300 Union street, did not seriously interfere with the sale of cars, parts or repairs, and today Mr. Foley's Sales Department and repair plant were operating at the height of their usual efficiency.

Helium Will Cure "Caisson Disease"

WASHINGTON, April 4.—Experiments by the Department of the Interior have shown that helium, the remarkable gas whose chief use heretofore has been to inflate dirigibles, is a cure for "caisson disease," the illness which afflicts workers in compressed air. Tests show that helium mixed with oxygen can be respired like normal air, but it has the curious property of counteracting the effects of compression, so that tunnel workers and others can return to the use of ordinary atmosphere in one-sixth of the time usually required for "de-compression."

MAY INSURE PARCELS GOING TO GERMANY

POSTMASTERS have been informed that parcel post posted in Canada for transmission by the direct parcel post route to Germany may, on and after April 1, 1925, be accepted for insurance under the same terms and conditions as apply to parcels posted for delivery within Canada, with the exception that the three-cent and six-cent fees do not apply for Germany, so that the scale of insurance will be as follows: 12 cents for insurance not exceeding \$50; 30 cents for insurance exceeding \$50, but not exceeding \$100. The same rates apply to parcel post for St. Vincent.

Yesterday In Parliament

THE SENATE did not sit. IN THE HOUSE—The debate on the budget was continued. Six members took part: A. J. Doucet, Conservative; Kent; J. A. Denis, Liberal; St. Denis; H. Logan, Liberal; Cumberland; R. A. Hoy, Progressive; Springfield; H. C. McKillop, Conservative; W. Egan, and C. G. Power, Liberal.

SAINT JOHN INTERESTED.

Of great interest to the ports of Halifax and Saint John are the details of the plan whereby Mr. Logan would improve the West Indies steamship service. His plan, which

RED ARMY HAS 562,000 MEN ON STRENGTH

An Appeal Made to Engineers, Chemists and Scientists of Soviet

FEWER SOLDIERS UNDER TRAINING

Lenin Gets Credit as Creator and Leader of Forces of Russia.

By WM. H. CHAMBERLAIN United Press Staff Correspondent.

MOSCOW, April 4.—"Give us technique. This is the largest of the Red Army to the engineers, chemists and scientists of the Soviet Union."

In these words the new head of the Red Army, Mikhail Vassilievitch Frunze, emphasized the outstanding need of the forces under his command in the article published on the 40th anniversary of the organization of the Red Army.

Frunze's general review of Russia's present military position was favorable. He declared that Lenin's famous motto, "Less but better," had been carried out so far as the army was concerned. The Red Army had decreased in size from five and a half million in 1920 to 562,000 at the present time. But as a fighting force, according to Frunze, it is now more effective than ever because of improved equipment, training and discipline.

A Comparison. At the same time the War Commission, in proof of Russia's pacific disposition, pointed out that the present Red Army was only a third the size of the Tsar's peacetime army and that Russia's western neighbors, Poland and Rumania, with a third of the population and a twentieth of the territorial area of the Soviet Union, kept an equal number of men under arms.

Frunze expressed the hope that Russia could be turned into an invincible fortress of the world revolution and declared that by the next anniversary of the Red Army the territorial divisions which are now playing an important role in the organization of the Red Army would be brought to the status of efficiency comparable with that of the regular division.

Pointing out that any future war would find Russia facing enemies with highly developed technical military resources, Frunze urged that attention be concentrated on this branch of the Russian military service. The technical equipment of the Red Army, while it was improving, could not be considered satisfactory. The war industries were working at high production costs and the quality of their products was not always good. The supply of motors, tanks and gases was inadequate.

An Anniversary. The anniversary of the Red Army was commemorated by a military parade in the Red Square and by a meeting in the State Opera House, where military leaders and international revolutionaries, amongst them the veteran German Communist Clara Zetkin, were the principal speakers.

All mention of Trotsky's name was sedulously avoided in the tributes to the Red Army. Unschlicht, Frunze's right-hand man in the War Commissariat, made what might be interpreted as a left-handed attempt to detract from Trotsky's credit as first War Commissar and organizer of the Red Army when he declared:

"The genius of Lenin foresaw the process of the historical development of the armed forces of the Revolution. Together with the slogan: Revolutionary Government be proclaimed the slogan: Revolutionary Army. He fought several years with the Mensheviks (the party with which Trotsky only definitely broke in 1917) who were horrified by this slogan. Therefore the creator and leader of our Red Army is the only leader of the world proletariat—Lenin."

DROPS IN STREET WITH \$50,000 BONDS

Broker's Messenger Passes Away Suddenly While Passing Through Wall St.

NEW YORK, April 3.—Hustling humanity in the financial district had a thrill when Adam Schmelzbocker, a messenger for Arthur Lipper and Company, brokers, dropped dead in front of 45 Wall street, outside the United States Trust Company office. He was carrying securities valued at \$50,000.

Representatives of the Lipper firm were summoned and the bonds were found intact. The messenger was 50 years old.

Bathroom Is Thief's Loot

BOSTON, April 4.—A complete bathroom, including bathtub, washbowl, showers and other appurtenances which the police charge was stolen and received by Benjamin Gillis, a plumber, was the chief exhibit in the case against Mr. Gillis in Central Court, when the plumber was given a six-month sentence.

A special officer found a bathroom used as a window exhibit in Gillis' plumbing shop that exactly fitted the description of the stolen outfit.

SEARCHLIGHTS FAIL IN PARACHUTE TEST

Flier at Kelly Field Leaps 3,000 Feet and Makes Landing Safely.

SAN ANTONIO, Texas, April 4.—A practical demonstration of the difficulty of following an airplane with a searchlight was witnessed by thousands of persons who went to Kelly Field to watch Corporal H. R. Uterback of the Kelly Field parachute department make a night jump from an altitude of 3,000 feet.

The operator of the huge landing light caught the airplane from which he crossed the field, only to lose it to Lieutenant J. S. Griffith, pilot, slowed for Corporal Uterback to make the leap.

WOOLLEN MILLS PLAN FOR AMALGAMATION

Competition Makes Necessary The Union of 32 Concerns Now Operating in Conn.

NORWICH, Conn., April 4.—A gigantic woolen and worsted combine to meet the competition of the American Woolen Company is now in process of organization and if completed as planned will include 32 manufacturing industries now operating, mostly in Connecticut, according to John Martin, a trustee of D. Goff & Co. of Pawtucket, R. I.

While admitting the merger was in process of organization, Martin said that any definite announcement at this time would be premature and that it would be some months yet before details were completed.

5,000 "EGGS" SEIZED

Liverpool Youngsters Saved From Probable "Easter" Illness by Officials.

LIVERPOOL, April 3.—Thousands of Liverpool youngsters have had a narrow escape from "Easter illness," or worse, it was disclosed today when the authorities condemned more than 5,000 candy Easter eggs shipped here for the holiday business.

According to officials an analysis of the chocolates in the eggs disclosed particles of quartz, minute fragments of glass and also traces of lead copper zinc and a woody material resembling sawdust.

JAPAN FIGHTS T. B.

TOKYO, April 4.—A city-wide drive against tuberculosis took place here on March 27. The Anti-Tuberculosis Society had four airplanes circle over Tokyo, dropping hand-bills, exhorting the citizens to beware of the disease which is said to be increasing each year. It is estimated 120,000 persons die annually in Japan from tuberculosis, or about 10 per cent. of the total number of deaths.

In Parliament Monday

THE SENATE will not sit. IN THE HOUSE—The debate on the budget will be resumed by A. R. Macmaster, Liberal, Brome.

MILLIONS OF WAR REFUGEES ARE HOMELESS

3,000,000 in Eastern Europe Still Surge Over the National Frontiers

EFFORTS MADE TO GET THEM SETTLED

Save the Children Fund Is Helping to Feed 40,000 Youngsters.

By CLIFFORD L. DAY (United Press Staff Correspondent).

LONDON, April 4.—Eastern Europe still has a seething mass of nearly 3,000,000 refugees, mostly destitute, straggling to and fro over its national frontiers or within them as a result of the world war.

This at least is the estimate brought back to London by Percy Alden, a prominent British welfare worker and former member of parliament, after an extended tour in Greece, Turkey, Bulgaria, and Serbia.

There are over a million Russians in the non-Russian nations of Europe, he declares, 200,000 of them still being unemployed and unsettled. Germany has 800,000 in the Athens and Rumania, 80,000 and Poland 70,000. The Russian refugee problem is at its worst, however, in China, according to Alden. There are 70,000 in Manchuria, nearly all of them in a destitute condition.

Armenia's Refugees.

Alden places the number of Greek refugees at not less than 1,400,000, of whom 800,000 are in the Athens and Piraeus area. In Macedonia and Thrace, about 116,000 families are already established, comprising a population of approximately 350,000.

The Greek government and the Settlement Commission under the League of Nations are providing for ploughs, draught animals, seed corn and forage for the cattle. About 40,000 families have been set up as tobacco growers. In many instances the carpet industry, a very important trade in Asia Minor, is being established near Athens and other large towns for the primary purpose of absorbing the new acquisitions to the population.

Armenia's refugees still number 320,000, although about a million of her people have been wiped out by massacres, disease and hardships since the war.

Most of the 400,000 Bulgarian refugees, who migrated during the years 1903-1919 have been settled in Bulgaria. The influx from Thrace and Western Macedonia since 1919 has numbered 220,000, of whom about 150,000 are still unsettled without homes or sources of income, according to Alden.

He says it is feared that the action of the Greek government, if it transports another 150,000 Greek refugees from the islands and the Peloponnese to Western Macedonia, may compel another large exodus of Macedonians who speak the Bulgarian language into Bulgaria. This would complicate a situation which, he asserts, the Bulgarian government already is unable to cope with.

Alden states that the fate of many hundreds of thousands of the Greek refugees. The death rate, especially amongst the children, is extremely high. He says the only charity attempting to deal with the problem is the "Save the Children Fund," which is feeling about 40,000, and the Near East Relief, which distributes a certain amount of clothing.

WOMAN TOO FUSSY, SAYS MATCHMAKER

Was to Get \$50 Fee For Husband—Takes Complaint to Court.

NEW YORK, April 3.—Miss Elsie Gage, 29 years old, a decidedly attractive, appeared in Essex Court today to complain that a schatzen, or matchmaker had taken \$15 from her on December 11, but since has failed to find her a husband. The total fee was to be \$50, the balance payable on the eve of the wedding day.

The schatzen, Mrs. Anna Fingerhut, retailed by complaining to Magistrate Oberwager that Elsie is too particular. At intervals through the trial, the schatzen kept repeating: "What does she want for \$50?" This remark she explained by saying that she kept sending one eligible young man after another to propose to her, but that Elsie turned them all down. The judge decided against Elsie.

A Chip Off the Old Block

Judging by the look on Paulina Longworth's face, she is a true descendant of her famous granddaddy, Theodore Roosevelt. For she certainly seems to be saying "hey, what's the big idea?" as she poses for her first state photograph.

WOMEN'S AUXILIARY MEETS. The Women's Missionary Auxiliary of the Queen square Methodist church met last night at the parsonage with Mrs. Neil MacLaughlan, president, in the chair. Mrs. S. E. Logan reported on the work for "strangers within our gates." Mrs. T. O. Dales, on work among the French, and Mrs. C. W. Dickson, on work in China. Mrs. Josephine Betts reported an increase in the membership of the Little Light Bearers. Miss C. Pratt read an interesting account of early missions on the Pacific coast. Study was conducted by Mrs. Bertram Smith. A report on mite box collections was given by Mrs. J. R. Copp.

RESTORES WANDERER.

The four-year-old son of Thomas McCarthy of 55 Broadview avenue, strayed away yesterday afternoon and was found wandering in St. James street at 7:45 o'clock last evening by Police Constable Corbett, who after considerable trouble, found out where the youngster resided and returned him to his home.

Not Just a Roof—A Lasting Protection

For camps, summer cottages, boat houses and garages, Barrett Mineral-Surfaced Roll Roofing gives lasting protection. No leaks—so it never needs repairing. No rot, no rust, no fading—so it never needs any "upkeep" (painting, etc.). And it's absolutely fire-safe—flying sparks and embers can't set your house on fire.

Easy to lay! Barrett Mineral-Surfaced Roofing can be put on right over your present roof. This saves you the expense of ripping off the old shingles, and gives you a double-thick roof.

And attractive! Soft red, moss-green, or shadowy blue-black—its slate-surface is permanent and fadeless.

See the nearest Barrett dealer. Ask to see Barrett Mineral-Surfaced Roofing and other Barrett Roofings.

Write us today! Tell us the buildings you plan to roof or re-roof. We will send valuable free booklets containing information that will help solve your roofing problem.

THE BARRETT COMPANY, Limited MONTREAL TORONTO WINNIPEG ST. JOHN, N. B. VANCOUVER HALIFAX, N. S.

Barrett Liquid Elastogum A cement in liquid form composed of time-tested waterproof bitumen and asbestos fibers. It is unequalled for keeping the surface of all roofs in watertight condition.

Plastic Elastogum Patching Cement "The waterproof cement of a hundred uses." Stops leaks in roofs, repairs flaking gutters, chimneys, etc. Adds restorative waterproofing and sticks tenaciously to any sort of surface. Heavily applied.

Everjet Paint A deadly enemy of rust. Gives long life to metal structures, furnaces, machinery, water tanks (inside and outside). Everjet has large covering power, is very durable and costs only a small fraction of what it saves.

Made in Canada

Barrett ROOFINGS NO ROT - NO RUST - NO PAINT

FIRST SERVICE CONDUCTED IN KING SQUARE

Curious Crowd Assembled as Little Band Sang and Prayed

ONLY FOUR IN THE BAND OF PIONEERS

Anniversary Service Near Same Place This Afternoon—Events Tomorrow.

Forty years ago tomorrow there assembled in King Square, near the site of the present Young monument, a large and curious crowd. Not a crowd at all seriously minded over what they had gathered to see, rating it rather lightly, but with curiosity the compelling motive. It was the first Salvation Army service ever held in Saint John.

QUAINT COSTUME.

The uniform of the "lassies" of blue cloth cut on severe lines, and the quaint poke bonnets and the yellow and red of the officer's garb, the "Blood and Fire" legend of the banner, the tinkling tambourines, the out-door preaching and testimony and the simple hymns that were sung held all at least interested. There was no band at that time. That was to come later with the Army work expanding, as it began to do in a very short time. Some who were among the curious onlookers at that service or who watched the Army members in their early day marches through the streets will recall such hymns as "At The Cross" and "Say, Will You Go" and others that had a direct appeal.

FOUR AT START.

A way back in the spring of 1885, four men had been made that on April 6 the Salvation Army would account of early missions on the Pacific coast. Study was conducted by Mrs. Bertram Smith. A report on mite box collections was given by Mrs. J. R. Copp.

SAYS CAPITAL AVAILABLE FOR NEW INDUSTRY

W. I. Fenton Discusses Plan for Pork Packing Plant

EAST SAINT JOHN PROPOSED SITE Would Have Capacity of 600 to 1,000 Pigs Weekly

The establishment of a modern pork packing plant on the C. N. R. property at East Saint John with equipment for smoking and curing meats and for the manufacture of fertilizer, tankage and other by-products, is proposed by W. I. Fenton, who consulted the New Brunswick Government in regard to the project recently. Mr. Fenton said last night that the plans of the promoters of the enterprise called for the erection of a cold storage plant in connection with the factory so that the products could be handled properly and trade established with the West Indies and Europe. C. N. R. property at East Saint John was mentioned as the location.

Mr. Fenton said that the Government had been asked to guarantee a portion of the bond issue for the erection of the plant, which would cost \$250,000, but that, if this guarantee were not forthcoming, the people behind the proposition were prepared to put up enough working capital to ensure the success of the operation.

WOULD HELP FARMERS. He pointed out the great help this undertaking would be to the farmers of the province in ensuring them a regular market for their supplies and in taking care of stock at the bad times of the year when the demand was low. In this connection he remarked a note in the Danish agricultural report which told of the unusual regularity of the shipments from that country, crediting this fact greatly for the success of the pork export business there.

Under existing agricultural conditions, Mr. Fenton declared, the project could succeed only with the earnest cooperation of both the Provincial and Federal Governments. These were now running special departments for swine husbandry and were co-operating with the producers in such a way as to enable them to ship their livestock to Montreal.

SUPPLIES DROP. The consequence of this was that the numbers of swine had been gradually decreasing while the western buyers had come to New Brunswick only in cases when their supply closer at hand and with a shorter rail haul had been exhausted. According to Dominion returns, the total number of swine in Canada had been diminished 1,800,000 in the last five years and the New Brunswick supply had dropped 10,000.

During the same time the number in Denmark had risen from 844,000 to more than 4,000,000 while that country had last year slaughtered 8,800,000 to 2,472,000 killed in Canada. Denmark is a country about two-thirds the size of the province of New Brunswick.

NEEDS CO-OPERATION. Of the tremendous amount of pork products exported from Denmark, 65 per cent went to Great Britain. In this connection, he said, it might be interesting to note that the swine were finished on maize, grain and corn, imported largely from Canada and the United States. Last year they imported more than 1,600,000 tons of grain to feed the pigs.

The great success of the industry in that country was due, he believed, to the regularity of the supply, the shipments being in a steady stream. To follow in the same way here would necessitate the co-operation of the Government and the farmers.

SAYS MARKETS OPEN. The same markets as those of Denmark were open to New Brunswick and there was no reason why the province should not join in the benefits of the Empire interests movement now on foot.

EUROPEAN PLAN
E. WINNETT THOMPSON, M.A., M.C., D.D.

Pork producing and packing was one of the largest items in connection with the imports of South American and European countries, the amounts shipped to them being in many cases greater than the cargoes of grain sent.

He confidently expected that the establishment of an exporting plant of this nature at Saint John would have a stimulating effect not only on the farming of the province but also on the business of those at present engaged in the curing and packing of pork products.

50 SLAUGHTER HOUSES. Another great advantage of the plant would be the conserving for the farmers of the fertilizer by-product, which is now being wasted and which must be purchased from as far away as Chicago to enable the agriculturalists and gardeners to carry on their business successfully.

It is worth noting that, in Copenhagen alone, there are 50 of these slaughter houses making pork products and in the rest of the country there are 50 more. The total export of hams and other pork products from Denmark in 1923 was valued at \$130,000,000. Great Britain takes two-fifths of the goods exported from that country.

DETAILS OF PLANT. The local plant would have a capacity of between 600 and 1,000 pigs a week and would employ about 30 men in the actual packing and cold storage work. The cold storage plant, with its up-to-date machinery, will have three floors, each with an area of 3,600 square feet and will be equipped for the keeping of eggs as well as the meat products.

The finest engineers in the United States and Denmark have been consulted by the company and have spoken favorably of the costs of electric and coal power here. The site has also been surveyed carefully and passed on by these people as the best in the Maritime Provinces, Mr. Fenton said.

To be successful, Mr. Fenton declared, the operation must have the support and co-operation of everyone in the province interested in agriculture and he believed that this was assured. The Government, through Premier Veniot, had received the project favorably and it appeared to have the support of all parties in the Legislature. Hon. D. W. Messersmith, Minister of Agriculture, and his department had been greatly helpful in offering all the information in their hands.

N. S. WILL DISBURSE \$20,000 IN RELIEF

Cape Breton Matters Are Subject of Debate in The Legislature.

HALIFAX, N.S., April 3.—Cape Breton was again today the subject of debate in the Legislative Assembly, this afternoon's session being completely taken up by the discussion of the illness and consequent distress among the coal miners and Bill 70, which is one of the bills contingent upon Bill 69 introduced by Premier Armstrong, Wednesday, changing the counties of Richmond and Cape Breton to three constituencies and which was given its second reading after a stormy session last night.

The outstanding feature of the debate on the labor and distress situation was the announcement by Premier Armstrong that \$20,000 was to be spent in relief work by the Government.

EXPERTS CONSIDER DEBTS. LONDON, April 3.—British and French treasury experts today began a consideration of the question of inter-related debts, which it is hoped will result in a definite plan for their liquidation that can be presented at an allied conference with fair hope of being accepted by the European powers interested.

China, with its 400,000,000 of people has only 285 electric light plants.

HANGE LOGAN TELLS OF WEST INDIES VISIT

Continued from page 11. will form a basis of the discussion before the coming conference, is as follows:

"Probably the biggest of all questions is that of transportation. It is admitted by everybody that the present service is unsatisfactory. SIX SHIPS NEEDED.

"No new treaty will be possible unless the delegates are assured the above conditions are to be greatly improved. They will ask for a fortnightly service the year round for first-class ships from Saint John and Halifax via the eastern group to Demarara and return, and also a fortnightly service of the same class of ships from Montreal in summer and from Halifax and Saint John in winter, but sailing via the western group to Jamaica. This will mean the provision of at least six new ships (as well as a side service from Jamaica to British Honduras). These ships should have accommodation for 100 first-class, 20 second-class and 100 third-class, as well as deck passengers. Also the most modern equipment for the handling of freight and cold storage for fruit. They should have a sea speed capable of being developed to at least 18 knots.

ALTERNATIVES OPEN. "There are two ways of providing this service by the Government: By contracting with a private shipping company, or with the Canadian Government Merchant Marine Corporation. "The Royal Mail Steam Packet Company has tendered to put four new motor ships on the eastern group and vice for 10 years at a subsidy which amounts to about \$534,000 per year, and to maintain a fortnightly service between Halifax and Saint John and

Demerara. It may be presumed, if they were to tender for the western service, they would require an additional \$300,000 annually. In other words, we would be called upon to pay subsidies amounting to \$884,000 per year to a private company. We could hardly expect the West Indies, British Guiana and British Honduras to contribute more than \$200,000 on this amount annually, which would mean even if this amount were contributed there would have to be paid out of the treasury of Canada, \$684,000 per year. At the end of 10 years we would have paid the private company \$6,840,000, and the company would own the ships,

and incidentally, the ships would probably have been built either in England or in Germany, where the cost per ton of shipping is lower at the present time than any other place in the world and all we would have to show would be subsidy receipts.

FAVORS CANADIAN SHIPS. "But suppose we should augment the present Canadian Government Merchant Marine West Indian fleet by the building of six ships, which, I am assured by those competent to know, would be quite sufficient (if the speed I have mentioned were provided) to serve both the eastern and western services, as well as calling at ports along the northern republics of South America. These ships could be built in Canada, using Canadian material and employing Canadian labor. It is estimated they would cost \$7,800,000 and would depreciate in value not over 50

per cent. in 10 years. If the West Indies would provide an annual contribution of \$200,000, we would have \$2,000,000 paid to Canada in the 10 years. We would therefore be out of pocket \$5,800,000 but we would own the ships, which would be worth at least \$3,900,000, making our total loss, even if the ships did not make any operating profit, \$1,900,000, or \$4,440,000 less than if we subsidize a private company.

HEAR FRENCH READINGS
The Saint John branch of L'Alliance Francaise met yesterday afternoon at the residence of Mrs. D. V. White with Mrs. Silas Alward, president, in the chair. The programme, one of great interest was in charge of Miss K. Sturdee. It dealt with the book "Le Nuit de Per" by Yvonne Schultze, a story of Lapland. Miss Sturdee related

the story of the book. Readings from the book were given by Mrs. White, Miss Letroy and Miss Kathleen James.

**BACK LEAGUE
OR AGAIN SEE
WAR IS ADVICE**

**Professor H. F. Munro of
Dalhousie Gives Address
in Saint John**

**FEARS RETURN OF
BALANCE OF POWER**

**Drive Made for 100,000
League of Nations Soci-
ety Members.**

Dr. H. F. Munro, professor of international law at Dalhousie University, Halifax, in a masterly address before the Saint John branch of the League of Nations Society last night declared an enlightened public was essential to the effectiveness of the League and urged support of the society in its drive for 100,000 members in Canada which will be launched in May. Judge George A. Henderson presided at the meeting which was held in the Church of England Institute, and attended by a large and greatly interested audience.

Hearty thanks were extended to Professor Munro on the motion of R. E. Armstrong, seconded by Mrs. E. Atherton Smith and spoken to by Dr. H. A. Powell, K.C. Mrs. Smith referred to the achievements of the Women's Council as an international organization, and Dr. Powell related some impressive facts concerning the effectiveness of the (International Joint) Waterways Commission in preserving peace between the United States and Canada.

SOVEREIGN STATES.
Dr. Munro said that in international relations each state had sovereignty and alliance on equality, and because there was no higher authority war had been used as the method of settling disputes.

The Balance of Power had been the only weapon used for maintaining international peace before the League of Nations, and when a state or group

of states threatened the liberty of the rest they organized to protect themselves. He showed that the Balance of Power had not been able to achieve peace.

Arbitration as the expulsive power to banish war, Dr. Munro said, was never better demonstrated than in the 3,000 miles of unguarded frontier between the United States and Canada, and the Anglo-Saxons with their predisposition to compromise were the great exponents of arbitration. He recalled how The Hague Court

had to its credit the solving of the problem of Canadian fisheries which had been outstanding for 100 years. Resort to this court was voluntary, and its decisions did not require to be based on law, and effort was, therefore, made to establish a tribunal that should

always be available and should administer strict law. In 1907 44 states endeavored to establish this International Court of Justice, but each demanding equal representation, and only 17 judges being required, the court was not formed.

KINDS OF DISPUTES.

In explaining the various kinds of international disputes, Dr. Munro said there were those of legal nature easy to arbitrate, and those of vital interests, honor or facts. Great Britain would not arbitrate her position regarding the Suez Canal or the United States her immigration laws, as these were cases of vital interests. But the commission of inquiry established at The Hague in 1899 effectively arbitrated the case of facts when the Russian fleet fired on English fishing boats in the North Sea.

Dr. Munro pointed out that world power had been rejected as a means of achieving international peace and co-operation did not seem feasible at the present time and the League of Nations was evolved to promote international co-operation as a means of achieving international peace. He described its machinery, mentioning first the deliberative body composed of representatives of 33 states. Germany, he believed, would enter the League this year, and while the United States was not in the League it was sympathetic, and Russia was the only other large power outside.

He stressed the fact that public opinion must be behind the League to make it effective, and said through the failure of the Geneva protocol there was now seen a definite attempt to return to the old game of the Balance of Power, and unless the success of the League of Nations was assured by popular interest in less time than the present generation there would be another war, and another war would be one of extermination.

**DODGE BROTHERS
SPECIAL
TOURING CAR**

The first cars bearing Dodge Brothers name were Touring Cars.

They were good and sturdy cars, so good and so sturdy that no radical change in basic design has been found necessary during these ten intervening years.

This fact has had far-reaching results. It has enabled Dodge Brothers to dedicate those ten years to the constant betterment of the original product.

More recently this endless process of improvement has manifested itself in various and impressive ways—in a new degree of riding comfort, a new smoothness of operation, a new and appealing beauty of line, and in those special details of appointment which distinguish the Special Touring Car.

You Cannot Get Equal Style, Performance and Reliability Within Hundreds of Dollars of Its Price

Essex is a totally different type. Its advantages are exclusive because patented. It gives results never before attained in any car:

- Low price, without disappointment in looks or reliability.
- Economy without sacrifice of performance.
- Stability and highest roadability without unnecessary weight.
- The riding ease of large, costly cars. The handling ease of a bicycle. Utter simplicity in design.
- The lowest maintenance cost, we believe, of any car in the world.

A Car You Will Be Proud to Own

These qualities make it the most wanted and largest selling car of its class in the world.

It is the finest Essex ever built. It is the smoothest, most reliable Essex ever built. It is the best looking, most

comfortably riding Essex ever built. And the price, because of volume, is the lowest at which Essex ever sold.

Surely you cannot be satisfied with less than Essex offers when its cost is but little more than cars of the lowest price.

**None Can Copy
Its Chief Values**

The Chassis Is Patented

Just as the Coach, invented by Hudson-Essex, changed practically all buying to closed cars, so the patented Super-Six principle and other exclusive advantages, forecast the mechanical design which all must seek to rival.

But the extensive copying of the Coach type and the Coach name, even by costliest cars, cannot be carried to the Essex chassis. That is patented and no other maker can use it. It is responsible for the smooth vibrationless performance and long lasting reliability for which Essex is famous everywhere.

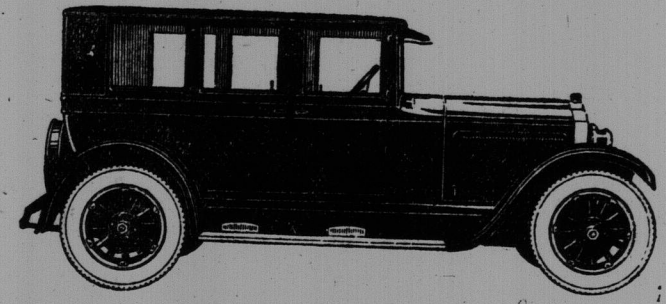

Hudson and Essex are of one quality.

**WOMAN TRAMPS
ACROSS AFRICA**

Covers 2,000 Miles From French Congo to East Coast, Armed With Rifle.

NAIROBI, April 4.—Mrs. Green of Dublin, a tall, athletic woman, armed only with a light rifle, has walked across Africa from the French Congo to the East Coast, a distance of 2,000 miles. She says she left Ireland because she was disappointed because nothing happened. She walked hundreds of miles without the slightest danger. In fact, the Congo-Kenya route for tourists is being trod by an increasing number of British boots, and darkest Africa, it seems, is now nothing but a memory. She intends to walk back to the Congo and then to South Africa.

SAYS FARMING BETTER THAN FEW YEARS AGO

Member for Kings Makes Significant Statement in Legislature

WETMORE ASKS DRY LAW ENFORCEMENT

Hon. J. E. Michaud Becomes Ill and Abandons Journey to Washington.

By D. LEO DOLAN

Special Correspondent of The Times-Star

FREDERICTON, April 3

When the House adjourned this afternoon for the usual week-end recess there seemed little hope of the budget debate being concluded before Thursday of next week. Indeed, it was felt in some quarters that the debate would continue until after the Easter recess. The House will adjourn on Thursday next, the members being called upon to work but a three-day week next week.

Today there was only one contribution to the debate, Col. W. O. Wetmore, of Kings, making a brief but interesting speech that covered a variety of subjects.

MR MICHAUD ILL

It was expected that Hon. J. E. Michaud, who adjourned the debate Thursday, would speak today, but he was taken suddenly ill last evening, and was unable to be in his place in the House this afternoon. Hon. Mr. Michaud had intended leaving this evening for Washington, with the other members of the New Brunswick Power Commission, but he decided in view of the condition of his health to return to his home in Edmundston.

Col. Wetmore, in his speech this afternoon, devoted considerable attention to the agricultural problems of New Brunswick, and he made the rather significant statement that the farmers as a whole were in better condition today than during the few years prior to the outbreak of the war. He expressed the hope that an abattoir would be established in New Brunswick within a short time and pointed out the advantages that would come to the stock raisers of this province, following the establishment of such a plant.

The member for Kings urged the farmers of New Brunswick to go into apple raising more extensively and declared the Macintosh red, as grown in this province is the finest apple in the world.

FAVORS DRY MEASURE

Col. Wetmore today came out strongly in favor of a rigid enforcement of the prohibitory law and declared this is absolutely necessary if the liquor traffic is to be prevented from ruining the youth of the country.

The member for Kings declared that nine out of every ten persons in the rural districts were in favor of the enforcement of prohibition, while nine out of ten in the cities seemed to be ready to break the law.

"Some will tell you that even our judges and members of this House are breaking this law," said Col. Wetmore, and both sides of the House roared with laughter.

S. B. Hunter, M. L. A., for York, adjourned the debate and will be the first speaker on Tuesday.

McKENNA SPEECH WAITED

There is some likelihood of J. D. McKenna, M. L. A., for Kings, following Mr. Hunter in the debate. The House is naturally anxiously awaiting Mr. McKenna's speech as he is expected to deal almost exclusively with the prob-

lems of the Maritime, and will incidentally refer to national questions upon which he gained considerable important data while touring Western Canada as special representative of The Telegraph-Journal and Times-Star in the campaign inaugurated by these newspapers to promote a new national spirit in Canada and an all-Canadian transportation policy.

OFFICIAL REPORT

FREDERICTON, April 3—The House met at 3 o'clock.

Mr. Hayes presented the report of the Committee on Corporations. Hon. Mr. Veniot said that he noticed that the names of those who voted on a resolution yesterday had been recorded in the Journals. According to the rules of the House, it was unnecessary to insert the names unless it was called for by two or more members. That had not been done, and it was only necessary to give the number who had voted each way.

Hon. Mr. Magee presented the annual report of the New Brunswick vocational Board.

ASKS NOTICES TO STAND

Hon. Mr. Veniot said that owing to the illness of Hon. Mr. Michaud he would request that the notices of motion by the honorable leader of the opposition with respect to Grand Falls Development be allowed to stand until Tuesday.

Mr. Richards, pursuant to notice, moved that a humble address be presented to His Honor the Lieutenant-Governor praying that he may cause to be laid before the House copies of all correspondence with the federal government and railway commission relative to a reduction in freight rates.

Hon. Mr. Veniot said that the information would be produced without the formality of an address. Mr. Richards said that with the consent of the speaker he would withdraw his motion.

CROW'S NEST REPORT

Hon. Mr. Veniot then laid on the table of the House a report of the proceedings before the Supreme Court of Canada in regard to Crow's Nest Pass agreement; also correspondence with

regard to a reduction in the freight on line and having to do with the reduction in the freight rate on potatoes from New Brunswick to Winnipeg.

TWO BILLS AGREED TO

The House then went into committee with Mr. Foster in the chair and agreed to the bill to authorize the Town of St. Stephen to issue further street debentures and further fire debentures and agreed with amendments to the bill to authorize the city of Moncton to issue debentures and to the bill to amend the Saint John Water and Sewerage Act, 1914.

The committee rose and reported the bill. Hon. Mr. Veniot announced that committees would meet next week as follows: Corporations, Tuesday; Library, Wednesday; Municipalities, Wednesday and Thursday; Agriculture, Tuesday.

Adjourned at 5:04 p.m. until Tuesday at 8 p.m.

\$100,000 Is Added To Queen's Endowment Fund

KINGSTON, April 3—At a meeting of the finance and estates committee of Queen's University today, it was decided to add to the endowment of the University the sum of \$100,000 recently given by the Ontario government as arrears on its grant. The present trustees Dr. James Cappon and J. M. Farrell, of Kingston, were re-elected by the graduates for a further term of three years, and Dr. J. MacKintosh Bell and J. M. McDonnell, Westmount, Que., were selected by the benefactors.

HAD CHILDREN'S PARTY

The party held yesterday afternoon for the children of the primary department of Centenary Sunday school was an unqualified success. The children numbered about 60 and they had a wonderful time playing games during the afternoon and afterwards a delicious supper was served. Each child was given an Easter souvenir. The teachers of the primary department and the mothers of the children took charge.

MODEL RAILWAY AT WEMBLEY IS WONDER

Tiny Figures Crowd Scene and All Have Definite Things to do.

LONDON, April 4.—The model of a complete countryside railway system worked by electricity, built by A. W. G. Kerswell, a Tunford Park dentist, is to be exhibited at Wembley this year. Within a space of 10 feet by 4 there is the whole mechanism of railway,

peopled by tiny figures, all doing some definite thing. Six switches supplied with 12 volts of electricity operate the rolling stock over lines fitted with brass conductor rails. On the left is a tunnelled hill-side. At the mouth of the tunnel there are plate-layers and look-out men with flags.

Crowded Station

In the centre foreground is a miniature railway station crowded with passengers and staff, who humorously realize the atmosphere of such a setting. The stationmaster is arguing with a woman about tickets, a black cat prowls at the end of the platform, and people are buying literature from a bookstall on which are tiny papers

and magazines a quarter of an inch in size. Elsewhere are goods docks from which cattle and coal and milk churns are being unloaded, an oil installation filling tankers, and a viaduct with swans swimming out from the arches or a signal-box with men standing at the levers.

The model took Mr. Kerswell seven months to construct.

CAPITAL LEVY FAVORED

PARIS, April 3.—The Government now seems decided against any scheme for increasing the output of bank bills for the benefit of the treasury, apparently veering in favor of a capital levy, payment of which would be spread over a 10 year period.

ICE JAM BROKEN

THREE RIVERS, Que., April 3.—The last ice jam between Three Rivers and Quebec between Batiscan and Champlain, was broken this morning by the "Lady Grey" which is expected here this afternoon.

DROWNED IN FLOOD

Falling from a raft on which he was working in attempting to repair a bridge over the C. N. R. near Coppen, Sask., on the Gravelburg line, Francis Gowans, a carpenter, of this city, was swept away in the swift current and drowned before help could be given him yesterday.

Charge That Cormier Stole Boots And Shoes

Edgar Cormier, who was arrested here this week at the request of Amherst authorities and taken back to that town by Police Officer R. Jefferson, was yesterday formally charged with the theft of a large number of boots and shoes from the warehouse of the Amherst Boot and Shoe Company. He appeared before a magistrate and was remanded for further evidence. Cormier had previously been accused of the theft by the company but before he could be arrested had left Amherst.

FIRST SERVICE CONDUCTED IN KING SQUARE

Continued from page 11

"open fire" on the City of Saint John, and, true to their word, the first contingent arrived on schedule time. It consisted of one man, Staff Captain Young, and three women, Captain Devere, Lieutenant Conson and Lieutenant Elliot. The first "attack" was made in King square on the site now occupied by the Young monument. Needless to say crowds thronged the spot, largely out of curiosity to see what would happen when the first "shot" was fired, but it was soon evident that the purpose of those humble Salvationists was not destroyed but to save.

FIRST MEETING PLACE

One of the first requirements was a building and to meet this need John Bullock, who became a great and lasting friend of the Salvation Army, equipped and seated the old Bowling Alley in Sydney street, next to St. Malachy's Hall, and allowed them to use it as long as they desired, which was for seven years, after which the present site in Charlotte street was purchased and the old building on it re-fitted and used until 1907 when the present splendid building was erected.

The early days were fraught with many struggles, some prejudice and misunderstandings, but the good work went on apace and hundreds of people were spiritually and morally helped, among whom many could be mentioned.

EARLY CONVERTS

Several striking cases were cited at Salvation Army headquarters when a Times-Star reporter asked for information of the early days here. There was instanced the case of a man who through drink lost interest in his business, lived in the streets and was drunk practically all the time, ragged, destitute, "down and out," when he went to the Army. He had scarcely clothes enough to cover himself and out of sympathy the officer took his own clothes and put them on the unfortunate. The man ultimately became re-generated, earned his living, gained the respect of all who knew him and retained it till his death.

Another man noted for his drinking habits, although leading what may be termed a "respectable" life was thoroughly changed and for a number of years held an honorable position in the corps. Another became an officer in the corps. He has gone to his reward.

BECOMES COLONEL

Another, a young man, was among the early day captives. He is at present attached to the staff of the Salvation Army in New York City, has done 25 years service as a Salvation Army officer and holds the high rank of lieutenant colonel.

Mention was made of the fact that in course of time one meeting place was found to be totally inadequate for the work and as a result three other corps sprang up and have done equally good work for many years—No. 2 Corps at 60 Main street, No. 3 Corps in Brindley street and No. 4 Corps in Carleton.

PROMINENT VISITORS

Saint John city has been recognized and visited by the leaders of the Army, such as its founder, William Booth, Commander Evangeline Booth, Major Mary Booth and many others whose services were so largely patronized.

From Sturgeon Falls Mr. T.L.

SUNSET is up-to-date

HOME-DYEING is as old as weaving. But SUNSET-dyeing is modern, quick and easy, quite different from old-fashioned, messy, slow-process dyeing. Modern SUNSET-dyeing is fast yet takes but 30 minutes.

A blouse that was in the discard in the morning can be SUNSET-dyed a beautiful new shade and worn to a bridge in the afternoon of the same day!

SUNSET colors dye evenly, and by mixing two or more of them you can get any color you want, just as well as the professional dyer.

Success is certain with SUNSET when you follow the simple directions. All SUNSET Dyes are fast to all fabrics, yet they do not stain your hands or harm utensils. Ask in drug, department, grocery and general stores for free folder of SUNSET recipes of fashionable "Season's Colors."

NORTH AMERICAN DYE CORPORATION, Ltd., Toronto, Canada
Sales representatives for Canada: Harold F. Ritchie & Co., Ltd., Toronto

SUNSET Navy Blue and SUNSET Black are deep, rich colors—real Navy and real Black. Use them for your dark-colored garments.

The twin shingle saves both Time and Money

THE Twin shape of Bird's Asphalt Shingles has made them known as the one man, one hand shingle. Each Twin Shingle though covering double the area may be laid as easily as an ordinary shingle, without extra motion and in the same time, and requiring but two thirds the quantity of nails.

And what is more—Bird's Asphalt Twin Shingles are fire-safe and weather-proof, yet cost no more than ordinary shingles. Their permanent non-fading colors, Red, Green or Blue-Black, will lend charm to any building.

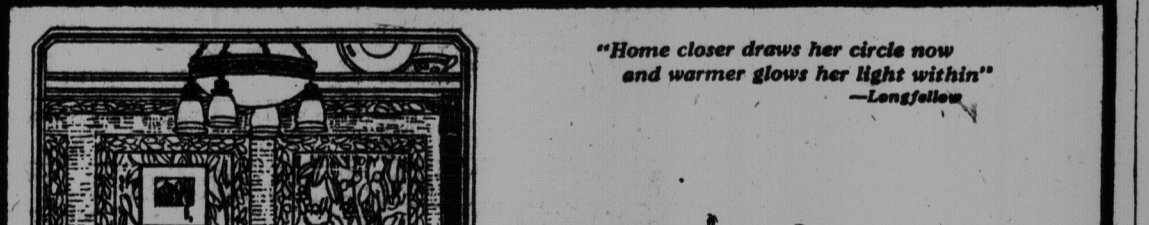

The Twin shape "two shingles in one," is an exclusive Bird feature—not made by any other manufacturer.

Bird & Son Limited—Hamilton, Ont. and Port Rouge, Que.

Let there be harmony and genial cheer

IN the diningroom all surroundings should make for harmony and cheerfulness. Specially is this true of the walls—of paramount importance are design and colour of the wallpaper!

To those whose taste is difficult to please Staunton Wallpapers offer many designs which well express the cordial fellowship of the diningroom.

Semi-Trimming—an exclusive Staunton feature—is the greatest advance in wallpaper manufacture of recent years. Semi-Trimming saves time, muss and fuss in paperhanging. No knife or scissors necessary. Rap the roll smartly against table or floor and selvaige falls off, leaving the paper perfectly trimmed. Ask your dealer for them.

Paperhangers—Write for particulars and name of nearest Staunton dealer. It is easy to satisfy customers with Staunton Semi-Trimmed Wallpapers.

Made exclusively by Stauntons Limited, Toronto

STAUNTON SEMI-TRIMMED WALLPAPER Saves Time

Manufacturers of Wallpaper for three generations—Established 1856

Only the New Studebakers have this combination of features

- 1—Duplex body combines open car freedom with closed car protection. An exclusive Studebaker feature.
- 2—Genuine balloon tires, for which the steering gear, fenders and springs were especially designed.
- 3—Vibrationless six-cylinder engine, remarkable for smoothness, pick-up and power.
- 4—Crankshaft, of special design, machined on all surfaces; gives perfect engine balance.
- 5—Force-feed oiling system—engine oil circulates three times during each mile of travel. Positive, efficient lubrication.
- 6—Automatic spark control, eliminating spark lever.
- 7—Emergency brake, operated by pull handle under instrument board, thus giving more front seat room.
- 8—Lights, controlled from switch on steering wheel.
- 9—Instruments, in single grouping under glass, on silver-faced oval. Lighted by concealed lamp.
- 10—Dash gasoline gauge and 8-day clock, standard equipment.
- 11—Improved one-piece windshield, automatic cleaner, glare-proof visor and attractive cowl lights.
- 12—Ball-type accelerator, adds to ease of driving.
- 13—New-type cowl ventilator, operated by foot.
- 14—Combination stop and tail light, mounted above steel shield that protects gasoline tank.
- 15—Improved spare tire carrier, equipped with lock.
- 16—New type seat spring construction, embodying horizontal as well as vertical springs.
- 17—Natural wood wheels, of selected hickory.
- 18—Nickel-plated radiator; ornamental radiator cap.

Before you buy, see the new Studebakers; compare them in every way with any other car you may be considering; and in particular, compare the prices:

The following are delivered prices for Studebaker cars in New Brunswick and P. E. I. points.

STANDARD SIX	
Duplex Phaeton	\$1820.00
Duplex Roadster	1795.00

THIS IS A STUDEBAKER YEAR

SAYS DEMPSEY-WILLS BOUT IS NOW ASSURED FOR SEPTEMBER

N. Y. PAPER LINKS PROMISES MEN WITH DEAL

Declares Negotiations For Title Bout Well Under Way

NEW YORK, April 4.—The Evening World said yesterday that negotiations for a heavyweight title bout between Jack Dempsey and Harry Wills "have been quietly maturing the past two weeks, which practically ensures the staging of the much-discussed contest shortly after the middle of September."

The newspaper says: "Some of the most important figures in the world of sports, in no way connected with boxing, and of financial prominence are behind the project."

In the meantime preparations are proceeding for the Gibbons-Tunney bout on June 12, and in connection with this, Jimmy DeForest, matchmaker for the Polo Grounds A. C., took occasion to make clear the Polo Grounds A. C.'s attitude toward styling the coming bout as the "world's heavyweight championship." DeForest emphasized the point that so far as the club was concerned, the bout absolutely would not be billed for the world's title. Neither will it involve the American light-heavyweight champion, of which Tunney is the holder, as the men have signed to fight at catchweights and both are certain to scale above the 175-pound mark. DeForest also added that even if Tunney were inclined to call the bout a heavyweight championship affair, he personally would not be billed for the title at stake.

"Jack Dempsey," said DeForest, "is still the heavyweight champion of the world and even should he retire it would not alter the status of the Tunney-Gibbons match, which is being regarded as a bout to develop a coming successor to the champion, but in the present instance it is the question of calling this a heavyweight championship fight and the club has no idea of doing so. Of course, if Eddie Kane or anybody else should take the title and wants to call this a championship bout that is not up to us. So far as we are concerned, it is just a fight, but a good one."

MANDELL WINS

MADISON, Wis., April 4.—Sammy Mandell, Rockford, challenger for the lightweight title, slanted Joe Siegfried of Milwaukee, to ribbons in their 10 round bout here, last night.

Along The Sport Trail

By RAY HANSEN

IN ANOTHER 10 days the major leagues will be lining up for the start of the pennant race. According to news drifting through from the southern and western training camps the teams are all looking forward with confidence to the outcome, some having championship aspirations and others keen to better their positions and end the season in the first division. The Yankees have been going great guns during their exhibition games and have been clouting the ball with a vengeance. If their pitchers come across they look like strong contenders for the title. Ty Cobb and his Tigers have also been setting a fast pace and may be depended upon to put up a great fight for premier honors. Connie Mack has a team which should land in the first division, while Bucky Harris and his world's champions will have to be reckoned with. From present indications these four teams are the strongest in the American League, although a dark horse may come forward and upset the "dope."

SO MIKE MCGUIRE, world's light heavyweight champion, has at last decided to take a chance and re-enter the ring. Personally Mike is a prince, but as a champion he has proven himself a "dud." After winning the title from Siki he retired into his shell and stayed there until Young Stribling induced him to come forth long enough to outpoint him. As the title was not at stake Mike retained his crown and then did a fadeaway from fistiana. Now that he has come forth with a sweeping challenge he had better start to train for there are a score of clever and rugged boxers eager for a chance to get him inside the ropes and topple him from his crown. Had he issued the challenge before Mike Gibbons signed to meet Tunney there is no doubt the St. Paul boxer would have accommodated him on any conditions. Mike has been an unpopular champion and fans throughout America would welcome a new title holder who would not be afraid to occasionally defend the championship.

HORSE RACING seems due for a big boost in the province this summer. Chatham recently started the ball rolling by announcing that their track would be put in first class condition and that a movement was on foot to purchase a fast free-for-all horse to be entered in the big purse events on the New Brunswick & Maine circuit. Frederickton, not to be outdone, has made the first move by actually purchasing a pacer and Mike Gibbons signed to meet Tunney there is no doubt the St. Paul boxer would have accommodated him on any conditions. Mike has been an unpopular champion and fans throughout America would welcome a new title holder who would not be afraid to occasionally defend the championship.

Intermediates to Operate In Two Sections Here This Year

The Saint John Intermediate Baseball League was re-organized for the coming season at a meeting in St. Luke's hall last night when C. W. Ellisworth presided. It was decided to form a league of two sections this year having the four teams which played last year in the second section, and four new teams in the first section. Those composing the first section are St. Luke's, Nationals, Canucks and Martellos. Those in the second section were St. Rose's, Imperials and St. Peter's. It was decided to have a Y. M. H. A. team make the fourth. The election of league officers resulted as follows: Honorary president, F. S. Thomas; president, Charles W. Ellisworth, re-elected; vice-president, William H. Silson; secretary-treasurer, R. W. Harrison. Mr. Thomas is the donor of the Thomas trophy for the league, which is competed for each year and in the first year was won by the Nationals. The winning team last year were the Nationals. The by-laws were discussed but were not fully dealt with and it was decided to hold a meeting of the executive at the residence of the president, 56 Dufferin avenue, on Monday night, when it was hoped there would be a full attendance. Two representatives from each team and the officers compose the executive.

NURMI IMPRESSES IN OTTAWA RACE

"Willie" Plant Sets a New Record For Three-mile Walk

OTTAWA, April 4.—Paavo Nurmi, Finland's great runner, Olympic champion, and wonder of the age, gave the Ottawa public a wonderful demonstration of his ability here last night. The Finn running in elegant style outdistanced Jimmy Connelly, of Georgetown University, Lloyd Hahn, of Boston College, and R. W. Gashin, of Ottawa, in a one mile and a half race, the other runners finishing behind him in the first mile, and a half, finishing on the distance of 6.56 below the mark set by him in Hamilton. Eino Piipio, the Italian and Olympic champion, relayed with Phil Granville, Canadian champion, to force "Willie" Plant, United States holder of a world's record, in the three mile walk. Granville led off with Plant for the first mile, and a half, finishing on the United States track's best. Piipio then took up the race and finished ahead of Plant in the final half of the race, the terrific pace forcing Plant to establish a mark of 20.43, which eclipses the previous best time made by George Boulding. Willie Ritola duplicated his brother's triumph in the two mile and a half half handicap race. His time of 11.46 was just short of establishing a new mark.

MACDONALD WINS HALIFAX, N. S., April 4.—"Young" Tarpey, of Ireland, making his first appearance on this side of the water, lost the decision to "Red" Macdonald of Halifax, in a fast ten round bout here last night. Macdonald weighed 181 pounds, and Tarpey 138. Tarpey came to Canada with Roy McCormick, Irish light heavyweight champion.

Squirrels Eat Off Telephone Wires

ATTLEBORO, Mass., April 4.—Playful squirrels at Capron Park gnawed telephone wires, with the result that the circuits between this city and Boston were put out of commission for some time. Mystified by the trouble, Manager Fred Deane sent his repair gang out with orders to go over every foot of wire and find the cause. The squirrels had evidently been feeding on the wire for some time and will cost the phone company quite a sum as a result. Italy has decided to operate all the telephone systems of the country as a government monopoly.

NEW YORK STATE RECEIVES LARGE SUM FROM RING

Boxing Now Considered Important Source Of Revenue

More than \$18,000,000 has been paid by the public to see boxing contests in New York state in the last four years of the Walker boxing law, according to figures announced by the National Sports Alliance. Of this sum the state has received \$8,000,000, while for the same period the State has received its share of the receipts \$9,000,000.

The maintenance of the State Athletic Commission has cost \$22,048.75, leaving a net revenue to the State of \$7,977,951.25. The figures also show that approximately \$8,000,000 has been distributed among the promoters as well as real estate owners and employes. Source of Revenue. In citing these figures, the Alliance emphasizes the important position that boxing has assumed in the State as a source of revenue and also the great progress that has been made within a process in which the Alliance also has played an active part. The Alliance, of which Jimmy Johnston is the president, expects to reach its greatest heights Sunday night, when 1,500 guests take seats at the organization's annual dinner at the Hotel Commodore. Practically every professional sport in the country will be represented and members of many State boxing commissions will be in attendance.

GARRISON PLAYERS CAPTURE HONORS

Finals in City Badminton Tournament to be Held This Afternoon

The City Badminton Tournament was continued on the Garrison Courts in the Armoures last night, and when the hour reached midnight it was decided by the committee in charge, that the play would cease and the semi and all finals would be played this afternoon, play to commence at 2 o'clock. These will be played by members of the Saint John Garrison Club to determine the final winners in the different classes, for at the conclusion of the play last night the Garrison Club members as a body won the city honors, and the result of the play this afternoon will decide which players receive the prizes. There will be no admission to the officers witness some play by the players.

BOWLING BANQUET

The members of the Clerical Bowling League will assemble at a banquet to be held in the Dunlop Hotel next Monday night when the prizes for the winning team and runners up, as well as individual prizes will be presented.

PURSES OFFERED TOTALLING \$6,400

Four-day Racing Card is Arranged For St. Stephen Fair

ST. STEPHEN, N. B., April 3.—St. Stephen intends to give the horsemen a chance to win big money again this year is assured as the Charlotte County Agricultural Society have announced the following stakes to be raced at the big fair in St. Stephen, N. B., on Sept. 1, 2, 3 and 4.

2.14 trot and pace, \$1,000.
2.17 trot and pace, \$1,000.
2.20 trot and pace, \$1,000.
2.24 trot and pace, \$1,000.
2.19 trot, \$1,000.
2.24 trot, \$1,000.
3 years old and under mixed, \$400.

These events close June 1st with payment of two per cent. Horses must be named and eligible July 1st with a further payment of two per cent. Horses nominated may be substituted up to August 1st providing substituted horse is eligible on that date. A final payment of one per cent. to be made on August 1st and five per cent. additional from money winners. The class races will be announced later. The secretary, Frank Littlefield, will be pleased to furnish entry blanks and any information required. This is second year that this track has put up \$1,000 stakes which means that all the good ones will plan their campaign in this direction.

Play Hunch On 251 To One Shot And Win

PARIS, April 4.—Les Rameaux, a three-year-old maiden colt, yesterday won the second race at the Maisons Laiffite track at the record odds of 215 to 1 in the grand-stand and paddock pari mutuels. Small bettors in the field staged a war dance and jeered the more prosperous racegoers for having completely overlooked the "good thing." Les Rameaux is French for "the Palm," and followers of "hunches," realizing that tomorrow is Palm Sunday, scattered enough five-franc notes on the horse's chance to win to bring down his price in the cheaper ring to 30 to 1. And many of them there were those who called tickets. Prices in the grand stand pari-mutuels was 2,163 francs for 10, and in the infield 407 for 5.

Pains in Her Back Have Vanished

QUEBEC LADY TELLS OF DODD'S KIDNEY PILLS

MADAME ED. PRESAU IS NOW IN PERFECT HEALTH.
NOTRE DAME DU PONT MAIN, Que., April 3.—(Special).—"Your Dodd's Kidney Pills have done me much good," so states Madame E. Presau in an interview. "It was a trouble for me to work and I always had kidney trouble. Since I have taken Dodd's Kidney Pills the pains in my back have all gone, and am in perfect health and well satisfied."

Ninety per cent. of the ills from which women suffer come from weak or diseased kidneys. They are the organs that strain all the impurities out of the blood. If they fail to do their work, the impurities remain in the blood and are deposited all over the body. Weak kidneys are not confined to grown people. They are too often found in children, sowing the seeds of future ailments. The kidneys are strengthened and put in condition to do their full work.

LOSE MANY PINS.

LONDON, April 4.—Englishmen are the champion pin losers of Europe. Every English man, woman and child loses a pin and a half a day. There are 38,000,000 people in this country and they buy 84,000,000 pins daily. In France, on the other hand, they are not such gluttons for pins. They only buy half a pin for everybody.

ATTACKED BY MOTHER.

SAN FRANCISCO, Cal., April 3.—Joseph Ellington, father of Dorothy Ellington, charged with the murder of her mother, testified in her sanity hearing yesterday that his wife once had attacked him while he slept. The defense has gone into its theory that pre-natal influence disposed Dorothy toward insanity.

PAIN IN BACK AND SIDES

Ended by Taking Lydia E. Pinkham's Vegetable Compound

Funkler Sank.—"For two or three days every so often I would have such pains in my back and sides that I could not do anything—could not even lie quietly in bed, and my head ached, too. I was this way about three weeks ago. I was very nervous and was married. I was on a farm with not a house nearer than five miles and there was not a person to advise me, as my folks lived in Manitoba. My sister-in-law told me about Lydia E. Pinkham's Vegetable Compound and told me to try it. I took her advice and have been thankful for it ever since. After taking the medicine for three months I can say it has helped me a lot and I am doing fine. I am glad to recommend the Vegetable Compound to others and you may publish my testimonial."—Mrs. HELEN KALANOFF, Funkler, Saskatchewan.

WOULD END FIASCOS

Oxford and Cambridge Oarsmen to Revise Rules Governing Classic Race

LONDON, April 4.—Last Saturday's boat race fiasco, with the Oxford shell being unable to finish because of being swamped in the rough water of the Thames, is expected to lead to a revision of the rules governing the classic event with a view to preventing recurrence of such incidents. A number of old oarsmen of both Oxford and Cambridge propose to hold a meeting for discussion of the question. The initiative was taken by Cambridge, the winner of the race.

THREE CORNERED LEAGUE

HAMPTON, April 3.—Prospects for the formation of a three-cornered baseball league embracing Hampton, Rochesay and Fair Vale, were discussed at a meeting of the Hampton Baseball Club last night at the home of T. Ross and it was decided to get in touch with the two other teams with this end in view.

They Carry Mack Punch

AL SIMMONS, LEFT, AND BILL LAMAR. FT. MYERS, Fla., April 4.—Weakness in the outfield, featuring a decided lack of batting power, has for several years been a chief concern of Connie Mack in rebuilding his club. It has been solved. In Al Simmons and Bill Lamar, Mack figures he has two of the best outfielders in the American League. He defies you to name two other outfielders he would trade them for. Simmons, a star in his first year, is a much improved player, while Bill Lamar appears set to have the big year of his career. Both Simmons and Lamar carry a punch. If they hit up to form the Athletics are going to be mighty dangerous.

PLAN MAKING BID FOR SOCCER CUP

Saint John Players Consider Bid For Silverware Presented Canada.

Saint John Association football players may make a bid for the cup presented by the British Association for competition among Canadian soccer teams. The executive of the Saint John Association Football League met last evening in the Seaman's Institute and discussed possibilities of going after the trophy. It was believed that this city could turn out a good team and decided to make an effort to see just what could be lined up in the way of material. It is proposed to revive the league this season and to this end all teams or unattached players are requested to send their names to Walter Brindle at the Institute.

WOULD END FIASCOS

Oxford and Cambridge Oarsmen to Revise Rules Governing Classic Race

LONDON, April 4.—Last Saturday's boat race fiasco, with the Oxford shell being unable to finish because of being swamped in the rough water of the Thames, is expected to lead to a revision of the rules governing the classic event with a view to preventing recurrence of such incidents. A number of old oarsmen of both Oxford and Cambridge propose to hold a meeting for discussion of the question. The initiative was taken by Cambridge, the winner of the race.

THREE CORNERED LEAGUE

FAMOUS HORSE FALLS IN HEAP AFTER THE RACE

Fans Who Had Backed The Favorite Were Stunned

SAN DIEGO, Calif., April 4.—Chilhowee, famous Kentucky race horse, was poisoned just before running the \$65,000 Coffroth handicap at the Tia Juana track last Sunday. It is charged here by track veterinarians, owners and trainers. Chilhowee was at no time a contender during the race although he was a topheavy favorite. Following the race, which was won by Atherton, an outsider, the horse was returned to its stable and fell in a heap with a fever of 104 degrees, according to Eric and Harry Hart, the horse's owners.

Detective Guarding Horse

Dick Watts, trainer, and Fred Sharpe, jockey, attended to the preparation of Chilhowee for the race. Veterinarians who have been attending him said that all indications pointed to poison having been administered. Detectives are guarding the horse and aiding in the investigation. Jockey Club officials are leading every cooperation. Competent judges of racing were unable to explain Chilhowee's poor showing except to say that the double handicap of a heavy impost of 128 pounds and the muddy track were too much for him. The Kentucky star, however, had shown his ability to overcome these handicaps. Race followers were so confident of Chilhowee's ability to run in the mud that they made him a 2 to 2 favorite at post time.

Favorite Ran Tenth

As the race was run Chilhowee did not seem to like the going. He was piloted by Chick Lang, one of the country's best jockeys, and his position, No. 5, was not disadvantageous. Nevertheless, the favorite ran tenth all the way and finished far behind Atherton, the outsider, which won the rich stake. The big crowd was stunned at so poor a performance by a horse which holds the world's record for a mile and an eighth. There was no doubt voiced as to the good intentions of the owners, for they had brought their star from New Orleans especially for the Coffroth. Nor was there doubt as to Chilhowee's condition for he romped off with a preliminary race at Tia Juana a few days before in fast time.

HAGEN WILL QUIT

Returning Travelers at New York Say Champion Not to Defend Title

NEW YORK, April 4.—Leading golf professionals, arriving in New York yesterday from campaigns in the sunny lands, brought the word that Walter Hagen, twice British open champion in the last three years, is not expected to defend his title this summer. Gene Sarazen also is reported to be satisfied with the tournament list on his side of the ocean.

N. B. VOCATIONAL EDUCATION COST \$44,803 IN 1924

Local and Federal Governments Each Contributed Half of Expense

REPORT IS PRESENTED TO THE LEGISLATURE

Hon. Fred Magee Asserts Sentiment for Technical Training Growth

BY D. LEO DOLAN

Special Correspondent of The Times-Star
FREDERICTON, April 3—An expenditure of \$44,803.06 was made for vocational education in New Brunswick last year, according to the figures contained in the sixth annual report of the New Brunswick Vocational Education Board, submitted to the House this afternoon by Hon. Fred Magee, chairman of the board.

BY LOCAL BOARDS

The total grants to the various local boards amounted to \$27,147.02, distributed as follows: Woodstock, \$6,900.35; Fredericton, \$3,987.08; Campbellton, \$1,787.50; Miramichi, \$389.50; Devon, \$380.82; Edmundston, \$11,118.07; Bathurst, \$78.23; Milltown, \$2,648.85; Moncton, \$2,148.00.

FIVE FULL-TIME SCHOOLS

During the school year ended June 30, 1924, five municipalities in New Brunswick conducted full-time day vocational schools or departments. These served 187 full time students. Eight cities and towns conducted evening vocational schools (women only) had an enrollment of 1,181. Short term (six weeks) courses conducted at Saint John and Edmundston were attended by 61 men from the automotive industry.

The 1924 summer school for vocational teachers (women only) had an enrollment of 81, and 254 persons (operators of gas engines) were served by itinerant instructors. The total number in attendance at the various classes and for courses was 1,714, or nine per cent. more than the previous year. Seventy teachers were employed.

GROWING IN FAVOR

In commenting on the growing sentiment throughout the province in favor of vocational education the report states that in five years accommodation has been provided for more than 1,600 full time day vocational pupils and double that number of evening students. The construction costs of the different vocational school buildings followed: Castleton County, \$10,000; Miramichi, \$80,000; Milltown Composite High School, \$106,186.19; Edmundston Composite High School, \$18,810.00; Carleton Place Composite High School, \$18,841; McAdam Composite High School, \$88,490; Saint John Vocational School, \$850,000.

Girls! Say Goodbye To Pale, Sickly Complexions

Many a girl wonders why she is pale and sickly-looking, with dark circles under her eyes, occasional skin eruptions, and a washed-out, tired expression—why she is so unattractive to other girls—while other girls are always rosy, bright-eyed, full of vivacious energy, sought after and popular with all. Yet thousands of examinations by physicians have shown that in nine out of ten cases the cause is simply iron deficiency in the blood, lacking in sufficient iron. With rich, red blood, the same girl would have the clear, smooth skin, pink cheeks, rosy lips, bright eyes, and the abounding health and vivacity that always attracts a host of friends.

What these girls need is simply something to put more iron into their blood. It is iron that makes the rich, red blood that washes away the impurities and poisons that keep you sickly-looking and cause complexion blemishes. It is iron that makes strong, vigorous blood that carries glorious health and beauty to your whole body. But be sure the iron you take is organic iron—Nuxated iron—not the ordinary liquid medicines or pills made from mineral iron that often injure the teeth and disturb the stomach. Nuxated iron is a wonderful new combination of organic iron like the iron in the blood, and like that in spinach and lentils, only in more concentrated tablet form. It has no injurious effects, and you will be astonished how much better you look and feel often in only a few days. Try taking Nuxated iron tablets for just 2 weeks and see how the lovely color comes to lips and cheeks, and the bright sparkle to your eyes. Money back if not delighted. At all good druggists.

A Peep Behind the Scenes Shows Wealth of Humor and Many Quaint Characteristics

By FRANK X. JENNINGS, Editor of Dramatic News for The Times-Star.

I HAVE reached the unattainable; I have accomplished the impossible; I have found the open sesame to the hitherto inviolate sanctity of a rehearsal of the F. James Carroll Players at the Opera House. The task has been achieved after three seasons of endeavor which, like the empty banana peel, had been absolutely fruitless. How it was accomplished I know not— suffice it to say that in some way or other Miss Dorrit Kelton wrangled it with the powers that be and, for the first time in history, a rank outsider watched the building up of a show for presentation to the public.

The experience was an education, a revelation and a period of solid enjoyment all rolled into one; running through the fabric of intensive work was a spirit of comradeship which bound the members of the troupe into one big happy family, and which found its chief expression in a series of good-natured quips which took from labor some of its him-drum drabness.

THE FOLKS ARRIVE

Rehearsals are held in the room just off the foyer of the theatre, used during show hours as a ladies' waiting room, in an obscure corner—zero hour was approaching. The first to arrive was Miss Dorrit Kelton, who, in the person of Miss Kelton, played me shortly before 10 o'clock on Friday and with the parting injunction to keep my eyes open, an oblique nod in an obscure corner—zero hour was approaching. The first to arrive was Miss Dorrit Kelton, who, in the person of Miss Kelton, played me shortly before 10 o'clock on Friday and with the parting injunction to keep my eyes open, an oblique nod in an obscure corner—zero hour was approaching.

ENTER DAISY AND—

Amongst the first to arrive was Emma DeWale. In her left hand she clutched a copy of The Telegraph-Journal, neatly folded, inside-out to disclose a half-naked cross word puzzle; in her right, a combination dog-leash-club bag, and in her waka, Daisy—Daisy, that tiny little poodle without which Miss DeWale—well, would not be Miss DeWale, that's all. Emma, comfortably ensconced in her own particular chair, I was told that she was very faithful to it—immediately started to resume her task of chewing the fat of the end of her pencil, while the others gradually drifted in—all except Miss Lois Jenson, the ingenious one, who was very faithful to it—immediately started to resume her task of chewing the fat of the end of her pencil, while the others gradually drifted in—all except Miss Lois Jenson, the ingenious one, who was very faithful to it.

LOIS COMES IN HASTE

Just as the hour had struck and everybody prepared to get on with the task in hand, the swing doors suddenly swept inward and there, flushed and breathless, stood Lois. "Oh, am I late," she managed to gasp. "About a quarter of a minute," announced Mr. Matthews. "Haven't you a watch?" "No—but I thought—" "Got a clock in your room?" "No, but I—" "That settled it. Well, everybody happy? Let's go," shouted the director, and away they went.

THE COFFEE VENDOR

From their seats about the wall the players arose and went through their parts—usually getting their cues the first time they were pronounced, but sometimes not until they were called two or three times—for actors are human and life always holds many distractions. Miss Kelton's invariable act, immediately before taking her cue was to dislodge Daisy from her lap, whence she had taken herself immediately on arrival, and which position she was wont to resume the moment there was a lap there in which she might snuggle contentedly. Clyde Franklin, having finished a bit, and having ascertained that he had a few minutes respite before his next call, started for the door. At once he was greeted with— "Going for your coffee, Clyde?" The answer being in the affirmative there was a popular demand for him to bring some for others. Picking up a cigar box, he departed, returning in a few minutes with the box filled to capacity with steaming cups, which he proceeded to distribute to his erstwhile customers, collecting from each the nickel advanced by him for the beverage. And so the rehearsal progressed.

P. T. DISTRACTION

Soon afterwards, a cue for Clyde failed to bring that individual to the fore, and a hasty scanning of the room disclosed him in the midst of the difficult feat of walking on his hands over in one corner. A shout and he resumed his normal attitude and away they went again. But the part was a strenuous one and after much strained wiping of his hand across his forehead and other indications of distress, Mr. Franklin peeled off his coat, laid his collar and tie to one side, a smile of satisfaction crossed his face—and all was rosy once more.

THE MAILMAN ARRIVES

One of the biggest events of the day was the arrival of George Smith with the mail. As soon as George appeared, there was a concerted rush for him and he was the most popular man in their little world. But after he had passed out two or three personal letters and demonstrated the fact that 99 per cent. of the balance was made up of either bills or circulars, he was not quite such a big toad in the theatrical puddle.

Miss Shannon, the new leading lady, was the most insistent of the lot, and she could not quite understand how it was, after she had been here for nearly a week, that she had so far failed to be favored by George. He, however, compromised by promising to write one for her himself, and gracefully, though hurriedly, retired. JIMMIE AND THE SCALES. Perhaps the most retiring and unobtrusive member of the aggregation is Jim Swift, but even he is not without his peculiarities, one of which he pro-

Open Sesame

MISS DORRIT KELTON.

Through whose intervention The Times-Star man was able to break through the sanctity of a rehearsal of the F. James Carroll Players. What he saw and heard is told in the accompanying article.

QUICK COME-BACK

At Friday rehearsal, the rule is, "Half the show to be memorized," so that when one of the members of the troupe—I have just forgotten which one—and I should hesitate to say so, if I did remember—stumbled over a few lines and then in a most dazed way exclaimed, "Gee, that's funny, I knew that right off in my room this morning," the director, with a knowing grin, remarked, "Then why didn't you bring the room with you?" "Bring the bell," shouted Owen Colby, who, interpreted, meant, "Bring the bell," according to Miss Kelton's explanation to the untitled.

STILL HAPPY

At last it was over, and again launching the answering query, "Everybody happy?" and body happy? "A very good rehearsal, let's go—Home," Jack Matthews prepared to depart. From the far side of the room comes the call of a maiden in distress. It is Emma DeWale, with her inevitable cross-word stickler, "Who knows a three-letter word meaning actor?" she enquires. Again it is Frank Harrington who bursts in, and following it, "Ring the bell," once more work is finished. I have merely scratched the surface of the myriad things that were said and done in the two hours during which I sat and revolved. But my guide informed me that they were typical of every occasion, and I carried away the impression that, besides providing entertainment for the public, the company members managed, amongst themselves, to make life well worth living.

PILES RELIEVED If you are suffering from bleeding, itching, blind or protruding Piles, I can give you certain relief. My new absorption treatment can be applied by yourself, right in your own home. Forward me your address and I will send you references from your own locality and a FREE TREATMENT that will give you immediate relief. Send no money. Let others know of this wonderful new treatment. MRS. M. SUMMERS, BOX 44, WINDSOR, ONT.

SPRING IMPURITIES DUE TO POOR BLOOD

A Tonic Medicine a Necessity at This Season.

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves, but they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life and the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to enrich the blood. In the spring one feels weak and tired. Dr. Williams' Pink Pills give strength to the system, and the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble, anemia, rheumatism, indigestion, neuralgia and many other troubles are more persistent because of poor, weak blood. In the spring the system is nature takes on new life that the blood must seriously need attention. Some people do themselves with purgatives, but these merely gallop through the system, emptying the bowels, but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble, anemia, rheumatism, indigestion, neuralgia and many other troubles are more persistent because of poor, weak blood. In the spring the system is nature takes on new life that the blood must seriously need attention. Some people do themselves with purgatives, but these merely gallop through the system, emptying the bowels, but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood and aid weak digestion.

Among those who have proved the value of Dr. Williams' Pink Pills is Mr. Austin Wiley Hemford, N. S., who says: "I have reason to be deeply grateful for what Dr. Williams' Pink Pills have done for me. An abscess developed in my head, and the doctor who was called in said my whole system was poisoned. My appetite completely failed, and I grew so weak I was unable to do any work. The doctor's medicine did not help me so I decided to try Dr. Williams' Pink Pills. In one stage I was reduced almost to a skeleton. My physician did not look for my recovery. I soon found, however, that the pills were helping me, and after taking them for about two months I was fully restored to health. My case was known to all my neighbors and my recovery looked upon as almost a miracle." You can get these pills through any medical dealer or by mail at \$1.50 each in a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Bobbed Skirt

(R. B. D. in Victoria Colonist.) Notwithstanding the newspaper dispatches, the vital question of the day is not the question of bobbed hair, but the question of bobbed skirts. The League of Women's Suffrage, and the other minor leagues fluttering around it, never discussed that vital question, and yet it is the question in which the women of the world, constituting a majority of the people of the world, are supremely interested. A few examples will be given of a resident of Our Street that we displayed a lamentable amount of ignorance when we discussed the matter of bobbed hair and bobbed skirts. We were bobbed, skirted, skirted really were becoming of normal length; and that she was being permitted to grow long again. Now, we ask, what a man to do when he is corrected in such a manner as that? He is not possessed of first-hand information regarding the vagaries of feminine fashions. His knowledge of such matters is gathered from the ordinary newspapers and the popular novels.

Punch is not an ordinary newspaper. It is a popular, a highly popular, journal. Its popularity is proved by the fact that if an ordinary newspaper discovers a clever thing in its columns, Punch has a competent correspondent in Paris who apparently is paid to note and comment upon it. This competent correspondent says there has been a terrible struggle in Paris between skirts and stockings, and that stockings have won the battle. That is, stockings are going to be more conspicuous than skirts. If it does not mean that bobbed skirts are going to prevail for another year at least, what the mean? It means that Punch has founded our critic, then Punch is not the high authority on fashions it pretends to be.

But the struggle between skirts and stockings is not the only struggle that is proceeding in Paris. The women of Paris, not content with outraging all the traditions of their foremothers in the matter of skirts, and forcing all the women of the world (with the possible exception of the Mongolians and other races who do not wear any skirts at all) to follow their example, are beginning to appear at dinner dressed in the short jackets which hitherto have been reserved exclusively for men upon such ceremonial occasions. The offending jacket, we are told (and on the authority of Punch), is wider about the hips than a man's jacket, but otherwise it is the same. Beneath it is worn a stiff-boasted shirt, and this is surmounted by a black four-in-hand tie instead of a bow. Trousers have not been adopted yet, but the narrow skirt reaching to the knees is equipped with half-pint pockets. We are interested in this question of fashions for women, and we think it is well that the women of Victoria should be thoroughly well informed upon such fundamentally important matters, for we should make ourselves clear upon that point. If there is going to be a struggle in Victoria between skirts and stockings, and between jackets and narrow skirts with half-pint pockets in them, we women should advise ourselves on all responsibility.

OPERATIC ARTIST DEAD

NICE, France, April 3—Jean De Reszke, world famous operatic artist for many years leading tenor at the Metropolitan Opera House, New York, is dead.

PILGRIMS TO ROME RETURN TO SAINT JOHN

Mr. and Mrs. W. P. McDonald; Mr. and Mrs. S. B. Donovan.

FIRST CANADIANS TO MAKE JOURNEY

Deeply Impressed by Vatican and Audience With Holy Father.

The C. P. R. steamer "Montclair," which docked at Sand Point this morning, brought back to Canada several members of the American-Canadian Holy Year pilgrimage to Rome.

LEARNERS OF CHURCH LOSS. The Woodstock clergyman was in Rome at the time his church, St. Gertrude's, was destroyed by fire.

HISTORIC PARTY. Father Lockary tells interestingly of the pilgrimage to Rome. The large party, fully 600 people, which left Boston in February.

AUDIENCE WITH POPE. Mr. and Mrs. W. P. McDonald and Father Lockary, as well as Mr. and Mrs. Donovan, West Saint John, spoke to the impressive assembly of the audience with His Holiness Pope Pius XI.

PILGRIMAGE DEVOTIONS. The religious services incumbent upon the pilgrims during their stay in Rome included a three-day visitation of four different basilicas attached to St. Peter's and St. John Lateran and St. Mary's.

CARDINAL VANUTELLI. Rev. Father Lockary says that it was his privilege to have a few words with Cardinal Vanutelli, Dean of the College of Cardinals, while in Rome.

SOUVENIR MEDAL. A cherished memento of their trip to Rome is being exhibited by the Saint John people. It is a medal struck in commemoration of the Holy Year.

RECEPTION IN COLLEGE. Another interesting feature of the visit, but more on the social line, was a reception tendered the Americans and Canadians by Cardinal O'Connell of Boston.

DEEPLY IMPRESSED. During their stay in the Eternal City the Americans and Canadians were

ALMANAC FOR SAINT JOHN, APR 4

Table with tide and sunrise information: High Tide 10:00 A.M., Low Tide 2:08 P.M., Sun Rises 6:01, Sun Sets 6:04.

Local News

THIRTY-EIGHT BABIES. Thirty-eight babies were born in the city during the last week while the births numbered 88, with 18 boys and 20 girls.

TEAM DAMAGES AUTO. A team, owned by Philip McGuire and driven by William Moore, hit an automobile owned by Harry Knight that was standing in Main street yesterday afternoon, damaging the running board.

ILL IN STREET. E. McD. Briley of Hampton was taken ill in Charlotte street last evening and was hurriedly conveyed to the General Public Hospital, where he died after which he was taken to his boarding house at 190 Union street.

REPORTED BY POLICE. Maurice Jacobson has been reported by Policeman McCauley for having four electric signals at the State of bus-ness without permit. The case will be taken up next Monday afternoon.

IN HONOR OF SON. A very pleasant time was spent on Thursday evening at the home of Mr. and Mrs. Wm. Byers, Church avenue, Fairville, in honor of their son, Arthur, who will leave tonight for Boston, after spending four weeks at home.

FINED \$10. John D. Trail was fined \$10 by Magistrate Henderson in the police court yesterday afternoon, being found guilty of operating his car at a greater speed than allowed by law.

BOYS ACTING ROWDY. Sgt. Dryden, accompanied by Policeman Chisholm, answered a call to investigate the actions of boys in Grant & Horne's building in Albion street yesterday. The boys had decamped when the officers arrived.

PAYS FOR DAMAGE. William Cogrove appeared before Magistrate Henderson in the police court this morning, having been given a ticket by the superintendent of the Salvation Army Hostel, St. James street, yesterday, for doing damage to a room to the amount of \$2. He paid this amount over and was allowed to go.

FORFEITS DEPOSIT. Policeman Leard, accompanied by Detectives Saunders and Kilpatrick, raided the exhibition grounds last evening on complaints of nearby residents over the actions of three men. They found that two of the men were trying to take a third, who was engaged to his home. They arrested the drunken man. He forfeited his deposit of \$8 and was allowed to show up in court this morning.

DEATHS NUMBER 24. The deaths in the city during the last week numbered 24. The causes of death were: Senility, four; carcinoma of stomach, three; pneumonia, two; broncho-pneumonia, two; nephritis, paralysis, convulsions, myocarditis, heart failure, the endocarditis, diphtheria, chronic chorea, acute pancreatitis, pterygium tumor, pulmonary embolism, tuberculosis, carcinoma, malignant growth of neck, one each.

billeted at the Boston Hotel. Being in charge of a Cook's tour guide the overseas folk saw everything that was interesting in systematic order. Speaking of their impressions within the precincts of the Vatican, the Saint John people were enthralled with the palatial grandeur of the stone and marble corridors, lofty ceilings, mural decorations by master painters of the ages, the picturesque Swiss Guards and the kindly dignity of the staff.

VISITS WAR SCENES. Leaving Rome the Cook's tour party disbanded. Father Lockary, Mr. and Mrs. McDonald and Mr. and Mrs. Donovan of West Saint John, kept together and proceeded to Paris, where they enjoyed the sights immensely under the guidance of the Woodstock priest, who as a guide in the First Brigade under Major-Gen. Hughes in the thickest of the late war, knew Paris pretty well.

RELATIVES IN IRELAND. In London the Saint John party made a thorough visitation of the chief historic places of interest. They crossed to Ireland and spent some time in Dublin, the guest of Mrs. McDonald's cousin, Prof. Hugh Ryan, who has the chair of chemistry in the famous university there. A visit was made to Blarney Castle and other renowned places on the Emerald Isle. It was at Queenstown that the party embarked on the Montclair for Saint John.

OTHER PLACES SEEN. Mrs. McDonald brightly recounted to The Times-Star today many of the interesting features of the trip from Boston, the stop-off at Madeira, where the famous coin divers surround the ship, and where on landing the visitor is drawn through the cobble streets on ox-drawn sleds to Algiers in Africa.

WILL GIVE TALKS TO RETAIL DRUGGISTS

Sir William S. Glyn-Jones Arrives in Saint John From England.

Sir William Samuel Glyn-Jones arrived here today from England on the C. P. S. liner Montclair, and intends giving an address on price maintenance to the retail drug trade in each of the Canadian cities.

Sir William S. Glyn-Jones commenced his business life in London, but has since become a barrister-at-law having been called to the Bar, Middle Temple, in 1903.

He has been secretary of the Pharmaceutical Society of Great Britain since 1918. He was the originator and has been secretary for 20 years of the Proprietary Articles Trade Association of Great Britain.

Public Positions. Sir William has held the following public positions: J. P. and an Alderman of Middlesex County Council, and General M. P. for Kenney. He was Parliamentary Private Secretary to the Minister of Munitions in 1916, and to the Minister of Reconstruction in 1917.

CARROLLS CLOSING HALIFAX SEASON

Company Goes to Pittsfield, Mass.—Saint John Date is Indefinite.

E. James Carroll left yesterday for Halifax, where tonight he will be present at the closing of an engagement which one of his companies has fulfilled there this winter.

Navigation On Saint John River Opens. Navigation on the Saint John River was inaugurated this morning when the Majestic left Indiantown for Freeport and the Hampton for Wickham.
