THE VICTORIA TIMES TWICE-A-WEEK. Issued Every Tuesday and Friday. PRICE, \$2 per annum, in advance. Single Copies, 5c.

The Best Advertising Medium IN BRITISH COLUMBIA. PRICES ON APPLICATION. Wm. Templeman, Manager.

NOTICE.

Haper, Raper & Co., Nanaimo, are no longer agents for the Times, and are not authorized to collect subscriptions therefor.

ADVERTISING KOOTENAY.

Kootenay is getting some good advertising in the English press. The letter from Captain Phillips-Wolley that recently appeared in the London Times has been supplemented by one from W. C. Prescott, who speaks of the mines as one familiar with them and well able to judge of their worth.

A LARKE IN AUSTRALIA.

Trade with Australia has not come up to the expectations which Canadian McKinleyites professed to entertain at the time when the new steamship line was started.

trip, but he would take some orders for canoes, paddles and fittings. Mr. Larke does find one commodity, which Canadians should buy in Australia, namely, wine, and it is to be supposed that the Canadian wine-makers will note this recommendation with interest.

ALL IMAGINARY.

The Colonist has every right to form an opinion for itself respecting Mr. Laurier. Nobody is likely to deny it that right, for there is not to be found one individual, Liberal or Conservative, who cares a straw what opinion of Mr. Laurier the Colonist may choose to entertain.

THE LABOR MARKET.

To the Editor: In last night's Times you say in your local that Messrs. Walkley, King & Casey have been wanting 50 men for several days for work at Beaver lake, and only three have been secured.

LIBERALS AND LAURIER.

To the Editor: I am surprised to learn from an editorial in the Colonist that the editor who manufactures literary "chew chow" for the Tory party.

DECOY JEWEL BOXES.

Means Employed by Ladies to Balk the Burglar. English women who possess jewelry to the value of thousands of pounds never place it in any box or safe, but hide it away in the most curious places only known to themselves.

London, Sept. 26.—The newspapers of London to-day profess to find in the proceedings of the Irish convention at Chicago much material for amusement.

The weekly statement of the Bank of England, issued to-day, shows the following changes as compared with the previous week: Total reserve, increased \$1,195,000; circulation, increased \$227,000; bullion, increased \$699,216; other securities, decreased \$454,000; public deposits, increased \$316,000; notes in circulation, increased \$1,204,000; government securities, increased \$33,000.

Berlin, Sept. 26.—Mr. Charles De Kay, the United States Consul General at Berlin, has denied the interview published in United States newspapers last month, by which he was made to say that he had made a report to the state department at Washington upon the case of Louis Stern, of New York, who in July last was sentenced to imprisonment and fine for insulting Baron Plunzenberg.

VESEVIUS IS GROWING.

The Volcano is 150 Feet Higher Than It Was a Few Months Ago. Recent dispatches telling of the streams of lava at Vesuvius will cause no surprise to any one who has visited the volcano within the last three months.

can do the same, and thus every person can be possessed of the TIMES' GOLD FOUNTAIN PEN.

Every two should have one; farmers, ranchers, teachers, merchants, clerks, and travellers. The ink is always there; you carry it in your vest pocket and have it always at hand to write when wanted.

plies, had a rounded top, but now it comes to a wedge point. A year ago visitors looked into the hollow of the old and somewhat cooled-off crater. Of late they have gone inside the boundaries of the old crater to get a good look at the new cone.

There was, indeed, a general belief that the renewed and growing activity of the volcano would lead to some sort of an eruption, but it was hoped that it would be nothing more serious than a flow of lava down over the old and hardened bed.

Going to the top of Vesuvius is no pleasure trip, especially on a warm summer day. The distance from Naples to the funicular railway station is 15 miles by the winding roadway, which, for a large part of the distance, goes through the dismal beds of lava.

One fine starlight night he disappeared, taking with him nearly everything that wasn't nailed down. He had made about every man in town a creditor, and when he went away the people betook themselves into outer darkness for a while and gnashed their teeth and wailed.

The wife and daughter were treated the same as the rest. They found themselves destitute. The hand in hand man form who had so long officiated as husband and father had left them not a dollar.

She called the family dog, a large creature with a penchant for human remains, and no man ever climbed a tree quicker than did the erring husband—Nebraska State Journal.

have writing material always at hand, for it takes up no more space in the pocket than an ordinary lead pencil.

This is the greatest inducement ever offered by any paper in British Columbia to the public. Instead of giving commissions to agents or paying the expenses of canvassers, we are giving the commission to you.

For \$4.00, therefore, we will send two Twice-a-Week Times, to different addresses in Canada or the United States (if to England \$1.00 must be added for postage, on each paper), and a GOLD FOUNTAIN PEN to any address named.

For this valiant service he exports one franc. The funicular railway up to the big cone was built many years ago. A popular song, "Funicula! Funicula!" well known in America, relates to this enterprise.

Just after coming down on the funicular a heavy thunder storm enveloped the mountain. A roar of wind was followed by torrents of falling water.

ENOCH UP A TREE.

A Nebraska Woman Who Has No Likelihood for Romantic Outcomes. A paper in Western Nebraska contains the outline of a story that should be slung into undying verse by a poet as good as the author of Enoch Arden.

One fine starlight night he disappeared, taking with him nearly everything that wasn't nailed down. He had made about every man in town a creditor, and when he went away the people betook themselves into outer darkness for a while and gnashed their teeth and wailed.

The wife and daughter were treated the same as the rest. They found themselves destitute. The hand in hand man form who had so long officiated as husband and father had left them not a dollar.

Copenhagen, Sept. 26.—Telegrams from Cansas report the arrival of the Czarewitch. He experienced a stormy voyage and his condition is much worse in consequence.

IRISHMEN IN AMERICA.

Great Convention of Patriots in the Windy City—Many Notabilities Present.

Number One is There, With O'Donovan Rossa and Other Leaders of the Fenians.

Chicago, Sept. 25.—The great convention of Irish societies was opened yesterday morning with a large representation of Irishmen from every part of the country. The convention will last three days. One general object is the organization of a united open organization for the furtherance of the Irish cause. Among those who have arrived are Jeremiah O'Donovan Rossa and P. J. P. Tynan, the latter of whom became celebrated in 1852 as the "Number One" having in charge the removal of government officials from the Fenian cause. It was reported that the Fenian cause was being conducted by the murder of Chief Secretary Cavendish and Under Secretary Burke in Phoenix Park, Dublin. So carefully was the name of this man kept from his fellow conspirators that even James Kelly, a leading member of the Fenian cause, knew him only as "Number One." Kelly, however, when he became an informer, made it necessary for Tynan to come to this country, and during the year following the murders, Tynan was, it is said, a member of the Fenian cause in London, Paris, and other parts of the world. He was picked to escort the queen to the opening of the new Royal Courts on the Strand. Rossa is well known for his dynamite campaigns. He was under a thirty-year sentence for his connection with the Fenian movement. He lately visited England, the result of his exile having expired.

The convention was held in the magnificent new Y. M. C. A. building on La Salle street, and started with the unique distinction of being the first assembly of the kind held in America in twenty years. Not to be linked with the idea of main reliance upon parliamentary agitation a return to what they termed first principles seemed to be the idea sweeping the delegates. "Compacts" and "treaties" with British statesmen through which the Fenian revolution has been held in check for a definite period, were very loudly condemned and Irish was the talk amongst those in attendance. Dwelling on this, no small portion of the delegates were inclined to discuss anew the possibility of disunion and other phases of the famous Fenian maxim, "England's peril is Ireland's opportunity."

The chief definite purpose of the convention, as far as could be gathered in the advance of the proceedings, was the formation of a new national organization to be made international if possible, and the taking of action of some sort in behalf of the Irish political prisoners still in British jails. The spacious Association hall, dedicated to "peace on earth, good will towards men," was the scene of the meeting, and a quite original appearance with its elaborate decorations of the stars and stripes, interwoven with the green and gold. The most conspicuous decoration was a full length portrait of Robert Emmett, the centenary of whose execution in Dublin may be said to have been the occasion for a demonstration. The convention was called to order by John J. O'Connell, of Chicago, who introduced as temporary chairman, ex-Congress man John F. Finerty, of Illinois.

The opening of the proceedings was formal, and was enthusiastically received. The formal opening of the convention was long delayed by the reading of telegrams from Irish sympathizers in all parts of the world and the delay was increased by the great care taken to prevent other than authorized delegates passing the address calling for prompt and efficient action on behalf of Ireland, and was frequently interrupted by the cheering of the enthusiastic delegates. No attempt was made to transact business at the opening session, and at the conclusion of Mr. Finerty's speech the convention adjourned for luncheon. Every seat in the hall was occupied. The delegates were seated by states, every state in the Union being represented, as also was Canada and Australia. One of the scenes was the welcome tendered O'Donovan Rossa when he walked down the aisle and took a seat among the New Yorkers. There was one lady delegate, Miss Fanny O'Grady, of Chicago. This, however, is not Miss O'Grady's first appearance at Irish conventions.

A feature of Chairman Finerty's address, which evoked an enthusiastic response, was the following reference to Cuba: "I am as good a citizen as any man, but I would welcome the sight of ten thousand armed Americans breaking the neutrality laws in behalf of Cuba, and the neutrality law with England in behalf of Ireland."

Mr. Finerty said the extinguishment of the nationality of Ireland by fraudulent means had placed the smaller country at the mercy of the larger. The act of union was passed by a sectarian assembly and had been used by all true and fervent Irishmen since the days of its birth. The various attempts of Irishmen to make the English government to listen to reason were recapitulated by the speaker, the first and only one that accomplished the desired result being, in his opinion, the Fenian movement. Where Isaac Butt, Charles Stewart Parnell and other leaders have failed the Fenian movement has succeeded. When the Fenian movement was killed, the ears of the English government were closed to reason. The speaker continued: "There are those who fear that we may do something here against the laws of the United States. Our loyalty to the United States is shown by the Stars and Stripes on our platform; but our loyalty is a matter entirely independent of and separate from the neutrality laws. When has England paid any attention to neutrality laws? Certainly in Canada, her very presence is a standing memorial of her breach of the neutrality laws. We aim to consolidate the Irish race in a sensible aggressive movement against the British empire wherever we can strike her. In the formation of plans for this work,

the eyes of the children of Ireland are upon you in every part of the world." In conclusion, Mr. Finerty said: "We are here to proclaim to the world that the Irish race is by no means defeated or disheartened. There are more Irishmen to-day than there ever were before on the face of the earth. We'll circle England with a wall of fire which shall never be extinguished until Ireland is free."

After Secretary Sutton had read the call for the convention and the original circular, an Ohio delegate tried, unsuccessfully to have a stenographer engaged to report the meeting, but there were no funds for such a purpose. The secretary read the various telegrams of congratulation, each one bringing forth much applause. The only interruption, aside from the applause, was when a member of the Illinois delegation asked who signed one of the Dublin telegrams. "Never mind who signed it," answered the secretary. "The men who signed these telegrams don't intend to have themselves given away and their names made known."

GOSSIP FROM THE FAR EAST. Catholics Get Indemnity—Mr. Denby's False Position—Rioters Convicted.

Shanghai, Sept. 26.—It is reported that China has rejected the demand of Britain for the banishment of the ex-viceroy of Szechuan.

Yokohama, Sept. 12.—From Chengti it is reported that the amount of indemnity to be paid to the Roman Catholic missionaries for the damage done by the rioters in that province is to be something like 700,000 taels. Furthermore, that the work of reconstruction of the Roman Catholic church at Yungoh is already being commenced.

Through the Japanese legation at Peking it is learned that United States Minister Denby has been instructed by President Cleveland to institute an inquiry into the safety of American residents in China, preparatory to making demands upon the Chinese authorities for their permanent protection. A commission will be appointed, consisting of United States officers, and including attaches of the legation in Peking and Tokio. Mr. Denby is said to be deeply sensible of the false position in which he has placed himself by accepting a favor for his son from the Chinese government.

From the blame attaching to that error he cannot escape, but his friends protest against the excessive violence with which he is assailed by foreigners generally, who do not hesitate to charge him with misdeeds which he has not the power to commit, even if he were morally capable of them. It is urged on his behalf that the line of policy laid down for the guidance of American representatives in China makes it literally impossible for the minister to assume a "vigorous course of action on his own responsibility. These statements, however, do not emanate from Mr. Denby himself, who preserves strict silence respecting his personal affairs.

The latest advices from Foo Chow report that 126 suspected persons have been arrested; that twenty-six have been tried and twenty-three found guilty; and that thirty-one others are certain to be convicted. The assassin of Miss Hartford, the American missionary, has been captured. In spite of these apparently decisive measures, signs of disturbance are detected in other parts of the Fokien province, in which no steps have been taken for the preservation of order. The United States ship Petrel is on the way from Japan to Foo Chow.

Advices from Louhee state that a Swedish missionary was forcibly and with blows expelled from the city of Chrohsien, on the left bank of the Yangtse, sixty miles from Wuh. The natives have taken a solemn vow that no foreigners shall live here.

SPAIN'S FAMILY QUARREL. Is Not Progressing Altogether According to the Official Reports.

New York, Sept. 25.—President Palma recently received a letter from General Antonio Maceo, describing the victory which he and his brother General Jose Maceo achieved over the Spanish forces in the Pass Santa Maria. This afternoon President Palma received a long letter from General Carlos Loff, which describes a spirited engagement that took place near Los Pasitos, which is within hailing distance of Losvilas. The letter, which is dated Losvilas September 16th, says: "On the 16th I found myself in camp near the plantations of Pozo Azul, with forces under the command of Colonels Joaquin Castillo and Pedro Diaz, which included the celebrated 'Cayo Hess' infantry regiment under Jose Rafael Zogon. He told me that it would be comparatively easy to capture the forces of Don Fagnago by surprise. I placed under Zogon's command the cavalry with whom he attacked the Spanish fort. He was stoutly resisted, however, and had to retreat. I reinforced him with the 'Cayo Hess' regiment, led by Capt. Esguerra and Sierra, and later on by our entire troop of cavalry. We advanced, and after many spirited engagements lasting until the ninth, Pomares, who commanded the fort, interviewed me, and unconditionally surrendered. We left him his sword, but captured twenty of the civil guards with considerable stores, arms, ammunition and provisions. In the engagement we had six killed and twelve wounded. The Spanish loss was heavy in killed and wounded. On the 11th we made a junction with Gen. Sardin Sanchez at Los Pasitos, where we were engaged by the Spanish column which we repulsed. The enemy retreated and took his position in a strongly fortified house. We stormed the house repeatedly. We heard that reinforcements were coming; we met the reinforcements and at this date are keeping up a running fire. We are forcing the enemy to retreat along the road to Santa Spiritus."

President Palma anxiously awaits further news of the engagement. If the Cubans succeed in gaining a strong foothold in Santa Spiritus they will come into the possession of a strategic point of great advantage.

The column of Lieut. Col. Romero, consisting of infantry, cavalry and artillery, engaged the band of Saoriz, numbering 600 men, at Loma Cruz, in the province of Santa Clara. The artillery is said to have done good execution. The official report says that the insurgents lost two killed and 17 wounded.

DURRANT'S DEFENCE BEGUN.

The Task Commenced of Freeing Him From the Prosecution's Close Coils.

Insinuation Throws Out That the Parson is the Murderer of Blanche Lamont.

San Francisco, Sept. 25.—The case for the prosecution in the trial of Theodore Durrant for the murder of Blanche Lamont is closed. To-day was spent in putting the finishing touches upon the testimony against the accused. Witnesses were summoned who, while they furnished no additional links in the chain of circumstances against Durrant, were designed by the district attorney to strengthen the entire case by filling in the weak places. The testimony of all the witnesses to-day was brief. The chief point which the prosecution sought to establish to-day was that Durrant had said that the last time he had seen Miss Lamont was when he parted from her on the morning of April 3, she going to school, he to the Cooper medical college. In all his statements regarding the disappearance of Miss Lamont the defendant stuck to that declaration. That Durrant's story of his last meeting with Miss Lamont was to be questioned by the prosecution was evinced from the testimony elicited from Mrs. Vogel, Miss Lanigan, Miss Edwards and Miss Dorgan, all of whom stated that they saw Durrant with Miss Lamont on a Powell street car at 3 o'clock on the afternoon of her disappearance. The prosecution expects to score a strong point by demonstrating to the jury that the prisoner made false statements regarding his movements and association with the girl whom he is charged with having murdered. The district attorney is said to make use of the matter in his address to the jury and will use it as the basis of an argument the gist of which will be that these false statements were inspired by a sinister motive. If he had nothing to hide, it is argued, he would have told the truth about his last meeting with the girl. That was the reason for the evidence of Anthony and Vogel.

The first witness was Police Detective Anthony, who recounted the circumstances of Durrant's arrest in Contra Costa county. Durrant had said to him that the last time he saw Blanche Lamont was on the morning of April 3, when he rode on a car with her to school. Dr. Thomas Augustus Vogel, a member of Emanuel church and an intimate acquaintance of Durrant and Miss Lamont, said that on Sunday, April 7, he met Durrant at church. In conversation Durrant said to him that he had not seen Blanche since that morning, April 3, when they went together, as to the normal school, he to the Cooper medical college.

The testimony of the latter two witnesses was to contradict Durrant's present admission, through his attorneys, that he saw Blanche again on the afternoon of April 3, riding with her in a car as far as Market street from Powell. The defense now admits that much, though Durrant, when arrested, and prior to arrest, said he did not see her after parting at 9 in the morning. The defense now claims that Durrant left Blanche at the corner of Market street, where Emanuel church is located.

William Striding, a plumber, testified that on April 2 he saw Durrant going in Emanuel church. There was no escaping gas that day except a slight odor while he and his assistant were at work. He did not work at the chapel on April 3, the day the murder is supposed to have taken place, but was at the church on April 4, when he completed the work of putting in the gas savers. When he entered on April 4 no gas was escaping. No complaint of escaping gas was ever made to him by anyone, and he has never seen the small quantity escaping while he was adjusting the gas savers was hardly discernible. On April 4, when he returned to work, he noticed that the knob of the bellfy door had been broken off. He had been bothered, he said, by attorneys for the defense, who wanted him to go to their office to discuss the case, so he went to Detective Seymour yesterday to ask if he were obliged to go to the offices of defendant's attorneys. When he left the church on April 2 there was no escaping of gas. His testimony, both direct and on cross-examination, corroborated the evidence of Janitor Sademan about the absence of smell of gas in the church. He said there was no reason why gas should escape on April 3 unless some one opened the gas jet.

Harry Partridge, a student in Cooper medical college, and a classmate of Durrant, said that he knew Durrant and recalled a conversation with him outside the college after Blanche Lamont disappeared. Durrant had commented to witness on the fact that Blanche had disappeared, saying that she must have met with foul play or been enticed into a house of repute. Durrant had added that Blanche was an innocent sort of girl, and if anyone spoke to her she would respond. On a question by the district attorney as to whether Durrant had ever made any request of witnesses about roll call there was an objection by the defense, which was allowed by the court for the present.

Dr. C. E. Farnham, demonstrator in anatomy at Cooper medical college, said that wooden blocks were used in the dissecting room to elevate bodies. These were placed under the head, hips and legs of the subjects to be dissected.

Prof. Charles Sherstern, a violin teacher, had known Blanche Lamont two months, and had given her instructions on the violin. He was shown a copy of the Examiner in which were wrapped the three rings of Blanche Lamont sent to the latter's aunt, Mrs. Noble, after Blanche disappeared, and before the dead body was found. Sherstern was asked if he wrote his own name, which appeared in pencil on the margin of the newspaper inclosing the rings. Witness said he had not written his name there.

Allen Church, a former janitor of Emanuel church, said Durrant had a key which would unlock all the doors in the interior of the church. He had frequently seen him opening these various rooms.

The prosecution then rested and the defense asked a continuance until tomorrow.

Durrant's attorneys wish to ask a few questions of several witnesses who have already testified, and propose thereafter to proceed with the defense immediately. The opening statement of the defense is awaited with much interest. Owing to the refusal of the court to admit evidence of medical students of Cooper college relative to Durrant's attendance at the lecture on the afternoon of April 3, a number of witnesses summoned to testify were not called, and the prosecution therefore closed its case much earlier than it had planned.

The defense has now begun its case, Eugene Deuprey making the opening statement. His intimation that the murder was committed, not by Durrant, but by Rev. John George Gibson, pastor of Emanuel church, made in a significant allusion to the resemblance of the preacher's name written to the lettering on the paper enclosing Blanche Lamont's rings, created a marked sensation. The address of Deuprey began with definitions of the duties of jurors in capital cases. He attacked the newspapers for the articles written and published concerning Durrant, and warned the jury against improper deductions from circumstantial evidence. Deuprey then said: "The district attorney has produced a strong proof of circumstantial evidence, which at first would create strong suspicion of the guilt of defendant. We claim that beyond strong suspicion the prosecution has failed to go. We contend that with all the testimony produced, the only issues to be raised are those of police and coroner. Where did Blanche Lamont forfeit her life? When did she meet her death? Who caused her death? These questions have not been answered. A fourth question is the cause of death. It is not and cannot be answered. What was the motive of the accused to take the life of Blanche Lamont? You are entitled to know, and shall know, where Durrant was and what he did on April 3rd, from the time he arose in the morning until he went to bed at night. The district attorney promised that Durrant was not where he should have been on the afternoon of the third, namely at the lecture room at Cooper medical college. Where is the promisee's proof? No allusion to it has been made. The prosecution has called between 40 and 50 witnesses; of that number ten have given material evidence; three elderly ladies, three young ladies, a pawnbroker, a Victoria hotel porter, a police constable, and his colleagues have furnished the substantial testimony upon which the prosecution relies. We insist that the proper proof is wanting to connect the defendant with the murder. We will show that other men had access to Blanche Lamont's room."

Mrs. Matilda Durrant, mother of the prisoner, took the stand as the first witness for the defense. She testified that on the morning of April 3rd her son was dressed in a blue check suit, and the garment was put in as an exhibit. Mrs. Durrant stated that her son returned home that evening shortly after six o'clock, dressed in the same blue check suit. He wore no overcoat. When she kissed his mother good-bye and saluted her in the same manner when he returned at night. The family dined in the evening at 6. Witness said that Theodore had little appetite that evening, and took his mother to a street car, and when she returned at 11:30 he was in bed and asleep.

Police Sergeant Reynolds described the chisel marks on the bellfy door. He searched for a tool with which the marks might have been made and in the pastor's study found a chisel which fitted the marks exactly.

San Francisco, Cal. Sept. 26.—The district attorney and the police scoff at the attempt made by the defense in the Durrant case, to have a condition upon the return of a question, that no order will be issued for the clergyman's arrest. Rev. Gibson himself denies that he wrote the names on the newspaper, as charged by Attorney Deuprey. With marks Gibson had collected, which Durrant is known to have received a letter from Blanche Lamont the day after she disappeared. Mr. Dupey said he knew nothing about any such letter.

CONTEMPTUOUS INDIFFERENCE. Is the Thunderer's Feeling for the Irish Convention—Cable News.

London, Sept. 26.—The Times this morning comments on the Chicago Irish 26th as follows: "It appears to be the embodiment of an effort by Mr. Finerty and those behind him to muster as many Irish societies as they can beneath the banner of their presidential candidate. The performance will be regarded with contemptuous indifference in this country."

Silver ingots to a total weight of 35,000 ounces, which had been shipped by Virvian & Co., Swansea, to Sharp & Williams, London, were stolen from the van in which they were shipped while in transit from the Midland depot. No clue to the robbers has been obtained.

St. Petersburg, Sept. 26.—Threshings of wheat have been started in the district of the Caucasus, and below the average in northern, southern and southwestern parts of Russia, and in the Molga governments. In the other parts of the empire were inferior. The wheat is expected. Summer wheat has yielded above an average crop in the southwestern, northwestern, eastern and central governments and the Caucasus, and below an average in the black soil steppes districts and in the southern and central governments.

Delegates of French and Russian banks have gone to Shanghai on business connected with the establishment at that place of a Russo-Chinese bank. The bank capital will be \$4,000,000. The reports which have been published of a Franco-Russian loan for China are without foundation.

SESSION OR DISSOLUTION?

Report That Premier Bowell Will Resign, and So Remove the Dilemma.

Friday's Cabinet Meeting Will Tell the Tale—Grouard Will be a Judge.

Ottawa, Sept. 25.—It is reported here this afternoon that when Lord Aberdeen reaches Ottawa, Premier Bowell will resign. This would relieve the government of the responsibility of calling an extra session. The general elections would likely follow.

Once and Langevin are mentioned as probable ministers. Grouard is certain of his appointment to the Supreme Court bench. Another impression prevails that a session will be held at once, remedial legislation passed, and an appeal made to the people.

Hooper's father had an interview with Sir Charles H. Tupper to-day regarding his son's release or a new trial. There is little chance of his getting either.

Sir Julian Pauncefote comes to Ottawa next week to discuss the sealers award with the government.

END OF FOUR BAD MEN. They Will Dance in Space—The Chicago Beef Trust.

Fort Smith, Ark., Sept. 26.—Lucky Davis, Sam Simpson, Lewis Davis and Rufus Buck were sentenced in the U.S. court to-day to be hanged on Thursday, Oct. 31st. They are the Buck gang of outlaws who created a reign of terror in Creek nation during the latter part of July and first of August.

Washington, D. C., Sept. 26.—Attorney-General Harmon has decided to refer to the United States district attorney at Chicago the letter received by him from Secretary Morton in regard to the alleged beef trust. Mr. Harmon will ask the district attorney to give immediate attention to the matter, and to take such action as in his judgment the evidence submitted warrants as to a trust.

Rio de Janeiro, Sept. 26.—Senor Alfonso Penna has been appointed president of the bank of the Republic of Brazil.

Lima, Peru, Sept. 26.—The chamber of deputies has approved of a project that foreign insurance companies must, within six months, register the amount of their capital which is devoted to Peru, but the minimum must be 1,000,000 soles, of which 30 per cent. must be invested in Peruvian property or shares. The government is to appoint inspectors of policies and the auditors are subject to the Peruvian courts.

ditional small engagement to Canada was also reported. The failure of the Rock Island directors to increase the dividend for the regulation half of one per cent. quarterly, had an unfavorable effect upon the entire Granger group. The industrialists were sympathetically affected by strength in sugar on the further general advances reported to-day in the refined product. Furthermore a week tendency in the sterling exchange market had bearings on the dealings. An important item of news did not become public until after the close of business, consisting of a further advance of 50 cents per ton in Western wholesale anthracite coal. The stock market opened weak on a moderate volume of business. The bulls soon took hold and, under the leadership of the industrialists, the entire market improved.

GREELEY'S BONES FOUND. By the Peary Party—Halifax Insurance Company Closes.

St. Johns, Nfld., Sept. 26.—The Peary expedition left here by the steamer Sylvia this afternoon, bound for New York. One of the party admitted before leaving that a number of bones were found near Greeley's camp on Cape Sabine.

Sir Herbert Harley Murray, acting as relief commissioner during the recent distress in this colony, was sworn in as governor yesterday. It is not yet known when he leaves England to assume the duties of the position, but he will receive a warm welcome when he arrives. The appointment meets with the general approval of the people of the colony.

Halifax, N. S., Sept. 26.—A special meeting of the shareholders of the Nova Scotia Marine Insurance Company was held to-day, at which it was decided to discontinue the business of the company and close up the affairs of the company and discontinue business. During recent years the marine insurance business in Halifax has largely decreased.

B. C. MINERAL WEALTH. Another American Visitor Pays Tribute To Its Greatness.

Lake D. Wolford was in the city yesterday, having returned recently from the mining districts in British Columbia. To a Ledger reporter he said: "I spent most of the summer in the Trail Creek and Slocan mining districts. The best feature of the Trail Creek district is the large ore bodies, showing great strength in vein, with promise that they will go deeper in the earth. While the general average of ores in this district is low grade, much of it being low the cost of shipping and treating at this time, yet cheaper facilities in the future, for mining, shipping and treating the ores will bring large bodies, not now of sufficient grade, to profitable proportions. It can be said with safety that the Le Roi, Jodel, War Eagle, Iron Horse and Crown Point mines have already been developed enough to insure them as great mines with large producing capacity for years to come. Many other prospects, and half-developed mines, give as great promise of becoming producers as those already mentioned did when partially developed."

"Boundary Creek, some sixty miles to the west, is an immense mineral field, with ores of similar character to those of Trail Creek district, yet at the present time it is remote from railway communication, and its development will necessarily be slow. "Tad mountain, near the town of Nelson, some forty miles to the east of Trail creek district, has the oldest and perhaps the best mine in the entire British Columbia mineral field. Millions of ore are in sight ready for transportation and the smelter. This famous property is the Silver King. A smelter plant of 100 tons capacity is now under construction by the Silver King people.

"The Kaslo-Slocan district was discovered in the fall and winter of '92, I believe. This district has many high grade silver producing properties, and has already shipped to the American smelters millions of dollars worth of ore. Both the Canadian Pacific and Great Northern railways have branch roads in the Slocan mineral belt. The increased facilities for shipping have given a great stimulus to mining in that district. The output, according to the official customs returns of these several districts since January 1 has reached about \$1,500,000.

"The best assurance we have of the future of these mineral districts in British Columbia is the fact that in the short space of two or three years so many valuable properties have been developed, and have proved their value by shipping a vast tonnage of ore. It requires much ingenuity to advertise a camp, which does not prove itself by profits. The greatest advertisement is the simplest fact to prove merit is the official output, a vast tonnage, running into the millions. This incontrovertible proof is found in the rich mineral fields of British Columbia."—Tacoma Ledger.

TORONTO'S DEBENTURES. Defence in the Litigation Postponed for a Month.

Toronto, Sept. 26.—Following is a special cable to the Toronto Evening Telegram, dated Edinburgh: "The lawyers acting for the city of Toronto in the litigation instituted here by Paulin, Sorley and Martin over the sale of the 3-1/2 per cent. Toronto debentures, suddenly decided to-day to postpone for one month the filing of Toronto's defence to the action. It was impossible to obtain the slightest information concerning the nature of the defence, the lawyers declining to give any particulars for publication, and an application to Messrs. Paulin and Sorley met with similar refusals. City Treasurer Coady, of Toronto, is here.

Pen \$3.00, Templeman, A Tree, Who Has No Lik...

ALBERNI'S GOLD LEDGES.

Prospectors Busily Searching for New Veins of Auriferous Quartz.

Encouraging Assay Returns Received - The Pressing Need of Roads.

Alberni, Sept. 22.-In 1880 I paid a visit to Vancouver. It was then a scattering hamlet of some 400 persons. The townsite was covered with underbrush and trees, and gave little promise that it was destined within a few years to be the scene of one of the most gigantic "booms" in real estate the continent has ever known.

The existence of gold has long been known in this locality. As far back as 1873 Mr. Phillips, a San Francisco assayer, visited the benches of China creek, which have since been taken up for hydraulic purposes by Frank McQuillan and others.

Long before Mr. Richard's time, away back in the 40's, I think, Sir Rodrick Murchison, the greatest geologist of his day, published a paper in which he referred to Vancouver Island - its west coast - as one of the greatest gold producing countries of the future.

The geological action at present in Mineral Hill, which lies in a southerly direction, some 13 miles from the town of Alberni. The approach to it is steep and rugged. The chief mines so far known are located on the hills west of the town.

Another One to Connect the Rhine and Elbe - Japan in Formosa.

London, Sept. 25.-A dispatch to the Chronicle from Paris reports that the construction of a ship canal to connect the Rhine and the Elbe, at a cost of 200,000,000 marks.

A dispatch from Queenstown to-day to the Pall Mall Gazette reports that the crew of the Valkyrie III, which arrived on board the steamer Majesty, speak in terms of the way the excursion steamers and tugs hampered the yachts in the races for the America cup.

Toulon, Sept. 25.-Dispatches received from Madagascar state that all the provisions of the French expeditionary force, which were stored at Tanjanga, have been spoiled by high tides. It is also reported that the French soldiers stationed at Majanga are dying at the rate of 30 to 40 a day.

Constantinople, Sept. 25.-Advises received here from Haidida, in the Arab provinces of Yemen, report that 100 lives have been lost by a landslide which overwhelmed the village of Hudeya.

St. Petersburg, Sept. 25.-The Novos Venzia states that the Japanese captured Changsha and Tai Wan Fu from the Formosa rebels after severe fighting in the latter part of August.

Cable News. Amsterdam, Sept. 25.-A dispatch received here to-day from Batavia, Java, reports that a rebellion has broken out among the natives in the Portuguese portion of the island of Timor.

on the mountain (for ledge there is none), the deposit resembling a great quarry of queer-looking rock. The best I obtained was \$4, the lowest a trace, but McAllister, the discoverer, tells me that he has had an assay of \$480 to the ton. Knowing ones shake their heads, but it would be best to await developments before condemning or investing.

A circumstance that strikes the visitor favorably is the confidence the prospectors have in the ultimate success of the enterprise. Every man you meet carries his hope and expectation of happiness, here and hereafter, in his coat pocket or in his hand.

I was intensely amused last evening while sitting on the veranda of one of the hotels. A prospector, a little horse for wear from a tussle with John Barreton, was walking up and down the platform expatiating for the benefit of a crowd of listeners upon the value of a ledge which he claimed to have discovered.

The great want of the district is roads. Operations on China creek and in the Starlight district are paralyzed because roads and supplies cannot be packed in at noon to evening, and an opportunity to go in and do assessment work, but they cannot overcome the difficulties which the expenditure of \$1500 by the government would remove.

THE CANAL BUILDING CRAZE.

Another One to Connect the Rhine and Elbe - Japan in Formosa.

London, Sept. 25.-A dispatch to the Chronicle from Paris reports that the construction of a ship canal to connect the Rhine and the Elbe, at a cost of 200,000,000 marks.

THE COPYRIGHT QUESTION.

Canadian Legislation and the Dispute With the Imperial Authorities.

Difficulties in Solution of the Problem - Authors and Publishers.

(From our own Correspondent.) Ottawa, Sept. 16. The refusal of the British government to give its assent to the Canadian copyright act of 1889 until such time as it has been brought into harmony with the Imperial act in regard to copyright, and the recent references to this refusal by Sir Charles Hibbert, in his speech at the Chamberlain, by the directors of the Toronto Exhibition will have all awakened a question which has been one of conflict between the Canadian and British governments for the last six years.

The foundation of the Canadian copyright act is to be found in the act of 1875, which was passed by the Macdonald government in that year. At that time Dr. Tache, the late deputy minister of agriculture, visited England, and after various interviews with the authorities there, and considerable diplomatic correspondence on the subject after returning to Canada, this act was passed by the Dominion and received the royal assent.

In 1880 the Canadian copyright act, which is still unproclaimed, was passed by the Dominion government. It dealt with the subject of copyright on the broad ground that the subject was one which Canada could legislate upon with the utmost freedom.

Quebec, Sept. 25.-If Hon. Mr. Laurier is still alive, it is not the fault of some of his enemies, who, it is reported, tried to wreck the passenger train on the Quebec & Lake St. John line, between Chateaufort and Grand Discharge.

Montreal, Sept. 25.-The refiners in Montreal, following the lead of those in New York, have advanced the prices of granulated, 4 cents; reboilers, 3 to 3 1/2, according to quality.

Arthabaska Station, Que., Sept. 25.-It is reported that nearly 100 houses have been burned between Stanfield and St. Charles, and farmers at St. Mills not a single house is left.

River du Loup, Sept. 25.-Forest fires are raging in this vicinity, and extend for miles. Fourteen buildings were burned at St. Arsenne, and farmers at St. Epiphane and St. Modeste also suffered to a considerable extent.

Nicolet, Sept. 25.-Extensive bush fires are also raging in this locality. St. Leonard seven or eight houses were burned. St. Eulais reports a whole range burned and over 100 houses and about fifty families. At St. Sylvain thirty five farmers are ruined and their property all burned.

Gen. Sound, Sept. 25.-Samuel Edgar, aged 50, secretary of the Cement company, died suddenly to-day. He had typhoid fever, but was believed to be in no danger.

J. E. CHURCH ARRESTED. Charged With Pointing a Revolver at Cowper Bros.

J. E. Church, the proprietor of a mercantile agency, was arrested this afternoon on the complaint of Messrs. Cowper Bros., who charged him with having pointed a revolver at them. He was subsequently released on bail.

H. F. W. Behrens, who left for Europe last week, has abandoned his trip. His brother-in-law, who is intending to take a European health resort, having died in St. Louis.

of 12 1/2 per cent. If licensed. But no author would ever bother coming to Canada to collect this amount, which has been up to the present time collected and forwarded to him by the customs authorities. From the author's standpoint the penalty of printing, publishing, etc., should be altogether too high considering that they would have only a market of three million and a half English speaking readers and one million and a half French. At present publication in England carries Canada with it upon being registered here.

CASII CREDIT See the difference? Of course you do. That's just the way they appear to us too. Cash looks as big as a mountain while credit now belongs to the family butler. From our point of view, if you don't look at the matter just this way come to us and experience a joyful awakening.

RECEPTION TO WALLACE.

Local Orange Lodges Present an Address of Welcome to Their Chief.

Hon. Mr. Wallace Replies Referring to His Stand on the School Question.

Last evening members of the three Orange Lodges of the city, with their lady friends, assembled in the A. O. U. W. hall to give a reception to the Supreme Grand Master of the Orange Order for British North America, the Hon. N. C. Wallace, Comptroller of Customs.

When on the floor of parliament you were severely criticized for open and fearless utterances outside the house, we were proud of the able and manly defense you made, a defense which from its independence raised you high in the estimation of all loyal Canadians.

When on the floor of parliament you were severely criticized for open and fearless utterances outside the house, we were proud of the able and manly defense you made, a defense which from its independence raised you high in the estimation of all loyal Canadians.

ANOTHER GUN FATALITY.

Four Year Old Child Suffers for Some-one's Carelessness.

New Westminster, Sept. 25.-While cleaning out the woodshed yesterday afternoon, the eight year old son of Edward McAdam, of Chilliwack, found an old gun which had not been used for months.

SCOTTISH POETRY.

To the Editors: In reference to the beautiful Scottish poem entitled "The Master and the Poem," which you had printed in the Times of the 21st inst., and which was quoted as being "anonymous," I believe there is an error in its respect, as, if my memory serves me, the said Scottish poem or gem appeared in Wick, Scotland, as the production of the Rev. John Horne, who is a native of that town and a pastor of the Baptist church.

BOARD OF ALDERMEN.

The Mayor Refuses to Put Aid. Bragg's Motion Respecting Aid. Macmillan.

Lot of Other General Business Transacted at Last Evening's Meeting.

At last night's meeting of the board of aldermen there were present: Mayor Teague, in the chair, and Ald. Hall, Cameron, Macmillan, Williams, Bragg, Partridge, Humphreys and Wilson.

Before the minutes had been adopted Ald. Bragg moved for the reconsideration of the resolution of Ald. Macmillan providing for the purchase of coal for the year 1895-6, and that the tenders be opened for \$50, and that the tenders be opened before the council.

The mayor explained that the minutes could not be changed if they were a true record, and that the only way to reconsider the matter was to bring it up by order of the council.

Drake, Jackson & Helmecken wrote stating that they could not accept the settlement of the Bridges claim. The settlement of the Bridges claim for the year 1894-5 was \$488. He had besides been incapacitated for several months by light work for the rest of his life.

The letter was referred to the street committee and city barristers. The same firm wrote stating that the judge had in the assessment appeals, ordered the city to pay the appellants' costs.

Ordered. Boly again complained of an alleged nuisance at the Canada Paint Works, which he said was worse than ever.

Ald. Macmillan said as far as he could learn the company had made very laudable efforts to abate the nuisance. They had let a contract to an iron worker who guaranteed to remove the cause of complaint. A good deal was said about encouraging home industry and it was not well to persecute them. They did not have to make anything here. It was no doubt unpleasant to have paint works in the city.

Ald. Cameron thought the simplest way to deal with the matter is to order the company to abate the nuisance, and let them find out how to do it. He moved that the company be ordered to do so, and the motion was adopted.

M. Morrissey wrote complaining of Cedar Hill road being blocked by cattle. Referred to the pound committee. Mr. Wm. Armstrong waited upon the need of a sidewalk on the east side of Stanley avenue. Referred to the street committee.

The water commissioner recommended that the contractors be allowed to dump the earth they are excavating at the water works. Referred to the street committee.

The city engineer recommended that the water course on Lansdowne road be planked over. Estimated cost \$300. He recommended that box drains be put in on the road. Estimated cost, \$100. Referred to the street committee.

A petition was received regarding the blocking of Cedar Hill road by cattle. Referred to the pound committee.

The finance committee recommended that \$232.17 be paid out of the general fund to the Ojibwa at \$1.75 a pace; that the cost of printing the school trustees' voters' lists should be paid out of the school funds, and considered that at the next session of the legislature the municipal act should be amended so as to make the qualifications of voters for school trustees be the same as those for mayor. Adopted.

The street committee recommended that a foot sidewalk be laid on Belleville street, between McCulloch street and Biddell street, that the fences on the Douglas estate property be placed on the new street lines.

Ald. Humphreys explained that it would be necessary to fill in 100 feet, 6 to 8 feet deep. If possible, the easiest way to do this work would be to have the Government scows filled by the dredger, brought into the bay, and the mud carted on to the flats.

The report of the committee was adopted. Ald. Bragg rose to bring up the following motion which he had placed upon the bulletin board on Saturday: "That whereas Ald. Macmillan has made certain statements through the public press reflecting on the action of the electric lighting committee, which statements are not true, and reflect on the whole council: Be it therefore resolved that this council request Ald. Macmillan to retract the same."

Mayor Teague advised the aldermen not to put the motion. He thought that if Ald. Bragg considered the matter he would come to the conclusion that it could do no good.

Ald. Bragg—I have just come to the opposite conclusion. Ald. Macmillan said it might be as well for Ald. Bragg to explain what terrible thing would be done to him if the motion was passed and he declined to apologize. If it was passed he would take some action. He asked Ald. Bragg to explain what Ald. Macmillan said that was not true.

Ald. Bragg—The alderman said that the question of the coal purchase did not come before the council. Ald. Macmillan—I deny that I said that.

Ald. Bragg contended that Ald. Macmillan did say that, and he was not true, as the question had come before the council. The electric lighting committee did not take the same course regarding the coal purchase as the sewerage committee did regarding the pipe contract. The sewerage committee called for tenders for pipe.

Ald. Macmillan—That statement is false. The sewerage committee called for no tenders; the purchasing agent asked for bids for the pipe.

Ald. Bragg—The committee entered into a contract for the supply of pipe. Ald. Macmillan—The statement is false; no contract was entered into for the supply of pipe.

Ald. Bragg—Well, I don't know what you call a contract.

Ald. Humphrey did not think the council should be called upon to settle a dispute between two aldermen. Let them go outside and have it out. The fact was there had been too much lecturing.

Ald. Partridge thought Ald. Bragg would have shown his good sense had he treated Ald. Macmillan's statements with silent contempt.

MUNICIPAL HOUSE CLEANING

The Health Department Has Been Quietly at Work for Months Past.

Reports Showing the Amount of Practical Results Accomplished.

In the last eighteen months a remarkably large amount of sanitary work has been done in the city. It has extended over that period, but the greatest amount of work has really been done during the last six months. Sanitary Inspector Conlin, assisted by Constables Cameron and Kavanagh, has virtually conducted a house to house inquiry, and hundreds of nuisances have been abated.

The original orders for the work were given by Mayor Teague, and Dr. Duncan, medical health officer, and Sanitary Inspector Conlin has been given valuable assistance in it by City Engineer Wilmut and the street department. The employees of the latter have done an immense amount of clearing up, particularly at night. The work has been carried on in a systematic way, and wherever a connection was needed, a nuisance discovered, or filth in any form encountered, the law was carried out. It has involved the expenditure of a large amount of money on the part of ratepayers, but the city was never in a better sanitary condition than at present.

A particular interest was taken by Mr. Conlin in putting Chinatown in good order, the terrible pest holes that once existed there are no more, a large number of shacks that were a menace alike to health and safety were also destroyed. The following reports particularize on what has been done:

To His Worship the Mayor: Sept. 20, 1895. Sir—The following is a statement showing the number of nuisances that have been abated with the sewer discharging at Clover Point to date: Closets ..... 833 Sinks ..... 1109 Urinals ..... 290 Wash basins ..... 122

To His Worship the Mayor: Sept. 20, 1895. Sir—The following is a statement showing the number of nuisances that have been abated with the sewer discharging at Clover Point to date: Closets ..... 833 Sinks ..... 1109 Urinals ..... 290 Wash basins ..... 122

To His Worship the Mayor: Sept. 20, 1895. Sir—The following is a statement showing the number of nuisances that have been abated with the sewer discharging at Clover Point to date: Closets ..... 833 Sinks ..... 1109 Urinals ..... 290 Wash basins ..... 122

MUNICIPAL HOUSE CLEANING

The Health Department Has Been Quietly at Work for Months Past.

Reports Showing the Amount of Practical Results Accomplished.

In the last eighteen months a remarkably large amount of sanitary work has been done in the city. It has extended over that period, but the greatest amount of work has really been done during the last six months. Sanitary Inspector Conlin, assisted by Constables Cameron and Kavanagh, has virtually conducted a house to house inquiry, and hundreds of nuisances have been abated.

The original orders for the work were given by Mayor Teague, and Dr. Duncan, medical health officer, and Sanitary Inspector Conlin has been given valuable assistance in it by City Engineer Wilmut and the street department. The employees of the latter have done an immense amount of clearing up, particularly at night. The work has been carried on in a systematic way, and wherever a connection was needed, a nuisance discovered, or filth in any form encountered, the law was carried out. It has involved the expenditure of a large amount of money on the part of ratepayers, but the city was never in a better sanitary condition than at present.

A particular interest was taken by Mr. Conlin in putting Chinatown in good order, the terrible pest holes that once existed there are no more, a large number of shacks that were a menace alike to health and safety were also destroyed. The following reports particularize on what has been done:

To His Worship the Mayor: Sept. 20, 1895. Sir—The following is a statement showing the number of nuisances that have been abated with the sewer discharging at Clover Point to date: Closets ..... 833 Sinks ..... 1109 Urinals ..... 290 Wash basins ..... 122

ELECTRIC RAILWAY COMPANY.

General Meeting of the Shareholders of the Company Held Last Evening.

Prospect of the Bondholders Taking Over and Operating the Road.

A meeting of the shareholders of the Victoria Electric Railway & Lighting Company, Limited, was held last night on terms of notice, the purpose being to receive the directors' report and financial statements. Mr. Hedley Chapman, the president, occupied the chair. He read a private report of his management during the term of his office, and on motion by Mr. Clearhue, seconded by Mr. Dupont, a vote of thanks was tendered him for his conduct of the affairs of the company.

Mr. McKillop, as secretary of the board of directors, read the report of the directors, which gave a historical statement of the affairs of the company up to the date of the appointment of receivers, and also read several financial statements of the same date, showing the position of the company afterwards as receiver. He gave a brief and general statement of the company's position at 31st of August last, and on which a balance sheet was taken off. The report showed that the railway department was falling behind to a considerable amount annually, and that the lighting department was doing very well, but the net revenue from both was not enough to meet the heavy payments of interest on borrowed capital, and that there were outstanding liabilities of a large amount, and no funds to meet the same. Efforts were made to get a further allowance of money to meet those liabilities from the bondholders, but as there was no additional security to offer, and as the road was not paying interest on the present capital, it was not deemed advisable to lend more money. The assets were subject to a considerable depreciation, too, which seemed to point to the conclusion that any attempt to put more capital into the company was useless. After fully considering the statements submitted no one present was able to suggest a remedy and the meeting adjourned.

The prospects are that the bondholders will probably take hold of the road, under the trust deed, and so far as the city and the public are concerned, the chances are that the road will be put on a good shape ere long, and in any case the road will be kept running.

Mr. Chapman's report went to show that the road had been made in the operating

MURDER ON THE EMPRESS.

A Japanese Thief Decapitates a Chinese Cook While at Yokohama.

Spread of the Cholera in Japan Has Been Somewhat Checked.

The Empress of India arrived in port shortly before six o'clock this morning, several hours ahead of schedule time...

BELIEF IN THE SAVIOR.

Rev. K. W. Trotter Presents This as the Solution of the Social Problem.

The Course Pointed Out for Capital, Government and Labor to Travel In.

On Sunday the Rev. Ralph W. Trotter preached on "The Cross of Jesus and the Social Problem," from the texts of Acts 16:31, "Believe on the Lord Jesus, and thou shalt be saved;" and Luke 8:46, "Why call ye me Lord, Lord, and do not the things which I say?"

Belief in Christ is the only reasonable way of salvation that has been offered to man, and that man is a fool who refuses to follow the best he knows, even though he does not see the end of the beginning.

The simple fact is this: The men of wealth in our Christian churches are doing their social problems any day they choose, and simply becoming disciples of the Lord Jesus.

—Five sealers arrived home today. The first came before daylight this morning and the last at 2 o'clock this afternoon.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Kinging Powder ABSOLUTELY PURE

brothers, with God as a common Father, that they should be united in common interests. He taught that the selfishness which lay under human institutions was unnatural, outrageous, a violation of human law and the denial of God.

The foundations of society are hid with Christ, and the beginning of a new redemption of the earth is the application of Christianity to labor.

No bail will be granted at present in the Provost case, as Mr. Holmbeck has dropped the application. The matter was to have been brought before Mr. Justice Walker this morning but prisoners counsel advised the Attorney General's department that nothing further would be done at present.
