of shot 150 pounds. Theory and Fact.

People are very sure as to what their conduct would be in certain supposed cases. For instance: who knows a lady decks were too slender, being made chiefly who does not declare that if she were to of pine not properly braced; also of the awake and find a burglar in the room, she would lie silent and motionless, feign sleep, watch the man closely, and so duty, in not seeing that the hold was clear escape uninjured and be able to identify him next day? Who knows a man who does not inevitthe boat. ably remark, when the subject of fire in a

escape without injury or agitation?" who does not vow that on the appearance of an apparition, he or she would quietly walk up to it, touch it, and prove that it was nothing but a waving garment, a pumpkin lantern, or a shadow? All this sounds very fine; but, alas, when the lady does awake to find the

make her keep her seat, and so should

theory, on hearing the cry of fire in actual fact, either in lecture room or theatre, starts to his feet, either dragging his lady companion with him, or forgetting all about her, and rushes out at the door, roaring lustily for the engines, to learn of the wicked boy who gave the alarm

that "the fire is in the stove." And your brave ghost-seer, having hung his own night cap on a gas fixture, totters into the apartment of his dearest friend at nidnight, with the information that he has and a warning of approaching death in the ppearance of a spectre seven feet high, that he believes to be his great grand

We have gleaned some curious facts about the manufacture and cost of a real cashmere scarf or shawl. Mooki Shah is the best and greatest manufacturer of shawls in the city of Cashmere; but his cylic acid in six hundred parts of factory is a miserable, dirty building, the alcohol, heat the solution to boiling in work-room measuring about thirty by a shallow dish, and draw the plant sixty feet. He employs some forty men through it slowly; shake off any excess | and boys, of all ages, from six to fiftyarranged in twos and threes, at different ooms, each one having a loom to himself:

in looms in small pieces, according to the pattern, and then sewed together. The pattern is not put in colors and squares, like our patterns of worsted work for chair-backs, seats or slippers, but the directions are written. When the patterns are made, they are all sewed togethwood, with rolls of different shades of woollen thread, to be used in different parts of the pattern. It is astonishing to

children work these hand-looms, and understand their written directions. One shawl often takes fifteen men seven months to make, the workmen hardly ever receiving over four and three-fourth cents a day. None of the only two, or even three hundred dollar shawls come from Cashmere. Mooki Shah makes none that

earnestly put; got the response: 'It is France, for the Thibet goat was introduced all tobacco, sir; give up tobacco.' Gave into that country more than forty years it instantly and strictly up. Found, ago, and cashmere shawls are also imitated with considerable skill. There was a magniticent shawl made at this factory for Eugenie, while Empress of direction, and poured my sorrows into France. It had a white ground or centre, man's, whose name I will not mention." | Thirty men were kept steadily at work on An account was recently given to the it for nine months. That is, eight thouing of a bone, the first successful in- were bestowed on that one shawl. The

lieved in well informed official circles here. THE 19TH being the day on which it was believed that the world would come to an end, the six Pictou voters on the Dredge concluded that they had better be at home on Saturday, especially as there was an election contest in their county of There has been a large consumption the latter day.

> The Search for the "Jeannette." (New York Herald, Friday.)

Two important expeditions set out for the Arctic regions yesterday. On the Pacific the steamer Rodgers, recently purchased and refitted for the purpose, left San Francisco to endeavor to pursue, in the Arctic seas, the course of the explor. ing steamer Jeannette. She will go, as the Jeannette did, by way of Behring still further to make early sales difficult. Strait; will visit, if possible, the comparatively unknown world of Wrangell Land, and will exhaust the courage and ingenu this time of year, and though the prices ity of accomplished and capable officers in the hunt for cairns and other traces of the previous visits and adventures there of Captain DeLong and his comrades. Her further movements will be determined by the results of that hunt.

On the Atlantic the Alliance will pro ceed to the neighborhood of Spitzbergen, and will explore so much of the seas between that country and Greenland to the westward, and Franz Josef Land to the eastward, as the ice or other obstacles will On 12th inst-the Sunday next preced- permit. Her voyage is based upon the ing the date of the predicted storm, the theory that while the Rodgers may be ost severe tornado that has for many vainly pursuing in Behring sea and the years past visited the Western and South. | water to which it immediately opens a Western States, passed over the States of vessel which passed, more or less fortu-Iowa, Missouri, and Kansas, and even nately, through those seas many months Illinois, dealing out devastation on all since, that same vessel, having been carsides, and causing great destruction of life ried by the eastward drifts, may be comand property. Human beings, live stock, ing out on the Greenland coast or at Spitzresidences, farm houses, barns, and stables | bergen or Frant Josel Land, and may be were swept away; nothing appearing to sadly in need of assistance at one or the other of those points. That assistance th At Peoria, Ill., hailstones descended as Alliance will be prepared to render.

Alliance will be prepared to render.

It is now nearly two years since the the production of a natural mineral spring—a supply just received at the large as goose eggs, crashing through weather boards, plastering, and glass, and Jeannette left San Francisco. She sailed from that port on July 8, 1879. She was At DesMoines, Iowa, the Baptist church last seen on September 3 of that year. was struck and a large hole burnt through | On that occasion she was about fifty miles the roof, while the crops in the neighbor- south of Herald Island, was in motion, and steering due north, with the evident Near Rising Sun, Iowa, half a dozen intention of making the island or a point houses were blown away and several of near it on Wrangell Land.

of canvas. Emily Croyden was the girl I had left behind me, and with whom I had exchanged vows of love a long time ago. My three years salary would enable me to marry her now without humiliation to myself or her; and as I thought of the happiness in store, I wished the white sails were wings!

At last I was home. I stopped to make no inquiries. I would not trust another to give me news of Emily; I would go directly to herself. I was and assistants armed with a proper sure of finding her just as I had left | writ. her; for I knew there would be no change in Emily Croyden.

I felt a sudden chill as Joshua Penthroop met me at the door. He was Emily's step-father, and a man I had never liked. Always morose and sombre, he looked more so than ever now, as he greeted me with an air as icy as that of the region I had left. "Where is Emily?" I asked, starting

to brush past him in my eagerness. "Miss Croyden has been dead over a year," he answered, in cold, measured ones, and then closed the door in my

I tottered and would have fallen down the steps, but that my hand in-stinctively clutched the railing. Stunned and stupefied at the cruel tidings so cruelly communicated, I staggered along the street till an old friend met me and took me in his care. From him I learn ed that a year and a half before, the state of Emily Croyden's health being thought precarious, her step-father had taken her to travel for a change of air. Soon a telegram from Mr. Penthroop to his wife stated that Emily was dangerously ill, and another announcing

her death almost immediately followed. The blow was too much for the poor, mother, who sank under it; and Mr. Penthroop reached home barely in time to see to the proper execution of his wife's will before she died, leaving him the sole possessor of the little home and fortune to which she had succeeded by Emily's death.

place where everything recalled the MATTRESS, neat, light, cheap and comfortable. I could not endure to remain in a memory of blasted hopes. I wandered from place to place; but there is no such thing as flight from a rooted sorrow. Wherever I went the same dull pain lay heavy at my heart. I thought I would try occupation. I had formerly taken a deep interest in my profession, and in it I might still find partial distraction from my grief. Besides, my finances were running low, and I could no longer afford to be idle.

One day an advertisement attracted my attention. Doctor Durity, keeper of a private insane asylum, wanted an assistant and offered liberal terms. I applied for the place, and, after

some negociation, got it. It was not, by any means, a sinecure. Indeed, after the first few days, I had the care of the whole establishment, except the part assigned to "special cases," to which none had access but the doctor himself and an old female servant as ugly as Hecate and as silent as the grave. This portion of the building had no connection with the rest, and the grounds adjacent to it were inclosed by a separate wall through which the entrance was by a gate always kept se-

Dr. Durity had never invited me to visit this part of the establishmenthad never spoken of it, indeed; and I was too much occupied with my own duties to have much time to indulge in curiosity.

One day, however, during my hour of outdoor exercise, in passing the gate already mentioned, I noticed that the key was in the lock, a thing I had never observed before. I had never been forbidden to enter this part of the grounds, and saw no harm in stepping inside and taking a look around. The gate was unlocked, and pushing it open I passed in.

Before me was a wing of the main building, whose walls were pierced with tiers of barred windows from which the view was quite intercepted by the high surrounding wall. A gravel walk ran round the wing, along which I was sauntering slowly, when I heard something drop at my feet. Looking down, I saw a small gold ring, which I hasten-

ed to pick up. Judge of my suprise at recognizing the token of our engagement which I had given to Emily the day I bade her good-by! Whence now this souvenir of the dead past?

Repressing an outcry to which I had almost given vent in the violence of my excitement, I looked up quickly, and glancing rapidly along the rows of nar-row windows, behind the bars of one in the topmost tier, I saw a pale, worn face, at the sight of which I started as though it had been an apparition. The face was that of Emily Croyden!

I would have called out, but she placed her fingers on her lips and pointed toward the partly opened gate with a gesture I could not fail to understand. It meant that I should depart, keeping my own counsel till I had secured the means of her release. Making a sign to show my comprehension, I obeyed, softly closing the gate after me.-Emily's safety, perhaps her life, de-

pended on the present concealment of my discovery. The one glance I had ice—mountains of ice—islands of ice—
caught of her face dispelled any doubt as to her sanity. Her wicked stepstory of her death for his own selfish through the aid of an unscrupulous ac-No wonder they took me, a mere complice, who would stick at nothing

medical degree, belongs to the class who which she quickly pocketed after lockhave no right to be choosers, and must ing the gate, meanwhile eyeing me suspiciously. I pretended not to heed and

quite as cheerless, brought none of those to the asylum. I had been absent pleasant changes which elsewhere mark several hours, in fact, and when I went to the doctor's room ostensibly to make It was with a thrill of joy that I saw | my evening report, he was beginning a

> "Ah! indeed?" he replied, a little nervously, I thought. "There is a young lady imprisoned

The doctor's face turned livid.

"You speak insolently," he replied, with an effort at bravado; "I have no patients here save by lawful right.' "But the lady I speak of is not

"The lady you speak of probably thinks the same; most crazy people do." "Will you release her voluntarily and at once?" I demanded. His answer was a sneering smile.

My reply was a signal, which was quickly followed by a sheriff's officer "Will you conduct these gentlemen

to Miss Croyden's apartment," I asked or must they force their way?" The villian quailed in the presence of the law, and before many minutes I held Emily sobbing in my arms. Joshua Penthroop did not wait his

step-daughter's return, but vacated at once the home to which he had no valid right, and in which Emily and I have dwelt ever since our marriage. Dr. Durity, too, decamped to avoid an action for false imprisonment, leaving an agent to dispose of his establishment.

An Automatic Reed Organ.

"THE ORGUINETTE may now be called a celebrated instrument. In tone it is akin to the abinet Organ, but the organ must be n anjulated by an artist in order to produce music; the ORGUINETTE is on the other hand entirely mechanical in its action, and at trilling expense it can be made of furnish an unlimited supply of all kinds of music." - Toronto Globe.

"THE ORGUINETTE is indeed a musical wonder. It is a miniature reed organ, with as strong and melodious a tone as the Cabinet Size. It surpasses the Cabinet Organ, for the reason that the moramus in music can play it as well as the most accomplished professor. This ORGUINETTE is rong and accurate in its mechanism, and consequently not liable to get out of order." - Montreal cartie.

Prourself by making money when a golden chance is offered, thereby always keeping poverty from your door. Those who always take advantage of the good chances for making money that are offered, generally become wealthy, while those who do not improve such chances remain in poverty. We want many men, women, boys and girls to work for us right in their own localities. The business will pay more than ten times ordinary wages. We furnish an expensive outflet.

Outfit sent free to those who wish to engage in the most pleasant and profitable buseness known. Everything new. Capital not required, We will furnish you everything. \$10 a day and upwards is easily made without staying away from home over night. No risk whatever. Many new workers wanted at one. Many are making fortunes at the business. Ladies make as much as men. And young boys and girls make great pay No one who is willing to work fails to make more money every day than ean be made in a week at any ordinary employment. Those who engage at once will find a short road to fortune.

DERBY CARDING MILL. Wilson's Carding at Derby is now in full opera-tion. All orders left at the Mill or at the store of Mr. M. M. Sargeant, Newcastle, will be promptly attended to, The subscriber would take this op-portunity to thank his friends and the public for past patronage, and would respectfully solicit a. continuance of the same.

ALBERT LIME. THE A. B. LIME AN CEMENT CO'Y

Best Quality Selected Lime By the Car Load at all STATIONS on the AL-BERT and INTERCOLONIAL RAILWAYS. This Lime differs from all other Brands in the market—having peculiar cement qualities, which hardens it like stone, and makes it imprevious to the action of water. It requires no cement to in-prove it, and is the CHEAPEST in the market for all purposes. prove it, and is the Cherk and prove it, and is the Cherk all purposes.

For Agricultural purposes it can be furnished by the car load in bulk, CHEAP, and is the best as well as the cheapest fertilizer known.

All orders should be addressed
