ST. JOHN STAR THURSDAY, AUGUST, 3, 1905.

Thursday, August 3rd.

WORK AT LOCH LOMOND IS AWAY BEHIND SCHEDULE.

Unless a Change Is Made at Once the Job Will
Not be Done This Year, Says Engineer
Barbour.

Engineer Barbour's report was read yesterday afternoon at the board of works meeting, but owing to the desire of the mayor, the report was not given to the public, but it was decided to treat the information given therein as secret and as desirable to be kept from the taxpayers' knowledge. As the report contained reflections on the executive ability of one or more of the contractors, it was not by several aldermen that the latter should have been allowed into the meeting and have been given a chance to answer in their own behalf.

The report, it is learned, summed up the situation as follows:

Work on No. 1 section is proceeding along well, and will probably be finished in the time limit.

No. 2 section, as far as the cuts and fills along the hillside are concerned, is quite satisfactory. The laying of the aqueduct should be three times as expeditious as it is, but with plenty of men it can be finished within, to all purposes, a satisfactory period of the expiry of the contract time. But that portion between Ellersley Brook and Lake Latimer, which should be finished by August 15th in order to drain Lake Latimer, will not now be finished by November 1st if the present rate of speed is maintained, and even if all possible appliances and an unlimited number of men were at once obtained and set to work, it will be prolonged until early in October.

No. 3 section has been delayed near Lake Latimer by the slowness in tunnelling, and will be further delayed by the fact that the lake will not be lowered by August 15th, as the contractors call for. The aqueduct, while of good quality so far as laid, should be placed down twice as fast as it is; one hundred feet a day should be laid, and not fifty as at present.

No. 4 section is delayed because the rock formation was found not as the borings indicated, but being farther below the surface than at first thought, an extra amount of concrete is necessary, and with present appliances Messrs. Mooney cannot hope to finish the dam before the winter sets in. This is very serious, as exposures during the winter months would work great havoc upon a half finished structure of this kind. Patent mixers of cement should be employed, in order that a sufficient quantity of cement could be prepared each day.

Speaking of the work done on Nos. 2, 3 and 4 sections, where the difficulties of the work occur, Eng. Barbour says the contractors have not shown a sufficiency of ability or experience in this kind of the work to cope with unexpected difficulties and states that their appliances are not numerous enough or on a large enough scale to suitably undertake a work of this magnitude. On No. 2 section he says there should be eight steam drills where there is only one, though the contractors state there are four at this point.

Eng. Barbour is not satisfied with the progress made in the tunnelling, and states that the trenches are not braced in the most economical and labor-saving manner. All these things tend to work delays.

The engineer pays a high tribute to the work already done by the contractors and declares all up to the highest quality. The whole trouble lies in the fact that the local men did not realize the size of the proposition they were up against; and when confronted with strange difficulties could not surmount them, as could firms

more experienced in this line of work. In regard to the difference between the actual geological features of the soil and those indicated by the borings, the engineer called attention to the clause stating that the city did not guarantee these to be even approximately correct, so that no claim for damages can be preferred by the contractors.

Mr. Barbour called attention to the clause giving the right to the city to demand that the contractors place a certain number of men on any particular section which the council felt was not being completed sufficiently fast, and in the event of refusal, the right to take the work out of the contractors' hands.

Some members of the council have gone so far as to say the city will have to finish part of the work of the aqueduct. The engineer has asked the council to notify the contractors that their work is not proceeding fast enough and for them to state in writing how much they will guarantee to do per day and to come before the board next Wednesday when he will be present and will say whether or not their guarantees are such that the work will be finished this fall.

If the contractors give a guarantee to send the work along fast enough to complete all in November, it is presumed no change will be made; but in case they cannot guarantee such rapid progress, it is open to the council to take action.

The first thing, says Mr. Barbour, is to get the work done. After that the question of reimbursing the contractors to any extent the city may see fit, can properly come up.

It was decided to send copies of the report to the contractors and ask them to state in writing what work they would guarantee on their various sections and appear before the board next Wednesday.

Geo. E. Day tendered to print 250 copies of Engineer Barbour's annual report at 75c per page of report and \$1.25 for the appendix—Accepted.

Tenders for excavation of Lowell street water main were read. Messrs. Crawford's tender of rock per lineal foot \$2.50 and earth per lineal foot 32 cents was accepted.

J. A. Wheaton surrendered his contract for work on Cranston avenue pipe line because of inability to perform the same owing to lack of capital. Only 170 feet out of a total of 300 feet has been laid. Over 400 feet of trench has been opened. Mr. Wheaton offers to do the work by day labor, he himself getting \$5 per day and allowing the city the use of his tools and steam drill.

The matter was left to the chairman. The director reported on the location of the 19 catch basins to be laid this season. The aldermen were each to apply for as many as they wished. Only four were asked for by the aldermen, and another trial will be made.

The chamberlain said the sewerage maintenance account is over-drawn. Ald. Baizer said that as one department sewerage had an expenditure of \$9,000 and the water \$90,000, the salaries of officials should not be divided evenly, but proportionately, in the ratio of 1 to 10. "Are we a common council," said he, "or a lunatic asylum?"

The construction of the basins was recommended, provided the money could be found. The question of bookkeeping will come up in the treasury board meeting.

PEOPLE IN THE PUBLIC EYE.

REV. ANNA H. SHAW, president of the National American Woman's Suffrage Association, who predicts that the day is close at hand when the destinies of the nation will be presided over by a woman.

ROBERT W. BROWN, prominent citizen of Louisville, Kentucky, who was elected by the Benevolent and Protective Order of Elks at their recent meeting in Buffalo to the highest post in their gift, that of grand exalted ruler.

IN ST. JOHN THAT PAPER IS THE STAR

DEATH OF J. E. PRICE.

General Superintendent of I. C. R. Passed Away Yesterday After Painful Illness Due to Overwork.

MONCTON, N. B., Aug. 2.—Though the event had been expected for some time, this community was deeply affected by the news of the death of J. E. Price, general superintendent of the Intercolonial railway, which occurred at 2:30 this afternoon, after two months' illness with diabetes. Mr. Price was a thorough railway man and during the snow blockade last winter, though in anything but robust health, remained at his post of duty day and night. His death was probably hastened by over-work and exposure at that time. Deceased leaves four brothers and five sisters. The brothers are: Claude W. I. C. R. dispatcher at Moncton; Dr. C. B. of Moncton; Morton of Sydney, and E. B. locomotive engineer at Campbellton. Sisters: Mrs. Lawrence, Petticoat; Mrs. Bray, Campbellton; Mrs. Seely, Moncton; Mrs. Daley, Sussex, and Mrs. Hanson, Bathurst. The funeral will take place Saturday afternoon.

Mr. Price was a son of W. W. Price, I. C. R. station master at Petticoat, and was born October 15th, 1854. He entered the service in July, 1867 as telegraph operator and assistant agent at Petticoat. In March, 1872, he was appointed telegraph operator at Moncton, and in August, 1873, train dispatcher at Moncton. In April, 1876, on the opening of the northern division he was appointed assistant superintendent of the Moncton and Campbellton district, and in March, 1879, on the reorganization of the staff became assistant train dispatcher at Campbellton. His record since that time is as follows: October, 1881, district superintendent at Campbellton; September, 1892, district superintendent, Halifax and St. John district; October 17, 1898, general superintendent at Moncton; November 9, 1901, superintendent Moncton and St. Flavia district; August 16, 1902, to date, general superintendent at Moncton.

COSTIGAN FAVORS BEST ROUTE.

OTTAWA, Aug. 2.—In connection with the deputation which visited Ottawa last week to ask the government to change the route of the national transcontinental railway so that it might run down St. John valley, John Costigan says that he was not present with the deputation to support the request. When he heard that the deputation was coming to Ottawa he wrote the first minister pointing out that as his constituency would be affected by any decision that might be reached he would like to be present when the deputation met the government in order to hear what arguments they had to advance in support of their request. He received a cordial invitation from Sir Wilfrid to be present at the discussion. Mr. Costigan states that he desires to leave the government entirely to the choice of the route. All that he wants is the shortest and best line.

M. J. Butler, the new deputy minister of railways and canals, assumed the duty of his position today. Tomorrow he leaves for the maritime provinces to inspect the route of a tour of inspection over the I. C. R.

HAMPTON AND CONSOLIDATION.

The Hampton school question came up before a meeting of the board of education in Fredericton yesterday afternoon. As stated in the Sun, the people of Hampton Station, fearing that they have made a mistake in refusing consolidation with Hampton Village, have prepared a largely signed petition to the board asking that steps be taken to secure the consolidation previously refused. Hampton Village now gets the superior grant, and is about to erect a new \$10,000 school.

This petition from Hampton Station was presented to the board yesterday and taken into consideration. It was decided, as a preliminary, to ask Dr. Inch to go to Hampton Station at once and endeavor to find out exactly what the feeling of the people is on the subject. Dr. Inch will also see the trustees of Hampton Village, who are about to erect the new school, and find out if the work can be delayed until something definite is decided about the plans of the Station people. This will be done at once.

ROYAL GAZETTE NOTICES.

FREDERICTON, Aug. 2.—Today's Royal Gazette contains notice of the assignment of R. Blair Taylor, carriage manufacturer, Sackville, to Albert age manufacturer, of Manxer A. Hageman, merchant, of Queensbury, York county, to Sheriff Sterling.

Sealed tenders are called for rebuilding the Harvey Hill bridge, Restigouche, with an embankment.

This afternoon Mr. McLellan, counsel for Harry McCatharine, applied to Mr. Bennett, also of Sackville, to be granted and bail was fixed at \$2,000, of which amount the accused gave his own recognizance in \$1,000 and Dugald McCatharine, sr., and Thomas Penny, \$500 each.

MORE RAIDS AT SPRUCE LAKE.

Officer Lawson of Fairville has made still another raid to Spruce Lake. He went in search of liquor, and found it, and for the third time seized a quantity of it in the place kept by Mrs. McConnell. It was in the same hole in the floor, and the officer will make another charge against the woman. There are now two charges against her, but on account of her health she has not yet appeared in court.

The officer also visited John MacFarlane's place, the Spruce Lake House, and it is said found there some liquor which he promptly confiscated. These cases are set down for hearing before Justice Mason on Friday.

August CLEARANCE Sale!

All summer Goods must be cleared up during this month!
Great reductions will be made on all lines of summer dress goods, cottons, Silks—children's dresses—ladies' shirt waist suits, &c., &c.

FIVE YEARS IN PRISON.

Young Man Admits Forgery and is Sent to the Penitentiary.

EDMUNDSTON, N. B., Aug. 2.—Albert Hebert, who escaped from the jail here just before the last sitting of the county court, and who was re-arrested on Sunday last, was this morning tried before Judge Carleton under the speedy trials act on the charge of forgery of a check. He pleaded guilty and was sentenced to imprisonment in Dorchester penitentiary with hard labor for five years. Sheriff Gagnon started for Dorchester with the prisoner on the noon train.

HAD A GOOD TIME.

Scholars of Murray Street Baptist Mission Traveled to Car Ride About the City.

The scholars of the Murray Street Baptist Mission enjoyed a very pleasant and unique picnic last evening. A special street car was chartered and the youngsters taken on board. The car left the corner of Murray and Main streets, proceeded down Main, up Mill and down Doctore street, to the city loop, out Douglas avenue as far as the bridge, returning to the foot of Portland and back to Murray street. The young people thoroughly enjoyed themselves on the car by singing and cheering. After reaching the Mission building they enjoyed a good programme. One of the very pleasing pieces on the programme was a solo by Daisy Oram. Her father, George Oram, singing the echo. Z. O. Wilson gave a pleasing solo, as well. Sports were indulged in, the potato race being won by Miss J. Carle. Hop race (for boys), Fred Oram; hop race (for girls), Effie Scott; wheelbarrow race, Capson and Logan; four-cornered race for girls was won by Misses Sinead and Anderson.

Refreshments were served. After singing "God be with you till we meet again," the pleasant time was brought to a close amid the cheers of the scholars for the success of the Mission and for the superintendents.

The picnic was under the management of A. J. Dearness and C. R. Wasson, superintendent and assistant.

MINSTRELS ARRIVE TODAY.

The Prince Rupert will bring the famous Georgia Minstrels that are to appear at the York Theatre for the first time this evening. The big street parade will start immediately on the arrival of the boat, taking the principal streets in the city. In the evening a big free concert will be given at 7 o'clock in front of the theatre. The advance sale of seats is large and crowded houses are expected.

REV. MR. PROSSER WILL STAY.

The congregation of the Waterloo street Free Baptist church held a business meeting last night. Rev. A. J. Prosser was invited by a very large favorable vote to remain another year, and he will probably accept. The annual report was read and adopted. It showed ten additional members, five by baptism and five from other Free Baptist churches. There was a loss of nine by death during the year. The church has raised \$32.61 for current expenses, \$189 for church debt and \$129 for missions, home and foreign; the Sunday school for a like purpose raised \$217.9. The societies in connection with the church showed good work done. The pastor in conclusion said that the congregation would hold their next meeting no longer as Free Baptists, but as a united Baptist body. The delegates chosen for the district meeting were P. L. Cosman, Thos. Robinson and Thos. Graham, with James Paterson, Mrs. J. Robinson and Mrs. H. I. Smith as substitutes.

VISIT OF REV. DR. JOSEPH McLEOD TO LONDON.

Letters received in this city from Dr. McLeod tell of that gentleman's doings during the past month.

On Sunday, July 16th, Dr. McLeod preached in the Cambden road church in London, and on the following Tuesday he addressed a congress in Exeter Hall on the Temperance Situation in Canada.

At this congress was organized the Baptist World's Alliance, of which great organization Rev. Dr. McLeod was elected vice-president for Canada. After his stay in London Dr. McLeod visited Paris, and is at present touring Scotland. He sails for home on August the 10th—Gleaner.

GIANT BAD BOY THRESHES FATHER.
Then Alfred Price, Jr., Six Feet Tall, Crawled Under the Bed to Hide From a Policeman.

NEW YORK, Aug. 2.—When Alfred Price, of No. 72 West 105th street, re-monstrated at the dinner table last evening with his fifteen-year-old son, Alfred, Jr., for his incorrigibility, the latter, who is more than six feet tall and of many proportions, jumped from his seat, attacked and beat his father, demolished the dining room service and furniture, and in the most profane terms threatened to set fire to the house, claiming that if a policeman attempted to stop him he would kill him.

Alfred, Sr., dodging the flying glassware and china, ran into the street and implored Policeman Phalen, whom he met, to subdue and arrest the boy. Phalen, who is as much larger than Alfred, Jr., as Alfred, Jr., is than Alfred, Sr., entered Price's home and, after a long search, found the erstwhile pugnacious youth hiding under a bed in his father's bedroom. Crying as if his heart would break, the modern Peck's Bad Boy begged Phalen not to arrest him, but Price, Sr., was stern, and Alfred, Jr., was marched off to the West 105th street station.

The boy's father entered a formal complaint against him, stating that he was wholly unmanageable and vicious. The elder Price urged that his son be placed where he could not wreck the furniture for many days to come. Thereupon Alfred, Jr., was remanded to the Society for the Prevention of Cruelty to Children.

When he heard the decree, Price's son burst into tears. "I'm no kid," he bawled. "I'm a big man and want to be sent to a man's place if I have to be sent anywhere. Children's society! That's the last straw for me."

Alfred will be arraigned this morning in the Children's Court, for although he looks to be twenty-four years old, he is in the eyes of the law a mere child of fifteen.

Mrs. Grimes—What a learned man Mr. Dever is! He talks interestingly on anything he knows, and he knows so many things.

Mrs. Styles—Him? you should hear my friend Skatters. He talks equally well of things he knows nothing about as of any others. He is what you really call a learned man.

BRITTLINESS OF GOLD.
It is a well known fact that the presence of very small quantities of foreign substances changes the qualities of metals and their alloys. Gold is no exception to the rule. Admixture with foreign substances often makes it brittle, while otherwise it is the most malleable among the metals. Even if alloyed with pure copper, gold shows these undesirable qualities, and such an alloy cannot be used for jewellery or for other industrial purposes. In 1888 the Paris Mint experimented in order to learn that other metals besides silver and copper could be responsible for a deterioration of gold. It was found that silver and copper are much less

Close Saturdays at 1 p. m. during July and August.

INGENUITY OF SENDING NEWS.

Many Notable Achievements Which Are Placed to the Credit of Old-Time Journalists.

Mr. James Heckscher, the representative of Reuters' agency, who has just retired from the gallery, sent to England the first news of the assassination of President Lincoln, by flinging a tin can containing his message on board the vessel as she was leaving the quay.

Many similar instances of ingenuity in transmitting news occur to memory, both by bygone times and in the present generation. While the late Mr. De Blowitz was a candidate for the position of Paris correspondent of the Times, vacated by Lawrence Oliphant's resignation, a telegram was received in Paris announcing that there had been a coup d'etat in Spain, and that the Prince of the Austrians had been proclaimed king, with the title of Alfonso XII, by Marshal Martinez Campos. The Spanish ambassador in Paris contradicted the story; but De Blowitz, suspecting the truth, managed to get an audience of the new king himself, who was staying with his mother in Paris.

The king gave him details of the coup d'etat. De Blowitz had it all in his mind next morning, and this smart stroke secured him the appointment which led to so many other coups during the years he held that office.

All the old time journalists had achievements to their credit in the matter of getting first news, and the story of how Archibald Forbes secured for the Daily News the narrative of the survivors of the emigrant ship Copcatric, which was burned on its way to New Zealand, is still remembered in Fleet street. The survivors numbered only three—Macdonald, the second mate, and two ordinary seamen—who had been adrift on a raft for weeks and had sustained life only by cannibalism. The men were sent home by the mail steamer Nymphe, and all Fleet street assembled at Plymouth to interview them on arrival.

But Forbes chartered a tug, waited for the news of the Nymphe, posted the Lizard Light, and went out in advance of all the other journalists, boarded the Nymphe, made a bargain with Macdonald, got the whole story, and left to the other pressmen the two seamen, who were so overcome by their privations that they were quite incoherent.

But there is no need to go back so far to find instances of this kind of enterprise. The only difficulty is that of selection. The Daily Mail has provided various specimens, both before and since its wonderful exclusives at the time of the fall of Pretoria, and on the occasion of its publishing the peace terms, cabled by prearrangement in terms of company promising when the authorities declined to allow any messages purporting to be about the termination of the war to be put on the cables.

The Daily Mail commenced very earnestly in its career. It had not long been in existence when the wreck of the P. and O. liner Aden, with its terrible loss of life occurred. One boat load of passengers survived, and after many days of suffering they were landed at Aden. How to get their story? Newspapers do not have correspondents at Aden. The Daily Mail called direct to the survivors, telling them the wires were open at its expense for them to cable their full experiences, and the next morning this journal was the only one in the kingdom which had one of the most thrilling sea stories ever related.

The present writer was able to secure for the Evening News the first news of the postponement of the coronation through the king's illness. He had business with a certain official on the morning after His Majesty's arrival in London, within a few days of the great event. He found that official in a state of extreme excitement, just about to make his way to Westminster Abbey to stop the rehearsals then proceeding. By a happy inspiration, which may not even now be disclosed, he was able to delay the official for a quarter of an hour while he got through to the Evening News, enabling that journal to get out first with the intelligence which conveyed dismay through the length and breadth of the empire.

It was in normal conditions disappear that the resourcefulness of the clever journalist gets its full play. When Coule, the Liverpool bank thief, was on trial at the Old Bailey a few years ago, a snowstorm broke down the telegraph and telephone wires and

completely isolated Liverpool, where the interest in the proceedings at the trial was enormous.

Yet one of the evening papers in Liverpool appeared the same afternoon with an excellent report of the day's evidence. How? The cable wires to New York were not broken down, and a thoughtful scribe had sent £100 or £200 in cabling the message from London to New York, whither it was telegraphed back to Liverpool. That journalist had probably remembered the precedent of the Peterhead Correspondent of an Aberdeen paper, confronted by a similar predicament of stagnated wires. The railway, too, was impassable, and he got his news to Aberdeen by cabling it to Norway, whence it came back to London, and to Aberdeen.

Some journalistic enterprise has overreached itself, as in the cases of abbreviated telegrams being amusingly misinterpreted. There is a historic case dating from the early eighties, when Mr. Gladstone referred to Mr. Parnell and his followers as "marching through rapine to the dismembering of the empire." On the same day that Gladstone spoke there was a big horse which was killed, and the words: Veracity, 1; Tyrone, 2; Lobster, 3.

Those items of news were cabled in abbreviated form all over the world, and a New Zealand subeditor did not quite grasp the hang of the intelligence, for the next day's New Zealand papers announced: "Mr. Gladstone in a speech yesterday in London, denounced Mr. Parnell as marching through rapine to the dismembering of the empire."—Answers.

MOULDERS' STRIKE MAY END TODAY.

SACKVILLE, N. B., Aug. 2.—A conference between the committee of the moulders on strike and the managers of the Enterprise Foundry was held this afternoon. It is understood that the moulders were offered an advance of ten per cent. until next November, but the men want a guarantee of a year's work. Another conference will be held tomorrow morning, when it is expected that an agreement will be arrived at.

BISHOP HARGRAVE DEAD.

NASHVILLE, Tenn., Aug. 3.—Bishop Hargrove, of the Methodist Episcopal church South, died at his home here shortly after midnight, aged 76 years, he had been in feeble health for a year past and seriously ill since Friday. Bishop Hargrove was elected president of Vanderbilt University, in 1888, and served in that position until last spring.

It was in one of our dry goods stores, and the man had the air of one who was used to shopping, said he to the astonished saleswoman: "Give me a yard of maroon colored flannel to match a baby's piece. Correcting himself hastily, he began again: 'I beg your pardon! I mean to suit a baby.'"

LAWYER'S LAWS.

The presence of lawyers in the Dominion parliament is easily evident in the fact that so many of the laws made are capable of half a dozen interpretations or distortions, and so are fruitful ground for law suits and appeals.

A notable instance of this is afforded by the anti-trading stamp bill, passed just before the close of the recent session. The ostensible purpose of the bill is to prevent the merchants from offering as an attraction to purchasers, stamps which, when a certain amount is accumulated, entitle the holder to some prize or reward, and so induce people to buy goods that they do not need or want for the sake of getting these premiums.

But the new law as framed will, if enforced, prevent much more than this trading stamp evil, if it can be so called, as will be seen from the following sections:

(a) The expression "trading stamps" includes, besides trading stamps commonly so-called, any form of cash receipt, receipt, coupon, premium ticket or other device, designed or intended to be given to the purchaser of goods by the vendor thereof, or his employee or agent, and to represent a discount on the price of such goods, or premium to the purchaser thereof, which is redeemable either

(1) by any person other than the vendor; or,

(2) by the vendor in cash or goods not his property, or not his exclusive property; or,

(3) by the vendor elsewhere than in the premises where such goods are purchased, or which does not show upon its face the place of its delivery and the merchantable value thereof, or is not redeemable at any time.

This clearly provides against the issuing of any premium coupons such as the manufacturers of soap, cigars, etc., often offer, against tickets carrying with them a cash discount used by some merchants, and may be used against newspapers which publish coupons that when clipped out and returned, together with a guess at a simple puzzle or proverb or something of that kind put in to arouse interest, give the sender a chance at a prize.

Probably all this was not intended by members of parliament who voted for the bill, but there is the written law, and all over the country are the lawyer friends of its framers ready for a consideration, to prove that you are violating it or to prove that you are not.

PEACE NEGOTIATIONS.

If Witte and the Czar are bluffing they are doing it well. If they are not bluffing they are doing it badly. At Portsmouth, N. H., in a few days will certainly end without accomplishing its object.

Japan has given it unmistakably to be understood that she will surrender no Russian territory she has seized, and no Russian territory she has seized, and that Russia must pay practically the whole cost of the war. The Czar emphatically declares that he will not cede a foot of Russian territory nor pay to Japan a cent of Russian cash. Clearly there is no common ground there for negotiation.

But it is hardly credible that having allowed matters to go this far his enemy will refuse to make peace if her enemy offers terms which her allies or neutrals consider fair. For Russia is clearly beaten more decisively if the war goes on. The payment of an indemnity to be made, and even the cessation of territory would not lower her prestige any more than the capture of Vladivostok or another defeat.

Manchuria, St. Petersburg dispatches offer the theory that the present government dare not risk increasing its unpopularity with the Russian people by accepting terms that admit defeat. But there can be no doubt that the Russian people want peace and that nothing would strengthen their hatred for the bureaucracy more than its refusal to accept it on fair conditions.

So the evidence favors the bluff theory. And though they are doing it well, a bluff is not very effective when your opponent knows your hand. Japan knows she has her enemy in her power and already has settled substantially the terms upon which Russia may purchase peace. If Russia is not suited with the terms the war will go on and next year the price will be raised. Unless the Russians are seized with the madness sent by the gods to precede destruction they may argue and parley and bluff for a time but having beaten the Japs down to the easiest conditions possible, they will accept them and be thankful they were no worse.

GET THE WORK DONE.

The contracts for the Loch Lomond extension provide for the completion of the work this fall.

The contractors provide that if the contractors are not advancing the work at a rate which will bring it to an end within the specified time the city may demand that more men and apparatus be employed and, in event of the contractors' refusal to comply, may take the work out of their hands.

Engineer Barbour, under whose supervision the work is being done, says

it is behind schedule time in several sections, and, unless extensive additions are made to the mechanical appliances and the number of laborers, the extension will not be completed this year.

For the city's protection from fire and for the preservation of the citizens' purses from the present demands of the fire insurance companies it is necessary that the work should be completed as soon as possible. It is the business of the mayor and the council to see that it is. If the present contractors will not provide the conditions necessary for the completion of the work within the specified time it will be a matter for regret, and the work should be completed. The interests of the whole city come before those of three or four private citizens, however estimable and deserving they may be.

THE PROCONSULS.

By Rudyard Kipling.

(Collins' Weekly)

"The foundations which Lord Milner has laid are firm and strong, and he may leave other men to build upon them, in the proud consciousness that but for the decision which he took six years ago there might now be ruins where a fair and stately building is slowly rising."—The London Times.

The overtaught sword returns the user.

His heart's desire at price of his heart's blood;

The clamor of the arrogant accuser wastes that one hour we needed to make good.

This was foretold of old at our outgoing;

This we accepted who have squandered, knowing

The strength and glory of our reputations.

At the day's need, as it were dross to guard

The tender and new-dedicated foundations.

Against the sea we fear—not man's award.

They that dig foundations deep, Fit for realms to rise upon,

Little honor do they reap

Of their own making, and raise

More than mountains gain

Statue till we reach the plain.

With no veil before their face,

Such as shrouds or sceptre lend,

Daily in the market-place,

Of one height to foe or friend,

They must chisel self to find

Ends unchallenged for mankind.

Through the night when blinkings rest

Sleepless they arise alone,

The unsleeping arch to test

And the o'er-trusted cornerstone

Gaiest the need they know that lies

Behind the centuries.

LOCAL NEWS.

Senator King says that between one hundred and one hundred and fifty tons of coal per day are being hauled over the Central railway, and that if there were cars enough twice as much coal would be taken out, as the road at present is not handling nearly all that is mined. This coal, he says, is being used altogether on the Fredericton-Charlton branch of the I. C. R., and is giving good satisfaction.

Mrs. (Capt.) Payne of the S. A. Evangelical Home, 36 St. James street, is endeavoring to give those under her care the pleasures of a day's outing, and is arranging to hold a picnic on Saturday at some spot near the city. As there are fifty inmates in the Home, thirty children and twenty adults, the task is no light one. Any assistance from friends in the way of food or money will be much appreciated.

The work of dredging out the ferry slips is progressing fairly well. On the east side the dredge has excavated to a depth of 12 feet at low water, and will proceed today to the Charlton side. The dredge works only at night after the ferry has stopped running. The remains of a sunken wharf on this side have yet to be removed, and a diver will have to go down for this purpose.

YOU NEED THE OTHER.

Ozone is a germ killer and a valuable remedy, but to get the best results from it you must have a tonic to take with it. "Solution of Ozone (the coupon kind)" is the purest and best form in which Ozone is sold. Every bottle of this remedy contains a coupon which entitles you to a package of "Celery King," the well known remedy, free.

In buying this solution you get about twice as much Ozone for your money as by buying other brands, in addition to getting a package of "Celery King" for nothing. You thus save money in two ways, besides getting Ozone in its purest and most concentrated form.

Ask your druggist for "Solution of Ozone (the coupon kind)," and if he does not keep it you can get it from the Public Drug Company, Bridgeburg, Ont., by writing for it.

The ladies of the Macabees of Saint John Hiv. No. 1, held their first annual picnic Saturday afternoon at Westfield, the summer residence of the lady commander, Mrs. Dr. Melvin. The guest of honor was the provincial commander, Mrs. Eliza A. Burrow, who gave a school of instruction and obligated five new members.

At the close of the afternoon session all had their photos taken and a delicious supper was served in the lawn. Lady Melvin and Lady Reid presided. The evening was spent in singing and games. Several visitors were entertained. All returned home well satisfied with their first outing. The next regular review will be held tomorrow at 8 p. m. in the Foresters' Hall, Charlotte street.

"But Clarence, dear," she cooed, after sipping up the bargain counter solitaire, "are you sure we can get along on your salary of \$3 a week?"

"Of course we can, Cordelia," answered the young financier. "I know a place where we can get twenty-one meals for \$2.50."

Exclusive Shoe Styles for Men.

\$2.25 TO \$3.00.

Experience has taught that the best of leather made into Men's Shoes that have style, comfort and wearing worth, can not be bought for a song. Cheap Shoes may possess quite as much "look" as the look is in the finish, the wear is in the Shoe, itself.

Our \$2.25 and \$3.00 Men's Shoes have a legitimate claim to being stylish and when we say that they "Fit," the word has a meaning.

They "Fit" all over and stay fit.

They please the eye of the smart dresser as well as his feelings. These new and exclusive lines are made in patent Leather—Patent and Ideal Kid-Calf and Enamel. Have Leather and Duck linings, and carry a general tone of style and comfort that meets the hearty approval of the good dresser.

J. F. Monahan & Co 106 King St. West End

ST. JOHN STAR, THURSDAY, AUGUST 3, 1905.

NEWS OF SPORT.

Local Oarsmen Uphold Carleton Four in Their Action at Sydney—Portlanders Have a Strong Line-up.

CAUTIC.

THE SYDNEY MIX-UP.
St. John oarsmen are well satisfied with the action of Harry Belyea in declining to allow the Carleton amateur four to row the second time in Sydney after having fairly won the race. Men who have followed boat racing for years are annoyed at the action of the officials as such a decision as their's is contrary to all rules and is evidence of gross ignorance on the part of the men who are supposed to know at least one end of a boat from the other.

The whole affair seems to have been badly managed and the next time Sydney asks the cities and towns of the province to come to her aid in providing amusement she will doubtless be reminded of the shabby treatment accorded the St. John four yesterday. Really the only charitable way to look at the matter is that the officials simply did not know what they were doing, were unfitted for the positions they filled and that the people of Sydney regret the matter as deeply as the people of St. John are disappointed.

In boat racing a crew may turn any buoy at their own peril. It is a frequent occurrence for a buoy to sink and in all cases of this kind the crew turn the nearest buoy. It is their misfortune and in no way entitles them to any prize on the back from the judges. The latest despatches from Sydney say that the regatta committee offered yesterday to the Carleton crew of St. John to put up an independent cup to the value of \$100 if they would only consent to try conclusions again with the North Stars. They would not entertain the proposal, claiming as they did that it was none of their business if the North Stars' buoy had been knocked out of place. It was the committee's duty to look after that. They went over the course, turned the buoy and finished ahead of their competitors. That was all there was to it.

BASEBALL.

The Portlanders are determined to take the second game of the series with the St. John, and will line up a strong team on Saturday. Frank George will be in the box for the north enders, and Rowdy is in good shape this season. The rest of the team will be: McLeod, c.; Friars, 1b.; Howard, 2b.; Dever, 3b.; Mahony, 4b.; Smith, 5b.; L. E. Malcolin, c. f.; and Britt, r. f.

The standing of the Society League is as follows:

National League.
At Chicago—Chicago, 3; Boston, 4 (11 innings).
At Cincinnati—Cincinnati, 4; Brooklyn, 7 (11 innings).
At St. Louis—Philadelphia, 4; St. Louis, 2.
At Pittsburgh—New York, 3; Pittsburgh, 2.

American League.
At Boston—First game: Boston, 4; St. Louis, 2. Second game: Boston, 4; St. Louis, 1.
At New York—New York, 4; Cleveland, 3.
At Washington—Washington, 2; Detroit, 1.
At Philadelphia—Philadelphia, 4; Chicago, 3.

At Holyoke—Holyoke, 3; New London, 11.

New England League.
At Fall River—Fall River, 2; Nashua, 0.
At Staverhill—Haverhill, 3; Lawrence, 1.

THE TURF.

GOOD RACING AT NASHUA.
NASHUA, N. H., Aug. 2.—Two of the three events which opened the August race meeting at the local track today required extra heats. Two favorites came up to expectations, Billy W. taking the 215 pace, and Goldie Dillard winning the slow pace.

Myth gave the experts a surprise in the 222 trot, by defeating Yates, the favorite. Summary:

215 Pace—Purse \$200.
Goldie Dillard won three straight heats and race. Time, 2:22 1-2, 2:18 1-4, 2:16 1-4.

Warren F. second; Miss Syracuse, third; Jessie W., Bee Line, Honesty, and Freak also started.

216 Pace—Purse \$300.
Billy W. won second, third and fourth heats and race. Time, 2:16 3-4, 2:15 1-4, 2:15 1-4.

Frank S. second, won first heat. Time, 2:21 1-4. Corona, third.

222 Trot—Purse \$200.
Myth won first, third and fourth heats and race. Time, 2:22 1-2, 2:20 1-4, 2:20 1-4.

Great Medium, second, won second heat. Time, 2:20 1-4. Karada, third. Yates, Marion, Con Axworthy, Lady Reserve and Peculiar also started.

READVILLE RACES.
READVILLE, Mass., Aug. 2.—The summer meeting at the New England breeders' track opened here today under conditions far from favorable for fast time. Shortly before the first heat a shower made the already heavy track very bad. The result was that the drivers were unable to go nearer to the pole than the middle of the course.

Despite this John M. paced his heats in 2:08 1-4, hard pressed by the Albany, N. Y., stallion Nervolo in each heat. The 215 trot resulted in a series of desperately contested heats, in which Jennie Scott from Hamilton, Ont., was finally successful. In the final heat she beat Grattan Bells by inches only. The New York entry, Lady Gail Hamilton, had the speed of the party in the 215 trot, losing the opening heat by breaking.

THE RIFLE.

The St. John Rifle Club held their annual cash prize match on the government range yesterday afternoon. A large number of the members were present. The afternoon did not prove very attractive for shooting owing to heavy showers of rain falling at intervals, and the marksmen whose luck it was to get caught in the rain when shooting had great difficulty in making their usual score. The following were the prize winners:

Class	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th

AUTOMOBILING.
NEW YORK TO MOUNT WASHINGTON.
BOSTON, Aug. 2.—Percy Pierce of Buffalo was today awarded the \$2,000 trophy by Chas. J. Glidden for the best showing in the recent automobile endurance test from New York to Mount Washington and return.

CHARITABLE.
Chairman Shonts, of the Isthmian Canal Commission, said of a famous engineer the other day:

"Like many another great man, he has a simple and childlike mind. A baby could take him in. He has the credulity of a woman."

Mr. Shonts smiled.

"The credulity of a woman," he said. "The credulity of a mother, a wife, a sweetheart—is there anything on earth to equal that rare and wonderful faith?"

"But to illustrate woman's credulity: A young man entered the drawing-room of the girl whom he was soon to marry.

"The girl came down to meet him with a large bundle."

"John flushed. Then he said in a low voice this morning going into a pawnbroker's with all large bundle."

"John flushed. Then he said in a low voice: 'Yes, that is true. I was taking the pawnbroker some of my old clothes. You see, he and his wife are rightfully hard up.'"

"Oh, John, forgive me!" exclaimed the young girl. "How truly you are!"

REV. W. W. RAINIE.
In St. Andrew's Hall Friday evening Rev. W. W. Rainie, who has been supplying St. Andrew's church pulpit for the past year, was presented with a handsome black and green marble clock and a silver chocolate pitcher. The presentation was made by W. S. Loggie, M. P., on behalf of the Sunday school teachers. Rev. Mr. Henderson spoke in an appreciative manner of the work done for the church by Mr. Rainie. The latter made a feeling reply.—Chatham Commercial.

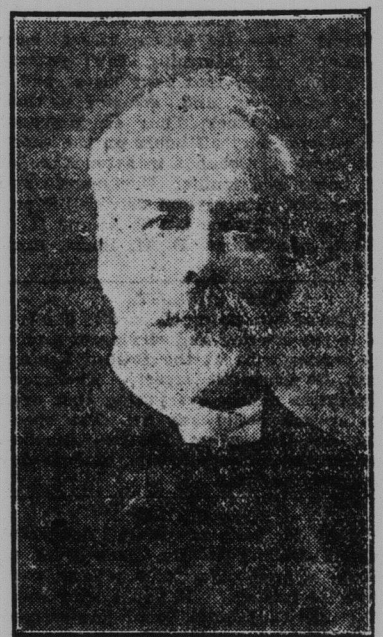

SCHOOL OF MISSIONS.

Splendid Addresses by Rev. J. W. McConnell and Dr. Carmen Last Evening—Programme for This Afternoon.

The School of Missions, gathered in Centenary church, held three good meetings yesterday.

The afternoon session opened at 3, with Rev. G. A. Ross of Woodstock in the chair. After the singing of a hymn and prayer by Rev. Dr. Carmen, Prof. Riddell conducted a Bible reading, taking up the Epistle to the Hebrews where they left off on the previous day. Verse by verse was discussed. In the course of this reading Prof. Riddell said there seemed to be among some people an idea that Christ was little better than an ordinary mortal. A lady in Edmonton had said to him that Jesus Christ was in her opinion as good a man as either Browning or Emerson. Prof. Riddell endeavored to show how clearly this First Epistle to the Hebrews proved the divinity of Christ.

At the close of the Bible reading, Dr. Carmen asked how any intelligent person in the Northwest or anywhere else could read these verses and then deny the Deity of Christ. The most charitable explanation he could give to

REV. JAMES HENDERSON.

such a statement as the Edmonton lady had made was that it was the result of a lamentable ignorance of the Scriptures.

The love feast came next on the programme. This was conducted by Rev. C. Comber, who at the opening went briefly into the history of this custom of holding love feasts.

At the evening session a large number of citizens were in attendance. The seats in the school room had been arranged so that they faced the pulpit in the end of the room which the speakers occupied, and all the vacant space was filled.

The first speaker was Rev. J. W. McConnell, R. A., pastor of the Central Methodist church of Moncton. Dealing with the subject of modern commerce in its relation to the missionary enterprise, he produced some startling figures, showing the wonderful strides which had been made in the commercial line during the last half century by the principal nations of the world.

and laid before his audience a vast array of facts relating to the world's commerce. Ultimately he showed how the growth of commerce was followed everywhere by the extension of the missionary work into new fields, the way having been laid open for the work by commerce.

The next speaker, Rev. Dr. Carmen, general superintendent of the Methodist church of Canada, dealt in a most able manner with the question of Christian Stewardship, and was followed with unusual interest by his audience. He explained that the promoters of commerce and those to whom wealth was given were really only given the handling of that which belonged to God, and hence they ought to feel their great responsibility to Him for the use they made of it.

Rev. James Henderson is of Scottish parentage, and was born at Aldrie, Scotland. He was brought up in the Presbyterian faith and educated at Glasgow, life came to Canada in 1880, and was ordained to the Methodist ministry in 1876. He was stationed successively at Sherbrooke, South Quebec, Huntingdon, Cookshire, Huntingdon and Montreal. Dr. Henderson's ability, not only in the pulpit, but in

A Gaslight Equal to 300 Candles.

THE CREMO INCANDESCENT GAS BURNER, built on a new scientific principle that gives intense incandescence, is equivalent to 300 candle power of light—nearly four times the power of any other burner, twelve times as strong as an ordinary gas jet, and twenty times as powerful as an incandescent electric light. Economical in consumption of gas. Can be adjusted to fixtures of every kind. Mantles and Jena Glassware.

Come in and ask to see the CREMO HYPER INCANDESCENT GAS LAMP. It will interest you both scientifically and practically. Oil Lamps of all kinds, Fancy Shades, Red and Fancy Chimneys, Burners, Wicks, etc.

The St. John Auer Light Co., Ltd., 19 Market Square.

the practical department of church organization, is shown by the result of his work since his admission to the ministry. He cleared off all debts from the churches of which he had charge and left them in good financial condition.

From Montreal Dr. Henderson went to Toronto on the call of the Carleton street church. While there such numbers came to hear him that at most of his services the church was filled to overflowing. In 1894 he was transferred to Sherbourne street church, Toronto, and the following year declined a call to Grace church, Winnipeg. He was appointed assistant secretary of the Methodist Missionary Society in 1896.

The programme for this afternoon and evening is as follows:

2:30 p. m.—Prayer service at Home and Abroad, Mrs. J. D. Chipman.

3:20 p. m.—Our Literature and Its Uses, Miss H. Stewart.

3:50 p. m.—Women's Work in China, Mrs. W. B. Coulthard.

4 p. m.—Prayer Behind the Missionary, Miss S. E. Smith.

4:30 p. m.—Address, Mrs. A. H. Eaton.

5 p. m.—Collection, notices, and closing.

8 p. m.—Hymn No. 655 (1-4), and prayer.

8:10 p. m.—Christian Stewardship, Dr. Carmen.

8:50 p. m.—Hymn No. 432.

9 p. m.—Notices and the dialogue.

9:10 p. m.—The Northwest, Prof. Riddell.

9:50 p. m.—Doxology and benediction.

THE PROPER PLACE.

"The late Judge Albion W. Tourgee, said a Chicagoan, 'was very fond of children, and innumerable were the stories of children that he had at his tongue's end.'"

"I dined with him in Bordeaux one night last fall, and with the coming of the coffee the talk turned to the little ones."

Judge Tourgee told a hundred children's anecdotes, but the one I best remember concerned a tiny relative of his.

"He said he found his relative, a little girl, in a sorrowful mood one day, and he said to her:

"What is the matter with little Mary?"

"Papa gave me a whacky-whacky," Mary replied.

"Bad papa! And where did he whacky-whack Mary?"

"On the back of my tum!" replied the little girl.

"WHEN WOMEN LOVE"

Some homely wisdom and a deal of common sense is expressed by the author of "When Women Love," the new heart interest melodrama to be seen here August 7th, at the Opera House, through his characters. The play is to some extent a problem play, but it is the problem of labor and capital that is considered. The play is by force of example in the action and the dialogue, a strong plea for labor unionism and the rights of the laboring man to organize, to gain the best price he can for his labor.
