FOREIGN POLICY AND FOREIGN OFFICERS.

Sir William Mulock has appointed a commissioner to find out whether the Grand Trunk manager is employing foreign engineers on the Grand Trunk Pacific railway.

While the minister of labor is making inquiries through his commissioner, others have prepared this partial list of imported engineers, who are working on the eastern section:

- G. A. Kyle, divisional engineer, residence, 1220 North Yorkville avenue, Tacoma, Washington, U. S.
G. M. Kyle (brother of G. A.) engineer, residence, 1220 North Yorkville avenue, Tacoma, Washington, U. S.

When Mr. Wainwright of the Grand Trunk was asked by the minister whether the statement about the foreign engineers was true, he did not even take the trouble to answer.

The government policy is the creation of General Manager Hays. He framed the policy in the interest of his own company, and by it makes a New England port the terminus of the new transcontinental system.

THE PERIL OF PORT ARTHUR.

Port Arthur is now effectively blockaded by sea and land. The fortress is situated within six miles of the extremity of the Liao Tung peninsula.

Port Arthur is pronounced impracticable, but as the Russian strategist at Saint Petersburg says, impracticability is a comparative term.

THE G. T. P. PORT.

The Grand Trunk Company, which will control the new road, has its main line in the United States; has magnificent equipment terminals at an American port; is American in its management; and is interested in the line the government is presenting it with.

The Bathurst Courier, of which O. Turgeon, M. P. for Gloucester, is the editor, expresses the hope that Attorney General Pugsley will fail in his appeal to the privy council against the diminution in the representation of New Brunswick.

THE ATTORNEY GENERAL'S CONFESSION.

It is no new experience for Attorney General Pugsley to have his statements, made personally or on behalf of the government, contradicted.

THE BAYONET.

In spite of all predictions to the contrary, the bayonet, in the hands of brave men, is still able to do effective work even against the small arm and machine gun fire of an entrenched enemy.

DR. SAUNDERS Talks of the Agony Which Followed Rev. Mr. Waring's Sermon

Rev. Mr. Waring has finished his sermon on the Messianic and Victor to reply to Dr. E. M. Saunders' epistles, from which a few extracts were recently made by the Sun. Dr. Saunders has the floor. While he does not say Mr. Waring that no one has ever driven him so frequently to his closet to pray for grace and patience as he still is not satisfied with Mr. Waring's orthodox. Dr. Saunders makes the following reference to Mr. Waring's sermon on the Messianic and Victor, to his present attitude in regard to the inspiration of the scriptures, and to his pastorate in Halifax.

When came the hour of agony in the denunciation, and what an hour it was. Never anything like it before in the history of the church and denomination. WHO IS MANZER? He is Much Talked of in East Somerville.

OTTAWA, May 27.—Mr. Emmerson, in his speech this morning answering the criticism that he had been inconsistent, pointed out that while in the railway committee he had advocated the extension of the Intercolonial to the west, he had submitted an alternative proposition—a government constructed and owned, but co-operated line, to the wheat fields, and when the government's policy was subsequently announced it agreed with his alternative proposition.

Mr. Emmerson referred to the success of the conservative candidate in St. John this spring. He pointed out that the result was attained owing to the fact that an individual member of this party had been elected to the Grand Trunk Pacific. In concluding, Mr. Emmerson said that he had not changed his views one whit. What they were last year so they are this year.

Mr. Emmerson concluded he was heartily cheered by the government. Bell of Pictou followed Mr. Emmerson in favor of Mr. Borden's amendment, after which the house divided.

At ten minutes past four o'clock Mr. Haggart moved another amendment. It was that the right of foreclosure of bonds guaranteed on the western division be retained by the government in spite of anything in the agreement.

HOME AGAIN. St. John Lady Returns After a Pleasant Trip to the Holy Land.

Miss Laura McLaughlin returned to the city yesterday from New York, where she had been spending a few days after her trip to the Holy Land and other places of interest on the Mediterranean. She said last night that it was a most pleasant voyage, and in the 72 days that the party were away from New York they managed to visit a large number of very interesting places.

It will be remembered that the object of the voyage was to attend the fifth world's Sunday school convention, held at Jerusalem on April 17, 18 and 19. A party consisting of 701 American and 52 Canadian delegates met at New York, together with a few others who intended taking the same tour, bringing the number to a little over 800.

After an experience of a year and a half, Mr. Lunn and his housekeeper dissolved partnership. The latter is said, his wife and daughter, to have been in the city for some time.

SEAMEN BURIED. Bodies of Those Who Died on the Turret Bay Interred on St. Paul's Island.

HALIFAX, N. S., May 27.—The government steamer Tyrant arrived at the wharf in Sydney today from St. Paul's Island, bringing up the nine survivors of the ill-fated steamer Turret Bay, that struck on Paddy's Rock on that island Thursday morning, and last from 20 to 30 minutes later sank to the bottom in forty fathoms of water, carrying with her Capt. Hayden and several of the officers and crew. The survivors tell a thrilling story of the loss of the steamer and fourteen of her crew. The five bodies recovered were buried Sunday on St. Paul's Island on a high bluff overlooking the scene of the wreck. They were laid to rest on one grave side by side, and a cross bearing the names of the victims erected to mark the resting place of the seamen who had perished in one of the worst marine disasters that has ever occurred in the St. Lawrence.

TORTURED BY ECZEMA. A Pitiabie Sight to See How These Little Girls Suffered—It Seemed Impossible to Relieve Them Until Dr. Chase's Ointment Was Used—A Perfect Cure. Young children seem especially liable to eczema. Not only is the suffering from the itching, burning skin intense, but there is always the danger of eczema becoming chronic, spreading over the entire body and lasting for years. There has never yet been discovered a preparation which is anything like as successful as Dr. Chase's Ointment in the cure of eczema. There are thousands of cases on record to prove this statement. Bathe the parts with tepid water and castile soap and apply Dr. Chase's Ointment night and morning, and the soothing, healing influence of this Ointment will bring relief quickly and soon make a thorough cure, leaving the skin soft, smooth and natural. MRS. E. ST. AMOUR, 293 Richelieu St., St. Onsgonde, N. B., writes: "For fifteen months I used Dr. Chase's Ointment for my two little girls, Angeline and Antoinette, who suffered dreadfully with eczema. Their hands were all covered with itching sores, and though we tried all sorts of salves and lotions it seemed impossible to get any relief. Then we heard of Dr. Chase's Ointment and began to use it. As the result of this treatment my two little girls were completely cured, and are happy to be free from this terrible ailment which caused them to cry for help. I do not believe there is a better Ointment than Dr. Chase's, for I have seen it tested in this case of my children. It was a pitiabie sight to see how they suffered, and the cure is perfect."
