BIG ADVANCE CONTINUES!

The German Army Compelled To Fall Back All Along The Line

In New Offensive Launched By General Manchin Over Front of Approximately Fifteen Miles and a Half From Oise To Aisne French in Bitter Fighting Carry Forward Their Line To Depth of Two and a Half Miles.

French Take Eight Thousand Prisoners and Capture Eight or Ten Villages — British Compel Enemy To Fall Back on Scarpe—Enemy Likely To Retreat Across the Aisne.

(By The Associated Press).

From Soissons to the Belgian border the German armies on various important sectors are being put to the test by the French and British. And it is a test that seemingly bodes ill for the Teutonic arms, for nowhere have they been able to sustain the shocks.

Northwest of Soissons, from the Aisne to the Oise, north of the Oise to the region around Roye, in the Arras sector and northward on the famous Lys salient the Germans everywhere have been compelled to fall back under the pressure of the French and British troops.

In a new offensive launched by the French General Manchin over a front approximately fifteen and a half miles, from Bailly on the Oise to the Aisne near Soissons the French in bitter fighting have carried forward their line to an average depth of two and a half miles and in the first phases of the battle had returned to French possession numerous enemy-held villages. In addition more than 8,000 Germans had been herded behind the line, prisoners.

British Also Advance.

At last report Mangin's men were still hard after the enemy, and unofficial accounts placed the French on various sectors well in advance of positions outlined in the French official communication.

Along the Scarpe River east of Arras Field Marshal Haig's forces also have kept up their harassing tactics against the enemy, who has been compelled to fall back eastward along the Scarpe River. The Germans resisted vigorously, but all to no purpose, and the British advanced their lines to the east of the village of Fampoux. Although Haig claims only a slight forward movement here, particular significance attaches to it by reason of the fact that the Germans have been driven back until they are virtually upon the old battle line as it stood in December, 1917.

Villages Captured.

Northward the Lys salient again has been narrowed down by the operations of the British, who, north of Merville, have taken the villages of Vierhoek and La Couronne and also reached the hamlet of L'Epinette. This gain represents a forward movement of about a mile and a half and places the British astride the road southeastward to Estaires.

Taken in all the new victories of the Allied troops are highly important ones. The advance of the French northwest of Soissons, taken in conjunction with the successful manoeuvres on the Lassigny sector and south of Roye, where Bourvaignes has been captured, seemingly means that the enemy forces from the Somme to the Oise soon must give up their positions and retreat eastward. Indeed it seems not improbable, now, that Noyon is well outflanked on the south and southeast and the German line is none too secure north of Soissons, that the enemy will be under the necessity of moving his troops northward from the Vesle toward, if not across the Aisne.

Enemy Fights Hard.

The Germans are still stubbornly contesting with the British points of vantage on the line south of the Somme near Chaulnes and north of Roye, which are still in German hands and which are the keystones to the enemy

defence line. With the capture of Bourvaignes by the French, however, Roye apparently is on the eve of falling, and with its fall doubtless the entire line northward to the Somme will give way.

The Germans in the Morville sector of the Lys salient everywhere are being closely followed by the British as they give up positions under attack and at last accounts they are showing no indication that an immediate halt is in their mind. On the Lys front, although the Germans are showing some resistance, they are not putting their wonted heart into their work. There has been little fighting along the Vesle River, where the Americans and French are facing the enemy.

LIEUT. FONK, FRENCH AIRMAN, GETS RECORD

Shoots Down Three German Airplanes in Twenty Seconds—Brings Down Sixty Airplanes.

Paris, Aug. 20.—Lieut. Rene Fonk, the famous French aviator who shot down three German airplanes on August 14, as announced officially Sunday, accounted for all three of them in the record-breaking time of twenty seconds.

Lieut. Rene Fonk, recognised as the greatest French air fighter since Captain Guynemer, is credited with bringing down sixty enemy airplanes. Of these he downed six in a day in the course of two patrols.

THE CANADIANS HAVE CAPTURED 10,000 TEUTONS

Hon. Martin Burrell Tells of Great and Valiant Work Army Has Done.

HOST OF SLACKERS BECOME OUTLAWS

Believes Many Miled By Others—Law Will Be Enforced After August 24.

Ottawa, Aug. 20.—The Hon. Martin Burrell, acting minister of militia, in a statement to The Canadian Press tonight, referred to the recent Canadian offensive and expressed in no uncertain tones the government's view in regard to the amnesty for deserters, which expires at the end of this week. "Since the first of August," said the minister, "the Canadians have marked their entry into the fifth year of the war by achievements which have confirmed the reputation of the Canadian Corps as the most formidable fighting force of its size on the western battle front. The recent advance made by our men has been important in its results and brilliance in its progress. In the past three weeks they have captured ten thousand prisoners, one hundred and fifty guns and thousands of machine guns. During this same brief period they have suffered 10,433 casualties in killed, wounded and missing; 130 officers and 1,474 men having been killed in action.

Their Own Story.

"No comment can be so strong as this simple statement of facts. The figures carry their own story, both of valor and grief. They are at once an evidence of the unshaken resolve of our countrymen to crush the foe of our common liberties and a challenge to ourselves. We dare not, and we will not fail to support them in their great task. Across the sea we have much cause for gratitude and pride. Within Canada itself we have reason also for praise. The call for an expeditionary force for Siberia, to assist Russia in the fight against her German foes, has evoked a keen response throughout the country. "Thousands of our young men have been enrolled during the last few months, most of whom, it is hoped, will become reinforcements for their fellow countrymen overseas. They have answered their country's call for duty, though such an answer in thousands of cases has meant heavy sacrifices for them and their friends.

Others Have Failed.

"I have to say with profound regret that there are thousands of others who have failed their country in their country's need; thousands of men who, having been notified to report for duty, have refused to obey the law and have thereby become criminals in the eyes of the law, dishonoring both themselves and their country. "During the past two months nothing has given me greater anxiety than this condition of affairs, a condition the continuation of which would be intolerable. Many of these men, resistant to all sense of manhood, honor, or duty, have deliberately constituted themselves outlaws. I am convinced, however, that thousands of them have been misled by people who have encouraged and persuaded them to disobey the law and who, through their fuller knowledge, are more guilty than those who are now deserters and who may not have realised the gravity of their offence.

Amnesty Until Saturday.

"This whole matter was thoroughly discussed by my colleagues and myself and the decision was reached by the government to grant an amnesty until August 24.

French Forces Advance Two and a Half Miles On Fifteen Mile Line

Paris, Aug. 20.—The French forces fighting east of the Oise on a front of about fifteen and a half miles have advanced to an average depth of about two and a half miles and captured numerous villages, according to the French official communication issued this evening. More than eight thousand prisoners have been taken.

South of Roye the town of Beuvraignes has been occupied by the French after bitter fighting.

The text of the communication follows:

"South of the Avre, we have captured Beuvraignes after a bitter struggle. In the course of our advance yesterday between the Matz and the Oise we took five hundred prisoners.

"East of the Oise our troops this morning attacked the German lines on a front of about twenty-five kilometres, from the region of Bailly as far as the Aisne.

"On our left we have reached the southern outskirts of the Ourscamp Forest and also the outskirts of Carlepont and Caignes.

"In the centre we captured Lombray and Blerancourde and gained a footing on the plateau north of Vassens.

"On our right the villages of Vezaponin, Tartiers, Cuisy-En-Almont, Oslly and Courtil have fallen into our hands.

"On all the fronts of attack we have advanced on an average to a depth of four kilometres. We have taken more than 8,000 prisoners.

"The number of prisoners taken since the 18th between the Oise and the Aisne is more than 10,000.

"Eastern Theatre—The artillery has been active and the accustomed reconnoitering has taken place. British aviators have bombed trains and convoys in the region of Serre."

Rapid Advance Is Made By Gen. Mangin's Men

Tenth Army Captures Nearly Three Thousand Prisoners Between Seven a.m. and Three p.m., Making Progress of Three Miles on Wide Front

With the French Army in France, Aug. 20.—(By The Associated Press.)

The operation begun this morning by General Mangin's troops between the Aisne and the Oise, southeast of Noyon and northwest of Soissons, looks this evening to be a splendid success. General Mangin has taken from the Germans at Cuts and Mont De Choisy, the last heights remaining south of the Oise in that region. London, Aug. 20.—The French Tenth Army, commanded by General Mangin, today captured 2,800 Germans between seven o'clock this morning and three p. m., according to the latest reports reaching London from the battlefield. General Mangin's forces advanced today three miles at the greatest depth of the front. The French troops captured the town of Cuts, two and a half miles northwest of Blerancourde.

FOUR HUN PRISONERS ESCAPE AT SACKVILLE

Three Are Recaptured At Amherst, But One Was Still At Liberty Last Night.

Special to The Standard. Sackville, Aug. 20.—Four German prisoners who have been working on the C. G. R. around at Sackville escaped from the barracks yesterday, but the dominion police who started in pursuit recaptured three near Amherst. One of the prisoners, the dominion police stated tonight, is still at large.

York Co., Me., Prosecutor Claims Minister Paid Attention To Pretty Young Canadian Girl and Also Her Sister—Hall Expected Arrest and Planned To Leave For Canada — Friends Declare He Is Innocent.

Wells Depot, Me., Aug. 20.—Rev. Henry H. Hall, since Jan. 1 pastor of the Union Baptist Church here, was arrested by Sheriff Haven A. Roberts yesterday on the charge of the murder of his wife, Mrs. Minnie Stevens Hall, on the night of June 11, at a bridge about three-quarters of a mile from the railroad station.

He was taken to the county jail at Alfred and was arraigned in court at Kennebunk today.

Mrs. Hall died in the Trull Hospital at Biddeford in the early morning of June 12, without regaining consciousness, from a fracture of the skull, which her husband said at the time she received when she fell from the bridge onto a pile of rocks in the stream below.

Looking at Fishes. Rev. Mr. Hall said at the time that he had been walking with his wife and they stopped on the bridge to look at some fishes in the water. She was taken with a fainting spell, fell in and received the injury which caused her death.

Suspicion has been directed at Rev. Mr. Hall since shortly after the funeral of his wife, which was held in Harrington her old home. When he returned to Wells Depot, he did not go in mourning and sported, among other gay clothes, a red vest.

Hall formerly preached in New Brunswick.

County Prosecutor Franklin L. Chesley says that investigations made by the authorities had gleaned the information that Ernest Matthews, a railroad man, who was passing on the Eastern Division tracks of the Boston & Maine Railroad nearby on the night Mrs. Hall met her death, had seen her lying in a patch of mud on the banks of the stream with Rev. Mr. Hall leaning over her. He said that Mrs. Hall was lying face down in the mud at the time.

THE BRITISH TAKE 2 MORE VILLAGES

In Sharp Fighting East of Arras, Along Scarpe River Haig's Men Advance Line Slightly To East of Fampoux—Vierhoek and La Couronne Captured.

London, Aug. 20.—East of Arras along the Scarpe River the British in sharp fighting have advanced their line slightly to the east of the village of Fampoux, while farther north, astride the Lys River, the British reached L'Epinette and north of Merville have captured the villages of Vierhoek and La Couronne according to Field Marshal Haig's communication to night.

The text of the statement follows: Local fighting has taken place today on both banks of the Scarpe River. South of the river, hostile attacks upon certain posts which our troops have succeeded in establishing east of the enemy's former front lines were repulsed. North of the Scarpe our line has been pressed forward a short distance east of Fampoux, after sharp fighting in which we secured a few prisoners.

In course of the day further ground has been gained by us astride the Lys. Our troops have gained L'Epinette and La Couronne. A raid attempted by the enemy early this morning north-east of Loere was repulsed.

Haig Advancing. With the British Army in France, Aug. 20.—(By The Associated Press.) Field Marshal Haig's forces continued to advance throughout the day in the Merville sector of the Lys salient. They are closely following the retiring Germans who, this afternoon, seem to have gone to an extreme depth of between three and four miles, and are still showing no inclination to come to a halt. Especially to the south of this sector the Germans have left behind them numerous lines of retarding wire entanglements.

The German guns appear to be far behind the infantry in the movement.

(Continued on page 2)

German Morale Weaker. South of the River Somme the enemy artillery has quieted down and the situation here for the moment seems to have become calm.

Every day some new document comes to light showing either a weakening of the morale in the German army or the anxiety of its leaders.

The latest is a step to make the soldiers cease whining when writing letters to friends and relatives at home as it is considered by the German commanders to be bad for home morale.

In a secret captured order issued by the commander of the Second German Army he states that a special examination of home-going mails discloses a disregard for the army postal regulations. Aside from disclosing the exact location of units many of the soldiers have told of "successes of the enemy." The destruction of trains by Stentente aircraft especially has been mentioned.

# GERMAN LINE AT SOISSONS AN AISNE IN DANGER

## ENEMY FORCES BETWEEN AISNE AND OISE ARE HURLED BACK

### Compelled To Abandon Line on a Ten Mile Front, French Penetrating German Positions to Depth of Two Miles—Enemy Likely To Retire From Soissons To the Chemin des Dames.

(By The Associated Press.)

German forces holding the vital sector of the battle-front between the Aisne and the Oise river have been hurled back over a ten mile front this morning by the French, according to reports reaching London. It is stated that the French have penetrated the enemy positions to a depth of two miles.

This attack, which is a continuation of the assault made northwest of Soissons on Sunday night, is said to endanger the whole German position at Soissons and the Aisne. It is added that the French success will probably be followed by a German retirement from Soissons to the Chemin Des Dames.

An advance of two miles in this sector would seem to place the Germans, both along the Aisne and before Noyon, in a serious position from which only an immediate retreat would appear to be possible.

Unofficial despatches also state that sufficient local successes have been achieved by the French from the Oise northward to well past Roye. The line, as it is traced in despatches, seems to be very close to the important town of Lassigny, for which the French have been fighting for the past week or more.

#### German Line Endangered.

London, Aug. 20—(1 p. m.)—The French tenth army attacked again this morning on a front of ten miles, between the Oise and the Aisne, and reached a maximum depth of two miles, according to a despatch from the battlefront.

The advance of the French troops endangers the whole German position at Soissons and on the river Aisne. It is possible that the Germans will now withdraw to the Chemin des Dames.

Before nine o'clock this morning the French had captured 500 Germans in the sector attacked.

North of Roye the French have taken the Braquevillers and Penda woods, and have occupied the greater part of Beuvraignes. It is also reported that they have made progress to the southeast of Beuvraignes.

The attack of the French yesterday between the Aisne and the Oise was on a front of twelve miles, and although the Germans offered a stubborn resistance, the French made an advance of about a mile. At six o'clock last evening the battle line ran as follows:—

La Frayin Farm, which is southeast of Praelarles, Arde-De-Canny, the western outskirts of Lassigny, La Rue Des Boucandes, the southern outskirts of Orval, Le Hamel, the southern outskirts of Drenlincourt and Pimpreux.

Though the advance was a small one, it is regarded as important, as it carried the French line farther down the slopes of Lassigny Massif.

The French also moved up the valley of the Oise, the line being between five and six miles from Noyon.

French Take Vassens. Paris, Aug. 20—French troops during last night occupied the village of Vassens, northwest of Morsain, between the Oise and the Aisne. There was reciprocal artillery fire in the region of Lassigny and Brestinourt, west of the Oise. A German aerial bombardment of Nancy was carried out. Six civilians were killed and a score injured.

Expect Austrian Attack. Washington, Aug. 20—Resumption of the Austrian offensive on the Italian front is to be expected at any time.

## SPLENDID LECTURE BEFORE CANADIAN CLUB YESTERDAY

Prof. H. F. Munro of Columbia University on "Freedom of the Sea" Delighted Large Audience.

Yesterday's lecture before the Canadian Club on the "Freedom of the Sea," delivered by Prof. Henry F. Munro, lecturer of the department of International Law at Columbia University, was characterized by those privileged to hear it as one of the best addresses ever delivered before a St. John audience.

The speaker said it was his personal opinion that peace could only be enforced by the navies of the world operating on the globe. In the past few centuries Great Britain had been the dominant power on the sea, and it was admitted by all that she had used her power justly. British rule of the seas had also resulted in the abolition of piracy and the slave trade and the charting of practically all the waters of the globe.

Prof. Munro said he believed that when President Wilson spoke of the "Freedom of the Sea," he meant complete freedom in times of peace with a three mile territorial limit. At the present time the laws which should govern the free use of the sea by all were being broken in three ways: By Germany in the sowing of mines, irregular use of the submarine, the sinking of hospital and relief ships, the sinking without warning of merchant vessels, the slaughter of non-combatants and the bombing of defenceless ports. The second way was by the imposition of war zone restrictions by all nations, and the third was by the violation of private property rights.

In closing the speaker paid a tribute to the work of the British Navy which, he said, had made it possible for the Allies to continue the present struggle and would make the victory which was bound to come possible. At the close of the address a vote of thanks was tendered the speaker by Judge H. O. McInerney, president of the club.

## THE CANADIANS HAVE TAKEN 10,000 PRISONERS

(Continued from page 1) August 24th. Its terms are well known, a full and certain pardon to those who failed to report and are desirous to return to their own homes, an equally full and certain punishment to those who fail to surrender themselves and to those who shoot deserters after that date. "Canadian soldiers both abroad and at home have an enviable record for discipline and for bravery. No large body of soldiers can, however, be entirely free from discipline breakers, and we have lately had to impose punishments of ten years penal servitude on a number of men who set their fellow soldiers an example of disobedience to military orders which, if followed, would stamp us as unfit to fight the Hun."

## Courts Martial.

"Courts martial have now been constituted in all military districts, the law will be rigorously enforced and the extreme penalty be imposed on those who fail to surrender. "It is gratifying to know that many of those men are now reporting for duty. It is equally gratifying to know that the press of all nationalities are doing the service to the state by warning those who have ignorantly transgressed and by advising them as to the course they should now pursue. "Since August, 1914, more than 40,000 Canadians have met their deaths and our laws and our institutions may be preserved. It would be well for those who hitherto disobeyed the laws of the country to realize those things now before it is too late, for it is the plain duty of those upon whom the people of Canada have placed the responsibility of governing to see that the burdens of war are equally borne and that duty will be discharged."

## MORE RECRUITS ARRIVING.

Sixty-three men from American centres reached the city yesterday. They are en route to Nova Scotia for their training camp. On Monday morning 150 mostly went from the city on the Digby steamer to Camp Scott Edward. The cooks and helpers at the barracks are kept busy of late, as these recruits, after their long journey, feel like eating.

## CENTRAL POWERS MAKE OFFER TERMS TO FRANCE OR ITALY

### Ludendorff, Sparring For Time, Will Not Be Ready To Make Even a Small Spectacular Show For a Couple of Months or Until the 1920 Class Is Ready and Peace Move Will Serve His Purposes Excellently.

Special cable to New York Tribune and St. John Standard. (By Arthur S. Draper.)

London, Aug. 20—Out of the conference at the German main headquarters may come a peace rather than a military drive. Ludendorff is sparring for time and he won't be ready to make even a small spectacular show for a couple of months or until the 1920 class is ready, and a peace drive will serve his purposes excellently. Before Hintze, Kuehlmann's successor as foreign secretary of state, started for this conference in company with the Kaiser and Hertling he told the Berlin correspondent of the Kolnische Zeitung that Germany was ready for any reasonable peace but that he did not consider Lloyd George's offer reasonable.

Young Emperor Karl, who wants peace in the worst way, is attending the conference and before he leaves it is likely he will have promised Germany help in the west in return for which the Kaiser and the militarists will agree to attempt another peace drive.

## MAINE MINISTER HELD FOR MURDER OF WIFE; WAS PREACHER IN N. B.

(Continued from page 1) The county prosecutor asserted evidence had been unearthed that Hall had paid attention to a pretty 18-year-old French-Canadian girl, Kate Gerow. He said that Hall had admitted to him that he had been attentive to Kate's sister, Grace Gerow, 21 years old. He admitted, according to Mr. Chesley, that he had paid Grace's tuition at a Portland business college and that he had visited her in Portland and told her that he would like to marry her.

Hall, according to the prosecutor, said that he was expecting to be arrested and that he had made preparations to leave Wells Depot. His intended destination was Canada, it is thought. Considerable gossip has been going the rounds concerning Mrs. Hall's death. Two factions have sprung up, one of them loudly asserting his guilt and the other, as loudly, his innocence.

Hall accepted the call to the pastorate of the First Baptist Church last August, coming from Princeton, near Calais.

Three weeks after his wife's death he was taken ill. He went to the Maine General Hospital, where an operation was performed upon him. He returned from the hospital last Monday. Last night his application that he be granted a vacation of two weeks was granted by the church. He was born in Harrington.

Mrs. W. W. Hatch, with whom the minister and his wife lived, tonight expressed implicit confidence in Hall. She said that his arrest is the result of town gossip based on malice because of Hall's vigorous sermons on gambling and vice. She said that the family life of the couple was very pleasant and that she had never heard them quarrel.

Girl with Black Eyes. Kate Gerow, whose flashing black eyes are her most prominent physical characteristic, emphatically denied tonight that Hall was infatuated with her or had ever kissed her. Her sister, Grace, also denied ever having anything more than a spiritual interest in the minister. Both are his strong champions and also offer the theory that malice and jealousy is at the bottom of his arrest.

The parishioners of the church defended the minister and last night cast a vote of confidence in him. According to many of the town residents, the gossip concerning Hall with his wife's death started over the fact that he did not accompany her to the hospital the night she received her injuries.

Lamont A. Stevens, ex-State Auditor, is one of Hall's staunchest defenders. He said that he does not believe the man capable of such a crime.

Hall, it was said, had never been ordained to the ministry, but began his career as a preacher at camp meetings. He was formerly a cook in the navy, resembling Abraham Lincoln in appearance. He has a sister, Miss Cora Hall, who lives in Boston.

Hall Had Been in Province. Waterville, Me., Aug. 20—Rev. Henry H. Hall's early home was in Harrington, Washington County, Me. He went into the province and did his first preaching and later had a pastorate in the Baptist Church at Princeton, Me.

His career has been somewhat interrupted as he has been in a hospital several times. His record shows nothing to indicate criminality. He is about 38 years old.

STREET BEGGARS. Citizens are being molested on Mill street lately by persons desiring money, apparently for "boose," as the slang breath of those holding peddlars up on the street corners bespeak of "wet goods."

## PTE. LESTER WADMAN KILLED IN ACTION

Was Son of H. G. Wadman of Moncton—Arthur London and Frank McKinnon Wounded.

Special to The Standard. Moncton, Aug. 20—H. G. Wadman received a telegram today from Ottawa informing him that his son, Pte. Lester Wadman, was killed in action in the recent big Canadian drive. Pte. Wadman left here with the dental corps in December, 1916. He was 19 years old in February last. After going overseas he went to France with the Infantry, being eager to get to the front. Previous to enlisting he was a clerk in Dr. E. O. Steeves' drug store.

A telegram from the director of records informs Mrs. Edith Morrell that her son, Pte. Arthur London of the Infantry, is officially reported wounded in France. He went overseas with the Westmorland and Kent battalion in September, 1916.

Pte. Frank McKinnon, son of Abalom McKinnon of Scotch Settlement, is also reported wounded a second time. He went over with the 26th Battalion.

## LORD BEAVERBROOK PRESENTS A SCHOOL

Special to The Standard. Newcastle, Aug. 19—The little hamlet of Beaverbrook, on the C. G. R., about nine miles north of Newcastle, and about the same distance from the mouth of the Bathurst Road on the Miramichi River, directly opposite Chatham, which was recently put on the map by the adoption of its name by Sir Max Aitken as his title for the House of Lords, is to have a new schoolhouse, of the latest and best model, thoroughly equipped and furnished, the gift of Lord Beaverbrook.

The village, with some fifteen children of school age but no schoolhouse, was only about half a dozen families, was in a "quandary as to its educational future, when the station agent, Mr. J. S. Boudreau, wrote a detailed account of the situation to Sir Max. The latter responded at once to the appeal and sent back word promptly to Mr. Boudreau that the district would be given a first class schoolhouse with all necessary appointments ready for the teacher to step in and go to work.

Another letter to Lord Beaverbrook's confidential legal representative, Mr. Allan A. Davidson of Newcastle, authorizes that gentleman to have the school erected and equipped.

Beaverbrook, though small at present, is well situated to become the centre of a thriving community.

WAR COMMENT.

The Allies again did good work yesterday, last night's cables from the western front telling of the capture by the French of a large number of villages and more than 8,000 prisoners.

The Hindenburg line, which is expected to be the scene of the first enemy stand, runs between Arras and Rheims by way of Harcourt.

It is interesting to note that some of the newspapers supporting the provincial government are showing a disposition to give credit to Premier Foster and Hon. J. Fletcher Tweeddale for securing for enlisted New Brunswick soldiers leave to go back to the farms and help with the harvest.

Speaking of war gardens it would be interesting if we could secure an approximate idea of the quantity of crops of various sorts raised in and about St. John this year.

TOBACCO AND WAR

(Boston Herald) Disciples of James I. and Father Trask, those that approve the resolution of Little Robert Reed, one of the choicest of nursery literature would stop the sending of tobacco to our soldiers in France on the ground that the weed is injurious to health, and will lessen their mental and physical activity.

WHAT OF THE FUTURE?

Students of imperial politics are commencing to wonder as to the place the Dominions will fill in Empire affairs in the future, and some predict that the old order will pass, that there will be self-government for Ireland, and even for India, and that practically all Empire business will be transacted by an Imperial Council in which all Dominions shall have a voice with the

**Tan, Red or Freckled Skin Is Easily Shed**

To free your summer-sunned skin of its mudiness, freckles, blotches or tan, the best thing to do is to free yourself of the skin itself. This is easily accomplished by the use of ordinary soap, which of course can be had at any drug-store. Free at night, as you use cold cream, washing it off in the morning. Immediately the offending surface skin begins to come off in fine powder-like particles. Gradually the entire outer layer of skin is absorbed, without the least harm or inconvenience. The second layer of skin now in evidence presents a spotless whiteness and sparkling beauty obtainable in no other way. One ounce of mercurocol was usually sufficient to completely renovate a bad complexion.

**AMOUNT ADVANCED TO POWER COMPANY BY CITY \$14,119.19**

Was Decided At Meeting of Common Council Yesterday—Commissioners To Meet Government in Support of Memorials Presented.

The common council yesterday afternoon authorized the payment to the New Brunswick Power Company the sum of \$14,119.19 as an advance from the city, this being the sum they said was necessary to pay the back wages due the men under the finding of the Conciliation Board. A letter was read from Premier Foster stating that a meeting of the government would be held here on September 4 and inviting the commissioners to appear in support of the memorial presented on their behalf. Messrs. Weldon and McLean wrote that W. Scully had placed a fence across the track on West Side and asked the city for advice how to proceed in the matter. A communication from the Teamsters' Union in regard to consignment in the traffic law was referred to the Commissioner of Safety. It was decided to issue 20 year 6 per cent bonds for the extension of the water service to East St. John and the tender for repairs to the West Side ferry floats was awarded to S. Herbert Mayes. Mayor Hayes presided and Commissioners McLeLan, Bullock, Hilyard and Fisher were present.

The committee of the whole recommended that the Fisheries Department be allowed to convey water from a spring on city property to the hatchery at Little River by digging a trench; and no action be taken in connection with the use of a part of Hazen street by the Phoenix Foundry. These were adopted. The matter of placing a man on a dump at the Marsh Bridge was referred back.

The Commissioner of Harbors, Fisheries and Public Lands recommended that leases be renewed as follows: Lot No. 24, Block D, Lancaster to James McInnes for 7 years from 1st May 1918 at \$10.50 per annum. Lot No. 25, Block D, Lancaster to Charles Mullin for 7 years from May 1st 1918 at \$10.50 per annum. Lot No. 27, Block D, Lancaster to Charles Mullin for 7 years from May 1st 1918 at \$10.50 per annum.

That the fee simple in lot A, adjoining lot No. 601 in Guys Ward be sold to Miles E. Agar for the sum of \$250, and that the deed be given him under the Common Seal. Adopted. A communication was read from Premier Foster stating that a meeting of the Government would be held in St. John on Wednesday, September 4, at which the memorials presented by the city in regard to the sharing of the fines collected under the Prohibition Act, and the retirement of the Police Magistrate would be considered, and requesting the members of the city council to appear at the meeting.

Commissioner McLeLan moved the communication be received and the mayor and commissioners attend the meeting. Carried. A letter claiming damages to the amount of \$3,000 for rock blasted away was received from Charles Sorrel estate. On motion of Commissioner McLeLan this was referred to the Commissioner of Public Works and the city solicitor.

A request from the Marine and Fisheries Department for renewal of the lease of land at Little River on which the hatchery is located was referred to the Commissioner of Water and Sewerage. A letter was read from the International Brotherhood of Teamsters asking for prompt action on their request for changes in the traffic laws.

Commissioner McLeLan said that a number of amendments were necessary to the traffic by-laws. Personally he thought no person should drive a team or auto unless he was licensed; as for promptness, he thought the commission government had always been prompt to act in any matter in the interest of the citizens. The communication was referred to the Commissioner of Safety.

**GAS IN THE STOMACH IS DANGEROUS**

Recommend Daily Use of Magnesia To Overcome Trouble Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because they disturb the delicate delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Blaudart Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Blaudart Magnesia (in powder or tablet form—never liquid or milk—is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

**A WHALE ASHORE AT CAPE TORMENTINE**

Countryside Turns Out To See the Mammal and Many Get Blubber.

Sackville, Aug. 20—The people of Cape Tormentine and vicinity seem to have become quite excited recently by the appearance of a whale on the shore near Cape Spear. A Cape correspondent writing the Post of the event says: "The animal came ashore at Cape Spear Saturday night, but few people heard about it until Monday morning. Then the news spread rapidly and practically the whole countryside turned out for a whale is an unusual sight on these shores. Although only a baby, measuring 17 feet, the whale was worth seeing. He was still warm when discovered on the incoming tide, and blood was flowing from a jagged cut in his throat. People living in the vicinity cut the blubber or fat from the body. The blubber was three inches thick below the skin, and the oil seemed very fine. It will probably be used in making soap.

CANADIAN PACIFIC STOCK ADVANCES FOUR POINTS. Other Transcontinentals Firm in a Day of Broad Trading. LIBERTY 3 1-2 BONDS AT NEW HIGH MARK. Indefinite Continuance of Tight Money Conditions Is Expected.

New York, Aug. 20.—Trading in stocks today hardened on a very slight increase of activity. The expansion was accompanied by a general strengthening of the list, although Shippings, Rails and a few specialties were again most conspicuous. Liberty 3 1-2's continued their upward progress to the new high quotation of 101.14, many other changing hands at or near that figure. Other Liberty issues were active, but without appreciable change.

Mercantile Marine Active. Next to United States Steel, which traversed its recent narrow course, ending at a trivial gain, Mercantile Marine preferred was most active, though yielding part of its 1 1-2 point advance. American Telephone registered another substantial recovery, its further rise preceding declaration of the regular dividend and Western Union also made up part of its loss. Gains elsewhere were confined to Equipments, Distillers, Industrial Alcohol and General Motors, the latter making an extreme jump of 4 1-4 at the close. Sales amounted to 190,000 shares. Domestic bonds were irregular and international featureless. Total sales par value, aggregated \$7,150,000. Old Registered 4's lost 1-4 per cent. on sales.

DEFaulTER KILLED. Subbury, Ont., Aug. 20.—Cyprian Genau, aged 26, supposed to be an M. S. A. defaulter, was shot and killed late on last Friday night during a round-up of military defaulters at a regular quarterly dividend with a 2 per cent rise. President Vail said after the meeting that negotiations with the government for compensation were not completed but there was a severe indication that the settlement would be fair to the company. Steel and equipment issues held their forenoon gains for the most part but the market again became dull. The market at the close was firm but otherwise without feature.

HARDWARE PRICES MOVING HIGHER. White Lead Up Fifty Cents a Hundred Pounds—Guns, Rifles and Ammunition Up. Toronto, Aug. 19.—Hardware and Metal," says: White lead in old advanced 50 cents per 100 pounds during the week. Lined oil prices, which are now at high levels, combined with a situation decidedly strong in the pig lead market, are contributing factors. These are expected to hold prices at levels now established at least, and the undertone can be termed decidedly firm. Lined oil supplies show some improvement, and an advance in the seed market over declines registered last week may stiffen and narrow the range. Difficulty in getting the seed is very apparent, and crushers are unable to get sufficient so that they can accumulate any appreciable surplus. Turpentine shows a weaker tendency locally. A 2 1/2 per cent. advance in American ammunition, guns and rifles has been found necessary to overcome question of exchange. An increase in some lines of baseballs has also been made, which will mean a retail value for official league balls of \$2 each. One large importer of sheets reports present stocks depleted to 10 per cent. of what is normally held on hand. Practically no sheets are rolling towards Canada, and the outlook is considered serious. A new basis of quoting rope is being established, and extras on the smaller sizes are being increased 1/2 cent all around.

New York, Aug. 20.—General Motors made a new high for the present move at 160, in the early afternoon and later went half a point higher. American Tel. and Tel. discounted the regular quarterly dividend with a 2 per cent rise. Steel and equipment issues held their forenoon gains for the most part but the market again became dull. The market at the close was firm but otherwise without feature.

MONTREAL MARKET. Steel of Canada Again Most Active Stock, Making New High on This Movement At 72 1-4. (McDougall and Cowans.) Montreal, Aug. 20.—The Montreal market broadened out considerably today. Steel Company of Canada was again the most active stock and made a new high on this movement, selling at 72 1/4. The trading was also heavy in Laurentide and it advanced over three points from the opening. Iron was active but has not acted very well considering the strength of Steel of Canada. There was some good buying in Montreal Power. C. P. R. was again strong in New York, and sold up to a new high at 162. It is reported that the buying of this stock has been by interests, who have been accumulating foreign bonds on the New York market. (McDougall and Cowans.)
