

THE people of any city become what they are and form their standards of right and wrong from the teachings of the Mother, the Teacher, and the Press.

# The London Advertiser

THE old newspaper definition of a good Journalist was a man with a nose for news, but The London Advertiser's requirement is a man with a passion for the truth.

57TH YEAR. NO. 23277

LONDON, ONTARIO, TUESDAY, MARCH 7, 1922.

FOURTEEN PAGES

PRICE, THREE CENTS

## COUNCIL ADOPTS NEW METHOD OF GOVERNMENT

City Fathers Pass Commission Bylaw by Ten Votes to One.

LENGTHY DISCUSSION

Heated Controversy Staged Regarding Proposed New Garbage Scheme.

What the council did:  
Ordered specifications for tenders for the garbage contract prepared by the city solicitor.  
Decided that the city engineer's department should tender for the collection of garbage.  
Referred back to No. 2 committee the proposed settlement of the William street sewer dispute.  
Approved of the cut in cost of Dundas street east sewer from 73c to 50c per foot.  
Decided to withdraw the appeal against the court of revision cuts in the Pipe Line road frontage charges for paving.  
Discussed Alderman Ashplant's motion instructing officials to levy school tax equitably. Mayor Wilson ruling that motion was new and must have notice, blocking a vote.  
Approved of the commission government bylaw.  
Approved of street cleaning, sweeping, oiling and garbage collection charges for 1921, to be collected with 1922 taxes.  
Instructed the solicitor to provide an amendment to the license bylaw, making it an offense for a juvenile to enter a poolroom.  
Approved of the tender of Orth's, Limited, for firemen's forms.  
Passed 168 bylaws, covering local improvements, paving, walks, curbs and gutters and sewers undertaken in 1921.

The city council on Monday night staged its longest session in some time, running within ten minutes of 11 o'clock, the official time for adjournment.  
Long drawn-out fights over the commission government bylaw, the annex tax resolution and the garbage specifications being the main causes of the prolonged gathering.  
It was a lively meeting, conducted for the most part in the best of spirit, though on a couple of occasions, Alderman H. B. Ashplant and Mayor Wilson got near the personal point.  
Alderman Ashplant staged what might be termed a lone battle against the commission government bylaw, putting up the only fight that has yet been made against its adoption, although it has been approved by all the boards interested, with the exception of the Board of Education.  
The alderman in attacking the measure went at it without gloves and almost exhausted a replenished store of sarcasm and adjectives in his effort to ridicule it.  
Mayor Wilson's come-back in defence was quite pointed and successful, the bylaw carrying ten to one.

When the specifications for the garbage tenders, sent on from No. 2 committee, were presented, Dr. Douglas moved that they be sent to the solicitor as suggestions in aiding him to draw up contract specifications, with the exception of the penalty clauses. The latter Dr. Douglas moved be struck out and the power vested in No. 2 committee to set penalties as violations were reported by the board of health officials who are to have supervision of the service.  
The majority ruled for penalties. Turn to Page 2, Column 1.

## SOUTH CAROLINA TOWNS DAMAGED

Augusta, Ga., March 7.—Langley and Warrenville, two towns, ten and twelve miles respectively from Augusta, in South Carolina, are reported to have been wiped out by a storm today. Several persons are said to have been killed at Langley. Telephone and telegraph communication with the towns is cut off.  
Warrenton, Ga., several miles from Augusta, up the Georgia Railroad, is also reported to have suffered.

## UNUSUAL STORIES ABOUT UNUSUAL PEOPLE

LONDON, March 7.—"Day by day in all respects I grow better," it became the fact here to repeat those words 20 times daily, checking off by 20 knots tied in a string.  
All because Emil Coue, French psychologist, says doing so will make you well mentally and physically.  
Coue is founder of a new school of psychology and healing. He says human ailments are products of suggestion and you can cure 'em curing your imagination.

## Ontario Conservative Delegates Balk In Caucus At Leadership of Meighen

### FINISH FIRST DRAFT OF IRISH CONSTITUTION

Provides For Inclusion of N. E. Ulster, Giving Them County Legislatures.

WARNS DE VALERA

Freeman's Journal Places Responsibility of Incipient Turmoil.

Dublin, March 7.—The first draft of the Irish constitution was completed last night by a committee, of which Dr. E. J. Sheehy is acting chairman. The draft will be submitted to the provisional government today for any changes that are deemed necessary. The constitution does not bind its people forever to the Irish Free State and contains nothing forbidding them from continuing a struggle for complete independence, according to reliable sources reaching the Associated Press.

Include Ulster.  
The inclusion of Northern Ulster within the free state is provided for. The six counties would retain the powers they now possess, having their own legislature, functioning similarly to the legislatures of the Canadian provinces or the states in the United States with certain restrictions. Thus any act passed by the Ulster Legislature, if contested, would eventually come before the supreme court for all Ireland on the question of its consonance with the constitution.

Reports that Republican rebels have given free state forces 48 hours notice to surrender. Limerick police barracks today intensified the situation in Limerick and caused genuine anxiety to free states.  
These reports were not substantiated, but it was agreed that free states would stubbornly resist possession and in event of an attack the barracks would be vigorously defended. No breach of peace, however, had been reported early today. Lack of authentic news intensified the seriousness of the real situation.

Issues Warning.  
Freeman's Journal, under the headline, "A Dangerous Game," declared: "Attempts are being made to carry on political propaganda and develop a malignant spirit in certain sections of Ireland." The newspaper further declared: "Some adherents of document No. 2 have made up their minds that they cannot prevent by argument, establishment of the Irish Free State, and it looks as if they were about to try to see what can be done by turmoil. Incidents at Clonmel and Limerick already have shown how far the mutineers are prepared to go, but the Irish people will never submit to such acts of terrorism. Responsibility clearly rests on Eamon de Valera if he allows men under the protection of his name and influence to turn an appeal to honest judgment of the Irish democracy into a fratricidal conflict."

## Ulster Party Quits Commons in Anger

LONDON, March 6.—(By Associated Press.)—All the Ulster members present walked out of the House of Commons tonight when during a discussion in the committee stage on the Irish Free State bill closure was adopted on section one of clause one, which is the operative provision of the bill as it declares the treaty shall have the force of law.  
The closure vote was 182 to 31.  
The closure, which cuts out fourteen proposed amendments, was vehemently resisted after it had been carried. The first sub-section was added to the bill by a vote of 183 to 30, after which there was a series of strong protests from the Ulstermen and the "die-hards" against application of closure.  
Capt. Charles Curtis Craig, Unionist member for South Antrim, declared: "I am not a member of the Ulster Unionist Council, but I am a member of the House of Commons."

## WRECKS G. T. R. TRAIN NEAR PARIS

The main line of the Grand Trunk was tied up for several hours early Tuesday morning as the result of a wreck two and a half miles west of Paris Junction.  
A broken truck on a freight car caused two cars to leave the tracks at 45 a.m., tearing up the line for some distance.  
The train was pulled by Engine 684, in charge of Engineer Owen Sarnia, and Conductor J. T. Smith, also of Sarnia.  
Passenger trains were delayed over two hours, while train No. 75 from Toronto carrying Toronto morning papers was derailed via Stratford, arriving in London almost three hours late.

## Britain Abandons Airship Fleet Plan

LONDON, March 7.—In consequence of India, South Africa and New Zealand having refused the imperial government's invitation for co-operative backing in the projected Imperial Air Service, the government has abandoned the intention of keeping up the airship fleet provisionally until June, and is now handing over the material, lock, stock and barrel, to the disposals board.

According to the Times which makes the announcement, the board will have the option of selling everything intact to a foreign country, or holding the airships and hangars in the hope of forming a private corporation.

## ASK INJUNCTION AGAINST CUT

Street Railway Men Send Second Appeal Against Wage Decrease to Board.

CLOUDED UP FACTS

President Colbert Admits Misunderstanding Due to Lack of Clearness in Presentment.

Dissatisfied with the decision of the Ontario Railway and Municipal Board, which has refused to take any action against the London Street Railway Company, the employees of the latter corporation, through their union officers, petitioned once again Tuesday morning to the former body asking that an injunction be granted restraining the company from effecting a wage reduction of three cents an hour.  
John Colbert, president of the local street railwaymen's union, explained that the members of the latter organization were convinced that there exists a misunderstanding between the railway board and the men.

"We have petitioned the board again today," explained the president, "there appears to have been some misunderstanding between the board and ourselves. We have now prepared the problem again and have concluded that perhaps we did not place the facts of the question before the board in as clear a manner as we might have."  
"This has been remedied, however, today, and we have dispatched our second appeal for action on the part of the board. In the meanwhile we will do nothing further until we receive a reply. Incidentally we are not a particle discouraged. The company has in our opinion violated the statutes and there must be some court in the land where we can seek and obtain redress."

Late Monday afternoon officials of the union were notified from Toronto that the provincial board had rejected their offer and no time was lost before the executive entered into special session and prepared a second appeal.

## REV. ADELARDE DELORME REMANDED UNTIL MARCH 14

Request For Adjournment of Hearing Is Allowed by Montreal Court.

Montreal, March 7.—Rev. Adelarde Delorme, charged with the murder of his young half-brother, Raoul, appeared in the enquete court this morning and was remanded until March 14.  
The request for the adjournment of the case for the attorney general's department indicated that the crown was ready to proceed but made no objection to the postponement.

Rev. Father Delorme was brought into the city from Bordeaux jail, where he has been housed since his arrest in the car of the high court stable. He wore non-clerical clothes. A large crowd was on hand to witness the transfer of the priest from the high constables' car to the court-house, but it was not allowed in the enquete court.

EARTHQUAKE HEROINE DIES.  
Vancouver, B. C., March 7.—Mary Helen Lawrence, proprietress of the Little Brown Inn in Vancouver, is dead of tetanus. She will be buried in Niagara Falls, Ont., her native town.

Miss Lawrence was decorated by King Emmanuel for her work in the Messina earthquake. She was a prominent member of the Independent Order of Daughters of the Empire and the Women's Canadian Club.

## BLAME FORMER PREMIER FOR LOSING QUEBEC

Chief Opposition From Province Was Introduced by Toronto Delegates.

DISCUSS PARTY NAME

Large Number of Ontario Political Leaders Favor Immediate Convention.

BULLETIN.  
Ottawa, March 7.—Members of the National Liberal and Conservative party, in caucus today, decided to return to the old name of Liberal-Conservative.

Special To London Advertiser.

Ottawa, March 7.—Former Premier Arthur Meighen had no competition whatsoever yesterday in the matter of retaining the leadership of his party, which he has held since the retirement of Sir Robert Borden in July of 1920.

While there were sharp differences of opinion on the question, there was no other contestant, and the caucus which continues today had no choice but to unanimously reaffirm him as leader.

It is understood, however, that the approval is temporary in character, and that the whole matter will again be threshed out at a national convention to be held later.

Ontario Opposition Unexpected.  
As has been said there were sharp differences of opinion at yesterday's conference, the clash being principally between the Quebec and Ontario delegates.

Under Mr. Meighen's leadership it was charged not a single Conservative candidate in Quebec secured election, and among the defeated were four ministers, Messrs. Ballantyne, Bely, Fautoux and Monty, and three senators, Foster, Beaudin and Webster.

It might have been expected that the opposition to Mr. Meighen's leadership would have emanated from this group, but the contrary was the case.

The chief opposition came from Ontario and from Toronto. In particular, Quebec delegates stood for Mr. Meighen unqualifiedly, but certain Ontario members frankly declared that no headway could be made under Mr. Meighen's leadership.

On the question of changing the name of the party from National Liberal and Conservative to the old historic appellation of Liberal-Conservative, there was also difference of opinion. Old Liberals such as Guthrie, Ballantyne, Tolmie, Calder and others holding by the long and hybrid name, while old Conservatives urged the change. The matter has not been decided.

There was a considerable body of opinion, particularly from Ontario, in favor of holding a national convention immediately. By the majority, however, it was felt better to wait and see how the coming session panned out.

The question of whether the Meighen or Crevier forces will constitute the official opposition is one on which there is divergence of opinions among both groups. It is a question which has not yet been decided, but general opinion is that the former party will assume the role.

## Sidelights At Ottawa

As Seen By John J. McLeilan, Staff Correspondent.

REALIZING the importance of informing Western Ontario readers of the political happenings and trend of events at the Dominion Capital from daily personal contact with Premier W. L. Mackenzie King's cabinet, as well as with the leaders of the opposition, The London Advertiser has today transferred Mr. McLeilan from the city staff to the House of Commons.

Mr. McLeilan's exclusive column will be written daily in an easy and informal style which will make the narrative attractive as well as informative to grown-ups and the younger generation alike.

## May Objects To "Auto Valet" For City Official

A. I. D. John T. May is much opposed to city officials "playing the gentleman." It has got to his ears that Garbage Superintendent Dodd is endeavoring to do so. He says he is informed that the garbage superintendent has his car delivered to his house every morning, and that the city is paying for the time of the man who takes the car up to Dodd's. The matter is being investigated on the order of the city council.

## RUMORS MEMBERS VIOLATED O. T. A.

Toronto Alderman Introduces Resolution Asking for Investigation of Ontario Legislature.

IRREGULAR CONDUCT?

Some Members of All Parties On Closing Night Last Session, Rumor Charges Believed Unseemly.

Toronto, March 7.—That a public investigation under the public inquiries act should be held to determine upon whom the responsibility should rest to prosecute violations of the Ontario Temperance act, occurring in the parliament buildings or other public offices, was the demand of a resolution of which notice was given at the Toronto city council at an early hour this morning by Ald. John Cowan.

The resolution asked further that it be ascertained "whether the Toronto police force had any knowledge of the said cross veins of the Ontario Temperance act or were in any way responsible for allowing the same to be carried out."

The resolution contained reference was made by Ald. Cowan to rumors of unseemly and irregular conduct on the part of some members of the legislature during the last night of the last session, in connection with the names of members of different parties government included, are implicated.

The resolution of Ald. Cowan was hotly criticised by some of the other members of the council, and described as "despicable" by Ald. Birdsall. However, the city clerk declared notice of the motion in order. The mayor allowed to go into the records, and it will go before the board of control for further action.

## BREAK GLASS AND STEAL JEWELRY FROM WRAY'S

London Merchant Loses \$520 Worth of Valuables During Night.

A diamond pendant, watches, stickpins, necklaces, etc., to the value of \$520, were secured by a thief, or thieves, when a store weighing over 100 pounds, was crashed through a window of Wray Jewellery, Limited, 234 Dundas street, some time between 5 and 6 o'clock Tuesday morning.

A policeman on the beat discovered the robbery, and Mr. Wray was immediately informed. The police had nothing to report on the matter late Tuesday afternoon.

This is the third time that Mr. Wray's premises have been visited by thieves in the past three years.

Two years ago the store was entered from the rear and jewelry stolen valued at \$3,500.

Three years ago a front window was broken with a brick and the culprits escaped with goods valued at \$1,100.

"They certainly seem to know which store keeps the good stock," said Mr. Wray, in discussing his loss.

"Part of the goods taken Tuesday morning were covered by insurance, and the window pane, which is just by the entrance, is fully covered by insurance."

"Two years ago when I lost over \$3,500, I did not have so much insurance."

"I have a full tally of everything taken and can identify anything that was in the window."

## FAIL TO CIRCULATE MINERS' BALLOTS

Calgary, Alta., March 7.—Referendum ballots in district No. 18, United Mine Workers of America, embracing mines employing about 9,000 miners in Southern Alberta and British Columbia, have not been circulated by the international union, it was announced yesterday by E. G. Williamson, president of District No. 18, as the officials at Indianapolis did not comprehend the situation in Western Canada.

Mr. Williamson is now in telegraphic communication with headquarters in Indianapolis to ascertain what steps are advisable.

## LAWYERS STAGE WORDY BATTLE IN BEER CASE

Magistrate Reserves Judgment On Hornick and Connor, Drivers of Truck.

IMPART INFORMATION

Counsel Explains Bootleggers Now Termed "International Traders."

London police court followers received much interesting information as to the workings of the Ontario Temperance act so far as beer for export along the borders of the Detroit River is concerned, when the cases of Ed Hornick and Oliver Connor were called.  
The young men were charged with having liquor in a place other than a private dwelling.  
Judgment was reserved by Deputy Police Magistrate P. H. Bartlett.

The case drew three legal stars to the court, Mr. J. H. Jeffrey, K.C., of Guelph, appearing for the crown, and James Haverson, K.C., of Toronto, and W. H. Furlong of Windsor, for the Kuntz Brewing Co. of Waterloo. Mr. Jeffrey and Mr. Haverson have met before in the legal arena and the court room was treated to "snappy" repartee.

The prisoners pleaded not guilty to the charge and Mr. Jeffrey called Sergeant Wm. Middaugh to the witness box.

Seized 140 Cases.

Sergeant Middaugh told of seizing 140 cases of beer, on a truck on Clarence street, south of Dundas street, on the afternoon of February 24. Hornick and Connor were the drivers. Each case contained 24 bottles. Hornick showed witness what he called clearance papers and told him there was any trouble to call up a man in Petite Cote.

Mr. Jeffrey—"I might explain your worship, the word is not petticoats. It is a place that is frequented by gentlemen who used to be called 'bootleggers,' but who are now termed 'international traders'."

Sergeant Middaugh stated that he detained the truck and drivers because it looked like an illegal shipment to him.

The cartons had labels pasted on them with addresses of men in Detroit. One read: Wm. J. Harding, Detroit, Mich.

"I would say, rather a loose and vague address," commented Mr. Jeffrey.

"Same name as the president of the United States, but the beer was not for him," declared Mr. Haverson.

Delivering New Truck.  
Sergeant Middaugh stated that he had seen just east of the city limits. Hornick had told him he was delivering a new truck to Brantford. It had been made in Walkerville.

Cross-examined by Mr. Haverson, witness admitted that he did not know where the truck was going at where it had come from, except that Hornick had told him. There were no street addresses on the shipments. Hornick had stated that he was getting 75 cents a case for drawing beer to Petite Cote.

"Which is Mr. Hornick?" asked Mr. Haverson.

"What, don't you know your own client?" asked Mr. Jeffrey in shocked tones.

"Mr. Hornick told me that he had taken a load down a few days previously and that it was transferred to two waiting trucks. That was all he had to do with it."

Had Office in Windsor.  
Constable Gavin Monahan, who also stopped the truck, stated that Hornick had said that he was carrying the beer for a Mr. Jeffrey, who had an office in Windsor.

Mr. Haverson went into detail on the cross-examination of Monahan regarding the custom papers, which, Mr. Jeffrey claimed, had no bearing on the case.

"You are always so instructive I hate to stop you," murmured the crown counsel.

Herbert F. Kuntz, one of the proprietors of the Kuntz brewery, Waterloo, was the first witness called for the defence. He was examined by W. H. Furlong.

Going to Detroit.  
Mr. Kuntz stated that all the beer on the seized truck was going to Detroit on orders that had been received.

"How do you know the orders were from Detroit?" questioned Mr. Furlong.

"Because they were mailed from Detroit," was the reply.

Mr. Kuntz then related the procedure on orders received from Detroit. E. W. Jeffrey was now called. Kuntz agent in Windsor, and on receipt of orders, he phoned the agent, who arranged to send trucks to Waterloo for the beer.

"We make out the export papers, six or seven copies," stated witness. "We give the driver five, and he turns to Page 11, Column 4."

## Heads Doukhobors

PETER VEREGIN.

WINNIPEG, Man., March 7.—Again expressing hope that he will escape lynching at the hands of the women of Canada for his theoretical advocacy of massacre of the Doukhobor children and aged, and pledging his influence against the throwing of children into the Columbia River, Peter Veregin, president of the Christian Community of Universal Brotherhood, the Doukhobor organization in Canada, today renewed his demand for a commission of inquiry, and that the province reimburse the community for the roads it built, including a \$20,000 bridge, which was the community's invested capital, and also that a loan of \$50,000 be provided for irrigation.

## WILL SUE CHAIR FIRM FOR \$3,000

Ratepayers of Strathroy Want Amount Claimed From Chair Company.

FOLLOWS COUNCIL'S MOVE

Mayor Bateman Declares People of Town Are Weary of Delay.

Special To London Advertiser.

Strathroy, March 7.—Ratepayers of Strathroy will move at once through the courts to secure from the Middlesex Chair Company the sum of \$3,000 and interest due, it is claimed, since 1915, Mayor Dr. F. A. Bateman announced here Tuesday morning. This follows the council's action, as a direct result of the action of the council, who in general session last night accepted the company's offer that the money in question be paid in three one-thousand-dollar annual installments, without interest, commencing January 15, 1923.

"This question has been debated long enough," declared Mayor Bateman. "The taxpayers have proved beyond dispute that they want immediate satisfaction from the furniture company. Certain of them were merely awaiting the action of the council last night before they attempted drastic action through the courts. Now they will move without delay."

"We are not entirely satisfied with the result of last night's session. Deputy Reeve Pike tried to impress upon the councilors that it was their duty to at least ask the company for payment. He met with failure, however."

Councillor Laing also expressed himself this morning as being displeased with the action of his colleagues.

"One important feature of this problem is," he pointed out, "that prior to the last election practically every member of the council either from the platform or during canvass promised that they would exert every effort to have this money collected."

Discussing the question briefly, Deputy Reeve Pike desired to draw attention to the fact that "three members of the council were employees of shareholders of the Middlesex Chair Company." He expressed pleasure, however, that it was now definitely decided that the matter should go to the courts for a clear-cut decision one way or the other.

SHOWS INCREASED PRODUCTION

London, March 7.—It is officially stated, says Reuters Sydney correspondent, that New South Wales primary production last year, including those of pastoral pursuits, dairying, agriculture and mining, amounted to \$23,000,000. There are nearly 4,000 acres under wheat at present and 1,000,000 other crops, this being the largest acreage of crops planted since the record year of 1915-16. The present year has also seen an influx of 800 additional growers of wheat.

## LONDON BAKERS INCREASE LOAF TO 10 CENTS

Advance Believed To Be Surprise to Majority of Consumers.

FLOUR \$1.89 BARREL

One Firm in City Continues To Sell At Its Former Price.

Londoners whose appetites are stimulated three times daily by an extra slice of bread must bear the brunt of the blow which follows a boost of one cent on the price of each loaf.

Announcement of this increase in price was made today, the bakers responsible for it attributing the cause to fluctuations in the wheat market. The increase comes as a surprise to consumers in view of the fact that wheat was recently quoted at a dollar per bushel, with indications of a steady drop in prices. At that time the 24-ounce loaf was reduced to retail at nine cents in London, with citizens of Windsor, St. Thomas, Galt and other towns in the district remaining on the ten-cent list.

In contrast to the former price, wheat is now on the market at \$1.42 per bushel. According to figures made available by F. E. Parnell of the Parnell Baking Company, there are 4 1/2 bushels of wheat to every barrel of flour, and the jump in the market increases flour \$1.89 per barrel.

Advanced to 10 Cents.  
Approximately 180 loaves of bread of 24-ounce weight can be produced from a barrel of flour, and the advance of one cent, as announced yesterday, means no further allowance for profit by the baker. In conjunction with the local increase it is predicted in bakery circles here that Western Ontario centres, in which bread is now sold at 10 cents per 24-ounce loaf, will experience a similar increase with bread sold to the people at 11 cents.

The increase in price is general throughout the city. W. Thompson, manager of the Neal Baking Company, confirmed the statement made by Mr. Parnell, that it was impossible to continue the sale of the 24-ounce loaf at 9 cents, and that the increase had been affecting some days ago in several other towns.

B. F. Brighton made a similar statement and asserted that it was impossible to obtain flour when flour was low, in order to maintain a low price in face of market fluctuations.

Sells At Old Price.  
The Nut Krust bakery is advancing its price one cent in keeping with other bakeries.

One firm, the Ruddy Baking Company, announced that it was continuing the sale of the standard loaf at 8 cents in spite of increased prices of wheat and anticipated no advance.

SEES PROVINCIAL AID.  
Montreal, March 7.—Decision to ask authorization of the Quebec Legislature to spend \$2,000,000 in rebuilding the city hall, after the fire, and the prescription of realty taxes at three per cent of two years, and the expenditure of \$25,000 for clearing up the debris in the burned structure, and for the purchase of office equipment, were matters disposed of at the meeting of the city council, held in the recorder's court in the annex building yesterday. As the emergency meeting had been called irregularly, it was a decided to have the legislature legalize the decisions.

The Weather

FORECASTS.  
Today—Showery; strong northwest winds and turning colder tonight.

Tomorrow—Fair and cooler.

The disturbance west of Lake Michigan yesterday is now centered just south of James Bay, with somewhat diminished intensity. A development in the southern end of the trough formed by the disturbance now promises to be the more important area.

Rain has fallen in southern districts and snow in the northern districts of Ontario.

In the West the weather has been fair and rather cold, while in the Eastern Provinces mild weather has been prevalent.

Temperatures.  
The highest and lowest temperatures during the 24 hours previous to 8 a.m. today were:

|             | High. | Low. |
|-------------|-------|------|
| Victoria    | 46    | 36   |
| Calgary     | 38    | 23   |
| Winnipeg    | 28    | 4    |
| Pt. Arthur  | 32    | 16   |
| S. S. Marie | 42    | 22   |
| Toronto     | 32    | 15   |
| St. John    | 44    | 40   |
| Ottawa      | 42    | 32   |
| Montreal    | 43    | 44   |
| Quebec      | 44    | 37   |
| F. Point    | 34    | 23   |
| St. John    | 40    | 30   |
| Halifax     | 49    | 39   |

## MAKES MOTION ON SCHOOL TAX

Alderman Ashplant Presents Resolution to City Council.

### URGES EQUITABLE LEVY

Proposes To Make Civic Officials Responsible For Enforcement.

"That the city officials whose duty it is to carry out the statutory requirements relating thereto, are hereby requested to see to it that the school rate is levied equitably on all the rateable property of this municipality which is not by statute exempt from such school rate, and that it be so collected in the current year, to the end that no such property shall escape payment of its due proportion of the school rate, to the injury of other ratepayers. It is here understood that the 15 mill annex rate shall be applied to the said school rate so far as it goes."

The above resolution, moved by Ald. Cunningham, as being the clearest ever presented in his experience, one which no alderman could vote against, even though he did not approve of the underlying motive, was presented by Ald. H. B. Ashplant to the council on Monday night, seconded by Ald. Judd. It was as per his notice of motion in regard to the annex school rate.

Objection was taken by some of the aldermen, notably Ald. Childs, to reopening this old question.

**Not Opening Question.** This led Ald. Ashplant to declare that he was not opening the annex taxation question. He was just presenting the matter in a manner by which the council could wash its hands. It would place any responsibility in the matter in the hands of the officials. He declared that the reference to the mill rate was put in to show that there was no intention to interfere with this matter. All that he asked was that the statutes be enforced.

Ald. Childs recalled another famous case in which an agreement was turned into a scrap of paper and warned the aldermen to beware.

Ald. Judd said the resolution upheld the law and placed the whole matter in the hands of the officials.

Mayor Wilson declared that the inference was that the law was not being carried out at present. He thought that the word "equitable" was wrong and it should read "legally."

Several aldermen disagreed on this point.

**Lack of Sincerity.**

Mayor Wilson then ruled, that as Ald. Ashplant had stated, that his resolution did not pertain to the annex tax matter, it was new business and could not be presented to the council without notice, and he ruled that the resolution as presented was a notice of motion.

This rather took Ald. Ashplant back for a moment, and he then proceeded to read the council a severe lecture, more or less angry showing in his face and speech as he progressed.

"I find that there is a lack of real and genuine sincerity in this matter. I don't think the members here are anything but insincere and they have shown it on two or three occasions. Let us be sincere for once in dealing with such important matters," he concluded.

"I am sincere in protesting this agreement," said the mayor.

## COUNCIL ADOPTS NEW GOVERNMENT

Continued From Page One.

however, and they also go along with the council.

Dr. Cunningham, an old member of the council, back in the harness after a couple of years, said he experienced the shortcomings of a contract system and could not see where the city would benefit, unless

some genuine improvement that would accrue could be pointed out.

In opening his attack on the proposed commission, Ald. Ashplant said that he did not think it would take the council long to act on the matter when they realized that they were committing suicide. He gave Mayor Wilson credit for the best intentions, but contended that by the terms of the bylaw the council handed over powers.

**Should Be Advisory Board.**

The alderman contended that the commission should be an advisory body only, but that under the bylaw it would have no more relationship to the council than an orang outang to men, if as much. He advocated the elimination of all clauses which gave over powers. He also contended that in clause seven, which stated that officials should take instructions from the commission, the council was handing over rights. It was absurd. "The intelligence of the council was insulted," he declared.

Mayor Wilson—it would be if it believed that.

"This little group will get powers by this bylaw, which under the municipal act are the council's," continued the alderman. He also contended that it was an insult to ask the council to sit there and listen to what this group would have to say, and then, gratuitously, the council was permitted to say they would not accept. It was absurd.

**No Relationship to Commission.**

"Fifth wheel of a wagon," "The members of this commission are not the superiors of the council in judgment," "It is ridiculous to ask that we give away these powers," "The council will have no control over this little body," "That all brilliant geniuses of the city can do better than we can," were some of the terms applied and used by the alderman in contending that the new commission would take away from the council, the control of all department matters, the final dealing with the estimates. If I have failed to do justice to the matter, I have failed without intent. This body has no more relationship to a commission than a monkey to a monkey-wrench, this group of brilliant, esteemed, possessing all essentials of virtue and intelligence," concluded the alderman.

Mayor Wilson—"Citizens of average intelligence you should have said."

Ald. Holmes contended that the council might have been placed a little more clearly in the bylaw. It was an important step, and there should be no doubts in the matter. He said his impression was that the council was giving away powers.

A voice: "There will be no salary then."

Ald. Ashplant—"They may vote themselves \$1,000 a year."

Ald. Holmes—"Yes, the board of control did that. It was a fifth wheel."

Ald. Judd—"This is a steering wheel."

**Willing To Advise.**

Ald. Holmes said that he noticed that the utilities claimed that as they were revenue producers, they would not be affected, but they were willing to advise other boards how to do business.

Mayor Wilson—"The utilities commission has adopted this bylaw and are willing to do anything in the best interest of the people."

Ald. Holmes—"What will this commission deal with?"

Ald. Ashplant jumped in with the statement: "Deal with things they are not competent to deal with."

Mayor Wilson—"They will deal with big things of interest to the city."

**Two Facts Remain.**

After answering questions by Ald. Douglass, Ald. Watkinson, and taking exception to Ald. Ashplant's remarks, especially when he said that in naming the commission the council was constituting its children, its father, Mayor Wilson said that despite all the camouflage and "red herrings" which the last-mentioned alderman had produced, two facts remained, the commission could resolve and advise only. That was the limit of its powers.

The mayor contended that Ald. Ashplant was trying to make a mountain out of a mole hill.

"Are you taking these gentlemen for idiots?" asked Ald. Ashplant.

"Not those who drew this bylaw up," said the mayor.

"You are taking those who are sitting around here to be idiots," said the alderman.

Mayor Wilson then proceeded to

## SEEK TRACE OF KITCHENER GIRL

Police Throughout Canada Notified of Disappearance of Jean T. Moore.

### LEFT WEDNESDAY NIGHT

Relatives Unable to Account for Absence of Missing Woman.

KITCHENER, March 6.—In spite of every effort that is being made to find trace of Miss Jean T. Moore, aged 20, who has been missing from her home in this city since Wednesday night, no possibly clue to her whereabouts have been found. Her relatives and friends are grief-stricken at her sudden disappearance, as no reason other than foul play can be suggested to their minds.

The local police are working on the case, and the police throughout Canada have been notified of the girl's disappearance.

It was not until today that her relatives could be brought to fully believe that the girl was missing. The fact that on leaving the house Wednesday evening last about 8 o'clock, she took nothing with her but the clothes she was wearing, and her purse containing between \$40 and \$50, led her relatives to believe that although they had not heard from her she would be back at the weekend. The fact that the girl also left an uncashed check on the dressing table in her room supported the relatives' belief that she would return.

Her failure to communicate with her friends and relatives over the week-end or to return was what caused them to bring the matter to public attention.

Miss Moore is a popular Kitchener girl, moving in leading society circles of the city. Her father was the late J. D. Moore, late registrar for the county of Waterloo.

The theory that the girl may have been picked up by an automobile and kidnapped is supported by some, while others seem to scout this idea. The case is one of the most baffling mysteries recorded here in years.

A voice: "There will be no salary then."

outline the bylaw in detail and ignore further interruptions, although on a couple of occasions when Ald. Ashplant tried to interrupt a question, just what either was saying could not be made out, as each gradually increased the strength of his voice.

The chief point made by the mayor was that the commission was deemed the best method to bring about co-operation between the various bodies. The people had twice voted for commission government and this was the best chance to work out a scheme that would meet with the people's desires. In a year or so, the weaknesses and good points of commission system would be learned and then a real method of civic government might be devised.

**Trace Efforts of City.**

Ald. Cunningham traced the efforts of the city to get a form of commission government, and though this system was only by consent, it was a start. When it came to the third reading of the bylaw, Ald. Ashplant objected and it was necessary to take a two-thirds vote to put through the final reading. The debate on the garbage specifications was almost as long, but lacked the "pop" of the former discussion. The whole matter revolved around the inclusion of penalties on contractors, when the specifications for collection tenders were prepared. Ald. Douglass wanted the power of fixing penalties to rest with No. 3 committee on the report of the health inspector. He wanted the solicitor instructed to so prepare the bylaw. He thought that the present list of penalties a hardship, and other aldermen, including Ald. Watkinson, contended that the city would never get a contractor to take over the work with such penalties inserted.

Ald. Cunningham touched on the experience of the city when the contract system of collection was in force, and said that if Ald. Douglass could not point to some betterment in the service that would accrue from the contract system he could not see the use of going on.

**Suggests Large Saving.**

Ald. Douglass said that there would be a big saving in cost. He cited the increase in the cost of the collection, and thought that about \$35,000 would be saved.

Ald. May suggested a saving of \$30,000 to \$40,000.

Ald. Cunningham pointed out that the mill rate for the last year was lower than in 1915. The increased cost then must be due to the fact that the garbage collection area had been materially increased.

Ald. Ashplant said that this put a new phase on the matter altogether. He could not see how a contractor could do anything better than at present.

Ald. Cunningham said that with the fair wage clause inserted, the contractor would have to pay the same money as the city, and about \$50,000 of the total was paid in wages.

Ald. Douglass said the contractor would save in efficiency. He would get more work for his \$25.

**Don't Want Men Driven.**

Ald. Drake, who with Ald. Ashton, are champions of the present system, contended that the city did not want men driven with the whip. They wanted a decent day's work for a day's pay, and that is what the city was getting now. He was surprised at Ald. Watkinson knocking the service. He personally had not had a complaint in a long time.

Ald. Watkinson said that collectors had not been to his house in two months. He had refrained from saying anything before.

Ald. Drake told him that in that case he himself was to blame.

When Ald. Douglass pointed out that the engineer would be asked to tender on the specifications drawn up, Ald. Cunningham asked if there was a nigger in the fence here.

"We mean to get the idea that the engineer's department in some abstract body whereas they are only

servants of the council doing the council's bidding. If they are, not doing what we want let us tell them what we want done. Their business is our business."

Ald. Watkinson said that if the penalties provided for the contractor were imposed in the past the city would be bankrupt.

This brought criticism of his stand from a fellow-alderman from the same ward, Ald. Drake.

Ald. Douglass changed his motion that the penalties go to the solicitor with the other specifications, to be used by the solicitor, if he sees fit.

**A Remedy For Piles.**

PAZO OINTMENT is a guaranteed remedy for Itching, Blind, Bleeding or Protruding Piles. Instantly relieves Itching Piles. 60c. Made in Canada.

**TITE COMMENTS ON GARBAGE PLAN**

"A fine bunch, the city council is!" commented William Tite Tuesday morning referring to the discussion by the aldermen relative to the proposal to have the city garbage collected by contractors in lieu of the present system.

Mr. Tite, who is the machinist's delegate to the London Trades and Labor Council, explains that he viewed the city council proceedings Monday night from the side-lines to gain information, and was not impressed to any appreciable extent by the reasoning of the various councillors.

Delegate Tite touches on the argument advanced that the sum of \$30,000 could be saved under the new garbage scheme. "Well, Mayor Wilson and several of the council were there last year when the money was voted, so they should be in a position to know what is being done with it," he states.

The Want Ads are for the industrious, those who have the ambition, energy and stick-to-itiveness to gain advancement and demand success.

**LONDON GETS NEXT LABOR CONVENTION**

Local Canadian Labor Party Hears Report on Stratford Convention of Last Month.

**CHANGE MEETING DATE**

Third Friday of Every Month Instead of First Monday Is Arrangement.

The report of the delegates from London to the convention of the Ontario section of the Canadian Labor party held in Stratford last month, occupied much of the time at the regular meeting of the London branch of the Canadian Labor party in the Labor Temple Monday evening.

Delegate Dan Menzies in giving his report said that the conventions was a huge success from every standpoint, and it had been decided to hold the convention in London next year.

While the convention was fairly well attended, it was the opinion of Delegate Arthur Mould that if all the annual meetings were held in some city on the main line of the railroad more delegates would be able to attend, and in that way would assist in putting the labor movement on a sound footing.

**"Get Steam Up."**

In speaking of the labor movement, Mr. Mould stated that an effort must be made to make the Labor party worthy of the name, and that while the right spirit was at the convention and he believed that the right spirit was present in the city, it was up to the members "to get steam up and forge ahead."

In order that the Labor party grow

# SPRING OPENING

Wednesday and Following Days

Formal Exposition of

## Spring Millinery

WE beg to announce that the Spring Display of Hats for women, misses and children will be ready Wednesday, March the 8th, and you are cordially invited to visit the showrooms tomorrow and following days and make inspection of the new spring modes.

## Keyed To the Mood of Spring

Hats are in Dame Fashion's gayest manner, keyed to the lilting mode of irrepressible spring. If it is a simple fabric shape of pastel tone, soft little feathery balls dance sprite-like from edge of its brim. A tailored black moire, elegant, distinguished, has a bent-down brim that casts coquettish shadows over one's face, making ducks and drakes of one's dignity. A big leghorn in picture style is frankly nothing but a dreamer, wreathed with frivolous flowers. Little and big, they're charmers all.

The wonderful assortment and the lower prices will be an inspiration to every woman who visits this exposition tomorrow and following days.

## C. OF C. AGRICULTURAL SECTION SEEKS MORE SCOPE

Farmers' Clubs, Associations and County Councils Invited to Next Saturday's Meeting.

The second meeting of the agricultural section of the London Chamber of Commerce is scheduled for Saturday afternoon, March 18. Farmers' clubs, agricultural associations and county councils are being invited to participate. As the attendance at the initial gathering numbered 60, 100 or more are expected at the second session.

Reports will be submitted by the committees that have been considering several questions submitted at the last meeting, distribution of farm labor in Western Ontario, cost of hydro for the farm, milk distribution, improvement of the city market, etc. An opportunity will be allowed for the advancement of further suggestions along similar lines.

The special committee of the chamber on "Science in Industry" will meet Wednesday afternoon next to discuss further plans for a study of this problem locally.

At the Chamber of Commerce luncheon Wednesday noon, Major T. J. Murphy will address the members on the subject of "Land Titles."

Members of the chamber have been invited to attend the sixth Swiss sample fair to be held in Basle, Switzerland, April 22 to May 2, where a splendid opportunity will be afforded Canadian industrial and manufacturing people to study Swiss conditions at close range.

**MERKULOFF RESIGNS.**

Vladivostok, March 6.—M. Merkuloff has resigned as president of the anti-Bolshevik government in Vladivostok, giving ill-health as a reason. Mayor Eremlief has been designated as acting president. The latest previ-

ous advices concerning Merkuloff were on Feb. 23, when it was reported that his forces had been defeated and driven to the southeast by troops of the Chita government.

## ALL CITY DOINGS

News of the Day in the Commercial Metropolis of Western Ontario.

### ADD \$25,000 TO GENERAL TAX

Council Disposes of Sewer and Pavement Appeals With Allowances to Fronting Ratepayers.

FACE \$3,000 INTEREST

William Street Dispute, Unsettled Still, Aggravated by Accumulated Interest Charge.

The city council, Monday night, disposed of two of three knotty local improvement problems, legacies from past councils which have taken up much time of late.

The Dundas street east sewer appeal and the Pipe Line road paving appeal were disposed of. An allowance to the ratepayers, about \$7,000 in each case was made. This money will be spread over the general tax rate instead of charged to the property owners fronting on the improvements.

This makes \$25,000 thus charged to the tax rate this year. The other amount, a little short of \$11,000, is the Knollwood Park sewer allowance. Remaining unsettled is the William street sewer dispute. It goes back to the board of works for further consideration.

**Appeals Against.** E. T. Essery, K.C., appealed to the council against the decision of the works committee in this matter.

The dispute arises from the fact that in 1916-17 the city put down a second sewer on William street and took the old sanitary sewer to use as a storm sewer. The residents say they were promised that they would not be charged with the second sewer. They were not charged, however, until January of this year, when the first bills were sent out. Then to make the ratepayers more angry they found that during the time intervening between the completion of the sewer and the rendering of the first bill, there had accrued \$3,000 interest which they were charged up.

Mr. Essery said that the ratepayers contended that they should not be charged for the second sewer. The first was good enough for them, and they also objected to the interest. Ald. Judd said that it was a funny thing, but it seemed that there had been negligence on the part of some of the city's force to do its duty in sending out the bills, and he could not see the right to charge interest.

Mayor Wilson said that the matter had been held up by litigation. If the ratepayers did not pay for the sewer it would have to be charged to the general tax rate.

**Made Recommendation.** The recommendation made to No. 2 committee by the special committee, which went to the details of the sewer, was that the ratepayers be allowed the usual sewer rental charge, which was two-thirds of the cost. This would amount to five cents for ten years.

Ald. Holmes contended that the people should not have to pay this amount, and he also pointed out that they were charged up with private drain connections and were not connected with them.

The motion to refer back carried. There was some objection to the Dundas street sewer settlement, and there was also a difference of opinion as to the fairness of the Pipe Line road settlement.

This matter was to have come before the judge at the court house on Tuesday in the form of an appeal against the decision of the court of revision in making cuts of 15 to 35 per cent in the assessment for the pavement. The city council, however, decided to pull the matter out of the hands of the judge and making a straight cut of 25 per cent for all.

Ald. Cunningham said the pavement was a luxury and the property owners of the city should not have to foot the bill. If they had to, it was pretty cheap on the part of the city.

The recommendation to allow the matter stand, as fixed by the court of revision, carried.

**DEFENDS RECIPROCITY STAND.** Montreal, March 7.—Hon. Raoul Dandurand, minister without portfolio, addressing the Reform Club here last night, defended the question of reciprocity, and claimed that it was on account of former Premier Borden's tactics in connection with the problem that the farmers of the west had decided to alienate themselves and form a new party. "There is serious danger of a division between the Canadian east and west," he said.

### BD. OF EDUCATION WILL TALK CITY COMMISSION

Trustee Wright Thinks Trial of Proposition a Fair Trial.

Just what the members of the board of education think concerning the proposed city commission will be decided at the regular session of that body Tuesday afternoon, it is reported. It would appear at this moment that the trustees are not of one accord as to the feasibility of the scheme, and a warm debate is anticipated before final approval is granted.

Trustee J. B. Wright, chairman of the advisory vocational committee, holds to the opinion that while conditions will not be greatly altered in as much as the board is involved, it might not do any harm to give the proposition a fair trial.

"It may not make much difference," he explained Tuesday. "To my mind, however, a great deal hinges upon who is selected as the head. If we get a good man perhaps everything will be right, but if we should not, then things are liable to drift along in the same old way."

It will be necessary, it was also announced Tuesday, to hold a special meeting of the trustees later this week to consider final estimates for the year. As the Collegiate Institute report has not as yet been concluded, it will be impossible for the board to take any definite action until the end of the week.

### Town Topics.

### A THOUGHT FOR TODAY

While the earth remaineth, seed-time and harvest, and cold and heat, and summer and winter, and day and night shall not cease.—Genesis 8:22.

### TOMORROW'S DOINGS.

WEDNESDAY—London Milk Producers meet in county buildings. Mayor J. T. Murphy addresses chapter of commerce at noon-day luncheon.

**KNOWLTON BOBBER,** 497 English street, reported to the police that his Perfect bicycle had been stolen from the Collegiate Institute grounds Tuesday morning. It is painted red, and has rubber hand grips. The number is 105703.

**THE STAFF OF THE BOYS' OWN** "Tiger" was banqueted at the "Y" last night and given an address by Dr. Green in connection with the First Baptist Church, Moncton, one of the largest Baptist churches of Canada, having an attendance of about 1,700 people.

Dr. Green is invited to take the place left vacant by Rev. T. S. Roy, who was installed in his new charge, First Baptist Church, Brockton, Wednesday, March 1. Word has been received in the city that Mr. Roy starts his ministry in Brockton under happy auspices, which indicate that he is to win in his new charge.

Although the pulpit committee of Talbot Street Church has given the matter careful consideration, only one name was suggested for the call, the members feeling that Dr. Green was eminently fitted to undertake the charge.

### PROVES UTILITIES MAKE PROFITS

Ald. F. R. Watkinson, speaking at Monday night's council meeting, stated that the utilities commission had been accused of being a revenue-producing body. He could prove it was, he said, and produced a bill sent to him for laying a water service into St. Matthew's Church bowling green.

He said that two men and a foreman worked eight hours laying sixteen feet of two-inch pipe, and the bill called for 68 hours' work, \$93.38. He contended that this account had anything that the engineer sent out beaten entirely.

Manager Buchanan of the utilities commission took the matter up with Mayor Green Tuesday.

The mayor was informed that there were eight men engaged on the job, \$35 of the total was a labor charge and the balance for material. A special valve and valve outlet were necessary. The water was shut off. In cutting the main the ditch had to be flooded, later drained so as to make the connection and then 26 feet of pipe, not 16 feet, laid. This was absolute cost, Mr. Buchanan informed the mayor. There was no overhead charge of profit added.

### TOOK DIVIDEND DEFERRED.

Montreal, March 7.—The directors of Tooke Brothers, Limited, have decided to defer the payment of the quarterly dividend on the 7 per cent preferred stock till the end of the year's operations. The quarterly dividend was due on Feb. 28.

You will find the Want Ads full of facts that you can turn to practical account.

### Government Official Collecting Tax From Poolroom Proprietors

The municipalities will also get their "bit" as they do from the poolrooms. The city of London taxes circuses on the basis of the number of cars that make up their train. The maximum fee is for 50 cars, \$300, used to be \$500.

The local bylaw lacks directness also, inasmuch as it does not say what cars are to be charged. Ottawa has a similar fee system, but charges only for menagerie cars, exempting sleeping and baggage cars.

Combining the two poolroom licenses, owners of local poolrooms must now pay a total license of \$45 for the first table, and \$30 for every other table.

### LONDONER DIES IN B.C. MAY FORM "NEWSIES CLUB"

J. H. Ross Gillespie, Prominent Grain Man, Attended Local Collegiate.

Word reached London Monday of the death in Vancouver, B. C., of a former London boy, J. H. Ross Gillespie, former manager of the Alberta-Pacific Grain Company in that city.

Mr. Gillespie was born in Howard Township, Kent County, Ontario, and was 45 years old at the time of his death. He was a graduate of arts in the Toronto University, and obtained his matriculation at the London Collegiate Institute. He was married to Miss Dottie Cowan of London.

He went west 18 years ago and engaged in business with his father, Malcolm Gillespie of Brandon, eight years ago he moved to Calgary where he remained for five years and became associated in the grain business with the Alberta-Pacific Grain Company. Three years ago the company moved him to Vancouver as head of the branch office in that city.

He is survived by his mother, Mrs. Malcolm Gillespie of Victoria; his wife and four children, Robert, Margaret, Charles and Mary, and three sisters, Mrs. F. E. Cornelle of Vancouver, Mrs. J. R. Brodie of Brandon, and Mrs. Glen Gibson of Winnipeg.

Funeral, assistant-manager of the public utility commission of this city, is a brother-in-law.

### MONCTON, N. B., PASTOR IS INVITED TO TALBOT ST.

Dr. Bowlby Green Gets Official Call to Fill Rev. T. S. Roy's Charge.

At a meeting of the congregation of Talbot Street Baptist Church, Monday night, a unanimous call was issued to Dr. Bowlby Green, of the First Baptist Church, Moncton, one of the largest Baptist churches of Canada, having an attendance of about 1,700 people.

Dr. Green is invited to take the place left vacant by Rev. T. S. Roy, who was installed in his new charge, First Baptist Church, Brockton, Wednesday, March 1. Word has been received in the city that Mr. Roy starts his ministry in Brockton under happy auspices, which indicate that he is to win in his new charge.

Although the pulpit committee of Talbot Street Church has given the matter careful consideration, only one name was suggested for the call, the members feeling that Dr. Green was eminently fitted to undertake the charge.

### RESIDENT OF WINDSOR 65 YEARS DIES IN HOSPITAL

Joseph Hall Was City Waterworks Superintendent For Long Period.

WINDSOR, March 6.—Resident of Windsor 65 years, during which period he served the city as superintendent of waterworks for many years in addition to taking an active interest in Masonic work for more than half a century, Joseph Hall, 83 years old, died this afternoon in Hotel Dieu internal trouble.

Mr. Hall was born in England, coming to Canada when he was 14 years old. The voyage was commenced on the Windjammer, which was wrecked one week out from Liverpool. The trip to Montreal was completed on an apprenticeship in the Grand Trunk shops. Mr. Hall took charge of the mechanical department at Windsor, following his marriage to Miss Edna Jean Irving of Rochambou, Que. He continued in employ of railway until 1895, when he was appointed chief engineer at the waterworks. Two years ago he retired.

His widow and four sons: Ralph, customs appraiser at Windsor; John Thomas, William W., and James, Detroit; and one daughter, Mrs. William T. Gattfield, Sandwich, survive him. Funeral services will be held Wednesday afternoon under the auspices of the Great Western Masonic Lodge.

She is a jolly, cheery person that you are glad to have around. And how she can cook! What tempting, savory meals she serves daily—it's easy to understand why everyone comes home to dinner now.

Such a cook is readily obtained through the Want Ads. Look for her today. Telephone 3670.

### L. WHETMORE TELLS OF HIS RELIGIOUS CONVERSION

Recites Experiences to Large Audience At St. Peter's Parish Hall.

A large audience heard Louis H. Whetmore of New York city, a convert to the Roman Catholic faith, in his address at St. Peter's Parish Hall on Monday evening, the subject of which was "Why I Became a Roman Catholic."

Mr. Whetmore related how in his search for a true faith, he had passed through various stages of socialism and paganism. His account of his life at this period, and of his career as a soapbox orator on socialism was extremely graphic.

Upholding certain doctrines of the Roman Catholic Church, Mr. Whetmore attacked High Anglicanism, contesting the claim of the Archbishop of Canterbury that he was a direct doctrinal descendant of the founders of the Holy Catholic Church, and alleging that the Anglican Church had its beginning in the Middle Ages, when it broke away from the headship of Rome.

Introducing the speaker, Bishop Fallon spoke of Mr. Whetmore's ability as a scholar, and the literary prominence he enjoyed, having acted at one time as literary critic on the New York Times.

### SEEKS \$163,000 FOR TECHNICAL SCHOOL

Advisory Vocational Committee Plan to Complete Original Design.

Award Contract for Supply of Class Room Chairs.

Included in the estimates for the year which will be submitted to the board of education at its meeting this afternoon is \$163,000, which the advisory vocational committee has decided to ask for in order that the original plans of the London Technical and Art School may be completed. If this sum is granted, work on the new addition will not be commenced until such time as it will help relieve unemployment.

A meeting of the vocational committee was held Monday night at the Technical school.

Adding this to the estimates as drawn up by Principal Beal, was the chief item of business at the meeting of the committee last evening. In nearly every case a reduction in the estimates over last year is recorded. The only item to take much of a jump is the teachers' salaries, \$80,996.00 being asked for this year as compared with \$63,000.00 for last year.

The advisability of putting two stokers in the boilers of the school was thoroughly discussed, and it was decided to add \$2,800 for these to the estimates. Buying the stokers would be as way reduce the labor that is needed in connection with the boilers, but it would reduce to some extent the cost of fuel, it was learned. Only one engineer is employed at the school at present.

The Knox Furniture Company was given an order to supply forty standard class room chairs at a cost of \$618 each. There were several applications for the order.

### Obituaries

**MRS. ROSS McLENNAN.**

The funeral took place Monday, from the residence of her mother, Mrs. E. J. McEllister, 222 Wellington street, of Mrs. Ross McLennan, who died at St. Joseph's Hospital Friday. Requiem high mass was sung at St. Peter's Cathedral by Father McKee, who also officiated at the grave. Interment was made at St. Peter's Cemetery.

The pallbearers were Morris Wolfe, Clive MacDonald, Chester MacKeon, and Stuart Wilson, Roy Lutz and T. Christopher.

**MRS. H. GLEESON.**

The funeral of the late Mrs. Hanora Gleeson, who died Saturday, was held at 8:30 Tuesday morning from the residence of her niece, Mrs. Thomas Burke, 370 William street, St. Catharines. Requiem high mass was sung by Father Tierney. Interment was made at McGillivray Cemetery.

**MRS. E. GENEAREUX.**

The death took place Monday night of Mrs. Emma Geneareux, wife of John Geneareux, of 193 Edward street. Mrs. Geneareux was born in Fullerton Township, 64 years ago, and had been a resident of this city for some time.

Besides her husband she is survived by one son, John, of this city; three daughters, Mrs. Williamson of Washington, Seattle; Mrs. Thomas Garside of Flint, Michigan; and Mrs. Frost, of Elmwood avenue, this city, and four brothers.

The funeral will be held Thursday, at 2:30 o'clock, to Woodland Cemetery. Rev. W. L. Armitage will conduct the services.

### VETERAN TEACHER QUILTS

George Malcolm, Vice-Principal of Stratford Collegiate, Retiring.

STRATFORD, March 6.—George Malcolm, B.A., vice-principal of the collegiate institute for many years, is retiring, owing to failing health, and will cease to teach as soon as a temporary teacher can be engaged.

Mr. Malcolm is a graduate of Queen's University, and father of Prof. Lindsay Malcolm of Queen's. He is a specialist in English and history subjects, which he has taught for more than 30 years at the local collegiate.

Before coming here in 1890, he taught in Mitchell, Mr. Malcolm's retirement ends a teaching career of marked ability and success.

**WILLIAM J. KELLY DIES.**

WOODSTOCK, March 6.—The death of William J. Kelly, who has been a resident of this city for the past fifty years, took place today. He was born in England, was in his 78th year, and before coming to this city lived in Port Hope. His widow survives him.

### DISQUALIFIES YELF AS HYDRO OFFICER

W. D. Yelf of Ailsa Craig was disqualified as a member of the hydro-electric commission of that village as a result of the decision handed down by Judge Talbot Macbeth Tuesday morning. The action was laid by Albert Peter McEwan, also of Ailsa Craig.

In the evidence it was stated that Yelf, as an elected member of the commission, also held the position of "trouble man" and secretary. He was paid for his services as "trouble man" at the rate of 50 cents per hour since 1915. In 1917, he was elected to the commission for a period of two years. On July 3, 1919, he was appointed secretary at \$25 per year.

In the evidence it was stated that Yelf, as an elected member of the commission, also held the position of "trouble man" and secretary. He was paid for his services as "trouble man" at the rate of 50 cents per hour since 1915. In 1917, he was elected to the commission for a period of two years. On July 3, 1919, he was appointed secretary at \$25 per year.

### COMPANY TO ASK FIVE-CENT FARE

Mayor J. C. Wilson states that he has been informed that the street railway company is going to appeal to the city council at its next meeting to grant the company permission to collect a five-cent fare.

The mayor's information is not official, as so far the company has not approached the city on the matter at all.

The defeat of the Cooper bill in the legislature on Monday kills an effort to give the Ontario Railway Board a free hand in breaking every street railway fare agreement in the province, if they had so desired, according to the mayor. He is glad the bill has been thrown out.

In a discussion of the penalty clauses in the garbage specifications at the city hall, it was pointed out that it would have been a better thing for the city, had there been penalty clauses in bylaw 918. This is the street railway agreement.

"We would have owned the street railway by now if there had been," said Mayor Wilson.

### HOLD LONDON PARADE AS YPRES COMMEMORATION

Executive of G. W. V. A. Decides On Demonstration For Sunday, April 23.

At the meeting of the executive committee of the Great War Veterans last night it was decided again to hold a parade in commemoration of the battle of the Ypres, Sunday, April 23. The parade was sponsored last year by the G. W. V. A. and R. C. R. and was a huge success. Services were held in St. Paul's Cathedral, and it is thought that the one this year will be exactly along the same lines.

A committee to look after the arrangements will be appointed at the next general meeting on March 14.

The resolution drawn up by the trades and labor council, to go ahead with the proposed new city hall, was adopted by the executive. They suggested that if finances could not be secured now to guarantee the completion, work on the excavation and possibly the foundation could be started in order to relieve unemployment.

### HAMILTON COLLEGIATE PRINCIPAL DROPS DEAD

Dr. J. B. Turner, Grand Master of I. O. O. F., Is Victim of Apoplexy

Hamilton, March 7.—A great loss was sustained in the educational ranks of this city when Dr. J. B. Turner, principal of the Collegiate Institute, dropped dead this morning. Death was due to apoplexy. Dr. Turner went to school as usual this morning, apparently quite well, arriving in the office of the collegiate institute shortly before nine. A few minutes later he fell on the floor of his office and when aid was brought it was discovered that life was extinct.

Dr. Turner was born 65 years ago in the township of Grey. He was educated at Collingwood High School and his first teaching post was at St. Catharines High School. From there he came to Hamilton Collegiate Institute as mathematical and science master and he remained there until his death, succeeding Dr. Thompson as principal about two years ago. In 1885 Dr. Turner received the degree of B. A., extra-murally from Queen's University, and only last year this university conferred upon him the degree of LL. D. He was grand master of the I. O. O. F. for Ontario at the time of his death and past master of St. John's Lodge, A. F. & A. M.

### POPULAR CONDUCTOR DIES

George Knowles, M. C. R. Employee, Taken Suddenly Ill.

ST. THOMAS, March 6.—George Knowles, 200 Wellington street, 59 years old, one of the best-known and most popular railroad men of this city, employed by the M. C. R. as a conductor, died at his home Saturday night. His death will be very sudden, as he was taken ill with heart trouble shortly after the supper hour.

Mr. Knowles was born in Cambridge, England, but when eight years old he moved with his family to Canada. He has been a resident of St. Thomas since 1893, and an employee of the M. C. R. since 1884.

He is survived by his wife, to whom he was recently married, and a daughter, Mrs. J. W. Boulanger, of Fort William; one son, Byron, of this city; two sisters, Mrs. Thomas Rae of Dundas, and Mrs. Thomas Arkell of Palmerston, and four brothers, Robert of Sault Ste. Marie; Frederick of Regina, Dr. A. Knowles of Chatham, and John of Walkerton.

The funeral will be held at 1 p.m. Saturday to the Christian Science Church, where services will be conducted by Mrs. Young. The body will be taken to London at 2:30 o'clock and from there to Palmerston, where interment will be made Thursday.

### ASKS NEW PIANO FOR COLLEGIATE

Principal Mooney Presents 1922 Estimates to Board of Education.

The first request was that a new system of warning the pupils of school opening be installed. "The bells we have at present," said Principal Mooney, "does not sound loud enough to warn the pupils that school has commenced. In some cases we have to use hand bells to bring the students to the classroom."

**Reports Piano Necessary.** Mr. Mooney reported that a piano was needed for use in the new gymnasium. This brought forth plenty of discussion from the members. It was learned that when a piano was necessary in the gym, the one in the auditorium had to be taken down two flights of stairs on skids. This was done at a cost of \$5 and it had been found necessary to move the piano twice.

Trustee Bice started a lively discussion by saying that if the board of education was going to practice economy, it had better be started right away. "We talk economy, no let's get into action," he declared.

Secretary Tanner reported that he was in line to get a second hand piano for \$50, which he thought would be suitable for the work in the gym. He was given power to purchase the piano, and if it was not wanted for the collegiate gym it could probably be used in some other school.

When Mr. Mooney presented his estimates for the year it was discovered that the estimates of last year could not be secured, so "the trustees were at sea without a rudder," as one member termed it. The matter of preparing the estimates was left over until the next meeting.

**Require Another Janitor.** The superintendent of public works reported that another janitor was necessary in the main building of the new collegiate, chiefly for night work as there were certain activities at night that necessitated a janitor service. This brought forth a heated discussion which was again led by Trustee Bice.

It was learned that \$8,000 was expended each year for janitor's services. Trustee Bice said he wished the school board would give him \$9,000 to keep the collegiate and adjoining buildings in clean shape.

A special committee was appointed to look into the matter and if found necessary to either reduce or increase the janitorial staff.

A special committee was appointed to look into the matter and if found necessary to either reduce or increase the janitorial staff.

### KILLS FORMER EMPLOYEE

Seventeen-Year-Old Boy Shoots New York Shirt Manufacturer.

New York, March 7.—Max Engel, 57, a shirt manufacturer, was shot and killed yesterday afternoon in the offices of his factory on the eighth floor of a building on Fifth avenue.

Office employees gave the police the name of the assailant who, they said, was a 17-year-old boy and former employee.

The youth, who resigned three weeks ago, they said, called at his office, demanding to see Henry Krause, son of Engel's partner.

When informed that he could not see Krause the boy became abusive and Engel, hearing the commotion, stepped from his office.

The youth drew a pistol as Engel entered the room, shot him and fled making his way down a freight elevator to the street, where he disappeared.

Later in the evening Isidor Karst, the boy charged with the murder, was arrested in front of the building where it was committed.

### ESTIMATE LIABILITIES AT \$60,000.

Montreal, March 7.—Liabilities of Dunn & Company the brokerage firm which assigned yesterday, are said to be about \$60,000, while its assets cannot yet be approximately valued. It is understood, however, that the firm holds securities of considerable character to a considerable amount.

### POPULAR CONDUCTOR DIES

George Knowles, M. C. R. Employee, Taken Suddenly Ill.

ST. THOMAS, March 6.—George Knowles, 200 Wellington street, 59 years old, one of the best-known and most popular railroad men of this city, employed by the M. C. R. as a conductor, died at his home Saturday night. His death will be very sudden, as he was taken ill with heart trouble shortly after the supper hour.

Mr. Knowles was born in Cambridge, England, but when eight years old he moved with his family to Canada. He has been a resident of St. Thomas since 1893, and an employee of the M. C. R. since 1884.

## MICHIGAN MAN TO FACE JURY TRIAL

Carman Mitchell Denied Privilege of Summary Hearing By Order of Attorney-General.

## RANEY SENDS LETTER

Counsel For Defence Gives Notice of Application To Higher Court For Bail.

SARNIA, March 6.—Attorney-General W. E. Raney again today entered the limelight in police court proceedings in Lambton by writing a letter to Police Magistrate J. J. Jarvis ordering that Carman Mitchell, charged with robbery with violence, be refused the privilege of electing summary trial and requiring him to appear before a jury.

As a result of this communication from Attorney-General Raney, Police Magistrate J. J. Jarvis proceeded to hear sufficient evidence to justify a commitment to trial of Mitchell. In accordance with the attorney-general's instructions he will be brought before

a Lambton county jury at the next sitting of the court here.

In court this afternoon W. S. Haney appeared for the accused, but did not cross-examine any of the crown witnesses, nor did the accused make any statement. At the expiration of the proceedings he gave notice that he would make application to a superior court judge for bail.

The arrest of Mitchell in Detroit last December followed an alleged hold-up and robbery at the residence of Gerald Downs, near Courtwright. During the melee that followed, Mitchell is alleged to have hanged three men to a tree while he escaped with 12 cases of liquor that he rowed over to the American side of the St. Clair river.

Keen interest is taken in the case throughout Lambton County, and it was less than a month ago that Mrs. Carman Mitchell narrowly escaped drowning when she crossed the ice-covered St. Clair river in her effort to secure legal representation for her husband.

## REDUCE GALT COAL PRICES.

GALT, March 6.—Advancing their patrons in view of the threatened strike of the miners to lay in their stock of coal for next winter's use, local dealers today announced a reduction in price, egg, stove and nut sizes now selling at \$15 a ton and pea coal at \$13 a ton.

## GENOA PARLEY TO OPEN ON APRIL 10

PARIS, March 6.—April 10 has been definitely settled upon as the opening date of the Genoa conference. Italy, from whom a request for delay had been expected, owing to the extended cabinet crisis last month, informed the foreign office today that she would be ready on that date.

The French government will have five representatives at the opening of the conference, one of whom is quite likely to be Premier Poincaré himself, but for a few days only. The meeting of the finance ministers of France, Great Britain, Italy and Belgium on March 8, will be merely for the purpose of discussing the distribution among the allied powers of the reparations payments already made by Germany.

## 4 CHILDREN AND MOTHER DROWN

WINONA, Minn., March 6.—Mrs. Gunder Midboe and four children were drowned while her husband and George Wesland, a neighbor, escaped when the sleigh drawn by 2 horses overturned in fording Beaver Creek, near Caledonia late yesterday.

## FIGHT RAILWAY BOARD CONTROL RADIAL FARES

Legislature Lays Over Bill Introduced by R. Cooper of Welland.

WOULD REGULATE COST Proposed Measure Scored as Menace to Municipality Agreements.

TORONTO, March 6.—A short debate, which ended in a difference of opinion as to who was responsible for the Nipigon power tangle, a statement by J. McNamara, Independent (Riverdale), on his position relative to the Ontario temperance act, and the second reading of a number of bills took up this afternoon's session of the Ontario Legislature.

Compared with the crossfire which characterized the session Friday, the proceedings today were harmonious. The Nipigon power dispute seems destined to produce some lively argument later on, but today was only a beginner, and the debate consisted of statements by D. M. Hogarth, Hon. Henry Mills of Fort William, and shorter references by Premier Drury and Hon. Howard Ferguson.

Of the bills, several on insurance, based on the report of the insurance commission, were given a second reading and passed on to a committee of the house. The bill to amend the Ontario railway act, which would give power to the existing agreements between street railway companies and municipalities, was left over when it encountered serious opposition.

D. M. Hogarth (Port Arthur) introduced the Nipigon power question before the orders of the day, and went into the history of the trouble. He claimed that Port Arthur and Henry Mills of Fort William, and shorter references by Premier Drury and Hon. Howard Ferguson.

Representatives of Port Arthur and the Great Lakes Paper Company, in 1919, after a week's negotiation with the hydro commission, reached an understanding to take power at \$17 per horsepower, and later the company reached an agreement with

## THE VALUE OF CHARCOAL

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, and after eating onions and other odorous vegetables.

Charcoal effectively clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best and most reliable is the finest powdered Willow charcoal, in tablet form, or rather in the form of large, pleasant tasting lozenges, the charcoal being sweetened to be smooth and palatable.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood. It is that no possible harm can result from their continued use, but on the contrary, great benefit.

Many physicians advise Stuart's Charcoal Lozenges to patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. Charcoal is also believed to greatly benefit the liver.

These lozenges cost but thirty cents a box at drug stores, and you get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets.—Adv.

## CATARRH OF THE STOMACH IS DANGEROUS

"Thousands Have It and Don't Know It," Says Physician. Frequently Mistaken For Indigestion—How To Recognize and Treat.

"Thousands of people suffer more or less constantly from furred, coated tongue, bad breath, sour burning stomach, frequent vomiting, rumbling in stomach, bitter eructations, gas, wind and stomach acidity and call it indigestion when in reality their trouble is due to gastric catarrh of the stomach," writes a New York physician.

Catarrh of the stomach is dangerous because the mucus membrane lining the stomach is thickened and a coating of phlegm covers the surface so that the digestive juices cannot mix with the food and digest them. This condition soon breeds deadly disease in the fermented, unassimilated food. The blood is polluted and enters the system throughout the body. Gastric ulcers are apt to form and frequently an ulcer is the first sign of a deadly cancer.

In catarrh of the stomach a good and safe treatment is to take before meals a teaspoonful of pure Bismarck Magnesia in half a glass of hot water, as hot as you can comfortably drink it. The hot water soothes and soothes the stomach walls and draws the blood to the stomach, while the bisulphated magnesia is an excellent solvent for mucus and increases the efficiency of the hot water treatment. Moreover, the bisulphated magnesia will serve as a powerful but harmless antacid which will neutralize any excess hydrochloric acid that may be in your stomach and sweeten its food contents. Easy, natural direction without distress of any kind should soon follow. Bisulphated Magnesia is not a laxative, is harmless, pleasant and easy to take, and can be obtained from any local druggist. Don't confuse Bisulphated Magnesia with other forms of magnesia, milks, elixirs, etc., but get it in the pure bisulphated form (powder or tablets), especially prepared for this purpose.—Adv.

## Five Revolver Shots Halt Flight of Alleged Window-Peeper.

SARNIA, March 6.—Alleged by the police to be a "Jack the peeper," Albert Dobson is held at police headquarters to-night following his arrest after a patrolman fired five revolver shots at him.

Dobson was said to have been discovered peeping into a window at the home of James McDonald, Eglar street. Mr. McDonald tackled the man, but he broke away. Officer Monroe got to the place in time to make an effort to get hold of the peeper. As Dobson fled Monroe fired five shots and later captured him.

Port Arthur that the mill should be built at Bear Point. "This, he claimed, kindled the jealousy of Fort William, and with the government passing out of existence at the member for Fort William as a minister of the Drury cabinet, the site was changed, and understandings were all broken up. The depression came on and the mill was never built. He charged that the dickering of the present government and the influence exerted by Hon. Mr. Mills had resulted in the province having spent vast sums on power development of 27,000 horsepower for which there was but small use.

The premier explained that the question had been raised unexpectedly, but he would make a statement, perhaps tomorrow, of the government's position in regard to it.

Sergeant Major McNamara read a report that the "Citizens' Liberty League" had sent letters to doctors asking them for contributions to fight the Ontario temperance act, and he interpreted an editorial in a Toronto paper containing this announcement as insinuating that any one who opposed the Ontario temperance act in the Legislature would be in the pay of the Liberty League. McNamara said that he intended to move an amendment in the house to the Ontario temperance act, and defined any one to bring evidence that he was influenced in the slightest degree by the Liberty League or any other league or alliance.

## Bill Meets Objection.

The bill introduced by R. Cooper of Welland caused strenuous objection in the house. It read:

"Notwithstanding anything to the contrary contained in any agreement with a municipal or other corporation or person, or in any special act, the fare to be taken by a company on a railway operated by electricity shall be such as shall be approved by the (railway and municipal) board, and no fare shall be charged upon such railway which has not so been approved."

K. K. Homuth pointed out that the evil this was intended to meet was where an agreement had been made years ago and the fare charged was obviously too low for the railways to operate today. He instanced the case of the Kitchener and Bridgeport Railway, where both the company and the municipalities were anxious to have the fares increased to enable the company to give adequate service, but fare charged took out an injunction and prevented it.

However, Mr. Ferguson and W. F. Nickle (Kingston) pointed out that this bill would over-ride every agreement between municipalities and electric railway companies in the province of Ontario.

"It would be the introduction of service at cost," said Mr. Nickle. "Where a company was losing money it would go to the railway board and get the rates increased, and where it was making a large profit the municipality would get the rates cut."

That would mean that the agreement of the city of London with the railway company would be of no use," said H. A. Stevenson (London). I certainly oppose this bill."

Attorney-General Raney was anxious to have a bill which would meet the situation described by Mr. Homuth, but not a bill that would supersede all existing contracts, and the bill was left over for further consideration.

The automobile bill was the only one on the insurance list that caused any discussion, and it was given its second reading. Hon. G. S. Henry said the object of the bill was to make uniform policies, and an endeavor was made to protect the companies against dishonest owners of cars who sought to get claims paid they were not entitled to.

"The auto owners of this province are paying higher insurance rates than they should because of this type of dishonesty piling up the claim total each year," E. Watson of Victoria also endorsed the bill.

A. Strickman suggested that every person driving a car should have to carry automobile insurance, so that if he injured anyone the victim would have an opportunity to collect damages. Many a reckless driver, he claimed, owned nothing but a car, and anyone hurt was unable to collect compensation.

Stevenson suggested that the insurance policy be issued at the same time as the driver's license, and the government get a special rate from insurance companies for this purpose. This point will likely be discussed further in committee.

The main business scenery in Canada is along the line of the Canadian Pacific.

This peppermint flavored candy coated gum is a delight to young and old.

It "melts in your mouth" — but the gum in the center remains to aid digestion, brighten the teeth and soothe the mouth and throat.

There are the other WRIGLEY friends to choose from, too:

## CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn scabs hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.—Adv.

## CUTICURA HEALS WATER BLISTERS

On Face and Hands. Itched and Burned. Face Disfigured. Lost Rest.

"My trouble came in tiny water blisters which would break and form sore eruptions. My face and hands were affected, and the skin was sore and red. The eruptions itched and burned so that I scratched them, and my face was disfigured. I lost rest at night."

"The trouble lasted about three months. A friend asked me to try Cuticura Soap and Ointment, and after using three cakes of Soap and two boxes of Ointment I was healed."

(Signed) Miss Agatha Tyler, R. F. D. 1, Box 59, West Lubec, Me.

Cuticura Soap, Ointment and Talcum are ideal for every-day toilet uses.

## A SWIRL OF DUST A MILLION GERMS

YOU cannot avoid dust, you cannot avoid getting the mouth and throat full of germs, but you can check their growth and spread by the use of Formamint Tablets.

These famous Formamint Tablets are convenient — to take, pleasant tasting, yet powerfully antiseptic. Dissolve one slowly in the mouth, now and then. An efficient antiseptic is released and carried by the saliva to every spot of the mouth and throat. Germ life will be kept within the bounds of safety, possibly preventing laryngitis, tonsillitis, influenza.

Relieves hoarseness and sore throat. Good for everybody, especially singers, actors, speakers, smokers, lecturers. Children like them. See at all druggists.

Recommended by throat specialists, physicians, dentists and druggists.

## A BETTER WAY Than Diets and Exercise For Reducing

Diets and exercise are sometimes helpful for reducing. But they are inconvenient and unpleasant, and usually produce only temporary results. Then, too, they are merely corrective measures. A better way is to aid the digestive organs to turn food into muscle, bone, and sinew, and not into corpulent tissue. This method allows you to eat many kinds of food which others eat and does not require strenuous exercise.

Thousands have found that Marmola Tablets give relief from obesity in just this way. Marmola Tablets are made from the same formula as the famous Marmola Prescription. If taken after meals and at bedtime, they retard the development of fat by helping the digestive system to obtain full nutriment from food. When the accumulation of fat is checked, reduction to normal, healthy weight soon follows.

All good drug stores the world over sell Marmola Tablets at one dollar per box. Ask your druggist for them, or order them direct and they will be sent in plain wrapper, postage.

## La Diva

NON-RUSTABLE

### Corsets

For every figure there is an appropriate model of La Diva corsets which will give comfort, style, freedom of movement—and at moderate cost.

**FOR FULL FIGURES**

Model No. 4000—Superbone—is most recommended. This corset of English cut, confines the hips, moulds the figure and secures the flat back, slim effect, without undue compression, owing to its special design and also in the wonderful elasticity of its "Superbone" a woven boning used exclusively in these models. Ask your corsetier for "LA DIVA" No. 4000. 1122

Just as oranges, apples, figs and prunes are nature's own medicine, so "Fruit-a-lives"—made from these fruit juices—but concentrated and intensified—is the greatest Stomach and Liver Medicine, the greatest Kidney and Bladder Medicine—the greatest Blood Purifier—the greatest remedy for Headaches, Constipation, Indigestion, Nervousness and Bad Complexion—in the world.

To be well, take "Fruit-a-lives." 50c a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa. —Adv.

## EDWARDS RAPS ACCUSATIONS OF BISHOP FALLON

Claims He Did Not Select Statistics From "Best Rural Schools."

CITES FRONTENAC DATA

Asserts Legislative Grants Were Much Less Than Teachers' Salaries.

Special To London Advertiser. CATARAQUI, Ont., March 6.—Replying to the statements of Bishop M. F. Fallon, of the Roman Catholic diocese of London, relative to the separate schools tax issue, which was published in The London Advertiser recently, Hon. Dr. J. W. Edwards of Frontenac issued a reply here tonight.

Dr. Edwards contends that Bishop Fallon has furnished "elaborate details" to prove a matter that, in his opinion, did not require proof. His statement follows:

"His lordship the Bishop of London charges me with 'scattering meaningless statistics' and with the almost equally grave offense of not reading carefully published reports of his addresses on the separate school question.

"His lordship has not, however, challenged the correctness of my figures and has given further evidence of his appreciation of their value by avoiding the real issue which they clearly suggest and by presenting an elaborate defense where there has been no attack.

"His lordship has gone into elaborate details to prove that which required no proof, namely, that the legislative grant must be divided between the public school system and the separate school system on the basis of average attendance of pupils.

"That was also the basis of division between 1907 and 1917, when, his lordship declares, \$100,000 was diverted from the separate schools (presumably to the public schools), and when, he says, some person acted as an 'educational czar' and 'common thief'.

"In regard to the subsequent distribution of the legislative grant made by regulation to the individual public and separate schools, and to which my statistics applied, Bishop Fallon dismisses the matter by intimating that if the whole amount went to one separate school it is no concern to the general public.

"With that view I venture to suggest his lordship will find few to agree.

"His lordship says I have emphasized the grants earned by and paid to the best rural separate schools, and that while certain schools receive fair-sized grants there are others where the grants are small and insufficient.

"I have not selected the best rural schools in furnishing statistics and making comparisons, and I would be showing scant respect for his lordship's intelligent comprehension of plain facts if I accepted his remark at its face value.

"My comparative figures for Middlesex and Frontenac counties embraced all the public and separate schools. I pointed out that the three separate schools in the township of Glenelg in the county of Grey, with 39 pupils, received \$89 more of a legislative grant than the nine public schools in that township with 143 pupils.

"I pointed out that the same state of affairs existed in the county of Huron and the county of Perth. I directed attention to the fact that the three separate schools on Howe Island received in the last two years enough in government grants to pay their teachers and leave them a bonus of over \$1,250 and that one of these Howe Island separate schools with an attendance of 13 pupils received a larger grant than all the six Protestant separate schools of Ontario, with 12 teachers and 314 pupils.

"These statistics his lordship characterizes as 'meaningless.' Yet while Roman Catholic separate schools are thus being fed to repletion with legislative grants, his lordship asks for a larger share of company and corporation taxes for urban schools.

His lordship says I have avoided referring to two schools in Frontenac to which he has directed attention. He says: 'At Bedford there is a public school with one teacher and one pupil. The legislative grant to that school is larger than the teacher's annual salary. In another public school there are two pupils. There again the legislative grant is larger than the teacher's salary.'

"The public school inspector has furnished me with the following facts regarding these two schools. The Bedford school was closed in 1920 during May, June, July, August and September; number of pupils enrolled 5; average attendance 2; teacher's salary \$600; legislative grant \$171.15. In 1921 the enrollment was 5; average attendance 2.4; teacher's salary \$600 and legislative grant \$344. In regard to the other school referred to the enrollment in 1920 and 1921 was 4, the average attendance in 1920 was 3 and in 1921 was 2, the teacher's salary was \$750 and the legislative grant was \$423.85 in 1920 and \$422.50 in 1921.

"I will make no comment on these figures further than to quote his lordship's admission to myself, merely substituting his name where he used mine.

"It may be that Bishop Fallon has been hitherto unaware of the facts I have herein set forth, but hereafter he will have no justification for repeating misleading figures. In any event such methods will not disturb the supporters of public schools."

### MAY CHANGE TITLE.

LONDON, March 6.—A dispatch to the London Times from Cairo says the title of Sultan of Egypt is expected to be changed to King of Egypt when the British Parliament ratifies the removal of the protectorate and recognizes Egypt's independence.

GIRLS! GROW THICK LONG, HEAVY HAIR WITH "DANDERINE"

Buy a 25-cent bottle of "Danderine." One application ends all dandruff, stops itching and falling hair, and, in a few moments, you have doubled the beauty of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. "Danderine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant.—Adv.

Best Home Treatment for All Hairy Growths

(The Modern Beauty)  
Every woman should have a small package of delatone handy, for its timely use will keep the skin free from beauty-marring hairy growths. To remove hair or fuzz from arms or neck, make a thick paste with some of the powdered delatone and water. Apply to hairy surface and after two or three minutes rub off, wash the skin and it will be free from hair or blemish. To avoid disappointment, be sure you get real delatone.—Adv.

If Stomach is Out of Order —"Diapepsin"

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pape's Diapepsin, and realize not only immediate, but lasting relief. "This harmless antacid helps digest anything you eat and overcomes a sour, gassy or out-of-order stomach in five minutes. If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Get from your druggist a sixty-cent case of Pape's Diapepsin. There will be no sour risings, no belching of undigested food mixed with acid, no gas or heartburn, no fullness or heavy feeling in the stomach, no nausea, headache or intestinal griping. Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this food fermentation and begin eating what you want without fear of discomfort or indigestion.

DYED A SWEATER AND SKIRT WITH "DIAMOND DYES"

Every "Diamond Dyes" package tells how to dye or tint any worn, faded garment or drapery a new rich color that will not streak, spot, fade or run. Perfect home dyeing is guaranteed with Diamond Dyes, even if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods. For fifty-one years millions of women have been using "Diamond Dyes" to add years of wear to their old, shabby waists, skirts, dresses, coats, sweaters, stockings, draperies, hangings, everything.—Adv.

Head Stuffed By Catarrh or Cold? Use Healing Cream

If your nostrils are clogged, your throat distressed, or your head is stuffed by nasty catarrh or a cold, apply a little pure, antiseptic, germ-destroying cream into your nostrils. It penetrates through every air passage, soothing inflamed, swollen membranes and you get instant relief.

How good it feels. Your nostrils are open. Your head is clear. No more hawking, snuffing, dryness or struggling for breath. Get a small bottle of Ely's Cream Balm from any druggist. Colds and catarrh yield like magic. Don't stay stuffed up. Relief is sure. —Adv.

## Take It In Time!

DO you know that by far the larger number of the common ailments of women are not surgical ones; that is they are not caused by any serious displacement, tumor, growth, or other marked change?

DO you know that these common ailments produce symptoms that are very much like those caused by the more serious surgical conditions?

DO you know that many women and young girls suffer needlessly from such ailments? More than that, they endanger their health by allowing their ailments to continue and develop into something serious.

If treated early, that is, within a reasonable time after the first warning symptoms appear, serious conditions may often be averted. Therefore, at the first appearance of such symptoms as periodic pains, irregularities, irritability and nervousness, Lydia E. Pinkham's Vegetable Compound should be taken. It is prepared with accuracy and cleanliness from medicinal plants. It contains no narcotics nor poisonous drugs, and can be taken with perfect safety.

The Vegetable Compound acts on the conditions which bring about these symptoms in a gentle and efficient manner. The persistent use of it shows itself in the disappearance, one after another, of the disagreeable symptoms. In a word, Lydia E. Pinkham's Vegetable Compound acts as a natural restorative, relieving the present distress and preventing more serious trouble.

Why not give a fair trial to this medicine

## New Night Nurse Saved the Day

Influenza and Babies Make February Busy Month for V. O. N.

The new Victorian Order night nurse, Miss Bessie Fletcher, from the Maritime Provinces, didn't arrive in London a day too soon, when she reached here some weeks ago. Never in the history of the Victorian Order in London, it is believed, has there been such a busy month as February just closed.

In addition to the day duty, no less than 42 night calls were answered with service. The Victorian Order Nurses assisted in ushering 22 February babies into London homes.

Calls have been multiplied by the prevalence of grippe or influenza, by whatever name the malady is called, and, in addition, there have been several cases of pneumonia requiring aid in the course of the day's (or night's) work.

Just as the influenza epidemics of two and three years ago, whole families are found in some cases with every member ill. With five or six people in one house to be made comfortable and provided with nourishment, a visiting bedside nurse must spend several hours before she can move on to the next patients on her list.

But the nurse must keep going, so where a patient is very critically ill, day with pneumonia, some arrangement for continuous care must be made, such as calling in a trained nurse who can remain at the post.

"Miss Fletcher was added to the staff at the psychological moment," as the expressed opinion of the superintendent of V. O. nurses, with an added comment: "I do not see how four nurses could possibly have managed this past few weeks."

ARE REAL NEIGHBORS.

Following the serious loss of buildings by fire sustained by Mr. William Henderson, of Derby Township, neighbors formed a committee to canvass for donations. Thursday evening last the members of the committee and their wives met at the home of Mr. Norman Empey. After the early part of the evening had been spent in games Mr. Thos. Leslie, acting as chairman, called Mr. Henderson and his mother, Mrs. Geo. Dundas, into the parlor, where a very appropriate address was read to them by Mrs. L. Sifton, and a check for about \$500 presented by Wm. Bombusky. Mr. Dundas was deeply touched by the kindness of his friends and neighbors, and expressed in a few words his grateful appreciation for their help.

Solos by Mr. Bruce of New York, piano selections and a tempting supper served by the hostess brought the happy evening to a conclusion.

CANADIAN GIRLS ORGANIZE.

ARKWRIGHT, March 5.—A branch of the Canadian Girls in Training has been organized here and held its first meeting Friday evening.

## Pussy - Willows Out, Spring Truly Near.

THE birds coming back are not the only heralds of spring in London and district. The pussy-willows have blossomed out again. A tea hostess in the city a few days ago used as a delightfully artistic and seasonable decoration great bowls of pussy-willows and daffodils, the brown stems and grey-green fuzzy knobs of the former and the yellow-gold of the flowers forming a charming color harmony. Did she buy the pussy-willows in a florist's shop? Were they real? Almost too good to be true, but they were, indeed, brought in from the woods a few days before. That was the contribution of the young son of the household to mother's party. He went out to the woods near the coves and came back with his arms full of the willow branches. They were a bit immature, but, kept in water a few days, they came out beautifully.

## WITH THE BRIDES

### GOODING-WAGNER.

The marriage of Miss Laura Wagner, of Chesley, to Lindsey Colin Gooding, of Chesley, took place at the Church of Mary Immaculate, Chesapeake, on Monday morning, Feb. 27, Rev. F. A. Zettler officiating. The bride was attended by her cousin, Miss Kate Wagner, of Walkerton, and Val. Schurter, of Chesapeake, also a cousin of the bride, was best man. Mr. and Mrs. Gooding will reside in Chesley.

### HENDERSON-PARKINSON.

The marriage took place on Saturday, Feb. 25, at the Methodist parsonage, Tara, of Miss Hazel M. Parkinson, of Theford, Ont., to George Clifford Henderson, of Derby Township. Rev. J. Culp of Tara performed the ceremony. The young couple will reside at Tara.

### HOEFELING-SCHUMACHER.

A pretty wedding took place in the Church of the Sacred Heart, Midland, on Wednesday morning, Feb. 28, when Priscilla, eldest daughter of Mr. and Mrs. Alex. Schumacher of Midland, was married to Henry Hoefeling. The ceremony was performed by Rev. A. C. Montag. Miss Geraldine Schmidt acted as bridesmaid, and Leonard Schuett was groomsmen. Mr. and Mrs. Hoefeling will reside in Midland.

### WEICK-BROWN.

The marriage of Reta Mae, daughter of Mr. and Mrs. Geo. Brown, of North Bruce, to Floyd F. Weick, of Kitchener, took place at the home of the bride's parents, North Bruce, at high noon on Wednesday, Feb. 22, Rev. Mr. Farrill of Port Elgin, officiating. The young couple were unattended, and only the immediate relatives were present.

Mr. and Mrs. Weick will reside in Kitchener.

### REHKOPF-KLAGES.

The marriage of Miss Emma Klages, daughter of Mr. and Mrs. Fred Klages, of concession 10, Carleton Place, to David Rehkopf, of Normandy Township, took place at the Lutheran Church, Neustadt, Feb. 22. The young couple will reside in Normandy, near Neustadt.

### WEBSTER-McLELLAN.

The marriage took place at Southampton on Wednesday, March 1, of Miss Lillian McLellan to Bert Webster, both of Southampton. The young couple will reside in Southampton.

### PICKARD-McDONALD.

The marriage took place at Chicago recently of Miss Edith McDonald, formerly of Southampton, to Frank N. Pickard, of Chicago. The young couple will reside in Chicago.

### BISCH-WANDT.

A pretty wedding took place at Carlsruhe on Monday morning, Feb. 27, when Cecilia, daughter of Mrs. and Mrs. John Wandt of Carlsruhe, became the bride of Joseph Bisch of Waterloo. Miss Mary Wandt was bridesmaid and Clement Hinsperger, best man. The young couple left on a honeymoon and on their return will reside at Waterloo.

## SURE WAY TO GET

### RID OF BLACKHEADS

There is one simple, safe and sure way that never fails to get rid of blackheads, and that is to dissolve them. To do this get two ounces of peroxide powder from any drug store, sprinkle a little of it on a hot, wet sponge, rub over the blackheads briskly, wash the parts, and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter when they are, simply dissolve and disappear leaving the parts without any mark whatever. Blackheads are simply a mass of dirt and dirt and secretions from the body that form in the pores of the skin. Pinching and squeezing only causes irritation, makes large pores, and does not get them out after they become hard. The peroxide powder and water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anybody troubled with these unsightly blemishes should certainly try this simple method.—Adv.

## ONTARIO GUIDE COUNCIL TO ADOPT CONSTITUTION

Want Mrs. Betts To Retain Commissionership—Much Important Business.

Adopting a constitution for the Ontario Council Girl Guides will be a big feature of the business to be transacted at the first annual meeting of the council to be held Saturday, March 18, at 2 p.m. in Cronyn Hall. The suggested constitution, prepared by a special committee, covers the duties and powers of the council, the duties of officers, the executive and sub-executive, etc.

The following are included in the list of "duties and powers" of the provincial council in the proposed constitution:

(a) To promote the welfare of the Girl Guide movement in accordance with the policy, organization and rules of the Canadian council, and without interfering with the responsibility and initiative of local associations in the province, or of companies and packs under them.

(b) To advise the provincial commissioner in the administration of Girl Guide work in the province.

(c) To promote co-operation with kindred societies in the province.

(d) To obtain provincial funds and control their expenditure.

(e) To promote, make and assist in the establishment of local associations on such terms and under such regulations as the council may from time to time provide.

(f) To keep a register of all companies in the province, and to forward to Canadian headquarters all recommendations for registration of local companies and notifications of disbanding of local companies, and all recommendations for the grant or withdrawal of officers' warrants within the province.

Blanks have been sent out for nominations for officers, commissioner, deputy commissioner, secretary, treasurer and an executive committee of not less than three or more than fifteen.

It is stated that Mrs. F. P. Betts' name is the only one that the council is considering for the office of commissioner, which she has filled with such outstanding efficiency during the past year.

## Personals

Mrs. Eric Reid has as her guest Miss Wethered of England.

Mr. and Mrs. Joseph Lancaster of Chatham, spent the week-end in London.

Mr. Howard James is visiting his parents, Mr. and Mrs. F. W. James, Chatham.

Mrs. Oscar A. Evans of Runnymede road, Toronto, is visiting relatives in the city.

Mrs. A. Durand, Ridout street, is entertaining at a bridge Tuesday afternoon.

Miss Constance Grange of Napanee, is a guest with Mrs. E. Grange, Wolfe street.

Mr. and Mrs. Jack Smallman have left for New York, where they will spend several weeks.

Mrs. Donald Campbell, Richmond street north, has returned home after spending several weeks in Toronto.

Mrs. Russell Croden has returned home after spending several days in Toronto, where she was the guest of her cousin, Mrs. Fitzgerald.

Mrs. Richard Smith, a much-feted visitor, who was the guest of Miss Isabel Muir, Elmwood avenue, has returned to her home in Windsor.

Mr. and Mrs. Thos. Archer announce the engagement of their youngest daughter Dolly to Mr. Cyril Tuckey, eldest son of Mr. and Mrs. Chas. Tuckey of Exeter, the marriage to take place early in June.

Miss Anna Macbeth was the hostess of a bridge of three tables at the "Kennels," Friday afternoon, given in honor of Mrs. William Dent of Sarnia, who is the guest of the Misses Macbeth, Central avenue.

From Algonac, Mich., the following notice has been received with regard to a well-known Londoner:

Mr. Reginald Hudson of London, Canada, the evangelistic singer, is the guest of Professor B. H. Hayden, formerly of Milligan College, Tennessee, now of Algonac, Mich. Mr. Hudson's splendid messages in song gives him a place as one of the most worthy successors to Mr. Ira D. Sankey, of the Moody and Sankey evangelists.

## Western Ontario Women's Activities

Address News For This Column to The Editor of Woman's Page.

### PLAN HOME COOKING SALE.

To observe the women's day of prayer for missions the W. M. S. of St. Andrew's Church, Thamesford, held their regular monthly meeting Friday afternoon, March 2. Mrs. B. Day gave the topic from the study book. This society is planning to hold a sale of home cooking next Saturday afternoon.

### THEDFORD W. M. S. STUDIES CHINA.

On Thursday afternoon the W. M. S. and Ladies' Aid of Knox Presbyterian Church, Thedford, met at the home of Mrs. T. Crawford with a good attendance. The president, Mrs. Carmichael, in the chair. Mrs. Boyd led the singing, also playing her violin. Mrs. E. Martell gave a splendid paper on Honan, and Mrs. F. Elliott also gave an illuminating paper on China. The roll call was answered by current events in China. Next meeting will be at the home of Mrs. W. N. Ironside.

## Capes for Summer

BY MARIAN HALE.

LONDON, March 6.—Summer sports dresses have taken a violent fancy to clever little capes. The dress which Regina Quina wears under this full, gathered-at-the-neck cape, is quite straight of line and is fashioned of sportspun, a lightweight fabric which is being used much for smart outdoor togs.

Of vivid orange it is inset with white at the shoulders of both cape and dress. The trend of sports

clothing is naturally toward simplicity, thus the arrangement of material is the only trimming used for the outfit.

The skirt is quite short, as only dress which Regina Quina wears under this full, gathered-at-the-neck cape, is quite straight of line and is fashioned of sportspun, a lightweight fabric which is being used much for smart outdoor togs.

The former may remain quite short, but the skirts of afternoon and evening dresses as well as tailored suits and dress. The trend of sports

## ADVERTISER PATTERNS

A Combination of Comfort, Practical Style, and Utility.

3522-3795-2838—What could be more desirable for sports use or general wear, than a suit as here depicted. Comfortable knickers to which a simple blouse is joined, and over which a smart skirt is buttoned, topped by a jaunty jacket, with a convertible collar, and neat pockets. Not only for golf and other sports are the knickers popular, they are filling a long felt want in general dress lines. The skirt may be finished with a "button closing" in front, or only trimmed with buttons. Any blouse may be used with the "knickers" in place of the one attached, and the knickers are "good" to wear with any skirt or one-piece dress.

Serge, velours, duvetyn or gabardine may be used for all models illustrated, or blouse and bloomers may be of silk, satin or crepe and skirt and jacket of wool or cloth, velvet or ratine.

The Skirt, 3795, is cut in 7 sizes: 24, 26, 28, 30, 32, 34 and 36 inches, waist measure. The width at the foot is 2 1/2 yards. The Jacket, 3533, in 7 sizes: 34, 36, 38, 40, 42, 44 and 46 inches, bust measure. The "Knickers" and Blouse, 3522, cut in 7 sizes: 34, 36, 38, 40, 42, 44 and 46 inches, bust measure. To make this suit for a medium size will require 5 yards of 44-inch material for the skirt and jacket. The blouse will require 2 1/2 yards, and the knickers 2 1/2 yards of 36-inch material.

This illustration calls for THREE separate patterns, which will be mailed to any address on receipt of 15c FOR EACH pattern in silver or stamps. Address all pattern orders to Pattern Department.

Name .....

Province .....

Town .....

Age (if child's or miss's pattern).....

Measurement: Bust..... Waist .....

CAUTION: Be careful to inclose the above illustration, and send size of pattern wanted. When the pattern is sent measure, you need only mark 38, 44, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt give waist and length measure. When miss's or child's pattern, write only the figure representing the age. It is not necessary to write "inches" or "years." Patterns cannot reach you in less than one week from the date of application.

## Cynthia Grey's Mail-Box

Titian Blonde—Will forward your letter. When are you going to write us again?

### MORE BLESSED TO GIVE.

Dear Cynthia Grey,—I write in answer to the child's hat pattern I received a few days ago. On account of my sister being on a visit to me, I have neglected returning it as soon as I intended. Thanks very much. As soon as you can spare me the recitations privately I will feel grateful. As our mail generally remains in the shop in town, that's why I ask privately for same. Dear Motherite, your wings and heart must be very large to take in so many nestlings, seemingly big and little, old and young, and to try and soothe and straighten out their troubles and help in so many ways. There are so many little ways one can lend a helping hand and I think receive the most benefit themselves by doing a kindness willingly. They will hear our dear Father's voice saying: "Thine much as ye have done unto the least of these, my brethren, ye have done it unto me."

### A WELL WISHER.

Am sure Motherite appreciates your kind sentiment. Well Wisher. The recitations will be forwarded you as soon as they come in.

to the Mail-Box again as I have a lot of flower seeds and wonder if you would like to have them for the readers, the S. C. H. is growing fine and maybe the seeds would swell the fund a little more. The name of the seeds are Cosmos, Zinnia, Salvia, Bachelor Button, Four O'clock, Asters, Larkspur, Sweet Pea, Marigold, also some Scarlet Runner Beans, and early ripe water melon. If you would like to get them, do you think some one would let me have some small paper envelopes to put them in? I see somebody took my pen-name, but not quite the same, so I am still CINDERELLA.

Dear Cinderella, what a delightful, old-fashioned garden you must have in the summer time. Hit by bit our Mail-Box Sick Children's Hospital Fund has grown to quite a substantial amount and the flower seeds have been a great help. Thank you so much for the offer of yours. Am sure ever so many garden lovers will be interested at this time when they are thinking about planting trees to have all ready to transplant into gardens.

## Cling to the Dummy Like Kitchen Stove.

"SOME people would as soon think of doing away with the kitchen stove as throwing out the baby's comforts," said a young Victorian Order nurse dejectedly the other day as she sank into a chair in the headquarters in the Institute of Public Health, following a tour of visits.

"How's your war against the deadly dummy coming along?" inquired the newspaper person.

"A chorus of groans from the assembled staff was the answer more expressive than words.

"We have been so busy this past month we really haven't had time to do anything more about the 'No-dummy League,' the superintendent hastened to explain. "But we have been quietly carrying on our educational work every opportunity that is offered, warning the mothers, telling them how insidious the comforts are, how injurious to the babies."

"And a lot of good it seems to do," exclaimed the first speaker.

"And all the beautiful babies that are having their mouths spoiled by them and laying up a store of trouble in the way of adenoids," wailed another nurse.

## CLUB NEWS

What Women Are Accomplishing in London.

### ENTERTAINING SISTER CLUB.

The executive of the Hale Street Mothers' Club met recently to make final arrangements for the St. Patrick's tea, to be given March 14, in honor of the Boyle Memorial Mothers' Club. During the afternoon a presentation of a plant was made to Mrs. J. L. Bissling, by Mrs. Fred Darch, on behalf of the members of the club. Mrs. T. H. Lashbrook read an address expressing the appreciation of the mothers for the excellent way Mrs. Bissling has assisted them in giving socials and teas by providing hot water, etc., which cannot be procured in the school owing to the lack of a kitchen. Tea was served at the close of the meeting. The members of the executive are: the president, Mrs. J. C. Hosie; Mrs. R. H. Beamish, Mrs. M. J. Morrison, Mrs. S. B. Darch, Mrs. J. L. Bissling, Mrs. T. H. Lashbrook, Mrs. J. M. Lewis and Mrs. J. H. Watson.

### GIVEN TO DAY NURSERY.

The following contributions are gratefully acknowledged by the Day Nursery: Mrs. Friend, a treat for the children; Mrs. Anglerion, \$1 for a valentine treat; Mrs. Jarvis, Ridout street, \$5; Mrs. Beattie, Marley Place, cape and sweaters; Mrs. Jeffries, sweaters; Asklin Street Methodist Ladies' Aid, grocery shower; Building Class of the Talbot Street Baptist Church, \$25 to be used to purchase a rug for the superintendent's room. The proceeds from the rummage sale held recently were to redecorate the superintendent's room.

### THEDFORD METHODIST L. A.

Thedford Methodist Ladies' Aid held an enjoyable meeting last week at the home of Mrs. Lou McKellar, when the business hour was followed by a social time, during which afternoon tea was served.

## Cinnaform pastilles

If you have a cough, cold or irritated throat—slip a CINNAFORM lozenge in your mouth and you will find immediate relief. They are excellent as an antiseptic for many diseases. Especially good for Tonsillitis or Quinsy. Pleasant to take.

Price 50c. Smaller Size 25c. NATIONAL DRUG & CHEMICAL CO. OF CANADA, LIMITED

Irresistibly Different

## MAVIS PERFUME

The \$100,000 Drop

The true essence of the mystic—the subtle combination of a hundred bouquets spiced with the Orient. \$100,000 and 20 years of effort were spent before, in a single shimmery drop, MAVIS Perfume was found—the fragrance that had been sought through the ages.

Price 75c and 1.75

VIVAUDOUX PARIS NEWYORK

## YOUR MIRROR—the best judge of tooth paste

You will never know the best value in tooth paste until YOUR MIRROR shows you how white and pretty Minty's Tooth Paste makes your teeth.

Get a large tube of Minty's for 25c. at any drug store and satisfy yourself that this is so. Note the refreshing after-effect—your mouth feels clean. Look in a mirror—your teeth glisten. In a few days no trace of coating will be left.

Minty's removes the discolored coating without the aid of harmful, gritty, scouring matter.

It destroys the decay germs where your tooth brush cannot reach because it is highly antiseptic. It keeps the gums firm, the mouth healthy, has a delightfully refreshing after-effect and is a sure preventive of pyorrhea.

Minty's Tooth Paste is highly concentrated and goes farther. The large tube at 25c. does more towards preserving your teeth than the highest-priced tooth paste that you can buy, because Minty's contains only ingredients approved by the highest dental authorities.

# Minty's TOOTH PASTE

## 25c — Genuine Value

MANUFACTURED IN CANADA BY PALMERS LIMITED, MONTREAL

### SWEET KISS—SO EASY TO REMEMBER!

If you would be distinctive in your toilet, use MINTY'S SWEET KISS toilet series. You will find MINTY'S SWEET KISS face powder the most satisfactory you have ever used. The SWEET KISS perfume is simply bewitching in its refinement, and it bespeaks an aristocratic taste on the part of the user. The powder is so wonderfully pure, and so absolutely fine that it does not show, yet it stays on until you wash it off. Most good toilet goods counters carry a full assortment of the SWEET KISS series of toilet preparations. If you're doesn't—write us.

## DEFY GRAY HAIR

No matter what your age, gray hair proclaims you old. If at 30 or 40 your hair has grayed, "Brownatone" will give you the greatest boon. "Brownatone" is woman's best friend in preserving the "look of youth." It has restored golden charm to thousands. Easy to use and quickly tints gray, faded, streaked or bleached hair to any shade of brown or black. Odorless, greaseless, will not rub or wash off. Guaranteed harmless to the hair, scalp or skin. Sold at all dealers 50c and \$1.50. Trial bottle mailed direct for 5c. The Eastern Dispensary, 400-405 Coppin Bldg., Covington, Ky.

## BROWNATONE

Brownatone is sold and recommended in London by Carmichael & Lawrence; Taylor Drug Co.; Standard Drug Co., Limited, and other leading dealers.

## Scores Another Triumph in "Loves of Pharaoh."

BY JAMES W. DEAN.

NEW YORK, March 7.—Lubitsch proves again in "The Loves of Pharaoh" that he is the screen's greatest master in the handling of great numbers of actors.

There is hardly any comparison to be made between this film and other spectacle films. The only one I have ever seen with such great numbers of players is "Theodora."

In many shots Lubitsch has posed hundreds of extras in serried rows. Motionless, they appear as inanimate features of the setting until they begin to move in one accord.

Humans appear as ants in their sand hills in some long shots. In other scenes human flesh in masses stirs like foliage in a wind-caressed forest.

In close-ups the unity of action of the close-jammed crowds gives them the effect of a molten mass.

Lubitsch has accomplished in this film the element that was lacking in "Theodora"—a well-sustained romance.

Despite the great footage that depicts mob scenes, battles, and armies on the march, despite massive sets that catch the eye, interest in the story never lags.

Theonis, a slave girl, was stolen from the entourage of Samlak, Ethiopian king, by Ramphis, a subject of Amenes, pharaoh of Egypt.

Ramphis and Theonis seek shelter in the sacred treasure house. That was a capital crime.

Theonis pleads with Amenes for the life of Ramphis. Amenes, struck by the beauty of Theonis, retains her in his castle and exiles Ramphis to the quarries.

But even when Amenes makes Theonis queen of Egypt she will not recognize him as husband.

Egyptians and Ethiopians go to war because the Egyptian ruler has refused to restore the slave girl to her Ethiopian king.

"Lunch,"... wash your hands, sir. There was only one person in all England who, arriving at Crawshaw, would not have been gently but firmly enfolded by the machine-like order of its perfect administration and been led in and introduced with rites proper to the occasion.

But that one person was the Reverend Cyril Boom Bagshaw, and he now strolled across the threshold and into the room.

He stroled in. He wore a well-made suit of dark grey flannel, brown brogue shoes and a soft collar with a black tie in a sailor's knot. He disliked clerical dress and he rarely wore it.

His good-looking face bore a habitually rather sulky expression as though he were a little bored or dissatisfied. You would never have thought, to look at him, that he was a clergyman, or, as he would have said, a priest, and in not thinking that you would have paid him the compliment of not being a monk.

Mr. Boom Bagshaw, who was eating his lunch with a fork only, holding it at its extremity in the tips of his fingers, and occasionally flipping a piece of ham into his mouth and swallowing it without visible mastication, flipped in any case, and with his right hand moved three more vases which stood between himself and Sabre. He moved each deliberately, and set it down with a slight thump, rather as if it were a chessman.

He directed the fork at Sabre, and after an impressive moment spoke.

"You know, Sabre, I don't think you're quite alive to what it is that is growing up about you. Flippancy is out of place. I abominate flippancy."

"(Well, dash it, it's my house!" Sabre thought.) The Garden Home is not a speculation. It's not a fad. It's not a joke. What is it? You're thinking it is a nuisance. You're right. It is a nuisance—"

Sabre began, "Well—"

"Now, listen, Sabre. It is a nuisance; and I don't deny that when a load of discovered embedded in a solid mass of coal or stone, that coal or stone, when it was slowly forming at that load, was a nuisance to the load."

"To discover embedded in a solid mass of coal or stone, that coal or stone, when it was slowly forming at that load, was a nuisance to the load."

"Now, listen, Sabre. Another man in my place would say he did not intend to be personal. I do intend to be personal. I always am personal. I say that this Garden Home is springing up as a nuisance; and I don't deny that when a load of discovered embedded in a solid mass of coal or stone, that coal or stone, when it was slowly forming at that load, was a nuisance to the load."

"To discover embedded in a solid mass of coal or stone, that coal or stone, when it was slowly forming at that load, was a nuisance to the load."

Dagny Servaes as the slave girl and Friedrich Kuehne as the high priest within the tomb of the sphinx in "The Loves of Pharaoh." Lubitsch production.

When it appears Amenes was killed in battle, chooses Ramphis as pharaoh.

Then the old ruler appears. Shorn of his royal robes, unkempt, bedraggled, he is a sorry spectacle. Men who had been slave to him torment their fallen monarch. He falls dead upon his former throne.

Emil Jannings, who was Henry VIII. in "Deception," is Pharaoh Amenes. Paul Wegener, the central figure of "The Golem," is the Ethiopian king. Dagny Servaes, reputed to be the most beautiful actress in Europe, is the heroine. The hero is Henry Liedtke, called "the Wally Reid of Europe."

There have been "all-star" casts in other pictures, but no other film which I have seen has contained four players the equal of those four in mimetic ability. That is probably because Lubitsch allowed them to interpret their roles as they themselves sensed them.

## SISTER MARY'S KITCHEN

## BAKED APPLES

CAREFULLY baked and attractively served apple is quite as acceptable as dessert for luncheon or dinner as it is for breakfast.

There is no fruit with greater possibilities than the plain everyday apple, and while the woman who must depend on apples for her fresh fruit sometimes almost despairs of cooking them in a new way she finds them as essential as potatoes.

Try these baked apple recipes and see if the family doesn't like 'em and want more:

**Breakfast Apples.**  
Four apples, 4 teaspoons butter, 2 tablespoons sugar, 1½ cups stewed, 1 tablespoon lemon juice.

Pare apples and cut in half. Remove core. Arrange in a shallow pan. Put one-half teaspoon butter in each cavity and one teaspoon sugar. Add lemon juice to prunes and pour over apples. Cover and bake 45 minutes. Remove cover and finish baking.

**Luncheon Apples.**  
Four apples, 2-3 cups sugar, ½ cup water, 1 teaspoon grated lemon rind (optional), 8 large seeded raisins, 4 marshmallows.

Pare and core apples. Make a sirup of the sugar and water. Boil three minutes. Add lemon rind. If the apples are tasteless the lemon rind is an improvement. Pour sirup over apples in a pan. Fill the cavity of each apple with the raisins. Cover pan and bake in a moderate oven for 40 minutes or until the apples are tender. The length of time depends largely on the cooking qualities of the fruit.

When the apples are tender, but not broken, remove cover and put a marshmallow on top of each apple. Baste apples and marshmallow with juice in the pan and put under the flame or in a very hot oven. When the marshmallow is puffy and beginning to brown remove from pan and cool slightly. Serve without sugar or cream.

**Dinner Apples.**  
Four apples, ¼ cup sugar, ½ cup water, 1 teaspoon lemon juice, 2 slices of lemon, ½ inch thick, 2 tablespoons currant jelly, ½ cup finely chopped nuts, ½ cup whipping cream, 2 tablespoons powdered sugar, ½ teaspoon vanilla.

Pare and core apples. Make a sirup of sugar and water and boil three minutes. Add lemon juice and rind. Put apples in a pan with a close fitting cover and put one teaspoon of currant jelly in the cavity of each apple.

Pour over the sirup, cover closely and bake in a slow oven for half an hour. Baste frequently with the juice in the pan. The apples should be transparent when done. If the juice does not jelly remove apples and cook the sirup a few minutes longer.

Try on a colander to see if it jellies. Pour sirup over apples and when cool enough to handle coat each apple with the chopped nuts. Let cool. Serve on glass plates topped with the cream whipped and sweetened.

This is a delicious dessert that is both economical and nourishing.

## What Is Really Ether?

By Hereward Carrington.  
NEW YORK, March 3.—Ever since Professor Albert Einstein caused a widespread stir with his theory of relativity, speculation has been active as to the structure of the ether of space, which is said to pervade everything in the universe.

Some scientific men—as Professor Haeckel—believe the ether is like a very attenuated gas, but jelly-like in consistency, and so light that a sphere of it the size of our world would weigh only 250 pounds.

Sir Oliver Lodge, on the contrary, believes it is denser than gold or platinum and that our solid matter represents merely "bubbles" in the ether.

He believes that the ether has a definite physical structure and he offers us a diagram—with elaborate mathematical and physical proofs—of it.

Evidently, there is great uncertainty on this point. And this has been due, very largely, to the fact that no one has been able to form a definite mental picture of the structure of the ether of space. It is because of this that the recent theory of Dr. Marion Erwin is of value.

## POLLY AND PAUL AND PARIS

CHAPTER XXXIX.—SOME PARTY.

By Zoe Beckley.

THE wettest of wet blankets was fast putting out the fire of their merriment when Clotilde Dubois went to the door. She spoke quietly to the angry neighbor, calling him by name. He stared ill-naturedly, but recognized the condescension.

"Come, come, Monsieur, you know quite well that the French law permits each tenant one noisy party a month! We have not disturbed you before, we shall not again. You can sleep late tomorrow, you know! Good night."

He went off, grumbling and muttering, followed by the "Bon soirs" and "Dormi bien" of the company, who bubbled into fresh gaiety.

"Is that really true about being allowed one party a month?"

"Of course it is," said Clotilde. "He knows it quite well."

"Thought we were foreigners and wouldn't know, so he tried to throw a bluff, eh? Well, the company will now render that classic ballad entitled 'We won't go home until morning.'"

Paul performed the accompaniment with rattling flourish. Barry and Revelle had never heard it, and had to be taught.

Then Polly showed them how to sing "rounds," and presently they were all doing "Three Blind Mice" and "Oh, How Lovely is the Evening," with ambitious "blendings" and counterpoint which finished in gales of giggles.

This gave them good appetites and when Polly and Norma brought out the platters of sandwiches, the huge bowl of salad, the plates of little cakes and Paul's noble punch, the guests fell upon them with ravenous rhapsodies.

"I wish to propose Madame Daw-

son's name," shouted Barry, getting onto a chair and waving his sixth sandwich, "as president of the Society of Immortal Chefs! Hip, hip—"

"Hoo-RAY!" The walls quivered. Polly was decorated with a star made from the tinfoil of a cigarette box and borne by Paul to a throne on the piano-top. When she had graciously dispensed the last mignonette, the last crumb of the petits fours, and the final drop of punch, she was handed down, stepping gracefully on the piano-keys which emitted strange minor dissonances.

Violet seated herself at the instrument and cleverly took up the theme, improvising something that finally melted into an old-fashioned sentimental song. Somebody snapped off the electric light, leaving only the candles, and Violet continued the music, softly.

The company quieted down into chatting "groups of two"—Clotilde and Revelle; Norma Brady and the Englishman, Polly and Barry. No one noticed when Violet stopped playing and stood by the window, flooded now with moonlight which the candles did not drown.

There was a strange look on her face. The confident, mocking Violet was gone. Violet, quiet and grave-eyed, stared out into the moonlit court.

Paul crossed the room and stood beside her.

Polly saw him; saw Violet's lonely, far-off look. But she had her guests to attend to. Mechanically she went on talking to Barry, but could not detach her mind from those two at the window.

(To Be Continued.)

## THE QUEER HOUSE

[By Olive Roberts Barton.]

Nick set the basket on the funny little doorstep of the friendly house.

"THANK goodness he's gone!" said a voice that seemed to come from nowhere.

Nancy and Nick looked in every direction, but if anyone belonged to the voice he certainly wasn't showing himself.

Nancy said suddenly, pointing at the queer little house beside the road, "Someone's pulling the blinds up and down. Nick, that's where the voice is! Inside the house."

"Oh, shucks!" said the voice. "No one's pulling my blinds down. I'm winking. I'm me. I'm a person! I'm not an ordinary house."

"Goodness, it's the house itself talking!" gasped Nick. "Why are you glad the goat's gone?"

"Goat? Who said he was a goat? He's no more a goat than I am a piece of green cheese. He's Twelve Toes, the wicked sorcerer, who makes more trouble than all the other wicked fairies put together. We're well rid of him."

"But he's left his basket," remarked Nancy. "And she started to crawl under that it is correct."

Dr. Erwin believes ether is composed, actually composed, of crisscrossing, interlacing light-rays, coming from countless millions of stars, and crossing one another in all directions.

Just as a fabric is woven upon the loom by the warp and woof of the threads, so these threads of light make up the ether of space.

Einstein's proof that light has "weight," inasmuch as it can be bent or pulled aside by gravitation, lends support to this belief, since light is thus shown to be a far more "solid" or substantial thing than we formerly believed.

If light is solid enough to be thus influenced, it might be solid enough to weave the delicate network fabric of the universe.

There are countless stars in the heavens, and light is streaming from them constantly. There is never a stop to the radiations emitted. We even see stars which have ceased to be, and gone out of existence centuries ago!

So these light rays are certainly passing through space incessantly, and crossing one another.

Whether this view will ultimately prove to be true it is, of course, as yet impossible to say. But it is at least ingenious, and offers us a visual symbol of a possible method of construction of this wonderful background of all physical manifestation present throughout the entire universe.

HOW ETHER OF SPACE IS WOVEN FROM INTERLACING LIGHT RAYS, ACCORDING TO NEW THEORY OF DR. MARION ERWIN.

ing from countless millions of stars, and crossing one another in all directions.

# KITCHENER BLANK FALLS 2-0 AND WIN INTERMEDIATE TITLE

## WOOD LAID ON FAILED TO STOP GREEN SHIRTS

Falls Heavily Penalized in Donnybrook Proceedings—Mays Was Whole Works of Losers and Played Brilliant Game.

HAMILTON, March 6.—Kitchener are intermediate O. H. A. champions for the season of 1921-22. They practically clinched the honors in Kitchener on Friday night by defeating Niagara Falls by a 6 to 2 count, and made sure of it by winning tonight's game. The victory was a foregone conclusion, however, as there was no indication of the play, as the Kitchener team were all over the Falls, and only the good work of Mays in the nets saved them from a terrible beating. Both teams brought large crowds, fully 1,200 from the Falls and 1,000 from Kitchener, while Hamilton attendants swelled the attendance to 4,500, and while they saw but little hockey they witnessed a first-class Donnybrook.

### AURA LEES BEAT ST. MARYS 4 TO 2

TORONTO, March 6.—In the first game of the Junior O. H. A. finals at the arena tonight Aura Lee won from St. Marys, Toronto, by a score of 4 to 2, giving them a two-goal lead with which to enter the return game on Thursday night. The teams were well matched, and there was little to choose between them. St. Marys had the edge on their opponents for speed, but Aura Lee was a trifle stronger on check-out. The splendid work of the two teams leaves the championship a matter of doubt.

### L. C. I. CAGERS MIX IT IN 3 GAMES

Three good games were played in the Collegiate Basketball League yesterday. The first game was between the Red Sox and Stags played a close affair to a 12-12 result for the former, and the second game was between the Red Sox and Stags played a close affair to a 12-12 result for the former, and the third game was between the Red Sox and Stags played a close affair to a 12-12 result for the former.

## SARNIA C. I. LOSE, FORCE OVERTIME

Woodstock Won Game 10 to 5, and Round By 14 to 12.

### TILLSONBURG WON 6 TO 2

Qualify To Meet Woodstock In Next Round By Defeat of Simcoe.

WOODSTOCK, March 6.—The Woodstock College sextet eliminated Sarnia Collegiate from the running in the Western Ontario Secondary Schools' Hockey League semi-finals this afternoon, when they won the second of the home-and-home games by 10 to 5, capturing the round by 14 to 12. The local students, however, were forced into overtime to turn the trick. At the conclusion of the time the score was 8 to 5 for College, which tied the round, Sarnia having won at home by 7 to 4. Ten minutes of overtime was played, and College scored a goal in each of the five-minute periods.

The game was played on hard ice partly covered by water. Combination was out of the question, but the boys carried the puck along in surprisingly fast fashion. Liked Water. The local lads took to the water like ducks, and had the better of the argument most of the way. The winners had the round tied up in the middle of the second period, and at the conclusion of this chapter was up two goals on the round. Then in the third period Buzz Hays' Collegians came to life and paddled through the water the hopes of the locals by going from one end of the rink to the other and netting the puck. College was now one goal up and two minutes to go, when Hays for Sarnia once more evened the count. Overtime was decided on, and College scored for College after four minutes of play, knocking in a rebound after Elliott had made it sure. In the second period Elliott made it sure. In the second period Elliott made it sure.

The line-up: Sarnia—Goldstein, Stevens, Capt. Smith, Hail, Bourke, Warren. Woodstock—Capt. Logan, Murray, Silverman, Westland, Fisherman, O'Beary, Red Sox—Taylor, Diven, Stevens, Hill, J. Wilkins, Salton. Stags—Flood, Rogers, Daly, Winder, Rogers. Gorman, Capt. Cummings, Hangerford, Sterling, McDougall, P. Murphy. Has-Brooks—Kennedy, Ferguson, Upshall, Silverwood, McNally, Spieron.

### L. AND D. TO MEET ON WEDNESDAY

The weekly meeting of the L. and D. F. A. will be held Wednesday evening at the "Y." room 8. Business is to start at 8 p.m. prompt. Among other important business, the regulations forms will be issued to the various affiliated teams. St. Andrews held their weekly dance last Saturday in Hyman Hall, and their top turned out to be the best ever with this officials in charge, gratified in noting so many football faces present. This promises strong co-operation.

### 337 CONTESTANTS TEED OFF

PINEHURST, N.C., March 6.—A new world's record was established at Pinehurst today, when 337 contestants teed off in the qualifying round of the annual spring tournament. This is the greatest number of golfers that have ever played concurrently in any tournament since time began. The great field disposed of the first 18 holes of the 36-hole tournament, using two courses for the purpose, and was led into camp by A. Lucien Walker, Jr. of Richmond County, former Columbia captain and intercollegiate champion, who outplayed his 336 competitors by a margin of one stroke with a round of 38—38—76 on the number two or championship course. Walker's round included three or four excursions into the woods, and a penalty of stroke and distance for a ball lost in the water. The great field was finished in second place with a round of 36—41—77, played on course two.

### CHIEF BENDER, famous for years

as a big league pitcher, is to manage an International League club the coming season. Bender is one of the best shots in the country. During the winter he puts in his time representing one of the biggest time concerns in the country. Eddie Collins, now with the Chicago White Sox, but who for years was a teammate of Bender on the Athletics, is responsible for the following story with Bender as the central figure. Bender is strong for duck hunting. The story goes, that he and several other players went on a duck hunt after the close of the season. Bender spied what he believed was a flock of ducks. Creeping up carefully, Bender blazed away at the opportune moment.

### GIRLS BILL TWO GOOD GAMES

Tomorrow night two good games will be staged in the East End Community Hall between teams of the Ladies' Club Basketball League. Smallman & Ingram meet St. Peters in the first game, and Thistles, now leading the league, will meet the girls from Knox Presbyterian Church.

## Ruth's Big Bat Plays Only Minor Role

Does the weight of Babe Ruth's bat have anything to do with his remarkable ability to smash out home runs? Ruth uses a bat that weighs 58 ounces. Cobb, Speaker, Sisler, Hornsby and the other leading batters use a stick that weighs between 33 and 40 ounces. Does the 18 to 20 ounces more weight that Ruth carries in his bat explain why it is so much easier for him to make home runs? It is true that Ruth uses the heaviest bat in the league. The rules provide that the bat cannot be longer than 42 inches. Ruth's bat is the limit.

### EVANS, part, the rules say

the bat cannot be over 2 1/2 inches in diameter. Ruth also goes the limit. Unlike a great many players, Ruth likes a rather small handle. In that respect alone his bat is smaller than used by most players. He grasps the bat firmly and finds the smaller handle enables him to get a tighter grip. The rules say nothing as to the weight of the bat. Ordinarily 40 pounds is far too heavy for most players.

### CLASSICS of the DIAMOND

CHIEF BENDER, famous for years as a big league pitcher, is to manage an International League club the coming season.

### READY FOR WILLS, They Say

Coming on top of the Wills-Norfolk fiasco, which many of the sport writers of New York warned openly was nothing more nor less than a set-up for a forthcoming "Battle of the Ages," the idea will probably not produce much in the way of smoke for a while. But the public is willing to stand for almost anything in the heavyweight line, providing the publicity is cleverly enough handled.

### MUTT AND JEFF.

BOSTON IS INDEED THE CITY OF CULTURE. I CERTAINLY POUNDED UP ON MY ENGLISH WHILE I WAS THERE.

WELL, HOW'S THAT? AND WHAT ARE YOU GONNA EAT?

BOSTON IS FINIC. I HOPE ULTIMATELY TO HAVE A PLACE OF ABODE THERE. I THINK I SHALL PARTAKE OF A PORTION OF SATANIZED CRUSTACEANS!

SATANIZED CRUSTACEANS? THERE AIN'T NO SUCH FOD ON THE BILL OF FARE!

MY DEAR SIR, I REGRET I MUST DIFFER WITH YOU! SATANIZED CRUSTACEANS ARE ON THE MENU CARD!

PERHAPS YOU GRASP SLANG MORE READILY! IN CRUDE SLANG SATANIZED CRUSTACEANS MEANS DEVILED CRABS!!

Mutt fails To Fall For The "Culture" Stuff.

BY BUD FISHER.

## Shamrocks Are Champs of Western Group L.O.B.A. When Woodstock Defaults

Woodstock sent word here yesterday that they had defaulted their games in the L. O. B. A. and that leaves the local Shamrocks, champions of the western group. Shamrocks, last year's champions and holders of the Lady Beck Trophy, are confident of retaining again this season, though realizing that the Queen City girls are much improved over a year ago.

## Spring Training Gossip By Billy Evans

Several big problems confront a number of major league managers. They must be solved during the spring training trip.

The New York club has the outfield problem on its hands. Babe Ruth and Bob Meusel will be out for five weeks as the result of the suspension by Judge Landis.

Manager Miller Huggins must fill that void in some way so that the loss of these two players will not seriously handicap the chances of the Yankees to repeat in the American League.

The pitching problem is the most serious one that confronts Manager Speaker of the Cleveland club, the runner-up in the American League last season.

Either Walter Mails or Jim Bagby must do a large corner for the Indians, possibly both, if Speaker is going to make things interesting. The rest of the club will deliver some getting pitched.

Detroit has two infield positions, as well as pitching, to worry about. Jones at third and Blue at first will show real class. If Pep Young returns to form, second base will be satisfactorily taken care of.

Shortstop is the big question at Detroit with second base in doubt. A team that is not satisfactorily taken care of at those two most important positions is under a very serious handicap.

If it is Manager Cobb's good fortune to have one of his recruit infielders make good at short, it will go a long way toward settling his problem.

Lack of consistent pitching played havoc with the Tigers' chances last year.

Incidentally, Gibson has a few infield worries. Third base is a matter of doubt. Likewise second may cause him trouble. This fellow Traynor, who joined the club last fall, looks like a good bet to solve Gibson's worries in the infield.

At Cincinnati, Pat Moran is going to have practically a new infield. At short and third will be Cavener and Pinelli, two newcomers to Cincinnati. At second and first will be Boline and Fossaca.

While lacking major league polish, this infield seems to have great promise, and may go big when it gets settled to big league ways. In the meantime, however, Pat Moran may have some anxious moments. If Eddie Roush quits his absence will be felt at bat and in the field.

It's the same story in every training camp, with the possible exception of the New York Giants, who seem pretty well fortified. Outside of McGraw, every other manager has some serious problems to solve between now and the opening of the season.

## CLAIMS CANADA TAKES BEST CARE OF VETERANS

Margot Asquith Declares Better Provision Made in Dominion Than in U. S.

NEW YORK, March 6.—Canadian Press.—Canada is taking much better care of its sick and crippled soldiers than the United States authorities are. This was one of the many frank statements made to United States reporters by Mrs. Margot Asquith last night on her return to New York from her tour of the principal Canadian and United States cities of the east.

"I am afraid that, speaking generally, the United States has forgotten its disabled soldiers," she declared. "I am not speaking of this bonus question, of which I hear so much. Money is no good. It will not help. But you do not visit the sick and crippled men in the hospitals. It is very different in Canada, where everybody states that he is personally interested in the men. It is that way in England, too. It isn't the state touch that is needed, but the individual touch, the personal kindness."

## LONDON-TO-TORONTO BUS SERVICE IS ESTABLISHED

Forest City to Woodstock Car Forms Link in Chain.

WOODSTOCK, March 6.—That the motor bus as a means of interurban transportation has arrived is evidenced from the fact that it is now possible to travel by bus over good highways from London all the way to Toronto.

Today the last link which connects the Forest City with the Queen City through Ingersoll, Woodstock, Brantford and Hamilton was forged by the inauguration of a bus service between London and Woodstock, through Thamesford and Ingersoll.

It is now possible to go right through to Toronto by comfortable, heated motor busses by changing at Woodstock, Brantford and Hamilton. One may alight at any farm gate along the route.

It is planned to connect London with Sarnia as soon as possible. This may be done during the coming season, but it is not definitely settled yet.

## OFFERS TO SURRENDER.

Berlin, March 6.—Dr. Wolfgang Kapp, who led the revolution in March, 1920, which resulted in the temporary overthrow of the Ebert government, has offered to surrender for trial with the understanding that he be given safe conduct and not be placed under arrest. His proposal has been forwarded to the supreme court at Leipzig from an unnamed point in Sweden.

## MUST GET AFFIDAVIT

McCartney of London Motor Team Is Not Passed On.

At the meeting of the Manufacturers' Hockey League executive, the McCartney protests against London Motors were heard. The charges of inelegibility against Roy and Archie McCartney and McLean were squashed, and the goal decision will stand as the referee gave McCartney's credentials, however failed to satisfy the executive, and this charge is being further investigated, and the player has been requested to submit an affidavit.

## STRATFORD WINS BY DEFAULT

STRAFORD, March 6.—Seaford Highlanders defaulted to Stratford Juniors in the Northern League tonight, but in an exhibition match the locals won out, 6 to 3.

Stratford. Seaford. Goal. Montgomery. White. Defence. Govenlock. Bellanger. Defence. Cadmore. Thorenz. Centre. Weiland. Griffin. R. W. Reid. McLeod. R. W. Hays. Bullard. McCully. Sub. Bullard. Referee—Wade, Woodstock.

## STEAMER STUCK IN ICE

Bornholm, in Slob Ice, Five Days Out of St. John's, Nfld.

HALIFAX, N. S., March 6.—The steamer Bornholm, five days out from St. John's, Nfld., for Halifax, is stuck fast in slob ice, about 70 miles southeast of Cape Race, according to a wireless to the naval intelligence staff here. She has coal on board to last eight days longer. The message came from the steamer Canadian Sapper, via Cape Race.

The Sapper worked four hours yesterday afternoon and evening, but was unable to get closer than two miles. She then proceeded for Halifax at slow speed through heavy ice. She gave the Bornholm's position as latitude 46.99 north, longitude 54.10 west. The Red Cross liner Rosalind, yesterday reported that she had only sixty miles of open water out of 540 she covered on the trip. She had to run southerly as far as Sable Island to get around the heavy ice floes.

## ANOTHER FIRM ASSIGNS.

MONTREAL, March 6.—The brokerage house of Dunn & Co. Hospital street, assigned this morning. The firm was a small one, and had no seat on the stock exchange.

## for lameness

Lameness neglected often becomes serious and permanent and the longer you delay the more difficult the recovery.

Promptly treated with Absorbine, Jr. the joints and muscles soon lose their soreness and stiffness.

Absorbine, Jr. is made of herbs and is non-poisonous—safe and pleasant to use.

\$1.25 a bottle at most druggists' W. F. YOUNG, Inc. 344 St. Paul St., Montreal.

## BASKET BALL JERSEYS

All Wool, Assorted Colors, ONLY EACH..... \$2.50

SUPERVISE IMPORT  
OF FOREIGN EGGS

Conference of Producers Pass Resolution to Prohibit Eggs Under Canadian Standards.

## PROMISES CONSIDERATION

Hon. W. B. Matherwell Not in Favor of Prohibitive Floor of Resolution, Though.

Ottawa, March 7.—A resolution prohibiting (unless under Canadian standards) the importation of foreign eggs was passed at the session yesterday of the egg producers, dealers and consumers in conference at the Chateau Laurier. The resolution, a compromise, was carried unanimously after a protracted discussion in which all sides to the question were thoroughly debated.

Hon. W. B. Matherwell, minister of agriculture, did not express entire satisfaction with the result of the voting. He stated he was much impressed with the fact that all the parties had come together and passed a unanimous compromise resolution. It was, however, nothing more than a compromise in his opinion.

Mr. Matherwell described the solution as nothing less than a distinct change of mind, and stated he could tell from the remarks of those speaking that their hearts were not changed, though supporting the resolution. He said the result saved of the prohibitive and that such a proposition needed careful consideration. Further, he would have to be convinced of its feasibility.

Most Important Factors.

He pointed out that producers and consumers were the most important factors, and while the distributors were necessary, they were not of the same importance. He had to be shown why, if eggs had the same quality, it was not possible to have them graded according to the Canadian standards. He promised, however, full consideration of the whole question and stated that his department would meet the trade as far as was consistently possible with the general principle embodied in the resolution.

Other important resolutions passed were: "That imported eggs be distributed in the original packages or in packages marked showing the country of origin."

"That all foreign eggs in shell or otherwise state clearly the country of origin." In this the retailers dissented.

Country of Origin.

"That all imported eggs other than those in the shell come in packages plainly and distinctly marked, showing the country of origin, and that when used in the manufacture of foods, and where such foods are sold at a conspicuous sign with two-inch letters, must be placed by the seller so that the consumer may know the country of origin."

"That the department of agriculture arrange for the supervising of the canned-egg industry."

"That no person operating any cold storage plant shall receive eggs for storage or shall store eggs there, in without an accompanying certificate in writing from the owner of such eggs. Certifying that said eggs have been candled and all bad and unsound eggs removed."

"That no person shall receive, sell or demand payment for bad eggs in excess of a margin of allowance of one per cent on the total of each transaction."

SHORTENS TERM  
OF GALT PASTOR

GALT, March 6.—While no announcement was forthcoming from officials of the First Baptist Church, it was learned today that the resignation of the pastor, Rev. W. S. Webb, which followed rather sensational charges last week, will take effect immediately.

The resignation, which was expected to become effective within three months of March 1, but it is understood this has been altered, and Rev. Webb will be given a month's salary with his release from the pastorate.

Balfour Favors Coalition  
Government

LONDON, March 7.—Sir Arthur Balfour declared himself today a believer in the benefits of the coalition.

"I am emphatically of the opinion that the country's interests are best served by the coalition," he said in addressing the Carlton Club at a luncheon in his honor.

He will remain a member of the Conservative and Unionist party, he added.

This was Sir Arthur's first public appearance since the bestowal upon him of the Order of the Garter.

SCIENTIST WILL  
PROBE MYSTERY

Dr. W. Franklin Prince to Remain in Nova Scotia "Haunted House."

WITHHOLDS JUDGMENT  
Does Not Expect to Discover Anything of Sensational Character.

Halifax, N. S., March 7.—The Herald this morning received its first report from Dr. W. Franklin Prince, investigating officer of the American Institute of Psychological Research, who has been brought to Nova Scotia for the purpose of probing the recent mysterious happenings at the Alexander McDonald home.

Dr. Prince spent last night at Antigonish, where his first report was written, and set out this morning with his party in a sleigh for the McDonald home.

Dr. Prince says his first task on arrival in Nova Scotia was to make a careful study of the reports of Messrs. Harold Whidden (newspaper correspondent), and P. O. Carroll, provincial detective, and the accounts of interviews with earlier witnesses, and his present conclusions may thus be summarized: "There appears to be no reason to doubt the good faith of Mr. and Mrs. Alexander McDonald, the MacGillivray, neighbors of the McDonalds, and other witnesses."

"In all probability they have told the truth as they understood it, whether their interpretation of the facts is correct or not. As to Mr. Whidden, I have no doubt whatever that his account is absolutely truthful, that he and Carroll heard sounds of unknown origin and experienced sensations which they described as 'slaps.' It is too early for me to pronounce an opinion regarding the cause of their experiences. No extravagant expectations should be entertained of anything that I shall witness or see."

"That singular sounds and even physical sensations may be experienced is, judging by other cases known to me personally, not improbable, but nothing whatever may occur, and if anything does it may be quite tame to the average man. On the other hand a mere succession of sounds, if it could be proven that they were not due to physical causes, would be of transcendent significance to science."

HORTICULTURISTS TAKE  
STAND AGAINST REQUEST

St. Thomas Society Passes Resolution in Opposition to Sharing of Annual Grants.

ST. THOMAS, March 6.—Because it believed that it was decidedly unfair of the Ontario Horticultural Society to ask the individual horticultural societies in the cities and towns of the province to give a portion of their annual grants received from the government to help establish societies in towns where there are no organizations, the St. Thomas Horticultural Society at a meeting Monday afternoon voted unanimously against such a request embodied in a resolution passed at the annual session of the central body in Toronto.

It was proposed by the provincial organization that all societies should give a percentage of their annual grants, according to the amount received. Those receiving \$100 or less from the government would be asked to give 3 per cent, those receiving more than a certain amount would be expected to give 10 per cent.

Because the grants are based on the membership of the different organizations it was felt by the members the larger societies would be carrying a great portion of the burden of smaller organizations.

The share of the local organization would have been \$80, as the annual grant is \$800.

Without a single exception, except perhaps the secretary and the president, who were neutral, the St. Thomas members were outspoken against the proposition. The demand was exceedingly unfair, it was felt that if the central organization needed money to establish other societies special grants should be asked from the government.

A letter to this effect was sent to the provincial society.

RECEIVE MUCH CLOTHING

Kitchener Committee Members' Appeal Brings Generous Response.

KITCHENER, March 6.—As the result of the announcement of the clothing drive for the benefit of the families suffering from the present depression, the community clothing committee has been flooded with clothing from all quarters of the city.

The response which has only just begun is a most generous one, and if it keeps up there will perhaps be enough clothing to pass to other communities.

GALT CONSTABLE RESIGNS.

GALT, March 6.—Police Constable Fred Cort, who joined the force a year ago, has resigned, effective March 13. He is leaving the city.

FINISH DRAFT OF  
IRISH CONSTITUTION

Continued From Page One.

clared the government had refused to alter a single line of the Free State bill at the request of the Ulster members, yet, as soon as the Dublin people had passed a resolution necessitating a change in the bill the government agreed to that change.

Capt. Craig and others of the Ulster members announced that they would make further part in the discussion of the committee stage of the measure, and one by one they left the house.

One member while going out declared it would be well to discuss the bill elsewhere.

Lord Henry Cavendish Bentinck later raised the question in the house, feeling that in 1874 a formal treaty was concluded between the British government and the Six Nations Indians, the validity of which had been repeatedly recognized, even as recently as in 1909, by the Canadian government, the under-secretary for foreign affairs, C. R. Harnsworth, M.P., would state when and by what parties the treaty had been renounced.

Right Hon. Winston Churchill, secretary of state for the colonies, replied that if the questioner referred to the so-called Haldimand treaty, a question which had arisen as to whether the Six Nations Indians occupying the lands set apart by the treaty are amenable to certain Canadian legislation. This, he said, was entirely for the Canadian government to deal with.

BRIDGES DESTROYED.

DUBLIN, March 6.—Communication between Fermanagh and Free County being interrupted during week-end, the roads were torn and bridges destroyed. It is not known by whom the destruction was done.

Andrew Gilmore, riding a bicycle to his home in Banbridge, County Down, last night, disregarded a demand by the special constable that he halt. The patrol, therefore, fired on him and he suffered a fractured jaw and an injury to his leg.

CONSTABLES SHOT.

BELFAST, March 6.—While doing duty on Crumlin road, Special Constables Steel and Aines were shot and wounded. Sniping continued throughout the evening. A motor van of the co-operative society was attacked and burned in the Falls road.

Unknown men entered the house of Katherine Lynch here tonight and shot her dead.

60TH ANNIVERSARY OF  
MARRIAGE CELEBRATED

Happy Occasion Enjoyed By Mr. and Mrs. Donald Brown of Paisley.

PAISLEY, March 5.—On Saturday Mr. and Mrs. Donald Brown celebrated the 60th anniversary of their marriage at their residence, Victoria street south. Owing to the state of Mr. Brown's health, the unique event was very being present. Mr. Brown was born 33 years ago on the island of Tiree, Argyshire, Scotland, and when a boy of 10 years came with his parents to Canada.

The family for a few years resided near Fergus, and 70 years ago they came to Bruce County, took up land and cleared a farm near Underwood, residing there until about 26 years ago, when they returned to Paisley.

Mrs. Brown is in her 78th year, a native of Cape Breton. The couple were married in Tiverton in 1862. Mr. Brown had the distinction of being a piper of small merit at public and private gatherings. An ardent Liberal all his life, it was his delight to lead victorious Liberals in their local processions.

The family consists of four sons and three daughters, John, Daniel and Lachie, Walkerville; Alexander, Paisley; Mrs. Mary MacLaughlin and Mrs. Annie Turnbull, Walkerville; Mrs. Christina McDougall, Greenwood; also 12 grandchildren and four great grandchildren. Many handsome gifts were received by Mr. and Mrs. Brown.

BUTTER AND EGGS

Chicago, March 7.—Butter—Lower; creamery, extra, 36c; Eggs—Higher; receipts, 17,852 cases; firsts, 22 1/2c.

**STEVENSON GLAD RADIAL**  
**FARE BILL MET DEFEAT**  
London's Member Declares Rights of  
Municipality Were Impaired  
By Measure.

Special To London Advertiser.  
TORONTO, March 6.—Dr. H. A. Stevenson, M. L. A. for London, is elated over the action of the Legislature in session Monday in throwing out the private bill introduced by R. Cooper of Welland to allow the Ontario Railway Board to approve all fares to be charged by electric railways in Ontario.

This bill provided power for the board to pass on the fare notwithstanding any agreement with a municipal or other corporation to the contrary.

Interviewed by The London Advertiser here Monday night, Dr. Stevenson declared that this bill, which did not come up for second reading because of strenuous opposition, is the McKay bill of last year in a new guise.

"If this bill were passed it would override the city of London bill which is coming up," said the member for London, "and for this reason I vigorously opposed it. Some of them were in favor of it, but the Hon. Mr. Ferguson was with me. Mr. Raney seemed to favor it, but Mr. Ferguson asserted that there was something evidently wrong."

"After a lot of fighting Mr. Cooper withdrew his bill. It was very important to London, as the street railway could go to the Ontario Railway Board and have fares approved regardless of agreement with the city, thereby taking away the rights of the city. We have enough trouble in London without this bill interfering with the franchise, and I pointed this fact out to the members."

**SURE YOLANDE IS**  
**SOON TO MARRY**

LONDON, March 6.—From a reliable source it is claimed that negotiations are pending for the marriage of Princess Yolande, eldest daughter of King Victor Emmanuel, of Italy, to Prince Nicholas, younger son of King Ferdinand of Russia, says an Exchange Telegraph dispatch from Rome today.

The report is as yet unconfirmed.

**HEADS**  
**THAT ACHE AND PAIN**

It is hard to drag along with a head that aches and pains all the time.

In nine cases out of ten, persistent headaches are due to poisoned blood, the blood being rendered impure through some derangement of the stomach, liver or bowels, but no matter which organ is to blame the cause must be removed before permanent relief can be obtained.

**BURDOCK BLOOD BITTERS.**  
which has been on the market for the past forty-five years, removes the cause of the headache by starting the organs of elimination acting freely, and when the impurities are carried off from the system, purified blood circulates in the brain cells, and the aches and pains vanish.

Miss Clara Murphy, Center Dummer, Ont., writes: "My system was greatly run down and my blood out of order. I suffered a great deal from severe pains in my head which made me feel very miserable. After having tried other remedies I purchased a bottle of Burdock Blood Bitters, and was very glad to notice a decided improvement in my health. I took another bottle and it has done me an enormous amount of good. I have recommended it to some of my friends who were in a similar condition, and they all say it is a wonderful remedy."

## AWAITS FATE OF FORDNEY TARIFF IN U. S. SENATE

Hon. W. S. Fielding Admits  
Nothing Can Be Done on  
Reciprocity at Present.

**SELLS RAIL BOND ISSUE**

**Declares U. S. Recognizes  
That Trade Cannot Con-  
tinue "Lop-Sided."**

OTTAWA, March 6.—(By Canadian Press).—"From the facts it is clear that at present nothing can be done in the way of negotiations with the American authorities. We must await the final action of Congress on the Fordney tariff bill."

So, in a statement made tonight, Hon. W. S. Fielding, minister of finance, summed up the result of the Washington conversations on reciprocity. The object of Mr. Fielding's visit to the United States was two-fold: 1—to attend to important financial arrangements in New York; and (2) to make a preliminary inquiry, somewhat informal in character, as to the disposition of leading public men in the United States toward better trade relations between that country and Canada.

In respect to the first-named object Mr. Fielding announced that to meet the maturing C. N. R. obligations an issue of \$11,000,000 three-year 5% notes of the Canadian Northern Railway, guaranteed by the government of Canada, had been sold to Messrs. Dillon, Read & Company, of New York. When the terms were announced later, Mr. Fielding added, he thought they would be regarded by all financial people as eminently satisfactory.

**Voices His Pleasure.**

Touching on reciprocity, Mr. Fielding reviewed the present situation in Washington. He noted with pleasure the appreciation of Americans of Canada's position. There was increasing recognition of the fact that trade cannot long be continued in a lop-sided form.

"The thought," remarked Mr. Fielding, "that if they want to sell they must at the same time be willing to buy seems to be growing amongst the American people. They are not likely to overlook this fact in its relation to Canada at a time when, more than ever before, they are seeking for new markets."

In full, Mr. Fielding said:

"My visit to the United States was for two purposes. One was to attend to independent financial arrangements in New York. Of these I will speak presently. The other was to make what I may call a preliminary inquiry, somewhat informal in character, as to the disposition of leading public men in the United States towards better trade relations between that country and Canada."

I had pleasant interviews with President Harding, with several of his cabinet ministers, and with some of the most influential members of the Senate and House of Representatives. From all these I received warm expressions of appreciation of Canada as a good neighbor and a good customer. What might occur if formal negotiations for reciprocity were taken up could not easily be determined. The act of Congress approving of the reciprocity agreement of 1911 remains on the statute book.

**U. S. Views Differ.**  
"Perhaps the simplest solution of the question would be to adhere to the agreement of 1911 and leave Canada, if she so desired, to accept it. Some members of Congress, however, held that by the action of Canada in rejecting the agreement in 1911, the whole matter had been ended. Later tariff legislation, they said, was based on the assumption that the reciprocity act of 1911 was in effect dead."

"Specific repeal of the act is contemplated by a clause in the tariff bill now before the Senate. What is known as the emergency tariff act, passed some months ago and now in force, deals with agricultural products, and is now operating as a barrier to the importation of the products of Canadian farms into the States. The provisions of that act are continued and expanded in a general tariff bill that is now before the Senate. The bill was passed by the House of Representatives some months ago."

"Further delay is expected, indeed in some quarters doubts are expressed whether the bill can go through at all during the present session. It is hardly probable that any formal negotiations between the two governments can take place until after the Fordney bill is disposed of."

**Cites Agrarian Bloc.**  
"An important feature of the tariff situation is the formation of what is called the agricultural bloc, a combination of senators of both political parties representing chiefly western states, where the farming interest is the dominant one. A member of this group said he was obliged to point out that as the Canadian farmer was a competitor with the farmer of the western states, producing substantially the same things, he (the member) was afraid that any proposal for the free exchange of agricultural products would now meet with hostility from that group."

"However, I was reminded by several members that the Fordney tariff bill contains a clause authorizing the president to open negotiations with reciprocal trade with any country that is prepared to make satisfactory terms. While this clause is general in its terms, I am informed that those who caused it to be placed in the bill had in mind the probable making of some reciprocal arrangement with Canada."

**"Nothing To Be Done."**

"From these facts it is clear that at present nothing can be done in the way of negotiations with the American authorities. We must await the final action of Congress on the Fordney tariff bill. We note

## Will Exclude Public Today From Montreal Hearing in Delorme Case

MONTREAL, March 6.—Unless there is a last minute change the trial of the Rev. J. A. Delorme, charged with the murder of his half brother, Raoul, will be proceeded with tomorrow before Judge Cusson, in a room freed of all but officers and newspaper men.

On the decision to be reached by Judge Cusson will depend whether the accused man will face a jury of his peers to stand trial for his life. Thirty witnesses have been summoned to appear before Judge Cusson tomorrow.

J. C. Walsh, K.C., in charge of the prosecution, stated today that the hearing will positively go on tomorrow. Special arrangements have been made at the court house for keeping the curious out of the building while the hearing is in progress. Constables will be stationed all over the building, and the gates which were formerly at each end of the corridor downstairs, have been once more put in place.

It is generally admitted that the public will not be admitted, as together with the large number of witnesses and the battery of newspapermen and detectives, it is thought the courtroom will be badly crowded. Detective George Lajoie, who worked on the case from the time the frozen body of Raoul Delorme was found in a lonely field in Notre Dame de Grace, personally served all the summonses in Montreal on Saturday afternoon.

**THREE RELEASED  
IN ROBBERY CASE**

**Suspects in Connection With Tecumseh Mail Theft Granted Freedom Without Bail.**

WINDSOR, March 6.—Three of the suspects in connection with the recent mail robbery at Tecumseh were allowed their freedom today without furnishing bail when they appeared before Magistrate Gundy for trial in Windsor police court.

A fourth man, Caesar Drouillard, aged 29, Walkerville, whom the police had charged with receiving a portion of the stolen money, was released from the charge, the crown withdrawing the information laid against him.

The other three who were not asked to furnish bail are: Fred Casagden, aged 19; Jerome Massey, aged 16; and Emanuel Parent, aged 18, all of Windsor.

Close to 1,000 persons, principally residents of Tecumseh and surrounding district crowded the court room today, expecting that the trial of the various men concerned would proceed.

However, at the request of W. H. Furlong and Frank W. Wilson, attorneys for those held, an adjournment was granted until Friday. Severin Laforest, the 21-year-old bank teller, who, police say, confessed to conspiring the robbery to cover up his shortages at the Home Bank, Tecumseh, and Russell Drouillard, directly charged with the robbery, were remanded to jail without bail.

price will be regarded by all financial people as one that should be eminently satisfactory to the government and public."

## LLOYD GEORGE TO SEEK REST IN WELSH HOME

**Attack of Bronchial Catarrh  
Necessitates Indefinite Ces-  
sation of Political Activities.**

**MAY FORM NEW PARTY**

**Coalitionists Likely to Unite as  
Nationalists in Preference  
to Disbandment.**

LONDON, March 6.—The impression is general tonight that the political situation has been relieved of considerable strain in the last 24 hours, authoritative reports indicating that the prime minister has decided to continue in office.

Influenced by his unionist colleagues, particularly in reference to the international position as it would be affected by a change in the premiership at this time, Mr. Lloyd George is said to be at least ready to hold resignation in abeyance.

It is understood that assurances of the support of these leaders were given last night at the Birkenhead dinner at which, in addition to the prime minister and the lord chancellor, there were present Austen Chamberlain, Sir Arthur Balfour, Lord Curzon, Sir Robert Horne and Sir Laming Worthington-Evans.

Meanwhile Mr. Lloyd George was confined to his room in his Downing street residence all day suffering from bronchial catarrh; he received no visitors and is expected to leave Wednesday, on his doctor's orders, for a rest of a week or longer at his old home at Criccieth, Wales.

The Conservative members of parliament are meeting privately in the House of Commons tonight to discuss the entire proposition and it is reported that a meeting of the national executive of the Unionist party, comprising representatives from all parts of the country is to be called for March 14.

**Strong Support Assured.**  
While definite guarantees of the support of the rank and file of the Unionists were not given at the Birkenhead dinner it is understood that assurances have been received in the last few days that this backing will be considerable.

A unanimous agreement is said to have been reached at last night's gathering that instead of the coalition breaking up, steps should be taken to coalesce it into the talked-of national party. Announcement of the policy decided upon is awaited in Sir Arthur Balfour's address to

## 11 Girls Killed in Blast in English Factory.

BIRMINGHAM, Eng., March 6.—Eleven girls were killed and thirty severely injured today in an explosion of powder which they were removing from cartridges at Tipton, a short distance northwest of Birmingham.

The faces of the injured girls were blackened beyond recognition by the powder.

The disaster occurred at the Knowles factory, which recently purchased 150 tons of cartridges from the government.

The explosion blew the roof off the building.

his constituents in London tomorrow. He is credited with using his best endeavors to persuade the premier to continue at least until after the Genoa conference.

Mr. Chamberlain, replying in the House of Commons today said that the premier could not possibly attend the sessions daily during question time at present. He had previously announced that Mr. Lloyd George was confined to his home, and mildly reproved Josiah Wedgwood, labor member as probably not having heard the announcement of the premier's illness when the member asked whether the failure of the premier to appear at question time was not partly responsible for the condition of the coalition.

One of the London evening papers declares it is quite clear that the premier's health is to be the "next card in the pack" and much may turn on it, adding:

"Cincinnati is returning to his farm and it rests with the Conservative section of the coalition to decide whether they will recall him to the senate."

Don't waste time and energy running around, after your apartment. Let the Want Ads bring your apartment to you.

## NIAGARA FRUIT DISTRICT MAY RIVAL CALIFORNIA

Hon. Manning Doherty Addresses  
Meeting of Growers in St. Catharines Opera House.

ST. CATHARINES, March 6.—By employing the right methods in co-operative marketing, Niagara district should acquire an equal measure of commercial prosperity from tender fruits with California, according to Aaron Sapiro, co-operative expert of that state, who addressed a large audience of fruit growers in the grand opera house here this afternoon.

"For many years I have felt that in Ontario the machinery for the handling of fruit products was not the best," declared Hon. Manning Doherty, Ontario minister of agriculture. "I felt that the periodic glut was the result of the system of marketing he had built up. There were points where the markets were glutted, while other points within shipping distance were devoid of fruit. Many efforts have been made to eliminate speculation, but the laws have been ineffective."

"I would rather do for Ontario what Sapiro has done for California, then be premier for Canada," said Hon. Mr. Doherty.

**WHISKEY SELLER FINED.**  
GALT, March 6.—For selling moonshine whiskey, A. Thomas, a local man, paid a fine of \$305 in police court this morning.

## RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.—Adv.
